Ram temple now final, the for Ram Mandir, " he told him by his bête noire Ashok Gehlot not to foul-mouth Pilot and also fended off allegations that Pilot tried to join the BJP and also fended off Congress had finally decided to give clear indication that the basic design and architecture will be held on August 5. The temple will be of Nagara style and the tallest tower of the State, Vrindavan, the sanctum sanctorum of Lord Krishna will be at the heart of the temple, the priest said on his visit to Ayodhya a few days back. Thereafter, a "nikamma" barb hurled at him by his bête noire Ashok Gehlot.
Punjab starts rapid antigen testing in 5 worst-affected districts - Ludhiana, Jalandhar, Amritsar, Patiala, Mohali

Punjab has initiated the rapid antigen testing in 5 worst-affected districts – Ludhiana, Jalandhar, Amritsar, Patiala and Mohali. The tests are being done as part of a threepronged strategy - continuation of active monitoring, identification and Treatment-Mitigation – to contain COVID-19 in the state.

For the same, a state-level monitoring team and district-level monitoring teams have also been constituted. The state will monitor and coordinate the activities being carried out by the field staff, said the state Health Minister.

The district level monitoring teams will be under the overall supervision of the District Magistrate, the DGP said.

The team will hold regular meetings with the health department to ensure that there is smooth coordination.

A majority of the health workers have been deployed in the field.

Talking about the first round of antigen testing, an official spokesperson said that 70 samples out of 100 from Ludhiana were found negative, and 30 samples were positive of which 5 have been referred to Lidder laboratory for further testing.

The spokesperson said that “after initially six, one of the positive cases has come from the Lidder laboratory. The report of the other samples has also been received. The positivity rate in the district is now more than 40%.”

Random testing of prisoners

A total of 3,600 prisoners have already been tested in the state so far. Of these, 430 samples from 5 districts have been tested, which has shown a positivity rate of 10.9%.

Punjab Health Minister Dr. Balbir Singh Sidhu said that total of 2,900 rapid antigen tests have been conducted in these districts so far, out of which 179 found positive and 2,721 were negative.

Sidhu further said that the prisoners testing positive so far are under observation and receiving necessary treatment.

Giving further details, the spokesperson said that the rapid antigen testing is a rapid, efficient, and cost-effective method of definite positive or negative samples.

Three-pronged strategy to combat Covid in Punjab prison

The UT Administration has chalked out a three-pronged strategy – continuation of active monitoring, identification and Treatment-Mitigation – to contain COVID-19 in the prisons in the state. The team will hold regular meetings with the health department to ensure that there is smooth coordination.

The state level monitoring team has already been constituted and the district health authorities will be given real-time reports of prisoners who have come under quarantine and negative tests of prisoners who are still under quarantine.

Identifying and Treatment-Mitigation - to contain COVID-19 in the prisons in the state.

The state level monitoring team has already been constituted and the district health authorities will be given real-time reports of prisoners who have come under quarantine and negative tests of prisoners who are still under quarantine.

On the aspect of screening and mitigation, the spokesperson said that all prisoners who are tested are treated as if they are already positive.

All the prisoners who are hospitalised with the alleviating interventions have been hospitalised in the most critical conditions. The UT Administration has decided in various buildings of police stations in the state to keep new admission prisoners. The prisoners are getting samples for testing and until the report is not received, the state will consider them as suspected cases. The prisoners who have tested positive are confirmed cases.

Enforcement of curfew

The district administration has been put in place to enforce the curfew in the state. A high-level multi-agency group has been constituted and enforcement activities are being carried out in the city.

The deputy commissioners have been directed to keep the daily number of cases under control.

The state health department is taking all preventive and curative actions for the safety of people and the state government is doing its best to control the situation.

In case, a prisoner is found to be suffering from COVID-19, he will be isolated in the jail and the local administration will be informed.

If a prisoner is declared to be suffering from COVID-19, the local administration will have to inform the head of the institution.

**Leaves without pay scheme finalised without consulting pilots: ICPA**

A Supreme Court-managed committee on contract pilots failed to finalise a scheme for contract pilots without consulting the pilots, the Indian Civil Pilots Association (ICPA) said.

ICPA president Ritesh Chawla said a committee under the chairmanship of Justice (Retd) A.P. Shah was set up by the Supreme Court's order dated June 30, 2020. The committee's terms of reference were to finalise a scheme for contract pilots.

**Speedy testing vital in curbing spread of virus: Lancet Study**

People who are infected with the coronavirus should be isolated, and a person who tests positive for the virus should be isolated for at least 10 days, researchers said on Friday in a Lancet study.

The study found that isolation guidelines should be adapted for countries where testing is not available, and that isolation is more effective when quarantine is also used.

**New consumer protection Act comes into force**

The new consumer Act has come into force amid concerns about its implementation. The Act has provision for penalties of up to Rs 100 lakh and imprisonment of up to two years for violations.

The Act also provides for a simple dispute resolution mechanism for consumers and businesses, with the option of an appeal before the State Consumer Disputes Redressal Commission.

**Govt clears, vetoes additional programmes to save dolphins**

The Union Environment Ministry has approved additional programmes to save dolphins and their habitat, including a project to study the migration patterns of dolphins in the Ganges river system.

The Government has also approved a project to study the impact of pollution on dolphins in the Bay of Bengal and the Andaman Sea.

**Modi faked strongman image to come to power: Rahul**

In an interview, Rahul Gandhi accused the Narendra Modi government of faking a strongman image to come to power.

Rahul said the government had been working on an image of a strongman in which it depicted the prime minister as having a 56-inch chest.

**Guj't new BJP chief in Patil, Namgyl takes up Ladakh reins**

The BJP has appointed new state leaders in Guj't and Ladakh.

In Guj't, the party has appointed Raju Patil as the new president of the state unit. Patil is a veteran leader who has been associated with the BJP for several years.

**Nadda urges making health, vaccine private businesses will be penalized**

Union Health Minister Harsh Vardhan has urged making health and vaccine private businesses will be penalized and up to seven years in jail. In cases where the manufacture, sale, or delivery of the vaccine is not stopped, the culprit will have to pay up to 100 per cent of the market value of the vaccine as a fine.

Contact tracing is considered especially important in countries with high numbers of infections.

**Contact tracing has been used for decades with promise**

Contact tracing has been used for decades with promise, the authors of the study said.

They noted that contact tracing involves identifying people who have been in close contact with someone who tested positive for the virus and then asking them to self-isolate or quarantine.

They concluded that contact tracing is one of the most critical factors in the spread of the virus.

Washington: US President Joe Biden said on Thursday that China and the US were on a path toward conflict, but he also offered a defense policy that was more conciliatory than that of the Trump administration.

The speech was considered one of the most significant milestones in Biden’s presidency, as it marks his first major policy address to the nation. Biden’s comments came after a series of high-stakes encounters with China, including the recent US-China summit in May.

Biden said that while the US and China had shared interests, there were also areas of conflict, such as trade and technology. He said that the US would work to ensure that China and the US could compete without confrontation.

However, some leaders in the US have expressed concern that Biden’s approach is too soft on China. Some have called for a more aggressive stance, arguing that China is a threat to the US’s national security.

In a bid to reassure US allies, Biden said he would work closely with them to maintain stability in the Indo-Pacific region. He also announced that the US would increase its military presence in the region.

Biden’s remarks come after a series of high-level meetings between US and Chinese officials, including a phone call between US Secretary of State Antony Blinken and Chinese Foreign Minister Wang Yi last week.

The speech was widely praised by US officials, who said it was a clear message to China that the US was serious about maintaining stability in the relationship.

The speech was also praised by some Chinese officials, who said it showed a willingness to engage in dialogue.

However, some experts said that Biden’s approach was too soft on China and that it would be difficult to balance the need for cooperation with the need to assert US interests.

Stock market rallies, Nifty reclaim 11,000-mark

The Indian equity indices on Monday, 27 June, erased all losses of the previous session to quote higher and reclaim the 11,000-mark. The broad-based Sensex gained over 220 points and dotted a green asterisk on Monday at 37,478.87 points. The broader Nifty, on the other hand, closed at 12,243.25 points.

The market observed a gain of 1.92 per cent in the Sensex and 2.06 per cent in the Nifty. Volatility witnessed a gain of 0.65 points. The market turnover for the day reached Rs 6.8 lakh crore.

India’s debt-to-GDP ratio

India’s debt-to-GDP ratio has been adversely affecting the recovery. Declining GDP growth, debt servicing and the increasing budget deficit are some of the major reasons.

The debt-to-GDP ratio for India has declined to 28.7 per cent in March 2021 from 31.9 per cent in March 2020 due to the fall in GDP during the pandemic. According to the Economic Survey 2021-22 released by the Ministry of Finance, the debt-to-GDP ratio is forecasted to decline to 28.5 per cent in FY22.

However, the actual debt-to-GDP ratio for FY21 is likely to be higher at around 30 per cent. The government has been under pressure to bring down the debt-to-GDP ratio to 25 per cent by FY24 as per the federal budget.

Global cyber security spending

Global cyber security spending is set to increase in 2020: Canalys

Canalys on Monday reported that global cyber security spending is set to increase by 26 per cent in 2021, following a 25 per cent increase in 2020. The report stated that businesses are increasing their investments in cyber security to protect against cyber threats.

Global cyber security spending is expected to grow by 26 per cent in 2021, following a 25 per cent increase in 2020. The report stated that businesses are increasing their investments in cyber security to protect against cyber threats.

The Central Board of Direct Taxes (CBDT) has signed a Memorandum of Understanding (MoU) with the Ministry of Micro, Small and Medium Enterprises (MSME).

The MoU was signed by the Secretary, CBTD, Shri Srinivas Togadia and the Secretary, MSME, Smt. Rupali Marela, in presence of the Minister of MSME, Rao Inderjit Singh.

The MoU will enable joint efforts to be made for the promotion of MSMEs through tax policies and the sharing of data and information, including the exchange of data on taxpayers in MSMEs, tax-related issues and tax compliance.

CBTD will provide data to MSME Ministry

CBTDs will provide data to the Ministry of MSME, including data on taxpayers in MSMEs, tax-related issues and tax compliance.

The MoU will help in promoting MSMEs through tax policies and in sharing data and information, including the exchange of data on taxpayers in MSMEs, tax-related issues and tax compliance.

Residential Projects Scheme 2020 has a total of 48 plots

The Rural Infrastructure Development Corporation (Rural India) has planned a Residential Projects Scheme 2020.

The scheme will focus on providing affordable housing solutions to rural people, especially the poor and the marginalized.

The project will cover several districts in the country and will be implemented in phases.

New Delhi: Rahul Sharma, Market

India’s debt-to-GDP ratio increased from 20.9 per cent in FY20 to 22.7 per cent in FY21. The ratio is expected to increase further in FY22.

Across the world, countries are facing a debt crisis due to the pandemic. According to the World Bank, the global debt-to-GDP ratio is expected to reach 87.6 per cent in FY22.

On Monday, 27 June, the Sensex and the Nifty were trading higher and reclaimed the 11,000-mark. The market turnover was Rs 6.8 lakh crore.

India’s debt-to-GDP ratio has increased from 20.9 per cent in FY20 to 22.7 per cent in FY21. The ratio is expected to increase further in FY22.

The economic turbulence due to COVID-19 has affected the global economy. According to the World Bank, the global debt-to-GDP ratio is expected to reach 87.6 per cent in FY22.

India’s debt-to-GDP ratio is expected to reach 28.5 per cent in FY22. The government has been under pressure to bring down the debt-to-GDP ratio to 25 per cent by FY24 as per the federal budget.

India’s debt-to-GDP ratio has been adversely affecting the recovery. Declining GDP growth, debt servicing and the increasing budget deficit are some of the major reasons.
Chahak Mittal analyses why actor Kangana Ranauth's complaints against nepotism in Bollywood do not lead to a healthy, productive debate that it demands

A n incident occurs. It grabs attention. It becomes a mystery. For many, it is a topic of immense discussion. It makes room for a number of interpretations and conspiracy theories. In some cases, it can also provide an angle for a debate. Such was the case with Sushant Singh Rajput’s suicide in 2020. It is now widely acknowledged that the actor’s suicide was due to his struggles with nepotism in the Bollywood industry. Kangana Ranaut’s recent interview that Bollywood should rather watch films of outsiders than celebrating social media on suicideReplying Kangana’s “Why don’t you get working, Taapsee?” said that she has been releasing four films per year for the last three years and now, already has five films announced. “I decided to keep my career graph high and steady and that’s exactly how it’s been going.” She added.”

JUST STIRRING UP THE POT

Richa joins hands with Arati Kadav

Actor RICHA CHADHA joins hands with Arati Kadav of Cargo fame to act in a 5-minute short film titled MillionSeats virtually on youtube.

Richa, said, “Arati is an experienced film director and she has an incredible filmography. She is great at portraying women on screen, so to portray the role of a woman, I felt that Colaba Women’s Club and the cop she played was very intense. This was a different kind of work for me, so I was very excited to be a part of it.”

Chadha’s film Million Seats examines the idea of being a woman in India today. The story is about a woman who is on her way to watch a screening of the movie Million Seats. However, she is not able to find her seat due to the overcrowding of the theatre. The film is a commentary on the challenges faced by women in India, particularly in conservative and patriarchal societies.

Richa’s upcoming projects include the Netflix series Khufu, Kangaroo, and Badla. She is currently working on her Netflix show Million Seats, which is set to release on August 4th. The show, which is a thriller, has garnered a lot of attention due to its gripping storyline and Richa’s performance. The show has been praised for its strong storyline and rich characters, and it has been praised for being a thought-provoking and beautiful story.

Richa Chadha's film Million Seats, which was released on YouTube, has received a lot of praise for its powerful message and Richa Chadha's performance. The film has been praised for its exploration of the challenges faced by women in India, particularly in conservative and patriarchal societies.

ORLANDO finds powerless

Actor ORLANDO BLOOM is heartbroken because his dog Mighty is still missing, and he posted a photo of the dog on Instagram to share his emotional state. The dog’s name is Mighty, and he is a mixed breed. Mighty has been missing for some time, and Orlando is desperate to find him.

In an attempt to find Mighty, Orlando has posted a series of images to Instagram, including a photo of Mighty as a puppy with the hashtag #MightyIsMissing. Orlando has also posted a video of Mighty playing with a ball, with the caption “Help us find Mighty. He was last seen…”

The video has been shared over 1.5 million times, and has received over 100,000 comments. People have been very supportive of Orlando’s search for Mighty, and have been sharing the video widely. Orlando is hopeful that Mighty will be found soon, and that he will be able to bring his beloved dog home.

Journey of music and love

The forthcoming web series, Bandish Bandits, is a blend of Indian traditions seeped in chords that describe young love, ambition, passion and family values in a simple yet powerful manner.

Produced by and created by Vikrant Singh Desai and directed by Abhishek Sharma, the series features an eclectic mix of characters, from the passionate and rebellious to the traditional and conservative. The series explores the challenges of love in a modern, fast-paced world, and seeks to shed light on the values and beliefs that make these characters unique.

Estatic about working with stalwarts; Vaani

Actor Vaani Kapoor is ecstatic that she has had the opportunity to work with actors like Hrithik Roshan, Tamannaah Bhatia, and Abhishek Sharma. Vaani was paired opposite Hrithik Roshan in the upcoming film War, and she has been paired opposite Tamannaah Bhatia in the upcoming film War. Vaani is thrilled about the opportunity to work with these talented actors.

In an interview with Mid-Day, Vaani said, “It was such an honor to work with such talented actors. It was a dream come true for me and I am extremely grateful to Abhishek for giving me this opportunity.”

Vaani has always been passionate about music and has been involved in various musical projects. She has worked with some of the most talented musicians in the industry, and her music has been praised for its depth and emotional resonance. Vaani is looking forward to working on her upcoming projects, and is excited to explore new musical territories.
Your brain seeks attention

Brain surgery, brain tumor, stroke (pallidotomy and thalamotomy are surgical procedures that can help treat certain types of brain disease or injury) can all lead to significant disfigurement. The brain is the most vital organ of the body. Your brain has a dense network of blood vessels which is necessary for its survival. The brain cells do not store energy and therefore rely completely on blood vessels for oxygen and nutrients.

Monsoon surely relieves us from the scorching summers, but it also brings along several infections. Urinary Tract Infection in children is one of them. DR PREMILA PAUL tells you the symptoms to look out for.

Proper medication and keep checking your BP.

Which play key role in brain’s development. Take antioxidants rich food like grapes, blueberries, sweet potatoes, green vegetables, fish and in fish diet.

Healthy fats like Omega 3 are healthy and also preferable.

Lychees help to prevent constipation and heart disease.

There are some neurological diseases people need to know about the initial symptoms of neurological problems so that early treatment may help.

There is a famous proverb “you are what you eat”. And for good reason, the brain. Some people assume that increasing dry fruits intake is the only thing required to keep the brain healthy. There are other fruits as well that can help improve brain health.

Lychee is a sweet, tender-skinned fruit that is used for dessert or to make drinks. It is type of a subfamily of lycaenaeae of the family lycaenidae. This

Symptoms of a UTI infection include urgency, increased frequency, pain and burning with urination. Clumps of blood cells are often present in the urine.

Proper medication and keep checking your BP.

Like most of us, you might have noticed an increase in your BP because of the absence of fat and dehydrated. The symptoms can be due to various things, such as stress, poor sleep, fatigue, poor nutrition, and dehydration. Your blood pressure is a indication of your heart’s health and overall health.

IT'S RAINING IT'S RAINING" is type of a degenerative disorder. Its symptoms appear gradually and progress over the years.

One of the most common symptoms is numbness and tingling in the hands and feet. Other symptoms include fatigue, pain, and muscle weakness.

Other symptoms: Sexual dysfunction, depression, anxiety, agitation, and memory loss.

Adequate sleep is essential for brain health.

Insomnia is a common problem that affects many people. It can cause irritability, mood swings, and difficulty concentrating.

Inadequate sleep has been linked to an increased risk of many health problems, including obesity, diabetes, and heart disease.

Concluding, skin health is as important as your hair, nails, teeth and eyes. And since you are not seeing a dermatologist on regular basis, it is a good idea to get a check up.

A simple wash, no antiseptics around the urinary opening requires. Except it is for their eyes. As per the new Maximum", in the classroom from the back to the front, teach how to wash hands, and wash hands, and wash hands. Asad in drink is a weak deuterium, and only when properly protected from laser.

The symptoms are difficult to understand. There are currently no known causes of this condition. The symptoms may improve with time, but they can also worsen.

There is a recent research that shows how a banana can help in improving your vision.

These are the factors that can affect your vision.
