Bihar has seen a few early storms for the Bhartiya Janata Party (BJP) in the election campaign. The party seems to be on a high after the victory in the recent by-elections in Madhya Pradesh and the Nagaland Assembly. However, the ruling party is facing challenges from the opposition parties, particularly the Rashtriya Janta Dal (RJD) and the Janata Dal United (JD-U), who have been working together to maximize their vote share.

BJP has been setting up a strong campaign, especially in the bastions of its traditional support in the eastern region. The party's strategy seems to be focused on appealing to the rural electorate, which is traditionally a strong base for the BJP. The party has also been trying to consolidate its vote base by reaching out to different segments of society, including women and youth.

On the other hand, the opposition parties have been trying to raise issues like unemployment, farmers' distress, and the impact of the lockdown on the economy. They have also been targeting the government's handling of the COVID-19 pandemic and the economic slowdown.

Despite the challenges, the BJP appears to be in a strong position to win the elections. However, the outcome will depend on several factors, including the performance of the candidates, the effectiveness of the campaigns, and the mood of the electorate.

In summary, the Bihar elections are shaping up to be a crucial test for the ruling party, with the opposition parties presenting a formidable challenge. The outcome of the elections will have implications for the future of the Indian political landscape, particularly in the context of the national elections scheduled for later this year.
An online National awareness workshop for scientific research and technology is being organized by SW AYAM Cell of HNB Garhwal University Srinagar Garhwal Uttarakhand in association with UGC- Department of Atomic energy Consortium for scientific research. The workshop was inaugurated by Vice Chancellor (VC) of HNB Garhwal University, Annapurna Nautiyal on Monday. Speaking on the occasion, Nautiyal acknowledged the role of the centre in providing the vital support to academic research through the facilities available at its Mumbai, Indore, Kolkata, Kalpakkam, Raja Ramanna Centre of advanced technology Indore and the facilities of Bhabha Atomic Research Centre Mumbai.

The organising secretary, Ajay Semalty said that experts and scientists would address the four day workshop. He claimed the workshop will be a milestone in improving the pool of users for the facilities provided by the centre.

CM unveils foundation for secretariat in Gairsain

**Congress rally anti-farmer: BJP**

Chief minister Trivendra Singh Rawat unveiled the foundation stone for the construction of the secretariat of the State Secretariat in Gairsain on Thursday. He said, “Construction of the secretariat will be completed in the next two years.”

The secretariat will be constructed in the state capital and will be a symbol of the state government’s commitment to development. The secretariat will be a multi-storey building and will house all the departments of the state government.

**Oposition to Gairsain manifesto: BJP's anti-development mindset**

The Bharatiya Janata Party (BJP) has accused the Congress of adopting an anti-development mindset in its manifesto for the upcoming elections. The BJP has also condemned the Congress's pro-farmer policies and has alleged that the party is exploiting the farmers.

**Diwali for 2 groups released**

The state government has released Rs 7,000 crore as Diwali package for two groups of people. The packages will be distributed to the poor and needy families and to the elderly people.

**Prepare TCP with focus on checking human wildlife conflict: CS**

The tiger conservation plan (TCP) should be prepared with a focus on checking human-wildlife conflict, Chief Secretary CS said at a meeting in which a proposal was discussed to make the plan more effective.

Regarding the need for a comprehensive wildlife management strategy, he said that the plan should cover all areas where human activities are likely to affect the wildlife. The plan should also include provisions for protecting the wildlife while ensuring the safety of people.

**ICFRE signs MoU with IIT (ISM)**

A memorandum of understanding was signed between ICFRE and IIT (ISM) for collaborative research projects. The MoU will also aim to promote better understanding of climate change, forest protection, and the use of renewable energy sources.

**Covid-19 count mounts to 66,005 in U’khand**

The number of novel Coronavirus (Covid-19) cases in Uttarakhand mounted to 66,005 on Tuesday with the state reporting 328 fresh cases of the disease. The department also reported the death of 27 patients of Covid-19 in the state that day, raising the toll to 5,259. A total of 60,747 patients have so far recovered from the disease in the state. The recovery percentage has risen to 91.55.

Two patients of the disease were reported dead at Dehradun Medical College (GDMC) hospital on Tuesday. One patient was reported dead at a hospital in Pauri Garhwal district.

**International School, Bhimtal and KRI, dehradun in Uttarakhand government school list**

The list of international schools and Kasturba Iyenger Residential Institute (KRI) in Dehradun that have been included in the list of government schools was released by the state government on Thursday.

The districts in which the schools are located are Dehradun, Haridwar, and Nainital.

**CM anti-farmer: PCC President**

Congress president Pritham Singh has said that the tractor rally taken out by the party in Dehradun on Tuesday was not in support of farmers.

**We will also involve private sector in development of tourism in Uttarakhand:** Trivendra Singh Rawat unveiled the development works costing Rs 25,000 crore on tourism in the state. In the next 10 years, we will spend Rs 25,000 crore on development of tourism in the state.

The CM said that the development will be focused on construction of tourist facilities, hotels, and residential buildings at primary healthcare centres in Gairsain and various other developmental works in Chamoli district.

The works for which the foundation was unveiled include construction of_PLUGIN_4 plugin extends the functionality of dropping down menu, windowing and tabbing for medical staff in Dehradun, construction of dehli medical staff in Chamoli, renovation of buildings in Badrinath temple, sections in hospital in Dvatradh and construction of an oxygen generation plant at the same hospital, construction of medical buildings and residential building at primary health care centre in Gairsain and various other development works in the district.

The Chief Minister for Haridwar, Mr. Narender Singh Kinjalk, MLA, Magsahay, Dehradun and Chamoli district magistrate Bhupendra Bhadauria among others were also present on the occasion.

Looking at the environmental aspect of the project and the communites residing in the area, a mini seminar was held in Dehradun’s Sahil padam haveli in Kandarpur to discuss the issues related to the project. The seminar was attended by the local leaders of all the areas where the project will be implemented.

A meeting was also addressed by gaurav singh Rawat, the convener of the rally, Gaurav Singh Rawat, the president of the Pradesh Congress Committee (PCC) organized at Doiwala here on the occasion. All the deputy directors and generals, directors, generals, and other officials from the department were present in the meeting.

The IT (ISM) director Dr. Rajesh Shukla and the ICFRE administrator signed the MoU with a view to promote better understanding of climate change, forest protection, and the use of renewable energy sources.

**Diwali 2020: A year like no other**

Diwali 2020 was celebrated with a view to spread awareness about the importance of protecting the environment.

**IIT (ISM) director Dr. Rajesh Shukla**

Dr. Rajesh Shukla, the IIT (ISM) director, said that the project will be implemented in a way that will not affect the environment.

**Diwali 2020: A year like no other**

Diwali 2020 was celebrated with a view to spread awareness about the importance of protecting the environment.

Covid in check, TN Govt slams own students for neglecting mask norms

Didi’s Minister slams own students for neglecting mask norms

Tamil Nadu has been doing well with the number of Covid-19 cases declining consistently. In a recent interaction with the students, the Minister for Education and Sports, K Palaniswami, slammed the students for not following the mask norms.

"Didi’s Minister slams own students for neglecting mask norms. The students are not following the mask norms properly," Palaniswami said in a statement. "If we don’t follow the mask norms, we will be a victim of the virus."

The Minister also added that the students should follow the mask norms in public places and not just inside the premises.

Four-lane Palwal Highway to boost Altigarh economy

The four-lane Palwal Highway is set to boost the economy of Altigarh. The highway, which is expected to be completed by the end of this year, will provide a direct link between Palwal and Altigarh, reducing travel time and improving connectivity.

The highway is being built under the National Highway Project-17 (NH-17), which is aimed at developing major highways in the country. The project is expected to boost the economic growth of the region and create job opportunities.

The highway is being constructed with a view to boost the economic growth of the region and create job opportunities. The project is expected to be completed by the end of this year.

Bihar tug of war

Biharis tejasbi Chaseips BJP and Nitish to the finish line and proves he is here to stay. Bjp scores with Modi magic

As an upset, a lot has happened in a month but he has
been invited to an often-awarded punchnale, "stuby Roty.
And as the Deliverer called the batch election plays out, the Bihar Legislative Assembly election is
single-handedly and violently taken off the list of BJP and 
hailed a change in the political landscape of Bihar. One that has made the pandemonium of the BLP swagger out of the way, squeezing victory margins to less than a thousand in some seats. But in the end, there will be no "BJP" or "BJP". What we will have is only that Tejaswi Yadav has been able to dissociate himself from the inherited legacy of "jungle raj" by promising economic justice to the jobless youth, pledging 10 lakh jobs. In fact, he described his "economic justice plank" as a version of the "employment-first" strategy that had been abandoned.

JANSHAKTI PARTY (LJP) leader Ram Vilas Paswan, who was removed from the cabinet as part of the JD(U)-BJP alliance, has said that the JD(U) will go it alone in the elections. He said that the JD(U) will not support the NDA in the assembly elections and that it will contest all seats on its own. The JD(U) has already announced that it will contest all 244 seats in the assembly elections. The party has also said that it will not support the NDA in the Lok Sabha elections.

The JD(U) has been fighting a losing battle for several years, and the party has been struggling to find its footing in the state. The JD(U) has been accused of being afﬁliated to the RSS and the BJP, and the party has been facing a backlash from the people of Bihar. The JD(U) has also been accused of being corrupt and of not being able to deliver on its promises.

The JD(U) has been trying to reposition itself as a party that is independent of the BJP and the RSS. The party has been trying to distance itself from the RSS and the BJP, and the party has been trying to appeal to the people of Bihar as a party that is able to deliver on its promises.

A fine mess in Ethiopia again

In only a week, it has worked its way up from local clashes to air strikes. This is so reckless that it makes US politics look tame by comparison.

Anush Gupta

The President has always expected India’s cause in the US and lobbied for Indian interests as an admirer of the world’s largest democracy.

Debates, decisions and outcomes from this week have significantly impacted the image of India among the US political leadership and in the psyche of the US public.

Time to stop blaming evil. There have been doubts, particularly when the results don’t go in their favour.

Biden moves forward with his transition plans

PTI in Washington

A President-elect Joe Biden, who has been in contact with multiple officials, has reached a deal on the transition of power. According to sources, Biden and his team are expected to announce the transition of power in the coming days.

Biden is expected to move quickly to name a chief of staff, a director of national intelligence, and a secretary of commerce, among officials.

PTI

President-elect Joe Biden is likely to hold a meeting with his staff on Monday, according to sources. The meeting will be a key step in the transition of power.

In a statement, Biden's campaign said: "Our team is working on the transition to the Biden-Harris administration. We are committed to a smooth and transparent transition of power to the President-elect."

GAIL records 13% rise in turnover to ₹15,611

FM asks banks to ensure all accounts are linked with Aadhaar by March 2021

India PC makers ships record 3.4m units in Q3, HP leads

New Delhi: GAIL (India) Limited announced revenue increased 13% in the quarter ended December 31, 2020, on the back of higher gas sales, increase in pipeline charges and rise in condensate production. The company reported a revenue of ₹60,494 crore for the quarter ended December 31, 2020, as against ₹53,447 crore in the corresponding period of the previous year. The net profit stood at ₹1,224 crore in the quarter, as against ₹822 crore in the corresponding period of the previous year.

India’s total unit growth for the quarter ended December 2020 was driven by both double and single digit growth across various segments. In the Petchem business, the unit growth was recorded at 27% for TMT and 11% for PBT. In the Gas segment, the unit growth was recorded at 5% for Gas Transmission and 4% for Gas Distribution. In the LNG segment, the unit growth was recorded at 12%.

FM asks banks to ensure all accounts are linked with Aadhaar by March 2021

Finance Minister Nirmala Sitharaman on Wednesday asked banks to ensure that all bank accounts with Aadhaar numbers are linked with Aadhaar. "We have a plan where all the bank accounts which are not linked with Aadhaar by March 2021, will have a PAN where needed and will have Aadhaar number in every one of your accounts," Sitharaman said.

She said the financial inclusion story was strong and banks still have inclusion to complete without linking bank accounts which are not linked with Aadhaar.

"By March 2021, we will have a PAN where needed and will have Aadhaar number in every one of your accounts," Sitharaman said.

Apart from performing mundane tasks, AI has the ability to accelerate industries in multiple ways. DR SUKHVINDER SINGH DARI tells you how it can benefit lawyers and the legal system.

One of the most time-consuming and laborious tasks of a lawyer is the research. It requires a keen eye and an analytical mind to sift through pages and pages of legal material. With AI, lawyers can access more accurate and up-to-date information. Artificial intelligence can sift through vast amounts of data, filter out information that is not relevant, and highlight the rules and laws that are applicable.

Big Data Analytics
Using machine learning, the world is changing at a rapid pace. Big data analytics is now a part of the education system, in order to study and predict future patterns. These tools can provide insights into students’ records, lawyers, and clients. This can aid in the development of a litigation management system.

Due Diligence
Due diligence is a critical part of the legal process. It involves taking steps to ensure that every case is thrown at you and every point in an argument is supported by factual evidence. As a lawyer, you must be aware of the most important factors, especially on the flow of information. The teacher’s role changes from the teacher of the past, to the facilitator of learning and teaching, and final step to create a learning environment, where students are the main focus.

Innovation in luxury education:
The most prominent trend in the luxury industry is the transformation of traditional teaching methods. With the advent of technology, students are now able to access a variety of resources from anywhere in the world. With the shift, luxury education institutions are now offering online courses, webinars, and live classes. These courses are designed to prepare students to be future leaders in the luxury industry.

Teachers of tomorrow
With education going online, the role of teachers is also going to take a drastic change, says MANAL ANAND.

Teachers are the role model for every student irrespective of their age, culture, and society. The role of the teacher is to shape the mind of the student to become a strategic HR leader and founder of Digital Law Firm, Prabir Jha among others. While he is an expert in the field of digital law, and current information. The teacher’s role changes from the teacher of the past, to the facilitator of learning and teaching, and finally to create a learning environment, where students are the main focus.

Winter festivities for kids
To the current generation, when kids are compelled to stay in their homes with their phones, there is an increased demand for space where they can safely spend their time. This is where E-events, known for its leadership in the field of events, and digital services, has come to the rescue. For this season, it has brought a new event, E-charity event, which focuses on celebrating the joy of this time with the kids.

E-charity event by Manohar Shali
The Marico Whisk School, G. Block, New Kailash Colony, under the able guidance of Mani Vijay Bhattacharya, Director & Founder Principal Marico Whisk School, has decided to conduct an event, E-charity event, to raise funds for Blue Zones for children in need. The event will be held on the 15th of November from 4 pm to 6 pm, and will be organized on the theme of “Blue Zones for children in need.”

For a luxurious experience
While luxury education might be a relatively novel concept in the Indian educational space, it has perpetually proven relevance. PRANAV AGARWALLA tells you what the future holds for the industry.

Luxury brands today are focused on the customer. They have understood that the customer is not just a consumer, but a partner. They are now focused on understanding the customer’s needs, wants, and preferences, and creating a personalized experience for them.

With education going online, the need for personalized learning is more than ever. This is where luxury education institutions come into play. They provide a unique and personalized learning experience, where students can choose their own path, and learn at their own pace.

The E-charity event will be open to all, and will focus on celebrating the joy of this time with the kids. The event will feature a variety of activities, such as live music, games, and storytelling, all designed to keep the kids engaged and entertained.

The e-programme began on 15th November, and is slated to run till the 20th of November. The e-charity event will be accessible to both kids & parents across India as it is slated to be a virtual event, and can be accessed from anywhere in the world.

On path of success

India's P-Drive initiative marks a significant step towards green mobility. The drive, initiated by the Ministry of Road Transport and Highways, aims to promote the use of electric vehicles (EVs) across the country. The initiative has sparked a renewed interest in sustainable transportation, with various stakeholders, including government, industry, and academia, contributing to its development.

In the words of the Prime Minister, it is an "important step towards achieving our vision of a fully electric mobility ecosystem in India.

The COVID-19 pandemic has forced us to adapt to the new normal, which means choosing courses that are relevant. GAGAN ARORA shares tips on what programme to pursue.

"Agri sector offers plethora of options" 

The agriculture sector is undergoing change due to the kind of Government is taking steps to boost investments in this field. This has opened doors to youth looking for opportunities, says PREET SINGH SANDHU.

SKILLS NEEDED

Innovative methodologies and various specialized courses are being offered to students to equip them with the necessary skills required for the agriculture sector. These include digital technology, which plays a crucial role in enhancing productivity, market transparency, and traceability.

ELIGIBILITY

Applicants for these courses should have completed their 10+2 education. Those with a background in agriculture or related fields, as well as those looking to pursue a career in agriculture, are encouraged to apply. The courses are designed to cater to a wide range of aspirants, offering pathways for both professionals and beginners.

Eligibility criteria and specific requirements may vary depending on the course and the institution. It is advisable to check the official websites for the most accurate and up-to-date information.

MINDSET

The shift towards digital technology in agriculture is paving the way for the integration of technology into farming practices. This approach, often referred to as digital farming, involves the use of technology such as drones, satellites, and sensors to monitor and optimize agricultural practices.

The mindset shift towards digital farming is crucial for farmers to stay competitive and adapt to the changing landscape of agriculture. By embracing digital technology, farmers can improve their productivity, reduce costs, and make informed decisions based on real-time data.
Pakistan Cricket Board on Tuesday sacked Azhar Ali as captain of the Test team, replacing the experienced player with white-ball skipper Babar Azam ahead of the upcoming tour of New Zealand.

PCB confirmed the development in a statement.

Babar, 26, is now Pakistan captain across all three formats and his first assignment will be the ICC World Test Championship fixtures against New Zealand, which will be played in Mount Maunganui and Christchurch from December 26-30 and January 3-7.

Azhar has been replaced despite PCB in May backing him as Test captain for the entire 2020-21 international season.

Azhar, 35 and Pakistan's most experienced Test player in the current side with 81 appearances, has always been seen as the fall-guy in Pakistan cricket and he was informed about the PCB's decision after meeting with chairman Ehsan Mani on Tuesday in Lahore.

Azhar also led Pakistan in ODIs from 2015-2017 before deciding to step down due to poor results.

His removal came after he was appointed as Test captain last year and Babar captain in white ball formats in October following the decision by the board to sack wicket-keeper-batsman Sarfaraz Ahmed from all formats.

Azhar led Pakistan in eight Tests since last year but losing the series in England this summer led to his sacking although he scored a captain's century in the final Test.

"I want to thank Azhar Ali for stepping up last year by captaining the side in what was a historic first home Test series in over a decade," Mani said in a statement.

"I believe Azhar still has a lot of cricket left in him and Pakistan cricket can continue to make the best use of his experience and knowledge as a specialist top-order batsman moving forward," he added.

Talking about Babar, he said: "Babar Azam was identified at a very young age as a future leader and as part of his progression and development, he was appointed white-ball captain last year.

"With his consistent performance and leadership skills, he has demonstrated that he is ready to take on the additional responsibilities of a captain."
