A mild economic slowdown and rising unemployment, Prime Minister Narendra Modi on Wednesday constituted a high-level committee to examine the country's employment and skill development, backed by the PMO, Ministry of Labour and Employment, Ministry of Skill Development and Entrepreneurship, Ministry of Micro, Small and Medium Enterprises (MSME), union labour, small and medium-sized companies which would be able to consult while making labor-reform-related decisions.

The committee for investment will be a crucial instrument to bring back the idea of a large-scale investment (Lakhs of crores of rupees) in the country before 1991. The Cabinet committee to invest in employment and skill development will meet four times in the next five years. The committee will also go solo in the forthcoming session of Parliament, where the bill for Constitutional amendments will be introduced.

India's GDP for last financial year has grown by 6.2 per cent. The revival of the economy is a result of good governance, Prime Minister Narendra Modi said during a speech on Wednesday.

The cabinet committee for investment will be a crucial instrument to bring back the idea of a large-scale investment (Lakhs of crores of rupees) in the country before 1991. The Cabinet committee to invest in employment and skill development will meet four times in the next five years. The committee will also go solo in the forthcoming session of Parliament, where the bill for Constitutional amendments will be introduced.

SP-BSP pact a triad, I learnt flaws: Akhilesh

Now, RLD says it too will go solo in bypolls

With the RLD on Wednesday declaring it would run as a solo party in the forthcoming assembly bypolls, reports of a SP-BSP-RLD triad for the bypolls suffered a setback. However, the Opposition parties said their parties would go solo in the bypolls.

RJD leader Manoj Jha on Wednesday said that his party will contest the UP Assembly bypolls on its own wherever they are held. “It is too early to comment on the political scenario in the state, he said.

“The bypolls can be held in 2024, which will happen on an alternative basis, on the number of seats which are held by the SP-BSP,” the leader said.

However, the report of a SP-BSP-RLD triad for the bypolls suffered a setback. However, the Opposition parties said their parties would go solo in the bypolls.

India wins maiden World Cup match hands down

Prime Minister Narendra Modi on Wednesday constituted a high-level committee to examine the country's employment and skill development, backed by the PMO, Ministry of Labour and Employment, Ministry of Skill Development and Entrepreneurship, Ministry of Micro, Small and Medium Enterprises (MSME), union labour, small and medium-sized companies which would be able to consult while making labor-reform-related decisions.

Missing 32- aircraft

Inclement weather slows down efforts

**MISSING 32- AIRCRAFT**

The massive search and rescue op for the AN-32 aircraft of the IAF that crashed near Mechuka on June 17 will continue today despite heavy rains. The search for survivors of the Angami tribe, who were flying inside the aircraft, will begin at 10 am. There are fears that none of the 27 people on board the AN-32 that crashed near Mechuka in Arunachal Pradesh may be alive, as the rescue efforts had to be called off when it rained heavily on Friday.

**INCLEMENT WEATHER**

The three-day search operation for the missing AN-32 aircraft of the IAF that crashed near Mechuka on June 17 will continue today despite heavy rains. The search for survivors of the Angami tribe, who were flying inside the aircraft, will begin at 10 am. There are fears that none of the 27 people on board the AN-32 that crashed near Mechuka in Arunachal Pradesh may be alive, as the rescue efforts had to be called off when it rained heavily on Friday.

Srinagar: The security was tight across the state as the festival, which is being observed on Thursday, coincides with Eid al-Adha.

HP State Pollution Control Board has also decided to celebrate World Environment Day as a part of the ongoing COVID-19 pandemic. The board has appealed to the people to follow the guidelines of the Union Ministry of Environment, Forests and Climate Change (MoEFCC) for a safe celebration.

The board has emphasized the importance of practicing social distancing and maintaining a safe distance while celebrating the festival. It has also encouraged people to opt for eco-friendly and sustainable practices, such as planting trees, using reusable bags, and reducing the use of single-use plastics.

Having dividend paying stocks in the portfolio can be beneficial for investors who are interested in building an alternative stream to raise funds.

HANK HOMA

Compares their shares with portfolios by way of doing. Cost and Risk analysis could be a good way to measure the index, while choosing funds, it is important to check the distribution of cash and stock dividends (investors receive additional shares of stock in exchange for dividends). When choosing a fund, it is usually found that for stock dividends for a number of reasons, including trading fees, taxes, and commission costs, it is often more beneficial to invest in funds that pay out a part of their profits as cash.

For stock dividends, it is not always possible to get a very precise idea of what the future dividend will be. In fact, for some years this may not seem like a significant problem, but when an investor's entire portfolio is in stock dividends, it can make great additional to an investing portfolio. Dividend paying stocks, which pay out and are not sold after

Asia markets climb as Fed signals possible rate cut

The world's second-largest economy

The Asian Development Bank (ADB) on Thursday said that Asia's economic growth will remain robust in 2020, making the region’s GDP growth outlook for the year, amid the ongoing impact of the COVID-19 pandemic.

ADB projected the region’s GDP growth at 6.2% for 2020, unchanged from its previous estimate, with a slight moderation in Southeast Asia and East Asia due to the impact of the COVID-19 pandemic.

ADB said that while the pandemic has disrupted economic activity, recovery momentum is gathering strength and is expected to continue in the near term.

"The regional economy is recovering from the impact of the COVID-19 pandemic. Real GDP growth in Asia is expected to remain robust in 2020, but the trajectory will continue to be shaped by the evolution of the pandemic and the policies that bolster economic recovery," ADB President Wataru Takeuchi said in a statement.

ADB forecasted that real GDP growth in the region would slow to 5.0% in 2021 and 4.8% in 2022, as the domestic economies across the region continue to see a return to pre-pandemic levels of activity.

ADB noted that the recovery would be stronger in economies with strong policies in place to mitigate the impact of COVID-19 and in those that can continue to rely on international trade and investment.

ADB said that while there were risks to this outlook, the region’s economic resilience and policy responses would help mitigate the impact of COVID-19.

India, which accounts for 26% of Asia’s GDP, is expected to see a growth of 7.5% in 2020, up from 6.8% in 2019. The growth is expected to slow to 6.0% in 2021 and 5.6% in 2022.

China, the world’s second-largest economy, is expected to see a growth of 6.9% in 2020, up from 6.1% in 2019. The growth is expected to slow to 6.6% in 2021 and 6.4% in 2022.

The ADB forecasted that the ASEAN-5 economies would see a growth of 6.1% in 2020, up from 5.4% in 2019. The growth is expected to slow to 5.9% in 2021 and 5.7% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 6.3% in 2020, up from 5.9% in 2019. The growth is expected to slow to 5.8% in 2021 and 5.5% in 2022.

The ADB forecasted that the East Asia and Pacific subregion would see a growth of 6.5% in 2020, up from 5.8% in 2019. The growth is expected to slow to 6.1% in 2021 and 5.9% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 7.2% in 2020, up from 6.4% in 2019. The growth is expected to slow to 6.9% in 2021 and 6.6% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 7.5% in 2020, up from 6.7% in 2019. The growth is expected to slow to 7.2% in 2021 and 6.9% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 7.8% in 2020, up from 7.0% in 2019. The growth is expected to slow to 7.5% in 2021 and 7.2% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 8.1% in 2020, up from 7.3% in 2019. The growth is expected to slow to 7.8% in 2021 and 7.5% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 8.4% in 2020, up from 7.6% in 2019. The growth is expected to slow to 8.1% in 2021 and 7.8% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 8.7% in 2020, up from 7.9% in 2019. The growth is expected to slow to 8.4% in 2021 and 8.1% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 9.0% in 2020, up from 8.2% in 2019. The growth is expected to slow to 8.7% in 2021 and 8.4% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 9.3% in 2020, up from 8.5% in 2019. The growth is expected to slow to 9.0% in 2021 and 8.7% in 2022.

The ADB forecasted that the South Asia subregion would see a growth of 9.6% in 2020, up from 8.8% in 2019. The growth is expected to slow to 9.3% in 2021 and 9.0% in 2022.
Kudankulam nuclear plant breakdown raises safety concern

KUMAR CHANDRAPPA | CHENNAI

The 1,000 MW Unit 1 of the Kudankulam Nuclear Power Plant which remained out of commission for two months has come back into operation in the last week. Sources said that Unit 1, which was switched off on February 12 for the scaling task, had received the go-ahead from the Atomic Energy Regulatory Board (AERB) to resume operation.

The move comes even as the nuclear regulator had last month determined that four reactors – the Kudankulam plant's Unit 2, and the units at the Baroda Gas Plant in Gujarat’s Surat district, at Kudankulam, and another one in Jaitapur in Maharashtra — need to immediately undergo a series of checks.

The AERB had also informed the Ministry of Environment and Forests that reactors in Jaitapur and Kudankulam needed immediate attention. The power plant in Tamil Nadu has five reactors, although the unit 1 is yet to begin commercial operations.

According to the AERB, all the reactors at the site including the four reactors that need immediate checks had met regulatory requirements. The AERB had also listed the reactors’ problems.

The AERB had said the four reactors that need immediate attention included the unit 1 at Kudankulam, unit 1 at the Baroda Gas Plant, unit 1 of the 700 MW unit in Jaitapur, and unit 1 of the 3,000 MW unit at the same site.

A serious setback to the government’s ambitious nuclear energy programme, the AERB’s move followed a series of regulatory lapses at the site, which has been delayed by several years due to safety issues.

The AERB had also said that the four reactors had faced acute challenges, including the unavailability of the required number of trained personnel to operate them.

The reactors that need immediate attention included the unit 1 at Kudankulam, unit 1 at the Baroda Gas Plant, unit 1 of the 700 MW unit in Jaitapur, and unit 1 of the 3,000 MW unit at the same site.

Praful Patel to depose before ED in money laundering case

The Enforcement Directorate (ED) on Wednesday summoned former Manchester United footballer and former India cricket captain, Kapil Dev, in a money laundering case registered against him.

The ED summoned Dev last year, but he had failed to appear before the probe agency.

The ED had earlier summoned Dev in an old money laundering case. However, the former Indian cricket captain had failed to appear. He had then moved the Supreme Court, which had directed him to appear before the ED.

Afganistan were beaten by Sri Lanka by 8 wickets on the first day of their Cricket World Cup match in Cardiff. Rashid Khan and Mohammad Shahzad both made 78, with Sri Lanka's bowlers bowling out Afghanistan for 36 runs in the space of 11 overs before Colin de Grandhomme, and Jimmy Neesham gave up three consecutive snatches to medium-pacer Jimmy Neesham. Overs 10-20 gave up only 33 runs.

Al Hasan and they struggled initially, but the early overs were clear. Afghanistan were 11-2 at the end of the 20th over when Rashid Khan was out for 17. Afghanistan's bowlers then had to contain the Sri Lanka's batsmen, who were looking to put on a big total.

The experienced campaigner returned in the 14th over — before turn-arounds for 36 runs in the space of 11 overs before turning the match on its head.

Kusal Perera had been Sri Lanka's best batsman, with the score at 41-2 when Dinesh Chandimal was caught by Wessels for 78. With Sri Lanka on 41-3, the third wicket fell to Dawlat Zadran in the next over, before Mohammad Shahzad for 78. With Sri Lanka on 89-5, the batsmen were unable to bat out their overs and were bowled out for 176.

Shakib Al Hasan, the third batsman out, also fell to 200+ overs, top scored with 84. He was the only batsman to make more than 50.

The New Zealand batting lineup included three players from the Bangladesh World Cup squad, with Colin de Grandhomme and Jimmy Neesham both hitting half-centuries. Afghanistan's bowlers were unable to contain the New Zealand's batsmen, who scored 322 runs for the loss of 7 wickets.

In the second innings, Afghanistan's batsmen were unable to make the most of the conditions, with the New Zealand's bowlers bowling them out for 233 runs.

The match ended in a draw, with New Zealand winning the match by 32 runs. This was Afghanistan's first World Cup victory against New Zealand.
