Federal Front staggers

Post tepid response from TMC and BJD, KCR hopes hinge on SP, BSP

DEEPAK KUMAR JHA/ OMER FAROOQ ■ NEW

After lukewarm response to his proposed Federal Front from West Bengal Chief Minister Mamata Banerjee and her Odisha counterpart Naveen Patnaik, TRS supremo K Chandrasekhar Rao is in Delhi hoping that his proposed meeting with BSP chief Mayawati and Samajwadi Party president Akhilesh Yadav will help his effort to prop up non-BJP non-Congress alliance for the next year's Lok Sabha polls. Sources said KCR is

expected to meet Mayawati and Akhilesh on Wednesday, but so far the meetings are not confirmed. While Mayawati is in Delhi, SP sources in Lucknow said Akhilesh has not yet planned any visit to Delhi. It is interesting to watch the moves of KCR as his counterpart in Andhra Pradesh and TDP supremo N Chandrababu Naidu is also meeting Opposition leaders as part of his effort to form an anti-BJP grand alliance that will also include the Congress.

KCR is in the national

Capital to also call on Prime Minister Narendra Modi and other Union Ministers to talk about issues related to Telangana where he retained power last week.

The Congress which is spearheading an assortment of Opposition parties, includ-

ing the BSP, SP and TMC, has accused the TRS of being a BJP agent and feels that his proposed front cannot rescue the BJP as the front constituents will State specific anti-BJP alliance.

Criticising the TRS chief's efforts to forge a Federal Front of regional parties, the Congress said it is an attempt to help the BJP return to power after the next general elections. Claiming that the Chief Ministers of different States, whom KCR met would not fall for the idea of a third front, as the leaders of regional parties

would join a broad coalition with the Congress, leaving only TRS in the Federal Front.

"KCR's attempts to rope in regional parties and State Chief Ministers to be part of the Federal Front will only help the BJP," said Congress leader Rajeev Gowda.

Gowda further said the Congress would ensure that a mahagathbandhan (grand alliance) was formed with all regional, secular and progressive parties. "This federal front idea... The truth behind it is nothing but an attempt to ensure that BJP and 'Modi Sarkar' come back to power," he

alleged.

Meanwhile, reports from Hyderabad said even as KCR's mission to bring regional parties together to form a Federal Front reached New Delhi after passing through Bhuvaneshwar and Odisha, it was clear that the leaders whom he met so far have not made any direct commitment about their future course of action.

According to the sources in TRS, both Naveen and Mamata remained non-committal about the stand they would take on the formation of a front which will not involve the Congress. Significantly, Mamata did

not make any comment after meeting KCR in Kolkata on Monday. It was only KCR who promised that a concrete result of the deliberations will come

Sources said while KCR repeatedly asserted the need for all the regional parties to come together and offer an alternative to both the Congress and the BJP, the other regional leaders indicated that they would like to wait and watch till the 2019 polls were over.

"Some of the leaders want to keep their options open till after the elections and take a final decision depending on the election results," sources said.

"At the moment it appears that any third front or Federal Front will have to wait till the elections are over. At best it would be a post-poll arrange-ment, not any pre-poll alliance," said a TRS leader.

Meanwhile TRS member of Parliament Vinod Kumar said the idea of Federal Front is not new as KCR had thought about it back in 2006.

"Both NDA and UPA are seeking to rule the country on their own while KCR wants that the power should be in the hands of the regional parties to meet the aspirations of the people", he told the media. "If the regional parties had responded positively back in 2006, Telangana State would have become a reality then

Modi on Tuesday said his Government has changed the "dilly-dallying" work culture regarding implementation of development projects.

Addressing a rally here after inaugurating the country's longest rail-cum-road bridge, at Bogibeel in Assam, he said completion of projects within a given time frame is no longer confined to paper but longer confined to paper but has become a reality. "We have changed the earlier *latkane bhatkane* (dilly-dallying) work culture... Completion of projects within a time frame is no

sense," he said in a apparent dig at the previous Congressled UPA Government. If former Prime Minister Atal Bihari Vajpayee had a second term, Bogibeel bridge would have been ready by 2008-09. After his Government, no attention was paid to the project till 2014, the Prime Minister said.

Asserting that the Bogibeel bridge will strengthen the country's defence prowess with movement of vehicles and trains, he said, it is not only a bridge, it is a lifeline for crores of people in Assam and

rail distance (between Dibrugarh in Assam to Naharlagun in Arunachal Pradesh) to below 200 km from 700 km now, Modi said.

After inaugurating the bridge, the prime minister flagged off the Tinsukia-Naharlagun Intercity Express, which will run five days a week and use the 4.9-km bridge to cut down the train-travel time between Tinsukia in Assam to Naharlagun town of Arunachal Pradesh by more than 10 hours. Bank strike today over mergers, 2nd in less than a week

New Delhi: Services of Stateowned banks are expected to be impacted on Wednesday due to a nation-wide strike call given by unions to protest against the proposed amalgamation of Vijaya Bank and Dena Bank with Bank of Baroda.

This will be the second bank strike in less than a week. Last Friday (December 21), an officers' union of Staterun banks observed a day-long strike to protest against the merger and also demanded immediate settlement of wage

negotiations. Most of the banks have already informed customers about the strike. Private sector banks will continue to function as usual.

The strike is being organised by the United Forum of Bank Unions (UFBU), an umbrella organisation of nine unions, including the All India Bank Officers Confederation (AIBOC), the All India Bank Employees' Association (AIBEA), National Confederation of Bank the oath-taking ceremony. **SR** | Employees (NCBE) and the

National Organisation of Bank Workers (NOBW). The UFBU claims membership of 10 lakh officers and staffers.

According to AIBEA General Secretary C H Vekatachalam, the conciliation meeting called by Additional Chief Labour Commissioner did not lead to any assurance and so the unions are going ahead with the strike.

During the meeting, neither the Government nor the concerned banks came forward to assure that they will not go ahead with the merger,

The unions claim that the Government wants banks to grow in size by such mergers but even if all public sector banks are bundled into one, the merged entity will not find a place among the top 10 globaly. The Government in September approved the amalgamation of Bank of Baroda (BoB), Vijaya Bank and Dena Bank — the first three-way merger in the public sector

45-year-old engineer died A45-year-old engineer died after being trapped in his car when the moving vehicle caught fire in early hours of Tuesday in Greater Noida. The incident happened just half kilometre from his home. The deceased has been identified as Pavan, a native of Amba in Himachal Pradesh.

According to a senior police official, a passerby informed police regarding the incident at around 5.30 am on Tuesday following which a team rushed to the spot.

"By the time police reached the spot near the DPS Society, under Kasna police station limits, the vehicle, a Ford Ikon, was already in flames and the body was later found inside," said the senior police official.

"The man was working in a private company here. He was returning after a night shift when the incident took place," said Greater Noida 1st Circle Officer Nishank Sharma.

He said the identity of the deceased was confirmed after matching the details of regis-

tration number of the car.

"After initial investigation, it appeared that the car had caught fire and the man could not eject himself out in time. Short-circuit and problems with the blower appear to have triggered the fire but an investigation is underway," said Sharma, adding that the body has been sent for post-mortem.

"During probe it was also revealed that the deceased had sent Christmas greetings to friends and relatives in the morning, around 5 am. Everything was fine till the fire broke out accidentally," said Ramphal Tomar, Station House Officer, Kasna police station.

OVERWATERED CM waives short term loans of farmers **FEROZ SHAH KOTLA PITCH**

MPCA asks BCCI to speed-up issue

Bhopal: Madhya Pradesh Cricket Association (MPCA) on Monday lodged a complaint with the BCCI, asking the board to address the issue at the earliest.

After the Feroz Shah Kotla pitch fiasco in the Ranji Trophy match between Delhi and Madhya Pradesh, Madhya Pradesh Cricket Association (MPCA) on Monday lodged a complaint with the BCCI, asking the board to address the issue at the earliest.

BCCI's North Zone curator Sunil Chauhan overwatered the Feroz Shah Kotla pitch and then, breaching protocol, left the venue before the start of Delhi-Madhya Pradesh Ranji Trophy match on Saturday, his indiscretion leading to a delay of two and half hours, beginning in the second session despite a perfect weather.

Vikas Mishra tormented Madhya Pradesh batsmen with a six-wicket haul as Delhi thumped the visitors by nine wickets for their first victory of the ongoing Ranji Trophy season. MPCA wrote to BCCI COO Saba Karim and CEO Rahul Johri, saying that the late start resulted in loss of overs on day one and the conditions did not remain sporting, making the toss crucial. Cricbuzz quoted MPCA CEO Rohit Pandit as saying, "We want BCCI to do a thorough investigation of the incident and fix the loopholes on a priority basis."

HUMAN ELEPHANT CONFLICT IN ASSAM, BENGAL TEA GARDENS ITA holds meet to resolve crisis

ARCHANA JYOTI ■ NEW DELHI

oncerned at the increasing human-elephant conflicts (HEC) in Assam — nearly 800 lives have been trampled by wild jumbos between 2006 and 2016 - tea estate firms have come together under the umbrella of Indian Tea Association (ITA) to explore ways to mitigate the crisis in the Northeastern State and West Bengal.

In this regard, said Dr Dipankar Ghose, Director, Species and Landscapes programme, WWF-India, a first-of its kind meet was organised by the ITA in Kolkata to plan an industry- wide collaboration to address HEC faced by the tea gardens of Assam and West

ngal.
The WWF-India is impleenting 'The Sonitpur Model' in o districts of Assam in coloration with the State Forest epartment where locals are ined and equipped to form nti Depredation Squads' that drive the wild elephants ck using searchlights, fireDhulapadung and Sessa Tea

crackers and kunki elephants. Kunkis are trained elephants that can help the Anti Depredation Squad members in driving back wild elephants...

In fact, Apeejay Tea, a tea firm and WWF-India have partnered (2015-18) to implement HEC management measures in

its tea plantations in Sonitpur.
Dr Ghose said, "Through intensive conflict management strategy in the conflict prone plantations, a range of initiatives have been implemented which were found to be successful in reducing losses related to HEC in four of Apeejay Tea estates namely Borjuli, Ghoirallie, Estates Under the project, low cost

solar power fences were installed across the tea estates, a scalable bio fence, using thorny bamboo was also introduced to prevent the entry of wild elephants into vulnerable areas of the tea garden when ready. Regular village level meetings and interaction were held to create awareness on elephants and HEC manage-

"We believe that we will be able to scale up these initiatives in Assam with the ITA's participation in effectively managing HEC along with other stake-

Karan Paul, Chairman of Apeejay Tea and member of ITA who had initiated the meeting said that they were perhaps the first tea company to fund an intensive conflict management strategy in Sonitpur because four of our gardens were in the hot zone.

Vivek Goenka, ITA Chairman added,"The ITA has studied the Project Outcomes of Apeejay Tea - WWF collaboration and is sensitive to the issue. I believe that a multi-stakeholder collaboration including the Government will aid implementation of large scale interventions across the tea sector. This was our first meeting involving tea companies and we are hopeful of a collaborative approach emerging to take this forward.'

According to Government data, Assam with an elephant area (15,050 square km) is the country's prime elephant range State, having 5,719 jumbos, the highest population of wild elephants after Karnataka.

Par panel: Big religious institutions serving free meal out of GST, why?

ARCHANA JYOTI ■ NEW DELHI

A Parliamentary panel has questioned the the Government's motive to waive off the GST under its sixmonth-old 'Sewa Bhoj Yojna' for the big religious institutions serving free meal to more than 5,000 people per month while depriving the smaller ones from similar financial benefits even though "they are more likely in need of it."

The Committee headed by Rajya Sabha MP, Derek O'Brien, has recommended that the eligibility criteria of serving free food to above 5,000 people should be reconsidered by the Union Culture

The Modi Government had launched the Sewa Bhoj Yojana on June 1, 2018, exempting charitable organisations that provide free food from paying Central Goods and Services Tax (CGST)/ Integrated Goods and Services Tax (IGST) on the raw materials used. The scheme followed demand from the BJP ally, the Shiromani Akali Dal (SAD), in

religious institutions that serve commercial food outlets.

food to at least 5,000 people in a calendar month, the panel, which has submitted its report in Parliament recently said it fails to understand the reason for this eligibility criterion since smaller religious institutions are more likely to be in need of this Scheme.

Moreover, ascertaining the number of people to whom food is served by a religious institution in a month is difficult and could lead to religious institutions in actual need of the support being left out.

The Committee also felt that instead of carrying out inspection every year at least in 5% of the cases as decided under the scheme, the Government should scrutinise at least 10% of the cases. The Committee feels that

e proper utilization of funds Punjab which had sought exemption of langar from GST. is very important in the implementation of all schemes and While appreciating the this scheme could be malischeme which reimburses the ciously exploited for getting CGST/IGST for only those reimbursement of taxes by

Considering this fact, the Committee feels that the minimum inspection limit of 5% of the cases seems very low and might not have a deterring

effect on the organisations.
Introduced by the Culture Ministry, the scheme has a total outlay of ₹325 Crore for Financial Years 2018-19 and

The scheme envisages to reimburse the CGST and IGST on purchase of raw items such ghee, edible oil, atta/maida/rava/flour, rice pulses, sugar, burra/jiggery etc which go into preparation of food/Prasad/langar/bhandara offered free of cost by religious institutions. The objective of the scheme is to lessen the financial burden of such charitable religious Institutions who provide food/prasad/langar (Community Kitchen)/bhandara free of cost without any discrimination to public/devo-

The charitable religious Institutions such as temples, gurudwara, mosque, church, dharmik ashram, dargah, matth, monasteries etc. which have been in existence for at least five years before applying for financial assistance/grant and who serve free food to at least 5,000 people in a month are covered.

RaGa attacks Modi for ignoring BJP worker's question

PNS ■ NEW DELHI

Congress president Rahul Gandhi on Tuesday took a dig at Prime Minister Narendra Modi for reportedly ignoring a BJP worker's question on the middle class' struggle with the taxation policy, saying forget a Press meet, he cannot even hold a poll booth workers' conference

Rahul Gandhi was apparently referring to an incident that took place last week during Modi's interaction with "booth workers" from northern districts of Tamil Nadu and Puducherry. He also said "BJPvetted" questions is a superb idea, but the party should also "consider vetted answers".

The Congress chief cited a media report that claimed Modi faced embarrassing moments during his interaction with BJP workers from Tamil Nadu when a worker sought to know why his administration was busy collecting taxes from the middle class but not interested in taking care of

The report claimed that the prime minister during his video interaction chose not to answer the question raised by

the worker and continued with his interaction by switching to Puducherry.

Taking a jibe at the prime minister, the Congress chief tweeted: "Vanakam Puducherry! That's NoMo's answer to the struggling middle class. Forget a press conference he can't even string together a polling booth workconference.

On reports that the BJP will filter questions from workers to Prime Minister Modi following the incident, the Gandhi scion said, "BJP-vetted questions is a superb idea. Consider vetted answers as well."

The Congress president has been criticising Modi for not holding a press conference during his tenure. Earlier this month, Rahul had posted pictures from a press conference he held and tweeted saying the prime minister should try one someday as it is fun to be asked questions. Even former Prime Minister Manmohan Singh last week remarked that though he was tagged as silent PM but he was never afraid of talking to the Press and he used to conduct a media interaction every time he returned from foreign

CBI books Delhi-based kidswear retailer for cheating Union Bank

PNS ■ NEW DELHI

The CBI has booked the chief managing director of Delhibased kids-wear retailer, Catmoss Retail Pvt Ltd Ashwini Kumar Chawla, for allegedly cheating Union Bank of India of ₹20 crore. The company and its officials allegedly fabricated balance sheets to avail a loan which was not repaid to the

bank, CBI officials said. Following a complaint by the bank, the CBI has registered a case of criminal conspiracy and cheating against the company Catmoss Retail Pvt Ltd, Chawla, his wife and guarantor Asha Rani Chawala and the firm's directors Reena Chawla

and Asha Rani Chawla, they

In its complaint to the CBI, Union Bank of India alleged that the company furnished "forged and fabricated" balance sheets with an intention to cheat and cause wrongful loss to it.

"CMD of Catmoss Retail Pvt Ltd Ashwini Chawla, in pursuance of a well knitted criminal conspiracy to fraudulently avail loan facility from the complainant bank by furnishing forged and fabricated balance sheets, has committed offences like cheating, forgery, forgery for purpose of cheating and using as genuine a forged document, it said.

It is alleged that Chawla had

approached the bank in 2011 seeking a sanctioned credit limit of ₹10 crore.

The company furnished balance sheets for the financial years 2009-10 and 2010-11 to the bank which were audited by a chartered accountant.

The account was declared a non performing asset on March 31, 2013, having an outstanding of ₹10.92 crore.

The bank extracted a portion of its loan amount by auctioning some properties which

it had held as guarantee.

During the inquiry, the chartered accountant, who had purportedly signed the balance sheets, told the bank that it was not the case.

BJP under pressure as its allies deserting coalition: Pilot

that the Congress will form the Government at the Centre in 2019, Rajasthan Deputy Chief Minister Sachin Pilot claimed that the BJP is under pressure as its allies are deserting the

He alleged that the BJP's allies were quitting the NDA due to the arrogance of saffron party leaders and it was now under pressure which recently reflected in the seat-sharing

in Bihar. "Upendra Kushwaha has quit the NDA, the TDP has already left and the Shiv Sena is also not with them. Now the BJP is under pressure and therefore they gave 17 seats in **PTI** Bihar to the JD(U) which has

only two MPs. What can be a fine example of insecurity than this," Pilot said.

He said the BJP leaders used to point fingers towards the Congress by saying that the party was struggling for its survival but results of the recently held Assembly polls in Rajasthan, Madhya Pradesh and Chhattisgarh have sent out a strong message.

'This full majority Government at the Centre has become so weak that it has given nearly half of Bihar (Lok Sabha seats) to a party having just two MPs just because of the fear that people are not voting for the BJP and also its allies are daring them. This happens when the government is weak," he told PTI

Pilot said the BJP should accept the fact that it has faced a severe blow in three states and should take responsibility of the defeat.

"(BJP's) Nitin Gadkari has

already spoken that the party leadership should take the responsibility for the defeat. When the Congress had suffered defeat, the party president Rahul Gandhi had humbly accepted that but the BJP leadership is so arrogant that despite facing defeat in three states, it is unwilling to take the

responsibility," he said. Pilot said there was a swing of 12.5 per cent votes in Rajasthan and the Congress gained 99 seats in 2018 from 21 Assembly seats in 2013.

'We won 21 (Assembly) seats in 2013 and the number of seats has increased five times in 2018. Swing of votes is 12.5 per cent. BJP's vote share has decreased by 6.6 per

cent and ours increased by six per cent. It's a rare swing," he

Pilot, who is also the party's Rajasthan unit chief, said the victory of the Congress has boosted the morale of party workers and they have started preparing for the 2019 Lok Sabha polls.

"We have formed the government and along with delivering on our promises, we are focusing on the upcoming elections. Meetings in the party have already started. The party will register a thumping victory in the Lok Sabha polls and the Congress will form the

Government at the Centre," he Rajasthan has 25 Lok and got elected.

'Pappu Pass Ho Gaya'

If 2019 will be the year that defines Rahul Gandhi as a politician, 2018 will be remembered as the year he became comfortable in his skin

et us get one thing straight, it is not easy being Rahul Gandhi. To have lost your grandmother and your father to highly publicised assassinations is not something that anyone can even empathise with. But to then enter the political picture in India and immediately be portrayed as a 'Clown Prince' and a pappu (idiot) by the Opposition and doing yourself no favours by slips of the tongue (far too many) and being painted as an arrogant capo of the Lutyens mafia, must have taken a person-

al toll. It says a lot about Rahul Gandhi that he brushed aside the insults and innuendoes and even embraced his image as a pappu, with Congressmen themselves spreading 'Pappu Pass Ho Gaya' stickers on WhatsApp after the State election results a few weeks back. Of course, there is no doubt that a rejuvenated Congress is good for Indian democracy, but it should be noted that a series of missteps by the Bharatiya Janata Party and severe anti-incumbency had their roles to play in the Congress' recent electoral success. But 2019 will be a different dilemma altogether for Rahul Gandhi and a very different challenge from the one that Prime Minister Narendra Modi faces. Rahul Gandhi has to play the unifying force of a disparate group of political characters from Trinamool Congress chief Mamata Banerjee to Bahujan Samaj Party supremo Mayawati, many of whom harbour their own ambitions of becoming the Prime Minister. One thing is certain: It is becoming increasingly difficult to predict who will occupy 7, Lok Nayak Marg come end-May 2019.

Frankly, this was not predictable this time last year as Rahul Gandhi ascended to the top post of the Congress. He was back then still pappu and portrayed as someone born with a big, fat silver spoon in his mouth. But he has managed to dispel that notion through a combination of diligent work, smart electoral strategy and allowing the Congress to swallow some pride when it comes to allies. There is no doubt that some of the allegations that he has made might not stick to Narendra Modi, notably questions on the Rafale deal, but to his credit, he single-handedly made it an issue which caught the Government off-guard. Rahul Gandhi has realised that Modi and Amit Shah are politicians who can fight on the offensive but fail miserably on defensive strategy, again the Rafale deal being a case in point. The Congress and, indeed, Rahul Gandhi's strategy of painting Modi as financially, morally and ethically corrupt is working, but it might not work fast enough to defeat the BJP at the hustings. However, some of the mud is certainly sticking. With Modi disavowing intellectual talent in his Cabinet and elsewhere in the Government along with avoiding any critical media, more and more mud is sticking. This, coupled with a denial of obvious disasters like Demonetisation, makes the BJP vulnerable in 2019, not something that anyone predicted between 2014-17. Indeed, some even believed that India's version of a thousand-year Reich was upon it. But much like that Reich, this one might also be hoist by its own petard. It remains to be seen if Rahul Gandhi will be the fourth generation of his storied family to govern India. Some of the disparate alliances he might have to form are with people who either dislike him or out and out hate him. Will the recent defeats mellow down the BJP when it comes to its allies and potential partners, and will Modi realise that his first term might become his only term if he doesn't use his last 10 weeks in office before the elections are announced to do something significant that doesn't involve a temple? But 2018 has certainly seen the coming of age of pappu. Pappupedia, a pejorative website run by BJP surrogates, might indeed need an update or two, come 2019.

Out in the cold

People sleeping on Indian streets is the shameful reality we may have to live with unless we act soon

hough a tad late, winters have finally arrived and a cold wave is sweeping much parts of the country, affecting all and sundry, but discriminatorily. For the well off, these conditions may just be a matter of inconvenience. Some can win the war against cold by using room heaters, not minding the heavy electricity bills, or by adding more layers of woolens to keep themselves warm. For the poor though, extreme weather conditions always spell trouble be it harsh winters or scorching summers. There is far little comfort for the poor, who

spend most nights sleeping on rough Indian streets, pavements, abandoned drainpipes, temple staircases and what not. Not to forget, there are others, too, with unseen and untold miseries. This time round, though no cold wave deaths have been reported as yet, the sheer number of people taking refuge in shelter homes speaks volumes about homelessness. Consequences far outweigh the poor being just under the grip of cold. It's the profound effect of poverty, joblessness and declining physical and mental health that act as a potent mix for cold wave deaths.

It's not as if the situation is inevitable. In fact, it is totally avoidable but for the lack of a comprehensive strategy to tackle homelessness. Despite the sheer number of welfare schemes, only a few sections benefit actually on the ground level. Compared to other States, though Delhi has fared much better in providing rainbaseras to the homeless, it is a travesty that there are few takers, the reason being that the shelter homes with inhuman conditions have become a place for endless indignities. Besides having to do with the filthy conditions, the homeless also run the risk of falling prey to pick-pockets or becoming victims of theft from their very own peers. Worse, those among the homeless like migrant labourers, earning their bread and butter doing menial jobs like working at construction sites, also have to share the space with drug addicts and hardened criminals. The only saving grace then is that there are a few civil society groups and other people who have been doing their bit by providing them with food and woollens that thankfully reach the intended beneficiaries. While this may be the case in Delhi, the same may not be true in other States which lack in providing a roof for the homeless, even at the expense of flouting Supreme Court orders. As the cold wave now takes a toll on the toxic air we breathe, with a thicker layer of smog engulfing the atmosphere, there is little hope that we can save ourselves from the worsening situation. Until, of course, the Government, as well as the people wake up to the shameful reality and do their bit by acting responsibly.

AJOY KUMAR

he Supreme Court last week delivered its judgement on the issue of whether a probe to look into the Rafale controversy needs to be constituted or not. In its decision, the court stated that it does not think that the matter, as argued before it, requires any intervention. While I cannot speak for the petitioners in the case that was filed before the Supreme Court in this matter, the Congress has consistently maintained its stand that the appropriate forum for an examination of the issues raised against the Rafale deal is not the Supreme Court but a Joint Parliamentary Committee (JPC). In this week's article, I will briefly speak about how the Bharatiya Janata Party's (BJP) attempts to claim the decision of the top court as "clean chit" is unfounded and ill-advised.

At the outset, it is imperative to state that the apex court, while passing its order, stated clearly that its decision is from the standpoint of the exercise of jurisdiction of the Supreme Court under Article 32 of the Constitution of India. This examination by the apex court, as I am sure the Government fully knows, is limited to the extent that the court, under its Article 32 iurisdiction, cannot summon/examine all the relevant file notings, examine witnesses on oath and have the Prime Minister and Defence Minister answer questions on propriety. As stated by the Supreme Court itself, there are broadly three issues that the Supreme Court was required to examine, (1) the process of procurement of the Rafale jets from Dassault Aviation; (2) the issue of pricing of the jets; and (3) the selection of Anil Ambani as the offset partner for Dassault Aviation.

All of these issues and the allegations against the Government warrant and require a thorough examination. Only a detailed examination of the deal, as is being demanded by the Congress and increasingly by the people of the country, can help actually determine whether there was any instance of wrongdoing. Therefore, the claim of the BJP that the decision of the Supreme Court on the basis of the limited information placed before the court constitutes a clean chit from it is a little farfetched. Separately, the essential question before the BJP is whether a limited examination and an absolute clean chit can go hand in hand?

One would think it couldn't because a limited examination and an unequivocal clean chit are a contradiction in terms. The Finance Minister and industrialist Anil Ambani of course believe otherwise. judging by the statements that we have seen in the few days since the pronouncement of the decision of the court. It was fairly poetic that within a few hours of the judgement, the BJP was forced to curb its enthusiasm and answer some uncomfort-

able questions because of an especially troubling paragraph in the judgement of the apex court, which stated that as per the Centre, the pricing details, with respect to the Rafale jets, were shared with the Comptroller and Auditor General (CAG) and that the eport was examined by the Public Accounts Committee (PAC). This was a shock to the Congress as the PAC Chairman Mallikarjun Kharge received no such copy of the

In a situation, frankly approaching the absurd, the Government of India then moved an application before the Supreme Court saying that the statement of the Centre had been "misunderstood" because of a grammatical error, and stated that in fact the PAC had never actually examined this report. The convenience of the explanation aside, the relevant question that must be asked is: How much of this obfuscation the Government engaged in while presenting its arguments before the Supreme

At the end of the day, the Supreme Court only examined the questions posed by it from a limited perspective and placed reliance on the statements of the Government on face value to some extent. But now this recent 'gaffe', which appears to be a slender 'fig leaf', clearly raises questions about

the authenticity and honesty with which this Government has approached the court and placed facts before it. The Government could argue that the public should trust it to place authentic facts before the court and that its statements should be taken at face value. However, the Government's tactics of obfuscation as evidenced through its entire term

do not inspire any trust. So, in light of the limited examination of the Supreme Court and the manner in which it has been misled by the Government, the question that arises is what is the best way forward to deal with this entire episode? While this may come as a surprise to the readers, I would actually like to offer the Government a word of advice to help them get out of this mess: Sunlight is the best dis-

At the end of the day, the Government has been posed with some uncomfortable questions and, therefore, the BJP must come forward and answer these three questions and expose the present Rafale controversy to the required disinfectant of proper scrutiny: i) If there is nothing to

ii) If the new Rafale jets are indeed cheaper, why did the

hide, why not constitute a

Government only purchase 36 as opposed to the original requirement of 126?

iii) Why doesn't the Prime Minister hold a press conference and answer questions on the deal from journalists?

Of these questions, the question as to why a JPC should not be constituted, is perhaps the most pertinent. The Finance Minister's response to this question was that Parliament cannot question the judgment of the highest court of the land. This

seems like a convenient excuse. For starters, the Supreme Court itself has stated that this is only a limited examination and, therefore, there appears to be prohibition on a JPC to look into the matter in greater detail. Further, when the BJP was in the Opposition, it insisted on a JPC on the 2G case and the Bofors matter as well. Then what according to the Finance Minister makes the Rafale deal so special?

It is, therefore, apparent that if the BJP wants to get this Rafale-shaped monkey off its back, it will have to ultimately relent and allow for a thorough examination of the deal. While the Government may wish to dream away its problems or throw insults at the Opposition to discourage and dissuade these uncomfortable questions, it must be aware that at some point it will be exposed to sunlight.

Wait for the right time

Sir — This refers to the editorial, "Federal Express" (December 25). Trinamool Congress chief higher turnovers that will come Mamata Banerjee and TRS pres-

ident K Chandrasekhar Rao, the doyens of politics, have something in common. This is why they have joined hands to fight the two mainstream parties

the Congress and the BJP. The federal front, as proposed by the leaders, is soon to become a reality. Rumours are doing the rounds that other political parties, albeit minnows, too would be roped into the federal front. But how far will the regional parties succeed in their efforts would be anybody's guess. Banerjee is a local leader with a national stature. She has all the requisite charismatic leadership qualities. KCR, though a political figure who is not so alluring as Banerjee, is a man with shrewd ideas.

What is intriguing is Banerjee's hasty attempt to cobble a coalition from scratch to somehow defeat the prospects of the two national parties. So, what has kept up their sleeve will only be unfolded at the right time. Let us all keep our fingers crossed.

The Kurds betrayed again

For the Syrian Kurds, the question is: Would you rather be conquered by the Turks or by Assad? There is no third option. Dream of independence is long dead

GWYNNE DYER

The Kurds are like Kleenex. You use them, and then you throw them away. The Kurds of Syria are now frantically digging trenches around their cities and towns just south of the Turkish border, because Turkish President Recep Tayyib Erdogan said this week that US President Donald Trump gave a "positive response" to his plan for an invasion of Kurdish-controlled territory in Syria. On Wednesday, Trump confirmed it by announcing that he will pull all US troops out of Syria within 30 days. Erdogan would have invaded long ago if the US Army and Air Force were not protecting the Syrian Kurds, but at that time the US depended heavily on the Kurds in its campaign to eliminate the Islamic State. IS controlled the eastern third of Syria, and from 2015 on it was the Kurdish 'People's Protection Units' (YPG) who provided most of the ground troops for that campaign. There were some 2,000 US troops in eastern Syria too, but it was the Kurds who bore the brunt of the fighting and the casualties. Indeed, a principal role of the US forces was to deter Turkey from attacking the Kurds, because Turkey, at war with its own big Kurdish minority, strongly opposed the Syrian Kurds' ambition for independence.

But now Islamic State has been destroyed (or at least so Donald Trump believes), and the US has no further need of the Kurds. Time to throw them away. Deprived of US air support, the Syrian Kurds have little hope of resisting a Turkish invasion. As Turkish Defence Minister Hulusi Akar said: "They can dig tunnels or ditches if they want. They can go underground if they want. When the time and place come, they will be buried in their ditches." So where can the Kurds turn? Only to Damascus, where Syrian dictator Bashar al-Assad has sworn to recover "every inch" of Syrian territory from the various rebel militia forces that controlled different parts of the country. All that remains to fulfill that ambition is the recovery of Idlib province in the northwest, still held by Turkish-backed Islamist extremists - and of the Kurdish-controlled north-east of the country.

For the Syrian Kurds, reeling from the American betrayal, the urgent, unavoidable question has become: Would you rather be conquered by the Turks or by Assad? There is no third option: The dream of independence is dead. When Turkey conquered the much smaller Kurdish-majority enclave of Afrin in north-western Syria last February, almost every Kurd in the territory was driven into exile. Assad's rule is unattractive, but the Syrian Kurds have carefully avoided fighting his forces (they only fought IS), and they might be able to cut a deal that left them some local autonomy. After all, Assad doesn't want the Turks taking control of eastern Syria either. The Kurds aren't fools, and as the likelihood of an American defection grew in the course of this year they sent several delegations to Damascus to see what Assad would offer. They came back disappointed, because Assad did not want to do anything that would open the door to a federal state in Syria, and he quite rightly thought that he had the upper hand. But now that the US pull-out from eastern Syria and the Turkish invasion of the same region have both become imminent realities, he may want to think again.

This is a part of Syria rich in oil, water and wheat. Assad needs its resources to rebuild the country, and a Turkish occupation could be a long-lasting affair. It's therefore possible that he will make a deal with the Syrian Kurds to keep the region in Syrian hands. The return of the Syrian Army would be tricky to manage, since it would have to arrive in each part of the region after the Americans left (to avoid clashes) but before the Turks arrived. Moreover, the Syrian army is seriously short of manpower, and this operation would require a lot of it. All the more reason to give the YPG a continuing role in the region's security, the Kurds might argue, and it's not impossible that Assad might buy that argument provided that the Kurdish militia became (at least in theory) a part of the Syrian army. So the Russians may be right. When Trump revealed via Twitter that he was going to pull all American forces out of Syria, Russian foreign ministry spokeswoman Maria Zakharova responded that the US decision could result in "genuine, real prospects for a political settlement" in Syria. And it's true.

Turkey could be convinced (by the Russians) that letting Assad take control of Kurdish-majority parts of Syria is enough to end the alleged Kurdish 'threat' to Turkish security. Then only the single province of Idlib would remain beyond Assad's reach, and that's not really a critical issue. In fact, the fix could be in already. We'll know shortly. But no matter what, the Kurds lose again. Of course.

Terror drones: A matter of time

Following the criminal use of drone attack which created widespread disruption at the Gatwick Airport, it has now become a question of when, not if, UAVs will be used by terrorists

SPARKES

s head of Scotland Yard's Counter Terrorism Command **1** between 2011 and 2016, I looked in some depth at the threat posed by drones during the London 2012 Olympic Games. It was clear to us then that it was one of the potential scenarios we faced — for instance a Fathers 4 Justice drone coming into

A comprehensive report by the Combating Terrorism Center in the United States set out in 2016 how drones have been used in the terrorist context for a number of years, including by the Hizbullah and the Islamic State.

At the time when the report was published, I had said that this has to be one of the biggest concerns for the West, because sooner or later, terrorists will use it here. It was always a question of when,not if. But drones are a very difficult threat in a civilian context, and there is sadly no

foolproof solution.

In relation to this, many people are asking this question: Why the drone can't just be shot down? Unfortunately, it's not that straightforward. If a marksman were to shoot a drone down and its debris were to kill someone, potentially the officer could then face a manslaugh-

can catch and immobilise drones, rules to follow. hich, however, depends on being in proximity to them.

These difficulties aside, the Government should have been much more vigilant to this threat. Clearly, for example, there needs to be more effective deterrents. A five-year prison sentence for endangering aircraft or breaching the restrictions on operating drones is not enough. It should be a 20-year sentence. Those who use drones for malicious purposes need to know that they are going to be hit hard with lengthy jail

The Civil Aviation Authority (CAA) itself admitted that rules and regulations around drone use are 'evolving' but this is the state of play at the moment: Drones are classified as "unmanned aircraft." The CAA was keen to point out that they are most certainly a type of aircraft and "not toys." This, because lands man-

To get permission, you will have to show that you are "sufficiently competent". This is less clear-cut than for manned aircraft, where there is a well-established licensing procedure. aircraft within sight. This means you can't go above 400ft in altitude or further than 500 metres horizontally. If you want to exceed that limit, you'll again need to seek explicit permission from the CAA.

I also know that pilots have been asking for a five kilometre exclusion zone for drones around airports. They should have been given that.

It was too long before the drone flying above Gatwick was seen as a national major incident and treated accordingly, and it was too long before the Whitehall machine got involved. If a drone is near any critical national infrastructure, it should

be treated as a major incident. I'm surprised there wasn't a ministerial Cobra meeting within six hours. From the outset, it was clear that it would cause chaos.

Two people have been arrested in connection with the criminal use of drones which has caused widespread disruption to flights at the Gatwick Airport. Sussex Police said the people were arrested just after 10pm on the night of December 21. Superintendent James Collis of

Sussex Police said: "Our investiga-tions are still ongoing, and our activities at the airport continue to build resilience to detect and mitigate further incursions from drones by deploying a range of tactics.

We continue to urge the public, passengers and the wider community around Gatwick to be vigilant and support us by contacting us immediately if they believe they have any information that can help us in bringing those responsible to justice.
"The arrests we have made this

evening are a result of our determination to keep the public safe from harm, every line of inquiry will remain open to us until we are confident that we have mitigated further threats to the safety of passengers."

No more details about the suspects were released. Anyone with any information was asked to call and cooperate with the police.

Unfortunately, we are now likely to see 'copycat' incidents. And the ease with which a major UK aviation hub was brought to a standstill will not have escaped the attention of terrorist groups who will be wondering, Why they have not tried using drones before? Ministers who are scrambling to protect Britain against

potential "copy-cats" drone attacks fear that the chaos at Gatwick could be replicated at other transport hubs

across the country.

Whitehall sources said the authorities were "very concerned" about attempts to repeat the paralysis at Britain's second busiest airport, which saw around 140,000 passengers delayed, and were taking urgent steps to safeguard others against the threat.

Gavin Williamson, the UK Defence Secretary, who is among ministers liaising with authorities and airport chiefs, told *The Sunday* Telegraph: "The Armed Forces stand ready to assist the civilian authorities whenever they are required."

This is not just an airport issue, it is a threat issue which needs to be seen in the broadest context. There is little in place to stop these drones from being flown over Downing Street or Buckingham Palace or other highly sensitive areas. Also, they can be used to drop anything from great heights, including explosives. We saw a chaotic response to this incident because drones are a relatively a new threat and no single organisation believes that it is their responsibility to respond to the threat they pose.

When something like this happens, where hundreds of thousands of people are affected, there is a lot of serious economic damage. No one has died as a result but there is a huge amount of impact on the nation. It's a serious major incident, which was unfortunately not treated as such.

The year of a few hits and misses

The year 2018 was the most crucial for political parties as they learnt a few hard lessons. Next year, however, will see them battle for the top office. Parties need to move from the existing machinery and build a new narrative to woo voters

KALYANI SHANKAR

s 2018 comes to a close, it will be pertinent to look back and see how the year fared, politically. The year was especially important because it taught a few lessons to political parties of all shades. Until a few months back, no one expressed doubts about Prime Minister Narendra Modi coming back to power in 2019. But now, it looks like the next general election will no more be a cake-walk for the Prime Minister. More importantly, the Bharatiya Janata Party's (BJP) juggernaut was haulted during the year, at least temporarily, giving a jolt to the Modi Government and the BJP in particular.

The saffron party's defeat began with it losing the battle in Karnataka. Its deafeat in the just concluded Assembly polls in Rajasthan, May 2018, the Congress, in its bid to Chhattisgarh and Madhya Pradesh, that for long remained the ruling party's bastion, dealt a further blow, making it clear that the Prime Minister was no longer invincible. Besides, results to these three Hindi heartland States also showed that the BJP could not escape anti-incumbency even in its

Second, post the Congress' victory in these States, its electoral fortunes are said to be looking up. Congress chief Rahul Gandhi and his party received a major boost after registering impressive wins in Rajasthan, Madhya Pradesh and Chhattisgarh. Rahul Gandhi emerged as a leader in his own right. The Grand Old Party has now become the biggest party in relatively five large States — Karnataka, Punjab, Rajasthan, Chhattisgarh and Madhya Pradesh. So, the idea of a 'Congress*mukt* bharat' is no longer a reality. The Congress has also shown that it has strong regional leaders in these States.

The tide began to turn from December 2017, when the BJP won by a narrow majority in Gujarat. Then in stop the Saffron Party's surge, surprisingly backed the Janata Dal (Secular) JD(S) to form the Government in Karnataka. The efforts of the Congress proved that coalition could well be the

best bet for the Opposition. The picture of senior Opposition leaders, which included UPA chairperson Sonia Gandhi, Rahul Gandhi, former Prime Minister Deve Gowda, Bahujan Samaj Party supremo Mayawati, Trinamool Congress chief Mamata Banerjee and Rashtriya Lok Dal president Ajit Singh among others, joining hands during JDS leader HD Kumaraswamy's swearing-in ceremony, flaunting a 'show of unity', was telling. Since then, Rahul Gandhi and the once-dithering Congress, appear to be more focused and consistent. Post this development, the Opposition has been making efforts to forge a common anti-BJP front for the 2019 polls.

Third, the BJP's alliances are showing signs of strain. Most of its allies have voiced concerns about the party's 'big brother' attitude. Some even abandoned the NDA fold dur-

them all was the Telugu Desam Party's (TDS) decision to break alliance with the NDA in March. Bihar's Rashtriya Lok Samta Party, (RLSP) led by Upendra Kushwaha, was the latest one to quit. What's worse is that both leaders have now joined the Congress' ranks. What was also strange was the tie-up between the Congress and the TDP in the Assembly elections in Telangana. The two parties remained bitter rivals ever since the 1980s.

Earlier in year, the Peoples Democratic Party (PDP)-BJP experiment in Jammu & Kashmir, too, collapsed, thus proving that unnatural alliances cannot work in Indian politics for long. The BJP lost the support of Jitan Ram Manjhi's Hindustani Awam Morcha in Bihar. On top of that, the Shiv Sena has been threatening to quit the alliance in Maharashtra. Pawan Kalyan's Jana Sena also quit in Andhra Pradesh. The Congress, on the other hand, did the unthinkable by joining hands with the TDP and the JD(S).

Fourth, today, the BJP and its allies

ing the year. Most important of are ruling in seven States. This is indeed a big change from the earlier days when the Congress ruled the 'seven sisters' for long. The BJP has proved that it has become a pan national party by spreading its wings in the west, east and central India, besides having roots in Karnataka. The North-East has become Congress-mukt now.

Fifth, agrarian crisis has led to more than 3,00,000 suicides among farmers in the last 20 years. The BJP is in denial mode even after suffering electoral loses in some States. Agrarian crisis is going to be one of the biggest issues in the 2019 polls. The party should have taken note of it when 30,000 farmers came knocking at the doors of the national capital in October-November. Few of their demands included unconditional loan waiver, implementation of the recommendations of the MS Swminathan Commission, et al - a demand ignored by successive Governments. The Opposition as well as the ruling dispensation will have to come up with a new narrative. Farm loan waivers are not an answer to their problems. More

innovative solutions are needed. Sixth, the issue of demonetisation

and Goods and Services Tax (GST), too, needs to be addressed. It is clear that the former hit the people hard. Even two years after demonetisation, the informal and agricultural sectors are suffering. Demonetisation also resulted in job losses and a decrease in labour

force participation rate. Seventh, Mayawati cannot be ignored politically. The year 2019 will see more and more parties running

after her for alliance. Eighth, national parties have not been able to defeat regional satraps, as was proved by the Telangana Rashtra Samithi (TRS) chief K Chandrashekhar Rao. Also, the BJP has not been able to expand its base in the south. The year 2019 will show how much the political parties will address the lessons learnt in 2018. It will be visible in the poll results but both the NDA and the UPA need to move from the existing machinery and build a new narrative

to woo the voters. (The writer is a senior political commentator)

Bengaluru: Karnataka Chief murders in the past before he Minister H D Kumaraswamy has got embroiled in a controversy after a purported video, showing him ordering a police official to "shoot mercilessly" those who killed a JD(S) worker in Mandya, went viral

BJP must clear stand over remarks on Hanuman: Seer

PTI ■ MATHURA

wami Adhokshjanand Deo Tirth Tuesday said Uttar Pradesh Chief Minister Yogi Adityanath and other leaders have vitiated the atmosphere in the country by linking Lord Hanuman to various castes and communities.

He demanded that Prime Minister Narendra Modi and other top leaders of the BJP should clear the party's stand and bar party functionaries from disrespectful remarks about gods and goddesses.

The seer's reaction came after Uttar Pradesh Religious Affair Minister Laxmi Narayan Chaudhary dubbed Lord Hanuman as a Jat, saying like Jats, the deity never tolerated injustice towards anybody, any-

The minister made the remark Friday after a Bharatiya Janata Party Memeber of Legislative Council (MLA) from the state, Bukkal Nawab, dubbed Lord Hanuman a Muslim on the ground that his name rhymed with Islamic names like Rahman, Arman, Qurban etc.

During an election rally in Rajasthan, Adityanath had termed the deity a Dalit.

"On one side the BJP, from time to time, has been bringing up the Ram temple issue and on the other, its leaders are making absurd remarks on Hindu gods and goddesses, hurting religious sentiments," Shankaracharya Adhokshajanand Deo Tirth said here.

"The Ram temple in Ayodhya will be incomplete without Lord Hanuman as Ram had himself praised Hanumanji calling him like his brother Bharat," he said.

If the remark made by Nawab has the BJP high-command's approval, "then the party will have to get a mosque constructed for Lord Hanuman", the seer said.

Vandals attack church in Kolhapur; 12 hurt

Tn a shocking incident that took I place two days ahead of Christmas, at least 12 worshippers were injured, when a group of vandals attacked them during a Sunday mass with beer bottles, hockey sticks and choppers at a Church at Kowad in Chandwad taluka of Kolhapur district in western Maharashtra.

Reports reaching the State headquarters said on Tuesday some "15 to 20" unidentified attackers, who arrived at the New Life Fellowship Church at Chandwad in motorbikes when the mass was on there on Sunday, first hurled stones and beer bottles at the church for 20 to 30 minutes and later barged inside the place of worship.

There were in all 40 worshippers inside the church when the incident took place at around 11.30 - nearly half an hour after the start of Sunday

The attackers, who had covered their faces to avoid being identified, smashed the heads of the worshippers with empty beer bottles and also hit them with hockey sticks, injuring at least a dozen of them. Most of the injured were mostly those who had formed a protection ring around a majority of worshippers soon after the vandals barged inside the church.

The Kolhapur police said that the injured were admitted to a private hospital at Belagavi in the neighbouring Karnataka, where eight were treated and discharged and the condition of the remaining four was

injured are undergoing treatment in Intensive Care Unit (ICU).

Till Tuesday evening, the Kolhapur police had not made any arrests in connection with the attack on the church and worshippers. The investigations have revealed that the attackers might have fled to neighbouring Belagavi city in Karnataka. "Our investigations have revealed that after the church incident, the same group of goons attacked people in Talguli and Dindalkop villages on their way to Belagavi," a senior police officer said on Tuesday.

The police have launched a manhunt for the vandals by forming four teams. "We have not arrested any one so far," the police officer said.

Meanwhile, the police have registered offences against the unknown persons under sections 143 (punishment for unlawful assembly), 146, 147 (rioting) 148 (Rioting, armed with deadly weapons, 295 (injuring or defiling place of worship with intent to insult the religion of any class), 323 (punishment for voluntarily causing hurt), 427 (Mischief) and 452 (House trespass after preparation for hurt, assault or wrongful confinement).

Though the motive behind the attack has not been established, the investigators suspect that right-wing activists might have been the attack. "All the same, we are not ruling out anything, including the involvement of right-wing activists. We are looking at all angles," a senior police

Prime Minister Narendra Modi Tuesday inaugurated the 4.9 km long bridge at Bogibeel across Brahmaputra river, built at a cost of Rs 5,900 crore. The foundation stone for the project was laid by Gowda when he was the prime minister in 1997.

"Aiyo Rama! Who will remember me? Some newspapers might have mentioned about it"

"Railway line to Kashmir, Delhi Metro and Bogibeel rail road bridge were among the projects I had sanctioned (as prime minister). I had sanctioned the budget of Rs 100 crore for each of these projects and laid their foundation stones. People have forgotten today," Gowda said.

Replying to a question from reporters on the sidelines of a function here as to how he felt about the inauguration of the project started by him, the former prime minister said he had given the nod for many projects.

To a question whether he received an invitation, Gowda quipped, "Aiyo Rama! Who will remember me? Some newspapers might have mentioned about it."

On the enormous delay in completing the project, he said, "That is where I differ. I comleted the Hassan-Mysuru project in 13 months. completed two bridges on time. Anagwadi bridge (across Ghataprabha). Go and see the bridge on Krishna river.

▼ndian Naval Hospital Ship, INHS Sandhani was on Monday commissioned at Naval Station Karanja at Uran in Raigad district at the hands of Vice Admiral Girish Luthra, Flag-Officer Commanding-in-Chief, Western Naval Command.

Surgeon Vice Admiral Anup Banerji, DGMS (Navy) delivered the welcome address and Mrs. Preeti Luthra,

President NWWA, Western Region, unveiled the commissioning plaque of the hospital. The Commissioning Warrant was read by the first Commanding Officer of the hospital, Surgeon Captain HBS

With the steady expansion of Naval Station Karanja, over the last few decades, a need for a dedicated multi-specialty hospital was felt, in order to provide quality healthcare to more than 8,000 naval personnel and

their dependents, who reside at the Karanja naval station.

The commissioning of this 30-bedded hospital, with a team of specialists in the fields of Medicine, Surgery, Gynecology, Pediatrics, Anesthesia and Dental Sciences; will not only improve the quality and speed of healthcare delivery, but also obviate the need for patients, including those with critical ailments and emergency cases, to travel by sea to Mumbai.

'Let's Go To Villages' is DMK's new Song of Solomon

KUMAR CHELLAPPAN ■

Song of Solomon (7:11) with Slight change is going to be the theme of the campaign of the DMK for the upcoming Lok Sabha elections. The song "Come, my beloved, let us go the countryside .." has been slightly altered to suit the changed situation. "Let us go to the people, Let us speak to the people, Let us win the hearts of the people" would be party chief Stalin's theme song of the campaign for DMK's 2019 Lok Sabha election. the Lok Sabha polls, the DMK would launch the massive outreach programme on January 3, 2019 from Thiruvarur, the home constituency of late M Karunanidhi, the party's former president who breathed his last in August his year. The assembly election

2016 has seen Stalin, who was the then working president of the party leading "We For Ourselves" campaign in which he interacted with people in all the 234 assembly constituencies in Tamil Nadu. Though the DMK could not unseat the ruling AIADMK from power, the party put up a spirited fight and won 89 seats. Stalin plans to relaunch

the outreach programme from where he left it in 2016. But This was announced by M this time, party leaders too would chip in because it is difficult for the partry leader himself to attend the Grama Sabha like meetings planned in all the 12,617 panchayaths in the State.

Wednesday evening will see people in the three southern States of Kerala, Karnataka and Tamil Nadu lighting millions of lamps (Ayyappa Jyothi) as a mark of solidarity with the devotees of Lord Ayyappa who are engaged in a battle of nerves with the Government of Kerala over the entry of women in the child bearing age to the holy shrine of Sabarimala.

A Constitution Bench of the Supreme Court had ruled on September 28 that women of all ages should be allowed to worship at the Lord Ayyappa Temple at Sabarimala atop the Western Ghats in Kerala. The devotees of Lord Ayyappa are upset over the verdict and had requested women devotees in the 10 to 50 age group not to make it to the temple.

But the CPI-M led Kerala Government, in its anxiety to implement the court order has made elaborate security arrangements for facilitating the entry of women to the temple, where women had been denied entry as per age old tra-

"This Ayyappa Jyothi is an effort to lead Kerala to a world of light. There is an attempt to destroy the plurality and diversity of the temples in Kerala and the Ayyapa Jyothi is an attempt to expose this mission as well as an offering to the God with a prayer to inculcate good thoughts in the mind of the powers that be," said Swamy Chidanandapuri, head, Advaitha Ashram and the chief patron of the Sabarimala Karma Samithi.

He pointed out that it was for the Acharya Dharma Sabha, Thantric, Vedic and Astrological scholars to study the need to make changes in the Agama Saasthras and take a final decision. "Why only one religion has been singled out by the authorities in the name of reformation while they are

reluctant to make any comment on the goings on in other religions? That is not fair and it is against secularism," said the Swamiji, described as spiritual leader of the Hindus in the State. Govind Bharathan, senior

lawyer, Kerala High Court and one of the prominent faces of

Memo No.9714-21 Dt. 24-12-2018

described the Ayyappa Jyothi as a unique event. "Besices the 795 km stretch from Mangalore in Karnataka to Kanyakumari in Tamil Nadu, many districts in these three States will light up Ayyappa Jyothi. We will recite "Swamy Saranam" while doing so and there will be no speeches or slogans," said Bharathan.

He said that not a single woman devotee had come to Sabarimala on their own till Tuesday evening. "Those women who came to Sabarimala were all activists who had declared that they were undertaking the trip only to shatter the convention and tradition. They were all selfproclaimed atheists and nonbelievers," said Bharathan. Wedneday will see the 41st day of this year's festival and the Ayyappa Jyothi is expected to add splendour to it.

Swamy Chidanandapuri lambasted the efforts by a section of the society to portray

Sabarimala Karma Samithi the denial of rights to women for worshipping at Sabarimala as part of casteism. "According to custom and tradition in vogue in Sabarimala, women are not allowed here. Please understand that this is the only holy shrine situated deep inside a forest and there are scientific reasons behind this

custom," said Swamiji. "There are many Supreme Court verdicts which were delivered earlier to the Sabarimala case. But the Kerala Government's anxiety to implement this particular verdict is dubious," said Prayar Gopalakrishnan, Congress leader and former president of Travancore Devaswam Board.

Meanwhile, the CPI-M led Government is working overtime to make the proposed Women's Wall on January 1 a major success. Hectic activities are on to light up Ayyappa Jyothi in temples across Chennai, according to K Asokan and Pravin Pillai, devotees and activists.

Hospitals in West run by public donations: Jaitley

 $H_{universities}^{ospitals}$ and other institutions in developed countries receive large endowments due to factors like inheritance tax, which is not the case in India, Finance Minister Arun Jaitley said on Tuesday.

'So I was analysing that why that condition doesn't exist in our country. And one of the reasons I found out was that those societies have very large inheritance tax. Therefore a lot of people in their old age prefer to go for charitable donations in order to get around that inheritance tax. Since we don't have that inheritance tax in India, our charities are not in terms of such endowments," he said.

The finance minister said charities in India depend on social endowments.

"To promote ease of doing business for MSEs, NTPC Chairman Gurdeep Singh has proposed a single window registration for MSEs across a senior company official told PTI.

As against the government mandate for minimum 25 per cent procurement from MSEs, NTPC has achieved 36 per cent procurement from MSEs in the current fiscal till November 2018, the official added.

Charges for an underreporting allegation in more recent years are pending, and no trial date has been set.

Ghosn will be detained until January 1 or longer since he also faces breach of trust allegations.

Prosecutors say Ghosn and Kelly are flight risks. After his release, Kelly will have to follow rules set by the court, including those regarding his residence and travel, prosecutors have said.

The arrests of Ghosn, who is an auto industry icon, and his right-hand man have triggered international attention and raised concerns about the

Ghosn's downfall is seen by some as a maneuver by others at Nissan to gain power in the alliance.

Kelly's wife, Donna, had made a plea to the Japanese authorities for her husbands early release in a video message carried Tuesday by Japanese public broadcaster NHK and others. She said that her husband was "framed" by Nissan and that he also should be released to get his neck problem treated.

43 killed in Kabul Govt compound attack

An hours-long gun and sui-cide attack on a Kabul government compound killed at least 43 people, the health ministry said on Tuesday, making it one of the deadliest assaults on the Afghan capital this year.

No militant group has claimed responsibility for the raid, which caps a bloody year for Afghanistan as long-suffering civilians and security forces are slaughtered in record numbers.

Another 10 people were wounded in Monday's massacre on a site where the Ministry of Public Works and an office that handles pensions and benefits for war veterans are located, spokesman Waheed Majroh said.

Gunmen stormed the compound mid-afternoon after detonating a car bomb at the entrance, sending terrified government workers running for their lives. Some jumped from windows several floors high to escape the militants.

Hundreds more were trapped inside buildings for hours as heavily armed security forces swarmed the area, engaging the attackers in a fierce gun battle punctuated by multiple explosions.

At least four militants, including the suicide bomber, were killed and more than 350 people freed, officials said. Most of the dead and wounded were civilians, who have borne the brunt of the 17-year

least 55 people.

President Ashraf Ghani, whose government has been skewered over its security failures, said "terrorists attack civilian targets to hide their defeat on the battleground".

Afghanistan's de facto prime minister Abdullah Abdullah also sounded a defiant note as he blamed the Taliban for the attack.

"Every attack they carry out against our people, our resolve is further strengthened to eliminate them," he said.

But their statements belie the grim reality on the battlefield where the Taliban have the upper hand.

Afghanistan's largest militant group has made significant territorial gains this year as its fighters inflict record casualties on government forces.

The raid followed a tumultuous few days in Afghanistan where officials are reeling from US President Donald Trump's plan to slash troop numbers, which many fear could harm efforts to end the conflict with

the Taliban.

It also comes after a major security shake-up in Kabul that has placed staunch anti-Taliban and Pakistan veterans in charge of the police and military. While there has been no official announcement of a US drawdown, the mere suggestion of the United States reducing its military presence has rattled the Afghan capital and potentially undermined peace

General Scott Miller, the top US and NATO commander in Afghanistan, said Sunday he had not received orders to pull forces out of the country.

Trump's decision appar ently came Tuesday as US peace envoy Zalmay Khalilzad met with the Taliban in Abu Dhabi, part of efforts to bring the militants to the negotiating table with Kabul.

Many Afghans are worried that Ghani's fragile unity government would collapse if US troops pulled out, enabling the Taliban to sweep back into power and potentially sparking another bloody civil war.

An icon of Christmas cheer went dark, some parks close

The lights were not twinkling. **1** The toy trains were not whirring. Even the nearby bathrooms were locked.

The national Christmas tree, symbol of a country's seasonal cheer, instead stood as an icon of a government in paralysis, as the partial shutdown stretched into the holiday with an array of federal services frozen, some 800,000 public servants either idled or about to be and the disruption to the broader public bound to grow when the quiet spell ends later

Already facilities at many national parks were shuttered, if the parks were accessible at all, and thousands of federal buildings were to remain closed when the work week resumed unless President Donald Trump and members of Congress quickly break through a budget impasse that the White House said could drag on into 2019.

Under cloudy skies in a brisk wind on the third day of the shutdown, the capital put on little holiday wonder for visitors like Greg Forcherio of Park Foundation, a charity.

'Jadeja was fit when selected for Aus Tests'

PTI ■ MELBOURNE

Chairman of selectors MSK Prasad on Tuesday made it clear that his committee picked Ravindra Jadeja for the Test series based on the fitness report where he was declared absolutely fit.

Jadeja, who had a shoulder stiffness couldn't feature in the second Test in Perth and coach Ravi Shastri told the mediapersons that the player was car-

rying the niggle from India. Prasad however wanted to set the record straight on the eve of the Boxing Day Test, which will feature the Saurashtra all-rounder.

"On the eve of any selection meeting, the selection committee is given a fitness report of all the players. In that report, Jadeja was absolutely fit. So we picked him. After we picked him, he went and played Ranji Trophy also, where he bowled 60 overs. So there is no question of him being unfit at the time of selection (for Australia)," Prasad said.

"Whenever a health issue comes up, we have a group in which it is being placed. All that is looked after by the physio and they have very clearly given it in the statement," he said.

On a different note, Prasad said that Mahendra

Singh Dhoni's return in the T20 squad for New Zealand tour was on expected lines as he was only rested for the six T20 Internationals against West Indies and Australia.

"With regard to MS, even while resting also, we categorically told that he was going to be rested for those six matches so that we can give more game-time to Dinesh Karthik and Rishabh Pant. That is the very reason. Now they have played quite a few matches, so we thought that we should bring back MS into the squad," Prasad reasoned, even though it is clear that Dhoni won't be part of 2020 World T20 in Australia.

Prasad said the decision to drop Rishabh Pant from the ODIs against Australia and New Zealand was to keep him fresh for bigger battles ahead. He assured that the young keeper is still in scheme of things for the

2019 World Cup.
"With regards to Rishabh, given the intensity of this series that we are playing right now, so after this series, we want to keep him fresh. Give him a break and he will have a very good game-time of five matches against the visiting England Lions. Definitely a part of our World Cup plans (sic)," Prasad said.

IRAN HELD TO 1-1 DRAW BY PALESTINE

TEHRAN: Iran's national football team conceded a last-minute equalizer as the team drew 1-1 with Palestine in a friendly match. Iran striker Mehdi Taremi was on target five minutes into the second half but Jonathan Cantillana levelled the match in the injury time. The friendly match was held at the Abdullah bin Khalifa Stadium in Doha, Qatar as part of the preparation for the 2019 AFC Asian Cup. Iran will also meet Qatar on December 31 before travelling to the UAE for the Asian Cup. Iran has been drawn with Yemen, Iraq and Vietnam in Group D. They will start their campaign with a match against Yemen on January 7 at the Mohammed bin Zayed Stadium, Abu Dhabi. The 2019 AFC Asian Cup will be held in the United Arab Emirates from January 5 to February 1.

ROJAS SIGNS OLIMPIA CONTRACT

ASUNCION: Olimpia, this year's two-time Paraguayan football champion, has announced the signing of forward Rodrigo Rojas, who until now had played for Cerro Porteño but who returns to the club where he got his start and with which he will contend for the Copa Libertadores title in 2019. "Rodrigo Rojas has already signed and is once again with the Expreso. Welcome once again to the King of Copas, 'Rorro'!" the Asuncion club posted on its website on Sunday night. Rojas, 30, thus leaves Cerro Porteño, Olimpia's biggest rival and where he has played since January 2015, reports Efe news. After that, he did stints at Chile's O'Higgins and Universidad de Chile before landing at Cerro Porteño. His return to Olimpia has been among the plans of the club's management for the new season after the success last year, when the team triumphed in both the Apertura and Clausura tourneys.

SHIPULIN QUITS BIATHLON AMID PROBE

Moscow: Russian biathlon star Anton Shipulin on Tuesday announced he had lost "motivation" and would retire from the sport, weeks after Austrian prosecutors announced a doping probe into his team. Shipulin has always rejected claims against him but he and other top sports stars were barred from the Winter Olympics this year as part of a ban on Russia for state-sponsored doping. "This race will be the last of my career," the 31-year-old said of a competition in Germany's Gelsenkirchen on December 29, according to Russian news agencies. "There's no sense in carrying on torturing myself, my fans and my loved ones. I can't find in myself the motivation that I need," he told a press conference in Moscow.

heir patchy performance has stuck out like a sore thumb during the first two Tests and skipper Virat urged his batsmen to complement the superb effort of his bowling unit in the upcoming Boxing Day Test.
While Kohli gave a batting masterclass

on a challenging track in Perth, Cheteshwar Pujara had played a decisive role in team's win in Adelaide but other batsmen have not contributed much unlike bowlers, who have picked 40 wickets in four innings. "It is very important for batsmen to

stand up, because as everyone can see, our

bowling has been performing really well. Otherwise, the bowlers won't be able to do anything with the totals that we have been compiling," skipper Kohli said on the eve of the third Test. "If we are batting second, we will try to take the lead or get as close to the opposition total as possible. If you equal a big score,

then it becomes a second-innings' match and if you take a good first-innings lead, then you can capitalize on that.

The batsmen must step up collectively. I won't say individually whether some-

one needs to do that or not, but as a batting

unit, we have to definitely put up a better performance," Kohli sent out a loud and clear message for his batting unit.

The Indian captain made it clear that neither his team's Adelaide victory nor the Perth defeat will have any bearing when Melbourne Test starts.

"As a team, I don't think whether you are 2-0 up or 2-0 down or 1-1, what's hap-

pened in the past has no significance at all to what's going to happen in the next two Tests or what's going to happen in the next Test which is quite immediate."The key is to stay in the moment, stay in the present, understand and remember why you won the first Test, which was because of us being in the present moment," the skipper reiterated what he has often stressed.

Vihari would get adequate chance in middle order: Prasad

PTI ■ MELBOURNE

Tanuma Vihari's role as an opener His a stop-gap one and he will be given enough opportunities in his preferred middle-order spot should he fail at the top, assured chairman of selectors MSK Prasad.

When asked if the new role is unfair on Vihari, who has only played two Tests so far, and doesn't regularly open in domestic first-class cricket, Prasad said:"He would be given a fair chance in the middle order should he fail to make an impression as an opener in the next two Tests."

Having watched Vihari closely when he played domestic cricket for Andhra, Prasad feels that he has the game to face the new kookaburra.

"It's fine. Technically, we feel that Vihari is well-equipped. There were times where Cheteshwar Pujara also opened when the team required. The team demands it and definitely I hope he will come out successful. Definitely it is not a long-term solution, I can tell you that," Prasad assured.

Vihari opening the innings at the MCG is a sort of deja vu for Prasad, who

was given the same role during the disastrous 1999 series where he found Brett Lee's pace too hot to handle.

Prasad feels that Vihari unlike him should see this chance as an opportu-

"I always feel that it (opening against Aus in 1999) was an opportunity given to me which I didn't really lived up to. We think Vihari is wellequipped to do so (than Rohit Sharma). We are convinced with his technique and definitely he is a long-term prospect for Indian Test cricket.

 $B^{\text{uoyed by team's compre-}}_{\text{hensive victory in the second}}$ Test, a cautious Australian skipper Tim Paine believes that his inexperienced side has the potential to get ahead of India but is still a work in progress.

"I don't feel like we are on top of them. We feel like we are getting better with every Test," Paine said on the eve of the Boxing Day Test. We are improving with

every game but we need to keep stacking up good days and play good Test cricket. If we can do that for the next 4-5 days I think we will be in the thick of it again," Paine said.

"Certainly when you have an inexperienced team and you get a big win like in Perth against the number one team in the world, guys are going to grow in confidence a little bit and come to Melbourne feeling better than when we did to Perth," the skipper ber of weeks now. We have been pre-

India have made three changes for the Boxing Day Test but Paine is not bothered about changes in opposition rank.

"India's changes don't really bother us because we have done our homework on all of their players for a num-

pared for all of them to play. What they do is their business, and we will keep focussing on what we are doing," Paine said. As is the norm, Australia

named their playing eleven with Mitchell Marsh coming in the side replacing Peter Handscomb. Paine said that the change

to do with bowling and it would help out their fourbowler attack, before adding that Handscomb could be back for the Sydney Test. "We did it last year during

the Ashes as well and majority of this decision is based on the fact that it will be hot and the bowlers have had a big role play. We think Mitch can come in and do a good job with the bat and will be a

great support for our bowlers as well. "Peter knows that there are things we would like him to improve. Going into Sydney, where it spins, I think he will come back into it quickly because he is our best player of spin."

statement made 2,500 years ago stands relevant even today. More so, for the start-up ecosystem that goes hand in hand with dynamism, agility, and innovation. With every year that passes, it witnesses the influx of cutting-edge technologies and ingenious approaches that solve long-standing market challenges. And in the due process, change the market entirely.

However, it is important to note that this change is primarily driven by the building blocks of the startup ecosystem, for example: The industry professionals.If you are one of them, or are planning to become one, here are some of the hiring trends of 2018 that you surely must know:

■Blockchain eco-system

Blockchain technology has proven itself to be a game-changer for an array of industry applications. Just before 2018, India revealed its own plan to develop a blockchain network called IndiaChain which will be interlinked with IndiaStack and help in

■Artificial Intelligence

Another area of focus during this year has been Artificial Intelligence (AI). Startups are typically known to have a very lean team which has to manage across-the-board operations. AI is now enabling them to streamline these operations through process automation while also extending deeper insights within their area of deployment.

The technology, at the

time, also eliminates human errors, omissions, and negligence. Given these advantages, the adoption of technology, and so, the recruitment of related talents, was quite high during 2018.

Digital technologies, though adding tangible value to the broader ecosystem, also come with their own downsides. Cyber attacks have been mounting on India for quite some time now — which grew from 49,000 in 2015 to 50,000 in 2016 and 53,000 in 2017 (according to CERT-

In) — and were expected to reach 58,300 in 2018. Start-ups, as they are mostly based on digital technologies, have adopted a prudential approach and started recruiting cyber security talent apart from leveraging MSPs (Managed Service Providers). Cyber security challenges are also being addressed right from the ground up with startups adopting DevSecOps instead of the typical DevOps.

■Information Technology

At present, India is facing acute skill shortage with more than 140,000 jobs being vacant within the IT industry. This is despite fresh graduates constantly entering the job market every year. The situation is expected to further worsen in the future as more than 1.4 million new IT jobs will be created by 2027 (Cisco and IDC report).

Forward-looking start-ups are low trying to tackle the situation by collaborating with different educational institutions. They are helping shape the curriculum of various institutions as per market-facing applications and future needs. It is also enabling them to recruit candidates who can deliver and solve market challenges.

These have been some of the most prominent trends that were witnessed during 2018. It will be interesting to see how the grand scheme of things change in the year about to come. But now, it time to prepare for its arrival and revel in festivities!

Online education in India is estimated to be a \$1.96 billion industry by 2021. KSHITIJ JAIN shares online education trends that are mostly likely to dominate in the coming year

ONLIN **EDUCATION** TRENDS

nline education, that was once considered humble cousin of mainstream education, has witnessed an upward swing in the last few years. The change has been brought in not only by various technological innovations but by innovative newage content and curriculum that online education providers offer to the learners. The industry in India is estimated to be a \$1.96 billion industry by 2021, according to a research conducted by KPMG, with insights from Google search. According to the report, the paid user base is likely to grow six-fold — from 1.6 million users in 2016 to 9.6 million users in 2021.

Increased penetration of internet and smart phones, factors such as convenience, increased reach and personalised content offered by online education providers have led to the growth and expansion of online education market to tier-II and tier-III cities. Online education modules today allows distant learners to join in virtual lectures, pose questions to professors, chat with fellow stu-dents and take virtual exams. Most of the programmes are careerfocused helping students to chalk a career path and set goals. Here are some trends that are likely to dominate online education.

Emergence of cloud computing: According to Technavio analysts, emergence of cloud computing will be one of the major trends that we will witness in the coming year. The cloud computing technology enables online education providers to save significant

amount of content and data on a single platform. This makes it easier for users and providers to process, obtain, access and manage information from anywhere at any time.

Focus on future-ready career **skills:** With a changing world, the online educational institutions are trying to keep a balance between learning and skills required by enterprises and industry. They are offering new courses which help students become well equipped for the jobs of tomorrow. In 2019, we are likely to witness launch of more such courses and career pro-

Many institutions are offering online degrees in specialised areas like AI, IoT, business management, data science and digital marketing. These courses have been designed to equip the students with skills that are likely to dominate in the years to come.

Game learning: The trend is likely to catch up as it makes the learning process more interesting and effective. Game learning techniques ensure higher level of involvement and interaction from students offers them emportunity. students, offers them opportunity to experiment and introduce new technological innovations. The modern business envi-

ronment is becoming complex every day. With the help of game techniques, it is easier to explain these. During the interactive sessions, participants make decisions, develop strategies, immediately observing their influence on the financial position of the company.

Project-based learning: This

allows students to

demonstrate skills by developing apps and product. Many a time, it requires constant instructor feedback and multiple attempts if a student fails to meet the criteria. Elearning providers have witnessed a 25-30 per cent jump in companies opting for blended model over 100 per cent e-learning courses. The model facilitates discussions and collaborative learning, offers flexibility to learners has better completion rate.

İncrease in interest in AR and VR: Though AR and VR are yet to reach their full potential in online learning, these technologies are expected to have a impact. Engagement, that has been one of

many e-learning platforms, can be increased using these technologies. Use of AR and VR in online learning platforms have shown significant increase in engagement and improved results.

Adapting existing content: Not everyone can incorporate the latest technologies into their learning processes. In most cases, users are only looking for information that is important. Therefore, online educational institutions should review their existing study material, in terms of how useful, relevant and detailed the information is. They must be prepared for constant changes.
In 2019, training will become

more specific and personalised. The online courses will need to play a key role in creating a roadmap that leads from basic knowledge to expertise in the shortest possible time. The focus will remain on people who want to learn about specific skills and not waste time learning about everything. The decisive factor will depend on the person's motivation to regularly devote time to self-edu-

'Tech help for specially-able'

Learning is for everyone and lack of infrastructure should not be a barrier. Technology can help specially-abled students to compliment classroom learning, says RAJSHEKHAR RATREY

round six lakh children with special needs, between the ages of 6 to 13 are out of school. This isn't just a statistic, this is the result of an ancient assumption that still operates in the classroom; one approach fits all. Our infrastructure can't facilitate the alloca-tion of specialised teachers to every class. This has led such students to question their ability to learn in such an environment. But learning is for everyone and infrastructure should not be a barrier. That's where technology can be used to compliment classroom learning.

Select the pace and space: In a class-room of 60, it's hard for students with special needs to understand every concept. They may take time to learn, depending on their grasping power. Before they can start to break the concept down, the teacher has already moved on to the next one. Every student's pace is different and technology provides for that uniqueness. Video lectures give students the power to pause a lecture, rewind it or even select the speed of the explanation. With elearning apps available on any mobile device, students can choose to study in an environment that suits them best.

Adaptive learning: Adaptive learning, a feature that is transforming the way students learn, is embedded in most e-learning platforms. This can help speciallyabled students, teachers and parents understand how much they have grasped. They are given a question, depending on their answer, they will be given another question of either a higher difficulty level or a lower difficulty level. The practice questions adapt to the student's ability. This ensures constant assessment. This ensures there are no gaps in the student's understanding.

Interactive and quality content: Technology has opened the doors to quality content and teachers. With a simple video conferencing, children can learn from experts, anywhere in the world. Edtech has bought content designed for specially-abled students to smartphones and computers. The use of animation in videos have made lectures interactive, rather than just instructive. Children can actually play with objects in 3D and see

Help 24x7: Doubts are very bothersome and students need someone to solve them instantly. It becomes difficult for children with special needs to raise a doubt in front of people. Ed-tech is bringing them support around the clock! Students can ask their doubts on a chat platform and experts in that subject, will patiently explain the concept, until it's grasped. To make it easier for the students, they don't even have to type, they can simply send a picture! Now help is just a click away.

Better engagement with gamification: It can be challenging for a teacher to keep all the students engaged. It's especially difficult to engage students with ADHD or other conditions. Gamification is making this task easier with badges, leaderboards and experience points.

Each time students complete a set of tasks, they are rewarded a badge for their performance, speed, accuracy, consistency and other factors. This is even making learning fun, increasing participation from students with a short attention span. Thus, leading to better engagement and

t is an indispensible truth that: This life is yours. Take the power to choose what you want to do and do it well. Isn't it a beautiful feeling to know that you have the power to create the life of your dreams? The world is waiting for your gift.

All of us have the nascent powerhouses burning inside us just waiting to be unleashed. We already have that inner strength. Unfortunately, a lot of people are not activating it because they are living with a victim mentality. This "poor-me" attitude encourages the abandonment of responsibility. It feeds off of the deceitful belief that no one has control over their own

However, the only way

that you can move forward is if you commit to stepping out of the victim role. The right way to claim your inner power is to take responsibility for everything

The outside world does not dictate your inner world. You are the hero of your life which means that you need to take ownership of it. When something doesn't go your way, step back and ask yourself what role you played in the final outcome.

Did you know that you give your power away every time you negatively react to someone or something? You created your reality which means that you are the only person that has the power to change it. Instead of feeling sorry for yourself, trust that life is always happening for you.

Ways to unleash the power houses

Make an effort to align with your inner achieved by Yoga & Meditation. Never forget that you are powerful beyond measure. When you allow your light to shine you give others the permission to do the same. It's time to claim your power!

Know what you want: Having direction and clarity of mind will help you move forward with confidence. If you row the boat in direction of the winds, the sail will be

smoother & faster.

Discover your strengths: As with any venture, it is best to work from a solid Think of your conf table top that is supported by four legs. Each leg needs to be solidly planted to support the table top. What are your strengths? What are you good at? Maintain your focus on what you are good at, not on what you perceive to be your shortcomings.

Eliminate the what-ifs: This type of thinking is equivalent to getting under that table top and shaking a leg or two. It will

destabilize your beliefs, introduce doubt into your thinking, and shake your foundation. Any time you start to think what-if, change your thinking to I will.

Forget about being perfect: So often people don't pursue things because they feel it has to be just right. They ruminate over how to approach things, conduct themselves, or say something to the point of getting filled with anxiety and either not taking any action at all or doing so in a way that lacks confidence.

Speak: Anyone who has made a mark in this world has spoken up, presented their ideas, and taken a chance. Dare to say what you believe in. You might be pleasantly surprised by who listens to you and is

impressed by your confidence in sharing

Be resilient: There will be naysayers and those who doubt you, but don't let that stop you from speaking up, taking a chance, and doing what you believe in. Criticism just means you got people thinking. Many who have taken confident and bold steps have faced resistance. Stay focused on what you believe in and forge ahead.

By practicing these guidelines, you will unleash the real power within. Once you master your thoughts, emotions and beliefs, you will realise that this is the only power that you need. The writer is Pallavi Prakash, Founder-CEO

Final day surprises in Ranji

Mumbai play epic draw to secure three points against Saurashtra; Himachal win by 9 wickets to punch TN out of k/o race

ormer champions Mumbai and Saurashtra featured in an exciting draw on Tuesday after both teams squandered chances to win the contest on the fourth and final day of their Elite Group A game.

Mumbai, champions on 41 occasions and ahead of the visitors by 46 runs on the first innings, declared their second innings closed in the morning session at 238 for 8, leaving Saurashtra a target of 285 in 72

Saurashtra were sailing along merrily after being 79 for two with the 113-run third wicket stand between Viswarajsinh Jadeja (71 in 129 balls) and Sheldon Jackson (57 in 118 balls) bringing them closer to the target.

Jadeja was run out by a direct throw from point by Jay Bista to break the stand at $19\bar{2}$ and then a double strike with the use of short balls in one over by medium pacer Minad Manjrekar put the skids on

Manjrekar got rid of both Jackson, caught slashing at deep point when Saurashtra needed 55 in ten overs, and Prerak Mankad (24 in 21 balls) three runs later to raise visions of a Mumbai victory.

Manjrekar got two more wickets in that spell to send back Arpit Vasavada and rival captain Jaydev Unadkat after which Saurashtra downed the shuttlers with Chirag Jani holding fort at one end.

After four balls in the final over, the game was called off as a draw with the visitors on 266 for 7, needing 19 more runs to pull off what would have been a comefrom- behind win.

Jani (9) and Dharmendra Jadeja (8) were the unbeaten batsmen at the crease when the match ended.

Manjrekar finished with impressive figures of 4 for 39, while Shivam Dube got

Mumbai secured three points to boost their tally to 11 and are 14th out of 18 teams in the combined A and B Groups standings with two matches left.

Saurashtra secured one point to remain on top of the combined standings with 26 points with one game in hand. Meanwhile at Shivamoga, hosts

MUMBAI SECURED THREE POINTS TO BOOST THEIR TALLY TO 11 AND ARE 14TH OUT OF 18 TEAMS IN THE COMBINED A AND B GROUPS STANDINGS WITH TWO MATCHES LEFT. SAURASHTRA SECURED ONE POINT TO REMAIN ON TOP OF THE COMBINED STANDINGS WITH 26 POINTS WITH ONE **GAME IN HAND**

Karnataka trounced Railways by 176 runs. Senior off-spinner K Gowtham rose to the occasion and returned with match-winning figures of 6-30, as Railways were bundled out for 185 in their second essay.

At Nagpur, the Gujarat-Vidarbha game ended in a tame draw with the hosts taking the first innings lead and grabbing three crucial points. Gujarat got one

At Raipur, hosts Chhattisgarh took three points, courtesy the first innings lead. But the hosts survived a scare with Maharashtra taking as many as six wickets in their second innings.

ASSAM BEAT GOA

GUWAHATI: Hosts Assam defeated Goa by 7 runs in a pulsating Group C game after having conceded a narrow first innings lead to the visitors.

Resuming at their overnight score of 166 for 6, Goa needed 218 for an outright win, but were shot out for 210 at the

Barsapara cricket stadium on the final day. Then right-arm medium pacer Arup Das (6-67) trapped number 11 batsman Krishna Das (2) in front of the wicket to

hand Assam a memorable win. Meanwhile, at Ranchi, left-arm spinner Shahbaz Nadeem bowled hosts

Jharkhand to an 81-run victory over Services with excellent figures of 7 for 62. Jharkhand had conceded the first innings lead and then turned the match around to bag six points and boost their tally to 30 from 7 games. They are in third

At Jammu, Odisha defeated Jammu

and Kashmir by eight wickets.

The game between table toppers Rajasthan and Haryana at Jaipur ended in a tame draw with the hosts walking away with three points on the basis of the first innings lead.

BIHAR ROUT NAGALAND

PATNA: Ashutosh Aman returned with a match haul of 12 wickets to help Bihar secure a thumping 273-run victory over Nagaland in their Pate Group fixture.

The left-arm spinner, who claimed seven wickets in the first innings, grabbed 5/49 in the second to finish with a match haul of 12/96, as Nagaland folded for 173 in their tall pursuit of 446.

This was the former Services cricketer's fourth successive 10-wicket haul. Aman, who was adjudged Man-of-the-Match for the third time from four matches, is now the leading wicket-taker with 51 scalps from 10 innings with an astounding average of 5.54.

At the CAP Siechem Ground in Puducherry, the match between leaders Uttarakhand and Puducherry started afresh on the fourth day, with a new toss

taking place on a fresh pitch.

However, only 15 overs were played before the match was called off, owing to inconsistent bounce from the pitch and both teams settled for one point each.

TN OUT OF KNOCK-OUT PHASE DHARAMSALA: Tamil Nadu suffered a ninewicket defeat against Himachal Pradesh in a Elite Group 'B' match as it crashed out of contention for the knock-out phase.

The victory, third of the season, took Himachal's tally so far to 22 points while the visitors remained with just 12 points from seven games -- four draws and two defeats and sole win, failing to qualify for the knock-out phase.

The home team rattled up 111 for 1 to seal the win after Tamil Nadu folded up for 345 in the second innings following a middle-order collapse after centuries by Abhinav Mukund (128) and captain Baba

Guleria (3 for 56) and Rishi Dhawan (3 for 60) were the best bowlers for Himachal.

Chasing the target, Ankush Bains launched a clinical assualt on the TN bowlers, hitting six fours and four sixers in his unbeaten 38-ball 64 to power Himachal home just in 15.3 overs.

The other opener Raghav Dhawan (39) was sent back by left-arm spinner R Sai Kishore while going for a big hit but Rishi Dhawan (4 not out) finished the game, blasting a four of Kishore.

In other games in the group, Andhra had to settle for three points against Bengal at Visakhapatnam while visitors Punjab could not reach its target against Hyderabad despite an attacking ton by the young Shubman Gill (148, 154 balls 16X4,

Relish rather than fear Old Trafford, Ole tells Utd

AFP ■ MANCHESTER

Manchester United return to Old Trafford for the first time under Ole Gunnar Solskjaer's management against Huddersfield on Boxing Day with a new-found swagger after scoring five goals in the Premier League for the first time in five years.

The Norwegian's caretaker spell in charge until the end of the season got off to a dream start as

United threw off Man Utd vs Huddersfield the shackles, that Live from 8:30pm IST led to turgid football and deteriorat- | STAR SPORTS NETWORK | ing results under Jose Mourinho, to thrash Cardiff 5-1.

United still face a huge challenge to make up an eight-point gap just to qualify for next season's Champions League via a top-four finish. But for now the luxury of just being

able to enjoy watching a side play with freedom and the attacking principles that have underpinned the club's history is enough to excite United fans again.

"I think the boys are looking forward to playing at Old Trafford and that's important. We should be looking forward to that, they are the best fans in the world," said Solskjaer when questioned whether some of the current United squad have been inhibited by the pressures of playing at home in the famous red shirt.

Solskjaer is certainly a favourite of the United faithful having scored 126 goals in 11 seasons as a player, including the one that famously won the Champions League final in

He was serenaded throughout by the visiting fans League

in charge. "I just hope in the next five months

in the Welsh capital at the weekend as United hit five for the first time since Alex Ferguson's final game

I do a good enough job for them to keep singing my name when someone else

comes in," added Solskjaer, whose pos-

itivity has immediately lifted a squad downtrodden by Mourinho's mood

Just to be positive. Take risks," said Jesse Lingard, who scored twice in Cardiff, at what Solskjaer's message has "If you lose the ball, win it back, and

play the United way - attacking football, entertaining football. For us as players, we enjoyed it today.' Rarely has enjoy-

ment ever been top of Mourinho's list of priorities, even in his most successful spells with Porto, Chelsea and Inter

WORK HARDER'

However, the levels of committment he demanded from those sides was not evident in the current United squad.

For the first time this season, United outran their opponents against Cardiff. "A Man United team should never

ever be outworked," said Solskjaer to highlight the minimum he expects. "Doesn't matter which team you

play. You should run more than them and then your skills will give you the chance to win the game.' A good work ethic should be the

minimum required of a Manchester United team, but Mourinho's tactics also didn't help his side's running statistics.

Too often the Red Devils were set up to sit deep and try and counter-attack. Solskjaer instead seems intent on implementing Premier the United way he learned at

the heel of Ferguson for so long. "I said the same to these lads as I do back in Molde: work

harder than them, enjoy yourselves, pass it forward, run forward, if you lose it, I don't mind as long as you work to win it back and they did.

'When you've got players like this with the quality you are always going to create chances.

Mooy ruled out of Asian Cup

such a key player for Australia that they insisted on getting a second opinion from an independent spe-

"It is disappointing to lose Aaron for the tournament," said Socceroos coach Graham Arnold in a statement late Monday.

"However, it was important that we left no stone unturned in exploring every option to get Aaron on the pitch for Australia in the United Arab Emirates."

Mooy needs at least another month to recover and with the Asian Cup starting on January 5, Arnold decided it wasn't worth risking him. "In a best-case scenario, this
