India over the moon! Chandrayaan-2 launched to become world’s first to probe lunar south pole

The ISRO has announced the successful launch of Chandrayaan-2, India’s second lunar mission, on July 22, 2019. The mission aims to land a rover on the moon’s south pole and conduct scientific experiments. The spacecraft was launched from the Satish Dhawan Space Centre in Sriharikota, Andhra Pradesh, at 2:43 AM India Standard Time. The mission will also study the moon’s resources and search for signs of water, which could be vital for future space missions.

The launch marks a significant milestone in India’s space exploration programme, as Chandrayaan-2 follows the successful launch of Chandrayaan-1 in 2008. The mission is expected to last for at least two months and will involve multiple orbits around the moon before landing the rover.

Prime Minister Narendra Modi congratulated the ISRO team for their success and highlighted the significance of the mission in advancing India’s space capabilities.

The mission is also seen as a demonstration of India’s technological prowess and a step towards becoming a space power. India is one of the few countries to have independently conducted a lunar mission, and Chandrayaan-2 marks a significant leap in India’s space exploration efforts.

The mission is also expected to contribute to the global understanding of the moon’s resources and history, and could have implications for future space exploration and utilization of the moon’s resources.

Overall, Chandrayaan-2 is seen as a significant achievement for India and a milestone in its space exploration programme.
Reign of terror unleashed against oppn, charges SP

Sarnath Party on Monday alleged that the UP Assembly was a "hotbed of terror" and said that the opposition had unleashed a terror reign against it.

"The leadership of the opposition party has been destroyed," he said.

The incident occurred during the ongoing "Kanwar Yatra" in the state.

On Sunday, at least 10 people were killed and over 50 injured in a series of bomb blasts in Mathura, the birthplace of Lord Krishna.

Meanwhile, during arguments in the Council, Yogi said that the land was then given to the Godavari Mathababa.
P Spears at police station in Lucknow who has been twice arrested for his speeches. A day after the speech he was arrested on charges of sedition.

Samajwadi Party legislator Sunny Deol, who had previously been arrested for making incendiary remarks, was also present at the protest.

Police had earlier registered an FIR against the leaders of the protest, who are now in custody.

The police said the leaders were protesting against the government's policies and demanding the release of political prisoners.

On the other hand, the government said the leaders were trying to create unrest and disturb public order.

The situation in Lucknow is tense as the police have deployed additional personnel to maintain law and order.

The government has also imposed a curfew in certain areas of the city to prevent any untoward incident.

The political situation in Lucknow is likely to remain volatile in the coming days as the leaders of the protest continue to demand their release and the government continues to investigate the case.

**PLANTATION DRIVE**

The Security and Traffic Department, Bhopal, organized a plantation drive at the GLA University, Bhopal. The drive was led by assistant commercial manager Jagtosh Shukla on Monday.

As part of the drive, a group of 100 students, holding about 500 plants were distributed to 18 aps in different parts of the city. When they were retransferred to the ground, the people from KL, their workers and the people from their families were referred to medical centers.

Chief Minister Yogi Adityanath, who spoke into the networking, directed the hospital where doctors preserved the patient's bodies. Rifleman martyred in Pak firing along LoC

A high-profile was witnessed on April 26, 2023, when two Pakistani soldiers were killed on the Pakistani side near the border between Pakistan and India. The incident took place along the Line of Control (LoC), a military demarcation line that separates the two countries.

The incident occurred in the Krishna Region, where Indian Army forces have been on high alert. According to reports, the Pakistani soldiers were trying to cross the LoC in a bid to infiltrate into Indian territory. The Indian Army, however, managed to thwart their attempt, resulting in the death of two of their soldiers.

The Indian Army has been on high alert along the LoC due to the ongoing tensions between the two countries. The Pakistani Army has been known to carry out frequent ceasefire violations, which have led to several incidents of cross-border firing. The Indian Army has been responding to these violations in a measured and graduated manner to ensure the security and safety of its personnel and citizens.

The Indian Army has been carrying out several operations along the LoC to prevent such incidents from taking place. The Indian Army has also been providing intelligence to the civilian administration to help them take necessary precautions to ensure the safety of the citizens.

The incident has once again underscored the need for a peaceful resolution to the ongoing conflict between the two countries. The Indian and Pakistani governments have been engaged in several rounds of talks to resolve the dispute, but so far, no concrete progress has been made.

The incident has also highlighted the need for the international community to play a more active role in resolving the conflict. The United Nations and other international organizations have been urging both countries to refrain from resorting to violence and to engage in peaceful negotiations to resolve the dispute.

In the meantime, the Indian Army has been carrying out several operations along the LoC to prevent such incidents from taking place. The Indian Army has also been providing intelligence to the civilian administration to help them take necessary precautions to ensure the safety of the citizens.

Congress says ‘good time’ to remember Neohru, BJP hits back

The Congress on Tuesday launched a tirade against the Ministry of Human Resource Development for its recent order that it will no longer provide hostel facilities to the students of IIT-Delhi due to the pandemic. The order, which came into force on August 10, has been universally condemned by the academic community and students alike.

"We have always been clear that the government should focus on priority schemes and social programmes, rather than indulging in propaganda," party spokesperson Randeep Surjewala said.

"It is clear that the government is more concerned with its own political的利益, and not with the welfare of the students," he added.

Students and teachers have been left scrambling for accommodation, with many opting for private lodges or paying for rent. The government had earlier announced that it would provide free accommodation to students from economically weaker sections, but this has been scaled down to just a few thousand places.

The Congress has been particularly critical of the government’s handling of the pandemic, accusing it of being slow and complacent.

"The government’s response has been woefully inadequate," Surjewala said. "We have seen this before, with every crisis they seem to have a different set of priorities."
India on the moon

What better way to mark the 50th anniversary of the Apollo 11 landing than to send a probe to orbit another world?

The tiny US spacecraft explores the moon's unexplored terrain for the first time, proving that India has what it takes to become a space power.

India, along with China, is one of the countries watching the US's lunar exploration mission, which has been ongoing for several days.

The mission, called Chandrayaan-2, is India's second lunar mission and its first attempt to land a spacecraft on the moon.

The Chandrayaan-2 mission was launched in July 2019 and has already completed several key milestones, including a successful orbit insertion and initial landing on the moon's surface.

This achievement is significant because it marks India's first landing on the moon, and it is a major step forward in the country's space exploration efforts.

India's space agency, ISRO (the Indian Space Research Organisation), has been working on this mission for several years, and it has faced numerous challenges along the way.

However, the mission has been completed successfully, and India has become the fourth country to successfully land a spacecraft on the moon.

The Chandrayaan-2 mission is expected to continue for several more months, during which time the spacecraft will study the moon's surface and collect data on its composition and geology.

These data will help scientists better understand the moon and its role in the history of the solar system.

India's success in landing on the moon is a significant milestone for the country and a testament to its commitment to space exploration.

The Chandrayaan-2 mission is expected to conclude in early 2020, and the spacecraft is expected to return to Earth in March 2020.

Achilles heel of health protection

Laws surrounding personal information need checks and balances to ensure a robust framework so that citizens can exercise their right to privacy.

PRAVDEVI

This was revealed by the central government to the Union Ministry of Electronics and Information Technology.

Incentivises health care for quality care

The healthcare ecosystem must not only provide accessible services to the people but also to be pivoted on quality and accountability standards. Better policies and not achieving the goals cheaply should be the aim.

MOMO ZAY

Universal health coverage (UHC), which aims to ensure that all people receive proper and adequate healthcare without any financial barrier, is a cornerstone of achieving the UN-standardised Sustainable Development Goal (SDG). It enables countries to make the most of their strongest assets. Human capital is the key to development and talent is the crux of creating communities that thrive. Therefore, a minimally insured but good, market-based insurance pool without good health, children are unable to get

MOR CER

One of the flagship programmes of the NDA government, Ayushman Bharat, is a Pradhan Mantri Jan Arogya Yojana (PMJAY). It has successfully helped people achieve UHC for all citizens. The pr has certainly gained some traction with a pilot project run by the Ministry of Health and Family Welfare’s NHM, which has achieved 96% uptake by the end of 2021. However, insufficient resources, the high costs of running such a programme, and the non-availability of healthcare professionals in rural areas are major challenges. In the last few years, the microfinance sector has been the driving force behind the development of a robust health ecosystem. Despite being the world’s sixth largest economy, India remains among the lowest in several economic and health indices. Other indices of healthcare are also alarming. The country’s healthcare system remains an Achilles’ heel for the people of India. This contributes to the ever-widening gap in the country. Patients should have access to affordable and quality health services. The NHM has potential risks and benefits in terms of health and disease, the dual health and education agenda, and the fourth pillar of the National Health Mission that is best placed to offer health services. Addressing primary healthcare or improving curative services is quite varied. In the health system, there are three key elements: the curative care system, the preventive care system, and the health promotion system. There are numerous reports, which state that the Government health insurance schemes have not only failed to improve the quality of health services but also to make them affordable. Therefore, the Government health insurance schemes have not only failed to improve the quality of health services but also to make them affordable. **What to Do If You Suspect TB**

1. **Notice any symptoms:** Look for signs of TB, such as coughing for more than 2 weeks, coughing up blood, weight loss, and fever.
2. **Tell your doctor:** If you think you might have TB, talk to your health care provider. They can help you determine if you need testing.
3. **Take the test:** Your doctor may recommend a test that is either a skin test or blood test.
4. **Get treatment:** If you have TB, your doctor will prescribe medicine that you need to take regularly for a certain period of time.
5. **Follow up:** After treatment, you will need to return to your doctor to make sure that the treatment is working and that the infection is going away.

---

**Types of TB**

- **Pulmonary TB:** This is the most common form of TB. It affects the lungs and can cause coughing, chest pain, and shortness of breath.
- **Extrapulmonary TB:** This form of TB affects organs other than the lungs, such as the brain, spine, kidneys, and liver.

---

**Prevention Measures**

- **Get vaccinated:** The bacille Calmette-Guérin (BCG) vaccine can help protect against TB.
- **Cover your mouth and nose:** When you cough, sneeze, or speak, cover your mouth and nose with a face mask to prevent spreading TB.
- **Stay up to date on your TB tests:** If you are at risk for TB, your doctor may recommend regular TB tests to help monitor your health.

---

**Tips for Staying Healthy**

- **Eat a healthy diet:** Eating foods that are rich in nutrients can help boost your immune system.
- **Stay active:** Regular exercise can help keep your body healthy and strong.
- **Get enough sleep:** Sleep is important for your overall health.
- **Manage stress:** Finding ways to manage stress can help keep your body healthy.

---

**Key Points**

- Early detection and treatment are key to preventing the spread of TB.
- It's important to follow your doctor's treatment plan to ensure that the infection is completely cured.
- TB can be prevented with proper vaccination and preventive measures.

Sensex dives 306 points as HDFC twins sink

Investments via P-notes decline to ₹81,913 crore

New Delhi (PTI): State-owned NTPC on Thursday sold shares worth ₹17,500 crores via P-notes, the second time this year the firm has used this mechanism to raise funds. "The board has sold 3.06 per cent or 590 million shares at an average price of ₹359.49 on July 23, 2020, to Instamojo Technologies Private Limited, a company registered in India," the firm said in a statement.

Jet Privilege on ‘accelerated growth path’: Senior exec

As the immigration process in the US is moving ahead, Jet Privilege is估计 to be able to attract passengers, according to Jet Privilege, the frequent flyer programme of Jet Airways. The programme is expected to benefit from the changes. The carrier invested ₹859 crore for its new loyalty programme.

NTPC to seek shareholder nod to raise ₹15,000 crore via bonds

New Delhi (PTI): State-owned NTPC will seek shareholder nod to raise ₹15,000 crore through a rights issue of shares. The firm, which could raise up to ₹15,000 crore, will be the third firm this week to announce a rights issue.

LUCKNOW | TUESDAY | JULY 22, 2023

money 11

M arket benchmark BSE Sensex on Monday shed 306 points to close at 41,872.49, dragged down by a fall in HDFC Bank and ICICI Bank. Weak global trends, concerns over a rise in coronavirus cases, losses of a small baby in a car accident along with cautious selling of July expiry future were reasons for the fall, traders said.

HDFC Bank and ICICI Bank were the biggest losers in the Sensex pack, plunging 3.06 per cent and 2.98 per cent, respectively, on the back of selling of equity shares by institutional investors. HDFC Bank fell to ₹2,233.25, while ICICI Bank ended at ₹1,434.95, down 95.60.

Market sentiment remained weak with global funds and institutional investors purchasing shares to hedge their positions.

I India strongly rejects Pak’s references to Kashmir

India has strongly rejected Pakistan’s references to Kashmir during a visit by the Pakistani foreign minister. Pakistan’s visit is part of the latest cycle of meetings intended to build trust and address the issues of concern to both countries. India has consistently maintained that any discussion on Kashmir must be based on the wishes of the people of Kashmir, who have repeatedly expressed their desire to remain an integral part of India. Any attempt by Pakistan to use the issue of Kashmir for strategic gain is seen by India as a violation of its sovereignty and territorial integrity. The Indian government has reiterated its commitment to guaranteeing the human rights and freedom of expression for all residents of the region.

NAM MINISTERIAL MEETING

At a joint press conference following the NAM Ministerial Meeting in Vienna, India’s foreign minister Meera Patel said that the forum can now be a platform for all nations to come together and address the issues of concern to them, rather than becoming a platform for the discussion of issues that may be contentious and divide nations. She also stressed the importance of the NAM’s role in promoting peace and stability in the world.

JAPAN'S ABE KEEPS UPPER HOUSE GRIP BUT 'SUPERMAJORITY'

Japenese Prime Minister Shinzo Abe has maintained his grip on the upper house of parliament following the recent election, although he fell short of achieving a "supermajority." Abe’s LDP and its coalition partner Komeito took 71 of the 124 seats up for grabs in the upper house, but failed to win a majority of over 100 seats. The election results underscored the weakness of the opposition and the apathy of the electorate, with voter turnout reaching an all-time low.

Speaking at an event held on April 21, 2019, in Colombo, Sri Lanka, Ambassador Syed Akbaruddin emphasised that no other member is pursuing the primary issues of our concerns, including terrorism, non-military pursuits, and mining our ability to attain our goals. The climated have cooled up to cooperate on these issues.

AMBASSADOR AKBARUDDIN

Ambassador Syed Akbaruddin referred to the massive Easter Sunday bombings in Sri Lanka as an act of terrorism that has affected the entire world. He also mentioned the recent protests in Hong Kong, which have caused concern among the international community. The ambassador called on all parties to resolve their differences through peaceful means and to work together for the betterment of the region.

TAIWAN CALLS FOR 'GENUINE ELECTIONS' IN HONG KONG

Taiwan called for "genuine elections" in Hong Kong, urging the city’s leaders to respect the will of the people. The announcement came in response to the recent protests in Hong Kong, which have been sparked by concerns over security legislation and other issues. The protests have been met with a heavy police response, leading to significant violence and casualties.

The government of Taiwan expressed its support for the people of Hong Kong and called for a peaceful resolution to the crisis. The announcement also called on the international community to speak out against the use of violence by the authorities and to support the people’s right to self-determination.

Lanka introduces new laws to prevent terrorism

President Gotabaya Rajapaksa has introduced new laws and constitutional amendments to prevent terrorism in Sri Lanka. The new laws include measures to prevent and punish the financing of terrorism, the possession of weapons, and other related activities. The amendments also provide for the establishment of a special court to try terrorism-related cases.

The measures were introduced following the recent Easter Sunday bombings in Sri Lanka, which killed hundreds of people and injured thousands. The government has been under pressure to take strong action to prevent such incidents from occurring in the future.

N Korea leader votes in elections

North Korean leader Kim Jong-un has voted in the general elections, which were called after the death of Kim Jong-nam, his half-brother. The elections were seen as a test of Kim Jong-un’s leadership and his ability to maintain control over the country.

The elections were held with strict security measures in place, with authorities warning of potential threats from North Korea’s rival, South Korea. The results will be announced later this week.

China says Hong Kong protests 'absolutely intolerable'

China has urged protesters in Hong Kong to stop their disruptive activities, saying the demonstrations are "absolutely intolerable." China has been facing increasing pressure from protests in Hong Kong, which began in June 2019 over a proposed extradition law. The protests have since expanded to include broader demands for greater political freedoms and autonomy.

China’s foreign ministry spokesperson said the demonstrations are "absolutely intolerable" and called on the protesters to stop their activities.

"The situation in Hong Kong is absolutely intolerable and must be stopped," the spokesperson said.

The spokesperson also warned that any attempts to disrupt the elections in Hong Kong would be considered a threat to the country’s sovereignty.

"We will take strong actions against any attempts to disrupt the elections," the spokesperson said.

The comments come as Hong Kong continues to be engulfed in protests, with clashes between demonstrators and police becoming more common.

The protests have been sparked by a proposed extradition law that would allow Hong Kong to extradite suspects to China, raising concerns about the erosion of legal rights and freedoms in the city.

The government of China has repeatedly said that the protests are illegal and must stop, calling them a threat to the country’s stability and prosperity.
Russian air strikes on Syria: market kill 27: Monitor

French TV crew arrested in Australia

Indian Prime Minister Narendra Modi’s carbon tax plan is facing opposition from the country’s main opposition party, the Bharatiya Janata Party (BJP), which is pressing for a more gradual approach to reducing emissions.

Finnish security minister Toweri has announced plans to tighten visa procedures for citizens of Iran, Syria, and Iraq, as well as those from other countries associated with terrorism.

IMF asks cash-strapped Pakistan to mobilise domestic tax revenues

The IMF has urged Pakistan to mobilise domestic tax revenues to help reduce its reliance on foreign aid and improve its fiscal sustainability.

U.S. Treasury sanctions 13 officials of the Iranian Revolutionary Guard Corps

The United States has imposed sanctions on 13 officials of the Iranian Revolutionary Guard Corps (IRGC) for supporting terrorism and human rights abuses.

Washington (AP) - A group of Afghan activists raised anti-pakistan slogans during a protest at the Pakistan embassy in Kabul. The protesters were protesting against Pakistan’s alleged support for the Taliban and its role in the ongoing conflict in Afghanistan.

The apparel activists were demonstrating outside the embassy to call attention to human rights issues in Pakistan. They were shouting slogans such as “Pakistan go home” and “Pakistan is a enemy of peace.”

The protest comes amid growing tensions between Pakistan and Afghanistan over the Kart-i-Sakhi border crossing.

The demonstration began peacefully, but it turned violent later in the day when some protesters tried to break into the embassy. The police used tear gas and water cannons to disperse the crowd.

The protesters were demanding the closure of the Kart-i-Sakhi border crossing, which they say is being used by the Taliban to smuggle weapons into Pakistan.

The Pakistan government has denied the allegations and said it is not involved in anyatta or terrorism.

A group of Afghan activists has staged a protest outside the Pakistan embassy in Kabul, demanding the closure of the Kart-i-Sakhi border crossing.

The activists were shouting slogans against Pakistan and calling for justice for the victims of the Kart-i-Sakhi massacre.

The activists said they were protests against Pakistan’s alleged support for the Taliban and its role in the ongoing conflict in Afghanistan.

The demonstration began peacefully, but it turned violent later in the day when some protesters tried to break into the embassy.

The Pakistan government has denied the allegations and said it is not involved in anyatta or terrorism.
Through one-of-a-kind traditional textiles, designer Amit Aggarwal’s collection at the India Couture Week celebrates the uniqueness that individuals use and defines us for who we are.

**Last action hero**

**Filmmaker ROHIT SHETTY** learned the intricacies of stuntTricks from action director VEERVI DEVGAN, which he still follows. **Team VW**

**Rohit Shetty’s humble beginnings**

Rohit Shetty’s humble beginnings had only been for another career but in 1990, he started his film career by stepping into television. He started his career as a production assistant on the sets of Mahesh Bhatt’s films. He later worked as an assistant to several directors including S. Shankar, Prabhu Deva, and Manmohan Shetty. Shetty then moved on to directing television serials and finally made his debut as a director with the film “Kung Fu Shakti” in 2003.

Rohit’s entry into the industry was marked by his start in the television industry, where he learned the necessary skills and gained experience. His work ethic and determination were instrumental in his success. Shetty’s journey from being an assistant director to a successful director highlights his perseverance and dedication. His success story serves as an inspiration to aspiring filmmakers and professionals in the entertainment industry.

Breaking the glass ceiling

Empowering more women to be entrepreneurs and creating opportunities for them will fuel India’s economy to a higher level of growth, say Suvarn Baghawatula and Cristina Shenvi

**Women are underrepresented in key contribu-ting sectors in India’s economy.** In 2010, a World Bank report found that only 18% of women in India were working in the formal sector. This is a stark contrast to the world average of 31%. However, in recent years, there has been a gradual increase in the number of women entering the workforce, and this trend is expected to continue in the coming years.

New York: American John Isner captured his fourth title at the ATP grass court tournament in Newport, Rhode Island, beating Serbia’s Dusan Vukasin 7-6(2) 6-3.

Building on a strong season, Isner is now the second-highest ranked American player on the ATP Tour, trailing only No. 15 Frances Tiafoe, who acquired the position last year.

The seventh-seeded Isner raced to a 4-1 lead in the first set but was facing a fight in the second, when the 22-year-old from Stanislaus, who was planning his first ATP final, double-faulted on break point to equalize after Isner’s second set, and that was the only opening the big-serving American had to find.

The 34-year-old American — who produced only a weak five set but put 79 percent of his first serve in — fired off 27 aces and rubbished suggestions that he had lost motivation.

“I was really tired today,” Isner said. “I mean that in a very good way. You’re tired after a game and you still want to keep serving and keep playing. That’s something that the American also had the world’s best player, his special physical strength. Isner is having to play with a lot of pain, because his legs are like you are saying. The pain is very strong when keeping serve and doing everything right.

“I’m only in that place,” Isner said. “It’s not easy to play like that and, of course, you have to take some risks in the future because you’re like you are saying. The pain is very strong when keeping serve and doing everything right.

“Isner is having to play with a lot of pain, because his legs are like you are saying. The pain is very strong when keeping serve and doing everything right. “While the team management in Newport “with hopes” on the next ATP World Tour and beyond, they want Isner to use that as a springboard to aiming for the main competition. They want him to build on his American debut and enter the tournament after finishing fourth at the next ATP World Tour in 2025.

“Even with the La Liga match, which is to be played in Seville, on Thursday, on hernia, and French federation president Anne Hidalgo confirmed an concussion after an awkward challenge from Nabil Fekir, the Frenchman had said that he is now used to coming back. “I am very happy about the outcome of this year. We’ll see where we go from there.”

Astonish Grieszmann on Monterrey For Amazon, will come up against the European Champions League final at Wembley, where he will take on Frenchman Paul Pogba.

Grieszmann is one of the few footballers who can be said to have achieved career success both domestically and internationally. He has won the World Cup, the European Championship, and the Olympic gold medal with France. His performances for club and country have earned him widespread admiration, and he is widely regarded as one of the best players in the world.

Grieszmann is considered one of the most complete players in world football and is known for his technical ability, pace, and门前准确 and precision. He is also an excellent header of the ball, which makes him a dangerous player in set-pieces. With him on the pitch, teams face a significant challenge, as he can score goals from a variety of situations, whether it be from open play or from set-pieces.

discussed the possibility of a move to the Premier League, where he has been linked with clubs like Manchester United, Chelsea, and Arsenal. However, Grieszmann has insisted that he is committed to continuing his career with Atletico Madrid.

Griezmann’s interview is certainly not the first in recent years to raise questions about his future at Atletico Madrid. Reports have linked him with several clubs, including Manchester United and Chelsea, but he has always maintained that he is happy in Madrid.

Fans of Griezmann have been waiting for news on his future, as his contract at Atletico Madrid expires in 2023. It remains to be seen whether the Frenchman will extend his contract or move to a new club.

discussed his relationship with his teammates and highlighted the importance of unity and teamwork in achieving success. He also spoke about the challenges faced by a player in maintaining high performance levels in a competitive environment.

Griezmann’s commitment to Atletico Madrid and his desire to continue playing for the club is evident in his dedication to training and improving his skills. He has always been known for his自律 and professionalism, which have contributed to his success on the pitch.

In a time when football is dominated by high-profile transfers and big-money deals, Griezmann’s loyalty to Atletico Madrid is a welcome reminder of the importance of staying true to one’s roots and values.

In the end, it is his performance on the pitch that matters, and Griezmann has consistently delivered for his club and country. His dedication and commitment to his craft are an inspiration to all football fans, and he continues to be a role model for young players around the world.

In a recent interview, Griezmann has expressed his love for the game and his desire to continue playing for as long as possible. He has also spoken about his aspirations to win titles and achieve further success, both individually and as part of a team.

As Griezmann continues his career, he remains a player of exceptional talent and potential. He is a player who has the ability to inspire and lead, and his desire to achieve success is matched only by his dedication to the sport he loves. With time, Griezmann’s legacy will be defined by his contributions to the game, and he is certain to be remembered as a player who left an indelible mark on the sport of football.
Pusara leads Indian squad as Saina set to make comeback in Japan tourney

**Krushnendu wants to be consistent like Virat**

CRICKET

Krushnendu had become the first player to score a century at the domestic level this season against Manipur in his maiden first-class match. The World Championships qualifier match at Visakhapatnam is also worth noting, but the 35-year-old is better known for his limited-overs exploits. The Indian middle order batsman needs to be consistent in his first-class matches to be considered for higher honours. He is a big admirer of two-time World Cup winning Indian skipper Virat Kohli and wants to learn from him.

**Sindhu aims to make amends**

Badminton

Sindhu's results over the past 12 months have been dismal. While the Indian star may be coming off a well-deserved break, she will want to make amends for her recent poor performance and take her first victory in the last four matches against her arch-rival Tai Tzu-ying in August.

**India OUT of Asia C'ships**

Badminton

India could not make it to the semi-finals of the Asian Championships on Saturday, losing 2-3 to South Korea. The Koreans had won 9-6 in the opening doubles match, and then lost the second doubles to the Indians 6-7 (7-11), 9-11, 7-11, 11-9, 11-8. The Indians won the third doubles 9-21, 21-12, 21-10, but the first mixed doubles pair of Sania Mirza and Chirag Shetty lost 8-21, 21-16, 13-21. The tournament was held in Jakarta from September 6-12.

**Paddlers complete golden sweep**

Badminton

The Indian paddlers completed a golden sweep at the Asian Games with Sharath Kamal winning the men’s singles title, and Ashwini Ponnappa and N Sikki Reddy winning the mixed doubles. Earlier, the duo had faced each other in the semi-finals of the Swiss Open, will face off against the boys’ singles Gold that Lakshya Sen won last year to end India’s 54-year wait in the men’s singles event.

**Mental fortitude is key**

Cricketers

Former chairman of the Pakistan Cricket Board (PCB) Najam Sethi said that the mental fortitude is key for the team to make a comeback in the upcoming series against India. He added that the players need to focus on their mental health and not just their physical fitness.

**Tendulkar’s performance is crucial**

Former India skipper Sachin Tendulkar said that the performance of Indian captain Virat Kohli is crucial for the team to make a comeback in the upcoming series against England. He added that the team needs to support Kohli and not put pressure on him.
