CBI bickering painted a picture of India’s eroding authority

There is an emerging pattern in the tempests of any Government at the centre that succeeds in completing its full five-year tenure. The tussles and infighting that second to its beginning, the fourth year is devoted to the most visible stage of its governance. It is a period of focused efforts to deliver on the promises made during the election campaign. The Fifth year is primarily a consolidation phase, where the Government aims to build on the gains made in the previous years. A feature of the Narendra Modi-led Government that assumed command in 2014 was that it was able to avoid major political controversies or crises. It was a period of relative political stability that the country had not seen in a decade. This was not only on account of the personality and leadership of the Prime Minister but also because of the disciplined way in which the Government operated. However, the fourth year of the Modi Government has been marked by a series of controversies and internal bickering, which has raised questions about the Government’s ability to deliver on its promises.

## Criminal Cases

In May 2019, the Central Vigilance Commission recommended the initiation of an inquiry into the operations of the Central Bureau of Investigation (CBI) after the Supreme Court ordered an investigation DECCAN CHRONICLE

NEW DELHI

Naidu on Saturday alleged that attacks in a span of 30 hours, in a desperate bid to curtail the protests, were a complete failure. Naidu further said that his government, and the people of Telangana, had "now turned the tables on the political opponents and the opposition parties." Some of these may join after the elections. He added that if they do not, he wants "then to move forward" in the wake of the recent protests and maintained that work was underway to see whether the activists, who are not an...

A twist in the tale

The characters are well-fleshed out, and relatable. The story is fresh too. Another good is that the film doesn't drag, it is over 2 hours. An additional plus is that it introduces to the youngsters — read the book before watching it. The whole thing works. A twist in the tale is that it sends out a message to the youngsters — read the book before watching it.

LUCKNOW | SUNDAY | OCTOBER 28, 2018

Funny storylines. But in the absence of Anita, played by Saumya Tandon, makers have found a way to introduce them to it than the book series which have been adapted into movies.

Another problem is that it is not as unique as the first. Goosebumps lacks the energy that the prequel had that released back in 2015. Though the narrative is a bit slow, the story will progress. An inhouse robotic rover named BGPH. would join him out of sheer passion unaware about his main mission.

On August 24, 2018, Musba Hashmi travelled to Gangtok, Sikkim to bring you a detailed report on landslides, their causes and how the region has come up with an early warning system that can help in reducing loss of lives and property damage.

The region faces a major threat from landslides, and this is due to the high rainfall and heavy snowfall. The rainfall is so heavy that it causes the soil to become saturated, leading to landslides. The snowfall is also a major contributor to landslides as it causes the soil to become waterlogged, leading to landslides. The region is also prone to landslides due to the Himalayan mountain range, which is full of such terrains.

The region has come up with an early warning system that can help in reducing loss of lives and property damage. The system is called the “Sikkim Early Warning System” and it is based on the principle of early warning. The system works by monitoring the soil moisture content, temperature, and rainfall. The system uses sensors that are placed in the soil, and these sensors send data to a central monitoring station.

Windies outface Kohli's, magic level series

West Indies put up an impressive show to win 3rd ODI by 43 runs, and India's 10-match unbeaten streak

The tricky road ahead for Dhillon till 2019 WC

It's no secret that Dhillon is the first choice wicketkeeper for the England team, but a lot will depend on how he performs in the T20Is against West Indies.

The 25-year-old, who may well be Dhillon's replacement in the 2019 World Cup, knows from which side of the fence he has to perform. An England career is there for the taking, but Dhillon will have to be at his best to get there.

"It's not easy to go to India and do well," Dhillon said. "I think there's a lot of competition in India, but if you perform well, you can get a chance."

"But I think you need to have a lot of patience. You need to understand that it's not going to happen overnight."

Do you think you need to go back to playing T20I cricket to get some more experience before you can make your mark in the longest format of the game?

"I think T20I cricket is a good platform to get international experience," Dhillon said. "But it's not easy to get a regular spot in the team."

"I think you need to have a lot of patience. You need to understand that it's not going to happen overnight."

In the meantime, Dhillon is looking forward to the upcoming One-Day International series against Australia, which starts on Sunday, and he is hoping to make the most of his opportunity.

"I'm looking forward to the Australia series. It's a good opportunity to prove myself and take a step forward in my career," Dhillon said. "I'm working hard in the nets and I'm looking forward to the challenge."

FINCH NAMED NEW ODI SKIPPER

Pak survive Maxwell strike to win series

Australia surprisingly announced by long-time coach Justin Langer as new T20I captain, while the 20-year-oldBatchelor was appointed as new ODI skipper.

The team announced on Friday that Aaron Finch will replace the injured Steve Smith as T20I captain, while the 20-year-oldBatchelor will take over the ODI reins from the injured Michael Clarke.

Langer said Finch was the right man for the job, but he also acknowledged that Batchelor would have the support of the team.

"We're looking forward to having Aaron Finch in the role of T20I captain," Langer said. "He's a very good leader and I'm sure he'll do a great job."

Mane's brace, goals from Salah and Shaqiri help Liverpool beat Cardiff 4-1 in PL clash; Bournemouth, Watford win

**AFP**

**LIVERPOOL**

Sadio Mane scored twice as Liverpool returned to the top of the Premier League with a 4-1 win over Cardiff on Saturday. Bournemouth and Watford both continued their fine starts to the season.

Liverpool were the only club who started the season with a perfect 1-0-0 record. But throughout the game, they took their chances and were rewarded for their hard work in the final third of the field.

On the opening goal, Mane finished off a cross from the left side of Michael Edwards. The goal was a result of a combination of passes, including one from Mohamed Salah, who set up the run.

Mane scored his second goal on a penalty kick in the 56th minute. He converted from the spot after being brought down in the box by Cardiff's Joe Ralls.

Liverpool's victory was their fourth in five league games this season. They are now level on points with Manchester City, who won 3-1 at Aston Villa.

**Bournemouth**

The home side were far from impressive, but they did enough to deny Watford a win. The result keeps Bournemouth in the top half of the table.

Watford were without their star striker Troy Deeney, who was suspended for three matches after being sent off against Manchester City in the FA Cup.

Watford had more of the possession and created several chances, but they were unable to score. Bournemouth, on the other hand, were not as creative, but they made the most of their opportunities.

Bournemouth's best chance came when Joshua King was brought down in the box by Watford goalkeeper Ben Foster. King's resulting penalty was saved by Foster, who made a good save to deny the Bournemouth forward.

**Watford**

The result moves Watford up to fifth place in the Premier League. They are now just one point behind Bournemouth.

Watford's victory was their third in four league games. They are now level on points with Bournemouth and Liverpool.

Watford were without their injured striker Troy Deeney, who was unable to start due to an injury. However, they still had enough to beat Bournemouth.

RANA UPPALAPATI kick-started a 6,000-km tour of the golden quadrilateral on skates with an aim to educate the underprivileged girl child. SHALINI SAKSENA

caught up with him during his Delhi leg of the journey

The idea to skate and raise money has grown from Uppalapati wanting to carry forward and reform the cause for the disease, which is 7,800 per girl child for a year. Also, it is not as if any person can directly log on to Nanhi Kali and DESEFACT and donate. This way, they will know that the money has gone to the under-privileged girl child and no one has understood that I aim to complete the journey and not just get used to the food from different villages, towns and cities and surrender. The idea to skate through villages, towns and cities and relearn how children would support a cause or not. It definitely does. Akshay has been carrying different kinds of organisations and campaigns work which stems from social work, family, farming, films and films. Without the help of the media, I can’t do anything. I don’t think that’s the biggest issue which will affect the generation comes to an end. The one thing that you love about the industry: Do an industry where there is no cast and crew.

What subject would you choose to make a movie one? Love to make documentaries on the environment and the biggest issue which will affect the generation comes to an end. The one thing that you love about the industry: Do an industry where there is no cast and crew.

A bit philosopher prince and a bit academic, but most importantly, a profoundly open to taking the good and bad on his karmic terms. In conversation with RINKU GHOSH, Saif Ali Khan maps his life, career and his increasing rootedness to the house of Pataudi.

Given the explosion of consumable media platforms, we actors have to make the shift of filling out the characters we play consistently instead of treating them as a job that must be finished within a schedule or subscribing them to the larger-than-life aura. Saumy Dutt once asked me in the 90s, “Are you shooting everyday you’re feeling that the sign of success? Today it’s a different dance as you also have to be real and not vice versa? I have that confidence and luxury because I am working doing everything else where I am in an immersive experience. For example, if you’re doing a Nagra ad, ideally you should look like a Nagra. Become that guy sometimes you can do it, sometimes you can’t. That’s the aim, I want to totally become that guy for a while without being about it. Then, like locally, shouldn’t be up on wrong things. It’s a waste but sometimes it’s good enough that you have grown your heart and soul. But it has to be heart and soul reach to the right idea.

You came with this tempestuous much ahead of your time with your earlier films like Dhoom, Humshakals, Bhaag Milkha Bhaag
different kind of good cinema. Something more pacing in terms of commercial contemporaries. But truth be told, except for those pensive moments in my early career graph, I feel more like an actor who was commercially successful. My thoughts to myself, I couldn’t be stuck in this or I would be considering a different kind of good cinema. Something more pacing in terms of commercial contemporaries. But truth be told, except for those pensive moments in my early career graph, I feel more like an actor who was commercially successful. Then we thought let’s make him realistic. We must understand that there’s a strong cultural influence that is inculcating character. I want to totally become that guy for a while without being about it. Then, like locally, shouldn’t be up on wrong things. It’s a waste but sometimes it’s good enough that you have grown your heart and soul. But it has to be heart and soul reach to the right idea.

There was also the thought you dealt with following disasters like Humshakals, Happy Ending and some more contempory rom-com heroes in between. Then Saif, the actor, was back with Soorya in the digital series Sacred Games. How did you deal with this phase and having your own. Would you have done Sacred Games had you been successful in films? Quite honestly, at one point, I wanted to give up. I took a break off the hill for a bit. Markets also have ups and downs. Sometimes you make hits, sometimes you don’t. But I think the most important lesson is that you must have a plan in your career. I hope in the future I will get more opportunities. I’m not averse to doing a hit or two, but I need to be aware of my character. I can. I have multiple hobbies. I love things. My memory is to keep. I don’t want to forget where I’ll go permanently. I think Saif is.

I’m in the process of becoming a better actor, with Bayzarr and Sacred Games. Kavita Devgan has compiled time-tested food habits to help us develop a healthy lifestyle, says NEVAANTE MENDRATTA

One of the biggest mistakes we make is not being able to think outside the box. It is so easy to get stuck in our habits and forget to try something new. But as Kavita Devgan points out, there are many ways to break away from our comfort zones and discover new foods that can enrich our lives.

In her latest book, "50 Habits of the Pioneer Woman," Devgan shares her insights on how to develop a healthy lifestyle through simple, yet effective, dietary changes. The book is filled with practical tips and recipes that are easy to follow and are designed to help readers make healthier choices.

"I wanted to break the monotony of the same old things and show people that there are many ways to approach food," Devgan said. "I believe that every person should have a go-to list of healthy habits that they can use to maintain a balanced diet."

Some of the key takeaways from the book include:

- The importance of starting your day with a healthy breakfast.
- The benefits of eating a variety of foods, including fruits, vegetables, and whole grains.
- The value of incorporating physical activity into your daily routine.
- The role of stress management in maintaining a healthy lifestyle.

Devgan's book is not just about healthy eating, but also about finding a sense of balance in one's life. She encourages readers to take a step back and reflect on their current habits and to identify areas where they can make changes.

"I believe that true health is not just about what you eat, but also about how you live," Devgan said. "We need to make time for ourselves and find ways to reduce stress, whether it's through exercise, meditation, or simply taking a quiet moment to ourselves."

Devgan's book is available now, and she hopes that it will inspire readers to make positive changes in their lives. "I want people to pick up this book and say, 'Wow, there are so many things I can do to improve my health,'" she said. "I want them to feel empowered and inspired to make healthier choices for themselves."

India from a balance to a lead power

Under the leadership of Prime Minister Narendra Modi, India for the first time aspires to become a ‘leading’ power in the Indian Ocean, seeking to take on greater roles and responsibilities in the region. Modi has launched significant initiatives to develop India’s port infrastructure, seeking to use the civilian maritime sector as a driver of unemployement and economic growth. He has also placed emphasis on political and maritime security in counter-terrorism.
In Bihar, binary politics is playing itself out. On one hand, leaders who were either with the RJD or with the Janata Dal as the parties divided and made 2020 the year of talk, and not action. An initiative like the Central Minor Irrigation Yojana has been restored, and the political maneuvering has now been put in place by leaders to ensure that the initiative is not implemented.

The NDA (National Democratic Alliance) has been in power in Bihar for more than two decades now, and the party has been reaping the benefits of this in terms of electoral gains. The NDA alliance has been in power in the state for the last 13 years, and the party has been able to consolidate its position despite challenges from the opposition parties.

The NDA alliance is composed of two major parties, the Bharatiya Janata Party (BJP) and the Janata Dal United (JD-U), along with several other smaller parties. These parties have been able to maintain a united front and present a strong challenge to the ruling party, which has been facing criticisms on various fronts, including corruption and the handling of the COVID-19 pandemic.

The BJP has been particularly vocal in its criticism of the NDA, accusing it of being corrupt and inefficient. The party has been trying to create a perception that the NDA is not working for the people of Bihar, and this has helped it to gain votes in the upcoming elections.

The NDA is also facing challenges from the opposition parties, who are trying to create a strong base of support in the state. The most significant challenge comes from the Rashtriya Janata Dal (RJD), which has been able to establish itself as a major player in Bihar politics.

However, the NDA alliance has been able to maintain its grip on power, and it is likely to continue to be in power for the foreseeable future. The party has been able to consolidate its position in the state, and it is likely to continue to do so in the upcoming elections.

The BJP has been particularly vocal in its criticism of the NDA, accusing it of being corrupt and inefficient. The party has been trying to create a perception that the NDA is not working for the people of Bihar, and this has helped it to gain votes in the upcoming elections.

The NDA is also facing challenges from the opposition parties, who are trying to create a strong base of support in the state. The most significant challenge comes from the Rashtriya Janata Dal (RJD), which has been able to establish itself as a major player in Bihar politics.

However, the NDA alliance has been able to maintain its grip on power, and it is likely to continue to be in power for the foreseeable future. The party has been able to consolidate its position in the state, and it is likely to continue to do so in the upcoming elections.
One of the main reasons why India and France fall short of running together with a strong and truly strategic partnership is the inexplicably introverted attitude on both sides.

my first job as researcher and occasional speechwriter was the one I was offered for the French President to have in Paris. It was a hectic time, sometimes pretty tight to discussions and meetings, and I sometimes had to travel to the Elysée about how to strike business with the French President. I sometimes think about a unique, potentially financially lucrative, for France, since the Elysée is one of the most important symbols for the French, things get divulged!

A story a few years ago, the Indian Defence Ministry finally floated its largest tender for the multi-role combat aircraft to replace the fleet of mostly modern fighters. The tender was open to all, but there were a few companies that had been in the running, including China. The situation had changed ever since the tender was floated, and, in the end, the Chinese company was the only one to submit a proposal.

Many countries are interested in learning from France, as the country is a pioneer in many fields. It is a rich country that has a long history of scientific and cultural achievements. France has been able to develop its resources into successful initiatives that are usually funded by the French government.

Education is another area of great interest to many countries, as France is a pioneer in many fields. It is a rich country that has a long history of scientific and cultural achievements. In both countries, public discourse is dominated by an enormous focus on domestic politics, scandals, and the lives of its leaders. The difference is that while the French base itself in its global historical influence, Indians are flying high in its current status in the world.

Two-headed cohabitation snake

On a summer day in 2014, two-headed cohabitation snake was brought to the San Diego Wildlife Education Center in Frankfort, where it went on display to the public for the first time.

The snake was brought to the center by the San Diego Zoo, which had previously received the snake as a gift from the San Diego Humane Society. The snake is one of the world's rarest species, and it is the first time that it has been displayed in the United States.

The snake is able to camouflage itself by changing its color and texture, allowing it to blend into its environment. It is also able to travel great distances, making it a difficult animal to capture. The snake is also able to sense its environment, which allows it to detect predators and other potential threats.

Two-headed cohabitation snake: The unique symbiosis of two heads and one body

The two-headed cohabitation snake is one of the most unique and fascinating animals in the world. It is a rare species that is found in the United States, and it is only known to be present in a few locations.
