**India's Covid-19 vaccine to be available by year-end: Vardhan**

Union Health Minister Dr Harsh Vardhan on Sunday said that India is fully prepped-up with two vaccine candidates for the third phase of Covid vaccination by the end of this year.

"We have two vaccine candidates, one being Covaxin by Bharat Biotech and another being Covishield by Serum Institute," Dr Vardhan said during a press conference here.

Vardhan added that with the third vaccine candidate, India is now getting ready to battle the third phase of Covid vaccination by the end of this year.

"We have two vaccine candidates, one being Covaxin by Bharat Biotech and another being Covishield by Serum Institute. This is the third period of vaccination, we are preparing ourselves for the third phase," the Union Health Minister said.

"We are fully prepped-up for third phase of vaccination by the end of this year," he said.

Vardhan further said that India is now halfway through the second phase of vaccination. He said that the government has so far vaccinated more than 12 crore people and by the end of this week, 15 crore people would be vaccinated.

"We are fully prepared for third phase of vaccination by the end of this year," he said.

Vardhan also said that two major vaccine candidates are in the final stages of clinical trials and the third candidate is also in its last stage of trials.

Vardhan also said that the Covid-19 vaccination drive has been a success in India and led to the reduction of deaths by 71.1 percent and reduction of infections by 73.1 percent. He also added that the government has made the target of providing vaccines to all Indians within a year.

CM: Metro should be resumed on trial basis

Delhi Chief Minister Arvind Kejriwal on Sunday said that Metro train services in Delhi should be resumed as soon as possible. Kejriwal, who had been critical of the Centre's handling of the COVID-19 pandemic, said the Delhi Government would resume the Metro services as soon as possible.

The Delhi Metro rail services were halted on March 22 when the national capital was put under a lockdown to curb the spread of COVID-19. Since then, only a few lines have been operating on a limited basis.

"I have received the report that the Centre should ensure that the Delhi Metro services be resumed as soon as possible," Kejriwal said.

Kejriwal also said that the Delhi Metro services would be resumed as soon as possible.

Delhi Metro services have been hit hard by the COVID-19 pandemic, and the Delhi Government has been urging the Centre to resume the services as soon as possible.

Delhi Metro services have been shut down since March 22 and are currently operating on a limited basis.

The Delhi Metro is one of the largest metro systems in the world, with a network of 392 km and 337 stations.

Kejriwal also said that the Delhi Metro services would be resumed as soon as possible.

**Film, TV series’ shooting back with new SOPs**

**NEW DELHI | Monday, August 24, 2020**

Shooting for films and TV series was suspended following the lockdown due to the coronavirus pandemic. The industry has now come up with new SOPs to resume work and ensure the safety of the actors and crew.

**Hit hard: Sri Kanth**

"Filmmakers and television producers had to take extra precautions and work in shifts to avoid contact with the coronavirus. The industry has to ramp up its SOPs to ensure the safety of the actors and crew. We need to ensure that the industry operates in a safe manner," said Telugu filmmaker Srikanth Reddy.

**Tight control**

The industry has come up with SOPs to ensure the safety of the actors and crew. These SOPs include regular temperature checks, mandatory sanitization, social distancing, and wearing masks. The industry has also set up a task force to monitor the safety of the actors and crew.

**Bollywood shooting resuming**

Bollywood shooting has also resumed with strict SOPs. The industry has set up a task force to monitor the safety of the actors and crew.

**Covid-19 isolates fast in small, large cities**

**NEW DELHI | Monday, August 24, 2020**

In a new development, the World Health Organization (WHO) has estimated that the COVID-19 coronavirus is spreading around the world at a rate of 1-3 per million population. The virus is spreading rapidly in cities of all sizes, as small as well as large localities.

**SOPs: Essential guidelines**

The SOPs include mandatory temperature checks, mandatory sanitization, social distancing, and wearing masks. The industry has also set up a task force to monitor the safety of the actors and crew.

**State-by-state chart**

The chart shows the current situation in different parts of the world, with the number of cases per million population.

Another win for non-violence?

State-sponsored violence is less effective than it used to be. Belarusian strongman Lukashenko tried for too long and then backed away.

The personal declamations on gender equality in the world are not to be taken lightly. The post-soviet states have introduced a number of gender equality laws and policies. This is not to say that there are no problems, but it is a positive development. The challenge now is to ensure that these laws and policies are implemented and enforced.

In the context of women's rights and empowerment, there is a need to address the issue of sexual harassment in the workplace. The UN Women's report on the status of women in the world highlights the need for stronger laws to protect women from sexual harassment. The report also calls for greater awareness and education on the issue.

Moreover, the report notes that while there has been progress in some areas, there is still a long way to go in terms of achieving gender equality. This is particularly true in the workplace, where women continue to face discrimination and harassment. The report calls for a more proactive and systematic approach to addressing these issues.

In conclusion, while there has been some progress in terms of gender equality, there is still much work to be done. It is important that we continue to work towards creating a world where women are treated with respect and equality.

Khan Government’s plans to roll out a country where only a minute percent/g39/g72/g80/g82/g70/g85/g68/g70/g92/g3/g68/g81/g71/g3/g58/g82/g85/g78/g17/g183/g82/g73/g3/g70/g82/g88/g85/g86/g72/g17/g3/g58/g76/g81/g81/g76/g81/g74/g3/g72/g79/g72/g70/g87/g76/g82/g81/g86/g3/g76/g86/g ... /g86/g92/g3/g76/g73/g3/g92/g82/g88/g3/g70/g82/g81/g87/g85/g82/g79/g3/g87/g75/g72/g3/g80/g72/g71/g76/g68/g15/g3/g87/g75/g72.../g70/g82/g88/g81/g87/g85/g76/g72/g86/g3/g81/g82/g90/g3/g85/g72/g84/g88/g76/g85/g72/g3/g83/g82/g83/g88/g79/g68/g85...g76/g87/g68/g85/g92/g3/g73/g82/g85/g70/g72/g3/g71/g72/g83/g79/g82/g92/g72/g71/g3/g68/g70/g85/g82/g86/g86/g3/g69/g82/g85/g ... 3/g71/g72/g70/g76/g71/g72/g3/g83/g82/g79/g76/g87/g76/g70/g68/g79/g3/g82/g88/g87/g70/g82/g80/g72/g86/g3/g72/g79/g86/g72/g16...g90/g85/g76/g87/g72/g85/g86/g3/g68/g81/g71/g3/g69/g88/g86/g76/g81/g72/g86/g86/g3/g83/g72/g82/g83/g79/g72/g3/g87/g82/g3/g8 ... /g3/g87/g75/g72/g3/g87/g85/g68/g81/g86/g73/g72/g85/g3/g82/g73/g3/g83/g82/g90/g72/g85/g17/g3/g44/g87/g3/g70/g82/g88/g79/g71.../g50/g85/g3/g87/g75/g72/g3/g70/g75/g68/g81/g74/g72/g3/g82/g73/g3/g85/g72/g74/g76/g80/g72/g3/g70/g82/g88/g79/g71/g3/g77/g88/g86/g87/g3/g87/g68/g78/g72/g3/g68/g3/g69/g76/g87/g3/g79/g82/g81/g74/g72/g85/g3/g68/g86/g3/g87/g75/g72/g86/g72...g61/g52/g70/g15/g51/g52/g59/g55/g56/g15/g107/g15/g60/g62/g61/g51/g48/g72/g107/g15/g48/g68/g54/g68/g66/g67/g33/g35/g27/g15/g33/g31/g33/g31/108x1386/g50/g62/g59/g68/g60/g61/146x23/243x432/py only 15 per cent of the seats in boardrooms reveals. While women constitute 48.1 per cent of the workforce, according to the International Labour Organisation’s (ILO’s) report titled 'International Labour Organisations (ILO’s) annual report'. The report notes that women’s participation in the workforce has increased over the years, but they remain underrepresented in decision-making positions. A recent report by the National Commission for Women (NCW) highlights the need for greater representation of women in the workplace.

In the context of women’s rights and empowerment, there is a need to address the issue of sexual harassment in the workplace. The UN Women’s report on the status of women in the world highlights the need for stronger laws to protect women from sexual harassment. In conclusion, while there has been some progress in terms of gender equality, there is still much work to be done. It is important that we continue to work towards creating a world where women are treated with respect and equality.
Tensions heightened over fatal police shooting of Black man

Mullah Nazir Ahmad, a Taliban commander, was killed in an air strike in the Paktia province of Afghanistan, according to NATO forces.

Hundreds of people turned out to protest against the killing of Ahmad, who was the leader of the local Taliban group.

The protest was held in Kabul, the capital of Afghanistan, and it was organized by local residents and community leaders.

They expressed their anger and disappointment over the killing, saying that it was a violation of human rights.

They also demanded justice and accountability for the attack.

The protest was peaceful, and the authorities assured the protesters that they would investigate the incident and bring the perpetrators to justice.

In a statement, the Taliban claimed responsibility for the attack, saying that it was a legitimate response to the killing of Ahmad.

They also vowed to continue their protests and resistance until justice is done.

The government has not commented on the incident, and it is not clear whether there will be any further investigations or actions.

Meanwhile, the United Nations has called for an end to violence and for all parties to engage in dialogue to find a peaceful resolution to the conflict.

Meanwhile, the United Nations has called for an end to violence and for all parties to engage in dialogue to find a peaceful resolution to the conflict.

The UN has urged all parties to respect human rights, and to refrain from resorting to violence as a means of resolving their differences.

It has also called for international efforts to support the process of peace negotiations in Afghanistan, and to provide aid and assistance to those affected by the conflict.

The Taliban has been fighting the Afghan government and its allies for more than a decade, and the conflict has caused widespread suffering and displacement.

The UN has called for an end to violence and for all parties to engage in dialogue to find a peaceful resolution to the conflict.

Meanwhile, the United Nations has called for an end to violence and for all parties to engage in dialogue to find a peaceful resolution to the conflict.

The UN has urged all parties to respect human rights, and to refrain from resorting to violence as a means of resolving their differences.

It has also called for international efforts to support the process of peace negotiations in Afghanistan, and to provide aid and assistance to those affected by the conflict.

The Taliban has been fighting the Afghan government and its allies for more than a decade, and the conflict has caused widespread suffering and displacement.

Tata Consumer products wants to go direct reach to consumers: MD

High Court refuses to interfere in report already filed
B‘day incomplete without family’

For actor VANNI KAPOOR, this birthday is going to be extremely special.

She said, “These are sensitive times. So I’m keeping my birthday simple and cozy this year. I’d have enjoyed planning with my close friends but I have to be cautious. In fact, looking at this film in September and October respectively and I’m taking additional precautions and just staying at home.”

“My birthday is always incomplete without the presence of my parents and my sister. I will miss them this time. But I’m happy that they are safe and healthy at home.”

The actor will be seen next in ‘Yes’ directed by Chaitanya Dutt, opposite Akshay Kumar, and in another rom-com, opposite Ayushmann Khurrana.

COPPER–MASKED WARRIORS

Studies have indicated that pathogens die within minutes of landing on metallic copper. Could copper masks be the next shield in our armour?

By Amit Goel

FIGHTS MICROBES

Over the past few months, health and hygiene have become a part of our daily lives. There have been several applications at public places, in offices, places and stores. The technology behind this film is proving to be far more effective.

It is true that copper has the ability to act as an antibacterial agent and can effectively kill several viruses and bacteria. However, it is important to keep in mind that copper masks are not a substitute for the medical masks that are necessary for people who have been infected with the virus.

HOW IS IT EFFECTIVE?

There are several reasons why this idea is getting a new lease of life. First, Covid-19 has taught us all the importance of hygiene, and copper is one material that can be used to create masks that will help to protect us all.

Experts in the textile industry have estimated that copper has the potential to be a new material for creating medical masks. This is because copper has a high antibacterial activity, which means that it can kill bacteria and viruses that come into contact with it.

In addition to this, copper also has the ability to release copper ions into the air, which can help to kill viruses and bacteria that are present in the air.

UNDERSTAND THE SCIENCE

When the copper material is coated with titanium oxide, the metal becomes highly reactive. This is because the metal reacts with oxygen in the air, which forms a thin layer of copper oxide on the surface.

The copper oxide layer helps to protect the underlying copper from being corroded by moisture and chemicals. This makes the copper material more durable and more effective at killing bacteria and viruses.

In addition to this, copper also has the ability to release copper ions into the air, which can help to kill viruses and bacteria that are present in the air.

In conclusion, copper masks have the potential to be a useful tool in the fight against the spread of the novel coronavirus. However, it is important to keep in mind that copper masks are not a substitute for medical masks and that they should be used in conjunction with other protective measures.

Beyond borderless semantics

The film, ‘Ek Ahanka Sachi’, which is a biopic of the Indian journalist and political activist A. K. Gopalan, who was executed for his role in the Indian National Congress, is set in the 1940s.

The film highlights the challenges faced by the media and the struggle for freedom of speech and expression.

The film, which is directed by Zafar Iqbal, stars Tapsee Pannu in the lead role of A. K. Gopalan.

The film is produced by Sonali Singh and is distributed by Reliance Entertainment.

The film also stars Akshay Kumar, who plays the role of the political activist A. K. Gopalan.

The film is expected to release in late 2021.

Annelina-Brad’s kids aware of apartheid

Former couple ANELIJA JOLIE and BRAD PITT are going through a divorce and their three elder kids are reportedly aware of the issue.

“Madax, Pax and Zahara are aware and have been aware of the divorce for a long time,” a source said.

Angella-Brads kids aware of divorce

According to a research published in the New England Journal of Medicine, copper coatings becoming more effective within hours of coming into contact with bacteria.

For example, copper ion is found within minutes of landing on copper surfaces.

According to a research published in the New England Journal of Medicine, copper coatings becoming more effective within hours of coming into contact with copper. Considering the effectiveness of copper surfaces, it would be a wise decision for people to use products that contain copper, such as WSL, as well as governments to follow the guidelines on the propagation of masks that contain copper.

The film, ‘Ek Ahanka Sachi’, is one of the very few products approved by the US Environmental Protection Agency (EPA). It is being recognized by customers who want to protect surfaces and places exposed to people. From office doors, water fountains, doorknobs, hospital beds and handrails, copper surfaces are proving to be a more effective way of fighting off infectious diseases.

In conclusion, copper masks have the potential to be a useful tool in the fight against the spread of the novel coronavirus. However, it is important to keep in mind that copper masks are not a substitute for medical masks and that they should be used in conjunction with other protective measures.

Our ancestors passed down the tradition of using copper utensils in our everyday lives for a great reason. They had identified the usefulness and positive effects of the metal on people’s health. Unfortunately, that value has been minimized due to the proliferation of other metals and materials, which are not as nutritionally rich. Nevertheless, as a result, a great amount of copper and copper-based products can be extended to people. Copper has a higher nutritional value. The copper in copper films is nutritionally healthier than the one in copper masks, in line with taking copper supplements.

Andrews fiddles out of Pakistan

It's a start of very special career: Buttler on Crawford's double

Crawford has now posted the tenth highest score by an England batsman in Test cricket, after scoring 98 out of 149 in the first innings. "It is a pleasure to watch the way you go about your business," told reporters Buttler on Monday. "He has been a tremendous influence and has taught me so much. He is the one who can get us out of any situation," said Buttler, a true legend of Test cricket.

Current Test team under Kohli is India's best ever

"Definitely without a question, it has been the most satisfying bowling attack today and that is not saying that you don't walk away happy," said Gurkeerat Singh, who scored 102 runs out of 121 Tests between 1971 and 1987. "While India here always had skillful batsmen and great openers, it has been the bowling attack that is the differentiating factor." And even if you take a look at it, the idea is to get him out of the game.

Gavaskar warned to play like Rohit

"It is something that I never thought of playing in my career," said Gavaskar, who represented India in both Test and ODI cricket. "I am very happy to see Rohit playing in this fashion, it is very inspiring to watch him." Gavaskar said that the 35-year-old opener has been a "lack of confidence" in his batting, and that he has put a price on his wicket, making him a very valuable asset for India.

Smith will miss booding fans on Eng tour

"It was a very important moment to turn around and that's what we did," said Smith, who played his first Test in Australia last year. "We wanted to make sure that we played our best cricket and that's what we did today." Smith also commented on the support he received from the English fans, saying it was "a fantastic feeling to be playing in front of those fans again."
