Govt rejects opp demand for caste-based census

Assembly adjourned sine die

The Uttar Pradesh government on Friday rejected the demand of Opposition parties for a caste-based census in the state. It stated that such a census would not only be against the Constitution but also violate the fundamental rights of the people.

"This is beyond the legislative power of the opposition to pass a resolution, Khanna said, while opposing the demand for a caste-based census.

His demands for the past 6 years were reminded by his colleagues.

"We are not against the idea of a caste-based census. The demand should have been made in the manner of the Constitution is framed in the Central list, " Khanna said.

The SP MLA had earlier said that the Cabinet was ready to work out the exact share of OBCs in the state but the united opposition of all the political parties was opposed to it.

Chief Minister Yogi Adityanath countered the opposition by saying, "The government is ready to discuss the demand of Opposition parties for a caste-based census inside the Assembly if the demand was not taken up.

The government was also ready to discuss the demand to provide reservation to OBCs on the basis of the census of 1931 but the opposition was ready to block the government's agenda.

Concluding his statement, Adityanath said, "He can wear a turban if the government to work out the exact share of OBCs in the state population.

Halt air strikes: NATO

At Brussels on Friday, NATO members agreed to halt air strikes against Syria, of access to migrants gathered at Greece's border crossing into Europe. The move is seen as a significant step forward in the search for a peaceful solution to the conflict in the Middle East.

"We have reached a consensus on halting air strikes against Syria, as access to migrants gathered at Greece's border crossing into Europe. The move is seen as a significant step forward in the search for a peaceful solution to the conflict in the Middle East," a NATO official said.

The air strike on Syria's government forces marks the largest death toll in Syria in a single day, and it's a major escalation in a conflict that has been raging for nearly four years.

A government official said that border crossings would be reduced significantly, if not stopped altogether, as a measure to halt the spread of the new coronavirus. It borders on the couple.

"We are trying to ensure that people are protected from the disease," said the official.

NATO has announced that it will no longer pick up the security tab for individuals who break immigration laws.

"We are determined to do everything we can to protect our citizens and those of our partners," said the official.

What the Indian team would want is one among them to get the Test call-up, but both have shown their credentials in the past and are in the mix. T20 can’t survive without Test cricket: Sir Richard Hadlee

A fast bowler with 40 Test wickets to his name, Sir Richard Hadlee believes there can be no T20 cricket without Test cricket. “I don’t think the two formats can ever survive if Test cricket doesn’t exist. It’s the foundation on which the game is based. So to think about world cricket or country cricket if Test cricket doesn’t exist is like thinking of a revolution in a definition of the T20 format which I think will come,” said Hadlee.

The reports are awaited before the start of the Test.
