## CAPSULE

### SC STAYS HC CBI PROBE AGAINST U'KHAND CM

**New Delhi:** The Supreme Court on Thursday stayed the Uttarakhand High Court's "drastic order" for a CBI probe into corruption allegations against Chief Minister Trivendra Singh Rawat, saying it was passed without hearing him and taking "everybody by surprise". The corruption allegations levelled by two journalists pertained to the money transferred allegedly into the accounts of relatives of Rawat in 2016 when Rawat was the in-charge of Jharkhand BJP unit.

### FORMER GUJARAT CM KESHUBHAI PATEL DEAD

**Ahmedabad:** Former Gujarat Chief Minister Keshubhai Patel died here on Thursday after prolonged illness, family sources said. Patel (92) had recovered from Covid-19 recently and was rushed to a hospital in Ahmedabad Thursday morning following health complications, the sources said.

### GOVT BANS EXPORT OF ONION SEEDS

**New Delhi:** The Government on Thursday banned exports of onion seeds with immediate effect amidst rising prices of the bulb in the domestic markets. Earlier, the export of onion seeds was in the restricted category, which means an exporter was required to obtain a licence or permission from the government for shipments.

PTI ■ ISLAMABAD

In a sensational admission, a senior Pakistani Minister on Thursday admitted that Pakistan was responsible for the Pulwama terrorist attack in Jammu & Kashmir in 2019 that killed 40 CRPF personnel and brought the two countries to the brink of a war.

"Humne Hindustan ko ghus ke maara (We hit India in their home). Our success in Pulwama is a success of this nation under the leadership of Imran Khan. You and we are all part of that success," Science & Technology Minister Fawad Chaudhry said in the National Assembly during a debate.

When some of his fellow lawmakers objected to his mention of "success in Pulwama", the Minister said that "after the Pulwama incident, the way Pakistan went inside the Indian territory to target it, the entire media in India was ashamed of it."

However, he didn't retract his statement about "success in Pulwama" under Prime Minister Khan's leadership.

Chaudhry, a close aide of Prime Minister Khan, made the remarks a day after Opposition Pakistan Muslim League-Nawaz (PML-N) leader Ayaz Sadiq said that Foreign Minister Shah Mahmood

Qureshi in an important meeting pleaded to release Indian Air Force Wing Commander Abhinandan Varthaman, who was captured by the Pakistani Army on February 27, 2019 after his MiG-21 Bison jet was shot down in a dogfight with Pakistani jets.

In the early hours of February 26, 2019, the IAF jets bombed the Jaish-e-Mohammad (JeM) terror camps in Balakot in Khyber Pakhtunkhwa of Pakistan and avenged the Pulwama terrorist attack that claimed the lives of 40 CRPF personnel.

The international community led by the US has pressed Pakistan to deny safe haven to terror groups operating from its soil and bring the perpetrators

of the Pulwama attack to justice.

"Legs were shaking and forehead perspiring, and the foreign minister (Qureshi) told us, 'For God's sake, let him

(Varthaman) go back now because India is attacking Pakistan at 9 PM in the night", Sadiq said, recalling the high-level meeting which was also attended by Army chief Gen Qamar Javed Bajwa, and added that "India was not planning to attack...They just wanted to kneel before India and send back Abhinandan."

Chaudhry, who was the Information & Broadcasting Minister at the time of the Pulwama attack, criticised Sadiq's remarks and termed them as "inappropriate".

He said Sadiq lied with a lot of confidence regarding his statements and asserted that everyone has the right to disagree with the Government but the state should not be subjected to criticism.

## Pak leaders shaken with fear as its Min pleaded for release of Abhinandan lest India attack

**Islamabad:** "Legs were shaking and forehead perspiring" at a meeting of Pakistan's top leaders, including Army chief General Qamar Javed Bajwa, wherein Foreign Minister Shah Mahmood Qureshi

pleaded to release Indian Air Force Wing Commander Abhinandan Varthaman, saying if he was not released, India would attack Pakistan, a top Pakistani opposition leader has said.

## MEA: World aware of Pak-sponsored terror

PNS ■ NEW DELHI

Brushing aside Pakistan objection on reference to it backing terrorism in the 2+2 India-US dialogue, India on Thursday said the whole world knows about its role in supporting terrorism and no amount of denial can hide this truth.

This terse statement by the Ministry of External Affairs came in response to Islamabad's objection to references to it and cross-border terrorism in the India-US joint statement after their 2+2 dialogue on Tuesday here.

External Affairs Ministry Spokesperson Anurag Srivastava said the country that provides shelter to "maximum number of UN-proscribed terrorists" should not even attempt to play the victim card.

"The whole world knows truth about Pakistan's role in supporting terrorism," he said at a media briefing while

answering questions on Islamabad's reaction to the Indo-US joint statement.

"Even their leaders have time and again spoken about their role with regard to terrorism," Srivastava said.

In the joint statement, India and the US on Tuesday strongly condemned cross-border terrorism in all its forms and asked Pakistan to take "immediate, sustained and irreversible" action to ensure that no territory under its control is used for terrorist attacks.

In its reaction, Pakistan on Wednesday called it "unwarranted" the reference made towards it. "We reject the Pakistan-specific reference in the joint statement," issued by India and the US after their 2+2 ministerial dialogue," the Pakistan Foreign Office had said in its reaction.

The India-US statement also asked Pakistan to take immediate, sustained and irreversible action to ensure that

no territory under its control is used for terrorist attacks, and to expeditiously bring to justice the perpetrators of all such attacks, including 26/11 Mumbai, Uri, and Pathankot.

The two sides "emphasised the need for concerted action against all terrorist networks, including al-Qaeda, ISIS/Daesh, Lashkar-e-Tayyeba (LeT), Jaish-e-Mohammad (JeM) and Hizbul-Mujahideen," the statement said.

Reacting to the joint statement, the Pakistan Foreign Office said, "We reject the Pakistan-specific reference in the 'joint statement', issued by India and the US after their '2+2 Ministerial Dialogue', as unwarranted and misleading."

The Pakistan Foreign Office also said the world should recognise the sacrifices and successes in fighting terrorism by it. Islamabad also said the country has suffered the most from cross border terrorism.

## Covid recoveries now close to 95K in State

PNS ■ RANCHI

The number of Covid-19 recoveries in Jharkhand drew close to the 95,000 mark on Thursday after at least 461 more Covid patients tested negative for the virus, figures compiled by the health department stated.

While the number of active cases dropped at 5,294 after Thursday's findings, the number of Covid casualties further rose to 883 after three more patients breathed their last in 24 hours, highlighted a bulletin released by National Health Mission (NHM). The Covid-19 mortality rate in Jharkhand, as per government records, was 0.87 per cent against the national average of 1.50 per cent.

Covid recoveries outnumbered the fresh cases of infection on Thursday, taking the Covid-19 recovery rate in the state close to 94 per cent. As many as 395 people, including 78 from Ranchi and 61 from East Singhbhum, were found infected across Jharkhand on the day, the NHM bulletin stated.

Although none of the 24

A medic collects swab samples from a girl for COVID-19 test, amid the ongoing Unlock 5.0, in Ranchi on Thursday Vinay Murmu / Pioneer

districts in Jharkhand reported a triple digit spike in Covid cases, Ranchi reported the highest number of cases among all the districts in the state on Thursday. As per government records, there were around 1700 active cases of Covid-19 infection in Ranchi on Thursday, while around 1300 people were battling the infection in East Singhbhum.

Of the 883 Covid victims in Jharkhand, at least 333 were from East Singhbhum and 175 from Ranchi, which means that nearly 60 per cent of the Covid fatalities reported in

Jharkhand so far occurred in these two districts. At least 669 of the 883 Covid victims were older than 50 years, while 173 were in the age bracket of 31 to 50 years. At least 38 Covid victims were younger than 30 years.

The government on Thursday tested swab samples of 31,564 people and 31,169 of them tested negative. As per government records, health workers in Jharkhand have collected swab samples of around 32.46 lakh people and tested around 32.33 lakh of them.

Barring Dhanbad, Ranchi and East Singhbhum, all the districts in Jharkhand reported less than 50 fresh cases of infection on Thursday. The count of active cases was below 1000 in all the districts apart from Ranchi and East Singhbhum.

As per government records, Jharkhand's Covid-19 doubling rate was 168.19 days against the national average of 126.11 days. The growth rate of the infection in the state was 0.36 per cent against the national growth rate of 0.59 per cent.

Death toll rises to 883

## BJP Govt wanted to alter CNT-SPT laws: CM

'Bypoll results won't affect our Govt'

PNS ■ RANCHI/BERMO

Sharpening his arsenal against the BJP and its allies ruling at the Centre and also the former BJP Government in Jharkhand Chief Minister Hemant Soren on Thursday charged the former BJP Government led by then CM Raghuraj Das of trying to alter the centuries old land laws existing in the tribal State for safeguarding the land of tribal ad indigenous people.

The JMM executive president addressed several political meetings in Dumka and Bermo as part of the campaigning for bypolls on the two seats and used Santhali language to woo the voters at many places.

During his speech in Bermo constituency the JMM leader fiercely targeted the former CM and the previous Government for its policies. He said that the Government led by Raghuraj Das to abolish the CNT and SPT Acts, but his plan was not successful due to Opposition.

"The BJP government only worked on anti-people policies. Ration cards of 11.5 million poor people was cancelled.

Chief Minister Hemant Soren addresses a gathering during an election campaign rally in support of Congress candidate Kumar Jaimangal, ahead of the Bermo bypoll, in Bermo on Thursday Pioneer photo

The people of the State were trampling during his tenure," said the JMM executive president. He said that within 15-20 days the State government will distribute dhoti, saree and lungi for only Rs 10, the tender for which has already been completed.

Soren further said that even in the lockdown, when life was completely stalled, the

Government fought back with limited resources and took care of people by providing them food and dry ration. Not a single person was remained hungry, whereas during the tenure of the previous Raghuraj Government, more than two dozen people died of hunger, he added. He said that the Raghuraj Government could not release even a single

result of JPSC, while the incumbent regime got the result out and brought new officers in the State.

The CM said that the recruitment of teachers was declared illegitimate. "Today, teachers are preparing to fight till the Supreme Court for justice," he said. Referring to the road from his native village Nemra to Pargul in Kasamar, he

said that during his previous tenure, the government approved the plan for the construction of this road and laid the foundation stone, but the Raghuraj Government could not build it even in five years.

He said that the whole country is devastated by the actions of the Modi Government. "Things of common need have also become expensive. Onion is being sold at Rs 80 per Kg and potato at Rs 50 for a Kg. The central government has no control over inflation," he said.

Soren said, "For the first time after the formation of the State, we have formed a government of 50 MLAs with great difficulty. BJP can only trick people. He appealed to make the grand alliance candidate Jayamangal Singh victorious by a huge margin of votes."

Bermo candidate Jayamangal Singh said that he will fulfill the incomplete dreams of his father. MLA Naman Vizal Kongadi, MLA Bandhu Tirkey, former MLA Yogendra Prasad, JMM District President Hiralal Manjhi, JMM leader Devsharan Hembram, Radhanath Soren along with others were present on the occasion.

## Covid survivors could carry virus: Research

Findings show 16.7% recovered patients tested +ve in follow-up

PNS ■ NEW DELHI

Covid-19 survivors should not drop their guard and should avoid close contact with others as they could still be carrying the virulent coronavirus, researchers have said.

According to a study, published in the American Journal of Preventive Medicine, close to 17 per cent of patients considered fully recovered, as per the WHO criteria, from Covid-19 tested positive for the virus in follow-up screening.

Patients who continued to have respiratory symptoms, especially sore throat and rhinitis, were more likely to have a new positive test result.

This suggests the persistence of these two symptoms should not be underestimated and should be adequately assessed in all patients considered recovered from Covid-19. Researchers from Agostino Gemelli University Policlinic

Covid-19 IN INDIA
<b>TOTAL</b>
<b>CASES: 80,71,140</b>
<b>DEATHS: 1,20,910</b>
<b>RECOVERED: 73,48,735</b>
<b>ACTIVE: 6,00,095</b>

looked at a group of recovering Covid patients to see how their bodies react after treatment and quarantine.

The study included 131 patients who all met the WHO's guidelines for ending quarantine following their infections. Those guidelines require a patient to be fever-free without using medications for three days. They must

also have an improvement in their symptoms and test negative for Covid twice at least 24 hours apart.

"Researchers have focused on the acute phase of Covid-19, but continued monitoring after discharge for long-lasting effects is needed," said the study lead author Francesco Landi from Catholic University of the Sacred Heart in Italy.

A new RT-PCR test was administered at the time of post-acute care admission.

Demographic, medical, and clinical information was collected, with an emphasis on the persistence of symptoms and signs related to Covid-19 such as cough, fatigue, diarrhea, headache, smelling disorders, loss of appetite, sore throat, and rhinitis.

## Violence in Munger; DM, SP shifted out

Protesters set on fire furniture after clashes with the police over immersion of Goddess Durga idols in Munger on Thursday PTI

PNS ■ NEW DELHI

Fresh violence erupted in Munger on Thursday even as the Election Commission (EC) shifted out Bihar's Munger District Magistrate Rajesh Meena and Superintendent of Police Lipi Singh. The protesters set some police stations and outposts on fire and ransacked the SP office.

The EC has also ordered an enquiry into the firing and stone-pelting during the immersion of an idol of Goddess Durga on late on Monday in which one person had died and several others

were injured.

The poll body has asked Magadh Divisional Commissioner Asangba Chuba Ao to complete the probe within a week. The EC has also asked the State Government to appoint a new DM and SP in the district soon.

Meanwhile, in a fresh violence, the agitated crowd, comprising mostly youth, set police outposts at Purab Sarai and Basudeopur on fire, and ransacked the SP office and several other police stations and outposts. The office of SDO was also allegedly targeted by the protesters.

## Mehbooba, Omar slam Centre after PDP workers' protest stopped

MOHIT KANDHARI ■ JAMMU

Two former Jammu & Kashmir Chief Ministers Omar Abdullah and Mehbooba Mufti jointly mounted a fierce attack on the Central Government after police in Srinagar stopped the Peoples Democratic Party (PDP) chief from joining protests by her party workers against the new land laws on Thursday.

Several PDP workers were prevented by the police from

taking out a protest march and the PDP office was sealed after detaining party workers.

Reacting strongly, National Conference vice president Omar Abdullah lashed out at the Central Government asking if it wants political parties in the State to leave mainstream politics in Kashmir.

"What do you want from us? Do you want us to leave mainstream politics here?" former Chief Minister Omar Abdullah asked.

# ‘Selfie corner’ to spread greater awareness on Covid

29,500 tests to be conducted in next 10 days

**PNS ■ JAMSHEDPUR**

Amidst threat of surge in Covid-19 cases during Diwali, the district administration is working on different ways to spread awareness on the deadly virus. In a latest move, the administration has come up with a ‘selfie corner’ in front of the SSP office. It has been designed in a way that vis-

itors can take pictures and also spread messages of social distancing.

“Though the spread of coronavirus has slowed down but the threat is not yet over. We are working on innovative ways to defeat the virus completely. For this it is important to ensure compliance of Covid-19 protocol,” said an official.

He informed that as part of the health department’s strategy, they have decided to conduct 29500 tests in the next 10

days. The focus of the initiative is to cover rural areas. As per the plans 2950 tests will be conducted every day.

He further added that peo-

ple should not expect any relief till the Diwali festival is over. People tend to go out more during this period, increasing the chances of exposure as well as spreading infection. The slight decline in daily cases in the last few days should not be interpreted as the end of the virus.

The official said that the department is also taking several preventive measures in view of the festive season. People who are visiting markets are being subjected to random testing. According to information, the Deputy Commissioner Suraj Kumar has asked its team to work on an action plan so that there is no spike in fresh cases. He iterated that the next 10 days are crucial and he directed all the officials to expedite corona testing in coming days.

## National leadership must protect territorial integrity, sovereignty of nation: Rukhiyar

## BSF Meru camp organizes seminar on Indo-China relations

**SHAILESH SHARMA ■ HAZARIBAG**

The Border Security Force training center and school and subsidiary center Meru, Hazaribag conducted a seminar during the National police commemoration fortnightly programme in the seminar hall of the center. The keynote speaker of the seminar was Dr Bansidhar Rukhiyar, Registrar of Vinoba Bhave University. The seminar was inaugurated by the center commandant, IG, Ravi Gandhi. The topic of the seminar was ‘National Security and Indo Chinese Relationship’.

The keynote speaker Bansidhar Rukhiyar said in his speech that National security is of utmost concern for any nation. On the issue of the Indo-China situation he said it is easier said than done, given the situation when you are confronted with a hostile and powerful neighbour like China, which has been behaving like a rampaging bull all around the world.

He further said that all the other Chinese neighbours have meekly surrendered to the Chinese bullying as they are incapable of standing up to China. He said that India has stood up to all challenges from its neighbour since 1967 and its battle-hardened soldiers have given befitting replies to the opponents.

Rukhiyar said that this time our brave soldiers have taught a lifetime lesson to the Chinese soldiers and exploded the myth of their invincibility.

IG Ravi Gandhi said that keynote speaker Rukhiyar has cleared the concept and he has narrated the present situation in his speech in an excellent way. “We are thankful to Rukhiyar to spare the time for the seminar,” he said.

In the seminar all the officers and subordinates staff were present.

# Vedanta Signs MoU with NABARD to create farm-based livelihood opportunities for farmers

**Bokaro:** Vedanta-Electrosteel (ESL) has signed an MoU with the National Bank for Agriculture and Rural Development (NABARD) and Government Sava Sangh (GSS) under the PPP (Public-Private Partnership) Model with an objective to create a farm-based livelihood opportunities for farmers under Corporate Social Responsibility.

The MoU was signed by A K Padhi, CGM, NABARD, Pankaj Malhan, CEO, ESL Steel Ltd. and Vikash Rao Sathe, Secretary, GSS with an aim to create a farm-based livelihood opportunity for 500 farmers and to develop a 500-acre agricultural hub in and around ESL’s CSR operational area, informed an ESL Public Relation Official.

The unique project has four components: Soil and water management, orchard development, sustainable agriculture and development of farmers based institutions, said the official.

Pankaj Malhan, CEO, ESL Steel Ltd said, “This is the most popular developmental program of NABARD. Under the WADI project, tribal families are supported for developing a one-acre orchard in waste or dry land owned by them, along with inter-cultivation.”

# BJP, Cong star campaigners missing this bypolls

PNS ■ RANCHI

The contest for Bermo and Dumka by elections will see three parties-- BJP, Congress and JMM-- bringing local leadership each to garner support for their respective candidates.

Unlike last year's Assembly election, where all three parties BJP, Congress and JMM used the power of star campaigner mostly central leadership and even chief ministers of different states making whirlwind tours addressing rallies, these bypolls will miss all such hula-balo.

Sources said that no Central leaders from BJP and Congress will campaign for the November 3, bypoll, which the JMM has termed it as battle of prestige, while

Opposition BJP has termed it 'a referendum of State government'.

Sources said earlier, the state Congress leadership has lined up Chhattisgarh chief Minister Bhupesh Bhagel, Rajasthan Congress leader Sachin Pilot among others. However, later the Congress leadership decided to use the skills of local leadership in campaigning.

From Congress, State Congress president and Finance Minister Rameshwar Oraon is leading the campaign trail. Apart from Oraon, Agriculture Minister Badal, Health Minister Banna Gupta and Parliamentary Affairs Minister Alamgir Alam are star campaigners.

As the Congress is con-

Chief Minister Hemant Soren, Congress party candidate for Bermo by-election Kumar Jaimangal, Rural Development Minister Alamgir Alam, Health Minister Banna Gupta and other Mahagathbandhan leaders join hands during an election campaign rally ahead of Bermo bypoll, in Bermo on Thursday

Pioneer photo

testing from Bermo seat, which fell vacant due to untimely death of Rajendra Prasad Singh, who had represented the seat for six times, the Congress

is banking on sympathy votes and work carried out by Singh for more than three decades. The Congress from this seat has given ticket to late Singh's

son Jaimangal Singh.

Not only Congress, the BJP also is missing star power campaigners. The BJP star campaigners including, Prime

Minister Narendra Modi, Union Home Minister Amit Shah and BJP president JP Nadda and others are busy in Bihar elections, the party is banking on former chief ministers Raghubar Das, Arjun Munda and Babul Marandi. These three leaders are campaigning in Bermo and Dumka seats.

From JMM, like previous year chief minister Hemant Soren has taken the campaign torch.

The JMM which is contesting Dumka by election has fielded Basant Soren the younger brother of Hemant Soren from the seat. As younger Basant is contesting the election, entire Soren family is working day and night for victory of Basant.

## Lockdown blues trigger matrimonial disputes in Capital

PNS ■ RANCHI

The lockdown restrictions have triggered a rise in matrimonial disputes over petty issues in Ranchi, members of the District Legal Services Authority (DLSA) said on Thursday, highlighting that over 300 cases of matrimonial disputes were referred to the DLSA for mediation during the six months of lockdown.

"We received over 600 cases of domestic disputes from March to October. At least 300 of them were matrimonial disputes, and we have settled 151 of them via video conferencing during this period," said DLSA secretary Abhishek Kumar.

Sharing some of the cases that were mediated by DLSA, Kumar said that a doctor couple, married for around five years, filed a divorce case with a Ranchi court during the lockdown while both the spouses were on Covid-19 duty in different states. The doctors decided to part ways as they failed to devote time to their marriage during the crisis, which created rifts between the two. Eventually, the couple had to be counselled via video conferencing by the mediation centre of the

DLSA in Ranchi, and they were now reconsidering their decision of parting ways.

Similarly, a Ranchi woman in her late twenties had filed a divorce case against her husband, settled in Raipur, after they could not meet each other for six months during the nationwide lockdown enforced in wake of the Covid-19 pandemic. The DLSA offered counselling to the couple via video conferencing, and they eventually started living together after the lockdown restrictions were lifted.

Kumar added that most of the matrimonial disputes that were mediated by the DLSA were triggered during the lockdown. In some cases, the couples fought while they were locked at home during this period, and in some cases, the physical distance between the couple became the bone of contention.

"There has certainly been a rise in matrimonial disputes triggered by the lockdown restrictions. Mediation played an important role in counselling the couples and encouraging them to give their marriage another chance," said Kumar.

DLSA gets 300 cases for marital mediation since March 25

Dr. Nishant Goyal, an assistant professor of Clinical Psychiatry at the Central Institute of Psychiatry (CIP) in Ranchi, said that the overall stress associated with the Covid-19 pandemic and its effect on the livelihood of people also contributed to irritability in couples.

"Most of such cases would have been triggered over petty issues, and that is the reason why mediation helped in settling the matter," said Goyal. "The work from home practice, which the lockdown encouraged, exposed couples to each other's professional stress. The anxiety associated with losing their jobs or getting infected may have also played a role," he added.

Goyal said that there was also a rise in cases of domestic violence in Jharkhand during the lockdown, an independent survey done by the CIP revealed. The final report of the survey was not out yet, but the figures indicated a surge in cases of domestic violence, he added.

"Spending the entire day together over a period of several months could be one of the triggers for friction between couples," said Goyal.

## Link farm loan accounts with Aadhaar: Badal State Govt begins work on loan waiver scheme

PNS ■ RANCHI

The State Government has started to work on its pre-poll announcement to waive farm loans. On Thursday, Agriculture Minister Badal instructed in a meeting held with the officials of the State Level Banking Committee (SLBC) that banks should give details of NPA accounts within five days to bring uniformity in the data format of the indebted farmers.

Badal has directed all the officials in the meeting to bring the farmers' loan waiver scheme on the ground so that the loan accounts of all the indebted farmers could be linked to Aadhaar and mobile number by running a campaign. Within a month, verification of accounts of loans of all farmers at district and block level should be ensured by the bank concerned, he added.

Badal instructed all the officials in the meeting to meet the entire district and block level bankers committee within the month of November and establish coordination and ensure the work of linking the bank accounts of all the indebted farmers with Aadhaar through BLO and KVEC should be ensured. "The Deputy Commissioner and departmental officers should also provide necessary support in this work. In this context," he added. Badal said that whatever data the banks have related to farmers, it has to be brought on a single platform so that the true status of the loans of the farmers of the State can be assessed. He said that for this, all banks should coordinate with SLBC and prepare a

Agriculture Minister Badal holds a meeting with senior officials of State Government and SLBC in Ranchi on Thursday

Pioneer photo

platform, as well as a data platform will be prepared on behalf of the department in collaboration with the IT department and both portals will be integrated. Also, the Agriculture Minister instructed that all departmental officers should contact the officers of various banks and get the CAT status wise status of NPA within the next five days. To enable farmers to get the benefit of the Government's loan waiver scheme, publicity should be ensured through all banks and departments' he added.

It may be noted that the government has provided Rs 2000 crore in the annual budget under the debt waiver scheme.

Development Commissioner, KK Khandelwal, Secretary, Revenue and Land Reforms Department, KK Soan and Finance Secretary, Himani Pandey and Agriculture Secretary, Abu Baqr Siddiqui were present in the meeting.

## CCL holds painting workshop to give message to control corruption

PNS ■ RANCHI

The observance of Vigilance Awareness Week continued across Central Coalfields Limited (CCL), a subsidiary of Coal India, on the third consecutive day. In this series a live painting workshop was inaugurated at CCL headquarters in Ranchi by CCL, Chairman cum Managing Director (CMD), PM Prasad in presence of Director Technical (Operations), VK Srivastava, Director Tech (P&P), Bhola Singh, CVO SK Sinha and other General Managers, HoDs and employees of the company

Twenty-five artists from across the State will unleash their creativity and spread the message of vigilance awareness on theme "Vigilance India, Prosperous India, through their paintings. The two-day long workshop will end on Friday with the felicitation of the artists by the company. The Guests were escorted to the venue by tribal dancers, who showcased the intrinsic culture of the State through their dance. The dignitaries also paid

Central Coalfields Limited (CCL) CMD PM Prasad alongwith senior officials during 'Vigilance Awareness Week' 2020 at CCL in Ranchi on Thursday

Pioneer photo

homage to the coal workers who lost their lives in the duty. Later in the day a mobile photography contest and a musical show was also organized at CCL premises.

Speaking on the occasion PM Prasad said that events like these engage the different stakeholders in the celebration of vigilance awareness week. He congratulated the artists on their efforts and wished them luck for the creative endeavours. CVO Sinha encouraged the artists and asked them to paint in accordance to the theme of the Vigilance awareness week.

Sinha in his address said that the theme of this year is very relevant to the Country and artists too can play a very important role in this connection and play a significant role in making the Country prosperous.

A plethora of activities are being undertaken by CCL at its HQ Ranchi and across its operational areas to celebrate this occasion. The theme of this year's celebration is Satark Bharat, Samridh Bharat (Vigilant India, Prosperous India). Quiz competition too was organized related to the vigilance awareness in which a large number of employees and others participated.

All the safety protocols related to Covid pandemic were adhered. Everybody present wore masks and followed social distancing.

GM (Vigilance), AK Singh along with other employees of the vigilance department played an important role in the success of the event. Senior Manager (Pers), Alok Gupta played a key role in organizing the live painting workshop.

## 3 hacked to death in Khunti

PNS ■ RANCHI

Khunti police on Thursday recovered highly decomposed bodies of three members of a family who were abducted about 21 days back and beheaded on suspicion of practising black magic.

Deceased were identified as Birsu Munda, his wife Sukru Purty and daughter Somwari Purty, natives of Kuda village under Soyklo police station area. Their bodies were dug out by the police near the bank of the Raba river under Soyko police station area.

"They were murdered on the charges of witchcraft. They were beheaded and the accused dumped them together in a ditch. We have information that nine accused had perpetrated this crime out of which three have been arrested namely Soma Munda, Raghu Munda and Vishram Munda. We are carrying out raids to arrest remaining accused. Accused during interrogation had disclosed about the place victims were buried. In the evening bodies were recovered and sent to hospital for post-mortem. Accused and victims hail from same village," said Khunti SP Ashutosh Shekhar.

The SP said that about a

month back a woman of the village died a few days after delivering a baby. Husband and family members of that deceased woman suspected Birsu, his wife and daughter have cast evil eyes upon her. SP said that the husband of that woman is among the nine accused.

On October 7, accused abducted Birsu, his wife and daughter and hacked them to death. However, police came to know about the abduction five days after Birsu's other daughter Telani lodged an FIR at the police station.

Accused have now been booked under section 302 (murder), 362 (abduction) besides other relevant sections of IPC and Sections 3, 4, 5 of Prevention of Witchcraft Act.

Meanwhile, the BJP has expressed concern over rising number of murder cases related to witchcraft.

"In the last one week in Jharkhand as many as five cases of murder have taken place and all related to witchcraft. It is time for the Jharkhand government to wake and take strong action. Social welfare department and Jharkhand Police should do a social audit as to why such incidents have been taking place," said former MLA and BJP spokesperson Kunal Sarangi.

## INBRIEF

### ECR HOLDS WEBINAR ON VIGILANCE AWARENESS

Vigilance Awareness Week -2020 is being celebrated from 27 October to 02 November this year under the aegis of East Central Railway. On this occasion, a Vigilance webinar was organized by Deendayal Upadhyay Division on 29.10.2020 under the direction of Senior Deputy General Manager / ECR / Hajipur with the theme "Vigilant Bharat Samruddhi Bharat".

### VIGILANCE AWARENESS WEEK AT CENTRAL BANK

Vigilance Awareness Week was inaugurated at Central Bank of India Ranchi region. On this occasion, staff members at Regional Office, Ranchi and all branches of the region took pledge of truthfulness and Integrity. During the week-long vigilance awareness week, various programs will be organized to make all staff members and customers aware. On this occasion Satish Kumar, Chief Manager, Sanjit Kumar, Vigilance Officer, Suvir Kumar, Chief Manager, Avinash Kumar, Chief Manager, Vijay Kumar Verma Chief Manager along with other staff members also attended the programme.

### CONGRESS PAYS TRIBUTES TO KARTIK ORAO

On the birth anniversary of former Union Minister Karthik Oraon, who strengthened the Congress organization in Jharkhand, he was paid warm tributes at the State Congress Bhavan in Ranchi today. State President cum State Finance and Food Supplies Minister Dr. Rameshwar Oraon, who was present as the chief guest at the Karthik Oraon Jayanti function organized by Jharkhand Pradesh Professional Congress Committee, inaugurated the program by lighting the lamp and paying floral tribute to his portrait. The function was presided over by the President of the State Professional Congress Committee, Aditya Vikram Jaiswal, while State Congress Committee spokesperson Alok Kumar Dubey, Lal Kishore Nath Shahdev, Dr. Rajesh Gupta Chhotu were present as distinguished guests.

### CMDIL HOLDS WORKSHOP

During Vigilance Awareness Week 2020, Vigilance Department, CMPDIL organized a workshop on "Conduct, Discipline and Appeal Rules (CDA Rules) and Certified Standing Order (CSO)". The webinar was conducted in association with HRD Department of CMPDIL. Pushkar, GM (Vigilance), Alok Kumar, GM (HRD) and B. Srinivasu played an important role in successful completion of this Webinar. In the afternoon session, an Essay Competition for the Executives of CMPDIL HQ and Regional Institute-III was organized at Koel Hall, STC, CMPDIL.

### WORLD STROKE DAY

On the occasion of World Stroke Day Dr Maya of Paras HEC Hospital, Ranchi has said that by controlling diabetes, cholesterol, and blood pressure and avoiding use of alcohol and tobacco one can remain safe from the perils of stroke. She asked people to include regular exercise in their routine and do regular checkup of Blood Pressure and sugar level. She said that if a patient is hospitalized within three hours (Golden Hours) of stroke then there are greater chances of the recovery of the patient. Explaining various facets of stroke the Doctor said that if a person feels weakness in parts of body then he/she should consult a doctor immediately.

### BOB OBSERVED VIGILANCE AWARENESS WEEK

Following the instruction of the Central Vigilance Commission on Thursday Bank of Baroda (BOB), Ranchi Circle observing Vigilance Awareness Week from October 27 to November, 3. On this occasion messages of the President of India, Vice President of India and the Prime Minister were shared. Vigilance Awareness week celebrates the week in which Sardar Vallabh Bhai Patel's birth anniversary falls. BOB, Regional Manager, Manoj Kumar solemnised

### CMPDIL TO OPEN EARTH SCIENCE MUSEUM

On the occasion of CIL Foundation Day-2019, CMPDI Management has decided to open its Earth Science Museum for Common Public as well as for school students (with social distancing) on 01 November to 30 November from 10 AM to 1 PM (excluding holidays on 16, 20 & 30 November as well as Saturdays & Sundays). This Museum is having unique and exceptional models and sculptures related to origin of earth, human evolution, coal mining methods, etc. Information pertaining to the coal resources and reserves in the country can also be visualized in the museum. Also, specimen of different minerals, rock and precious materials can also be visualized in the museum, which is alluring and informative. Other than this, models of different coal extraction methods, coal sampling and coal washing technique working models can also be seen.

### STREET PLAY UNDER VIGILANCE AWARENESS WEEK

Under the special vigilance week being observed from October 27 to November 2 by the Indian Railways, street plays at Ranchi, Muri and Hatia stations of Ranchi Railway Division was organised by the cultural department and India Scout and Guard on October 28 for passengers and employees. Sudip Mandal from Indian Scout and Guard and Madhavi from the cultural department specially contributed in making the programme a success.

### PLEDGE UNDER NATIONAL UNITY DAY

On National Unity Day which is observed on October 31 on the birth anniversary of Sardar Vallabhbhai Patel, Piyush Goyal Minister of Railways and Minister of Commerce and Industry administered an oath through video conferencing to the officers and employees of the Indian Railway Division on October 29. "I pledge sincerely that I will dedicate myself to uphold the unity, integrity and security of the nation and will do my best to spread the message. I am taking this oath in the spirit of unity of our country, which was made possible by the vision and actions of Sardar Vallabhbhai Patel. I also pledge to make my contribution to ensure the internal security of our country," stated the oath. From Ranchi Division, DRM Neeraj Ambastha, Additional Railway Divisional Manager (Infra) Ajit Singh Yadav, Additional Divisional Railway Manager (Operations) Madan Mohan Pandit and others took the oath.

### 3 HELD IN PALAMU FOR DRUG PEDDLING

Town police remanded three people including a bachelor of engineering in making and a girl along with a drug addict and peddler in judicial remand today and recovered 8 small packets of the white substance believed to be a brown sugar and more than 90,000 rupees in cash from the house of the drug lady Shanti Devi in the town said SDPO Sandip Kumar Gupta on Thursday.

## Baba Dham temple opens for devotees from other States

PNS ■ RANCHI

A large number of devotees turned up at Baba Baidyanath dham temple, Deoghar in the beginning of this week to pay obeisance and do Jalabhishek as the doors of the famous temple were opened for devotees from all over the country.

Earlier, the temple doors were opened for devotees of only Jharkhand, but, the district administration lifted restrictions for devotees of other states too.

Moreover, the district administration also lifted the restrictions on the number of devotees entering the ancient abode of Lord Shiva. Earlier, there were restrictions on entry of only 1000 devotees, but from Monday onwards around 1500 devotees in a day can make entry through e-pass.

Deoghar, DC Kamleshwar Prasad Singh said, "The doors of Baba Baidyanath dham temple Deoghar were opened for devotees from other states too. Entry of devotees will be made maintaining the social distance norms."

However, as per Deoghar district administration directives entry of children, sick and elderly people above the age of

Baba Baidyanath Dham Temple in Deoghar

File photo

65 years will be restricted.

Earlier, as per Supreme Court directives, the Deoghar district administration on last Monday of Shravan month (August 3), opened the doors of Baba Baidyanath dham for devotees. Later, on August 27 the temple's doors were opened for devotees.

The district administration has made elaborate arrangements for entry of devotees. Pilgrims will have to

collect their e-passes for entry.

The e-passes will be issued to ensure safety amid the coronavirus pandemic. Also, only 125 devotees can offer prayers per hour adhering to the protocols of safety and social distancing. For devotees entering from other states, they have to follow all the Covid 19 guidelines. Devotees not following Covid guidelines will have to undergo 14 days quarantine.

Meanwhile, the devotees have welcomed the decision of Deoghar district administration to reopen the temple door. Mahesh Sharma, a resident of Bariatu Colony said, "My daughter lives in Munger and for the past few months she was waiting for the temple door to reopen for other states. Now the government has given relaxation she can visit the temple and pay her obeisance to Lord Shiva."

Devotees have been asked to wear masks, keep sanitizers and follow social distancing norms.

Nestled in Deoghar in the S a n t h a l Pargana, Baba B a i d y a n a t h dham is one of 12 Jyotirlingas of Lord Shiva. The temple complex has one main temple of Baba Baidyanath, along with 21 other temples. The Jyotirlinga is in the main temple.

## Revellers head to Patratu, Netarhat to beat blues

DIVYA MODI ■ RANCHI

After being cooped up in their homes for over seven months, travellers have gradually started stepping out with utmost precautions. Owing to the pandemic, while domestic or international destinations remain a farfetched dream for many, tourists are seen flocking to places within Jharkhand that are just a few hours drive away.

Destinations like Netarhat, Patratu, McCluskieganj are being swamped with enquires from revelers, who would earlier head to Goa or to the foothills of the Himalayas.

"Since the time the resorts have been opened to the public, tourists have been visiting the properties. With restrictions allowing visitors from other states also being lifted, we are expecting more travellers in the coming months. Netarhat and

Patratu have seen a steady flow of holiday goes in the past few weeks with people from various parts of Jharkhand visiting for a short break," said Alok Prasad, Manager, Jharkhand Tourism D e v e l o p m e n t Corporation. Referred to as the 'Queen of Chotanagpur', Netarhat was thronged by tourists during the long Durga Puja weekend.

"With low key celebrations and a long weekend, Netarhat had a flurry of tourists visiting

Netarhat.

City based travel operators claim that queries for McCluskieganj and Patratu have been on the rise as compared to enquiries about international destinations.

"The resorts in McCluskieganj and Patratu have been witnessing a steady flow of visitors. For added safety against the virus, visitors are using their own mode of transport. Mukutmanipur, Panchet Dam and Ajodhya Hills- all on the Jharkhand- West Bengal border have been running to full capacity with about 50-60 percent booking being made from Jharkhand. Tourists are gradually stepping out which is a good sign as only then will their confidence increase and they will opt for domestic as well as international destinations in times to come," said Manas Mukherjee from Jai Tours and Travels.

TO SECURE COMMUNICATION SYSTEM

Army develops own messaging app SAI

PNS ■ NEW DELHI

In an effort to have secure communication system in the backdrop of Pakistan-based agencies hacking smart phones of the Indian security personnel, the Indian Army has developed its own messaging app. It is named ‘SAI’ (Secure Application for Internet). It will help the Army officers to talk to each other in a safe system of their own and not be apprehensive of spying by the rival agencies. In fact, the army had to ban more than 90 apps in the last one year to avoid spying. The Navy banned the use of smart phones by its personnel while sailing on warships after some personnel were allegedly trapped by a Pakistani based agency and made to reveal operational information. Seen as big boost to the ‘Atmanirbhar’ project, the app

is similar to other messaging apps like WhatsApp, Telegram, SAMVAD, GIMS & supports an end to end encryption messaging protocol. The SAI app also supports secure voice, text & video calling service for Android users. The SAI scores over on security features with local in-house servers and coding which can be tweaked as per requirements. “The application has been vetted by a CERT-empowered auditor and Army Cyber Group. The process for filing Intellectual Property Rights (IPR), hosting the infrastructure on NIC and working on iOS platform is currently in progress. SAI will be utilised by the Army to facilitate secure messaging within the service,” the Army said. Defence Minister Rajnath Singh reviewed the functionalities of the app and complimented Colonel Sai Shankar

for his skill and ingenuity in developing the application, the statement added. The indigenously designed system comes at a time when there were concerns over the use of commercial mobile applications by the Army officials for communicating with each other thereby compromising security. The Army had ordered its personnel earlier this year to delete popular apps such as Facebook, Truecaller, Instagram and games like PUBG from their mobile phones. The order was intended to plug leakage of sensitive national security information from phones of armed forces personnel. The in-house application has been developed by Colonel Sai Shankar. The army has also developed a software for infrastructure management.

NIA raids 7 more locations in terror funding case

PNS ■ NEW DELHI

In continuation of Wednesday’s search operations, the NIA on Thursday conducted more searches at seven locations in Srinagar, Baramulla, Anantnag and Kulgam (Jammu and Kashmir) and two locations in Delhi in connection with the case relating to certain NGOs and Trusts raising funds in the name of charitable activities and then using those funds for carrying out secessionist and separatist activities in the Valley. The NIA had registered the case on October 8, 2020 under Indian Penal Code Sections relating to criminal conspiracy and sedition besides various provisions of Unlawful Activities (Prevention) Act. The case was registered on a directive from the Union

Home Ministry following receipt of credible information that certain NGOs and Trusts are collecting funds domestically and abroad through donations and business contributions etc. in the name of various welfare activities such as public health, education and the like. Further, these funds were sent to Jammu and Kashmir through various channels such as hawala and cash couriers and are used to carry out and sustain secessionist and terrorist activities in J&K, the NIA said in a statement. The latest round of searches were conducted at JK Yateem Foundation at Srinagar and Kulgam, The Salvation Movement at Srinagar, run by Zafar Akbar Bhat, Human Welfare Foundation at Delhi and Anantnag, Jammu and Kashmir Voice of Victims at Baramulla, run by Abdul Qadeer, Falah-e- Aam Trust at Budgam, run by GM Bhat and Charity Alliance, at Delhi, run by Zafar ul Islam.

₹10,211 crore allotted for safety, upkeep of 736 dams across country

PNS ■ NEW DELHI

Cabinet Committee on Economic Affairs (CCEA) on Thursday allotted ₹10,211 crore for the safety and maintenance works of 736 dams across the country. The CCEA also approved Ethanol purchasing policy and increased procurement prices of different levels of Ethanol products benefitting sugarcane farmers and extended the mandatory use of jute materials for packaging benefitting the jute industry. “The CCEA chaired by Prime Minister Narendra Modi has approved the Dam Rehabilitation and Improvement Project (DRIP) Phase II & Phase III with the financial assistance of the World Bank (WB), and Asian Infrastructure Investment Bank (AIIB) to improve the safety and operational performance of selected dams across the whole country, along with institutional strengthening with system wide management approach. “The project cost is ₹ 10,211 crore. The Project will be implemented over a period of 10 years duration in two Phases, each of six years duration with two years overlapping from April, 2021 to March, 2031. The share of external funding is ₹7,000 crore of the total project cost, and balance ₹3,211 crore is to be borne by the concerned Implementing Agencies (IAs). The contribution of Central Government is

₹1,024 crore as loan liability and ₹285 crore as counter-part funding for Central Component,” said Union Minister Prakash Javadekar detailing the Cabinet meeting decisions in media briefing. The CCEA approved fixing higher ethanol price derived from different sugarcane based raw materials under the Ethanol Blended Petrol (EBP) Programme for the forthcoming sugar season. “The price of ethanol from C heavy molasses route be increased from ₹43.75 per lit to ₹45.69 per litre. The price of ethanol from B heavy molasses route be increased from ₹54.27 per lit to ₹57.61 per litre. The price of ethanol from sugarcane juice / sugar / sugar syrup route be increased from ₹59.48 per lit to ₹62.65 per litre,” said Government in a statement. “Consistent surplus of sugar production is depressing sugar price. Consequently, sugarcane farmer’s dues have increased due to lower capability of sugar industry to pay the farmers. Government has taken many decisions for reduction of cane farmer’s dues. With a view to limit sugar production in the Country and to increase domestic production of ethanol, Government has taken multiple steps,” said Javadekar. The CCEA also approved that 100% of the foodgrains and 20% of the sugar shall be mandatorily packed in diversified jute bags. The decision to pack sugar in diversified jute bags will give an impetus to the diversification of the jute industry.

Minister warns of actions for Covid protocol violations at Srinagar airport

PNS ■ NEW DELHI

The Union Civil Aviation Minister Hardeep Singh Puri on Thursday promised to take immediate action after a passenger posted images on Twitter of people flouting social distancing protocol at the Srinagar airport. Sanjay Raina, who posted three pictures on Twitter on Thursday morning showing passengers standing extremely close to each other during a security check at the airport. Raina tagged Puri in his tweet, saying: “Shocking violation of #COVID19 protocol , sheer incompetence of authorities & security personnel at #SrinagarAirport. Horrible to say the least. Someone needs to take responsibility. Hats off to airline staff still managing.” In his response, Puri said that he had discussed the matter with Arvind Singh, Chairman, Airports Authority of India (AAI). “We will check the facts & take immediate corrective action,” the minister added.

Hi-tech gadgets to help clean Ganga ghats in Yogi's UP

PNS ■ NEW DELHI

The Uttar Pradesh Government has chalked out a ₹10 crore plan to cleanse the Ganga Ghats in the State with the help of CCTVs and state-of-the-art gadgets. The cleaning and monitoring plan will be executed in phases, with work to be first rolling out from religious hotspot Kashi. Around 200 CCTVs and best of state-of-the-art gadgets will be deployed to cleanse and monitor sanitation work at the ghats which are thronged by thousands of devotees every day. The officials posted at the Ganga Namami Department of the Yogi Government will monitor the activities sitting in their offices in Lucknow through the computers connected with the 200 CCTVs installed on the Ghats. “The 200 CCTV cameras to monitor the safety and cleanliness of the Ghats will be directly connected to the computers of officials associated with the Namami Gange project at Lucknow, the capital of the State,” said an official from the State Government. The task is in keeping

with the promise made by Prime Minister Narendra Modi and State Chief Minister Yogi who have promised to make Ganga incessant and clean. Not only the ghats, efforts are already being undertaken to keep cleanse the constituency of Prime Minister Narendra Modi so as to make it a role model. For executing this mammoth task, the UP Government has already started the process of selection of an agency. This time along with cleaning workers, modern machines will also be deployed on the Ghats. The waste released from the Ganga Ghats will be collected into these machines to be recycled to ensure that the garbage does not again flow into the water and spoil ghat on the bank of the river. After 79 ghats of Kashi, the Namami Gange department is also working on a plan to rejuvenate the cleaning system of 19 ghats of Prayagraj, 20 in Bithur, 21 of Kanpur Nagar, 27 ghats of Mathura and Vrindavan. “With the completion of the job at Kashi, work will be started at other ghats as well,” said the official.

# Cops, babus acting as political servants of TMC: Guv to Shah

**SAUGAR SENGUPTA ■ KOLKATA**

There is no rule of law in Bengal which had been reduced to a police State, Governor Jagdeep Dhankhar has told Union Home Minister Amit Shah with whom he met in Delhi on Thursday.

Alleging that the Mamata Banerjee Government had reduced Bengal into a “Banana Republic,” the Governor said that he was anguished about how the next year’s Assembly

elections would be conducted the State.

Emerging from a meeting with Shah the Governor said “you don’t have any idea of what is happening in West Bengal. The law and order situation has completely crumbled down. Police and bureaucrats are working as political servants of the ruling party. The crime statistics has gone up and Al-Qaeda is spreading its fangs in Murshidabad.”

Alleging that, the State had been reduced to a “police state” and a “banana republic” he said that all his requests for information on the state affairs are ignored by the Government.

“It is my duty to save the Constitution. ... I believe in reformation and that can happen only through dialogues. But they hardly respond to my letters. Under such circumstances, how can a constitutional head like me have a sound sleep?”

He however remained evasive about whether Bengal had become a fit case for President’s Rule though he said that there was a “virtual anarchy” in Bengal and the political violence had become a matter of concern.

“Political leaders are getting killed. The power of corridors in the state is infested by non-state actors. This is surely not democracy,” he said even as the ruling Trinamool Congress leadership launched a scathing

counterattack on the Governor saying “he is a liability for Bengal.”

Bengal Minister Partho Chatterjee said “so much has been said by him and so much has been said about him in the past one year that nothing more is left. ... And all such discourses have only proved that he is acting as the BJP’s spokesperson who has converted the Governor’s House into a party office. Less said about him the better.”

Another senior leader said that there was nothing new in what the Governor had said on Thursday.

Rather what is new is the timing of his visit to Delhi and meeting with the Home Minister which took place hours before his shifting of office to Darjeeling for a month.

“Had he gone to meet the Home Minister just before his Darjeeling trip people would have said that he has gone to

take the briefing on his political activities in Darjeeling... Now he can at least say that he had gone to brief the Home Minister about the State of affairs in Bengal and in the disguise he is carrying back instructions on what he has to do in Darjeeling,” where he will stay for a month from November 1.

Meanwhile all hell broke loose at Bagnan in Howrah where the BJP supporters

clashed with the police during a saffron party sponsored bandh to protest against the inordinate delay by the administration to conduct second post portem on a slain party worker who was allegedly murdered by the TMC men about a fortnight ago.

The police resorted to lathi charge after the angry saffron workers threw burning tyres in front of the local police station. Several persons were arrested, sources said.

## Andhra allows Govt schools, colleges to reopen from Nov 2

**IAN S ■ AMARAVATI**

Andhra Pradesh has allowed All Government schools and colleges to reopen from November 2 with all precautionary measures amid the Covid pandemic.

Chief Secretary Nilam Sawhney confirmed that the state government is going ahead with reopening educational institutions. The date for reopening schools was already communicated earlier, even as the uncertainty over colleges has also been cleared now.

“Schools would be run on alternate days in three phases for which officials are making arrangements. Precautionary measures would be taken to contain the spread of Covid-19,” Sawhney said.

As part of the reopening,

classes 9, 10 and intermediate first and second year will function on alternate days for only half a day.

Likewise, all Higher Secondary colleges will also start functioning from November 2 on rotation basis and from November 23, classes 6, 7, and 8 would start functioning on a half day basis. “Classes 1, 2, 3, 4 and 5 would start functioning from December 14 on alternate days and on a half-a-day basis. The same schedule would apply to all government schools and colleges,” she added. Though the state government thought of reopening schools almost a month ago, it extended the reopening by a month, to a time when active Covid cases have come down to around 26,000.

## Vijayan blames Centre, investigative agencies for arrest of Sivsankar

**KUMAR CHELLAPPAN ■ KOCHI**

Chief Minister Pinarayi Vijayan blamed the Centre and its investigating agencies for the arrest of his former Principal Secretary M Sivsankar who was arrested by the Enforcement Directorate late Wednesday night in connection with gold smuggling and money laundering.

Briefing the media about the Covid-19 situation in Kerala on Thursday, Vijayan read out a prepared statement to express his displeasure over the way central agencies are handling the gold smuggling scam though he remained silent about the arrest of Bineesh Kodiyeri, son of party strongman Kodiyyeri Balakrishnan.

“A senior Customs official (Anish Rajan IRS) had told the media that there was no interference from the Chief Minister’s Office to get the baggage addressed to the UAE Consulate released. But he was transferred out of the State overnight and there was no reaction from anybody about this transfer,” said Vijayan when asked about the arrest of Sivshankar.

He said the whole gold smuggling scam, LIFE Mission corruption charges and other allegations were part of the strategies of the Congress and the BJP to portray the government in poor light. “This will not work. We stand committed to the upliftment of the poor and downtrodden,” said the chief minister.

Instead of directly attacking the Centre, Vijayan opted to read from Congress President Sonia Gandhi’s article published in a newspaper recently about how the Centre was misusing its probe agencies to target and victimise opposition parties. “Rahul Gandhi too had told recently that he was a victim of the political vendetta,” said Vijayan.

The Chief Minister claimed he had no acquaintance of any kind with Sivsankar. “He was appointed to my office based on his experience in different departments of the government and that was how I met him,” said Vijayan.

But a senior IAS officer said that Sivsankar was an officer promoted to the IAS from the State Government cadre and he was a senior leader of the SFI during his student days.

## NIA raids 4 locations in Assam, Maha in Delhi gold smuggling case

**PNS ■ NEW DELHI**

The National Investigation Agency (NIA) on Thursday conducted searches at four locations in Guwahati (Assam) and Sangli (Maharashtra) in connection with the Delhi Gold Smuggling Case.

These locations are premises related to accused persons and their handlers from where they used to give effect to the commission of crime,” the agency said in a statement here.

The NIA further said, “During the searches, incriminating documents and electronic devices containing details of suspicious transactions as well as of the persons involved in the instant crime, who are also having linkages abroad

including Myanmar and Nepal, were seized.”

The NIA had registered the case on September 16 this year which relates to seizure of 83.62 Kg of smuggled gold bars having market value of Rs 42.89 crore at New Delhi Railway Station on August 28, 2020 from the possession of eight accused persons.

Interrogation of these accused has so far revealed that they had collected the said consignment from Guwahati for its further delivery at New Delhi on the directions of their handlers who are suspected to have sourced the smuggled material from Myanmar, Nepal and Bhutan, it said, adding further investigation is continuing.

## Maharashtra logs 91 deaths, 6,738 cases

**TN RAGHUNATHA ■ MUMBAI**

Amid the continued flattening of the Covid-19 curve, Maharashtra on Thursday witnessed an upward fluctuation in deaths and a dip in the number of infections in various parts of the State.

A day after the state logged 91 deaths and 6,738 infections, the daily death tally went up to 156, while the infected cases dropped to 5,902. With 156 fresh deaths, the Covid-19 toll in Maharashtra rose from 43,554 to 43,710. Similarly with 5902 fresh infections, the total infected cases jumped from 16,60,766 to 16,66,668.

As 7,883 more people were discharged from various hospitals in the state, the number of people discharged from various hospitals after full recovery since the second week of March this year went up to 14,94,809. The recovery rate in the state rose from 89.53 to 89.69 per cent.

Of the 156 deaths reported on Thursday, Mumbai accounted for a maximum of 33 deaths, while there were 27 deaths in Pune, 19 in Thane, 11 in Solapur and 10 in Nagpur.

In the lower range, there eight deaths in Nanded, 7 each in Satara and Sangli, 4 each in Ahmednagar, Ratnagiri, Jalna and Chandrapur, 3 each in Nashik and Akola, 2 each in Palghar, Raigad, Aurangabad, Beed, Washim and Bhandara and one each in Parbhani, Latur, Osmanabad, Amravati, Buldhana and Gadchiroli As many as 11 districts reported zero deaths. With 34 fresh deaths, the Covid-19 toll in Mumbai toll shot up from 10196 to 10229, while the infected cases rose by 1120 to trigger a jump in the infections from 2,54,240 to 2,55,360.

## UP cops booked in corruption case

**PRADEEP SAXENA ■ ALIGARH**

The Inspector of Kanpur branch EOW (Prevention of Corruption Organization) has registered a corruption case at Lodha police station against SO and an inspector posted in Lodha. One of them is currently SO at Pisaawa police station in the district, while another is on suspension from Meerut. After the registration of this case, departmental action against Pisawa SO is fixed.

## CPM leader’s son held by ED in drug case

**KOCHI:** The CPI(M) in Kerala suffered two major setbacks on Thursday which has put the party in a dilemma as it gets ready for the elections to the local self Government and the legislative Assembly.

M Sivsankar, former Principal Secretary to Chief Minister Pinarayi Vijayan, was sent to the Enforcement Directorate’s custody for seven days on Thursday by the District Sessions Judge, Ernakulam in connection with charges of gold smuggling, money laundering and interference in the functioning of other department of the Government. Later in the day, the ED arrested Bineesh Kodiyeri, the controversial son of CPI(M) strongman Kodiyyeri Balakrishnan on charges of narcotics smuggling.

Sivsankar was arrested by the ED late Wednesday night following the Kerala High Court dismissing the former’s anticipatory bail application. The IAS officer, a former leader of the CPI(M)’s student wing SFI, was the most powerful bureaucrat in Kerala who was addressed as “Super CM” by other ministers in the cabinet and other bureaucrats, was considered as Vijayan’s eyes, ears and words.

The arrest memo served on

Sivsankar by the ED officials tells that the IAS official had accepted during the questioning that he had spoken to a senior Customs Official at Thiruvananthapuram airport at the instance of Swapna Suresh to get the baggage seized by the agency released. “This clearly shows your active involvement in the offences committed by Swapna. This also amounts to misuse of public office and interference in the official working of other Government departments,” said the ED memo. It further states that Sivsankar has helped Swapna Suresh in all the gold smugglings and other illegal operations held by her in the past.

The CPI(M)’s woes got aggravated by Thursday afternoon when the ED arrested Bineesh Kodiyeri, second son of Kodiyyeri Balakrishnan, the party’s state secretary, in connection with charges of drug trafficking. The ED officials had summoned Bineesh to Bangalore for questioning on Thursday to elicit more details about his association with Anoo Mohammed, a notorious drug smuggler. Mohammed is in the custody of Narcotics Control Bureau for his role in the infamous drug trafficking gang busted by it recently. **PNS**

## Jyotiraditya’s test

The MP bypolls would prove if he can indeed get even with former CM Kamal Nath and earn his stripes in the BJP

The byelection in Madhya Pradesh may have got swamped by the Assembly polls in Bihar and its results may not threaten the ruling BJP Government in the State. But it is significant in deciding the political future of stalwarts both within the BJP and the Congress. The number game is fairly settled. The BJP currently has 107 seats in the 230-member Assembly, with the support of Independents, Samajwadi Party (SP) and Bahujan Samaj Party (BSP) MLAs. So, given its ambition to do without props of any kind and consolidate its position as the single largest party, it would just about need to win nine of the 28 seats going to the polls and cross the half-way mark. The Congress has 88 MLAs after Jyotiraditya Scindia revolted and took 22 loyalists with him to the BJP, toppling the Kamal Nath Government. It would need to win all 28 seats to cross the halfway mark, a tall order, though party hopefuls are arguing that even 20-plus seats could keep it in the running as it could manage the deficit by co-opting smaller parties. This presumptive logic isn’t much to bet on. The desperation of the Congress is understandable considering it wants to prove a point to Jyotiraditya that his exit hasn’t really affected the party’s grassroots matrix. In one word, therefore, the bypolls are his test. He may have defected with the loyalists but can he ensure vote transference with such ease? Particularly when the Congress is relentlessly calling him a traitor, even drawing on his family history to show how the Scindias betrayed Rani Laxmibai. Besides with most of the seats going to the bypolls being located in the Gwalior-Chambal region, which has the highest number of caste atrocities and violence and where the Dalit vote swing matters politically, Jyotiraditya has to have an umbrella appeal to win and not just depend on his legacy. His being in the BJP could actually be a liability as this is a BSP bastion and its people were at the forefront of protests against the dilution of the Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act in 2018. Besides, the BSP is contesting all seats here this time and unless, as a kingmaker, its chief Mayawati decides whom to side with in the event of a mixed verdict, the going could be tough for Jyotiraditya. Of course, his staunch follower and Dalit candidate, Imarti Devi, whom Kamal Nath insulted, could mop up some of the sympathy votes from the community at the expense of the Congress. The BJP has obliged Jyotiraditya for catapulting it back to power by giving tickets to the rebel MLAs loyal to him. This has not been to the liking of its Chief Minister Shivraj Singh Chouhan, who wouldn’t want Jyotiraditya to challenge his stature. So the latter has to prove his mettle in his adopted party by ensuring the maximum wins. If he does, his stakes will rise but if he fails, then he could be badly marginalised. As it is, the State BJP campaign is still pivoted around Chouhan and has hardly taken note of the new entrant. This is Jyotiraditya’s big chance to prove his political currency and if he fails, he will be of no use to any party. Not even Congress. In fact, if Jyotiraditya succeeds, it would be the most effective message of getting even with Kamal Nath and convincing the grand old party of the need for a generational change. If he does really well, he could even get a Central Ministry, something he has been wanting since he crossed over.

Though the BJP needs single digits to coast home, Chouhan wants to win at least half of the seats to show that he is not dependent on Jyotiraditya’s clout. Having conceded tickets and ministerial berths to the young leader’s group following Central pressure, the Chief Minister wants to show he is in command. But Chouhan is caught between the criticism of his handling of COVID-19 and the challenge from Union Agriculture Minister Narendra Singh Tomar, who has the blessings of the Central party leadership to undercut him. As far as Kamal Nath is considered, the bypolls are his last chance to take another shot at chief ministership. But with below the belt attacks and scorning a woman legislator, he may have just scripted his own downfall. Kamal Nath has an axe to grind with Imarti Devi, who is a Jyotiraditya Scindia loyalist and defected with him to the BJP. In fact, the sexist remark against her came days after and probably as a hitback to her accusation that Nath bribed MLAs when he was Chief Minister, that he gave cash doles of ₹5 lakh to Congress MLAs who could not be granted ministerial posts. In retrospect, her needless victimisation only drew attention to his greed for power by managing numbers. Of course, the seasoned politician he is, he knows how to work the arithmetic in case of an adverse scenario. But the old-style politics may not work at a time when the BJP won’t be sparing any resources either to ensure that one party-rule flows from the Centre to other States.

## DU imbroglio

The power tussle between the Vice-Chancellor and the Pro-VC only harms the most prestigious university

Delhi University (DU) is not only India’s largest and most prestigious Central university, home to several top colleges of the country, it is also the most politically active. However, what is happening in DU right now is unprecedented in its 98-year history as President Ram Nath Kovind has ordered an enquiry against Vice-Chancellor Yogesh Tyagi on the grounds of “misconduct” and “dereliction of duty.” Tyagi has been suspended till the probe is completed since he can influence the investigation while in office. Much of this has been precipitated by the health of the Vice-Chancellor, who had to be admitted to AIIMS

on emergency grounds back in July and a Pro-VC, Professor PC Joshi, had to be appointed. However, after Tyagi returned to work, he tried to invalidate several appointments made by the Pro-VC, even those that had been cleared by DU’s Executive Council. The row escalated when Tyagi appointed Professor PC Jha as the interim Registrar despite the Union Ministry of Education’s claims that the new order was not effective as the VC was still on leave while issuing it. However, the Executive Council resolved that Professor Suman Kundu would continue as Director, South Campus and acting Registrar till a permanent Registrar was appointed. This was followed by Tyagi removing Professor Joshi as Pro-VC and appointing Geeta Bhatt in his place. Meanwhile Joshi had notified the appointment of a new Registrar, Vikas Gupta, whose interview had been completed and appointment cleared by the Executive Council. This is a truly bizarre and ridiculous situation, particularly when the 2020-2021 academic year is about to start. By initiating an enquiry against Tyagi and completely clipping his wings, his term is as good as over. However, the Ministry should take its fair share of the blame here. When the V-C was admitted to hospital in an emergency condition, it should have stepped in to put a system in place. At the same time, it has consistently overlooked past lapses flagged against Tyagi, including not filling vacant positions, delay in redressal of sexual harassment cases and vigilance complaints in university, mishandling of the issue of ad-hoc teachers, which led to a massive agitation, and non-submission of detailed plans for implementation of the Institution of Eminence (IoE). The last straw came in the form of certain appointments he made while being on medical leave.

This mess needs to be immediately rectified by the Ministry and if Tyagi is to be removed, a new V-C must be found post-haste. This is a situation that is unprecedented and if elections and a pandemic were not ongoing, this would be the top headline of the day. This development is not surprising after decades of Ministers and bureaucrats striking at the autonomy of Central universities. Institutions of higher learning thrive when they are allowed to function independent of the Government and where the V-C is prided for his integrity and not seen as a political appointee.

REENA AMOS DYES

In mid-October, a 17-year-old girl, Neema (name changed) was found by the Uttar Pradesh (UP) Police in a dazed state, hungry and delirious. Sold to traffickers by her poverty-stricken parents on the advice of “well-meaning” neighbours in her village in Madhya Pradesh, the teenager had escaped from her tormentors in Delhi. Neema walked and hitch-hiked for three days to cover a distance of 200 km before she was spotted by concerned passersby and the police in Hathras. Unaware of her whereabouts and determined to reach home, she was still 794 km short of her home in Mandla district when she was rescued. The girl told the police that there were 12 other minors like her, confined to one room in Delhi. Fortunately, they all managed to escape.

Neema is not the only child from her village to have been trafficked. Several others like her have been sold by needy parents. This story is repeated over and over again in India, particularly in rural areas. India is starving and its children are bearing the brunt of this hunger. They are being sacrificed at the altar of the crippling poverty that has worsened because of the sucker punch delivered to the already tottering economy by the Coronavirus. As feared by the experts in the field of rescue and rehabilitation of trafficked children, the number of minors, particularly girls, sold to traffickers for as little as ₹10,000-₹50,000, has grown alongside the number of people rendered jobless by the pandemic. As a result, desperate parents, having to choose between survival of the family for a little while longer and their love, chose the former. So many girls and boys were sold to traffickers across the country.

This is despite the fact that Articles 23, 39, 14 and 21 of the Constitution guarantee every child freedom from exploitation in any form. The Immoral Traffic (Prevention) Act, 1956 was enacted in pursuance of the International Convention signed at New York on May 9, 1950 and it was amended in 1986 to widen its scope to cover all citizens. However, according to rights advocates, the Act has glaring lacunae as it fails to define the term “traffice” or “trafficking” and aims to penalise those who aid and abet commercial sexual exploitation. Therefore, its focus on the def-

# opinion

## Nobody’s child

Fuelled by a pandemic-hit economy and the lack of personal accountability, India’s child trafficking problems have further worsened

inition of the term brothel leads to the inference that commercial sexual exploitation takes place only in a brothel and not in other places, such as in a house. The Act is clearly not victim-centric as women and children, who are forced into prostitution, are also treated as criminals and arrested when raids are conducted.

Similarly there are several other laws to protect the rights of children, such as the Commissions for Protection of Child Rights Act, 2005, the Right of Children to Free and Compulsory Education Act, 2009, the Protection of Children from Sexual Offences Act, 2000. The rights of child labourers can be adequately secured only if the monitoring and controlling provisions contained in the said statutes are fully implemented. However, they are not despite the Supreme Court insisting upon their applicability.

In 2013, the top court lamented that despite its directions, little or no progress was made by the States in protecting the rights of children. Thus, we have horror stories emerging from across the country. Desperate children, sold to traffickers by impoverished parents, making hopeless bids to return home to the same parents who pushed them into the hell in the first place.

Though Neema and several others like her have escaped for now, not everyone is so lucky. Thousands of children are being trafficked globally for initiation into the sex trade, to be recruited as bonded labour, drug runners, child terrorists or human shields. The International Labour Organisation has predicted that with the pandemic ravaging economies globally,

the world may witness an increase in child labour for the first time in 20 years and there is a huge risk of years of progress in this arena being reversed. First, it was hunger induced by the lockdown that fuelled the trafficking. And now that the economy has opened up, it is the demand for cheaper labour and bigger margins by businesses. Closer home, ever since the lockdown was imposed and then eased a few months later in phases, Delhi-NCR has become a hub of trafficking as more and more children are being rescued from factories and brothels.

The Delhi Commission for Protection of Child Rights rescued 93 children from gold and jewellery factories in Karol Bagh in May. Of them, 57 were below the age of 14 and some were even 10-year-olds. The rest of the children were between 14 and 18. Then in July, nine child labourers were found working at several scrap shops in North East Delhi’s Mustafabad. But these rescues are like a drop in the ocean as the lockdown slowed down such initiatives as well. There was a time when only 27 per cent of the Anti-Human Trafficking Units were functional. Thankfully, in September, 36 children under 14 years were rescued from bangle-making units in West Delhi’s Jahangirpuri area where they were made to work for 15 hours a day and sleep in the same dingy room. All lured or sold on the promise of food and a roof over their heads.

Nobel laureate Kailash Satyarthi, Chairperson of NGO *Bachpan Bachao Andolan*, estimates that in Delhi, “at least five lakh children are in full-time

jobs. That means every sixth child is out of school and working somewhere.”

Every time we hear such statistics, we are shocked and angry. Even more disturbing is the fact that these children are there in our midst, suffering abuse, hardship, deprivation and long hours of work in dingy, dark and polluted places where they have no business to be. We are blissfully ignorant of this invisible, silent and hapless workforce. The tiny factory workers, who are well hidden from our sight, toil to pander to our penchant for buying things at discounted prices, the cheaper the better. But we are content sweeping our collective guilt under the carpet, simply because they do not torment us visibly.

We do know that certain industries traditionally employ children. Like *bidi* factories, the carpet industry, the garment sweatshops, incense and firework factories, brick kilns, the farm sector and so on. But when buying these products, do we ever take the pain to ensure that the brand that we are purchasing has nothing to do with child labour? It is our demand for cheaper products that in turn creates the demand for child labour as businesses then can keep the cost of production down and their margins up. We don’t bother to boycott goods over unethical trade practices. If we did so, the factory owners would have revised their norms. So, by extension, we are as guilty as the perpetrators of the crime of trafficking and hiring child labour.

And what about child labourers, who are staring us right in our faces? What of the minor

hired to “baby-sit” children? Or the ubiquitous *chotus* (apprentices/assistants) all over India, selling *chai* at the local tea shop and even delivering it to our offices and at the railway station? What of the little boy cleaning the car in the neighbourhood, his little hands and muscles straining to carry a heavy bucket full of water? Or the shoeshine boy, the child manning a roadside *dhaba*, serving food to customers? Have we ever bothered to question the people who hire them or even inform the law enforcement authorities about their presence? Clearly we do not want to get out of our comfort zone and easily attribute it to a societal crime, without realising we form the society that condones it. We could have picked up the phone and called the NGOs and rights activists who can help the child in distress. But we don’t do that either.

And what about children caught in the sex trade? If people stop watching child pornography, there will be no market for it. If men stop violating minor girls for a price, there will be no market for it again. So, on all counts, society is as guilty as the criminals who traffic children.

Apart from a mindset change, there has to be community alertness and personal accountability by each citizen. There must be non-Governmental and Government intervention to ensure that hapless parents do not take the extreme step of trading their children for a dole. There is no time to be lost, else a nation will forget the meaning of *bachpan*.

## LETTERS TO THE EDITOR

### Poor football

Sir — As per the Centre’s guidelines, many cinema halls are reopening. However, the football remains in single digits. Currently, the halls are permitted to operate with 50 per cent capacity; one seat between two persons is to be kept empty to ensure social distancing. Other mandatory norms include wearing of masks, applying sanitisers, compulsory thermal scanning, adequate ventilation and freezing temperature settings of all air conditioning at 23 degree Celsius or above. Even with strict guidelines in place, people are extremely hesitant to visit the theatres. Also, no big-time releases are slated for now as it is preposterous to imagine a producer or an actor risking his/her fortune during such crucial times. Over the months since the lockdown, the loyal film audience has adapted to online streaming apps. Adjusting to big screens again might take some time. Also many are cutting on expenditure owing to their financial stress.

The cinema hall owners, too, are in a quandary because of the financial losses they have been bearing due to the complete clo-

### Punjab makes a point for its farmers

The Punjab Assembly has passed three farm Bills as the farmers’ protests against the recently passed farm Acts intensify. The Central laws are silent about the Minimum Support Prices (MSP) for agricultural produce. Sale of produce to the private traders, companies, corporates and other agencies cannot take place in the Agricultural Produce Market Committees (APMC) *mandis* anymore, and levy of fee for trades has been prohibited. Thus, farmers have no option but to approach the courts for dispute resolution. The thought of a takeover of the agriculture sector by traders using their financial power is haunting the farmers.

According to the State Bills, “no sale or purchase of wheat or paddy shall be valid unless the price paid for such agricultural produce is equal to or greater than the MSP” announced for the two crops. And if an individual or a company or any other agency compels or exerts pressure on a farmer to sell the agro-produce at a price below the MSP, then such person shall be deemed to have committed a punishable offence. The

Bills also have a provision to levy a fee on trade platforms outside the markets established under the Punjab Agricultural Produce Markets Act 1961 to fund welfare activities. These proposed amendment Bills are not just meant to counter the Centre’s laws but to save the peasantry of Punjab.

**Haridasan Rajan**  
*Kozhikode*

### Defence agreement

Sir — On October 27, India and the US signed the Basic Exchange and Cooperation Agreement (BECA) to further military ties between the two countries. India will now be able to keep an eye on the movements of Chinese warships in the Indian Ocean Region (IOR). BECA will help us get real-time

access to American geospatial intelligence that will enhance the accuracy of automated systems and weapons like missiles and armed drones. Sharing information on maps and satellite images will help us gain access to topographical and aeronautical data. The signing of the long-negotiated defence pact comes against the backdrop of a tense border standoff with

China in eastern Ladakh. The increasing defence and security partnership between the two nations will help monitor the situation in the Indo-Pacific at a time when China is attempting to expand its economic and military clout in the region. In June, India and Australia had signed a pact allowing their militaries to access each other’s bases. A similar agreement with Japan also came to fruition last month after years of negotiations. It is also hoped that the sharing of technology will contribute significantly towards bringing India closer to the lofty goal of *atmanirbharta* in the defence sector.

**Yash Pal Ralhan**  
*Jalandhar*

### Ban firecrackers

Sir — The air quality has further worsened as hundreds of Ravana effigies and firecrackers were burnt in the Capital on Dussehra. The Government needs to wake up and put a blanket ban on firecrackers this Diwali.

**Yugal Kishore Sharma**  
*Faridabad*

FIRST COLUMN

Make the right policy choices

A continued prosperity for nations will only be achieved by allowing and championing a global open market for trade, goods and digital services

KUMARDEEP BANERJEE

It is festival time globally, and not just the religious and fun variety but also the vital festival of democracy or elections. It is for the first time in our lifetimes that festivities, mostly associated with huge crowds jostling to reach the ballot box or *bedi* (the pedestal on which the idols of deities are kept), are taking place in the shadow of a raging global pandemic. Forced departures from well-known rituals associated with festivals make these times a case study for future generations. Many would have seen a video on social media of an idol being immersed using mechanised trolleys, with least human intervention, in the recently-concluded Durga puja festivities. Now switch to the theatre of democracy in Bihar, where Assembly elections are being held. The common thread between the two festivals is, technology. Bihar, would perhaps be the first State in the country where technological interventions played a key role in the elections.

First, the Election Commission (EC) allowed online filing of nominations for candidates and many political parties chose to reach out to their constituents through virtual rallies and put up huge LED walls for public viewing. Given the absence of many veterans active in Bihar elections for at least three decades, most of the young scions of the colourful, vociferous and politically-influential families were suddenly catapulted to the centrestage of a new narrative. This young brigade of Biharis, technologically more versatile than their parents, sought votes on issues. Something hitherto unheard of in a State, known for its divisive caste and religious biases. It was surprising to see rival candidates promise lakhs of jobs to young voters in a State grappling with the problem of the jobless migrant labourers.

The most welcome aspect of this election has been the reliance on technology in a State which could well be a case study on the digital divide between India and Bharat. Many statisticians will point to a survey which revealed that more than half of Bihar's women and around 40 per cent men have no access to mass media. This, when extrapolated over digital media, means a significant part of the population can either be completely insulated from the impact of technology or could be the next addressable unconnected millions, who need to be put on the information technology expressway of prosperity.

Now let's jump across the Pacific to the US, which, too, is about to witness one of the fiercest and cacophonous elections on November 3 amid the COVID threat, deaths and economic destruction. The common binary binding Bihar elections, Durga Puja festivities and US elections is again, technology. After all, the new dominance game and the race to be a global superpower is now increasingly getting defined by your first tap on a smartphone, first digital payment/electronic transaction, first contact-free shopping for world-class brands from the comfort of your home and perhaps the first digital date after months of trying to understand each other's typos and abbreviated texts.

Therefore, restrictions on digital applications, depending on the country of origin, to applying the same principles to hardware solutions in technical infrastructure, to forming an alliance of like-minded technology fraternity of nations were some of the key highlights in the election campaign of the two presidential candidates of the world's richest democracy. What it also highlighted was the fact that increasingly, the physical restrictions (read policies) of trade and commerce dominating economic relations between a bunch of nations will now be enthusiastically copy-pasted in the digital arena to prevent loss of sovereign powers and dominance at the global high tables.

COVID has put the spotlight on public policy issues, which, till February, were still in advanced stages of intellectual discourses. It has challenged our ability to adapt and eventually recover from the disease. And the only sector which has truly helped this advancement is technology. It reacted quickly and ensured teachers, parents and children were handed online course materials for seamless academic learning and doctors were given online tools for initial digital health interventions for patients. It gave the Government effective platforms for interaction and empowered it to push critical policy goals. Technology enabled digital live *darshans* of beautiful but deserted *pandals* and online delivery of *prasad* for the religious, too. If the human race has been pushed ahead by three decades in one stroke by the lockdown and technology has taken centrestage, it is also time to think and refresh many global policy challenges and perhaps release an update. Policymakers have to realise that imposing strict restrictions, based purely on case-by-case models, and having a physical worldview of digital policy issues can be self-defeating in the long run. A continued prosperity for nations will only be achieved by allowing and championing a global open market for trade, goods and digital services. It must be kept in mind that the new normal for policy-making at sovereign-level negotiations must be dictated by a set of principles. This must be compulsory in all digital agreements between consumers and technology providers, governments and their counterparts across borders. A multi-lateral approach must be championed. It is time to click on the right button.

Graft-free governance

A metrics-based system for oversight over governmental processes will bring transparency and spur digital innovation to make any administration robust without inhibiting public interest

RAJESH RANJAN

Among the issues in public discourse that have caught the attention of the country is the problem of corruption, which elicits strident criticism. The issue has triggered a slew of reforms aimed at strengthening the fabric of integrity, like the enactment of the Public Procurement Bill, the Lokpal Act incorporating, *inter alia*, the public disclosure of assets by public servants, reforms in higher judicial appointments and so on. While anti-graft activists differ in terms of strategies and focus areas, there is a unanimous acceptance of the fact that technology and e-governance promote greater transparency. The rationale is very simple. Deny the opportunity for manual manipulation and replace it with technology, crafted around well-defined protocols and legal safeguards with minimal human intervention.

It has been five years since India adopted the UN's 17 Sustainable Development Goals (SDGs). Corruption in general and venality in public life in particular adversely affect the fulfilment of these SDGs. Therefore, a proactive and preventive vigilance regime forms the backbone of good governance and is critical to their realisation. How then do we make governance more effective without inhibiting its objectives? Today, administrative affairs grapple with leakages in public delivery of welfare and development goals on account of manual processes that can be manipulated. But by leveraging technology, these leakages can be plugged. Incremental improvements to technology should continue to be the mainstay of advancements in administration.

In the recent discourse on procurement methods, transparency of policy, procedure and practices is increasingly being seen as an imperative of using public monies to remove any allegations of opacity and inconsistencies in decision-making. Achieving transparency ensures that procurement is open to public scrutiny, which results in best value for public monies. For example, the transparency of procedure as achieved in online applications is one of the simpler yet effective features of digitisation, as it shifts the onus of submitting correct information and data to the applicant. This, once verified by the public servant, retains the maker-checker wedge in a direct way.

In an effort to plug leakages in procurement systems, the Government launched the Government E-Marketplace (GeM) in 2016 as an end-to-end marketplace for goods and services required by Central and State Governments as well as Public Sector Undertakings. As per an assessment by the Centre for Public Impact, the savings impact of GeM has been substantial, wherein a maximum price reduction of approximately 56 per cent of goods and services, coupled with demand aggregation, has already led to savings to the tune of ₹40,000 crore annually. Given the fact that the public procurement economy constitutes about 20 per cent of India's GDP, it is imperative to build on this initiative through amplified efforts and bring as many goods and services on board as possible. And in order to make the platform more robust, addressing the issue of quality control should be the next level of sophistication that GeM should aspire for.

In the next 10 years, the business of Government will experience massive disruption. This comes on the back of technological enhancements that reduce the need for intermediaries and ensure that the sanctity of process remains unimpeachable. One such technology which has been discussed widely in recent times is blockchain. A NITI Aayog discussion paper has identified use-cases where the technology can potentially improve governance, ranging from tracing of drugs in the pharmaceutical supply chain to verification of education certificates. The three key principles of the blockchain technology are: Transparency, decentralisation and accountability.

“HOWEVER, A SIGNIFICANT FACTOR IN BLOCKCHAIN'S SUCCESS WILL BE A COUNTRY'S ABILITY TO DEVELOP/REFORM LAWS AND BUILD ROBUST DATA PROTECTION AND MAINTENANCE REGIMES. TILL SUCH TIME WE ADDRESS THESE ISSUES, BLOCKCHAIN IS NOT LIKELY TO HAVE A MONUMENTAL IMPACT IN CREATING AN INTEGRITY-FIRST GOVERNANCE ECOSYSTEM”

One of the most interesting areas of intervention for this technology would be in the space of land records. Ever since the Permanent Settlement of Bengal in 1793, the issue of land records has occupied the administration and citizenry with its complexities, misgivings and fraud. The system is riddled with inefficiencies that reduce trust in the Government. Currently the UNDP is involved in certain Proof of Concept (POC) pilots across India. The underlying theory intends to create an immutable history of transactional records that helps in checking authenticity; a tamper-proof system to avoid forgery; a distributed ledger so that all stakeholders see the same information; and a secure encrypted environment, where updates are available in near real time. The NITI Aayog paper also identifies this value proposition. For example, the paper notes that, in order to ensure that transactions are not fraudulent, the physical presence of witnesses is mandated at the time of sales deed registry. Deployment of blockchain would potentially eliminate the need of these processes while maintaining the sanctity of the transaction.

This helps create a tamper-proof audit trail that allows for tracking decision-making and ensures that they are in accordance with anti-corruption principles. It addresses concerns around cyber security. Currently there are interesting pilots being conducted across the world, where deployment of blockchain is being tested for public procurement, wherein systems are being built in to identify graft with a view to disincentivise corrupt actors from accessing the system at the outset.

From the perspective of Internal Controls and Governance (Vigilance), it is strongly recommended to employ a five-part test while assessing such deviations from process: Whether the issue being pursued has corrupt connotations; the general reputation of the employee involved; whether better options were available and ignored without valid reasoning; whether the situation inhibited the selection of any

other option but the one finally chosen and finally, whether the larger interest of the organisation was safeguarded or not.

Deployment of technological solutions like blockchain can potentially remove the need or significantly reduce the time taken for making such assessments. In a recent paper released by Denmark's Ministry of Foreign Affairs, titled *Code to Integrity*, the authors have highlighted how blockchain can be a powerful tool in the fight against Government corruption. The report cites case studies of countries like Kenya, Rwanda and Ghana where Government records pertaining to court systems, education and land rights are migrating to distributed ledgers.

However, a significant factor in blockchain's success will be a country's ability to develop/reform laws and build robust data protection and maintenance regimes. Till such time we address these issues, blockchain is not likely to have a monumental impact in creating an integrity-first governance ecosystem.

The general environment now is in favour of a regime which ensures that companies not only do profitable business but do so in a manner which is ethical. The United Nations Convention against Corruption, ratified by India in 2011, as well as the anti-corruption principles expounded by the Organisation for Economic Cooperation and Development (OECD) cover a wide gamut of vulnerable areas and aspects of business operations, including anti-bribery, public procurement and conflict of interest. More and more countries in the coming years will be obliged to establish laws and mechanisms in place to ensure clean business operations as well as seize and confiscate assets derived from corrupt practices.

India, too, needs to review its existing legal framework to address issues around data security, corrupt practices and corporate governance with a view to address our anti-corruption objectives and provide the necessary guidance to well-intentioned officials in the Government.

The Centre made a significant change to the Prevention of Corruption Act in 2018. The element of intention has been added under definition of criminal misconduct. Similarly, broadening the definition of "unfair advantage" and introduction of corporate criminal liability will go a long way in apprehending or deterring bad actors on both sides from indulging in bribery. The amendments also have ensured that our obligations under the UN Convention against Corruption are adequately addressed and bring us closer to leading anti-bribery legislations in the world such as the UK Bribery Act.

While these amendments will go a long way in guiding the work of internal control agencies, it would be important to institutionalise a system, wherein compliance against said legislation and established processes can be checked and quantified. A metrics-based system for oversight over governmental processes will bring transparency, build trust and spur further digital innovation to make any administration more robust without inhibiting public interest-oriented decision-making.

It would be incorrect to end this discussion without addressing the well-intentioned public servant who finds the processes leading to greater transparency and ensuring value for taxpayers' money cumbersome and time-consuming and who is, therefore, tempted to short-circuit it. Well-intentioned though it may be, but any attempt to overwrite the processes, despite even demonstrable honesty of purpose, carries the major risk of opening up the system to misuse by corrupt players and would lead to eventual loss of public trust and decimation of the structure of public procurement. Thus, the intent of processes involved is to keep the proverbial Caesar's wife above suspicion. Through robust yet streamlined procedures, a bureaucrat can achieve the intended outcome and avoid unintended consequences.

(The writer is an IPS officer. The views expressed are personal)

Nurture e-retail in a post-pandemic world

This approach would be in keeping with the Centre's focus on a Digital India where citizens are able to leverage their connectivity into better opportunities

MOHIT CHAUDHRY

Most nations imposed some form of shutdown to limit the spread of the Coronavirus. India's lockdown, which involved a near cessation of all movement and economic activity, has been rated as one of the most stringent across the world. Not surprisingly, it had a severe impact on our economy.

A sector that was hit particularly hard is retail. This is due to several reasons. First, shops and warehouses were closed during the initial phases of the lockdown. This brought the

operation of both physical and digital retailers to a standstill. Second, restrictions on inter-State movement of goods and the opening of only specific industries disrupted supply chains. For instance, the Centre recognised both medicines and processed foods as essential goods and allowed their sale. However, similar status was not granted to units which manufacture the packaging for medicines and processed foods. Hence, sellers of these goods found it difficult to operate. Third, the system of issuing passes and permits to personnel working for physical and digital retail was not well-implemented. It was unclear which authority would issue the passes and for how long they would remain valid. Further, personnel having to travel across districts were required to obtain separate passes from the authorities for each district. Fourth, the Ministry of Home Affairs issued an order directing all employers to ensure full payment of wages to all employees even if they were unable to work.

As a result of the order, several migrant labourers returned to their towns and villages once restrictions on movement of persons were lifted. A survey of retailers selling their products online, conducted as part of the Esya Centre's report on e-commerce, shows that nearly 60 per cent of such entities will be unable to recover losses suffered because of the lockdown. Given that people are likely to be wary of entering shops and stores even after lockdowns are eased, it is important to explore different avenues through which retail outlets can avoid further losses.

One such avenue is e-retail. A report by Global Trade and Regional Integration Unit of the World Bank highlights the utility of e-commerce in the post COVID normal. Not only can e-commerce help reduce the risk of new infections and preserve jobs, it can also increase the acceptance of prolonged social distancing measures among the population. Further, previous research has shown that there are

numerous benefits for MSMEs that adopt e-commerce, in the form of better price discovery, access to new consumers, support with logistics and inventory management. It is in recognition of the above that several nations, such as the United Kingdom and New Zealand, have given preference to digital forms of retail both during and after the lockdown. However, India is one of the few countries that has not leveraged the numerous benefits that e-commerce brings, particularly during a lockdown.

Policy-making towards e-commerce, both before and during the lockdown, may have hindered the operation of e-commerce entities. Prior to the lockdown, legacy government rule-making on e-commerce presented several barriers to the growth of the sector. These included ever-changing FDI rules, unresolved issues of data localisation and source code disclosure as well as the over-regulation of platforms. During the lockdown, the Government failed to adopt

a clear and consistent approach to policy formulation *vis-a-vis* retail. As an example, both physical and digital retailers were only allowed to sell essential goods in the initial phase of the lockdown. This continued till about mid-April, when the Government issued a notification which allowed e-retailers to deliver non-essential items from April 20. In conformity with this order, e-commerce firms began to make predations to resume their full scale of operations. However, on April 19, the Government withdrew its notification, seemingly under pressure from industry organisations that represented small and medium traders. Subsequently, relaxations regarding delivery of non-essential items were first given to physical outlets while e-retail continued to be limited to essential items for 8-10 days thereafter. The zonation framework introduced by the Government additionally preferred physical outlets in Red zones, as they could sell a wide range of merchandise while e-retail tasks were limited to

essential goods.

As pointed out, e-commerce enjoys numerous advantages over physical retail, particularly in a situation where social distancing continues to be important. Hence, there is a need to provide a policy environment that fosters the uptake and adoption of e-commerce by both consumers and sellers. To achieve this, we recommend a five-step recovery process. The first steps are geared towards fostering an atmosphere of trust and credibility between the Government and market entities.

This can be achieved by holding regular consultations, opening avenues for feedback and providing sufficient notice before major changes. Further, policy actions should not skew competition between physical and digital business models. Instead, both models should be allowed to leverage their respective strengths. Finally, the Government must reassess what it seeks to achieve through its proposed e-commerce policy. In the current sce-

nario, a policy framework governing e-retail or e-commerce in general, should look to assist small enterprises in capacity-building for a digitally enabled future through the provision of finance, skill development and underlying infrastructure. There is, therefore, a need to move away from legacy regulatory institutions, based on licensing and control, to an entity that actively participates in capacity-building and development of small and medium retailers in India. In this context, it is worthwhile to explore the role being played by digital economy development authorities in countries such as Malaysia and Vietnam, which actively promote the adoption of digital solutions and e-commerce for SMEs as well as consumers. This approach would be in keeping with the Government's focus on a Digital India where citizens are able to leverage their connectivity into better opportunities and prospects.

# Pak leaders trembled lest India attack it

Foreign Minister pleaded to release Abhinandan

**Islamabad:** Legs were shaking and forehead perspiring at a meeting of Pakistan's top leaders, including Army chief General Qamar Javed Bajwa, wherein Foreign Minister Shah Mahmood Qureshi pleaded to release Indian Air Force Wing Commander Abhinandan Varthaman, saying if he was not released, India would attack Pakistan, a top Pakistani opposition leader has said.

Recalling the tension in Islamabad after India bombed a terror training camp in Pakistan's Balakot on February 26, 2019, Pakistan Muslim League-Nawaz (PML-N) leader Sardar Ayaz Sadiq criticised the Imran Khan government over its response, saying the Opposition has supported the government on every issue, including Kashmir and Varthaman, but it will no longer be appropriate to provide any further support, Dunya News reported on Wednesday.

Sadiq, who was the Speaker of the National Assembly during the PML-N government, made a similar statement earlier on Wednesday in Parliament here that Foreign Minister Qureshi in an important meeting pleaded that let Varthaman go back because India is attacking Pakistan.

The 37-year-old IAF pilot was captured by the Pakistani Army on February 27 after his MiG-21 Bison jet was shot down in a dogfight with Pakistani jets during aerial combat.

In the early hours of February 26, 2019, the IAF jets bombed the Jaish-e-Mohammad (JeM) terror

camp in Balakot in Khyber Pakhtunkhwa of Pakistan and avenged the Pulwama terrorist attack that claimed the lives of 40 CRPF personnel.

Before his jet was hit, Varthaman downed an F-16 fighter of Pakistan. He was released on the night of March

1 by Pakistan.

In a speech in the National Assembly, Sadiq said that Prime Minister Imran Khan skipped the high-level meeting, which was attended by top leadership, including Army chief Gen Bajwa and Foreign Minister Qureshi.

## No constitutional, Sharia constraints on construction of temple: Pak religious body

**Islamabad:** Pakistan's supreme religious body has said that there are no constitutional or Sharia restrictions on the construction of a Hindu temple in Islamabad or any other part of the country.

The Council of Islamic Ideology (CII) made its decision in a meeting on Wednesday on the basis of the Constitution and the Liaquat-Nehru Agreement of 1950, which led to the establishment of the Evacuee Trust Property Board (ETPB) in Pakistan, the Dawn News reported.

The CII also allowed the government to hand over an ancient Hindu temple and adjoining Dharamshala (community centre) in Saidpur village to Islamabad's Hindu community.

"In view of the current population in Islamabad the ancient temple and the adjoining Dharamshala at Saidpur village be opened to the Hindus and they should be facilitated to

reach there to perform religious services as per their beliefs," the CII said.

The decision, signed by 14 CII members, added that Hindus, like all other religious groups in the country, have the constitutional right to a place for last rites according to their faith.

"Under this Right the Hindu community in Islamabad can have a suitable place for cremation of their dead and perform last rites of the deceased according to religious instructions," the council said.

An application was referred to the CII by the Ministry of Religious Affairs on July 6, seeking its opinion on the allotment of a land to the Hindu community for a crematorium, community centre and temple. The ministry had also sought the CII's advice on the allocation of Rs 100 million by the prime minister for the construction of the crematorium and temple. **PTI**

## Pak anti-terrorism court acquits PM Imran Khan in 2014 Parl attack case

**Islamabad:** Pakistan Prime Minister Imran Khan was acquitted by an anti-terrorism court on Thursday in the 2014 Parliament attack case but other senior ministers, including Foreign Minister Shah Mahmood Qureshi, were summoned on November 12 for the indictment.

Anti-Terrorism Court Judge Raja Jawad Abbas Hassan, however, halted proceedings against President Arif Alvi due to the presidential immunity granted to him. The Express Tribune reported.

On August 31, 2014, workers of the now ruling Pakistan Tehreek-e-Insaf (PTI) and Pakistan Awami Tehreek (PAT) tried to enter Parliament and go towards the Prime Minister's House and clashed with police.

Police had invoked sections of the Anti-Terrorism Act against Khan and other PTI leaders, according to a report in the Dawn newspaper.

The incident had happened during the sit-ins by PTI and PAT workers in front of the Parliament. **PTI**

# China gravest threat to future of religious freedom: Pompeo

**Jakarta:** China is the "gravest threat" to the future of religious freedom, US Secretary of State Mike Pompeo said Thursday, in his latest verbal assault on Beijing during a whirlwind Asian tour.

Pompeo has made attacks against China the focus of his trip this week which kicked off in India and included visits to Sri Lanka, the Maldives, Indonesia and, later Friday, Vietnam.

In Indonesia -- which has the world's biggest Muslim population -- Pompeo took aim at China's treatment of its Uighur Muslim minority.

"The gravest threat to the future of religious freedom is the Chinese Communist Party's war against people of all faiths: Muslims, Buddhists, Christians, and Falun Gong practitioners alike," Pompeo said in a speech Thursday to

major Muslim organisation the Nahdlatul Ulama. "The atheist Chinese communist party has tried to convince the world that its brutalisation of Uighur Muslims in Xinjiang is necessary as counter-terrorism or poverty alleviation," he added.

Rights groups say that more than one million Uighurs languish in camps in the north-west Xinjiang region as Beijing attempts to forcibly integrate the community and root out its Islamic heritage.

China has denied the numbers and describes the camps as vocational centres that teach skills to prevent the allure of Islamic radicalism following a series of attacks.

"But we know that there is no counter-terrorism justification in forcing Uighur Muslims to eat pork during Ramadan, or destroying a Muslim cemetery," Pompeo said. **AFP**

## Saudi citizen wounds French consulate guard in Jeddah

**Jeddah:** A Saudi citizen wounded a guard in a knife attack at the French consulate in Jeddah Thursday, officials said, as France faces growing anger over satirical cartoons of the Prophet Mohammed.

The assault follows another knife attack at a church in the French city of Nice that left three people dead and several others wounded, in what authorities are treating as the latest jihadist attack to rock the country. "The assailant was apprehended by Saudi security forces immediately after the

attack. The guard was taken to hospital and his life is not in danger," the French embassy said in a statement.

Police in Mecca province, where Jeddah is situated, said the attacker was a Saudi, but it did not give the nationality of the guard, who they said had sustained minor injuries.

The French embassy in Riyadh strongly condemned the attack and urged its nationals in Saudi Arabia to exercise "extreme vigilance".

Neither the Saudi authorities nor the French embassy

gave any indication of the motivation for the attack.

But it comes after French President Emmanuel Macron vigorously defended the publication of satirical cartoons of the Prophet Mohammed by the satirical magazine Charlie Hebdo on free speech grounds.

Regional heavyweight Saudi Arabia — home to Islam's holiest sites — has criticised the cartoons, saying it rejected "any attempt to link Islam and terrorism" but it stopped short of condemning the French leadership. **AFP**

# 2020 US election to be most expensive in history, expected to cost \$14 bn

**New York:** The 2020 Presidential election is turning out to be the most expensive election in history and twice as expensive as the previous presidential election cycle, with the total cost of the election expected to reach an unprecedented \$14 billion, a research group said.

The Center for Responsive Politics said that an "extraordinary influx" of political donations in the final months — driven by a Supreme Court battle and closely watched races for the White House and Senate — pushed total spending in the election past the previously estimated 11 billion dollars figure.

The Center said that the 2020 election will cost \$14 billion, shattering spending records.

Democratic presidential nominee Joe Biden will be the first candidate in history to raise \$1 billion from donors. His campaign brought in a

record-breaking \$938 million through October 14, riding Democrats' enthusiasm to defeat Trump.

President Donald Trump raised \$596 million, which would be a strong fundraising effort if not for Biden's immense haul.

"Even amid a pandemic, everyone is giving more in 2020, from ordinary individuals making small donations to billionaires cutting eight-figure checks to super PACs.

Women are smashing donation records, and Americans are increasingly donating to candidates who aren't running for office in their state," it said in a statement. **PTI**

## Hong Kong charges teen activist with secession under security law

**AFP ■ HONG KONG**

A teenage Hong Kong democracy activist was charged on Thursday with secession, the first public political figure to be prosecuted under a sweeping new national security law Beijing imposed on the city.

Tony Chung, 19, appeared in court two days after he was arrested by plainclothes police in a Hong Kong coffee shop

opposite the US consulate, also charged with money laundering and conspiring to publish seditious content.

He was remanded into custody until his next court hearing on January 7 and faces a possible life prison sentence if convicted under the new law.

Chung is a former member of Student Localism, a small group that advocates Hong Kong's independence from China.

## APPEAL FOR IDENTIFICATION

General public is hereby informed that an unidentified dead body of an unknown male, **Age:** 30-35 years, **Complexion:** Shallow, **Height:** 5'6", **Built:** Thin, **Face:** Round, was wearing Red colour Shirt and Grey colour Pant, was found unconscious behind Monestry near Yamuna river Civil Line, Delhi on 23.10.2020. He was admitted to AAA Hospital vide MLC No. 2241/20, dated 23.10.2020, further referred to Safdarjung Hospital, Delhi. During treatment he was declared dead on 25.10.2020. In this regard a **DD No. 42A, U/S 174 Cr.P.C., dated 23.10.2020 has been registered at P.S. Civil Line, Delhi.** Any person having any information or clue about the deceased may kindly inform to the undersigned on the following address or telephone nos.

# Polish President backtracks on abortion view amid protests

**Warsaw (Poland):** Poland's President Andrzej Duda said Thursday that women themselves should have the right to abortion in case of congenitally damaged fetuses, apparently breaking ranks with a conservative leadership that pushed a ban that has led to mass street protests.

"It cannot be that the law requires this kind of heroism from a woman," Duda said in an interview with radio RMF FM.

He spoke after seven straight days of huge protests across Poland following a con-

stitutional court ruling declaring it unconstitutional to terminate a pregnancy due to fetal congenital defects. The ruling effectively bans almost all abortions in a country that already had one of Europe's most restrictive abortion laws.

That ruling has triggered huge nationwide protests, with young people heeding a call by women's rights activists to come to the streets to defend their freedoms. Deep divisions that had been brewing for a long time in Poland are now erupting on the streets.

On Thursday night, men

with a far-right group, All-Polish Youth, attacked women taking part in protests overnight in some cities, including Wroclaw, Poznan and Bialystok.

Their actions came after Poland's most powerful politician, ruling party leader Jaroslaw Kaczynski, called for his supporters to turn out on the streets to defend churches after women disrupted Masses last Sunday and spray-painted churches.

Many interpreted Kaczynski's call as permission for violence against the protesters. **AP**

## “Press Notice Inviting e-Tender No. 12/EE/RIG/2020-21”

The Executive Engineer, Rig Division, P.N.Complex, Agartala, West Tripura invites **Percentage rated e-tenders in single bid** on behalf of the "Governor of Tripura" for the work below:-

# UK's Labour Party suspends Jeremy Corbyn in antisemitism row

**London:** The UK's Opposition Labour Party on Thursday suspended former leader Jeremy Corbyn from its ranks after a report by the country's human rights watchdog held the party "responsible for unlawful acts of harassment and discrimination" during his time in charge.

The Equality and Human Rights Commission (EHRC), which had launched an investigation into antisemitism within the party following a string of complaints, found that Labour had broken the law in its failure to handle antisemitism, or anti-Jewish, complaints and there were "serious failings" by its leadership at the time.

However, in his reaction to the report, Corbyn said that the number of complaints made during his tenure were "dramatically overstated".

"One antisemite is too many, but the scale of the problem was also dramatically overstated for political reasons by our opponents inside and outside the party, as well as by much of the media. That combination hurt Jewish people and must never be repeated," said Corbyn, in reference to the report.

A Labour Party spokesperson issued a statement soon after to announce that Corbyn had been suspended from the party. **PTI**

## PROCLAMATION REQUIRING THE APPEARANCE OF A PERSON ACCUSED

# Economic recovery faster than expected: PM

## Confident of meeting \$5-trn target by 2024

PTI ■ NEW DELHI

The Indian economy is getting back on track faster than expected as a timely lockdown and various relief measures announced by the Government helped address issues faced by all sections of society and all economic sectors due to the Covid-19 pandemic, Prime Minister Narendra Modi has said.

He also expressed confidence that the target of making India a USD 5-trillion econo-

my will be achieved by 2024, saying that the crisis gave the Government an opportunity to carry out reforms that were waiting to happen for decades but no one earlier took the initiative.

"Reforms across sectors such as coal, agriculture, labour, defence, civil aviation and so on have been undertaken which will help us get back on the high growth path that we were on before the crisis," Modi said in an interview published in the Economic Times newspaper on Thursday.

On COVID-19 vaccine, he said every Indian will be vaccinated as and when a vaccine becomes available, though the focus initially would be on protecting the most vulnerable and the frontline workers.

Modi reiterated that there should be no room for complacency in fighting this virus and the only way forward is to take precautions such as wearing masks, hand washing and social distancing.

He said the government in the very beginning decided to be proactive and introduced a timely nationwide lockdown.

"We not only got the broad timing of various phases of lockdown right, we also got the unlock process right and much of our economy is also coming back on track. The data for August and September indicates that" he said.

He said this is a new virus and countries which had initially controlled the outbreak are now reporting a resurgence.

"The geographical spread of India, population density, the regular social gatherings must be kept in mind when we look at these numbers and seek to compare with others. Many of our states are larger than countries," he added. Modi said India's response in tackling the crisis has been focused on increasing capabilities to handle the situation, making people more aware, creating more facilities etc in keeping with the dictum 'Hope for the best but prepare for the worst'. Asked about plans for further stimulus for the economy, he said, "We will take all measures needed to constantly stimulate the economy in a timely manner while ensuring overall macro-economic stability."

"Remember, we are still

not over with the pandemic. Yet, our economy has shown a remarkable capability to bounce back, largely because of the resilience of our people.

"This is something that is not captured in these numbers but is the reason behind those numbers. The shop-owner, the trader, the person running an MSME, the person working on the factory floor, the entrepreneur, all these are the heroes responsible for the strong market sentiment and revival of the economy," he said.

Modi further said India has not started speaking about manufacturing only after the pandemic and the work has been continuing on increasing manufacturing for some time now. India is, after all, a young country with a skilled work-

force. But India doesn't believe in gaining from the loss of others. India will become a global manufacturing hub on its own strengths. "Our effort is not to become some country's alternative, but to become a country which offers unique opportunities. We want to see the progress of all. If India progresses, one-sixth of humanity will progress," he said.

Referring to a new world order that was formed after World War II, the prime minister said something similar will happen post-COVID-19.

"This time, India will ride the bus of manufacturing and integrating in global supply chains. We have specific advantages in the form of democracy, demography and demand," he said.

# Govt likely to extend Air India bid deadline to Dec 14

PTI ■ NEW DELHI

The Government is likely to extend the deadline to bid for Air India till December 14 and also give flexibility to a potential investor to decide on the humongous debt with the national carrier, a source said.

The deadline to bid for buying out Air India ends on October 30.

The flexibility to potential investors on the quantum of the ₹ 60,074 crore debt that they want to absorb will replace the current condition of the buyer taking over more than a third of the debt and transferring the rest to a special purpose vehicle.

The source said the Air India Specific Alternative Mechanism (AISAM) has cleared the extension of deadline to December 14 to give time to potential investors to raise queries on the changes being made in the Preliminary Information Memorandum

## INVESTORS TO GET FLEXIBILITY ON DEB

(PIM).

As per the Air India EoI floated by DIPAM in January, of the airline's total debt of Rs 60,074 crore as of March 31, 2019, the buyer would be required to absorb ₹23,286.5 crore, while the rest would be transferred to Air India Assets Holding Ltd (AIAHL), a special purpose vehicle.

## Bidding for Air India to be done on enterprise value: Puri

PNS ■ NEW DELHI

The Ministry of Civil Aviation has revised the bidding parameters for Air India's divestment and has decided to ask for bids at enterprise value instead of equity value. The deadline for inviting bids has also been till December 14. The Ministry has also extended the cap on airfares till February 24, 2021. In the wake of the coronavirus outbreak, the aviation ministry implemented a cap on domestic airfare in May. The

Ministry has also announced the direct flights between Amritsar and Nanded will restart from November 10.

"The bids will now be invited on the enterprise value where bids will be invited on both equity and debt, Union civil aviation Minister Hardeep Puri announced on Thursday while addressing a press conference. The decision was taken by the Air India Specific Alternative Mechanism on Wed following a meeting with the home ministry, Puri added.

## Sensex extends losses amid F&O expiry

### L&T slumps 5 pc post earnings

PTI ■ MUMBAI

Equity benchmarks nursed losses for the second straight session on Thursday as investors offloaded banking, finance and infra stocks amid expiry of monthly derivative contracts and lacklustre global cues.

A depreciating rupee and weak Q2 results from blue-chips further sapped risk appetite, traders said.

The 30-share BSE Sensex ended 172.61 points or 0.43 per cent lower at 39,749.85 in choppy trade.

On similar lines, the broader NSE Nifty fell 58.80 points or 0.50 per cent to 11,670.80.

L&T was the top loser in the Sensex pack, dropping 4.99 per cent, after the engineering major posted a 45 per cent decline in consolidated net profit for the September quarter.

Titan, ONGC, Axis Bank, HUL, NTPC, M&M and

HDFC were the other major laggards, shedding up to 3.32 per cent.

On the other hand, Asian Paints, UltraTech Cement, HCL Tech, Kotak Bank, ICICI Bank and Reliance Industries were among the gainers, spurring up to 2.79 per cent.

# Maruti results not a sign of a 'rebound'

## SALES UP 10% OVER SAME PERIOD LAST YEAR BUT PROFIT GROWTH FLAT

PNS ■ NEW DELHI

Maruti-Suzuki revealed that net profits for the quarter ended September 30, 2020 had grown marginally to ₹1,371.6 crore versus ₹1,458.6 crore in the same period last year. Sales however for the quarter grew to ₹17,689.3 crore mainly on account of selling 393,130 vehicles in the quarter primarily in the domestic market. Speaking to the media after the results were announced, RC Bhargava, Chairman of Maruti-Suzuki India Limited made it clear that he did not view the restoration of demand as a 'rebound' and argued that some of the increased sales were also due to the extremely weak first quarter. He also said that these sales

did not even take into account the demand for the festive season which began mid-October. It was revealed that the company sold 96,700 vehicles during the Navratri-period and with Dhanteras and Diwali in November as well as the inventory reduction sales in December, October-December quarter ought to be very positive as well. However, Bhargava refused to predict how sales would develop post December as he believed that the true impact of the pandemic and lockdown might be felt in 2021.

Additionally, while Maruti-Suzuki, the country's largest carmaker saw commercial and fleet sales decline from seven percent of its sales to just 2.4

percent as behavioural patterns change and commuters show an increasing preference for personal mobility. In addition, Maruti-Suzuki management claimed that the company had not been adversely impacted by the decision to withdraw from the diesel market following the introduction of Bharat Stage - 6 emission norms from April and in fact had grown marketshare to 49.4 percent in the relevant quarter up from 48.3 percent and Bhargava also attributed this to increased demand for CNG vehicles. He also said that there is no need for any demand side reduction in GST rates at the current time as "we are selling everything that we are producing".

## Govt approves mandatory packaging of food grains in jute bags

PTI ■ NEW DELHI

To help the jute industry, the Government on Thursday decided to extend the norms for mandatory packaging of 100 per cent food grains and 20 per cent sugar in diversified jute bags. The decision on the extension of norms for mandatory packaging in jute materials was taken at the meeting of the Cabinet Committee on Economic Affairs.

"The Cabinet Committee on Economic Affairs chaired by Prime Minister Narendra Modi has approved that 100 per cent of the foodgrains and 20 per cent of the sugar shall be mandatorily packed in diversified jute bags," said an official release. Information and Broadcasting Minister Prakash Javadekar, while briefing media after the Cabinet meeting, said the CCEA decision will benefit

farmers and workers located in the eastern and north-eastern regions of the country, particularly in West Bengal, Bihar, Odisha, Assam, Andhra Pradesh, Meghalaya and Tripura. Union Textiles Minister Smriti Irani said that the decision will benefit 3.7 lakh workers and 40 lakh farmers, especially in West Bengal.

"Government purchases over Rs 7,500 crore worth jute bags to sustain core demand of the sector. Decision to provide extension for mandatory packaging in Jute material will further boost demand for jute and support livelihood of Jute workers," Irani said in a tweet. The decision also mandates that initially 10 per cent of the indents of jute bags for packing food grains would be placed through a reverse auction on the Gem portal, the release said.

## Fare limits to remain in place for another three months: Puri

PTI ■ NEW DELHI

The upper and lower limits on domestic airfares will remain in place for another three months post November 24, Civil Aviation Minister Hardeep Singh Puri on Thursday.

The Ministry had on May 21 placed these limits through seven bands, classified on the basis of flight duration, till August 24. Later, it was extended till November 24.

Puri said if the scheduled domestic flights reach pre-COVID levels by the end of the year, he will have no hesitation in removing the fare limits at that time. "We are extending the price bands for another three months," he said at a press conference.

## INBRIEF

### IDBI BANK TO RAISE UP TO ₹6,000 CR

**New Delhi:**IDBI Bank on Thursday said its board has approved a proposal for raising up to Rs 6,000 crore through an issue of shares to qualified institutional players. ### HOUSING COMMISSIONER INAUGURATES OPEN GYM IN JAIPUR

## Parliamentary panel questions Paytm about Chinese investment, storing of data in servers abroad

**New Delhi:**A parliamentary panel on Thursday questioned Paytm representatives about the quantum of Chinese investment in the company and told them that the servers on which customer data is stored should be in India.

Top officials of Paytm appeared before the Joint Committee of Parliament on the Personal Data Protection Bill, and submitted their suggestions on key aspects of the proposed legislation such as management and transfer abroad of sensitive personal

data, sources said. Members of the panel from different political parties asked Paytm why the server on which data of its customers is collected and stored is abroad when it claims to be an Indian firm, sources said. The panel members told Paytm representatives that the server on which customer data is stored should be based in India, sources said, adding that they also wanted to know about the quantum of Chinese investments in the digital payment service and specifics about its "backend linkages".

# RAINBOW IN MY PLATE

Chef DAVID EDWARD RAJ suggests including fruits, vegetables and other key components of different colours to the platter so that they form the required nutrition base needed for a healthy body and mind

The lockdown phase has got many food enthusiasts to don the chef's hat and innovate with various dishes and cuisines. More focus has been given to healthy eating during the peak of the pandemic as staying immune to the virus was considered as important as breathing. However, there is a myth attached to healthy eating that it does not tastes upto the mark and its presentation is not so attractive. To change this mindset, chefs across the world have been innovating with food to introduce meals that are not just tasty and healthy, but also visually appealing.

Though there are ample nutritious food items available in the restaurants as well as on the shelves of supermarket, one of the fanciest yet basic idea is 'eating the rainbow'. Yes, that's right. The term 'eating the rainbow' means including foods of different colours to the platter. This comprises fruits, vegetables and other key components that together form the required nutrition base that is needed for a healthy body and mind.

It is a commonly known and acknowledged fact that more the inclusion of vegetables and fruits in our diet, the better it is for the body. However, there is a lack of motivation which entails most people not following this eating habit.

The concept of this food being used for medicinal purpose has been around for more than a millennium and is still actively followed across various schools of medicine like Ayurveda and Unani. Such special foods were known and treasured due to their use in treating or

preventing diseases. Hence, it is important for us to include more fruits and vegetables in our diet because they possess vitamins and minerals that not only help prevent but also delay the onset of various diseases.

## ESSENTIAL NUTRIENTS AND THEIR BENEFITS

Vitamins like vitamin C, vitamin K, riboflavin, folic acid and compounds called carotenoids (some of which can be converted to vitamin A in the body) are found in many vegetables and fruits. Guava and gooseberry are some of the easily available sources of vitamin C. Vegetables like capsicum are rich in thiamine, a member of the B complex family of vitamins.

Some vegetables like potato, sweet potato, tapioca, yam and fruits like mango, banana and sapota make a fair contribution towards energy intake. Most vegetables and fruits are high in water and fibre contents and low in calorific value.

Many of the greens are packed with iron. Drumstick called as *Moringa* is loaded with essential nutrients. The leaves are the most nutrient dense part of the plant and one of the finest sources of calcium, iron, zinc, selenium and magnesium. Fresh pods and seeds are the

best for oleic acid — a healthy fatty acid that keeps the heart health in check. *Moringa* leaves are loaded with great amount of protein and are one of the best sources.

Flavonoids, a diverse group of phytonutrients (plant chemicals)

found in probably all fruits and vegetables also play an important role. Along with carotenoids, they are responsible for the vivid colours in fruits and vegetables. Flavonoids are the largest group of phytonutrients. They are found in lemons, oranges,

plums, peaches, apricots, apples, green leafy vegetables, yellow capsicum, onions and broccoli.

Grape fruit is known to reduce blood cholesterol and glucose concentrations. Yellow fruits like mangoes and green leafy vegetables and carrots are rich in beta carotene which is converted to vitamin A in the body and also helps to fight cancer.

Red fruits like tomatoes and watermelon contain lycopene, which is important for fighting prostate cancer and heart diseases.

Strawberries, blueberries, apples, grapes and onions are being studied for their anti-ageing effects.

The most natural way to overcome constipation is to increase intake of green leafy vegetables and other high fibre vegetables and fruits. Their high water and fibre content and low energy values promote satiety, decrease energy intake and could be important in weight management. Nutritionists recommend regular moderate exercise and many servings of soups and salads for those who need to shed a few pounds. Substituting fruits and vegetables for a calorie dense evening snack helps in weight loss.

(The chef is Director — Culinary development & Innovation, Elixir India.)

# The diet connection

Here's a list of superfoods that can lower the risk of breast cancer

A healthy lifestyle which includes exercise and a nutrient-dense diet may help reduce the risk of cancer. Foods which are rich in antioxidants and fiber have been found to regulate oestrogen and inhibit cancer cell formation. Small changes to a routine can help reduce the risk of breast cancer. Rohit Shelatkar, VP at Vitabiotics, Fitness and Nutrition Expert lists down some superfoods to add in ones diet to reduce the risk of breast cancer.

**Walnuts:** Walnuts are packed with Omega-3 fatty acids, antioxidants and phytosterols which helps regulate oestrogen levels and slow the growth of breast cancer cells. They have been known to help fight inflammation which in itself is beneficial in avoiding heart disease and a host of other chronic conditions, but it is also linked to cancer.

**Blueberries:** Research suggests that blueberries can reduce the growth of breast cancer tumours by causing cancerous cells to self-destruct, a process called apoptosis. Frozen wild blueberries are just as antioxidant and nutrient-packed as fresh. One can consume blueberries with smoothies, oatmeal or yogurt.

**Sweet Potatoes:** The sweet potato can inhibit proliferation and can regulate cell growth, defend and repair them. Studies have shown that women who eat sweet potatoes on

a regular basis are at a 17 per cent lower risk of developing breast cancer.

**Flaxseeds:** Flaxseed has all kinds of amazing health benefits, including lowering blood pressure and cholesterol. It is the richest source of lignans — a type of antioxidant. Dietary flaxseed has the potential to reduce tumour growth in patients with breast cancer. One can add flaxseeds to smoothies, yogurt par-faits or mix in the morning oatmeal.

**Garlic:** Garlic gets its cancer-busting properties from allicin, a component of garlic that's been shown to inhibit the division of cancer cells. Other cancer risks also found to lower lung, stomach, and prostate, possibly due to the flavonols present in the garlic. Eating garlic raw can maximise the anti-cancer effects.

**Green Tea:** It is packed antioxidants with immense health benefits. One of those benefits includes having anti-breast cancer properties.

Decreasing the number of fatty foods in the diet and replacing them with whole foods will reduce the risk and have been shown to improve the survival rate of breast cancer patients. While no single food is guaranteed to keep oneself cancer-free, changing the diet to include more of these superfoods that can help fight breast cancer would prove beneficial. —IANS

## R E C I P E S

### PANEER MAKHANA IN MAKHANI GRAVY

- WHAT YOU NEED**
- Paneer: 200 gm
  - *Makhane* (Popped lotus seeds): 50 gm
  - Whole spices (green cardamom, cinnamon, clove and bay leaf): 15 gm
  - *Ghee*: 30 gm
  - Milk: 100 ml
  - Cashew, white poppy seeds and melon seeds paste: 60 gm

- Cashew nut: 20 gm
- Raisins: 20 gm
- Cardomom powder: 5 gm
- Salt to taste
- White pepper powder: 2 gm
- Sugar: 15 gm
- Tomato purees: 100 gm
- *Kastoori methi*: 15 gm
- Saffron: 1 gm
- Fresh coriander leaves (to garnish)
- Pomegranate seeds (to garnish)

**METHOD**

- Dry roast *makhana* and leave it aside.
- Heat *ghee* in a pan and add whole spices.
- Once they start to crackle, add cashew, poppy and melon seeds paste and start stirring.
- Now add milk little by little and cook the gravy. Then add tomato puree and cook till the *ghee* separates.

- Add salt, sugar and white pepper powder. Make paneer *kofta* by grating the paneer. Stuff with nuts and flavour with cardomom powder.
- Cook another minute or so. If gravy gets thicker, add more milk and cook again.

- Turn off the heat, add fried *koftas*, roasted *makhane* and mix well. Add saffron and mix once again.
- Sprinkle coriander and pomegranate seeds. Serve immediately.

Courtesy: Chef Vaibhav Bhargava, Band Baja Barat Restaurant.

### ALL TRICK, NO TREAT WHAT YOU NEED

- Jameson: 50 ml
- Lemon juice: 25 ml
- Toffee syrup: 20 ml
- Chocolate bitters
- Egg whites: 25 ml

**METHOD**

- Take one cup sugar and butter (half stick).
- Continuously stir over medium heat for five minutes until it turns into rich brown colour.
- Add water if too thick and allow toffee syrup to cool.
- Place all ingredients into a cocktail shaker, add ice and shake well.
- Double strain into a chilled glass of your choice. Garnish with sprinkling of nutmeg and chocolate.

Courtesy: Pernod Ricard India.

### APPLE GALETTE WITH GINGER AND HONEY

- WHAT YOU NEED**
- Plain flour: 225 gm
  - Salt to taste
  - Butter (chilled and cut into small cubes): 125 gm

- Castor sugar: 2 tbsp
- Cold water: 2½ tbsp
- Crisp dessert apples: 4
- Ground almonds: 140 gm
- Demerara sugar: 55 gm (1 tbsp extra for dusting)
- Stem ginger (drained of syrup and finely diced): 100 gm
- Runny honey: 2 tbsp
- Lemon juice: 3 tbsp
- Melted butter: 2½ tbsp
- Stem ginger syrup (for glazing): 2-3 tbsp

**METHOD**

- Preheat the oven to 190 degree celsius.
- **For the dough:** Sift the flour and

salt into a bowl, add the chilled diced butter and rub together until

the mixture resembles breadcrumbs. Stir in the sugar, add

### RAW BANANA, COCONUT AND SAGO KABAB

- WHAT YOU NEED**
- Raw banana: 600 gm
  - Fresh coconut: 250 gm
  - Soaked sago pearls: 300 gm
  - Almond: 40 gm
  - Peppercorn: 1 tbsp
  - Salt to taste
  - Green chilli: 5
  - *Ghee*: 20 gm

**METHOD**

- Wash, boil and cool banana. Then grate banana and fresh coconut.
- Further, soak sago for two hours and drain water.
- Heat *ghee* in a pan, add grated coconut and cook till it turns golden brown.
- In a mixture grinder grind half of the roasted coconut

and keep the rest half aside.

- Fine chop green chillies. Mash half of sago and keep half sago for coating kababs from both sides.

- Then assemble all the above ingredients in a bowl and mix well.

- Divide above mixture in small balls and make round and flatten kababs.

- Then spread soaked sago

pearls on a plate, place flatten kababs on sago and firmly press so that sago can coat the kabab. Do this for both sides.

- Heat ghee in a non-stick pan. When hot place kababs and cook them from both sides till it turns golden brown.

- Serve hot.

Courtesy: Michellin Plate Winner, Chef Dayashankar Sharma.

the water and bring the dough together into a ball using a spatula, wrap in cling film and rest in a cool place for an hour.

- Peel the apples, cut into quarters and remove the cores.

- Cut each quarter into three or four slices and reserve.

- Sprinkle the apples with two to three teaspoons of the lemon juice to prevent from browning.

- Roll out the dough very thinly on a flour dusted worktop to a circle 38 cm (15 inches) in diameter.

- Brush the base of the casserole with a little melted butter and line the base and sides with the rolled out pastry, allowing the excess to stand proud of the rim.

- Combine the ground almonds, demerara sugar and chopped stem ginger together and spoon into the pastry lined pan.

- Arrange the sliced fruit on top in a neat circle pattern starting from the centre and working outwards.

- Mix the honey with the lemon juice and brush over the top of the fruit.

- Wet the inside exposed edges of the pastry with a little water and fold it into the pan, gently pressing together where the pastry overlaps. This can be in six or seven places and should look quite rustic.

- Brush the top of the turned over pastry with the melted butter and sprinkle with the extra demerara sugar.

- Bake the galette in the centre of the preheated oven for 50 to 55 minutes until golden brown and crisp, covering it with a sheet of loose foil, once it is nicely browned.

- Remove the galette from the oven and brush the apples with the stem ginger syrup.

- Serve warm or at ambient temperature with vanilla custard, whipped cream, honey yogurt or ice cream.

Courtesy: Le Creuset.
