Now Delhi 3rd worst Covid-hit nation

With 23,932 fresh cases, 420 deaths in a day, India replaces Russia with only US and Brazil ahead of it.

New Delhi, Monday, July 6, 2020, Page 12:13

With 23,932 fresh cases and 420 deaths in a day, India has surpassed Russia to become the world’s third-most affected country by Coronavirus. While Russia has over 29.64 lakh cases, following the US’ 6.81 lakh so far, States are ahead of India in the last 24 hours, India on Sunday recorded its second-highest single-day rise in the number of Covid-19 cases, with 24,042 fresh cases and 1,018 reported deaths. The cumulative tally of infected cases in the country now stands at 71,82,928 while the death toll has crossed 1,00,000.

Maharashtra, the worst-affected State, recorded 6,751 fresh cases and 135 deaths, the highest in the last 24 hours as it added 10,620 fresh cases and 208 deaths, taking its tally to 24,03,950, while its death toll surged to 9,175. The State is ahead of Russia in terms of both infected cases and COVID deaths.

ICU bed numbers go up in Delhi's government hospitals: Govt

STA FF REPORTER | NEW DELHI

It is a bid to ramp up the medical facilities and ramp down the pressure on the healthcare system as the Delhi government fights against Covid-19. In the last three weeks, the number of ICU beds have increased from 1,223 to 1,950 from Basantapur, 2,000 to 3,400 in Lok Nayak Jai Prakash Hospital, and 3,600 to 4,800 in Guru Teg Bahadur Hospital by July 19. Deputy Chief Minister Manish Sisodia had on June 18, announced in a press conference that the number of ICU beds in Delhi has increased from 45 to 150 in 150 hospitals in Faridabad.Rahul Bahadur Hospital Super Specialities Hospital. A total of 6,258 patients have recovered. The number of ICU beds in Delhi has crossed 70 per cent on July 4, and the number of hospitalized patients has increased from 6,200 to 8,300. The number of vacancies in ICU beds is around 989, which is nearly 60 per cent of the total capacity in Covid hospitals.

In the same time, the three-fold increase in ICU beds in Delhi’s three largest state-run hospitals has been accompanied by the addition that will further enhance the city’s ICU capacity. The official said that the result of a continued push could be seen in the number of beds in LNJP has increased from 120 to 210. The number of ICU beds in Guru Teg Bahadur Hospital has increased from 45 to 150 in 150 hospitals in Faridabad.

To conduct an enquiry into the murder of her friend last year. The official said that the result of a continued push could be seen in the number of beds in LNJP has increased from 120 to 210. The number of ICU beds in Guru Teg Bahadur Hospital has increased from 45 to 150 in 150 hospitals in Faridabad.

The police department will make more suitable arrangements for conducting the inquiry in view of the rising figures of Corona infections. The police department has increased the number of ICU beds at all police stations. On June 18, the Deputy Commissioner of Police (DCP) Shalu said in a bid to ramp up the medical facilities and ramp down the pressure on the healthcare system, the number of ICU beds have increased from 1,223 to 1,950 from Basantapur, 2,000 to 3,400 in Lok Nayak Jai Prakash Hospital, and 3,600 to 4,800 in Guru Teg Bahadur Hospital by July 19.

Over 4,500 paramilitary personnel infected

During the COVID-19 pandemic, the Indian military has been actively involved in various tasks such as carrying out spraying operations in targeted areas to combat the virus. As of latest reports, over 4,500 paramilitary personnel have been infected, including those in the CISF, ITBP, and CRPF. The situation continues to be active, and the forces remain on high alert.

Sitharaman a venomous snake? MC MP stirs row

SITHARAMAN SAYS SHE WANTS TO BECOME AN MP

Indian Finance Minister Nirmala Sitharaman has sparked controversy by suggesting she is interested in contesting the upcoming Lok Sabha elections as a candidate for a national party, specifically the Bharatiya Janata Party (BJP). The senior minister, who has held several key positions in the government, has expressed her desire to change her political arena, from business to politics.

However, Sitharaman’s statement has raised eyebrows among political analysts and fellow politicians. The minister’s decision to enter politics has sparked discussions about her political alignment and the impact it may have on her的形象 in the business world.

Air India to operate 36 flights between US and India from July 11 to 26

Air India has announced plans to operate 36 flights between the US and India from July 11 to 26, in an effort to boost travel as part of the ‘Bharat Mission’ to bring back Indian nationals stranded abroad. This move comes in response to the growing demand for international travel, especially as many countries ease restrictions and travelers return to normalcy.

The flights will operate from major cities in the US, including New York, Chicago, and Los Angeles, to various destinations in India, providing a much-needed connectivity to Indians scattered across the globe. This initiative is expected to further strengthen India’s position as a major global player in the travel and tourism sector.

Priyanka’s bungalow at 35 Lodhi Estate allotted to BPJ RS member Arun Baluni

Bharatiya Janata Party (BJP) member Arun Baluni has received a house at 35 Lodhi Estate in New Delhi, which was the residence of former Prime Minister Indira Gandhi. The move has raised eyebrows, with critics accusing it of nepotism and controversy.

The allotment of the bungalow has sparked a debate, with some accusing the BJP of using its power to benefit its members. Critics have also questioned the timing of the allotment, saying it is not in line with the government’s policies of providing houses to those in need.

Websites linked to pro-Khalistani blocked

In response to calls for the ban on pro-Khalistani websites, the Indian government has blocked several websites linked to pro-Khalistani organizations. The move is part of the government’s efforts to combat terrorism and maintain national security.

The government has not released any official statement on the list of blocked websites, but it is believed that the websites included in the ban are those that call for separation, violence, and other activities that are against the Indian Constitution.

CPM urges Govt to break patent monopoly on Remdesivir

The Communist Party of India (CPI) has urged the government to break the patent monopoly on Remdesivir, an antiviral drug used to treat COVID-19. The CPI claims that the high prices charged by multinational companies for the drug are preventing poor countries from accessing it.

The demand for breaking the patent monopoly comes as part of the party’s broader campaign for affordable and accessible healthcare. The CPI has been vocal in its criticism of the government’s handling of the pandemic, calling for a more equitable distribution of resources.

The vaccine race

Showmanship is for politics, not science, warns researchers on the ICMR’s rush to launch Covaxin by August 15

The question is: How much evidence is enough evidence? The Oxford COVID-19 vaccine, which is miles ahead of us, is expected to fit the Indian conditions. It is a pragmatic decision to take a pragmatic course through a long stop and vaccine development takes time. Under normal circumstances, clinical trials on volunteers who are inoculated take over 10 years. However, given the pandemic, the Oxford trials have been compressed by most scientists around the world. This will now combine Phase 1 and Phase 2 to speed up the process so that the vaccine will be approved for emergency use in the United States and the United Kingdom. The Oxford test has a more robust safety profile while Phase 2 employs a larger sample size and looks at immune responses. However, a vaccine is deemed safe to be commercially available only after several months of follow-up research. If Oxford is not alone, with a telescoped timeline, experts don’t expect to see a vaccine before 12-18 months.

This is where India stands. Waryingly, for Indians, who will be the final recipient of the shots, the trial documentation for Covaxin does not mention Phase 3. Even if Phase 1 and Phase 2, there appears to be some conflict with the Oxford trials and Indian trials are not part of the global trials and cannot be compared with the Oxford trials.

India wants to negotiate with Pakistan. But will it be safe to do?

The Prime Minister (PM) Imran Khan and his government have been criticized for their inability to stall the virus' rapid spread. Many have also criticized the regime for allowing COVID-19 and its spread. India and China have a lot of history together and signed five agreements between 1993-2013 under the leadership of late Prime Minister V.P. Singh. The provisions of the peace agreements at present remain suspended as India and China are recovering from the coronavirus disease. The Chinese government has consistently asserted its position on the border dispute at various levels of interaction. The Chinese government has given guarantees that it has no intention of making any changes along the Line of Actual Control (LAC). The fact is, the Chinese government has consistently asserted its position on the border dispute at various levels of interaction. If the Chinese government has given guarantees that it has no intention of making any changes along the LAC, then India should reciprocate by not trying to change even an inch of territory, as the Chinese government has always been clear about its stand.

The Chinese government is committed to further enhancing the communication and understanding between the two peoples, and is willing to work together with the US side to further promote cross-border exchanges and cooperation.

The two presidents also exchanged views on a range of international issues of common interest, including the fight against the novel coronavirus, the maintenance of global peace and security, and the promotion of international cooperation and development.

During the conversation, the two leaders agreed that it is imperative to strengthen dialogue and cooperation between China and the US to ensure the stability and prosperity of the world.

The Chinese president welcomed the US government's decision to fully respect the desire of the Chinese people to promote cross-border exchanges and cooperation with the US side, and stressed the importance of upholding the principles of respecting each other's core interests and ensuring the peaceful development of the international community.

The US president expressed his appreciation for China's efforts in promoting cross-border exchanges and cooperation, and agreed to continue to support the Chinese government's endeavors in this regard.

Both sides also agreed to closely coordinate and communicate with each other on other issues, including climate change, cyber security, and regional stability.

Overall, the conversation demonstrated the strong determination of both sides to strengthen dialogue and cooperation, and to promote a more stable and prosperous world.
Reliance plans to up aviation fuel stations by 50% PTI NEW DELHI

Birla Mohanlal Ambani’s Reliance Industries Ltd (RIL) plans to increase the number of its aviation fuel stations by 50% to 3,000 from the current 2,000 stations. The company currently controls 75% of the aviation fuel market in India.

In its latest annual report, RIL said that the aviation fuel market “is expected to grow at a rate of 14% per annum and to reach 268 million gallon (mgal) in a year from 180 mgal in 2019-20.”

The company, which is the largest refiner of crude oil in the country, said that its aviation division is currently operating 1,154 aviation fuel stations in India.

The company said that it is planning to double the number of aviation fuel stations to 2,000 in the next three years.

I forward to interact but the human groups and classified by their order just like another disease we suffer. Good health is a balance of physical and mental needs to be supervised by a professional. Ayurveda explores the relationship between the body and mind. Various Ayurvedic therapies are used at our centre such as Shirodhara, Thalattikizhi, Thailam, Pichu, Abhyanga, Nasyam and more. Ayurvedic medicines like Manasmitra and Ritucharya and incorporating dietary habits which suits your body type.

BETTERLIFE than never

Due to lack of awareness, poor state of education and disconnected from the outside world, Ban Raji, a tribal community, needs special attention, especially its women, says NARENDRA SINGH BHISHT

KEEP CALM

As the world is transiting to an urban setting, the need for Ayurveda is also increasing. The rural and urban mass is being exposed to stress and mental strain. It is very important that people suffering from anxiety, depression or any other mental health issues since they are in the nervous and other parts of the body. Illustrate, of course, also controls improve, the fine line of blood in the body as well as health after the treatment. In the case of any complication, one should see a doctor within thirty minutes. Finally, a healthy andfree lifestyle with some healthy drink makes for a perfect morning routine. The breakfast should be before 10:00 am so that there is ample time for the body to digest and prepare for the next meal.

The win the tone and energy for the day. Ayurveda also suggests that you should perform meditation for at least thirty minutes. Finally, a heavy and sleep late and which suits your body type.

NEW WAYs TO DIAGNOSE MALIGNANCy

Researchers have developed a new approach to study the genetic damage and treatment of diseases in the body of one of the most common nasopharyngeal carcinoma, the results of which are published in the American Journal of Respiratory and Critical Care Medicine. The research team, which is headed by Dr. Scott Danenberg, said, “We have identified a molecule that can be used as a diagnostic tool for nasopharyngeal carcinoma.”

The team led by Dr. Scott Danenberg used a new technique called mismatch repair system in nasopharyngeal carcinoma cells. The technique involves the use of a gene called MMR. When the gene is mutated, it can lead to the development of nasopharyngeal carcinoma. The research team found that the mismatch repair system is dysregulated in nasopharyngeal carcinoma cells.

The research team also found that the mismatch repair system is dysregulated in nasopharyngeal carcinoma cells. The results of the study were published in the American Journal of Respiratory and Critical Care Medicine.

De Kock wins SA Cricketer of the Year award

BARCELONA (REUTERS) - Quinton de Kock was named South Africa's Cricketer of the Year on Thursday, becoming the second batsman to win the award since it was introduced in 2009.

"It’s a massive win, “ said de Kock, who has never been the sort to be too affected by awards. "I think it’s just an indication of how well we’ve been playing as a team."

The 27-year-old, who has been a regular member of the Proteas team since 2010, said he was delighted to have won the award.

"It’s a huge honour for me, " he said. "It’s something that I’ve always been working towards, and to finally win it is just amazing."

De Kock, who was named the Test Cricketer of the Year in 2020, said he was looking forward to the future.

"I’m excited to see what the next year holds, " he said. "I’ve got a lot of work to do, but I’m confident that I can achieve my goals."
