continuing to press for a review of the verdict. Union Minister Mukhtar Abbas Khan on Sunday asserted that the Supreme Court’s order on the plot for a mosque, which was not a party to the case, would be respected.

Min Naqvi raps AIMPLB over Ayodhya review, says Muslims body trying to create division

Section of Muslims adopting double standards on Ram temple, says Sri Sri Ravi Shankar

With All India Muslim Personal Law Board (AIMPLB) terming the Ayodhya verdict “incomplete justice”, Union Minister for Minority Affairs, Culture and Tourism, Suresh Prabhu, said the verdict was a “pivotal change in urban and rural India”.

He said the AIMPLB’s stance was a “denial of justice”.

Prabhu was speaking after laying the foundation stone of a parking and local bodies’ offices in Delhi’s Wazirabad area.

"We cannot accept the incomplete justice that has been delivered," he said.

He said the AIMPLB was comparing the Ayodhya verdict with the Verma verdict, which was not the case.

"For the development of any country, justice is a sine qua non," Prabhu said.

He also said the AIMPLB was trying to create division among Muslims.

The AIMPLB had earlier held that the Ayodhya verdict was incomplete justice, saying it denied Muslims the right to build a mosque on the site.

Thackeray taunts Fadnavis

Mumbai: Maharashtra Chief Minister Devendra Fadnavis' taunts are lazy and provincial, said the Shiv Sena leader on Wednesday.

Thackeray spoke after Fadnavis said on Tuesday that the Sena should take a backseat as the ruling BJP is fit to win the 2019 Lok Sabha elections due to its performance in the last five years.

“We are not interested in the past. We have made it clear that we will continue to work for the good of this state,” Thackeray said.

The Sena chief, however, said his party would continue to fight against the BJP in the Assembly elections.

BJP withdraws its nominee

Thackeray said the MVA was democratically elected and that the BJP should not interfere with its functioning.

BJP’s disasters in previous elections have not changed the party’s attitude towards the MVA, Thackeray said.

Thackeray also said that the MVA government was working for the people of Maharashtra and that the BJP should concentrate on its performance in the Lok Sabha elections.

The Sena chief also welcomed the government’s decision to provide loan waivers to farmers in the state.

Fadnavis’ hate to come to power sans BJP in Maha: Raut

Mumbai: Senior Shiv Sena leader Sanjay Raut took a jibe at the pounding into the state assembly elections – the Sena-BJP alliance – on Wednesday.

Raut, who is also the leader of the opposition in the state assembly, said that the Sena-BJP alliance was not functioning well and that the Sena had to bear the brunt of the election results.

Raut said that the Sena had to bear the brunt of the election results because the alliance had not performed well in the last five years.

He said that the Sena would continue to fight against the BJP in the upcoming elections and that the Sena would work for the good of the state.

IDOL THEFT CASES IN TAMIL NADU

Stand-off between super cop, Govt as case reaches apex court

Mumbai: The special director of the Intelligence Bureau, which is investigating a series of theft cases involving idols in Tamil Nadu, has moved the Supreme Court against the decision of the Tamil Nadu government to refuse to give the court the list of cases.

The IB had sought the list of cases in order to identify the persons involved in the thefts.

The Tamil Nadu government had opposed the move, saying that the cases were under investigation.

The special director has moved the apex court against the decision of the Tamil Nadu government.

On the other hand, the Tamil Nadu government has filed a petition with the Supreme Court against the IB's action.

The Supreme Court has fixed the matter for hearing on January 15.

Rain lash many parts of TN; more likely; one dead in city

Chennai: Rain lashed many parts of Tamil Nadu and Nagapattinam on Thursday, with around 170 rain-related incidents reported, according to the Chennai fire and rescue service.

In the city, the rainfall was reported to be heavy in areas such as Mylapore, Chrompet, and T.Nagar. In Nagapattinam, several areas were flooded, with reports of one death.

The India Meteorological Department had earlier predicted heavy rain in Tamil Nadu.

The Chennai Fire and Rescue Service received 161 calls for help, with 68 of them related to water-related incidents. In Nagapattinam, the rain caused several incidents, including one death.

The heavy rain had caused widespread flooding in many areas, with reports of damage to property.

Chennai: Chennai Fire and Rescue Service rescued 102 people from floodwaters in the city on Thursday, including 29 in Mylapore, 26 in T.Nagar, and 13 in Vadapalani.

The heavy rain had caused widespread flooding in many areas, with reports of damage to property.

The India Meteorological Department had earlier predicted heavy rain in Tamil Nadu.

The Chennai Fire and Rescue Service received 161 calls for help, with 68 of them related to water-related incidents. In Nagapattinam, the rain caused several incidents, including one death.
**BSF activates Winter Border Management strategy in Jammu & Kashmir**

According to official sources, anti-fight lights have also been made operational and additional security ‘touch points’ have been set up along the suspended movement of infiltrators to the border area.

Speaking to The Pointer, Inspector General (BSF), Jammu Frontier, SS Yadav said, “Keeping in view the security concerns, our BSF border management strategy has been strengthened. We have deployed a number of troops to patrol the area, including the border area and the international border also. We are taking all necessary steps to ensure peace in the area.”

BSF was on alert during the repatriation process, which concluded on November 18. Now, BSF is on alert during the entire winter season.

**BSF activates Winter Border Management strategy in Jammu & Kashmir**

MIZORAM, India — The Mizoram government has decided to suspend the repatriation process, which was concluded on November 18, and has increased the number of troops deployed along the border area to ensure peace in the area.

The state government has also decided to deploy additional security personnel along the border to prevent any infiltration attempts.

The government has announced new plans under which all will be dearer for its prepaid products and service provider, today.

For its prepaid products and service provider, today, Indian Alcoholic Beverages Trade Association (IABTA), the Alcohol Manufacturers’ Association (AMA) and the Indian Brewers’ Federation (IBF) have announced new plans for its prepaid products and service provider, today.

The company will announce the new plans in the next one month. The company has already increased the price of prepaid plans by Rs 15.

The company will also increase the price of prepaid plans by Rs 15.

Vodafone Idea and Idea Cellular Ltd. announced new plans for its prepaid plans and data packs.

The development came after the Government last month announced plans to raise tariffs.

New plans will be effective from 26th December for those who lost an earning- ical costs due to smoking -domestic and local. These plans will have a far-reaching effect on the telecom industry and increase the range of a 50 per cent hike in new plans.

Revenue growth has been negative due to the fall in GDP growth and muted demand for telecom services. However, the new plans will be effective from 8th December and the company said in a statement.

Bharti Airtel too will increase its entry level prepaid plan by Rs 15 from today.

The price 35 days validity for its prepaid products and service provider, today. The new plans will have a far-reaching effect on the telecom industry.
ISIS claims.Link Bridge attack SAYS POK-linked terrorist was one of its fighters

74 terror prisoners released early: Boris

The Prime Minister Boris Johnson said on Sunday that 74 convicted terrorists had been released early from prison, including a key ISIS fighter who was being held by security services.

The government has been under pressure to release prisoners from overcrowded prisons, with some 3,000 inmates held on remand.

Johnson’s comments came as the London Bridge attack where a terror cell sought to kill police officers on Saturday was carried out by a man known to police as ‘the emir of terror’.

The attack killed three people, including the attacker, and injured 13 others. It was the latest in a series of attacks in the capital in recent years.

Dad of victim says son was ‘beautiful spirit’

The father of a student at a London primary school, who was killed in the terror attack on Saturday, has described him as a “beautiful spirit”.

The attack took place in the London Bridge area, where pedestrians were killed and injured.

New EU leaders take office vowing to tackle climate change

A new wave of leaders took up their positions this week, including new presidents and prime ministers who have promised to tackle climate change.

New EU leaders have been elected, with some taking office on Thursday and others on Friday.

The new leaders have been chosen by an electoral college, which is made up of the leaders of the EU’s member states.

IMPEACHMENT’S influence hazy as US in Congressional races

It will be “part of the hurry” as US presidential elections near, but it will be “hard” as the US Supreme Court now considers the matter.

Scientists say a new wave of climate change could be on its way, and it will be “hard” to slow the warming.

What makes a maggotten a cargo-carrying robot is a sustainable solution for one that can help the needs of its citizens to live their lives in a better way. So far, several studies have been done to answer questions about efficiency, waste reduction, energy consumption, and comfort in transport with a cargo-carrying robot. But the development of such technology has been influenced by ecology, climate, scale and style, and shows diverse patterns of growth. So while delivering a package in Brooklyn in July, it’s obvious to see the benefits in both participants in the scene, and Rome and also discusses that similar

VWARS

A fast-spreading disease that turns everything into blood-sucking beasts, it has been spread across the globe to cities like Delhi, Mumbai, and London. As the spread continues, the world is on the brink of collapse. Everyone is in danger, and survival seems impossible. However, hope emerges when a group of brave warriors takes on the challenge of rescuing humanity from the clutches of this terrifying virus.

Be better than yesterday: Anil

Actor ANIL KAPOOR doesn’t want to get too comfortable in the industry. He says that he has a simple plan, which is to be better than yesterday.

“I don’t think I ever want to be completely comfortable with fear of complacency. It’s only when you push yourself into uncomfortable situations that you grow and learn,” says Anil. He adds that when you’re uncomfortable, you’re getting too comfortable and try too much for too much. Anil entered the industry in a small role in 1989 with Sherni Mehra’s Raja and then went on to create stardom by balancing his stature as a respectable actor.

“Being a student of acting, I know that acting is the art of living through the eyes of others. It’s all about being comfortable in your skin and being able to do that. And that’s what I want to do in every film I do. I want to make sure that every film is different from the last one,” he adds.

T he trend in gift wrapping is to move away from the “in-your-face” look, says Amy Panos, home décor consultant at Martha Stewart Living. “Boxes can also be embellished with colorful ribbon or sprigs of flowers,” she says. As much thought is put into gift wrapping as into choosing gifts. “In many cases the gift wrapping is even more interesting than the gift itself,” adds Panos.

NEW VACCINE TO STOP BOVINE TOBACCO TRANSMISSION

Researchers have developed a vaccine to prevent bovine tuberculosis.

The study, published in the *Veterinary Research* journal, found that when a live vaccine was administered to cattle in a field trial, the rate of new cases of tuberculosis was reduced by 90%.

The vaccine, developed by researchers at the University of Cape Town, uses a weakened form of the Mycobacterium bovis bacteria, which causes tuberculosis in cattle.

The researchers hope that the vaccine will be approved for use in the coming years, which would help to reduce the spread of tuberculosis in both cattle and humans.

URINOGRAPHY TEST CAN SPOT PROSTATE CANCER

Scientists have developed a new test that can detect prostate cancer in men. The test is based on the fact that tumors that develop in the prostate gland produce a specific protein, which can be detected in the urine.

The researchers believe that the test could be a valuable addition to existing screening methods, and that it could help to identify men who are at risk of developing prostate cancer.

BREAST MILK PREVENTS HEART DISEASE

Researchers have found that breast milk may help to prevent heart disease. The study, published in the *Journal of the American Heart Association*, found that women who had breastfed their babies had a lower risk of developing heart disease than women who had not.

The researchers believe that the protective effect of breast milk may be due to the presence of a particular compound in milk, which has anti-inflammatory properties.

GET SOME SUN FOR STRONG BONES

Getting good bone health is important for a long and healthy life. Vitamin D is essential for strong bones, as it helps your body to absorb calcium from food. The body also needs vitamin D for other functions, such as regulating cell growth and reducing inflammation. About 30% of the body, especially arms and legs, exposed to sunlight for 15 minutes a day, can help the synthesis of a good amount of Vitamin D.

THE UPWARD CURVE

First-generation learners in rural areas are bogged down by challenges in education which prevent them from climbing out of the morass of poverty, unemployment and inequality, says Ritesh Rawal.

LACK OF FINANCIAL RESOURCES

Parents commonly feel to be a major social issue and it affects rural India. Parents are unable to afford education because of financial constraints. Parents are also uneducated and hence unaware of the importance of education. Parents are also poor and hence unable to provide adequate nutrition to their children.

LACK OF INFRASTRUCTURE

Because of the undeveloped infrastructure in rural areas, the students are unable to reach the school in time. The schools are also not well equipped with proper facilities and equipment.

LACK OF TEACHING METHODS

In many cases, teaching methods are not effective. The teachers are not well trained and hence unable to teach effectively. The students are also not motivated to learn.

LACK OF TECHNOLOGY

In many cases, schools do not have access to technology. The students are not familiar with technology and hence unable to use it effectively.

Indian education system is not effective. The government has been trying to improve the quality of education being imparted but has been unsuccessful.

Although the government has been trying to improve the quality of education being imparted but has been unsuccessful.

The dropout rate in rural schools is very high. This is one of the most important problems that the government is facing. This is due to the limited money they have. Private schools are an expensive option and out of budget for most children.

Distance education (DISE) data shows that only 30.8% of upper primary rural schools and 30.8% of upper primary rural schools have an internet connection.

France, Portugal, Germany drawn together at Euro 2020

Ribery suffered a severe ligament tear in the back of his right ankle in the match with Leicester City.

In the last 30 minutes of the match, Ribery felt sharp pain in the back of his right ankle and froze in torment. He was helped off the field by medical staff.

Ribery had trained with the team earlier in the week, but the injury forced him to leave the pitch.

Ribery has been out of action since suffering the injury, but France coach Didier Deschamps is hopeful he will be fit for the tournament. Ribery has scored 14 goals in 78 appearances for France.

France will face Portugal in Group F, while Germany will play against Germany in Group D.

France will be aiming to repeat their Euro 2016 triumph and continue their excellent record in European Championship tournaments.

Ribery is a key player for Bayern Munich and has been in impressive form this season, scoring 11 goals in 12 appearances for the club.

However, Ribery’s injury is a blow for Bayern, who are currently top of the Bundesliga table.

Ribery's absence is a blow for France, who will be hoping to go one better than their runners-up finish at Euro 2020.

Ribery has been a regular in the French team for several years and has scored 18 goals in 49 appearances for his country.

France’s other big names, Kylian Mbappe and Paul Pogba, will be hoping to lead their team to glory.

Ribery has also been linked with a move to Inter Milan, who are said to be interested in the French star.

However, Ribery is expected to remain at Bayern for the time being, with the club hoping he will be fully fit for next season.

Ribery的受伤不仅对拜仁来说是一个打击，也对法国队来说是一个损失。他在拜仁的表现非常出色，是球队的重要一员。他的缺席将对法国队的攻防产生影响，因为他在场上能提供技术和创造力。

Hoot ended run drought

English captain overcomes poor form to score hattrick in 3rd day of 2nd Test

Despite concerns to lose Root to India with an apparent finger injury, England batsman Joe Denly declared himself fit for the first Test against New Zealand on Sunday.

England captain Joe Root ended his run drought with an 118 not out on Saturday, July 2.

But after they took lunch for 202 for 2, they were bowled for 249 in the first innings and still trailing New Zealand — who were 277 for 6 at stumps.

"I enjoyed the fact I got it (batted) and at the same time rectified the mistakes I couldn't stop our partnership and got us up to double figures," Root said.

"When we dropped a couple of catches in the Tests ended as well." With only five wickets remaining and 10 overs to go by the rain in the final, England's return of building a lead of 60 by an unbroken stand is the lowest.

The tempo swung away from England when Bunns was caught by Root and Burns bowled by New Zealand's Tim Southee and got his wicket to equal record.

Root and Burns put on 177 for the second wicket and led England "the partnership" that had some defensive partnership but it was still New Zealand used to win the Test.

But following the 31-run partnership was when he was caught behind Tim Southee and ran one over as the Test ended.

Root was under pressure and a position of strength but also to end his own run drought as synonymous with prejudice and prejudice.

He added 184 for five in the second innings.

Root and Burns put on 177 for the second wicket and led England "the partnership" that had some defensive partnership but it was still New Zealand used to win the Test.
