# SC raises concerns over Covid relapse

Apex court asks Centre, States to file status report in 2 days on steps taken to deal with situation; Maha told to be prepared for worst in Dec

PNS ■ NEW DELHI

The Supreme Court on Monday said that the Covid-19 situation has worsened in Delhi and gone out of control in Gujarat even as it warned Maharashtra to be prepared for the worst in December. Expressing concern over the surge in number of Covid-19 cases across the country, the court asked the Centre and all States to file within two days status reports detailing the steps taken to deal with the situation.

"Things have worsened in Delhi especially in November. You file a status report on what steps have been taken," a Bench headed by Justice Ashok Bhushan told Additional Solicitor General Sanjay Jain, who was appearing for the Delhi Government.

"In Gujarat, the situation is going out of control," said the Bench, also comprising Justices RS Reddy and MR Shah.

"There is spike in cases and this is only November. Prepare for the worst in December. You have to take steps," the Bench told the lawyer appearing for Maharashtra.

The Bench was hearing a matter regarding the need for proper treatment of Covid-19 patients and dignified handling of dead bodies in the hospitals. It has posted the matter for further hearing on November 27.

The court pointed out that Covid-19 cases have risen across the country especially in Delhi, Maharashtra and Gujarat and noted the submissions of Solicitor General Tushar Mehta who said steps are being taken to deal with the situation in Delhi.

Jain told the Bench that as

per earlier order of the SC, an expert committee has been constituted and other directions have also been complied with by the Delhi Government.

He said that a separate space has been earmarked for the cremation of 385 bodies.

"We have no difficulty that you have complied with orders of this court. But looking at the present situation, what else are you doing," the Bench observed and asked Jain to file a status report.

The apex court also questioned the Gujarat Government over its policy of marriage celebration during the pandemic time, saying cases are rising there and the situation has worsened in the State after Delhi and Maharashtra.

"After Delhi and Maharashtra situation in Gujarat has also worsened. What is that you are allowing marriage celebration during day time? You file an affidavit on the status report on steps taken as on date," the SC said.

A health worker collects samples from a passenger for the Covid-19 test, as coronavirus cases surge across Delhi, at ISBT Kashmere Gate in New Delhi on Monday

## HC DECLINES 'HALF-BAKED' PLEA FOR IMMEDIATE LOCKDOWN IN DELHI

New Delhi: The Delhi High Court on Monday declined to entertain a plea seeking directions to the AAP Government to immediately place the city under lockdown in view of the rising Covid-19 cases and air pollution levels, saying the petition was "half-baked" and "unnecessary".

## OXFORD UNIVERSITY VACCINE 'EFFECTIVE' AT PREVENTING COVID-19; SHOWS 70% PROTECTION

London: The vaccine candidate being trialled by Oxford University on Monday presented crucial Phase 3 interim results which show that it is "effective" at preventing Covid-19 and offers a high level of protection from the deadly virus.

## Covid-19 IN INDIA TOTAL

## At least 5 die of Covid an hour in Delhi in 24 hours

STAFF REPORTER ■ NEW DELHI

Covid-19 fatalities have increased in the National Capital with at least five people dying of the deadly virus every hour on an average in Delhi in the last 24 hours.

While a total of 511 Covid-19 deaths were recorded across the country in the past 24 hours, Delhi accounted for the largest chunk of such fatalities with 121 fatalities, the data updated at 8 am showed.

This was accounted for the largest chunk of such fatalities across the country, which recorded an average of 21 deaths in this period.

The analysis was based on the data from the Union Health Ministry which gave the total number of deaths recorded in the country and all States and UTs due to Covid-19 in the past 24 hours.

## MBBS, students, dentists to assist in Covid-19 care

STAFF REPORTER ■ NEW DELHI

Delhi Chief Minister Arvind Kejriwal on Monday ordered the fourth-fifth-year MBBS students and dentists to be allowed to assist in hospitals and Covid-19 ICU units to meet the manpower shortage.

His decision came after a surge in the coronavirus cases and fatalities reported since last week in the national Capital.

According to an official order, the fourth-and-fifth-year MBBS students and dental doctors will assist duty doctors at the honorarium of ₹1,000 for an eight-hour shift and ₹2,000 for a 12-hour shift per day.

The Delhi Government, in its order, had also said in the case of interns, the honorarium would be over and above their stipend. According to Government database, Delhi has reported 40,212 active cases, 4,81,260 recoveries, and 8,391 deaths.

## Covid -ve report must for entering Maha

### Those from NCR, Guj, Raj, Goa must carry RT-PCR -ve report with them

TN RAGHUNATHA ■ MUMBAI

In a safety precaution taken in view of increasing Covid-19 cases in the national Capital and three other States, the Maharashtra Government on Monday made it mandatory for

all domestic passengers travelling to Maharashtra by air, trains and roads from the National Capital Region and the States of Rajasthan, Gujarat and Goa to carry RT-PCR negative test report with them.

Amid a fear of a second Covid-19 wave gripping Maharashtra in the wake of increasing incidence of Covid-19 in New Delhi, Ahmedabad and Surat, the Maharashtra Government put in place a mechanism to prevent the passengers carrying Covid-19

virus from entering Maharashtra from Delhi, Rajasthan, Gujarat and Goa.

Maharashtra Chief Minister Uddhav Thackeray had, in his address to the people across the State, said on Sunday that his Government was on a "high alert" in view of increasing pandemic cases in cities like New Delhi, Ahmedabad and Surat.

"Though there is no wave in the State, we cannot lower our guard. The State health authorities are well-equipped to tackle

the second pandemic wave if it hits the State. My request to people is to take all health precautions," he had said.

Amid speculation that started brewing a few days ago that Maharashtra may suspend train and air transport services between Mumbai and Delhi, Uddhav Thackeray made the first move when the State made compulsory for those arriving in Maharashtra by air, train and road to carry RT-PCR negative test report with them.

## China's mad infra push along LAC alarms India

### Bunkers, roads, dwelling units in eastern sector of LAC besides Ladakh

PNS ■ NEW DELHI

While efforts are on to resolve the seven-month-old stand-off through sustained dialogue, China continues with infrastructure development all along the Line of Actual Control (LAC). Military ammunition bunkers, roads and prefabricated dwelling units have come up in eastern sector of the LAC besides Ladakh.

These developments come at a time when the two sides are preparing for the ninth round of Corps Commander-level talks soon. While both the commanders reiterated their commitment to continue talks, China's aggressive infrastructure push has alarmed the

Indian security establishment.

Earlier, rapid construction was only confined to Ladakh sector of the LAC in the backdrop of the face-offs. However, the furious pitch of work in the East in Doklam near Sikkim is a cause of serious concern, sources said here on Monday.

The Doklam region saw more than 70-day long face-off in 2017 after India objected to construction of a road by China there. The issue was resolved after intense negotiations at the

diplomatic and military levels.

In the latest developments, satellite images show construction of hardened ammunition bunkers, two kilometers from Sinche-La (pass) on the eastern periphery of the Doklam plateau near the border between Bhutan and China.

The new structures will enable the Chinese troops to withstand intense cold there and face any challenge with sufficient logistical support, sources said here.

High-resolution images from Maxar Technologies indicate road access from the site of the bunkers to the Sinche-La pass, which is then connected to an all-weather road constructed by Chinese workers that stretches across the 5 kilometre-wide Doklam plateau.

The new bunkers and construction of the road on the Doklam plateau after the stand-off in 2017, the construction of a "village" and 9-kilometre track adjacent to the plateau are strong indications that China has no hesitation in construction activity in territory which Bhutan claims to be its own.

A September 2020 study by STRATFOR, the world's leading geopolitical intelligence platform, said the 2017 Doklam crisis "appears to have shifted China's strategic objectives, with China more than doubling its total number of air bases, air defence positions and helicopters near the Indian border over the past three years."

## AIMIM leaders join TMC to stop minority votes' division

PNS ■ KOLKATA

In a sudden development, a number of All India Majlis-e-Ittehadul Muslimin (AIMIM) men, including their senior leader Anwar Pasha, on Monday joined the Trinamool Congress in an apparent bid to stop division of minority votes in Bengal by claiming Asaduddin Owaisi-led party was only acting as a "polariser of votes" to help the BJP.

The AIMIM, however, claimed, Pasha was just a "party worker", and the TMC leadership was trying to fool the masses.

Alleging that a few people are trying to steer the country towards destruction using religion, Pasha said those who are eyeing Bengal at present, whether "wearing saffron or green", should know that there is no place for creating religious

divisions in the State.

"AIMIM has played a hand in the polarisation of votes in Bihar and thus helped the BJP in forming the Government there, but this will not happen in Bengal," he said.

Pasha, who was welcomed to the TMC fold by Ministers Bratya Basu and Moloy Ghatak, said that 30 per cent of West Bengal's population are Muslims, asserting that the political developments in Bihar cannot be emulated in Bengal.

Urging Muslims in the State to stand by Chief Minister Mamata Banerjee, he said the AIMIM chief should not come to Bengal.

Owaisi had said on Sunday that the party is deliberating with the West Bengal unit over contesting the assembly elections and will take a decision on getting feedback from them. Pasha said fear was being

created in the minds of minorities over CAA and NRC and the West Bengal CM "is fighting for us and has taken to the streets to support us."

"Making a law in Parliament is not the end, it has to be implemented on the ground," he said.

Senior AIMIM leader and in-charge of Bengal, Asim Waqar, declined to attach much importance to the development and urged the TMC not to fool the masses with their "dirty tricks".

"Those who have joined the TMC today are neither leaders nor office bearers of the state AIMIM unit. They are just party workers, just like lakhs of AIMIM workers across the state. The TMC should stop pursuing such dirty tricks. Their joining would not have any impact on our prospects in Bengal," Waqar said.

## CAPSULE

### MINIMUM TEMP IN DELHI DROPS TO 6.3 DEGREES C

New Delhi: A cold wave gripped Delhi on Monday as the minimum temperature dropped to 6.3 degrees Celsius, five notches below normal and the lowest in the month of November since 2003, according to the India Meteorological Department.

### KASHMIR RECEIVES SEASON'S 1st SNOWFALL

Srinagar: Most of the plain areas in Kashmir experienced the season's first snowfall on Monday, even as the higher reaches witnessed heavy precipitation, leading to the closure of Srinagar-Leh road which connects the valley with Ladakh, officials said here.

### CBSE CLASS 12 PRACTICAL EXAM DATES OUT

New Delhi: The CBSE on Monday released the tentative dates for the Class 12th board practical exams amid the speculation of postponing or cancellation of the exams in the wake of coronavirus pandemic.

## Kerala puts on hold changes in Police Act after criticism

PTI ■ THIRUVANANTHAPURAM

The CPI(M)-led Left front Government in Kerala on Monday decided to put on hold a controversial amendment to the Police Act as the law triggered a political storm across the country with many describing the measure as an assault on freedom of expression and media.

Shortly after CPI(M) general secretary Sitaram Yechury announced in New Delhi that the amendment providing for up to five years jail term to those making defamatory social media posts would be reconsidered, Chief Minister Pinarayi Vijayan said his government was not "intending" to implement it now.

Further action would be taken after detailed discus-

sions in the Assembly and hearing views from various quarters, he said, with the announcement coming amid widespread criticism of the amendment and protests by Congress and threat by BJP to legally challenge it.

While the Government has said it brought the amendment through an ordinance to check cyberbullying, opposition parties and even Left sympathisers have slammed it, saying it was against the freedom of speech and media.

Leader of the Opposition in the Assembly Ramesh Chennithala dubbed as a "hoax" Vijayan's statement that his Government was not intending to implement the act and demanded that it be repealed at the earliest.

## Gogoi succumbs to post-Covid disease

PTI ■ GUWAHATI

Veteran Congress leader and a three-term former Assam Chief Minister Tarun Gogoi died here on Monday while undergoing treatment for post-Covid-19 complications, State Health Minister Himanta Biswa Sarma said.

Gogoi, thrice Chief Minister of the state from 2001 to 2016, breathed his last at the Gauhati Medical College and Hospital (GMCH) at 5.34 pm, Sarma said. He was 84 and is survived by wife Dolly, daughter Chandrima and son Gaurav, a Lok Sabha member.

The veteran Congress leader was first admitted to the hospital on August 26 after testing positive for Covid-19 and was discharged for a brief period before being admitted again on November 2.

His condition deteriorated on November 21, following multi-organ failure and was put

TARUN GOGOI

— APRIL 1, 1936 — NOVEMBER 23, 2020

on invasive ventilation. Gogoi was given dialysis on Sunday. His condition deteriorated further over the past few hours and the hospital where he was admitted said he was "very, very critical".

"Extremely sad to know of the demise of Shri Tarun Gogoi, former Chief Minister

of Assam. The country has lost a veteran leader with rich political and administrative experience. His long tenure in office was a period of epochal change in Assam," President Ram Nath tweeted.

Expressing his anguish at the death of Gogoi, Prime Minister Narendra Modi

described him as a popular leader and veteran administrator who had years of political experience in Assam as well as at the Centre.

Modi tweeted, "Sri Tarun Gogoi Ji was a popular leader and a veteran administrator, who had years of political experience in Assam as well as the Centre. Anguished by his passing away. My thoughts are with his family and supporters in this hour of sadness. Om Shanti."

"Shri Tarun Gogoi was one of the tallest leaders of the Congress party, admired and respected for his extraordinary wisdom, vision and ability. With his long years of experience as an MLA, an MP, a Central Minister and Chief Minister of Assam, he was someone to whose unfailingly wise counsel and advice we could always turn to," said Congress chief Sonia Gandhi.

## Capital's air slips to 'very poor' as wind loses speed

STAFF REPORTER ■ NEW DELHI

The worsening of the air in Delhi for the next two days has been attributed to slow winds and low ventilation as on Monday Delhi's air quality deteriorated to the "very poor" category after nearly 10 days, Government agencies said.

Stubble burning, which accounted for 12 per cent of Delhi's PM2.5 pollution on Sunday, contributed six per cent on Monday.

According to the Central Pollution Control Board (CPCB) mobile app, SAMEER, the city's air quality index (AQI) was recorded at 281 on

Monday morning and deteriorated to 302 in the evening. It was 274 on Sunday. It was 251 on Saturday, 296 on Friday, 283 on Thursday.

An AQI between zero and 50 is considered "good", 51 and 100 "satisfactory", 101 and 200 "moderate", 201 and 300 "poor", 301 and 400 "very poor", and 401 and 500 "severe".

However, according to the Ministry of Earth Sciences' air quality monitor, SAFAR, "Stubble burning share in PM2.5 in national Capital's air is estimated as six per cent for today (Monday), mainly because calm wind is likely to hold intruded mass for a day," SAFAR said.

# Pollution led to high Covid death rate in Delhi: Jain

STAFF REPORTER ■ NEW DELHI

Delhi Health Minister Satyendar Jain on Monday attributed the high Covid-19 death rate in the national Capital to the pollution caused by stubble-burning and expected a downtrend in it in the next two-three weeks.

The pollution due to stubble-burning has caused problems in breathing and those who had Covid-19 inhaled the smoke, which aggravated the seriousness, he said.

Jain said that its effect on the city's Covid-19 death rate will go away in the next two-three weeks since pollution due to stubble-burning has lessened in the last few days.

The health minister further said that there was heavy pol-

lution due to stubble-burning amid the Covid-19 pandemic and it came as a double attack. Since the pollution due to stubble-burning is less now, the downtrend in deaths will be there in a few weeks," Jain said.

This was the fifth time in 11 days that the daily number of deaths crossed the 100-mark in the national capital. The authorities reported 111 deaths on Saturday, 118 on Friday, 131 on November 18,

the highest till date, and 104 on November 12. Delhi has reported a death rate of 1.58 per cent among COVID-19 patients as compared to the national fatality rate of 1.48 per cent.

Experts attribute the high figure of daily COVID-19 deaths in the national capital to a large number of "critical" non-resident patients coming to the city for treatment, an unfavourable weather, pollution and a better "reporting and mapping" of fatalities.

They say the easing of restrictions has exposed the vulnerable population, such as the elderly and those having comorbidities, to the deadly virus.

Jain said the number of fresh cases as well as the posi-

tivity rate is gradually going down in Delhi, showing that the COVID-19 situation is improving.

Since November 7, when the positivity rate was more than 15 per cent, it has come down to over 12 per cent now. The number of fresh cases was over 8,500 on November 10, which reduced to 6,746 on Sunday, he said.

The health minister said 9,418 hospital beds have been occupied by COVID-19 patients in Delhi currently, whereas 7,900 are still vacant.

Delhi recorded 6,746 fresh COVID-19 cases on Sunday and a positivity rate of 12.29 per cent, while 121 more fatalities pushed the city's death toll due to the disease to 8,391, authorities said.

## Hold Punjab, Haryana CMs liable for pollution: Atishi to air quality panel

STAFF REPORTER ■ NEW DELHI

AP MLA and chairperson of the Environment Committee of Delhi Assembly Atishi on Monday met the newly-appointed panel for Air Quality Management and urged it to hold Chief Ministers of Punjab and Haryana liable for causing pollution in the national Capital.

Talking to the media after the meeting, Atishi said two

main issues were raised with the commission. "The commission was requested to fix the accountability of the Chief Ministers of Punjab and Haryana on the issue of burning stubble and take strict action against them by filing a case.

Atishi said that the commission was also requested to order the governments of Punjab and Haryana to resolve the stubble burning with bio decomposer technology.

"This is effective as well as an efficient alternative to this problem. Secondly, we have also requested them to take stringent action against the chief ministers of Punjab and Haryana for they have failed to curb stubble burning. The Air Quality Commission has the power to take legal actions and can order jail to anyone causing pollution. We have requested them to hold them accountable for the pollution caused in Delhi," she said.

## Delhi Govt to reduce performance security to 3% of value of contract

STAFF REPORTER ■ NEW DELHI

Considering the problems being faced by commercial entities and contractors, the Delhi Government has decided to reduce performance security from existing 5-10 to 3 per cent of the value of the contract for all existing contracts.

Deputy Chief Minister Manish Sisodia informed that all tenders or contracts issued and concluded till December 31, 2021 should also have the provision of reduced performance security.

Delhi Government has also noted that 'Additional Performance Security' in case of Abnormally Low Bids (ALBs) is being taken from the contractors by various departments though there is no provision for the same in General Financial Rules or the Manuals for Procurement, he said.

It has also been decided that no provisions should be kept in the bid documents

regarding Additional Security Deposit/Bank Guarantee (BG) in case of Abnormally Low Bids, Sisodia added.

The Delhi Government is in receipt of many representations that on account of slowdown in the economy due to the pandemic, there is acute financial crunch among many commercial entities and contractors, which in turn is affecting timely execution of the contracts.

The deputy further said that it has been decided by the

Delhi Government that no provisions regarding bid security should be kept in the bid documents in future and only provision for 'Bid Security Declaration' should be kept in the bid documents, as it has been noted that bid security or earnest money deposit is still being taken from the contractors by various departments.

Sisodia informed that the instructions will be applicable for all the tenders issued till December 31, 2021.

STAFF REPORTER ■ NEW DELHI

Am Aadmi Party (AAP) chief spokesperson Saurabh Bhardwaj on Monday accused the leaders of BJP-ruled North Corporation of being involved in "massive" manipulation of the rented and commercial properties as the civic body does not maintain any account related to property tax despite the direction issued by the apex court in 2002.

"The property tax collection is the key way of revenue for the municipal corporations across the country. According to a data this year the North MCD was supposed to receive RS 2838 crore from the property tax but the MCD has collected only Rs 1703 crore. The biggest betrayal by the BJP ruled North MCD is that they do not maintain any proper documentation regarding the collection of property tax. There is no way to find out how much corruption or financial disputes they have.

"In 2017 before the MCD election the BJP claimed that they will replace all the sitting councillors because there were various corruption charges against them. After the election, the BJP won in all the three municipal corporations of Delhi but the corruption did not go away and flourished in a massive way," he said.

Bhardwaj said, "The local MCD officials decide about the

**The property tax collection is the key way of revenue for the municipal corporations across the country. According to a data this year the North MCD was supposed to receive ₹2,838 crore from the property tax but the MCD has collected only ₹1,703 crore**

property tax collection from an individual establishment. They can change the usage of the property which means if a property is rented then they can show that it is not rented. If the property is vacant then they can show that it is being used for commercial purposes. Moreover, very significantly there is no report or documentation of the fact regarding the property tax exemption."

In 2002 when this law was passed then the BJP ruled MCD decided to conduct a survey of all these properties but this nothing happened, he said.

"The audit report noted that the survey was never conducted after the implementation of the unit area method of the property tax nor were the property tax returns scrutinised hundred per cent. In absence of survey and non-

scrutinised PTRs, loss of revenue on account of property tax cannot be assessed. They have never maintained any kind of assessment books," he added.

"The municipal Corporation has given unique property identification number two 11,47,000 properties. But the BJP ruled MCD has never maintained any kind of record of these properties to just do corruption. According to a report several instances of corruption and financial discrepancies happened in the name of property tax," he said.

Citing an example, the AAP leader said "At Shalimar Bagh, there is Agarwal auto mall which has two parking floors. Within 2009-2010, they paid property tax. But after that, they never paid any property tax claiming that the parking was not taking place. After around seven years when the survey took place, it was found that the BJP ruled MCD has suffered from loss of more than Rs.90 lakh."

## Jain flaggs-off three equipped ambulances

STAFF REPORTER ■ NEW DELHI

Delhi Power Minister Satyendar Jain flagged-off three fully equipped ambulances donated by BSES Yamuna Power Limited (BYPL) under its 'Suraksha' initiative. The keys to the ambulances were handed over to the minister by the BYPL CEO P R Kumar.

The three Life Support ambulances were in-turn handed-over by the Minister to the senior officials from the three Delhi Government hospitals, GTB Hospital, GB Pant Hospital and Lal Bahadur Shastri Hospital. These will be deployed to provide timely care to the patients in East and Central Delhi.

Apart from the ambulances, the BYPL CEO also handed over 50 automatic sanitiser cum thermal temperature scanner machines to the Minister. These will be installed at Mohalla Clinics in East and Central Delhi. Thirty such machines were handed over to the office of DCP, East Delhi a few days earlier.

Over the next-few days, three more life support ambulances will be handed-over to the Delhi Government by BSES Rajdhani Power Limited (BRPL) CEO Amal Sinha for the use of Covid patients in

Delhi health minister satyendar jain inspecting the ambulance donated by BSES to GB Pant, GTB and LBS hospital part of it's social responsibility, during handing over ceremony at Delhi Secretariat

South and West Delhi. These will be attached to the Government's CATS Ambulance Services. BRPL promoted self help groups are also stitching affordable masks and a lot of 1500 such masks were handed over to DM, West Delhi.

According to a BSES spokesperson, "Complimenting the efforts of the Delhi Government, BSES discoms have been playing their part in the fight against Covid. Dry food rations, Hygiene kits and masks have been provided to the needy. In fact, over the past

few months, over 2 lakh gloves, 2 lakh masks, over 20,000 hygiene kits, and 6000 PPE kits have been provided by the discoms."

"Apart from this, discom promoted Women Self Help Groups are stitching affordable and reusable masks for hun-

dreds of people residing in the slums Besides helping these women supplement their loss of income during the pandemic, they are also being distributed amongst the needy and the vulnerable population", he said.

## Gurugram launches portal, mobile app for Covid info

PARVESH SHARMA ■ GURUGRAM

To fight against the Covid-19 pandemic and provide as much as information, the Gurugram District administration on Monday has launched a portal 'covidggn.com' for making relevant information readily available to the people.

All the required information will be also available in GC3 android mobile application. GC3 stands for 'Gurugram COVID Combat Companion' which is available for download on the Google play store.

According to the gurugram administration officials, at present the portal provide information regarding testing centres, helpline numbers, Ambulance helpline number, hospital beds availability, location of hospitals, general statistical reports, testing charges, number of Covid-19 patient's etc.

Officials said that other useful information related to Covid management will be added to enhance the utility of this portal and application.

During the launch the Divisional Commissioner, Rajeev Ranjan stated that the availability of information on

various platform is much needed and with these online platform provide resquisite information to the end users.

The portal also has provision of administrative login, wherein, all departments like Municipal Corporation, Health department and Ayush can work in parallel without loss of time for transmission of data. Even data from ICMR is imported for quick processing by the various departments.

"The portal contains detailed information about every positive patient in the district. The data of patients are updated on this portal on hourly basis," said Chief Medical Officer Dr. Virender

Yadav.

The officials also claimed that these portal and App is a light application which can work with limited internet connectivity. The portal and app have been developed by DAY Technologies in collaboration with Gurugram District Administration.

"In view of the recent increase in COVID cases in Gurugram and adjoining areas, it is necessary that the proper knowledge, wearing of mask, sanitizer and social distancing are few basic tools in this war against Covid-19. Everyone must understand the seriousness of the virus" said the divisional commissioner.

## Experts warn against fresh wave of COVID-19 in Jharkhand

### 'Ignoring corona guidelines could be fatal'

PNS ■ RANCHI

Even after 951 deaths and over 1,07,469 COVID-19 cases in Jharkhand people of the State do not seem to be following life saving guidelines issued by authorities.

A large number of people oblivious of the new wave of Coronavirus infections are flocking markets, workplaces and several other crowded places without following social distancing and putting on facemasks.

At the time when several

states in the country have witnessed sudden surge in the COVID-19 cases, renowned doctors and medical experts have warned of a sudden increase in the cases if people of the State continue violating COVID guidelines issued by the health department.

Former HOD, Medicine at Rajendra Institute of Medical Sciences (RIMS), Ranchi, Dr RK Jha said, "Next round has already come, north and north west Indian states including Haryana, Rajasthan, Delhi and bordering areas of UP are witnessing a sudden surge in the cases.

The PM is already talking to all CMs. During winters all home cases will multiply. So many festivals, marriages, will compound the cases."

"COVID-19 is there and it will stay, not end, less increase,

Europe and America are the worst hit, where cases have increased. Unlock was necessitated to boost the drowning economy, but no minimum caution is being taken. People need to understand and change their living practice.

People keep windows open and most people have their nose exposed despite wearing their masks. No new wave, but cases will increase. During winters, the virus will circulate in the house," said Dr Jha.

IMA State coordinator and former national IMA vice president Dr Ajay Kumar Singh said, "When the COVID era started and lockdown was imposed on March 27, there was more fear among people than the prevalence of the disease itself.

Now, the ratio reversed with 10 per cent fear and 90 per

cent disease. People have started using it as a government order, just like using a helmet and seat belt, which are for self protection, but masks are for protecting society too."

In today's situation 60 per cent people use masks symbolically, where the nose is exposed.

Due to the economy, finance, festivals, marriages and other get-togethers, vulnerability has increased. Only proper use of masks, three layers, without valves and social distancing can save people. There should be a number cap on social gatherings and unnecessary moving should be stopped.

Outside goods need to be washed, cleaned and then used. Don't eat raw fruits. The Government can only alert people, it can enforce masks too. Government can challan

people with the help of CCTV cameras just like they do while penalising traffic violators. Also, 60 plus people shouldn't move out and marriages should be done with minimum people maintaining social distancing. I am not being infected, but I can spread the infection," said Dr Singh.

He added that even cured patients need to take care because they have been affected. "We are not scaring people, but asking them to be careful. Next 90 days are very critical so everyone needs to be careful," he said.

Chief Medical Officer, CGHS, Ranchi Dr SS Harsh said, "Though one year has already been passed since the first case of COVID-19 surfaced in the world, we still have no definite solutions or remedy despite of regular research

and work of scholars and scientist across the globe. At present only way to stay safe is to follow government guidelines and maintaining social distancing, wearing mask and follow proper handwash/sanitization."

"India is a land of cultures and many festivals and we are reluctant to follow the norms in a proper way, worsening the present scenario. I humbly request everyone to follow the COVID-19 guidelines to defeat Corona," added Dr Harsh.

Notably, when there are chances of a second wave of the pandemic in the State the number of COVID-19 tests has also gone down in the last few weeks.

On Sunday, the government collected swab samples of only 8,014 people, which is a quarter of the number of sam-

People flock markets, amid the Coronavirus Pandemic in Ranchi on Monday photo Vinay Murmu

ples collected every day in September. In the past fortnight, the government has tested around 10,000 swab samples every day on an average, which is not even half of the number

of tests conducted every day in the month of October. Once the intensity of testing increases, the number of cases is likely to witness an unprecedented spike, fear health experts.

# We want ₹30,000 cr to fight Covid: CM ahead of PM meet

Chhattisgarh Chief Minister offers prayers at Kumari Amman Temple in Kanyakumari, during a brief visit to the southern Tamil Nadu shore.

Chhattisgarh Chief Minister Bhupesh Baghel captures the moments in his mobile phone during his visit to Kanyakumari.

**STAFF REPORTER ■**  
RAIPUR

A day ahead of meeting Prime Minister Narendra Modi on Tuesday, Chief Minister Bhupesh Baghel on Monday said his government had sought ₹30,000 crore to fight Covid-19 and the Goods and Services Tax (GST) due to Chhattisgarh has not been

cleared by the Centre.

He has interacting with the media at the Swami Vivekananda Airport here on his return from a two-day visit to Kerala. He said he went to pay condolences to AICC General Secretary K.C. Venugopal, whose mother died due to Covid, and also visited Kanyakumari in Tamil Nadu.

With a spike in Covid cases across the country, Modi will hold a meeting on November 24 at 10.30 am with the Chief Ministers of Chhattisgarh, Haryana, Delhi, Gujarat, Maharashtra, Rajasthan, West Bengal and Kerala.

On PM's interaction, Baghel said: "Already we had been denied the GST due to

the state and the package sought to tackle the Covid-19."

He added that earlier Central assistance in the form of testing and PPE kits were received. Now, the state is making its own arrangement. This issue will be raised.

The discussion will be on the Covid vaccine. The issue

had been raised before the Union Health Minister. The demand will be again raised during the meeting to ensure early delivery of the vaccine to Chhattisgarh, he added.

On the release of the fourth instalment of paddy procurement, Baghel said before March the instalment will be in the bank account of the farmers.

Already, three instalments have been released on May 21, August 20 and November 1. Before the end of financial year, the fourth instalment will be cleared, he said.

The crime situation in the state is under control, he said. Earlier Naxalites used to attack security camps, now the situation has reversed.

## Women Commission asks Surguja admin to probe fraud case

**STAFF REPORTER ■**  
AMBIKAPUR

The Chhattisgarh State Commission for Women has directed the district administration to look into alleged microfinance frauds affecting rural women in Surguja.

Commission's Chairperson Kiranmayee Nayak during a public hearing for Surguja and Balrampur districts on Monday gave the directive after listening to the grievances of over 50 women from different villages, a press release said.

The women complained that a few agents from different banks got loans sanctioned in their names. Later, a middleman gave the women Rs 3,000-4,000 and withdrew the loan amount from their

accounts while promising to pay the loans.

Now bank officials are pressurizing the women to pay the loans, the press release said.

Taking note of the issue, Nayak ruled that the women need not pay the loans. She further said the Collector and Superintendent of Police will get the case investigated and register criminal cases against the offenders, the press release added.

The Commission heard 14 cases and sought registration of FIR in three cases.

The Chairperson, in another case, directed the Jashpur Collector to suspend an agriculture officer of the district after conducting a hearing under the Chhattisgarh Civil Service Rule 1965.

## Monitor illegal paddy movement into Chhattisgarh: Minister

**STAFF REPORTER ■**  
RAIPUR

Chhattisgarh Food Minister Amarjeet Bhagat on Monday called for border inspection to stop illegal transportation of paddy into the state.

Saying there should be no inconvenience to farmers during paddy

procurement, he also said a team should be formed to inspect and monitor paddy procurement centers across the state.

The Minister was addressing a review meeting of Food Department officials here.

He said the Chhattisgarh government has requested the Centre to

provide 3.50 lakh gunny bags to purchase paddy from farmers in the Kharif marketing year 2020-21.

The Centre has informed the Jute Commissioner regarding the supply of 1.43 lakh gunny bags to the state and only 77,000 gunny bags have been received so far, Bhagat said.

Due to the drastic cuts in the supply of gunny bags by the Centre, the state has issued a work order to buy 70,000 new HDPE/PP gunny bags besides 1 lakh gunny bags of PDS system and 2 lakh gunny bags from millers for paddy purchase, he said.

He said about 90 lakh tonnes of paddy is expected to be bought in the Kharif marketing year 2020-21. This requires 4.75 lakh gunny bags.

The meeting was attended by Food Department Secretary Dr Kamal Preet Singh, Cooperative Department Secretary R. Prasanna and other senior officials.

To mark 'Amla Navami', devotees perform religious rituals on the 'Amla tree' at Moti Bagh in the Chhattisgarh capital Raipur on Monday.

## Stop illegal dumping of paddy from other states: Tamradhwaj

**STAFF REPORTER ■**  
GARIABAND

Minister of Home, Public Works, Jails, Religious Trusts, Tourism and Gariaband district in-charge Tamradhwaj Sahu on Monday called for steps to stop illegal dumping of paddy from other states.

At a meeting via video conferencing with officials of the district, he instructed the police as well as Revenue and Forest Departments to jointly monitor and stop the illegal transportation and dumping of paddy.

He ordered implementation of all departmental schemes within a time frame and in a disciplined manner without compromising on quality. He also called for special steps to prevent corona infection in the district.

Sahu said construction work of

gothans (cow sheds) should begin by identifying sites in each panchayat. Top priority must be given to this task.

He sought information regarding manufacture and sale of vermicompost under the Godhan Nyaya

Yojana. He wanted officials to take steps to make gothans self-reliant.

The meeting was attended by Rajim MLA Amitesh Shukla, Collector Nileshkumar Kshirsagar and Superintendent of Police Bhojram Patel among others.

## Two held with 214.77 kg cannabis

DURG: Chhattisgarh Police on Monday seized 214.77 kg of cannabis valued at Rs 10 lakh and arrested two persons in Durg district who were transporting it from Odisha to Kabirdham district in the state.

Durg Superintendent of Police Prashant Kumar Thakur told The Pioneer over telephone that the arrested men were driver Manoj Sahu (42) and his cleaner-assistant Jharnesh Yadu (23), both residents of Bemetara district.

The action was taken based on a tip that the contraband was being transported to Kabirdham from Odisha via the Raipur-Nagpur National Highway NH-31, Thakur said.

Police intercepted a white colour Bolero (CG-09, B-1946) during checking near a toll plaza in the Kumbhari police station limits.

The police seized the drug from the Bolero, which was seized along with two mobile phones and ₹8,500 in cash, the officer said.

## Three Naxalites, including woman, killed in gun battle

**STAFF REPORTER ■** KANKER

Three Naxalites, including a woman, were killed in a gun battle with security forces in Chhattisgarh's Kanker district on Monday, police said.

The woman Maoist carried a reward of ₹8 lakh on her head while the state government had declared rewards of ₹5 lakh each on the heads of the two others, police said.

A Sashatra Seema Bal (SSB) trooper was injured in the gunfight, Inspector General of Police (Bastar Range) Sundarraj P said.

The fighting took place in a forest around 8 am when a team of SSB's 33rd Battalion was on patrol from its Kosranda camp, around 150 km from Raipur.

After the fighting, the bodies of three radicals, including the woman, clad in 'uniform' were

recovered, the officer said.

An X95 rifle, a SLR rifle and a country-made weapon were found at the site. The X95 weapon was looted by Naxalites after an ambush on BSF in Raoghat area in 2018, Sundarraj said.

A Head Constable of SSB received minor injuries in the action. He was admitted to a hospital in Antagarh where his condition was reported to be out of danger.

The dead woman was

identified as Jyoti, a member of Maoist PLGA Company no 5 and carried a reward ₹8 lakh on her head. Likewise, Badru and Guddu, who were also members of Maoist PLGA Company no 5, carried rewards of ₹5 lakh each on their head, he said.

According to Sundarraj P, in the last couple of weeks, bodies of seven Naxalites have been recovered by security forces in post monsoon anti-Naxalite operations in Bastar range.

# Filaria preventive drug drive launched

**STAFF REPORTER ■**  
RAIPUR

Chhattisgarh Health Minister T.S. Singh Deo on Monday virtually launched the Mass Drug Administration (MDA) under the national filaria control programme.

Before launching the drive, which will conclude on November 30, the Minister consumed the filaria preventive medicine, a press release said.

The programme will cover all blocks of Surguja district and Prem Nagar, Ramanuj Nagar and Surajpur blocks of neighboring Surajpur district. All residents of these

**Mass drug administration programme has been launched amid the Covid pandemic because the government wants to eradicate filaria by 2021**

blocks who are above 2 years will be administered the medicine.

Also, juveniles and youths below 19 years will be given deworming drug albendazole, it said.

"For protection against filaria, everyone should take the prescribed medicine. These drugs are completely safe. Along with coronavirus we are also focusing on other

health programmes," Singh Deo said.

He said this mass drug administration programme has been launched amid the Covid pandemic because the government wants to eradicate filaria by 2021.

On November 23, the medicine will be administered in government hospitals and health centers. On November 24 and 26, Mitani and Anganwadi workers will begin a door-to-door drive, he said.

In the last leg of the programme (Nov 27 and 30), a mop up round will be held to cover those who were missed, Singh Deo added.

## 10L children in 5 districts to get Japanese encephalitis vaccine

**STAFF REPORTER ■**  
RAIPUR

Ten lakh children in five districts of Chhattisgarh will get Japanese encephalitis vaccine, the Health Department said on Monday.

Health Minister T.S. Singh Deo virtually launched the Japanese encephalitis vaccination

drive from his official residence here and said children in Bastar, Bijapur, Dantewada, Kondagaon and Dhamtari will get the vaccine till December 18.

During the drive, all children above 15 years will be given the vaccine, a press release said.

"The drive will help prevent deaths caused by Japanese encephalitis.

Earlier also, in Bastar, a similar drive was launched which controlled the spread of the disease," Singh Deo said.

He said that parents should be aware of diseases like Japanese encephalitis. Prevention is the best safeguard against such sickness. The government is trying to stop its spread

to children through vaccination, he added.

Singh Deo lauded the efforts of the Health Department's ground staff for reaching the hinterlands and serving people. He mentioned that the department staff had a major role to play in 'Malaria Mukh Bastar Abhiyan'.

COVID-19

Solution to virus elimination lies in rapid testing

PNS ■ NEW DELHI

Testing half the population weekly with inexpensive, rapid-turnaround Covid-19 tests would drive the virus toward elimination within weeks — even if those tests are significantly less sensitive than gold-standard clinical tests, claim researchers.

The observation holds importance in the context of India where while RT-PCR is considered the gold standard for Covid-19 testing because of the high sensitivity of the test, Rapid antigen testing (RAT) is preferred in areas where mass-scale testing needs to be deployed for it gives results in minutes and is cheaper. The test is highly specific, which means it can accurately detect true positive cases.

However, because of the limitations of the test in terms of not being that accurate in detecting true negatives, the Indian Government has advised states to mandatorily test through RT-PCR all RAT negative samples of individuals having Covid-19 like symptoms. RAT is also quicker and gives results in minutes rather than hours taken to get RT-PCR test results.

The rapid antigen test is also cheaper to perform as compared to the RT-PCR, which is a complicated test requiring a specialised laboratory.

Study lead author Daniel Larremore from the University of Colorado Boulder in the US

supports RAT test as he said, “Our big picture finding is that, when it comes to public health, it’s better to have a less sensitive test with results today than a more sensitive one with results tomorrow.”

“Rather than telling everyone to stay home so you can be sure that one person who is sick doesn’t spread it, we could give only the contagious people stay-at-home orders so everyone else can go about their lives,” Larremore added.

For the study, published in the journal Science Advances, the research team teamed up with the Harvard University to explore whether test sensitivity, frequency, or turnaround time is most important to curb the spread of Covid-19.

The researchers scoured available literature on how viral load climbs and falls inside the body during infection, when

people tend to experience symptoms, and when they become contagious.

They then used mathematical modeling to forecast the impact of screening with different kinds of tests on three hypothetical scenarios: in 10,000 individuals; in a university-type setting of 20,000 people; and in a city of 8.4 million.

When it came to curbing spread, they found that frequency and turnaround time are much more important than test sensitivity. For instance, in one scenario in a large city, widespread twice-weekly testing with a rapid but less sensitive test reduced the degree of infectiousness of the virus by 80 per cent.

But twice-weekly testing with a more sensitive PCR

(polymerase chain reaction) test, which takes up to 48 hours to return results, reduced infectiousness by only 58 per cent. When the amount of testing was the same, the rapid test always reduced infectiousness better than the slower, more sensitive PCR test. That’s because about two-thirds of infected people have no symptoms and as they await their results, they continue to spread the virus.

“This paper is one of the first to show we should worry less about test sensitivity and, when it comes to public health, prioritize frequency and turnaround,” said senior co-author Roy Parker.

The study also demonstrates the power of frequent testing in shortening the pandemic and saving lives.

Union Home Minister Amit Shah launches a mobile laboratory that will conduct free RT-PCR tests for Covid-19 here and the results will be available in six to eight hours. SpiceHealth, an initiative of the promoters of SpiceJet, and led by Avani Singh, CEO, SpiceHealth, will be setting up a number of portable testing facilities across the country to make the highly sensitive RT-PCR testing readily accessible

PTI

AstraZeneca: We will have 200 million doses by end of 2020

PNS ■ NEW DELHI

Stating that its Covid-19 vaccine could be around 90 per cent effective, and potentially cheaper to make, British drug-maker AstraZeneca on Monday said it will have as many as 200 million doses by the end of 2020 — around four times as many as US competitor Pfizer.

Seven hundred million doses could be ready globally as soon as the end of the first quarter of 2021. The combined analysis from both dosing regimens resulted in an average efficacy of 70 per cent.

The vaccine was 90 per cent effective in preventing Covid-19 when it was administered as a half dose followed by a full dose at least a month later, according to data from late-stage trials in Britain and Brazil. No serious safety events were confirmed, the company said.

“This means we have a vaccine for the world,” said Andrew Pollard, director of the Oxford University vaccine group that developed the drug.

The vaccine’s cost works out at just a few dollars a shot,

a fraction of the price of drugs from Pfizer and Moderna, which use a more unconventional technology.

And it can be transported and stored at normal fridge temperatures, which proponents say would make it easier to distribute, especially in poor countries, than Pfizer’s, which needs to be shipped and stored at -70C, the sort of temperature typical of an Antarctic winter.

The effectiveness of AstraZeneca’s vaccine depended on the dosing, and fell to just 62 per cent when given as two full doses rather than a half-dose first. But scientists cautioned against seeing this as evidence that it would be less useful than rivals. Vaccines from Pfizer and Moderna each prevented about 95 per cent of cases according to interim data from their late-stage trials.

“I think it is a real fool’s errand to start trying to pick these three (Pfizer/Moderna/Astra) apart on the basis of snippets of phase 3 data from press releases,” said Danny Altmann, professor of immunology at Imperial College London.

PM: Constructed key buildings within time

PNS ■ NEW DELHI

Prime Minister Narendra Modi on Monday said his Government initiated the construction of many major buildings in the Capital which were in limbo and were only on files for the past two decades and finished the work well before the targeted time.

Inaugurating the new three towers with 76 apartments for MPs, Modi cited that many important buildings like National War Memorial, Ambedkar International Centre, National Police Memorial and CIC building constructions were started from mid 2014.

Modi said delay in construction of major buildings leads to economic burden. “It also leads to economic burden. But serious efforts to overcome this problem began especially after 2014.

The decades-old problems can be resolved by finding solutions to them and not by avoiding.

Not only the accommodation for MPs, there were several projects in Delhi which had been lying incomplete for many years, and were in limbo. Construction of several buildings began during this Government itself and was completed in the stipulated time, even before the scheduled time. When there was the Government of Atal Bihari

Prime Minister Narendra Modi addresses at the inauguration of multi-storeyed flats for Members of Parliament, through video conferencing, in New Delhi on Monday

PTI

Vajpayee ji, discussion began on the Ambedkar National Memorial. It took several years for its construction and it was completed only after the formation of this Government.

“The Doctor Ambedkar International Centre was built by this government after a long wait of 23 years. The new building of the Central Information Commission was completed by this Government. The country was, for decades, discussing a proposal of the War Memorial. The brave soldiers of our country were expecting and demanding this for a long time. Our Government also had the privilege of constructing a war memorial near India Gate in

memory of the country’s martyrs. Thousands of policemen in our country have sacrificed their lives to maintain law and order. Thousands of policemen have been martyred. The National Police Memorial in their memory was also built by this Government,” said Modi, narrating several projects completed by his Government on time.

Lok Sabha Speaker Om Birla, Union Ministers Prahlaad Joshi and Hardeep Puri were present in the function.

The 76 new residences for MPs have been built within 27 months at a cost of Rs 188 crore, in three towers named after Rivers Ganga, Yamuna and Saraswati.

CBI books UP resident for impersonating agency official

PNS ■ NEW DELHI

The CBI has registered a case against an accused, resident of Jwal Khara, Bulandshahr and Shivpuri Choraha, Tehsil Kol, Aligarh (Uttar Pradesh) on the allegations that he has been impersonating himself as RR Singh, DIG, CBI, Delhi for his personal gain.

The agency also conducted searches on Monday at the premises of the accused which led to recovery of two country made firearms and some incriminating documents in connection with the alleged crime.

The accused Rajiv Singh was impersonating as the CBI DIG for personal gains, officials said, adding investigation is continuing in the case.

Meanwhile, the agency on Monday arrested an absconding accused in an ongoing investigation of a case against a Kolkata-based Ponzi company.

A case was registered

against the Ponzy company) and others.

“It was alleged that the Managing Director of the (accused Ponzi company) in pursuance to a conspiracy with other Directors of said Group of Companies (a Ponzi Company) had illegally collected Rs 454.54 crore (approximately) from the investors under various fraudulent schemes on assurance of paying high returns on such investments on maturity,” the CBI said in a statement.

It was further alleged that the accused fled away after cheating the said investors and misappropriated the invested money.

The arrested accused SK Nazubulla, Managing Director of Angel Agritech Group of Companies (a Ponzi Company), was produced before the Court of ACJM, Barupur (West Bengal) and remanded to 10 days police custody, officials added.

Foreign Secy briefs envoys of key nations on attempts by JeM to carry out terror attack in J&K

New Delhi: Foreign Secretary Harsh Vardhan Shringla on Monday briefed top envoys of key nations, including the US, Russia, France and Japan on the planned terror attack by Pakistan-based terrorist group JeM in Nagrota in Jammu which was foiled by security forces on November 19, sources said.

The heads of missions were provided with a comprehensive “information docket” giving the details of the incident, and also list of items and munition recovered from terrorists, clearly indicating their Pakistani origins. The envoys were sensitised about India’s concerns regarding Pakistan’s sustained efforts to “destabilise” the situation in Jammu & Kashmir and to “subvert” upcoming local elections and democracy in the union territory, sources said.

“In terms of the bigger picture, it was clear that the terrorists were planning the biggest terror attack in India since Pulwama in February 2019 and the implications can be guessed,” said a source, adding that details of JeM’s involvement in previous such incidents were also shared with the envoys.

Four suspected JeM terrorists, who were hiding in a truck, were killed by security forces near Nagrota in an encounter on Thursday morning after which the government asserted that a major terror attack was foiled by the Indian security forces.

It was the first of several briefings to be conducted by the MEA in small groups in view of the Covid-19 situation, the sources said adding other secretaries will also be holding similar sessions with heads of missions of other countries.

CPWD using PEB technology at Africa Avenue in national Capital to cut pollution, water consumption in construction

PNS ■ NEW DELHI

To reduce pollution caused by construction activities, the Central Public Works Department (CPWD) is using pre-engineered building (PEB) technology to build 44,000 sqm built up area in three blocks of G+8 storey at KG Marg, and 49,000 sqm built up area in four blocks of G+7 storey at Africa Avenue in the national Capital. The technology being used will also help to reduce water consumption during the construction.

PEB is the one which is engineered in a factory and assembled on site.

The Construction Material is Pre-planned using advanced Modelling Techniques of BIM(Building Information System), Fabricated at Shop and Brought to Site in completely knock-down (CKD) condition, assembled and Erected at Site with Nut-bolts reducing Time of construction.

According to the CPWD, the foundation consists of reinforced cement concrete with crystalline admixture and zinc cathodic protection system to reduce porosity of concrete and corrosion of reinforcement bars, thus increasing its durability.

Nivar likely to make landfall along TN coast tomorrow

PNS ■ NEW DELHI

Cyclone Nivar is brewing in the Bay of Bengal and might make landfall along the Tamil Nadu coast between Karaikal and Mahabalipuram on the afternoon of November 25. The India Meteorological Department (IMD) has upgraded the tropical threat to Tamil Nadu, Andhra Pradesh and Puducherry coasts to a severe cyclone and issued an advisory to this effect.

This will be the first cyclone to make landfall on the Indian coast in 2020 and the second to form in the North Indian Ocean region after severe cyclone Gati in the Arabian Sea in 2020. The months from October to December are ‘cyclone season’ and see several originate in the Bay of Bengal.

According to the IMD, Nivar currently lies as a depression some 600 km south south east of Puducherry in the Bay of Bengal. It will intensify into a deep depression by the evening of November 23 and a cyclone by the morning of November 24. The wind speeds at the time of landfall are likely to be in the range of 100-110 kilometres per hour, with gusts of up to 120 km / hr making the storm a severe cyclone. It might bring heavy rainfall to the southern states of Tamil Nadu, Andhra Pradesh, Karnataka and Telangana from November 24-26.

The IMD warned that the severe cyclone may inflict damage to thatched houses/ huts with the possibility of rooftops being blown off and unattached

IMD satellite image captured on Monday shows a depression over the Bay of Bengal

metal sheets flying away. Damage to power and communication lines could be expected. Kutchra roads may suffer major damaged while it would be less severe to pucca roads. Escape routes could get flooded after breaking down of tree branches and large avenue trees getting uprooted. The severe cyclone can also cause major damage to banana and papaya trees, horticulture and crops, orchards and coastal crops.

The sea condition was ‘rough to very rough’ (wave heights of 8-20 ft) over South-

West and adjoining West-Central and South-East Bay along and off Tamil Nadu, Puducherry and south Andhra Pradesh coasts and over the Gulf of Mannar on Monday afternoon.

Fishermen are advised not to venture into South-West and adjoining West-Central and South-East Bay; the Gulf of Mannar, and along and off the Tamil Nadu, Puducherry and south Andhra Pradesh coasts from Monday to Wednesday. Those out into the sea already are advised to return to the coast

Union Cabinet Secy chairs meet

PNS ■ NEW DELHI

Union Cabinet Secretary Rajiv Gauba on Monday chaired a meeting of the National Crisis Management Committee (NCMC) to review the status of impending Cyclone through video conferencing with the Chief Secretaries of Andhra Pradesh, Tamil Nadu and Puducherry.

The Chief Secretaries of Andhra Pradesh, Tamil Nadu and Puducherry briefed the NCMC about their preparedness and mentioned that the authorities are fully prepared to meet any eventuality. They also informed about the coordination with the NDRF and other agencies to meet this challenge.

“Director General, India Meteorological Department made a presentation on the present situation and mentioned that the status is being shared with the concerned State Governments. He men-

tioned that the impending Cyclone is going to affect coastal areas of Andhra Pradesh, Tamil Nadu and Puducherry between 24th to 26th November, 2020.

“The Cabinet Secretary mentioned that we all are aiming at zero loss of life and early restoration of normalcy in the affected areas. He mentioned that the advisories to fishermen not to go into the sea should be strictly implemented. People living in ‘kutchra’ houses may be advised suitably according to the situation, he added,” said Cabinet Secretariat in a statement.

Secretaries from Home, Power, Telecommunication, Civil Aviation, Shipping, Health Ministry, Chairman, Railway Board, Member Secretary, NDMA, DG, NDRF and representative of Ministry of Defence also informed the NCMC about the arrangements and assistance to the concerned States.

and avoid the above sea areas.

Throughout August, the Arabian Sea was warmer than usual by two-three degrees Celsius. While the normal sea surface temperatures here are about 28-29°C, the temperatures this August reached up to 29-31°C. The sea surface tem-

peratures in the Bay of Bengal are also in the range of 29-30°C, according to IMD’s latest cyclone update. A deep depression in October had also carried much more rainfall than normal, causing extremely heavy rainfall in many parts of Telangana and Andhra Pradesh.

Riots case: SC rejects plea of Delhi Police challenging bail granted to man

New Delhi: The Supreme Court dismissed the plea of the Delhi Police challenging the bail granted to a man, who has been accused of selling a SIM card on a fake ID to a Jamia Millia Islamia University student, which was allegedly used for inciting violence during the protests here in February against the Citizenship (Amendment) Act (CAA).

A bench headed by Justice Ashok Bhushan rejected the appeal of the police against the October 23 order of the Delhi High Court granting bail to the accused, observing that the police have not shown that he was party to a conspiracy to organise protests against the CAA.

Alleging that the SIM card obtained on a fake ID was used to coordinate protests against the CAA, the police had invoked the stringent UAPA against the accused.

Palghar lynching case: SC adjourns to next week plea seeking CBI probe

New Delhi: The Supreme Court on Monday adjourned to next week hearing on the pleas seeking a probe by the Central Bureau of Investigation (CBI) or a court-monitored SIT into the Palghar mob lynching incident. A bench headed by Justice Ashok Bhushan adjourned the matter after Solicitor General Tushar Mehta requested for adjournment of the case to the next week.

Maharashtra Government had earlier informed the apex court that all guilty police officials have been punished or suspended from services. “Departmental enquiry was ordered against police personnel, who have been prima-facie found negligent and derelict in the performance of their duties in handling the incident and preventing the commission of a crime at and around the time of the incident,” the Maharashtra Government had submitted in a status report.

SC extends parole of Rajiv Gandhi assassination convict for medical check up

New Delhi: The Supreme Court on Monday extended by a week the parole of AG Perarivalan, serving life sentence in the Rajiv Gandhi assassination case, for undergoing medical check-up.

A bench comprising Justices L. Nageswara Rao, Hemant Gupta and Ajay Rastogi also directed the Tamil Nadu Government to provide police escort to Perarivalan during his visit to the hospital.

The parole, granted to the convict by the Madras High Court, was ending on Monday and now stands extended by one more week. “As prayed for, we further extend the parole of the petitioner by one week from today and direct the respondent — State of Tamil Nadu to provide the necessary police escort to the petitioner to enable him to visit the hospital for treatment. List the matter on January 19, 2021, for final disposal,” the bench said.

# Recoveries outnumber new coronavirus cases in 24 hours in Kerala

**Thiruvananthapuram:** Recoveries outnumbered the new Covid cases in Kerala in the last 24 hours as fewer samples were tested.

In the past 24 hours, with 35,659 samples send for testing only 3,757 new Covid cases were reported taking the total tally to 5,00,089 while 5,425 people recovered from the virus.

According to a statement issued by state Health Minister K. K. Shailaja, the active cases in the state were reported to be 64,166 whereas with 22 more

deaths due to Covid the total death toll reached 2,071.

3,14,543 people are under observation across the state including 16,148 at the hospital. **IANS**

# Shah sharing lunch with tribal photo op: Didi

**SAUGAR SENGUPTA ■ KOLKATA**

Bengal Chief Minister on Monday launched a scathing attack on the BJP Government, particularly Union Home Minister Amit Shah — for playing to the gallery while having lunch with tribal and poor people — inviting instantaneous attack from the State BJP leadership that hit out at her for unleashing a “criminal and cut money raj” in the State.

Launching a no-holds-barred attack on the Home Minister, Mamata said how he had shared lunch with a tribal family in Jangal Mahal only fora photo opportunity. “Recently the

Home Minister came and held a drama taking lunch with a tribal family which was told that he would stop at their house for having lunch --- but fact to be told his five star food was comprised of Basmati rice though for the purpose of publicity they made some women to chop vegetables in front of the camera which he never had.”

Comparing Shah’s visit with her own Banerjee who was on a three-day Bankura visit said, “... in contrast I just made an unscheduled stop at tribal residences discussed their problems with them sitting on charpais. It was not made for the camera.”

## 608 recoveries in J&K in 24hrs against 351 new Covid cases

**Srinagar:** Recoveries continued to outnumber the new Covid cases in J&K on the second consecutive day on Monday as 608 patients were discharged while 351 tested positive in the last 24 hours.

Out of 351 new Covid cases, 185 were reported from Jammu division while 166 from Kashmir, the official bulletin said.

The total tally of UT reached 1,06,899 while the total recoveries were reported to be 99,827.

So far, 1,641 people have succumbed to the deadly virus, including 12 who died on Monday.

The number of active cases is 5,431 out of which 1,882 are from Jammu division and 3,549 are from Kashmir division. **IANS**

# Fine for not wearing masks in Goa increased to ₹200

**Panaji:** Fine for not wearing masks in public places in Goa has been doubled from Rs 100 to Rs 200, Chief Minister Pramod Sawant said on Monday.

Sawant also said urged people not to visit beaches, airports, railway stations and bus stands without masks in order to control the pandemic.

“Till now we have been charging Rs 100 (per offence). From today onwards the fine (for not wearing a mask) has been increased to Rs 200. At least in public, people will have to wear masks or they will be compulsorily fined,” Sawant said.

The CM’s comments come after a busy tourist weekend in Goa, during which thousands of tourists (without masks) were seen on the state’s beaches as well as casinos, throwing social distancing norms to the wind. “No one should be seen without masks on beaches, bus stands, airport. If this happens, only then we will be able to control the pandemic,” Sawant said.**IANS**

# Shut down Goa casinos amid increase in Covid cases: AAP

**Panaji:** Amid reports of more than a dozen persons testing positive for Covid-19 in Goa’s offshore casinos, the Aam Aadmi Party on Monday demanded the closure of the industry, fearing an increase in novel coronavirus in the state.

Addressing a press conference in Panaji on Monday, Goa Aam Aadmi Party spokesperson Surel Tilve said, if the rush to the state’s casinos is not controlled, the state may witness a second wave of infections.

“It is already difficult to control the flow of tourists to Goa’s casinos. It is getting out of control. Covid-19 cases in casinos have also increased. The government is just trying to appease

the lobby by allowing this trend to continue,” Tilve told a press conference in Panaji.

“We fear that if the chaos continues, Goa may witness a second Covid-19 wave sooner than later,” Tilve said. Goa has a confirmed tally of 46,826 positive cases, while 677 persons have died in the state after testing positive for Covid-19.

Goa’s state capital Panaji, off which most of the offshore casinos are anchored in the Mandovi river, witnessed chaos over the weekend with thousands of tourists making a bee-line for casinos without maintaining social distancing norms and wearing masks.

The melee even forced

Panaji MLA Atanasio Monserrate to step out onto the streets with local municipality officials in tow, in a bid to manage the traffic chaos as well as fine casino visitors for not wearing masks.

When asked about the increase in Covid-19 cases detected in Goa’s casinos, the BJP MLA said: “You can ask the Chief Minister that because he has permitted the casinos to open.”

Casino operations, which were shut down in Goa in March due to the pandemic, restarted operations from November 1 this year. There are six offshore and around 10 onshore casinos operating in the state. **IANS**

# Goa BJP steers clear of cow slaughter ban row in K’taka

**Panaji:** State BJP president Sadanand Shet Tanavade steered clear of queries related to an impending ban on cow slaughter in Karnataka and its impact on beef availability in Goa, which imports nearly all its slaughtered beef from the Southern state. “What they are doing in the Karnataka assembly, it is their decision. It will be not right for us to comment on it” Tanavade told reporters.

The state Bharatiya Janata Party president’s comments come days after BJP national secretary and BJP MLA from Karnataka’s Chikkamagaluru legislative assembly constituency, CT Ravi, who also holds brief as the party’s desk in-charge for Goa, said that the

Karnataka assembly would be passing a strict law banning slaughter of cows in Karnataka.

Tanavade also said that just because the Goa desk in-charge has advocated the ban in Karnataka, it does not mean that the same norm would be applied in Goa, where beef is routinely consumed by more than 30 per cent of the state’s minority population and by thousands of tourists, who visit the state every year.

“See he (Ravi) is an MLA, so what he needs to do (in Karnataka) is a different matter. Just because they do it there, that means it will happen here. It is not the case. It is a different issue there,” Tanavade said. **IANS**

## BJP flag removal from MLA's car: AMU to challenge court order in SC

**PNS ■ ALIGARH**

In the matter of removing the BJP flag from the Scorpio vehicle of MJP MLA Dalvir Singh’s grandson, the Aligarh Muslim University administration will challenge the matter in Supreme Court against the decision of the lower court of High Court.

Professor Shafe Qidwai of the Public Relations Department of the University told that on 22 October 2019, Prof. Bibi Singh, the member of the university’s proctor team, did his duty by taking off the flag of a political party mounted on a vehicle inside a university campus as per university rules.

## Hathras rape accused sent to Guj for narco, polygraph, brain mapping test

**PRADEEP SAXENA ■ HATHRAS**

Narco, polygraphy and brain mapping tests will be conducted on the four accused in the hathras rape case. After taking its permission from the Hathras court, the CBI took the four accused from Aligarh jail to Gujarat under the Police Guard protection and will remain in the Gandhi Nagar Jail of Gujarat.

The four accused in the rape and murder of the girl in Chandpa, Hathras were in the Aligarh district jail. The CBI interrogated the accused for several days.

According to the sources, the four had given consent to the narco, polygraphy and brain mapping test. After getting their consent, the CBI sought permission to conduct these tests in the ADJ-SCST Act from the court of Hathras and requested

that these tests will be conducted in a laboratory in Gandhinagar, Gujarat.

On this request of the CBI, the court gave permission and mentioned in the order that the four will be kept in Gandhi Nagar jail till the completion of the test process as per the requirement.

After getting this order, CBI sought security from Hathras SP to transport the four from Aligarh Jail to Gandhi Nagar Gujarat. In this sequence, SP

Hathras took the security guard from jail and sent them to Gujarat while arranging for the security guard and vehicle from the police line.

These four have now reached Gujarat.

Now the process of testing will be completed in a couple of days. Only then they will be brought back.

# Victim’s family living in fear of lives

**PNS ■ HATHRAS**

The members of the Hathras rape victim’s family are living in conditions similar to house arrest and they are living in the fear that once the CRPF cover given to them is withdrawn, their life might be in danger, claims a civil right body.

The People’s Union for Civil Liberties (PUCL) demanded security for the family through the Nirbhaya fund.

PUCL members Kamal Singh, Alok, Shashikant, Farman Naqvi and K B Maurya told that the whole family is in a way under house arrest conditions and their normal social life has been cut off.

The victim’s family members are in the fear for their lives that once the CRPF protection is withdrawn, their lives might be in danger. The upper caste people will not allow them to live in the village or they may threaten their lives.

PUCL members also said that case should be filed against the officials who cremated the victim’s body in a hurry. They said that action should be taken against district magistrate Praveen Kumar, SP Vikram Veer and the area SHO.

The victim’s body was cremated in the middle of the night hurriedly. Her family members claimed that the cremation, was without their consent and they were not allowed to bring the body home one last time.

# BSF guns down intruder along IB in Samba

**PNS ■ JAMMU**

Alert jawans of the Border Security Force (BSF) gunned an intruder along the International border in the Samba sector late Monday evening while foiling an infiltration bid from across the border.

On Sunday, a cross border tunnel was detected by a joint team of BSF and Jammu and Kashmir police near the Regal border post in the Samba sector.

In another related development, the DGP J&K police Dilbagh Singh Monday presented rewards to the personnel who were part of the Ban Toll Plaza encounter.

On the occasion, DGP also announced that shields already issued in Kashmir valley would also be provided to the personnel in Jammu zone. He said that protection jackets and helmets with higher level

of protection would also be made available to increase the safety and capability of J&K personnel fighting against terrorism. He said that BP vehicles with additional features would also be provided to increase the efficiency of personnel on the anti-terror front. He also sought reports from the field officers and personnel with regards to the safety gears and other requirements and assured that highlighted requirements would be redressed on priority.

Meanwhile, a senior security expert in Jammu Brigadier (Retd) Anil Gupta Monday expressed grave concern on the repeated failure of the BSF and J&K Police to prevent infiltration through the International Border (IB).

In a written statement, Brig Gupta stated that this is the 4th or 5th time when a tunnel has been detected after the infiltration has taken place.

**Public Notice**  
Be it known to all that my clients Sh. Rajeev Kumar Gurjar S/o Late Sh. Chup Singh and Smt. Munesh Kumari W/o Rajeev Kumar Gurjar owner and R/o HNo.1821, Hind Floor, Sher Singh Bazar, Kotla Mubarkpur, New Delhi-110003, has disowned their son Vishal Bainsla and his Wife/Daughter-in-law Smt. ## Good enough?

The AstraZeneca vaccine has been clinically tested to have an average efficacy of 70 per cent. We still need containment drills

With India clearly in the midst of a third wave — some might even call it a tsunami of new Coronavirus cases — we should not be surprised. Even a cursory glance of what happened during the 1918-1919 Spanish influenza pandemic should have warned us to be prepared for winter, because even a century ago, there was a massive increase in cases in winter when the cold compromises lungs thanks to congestion and any influenza virus can be devastating. With the Delhi and Gujarat governments in a state of panic, it is almost certain that cases will begin to increase across the country whether the authorities admit to them or not. But there is some positive news with British pharmaceutical firm AstraZeneca, which has jointly developed a vaccine with University of Oxford to combat the Coronavirus, coming out with its trial results. That is because the Serum Institute of India (SII) has been a partner to this research as well and has promised that it will produce hundreds of millions of doses of this vaccine for Indians. Yet, the results have only indicated an average of 70 per cent efficacy with two full doses taken a month apart and up to 90 per cent when an initial half dose is combined with a full dose taken after one month. Promisingly, the vaccine doesn't need super-cold storage like the ones developed by Pfizer and Moderna, requiring only refrigeration. It also appears that as many as five other promising vaccine candidates might make it to the markets by early 2021.

However, as we have maintained, the development of a vaccine is not equal to its deployment. Also, if as the trials have indicated, with at least one-and-a-half doses required for maximum efficacy, India will need a whopping two billion doses. Even if costs are kept in check, this is looking at a time frame that might take well over three-four years to inoculate a substantial number of Indians in order to gain a decent amount of protection. At the same time, because efficacy is not the same as effectiveness, even with 90 per cent efficacy, the Coronavirus will continue to pop up, tens of thousands will continue to get infected and many more will die before the Wuhan pandemic truly settles down. Till then, preparedness and preventable behaviour are the only containment devices against an unexpected surge and given India's population density, we better reconcile ourselves to the fact that our crests will be a constant for some time. Maharashtra, which has been the worst-affected State in the country, fighting the longest battle and is now threatened with a new front, has finally released its new screening SOPs that make a RT-PCR test report mandatory for visitors who are travelling to the State from hotspots. All entry points to the State will have testing and screening centres for those not carrying such a report. This is the first time that international travel protocols are being followed domestically and perhaps would be adopted by other States, too, to keep the numbers down. It is a shame indeed that the Supreme Court has had to pull up State Governments on laxity and seek a status report on preparedness. The court also had to get into the nitty gritty of ensuring dignified treatment of the dead and vetting hospital conditions to treat the sick. A fatigue has undoubtedly set in, socially, psychologically and physically. Doctors are the worst affected, some of whom need to be relieved with younger colleagues now being drafted in to ease frontline pressure. Anticipation is the best defence now. The pandemic has forced Governments to invest in public health like never before but now investments in vaccine manufacturing and deployment will be the challenge. These are positive developments but let us not pretend that the news of a vaccine is a silver bullet that will magically cure the world.

## Putin's *nyet* to Biden

Russia yet to acknowledge US President-elect given his past stance on sanctions. Can arms control break the ice?

When all world leaders are already confabulating with President-elect Joe Biden, Russian President Vladimir Putin is not ready to acknowledge the US' chosen leader just yet. In fact, given his history with US President Donald Trump, his latest diplomatic stance portends what the latter might be up to. One that's serious enough for Putin to acknowledge. Although the electoral certification process technically is still on, Biden has emerged the clear winner from the State-by-State vote tallies. And the Electoral College is expected to formally confirm the results on December 14. Trump may exhaust all legal options and challenge

counts but the margins are by now too large to change the outcome in his favour. But he sure is making the transition difficult, determined to make Biden's job difficult and most importantly, fairly decided about weighing his rival down with his flamboyance and show him as a weak leader, who doesn't deserve to be in a chair that demands his kind of robustness. Putin's words on State TV would seem like they were scripted by Trump himself as he said he would work with "anyone who has the confidence of the American people. But that confidence can only be given to a candidate whose victory has been recognised by the opposing party, or after the results are confirmed in a legitimate, legal way." The contrast is sharper as in 2016, Putin had wasted no time in congratulating Trump for winning the election. Of course, Clinton had conceded the day after the vote and the Russian involvement in influencing the election in Trump's favour is not quite a secret. So beyond the personal equation, Putin's continued deference to Trump as a world leader seemed less than diplomatic, considering the impact it could have on US-Russia relations and global geopolitics. Putin, of course, claimed that his latest stance wouldn't impact mutual relations much as they were "already ruined." The Trump Administration has already withdrawn from the Open Skies Treaty and the Intermediate-range Nuclear Forces (INF) Treaty. Thanks to the US, Russia is already under international sanctions for actions, including its annexation of Crimea from Ukraine in 2014 (one where Biden had a key role to play), interference in the US election in 2016 and reported involvement in a nerve agent attack in the UK in 2018. So unless Putin is humouring Trump in the run-up to 2024, which the latter is seemingly keen to contest, and investing for the future, little else makes sense. Besides, Trump's "America first" policy and withdrawal from global arenas of conflict had helped Russia somewhat regain its heft and self-worth in Europe in the power vacuum thus caused, all the way up to Turkey. With Biden's renewed commitment to world bodies, particularly NATO, Russia's clout could be considerably diminished. In fact, it could be blindsided again.

The Kremlin has historically not been comfortable with the Democrats and finds Biden an impediment, given his tough stance on Putin. As Vice-President, Biden had stridently pushed for sanctions against Russia in response to the 2014 Ukrainian crisis. With no signs of conflict resolution on that count, Putin now expects tougher counter-measures against him. Besides, given Biden's stance that morality must play a role in US foreign policy, Russia fears sharper US condemnation of its rights issues and what the US considers "subversive" activities in the neighbourhood. This brand of US exceptionalism is antithetical to Russia's newly extended sphere of influence. All through his campaign, Biden did mention Russia's meddling in US elections as also its alleged endorsement of Taliban attacks on US troops in Afghanistan. So rightfully, Putin does expect a hitback and is probably raising his stakes to deflect the US. Of course, Biden and his team are pragmatic and a balanced lot and would not want to precipitate a crisis, working on areas of mutual interest. The renewal of arms control could be a starting point. Biden has already said that he wants extension of existing or new treaties on reducing US-Russian nuclear arms. That works with the Russians, too.

# opinion

## Educating a global citizen

Character-building just cannot be envisioned in isolation unless linked to culture. The NEP respects Gandhi's vision of young Indians

J.S. RAJPUT

Policies are formulated on the strong foundation of the outcomes of incisive analysis of past experiences coupled with futuristic vision that could respond to emerging issues, concerns and aspirations. Gandhiji consistently articulated the India of his dreams and his concerns about the impediments ahead. These are evident in the seven social sins he published in the *Young India* of October 22, 1925. These are: politics without principles, wealth without work, pleasure without conscience, knowledge without character, commerce without morality, science without humanity and worship without sacrifice.

No policy, the one on education included, can ignore the contemporary severity of these sins. It could also be witnessed in the seven tensions identified in the report to UNESCO of the International Commission on Education for the 21st century— also known as the Delors Commission Report. These are the tensions between global and local, universal and individual, tradition and modernity, long-term and short term considerations, the need for competition and concern for opportunity, extraordinary expansion of knowledge and the human beings' capacity to assimilate, and finally, the conflict between the spiritual and the material. One could, in the present context, reformulate them but it would be perilous to neglect any of these. The "sins" are taking stronger roots while the "tensions" are disturbing human habitation and systems that are already under severe strains and pressures as consequences of declining moral, ethical and humanistic considerations.

An incisive scrutiny of the National Education Policy (NEP 2020) would indicate the extent to which both the sins and tensions need to be responded to, as is essential to prepare human beings imbued with character, commitment and concern. It acknowledges the guiding light it derived from the "rich heritage of ancient and eternal Indian knowledge and thought." The pursuit of knowledge, wisdom and truth is considered the highest goal of human life. The NEP mentions, "The aim of education in ancient India was not just the acquisition of knowledge as preparation for life in this world, or life beyond schooling, but for the complete realisation and liberation of the Soul. World class

institutions in India, such as Takshashila, Nalanda, Vikramshila and Vallabhi, set the highest standards of multi-disciplinary teaching and research and hosted scholars and students from across backgrounds and countries." The ancient Indian system of education valued the pursuit of knowledge with the sole objective of utilising it for the welfare of humanity: "Let all be happy, let all be healthy; let all be good around and let none suffer pain of any kind." Could there be a better comprehension of the essential unity of human beings as one family? And in a family, differences and diversities are accepted and respected. This is what the NEP has imbibed in word and spirit. It recalls how the products of ancient Indian education system strived tirelessly to make seminal contributions in diverse fields of knowledge, including mathematics, astronomy, metallurgy, surgery, health, architecture, engineering, ship building, navigation, yoga, fine arts and so much more. Every Indian student – inheritor of this great legacy – must be made familiar with it and accept the responsibility to enhance it further through excellence in his chosen area of activity and expertise. Each one of them is an inheritor of the legacy of luminaries like Charak, Susruta, Aryabhata, Bhaskaracharya, Brahmagupta, Nagarjuna, Gautama, Maitreya, Gargi and Thiruvalluvur.

Once the NEP 2020 is implemented appropriately, no Indian shall remain "delinked from India." Every learner would be exposed to modern knowledge that would be given to him/her in institutions following the most modern pedagogy, and with due emphasis on critical thinking, creativity and innovations. It would aim at developing a student's full human potential. Higher education, the NEP-2020 acknowledges, must aim to develop good, thoughtful, well rounded and creative individuals. Obviously, the school education would take note of these aspects in the most sensitive years. Recommendations on multi-disciplinary universities, robust autonomy, revamping of curriculum and pedagogy, reforms in governance of higher education Institutions (HEIs), creation of National Research Foundation (NRF) and National Educational Technology Forum (NETF) would be positive additions to the quality and contemporary relevance of the future model of Indian education.

India could finally turn into an international education hub and certainly attract attention of the corresponding international institutions. The proposed changes in structure, flexibility, autonomy, pedagogy, multidimensionality, assessment procedures, including transfer of credit systems, would remove several agonising technicalities. The availability of internationally relevant curricula in the history, heritage and culture of India, as also modern subject areas, could attract a sizeable number of foreign students, helping us achieve the goal of "internationalisation at home." Some well-thought out suggestions like opening of foreign campuses by established Indian institutions and permitting top international universities to operate in India would effectively put Indian education firmly on the international podium, with dignity, credibility and expectations. Shared courses with reputed international institutions could pave the way for a much-needed morale boosting and encourage our young to compete with and excel among

foreign students. One has to be cautious about certain aspects though. Global credibility and recognition would require certain minimum levels of infrastructure and facilities which, sadly enough, are still missing in a large number of education institutions across the board. The NEP 2020 assures availability of all of these: "Every classroom shall have access to the latest educational technology that enables better learning experiences." There can be no compromise on the professionally acceptable teacher-taught ratio. This raises several related requirements. Quality just cannot be raised by engaging guest teachers, teachers on lecture-based payments, para teachers and keeping more than a million posts of school teachers vacant for decades together! In HEIs, the quality of products, research and innovations would be greatly impeded if there are 40-60 per cent vacant academic positions. The NEP 2020 boldly acknowledges this concern and articulates: "The teacher must be at the centre of the fundamental reforms in the education system. The new education policy must help re-establish teachers, at all levels, as the most respected and essential members of our society, because they truly shape our next generation of citizens. It must do everything to empower teachers and help them do their job as effectively as possible." Expressing serious concern on the quality of teacher education, the recommendation is to replace by 2030 all of the present one-year school teacher preparation programmes by four-year integrated teacher education programmes. It may be worthwhile to recall that the four-year integrated teacher preparation programmes began in the four institutions of the NCERT in 1964-64, and the products

were indeed far ahead of others in their professional performance in schools and teacher education institutions. Unfortunately, the module was not replicated.

In higher education, the policy acknowledges the "criticality, quality and engagement" of the faculty. It also accepts that "faculty motivation" remains far lower than the desired level. Several steps have been listed to attract "the best, motivated, and capable faculty in the HEIs." The right-teacher-student ratio, access to education technology, freedom to design their own curricular and pedagogical approaches, incentives like appropriate rewards, promotions, recognition and movement into institutional leadership are included in the list.

In his book of 1932, *Remakers of Mankind*, Carl Washburne writes that when asked, "What is your goal in education when India obtains self-rule?" Gandhi answered, "Character-building. I would try to develop courage, strength, virtue, the ability to forget oneself in working towards great aims. This is more important than literacy; academic learning is only a means to this great end." Character formation was the strength of the traditional Indian system of knowledge quest that included creation, generation, utilisation and transfer of knowledge to generations ahead. With all the experiences gained globally in varying contexts and approaches, it is now accepted globally that education in every country must be rooted to culture and committed to progress. Character-building just cannot be envisioned in isolation unless linked to culture. No culture would flourish in isolation and our youth can become global citizens only when they are made well aware and conversant with their own culture before being introduced to others. India painfully suffered as the transplanted system deliberately kept young "educated" Indians away from getting familiar with the nuances of their own culture; they were systematically indoctrinated in the "superiority of the Western culture." This was very comprehensively articulated by Gandhiji in the *Young India* of September 1, 1921, "It is my firm opinion that no culture has a treasure so rich as ours. We have not known it, we have been made even to depreciate its value. We have almost ceased to live it." Let us hope that the proposed educational reforms would prepare young people with credentials, and they would be looking after the masses. Education must lead to human dignity for one and all.

## LETTERS TO THE EDITOR

### Will Cong ever act?

Sir — The Congress Party has suffered a debacle in the just-concluded Bihar elections due to its political blunders and poor organisation. It has also suffered defeat in the byelections in different States.

Because of the worrisome state the party is in all over the country, senior leaders like Kapil Sibal and P Chidambaram have lashed out against the present leadership of the Congress. They have echoed the words of those members of the grand old party who wrote a dissent letter in August. The Congress Party has become weak because of the trust deficit, loss of public appeal, identity politics and political polarisation. There is a crisis of leadership due to the lack of vision and idealism. Brainstorming by senior leaders and dissenters in a democratic spirit of accommodation will help overhaul the party. A graceful and dignified change of leadership can also help open a new and meaningful chapter in its history.

This, in turn, will help build a strong Opposition, which is essential for the growth of a healthy and vital democracy in

### No room for divisive politics in TN

The announcement about the continuity of the AIADMK-BJP alliance in Tamil Nadu has finally laid all speculation to rest. The reception given to Union Home Minister Amit Shah by the party's top leadership has confirmed that the AIADMK Government is tied to the NDA Government's apron strings. This is partly attributed to the fear of Central agencies being unleashed upon its leaders. Interestingly, the number of AIADMK cadres out to greet Shah was more than the BJP's men. Significantly, the "Go back Amit Shah" hashtag that was trending showed the strong anti-BJP sentiment that is prevailing in the State as it is inhospitable terrain for divisive politics, especially on religious grounds.

With the sealing of the AIADMK-BJP pact for the Assembly election, the prospect of any significant political realignment or formation of a third front, making it a triangular contest has now receded. At the same time, the moves by late Jayalalitha's companion, Sasikala, who will be out of jail by January 27, superstar Rajinikanth and MK Alagiri will be watched with interest.

In the present political situation, the ideological incompatibility between a Dravidian party and a Hindutva-oriented party could get starker. This would be to the disadvantage of both the parties as the election nears. Obviously the State unit of the BJP has made the restrictions on idol immersion during the Vinayaka

Chaturthi an issue. It has invoked the traditional Tamil deity Lord Murugan and undertaken the Vetrivel Yatra (why bring Muruga Peruman from the shrine to the street?) despite the denial of permission because of the COVID-19 pandemic. As an ally, the AIADMK supported the BJP on the passage of the Citizenship Amendment Act and the three farm Acts. True, the BJP holds sway over much of the country but it has only a negligible presence in Tamil Nadu. In its eagerness to gain a toehold and build a base in the State by piggybacking on the AIADMK, the BJP could bargain for seats disproportionate to its strength. Overall, the DMK looks the firm favourite to occupy Fort St George.

### Help others in need

Sir — We are being buffeted by yet another wave of the pandemic. As feared by health experts, the cold, the pollution

and the cavalier attitude of the milling masses roaming around in overcrowded markets without masks during the festive season have led to this surge. Many States are again thinking of going into a lock-

down. This will be nothing short of a disaster for our country as the economy, which has been ailing for quite some time now, cannot take yet another hit.

Amid all this, we cannot ignore the plight of the poor who have been forced out of even daily wage and minimum wage jobs. Also, street vendors have been struggling. With the unlocking of the country, their lives were just about getting back on track again as people had begun spending.

Now, if there is another lockdown, the wheels of the economy will stop moving again and the poor will be left to starve and fend for themselves in a nation that does not have unemployment benefits or social security. Till we get a Universal Basic Income in India, we as citizens of the country, should find it in our hearts to help the underprivileged. We need to stop being so self-centred and reach out and help those in distress.

# Shape the future at cyber speed

Being prepared to weather any storm is possible with the right digital strategy and continuous, concerted effort

ALOK OHRIE

The need for businesses to digitally transform themselves is something that has been discussed for years. However, as we saw in the 2018 Digital Transformation Index that serves as a benchmark for computerisation technology adoption among organisations, many enterprises’ digital transformation programmes did not keep up with the advancements in computing power and the influx of emerging technologies. Coupled with the imperative to adapt to today’s unprecedented business disruption, the need to digitally transform has never been more urgent and challenging.

It is encouraging to see that many enterprises are rising to the occasion. In the 2020 Digital Transformation Index, it was found that 95 per cent of respondents in India have successfully accelerated at least some of their transformation programmes this year. This shows immense progress in computerisation. However, there is still a lot of work to be done. As it is, continuous digital transformation is not easy, with 97 per cent of Indian businesses facing entrenched barriers to cyber networked business processes as they navigate their future.

By committing to continual transformation — even amid uncertainty such as the kind the world is facing right now — businesses can help to shape their ideal future. The response to the COVID-19 pandemic has illustrated that organisations can be nimble and transform quickly. A third have already extended their business domain; however, what companies do next will be telling. Ongoing transformation is vital, and there is plenty of room for advancement.

As of now, just 12 per cent of Indian firms surveyed are defined as “Digital Leaders”, meaning these are companies with digital transformation ingrained in the DNA of their business, end-to-end. And even though they are leaders in cyber networked business processes, they recognise that change requires continuous effort — with more “Digital Leaders” accelerating their transformation programmes this year compared to “Digital Laggards”, meaning those that don’t even have a computerisation plan or their investments in such technology are few and far between. Here is some inspiration from more mature digital businesses as they consider how to implement an ongoing advancement plan for their firm:

**Data privacy and cybersecurity:** These are constant and evolving concerns that should not be overlooked. Mature digital businesses recognise more often than others that data privacy and cybersecurity warrant proper consideration. In fact, 47 per cent Indian businesses are of the opinion that data privacy and cybersecurity are the major barriers in their digital transformation journey.

**Budget and resources:** Financial constraints — both budget pressures and lack of economic growth — have not slowed down transformation for the more mature digital businesses. They position Information Technology investments as strategic drivers for innovation instead of thinking of them as a cost. However, a whopping 32 per cent Indian respondents said that lack of budget and resources is a barrier to digital progress in their organisation.

**Data is the lifeblood of a company:** As we move towards a Zettabyte era, the ability to extract insights from data will become a major stumbling block if it is left unresolved. There is hope that the recent disruption will ignite a new wave of data-first, data-anywhere businesses. We found that 94 per cent of Indian organisations agree that extracting valuable insights from data will be more important for their business than ever before as one of the great benefits of this is the ability to track metrics and analyse them. Using these insights allows firms to optimise their strategies and processes for better results. In businesses, two things matter more than most — costs and revenue. It’s possible to make massive changes to both by integrating data-based insights into the company culture. However, working towards this change sooner rather than later is imperative.

Overall, businesses should be applauded for adapting so quickly to the extreme and sudden onset of disruption from recent events. Some companies were poised to respond better than others, based on where they were on their digital journey. However, being prepared to weather any storm is possible with the right digital strategy and continuous, concerted effort.

In this hyper-connected data decade, every business needs to be a cyber business to survive and thrive. With digital disruptors snapping at the heels of many sectors, success will come to the organisations that ensure their workforce is skilled in the best practices of the digital age. Moreover, this change must be woven into the DNA of the firm and championed by its leadership to have a maximum impact. With a strong ally by your side, businesses of varying sizes, industries and digital maturities can find ways to adapt to new routines and push the frontiers of what’s possible.

WITH THE AMENDMENT TO THE POLICE ACT, THE KERALA GOVERNMENT IS TRYING TO SILENCE THE VOICE OF THOSE WHO CRITICISE IT.

—LEADER OF OPPOSITION IN THE ASSEMBLY  
RAMESH CHENNITHALA

POINTCOUNTERPOINT

MANY HAVE VOICED CONCERN OVER THE ACT’S AMENDMENT. UNDER THESE CIRCUMSTANCES, THE GOVERNMENT DOES NOT WANT TO IMPLEMENT IT.

—KERALA CHIEF MINISTER  
PINARAYI VIJAYAN

# Fertiliser DBT an illusion

Despite tall claims made by the UPA and the NDA dispensations since 2012, a gradual transition to direct cash or benefit transfer of subsidy to the farmers has not been done

UTTAM GUPTA

The additional provision of ₹65,000 crore towards fertiliser subsidy (over and above the ₹71,000 crore allocated in the Budget for 2020-21), that was announced by the Finance Minister under “Stimulus- III” on November 12, will help in clearing all pending dues to the industry. This has led the latter to believe that this is a precursor to a gradual transition to direct cash or benefit transfer (DBT) of subsidy to the farmers. This is illusory, as despite tall claims made by the UPA and the NDA dispensations since 2012, this has not been done. The dominant stumbling blocks are a threat to the viability of high cost units in the public sector, including revival projects viz Sindri, Gorakhpur, Barauni and so on. Plus there is the risk of inviting the farmers’ wrath if subsidy does not reach them in time. Bureaucratic red tape is a third major factor. Till these are addressed, DBT to farmers won’t see the light of the day.

In the Budget for 2012-13, the then UPA Government had announced tracking the movement of fertilisers from retailers to farmers, and linking part of the subsidy payment to manufacturers for sale to farmers by retailers. In the mid-year economic analysis of 2012-13, the Finance Ministry came out with a blueprint on modalities for implementing the Budget announcement. Pilot projects in 10 districts spread over nine States were to be launched, which were to be followed by DBT in these districts from April 1, 2013. Concurrently, the Government planned to track fertilisers movement in the whole country. A pan-India launch was contemplated from April 2014.

Even as the Department of Fertilisers developed the technology platform called e-Fertiliser Monitoring System (e-FMS) to execute the blueprint, the DBT remained on paper. Meanwhile, the NDA Government under Narendra Modi recognised that there was rampant misuse of subsidy. According to the *Economic Survey 2015-16*, as much as 24 per cent of the subsidy was spent on inefficient producers, 41 per cent was diverted to non-agricultural uses, including smuggling to neighbouring countries, and 24 per cent was consumed by larger, presumably richer farmers. That left a tiny 11 per cent for small and marginal farmers, who alone, according to Modi, should have been the sole beneficiaries of the subsidy. The survey advocated DBT using the Jan Dhan-Aadhaar-Mobile (JAM) platform. In the Budget for 2016-17, the then Finance Minister, Arun Jaitley, made an announcement to this effect followed by the launch of pilot projects for linking subsidy payments to producers with the sale of fertilisers to farmers by retailers in 18 districts spread over 12 States. In March 2018, the scheme was launched across the country.

Under it, the Government has made disbursement of 100 per cent of the subsidy to producers conditional upon actual sales to farmers and these getting registered on point-of-sale (PoS) machines at the dealer’s shop (prior to this, they were getting 95 per cent of subsidy on receipt of material at a district’s railhead point or approved godown and the balance five per cent on confirmation of sales to farmers by States). But this is not DBT as subsidy continues to be routed through manufacturers. Now, just because the Government has cleared all subsidy dues to manufacturers, it gives no clue that this will happen soon. In fact, there are major roadblocks on the way — some explicit and others not so. To understand these, let us look at how the extant sys-

“THE SUBSIDY MAY BE COMPUTED ON A PER HECTARE BASIS AND GIVEN ANNUALLY AS MOOTED BY THE COMMISSION FOR AGRICULTURE COSTS AND PRICES. IN ITS RABI REPORT FOR THE 2021-22 MARKETING YEAR, IT HAS PROPOSED A SUBSIDY OF ₹5,000 PER YEAR TO BE GIVEN IN TWO TRANCHES OF ₹2,500 EACH IN THE KHARIF AND RABI SEASONS. THIS SHOULD BE GIVEN ONLY TO THE SMALL AND MARGINAL FARMERS OR THOSE WITH LAND HOLDINGS OF LESS THAN TWO HECTARES

”

tem works. The Centre controls the Maximum Retail Price (MRP) of urea at a low level, unrelated to the cost of production and distribution, which is higher. It reimburses the manufacturers for the shortfall as subsidy on a “unit-specific” basis under the New Pricing Scheme (NPS). The current MRP of urea is ridiculously low at ₹5,360 per tonne even as the cost can vary from about ₹15,000 per tonne to ₹25,000 per tonne. Even as all units (31) sell urea at the same price, each one of them gets paid on the basis of its own production cost. Thus, an efficient unit producing at, say ₹15,000 per tonne, gets a subsidy of ₹9,640 per tonne whereas another producing at ₹25,000 per tonne, gets a subsidy of ₹19,640 per tonne.

In the case of P and K fertilisers, the Government gives “uniform” subsidy on per nutrient basis to all manufacturers under the Nutrient-Based Subsidy (NBS) Scheme. For arriving at the MRP, they are expected to deduct the subsidy amount from the cost. For instance, if a unit produces DAP (dia-ammonium phosphate) at a cost of say ₹34,000 per tonne and subsidy is ₹10,000 per tonne, then it will have to fix the MRP at ₹24,000 per tonne.

Now, if instead of routing through the manufacturers, the subsidy is to be given directly to farmers, the transition in case of P and K fertilisers may not face much of a hurdle. The subsidy of ₹10,000 per tonne or ₹500 per bag (50 kg) of DAP can be credited to a farmers’ account even as the manufacturer will sell at the market-based price, say ₹34,000 per tonne or ₹1,700 per bag, this being the cost of the most efficient producer (this could also be an average of all units depending on how market dynamics evolve). However, the farmer will have to spend ₹500 per bag

extra at the time of purchase, though he will get back this amount from the Government as subsidy later.

In the urea segment, however, the transition will be tough for manufacturers as well as farmers. For producers, since each one of them will have to sell at the market-based price, all those whose production cost is higher than that of the most efficient producer or the industry average, will either have to perform or wind up. As for the farmer, he will have to spend, at the time of purchase, at least thrice (based on the market price of ₹15,000 per tonne or ₹750 per bag) of what he is spending now.

The Government has fears on both counts. On the production front, there are several public sector plants, which fall in the high cost zone and hence risk being chopped under the DBT. Even the revival projects, like Sindri, Gorakhpur and Barauni, on completion (2021) will have a production cost of over ₹30,000 per tonne. Hence it won’t be viable under the new regime. As for farmers, it risks inviting their wrath if subsidy money does not reach them in time, which is inevitable if the budgetary allocation is inadequate.

There are other roadblocks which are not so explicit. Under the present system of urea being available at a throwaway price of ₹5,360 per tonne, a mere one-fourth of the cost, dubious operators make a quick buck by diverting it to chemical industries or smuggling it to neighbouring countries. This won’t be possible without the tacit consent of those in the hot seat. Further, urea imports are canalised through State agencies like the Minerals and Metals Trading Corporation (MMTC), State Trading Corporation (STC) and there is a lot to gain for deci-

sion-makers. Clearly, there are vested interests in continuing with the *status quo*.

Unless the above roadblocks are cleared, the transition to DBT will be next to impossible. But this is doable provided Modi sheds his plan of linking development of eastern India with the revival of Sindri, Gorakhpur, Barauni (alternatively, their production cost needs to be cut drastically); pledges to fully fund subsidy requirement (if it can be done for 2020-21, why not every year then); ruthlessly applies his dictum of “*naa khaaonga, naa khane doonga*” (neither will I take bribe nor will I let anyone else take it); and does away with bureaucratic red tape by removing all controls, including on urea import. The subsidy may be computed on a per hectare basis and given annually as mooted by the Commission for Agriculture Costs and Prices (CACP). In its Rabi report for the 2021-22 marketing year, it has proposed a subsidy of ₹5,000 per year to be given in two tranches of ₹2,500 each in the Kharif and Rabi seasons. This should be given only to the small and marginal farmers, i.e. those with land holdings of less than two hectares. Further, a cultivator must not be denied subsidy merely because s/he does not own the land tilled by her/him.

The Government should garner data on all 140 million farm households and put it on a web portal. This is an absolute must to ensure that no one is left out. At present, there is a void as even under PM Kisan, just about 80 million farmers are receiving the eligible amount of ₹6,000. Under a business as usual scenario, leaving out 60 million from subsidy payments could be catastrophic.

# BJP yet to consolidate Hindu votes down South

Success has been eluding the saffron party so far as its penetration has been restricted to Karnataka. It has failed in TN, Puducherry and Kerala

KALYANI SHANKAR

After the big win in the Bihar Assembly elections this month, the BJP is now focussing on the South, where Tamil Nadu, Kerala and Puducherry are going to the polls early next year. Elections are scheduled for West Bengal and Assam, too. Will the BJP achieve its goal of gaining a foothold in the South? Success has been eluding the saffron party so far, as its penetration has been restricted to Karnataka. It has failed in Tamil Nadu, Puducherry and Kerala because of historic, religious, social and ideological reasons.

In Tamil Nadu, the BJP firmed up its poll alliance with the ruling AIADMK during the weekend. Eyebrows were raised at this early pact when the State’s Deputy Chief

Minister and party coordinator O Panneerselvam announced it at a function attended by Union Home Minister Amit Shah. Though the late AIADMK chief J Jayalalithaa had a good equation with Prime Minister Narendra Modi, she did not go for a tie-up with the BJP in the 2016 polls. After her demise, in 2019, the UPA made it in 37 of the 40 seats won. The BJP went with the AIADMK.

The BJP now wants to make a mark in the South, riding piggyback on the AIADMK. The Congress is in alliance with the Dravida Munnetra Kazhagam (DMK) while smaller parties like actor Vijayakanth’s Desiya Murpokku Dravida Kazhagam (DMDK), S Ramadoss’ Paattali Makkal Katchi (PMK), Thirumavalavan’s Viduthalaï Chiruthaigal Katchi (VCK) and others choose the DMK or AIADMK coalition according to the situation.

The BJP has strengthened its Tamil Nadu unit by appointing Murugan, a lawyer, as its chief and has also activated its workers. There has been a recruitment spree in the State since 2014. It has brought to its fold celebrities, bureaucrats and politicians from other parties. Recently, the

actor-turned-politician and Congress spokesperson Khushbu’s joining of the party was a significant event. So the big question is why was the BJP unable to make inroads in Tamil Nadu till now?

First of all, the saffron party had no tall leaders to match the iconic Dravidian leaders like M Karunanidhi, Jayalalithaa and MG Ramachandran. It is likely to be Modi versus DMK chief MK Stalin now. Second, the BJP is perceived to be a North Indian Brahminical party and the word Brahmin is anathema to Dravidian parties. Third, Tamil Nadu saw a huge anti-Hindi agitation in the 60s. The Dravidian parties are against any imposition of Hindi and the Modi Government is in favour of it. Fourth, influenced by the anti-Brahmin movement of the 50s and the 60s, many caste-based parties like the Vanniyars (dominant in north-west parts of Tamil Nadu, Thevars (dominant in southern part of the State in the Madurai belt) and Gounders (in the Kongu belt in the west), have sprung up in the last three decades, resulting in the splintering of votes. Fifth, the BJP’s stand on conversions to Christianity and its hostility to Islam

and other religions has no takers in the South. The BJP’s polarising tactics won’t work in the South. Sixth, new parties have sprung up with two untested superstars — Kamal Haasan and Rajinikanth — on the horizon.

The DMK has been making poll preparations for some months now and MK Stalin has already announced an alliance with the Congress. In the 2019 Lok Sabha, the Congress-DMK combination swept the polls. The State has been alternating between the DMK and the AIADMK and now it is the turn of the DMK. It was only in 2016 that the AIADMK got a second term.

The neighbouring Puducherry often reflects Tamil Nadu’s politics. In any case, it is a small Union Territory and has just one seat in the Lok Sabha. Currently, the Congress is ruling in the State.

Kerala is a different story. The Left-led Left Democratic Front (LDF) and the Congress-led United Democratic Front (UDF) alternate in power. It is the UDF’s turn now. The BJP has not been able to penetrate much in the State despite the ground-work done by the Rashtriya Swayamsevak Sangh (RSS).

Further, the Kerala electorate consists of a sizeable number of Christians and Muslims and they remain non-BJP voters.

In 2019, the LDF posted a landslide victory, winning 19 of the 20 seats while the UDF won just one seat and the BJP got zero seats. The RSS tried to mobilise support on the contentious Sabarimala issue but the counter-mobilisation presented an effective alternative control.

With more literate voters, Kerala alternates between the Communists or anti-Communists. The BJP is seeing slow growth in the State because of it. While the minority communities in the State have successfully ensured the protection of their respective cultures, the Hindu community has relentlessly ceded its own cultural space. The BJP is taking advantage of it, but it is taking time to translate into votes.

Also, the BJP is facing factionalism in Kerala. The RSS has cautioned the central leadership that the friction in the State unit could impact the performance in the polls.

Kerala won kudos in containing the COVID-19 pandemic. A few months ago it looked as if the LDF

could return to power but that came to a screeching halt in July after the Chief Minister’s Office was found to be allegedly involved in a gold smuggling scam. Several protests broke out across Kerala after the smuggling of 30 kg gold worth ₹14.82 crore through diplomatic channels came to light on July 5. The case is currently being probed by the ED, the National Investigation Agency and the Customs Department. Another nail in the coffin was the recent promulgation of The Kerala Police (Amendment) Ordinance, 2020. Vide this Ordinance, a new Section 118A was introduced in the Kerala Police Act, 2011. This was widely viewed as a brazen assault on freedom of speech.

Though the Chief Minister insisted that “no action would be taken against the media or critics who stay within the limits of the Constitution” and in the end decided not to implement the amended Act, the damage has been done to the Government’s reputation and credibility in a fiercely independent State.

Now, it remains to be seen whether the BJP can consolidate its Hindu votes in the South.

FOREIGN EYE

THE TIME TO THINK IS NOW

Plans for mass immunisation against COVID-19 are developing fast. The last year has exacerbated anti-vaccination emotions, and they will not disappear when lockdowns end. Restoring confidence in immunisation may require the much more fundamental rethink that many hoped this pandemic might produce: A reappraisal of who and what is valued, and how we should be living and relating to each other.

*(The Guardian editorial)*

# ‘Biden to pick Antony Blinken as State Secy’

**Washington:** Joe Biden intends to pick his trusted foreign policy advisor Antony Blinken as the US Secretary of State and Jake Sullivan as National Security Advisor, media reports said on Monday, as the President-elect is poised to make his first round of Cabinet announcements on Tuesday.

Blinken, 58, has served as the Deputy Secretary of State in the second term of the Obama administration and National Security Advisor to Biden when he was the vice president.

A strong India-hand, Blinken was the top foreign policy advisor to the Biden campaign.

“President-elect Joe Biden intends to nominate Antony Blinken to serve as secretary of State, turning to a trusted diplomat and foreign-policy adviser to oversee his work to rebuild US relationships around the globe, according to people familiar with the deci-

sion,” The Wall Street Journal reported.

“President-elect Joe Biden is planning to announce that he has selected Antony Blinken, one of his closest and longest-serving foreign policy advisers, as secretary of state,” The Washington Post said.

“Jake Sullivan, another top Biden advisers, is expected to be named as national security adviser, according to two people familiar with the announcement,” the daily said.

Last week, Biden said he had decided on his name for the Treasury Secretary. **PTI**

## New Zealand’s Ardern offers virus know-how to Joe Biden

**Wellington:** New Zealand Prime Minister Jacinda Ardern on Monday became the latest world leader to congratulate President-elect Joe Biden on his election victory, saying she offered to share her nation’s expertise on dealing with the coronavirus.

Ardern said the tone of the 20-minute phone call was warm and that Biden spoke very favorably about how New Zealand was handling the pandemic.

“What has been really at the center of our response has been some fundamentals around testing, contact tracing, isolation,” Ardern said.

“That’s over and above what we’ve done at our borders.” New Zealand has been largely successful in eliminating the virus after imposing a strict lockdown in March and closing its borders. Only 25 people in the nation of 5 million have died from COVID-19. **AP**

## US TROOP WITHDRAWAL

# China worried Afghan may become hotbed for Uighur militants

**Beijing:** A wary China on Monday urged the US to withdraw its troops from Afghanistan in an “orderly and responsible manner” amidst increasing concern here that the war-torn country, which shares borders with the volatile Xinjiang province, could become a breeding ground for Uighur Muslim militants.

Chinese Foreign Ministry spokesman Zhao Lijian’s remarks came after acting US Defence Secretary Christopher Miller last week said that the US would cut its military presence in Afghanistan to 2,500 troops from 4,500 by January 15.

“China calls on foreign troops to leave Afghanistan in an orderly and responsible manner, give terrorist forces no breathing space and contribute to Afghanistan peace and reconciliation process,” Zhao told a media briefing here.

He also condemned the recent Islamic State attack on

Kabul, saying “China will continue to firmly support the Afghan government and people in their efforts to combat terrorism and safeguard the national stability and their own security.”

Observers say that America’s latest plan to speed up the withdrawal of more troops from Afghanistan may have troubling consequences for China as Washington’s withdrawal also coincides with its move to lift the ban on the Uighur militant group -- the East Turkestan Islamic Movement (ETIM).

Earlier this month, the Trump administration, in a sudden move, lifted the ban on the separatist ETIM, which has been designated as a terrorist organisation by the UN’s 1267 counter-terrorism committee in 2002 for its alleged association with al-Qaida, Osama bin Laden and the Taliban. **PTI**

## China lashes out at US withdrawal from Open Skies Treaty with Russia

**Beijing:** China on Monday lashed out at Washington over its withdrawal from the “Open Skies Treaty” with Russia, saying the move undermined military trust and transparency and imperiled future attempts at arms control.

The treaty, to which China is not a signatory, had allowed each country overflight rights to inspect military facilities.

That leaves only one arms-control pact still in force between the former Cold War foes, the New START treaty, which limits the number of nuclear warheads each may have. That treaty will expire in February and the Trump administration had said it wasn’t interested in extending it unless China also joined, something Beijing says it will not do. **AP**

# UK SC to decide if ISIS bride can be back to London

**London:** Britain’s Supreme Court is set to decide whether a woman who ran away from her London home as a teenager to join the Islamic State group in Syria can return to the UK.

The British government is fighting to keep Shamima Begum from coming back to the country where she was born.

At a hearing beginning on Monday, it is challenging a lower court’s ruling that Begum can return to Britain to mount a legal challenge aimed at restoring her UK citizenship, which was revoked on national security grounds.

The Court of Appeal said in July that “the only way in which she can have a fair and effective appeal is to be permitted to come into the United Kingdom.”

But James Eadie, a lawyer acting for the UK government, told the Supreme Court justices that Begum “is considered to pose a real and current threat

to national security.”

Begum, now 21, was one of three east London schoolgirls who traveled to Syria in 2015 to live under IS rule.

She says she married an Islamic State member from the Netherlands and had three children, all of whom have died.

She resurfaced at a refugee camp in Syria in 2019 and told reporters she wanted to come home, but was denied the chance when then-Home Secretary Sajid Javid revoked her citizenship.

He argued that she was Bangladeshi by descent and could go there.

The situation has thrown into sharp relief the larger question of how Western societies deal with people who joined IS but want to go back to their home countries.

Begum challenged the decision, arguing she is not the citizen of another country and that Javid’s decision left her stateless. **AP**

# First Americans could be vaccinated next month: House vaccine chief

**Washington:** The first Americans to receive a COVID-19 vaccine could be as early as the second week of December, according to the White House vaccine czar.

American pharmaceutical giant Pfizer and its German partner BioNTech submitted an application to the US Food and Drug Administration (FDA) on November 20 for emergency use authorisation for its COVID-19 vaccine candidate. An FDA vaccine advisory committee is slated to meet December on 10.

Dr Moncef Slaoui, the head of the US coronavirus vaccine programme said that it means, if authorised by the FDA, the vaccine could be rolled out the next day

(December 11).

“Our plan is to be able to ship vaccines to the immunisation sites within 24 hours from the approval, so I would expect maybe on day two after approval, on the 11th or on the 12th of December,” he told CNN on Sunday.

The vaccine, which requires two doses, has been shown by tests to be 95 per cent effective. Pfizer hopes to produce up to 50 million doses by the end of the year.

US pharmaceutical company Moderna has also reported that its vaccine is nearly 95 per cent effective, according to test data. The company is expected to seek approval for the vaccine in the coming weeks. **PTI**

# Burkina Faso counts ballots; extremist threats affected vote

**Ouagadougou:** Votes are being counted in Burkina Faso after Sunday’s presidential and legislative elections, where threats of extremist violence linked to al-Qaida and the Islamic State prevented parts of the country from casting ballots.

Election workers began the counting after polls closed by holding up the ballots up for observers and marking the votes on a chalkboard beside the candidate’s name. Preliminary results are expected within the next two days.

While there were no reported incidents of major attacks, threats of violence prevented people from casting ballots in hard-hit parts of the country, in the North, Sahel and East regions. Nearly 3,000 polling stations expected to open yesterday didn’t, preventing up to 350,000 people

Election officials count the ballots in at a polling station in Ouagadougou, Burkina Faso, for the presidential and legislative elections late on Sunday **AP**

from voting, said Newton Ahmed Barry, president for the National Independent Electoral Commission, on local television.

In Tapoa province in the east, 224 polling stations out of 335 didn’t open, according to a report from CODEL, a local

organization monitoring the elections. CODEL said it was “concerned about the situation in areas weakened by insecurity”. Local officials in the Sahel and Center North, the epicenters of the violence, told the AP people were angry about not being able to vote. **AP**

# HK’s Joshua Wong to plead guilty to protest charges

**Hong Kong:** Prominent Hong Kong pro-democracy activist Joshua Wong said on Monday that he plans to plead guilty to charges related to a demonstration outside police headquarters during anti-government protests last year.

Ahead of a court hearing Monday, Wong said that he and fellow activist Ivan Lam would both plead guilty to organizing, taking part in and inciting protesters to join an unauthorized protest outside police headquarters in Wan Chai last June. Both Wong and Lam were members of the now-disbanded Demosisto political party.

“I am persuaded that neither prison bars, nor election ban, nor any other arbitrary powers would stop us from activism,” Wong said.

“What we are doing now is to explain the value of freedom

to the world, through our compassion to whom we love, so much that we are willing to sacrifice the freedom of our own. I’m prepared for the thin chance of walking free.” Those found guilty of taking part in an unlawful assembly could face as long as five years in prison depending on the severity of the offense.

Wong rose to prominence as a student leader during the 2014 Umbrella Movement pro-democracy protests and is among a growing number of activists being charged for various relatively minor offenses since Beijing in June imposed a sweeping national security law on the territory that has severely restricted political speech. Pro-democracy supporters have said the legal charges are part of a campaign to harass and intimidate them. **AP**

# French ex-Prez Sarkozy stands trial for corruption

**Paris:** Former French President Nicolas Sarkozy goes on trial Monday on charges of corruption and influence peddling in a phone-tapping scandal, a first for the 65-year-old politician who has faced several other judicial investigations since leaving office in 2012.

Sarkozy is being accused of having tried to illegally obtain information from a magistrate about an investigation involving him in 2014.

He stands trial in a Paris court along with his lawyer Thierry Herzog, 65, and the magistrate, Gilbert Azibert, 73.

They face a prison sentence of up to 10 years and a maximum fine of 1 million euros (\$1.2 million). They deny any wrongdoing.

Hearings are scheduled until Dec. 10. **AP**

# US provides missiles, renews pledge to defend Philippines

**Manila:** President Donald Trump’s administration provided precision-guided missiles and other weapons to help the Philippines battle Islamic State group-aligned militants and renewed a pledge to defend its treaty ally if it comes under attack in the disputed South China Sea.

National Security Adviser Robert O’Brien represented Trump in Monday’s ceremo-

ny at the Department of Foreign Affairs in Manila, where he announced the delivery of the cache of missiles and bombs to the Philippine military. Trump pledged to provide the \$18 million worth of missiles in a phone conversation with Philippine President Rodrigo Duterte in April.

O’Brien expressed condolences to the Philippines after

back-to-back typhoons left a trail of death and devastation in the country and outlined US Help to the country battle the coronavirus pandemic.

The US assistance projects normalcy in Washington’s foreign relations as Trump worked to challenge the results of the November 3 presidential election, claiming he was a victim of fraud. Duterte had asked Filipino Americans to vote for Trump but congratulated Joe Biden, through his spokesperson, for winning the election.

O’Brien has represented Trump in a recent online summit between the U.S. And leaders of the Association of Southeast Asian Nations and an expanded East Asia summit of heads of state attended by China and Russia that was also held by video and hosted by Vietnam. **AP**

# Yemen rebels claim attack on Saudi oil facility in Jiddah

**Dubai:** Yemen’s Houthi rebels said they struck a Saudi oil facility in the port city of Jiddah on Monday with a new cruise missile, just hours after the kingdom finished hosting its virtual Group of 20 leaders summit.

The kingdom did not immediately acknowledge any attack as videos on social media suggested a fire at an Aramco oil facility.

Brig. Gen. Yehia Sarie, a Houthi military spokesman,

tweeted that the rebels fired a new Quds 2 cruise missile at the facility. He posted a satellite image online that matched Aramco’s North Jiddah Bulk Plant, where oil products are stored in tanks.

That facility is just southeast of Jiddah’s King Abdulaziz International Airport, a major facility that handles incoming Muslim pilgrims en route to nearby Mecca.

Online videos appeared to

show a tank farm similar to the bulk plant on fire. Details of the videos posted predawn Monday matched the general layout of the bulk plant.

Saudi state-run media did not immediately acknowledge the Houthi claim.

Saudi Aramco, the kingdom’s oil giant that now has a sliver of its worth traded publicly on the stock market, did not immediately respond to a request for comment. **AP**

# Officials: 113 bodies found in secret graves in Mexico

**Mexico City:** Mexican authorities have recovered 113 bodies and additional human remains from a secret grave outside the western city of Guadalajara.

Jalisco state Attorney Gerardo Octavio Solis said on Sunday night that 30 of the victims had been identified.

The state is home to Jalisco New Generation Cartel, one of Mexico’s most violent and powerful. More bodies have been found in secret graves

there than in any other state in recent years.

According to Mexico’s Interior Ministry, from 2006 through September 30 of this year, 897 bodies had been recovered from secret graves in Jalisco, 605 of those during the administration of President Andrés Manuel López Obrador who took office in December 2018.

The burial ground in El Salto, southeast of Guadalajara, was found in October. **AP**

## South Africa judge files criminal complaint against ex-Prez Jacob Zuma

**Johannesburg:** A South African judge said he will file a criminal complaint against former South African president Jacob Zuma after he staged a dramatic walkout while attending a commission of inquiry looking into corruption during his tenure from 2009 to 2018.

Zuma left the commission hearing without permission after Deputy Chief Justice Raymond Zondo dismissed an application asking him to recuse himself as chair of the inquiry. Zuma alleges Zondo is biased against him.

Zuma has been asked to respond to various allegations implicating him from at least 35 affidavits by witnesses who have appeared before the commission.

These include allegations, among others, that he was involved in ensuring that members of the controversial Gupta family secured lucrative state contracts and influenced his appointments of cabinet ministers.

Zondo announced Monday that he would also file an application to the Constitutional Court, the highest court in the country, to enforce a summons issued against Zuma and compel him to appear before the commission. **AP**

# Markets march higher on vaccine progress

## RIL, IT STOCKS SPARKLE

PTI ■ MUMBAI

Equity benchmarks made a winning start to the week on Monday as positive results from another COVID-19 vaccine candidate bolstered investor confidence globally.

A recovering rupee and unabated foreign fund inflows added to the momentum, traders said.

After touching a record intra-day high of 44,271.15, the 30-share BSE Sensex ended 194.90 points or 0.44 per cent higher at 44,077.15.

## Rupee extends gains by 5p to end at over 2-week high against dollar

PTI ■ MUMBAI

The rupee appreciated by 5 paise to settle at more than two-week high of 74.11 against the US dollar on Monday tracking positive domestic equities and weak American currency.

At the interbank forex market, the domestic unit traded in a narrow range as rising COVID-19 cases offset positive sentiments surrounding the progress on the vaccine front.

AstraZeneca on Monday said that late-stage trials of its COVID-19 vaccine were "highly effective" in preventing disease.

Similarly, the broader NSE Nifty rose 67.40 points or 0.52 per cent to close at 12,926.45.

ONGC was the top performer on the Sensex chart, surging 6.84 per cent, followed by IndusInd Bank, Infosys, Tech Mahindra, Bajaj Finserv, Reliance Industries, HCL Tech and TCS.

Index heavyweight Reliance Industries climbed 2.72 per cent, accounting for most of the Sensex's gains, after the Competition Commission on Friday evening said it has approved the conglomerate's proposed acquisition of Future Group's retail assets.

On the other hand, HDFC, ICICI Bank, Axis Bank, SBI

and M&M were among the main laggards, slumping up to 3.55 per cent.

Global equities were on the upswing after Oxford University and AstraZeneca announced that their COVID-19 vaccine candidate was found to be around 90 per cent effective in preventing the disease.

This is the third major vaccine trial to have reported encouraging results, after Moderna and Pfizer came out with positive Phase 3 data.

"While global cues remained favourable, a sharp rebound in IT, pharma, metals and Reliance Industries led domestic equities to register further gains. However, profit booking was witnessed in select heavyweight financials after recommendation of IWG (Internal Working Group) of RBI did not favour them much, which led financials to end in red today.

## Gold futures gain on spot demand

PTI ■ NEW DELHI

Gold prices rose ₹45 to ₹50,257 per 10 gram in futures trade on Monday as speculators created fresh positions on firm spot demand.

On the Multi Commodity Exchange, gold contracts for December delivery traded higher by ₹45, or 0.09 per cent, at ₹50,257 per 10 gram in a business turnover of 5,544 lots.

Fresh positions built up by participants led to the rise in gold prices, analysts said.

In the international market, gold traded 0.03 per cent higher at USD 1,878.80 per ounce in New York.

# Bank licences to corporates a 'bad idea': Raghuram Rajan

FIANS ■ NEW DELHI

Days after an Internal Working Group (IWG) of Reserve Bank of India's (RBI) recommended allowing large Indian corporates to enter the banking sector, former RBI Governor Raghuram Rajan and Deputy Governor Viral Acharya have hit back at the suggestion and questioned the timing for it.

Terming the recommendation as a "bombshell", in a blogpost, they said that although several recommen-

dations of the report are worth adopting the one to allow corporate houses into banking should not be taken up.

"To the contrary, it is even more important today to stick to the tried and tested limits on corporate involvement in banking," said the article.

Sharing the article on LinkedIn, Rajan said that he thinks the proposal as a "bad idea".

It said that there are two primary rationales for not allowing corporates into banking, first being that industrial

# Momentum of economic reforms will continue, FM assures industry

PTI ■ NEW DELHI

Finance Minister Nirmala Sitharaman on Monday assured the industry that momentum of economic reforms will continue to make India a hotspot of global investment.

India has turned the crisis created by COVID-19 pandemic into an opportunity to push the economic reforms, which remained pending for decades, she said while addressing the National MNC's Conference 2020 organised by the industry chamber CII.

"Even at the time (of) COVID pandemic, the Prime Minister has not lost an opportunity to take deep reforms, to undertake those kinds of reforms which have not seen the light of the day over the decades.

"The momentum for reform shall continue. Several more active reform-related steps are being taken up,"

Sitharaman said.

The financial sector is being professionalised and the

government will continue with disinvestment agenda, she added.

## Govt's 'unprecedented' reforms to usher in new era of growth: Kant

New Delhi: Niti Aayog CEO Amitabh Kant on Monday said that "unprecedented" reforms undertaken on both governance and economic fronts by the government will usher in a new era of growth and prosperity.

Kant also stressed the need to increase expenditure on research and development and strengthen intellectual property rights (IPR) laws.

"The economic and governance reforms undertaken by the government have been quite unprecedented and they

will usher in a new era of growth and prosperity," he said. "We are making states compete on ease of doing business parameters. We are ranking states and naming and shaming them," he said while addressing a virtual event organised by industry body CII. Listing out reforms undertaken by the government in recent times, Kant said as the world battles contraction in economic growth, India has initiated reforms in key sectors including agriculture, labour and mining.

## India exports 11mn smartphones in Jan-Sep

Gurugram: The exports of smartphones from India is expected to cross \$1.5 billion (by value) this year -- constituting 98 per cent of the total mobile phones exported from the country, a new report said on Monday. A total of 12.8 million mobile phones were exported from India from January to September this year and of these, 10.9 million units were smartphones, according to market research firm techARC.

# No respite from rising onion prices till Dec, potato prices decline

FIANS ■ NEW DELHI

Due to the declining onion imports from abroad, the price of the staple vegetable is once again set to soar even while there is a large supply of onions coming from Rajasthan. The retail price of onions in the national capital is between Rs 50 to Rs 70 per kg while the wholesale price ranges from Rs 15 to Rs 47.5 per kg which had fallen slightly to Rs 42 per kg before the Diwali season.

According to traders, there are slim chances of getting a respite from the rising onion prices before December this year. However, there is some relief for the common man as

the prices of potatoes sharply declined due to the new potato crop.

The increase in onion prices is being attributed to the decrease in imports even as the fresh supply of onions from Rajasthan is in full flow to various parts of the country, including north India.

Traders say that in the last few days due to the increasing supply of locally-produced onions, the pace of onion imports has slowed down.

Horticulture Produce Exporters Association President, Ajit Shah, said the

import of onions has not stopped but it has considerably reduced. He said that onions have also been imported from Turkey this week. At present, although onions are coming from Rajasthan, its price will fall only when onions from Nashik in Maharashtra flood the markets, Shah added.

## Reliance Retail's 'vocal for local' mission expands to 30,000 artisans

PTI ■ NEW DELHI

Reliance Retail on Monday said it showcased more than 40,000 artisan-crafted products from over 50 GI clusters to its customers this festive season in a strong push to locally-made artisanal products.

"A direct result of its three-year-old flagship initiatives - 'Indie by AJIO' and 'Swadesh' - started to provide avenues for sales and employment to local craftsmen, the programmes now engage with more than 30,000 craftsmen, representing

over 600 art forms across a wide spectrum of clothing, textiles, handicrafts and hand-made natural goods," the company said in a statement. Indie by AJIO is an online marketplace for local artisans and handcrafted products. It features this distinctive idiom beautifully in the wide lifestyle products ranging from apparel to home furnishing and accessories such as jewellery and footwear, it said. The craft repertoire includes Ikat, Shibori, Banarasi, Bagh, Ajrakh to Jamdani, Tangail, Chanderi and many more.

houses can easily get financing, with no questions asked, in case they have an in-house bank.

## HC TO AIR INDIA

# Consider paying one month's salary to terminated contractual pilots

PTI ■ NEW DELHI

The Delhi High Court on Monday asked Air India to consider paying at least one month's salary to its pilots, engaged on contractual basis, whose services were suspended in April and later terminated in August, saying that employees cannot be left to hang high and dry.

Justice Navin Chawla asked the counsel for national carrier Air India to take instructions on paying one month's salary to the contractual pilots, who

number around 61. The services of these pilots were terminated in August.

The court also asked the airline to hear out the grievances of the pilots, who were engaged on contract after they superannuated, and to see whether something, like a "golden handshake", can be done for them.

With the suggestions, the court listed the matter for hearing on December 16. The court was hearing two pleas moved on behalf of the terminated contractual pilots

who have sought quashing of the April 2 order suspending their services and the subsequent order of August 7 by which they were all terminated.

The pilots, represented by advocates Lalit Bhardwaj, Krishan Gopal and Jatinder Anand Dwivedi, have sought a direction to AI to restore their contractual engagements or pay them salaries along with flying allowances with effect from April 1 till their licenses are restored to current ratings.

## DR BRIJ MOHAN MISHRA IS NDMC NEW SECRETARY

New Delhi: Dr. Brij Mohan Mishra, an IAS officer of the 2008 batch of AGMUT cadre, assumed charge as Secretary - New Delhi Municipal Council (NDMC) today. Dr. Brij Mohan Mishra succeeds Shri Amit Singla who has been transferred as a Secretary (Health and Family Welfare), Department of Health and Family Welfare, Govt. of NCT of Delhi. Dr Brij Mohan Mishra has held several important assignments in the past, serving in Municipal bodies and States Government/UTs in Delhi, Arunachal Pradesh and Andaman & Nicobar Island. He has served in the Delhi Government in the capacity of Deputy Commissioner (Revenue) in East and South Delhi. He has also worked in South and East Delhi Municipal Corporations in the capacity of Deputy Commissioner and in North Delhi Municipal Corporation in the capacity of Additional Commissioner.

## PUBLIC AWARENESS OFFICER TO ACCELERATE AWARENESS

Jaipur: Information and Public Relations Commissioner Shri Mahendra Soni said that to control the increasing number of corona cases in the state, it is necessary that the common man is constantly made aware of the measures to fight the disease and prevent it. He said that in the fourth phase of this awareness campaign being carried out across the state, there is a need to take public awareness work more seriously and to spread the message through innovations. Shri Soni was addressing a meeting of District Public Relations Officers held through VC on Monday. He took detailed information about the various activities being conducted in his district from the District Public Relations Officers as part of the public awareness campaign against Corona across the state.

## GM NORTHERN RAILWAY HOLDS PERFORMANCE REVIEW MEETING

New Delhi: Deliberations held on issues and cases related to Safety, Rail, Rail-weld fractures and health of Bridges with lowering of Temperature, Increase in USFD Testing, Night Vigils, Material failure issues of Rolling stock, Training and Counseling of Staff, Digitalization and Implementation of e-office over Northern Railway Sh. Ashutosh Gangal, General Manager Northern Railway held a performance review meeting with the departmental heads of Northern Railway through video conferencing from Baroda House, NR headquarter office in New Delhi today. The General Manager shared about the restoration of train movement to Punjab from today afternoon.

## MOTOR INSURANCE REVIVE ON FESTIVE AUTO SALES JUMP

New Delhi: The pick up in auto sales during the festive season has revived up the business of insurers with motor premiums increasing 3 per cent yoy in October 2020. Motor premiums were down for most part of the current fiscal and it fell 4 pet cent yoy in 2QFY21. There has been a flurry of activity in automobile sales in October with four wheeler sales rising by 20 per cent and two wheeler by 15 per cent yoy. Robust festive demand and a gradual rise in freight volumes and utilization rates supported premiums, Kotak Institutional Equities said in a report.

## Google to delay 30% in-app purchase policy amid backlash

FIANS ■ SEOUL/NEW DELHI

Facing backlash from developers, Google said on Monday that it will postpone enforcing a 30 per cent commission on in-app purchases of digital content from its Play Store from next January to next September.

Under the new policy set to be adopted in late September, Google plans to take a 30 per cent commission on all digital content purchases by users from app developers.

Like Apple, Google also collects a 30 per cent commission on in-app purchases.

Apple last week announced it will reduce the standard commission on its App Store from 30 per cent to 15 per cent for app developers with yearly proceeds of less than \$1 million from next year.

According to market watchers, Google apparently postponed the policy as it faced strong backlash from South Korean developers, reports Yonhap news agency.

While Google has taken a 30 per cent cut for all in-app purchases on the Play store through its billing system, some apps have circumvented the rule by using other systems, such as direct credit card payments.

DOCYARD

DR KUSHAL BANERJEE

Consultant Homeopath

DR KALYAN BANERJEE'S CLINIC,

NEW DELHI

Take help from Homeopathy

India is considered as the Diabetes capital of the world. Approximately eight-point seven percent of Indians between the age of twenty to seventy years are Diabetic. The country suffers substantial loss of productivity and thus bears a huge economic burden because of Diabetes.

An exceedingly high number of Diabetics around the world are looking to complementary and alternative medicine (CAM) to act as an adjuvant or substitute for the management of their condition. Diabetes affects multiple organ systems resulting in a wide range of serious issues in patients. Many of these complications of Diabetes do not have any specific treatment in conventional medicine.

India is known for its larger than life festivals, and sweets and delicacies is a part and parcel of it. However, during this time, Diabetics should exercise caution and only consume extremely limited quantities of sweets or restrict themselves to food items which will not increase their blood sugar levels if they have very high levels of blood sugar. A temporary but sharp rise in blood sugar can cause irreversible damage to vital organs. Elevated blood sugar may take days to settle to its previous levels. We are also beginning to understand the correlation between Diabetes and COVID-19. Although research is still new, it is being postulated that diabetics have a higher chance of severe clinical outcomes and mortality due to COVID-19. Again, experts recommend that patients should strive for good control of their blood sugar levels to prevent severe complications.

**Diabetes affects multiple organs resulting in a wide range of serious issues in patients. Many of these complications do not have any specific treatment in conventional medicine**

Diabetes has a wide spectrum of clinical manifestations ranging from being asymptomatic to causing multiple organ failure. Homeopathic management can benefit patients at every stage.

Very recent research shows that aggressive weight and diet management in the early stages of Diabetes may reverse the disease process. This revolutionary conclusion has emphasised the importance of diet and weight control even more than earlier.

Doctors usually spend a lot of time explaining the importance of lifestyle changes, including diet, mealtimes, exercise and sleep patterns, in addition to advising homeopathic medicines. Many of these patients can report lasting blood sugar control with these modifications. There are many cases where homeopathic medicines can be completely withdrawn.

Some of the other complications which occur in chronic Diabetics are conditions like peripheral neuropathy (degeneration of the nerves in the periphery of the body), Diabetic retinopathy (degeneration of the retina and related structures) and diabetic nephropathy (degeneration of the structures of the kidney, affecting its functioning). These conditions are known to respond poorly to conventional medicines. However, homeopathy can address these issues in many patients. From providing relief to pain, burning and loss of sensation of limbs, to improving or preventing further loss of vision. There is anecdotal data demonstrating improvement or arrest of degeneration of kidney functioning with homeopathic management in cases of nephropathy. We are also able to see remarkable improvements in cases of Diabetic foot, where the foot of patient begins to degenerate into a gangrenous condition due to poor blood supply. Patients are often able to avoid an amputation!

As the country takes some early steps towards an integrated healthcare system, it is important to consider homeopathy as an essential option for patients in all stages of Diabetes.

## WARMFOODS

**BROWN RICE:** Brown rice are rich in proteins, thiamine, calcium, magnesium, fiber, and potassium. For those trying to lose weight or those suffering from diabetes, it can prove a healthy staple given its low glycemic rating which helps reduce insulin spikes.

synthesise fats. It also benefits our nervous and reproductive systems.

The naturally occurring oils are beneficial for the body as these healthful fats help normalise cholesterol levels.

The fiber content of brown rice keeps bowel function at its peak since it makes digestion much easier. It is the perfect addition to the daily diet for those seeking bowel regularity. In addition, it also makes the tummy feel full which translates to smaller meal portions.

## TEST YOUR LUNGEVITY

Pneumonia is common among people of all ages. DR SAMIR GARDE busts myths related to the disease and tells you symptoms to look out for

Pneumonia is an infection of the lungs. It causes the air sacs (alveoli) of the lungs to get inflamed (irritated and swollen). They may fill up with fluid or pus. This causes a variety of symptoms, which range from mild to severe. Pneumonia is usually caused by bacteria or a virus. It also can be caused by fungi or irritants that you breathe into your lungs. How serious pneumonia is depends on many factors. These include what caused the pneumonia, your age, and your overall health.

### SYMPTOMS

The symptoms of pneumonia can range from mild to severe. This depends on your risk factors and the type of pneumonia you have. Common symptoms are similar to the symptoms caused by a cold or the flu. They include:

- Cough
- Fever
- Bringing up mucus when you cough
- Difficulty breathing
- Chills
- Chest pain

You may also sweat, have a headache, and feel very tired. Some people also experience nausea, vomiting, and diarrhea.

### MYTHS

- It can always be treated with antibiotics
- Elderly people are the only ones required to receive vaccinations
- Healthy people can't get pneumonia
- An individual with pneumonia must be hospitalised

### FACTS

- With many possible causes for pneumonia, treatment could include

## Turn to breathing exercises

Like people say, prevention is better than cure. So is the case with pneumonia. Here are a few tips that can help.

- Having good immunity is the single most important factor in prevention of pneumonia.
- Healthy lifestyle — a good

more than just antibiotics

■ People age 65 and older are at a higher risk, but anyone can catch pneumonia at any age and therefore should consider getting vaccinated

■ People who are considered healthy have a lower risk, but could still catch pneumonia

■ If the condition is less severe, treatment may not include hospitalisation

### CAUSES

**Bacterial:** This is the commonest cause of pneumonia. There is a wide range of bacteria that can infection of the lungs - in children as well as adults

**Viral:** Nowadays due to COVID 19; everyone seems to have got alerted about viral pneumonia. Viral infections are rather common in children and there are dozens of viruses that cause infection of the lungs. Influenza related pneumonia are common in adults and various other viruses can cause lung infection in adults where immunity is compromised. COVID-19 related inflammation is not a pneumonia in true sense; its more of inflammatory condition of the lungs — the discussion of which is beyond the scope of this article.

**Fungal:** Happens in immuno-

breakfast; two square meals per day, having fresh fruit everyday; regular exercise with deep breathing exercises; adequate sleep are of utmost importance to maintain good immunity.

■ People with Diabetes; renal conditions; those on chemother-

apy should take regular guidance of their treating physician; to keep their conditions under control.

- Avoiding smoking.
- Taking influenza and Pneumococcal vaccines as per the advice of regular doctor/chest physician.

bacteria from the Mycobacterium family that can cause lung infections.

**Aspiration pneumonia:** When one ends up aspirating contents of the stomach into the lungs via; breathing pipe — one gets — chemical pneumonitis.

How is pneumonia diagnosed? When a person reaches a doctor/hospital with above mentioned symptoms and after clinical examination pneumonia is suspected; Xray of the chest is done to diagnose pneumonia. At times a CT scan of the chest is necessary to see the extent of the infection. Sending sputum for culture test helps in deciding the causative factor of pneumonia.

How is it treated?

As discussed above; depending on the Causative agent (Bacterial/viral/TB etc); and patient's condition (stable or critical) medicines are prescribed to be taken orally (at home) or Intravenously (in the hospital). Patients also need supportive care in the form of hydration; control of Diabetes; vitamin supplements etc.

The writer is Consultant Respiratory Medicine, Jaslok Hospital and Research Centre

**The symptoms of pneumonia can range from mild to severe. This depends on your risk factors and the type of pneumonia you have. Common signs are similar to the ones caused by a cold or flu**

compromised individuals. People who are suffering from Diabetes; chronic kidney disease; those having HIV/AIDS; or those who are on medicines that compromise the immunity; especially after organ transplant etc are immunocompromised people.

**Tuberculous infections:** Infection caused by Mycobacterium Tuberculosis (popularly known as TB) is the biggest menace in front of our country and needs to be tackled on war footing. There are other

## DON'T MISS YOUR CHILD'S VACCINATION

Approximately 3.7 lakh children die of pneumonia annually in India. DR SISIR PAUL tells how timely immunisation can reduce the risk

Pneumonia is one of the leading causes of sickness and mortality in children in developing countries especially under the age of 5 years. Pneumonia can be easily prevented by immunization, adequate nutrition, and taking care of some environmental factors.

As per WHO Pneumonia accounts for almost 15% to 18 % of all deaths (1.3 million deaths) globally of which 99% cases seen in 15 developing countries, in children under 5 years age. Approximately 3.7 lakh children die of Pneumonia annually in India. Pneumonia can be caused by viruses, bacteria, or fungi.

Pneumonia can spread in several ways like via air-borne droplets from a cough or sneeze from an infected person or the organisms which are normally present in one's nose and throat can become infective if conditions are unfavourable and can infect the lungs if they are inhaled. In addition, in young infants it can spread through blood also. Various factors that may influence the occurrence of pneumonia include, premature and low birth weight child, undernutrition, indoor overcrowding, poor hygiene, previous history of allergies, recent history of Measles and Chicken Pox, Pneumonia or hospitalisation and many more.

The presenting features of viral and bacterial pneumonia are similar. However, the symptoms of viral pneumonia may be more when compared with bacterial pneumonia. In children under five years of age they can present with cough and/or fast and difficult breathing, with or without fever and there may be retraction of lower chest wall. Wheezing is more common in viral infections. Very severely ill infants may be unable to take feed or drink.

Three strategic interventions include vaccination, breastfeeding/nutrition and access to care and antibiotic treatment along with Parent Education Programs, Pneumonia awareness Programs for Community and health workers. Awareness of practices like hand hygiene-washing hands frequently, avoiding indoor pollution (smoking, usage of firewood, kerosene, incense, deo-sprays etc) as well as outdoor pollution.

Besides the general precautions as already discussed keep your child's vaccination upto date which starts from six weeks of age.

All children should be given vaccines to prevent against bacterial infections like Pneumococcus and Hib. All children six-months of age or older should get a flu (Influenza) vaccine yearly at least up to eight years of age (MOH) because the maximum spread in the community is through children in this age group.

Children should also be vaccinated against Measles and Chicken Pox because these illnesses can reduce the immunity severely and increase the risk of secondary pneumonia. Older children should follow cough and sneeze etiquettes (cover their nose and mouth with facial tissue or a sleeve of their shirt when sneezing and throw away tissues after use).

If the child is showing symptoms suggestive of pneumonia consult your Paediatrician and do not indulge in self medications.

The writer is Clinical Director for Paediatrics, Madhukar Rainbow Children's Hospital

## DadiKaKehna

*Winters are here and with it the usual problems of dry skin, dandruff and cracked heels. A few simple ingredients available in your kitchen can help tackle the issue, says ROSHANI DEVI*

While we all look forward to winters — sitting in front of the fire, drinking tea and talking about everything under the sun; there are some annoying problems that crop up — dry skin and dandruff.

There are many products available in the market but a few home remedies work just as well with long lasting effect.

If you have dry skin, one of the best remedies is to mix two parts glycerin, two parts rose water and one part lemon juice. Keep this in a bottle. Apply on the skin. Avoid areas where there is a break in the skin. Leave it overnight. Wash

with warm water the next morning. One can use this on the face — the results are amazing.

For cracked heels mix beeswax and mustard oil by heating them together in equal parts. Pour it into a container.

Let it cool. Apply over the cracked heels. Wear socks. Wash feet the next morning. Repeat till you get smooth heels. Dandruff is

another winter problem that many face. Mix orange peel powder and coconut oil to make a mask. Apply this on the scalp. Leave it overnight or at least for an hour. Wash off with shampoo. Do this thrice a week till dandruff disappears.

## Ultrasound is key

India is severely impacted by the sudden outbreak of highly infectious COVID-19 pandemic which is overwhelming our healthcare system & the number of patients being diagnosed with it is staggering. Amidst these unprecedented times; Point-of-care Ultrasound (POCUS) technology has emerged as a key screening tool for physicians to access the actual clinical conditions in the medically fragile patients.

Nowadays, compact ultrasound machines are increasingly being used to diagnose, monitor and manage patients in ICU, emergency wards and other inpatient services. For patients diagnosed with COVID-19 infection, it is an excellent adjunct tool for performing comprehensive head-to-toe clinical study & is an ideal device for bedside examination of patients in isolation wards.

COVID-19 primarily attacks the lung in the initial stages of the disease and it can also have significant cardiac manifestations in the later stages of the disease.

Hospitals need to

employ proper set of cleaning protocols for machine disinfection prior to use in COVID-19 isolation wards.

Because the utility of each application varies by setting, hospitals should consider how they can best use ultrasound within their specific environments.

As per the directive from Ministry of Health & Family Welfare (MOHFW) and guidelines of National Centre for Disease Control (NCDC), the portable ultrasound plays a significant role in clinical evaluation of COVID-19 patients and should be considered as an invaluable tool for isolation wards.

Major player in this segment is Fujifilm Sonosite company which has partnered with different medical societies across India and assisting healthcare professionals in their battle against this pandemic by providing them the right technology, disinfection guidelines and ultrasound educational resources.

## INBRIEF

Therapeutic food makers in the country have asked for launching specific programmes at the community level to tackle the problem of Severe Acute Malnutrition (SAM) in the country since Covid restrictions and reverse migration are feared to have led to drop in the nutrition levels in the vulnerable sections of society.

CMAM Association of India, comprising manufacturers of Ready-to-Use Therapeutic Foods (RUTF) globally used in community management of acute malnutrition (CMAM), has extended support to the Government to develop new products so as to eradicate SAM under the PoshanAbhiyan.

In a communication to the Ministry of Women & Child Development, CMAM Association of India has offered to support and implement any feeding protocols to be laid down by the Government in the upcoming nutrition guidelines using its R&D and product development prowess to ensure that the children receive adequate nutrition.

Feeding protocols that use a combination of home-based food and high-quality energy dense nutrition supplement, including all micronutrients, which are easy to transport to villages, deliver to families and administer to children need to be urgently explored, CMAM Association has stated.

According to Ministry of Health & Family Welfare, Children with Severe Acute Malnutrition (SAM) have nine times higher risk of dying than well-nourished children. CMAM Association has pointed out the urgent need for collaboration between Government, therapeutic food manufacturers and civil society to meet the challenge of SAM in the country.

**Sanjana to star opposite Aditya**

Actress **SANJANA SANGHI**, who starred opposite **Sushant Singh Rajput** in *Dil Bechara*, is set to join actor **ADITYA ROY KAPUR** in the forthcoming action film, *OM: The Battle Within*.

“Getting to delve into the action genre so early on, is something I view as an absolute honour. I have immense gratitude for my producers and my director Kapil (Verma) for the potential they have seen in me being able to pull off such a part in our film,” Sanjana said.

“After exploring many scripts and possibilities, *OM* felt just right since it was the spectrum jump I was looking for in terms of throwing myself into an entirely uncharted territory,” she added.

**‘The beauty is Rajkummar (Rao) has never lost his humility and generosity that he always had as an actor. He has remained that same person. What has changed is that Rajkummar has become really popular. I think the success has brought with it some limitations. But his success makes me happy. I feel like a happy parent.’**

**—Hansal Mehta**

Comedian-actor **VIR DAS** feels celebrities should not post videos on social media that show them undergoing COVID-19 tests.

“Please stop posting videos of your COVID tests. From the collection to the test, you are literally doing none of the work. The fact you tilted your head back and managed not to sneeze is not engaging content,” he wrote.

“Hear me out please. There’s someone drenched in a full PPE kit one foot away from you who does this 30 times a day, door to door. You’re not the one struggling. The test sucks for them more,” Vir urged.

**Swift wins ‘Artist of the Year’ at AMAs**

Singer **TAYLOR SWIFT** won Artist of the Year award for the third year in a row at the American Music Awards but had to skip the ceremony.

In 2019, Swift expressed anger over her former record label, Big Machine Label Group, selling her master recordings to Scooter Braun, the manager of singers like Justin Bieber and Ariana Grande. So she was busy re-recording the albums she made with the label.

“Thank you so much for this. This is a fan-voted award, which means so much to me. You guys have been beyond wonderful all the years of my career, but especially this one, when we’ve been so far apart, we haven’t been able to see each other in concert, but I still feel really connected to you through the music,” she shared.

The British Academy of Film and Television Arts (BAFTA) is taking its first step into India with a talent hunt initiative that lets the Academy identify and nurture up to five talents working in film, games or television in India. The exercise, known as BAFTA Breakthrough initiative, is part of the Academy’s year-round effort to support new talent, operating alongside their Awards ceremonies.

The programme has in the past supported artistes such as Tom Holland, Letitia Wright, Florence Pugh, Jessie Buckley, Josh O’Connor and Callum Turner. Coming to India is part of BAFTA’s global expansion effort of the initiative. BAFTA Breakthrough India aims at facilitating the development of relationships between British and Indian talents.

The chosen participants will be offered a year-long support programme from BAFTA and be showcased across India and the UK. By showcasing talent global-

# BAFTA comes to India

The British Academy of Film and Television Arts is taking its first step at global inclusiveness with a local talent hunt

ly, BAFTA Breakthrough aims to push their careers ahead by helping them to learn more about the industry, overcome barriers to progression and network globally with people who can influence their careers.

The programme is a new inter-

national iteration of the successful Breakthrough initiative, which has been running in the UK since 2013 and China since 2019. The effort was launched in the United States this year, supporting over 130 emerging talents to date.

Industry supporters of the initiative in recent years include actors Oliva Colman, Naomi Harris, Tom Hiddleston and Tilda Swinton, actor-producer Brad Pitt, directors Tom Harper and Barry Jenkins, game designers Brenda Romero and Tim Schafer and actor-writers Sharon Horgan and Amy Schumer.

“BAFTA is uniquely placed to facilitate creative partnerships across the moving arts, being one of the only art charities to work across film, games and television and on a global scale,” said Tim Hunter, Director of Learning and New Talent, BAFTA.

“India is one of the most prolific and accomplished industries and a fascinating centre for the screen arts with lots of creative diversity, which extends far beyond the world-famous ‘Bollywood.’ Some of the best practitioners in the world work in Indian film, games and television — and practitioners from around the world have much to learn from them,” Hunter added.

The initiative will showcase and support emerging stars of

film, games, and television in India, supported by Netflix. “We share BAFTA’s vision and responsibility in providing ‘breakthrough’ opportunities to emerging talent. We’re thrilled to extend our support to the programme in India and help amplify our country’s new voices. This initiative will meaningfully bring together creative communities across borders, support their stories, unearth raw talent and provide them with recognition on the world stage,” said Monika Shergill on behalf of the streaming giant.

Under the initiative, BAFTA will work closely with local cultural bodies and industry in India to reach each sub-region and identify excellent individuals. The programme will be supported by a series of craft masterclasses, which will feature British and Indian talent sharing their expertise and insights with the audience across India and the UK.

—IANS

Directed by **RAJAT KAPOOR**, a rendition of the Shakespearean play *As You Like It* comes to screens for Aadyam’s debut digital theatre fest

## FROM STAGE TO SCREEN

How many clowns does it take to recreate a Shakespearean classic on stage and question gender roles while doing this? Well, seven clowns across a runtime of 106 minutes, as seen in veteran director Rajat Kapoor’s clowning glory, *I Don’t Like It As You Like It*, a rendition Shakespeare’s play *As You Like It*, will premiere on the screens with Aadyam’s digital edition this December.

A raging hit, this play was first staged during Aadyam’s second season in 2016 and will be coming back for its digital edition as the theatre takes the stage to the screen. Maintaining the authenticity of its theatre going experience the digital showcase will be a striking affair — to be recorded with a multi camera set up, enveloped for virtual viewing for three limited edition screenings via Insider.in’s digital streaming service for audience across the country.

With equal nervous and excitement about their first play, Shernaz Patel, theatre’s returning artistic director says, “There is great excitement and challenge in reinvention. In taking a show that has been successful on stage and finding a novel way to reinterpret it for the camera. That’s what we have set out to do with all three of our plays, the first of which is this hilarious and boisterous Shakespeare adaptation. We are lucky to have a good lineup of actors with impeccable comic timing. They make clowning seem effortless. And a film and theatre director at the helm, who is a master of this genre. As with all our plays we dream big. We want our viewers to have a theatre experience with high production standards. That’s why we are shooting the play professionally in an auditorium and on a set and not in isolation or on Zoom. This is the closest we can come to the magic of live theatre because the actors will be performing together on the stage, feeding off each other. So beat those pandemic blues and make the stage your world for a couple of hours. Laughter is

‘ONE OF THE BIGGEST CHALLENGES IS THE PROCESS BEHIND RETAINING A PLAY’S IDENTITY AS A THEATRICAL EXPERIENCE. TRADITIONALLY, I HAVE NEVER REALLY AGREED TO THIS IDEA OF RECORDING PLAYS TO BE WATCHED ELSEWHERE BECAUSE I FEEL SOMETHING DIES IN TRANSITION’

the only medicine right now. Let these lovable and joyous characters prove that to you.”

On adapting his play for screen, director Rajat Kapoor adds, “This is one of the biggest challenges — the process behind retaining a play’s identity as a theatrical experience. Traditionally, I have never really agreed to this idea of recording plays to be watched elsewhere because I feel something dies in transition. For me, the play exists for the purpose that it was designed for — to be watched live. Ensuring what we present and how we do it, I believe, will elevate its identity from a mere recording to then hold a deeper meaning for the production and the audience alike. With this firmly in mind, we move forward to present this new version of our play.”

“This digital edition has been months

in the making. We have been evolving and adapting our efforts to suit the needs of the new viewing format. We are all very excited to see the final product and the audience reaction to it,” mentions Brian Tellis, Co-Founder and Group CEO of Fountainhead MKTG that produces and promotes Aadyam in India.

This is the Rajat’s fifth Shakespearean adaptation that is retold through clown style theatre as the plot follows a group of clowns who endeavour to put up *As You Like It*. In the play, the troupe director has no faith in the tale itself and believes it to be a comedy that is ‘two laughs and a death away from tragedy’. A lack of skill, rehearsal space and fondness for his troupe, creates a comedy of errors that takes the spectator on a hilarious ride, complete with gender role reversal led by the thought, ‘Shakespeare made Rosalind Ganymede. What an underachiever. I will make all the men play women, and all the women play men.’

This story explores the highs and lows faced by a circus troupe highlighting the fact that to find yourself, you must become the other. It depicts that behind the smiles and entertainment, these are just ordinary people dealing with stress, angst and the madness that is life.

It has some of the most talented actors — Aadar Malik, Cyrus Sahukar, Faeze Jalali, Joy Fernandes, Ryntasha Rathore, Shruti Vyas and Vinay Pathak.

(The play opens on Insider’s streaming platform on December 7. Tickets are available on Paytm Insider.)

## Sumeet recalls his defining moment

Actor Sumeet Vyas recalls the defining moment when he decided to become an actor, two decades ago. “I think it was 20 years ago. I was already working in the studio as an editor and earning money. Since I grew up watching theatre, surrounded by people who were constantly talking about plays, literature, art, history and culture. I took them as a part of my life, without thinking of taking it up professionally. Then one day, I watched a play in Prithvi Theatre, in which my father acted. After the play ended, when I was returning home, I just told myself I will live to perform — that this is the true calling. I have been acting seriously, since then,” he said.

Sumeet will soon be seen in the web series *Dark 7 White*, produced by Ekta Kapoor.

“It is interesting that in the two shows (with Ekta), I play drastically different characters. Previously on *The Verdict: State vs Nanavati*, I played the lawyer Ram Jethmalani, a much older character. With heavy prosthetics and a different body language, I was almost unrecognisable. In this show, *Dark 7 White*, I play a young man from a royal family who starts off as an aimless brat and turns into a manipulative individual with a great plan. My idea is always to play something different and challenge myself,” Sumeet said. About playing his role, he added that it was “interesting to tap into a mindset that is so multi-layered.”

The series, which also features Nidhi Singh, Jatin Sarna, is on ZEE5 and ALTBalaji.

# Dhoom 2 turns 14

The *Dhoom* series of films became the adrenaline pumping, edge of the seat, anti-hero entertainers and true visual spectacles for the Indian audience. Well, the most loved one, Hrithik Roshan-starrer *Dhoom 2*, is now celebrating its 14th anniversary. And Pritam, who composed the music for the *Dhoom* series, opens up about how he composed *Dhoom Machale*, a track that has entertained generations of Indians.

“I remember that *Dilbara* was the first song to get locked for *Dhoom* and it was Ali’s (Uday Chopra) song. At that time, the title was not fixed. *Dhoom Machale* was one of the songs which was banked for the film. I remember there was a meeting about the film’s title. We were all sitting and brainstorming and Adi came up with putting ‘*Dhoom Machale Dhoom Machale Dhoom*’ in the melody of what we had. I have forgotten what the scratch lyrics were at that time. So, when Adi came up with that, everyone immediately locked onto it and said this is the title of the film and the title song!” says Pritam.

Pritam reveals that he did not expect the title track to become such a rage among the audience. He says, “We never thought that *Dhoom* will become so big. I never thought, I was just hoping that it

cuts through and becomes popular because it was important for me at that time. It’s always important for a song to become popular but at that time I was just hoping and praying. I remember the day *Dhoom* was releasing, I was going to Shirdi and on the way I

heard in two places — one was a car back horn with the *Dhoom Machale* tune and the other when somebody in Shirdi was singing it. Then I knew, *gaana toh popular hogaya!* It was a great gig.”

Recounting his experience of choreographing two of the most

good-looking superstars, Hrithik and Aishwarya (Rai Bachchan), Shiamak says, “I had worked with Aishwarya in *Taal* and before she became Miss World, I’d worked with her already in a Sufi jazz piece, so she was already quite close to understanding my style

and delivering it really well. Hrithik was very new to what I do, but the best part about Hrithik was that he is just so natural with dancing and my kind of style on him worked so well. I think he was also quite excited with the fact that he could do such a different, unusual kind of work from what he was normally doing, which is a very strong Bollywood dance. Suddenly, we were to put a little bit of jazz and contemporary. It was quite a thought process to see him and Aishwarya interpret the song. I was very happy that they both did a good job. I was very proud of them because when they both came in together, it was electrifying!”

Vijay Krishna (Viktor) Acharya, the writer of the series, says, “The success of *Dhoom* told us that there was a possibility of a cooler style of an action film in India. However, Adi was very clear that we should never make a film only to satisfy the idea of a franchise. We have tried to stick to that principle throughout. *Dhoom 2* had everything pushed up a couple of notches, in every department. I think we managed a racy screenplay, one that keeps you wanting to know more and personally, I really enjoyed writing all the characters and their minor quirks.”

He adds, “I remember when *Dhoom 2* was announced, every-

one felt that this will have a natural continuation — since the first part had bikes and this one has cars. But the fact is that you don’t make a film about inanimate objects. Even if there are bikes and there’s action, we are always trying to encapsulate a feeling. You are always trying to convey an emotion, whatever that might be and *Dhoom 2*, with its love story, connected with everyone.”

Talking about Hrithik’s character, Viktor reveals, “Aryan was in the tradition of what we think is the *Dhoom* anti-hero. And for me, the idea was someone who exists within society and yet on the fringes of it. Yes, he is a criminal, but he is somebody who is also looking for things which are only special. He is someone exceptionally good at his craft. Those things went into the making of the character and that helps the actor embody something. It helps the director visualise something. He is actually a passionate collector. Curiously enough, his arc is that through his theft, what he finally manages to steal, is somebody else’s heart and that ends his life of crime. So, in a very unsaid way, there was a kind of redemption to his character. I think both Hrithik and Aishwarya, in that sense, came into the film in a very exciting manner.”

# At 34, my days are numbered: Warner

PTI ■ SYDNEY

Australia's big-hitting opener David Warner on Monday said his "days are numbered" in international cricket and continuing an approach of keeping his aggression in check, he would rather ignore than engage if Indian players attempt to sledge him during the upcoming series.

Warner, in a virtual press conference on Monday, touched upon his evolution as a batsman in the past couple of years.

"I've just recently turned 34, so my days are numbered, when you're in the 30s. There's obviously a risk element but there's obviously a cricket smarts element to it as well," the explosive opener said ahead of the limited-overs series against India starting with the first ODI on November 27.

Warner, who has had his share of aggressive on-field showdowns, said he would prefer to look the other way if Indians try to get chatty with him.

"I'll always draw from that mate. To try and get engaged, that's the way they like to play as well," he said.

"We're learning over time, trying not to engage in that. Probably try and reversing the effect by trying and ignoring it,

trying to take it on board and using it against them by using your bat," he added.

"It's probably something I've learnt over time. And you don't know the effect it can have on your teammates as well. You've got to be a bit more humble in that respect."

Warner said at 34, he has become a calculated risk-taker and is focussed on maintaining a strong strike rate.

"For myself, it's about getting off to a good start and taking calculated risks in that middle-overs period if we're talking about 50-over games," he said.

"For me, it's about making sure that I am batting as much as I can and at a good strike-rate as well. I think last year was probably the most disciplined I've batted in Test match cricket as well.

"I really took pride in the last 12-24 months, to apply that discipline and you keep learning as you get older...You've got to be on top of your game to be able to adapt to that.

Talking about the Indian team, which will not feature in-form opener Rohit Sharma at least in the ODIs and T20Is, Warner said it would be a big hole to fill but Virat Kohli's men do have the wherewithal to manage.

"...Obviously he is a big piece of their team, that they are going to be missing, but they have got great in-form guys KL Rahul, Shikhar Dhawan and Mayank (Agarwal), these guys

## 'Don't think Burns did anything wrong last summer'

IANS ■ MELBOURNE

David Warner on Monday stated that Joe Burns hasn't done "anything wrong last summer" but the left-handed batsman insisted he'll embrace uncapped prodigy Will Pucovski if selected for the much-anticipated first Test against India to be played at the Adelaide Oval from December 17.

Burns — who is Warner's incumbent partner — and Pucovski have been named in the 17-member squad for the Border-Gavaskar Trophy.

Pucovski, who is among

the five uncapped players, has made a strong case for selection in the playing XI with back-to-back double centuries for Victoria in the Sheffield Shield. Right-handed Queensland batsman Burns, however, has had a highest of just 29 in his five innings this season.

"If they go the way of Will, he has batting fantastic and been in and out of the Test squad. He is in the right frame of mind at the moment. It probably is an opportunity for him to come into the team. But as we know it's harder to get out of this team than get in," Warner was

quoted as saying by *cricket.com.au*.

"At the moment I didn't think Joe did anything wrong last summer. We had some great partnerships and averaged over 60. And that's what you want from your opening partnership. And at the end of the day I have to be happy with it and embrace (whoever they pick)," he added.

Warner and Burns have combined six century opening stands and average more than 50 for the first wicket till now — a record bettered only by Warner's combination with Chris Rogers.

"...It's like chalk and cheese with them two (Kohli and Rahane) and as a player to try and engage him on the field, as we're talking about engaging, and getting into that contest as players, it's obviously lots to think about how to do that especially with Ajinkya as captain.

"The great thing from India's perspective is that you've got three if not four very good players who could captain the team at any time. With him, he'll bring a calm and measured approach with his nature."

Warner was seen playing aggressively at the back end of the IPL and he stressed that he won't be changing his game.

"Yeah definitely. What do you want to see? 100 of 10 overs or something? In the one-day stuff, I'll still come out and play the way I normally do. There's probably going to be no change to that," he said.

"Here in Australia, it's a bit different, in 50-over cricket, you can still play the normal way you do and I think I showed that last year, the way I played against Pakistan and Sri Lanka.

"I played pretty much the same way as I did during the backend of that IPL. I won't be changing my game and will go out and tackle it the way I always do," added Warner, who has 5,303 ODI runs.

## Virat bhai said that tough situation will make me stronger: Siraj

PTI ■ SYDNEY

Away from family while agrieving the recent loss of his father, Indian pacer Mohammed Siraj says skipper Virat Kohli's advice to "be strong" has helped him stay afloat as he gears up for a gruelling series against Australia.

Kohli is no stranger to overcoming personal tragedy while carrying on with professional duties. In 2007, Kohli, then a teenager, lost his father in the middle of a Ranji Trophy match but he came back next day to score 97 for Delhi, showing his mental fortitude.

Siraj's father Mohammed Ghouse, 53, died due to a lung ailment in Hyderabad last week and despite BCCI offering him the option to return home, the fast bowler decided to stay put on national duty.

"Virat bhai said 'Miyaan tension maat le (don't be tense) and be strong. Your dad wanted you to play for India. So, do that and don't stress,' the 26-year-old Siraj told *bcci.tv*.

"The skipper told me, 'If you can be strong in this situation, it will only help you'. So those were positive words from the Indian captain and it felt nice."

Siraj's father drove auto rickshaw during his formative years as a cricketer and has been the single biggest influence on the Hyderabad man.

"It's a huge loss for me as

he was the biggest support system of my life. He wanted me to shine for my country and my mindset now is to fulfil his dreams," he said.

Siraj thanked his teammates, who have rallied around him.

"I am indebted to my teammates as they stood by me in these tough times and every thing was well taken care of," he said.

Siraj said even his mother advised him not to abandon the assignment, which starts with the limited-overs leg from November 27.

"Mom said that 'everyone has to go one day. Today, it's your dad, tomorrow it will be me. Just do what your dad wished for you. Play well for India.'"

"May be, he is not physically present but I can feel that he is always there with me," Siraj said.

## Stoinis playing five times better than a year ago: Ponting

PTI ■ MELBOURNE

Batting legend Ricky Ponting believes all-rounder Marcus Stoinis is playing "five times better" than what he was a year ago and could take up "multiple roles" for Australian cricket, including the job of a finisher.

Stoinis scored 352 runs and snapped 13 wickets to play a big role in Delhi Capitals, coached by Ponting, reaching the final of the recent IPL in the UAE. He is in Australia's ODI and T20I squads for the series against India starting on Friday.

Ponting said it was Alex Carey who had told him about Stoinis' incredible turnaround during the IPL.

"From the moment he turned up at the IPL, having come straight from England ... he was pretty keen to show me improvements that he'd made. And his first few net sessions, I could just tell then," Ponting told *cricket.Com.Au*.

"Having spent a fair bit of time with him over the past couple of years, what I saw from him at the IPL suggests to me that he's a five times better player than he was 12 months ago."

The 31-year-old Stoinis was dropped from Australia's T20 squad after a disappointing 50-over World Cup last year. But, he made a suc-

cessful comeback, riding on his incredible performance for the Melbourne Stars in the Big Bash League where he scored 705 runs in a single season and also smashed tournament's highest individual score of 147 not out.

Ponting said Stoinis has proven himself as a finisher but believes he should open the innings.

"I think the future for him either at Delhi or whoever he plays for in T20 cricket will be at the top of the order. I think he can do (the finishing role). I think he's proven that he can do multiple different roles now," said Ponting.

"And I think the more responsibility he gets in the white-ball team, the better he'll be as well. We'll see what happens over the next few weeks (against India), but if he gets a decent chance at it, I think he'll impress everyone."

"With the way he's thinking about the game, with a bit of experience and the consistent exposure he's had with the Aussie guys, I don't think it really matters where he plays."

Ponting also said Stoinis looks "a lot more positive and aggressive against spin bowling now" compared to the past.

## Mitchell Marsh hopeful of comeback in warm-up game

PTI ■ MELBOURNE

Recovering from an ankle injury, Australia all-rounder Mitchell Marsh says he is "hopeful" of playing next month's warm-up game against India 'A' as he eagerly waits for a clear picture to emerge this Friday.

The 29-year-old Marsh suffered an ankle injury in the opening match of the Indian Premier League in September and has been out of action since then.

He was included in the Australia 'A' squad which will play two three-day tour games against India 'A' on December 6-8 and December 11-13 respectively.

"I'm hopeful, I'll probably find out this week whether I'm

ruled in or out," Marsh was quoted as saying by *The West Australia*.

"I'll probably know on Friday, I've got a few things to tick off rehab-wise and then go from there."

Marsh said he won't be able to bowl and might play as a batsman.

"I started running last week and I've got a few kilos to shed before I start playing. It's been a pretty slow process but speaking to a few AFL players about it, it gets pretty good quickly at the end so hopefully that's the case in the next couple of weeks."

"At this stage it will just be batting, I wouldn't imagine I would be bowling until midway through the Big Bash at this point in time."

## Surya should've made cut in Indian team: Lara

PTI ■ MUMBAI

West Indies great Brian Lara feels that a batsman of Suryakumar Yadav's calibre should have been in the Indian white-ball squad for the tour of Australia.

The Mumbai Indians batsman's non-inclusion, despite being seventh in the IPL run-getters' list with 480 runs at a strike-rate of 145 plus, has become a major talking point.

"I see no reason why, looking at the (Indian) squad, he can't be a part of it," Lara said on *Star Sports* show *Cricknet Connected*.

Lara said he is impressed not just by the runs but also the manner in which Yadav has scored them.

"Yeah, definitely. He is a class player. I don't just look at players that score runs, I look at their technique, capabilities under pressure, positions that they are batting and for me."

"Suryakumar Yadav has done such a wonderful job for Mumbai."

The only explanation that has come for the 30-year-old's exclusion is the lack of space in the line-up. Lara said he fits the bill for the No 3 slot.

"He comes to bat on the back of Rohit Sharma, and Quinton de Kock and every time, they are under pressure, he comes in at No 3," he said.

"Just remember, other than the openers, the No 3 batsman in any cricket team is normally your best player, your most reliable player and for me, he (Surya) has been that for Mumbai Indians," he stated.

## Haven't set any personal goals: Gill

PTI ■ SYDNEY

Flamboyant youngster Shubman Gill is looking forward to the challenge of taking on mighty Australia but has not set any personal goals for the upcoming assignments where a good outing could help him cement his place in the Indian team.

Gill has so far played only two ODIs for India and is part of the limited overs as well as the Test squad for the Down Under tour.

"I am really looking forward to Australia because this is my first trip. As a kid growing up, I always watched the matches between India and Australia. I am really excited," Gill said in a video posted by his IPL franchise Kolkata Knight Riders on Twitter.

The 21-year-old batsman headed to Australia after an

impressive outing in the Indian Premier League season with KKR where he accumulated 440 runs in 14 matches.

"The fact that a lot of my friends are travelling with the team, so it will be fun and exciting. But, obviously, when the practice session starts then it's a whole different situation."

"I have not really set any personal goals, but I am really looking forward to the tour," he added.

AFF ■ LIVERPOOL

Liverpool were not derailed by an injury crisis as Jurgen Klopp's men produced a dominant display to beat Leicester 3-0 and move level on points with Premier League leaders Tottenham.

Klopp was missing seven first-team regulars through injury and top scorer Mohamed Salah due to a positive coronavirus test, but Liverpool still swept aside a Leicester team who had started the weekend on top of the table.

Jonny Evans's own goal was just reward for the Reds' bright start before Diogo Jota set a record-breaking start to life at Anfield.

The Portuguese international became the first Liverpool player to score in his first four home league games when he headed home Andy Robertson's inch-perfect cross.

Kasper Schmeichel in the Leicester goal kept the score down as he made a series of second-half saves, notably from Sadio Mane and Jota, while Evans had a lucky

## Mark of champions

Under-strength Liverpool still too strong for Foxes

escape as the post prevented him from scoring a second own goal.

Roberto Firmino thought he had been denied just his third league goal in 24 games when the Brazilian's shot came back off the post and his follow-up was cleared by Marc Albrighton with just 10 millimetres of the ball not over the line.

But Firmino rounded off a brilliant team performance by rising highest to meet James Milner's corner.

Another muscle injury suffered by Naby Keita was the only negative for Klopp on a night when his side showed they will not give up their title easily despite losing centre-backs Virgil van Dijk and Joe Gomez for the rest of the season.

## Inspirational Ibra

Zlatan scores twice in Milan's 3-1 win

AFF ■ NAPLES

Zlatan Ibrahimovic scored twice to bring his tally to 10 league goals this season before limping off with a muscular strain as AC Milan stayed top in Serie A on Sunday with a 3-1 win at ten-man Napoli.

Milan move back two points ahead of Sassuolo — 2-0 winners earlier at Hellas Verona — with Roma third after Henrikh Mkhitaryan scored twice in a dominant 3-0 win over Parma.

Ibrahimovic continued his fine form, heading in a Theo Hernandez cross after 20 minutes, sending in the second with his knee nine minutes after the break.

But the 39-year-old pulled up clutching his left hamstring and was substituted after 79

minutes. The Swede has scored in all six games he has played this season, having missed two after contracting coronavirus.

Coach Stefano Pioli missed the trip south with Covid-19, but his side got their first league win in Naples since October 2010, the season they last won the Scudetto, with Ibrahimovic also on the score-sheet that time.

Napoli played the final half an hour a man down after Tiemoue Bakayoko was sent off for two yellow cards, just after Dries Mertens had pulled a goal back for the hosts.

Norwegian Jens Petter Hauge completed the scoring five minutes into injury time with the 21-year-old getting his first Serie A goal.

## Medvedev tops Thiem for ATP Finals title

AFF ■ LONDON

Daniil Medvedev came from behind to beat US Open champion Dominic Thiem in a gripping encounter and win the biggest title of his career at the ATP Finals in London on Sunday.

The Russian fourth seed was second best for large periods at the empty O2 Arena but found a way back into the contest and prevailed 4-6, 7-6 (2), 6-4.

Medvedev, who beat five-time champion Novak Djokovic and world number two Rafael Nadal earlier in the week, is the first man to beat all three of the world's top-ranked players at the season finale.

The giant Russian, 24, has now won 10 consecutive matches following his title earlier this month at the Paris Masters and his victory will taste sweet a year after a win-

less debut in London.

But it is a painful defeat for Thiem, who also lost in the final of the elite eight-man event last year, to Stefanos Tsitsipas.

"What a match," said Medvedev. "One of my best victories, two hours and 42 min-

utes, three sets against an amazing player."

"Dominic, congratulations already for what you achieved in your career. Your name is already in the history of tennis books."

"It is amazing. You won a Grand Slam this year. You are playing unbelievable. I hope we are going to have many more matches to come on the big occasions like this."

"Of course, I am disappointed, but at the same time I am also proud of the performance of all the week," said Thiem. "Daniil really deserved it. It was an amazing match."

Medvedev is the first Russian to win the ATP Finals since 2009, when Nikolay Davydenko triumphed at the first edition of the season finale held in London. Next year, the tournament moves to Turin in Italy.
