HIMACHAL PRADESH PUBLIC WORKS DEPARTMENT

"Notice Inviting Tenders"

The Minister said that if the government's policy of BE 1220 (w/e 2019) is not implemented, the existing buss roads in the country will not be able to run smoothly. To ensure the smooth running of the bus roads, it is necessary to take preventive steps. Therefore, the government has decided to implement the said policy. The government has estimated that the implementation of this policy will require a total of Rs. 15,000 crores. The government has also decided to implement this policy in phases. In the first phase, the government will implement the policy in the state of Himachal Pradesh. The government has decided to implement the policy in the state of Himachal Pradesh in the following manner:

1. The government will implement the policy in the state of Himachal Pradesh in the first phase. The government will first implement the policy in the state of Himachal Pradesh. The government will then implement the policy in the state of Himachal Pradesh. The government will first implement the policy in the state of Himachal Pradesh. The government will then implement the policy in the state of Himachal Pradesh.

Kerala convokes all-party meet on NPR on Mar 16

The News Minute
KOLKATA: Kerala convoked an all-party meet on the National Population Register (NPR) on Wednesday. The meeting was decided after the Left government in the state took a decision to put on hold the NPR in the state.

Chief Minister Pinarayi Vijayan convened the all-party meet in the state assembly after the issue was raised at the Kerala Legislature, requesting that the government will take a collective decision on the NPR issue.

The meeting will be held at 3 pm on the state Central Election Commission (CEC) on the Left government's announcement that it had asked the state assembly to put on hold the NPR issue.

The onus is on the people of Delhi to see through the designs of politics and politicians to empower the police to operate without fear or favour.

A friend of India

Jack Welch's legacy will be veteran for decisions to come but the iconic American businessman was good for us

General Electric (GE), the firm that never forgot to remind us that it was founded by a former American President, Frank B. Salesman, also died in 2017, came to be known as the “House that Jack Built” in the last decades of the pid- ary. Jack Welch was the man who took the company to new heights, during his stint as the Chief Executive Officer (CEO) for over three decades. The market value of its stock rose from 35 cents to more than $200 billion, with an eye-popping increase of 2,700 percent. His leadership became a template at business schools across the world. Yet, after his retir- he, time has left behind a legacy which included some obvious woes on executive compensation and unem- ployed, a legacy which included some decisions to come but the iconic American businessman was good for us.

The contango

The Govt must ensure operational readiness and a healthy redundancy of protocols if it is to beat the coronavirus

A long-haul flying higher than an aeroplane in 100 years without refueling has now become a reality. This year has been a year of innovation, with the advent of new materials and technologies. The Govt must ensure that the country is prepared for the contango effect.

A sorry spectacle

The Russian ballet dancer, Valeriya Sayina, was recently_choiceed for her astonishing contango. She has been selected for the coveted role of the lead dancer in the upcoming film, “The Contango Effect.” Sayina, who has been training in ballet for over a decade, has been selected for the film based on her talent, dedication, and hard work. The role will be a challenging one, but Sayina is determined to make the most of this opportunity. The film is expected to be released later this year.
Congress must seize the day

No clear leaders emerge from the anti-CAA movement. However, the grand old party has not been able to take advantage of this opportunity and fill the leadership vacuum.

The personal data time bomb

The need of the hour is to create an atmosphere of trust and enable legal provisions ensuring protection of citizens’ data.

Analysis

The impact of the riots is not restricted to lost lives and economic outcomes. Its effects have also been felt in ways in which the global community has responded.

EARNESTLY WOULD YOU GIVE THIS ADVICE TO THE TROLLS, WHO, ABUSE, INTIMIDATE, BADGER AND THREATEN OTHERS IN YOUR NAME.

CONGRESS - OPPORTUNITY

Dear Mr. Modi,

The personal data time bomb

The need of the hour is to create an atmosphere of trust and enable legal provisions ensuring protection of citizens’ data.

Assessment

A combination of factors has led to the situation. First, the CBIC has turned a blind eye to violations of privacy and data protection laws. Second, the government has been slow in implementing the Data Protection Bill, which was passed in 2019. Third, the recent data breach at the National Institute of Technology (NIT) led to the exposure of sensitive personal data of students. Fourth, the government has been reluctant to acknowledge the scale of the problem and has failed to take adequate measures to address it.

Conclusion

The Congress Party must seize the day and take advantage of this opportunity to fill the leadership vacuum created by the anti-CAA movement. The party must work towards creating an atmosphere of trust and enabling legal provisions to protect citizens’ data. This will help the Congress Party to regain its place in the hearts of the people and win their trust.

NCLT approves NBCC bid for Jaypee Infratech

State-owned NBCC on Tuesday got approval from the National Company Law Tribunal (NCLT), headed by the Principal bench of the city, for the resolution plan of Jaypee Infratech through its arm Jaypee Infratech Projects Ltd (JIL), in a hearing on Tuesday.

The NCLT approved the resolution plan of the company under section 143 of the Insolvency and Bankruptcy Code 2016 with 100 per cent votes of lenders. The plan will be submitted to the NCLT for its approval.

The NCLT, which is the nodal body for insolvency cases, had on August 24, 2017, appointed a resolution professional to work on the insolvency case of the developer.

The Insolvency and Bankruptcy Code, 2016, was enacted to provide a regulatory framework for the insolvency and resolution of companies engaged in non-banking activities.

The company, which is in the real estate sector, had been over indebted to the tune of Rs 7,300 crore.

The resolution plan proposed to pay Rs 4,000 crore to 17,200 homebuyers, with the amount being paid out of Rs 9,783 crore available.

The plan also provides for Rs 3,000 crore to be paid to 15,000 creditors, with the amount being paid out of Rs 7,200 crore available.

The plan also provides for Rs 4,500 crore to be paid to 1,000 employees, with the amount being paid out of Rs 9,783 crore available.

Beijing: With the coronavirus still spreading across the globe, China is bearing the brunt of a pandemic that has claimed over 3,000 lives and infected hundreds of thousands. The global death toll is expected to rise, as the virus spreads to more countries.

Public health officials in China are working tirelessly to control the spread of the virus, which has caused more than 100,000 deaths worldwide. The Chinese government has taken drastic measures to contain the outbreak, including closing schools and large gatherings, and implementing strict quarantine procedures.

A 45-year-old woman, who is the first confirmed case in China, was admitted to a hospital in Wuhan on January 11. She was then transferred to a hospital in Beijing on January 23. She has been under treatment and is currently doing well.

In addition to these measures, China has also accelerated its research efforts to develop a vaccine for the virus. Researchers are working around the clock to develop a safe and effective vaccine, which could help to stop the spread of the virus.

As of now, the virus has not been fully contained, and there is a risk of further transmission. Public health officials are urging people to take preventive measures, such as wearing masks and washing their hands regularly.

The situation is still evolving, and there is a need for continued vigilance and cooperation between countries to fight the pandemic.
Happiness is Key

Make up your future

Make-up artistry is a creative field that provides a wide array of opportunities.

RAVI MITTAL tells students how they can make it a lucrative option

By now a way of capturing the essence of a person and fashion trends have always been a trend to look out for. The skills of a person and the ability to make a mark in the fashion industry are in demand. A person’s look and style can be accentuated with the help of a make-up artist. A make-up artist is a professional who uses different techniques and products to transform a person’s look. Make-up artists use human skin as a canvas and their tools as brushes and blemishes to create a certain look for the person. A make-up artist understands the importance of the individual and the need for them to create a certain look for a particular event or occasion. Make-up artistry is a creative career that requires a combination of artistry and technical skills to create a natural, beautiful and stunning look. Make-up artists possess a range of skills, including knowledge of color, lighting, and photography. They also have an understanding of the latest trends and techniques in the industry.

Institutes are highlighting the importance of this field by conducting various workshops and seminars. They also provide courses in fields like fashion, photography, and film. Students can pursue a degree in fashion after completing their higher secondary education. They can also opt for diplomas or certificate courses in various fields of make-up artistry. Many institutes offer courses in make-up artistry, including diploma, certificate, and degree programs. These programs provide students with the knowledge and skills necessary to succeed in the make-up industry.

IP varsity opens online admissions

The IP University has started the process of online admission for its various courses for the academic year 2021-22. The university has started the process of online admission for its various courses for the academic year 2021-22. The admission process will be conducted through the university’s official website. The university has announced that the process will start from April 15 and continue till June 15. The admission process will be conducted in two stages. The first stage will be the online registration followed by the second stage of document verification. The university has also set up a help desk for students who face any difficulty during the admission process.

Natural wellbeing summit

The Shiksha Foundation organized the second edition of National Wellness Summit on December 29, 2020 at Hotel Le Meridien, Jaipur, in collaboration with the Ministry of Health and Family Welfare, Government of India. The summit was held under the theme “Wellness for All” and aimed at raising awareness about the importance of wellness in today’s society. The program was attended by eminent personalities from the fields of health, wellness, and education. The summit was aimed at creating awareness about the importance of adopting a healthy lifestyle and promoting wellness in various aspects of life.
