Venkat Reddy (Branch Manager), D. Ram Babu (Manager), N. Jayaram Reddy (Manager), K. Madhavi (Manager), R. Narayana Prasad (Manager), R. Venkata Ramana (Manager), S. Venkata Rao (Manager), A. Venkata Durga (Manager), G. Prabhat Kumar (Manager), K. Madhavi (Manager), and N. Jayaram Reddy (Manager).

**Nine die in fire at Srisailam power plant**

President, PM, Shah convey their anguish

NEW DELHI: Top government officials and all five Rajiv Gandhi Khel Ratna awardees were killed when fire broke out on Saturday morning in a machine room at the Srisailam thermal power plant on the Krishna River in Andhra Pradesh. The fire took place on Saturday when the mishap took place. However, eight out of nine killed were later confirmed to have been in the control room.

According to authorities of the Telangana State Power Generation Corporation (TSGPC), 17 people were killed after the fire broke out on Saturday. The NTA said in the statement. The petition also alleged that the Raysa Srinivasa Reddy, head of the Rayalaseema Lift Irrigation Generation Corporation, had never been to the premises even though the fire was taking place.

The petition also alleged that the NTA is happy to share the updates and guidelines issued by the Ministry of Health and Family Welfare. The petition also alleged that the NTA is happy to share the updates and guidelines issued by the Ministry of Information and Broadcasting.

Heart attack risk despite low cholesterol!

DR. PRASAD KUMAR

VIJAYAWADA

In the past 25 years, India has witnessed a remarkable decrease in the occurrence of Heart attack due to smoking. Statistics show that only 16% of the Indian population are current smokers. The percentage of smokers is 37.4% in men and 3.2% in women.

The lungs of the lungs are destroyed smoke from cigarettes. The lung destroy when the age is 35 years. The tobacco smoke is the cause of more than 50% of all heart diseases.

To have a strong heart, the most important thing is to stop smoking. Avoiding the risk of heart disease is very important. The main risk factors for heart disease are: Age, Gender, Family history, High blood pressure, Diabetes, High cholesterol levels, Obesity, Smoking, Lack of physical activity, and Repeated infections.

"It is estimated that heart disease is the leading cause of death in the United States. It is the leading cause of death in the world, accounting for 17.3 million deaths each year. This is equivalent to one death every 33 seconds.

Pawan Kalyan is vocal for local this Vinayaka Chaturthi

Govindom Sametha

VIJAYAWADA

The Governor of Andhra Pradesh, Shri Biswabhusan Harichandan, has expressed concern over the death of a person who was rescued from a fire accident which occurred in the early hours in the morning of August 14 at Srisailam. The Governor has given instructions to the officials to ensure proper medical treatment to the rescued persons and to ensure the safety of the locals in the vicinity.

The Governor, in a tweet, expressed his grief on the death of a person who was trapped in the catches at the Srisailam Barrage on Friday night, according to Water Resources Department officials.

The increased flood flow kept many villages in East Godavari under water, and many areas were damaged by the flood water. More than 11,000 people have been shifted in flood shelters in East Godavari district, where several areas have been affected.

The Governor appealed to the people to remain vigilant and take all the necessary precautions to prevent any further damage.

Pawan Kalyan, the TDP chief, has been vocal about the local this Vinayaka Chaturthi and has called for better safety measures to be taken during the festival.

"Vinayaka Chaturthi is one of the most important festivals in Tamil Nadu. It is a time when people come together to celebrate the festival of lights and enjoy the festivities. However, this year, the festival was marred by the death of a person who was rescued from a fire accident.

"The incident highlights the need for improved safety measures during the festival. The authorities must take steps to prevent such accidents in the future. The TDP has condemned the incident and has called for better safety measures to be taken during the festival.

The Cabinet on January 3, 2021, approved the Vijayawada Metro Rail project, which is expected to be completed in 2025. The project is estimated to cost about Rs 26,000 crore, and the work is expected to start in 2022.

"We are committed to completing the project on time and to providing a safe and reliable mode of transport for the people of Vijayawada. The project will provide a greater choice of transportation and help in reducing traffic congestion in the city.

The Metro Rail project is expected to benefit thousands of people and will provide a safe and reliable mode of transport for the people of Vijayawada. MHA is derelict, Amaravati JAC complains to President

The Telugu Desam Party on Friday objected to the announcement of the information on the website of the Uttar Pradesh government that the Telangana police had arrested people on Chat and twitter under the Prevention of Terrorism Act. Former home minister and TDP chief Chandrababu Naidu alleged that YSRCP is doing this to diminish the TDP’s brand on social and digital media.

"We have documented the pattern of @CSP降临 on the stand adopted by the Home Ministry on making it abundantly clear that this is the case, but no action has been taken. As a matter of how the information is being overturned, the MHA has no role in this," said Chandrababu Naidu.

TDP refused to do street politics inns: BJP-VIP

The TDP has accused the Congress of doing the same through social media. "All the party leaders are pouring in the party's electronic media channels. But the President must take appropriate action," alleged Naidu for claiming that the Amaravati Parirakshana of the Joint Action Committee followed the house line.

"We are warning the people of the state that the TDP is confined to statements in print and Rick. They indulge in 'street politics' ."

US experts doubt plasma therapy...

Tech-savvy farming

GIS is an effective tool for mapping natural resources and has become vital in grasping spatial and temporal factors that influence crop growth. The revolution in GIS has had several advantages, including lower costs, higher accuracy, and the ability to work in near real-time. GIS’s continued evolution is a response to the needs of governments, educators, and the general public to have an accessible tool to understand and manage resources and environments. GIS technology provides solutions for the challenges being faced by them. With the growing of fields and enabling farmers in getting site-specific, precise solutions for the challenges being faced by them. With the growing of fields and enabling farmers in getting site-specific, precision agriculture hence can be implemented.

The new education policy (NEP) 2020 marks a paradigm shift in terms of focus on skills. We need to integrate vocational programmes with mainstream education in a phased manner. India to see gas share rise to 10 pc by 2025: GAIL

The Reserve Bank is at the end of its rate cut cycle as inflation is unlikely to decline materially from the current level, and the disinflationary process must have started, according to economist at SBI Research.

The comments come a day after the minutes of the latest meeting of RBI’s Monetary Policy Committee, where high inflation was cited as a reason to hold interest rates unchanged.

RBI had cut rates by a total 135 basis points over four good-fortnightly LCR (liquidity coverage ratio) rounds and planned and executed “Operation V almost impounded the liquidity in the system and north-south inflows remained intact.”

Ranganathan said the Indian gas market has made huge progress, adding that 86 per cent of its gas was currently being transported via pipelines and the rest via tankers.

Impact on commercial, industrial, and services sectors, has been considerable, he pointed out.

In a tweet, the centre was thanks the Centre for the decision to pay 50 per cent of wages of the workers for a maximum of 90 days of unemployment due to lockdowns.

As per a decision of the employees for a maximum of 90 days of unemployment, the center was advised to pay 50 per cent of wages of the workers, the centre thanked the government for the decision.

The Reserve Bank of India (RBI) had cut rates by a total 135 basis points over four good-fortnightly LCR rounds and planned and executed “Operation V” to almost impound the liquidity in the system and north-south inflows remained intact.

With the completion of the two new liquefied natural gas (LNG) terminals in the West coast and another in the east coast, the country’s gas capacity has reached 10.8 billion standard per annum.

Impact on commercial, industrial, and services sectors, has been considerable, he pointed out.

SBI to raise Rs 8,531 cr by issuing Basel III compliant Tier II bonds

The bank has invited applications from the eligible investors for the issuance of perpetual non-convertible debentures (PNDs) of face value of Rs 1,000 each.

SBI will issue the bonds in two tranches of Rs 4,265 crore and Rs 4,266 crore, respectively, the statement added.

On the 25th of May, SBI had announced that it had planned to raise Rs 8,531 crore from the domestic market by issuing Basel III compliant Tier II bonds.

The bonds will be listed on the stock exchanges where the bank is listed.

Gold falls Rs 94 at 5 pm as dollar firms:

Gold futures for August delivery were trading at Rs 39,719 per 10 grams, down Rs 94 or 0.24 per cent from the previous close.

The metal had opened at Rs 39,751 and touched a low of Rs 39,710.

The dollar was trading higher against most of the major peers.

Among other precious metals, silver futures for July contract were trading at Rs 48,825 per kg, down Rs 107 or 0.22 per cent from the previous close.

The metal had opened at Rs 48,932 and touched a high of Rs 49,159.

India’s export uptick led by East Asian economies

The massive improvement in the country’s export momentum in June with exports growing by 4.82 per cent vs 2.0 per cent in May, which had witnessed a 17.7 per cent contraction compared to the COVID-19 pandemic level in April 2020, had been a pleasant surprise.

While Japan’s exports had continued to be subdued, China’s trade growth had gathered pace.

The pace of exports decline also appears to be slowing down as the economy is gradually recovering from the Covid-19 pandemic.

India’s export momentum in June was a welcome sign that the country’s exporters were gaining traction in the East Asian region.

With gas demand on the rise, India has a significant priority to invest in indigenous gas production such as domestic gas fields and LNG terminals.

The production of indigenous gas fields and LNG terminals is critical to meet the country’s energy needs and reduce its dependence on imports.

According to Ranganathan, the country should aim to produce 10 GW of solar power by 2022, which is already on track.

India has a significant priority to invest in indigenous gas production such as domestic gas fields and LNG terminals.

The production of indigenous gas fields and LNG terminals is critical to meet the country’s energy needs and reduce its dependence on imports.

What Ranganathan referred to is the ‘solarisation of the economy.’

The idea is to move away from a carbon-intensive energy mix to a more sustainable and renewable one.

India has the potential to be a leader in clean energy and contribute significantly to global efforts to combat climate change.

India has the potential to be a leader in clean energy and contribute significantly to global efforts to combat climate change.

The sense of urgency in the international community to address climate change is clear, and India has a role to play in this transition to renewable energy.

On the occasion of World Senior Citizens’ Day, why not consider giving them a health cover to ensure a secure and happy life?

A GIFT OF HEALTH

It’s a protective anduating cover to our health that our elders and parents provide us with when we are young. When we grow old, and once they have always been the strongest support system. However, in return, most senior citizens in our society do not necessarily enjoy the same attention that they deserve.

After decades of hard work, it is time now to give a life-filled with protection. But at a time when they are most vulnerable, easily neglected, are deprived of such things. On the occasion of World Senior Citizens’ Day, why not consider giving them a health cover to ensure a secure and happy life?

Similarly in India, various studies in the past decade have revealed that 20 per cent of the Indian population will be older than 60 years by 2020, which will affect the government can be as high as in 2050. In India, it is estimated that by 2050, 18 million people will be older than 60 years.

In the last 10 years, people have been fighting for this cause. There is a need for a policy that ensures the health of elderly individuals. The need for health insurance or gift your parents is becoming an important issue. It is not only useful but also essential for them. The future is here and it's time we provide them with the cover they deserve.

In the recent past, people have been fighting for this cause. There is a need for a policy that ensures the health of elderly individuals. The need for health insurance or gift your parents is becoming an important issue. It is not only useful but also essential for them. The future is here and it's time we provide them with the cover they deserve.

The Indian Sign Language dictionary was released in 1995, one percent of jobs in India have hearing impairments. The students also directed a short film on the importance of sign language. The students have to turn to other sources which most cannot afford. According to the National Centre for deaf, one percent of jobs in government and private agencies are reserved for them. But those who have hearing disabilities are faced with more issues.

The Prime Minister to provide support to the deaf community and to help them lead an independent life. The government has also directed a short film on the importance of sign language.

A new government must give the deaf/ and mute community its rights, provide them with a gift of health, and make sure they are not left out. This means that the government must be hear- ing the call of the deaf and support them.

How important do you think it is to promote the Indian Sign Language (ISL) by incorporating it in the list of 22 Scheduled Languages under the Constitution of India? Read on as Vaibhav Kothari, a deaf and mute entrepreneur, engineer and motivational speaker explains to us its importance.

India, with over 1.3 million deaf and mute citizens, should make the Indian Sign Language the 23rd official language under the Indian Constitution, as Vaibhav Kothari, a deaf and mute entrepreneur, engineer and motivational speaker at a webinar — “Nurturing Chakravarties” by the cultural activist Sandeep Bhutoria — has stated. The event was an intimate conversation with those who joined him from different parts of India.

Kothari’s fervent appeal to the Indian Government came in response to a question posed by convener Sandeep Bhutoria — “How important do you think it is to promote the Indian Sign Language (ISL) by incorporating it in the list of 22 Scheduled Languages under the Constitution of India? Read on as Vaibhav Kothari, a deaf and mute entrepreneur, engineer and motivational speaker explains to us its importance.”

As the Prime Minister to provide support to the deaf community and to help them lead an independent life. The government has also directed a short film on the importance of sign language.

A new government must give the deaf/ and mute community its rights, provide them with a gift of health, and make sure they are not left out.

Naseem earns T20 call-up

Teenage pacers have been named in Pakistan’s 17-member squad which will play three T20Is against South Africa starting from July 13. The fast bowler Naseem Shah will make his T20I debut in Ahmedabad, something that, he feels, “has been a long time coming”.

The Pakistan Cricket Board announced on Tuesday that the teenage tearaway pacer Naseem has been named in the T20I squad which will leave for South Africa on July 9. The 17-year-old, who has been in the national team’s net sessions for a few months now, has already made his T20I debut in the series against South Africa earlier this year.

Going by the video, he has an absolute pace in his deliveries and he is good at reading the ball. The team management has been watching him for some time and decided to give him a chance now. He has been bowling for 14-15 overs in a session and batted with the senior bowlers in training sessions. He is a very calm guy and is very professional. He is very focused and ready to go on tour, said a source.

Naseem, who made his Test debut against South Africa earlier this year, has already shown his potential in T20Is. He took 3-18 in his debut match against Sri Lanka in the T20I series earlier this year and followed it up with 3-40 in the second game.

Naseem, along with his fellow fast bowler Shahnawaz Hyder, is expected to form a danger duo in the T20I series against South Africa. The team management is also looking forward to his performance in the series as he has been in good form in recent months.

Shahnawaz Hyder also made his T20I debut against South Africa earlier this year and took 3-40 in his debut match. He has been in good form in recent months and is expected to do well in the T20I series against South Africa.

Naseem Shah, who was born on November 14, 2000, is the youngest ever debutant in Test cricket and the third youngest debutant in T20Is. He made his Test debut against South Africa earlier this year and took 3-18 in his debut match against Sri Lanka in the T20I series earlier this year and followed it up with 3-40 in the second game.

I WANT TO TRY ALL GENRES AS A DIRECTOR: SV

The filmmaker will be making his next as a youthful entertainer, featuring Meghansri Srinivasa and Sanchita Vagesh (introducing). “The project is a remake of a film that had to be put on the back burner due to unforeseen problems. So, in the meantime, we have decided to move on, and Meghansri and Sanchita are the best fit to handle the story. Plus, I’ve been branded hardworking, which makes them familiar faces. So I felt a young girl would be right for the film,” he said.

The film will be a comedy-drama, with Meghansri in the lead role. The story is about a single girl who is unable to create a picture in her mind and who is forced to work towards breaking the perception. In view of this, the scriptwriter, the actor feels the character is similar to “a picture she had had in her childhood.”

The action, which sources tell the director, will be a funny comparison between a new girl and reality in her post. The story is told in a video and a film. The video is about a single girl who is unable to create a picture in her mind and who is forced to work towards breaking the perception.

The film will have a emotional ceremony on Tuesday and he will go to 12-13 working locations. This idea is to wrap up in 40-50 working locations.”

Meghansri believes the film is under no pressure to make it count as he is launching his heroine as a director. “I am taking this film as a challenge and I am ready to take on it. As long as I feel the story is right for the audience, I am ready to take it,” she said.

In the meantime, she was also seen in director Prasanth Reddy’s next, which is set to be released next year. “I am working on a project which is very close to my heart.”

We are aware of the actress’ work, which includes a number of projects. “She is a hard-working actress and has the potential to deliver good performances. She has the kind of character that we were looking for in this role,” Prasanth Reddy said.

The film, which is directed by Prasanth Reddy, is expected to release next year.

PRABHAS TO LEARN ARCHERY FOR ADIPURUSH

A true Problem, who will be playing the role of legendary archer Chhatrapati Shahuji Maharaj, is all set to learn archery for the biopic. “I have been learning archery since my childhood and have always been fascinated by it. As an actor, it is important to show the audience that you are doing your job right. I have been practicing archery since I was a child and I am looking forward to learning more about it,” Prabhas said.

In the biopic, directed by Om Raut, Prabhas will be playing the role of legendary archer Chhatrapati Shahuji Maharaj. “I am excited to play the role of Chhatrapati Shahuji Maharaj. As an actor, it is important to show the audience that you are doing your job right. I have been practicing archery since I was a child and I am looking forward to learning more about it,” Prabhas said.

The film is expected to release in 2023.
