Personal Data Protection Bill in Parliament soon

YSR Congress leader and former MLA Srinivas Reddy on Monday said his party is prepared to push the Personal Data Protection Bill in the Parliament soon.

The bill was introduced in the Lok Sabha in 2018 by the previous Congress-led government, but it was not discussed. Srinivas Reddy, who joined the YSRCP after being dislodged from the Andhra Pradesh legislative assembly, said the Congress’ intention was to bring in a robust data protection law.

The bill seeks to protect the right to privacy of individuals by establishing a framework for regulating the storage, transfer and processing of personal data.

The bill also seeks to provide a mechanism for ensuring that personal data is protected and that individuals have control over their data.
