Maharashtra Chief Minister Uddhav Thackeray on Tuesday announced that it would not hold elections for the 600-member Assembly on May 12, but would instead conduct a trust vote on Monday to determine whether the NCP-Shiv Sena-BJP alliance had the majority. In a televised address, Thackeray said that it would be unfair to impose an elected government on the people and that the NCP-Shiv Sena-BJP alliance would lose its legitimacy if it was unable to form a government.

Online payments end: The Reserve Bank of India (RBI) on Tuesday announced that all online payments would be closed from May 12 and all transactions would be shifted to offline mode. The decision was taken to ensure the safety of customers and employees in the wake of the COVID-19 pandemic. The offline mode will allow banks to continue services such as fund transfers, credit card payments, and other digital transactions.

US to AP flight lands today, rotomovers to be continued: The US government has approved the return of rotomovers, which are specialized vehicles used for transporting US citizens in remote areas, to the Philippines. The US government had suspended the use of rotomovers due to the COVID-19 pandemic, but has now given the go-ahead for their return.

Will shift styrene to safe place, says LG: The management of LG Polymers on Tuesday said that it will shift the remaining styrene gas to a safe place, as the styrene gas leak continues to be a major challenge. The company has been facing criticism for not taking adequate measures to prevent the leak.

KCR to pitch for Rs 10 lakh-crore stimulus package for States: Telangana Chief Minister K. Chandrashekar Rao on Tuesday pitched for a Rs 10 lakh-crore stimulus package for states to help them recover from the COVID-19 pandemic. Rao said that the package should be based on the financial position of each state and should include measures to support the healthcare sector, small and medium enterprises, and farmers.

NDMA sets rules for restart of industries: National Disaster Management Authority (NDMA) on Tuesday set guidelines for the restart of industries in states that have been affected by the COVID-19 pandemic. The guidelines include measures to ensure the safety of workers and prevent the spread of the virus.

Migrants workers pay extra to travel: Migrant workers in cities like New Delhi and Mumbai are paying extra to travel back to their home states. The extra cost includes the fare, food, and accommodation, and can be as much as Rs 1,500 per person.

KCR to meet CMs on Monday: Telangana Chief Minister K. Chandrashekar Rao will meet with chief ministers from other states on Monday to discuss the situation in their respective states and work out a plan to help the country recover from the COVID-19 pandemic.

India to get 'internal assessment': Subbarao stimulus 'not sufficient': Finance minister P. Chidambaram on Tuesday said that the stimulus package announced by the government was not sufficient to help the economy recover from the COVID-19 pandemic.
In a major reshuffle, the government has transferred 27 IAS officers as per recommendations of the CPM State executive committee on Sunday.

In major reshuffle, 27 IAS officers transferred

Of the 27 officers, 15 have been transferred to Andhra Pradesh and 12 to Telangana. The maximum number of officers have been transferred to the District Magistracy and Administration Department in the two states.

Violation persist in global markets

The High Court in the UK on May 4 dispelled the appeal against dismissal filed by fugitive businessman Vijay Mallya who was facing charges of financial irregularities for misusing money laundering to the tune of an estimated amount of Rs. 900 and 7,000 crore.

Gove IMPARTS ONLINE EDUCATION

Lockdown no barrier for learning

Vijayawada | Monday | May 11, 2020

Continued from Page 1

For school education, the officials conducted for CLA X students, and have scheduled special classes for CLA IX students. As per school authorities, due to lack of geometry set, they are using daily.

In the online class, the Physics teacher Mr. Sumit Singhal taught students about the nature of light and the interaction of light with materials. He also explained the different types of light and their properties.

He also mentioned the importance of light in our daily life and its applications in various fields such as medicine, technology, and photography.

Meanwhile, the Health Secretary of the state has directed all the medical colleges to conduct online classes on COVID-19 prevention and control measures.

The Health Secretary said that the online classes should be conducted in a way that students can easily understand and apply the preventive measures to protect themselves from the virus.

The Secretary also directed the medical colleges to ensure that all the students participate in the online classes and take necessary precautions to prevent the spread of the virus.

He further said that the online classes should be conducted in a way that students can easily understand and apply the preventive measures to protect themselves from the virus.

The Health Secretary also directed the medical colleges to ensure that all the students participate in the online classes and take necessary precautions to prevent the spread of the virus.

Five Air India pilots, two AIESL staff test positive

A confession has prevailed over the exact number of people stranded as the data from four hospitals showed that 30 people succumbed to the infection as observed against 68 reported by the people sitting outside. People in a very distressing state are seen hailing passing vehicles to Prashad and Uttar Pradesh.

An elderly lady said that in an hour hundreds of stranded people were seen sitting around industrial areas in Nashik

A medical team in a vehicle was seen investigating the scene while a large crowd was hailing the coaches of a Shramik Special train to provide them with water and other essentials. Some of the stranded people were also seen sitting on the railway tracks. The scene was quite distressing.

A doctor associated with the Nashik district administration said that he had been informed about the death of eight people in the past three days.

A Teams from the Shramik Special train had also been stationed at the station to provide assistance to the stranded people.

A similar scene was observed at the border towns of Godavari, 270 are from Ballia, 60 from Sitapur, 21 from Farrukhhabad, 53 from Kushinagar, Mahagang, 40 from Sambalpur, and 23 from Jagdalpur. The migrants were stranded in the villages and were forced to walk for miles to reach the nearest railway station.

**The South Eastern Railway has asked its staff and other staff to wear masks when they reach the railway tracks after several days of on-duty work and for four hours between the two shifts to prevent COVID-19.

Groups of migrant labours who are on the move on the way back are heading towards their home towns in various parts of the country. They are very much at risk because they are wandering on the tracks without food.**

Akhil Bhandari said standard treatment (SOP) for phased resumption of inter-state and inter-city rail traffic after 90 days of lockdown has been prepared. It will be followed by two each by Shiv Sena, Congress and the BSP.

Akhil said he is waiting for the council as he is in charge of the railway traffic. He added that there is a need to provide facilities to the passengers as they have not been able to travel for a long time. He further said that the railways will be reopened step by step after the state government’s order.

Akhil said that the railways will be reopened in phases and the details will be announced soon. He added that the railways will be reopened in phases and the details will be announced soon.

As India opens up in phases post-lockdown 3, workforce coordination would require state coordination on mounting a national migrant database, along with labor arrangements to bring them back. Even neighbouring Punjab has taken the initiative in this regard.

As we are experiencing, it can be fiercely brutal. Sustainable development is the only way forward because if we don’t care for the environment, we will have to pay for it or not, in order to reduce the spread of epidemics in the future, cutting down on human activity on the environment. The lockdown has showed us a way forward, not by compromising development. Indeed the pandemic achieved in less than a month what we could not achieve in the previous 20 years. At least COVID-19 has made us understand the need to prepare for future seasons.

Sir — The Supreme Court’s decision to bar the sale of liquor is disappointing. Even during the initial days of the lockdown, when people were not out of their homes, the situation was not as bad. When people were not on streets, the order to shut down bars did not seem necessary. If the virus has not been able to reappear at their homes as they have been quarantined and are being monitored to see if they were asymptomatic and had 647 positive cases, including 14 Italian nationals, and eight deaths. This government should have made efforts to issue the implementation making efforts to issue the implementation of the 2016 decision of the Supreme Court, it has decided to comparatively the order to allow bars and restaurants to continue business to attract huge financial losses. The government has to protect the interests of all institutions of global governance. China behaves as a normal country and other countries are not responsible for their actions. This is the least responsible for the situation in the world. The former US President Barack Obama and his successor, Donald ‘Trump’, failed to develop a comprehensive policy towards China. The current government has brought China to the brink of collapse. While India, China’s trade with China has continued for four years. Consequently, the vision of the US and China’s Pacific islands is still the uninvasion of Taiwan, the Trump administration made efforts to boost Taiwan’s power, with the US Navy conducting more freedom of navigation operations in the South China Sea to secure its interests. The US Navy’s ships operating in the region to secure its interests.

Why can’t we learn to love our neighbour?  

Religious bigotry can sometimes even unknowingly colour our sense of community and we end up alienating people who are simply different from us. How can we not understand and respect the diversity of our fellow citizens? Do we need a judge to interpret the religious freedom granted to us by the Constitution of India? Why can’t we learn to love our neighbour?

Gautam

Time for spatial equality

India is going to get huge foreign investments in the coming days because of the changing geopolitical situation. We must use this opportunity to spread economic activities more evenly.

The cost of free expression

The absence of credible research for sustainable conclusions before being put out in the public domain can have its risks.
**Centre's financial stimulus ‘not sufficient’: Subbarao**

Maintaining that the continued fiscal deficit of the Centre is ‘too high’, former RBI Governor Duvvuri Subbarao said that the government should act “with alacrity” should the deficit slip over the 6 per cent mark. He said the government should not wait to act “when the deficit starts to creep beyond the 6 per cent mark”. The former RBI Governor was speaking at the release of the book ‘Real GDP Growth: Challenges and Opportunities’ by Gopalakrishnan. He added that the government is ensuring that all the efforts are being made to ensure that the fiscal deficit should not exceed 6 per cent of GDP.

**Money 08**

**Is that sufficient? Is it not sufficient when it was announced in March? It looks even insufficient now, said former RBI Governor.**

Subbarao observed that the government is ensuring that all the efforts are being made to ensure that the fiscal deficit should not exceed 6 per cent of GDP. “But the question is, is it sufficient?” he asked. Subbarao said that the government should act “with alacrity” should the deficit slip over the 6 per cent mark.

**Problems with gold prices**

Gold prices have been on the rise since the lockdown was reimposed, along with the prices of other gold-related jewellery. “The gold prices and prices of other gold-related jewellery have become expensive,” Subbarao said.

**Will the government order to open shops?**

Subbarao said that the government has already been pressurizing the traders from local authorities in business establishments of commodities and standalone jewellers have opened shops in Vijayawada. But the government has not ordered to open them.

**Future expectations**

Subbarao added that he is looking forward to the market to stabilize and normalcy to return as soon as possible.

**25% of startups in trouble if COVID-19 persists for long**

A quarter of India’s startups are already seeing signs of economic retraction due to the adverse consequences of the COVID-19 pandemic. These enterprises have been badly hit by the lockdowns, to the extent that about 25% of them would fail in the long run if the COVID-19 pandemic persists for a long time.

---

**Vijayawada | Monday, May 11, 2020**

30 per cent of the company’s authorised dealerships and “The company has already been sold since the lockdown,” he added.

---

**RBI Governor Duvvuri Subbarao**

The former RBI Governor, who served from 2008 to 2014, said that the government should act “with alacrity” should the deficit slip over the 6 per cent mark. “But the question is, is it sufficient?” he asked.

Chitra advises budding mommy writers to begin with short stories as that's the best way to give it a great start.

Hyderabad Cyclists’ Group is encouraging the habit of walking and donating too, by conducting a home fitness challenge to raise funds to fight the COVID-19 crisis, finds V SATEESH REDDY

Hyderabad Cyclists’ Group has organised a unique initiative called the ‘Marathons at Home, for a Cause’ to raise funds for Chief Minister Relief Fund to fight the Coronavirus crisis. As part of the initiative, the HCG members participated in 1km, 5km, 10km, 20km, 42km walking challenge, where more than 100 members of the group have completed the challenge and donated some amount to the cause. This is the first of its kind initiative where every participant must be a member of the Hyderabad Cyclists Group.

Speaking to The Pioneer, Ravinder Nandanoori, founder of the Hyderabad Cyclists Group, says, “The world is fighting the virus and many have been helping the government in the fight against it. The group decided to organise various innovative activities during the lockdown. I wanted to do something during this time of lockdown and I thought of the initiative to help the cause. At home, it is very risky. 12 hours of non-stop walking inside our homes needs great patience. I completed 10km in my house and honestly, we don’t have enough space to walk and we need to think carefully to continue the walk. We can track our walking distances using various applications. After completing his own walking challenge, Ravinder contacted photographers about participating in the group to do the same. He asked 50 members to complete various home walking challenges including 1km, 5km, 10km, 20km, and 42km. After completion of the challenge, the members can donate some amount. We are also discussing the amount we don’t want to attempt walking more than 10km. Athletes can do a continuous 12-hour challenge.”

The Hyderabad Cyclists Group has taken up such a kind initiative from the photographers as in the past people used to raise funds. It points out, “This is not the first time we’re coming together to raise funds. Previously, we did conduct crowdfunding for people of various diseases and helped them. Our group members are always active whenever there is a need to help society. This time, we will donate the money to the Chief Minister Relief Fund to fight the Corona crisis,” the founder tells us.

He says that this challenge helps photographers pursue healthy and simple habit of walking. “Many people have been inspired by this and are participating in our cause after witnessing our group’s activities. As we are living in lockdown, we are not able to get rid of the pandemic. We believe it will happen with proper social distancing and mourning and good hygiene,” he advises.

Mother-daughter bond over stories

Chitra advises budding mommy writers to begin with short stories as that’s the best way to give it a great start.

After the publishing of her debut novel, the prominent writer has started to incorporate Chitra Tel. She is currently working on a novel called ‘Mani’s Journey’ which is a third in the series of short stories in which the young daughter wants to find her missing mother. And Chitra hopes every woman has a story.

Donate through PHOTOGRAPHY

26 eminent photographers of India have come together and displayed their work for an online photography show ‘Donate Through Photography’ to donate all the proceeds to the Telangana Chief Minister Relief Fund and fight the COVID-19 crisis, reports V SATEESH REDDY

Donate through PHOTOGRAPHY is a limited time archival inkjet print sale from highly acclaimed and reputed photo artists from India.

Donated proceeds from the sales of these artworks will be donated to the Telangana Chief Minister Relief Fund to help the fight against COVID-19 crisis. The funds will be used for the critical needs and medical supplies required in the crisis.

After witnessing our group’s activities, we are also helping raise money for people. The members of the group are always active whenever there is a need to help society. This time, we will donate the money to the Chief Minister Relief Fund to fight the Corona crisis,” the founder tells us.

He says that this challenge helps photographers pursue healthy and simple habit of walking. “Many people have been inspired by this and are participating in our cause after witnessing our group’s activities. As we are living in lockdown, we are not able to get rid of the pandemic. We believe it will happen with proper social distancing and mourning and good hygiene,” he advises.

The Closedown Effect: OTT Offers Alternative

T he closedown due to COVID-19 hit the film industry hard. The film industry is a multi-crore industry, and with the lockdown, it has been through below. There have been strikes by film producers in protest against high-handedness of the government or the other groups against government departments. Most of the time when one or the other sector of the film industry decided on a no-cooperation with the government, they had an end. Usually, the film industry has always stood when their own betrayed them, went against the demand for permanent benefits. The film industry never won any of its battles. Especially so in those days, finance was one thing, the supply of mass-budget films was another. During the lockdown, the situation is the same. Most of the time when producers have something to show, the distribution companies and multiplexes are not interested in it. Actors, even the busiest have also been through some hard times. It is not as if the exhibitors are not doing anything. They have been trying to promote new releases. The fact that OTT platforms are the only medium of entertainment available in the country has made them all the more ascertain to their content. It is not as if the exhibitors are not making an attempt to make things interesting.
