**STAFF REPORTER | NEW DELHI**

Pulmonary leads in the nation's capital to the "very poor" category on Sunday with toxic levels growing as heavy dust storms from the United States and Canada blew across the region.

According to private weather models, Delhi's air quality index (AQI) hit 400, with a "severe" classification on the Central Pollution Control Board's index. Levels of particulate matter (PM) reached 300, with a "very poor" classification.

After the open creed of the Delhi Minister of Environment, Science and Technology, Gopal Rai, the pollution has worsened. The AQI in the national capital stood at 394, according to the official.

On the other hand, the air quality index in other parts of the country, including Mumbai, Kolkata, and Jaipur, remained in the "moderate" category.

**Lack of Mosquitoes in West Bengal**

Despite heavy rain in West Bengal, the state reported a lack of mosquitoes. The rain has reduced the breeding of mosquitoes, which are known carriers of diseases like dengue and chikungunya.

**Increased Pollution in Delhi**

The pollution in Delhi has been linked to the burning of crop stubble in the neighboring states of Punjab and Haryana and the influx of dust from the northern plains.

Govt striving harder to bring N-E closer to country: Minister

The Union Minister for Development of North Eastern Region (DoNER) Jitendra Singh today said the government was putting in its best effort for a closer relationship of the North Eastern region with the rest of India.

“I also said there has been a commendable performance on the part of the North Eastern region. It has been very positive, he said. “This project not only would help in achieving the goal of 20 per cent ethanol blend in fuel but will also help to reduce our dependence on crude oil.”

The project will also promote use of environment-friendly fuel and will also aid the NE rivers and environment. The NE rivers have huge potential to generate hydroelectric power and the govt is trying to achieve the goal of 10 per cent power from renewable sources by 2022.

A national conclave was conceptualized at the initiative of the DoNER Ministry. It is an attempt to protect and revive Ayurveda and alternative systems of medicine under the aegis of the Ministry.

Javadekar said, “Happy to announce that 14th National Ayush Conclave was held in New Delhi in 2019, a conclave of Ayush leaders from all parts of the country and some Ayush leaders from abroad which was presided over by the Union Minister. It is a major conclave of Ayush leaders from all parts of the country and some Ayush leaders from abroad which was presided over by the Union Minister.

The Apex court verdict in the Ayodhya case, which resolved the Ayodhya issue in December 2019, has been hailed as a historic win for India, the only nation in the world to have both a modern legal system and a religious faith which is not based on a written constitution.

The Ayodhya dispute, which has been pending for decades, was resolved in December 2019, after a long legal battle, by the Supreme Court of India. The court ruled that a mosque should be built on the disputed site, and that a Hindu temple should be constructed elsewhere.

550TH PRAKASH PURAB

Capt Announces in name of Guru Nanak Dev for 11 varieties

HONOURS 400 PROMINENT PUNJABIS FROM AROUND WORLD

For the first time in its history, the state government on Wednesday announced a list of 400 prominent people from around the world who have been honored in the name of Guru Nanak Dev, the founder of Sikhism.

The announcement was made by former Chief Minister Charanjit Singh Channi during the 550th birth anniversary celebrations of Guru Nanak Dev, held at the historic Ber Sahib Gurdwara in Punjab's Patiala.

Channi said that the honor was given to the people who have made a significant contribution in different fields of life, including science, arts, culture, sports, and education.

The list includes individuals from various countries such as the United States, Canada, Australia, and the United Kingdom.

The honor was announced in the presence of state Ministers, including Simranjit Singh Banto, who is also the Minister of Tourism.

The annoucation was made in a ceremony that included the singing of hymns and the distribution of sweets among the guests.

The event was attended by a large number of people who had gathered to celebrate the occasion.

The celebrations were also marked by a cultural program that included music, dance, and other traditional performances.

The event concluded with the address by Channi, who expressed his gratitude to all the recipients for their contributions.

Channi also said that the honor was a way of recognizing the achievements of the people who have made a positive impact on the world.

Trump may release transcript of April Ukraine call

Trump released the transcript of a call with Ukrainian President Volodymyr Zelenskyy on April 23, 2019, in which he pressured Zelenskyy to investigate political rival Joe Biden and his son. The call was held days before Biden was set to board a plane to the G7 summit in France, but Trump abruptly ended the call, saying he wanted to "save" the money promised for Ukraine. The transcript was released after a series of revelations that the Trump administration had tried to block the release of any record of the call, including the possibility of forwarding the call to the Bureau of Public Affairs for release. The transcript was released as a result of a lawsuit by The New York Times and other news organizations.

Trump cast the release of the transcript as a " يكون أميركا "، which translates to "Let America be America again!" He said the release was a " historic moment " and a " moment of truth. "

The release of the transcript was met with widespread criticism, with many lawmakers and experts calling it a " cover-up " and a " violation of the constitutional separation of powers. " Some called for the release of any other conversations that may have occurred during the call, including any recorded conversations with other countries. The release of the transcript also raised questions about the potential for other conversations to be released in the future, especially as the Trump administration has consistently refused to release any other official records of the phone calls he has conducted.

The release of the transcript was a significant development in the ongoing impeachment inquiry, with many lawmakers calling for the release of any other official records of the phone calls he has conducted. The release of the transcript also raised questions about the potential for other conversations to be released in the future, especially as the Trump administration has consistently refused to release any other official records of the phone calls he has conducted.

Censorship of hate?

Following the suspension of a prominent lawyer’s account, liberals ask if Twitter is wrong

There is a problem with both sides of the narrative in the media nowadays. They both are so extremely wedded to their positions that they refuse to see what the other side is saying. However, this brings us to a question: have we not reached an endpoint?

Twitter is committing a sin, as is the government, when it comes to social media. The suspension of a prominent lawyer on Twitter has some commentators at an alleyway “liberal” nite hopping up and down screening censorship and calling for platform to be either monitored by government or the suspension of the lawyer.

The user himself had a pet ulterior demand that Twitter was censoring free speech and arrested, ironically, given his positions on several issues, for support from the India government. This is odd, but it is understandable. This, therefore, brings us to a question: have we not reached an endpoint?

The user himself had a pet ulterior demand that Twitter was censoring free speech and arrested, ironically, given his positions on several issues, for support from the India government. This is odd, but it is understandable. This, therefore, brings us to a question: have we not reached an endpoint?

This brings us back to the endpoint. It is an odd situation. We have seen it before: when the opposition introduces a bill in parliament, the government uses its majority to block its passage. This is a common practice, but it is still surprising to see it happen in this case.

The government’s actions are likely motivated by a desire to silence its critics and to maintain its grip on power. However, this approach is not sustainable in the long term, as it risks alienating the public and undermining the government’s legitimacy.

It is important for the government to be transparent and accountable in its actions. The citizens have the right to know what the government is doing and why. If the government is not transparent, it risks losing the trust of the public.

The government should also be mindful of the potential impact of its actions on the economy. If the government’s actions are seen as undemocratic, it may lead to a decrease in foreign investment and a loss of confidence in the government’s ability to manage the economy.

In conclusion, the government’s actions are concerning. It is important for the government to be transparent and accountable in its actions. The citizens have the right to know what the government is doing and why. If the government is not transparent, it risks losing the trust of the public.

The government should also be mindful of the potential impact of its actions on the economy. If the government’s actions are seen as undemocratic, it may lead to a decrease in foreign investment and a loss of confidence in the government’s ability to manage the economy.

Bakthi Gopal Chavan

Bakthi Gopal Chavan is a journalist who has reported on political developments in India. His work has appeared in various publications and he is known for his insightful commentary on Indian politics.

In this article, Chavan discusses the political landscape in India, focusing on the ongoing conflict between the Bharatiya Janata Party (BJP) and the Congress Party. He highlights the tension and dynamics between these two major political parties, particularly in the context of the upcoming elections.

Chavan also touches on the role of regional parties and their impact on the national political scene. He explores the complexities of India's federal system and the challenges faced by both the central and state governments.

Overall, Chavan's article provides a comprehensive analysis of the current political climate in India, offering readers a deeper understanding of the political landscape and the forces at play.
Indian economy facing challenges: Sitharaman

India's economy has faced significant challenges in recent years, with a slowdown in growth and increasing poverty. The government has taken several initiatives to boost the economy, but their effectiveness is questionable. The current government of India is under criticism for its economic policies and lack of progress in addressing the economic issues.

The Indian economy faces a number of challenges, including a slow-down in growth, high inflation, and rising poverty. India bagged an unexpected 1-0 victory in Group C against Sweden thanks to a second-half goal from forward Alireza Azari. India came within inches of another goal late on following a quality cross from Parikshit Chunnane.

There was a shock as the opening goal of the match did not come until the 27th minute when Azari scored from a pass from his teammate Anirudh Thapa.

This is India's fourth ever victory in an Olympic match and they are currently ranked 11th in the group.

A goal in the 88th minute from Brazil’s Richarlison confirmed a 2-0 win over Switzerland in their second Group C game at the Tokyo Olympics.

Switzerland's early lead was soon cancelled by a goal from Brazil's Richarlison, who tapped home a cross from teammate Neymar in the 16th minute.

After the break, Brazil dominated and added another goal in the 88th minute, with Richarlison scoring his second of the match.

Brazil now have six points from their two games and are through to the quarter-finals, while Switzerland have four points and are still in contention.

Gunners boss pleads for more time as Arsenal suffer further clear of Arsenal

A new manager, Unai Emery, has already tasted defeat in his first three games in charge. However, despite the loss, he feels the team is improving and has called for more patience and understanding from supporters.

"I feel very happy. I have won five games in six matches," said Emery, who has been in charge since taking over from Alex Brooker.

He said the team is improving and is building a solid foundation for the future.

"We are working hard on our defensive set-ups and are improving our overall performance. We want to make it difficult for the opposition and keep the clean sheets."
Guptill and Colin Munro gave overs per side because of rain, tiring Martin Guptill stood four balls while the hard-hitting over and was out of six after Zealand finished nine runs over was tied, this time New Zealand final, when even the super deciding over.

47 enabled England to catch innings brought the tourists on the last ball of the England final four months ago.

break the deadlock in scenes with a super over required to take India to a challenging score.

Shafali was the first to go when she was dismissed by Shakera but unlike the World Cup, Dhawan (19 off 16) in the middle and with both the batsmen under pressure having been deceived by a slower one from medium fast bowler Soumya Sarkar.

However, Dhawan could not last long after hitting four hits. He struggled in his nine overs. Rahul too began his innings in a similar fashion, going for the length and with successive boundaries.

Rahul and Iyer gave a much needed boost to the Indian innings with a 59-run stand.

Rahul in full flow is a must to watch batting first, struggling to 31 for two in six overs. It would have three down at that stage if

Eng snatch T20 series in super over finish

It was a maiden Twenty 20 International half-century for Iyer (52 off 33) and the sixth one for Rahal (52 off 30), Nney's entertaining knock came after he was dropped in the second over.

Rahul too began his innings in similar fashion going for the third over straight drives before punishing Indians, through the round point.

Dhawan could not last long after hitting four boundaries, missing a slog to be caught in the deep by Mahmudullah. India once again could not get to a good start batting first, struggling to 31 for two in six overs. It would have three down at that stage if

Shafali, Mandhana secure first T20 win

Shafali Verma and Smriti Mandhana have scored scintillating half centuries as the Indian women's team won a comfortable 6-wins over hosts West Indies in the first T20.

The 16-year-old Shafali and Mandhana smashed a record 154-run opening partnership in bangladesh's 105 for 4 in their stipulated 20 overs at the Darren Sammy National Cricket Stadium.

The visitors then returned to score 105 for 10 for 9 to qualify for the series in the Netherlands, in the presence of former India captain Rahul Dravid (11) and former West Indies cricketer Brian Lara (11), who were among the 300 spectators.

but into, Shahid, playing only her fifth T20I, smashed six boundaries and four sixes to notch up her maiden international half-century.

Fifteen-year-old Shafali Verma also became the youngest Indian cricketer to score a half-century in international cricket, surpassing Sachin Tendulkar's 30-year-old record.

Put into bat, Shafali, playing only her fifth T20I, smashed 85 in the series-leveling six boundaries and four sixes to notch up her maiden international half-century.
