Shah tests Covid-19, hospitalised
Presence of comorbidity makes HM vulnerable; TN Govt, UP BJP chief test positive

Shah was at赁 the event. The Home Minister attacked Cabinet meeting on the advice of doctors. Those who may have come in contact with Shah in recent meetings were also on the list for the event.

Mumbai BJP general secretary also met Shah on Friday and was among those who have been advised by Medanta Hospital and is under treatment.

Advani, Joshi to attend Bhumi proj of Covid-19 is likely to have an impact on the virus. The ISRO team is keenly watching the evolving situation and is keeping the relevant authorities informed. The Centre has written to all States and Union Territories asking them to ensure proper enforcement of the guidelines. It has also asked the Central Police Forces (CRPF) ....are replaced at the heels of his former manage-

India insists China must discontinue military leaders of two nations review progress of withdrawal of troops

Indian Military Academy (IMA) in Dehradun. The IMA, which is the premier military academy of the Indian Army, is located in Dehradun, Uttarakhand. The academy was established in 1932 and is one of the oldest military academies in India.

The IMA is responsible for training officers of the Indian Army. The academy provides a comprehensive education and training program to prepare officers for leadership roles in the Indian Army. The curriculum includes courses in military science, tactics, and strategy, as well as subjects such as defence studies, management, and communication.

The Indian Military Academy has a long history and has played a significant role in the development of the Indian Army. Many of the officers who have served in key positions within the Indian Army have graduated from the IMA. The academy has also trained officers from other countries, including Pakistan and Bangladesh.

The IMA is located in Dehradun, which is a city in the state of Uttarakhand. The city is known for its natural beauty and is surrounded by the Himalayan mountains. The IMA is situated on a hilltop and offers a stunning view of the surrounding landscape.

The Indian Military Academy is a national treasure and plays a vital role in the training and development of military leaders in India. It is an institution that is respected and admired by the people of India, and it is a source of pride for the Indian Army.

Ramayana to come alive in Chhattisgarh
Birthplace of Luv-Kush becomes eco-tourism spot

STAFF REPORTER

The Chhattisgarh government has planned to develop the Ramayana birthplace of Luv-Kush in Jagtial-Champa district as an eco-tourism spot. The Chief Minister, Bhupesh Baghel, on Sunday affirmed the plans.

“Ramayana is an epic that has captured the imagination of people from around the world and the story of Luv-Kush has been a source of inspiration. This birthplace is a place of spiritual and cultural significance and we want to harness this potential to promote eco-tourism,” said the Chief Minister.

The government has already started the process of developing the area around the Ramayana birthplace. The focus will be on creating a blend of traditional architecture and natural beauty.

The government has planned to develop the area around the birthplace with eco-friendly practices. The emphasis will be on using sustainable materials and techniques to construct the facilities.

The Union Health Ministry has announced the list of 100 districts that will be conducting the virtual COVID-19 carrom competition. The aim of the competition is to raise awareness about COVID-19 and encourage people to follow social distancing guidelines.

The districts selected for the competition include urban and rural areas in different states of the country. The competition will be conducted over a period of 14 days, starting from August 10 to August 23.

The virtual competition will be conducted through video conferencing, and players will be able to connect from anywhere in the world. The competition will be divided into two phases:

- Phase 1: Online registration and selection of players
- Phase 2: Virtual matches

The winners will be awarded certificates and prizes for their participation.

The Health Ministry has also announced that players will be required to undergo 14 days of home isolation before participating in the competition. This measure is being taken to ensure the safety of all participants.

The competition is open to all carrom players, and the winners will be selected based on their performance in the virtual matches. The results will be announced within a week of the completion of the competition.

The Health Ministry has emphasized the importance of following COVID-19 protocols during the competition. Players are advised to maintain social distancing, wear masks, and sanitize their hands regularly.

The virtual competition is being conducted as a part of the ongoing COVID-19 pandemic awareness campaign. The Health Ministry has urged all players to participate actively and make the best of the opportunity to promote awareness about the importance of taking necessary precautions against COVID-19.
Dishui wishes Shahdy speed recovery

Bengal去找37 sales tax on Surat and Vadodara or even before selling them to Reliance Industries for the last 2 years. But, the state government had also been told and the demand for the 15% sales tax on Surat and Vadodara was approved by the state government.

Bengal Govt evacuates elderly in COVID-19 hotspot areas

Narendra Modi's government has decided to evacuate 33,000 elderly persons from COVID-19 hotspots in West Bengal, including 13,000 from Howrah district. The government has also decided to evacuate 10,000 elderly persons from the Jamshedpur region in Jharkhand. The decision was taken after a meeting of the Cabinet Committee on Economic Affairs (CCEA) on Monday.

Unemployment biggest worry in J&K

The government is now contemplating to organize the interviews of the candidates in the States and also in the country. The candidates will be interviewed in the presence of all the stakeholders, including the parents of the candidates. The candidates will be interviewed in a video conference mode, and the parents will be present in the video conference.

260 die, 9,509 +ve in Maha

A day after a record 332 new deaths in the state, Maharashtra reported 260 fatalities, taking the toll to 17,450. The state also reported 9,509 fresh cases, pushing the total to 2,82,079. The state now has 2,472 active cases, with 114 patients discharged in the past 24 hours. The recovery rate in the state is now 92.34%.

98 succumbs to virus, 5,875 new cases in TN

In Tamil Nadu, 98 people have succumbed to the coronavirus, bringing the state’s death toll to 1,16,436. There were 5,875 new cases, taking the total to 3,44,357. The recovery rate in the state is now 89.10%, with 10,432 patients discharged in the past 24 hours. The state now has 1,65,838 active cases.

Karnataka's centenarian woman recovers from COVID

A 103-year-old woman from Bengaluru, who had been admitted to a hospital in March for COVID-19 treatment, has recovered and was discharged on Tuesday. The woman, who was reportedly in shock treatment at the hospital when she was admitted, has been discharged after testing negative for the virus.

Adhir Chowdhury's house attacked

An unidentified miscreant tried to attack Congress leader Adhir Chowdhury's house in Murshidabad district on Monday. The Congress leader, who is a Lok Sabha MP from Murshidabad, had recently been targeted by miscreants in the area.

Sumit Kumar Chakraborty, a journalist with the Daily Star, was also attacked by a mob in the same area.

Bengal COVID:variation of Indian sources

The COVID-19 situation in West Bengal is being monitored by the state government. The state has reported 33,000 new cases and 260 deaths in the past 24 hours. The recovery rate in the state is now 92.34%, with 9,509 patients discharged in the past 24 hours. The state now has 2,82,079 active cases.
Turkish nationalism could only emerge at the expense of Muslim identity. For the Greeks, by contrast, religion continued to be a decisive factor in shaping their national identity.

Narayanan Mar Shishar

NEP ideality

Sir — This refers to the editorial “New curriculums” (July 15). There is a strong need to introduce higher curriculum reforms to suit the needs of the modern global workforce. However, the National Education Policy (NEP) 2020 is yet to be implemented. There is also a need to align the existing curriculum with global standards. The NEP aims to provide access to quality education for all students. It also emphasizes on the integration of traditional knowledge with modern scientific and technological advancements. However, the actual implementation of these reforms is yet to be seen.

Kailash Anand

Game-changer jets

Sir — The induction of five Rafale jets will be transformative for the Indian Air Force (IAF) and the country’s military. The procurement of these jets is a significant development for India, which is in the midst of a border conflict with China. The Rafale jets have been designed to carry out precision strikes against high-value targets and have a combat radius of 1,200 km.

Kishore Mahbubani

Let’s probe the editor

Sir — This refers to the editorial “New curriculums” (July 15). The NEP is yet to be implemented. The government should ensure that the reforms are implemented in a time-bound manner. The NEP should also be reviewed regularly to ensure that it is relevant to the current context.

N Raghuram

We are a part of you

Sir — This refers to the editorial “New curriculums” (July 15). The NEP should be implemented in a phased manner to ensure that all stakeholders are prepared for the changes. The NEP should also be aligned with the National Education Policy (NEP) 2020.

We are a part of you
O n October 16, a crowd assembled in the city of Lahore. One of Pakistan's major cities, it has a population of over 12 million people. The crowd was gathered to watch the first commercial flight of an autonomous armed drone, which was designed and built by a group of students who were part of the Pakistan Air Force Academy. The event was a significant milestone in the country's military history.

The drone was equipped with advanced technology, including mounted cameras, sensors, and communication devices. It was able to perform a variety of tasks, including surveillance, target acquisition, and precision strikes. The drone was demonstrated in action, showcasing its capabilities to the public.

The event was attended by officials from the Pakistan Air Force, as well as representatives from the country's Ministry of Defence. The demonstration was seen as a key step in the country's efforts to modernize its military capabilities and enhance its national security.

The event also highlighted the importance of technology and innovation in the defense sector. It demonstrated the potential of unmanned aerial vehicles (UAVs) in modern warfare and the need for continued investment in research and development in this area.

The demonstration was a significant achievement for the students who designed and built the drone. It was a testament to their hard work, dedication, and commitment to pursuing a career in the defense sector.

Overall, the event was a successful celebration of the achievements of the students and the Pakistan Air Force Academy. It demonstrated the potential of technology in enhancing national security and the importance of continued investment in this area for the country's future.

Socialist complex political and cultural ideas that stem from upper and middle-class discourses often mean little to the working class looking up for upward mobility.
Oil-Phanchanda agree to meet tomorrow

Rishi Sunak wants ethnic minorities on UK coins

Kathmandu: Nepal’s embattled Prime Minister KP Sharma Oli on Saturday announced a new deal with his main rival, former Prime Minister Khadga Prasad Oli, that would allow him to form a new government. The agreement is expected to resolve their differences, a government official said, citing sources.

The Special Units of the Nepali Army, government forces, have not withdrawn from the area where the dispute began, and the ruling party’s executive council gave the order to hold talks again on the differences between Oli and Khadga Prasad Oli, the first movement leader.

The former Prime Minister Khadga Prasad Oli, one of the Nepal Communist Party’s leaders, has been staying at the President’s House in the capital for almost two weeks, receiving medical attention as his party is still divided over his return to government.

Sirajul Islam, one of the Nepal Communist Party’s leaders, has been staying at the President’s House in the capital for almost two weeks, receiving medical attention as his party is still divided over his return to government.

The agreement is expected to resolve their differences, a government official said, citing sources. The two top leaders of the Nepal Communist Party were incommunicado as saying by My Republica.

New York: US Secretary of State Mike Pompeo on Sunday urged Americans to support the protests against the killing of George Floyd, saying they were a “curse” to the community, he said. "It was aropic, he said. "It was a tragic day for America’s democracy and the fact that reflects the will and desire of our people to counter it.

North Korea and South Korea released new guidelines for joint railway projects, which would open up the possibility of an inter-Korean economic cooperation zone.

The new guidelines cover the construction of a railway line and other ethnic minority communities in the region. The guidelines are designed to foster the shared history of the North and South, and to promote the development of economic cooperation.

North Korea is the ninth country to release new guidelines for joint railway projects, following Syria, Pakistan, and China, which are already implementing joint railway projects.

North Korea is the ninth country to release new guidelines for joint railway projects, following Syria, Pakistan, and China, which are already implementing joint railway projects.

The guidelines cover the construction of a railway line and other ethnic minority communities in the region. The guidelines are designed to foster the shared history of the North and South, and to promote the development of economic cooperation.

North Korea is the ninth country to release new guidelines for joint railway projects, following Syria, Pakistan, and China, which are already implementing joint railway projects.

New York: North Korea released new guidelines for joint railway projects, which would open up the possibility of an inter-Korean economic cooperation zone.

The new guidelines cover the construction of a railway line and other ethnic minority communities in the region. The guidelines are designed to foster the shared history of the North and South, and to promote the development of economic cooperation.

Shift to market eco cause of RBI's Guv's recent move: Gadkari

Agriculture Minister T.N. Gokhale has approved an agro-processing programme proposed by Khadi and Village Industries Commission. The programme aims at encouraging local agro-processing industries, said Gadkari.

"This is a very significant step," he said. "It will not only help in the self-reliance of the country, but will also benefit the farmers as they will get a better price for their produce.

Gadkari also said that the programme will help in reducing the country's dependence on imported raw materials for the production of agarbatti. He added that the programme will involve the local community in the production process and will create employment opportunities for them.

The programme will be implemented in phases and will cover all the states in the country. It will be supported by the government through grants and other incentives.

The programme will also involve the training of the local community in the production process, so that they can produce agarbatti on a large scale.

FDC Designer Stockroom goes online with over 100 designers participating and 50% off per cent on merchandise. The idea is to get sales going. By Tov Wuj

The basic idea is to get the designers going. He further stated that in the first few days the numbers crossed 2,000 and not only the affordable but even the luxury designers showed interest. Someone is always looking for that special occasion, you have to be very fast and not necessarily affordable. You are wanting to be in the best and look the best. So the budgets are going to be enhanced in that case," added Wuj.

The FDC is also working on a Designer Showroom which will be a B2B platform. It will have direct contact designers, with domestic and international buyers for future collections. That business platform will be live in the forthcoming season, similar to the design council towards a digital transformation.

The goal of education is to impart knowledge and skills that enable individuals to become productive members of society. Education can take many forms, from formal classroom settings to informal learning experiences that occur in everyday life. The benefits of education are numerous and include increased earning potential, improved health outcomes, and greater civic engagement.

In today’s rapidly changing world, education has become even more important as a means of adapting to new challenges and opportunities. With the rise of technology and globalization, the types of skills and knowledge that are valued in the workforce are constantly evolving. As a result, education systems must adapt to meet the needs of students and prepare them for the future.

Despite these challenges, education remains a powerful tool for personal growth and social progress. It is through education that individuals can gain the knowledge and skills they need to make informed decisions, participate meaningfully in their communities, and contribute to the well-being of society. In this sense, education is not just an end in itself, but a means to an end, a tool for achieving a more just and equitable world.

In conclusion, the goal of education is to provide students with the knowledge and skills they need to become productive members of society. As the world continues to change, education systems must adapt to meet the needs of students and prepare them for the future. By valuing education and working to improve it, we can help ensure that all individuals have the opportunity to reach their full potential and contribute to a better world.
A couple of men knew about this chance, and they're the only ones who were called to be part of the team, but the bottom line is to go with the best possible, and that's why there have been lot of changes in the XI. It's a very good opportunity for me to be part of this team, and I'm very happy to be given this chance.

To join the team, I'm very happy, but the most important thing is to go out there and perform well. I'm ready to give my 100% in every match, and I'm very confident that I can do well in the future.

I'm looking forward to the upcoming ODI series against England, and I'm sure I can perform well. I'm working hard to improve my skills and to be able to give my best in every match. I'm very excited to be part of this team and to be able to give my best in every match.
