Govt to the rescue of MSMEs hit by lockdown

Vijayawada, May 17: After a high-level meeting chaired by Chief Minister Jagan Mohan Reddy and other top officials held recently, the Andhra Pradesh government, in a major decision, has announced a financial relief package amounting to Rs 5,000 crores to MSMEs affected by the lockdown. The announcement was made during a press conference here.

Under this package, the state government will give a loan of Rs 4,000 crores to MSMEs to help them tide over the crisis. The government has also announced a grant of Rs 1,000 crores to MSMEs for the purchase of raw materials and other expenses.

The government has also announced a moratorium on interest payments for loans taken by MSMEs during the lockdown. The interest payments will be waived off for a period of six months.

The government has also announced a scheme to provide insurance cover to MSMEs against any losses incurred due to the lockdown. The government will bear 50% of the premium cost of this insurance scheme.

In addition, the government has announced a scheme to provide financial assistance to MSMEs in the form of capital infusion. The government will provide capital infusion of up to Rs 1 crore to MSMEs that are in distress.

The government has also announced a scheme to provide financial assistance to MSMEs in the form of capital infusion. The government will provide capital infusion of up to Rs 1 crore to MSMEs that are in distress.

CRISIS BREEDS CORRUPTION, BRIE FOR PASSES...

SUMIT CHAKRA | USHAKANTHAPURAM

Delay in implementing applications of the stranded migrant workers and arranging transportation for streamlining movement across the states, National Disaster Management Authority (NDMA) has developed an online dashboard to monitor and facilitate the smooth movement of migrant workers and facilitate their return to their native places.

For about a week of the closing of the lockdown, the about three hundred migrant families on the Chhattisgarh-bound project site also faced the plight, as the inter-state movement by the district administration was stopped in the wake of the sudden closure of the state borders. To help the migrant workers and families stranded and working on for the past five days in and around the state capital, every day an average fifteen thousand migrant workers are working round the clock packing and providing food, arranging the travel facility for the migrants for their return to the states. The migrants took over the entire responsibility of feeding the migrants for the past five days and are working round the clock as a humanitarian gesture to provide food and water for the migrant workers and their families. The migration began, initially with a few workers, along with their kids, artisans and the youth of the project site, carrying their own supplies.

The municipal corporation in the state but as the numbers swelled with the coming of the workers, the authorities took over the responsibility of arranging the travel facility for the migrants. One day, a check-post was provided to get a pass from the collectors. The migrants started to the check-post with the things they have to carry with them, and the authorities gave them a pass. The authorities also made sure that the migrants were taken to the destination safely and helped them reach their destination. The migrants were finally reached a check-post where they were stopped by the authorities. In the beginning, they were lodged in bakeries situated in the capital and in the state but in the numbers of more and more people like them streaming in, the administration began running out of supplies. This prompted the migration to remain their journey. In the middle of the night, they passed through the states like Karnataka, Tamil Nadu, Kerala, and the state borders. They halted for rest when they come across a habitation, and since there was no vehicular movement for about 40 days in the first two phases of the lockdown, the roads were safe. The partial restriction in the lockdown helped the states to cope up with the large numbers of people who were dependent on some Good Samaritans who trudge all the way to Sarjapur.

Late night calls from300 migrant families made them reach to the camp. With no one turning up for days together on the roads, around the project site, the camp became the only safe haven for them in this hour of crisis. Thus began their journey to their native places. The migrants were given medical assistance as per the decided protocol. The migrants were also helped with whatever money they could raise. No one offered to house them, feed them and allow them to stay.
**Prime Minister Narendra Modi on Saturday said it is of vital importance for nations to work together to fight the coronavirus pandemic, asserting that the world cannot handle it alone.**

During his address at the 73rd session of the United Nations General Assembly, the Prime Minister said that the COVID-19 pandemic would be best handled if countries worked together.

"We need to work together, we need to share ideas, we need to share experiences, we need to share technology to prevent and manage this pandemic," Modi said. "This is the only way to ensure that we will defeat this pandemic and make this world a better place to live in," he added.

Modi also praised the international community for its response to the pandemic and said that the world needs to continue to support each other in the fight against the coronavirus.

"The world has come together to fight this pandemic. The world has come together to give help to those who need it," he said. "And we need to continue to work together and continue to share ideas and experiences," he added.

The Prime Minister also said that the world needs to look beyond borders and work together to fight the pandemic.

"We need to look beyond borders. We need to work together. We need to share ideas. We need to share experiences," he said.

Modi also said that the world needs to continue to support each other in the fight against the coronavirus and that the world needs to look beyond borders and work together to fight the pandemic.

"The world has come together to fight this pandemic. The world has come together to give help to those who need it. And we need to continue to work together and continue to share ideas and experiences," he added. **PETA India urges Assam govt to ban cruel methods for killing male chicks**

Banks adopting different procedures, says Govt

The move comes after an analysis of the grievances received by the Department of Pension and Pensions' Welfare under the Personnel Ministry.

It has been observed that the consolidated instructions will help improve the functioning of pensioner's welfare. The departments in the docket will be able to communicate.

Times, an attempt has been made to consolidate the existing instructions issued from time to time with negligible differences.

These banks are adopting different procedures, while releasing pensioner's family pension, the Akyat Bakhri and Ujwala(ABU) fund, etc.

Google facing onslaught of antitrust cases in US, says Report

Google acknowledged it has ongoing discussions with the Justice Department and Paxton without elaborating on the talks.

The focus is firmly on providing services that help consumers, support thousands of businesses, and enable efficiencies in the digital economy, the company said in a statement.

The US Attorney’s office said on Saturday that it had filed a federal complaint against Google for violating the Antitrust Act.

The US and China in the footing of the two agreed to give a better two-year term.
There have been several cases of rape survivors turning hostile during trial, mostly due to social stigma and family pressure. However, justice is now being delivered despite such hiccups, thanks to the increased use of DNA evidence.

SHALINI SAKSENA

DCP, Delhi Police

When rape survivors are children, we require evidence to prove the crime beyond reasonable doubt. There are five ways in which DNA technologies can improve our forensic science work: (1) The NCBR/NCB/other forensic laboratories, which are not properly maintained. The evidence is properly maintained.

The examples are DNA. Today, DNA testing is considered as conclusive evidence. But one has to ensure that it is not planted or contaminated.

Fourth, is DNA. Today, DNA testing is considered as conclusive evidence. But one has to ensure that it is not planted or contaminated.

The use of forensic DNA technologies can expedite rape investigations and negate procedures that may otherwise act as a barrier to justice.

It is the passion that is going to help us all sail through this storm, says GAURI CHAUDHARI, as she studies the market trends, lessons for and adaptability by the brands in the wake of Covid-19 pandemic.

Covid-19 has helped companies to unlock at their products and portfolios. Those who start to go beyond the strictly inbound approach will definitely score and are in a better position to recover. The robust and intelligent brands will continuously analyze and redefine their strategies to achieve their goals. A portfolio that is flexible and versatile will definitely score points over its competition.

PACKAGING AND PROCESS

Covid-19 is an increase for single-use packaging. So, companies will have to find a way to continually align their value proposition and the way they serve their customers. They need to be careful with what they pack and how they pack it. However, the market is seeing a trend for less packaging and more reusable packaging. Even if it means spending a bit more upfront, it is a trend that is here to stay.

PRICE AND PLACE SHIFT

When a brand aligns itself to a social cause, it not only adapts to the new environment but also do it quickly enough. "Complete Man".

The writer is author of The Perfect Pill: 10 Lessons Covid-19 is Teaching Us. The acceptance and adaptability of the brands in the wake of Covid-19 pandemic is a reminder that companies must not just adapt to the new environment but also do it quickly enough.

Be helpful and partner with customers
Brands can be helpful in coming out the pain of the customers. Kanak Narula Paints Ltd has tied up with Urban Company to provide a doorstep service to customers. The company has also introduced a workflow for customers to fill up the form for services. The company has also introduced a workflow for customers to fill up the form for services. The rising demand for independent investigation is the first step to address the lack of transparency in the global order.

**POST-COVID WORLD ORDER PROJECTION**

The spread of Covid-19 has led to a significant increase in the demand for independent investigations into the origins of the virus and the role of the World Health Organization (WHO) in containing the pandemic. The crisis has highlighted the need for a transparent global order, where sovereign states can work together to address global challenges.

**AUSTRALIA'S DEMAND SYMBOLIZES A LONG-RUNNING PUSHBACK FROM LIBERALS AGAINST CHINA'S 'SHARP POWER'**

Australia's demand for an independent investigation into the origins of Covid-19 is symbolic of a long-standing pushback from liberal democracies against China's 'sharp power' and the rise of authoritarian systems.

**WHAT WERE THE CHALLENGES IN SETTING UP THE SANITISATION FLEET?**

The challenges in setting up the sanitisation fleet included the need for scale-up, the development of new technologies, and the coordination of various stakeholders. The key to overcoming these challenges was the collaboration between the Government or private sectors.

**AUSTRALIA-INDIA RELATIONSHIPS**

Australia and India have a long history of engagement, and the current demand for an independent investigation into the origins of Covid-19 is a reflection of the deepening relationship between the two countries. The Australian government has been an important player in the international community, and the demand for an independent investigation is a step towards strengthening bilateral relations.

**GARUDA AEROSPACE**

Garuda Aerospace has pioneered the use of drones for sanitisation in India, and their innovative approach has been hailed as a game-changer in the sanitisation of large areas.

**INDIAN AIR DEFENCE**

The Indian Air Force has been instrumental in supporting the sanitisation efforts, and their role is critical in ensuring the success of the operation.
The holy month of Ramadan is incomplete without lip-smacking food. Eid al-Fitr marks the celebration of food and faith. The celebrations may be restrained this time owing to the lockdown, but you can always add some extra flavours to your day by trying new recipes. The Pioneer brings you four home-made celebrated delicacies of this auspicious festival of Ramadan by some of the best chefs across the city for your Ramadan iftar.

**DAHI WADA RECIPE**

**WHAT DO YOU NEED?**

- Urad Dal (Split Black Gram Lentils)
- Moong Dal (Split Yellow Moong Lentils)
- Yogurt
- Tamarind Chutney
- Mint Cilantro Chutney

**HOW TO MAKE?**

1. Wash and soak the urad dal overnight and grind to a fine paste by adding very little water. Beat the butter very well till light and fluffy. Add salt, baking powder and beat well again.
2. Pre-heat oil in a deep frying pan, place a plastic sheet in your palm. Wet the plastic sheet and place a little batter and shape like a big lemon sized ball.
3. Flatten the top of the ball with wet fingers and drop slowly into the hot oil. Deep fry on medium heat for sometime and then fry on low heat till golden brown. Remove these deep-fried vadas into a bowl of water and let them soak for 15-20 minutes. Keep them aside. Finch making vadas with the rest of the remaining batter and put them in water like you did for the earlier batch.
4. Pass the yoghurt through a sieve to ensure that there are no lumps. Add in the sugar, salt and mix well.
5. Continue the conversation with us, Siddiqui mentions Dahi Wada, which is a regular dish consumed during the season of Ramzan. A street special mostly, it is a must-have, especially when breaking the fast. Make with gram flour (besan), fritters dipped in spicy yoghurt, it’s garnished with chilies and served cold.

**RAMADAN RECIPES TO TRY AT HOME**

**SEMIYA JINGA FRY**

**WHAT YOU NEED:**

- Prawns: 16 medium
- Vermicelli, crushed as required
- Garlic paste: 2 tbsp
- Cumin powder: ½ tsp

**HOW TO MAKE:**

1. Shell and devein the prawns keeping the tails intact. Make a slit on each prawn at one third distances from the head, bring the tail part and slide it into the slit. Take all the prawns in a bowl. Add salt, garlic paste, cumin powder. Kashmiri red chili paste, tamarind juice and mix. Add half an egg and mix.
2. Roll the marinated prawns in crushed vermicelli so that they are well coated. Keep in the refrigerator for about half an hour.
3. Heat sufficient oil in a Kadai on medium heat. Slide the prawns one by one into the hot oil and deep fry till golden brown, drain and place on an absorbent paper.
4. Serve hot.

**NALLI NIHARI**

**INGREDIENTS:**

- 1 kg mutton, shank (8-10 pieces)
- Ghee/crushed butter: 4 tbsp
- 2 medium onions, finely sliced
- Ginger paste: 1 tbsp
- Garlic paste: 1 tsp
- Salt to taste
- Coriander powder: 2 tsp
- Turmeric powder: 1/2 tsp
- Bengal gram flour: 3 tbsp
- Garam masala: 3 tbsp
- Lime juice: 1 tbsp
- Kashmiri red chili paste
- Grated nutmeg: 1/4 tsp
- Red chilly: 3 numbers
- Bungli (Shrimp, 10 pieces)
- Tamarind juice: 1 cup
- Peanuts: 100 gms
- Sesame seeds: 100 gms
- Coriander chopped: 1/4 bunch
- Saffron: 1 tsp
- Oil: 2 tbsp
- Bay leaf: 1
- Cinnamon stick: 1

Very timid, curious guy...

I was born in Pudukkottai in Tamil Nadu. I spent my early years in my grandmother’s house. I always avoided talking in front of people, and I was always shy and nervous. I didn’t want to speak in front of a group of people. But somehow, I was always curious about the people and things around me.

Lately, we started visiting my father’s family. I was always the curious one, but I was always shy and reserved. I was always afraid of talking in front of a group of people. But somehow, I was always curious about the people and things around me.

Notorious thing I’ve done...

I once stole 2 Rs from my mother’s money box. I thought it was a good idea to have some money to buy snacks. But when I was caught, I was scared and didn’t want to say anything. I didn’t want to tell anyone how I got the money.

Was amazed by movies from childhood...

We used to hang around at home. Daily Sunday, the entire family would watch movies at home. I was amazed by the way the characters behaved and the way they looked. I was always amazed by the way the characters behaved and the way they looked.

THE BOY NEXT DOOR

PRIYADARSHI

Being a superstar, cricketer and an auto-driver...

Growing up, I wanted to be many things. I wanted to be a superstar, a cricketer, or a superhero. I wanted to do anything that would make me happy.

But when I decided to take acting seriously, I realized that I wanted to be a director. I wanted to direct my own movies. I wanted to tell my own stories.

Although I was not getting a chance on the sets, I continued working hard. I knew that my time was bound to come. I worked on my body, and my work was noticed. I was finally given a chance to direct my own movie.

I was very excited and nervous. I knew that I had to give my best performance. I gave my best performance, and I was finally able to direct my own movie.

I was very happy and proud of my achievement. I was able to direct my own movie, and I was able to share my story with the world.

People who have a background like mine have a lot of advantages. They have a lot of experience, and they know how to handle difficult situations.

Making short films...

I used to write and make my own short films with the help of my friends during my MA. My education has helped me a lot, and I have used it to make short films. I have made many short films, and they have helped me to learn many things.

When I decided to take acting seriously, I started working on my body. I worked on my body, and I was able to direct my own movie.

I was very happy and proud of my achievement. I was able to direct my own movie, and I was able to share my story with the world.

People have a lot of advantages. They have a lot of experience, and they know how to handle difficult situations.

When people thanked me for my work...

Going to Shanthi Film Institute was the happiest moment of my life. It was the happiest moment of my life. I was able to make my own movie, and I was able to share my story with the world.

I was very happy and proud of my achievement. I was able to direct my own movie, and I was able to share my story with the world.

SOMETHING YOU STILL HAVE DONE TO ME:

I have had it easy because I married my wife Richa Sharma. I have been able to focus on my work, and I have been able to do what I love.

QUICK BITES

FAVOURITE ACTRESS:

I don’t follow actresses. I just watch the movies.

Actor Priyadarshi has won many hearts with his ‘boy next door’ roles that have gelled so well with youngsters that they feel like he is part of the gang. From kids to the elderly, there is none who Priyadarshi has failed to impress with his acting in Telugu cinema.

The 31-year-old actor rose to fame after playing Kaushik in Pelli Chupulise and received accolades from many a superstar in the industry, including Megastar Chiranjeevi. With a dialect of his own, he impressed people across both Telugu states and established a name for himself within a short period. Coming from a non-filmmaker background, having had his share of hiccups during his budding days to reaching to where he is today in the entertainment industry is not everyone’s cup of tea. A staunch believer of the saying “Hard work always pays off”, Priyadarshi speaks to THE Phenomenal K Rama Sree about his childhood, entry into marrying his best friend and more...
