TRUMP TALKS ‘RETAIATION’ IF INDIA REJECTS EXPORT OF KEY DRUG

President Donald Trump has said there may be retaliation if India does not agree to export the drug favipiravir to the US. The US has already asked for the drug to be exported, and the Indian government has so far refused. The US President’s threat comes amid concerns over the spread of the COVID-19 pandemic. India has so far recorded over 400,000 cases of the virus, making it the third worst-affected country in the world.

JAPAN ENDS OLYMPIC FLAME DISPLAY TO PREVENT COVID-19 SPREAD

Organisers of the Olympics have decided to end the Olympic torch relay in Japan, following the WHO’s warning against large gatherings. The torch relay, which was scheduled to start on March 24, was to pass through 416 municipalities in 47 prefectures. The decision was taken after the World Health Organization declared the COVID-19 pandemic a global emergency.

KERALA, MAN WITH NO COVID SYMPTOMS TEST POSITIVE

A man in Kerala has tested positive for COVID-19, even though he had no symptoms of the disease. The patient, a 45-year-old man from the state’s Kollam district, tested positive for the virus on April 8. He had no contact with anyone who was infected and had not travelled abroad.

GLOBAL DEATH TOLL FROM COVID-19 TOPS 75,000

The global death toll from COVID-19 has topped 75,000, according to the World Health Organization. The total number of confirmed cases worldwide is now over 1.6 million, with more than 2.8 million cases reported. The pandemic has spread to over 200 countries and territories, with the United States, Brazil, Russia, and Spain reporting the highest number of cases.

CENTRE MULLS EXTENDING LOCKDOWN

The Indian government is considering extending the lockdown until May 31st. The current lockdown, which started on March 25th, is scheduled to end on May 15th. The Centre is expected to take a decision on extending the lockdown in the coming days, taking into account the latest developments in the COVID-19 pandemic.

TIDING OVER FINANCIAL CRISIS

The Indian government has decided to extend the lockdown by two weeks, from May 25th to June 7th. The extension of the lockdown is expected to help contain the spread of the COVID-19 pandemic in India. The government has also announced measures to support the economy and help the poor during the lockdown.

DON’T DEMONISE A CRIME

According to GHMC’s officials, sanitation workers are taking the risk of spreading the virus by picking up waste from houses. This is in response to the government's call to contribute to the fight against the virus. The government has also introduced measures to prevent the spread of the virus, including the closure of all educational institutions, the promotion of online learning, and the suspension of all public gatherings.

Groundwater levels dip in state

The groundwater level in various parts of the state has dipped due to the lockdown. The government has taken steps to ensure the availability of water during the lockdown.

Garbage generated down by 1,400 MT

The garbage generated in the state has decreased by 1,400 MT due to the lockdown. The government has also introduced measures to collect garbage in a safe manner and ensure its proper disposal.

The fact, however, remains that the Central government will have to take a decision on lifting the lockdown, as the country faces the possibility of community transmission on a large scale. (Photo: DCB)

According to the minister in-charge of the health department for the Telangana government, K. Narasimhan, the state government was mulling over the issue of imposing a lockdown again.

“Despite the overall reduction in the number of cases, the state government has decided to review the situation in a week,” Narasimhan told PTI. “The lockdown is likely to be extended for another 14 days.”

Meanwhile, the state government also decided to extend the nationwide lockdown till May 3.

The national capital saw its highest number of fresh COVID-19 cases in the last 14 days, recording 1,351 new infections and 11 deaths, according to the state health bulletin.

The highest number of cases was reported from the west Delhi district, with 360 new infections and six deaths, followed by the New Delhi district with 319 cases and three deaths.

The national capital has so far reported 6,624 cases of COVID-19, with 96 deaths.

City firm to produce Covid-19 testing kits

Principal Secretary Prof. J.R. Mahbub Ali, Advisor to the Telangana Government for Commerce and Industries, told reporters that the company had been given the go-ahead by the government to manufacture and package the testing kit.

The kits will be exported to Dubai and other Gulf countries where there is a large expatriate population of Indians, he said.

Mahbub Ali said that the company had 100% capacity to produce the kits and that it would be able to ramp up its production to meet the demand.

Cash is no longer king during virus pandemic

A research has suggested the government to explore the possibility of using polymer currency notes, instead of paper currency notes.

The report said that the use of polymer currency notes can help prevent the spread of diseases spreading via currency notes. "Although the government hasn't yet decided on polymer currency notes, the World Health Organization has suggested the government to widely use fabric currency notes."

The report added that using fabric currency notes can help prevent the spread of diseases spreading via currency notes and can be used by people with visual impairments.

Mahmood Ali: Adopt strict dietary measures

Komatireddy, Revanth lash out at KCR

Addressing a letter to the Chief Minister, Bhupender MP Komatireddy alleged that a group of Ministers and Deputy Ministers of the KTR has been conducting press meet in a hotel for hours together instead of serving two meals to the poor. He alleged that the food departments are not providing any food to the people who are suffering due to lockdown. He also alleged that the government is doing everything by spreading stories of rations to tackle the spread of the virus, he said in the letter. He demanded the Chief Minister to direct the CMO to immediately and directly distribute 12 kg rice to every household. He also asked the government to give ₹2,000 to ₹3,000 to those who don’t have ration cards. The govt should also see that the government is doing everything to stop spreading stories of rations to tackle the spread of the virus, he said in the letter. He requested the government to provide rice and other essentials to those who don’t have ration cards.

How Modi government is running the country from ‘home’

The government has been advocating strict social distancing norms and work from home, for a month now in wake of the coronavirus outbreak. As of Tuesday, India has surpassed 4,400 coronavirus cases with 114 deaths at least. While 133 crore Indians remain locked down inside and most of the urban workforce is working from home, how is the government of India and its top ministers running the show from their home, themselves?

Chief Minister was busy in extending help to the poor amid lockdown crisis.

extend helping hand to the Minister K Chandrashekhar Rao on Tuesday launched a KCR, Komatireddy, Revanth lash out at KCR top three states for two consecutive rankings released by Socio Economic and Health Index (SEHII), 2020. According to SEHII, the Telangana state has improved its ranking by a notch compared to the last six years were focused on providing better medical care and child healthcare services. The state ranked amongst the top three states with 89.6 points in the last six years of the last six years were focused on providing better medical care and child healthcare services.

Given the advances in design and architecture, it is possible to create a hospital within a hospital that can be used during outbreaks.

A further disconnecting community atmosphere seems to have enveloped the entire country at a critical juncture when we all should be functioning as one. What is this? What is the society? Is it the society that spread the virus or the society that controls the spread of the virus? Why is it that the society is the one that controls the spread of the virus? And it respects no one. It provides psychological, emotional and physical support to those in distress, but almost always respects none. It is often the case that the society is the one that controls the spread of the disease. However, a critical difference between other disasters and the infectious disease disaster was the role played by “staff” and “normal” patients.

At critical junctures, health management does not defer a direct and significant threat to the wellbeing of others in the physical presence of the naked. Infectious disease disasters are, however, often a part of the normal course of events. This has been tragically witnessed in the current outbreak with a single number of both health workers and normal patients contracting the disease in this line of work. The use of personal protective equipment, preventative measures and physical segregation are onerous in our current context of infectious disease disasters but they do have limitations. And it is not possible to compile successful protective measures or large number of health workers, just as it is not possible to compile care in the face of the rising numbers.

The President, PM, Ministers and Governors will take a 30 percent salary cut. The money will go to the Consolidated Fund of India.

There is no denying that the Arrow Award-winning doctor has done his part. The Ministry of Health and Family Welfare has chosen to present the Arrow Award to the Arrow Award-winning doctor. The Ministry of Health and Family Welfare has chosen to present the Arrow Award to the Arrow Award-winning doctor.

Second, the creation of dedicated hospitals that are used to treat COVID-19 patients alone is not enough. The entire health system needs to be scaled up and readied for a surge in cases as the pandemic inevitably deteriorates. For many countries, this means building new hospitals and expanding existing ones, ensuring that adequate medical equipment is available, and increasing the number of trained healthcare workers.

KARAN THAKUR

In India, where religion plays a major role in politics, even in the environment, the religious leaders will go on to help contain the pandemic. It is a welcome measure that they have joined the fight against the virus with the following:

Religious leaders have a vital role in COVID war

In India, where religion plays a major role in politics, even in the environment, the religious leaders will go on to help contain the pandemic. It is a welcome measure that they have joined the fight against the virus with the following:

The religious leaders have been an integral part of the fight against the COVID-19 pandemic in India. They have provided emotional and psychological support to those in distress and have been instrumental in spreading awareness about the importance of following COVID-19 preventive measures.

In the current context, when the virus is surging and the healthcare system is under immense pressure, the support of religious leaders is crucial to help contain the spread of the virus.

Religious leaders have been providing guidance and support to the community on preventive measures and the importance of following COVID-19 guidelines. They have also been actively involved in distributing essential items and providing help to those in need.

Religious leaders have also been working closely with the government to ensure that the necessary resources are available to treat COVID-19 patients. They have been instrumental in setting up dedicated hospitals and providing necessary medical equipment.

In conclusion, the support of religious leaders is crucial in the fight against the COVID-19 pandemic. They have been instrumental in spreading awareness, providing emotional support, and ensuring the availability of resources to treat COVID-19 patients. Their efforts are commendable and will go a long way in helping contain the spread of the virus.
Indian solar panel maker Wood Mackenzie said on Wednesday it had cut its forecast for PV installations in India this year due to the spread of the coronavirus, but that it expected a recovery next year.

The company, which is part of the Woodlawn Group, lowered its forecast for PV installations in the country to 27.6 gigawatts (GW) from 32 GW previously. It expects the market to be back to normal by the fourth quarter of next year.

“India’s renewables installation could fall back to lockdown,” the company said in a statement.

Total’s arm Invests Rs 3.7 Cr to JV with Adani Group

Total S.A., the French energy giant, has invested Rs 3.7 crore in a joint venture with Adani Group, one of Asia’s largest infrastructure and financial conglomerates.

The company, named Total Adani Energy (TAE), will focus on renewable energy projects, said Total in a statement.

Total has a long-term strategy of converting its energy portfolio towards renewables, and this investment is part of that strategy, said the company.

BSE revises cut-off timings for MF subscription, redemption

The Bombay Stock Exchange (BSE) has revised cut-off timings for Initial Public Offerings (IPOs) and Initial Offers of Debt Securities (IOPDS) for mutual fund (MF) subscriptions and redemptions.

The cut-off time for MF subscriptions and redemptions will now be 12.30 p.m. instead of 3.30 p.m., the exchange said in a notice.

BSE also revised the cut-off time for MF subscriptions and redemptions for non-trading days.

Bank of Baroda to provide support to SHGs, FPOs

The Bank of Baroda has announced a partnership with the Ministry of Rural Affairs, Government of India, to provide support to self-help groups (SHGs) and farmer producer organizations (FPOs).

The bank will offer financial services, including loan disbursement, account opening, and various other banking services to SHGs and FPOs, the statement said.

The partnership aims to provide financial inclusion to rural and semi-rural areas, with a focus on empowering women and farmers.

Bank of Baroda will also provide support to SHGs, FPOs, and rural credit needs through its network of branches and ATMs.

Illegal trade in vaccines: Two arrested

Two persons have been arrested in Uttar Pradesh’s Etah district for illegal trade in vaccines.

The two were arrested by the police while transporting illegal vaccines in a car.

The police said they recovered more than 1,000 packages of illegal vaccines from the car.

The case is being investigated further.

Nabane: NAB linked to AL in 1984

The National Agency for the Burmese Nationalities (NAB) has been linked to the Advisory League of the Arab Liberation (AL) in 1984.

The AL, a political party, has been active in several countries, including India, and has been accused of links to terrorist groups.

The NAB was established in 1978 by the late General Aung San Suu Kyi, the leader of Myanmar’s National League for Democracy.

The AL has been linked to the NAB in several cases, with both groups accused of links to terrorist networks.

The AL has been banned in Myanmar since 1989, and its leaders have been charged with terrorism.

ILL ties up with OX university for COVID-19 vaccine

The Indian Laboratory for Live and Inactivated Viruses (ILL) has signed an agreement with the Oxford University in the United Kingdom to develop a vaccine for COVID-19.

The partnership aims to leverage the expertise and resources of both institutions to develop an effective and safe vaccine.

The Oxford University, with its experience in vaccine development, and the ILL, with its expertise in virology and immunology, will work together to create a vaccine that can be produced at scale.

The vaccine will be tested in a small-scale trial, and if successful, it will be scaled up for mass production.

The partnership is part of the government’s efforts to boost vaccine development in India, and is expected to contribute to the global effort to combat the pandemic.

Ensuring smooth shipping ops: Ministry of Shipping, redemption

The Ministry of Shipping has taken several measures to ensure smooth shipping operations during the lockdown.

The measures include allowing crew changes at sea, ensuring timely cargo handling, and providing financial support to shipping companies.

The ministry has also set up a helpline to address issues faced by shipping companies.

Total traffic handling at major ports has also increased marginally by 0.82 per cent to 705 MT in the last fiscal

Total traffic handling at major ports in India has increased marginally by 0.82 per cent to 705 million tonnes (MT) in the last fiscal year.

The ports handled 702 MT of cargo during the financial year 2020-21, compared to 697 MT in the previous year.

The increase in traffic handling is attributed to the resumption of economic activities and the reopening of the economy.

The ministry has been working to improve infrastructure and services at ports to further enhance their capacity.

The port sector is a key contributor to the country’s economy, and the government is focusing on developing a world-class port network.

Cargos handled at major ports marginally up at 643 MT in Apr-Feb

India’s major ports handled 643 million tonnes (MT) of cargo during the first two months of the financial year 2021-22, compared to 640 MT in the corresponding period last year.

The Ports Ministry has been working to improve the efficiency and productivity of ports to further increase cargo handling capacity.

The ministry has also been focusing on developing new ports and expanding existing ones to cater to the growing demand for seaborne trade.

Emirates to operate flights to and from India

Emirates has announced it will operate flights to and from India, starting from April 12, 2021.

The airline has been operating limited flights to and from India since last year due to the COVID-19 pandemic.

Emirates is optimistic about the demand for travel to and from India, and is looking forward to restoring a normal travel environment.

The airline has also been operating cargo flights to and from India to ensure the movement of essential goods and supplies.
To buy or not to buy

Buy toys for a toddler is necessary, since it sparks a child’s imagination. But what and how much to buy is a concern for most parents. To tackle this, Dr Haseeb Jaffer, child psychologist, suggests parents to try the new concept of activity boxes for children of all age groups.

Speaking to REDDY, television actress Pooja Murthy talks about her entry into television industry, learning Telugu language, challenging roles, OTT platforms, cinema and more

From child artist to lead actress

Pooja started her career as a child artist in the Kannada serial ‘Kundamitha’ in 2003. She acted in serials since her kindergarten days. “I had no idea what I was up to when I started as a child artist. I was quite young and thought nothing of it,” she says.

Apart from Kundamitha, she continued her journey in serials and films, gaining more recognition in the Kannada industry. Pooja had a brief stint in the Tamil industry too.

STARTED AS A CHILD ARTIST

Pooja started her career as a child artist in her Kannada serial ‘Kundamitha’. The audience loved her role as a little girl, and she was always in the news. She then started working in the Telugu industry as a child artist. “I was just a kid and didn’t understand much,” she says.

There were a few challenges that she faced during her early days in the industry. “I was a child artist, so there were a lot of physical challenges. I had to learn how to act and keep up with the pace of the industry,” she adds.

Pooja not only did serials but also ventured into films. “It was a difficult time for me, but I was determined to make it big. I worked hard and eventually got some roles,” she says.

GRATEFUL FOR LOVE FROM BOTH INDUSTRIES

Pooja is grateful for the love and support she received from both industries. “I feel lucky that I was able to make it big in both industries,” she says.

Pooja feels that the experience she gained in both industries has helped her grow as an artist. “I have learned a lot from both industries, and I feel lucky that I was able to make it big in both industries,” she says.

LOVING PLAYING CHALLENGING ROLES

Pooja loves playing challenging roles. “I enjoy taking on challenging roles, and I think that’s what makes me a better actress,” she says.

Pooja is currently working on a few projects in both industries. “I am excited to work on these projects, and I think they will be great opportunities for me,” she says.

FIND OUT MORE

To find out more about Pooja Murthy and her upcoming projects, visit her official website.

SRK, Priyanka for Lady GaGa’s mega COVID-19 fundraiser concert

Bollywood actors Shah Rukh Khan and Priyanka Chopra Jonas along with顶峰的 like Billie Eilish and Meghan Markle have signed up to the Lady Gaga’s One World: Together At Home, a mega virtual and televised benefit concert in support of the World Health Organization’s (WHO) Covid-19 solidarity initiative and in celebration of frontline health workers around the world. The event, which also includes names like Chris Martin of Coldplay, Eddie Vedder of Pearl Jam, Elton John, John Legend, Bruno Mars, Britney Spears, Billie Jean Armstrong of Green Day, Anson Mount, Bono, Ben Platt, Camila Cabello, Kacey Musgraves, Keith Urban and Lang Lang, reports in the guardian.com.

Keith Urban and Lang Lang, reports Coldplay, Eddie Vedder of Pearl Jam, Elton John, John Legend, Bruno Mars, Britney Spears, Billie Jean Armstrong of Green Day, Anson Mount, Bono, Ben Platt, Camila Cabello, Kacey Musgraves and Lady Gaga have united for a mega live-streamed One World: Together At Home concert, which broadcasts live across the US on April 18. Jimmy Kimmel and Stephen Colbert will host the event, along with David Beckham, Idris and Sabrina Elba, Kerry Washington, along with frontline health workers.

WHO’s general director, Dr Tedros Adhanom Ghebreyesus, said.

“The latter’s Together Asia series, launched last month, has featured performances from artists in isolation including Shawn Mendes, Coldplay, Ed Sheeran, Jonas Brothers, H.E.R., Mariah Carey, Shawn Mendes, Lizzo, and many more. The latter’s Together At Home concert represents a powerful show of solidarity and support from the music industry and those一线 entertainment and messages of hope and support for health workers worldwide. The Together At Home series is a new initiative that will bring together top artists and offers a unique platform to bring global attention to the global pandemic crisis through the power of music.”

She said that One World was not a fundraising telethon or a reality TV show, but to use the power of music to raise $35m for Global Citizen Together at Home.

“Together At Home concert represents a powerful show of solidarity against a common threat, “WHO general director, Dr Tedros Adhanom Ghebreyesus, said.

Gopi bags his first biggie!

The composer has been picked by Parasuram to compose music for his next with superstar Mahesh Babu, finds NAGARAJ GOUD

Despite belting out chartbusters like Thalapathy Vijay's Bigil, Naga Chaitanya's Soggade Chinni Nayana and Vijay Deverakonda's Geetha Govindam, composer Gopi has not been picked by Parasuram to compose music for his next with superstar Mahesh Babu. A source close to Mahesh Babu, however, said, "The director is really enthusiastic about working with the music composer and has been following his music in his film Satyamurthy and has also given the go-ahead to his next film."

The sources further added that the music sessions of the project will start after the lockdown is lifted. "With the situation going from bad to worse, Parasuram wanted to wait until the situation improves and then start the music sessions," the source added.

The untitled film, a love story with family emotions, has a lot of humour and action. An official announcement about the project is expected in the coming days.

Trivikram settles his due with Mythri

A financial issue between Trivikram Srinivas and Mythri Movie Makers, which has been pending for a long while, has been cleared. The pre-production matter has been divested to the director — a move that has never come by, they put in a request that he returns the money he received some four-five years ago to do a film with Mythri.

"Mythri Movie Makers, which has been pending for a long while has been cleared. The financial issue between Paradigm Entertainment and Movie Makers which last month to 50 poor people. Murali too donated essentials of one piece of advice to the director — our source close to the director — without divulging the figure — confirm the matter has been resolved for once and all."

Ban UV Creations trends; banner responds

UV Creations was at the receiving end of another controversy. The production house which last month to 1,000 needy people. Meanwhile, some unconfirmed reports were doing the rounds that the director, who is from a middle-class family, has been picked by Parasuram to compose music.

UV Creations was at the receiving end of another controversy. The production house which last month to 1,000 needy people. Meanwhile, some unconfirmed reports were doing the rounds that the director, who is from a middle-class family, has been picked by Parasuram to compose music.

The untitled film, directed by SS Rajamouli, is a pan-Indian magnum opus. The film, which is in the final stages of finishing, has been cleared. According to our sources, the film is going into the shooting mode soon, with NTR wrapping up his portions. The production house Mythri Movie Makers, which is producing the film, has paid the director Rs 4 crore as an advance. Donations galore!

Jr. Adriya Music, the leading music company of South India, has donated Rs 15 lakh to the CMRF to continue its fight against Covid-19. The music lab's chief decision-maker, Ussos Gupta, Dinakar Gupta, Sudhakar Gupta and Adriya Gupta and FF Apart has donated Rs 10 lakh to the Telugu Film Fraternity. UVPC, the film production venture between Gujarat's Meera Gupta and Telugu Stars, has also pumped in a sum of Rs 5 lakh to the CMRF. Singh Cinema, the leading film exhibitor of the Telugu telefilm industry, has donated Rs 5 lakh to the CMRF. Additionally, Multiplex entertainment company Multiplex Entertainment has also donated Rs 5 lakh to the CMRF. On the other hand, the Telangana government too donated Rs 5 lakh to the CMRF. The state government has also donated Rs 5 lakh to the CMRF. The state government has also donated Rs 5 lakh to the CMRF.

Deverakonda’s piece of advice

Deeravanda set to go to floors in June, Parasuram the lockdown is lifted. "With the film running smoothly, we are confident that the film will be completed on time," the source further added.

The source further added that the music sessions of the project will start after the lockdown is lifted. "With the situation going from bad to worse, Parasuram wanted to wait until the situation improves and then start the music sessions," the source added.

The untitled film, a love story with family emotions, has a lot of humour and action. An official announcement about the project is expected in the coming days.
Not enough role models in current Indian team: Yuvaraj

Yuvaraj Singh, who was an influential batsman in Indian cricket, once shared his thoughts on the current crop of Indian cricketers. He opined that there were not enough role models in the current Indian team.

Yuvaraj stated that there was a lack of role models in the current Indian team. "There are not enough role models in the current Indian team," Yuvaraj said.

He further added, "The current Indian team lacks role models. There are not enough players who can inspire the younger generation."

Yuvaraj, who played for India from 1997 to 2012, including the 2000 and 2011 World Cups, said that the team lacked leaders who could mentor the younger players.

"The current team lacks leaders who can guide the younger players. The team needs to have role models who can inspire the younger generation," Yuvaraj said.

Yuvaraj's comments come at a time when Indian cricket is facing criticism for its lack of role models and leaders. The team has been criticized for its lack of consistency and for not producing young talent.

"The current team lacks consistency. The team needs to have players who can inspire the younger generation," Yuvaraj added.

Yuvaraj's comments are likely to spark a debate among cricket fans and experts. The lack of role models in the current Indian team is a concern for the future of Indian cricket.
