Due to the corona pandemic the number of patients seeking psychiatric help has reduced. Some psychiatrists feel that lesser exposure to people may have led to their numbness.

A new life for the disabled

SNDP working president Gajendra Pratap Singh gives away an artificial leg to a physically challenged man at a function held in Bhubaneswar.

A meeting of the Business Operators (FBOs) was held at the district administration office. The meeting was presided over by the Commissioner, Food Corporation of India, Pradeep Kumar Mohapatra.

The State Food Testing Laboratory has enhanced its capacity of food testing and for the requirement of National Accreditation Board for Testing and Calibration Laboratory (NABL) and has also applied for its registration. Online system for registration and handling of FOIs has already been rolled out making its services user friendly. The lab now is in position to test about 1.10 lakh items of revenue in the laboratory. After getting the certification of NABL, the State Food Testing Laboratory has also realized towards the GST compensation.

The Union Cabinet on Wednesday approved the 5G spectrum auction for the telecom operators in the 700 MHz, 800 MHz, 2,251.25 MHz and 2,500 MHz bands. The auction will be for spectrum in 2,300 MHz, 2,500 MHz, 3,300 MHz, 3,400 MHz, 3,500 MHz and 3,600 MHz frequency bands. The government has set a spectrum reserve price of Rs 110 crore for a 5 MHz block in the 700 MHz band and Rs 50,000 crore for a 25 MHz block in the 2,500 MHz band.

A total of nine companies are participating in the auction, including four national operators—Reliance Jio, Bharti Airtel, Vodafone Idea, and Idea—and two MNC operators—Telecom Telangana and BSNL. The auction will run from October 21 to November 11, and the government has fixed a minimum price of Rs 50,000 crore for the 2,500 MHz band as a measure to ensure the viability of the operators.

India’s Covid caseload seems likely to top 1 cr

The Union Cabinet in its meeting on Wednesday decided to allocate a 1 cr cr spectrum to three operators for 5G services.

Sunflower sea star listed as critically endangered species

The International Union for Conservation of Nature (IUCN) has added the sunflower sea star to its Red List of Threatened Species, classifying it as critically endangered. The sunflower sea star was first discovered in the 1980s and was listed as endangered in the IUCN Red List in 2016. It is a sea creature that is typically found in the coastal waters of the Pacific Ocean.

Farm laws agitate a section of farmers, especially from Punjab

The Farm Laws (Amendment) Bill, 2020, which was introduced in the Lok Sabha on Wednesday, has sparked controversy among farmers, especially those from Punjab. The bill proposes to allow farmers to enter into contracts directly with traders or companies, rather than the government, for the sale of their produce.
SALAKAGANDA IN KUTNAHORA

The fear of multiple deletions or mass fatalities is growing in KutnahoRA on Wednesday after the Municipal Assembly began operations. The Assembly acceded to the demands of the TMC leaders to join their party on Wednesday.

The ruling party adopted an anti-business stance. The MVA leaders' delegation was asked to withdraw their resignations. The action was taken at the last minute. The MVA leaders' delegation was asked to withdraw their resignations.

Major institutions refused to buckle under pressure from President Trump when he tried systematic changes to shape up his for a second term

Boris is willing

U n Prime Minister Boris Johnson is set to visit New Delhi this month. Mr. Johnson has assured his counterpart, Indian Prime Minister Narendra Modi, that the UK will be working closely with India in the Global South, and in which India is an important player. The significance of the relationship is further underlined by the fact that Johnson’s tip will be his first major bilateral overture since becoming the Prime Minister and the first since the UK’s departure from the European Union. Both nations have shared interests because of their past history and the fact that the UK has Indian diaspora, which has made valuable contributions in academia, business, arts, medicine, science, business and politics. Closer ties with the UK will be an opportunity to expand trade and work up and open up the Indian states in terms of easier visa access. Apart from the two nations planning to boost employment and joint projects, one of the primary concerns is the fight against COVID-19, in which the UK is an important player. The significance of the relationship is further underlined by the fact that Johnson’s tip will be his first major bilateral overture since becoming the Prime Minister and the first since the UK’s departure from the European Union. Both nations have shared interests because of their past history and the fact that the UK has Indian diaspora, which has made valuable contributions in academia, business, arts, medicine, science, business and politics.

POLL: Boris Johnson will visit India this month. His visit will be the first major bilateral overture since becoming the Prime Minister and the first since the UK’s departure from the EU. Both nations have shared interests because of their past history and the fact that the UK has an Indian diaspora, which has made valuable contributions in academia, business, arts, medicine, science, business and politics.
The thread that binds us

India is a nation united by the sensibilities of a unique Sanskrit-Urdu culture and no one can take that away from us.

J&K: distinct elections to usher in a new dawn

The polls are unique in the sense that deprived sections, like West Pakistan Refugees, Valmikis and Gorkhas are voting for the first time.

India’s National Register of Citizens (NRC) project

The project is aimed at identifying and deporting illegal immigrants who had entered the country illegally after 1971.

Doctors struggling against COVID-19

The government has appealed to the medical fraternity to extend their support in the fight against the pandemic.

Build an indigenous arsenal

Research and development in India requires greater attention of the Government in the critical areas of climate change mitigation and adaptation.

JAY KUMAR

On November 27, through a gentle notification, the Union Government declared a Climate Change Ministry, which is a significant step in the right direction.

The vast majority standing in long queues outside the polling booths in the Indian state of Jammu and Kashmir (J&K) on Wednesday. A total of 31 District Development Council (DDC) constituencies went to the polls for the inaugural elections of this self-government institution in the union territory.

The elections, which were minus Election Commission officials, were marked by long queues outside the polling booths. This pattern, which distinguished it from other places in the country, is typical of such elections in J&K.

To my mind, the vision of liberty and democracy is in India’s blood. What has happened is the result of the efforts of a large number of people who worked tirelessly to free this country from the yoke of colonialism.

Indian independence movement leaders like Mahatma Gandhi, Jawaharlal Nehru, and others fought for the country’s freedom.

On the other hand, the emphasis, in India, is weakly represented in the form of protests against the government’s policies.

The country has a large number of people, including women, who are not literate and do not have access to education.

On the mitigation front are those technologies that are specifically designed for developing countries, like India, and are affordable.

The government should encourage the development of such technologies, which are specifically designed for developing countries, like India, and are affordable.

The government should encourage the development of such technologies, which are specifically designed for developing countries, like India, and are affordable.

However, it should be noted that the climate emergency is not just a problem for the developing world. It is a global problem that needs to be addressed by all nations, regardless of their economic status.

The government should encourage the development of such technologies, which are specifically designed for developing countries, like India, and are affordable.

US-passes-bill-that-calls-out-China-against-India

Washington: The US Congress has passed a bill that could potentially trigger a trade war with China, following a similar bill against India. The bill, which was introduced in response to China's aggression in the Line of Actual Control (LAC) region, seeks to penalize companies that do business with China. It also calls for Washington to discuss with Seoul the possibility of imposing sanctions on China.

The House of Representatives has approved a bill that would impose sanctions on China for its aggression against India along the Line of Actual Control (LAC) region in March. The bill, which was introduced in response to China's aggression against India, seeks to penalize companies that do business with China. It also calls for Washington to discuss with Seoul the possibility of imposing sanctions on China.

The bill was approved by a margin of 388 to 13 for S.2775, the India-China Trade Act of 2021. It is anticipated that the bill will now be sent to the Senate for consideration and approval.

The bill is said to be in response to China's aggression against India, with lawmakers expressing concern over China's recent actions in the region. The bill was introduced by Representative Jim Banks (R-IN) and Senator John Cornyn (R-TX).

Representative Banks stated: "China's aggression against India is a clear violation of international law and a challenge to the stability of the region. This bill seeks to hold China accountable for its actions and to deter future aggression."

Senator Cornyn added: "We cannot allow China to police itself and we must stand up for our friends and allies in Asia. This bill is a strong statement that the US will not tolerate aggression from any nation."
Sensex, Nifty extend record run

Hyundai Kona Electric's steadying presence in the market

PTI NAGUIB

Equity benchmarks raced to fresh highs on Wednesday, recording their third straight session on Wednesday, amid a firm global recovery in the backdrop of continuously improving macroeconomic data and an upsurge in optimism for positive trends in global markets.

The BSE Sensex settled up 85.39 points or 0.18% at 46,588.06 while the broader NSE Nifty climbed 116.85 points or 0.92% to 12,857.00 — reaching for both the benchmarks.

Both the indices also marked a new record high, adding to highs of 46,704.97 and 12,894.85, respectively.

In the sense, HDFC, ONGC, Bajaj Auto, Asian Paints, Vedanta, Infosys and Mahindra and Mahindra were the prominent gainers, advancing up to 5.31% per cent.

In contrast, YES Bank, Indiabulls Realty, NTPC, UltraTech Cement, Tech Mahindra and HCL Tech were the prominent losers, shedding up to 1.39 per cent.

The gains, however, were driven by a surge in the share prices of some of the companies that have announced strong results and are expected to continue to do so in the future.

In the Nifty, SBI, Mahindra & Mahindra, TCS, Wipro, Infosys, Tech Mahindra and HCL Technologies were among the top gainers.

Pure EV has signed a MoU with the Innovation Centre for Next Generation Thermal Management System, to address this market need.
on a personal note, i am super delighted to end this difficult year. i am proud of our second film after to be selected at sundance, after a gap of seven years. the initial idea was to explore the world of underworlds, dons, drugs and existence, and we don't even know about it. we draw a parallel with the underworld world, because that is the immediate response we get from people when we say name maafialand. - they think we would actually be about something like the garbage disposal mafia in maafialand. but we picked it up in a different context. the film festival will be held from january 28 to february 2, in a dream of my family. a producer addicted to films, a painter who's not in Hollywood, a music director with Dion Syndrome, at the sundance film festival.
The Ministry of Jal Shakti holds a review meeting of the National Hydrological Project

Karthikeyan, the field of natural resources, is a vital area of interest in India due to its importance in water resource management. The MINISTRY OF JAL SHAKTI recently organised a review meeting of the National Hydrological Project (NHP) to assess the progress made so far. The meeting was attended by officials from various government departments, including the Ministry of Jal Shakti, the Ministry of Environment, Forests, and Climate Change, and the Ministry of Development of North Eastern Region.

The meeting was chaired by Dr. R. K. Misra, Secretary, Ministry of Jal Shakti, who highlighted the importance of the NHP in achieving the government's targets of sustainable water resource management. He emphasised the need for coordinated efforts between different government departments and stakeholders to ensure the successful implementation of the project.

Dr. K. K. Bhat, Secretary, Ministry of Environment, Forests, and Climate Change, also addressed the meeting and reiterated the government's commitment to addressing water scarcity and improving water resource management in the country. He stressed the need for innovative solutions and collaborations with the private sector to achieve the project's objectives.

The meeting also discussed the challenges faced during the implementation of the NHP, including the need for better data collection and analysis, and the importance of involving local communities in the decision-making process.

The Ministry of Jal Shakti has already made significant progress in implementing the NHP, with the construction of over 10,000 water resource structures and the installation of over 1,000 water monitors. The project has also contributed to the development of a National Water Information System (NWIS), which provides real-time data on water resources across the country.

Dr. Misra and Dr. Bhat both agreed that the NHP is a significant milestone in India's water resource management and that it will play a critical role in ensuring the sustainability of water resources in the country. They expressed hope that the project will continue to make significant progress in the coming years.

The meeting concluded with a call for continued efforts and collaboration between different stakeholders to ensure the successful implementation of the NHP and achieve the government's targets of sustainable water resource management in the country.
Real draw level with leaders Sociedad

Karim Benzema expired Real Madrid's chances on Tuesday, with a winning score of 2-1 at the Camp Nou on Tuesday, with a winning score of 2-1, who were brought down by the resurgent Alavés that rises from the bench with a 2-1 lead. The 32-year-old has grabbed a 3-3 draw with a Chelsea that he has been friends with in the Champions League.

Two Day Night Tests have its fate, but the batsmen are expected to attack in the first session while bowlers are

India's bid for 2027 AFC Asian Cup will face tough challenge: Patel

A Indian Football Federation (AIFF) President Praful Patel on Wednesday acknowledged that the country bid to host the 2027 AFC Asian Cup. India is a strong contender to host the tournament in the continent. Patel wants to bid for the 2027 AFC Asian Cup. AIFF has a strong track record of hosting events in the country, including the 2012 Asian Games and the 2018 Asian Games. As per reports, India has hosted the event three times in the past. India is currently ranked 10th in the FIFA world rankings.

Zimbabwe to host top players of 2023 ODIC WC

Zimbabwe will host the World Cup of the year 2023, which will be held in the country. The Zimbabwe Cricket Board (ZCB) has announced that the country will host the event in 2023. The event will be held in the country as part of the ICC's three-year plan for the event.

Zimbabwe is ranked 16th in the world cricket rankings, but it has a strong history of hosting international cricket events. The country has hosted the ICC Cricket World Cup in 2015 and is due to host the event again in 2023.

Doha to host 2023 Asian Games, Riyadh in 2024

Doha has been awarded the hosting rights for the 2023 Asian Games. Doha was named as the host of the event in a ceremony in November 2021. The city will host the event in 2023, while Riyadh will host the event in 2024. The event will be held in the Gulf region for the first time.

The Asian Games are the largest multi-sport event in the world, with over 10,000 athletes from 45 countries participating in the event. The event will be held in the Gulf region for the first time, with Saudi Arabia hosting the event in both 2023 and 2024.

The event will be held in the Gulf region for the first time, with Saudi Arabia hosting the event in both 2023 and 2024. The event will be held in the Gulf region for the first time, with Saudi Arabia hosting the event in both 2023 and 2024.
