4L daily Covid cases by Apr end likely Covid spreads

At current rate, deaths could go up to 200/day; Delhi sees record 20k cases in 24 hrs

PNS ■ NEW DELHI

With the current rate of the daily surge, India's Covid19 cases could reach anywhere between 3.5 and 4 lakh by the end of April. Going by the current death rate of around 0.5 per cent, India could see a daily fatality of around 175 to 200 per corded over 2.08 lakh new cases and 1,124 deaths, compared to 2.17 lakh cases and 1,185 deaths the previous day. The country's average daily Covid-19 growth during the last two weeks is around 5.2 to 6 per cent, or 12,000 to 15,000 aday. Even in the case of a highly point of the cases and 1,185 deaths the review of the cases stabilise around an average of 10,000 per day, the country total should go easily past 3.5 lakh in the remaining two weeks of this month. The most worrying part is the fact that he number of new

₹1.000 fine for no mask; markets to be sanitised on Sundays

PNS LUCKNOW

As corona surge continues, Muttar Pradesh Chief Minister Yogi Adityanath has ordered "Sunday curfew" across the State and also ordered setting up of 1,000-bed Covid hospitals in Lucknow to meet the demand of shortage of beds.

The State Government also stated that ₹1,000 fine will be

stated that ₹1,000 fine will be charged for not wearing masks and ₹10,000 fine for second time violation. The Sunday curfew will continue till May 15. In the review meeting, the CM ordered closure of markets, offices and other business establishments on Sundays so as to allow sanitisation of the markets across the State. "There will be a weekly closure in all rural and urban areas of the State on Sunday. Only sanitisation and emergency services will operate during this period. Necessary awareness works

should also be done in this regard. He hinted that even public transport and commutation won't be allowed.

"A 1,000-bed Cowid hospital will be established in Lucknow. The venue of the Defence Expo in Vrindavan Colony has been chosen for setting up of this makeshift hospital," the Chief Minister said during a review meeting with divisional commissioners, district magistrates, Chief Medical Officers and members

of the Team-11 (a core team of 11 officers).
Yogi also ordered closure of OPDs in all Government hospitals in the State to control crowds. He also announced that it is compulsory for everyone to wear a mask. "A new of ₹1,000 would be imposed for the first time caught without a mask a second time, a penalty of ₹10,000 would be imposed, "he added."

mainly via air: Lancet study

PMS MEW DELHI

The SARS-COV-2 virus that causes Covid-19 is predominantly transmitted through air, according to a new assessment carried in the medical journal Lancet which said it found little to no evidence that the virus spreads easily via large droplets, which fall quickly through the air and contaminate surfaces.

The study added that public health measures that fail to treat the virus as predominantly airborne leave people unprotected and allow the virus to spread. The study observation is significant for India where mass gatherings and election railles continue unabated even as overall Covid-19 cases are breaking records daily.

A multi-research team from the UK, the US and found the UK, the US and found through the cause of the study of the cause of the

cases across the country.

In light of the nationwide surge in coronavirus cases, the Class 10 and 12 exams which were to be held from May 4 have been deferred, CISCE's chief executive and secretary Gerry Arathoon said.

"We will closely monitor the situation and review it in the first week of June to take a final decision on conduct of examination," he said. "While class 12 exams will be conducted at a later stage, Class 10 students will get an option to either appear in offline exams later or get evaluated on basis of fair and unbiased criteria to be developed by board," Arathoon added.

Arathoon added.

Earlier 13 week, the Central Class 12 board students will get an option to either addition (CISE) had carriedled its Class 10 board exams and deferred the Class 12 board exams. Several State boards have postponed or cancelled their exams too.

Online audition for Mera Dance Meri Virasat begins

The online auditions for solo dance competition Mera Dance Meri Virasat began from Friday.

Dance Meri Virasat began from Friday.

It is to be notes that Mera Dance Meri Virasat Dance Competition is organized continuously from 2017 by MACK Dance Cultural Institute. In 2017-2018 it was a Bhopal level dance event.

It was organized at state level in 2019 and at national level in 2020. Besides, for four consecutive years this dance competition is a matter of pride for Bhopal. This year this dance competition will be broadcast on "& TV". While informing about the competition, Mack Mukesh,

founder of Mack dance Institute said that this year, this dance competition has been organized at the national level. This year's judge of this solo dance is Karthik Priyadarshani who is the winner of the World of Dance and the world hip hop international competition through the kings crew. He been the winner of many other dance events like Boogie Woogie, India's got talent. Recently, his struggle was shown in ABCD-2 movie.

He further said that Mera Dance Merl Virasaat dance event was started in 2017 in Bhopal. Today, the international recognition is for this solo dance event. Every year 400 dance participants

Govt taking all efforts to control Covid epidemic

All possible efforts are being made by the state govern-ment to control the Covid-19 epidemic. Under this, every effort has been made by the effort has been made by the government to ensure easy availability of Remdesivir. Remdesivir namaracturers have been directed to increase its supply in Madhya Pradesh. Instructions have been issued to all drug inspectors of the state, to prevent black marketing and illegal sale of Remdesivir along with ensuring easy availability of Remdesivir along with ensuring easy availability of Remdesivir a fair prices. Comptroller Food and Drug Administration P. Narhari has informed that the supply and distribution of Remdesivir injections is being constantly monitored by drug

Remdesivir injections is being constantly monitored by drug inspectors. He said that Remdesivir injections were seized on April 15, 2021 in a joint operation of Crime branch Indore and Drug Inspector Indore district from

the possession of Dr. Vinay Shankar Tripathi, Director of Drug Factory.
According to label on the seized drug, it has been manufactured in March 2021 by Messrs Tulip Formulation Kangda (Himachal Pradesh). The documents of manufacturing license / product permission of the drug Remdesivi injection of Messrs Tulip Formulation was not available with the suspect. The label had a price tag of Rs 5100, which suggests that the batch has been manufactured by the suspect of the commercial purposes. The case is being investigated.

suspect for commercial purposes. The case is being investigated.

Arrangements have been made to ensure distribution of Rendesivir injections only in hospitals and institutions so that it is easily accessible to the patients admitted in the hospitals. Remdesivir injection of total of 7 companies is being supplied in the state. Till date, he availability of a total of 97 thousand 716 injections has

been ensured in the state. On Friday, 9768 Remdesivir injections have been supplied. Out of this, 480 units have been supplied to Chief Medical Officer Government Hospital, Jabalpur district, 500 units to M.G.M. Medical College Indore, 500 units to Red Cross hospitals and 8288 units to private hospitals across the state. Now, Remdesivir injections will be directly distributed to hospitals and nursing homes in the private sector through stockists. The district administration will no longer make allotments for stockists or hospitals. The district administration and the drug inspector of the district concerned will make sure that the injection is being allocated to hospitals and nursing homes in the entire private sector in the district proportionately or not. Hospitals, nursing homes and stockists will submit accounts of the delivery of this injection to the district administration and drug inspector.

Cyber criminal booked for credit card fraud

Aishbagh police have booked a cyber criminal for transactions of Rs 118500 for transactions of Rs 118500 from a photographer's credit card on April 9; a complaint was lodged by the victim on Thursday. Naresh Kushwaha of Naveen Nagar works as a pho-tographer and was duped to the tune of over Rs 1 lakh which

tune of over Rs 1 lakh which was done using his credit card of Axis bank.

Investigating Officer ASI K 5 Thakur said that the victim received OTP messages on April 7 which were for Rs 7500 and when he checked statement nothing was updated on the same day but when he took statement for making payment on April 13, transactions were reflected in the statement as they were updated.

There were 16 transac-tions, 15 transactions were worth Rs 7500 while 16th transaction was worth Rs 6000. The total amount fraudulent

The total amount fraudulent-ly used by the accused was Rs 118500, he added. Il8500, he added. The victhin informed the bank regarding the fraud and lodged complaint regarding the fraudulent transactions which were not done by him. After the bank process were done victim reached Aishbagh police on Thursday and lodged complaint. Based on the complaint police have registered a case under sections 420, 66 C, 66 D IT and have started investigation.

The Chief Minister also directed the officials to ensure real-time availability of beds of the Delhi Corona app and that the information on the number

the information on the number of beds is exact.

The direction came after a meeting convened by the Chief Minister to review a meeting on Friday on the situation of coronavirus in Delhi. Several steps taken by the Delhi Government to improve the health infrastructure of Delhi were discussed, along with increasing the bed capacity and several other infrastructural requirements in Delhi.

and several other infrastruc-tural requirements in Delhi. Keriwal said that there should be multiple assistance numbers in the hospitals and nodal persons should be appointed at every helpline number so that no urgent calls should be missed or turned down. He also said that the health teams must reach out to every patient in home isolation and provide oximeters, the general public should receive every help while they are in home isolation. Deputy chief minister and very help while they are in home isolation.

Deputy chief minister and nodal minister Manish Sisodia,

Health Minister Satyendar Jain, Additional Chief Secretary, and Health Secretary were also pre-sent in the meeting along with health officials. Kejrival further said that the focus of the Delhi govern-ment is towards increasing the bed capacity, which will ensure adequate treatment for the people who require urgent assistance. In the meeting, bed man-agement was discussed in detail. CM directed the officials to create more COVID facilies and to increase the strength

updated regularly. All the hospitals must be directed to ensure an adequate flow of information on the real-time availability of beds," he said. The chief minister told the officials to ensure that this data is updated every day and the information should be exact.

"All the helpline numbers "All the helpline numbers of the hospitals, which are also mentioned on the Delhi Corona app should remain fully functional. The hospitals must be directed to make people available 24x7 for providing assistance through the helpline numbers," he said.

Preparedness for weekend 10 IAS officers appointed curfew reviewed

STAFF REPORTER II NEW DELHI

Following the Delhi Governments call for week-end curfew in the city, the Delhi Police Commissioner, S N Shrivastava on Friday held a meeting with district Deputy Commissioners of Police (DCSP) to review the preparedness and plan of action to follow on ground for strict enforcement of Coivd-19 restrictions and Delhi Disaster Management Authority (DDMA) order.

"The Delhi Police is again the frontline as last year to

"The Delhi Police is again in the frontline as last year to arrest the surge of corona," he said, directing all field officers to maintain tightness in restrictions and prosecute if anyone is found in willful disobedience

is found in willful disobedience to the restriction order without a valid ground or exemption. All Special Commissioners of Police and Joint Commissioners of Police of ranges also attended the meet-ing. The CP also asked district ranges also assed district DCsP to make extensive arrangements of pickets, patrolling and police presence on the ground.

"The covid weekend restrictions will be enforced strictly by Delhi Police like the night curfew. Anyone coming out of home will be definitely checked by the police personnel and questioned. If anyone is found moving without a valid emergency or movement pass for essential services or goods, they would be stopped and a case will be registered against them and they may face arrest too. Medical services, food materials, fruits and vegetables supply needs to go on as usual for normal life," said the CP.
"It is not our purpose to

or proposed to go on as usual for normal life," said the CP.
"It is not our purpose to create hindrance in these services. These will operate normally and our personnel will facilitate it. But no one under the garb of these activities can

undertake undue movement to undertake undue movement to violate the restriction orders," Shrivastava stated, however emphasizing that the genuine needs of people such as people in medical emergencies, veg-etable vendors actually moving in streets to sell vegetables will be allowed. Shrivastava also directed all DCSP to utilize the outside force and PCR for strict enforcement of curfew and

enforcement of curfew and take prompt legal action on the

take prompt legal action on the violators.

"What needs to be done in such a scenario is known to all. We urge people to follow covid appropriate behaviour and stay home unless exempted under government order. The DDMA orders need to be followed," the CP said.

as nodal officers for Coivd hospitals

STAFF REPORTER III NEW DELHI

In order to ensure better functioning of the city hospitals, the Delhi Government on Friday appointed 10 IAS officers as "nodal officers" for Coivd-19 hospitals run by it and asked them to work from the health care facility they have been assigned.

the health care racinty they have been assigned.

"The officers will be over-all in-charge of the Coivd-19 hospital assigned to them and will exercise general superin-tendence, directions and con-

tendence, directions and con-trol over the functioning of the hospital," an order issued by the health department read. Deputy Chief Minister Manish Sisodia, who has been appointed as the 'nodal minis-ter' for COVID-19 manage-ment in Delhi, said the step will ensure better patient manage-

ment and quick decision making. "Each officer shall be stationed at their respective hospital and ensure a robust and effective public grievances system also," he tweeted.

The name and phone number of the nodal officer will be displayed at prominent places in the hospital. These Indian Administrative Service (IAS) officers can also take assistance of staff from their original office, according to the order. "The nodal officer will be responsible for efficient and effective handling of telephone lines, call centre and complaint centre pertaining to

plaint centre pertaining to their hospital," it said..

During the meeting, the DCsP were also asked to ensure that policemen are careful to observe personal safety norms observe personal satety norms

Weekend lockdown announced in Chandigarh

With the number of Covid-VV 19 cases showing a surge, the Chandigarh administra-tion on Friday announced a weekend lockdown in the Union Territory till 5 am on

Union Territory till 5 am on Monday.

Announcing the fresh restriction in an official statement here, the administration urged residents to stay indoors. Essential activities and services and home delivery of food are exempted from the purview of the lockdown.

The decision was taken at a high-level meeting here chaired by Punjab Governor V P Singh Badmore, who is also the Administration of the union territory. The administration also announced other restric-

tions, which will be in place till

tions, which will be in place till April 30.

While all gymnasiums and spas in the union territory will remain closed, cinema halls can run with 50 per cent capacity, it said. All government offices will function with 50 per cent staff strength, and the general public will be allowed to meet officers only with prior appointment. The administration also banned on all social, cultural, political and religious events

cuitural, pointcia and rengious events

The existing limit on gatherings in permitted functions will be reduced to 100 for outdoor events and 50 for indoor ones. Buses will run but with 50 per cent capacity only. Museums, libraries, coaching institutions etc., will remain closed. The statement clarified that

The statement clarified that candidates venturing out to sit in examinations and those deputed in exam duties will be allowed to travel on production of admit or identity cards. Visitors will be screened at the airport, railway station, ISBT etc., it said. Home delivery of food will be allowed. All vaccination and testing centres, dispensaries and other medical facilities will remain open during the lockdown and people going there will not be stopped. Inter-state travellers will be allowed on all days, including the lockdown period, the administration said.

The high-level meeting was attended by Manoj Parida, Adviser to the Administrator, and Mandip Singh Brar, Deputy Commissioner,

Chandigarh, and Director, PGIMER, among others.
Badnore expressed serious concerns about the rising number of COVID-19 cases in the city and also the high fatality rate. The union territory reported 412 cases of the coronavirus on Thursday and a record.
Badnore directed all the three government medical

Badnore directed all the three government medical institutes here to ramp up their facilities so as to accommodate the increasing number of coronavirus patients.

All COVID-19-related deaths must be specifically audited, he said, adding that the sector 48 hospital should be made fully operational, so that it can function as a dedicated COVID-19 hospital, he directed.

3, in bid to rob, held after exchange of fire in Bhajanpura

STAFF REPORTER III NEW DELHI

The Delhi Police has arrest-

The Delhi Police has arrested three men after a brief exchange of fire during night curfew for allegedly trying to ob a person on Thursday night in northeast Delhi's Bhajanpura area.

The accused, Sabir (30), Ravi (32) and Zuber (22), all have previous criminal records. Police said that both Sabir and Ravi sustained bullet injuries on their leg during the exchange of fire and were shifted to a hospital for treatment.

ment.
According to Sanjay
Kumar Sain, the Deputy

Commissioner of Police (DCP), Northeast district, on Commissioner of Police (DCP), Northeast district, on Thursday night, while Bhajanpura Station House Officer (SHO), Ashok Sharma along with his team was enforcing night curfew in the area, he noticed that three persons who were on a white scooty trying to rob a person near Kavad Mandir on 66 Foota Road.

"Sensing police presence, hey escaped but were chased by Sharma. When the picket staff tried to stop them, they fred on the police team. While trying to escape, they lost balance of their vehicle and fell on the road. Thereafter, they again

escaping on foot," said the DCP.
"They were being chased by Head Constable Anil and Constable loginder who retaliated in self defence using their service weapon during which accused Sabir and Ravi received bullet injury on their leg," said the DCP.
"A case was registered and all the three accused have been arrested. A sophisticated pistol long with six live cartridges, a country made pistol with one live round and a used cartridge was seized along with a scooty that was found to be stolen," the DCP said.

Cong slams Pragya's absence from Bhopal...

From Page 1
"Dozens are losing lives daily in the city after not getting beds, oxygen and injections but the MP is not around to help," said Parmar.

He claimed that public has elected a representative who is hiding for saving her own life. The Congress had also announced *11,000 reward for information on 'missing' Health Minister Prabhuram Chaudhary who was away from the Bhopal for long as he was busy campaigning in Damoh for bypolls.

Former CBI chief Ranjit Sinha dies of Covid-19

Former CBI Director Ranjit Sinha died here on Friday morning reportedly due to Covid-19.

morning reportedly due to Covid-19. Sinha, 68, was confirmed positive for novel coronavirus infection on Thursday night and succumbed to the disease early on Friday, officials said. An IPS officer of the 1974-batch (Bihar cadre), Sinha took over as the Director of CBI on December 3, 2012 and retired on December 2, 2014. He was the 26th Director of CBI after its formation in 1963. Prior to joining as Director, CBI, Sinha was Director General of ITBP. He had earlier theld several important positives.

SC's directive for speedy disposal of cheque bounce cases

New Delhi: The Supreme Court on Friday came out with a slew of directions to ensure speedy disposal of cheque bounce cases and asked the Centre to amend laws to ensure clubbing of trials in cases which are lodged within one year against a person relating to the same transaction.

same transaction.

The apex court directed all the high courts across the country to issue guidelines for trial courts to deal with cheque

trial courts to deal with cheque bounce cases. A five-judge bench headed by Chief Justice S A Bobde fur-ther said that the evidence in cheque dishonour cases can now be tendered by filing affi-davits and there would be no need to examine witnesses physically. The bench, also compris-ing Justices I. Nageswara Rao,

BR Gavai, A S Bopanna and S Ravindra Bhat, asked the Centre to make "suitable amendments" in the Negotiable Instruments Act to ensure that trials in cheque bounce cases lodged in 12 months against a person can be clubbed together into one consolidated case. It reiterated the earlier decision and held that trial courts have no "inherent power" to reconsider their decisions to summon persons to face trials in the cheque bounce cases.

The apex court said the issues which have not been dealt by it would be considered by a committee headed by Justice R C Chavan, former judge of the Bombay High Court.

On March 10, the top court

to submit a report in three months specifying the steps to be taken for early disposal of cheque bounce cases across the country.

It said a three-judge bench would now take up the suo motu matter on ensuring early disposal of cheque bounce cases after eight weeks. It had earlier termed the pendency of over 35 lakhs cheque bounce cases as grotesque" and suggested to the Centre to come up with a law to create additional courts for a particular period of time to deal with such cases.

On Marcch 5 last year, the

such cases.

On March 5 last year, the top court had registered a suo motu case and decided to evolve a "concerted" and "coordinated" mechanism for expeditious disposal of such cases.

SC appoints special public prosecutors for multi-crore coal scam

New Delhi: The Supreme Court has appointed former Additional Solicitor General Maninder Singh and advocate Rajesh Batra as special public prosecutors (SPPs) for trial of

ragism barra as spectra puonprosecutors (SPPs) for trial of
multi-crore coal scam cases
filed by the Enforcement
Directorate.
Senior advocate R S
Cheema, who was appointed
SPP in 2014 by the top court,
has sought permission to be
relieved of the responsibility
citing his age and shortage of
law officers assisting him.

A bench headed by Chief
Justice S A Bobde said that
though there was no consensus
on the names of individuals,
the counsel appearing on all
sides unanimously agreed that
the apex court should appoint

a seasoned trial court lawyer of impeccable integrity and a designated senior advocate to guide him and conduct the proceedings. "Taking into account the above said criteria, we hereby appoint (i) Shri Maninder Singh, Senior Advocate and former Additional solicitor General of India; and (ii) Shri Rajesh Batra, Advocate as

General of India; and (ii) Shri Rajesh Batra, Advocate as Special Public Prosecutors in the place of R S Cheema. "R S Cheema, may get relieved upon the newly appointed Prosecutors taking charge. This Court records appreciation for the services rendered by R S Cheema," said the bench, also comprising Justices A S Bopanna and V Ramasubramanian. PNS

BJP says Mamata planned riots over firing, releases audio tape

SAUGAR SENGUPTA ■ KOLKATA

Even as Mamata Banerjee contin-fued to attack Prime Minister Narendra Modi for importing coro-na in Bengal in his bid to win elec-tions, the BJP on Friday released an the bengan in solt of win elections, the BJP on Friday released an audio-tape showing a conversation between the State Chief Minister and Cooch Behar district Trinamou Congress president Pratha Pratim Roy where she was allegedly instructing him to make preparations for taking out a rally with the corpse of people killed in Sitalkuchi police firing last Saturday.

This JBP leadership claimed was planned by the Chief Minister to stoke communal riots in order to polarise the Muslim voters. A timely banning of politicians — including the Chief Minister — by the Election Commission of India from entering Cooch Behar till last Tuesday however till folded her "criminal designs to fan riots in order

to win elections." BJP leader Amit Malavya said.

to win elections." BJP leader Amit Malayns asid.

Four persons were killed when the CJP opened freed after an alleged crowd of 300-350 men tried to attack the booth number 126 during the fourth phase of polling.

In the purported audio tape featuring Banerjee and Roy who is also the TMC candidate from Sitallauchi the Chief Minister also directed him to make arrangements for lodging an FIR against those who opened fire and implicating in that document the district SP and the local Circle inspector, the BJP leader said adding Roy was asked get the FIR drawn by professional so as to frame not only the central forces but also the district SP and the local Circle inspector. At a time when she should have stood with the law-enforcing agencies the Chief Minister was seen standing by the law-breakers, Malavya said. "Imagine had this rally been allowed to take place

what would have been the situation of Bengal what kind of communal disturbance it would have ignited," he said. "This betrays the criminal mind-set of the Chief Minister who has no

set of the Chief Minister who has no problem with playing politics with the death of people... she was try-ing to reap political dividends with dead bodies; Malavya said adding how Banerjee had been trying to instigate people saying the BJP would invoke National Population Begister to victimize its concentra-

would invoke National Population Register to victimize its opponents in the name of pushing out alleged infiltrators.

"There is no plans of brining NPR now and neither there is any proposal of raising detention camps," Malayva said claiming how the Chief Minister has been spreading false stories in the election rallies to create a mass panic and reap polit-ical dividends. "This she is doing as a last resort because she knows that she is going out of power."

Clubbing last 3 phase polls into 1 against democratic spirits: BJP

agains undidates into a position or us-advantage.

Bengal goes to the fifth phase of polling on April 17 that is Saturday. Senior BPl eader and its candidate from Tarakeshwar seat in Hooghly Swapan Dasgupta, said after emerging from the all-party meeting called by the Election Commission of India "we have said our party will abide by all protocols put in place by the Election Commission, and urged that no steps be taken that displace by the Election Commission, and urged that no steps be taken that dis-criminates those voting in the next phas-es from those who have already exer-cised their franchise. We have not said anything about clubbing (of phases)... we feel that the elections will be held in

Raiya Sabha election: CPM fields John Brittas

John Brittas, the ideological consultant to Chief Minister Pinarayi Vijayan , has been nominated as the CPP(M) representative to the Rajya Sabha from Kerala. Brittas, who is presently the managing director and chief executive officer of the CPI(M)-owned Kairali TV. channel was one of the close advisors to Pinarayi Vijayan along with Raman Srivastava, the former director general of Kerala Police.

Kerala Police.

The CPI(M) has also nominated V Sivadasan, a former president of the party's student wing SFI as its second nominee. Based on the strength of the party in the current legislature, the CPI(M) can win two seats out of the three at stake. The Muslim League has nominated out of the three at stake. The Muslim League has nominated NRI businessman P V Abdul Wahab as its candidate for the April 30 election. The names of Brittas and Shivadasn were announced after

the State Committee of the party met on Friday at the imposing AKG Centre at Thiruvananthapuram. A release issued by the party head quarters after the meeting claimed that the CPI(M)-led LDF would win 80 to 100 seats in the just concluded assembly election to Kerala. "Kerala will see for the first time the demolition of the anti-government feeing and the anti-government feeing and the ruling party coming back to power with more seats," said the release.

power with more seats," said the release.

The nomination of Brittas is being seen as the CPI(M)'s move to cobble up a grand alliance before the 2024 Lok Sabha election which the party hopes to win comfortably based on the recent farm agitation and other people movements headed by the party. "Brittas enjoys considerable clout with many opposition politicians in New Delhi, his second home turf from where he controlled Deshabhimani, the CPI(M)'s official mouth piece.

BMC to use 175 Jaslok Hospital beds for Covid patients, 52 for non-Covid critical patients

Taking cognisance of the fact that as many as 30 critical patients were as an another 22 critical patients were being treated for cardiac/nephro ailments, the Brihannumbai Municipal Corporation (BMC) on Friday made some changes in its earlier decision to convert Mumbai's famed Jaslok Hospital in south Mumbai into a dedicated Covid-19 hospital.

A day after it announced its deci-

riospital in South annunced its decision to convert Jaslok Hospital.

A day after it announced its decision to convert Jaslok Hospital into a dedicated Covid-19 hospital, the BMC amended its earlier move and decided not to convert the private medical facility into a fully dedicated Covid-19 hospital, saying that it did "not want to risk the lives of these 52 critical non-COVID patients, presently admitted in Jaslok hospital."

In a revised order issued on Friday, the BMC said that it had conveyed its Thursday's decision to the

Friday, the BMC said that it had conveyed its Thursday's decision to the Jaslok Hospital management. "However, it has been brought to the notice of MCGM by the said management that presently 30 critical patients undergoing cancer treatment and another 22 critical patients undergoing cardia/engenbr, treatment are and another 22 critical patients under-going cardiac/nephro treatment are already admitted in the hospital and considering their medical condition, shifting them to other hospital at this juncture may prove fatal," Mumbai Municipal Commissioner I S Chahal

said in his revised order.

"Hence, it is imperative on part of MCGM not to risk the lives of these 52 critical non-COVID patients, presently admitted in Jaslok hospital. Presently, 227 activated beds exist in Jaslok hospital," Chahal said.

Making amendments in his earlier order, Chahal said "Of the total 227 beds in Jaslok Hospital, 175 beds will function as COVID beds. Of these 175 Covid beds, 29 will be ICU beds"

Chahal said that the remaining 52 beds catering to above mentioned critical control of the con

Chahal said that the remaining 52 beds catering to above mentioned crit-ical patients shall continue to be non-COVID beds. "Rest of the conditions in our earlier will remain unchanged," he said. In effect, the BMC will utilise 175 out of 227 beds to treat Covid-10

175 out of 227 beds to treat worker patients.

Meanwhile, the BMC has instructed the hospital amangement to discharge all the non-cancer and cardiachephro patients undergoing treatment in speciality wards, to shift all such patients requiring non-Cowid tertiary care to nearby tertiary hospitals in 48 hours and to discharge all patients admitted for elective treatments by postponing their surgeries.

s. The BMC has also asked the The BMC has also asked the Jaslok Hospital management to aug-ment suspected/holding area for sus-pected Covid-19 cases, if required and follow all protocols and guidelines laid down for dedicated Covid hospitals as earlier.

NCB busts gang cultivating cannabis in Thane flat

In a major breakthrough in a sensational case involving inter-national ramifications, the Narcotics Control Bureau (NCB) has smashed a gang engaged in the cultivation of cannabis inside a two bed room-Hall-Kitchen (BHK) flat at Dombivli in neigh-

has smashed a gang engaged in the cultivation of cannabis inside a two bed room-Hall-Kitche (BHK) flat at Dombivli in neighboring Thane district.

Announcing the busting of the cannabis growing gang that would purchase seeds from Netherland and sell the drugs in cash and crypto currencies like Bitcoins, NCBs zonal director Sameer Wankhede said here on Friday: "This is indeed a big case. We are investigating the entire network that was involved in cultivation of Cannabis by hydroponic technique".

Hydroponics is an effective method for growing plants that places the plants in a water solution that's rich in nutrients. Instead of using soil to grow the plants, the roots of the plants come into direct contact with the nutrient-rich solution.

Acting on intelligence inputs, the NCB carried out the raids at a 2 BHK flat at Dombivil's Palava City, where the investigators found Cannabis being cultivated.

The NCB identified the two arrested persons as Javed Jahangir Sheikh and Arshad Khatri. "We are trying to find out their antecedents and links," Wankhede said.

"During our raids, we found that Cannabis was being cultivated there through Hydroponic techniques. From the site we have recovered cultivation setup. PH regulators, plant nutrients, clay pebbles, water pumps, air circulation systems, "Wankbed said.

The cannabis cultivation was being done clandestinely in

said.

The cannabis cultivation was being done clandestinely in the flat owned by one Rehan Khan who is away in Saudi Arabia. Khan is suspected to be financing the illegal cannabis cultivation, While nArshad is an expert in hydroponic cultivation, Livation, and the said was do to manage distribution of harvest.

"The two were procuring seeds from Amsterdam in the Netherlands through the dark web. The yield was sold to mediums size peddlers of Mumbai and Pune at the rate of 2,500 per gram for retail," Wankhede said.

PNS ■ KOLKATA Considering the firing deaths in the forurth phase of Assembly elections in Bengal last Saturday the Election Commission of India have made massive arrangements for the fifth phase which would be held on Saturday. More than a crore voters of 45 Assembly constituencies would exercise their franchise deciding the fate of 342 candidates on when 45 seats would go to polls in the fifth phase. According to sources the ECI would deploy about 853 companies of central forces to ensure free and fair voting. Voting will be held at 15,789 polling stations in 16 seats in North 24 Parganas, eight each in Bardhaman East and Nadia, seven in Japaiguri, five in Darjeeling and one in Kalimpong district. Aligarh cops start jail bharo movement

PRADEEP SAXENA ■ ALIGARH

A ligarh Police has started "Jail Bharo Andolan" with Operation Prahar to crack down on criminals. Along with this, two other special operations have also been conducted, in which more than one thousand criminals have been arrested within 15 days. On an average, 50 people are being interrogated every day.

people are being interrogated every day. The 'ail Bharo Andolan' was started by the new SSP Kalanidhi Naithani SSP took over the district on 27 March. Three days later, on March 30, Operation Awara started, It was a screw up on those who drink on the road. Under this catch was been taken against 987 people. After this, the operation, unarmed in the district started on April 2. It tightened up those people who are illegally possessing weapons. So far, reports have been sent to the DM to suspend the actual license of 120 people in this operation. After this, Operation Prahar was started from 10 April. Under this, the wanted and the warrants were attacked. In five days, 177 miscreants have been arrested in the 10 days before April 10, about a hundred criminals were caught.

Tamil Nadu's knitwear sector hit hard amid Covid surge

When Europe gets cold Tamil Nadu sneezes. The adage has been proved again as countries like Germany, France and Britain announced lock down due to Covid-19 pandemic leaving nearly one thousand knitwear units in Tirupur gasping for breath.

Despite the Centrés announcement sebut writing final packages.

ing for breath.

Despite the Centre's announcements about various financial packages as apart of the Atmanibhar schemes for the resuscitation of the gloomy industrial sector in the State, the Knitwear exporters are yet to come out of the abysts to which they have fallen since the breaking out of the pandemic all over the world. The textile materials manufactured in Tirupur stand out in the global market because of quality and craftmanship. But that has not been successful in reviving the cash liquidity faced by the European end users of Tirupur's knitwear products, according to Raja M Shanmugham, president, Tirupur Exporters' Association (TEA).

Shanmugham, a real Raja of the knitwear industry, says the fortunes of the industry could be turned for the better by a few measures which could be ordered by Nirmala Sitraman, the country's finance minister. The second lockdown promulgated in major countries like Germany, France and UK from November, has

lead us, mainly MSMEs into a liquid-ity crisis. In addition to this we are fac-ing another shock in the form of ever increasing price of yarn, our important raw material due to business dynam-

increasing price of yam, our important move material due to business dynamics. These factors have reoded the competitiveness of the knitwear industry, Shanmugham, known for his fighting spirits, told The Pioneer with a printing the printing that the certainty written all over his fact.

He said measures like Interest Equalisation Scheme which was amounced for a brief period of two years would help in soothing the pain being suffered by the industry. "This will help us to tide over the financial crunch we are facing due to lock down and high yarn prices and also in sustaining the global competitiveness of Brand Trupur," said the TEA president. The TEA in a memorandum to the minister has pointed out that the Remission of Duties and Taxes on Export Products (RODTEP) announced in January 2021 to replace the ROSCT. (Rebate of State and Central Taxes and Levies) has not been operationalised which has put the exporters and MSMEs between deep sea and devil.

nd devil. The MSMEs are not receiving the reimbursement of the embedded taxes including electricity tax, Mandi tax, GST on petro-products. The non-disbursement of RODTEP is causing severe liquidity crisis," said the TEA plea.

Maha logs 63,729 new cases

TN RAGHUNATHA III MUMBAI

Maharashtra breached another grim Covid-19 landmark on Friday, as it recorded a staggering 63,729 infections thus crossing a total of 37 lakh infections, even as alarming 398 more people succumbed to the pandemic in various parts of the state.

of 37 lakh infections, even as alarming 398 more people succumbed to the pandemic in various parts of the state.

A day after the pandemic claimed 349 lives and left 61,695 more infected in the state, the daily tally of infections rose by 2034 while the daily Covid-19 went up 49.

With 63729 fresh cases, the total infections climbed from 36.39,855 to 36,03,584. Similarly, with 398 new deaths, the total Covid-19 toll rose from 59,153 to 59,551.

As 45,335 patients were discharged from the hospitals ancest he state after full recovery, the total number of people discharged from the hospitals with the second week of March last year went up to 39,04,391. The recovery rate in the state for the first time in several days dropped from 81.3 per cent to 81.12 per cent.

The number of "active cases" total cases in the state rose from 6,20,060 to 6,38,034. The fatality rate in the state dropped from 1.63 per cent to 1.61 per cent.

With 53 fresh deaths, the Covid-19 toll in Mumbai rose from 12,197 to 12,250, while the infected cases went up by 880 xi0 triggers a jump in the infections from 5,53,404 to 5,62,207.

While Pune accounted for a maximum 1,16,665 "active cases" in the state, Aumbai stood second with 84,378 active cases, followed

3 MVA Mins indicate fresh curbs

Mumbai: With the continued surge in the Covid-19 Government would enforce more stringent restrictions to break the chain of fast spreading infortiers.

Interctions. Talking separately to media persons, State Home Minister Dilip Walse-Patil, public health and family welfare minister Rajesh Tope and relief and rehabilitation minister Vijaly Walestiwar said that the state government was looking at ways to make the Covid-19 protocols more stringent in view of the increasing number of infections and deaths across the state. "If people do not cooperate with the government in implementing the Covid-19 norms, we may have to strengthen the restrictions," Walse-Patil said. Wadettwar said that to save the lives of people the government might have to announce new curbs. The state may announce curbs on supply of fuel (petrol and diesels). people are still using local

(petrol and diesel)...people are still using local trains even though they are not in essential services," he said.

10,031 new cases in Kerala. 8.449 in TN

KOCHI/CHENNAI: Kerala, on KOCHI/CHENNAI: Kerala, once claimed as inaccessible to the pan-demic by political masters, tested 10,031 new Covid-19 patients in the 12 hours that ended at 6 PM on Friday. The State also registered 21 deaths and a Test Positivity Ratio of 14.8 which has accorded the sta-tus of Covid-19 epicenter to Kerala, according to a Department of Health physician in Ernakulam. Situation is alarming in neigh-poring Tamil Nadu which diag-nosed 8,449 new cases and record-d 33 deaths by Friday evening. The figures in both the States are like-ly to see a surge for the next like-

figures in both the States are like-by to see a surge for the next few weeks, according to doctors in the Government doctors. V P Joy, chief secretary of Kerala, made it clear that the impact of the restric-tions announced on Thursday would be known only after ten days.

Though the Kerala Government had declared that more than 2.5 lakh persons would be tested on Friday and Saturday, as part of its test, track and isolate mission, the State has tested only

mission, the State has tested only 67,000 persons till Friday 5 pm.

Be transparent, honest on Covid situation: Gui HC to Govt

Gandhinagar: The Guiarat Gandinagar: The Gujarat High Court, in its order on the suo moto PIL it filed regarding the current upsurge in the Covid situation, has asked the State Government to reach to the public in an honest and transparent manner so as to tackle the crisis the state is fac-

A division bench of Chief Justice Vikram Nath and Justice Plantgav D. Karia, which had held a hearing on the Cowid stution with Advocate General Kamal Trivedi appearing on behalf of the state government, was dissatisfied with the "rosy picture" painted by the government as the prevailing situation was opposite its claims. The high court, in its order, ordered the state government to increase the existing RT-PCR testing facilities and ensure the reduction of time to get the reports. It also ordered that accurate reporting of the RT-

accurate reporting of the RT-PCR results to be made public.

"The state should not feel shy of publishing the correct data."

data."
Regarding the public perception about remdesivir injections being a miracle drug and Trivedi's explanation that the drug was over-prescribed, the court ordered that remdesivir's drug was over-prescribed, the court ordered that remdessivir's administration and its dependency should be explained and communicated to the public through various print, electronic and social media, so that the deficit and misuse by black marketeers stop.

The court also ordered the state government control the online portal providing details of availability of beds etc, and that instead of the data being updated twice a day, the data and the display of availability of beds should be made real time. The government was also told to report to the court about the status of availability of oxygen in the state with regards to the demand.

The court order also advised the state government to make efforts to find out the actual number of Covid cases o as to remove the general perception in the public that state provided data was not accurate.

ception in the public that state provided data was not accurate.

"Make necessary arrange-ments to be made by the responsible officer with regard to the number of positive patients, the number of deaths due to Covid, the number of deaths due to Covid, the number of deaths due to Covid with comorbidity, to restore faith and trust in the public, the court said.

"The state should come up publicly in a transparent and fair manner with regards to availability and modalities of the required amenities, medical and related infrastructure for treatment of the patients, who require facilities of Covid-19 hospitalisation, with oxygen, rentilators, medicines etc.

"In order to achieve the objectives of removing the

public perception and restoring the faith, the state needs to have honest and transparent dialogue with the public which should be communicated with all, through print, electronic and social media," it added.

The state has nothing to gain by hiding the real picture and hence, suppression and concealment of accurate data would generate more serious problems, including fear, loss of trust, panic in the public. Coming out in a transparent and honest manner will also create awareness about the grave situation prevailing in the current times, to persuade the public to strictly abide by the Standard Operating Protocol regarding Covid."

The court, noting the request from the Indian Medical Association's Gujarat branch wishing to participate, said that it was free to do so as it scheduled the next hearing for April 20.

Released by Maoists, CRPF commando gets heroic welcome on return

MOHIT KANDHARI ■ JAMMU

CRPF CoBRA Commando Rakeshwar A CRPF CoBRA Commando Rakeshwar ASingh Manhas, abducted and later released by the Maoists in Bijapur area of Chhattiggarh last week, received a hero's welcome on his arrival here in Jammu on Friday.

**Accompanied by social workers who

Friday.

Accompanied by social workers who played a key role towards ensuring his safe release from the custody of Maoists on April 8, Manhas landed at Jammu airport where his five year daughter received him along with her mother and cheerful relatives amid patriotic chants hailing 'Mother India'.

From the airport Manhas was escort-n a cavalcade to a famous resort where From the airport Mainias was escus-ed in a cavalcade to a famous resort where he was accorded a red carpet welcome too. He was warmly hugged by his family mem-bers and close friends at the main entrance of the resort. His mother and Wife along with hundreds of close relatives and well

wishers garlanded him and performed spe-cial prayers before escorting him inside the

hall.

"I am very happy today. I hugged my father and kissed him when he took me in his arms after landing at the Jammu airport", the five year old daughter told reporters wearing a big smile on her face.

Meenu Chib, wife of Rakeshwar Singh Manhas was jubilant after meeting her husband. "I am very happy. All our prayers were answered and every one in the government at all levels played their role at the centre and state level to ensure safe release

of my husband". "I also thank CRPF officials and the entire media fraternity for all their support and help' she added.
Rakeshwar Singh in his brief interaction told large gathering of reporters, "I am feeling happy in the company of my family'. He said all the jawans who were part of the operation in Bijapur fought brave-ly before attaining martyrdom. He said, "when i was in their captivity i had no clue what was happening as i had no tools of communication available with me". He once again thanked all those social activists and local media persons from Chhattisgarh who ensured his safe return.
Uncle of Rakeshwar Singh Manhas, on behalf of the family made a brief statement thanking all those involved and responsible for ensuring safe return of the CRPF commando. The family also paid rich tributes in the memory of CRPF jawans martyred in the Maoist attack in Bijapur area of Chhattisgarh.

- PAPER WITH PASSION

Bumpy road ahead

To avoid having a comatose economy now, we must bear the cross of our earlier negligence

ndia is hunkering down again to battle the second and more virulent wave of the Coronavirus outbreak. It would have been much better for us had we sincerely stuck to the COVID-19 protocols when the numbers were down and, who knows, we might have been rid of this pesky virus by now! While the average citizen decided that it was "okay" to return to the crowded restaurants, malls, airports and bus and railway stations without masks or social distancing, our short-sighted politicos postponed the all-important Board exams but considered it imperative to hold political rallies and road shows brimming with nonchalant people ahead of the Assembly elections, because their future depended on it. The religious leaders found it exigent

for us to wash away our sins by bathing in the mil-lions in the holy Ganga. Now, here's the result of our collective endeavours: The Coronavirus cases across the country hit a record 2,17,353 fresh infections in the last 24 hours, the eighth record daily increase in the last nine days. In the same period, 1,185 people lost their lives due to the viral disease. The numbers coming out of the Health Ministry say that India registered a steady increase in the number of active Corona cases for the 36th day in a row. Now, we are scrambling to control the damage. The Home Ministry has asked its officers up

age. The Interest ministry has asked to siniters up to the level of Under-Secretary to avail the WFH option while the Deputy Secretary and above-ranking officials have been asked to attend office regularly with the option to stagger timings between 9 AM and 10 AM.

Various States, including the Capital, have also come up with local-level restrictions from the option to the company properties of the company o

 ranging from shutting of malls, gyms, swimming pools and auditoriums, prohibiting dining at restaurants, besides imposing a weekend lockdown and night curfew. The Government has assured the citizenry that the "test, trace, treat" and vaccination drive will continue unabated and that the national drug controller will take just three days to process applications of the foreign-made vaccines once they've been approved for emergency use in India. One can only hope that this time around, been approved in energeticly seal initials. The foreign the fact with the Government grits its teeth and stands by the Prime Minister's words that "we must learn to live with the virus". No matter how many restrictions are placed on recreation and how many weekends are spent imprisoned indoors, the nation's economy must not be shut down again. The first wave gave us many lessons on how identify the product of the product o to identify hotspots, impose local lockdowns and create containment zones in order to keep the wheels of the industry churning. We have to ensure that our march towards a self-reliant, New India continues; our ailing economy that was just beginning to revive cannot be delivered another body blow in the form of a hard lockdown. Else, we risk having a comatose economy in our hands. So, the nation would do well to gird up its loins and prepare for a bumpy road ahead, but the wheels of the economy cannot stop, no matter what.

Smoke billows from a forest fire at the Ketli area in Shimla

Good omen

It's time for the CJI's wish for a woman judge to head the nation's top court to come true

hief Justice of India SA Bobde deserves nothing less than the nation's applause and compliments for recently stating unequivocally that the time has come when a woman should head the top court. Hinting that the apex court was already moving along the right path on the issue, he underscored that there was "no need

for a change of attitude" of the Collegium to ensure greater representation of women in the judiciary. Hearing a plea by a women lawyers' body seeking consideration of the "meritorious" lot among them for appointment as judges in the High Courts, a Bench comprising Chief Justice Bobde and Justices Sanjay Kishan Kaul and Surya Kant said: "Why only higher judiciary? We think the time has come when a woman should be the Chief Justice of India." At this juncshould be the chief Joseph of the Joseph of

11, and the Delhi and Bombay High Courts have eight women judges each.
Interestingly, while the Supreme Court's emphasis on gender issues is to be lauded, it would truly have credibility and value if its own actions were consistent on this subject. Consider this: There is only one female judge among the 34 positions that currently constitute the Supreme Court. With Justice Indu Malhotra's retirement last month, the Collegium is considering a few women judges for elevation. The nation's top court has had only eight women judges since it came into existence on January 26, 1950. The first one, Fathirma Beevi, made it to the elite club only as late as in October 1989. Not a single woman judge has figured in the list of 48 CJIs since its inception. It would perhaps not be out of the context here to mention that the Supreme Court had recently pointed to the delay in giving women permanent commission in the military, blaming it on the "systemic bias" within the Ministry of Defence. While there certainly seems to be some truth in what it said, it is a complicated issue, especially the impact of women in combat roles. That said, in either case, there's no denying that women are up to performing any professional job with panache while balancing with finesse their roles as mother, daughter, sister, wife and homemaker.

India's flaming forests play havoc

C. A. Morion

Natural causes and human intervention are to blame for the rising number of conflagrations not only in India, but the world over

he surge of forest fires in Uttarakhand once again underlines the phenomenon in India. There has been a series of these this year in Himachal Pradesh, the Nagaland-Manipur border, oddisha, Madhya Pradesh and Gujarat. According to the India State of Forest Report 2019 (ISFR) — the latest in the line of such reports — released by the Forest Survey of India (FSI). Dehradun, over 30,000 forest fires were reported in the country in 2019. The report identified nearly 21.67 per cent (7,12.249 sq km) of the country's land area as forested. Another 2.89 per cent (95,027 sq km) was under tree cover.

The report identified 2,77,758 forest fire points across the country, and stated that about 21.40 per cent of India's forests are prone to fires. Of this 3.89 ner cent

try, and slated that about 21.40 per cent of India's forests are prone to fires. Of this, 3.89 per cent belonged to the category of extremely fire-prone, 6.01 per cent very highly fire-prone. G.01 per cent very highly fire-prone and Tripura and Tripura and Tripura and Tripura are "extremely prone" to conflagrations. According to the Ministry of Environment, Forest and Climate Change (MoEFCC) annual report for 2020-21, the States with large forest areas and falling under the "very highly fire-prone" category — including Andhra Pradesh, Manipur, Meghalaya, Mizoram, Nagaland Uttar Pradesh — were turning into "extremely fire-prone" hotspots; so were regions like western Maharashtra, Bihar and Uttar Pradesh and Tradesh western Maharashtra, subra changes and the severen Maharashtra, subra changes and the severen Maharashtra, subra changes and the pradesh and the Pradesh and areas of Telanusmen and Andhra Pradesh Chhattisgarh and areas of Telangana and Andhra Pradesh,

Telangama and Andhra Pradesh, along with central Odisha. Areas under the "highly prone" and "moderately prone" categories make up about 26.2, per cent of the total forest cover — a staggering 1,72,374 sq km.

A State prone to forest fires is suffered at least 540 of these from 2016 to 2020. Uttarakhand and Himachal Pradesh are witness to the most frequent forest fires annually. According to the National Forest Inventory under the MoEFCC, the fires severely affect almost 10

per cent of the country's forest area while mildly affecting about 54 per cent, which makes about two-third of India's forests vulnerable to fires.

forests vulnerable to fires.

The question is: Why is it so? Lightining is the most important natural cause. Another is the spontaneous combustion of dried-up leaves and sticks. The one that has been an increasingly potent factor, and is set to become even more so, is global warming. It dries up the leaves and shrubbery on the ground, making them highly inflammable. It also dries up the soil. Thus, the lack of soil moisture as a result or rainfall deficiency during of rainfall deficiency during monsoons — less than 18 per cent and 20 per cent in 2019 cent and 20 per cent in 2019 and 2020, respectively — has been an important factor in this year's Uttarakhand fires. In fact, it has been a cause not only in many other parts of India but the entire world — the blazes bedevilling Australia, California in the US and the Amazon rainforests in Brazil are examples. Human activity, however, is responsible for the overwhelming majority of forest fires the world over. In India, these blazes are mainly caused

these blazes are mainly caused by the slash-and-burn method by the slash-and-burn means of shifting agriculture, known

FOREST FIRES ARE AS OLD AS FORESTS AND WILL **CONTINUE TO** OCCUR AS LONG AS FORESTS EXIST. ONE, HOWEVER, CAN LIMIT THEIR INCIDENCE AND ADVERSE CONSEQUENCES BY FIRMLY DEALING WITH THE TIMBER. **BUILDER AND** MINING MAFIA, AND THE POACHERS

as ihum in Arunachal Pradesh

as jlum in Arunachal Pradesh, Nagaland, Manipur, Mizoram, Meghalaya, Tripura and Assam, Meneri it is practised over about 15,000 sq km of forest land. The blazes are also set off to clear the ground for mining, timber felling and the construction of human settlements and industrial units, besides warding off the wild animals. People burn dry leaves and shrubbery on forest grounds, believing that it would lead to the sprouting of new and healthier grass. Poachers light fires on three sides to corner fleeting wild animals in one area as their concentrated presence helps killing. People visiting forests are often careless and leave behind lighted butts of cigarettes or bidis, besides inflammable material.

Things are made worse by the fact that it is difficult by the fact that it is difficult to extinguish forest fires. The absence of roads prevents fire tenders from reaching the sites and high winds carry the sparks to new areas. Helicopters are pressed into service — as in Uttarakhand recently where two Indian Air Force helicopters, each with a 5,000-litre water tank, were deployed. There are, however, limits to the number of helicopters that can be used and the availability of large lakes or rivers from which these can draw water.

lakes or rivers from which these can draw water. Forest fires wreak havoc in India every year. They destroy forests, cause pollution, turn streams dry or adversely affect their water quality, damage soil autrients and increase the risk of soil erosion. They kill wildlife and insects, including endangered species, and destroy their habitats, damage national parks and sanctuaries, driving the wild animals like tigers, leopards and elphants towards human settlements, thus aggravating the human-animal conflict. And, of course, they kill humans and destroy their property.

The question is: What is to be done? Forest fires are as old as forests and will continue to

as forests and will continue to occur as long as forests exist. occur as long as forests exist. One, however, can limit their incidence by firmly dealing with the timber, builder and mining mafia, and the poachers, and simultaneously enlightening people not to carelessly leave incendiary material in forests. The Central and State Governments will have to this end. The consequences of not doing so will be severe. (The author is Consulting Editor, The Pioneer. The views expressed are personal.)

LETTERS TO THE EDITOR

NEGLIGENCE RESPONSIBLE FOR SITUATION

NEALBENCE RESPONSIBLE FOR SITUATION
Sir — Instead of getting stunned by the rising number of COVID cases in the country, we must admit the fact that we are not moving towards a second wave but are actually in its grip. As the demand for Remdesivir surges, the Centre has fast-tracked applications from companies to manufacture the critical anti-viral drug in order to ensure its smooth availability. Night curfews and partial lockdowns are being imposed in many parts of the country as a measure to control the deadly virus. Amid the rising cases, the Centre has announced the cancellation of the CBSE Board exams for Class 10 and has deferred Class 12 exams.

for Class 10 and has deferred Class 12 exams.

On the other hand, lakhs of devotees have been taking a holy dip in the Ganga on the occasion of the Kumbh Mela in Haridwar, flouting the COVID norms. It is however ironic that while the Government has no compunction about cancelling the Board examinations, elections in the country are continuing as if nothing has happened. These fears have been magnified all the more with the dismal disregard shown by various State Governments to clamping down on mass public events and gatherings. While a proactive approach to control and manage the crowds when it comes to stonevalling the widely contagious virus, is a remedy to the problem, the complete disregard shown towards the basic safety precautions is indeed perplexing! precautions is indeed perplexing!
Pachu Menon | Goa

TROOP WITHDRAWAL WILL CREATE VACUUM INOUP WINDIAWAK WILL CREATE VACCOUN SIT— THE US decision to withdraw troops from Afghanistan is not good at the pre-sent moment as the situation on the ground is far from satisfactory. The Taliban is still controlling parts of Afghanistan and there is considerable influence of Pakistan and support from China, too. The chances of disintegration of Afghanistan are quite of disintegration of Afghanistan are quite high. The withdrawal of the US troops might create a vacuum which, if acquired by the disruptive forces, will push the country into turmoil. President Joe Biden has said the US troops will be withdrawn from

Politicisation of vaccines

Politics over the anti-Coronavirus vaccine started the day Prime Minister Narendra Moid announced free jabs to the people of Bihar in the run-up to the Assembly elections in October-November last year. The vaccine policy suffered from the play of politics and one-upmanship. Besides, appalling naiveness in assessing the demand during the and wave different waves of the plant of th ond wave, differing norms for affording authorisation for use, inertia in augmenting inhouse capacity, exports as a policy and imports in fetters together impacted the availability of vaccines in the country. After the

Afghanistan beginning May 1 and the process will be completed by September 11. For his part, Afghan President Ashraf Ghani said he spoke to Biden and that his country respects the US decision.

Maybe the US troops might be shifted to some other regions of the world. The US is also facing domestic problems and is ravaged by the COVID pandemic. Washington needs a war to run its economy. The weapons industry needs insecurity among the countries to sell weapons and make profits. In my opinion, the US troops will be shifted to another war. Let's wait and watch till the withdrawal in September.

Sumil Pradhan | Odisha

BAN SUPER-SPREADER EVENTS

Sir — It refers to the editorial 'Matters of faith' (April 16). At a time when the Government has done away with bridging trials for foreign-made vaccines for

authorisation of the Oxford-assisted Covishield authorisation of the Oxford-assisted Covishield and the Indigenously-developed Covaxin for emergency use, the authorities soft-pedalled on giving authorisation and import/production licence(s) to other popular vaccine candidates in the world. According to the Lancet, Russia's vaccine Sputnik V had the efficacy of 91.6 per cent. While the chronic shortage was being felt, the Government allowed the exports to showcase India as a powerhouse of vaccines. To draw an analogy, the US has accumulated stocks which could vaccinate its entire population.

In fact, the possibility of a furious second

population.
In fact, the possibility of a furious second wave was overlooked. India's daily COVID count has crossed 2 lakh now. This surger must be viewed against the overloaded hospitals, shortage in oxygen supply, inadequacy in life-saving ventilators and shortfalls in vaccines and medicines. There is an urgent need to reassess the situation carefully and honestly to mount a multipronged action to crush the climbing curve and aument treatment facilities. curve and augment treatment facilities.

Haridasan Rajan | Kozhikode

COVID-19 to facilitate acceleration in vaccination, it should seriously think about banning religious events like the Kumbh Mela which has become a super-spreader. In just five days, 1,701 people have tested positive for COVID-19 in the Kumbh Mela area. The Uttarakhand Police was unable to impose the standard operating procedures (SOPs) on the seers of akhadas and the ash-smeared ascetics crowding the Har Ki Pauri on the two shahi snans because of time constraints. Now Niranjani Akhada, one of the 13 akhadas of seers participating in the Kumbh, has decided to return from the event in the wake of the deteriorating COVID-19 situation. But it is too late rating COVID-19 situation. But it is too late as the damage has already been done.

THE NEW REALTY FOR INDIANS

People are acquiring slices of rent-yielding properties in a way that is comparable to investing in a firm's stocks

SONAM CHANDWANI

pall of gloom over the real estate industry on account of the COVID-19 pandemic has brought to light several unconvention-al methods being applied to keep the dreams of property buy-alive, while developers strive to stay afloat. A growing number of Indians are acquiring slices of rent-yielding residential and commercial properties in a way that is comparable to investing in the stocks of a company. Fractional real estate, as the concept is known, allows investors to buy, say, one per cent of a vacation home for a mini-mum amount and use it whenever they want, while earning rental income, too. While weekend properties are neither essential nor urgent the outbreak has changed this perception. Such a realty ownership concept has arisen predominantly from the Work-From-Home (WFH) culture and the work-vacation culture, attracting NRIs and domestic buyers alike. Such a property acts like an asset, attracting a plethora of investors, in the end becoming a potential Special Purpose Vehicle-related investment. From the taxation standpoint, the fractional own-ership of a property opens up such owners to a plethora of taxable liabilities, when comparing the yearly taxation related costs of such interests, prospective buyers or their counsel/advisors need to be sure of the usage arrangement, location, ownership size, basic amenities and other items.

A unicorn investment refers to a startup avenue/venture, occupying less than \$1 billion of the industry share. Considering the fact that this sort of timeshare arrangement is a novel arena of investment for Indians, the value of such investment could possibly render the whole idea as a potential cash cow for real estate developor a dapting to such forms of investment. With the pandemic hav-ing rendered the traditional and conventional real estate an under-yield-ing area of investment in the markets currently, fractional ownership might just pave way for a steady boom in the real estate sector. While fractional ownership may appear to be an inexpensive mode of invest-ment to potential investors, it has its pros and cons. Procedures involv-ing the investment in such ventures could involve detailed due gences and legal red-tapism. Not paying attention to such procedures could end up putting stressed properties in the hands of lesser advised

Moreover, expenses considering maintenance and management of the property and any such costs could essentially tip the scales against the owners should they not be able to actually utilise the property within their arrangements. Having said that, the benefits accru-ing out of part ownership of vacation properties, while not account-ing monumentally in financial terms, are manifold where it comes to utilisation. Such a property allows the investors to change their workunusation. Such a properly allows let investors to change their work-space surroundings and choose rather inexpensive modes of vaca-tion and even earn some money out of renting it out to other vaca-tioners. Though fractional ownership could lead to a real estate invest-ment boom the sector so gravely yearns for, the legal procedures involved might turn off a certain class of investors. Moreover, a relatively-new arena of investment always ends up taking a lot more time in yielding benefits, even if the time-value of money is rather unaccountable, since the property provides more leisurely than com-mercial benefits. Timeshare investments, while popular in the West, are considered to be a nascent area of investment, particularly while fractional ownership is considered. However, given the correct legal framework and taxation incentives, the current status of such investment could be elevated to providing the work-vacation culture the stability that the recent short-lived boom is testament to.

Time to turn Nocebo to Placebo in India

We must widely propagate the positives of getting inoculated, underplay the negatives and whole-heartedly support the Govt's initiatives towards massive vaccination drives

The pandemic and its prevalence have taught us many lessons in perseverance and patience. We have raced from one decision to the next, hoping that the latest one will make everything normal again. While the scientists have been working relentlessly to understand the virus and come up with increasingly promising vaccine candidates, the virus has been playing truant and evolving in new forms to ditch human efforts and survive as more observed within the baselone of the news engineering the production of the contract of the

with increasingly promising vaccine candidates, the virus has been playing truant and evolving in new forms to ditch human efforts and survive as more robust variants. In the wake of the ever-changing variants, efficacy statistics and reported side effects, the so-called ultimate solution to end the pandemic, the anti-Corona vaccine, doesn't appear to be so attractive anymore. People are hesitant to take the shot, confirming the 'Nocebo Effect' to the perceived solution of the pandemic that doesn't seem to be getting anywhere close to its end. The hesitancy is spread across the globe. Some think they will never get the disease while others believe the virus is on its way out. Social media has been most instrumental in spreading the hesitancy due to varied opinions of people who have wide social media presence and have contributed to turning the solution from placebo to nocebo.

Understanding and addressing vaccine hesitancy has become very important in the drive towards normalising life, avoiding deaths and allowing the economy to run to its full capacity. These were the very reasons why a COVID-19 vaccine was needed in the first place. What made the long wait for a solution turn into vaccine hesitancy needs serious thought. As per the World Health Organisation (WHO), waccine hesitancy is the delay in acceptance or refusal of vaccines despite their availability. Medical practitioners and scientists have been making all out efforts to discuss and address the common causes of concern. Fear and hesitancy comform the unknown, hence the awareness needs to rise. This has led to a negative mindset against the vaccine. The hesitancy has also been triggered by the side effects reported in some cases as a result of administering the vaccine. The hesitancy has also been traggered by the side effects reported in some cases as a result of administering the vaccine. The hesitancy to as a side effect of the AstraZenca pha and discontinuation of the vaccine thereafter in at least a dozen that the safety measures and discontinu

uation of the vaccine thereafter in at least a dozen European countries before resuming them again, doubts have grown more than ever. The latest news that Demark has totally stopped the use of the AstraZeneca jab in its inoculation drive is not help-ing the cause and instilling confidence in people. While Governments across the globe have rolled out the vaccine and invited people to get vaccinat-ed at the earliest, the vaccination centres report a different story. Dealing with vaccine hesitancy has become the next big challenge, even in a country like India, which is now the second-most badly hit nation in the world after the U.S. In order to build trust and confidence in the jab, a multi-pronged strategy is required with transpar-

a multi-pronged strategy is required with transpar-ent communication as the key. With the second wave already in full swing and numerous variants of the original virus here, the danger is far from over. Herd immunity, as it was being perceived, is nowhere in sight as there are people who have reported a sec-ond infection. The diversity of the disease is unfath-

WHILE THE RUSSIAN VACCINE SPUTNIK V HAS BEEN GIVEN THE GO AHEAD AND WILL SHOW THE STATE OF THE S THAT HAVE BEEN APPROVED BY THE WHO FOR EMERGENCY USE. IT IS ONLY A AND THE SHORTAGE
WILL BE A THING
OF THE PAST. BUT
THE BIG QUESTION
IS WILL VACCINE
HESITANCY, TOO, BE GONE SOON?

Attitudes towards the COVID19 vaccines have changed overtime
and varied greatly. The theory of
developing antibodies on being
infected has also led to a decrease in
he relevance of the vaccine. Infected
individuals feel they have developed antibodies and are immunised
against the disease, so they do not
need a shot. However, the protective
abilities of antibodies in sero-surveys
is unknown and their effectiveness in
preventing reinfection is still to be
studied. The belief that the vaccine
is rushed and has not been tested
properly is another setback.

That some of the scientists have
been supporting this belief has also
given boost to hesitancy. It is also
assumed that the efficacy of the vaccine is being underplayed so that
people do not become lax in observacine is being underplayed so that
people do not become lax in observaing COVID-apropriate behaviour.
Another view being expressed is that
the immunity after vaccination lasts
for only six months, which wrongly
implies that the shot is not effective.
People also think that if the survival
and recovery rate is 99.6 per cent,
why even bother getting a jab.

All these supposed opinions and
views have stopped people from geting vaccinated. Giving compensation for getting vaccinated has always
backfired as people think that they
are being paid because there is
something to hide. The only groups
that have justifiable concerns are the
elderly, people with co-morbidities,
pregnant women and those with high Attitudes towards the COVID-

elderly, people with co-morbidities, pregnant women and those with high allergic reactions to vaccines. Also,

there is no vaccine to protect our children, as of now. Though getting vaccinated is a personal choice, the most successful inoculation drives have been built on knowledge exchange, accessibility and successful stories of those getting vaccinated.

Sherita Hill Golden, vice-president, chief diversity officer and a Professor of Medicine at Johns Hopkins Medicine talks of 12 things you need to know in the wake of the current vaccine hesitancy. The facts and insights into making a personal choice to get inoculated include the following: Getting vaccinated can protect you from getting COVID as your body will be ready to fight the Coronavirus if you are exposed to it; your body will be ready to fight the Coronavirus if you are exposed to it, the people of colour are especially vulnerable to severe COVID-19 and its risk factors; getting inoculated helps others in the community, more so when people have chronic medical conditions; more vaccinations mean a chance to return to normal after having to experience closures, cancellations and postponements; though the vaccine development was fast, no steps were skipped while testing for safety and efficacy diversity in vaccine testing helped assess safety and effectiveness; side effects of the COVID-19 vaccine are sparse and temporary, mainly limited to a sore arm, mild fever or body aches; it is possible to get the shot ed to a sore arm, mild fever or body aches; it is possible to get the shot despite allergies except if you have severe allergic reactions to vaccines; the vaccine is safe for breastfeeding mothers, though pregnant women

should discuss it with their doctors as the vaccine have not been tested in pregnant women; the jab can give you extra protection, if you already had COVID-19, waiting too long allows the virus to spread in the community, hence, time is of the essence for the vaccine; the pandemic can only be shortened if the vaccine is well-received.

Hence, people have been advised to do their own research from reliable sources and take an informed decision regarding getting vaccinated. Where the issue of the shortage of the vaccine in the country is conshould discuss it with their doctors

of the vaccine in the country is cor cerned, the Government is doing all it can to ensure that the needs of the it can to ensure that the needs of the people are met at the earliest. When the Russian vaccine Sputnik VI has been given the go ahead and will hit the market soon after short trials here, the Centre is also looking at fast approvals for vaccines from other nations that have been approved by the WHO for emergency use. It is only a matter of time and the short-age will be a thing of the past. But the big question is will vaccine hesitanty, too, be gone soon?

It is time to put resolve into widely propagating the positives of getting vaccinated, underplaying the sparse negatives and whole-heartedly supporting the Government's initiatives towards massive vaccination drust so that the pandemic situation can be

towards massive vaccination drives so that the pandemic situation can be controlled, the economic downturn can be lifted and normalcy restored. Its time we turned this nocebo to a placebo and support humanity.

The Maha Kumbh of COVID and environmental risks

The Govt is not ignorant of the health costs of these events during the ongoing second wave of the outbreak but populist measures are the top priority during elections

The Kumbh Mela was first mentioned in the accounts of Hiuen Tsang, the famous Chinese traveller who visited India in the seventh century. The grand event, with a 2,000-year-old history, commenced this year in January and will continue till the end of August 1 and yan actalists, yan and will continue till the end of April. Currently, at over two lakh new cases, India accounts for one in six of all new COVID infections globally. But these rather grim facts did not deter nearly 13.5 lakh devotees, including the members of the 13 Akharas from taking the holy dip or the Shahi Shan on April 13.

The consequences of the ongoing Maha Kumbh upon public health have been devastating, to say the least. In the last 24 hours, Haridwar has reported over 1,000 fresh Corona positive cases. With

KOTA SRIRAJ

The writer is an nvironmental journa The views expresse are personal.

25 special trains to ferry the pilgrims across the country, the Maha Kumbh is all set to become a "Maha COVID-19 super-spreader." The situation looks hopeless unless either the event is immediately terminated or social distancing norms are strictly adhered to. But nothing significant seems to have been done by the Government regarding it.

Health risks aside, the Kumbh Mela is also not something that is known for environment friendliness. The Maha Kumbh is held at four locations — Nashik, Haridwar, Prayagraj and Ujjain — on a rotational basis after an interval of 12 years.

While the Kumbh is held the Kumbh is

While the Kumbh, in general, is celebrated four times over the course of 12 years, with the site of the observance rotating between

four pilgrimage places on the four sacred rivers, name-ly, at Haridwar on the Ganga, at Ujjain on the Shipra, at Nashik on the Godavari and at Prayagraj at the conflu-ence of the Ganga, the Jamuna, and the mythical Sarasvati. The Nashik Kumbh Mela

Sarasvatt.

The Nashik Kumbh Mela held in 2015 resulted in 2015 resulted in 205,000 tonnes of solid waste and faecal sludge that crept into the groundwater table from 33,000 hastily set-up mobile toiles without any effective waste disposal mechanism. It took an international outcry triggered by media coverage and the eventual intervention of the Bombay High Court to clean up the Nashik Kumbh Mela mess and rescue the environment. The event also caused ment. The event also caused a spike in river pollution making it unfit for bathing and other purposes. The

maximum permissible Biochemical Oxygen Demand (BCD) for safe bathing is 3.0 milligrams (mg) per litre but it ranged between 3.4-8.5 m per litre during the event. Meanwhile bacterial coliform ranged between 3,500 and 39,000 Most Probable Number (MPN) per 100 ml while the permissible limit is 500 MNP per 100 ml for human

bathing. The Maha Kumbh at Haridwar, too, is no different either in terms of the colos-sal health risk it poses or the ecological collateral damage it brinos

ecological collateral damage it brings.

In the run-up to the Haridwar Maha Kumbh, the National Mission for Clean Ganga (NMCG) has been working tirelessly to prevent ecological damage and as a part of its efforts, the NMCG has diverted one of the biggest local sewage drains—the Kassawan nullah — to a sewage treatment plant. But it should have been done a year ago. This nullah has emptied its effluents into the Ganga for years.

A recent study by the Doon University on the pollution levels in the Ganga for state the from Rishikesh to Haridwar the river was high on pollutants due to the pilgrim

bathing load and urban waste effluent flow. The study also revealed that the overall concentration of Polypropylene Copolymer (PPCP), a form of plastic pollutant in the Ganga was found to be up to 1,104.84 ananograms per litre. Further, the presence of chemicals was also found to be high in the river water samples. The election season, too, symbolised by huge political rallies, coupled with unrestrained religious gatherings are in total defiance of COVID-appropriate behaviour and protocol. Surely the Government is not ignorant of the health costs of these unabated events during the ongoing second wave of the Coronavirus pandemic, but populist measures and appreasement tactics are the top priorities during elections and they seem to score over top priorities during elections and they seem to score over

environmental and health

concerns.

This is not surprising, but what is unfortunately startling is the inaction on the behalf of the judiciary which could have taken a *suo motu* initiative to shorten the dura-tion of the Kumbh Mela, tion of the Kumbh Mela, thereby, saving lives and the environment. In the absence of this, the Non-Government Organisations working in the field of environment protection and other individuals could have filed a Public Interest Litigation to this effect, but unfortunately, that also did not happen yet.

It is a classic case of who will bell the cat? Sadly, the

reluctance of people to take on what is obviously a com-munally-sensitive issue will cost the environment and the health and economy of the country dearly. Where are the true nationalists now

Myanmar coup foes tout minority-backed shadow Govt

Police security forces stand by inside a police vehicle and on the sidewalk of Hledan Road in Kamayut township in Yangon,

AP WANGON

Opponents of Myanmar's ruling junta went on the political offensive on Friday, declaring they have formed an interim national unity Government with members of Aung San Suu Kyi's ousted Cabinet and major ethnic minority groups.

The move comes on the eve of a diplomatic initiative to solve Myanmar's crisis by the Association of Southeast Asian Nations, which is expected to hold a summit next week.

A violent crackdown by the junta has failed to stem Opposition to the coup, and as the Army has spread the fight oe thinc minorities in border areas, some ASEAN members believe the crisis threatens regional stability.

Opponents of the coup have been seeking an alliance with them immority groups as a way of strengthening their resistance. The minorities for decades have kept up on-again, off-again armed struggles for

SolarWind hack of federal agencies — the activities punished by the latest U.S. Sanctions. The Russian Foreign Ministry warned of an "inevitable" retaliation, charging that "Washington should realize that it will have to pay a price for the degradation of bilateral ties."

The U.S. On Thursday ordered 10 Russian diplomats expelled, targeted dozens of companies and people, and imposed new curbs on Russia's ability to borrow money.

companies and people, and imposed new curbs on Russia's ability to borrow money. Pundits had predicted that while Moscow would respond in kind to the expulsions, it would refrain from any other significant moves to avoid a further escalation.

Russia's economic potential and its global reach are limited compared with the Soviet Union that competed with the U.S for international influence during the Cold War. Still, Russia's nuclear arsenal and its leverage in many parts of the world make it a power that Washington needs to reckon with.

seats.
The CRPH sought international recognition as Myanmar's sole legitimate government body, but won only popular support from those opposed to military rule.
The junta declared the CRPH an illegal organisation, and issued arrest warrants for its leading members.
A video posted Friday on social media showed veteran activist Min Ko Naing announcing the formation of the new body. He was a leader of the failed 1988 uprising against a previous military dictatorship and is one of the country's most respected political figures aside from Suu Kyi. He went quickly underground after the country and

apparently has been active in political organizing against the joints since them.
"Please support the National Unity Government for the future of our citizens and our younger generation," the people are the decision makers and the people will fight the final battle. Victory is coming, We must win our revolution."

More details were provided in a statement on social media by Dr. Sasa, a physician and philamthropist who though in hiding has been the online public face of the CRPH.

"Today, at the end of Myammar's new year, we are proud to announce the formation of a new National Unity Government and the dawn of a new era for the people of Myammar's said Sasa.

"For the first time in our history, Myanmar has a unity government that will reflect one of our nation's greatest strengths — the diversity of our people."

AFTER SLAPPING SANCTIONS

Joe Biden proposes strategic stability dialogue with Russia

Hours after expelling 10 Russian diplomats in connection with interference in last year's US presidential elections, President Joe Biden has proposed a strategic stability dialogue with Moscow, as officials of the two countries discussed the possibility of a summit meeting in Europe this summer.

The US on Thursday announced the expulsion of 10 Russian diplomats and slapped

Russian diplomats and slapped sanctions on over 30 individu-als and key financial institu-tions as it held Kremlin accountable for interference

ais and key innancia institu-tions as it held Kremlin accountable for interference in last year's presidential elec-tion and the hacking of American federal agencies. Hours after signing the executive order imposing sanc-tions on its erstwhile cold war-tival, Biden told reporters at the White House that during a tele-phonic conversation with his Russian counterpart, Vladimir Putin, he had proposed that they meet in person this sum-mer in Europe for a summit to address a range of issues facing both the countries.

"Our teams are discussing possibility right now. And nat summit were to occur, and I believe it will, the United States and Russia could launch a strategic stability dialogue to pursue cooperation in arms control and security," Biden

control and security. Biden said.

"We can address critical global challenges that require Russia and the United States to work together, including reining in nuclear threats from Iran and North Korea, ending this pandemic globally, and meeting the existential crisis of climate change," he said.

During the phone call, Biden said he expressed concern on Russia's military build up on the Ukraine border and in Crimea.

Russia to expel 10 US diplomats in response to Washington interests in Russia, it wouldn't immediately move to do that. Russia has denied interfer-ing in the 2020 U.S. Presidential election and involvement in the SolarWind hack of federal

Moscow: Russia on Friday responded in kind to a barrage of new US sanctions, saying it would expel 10 US diplomats and take other retaliatory moves in a tense showdown with Washington.
Russian Foreign Minister Sergey Lavrov also said Moscow will add eight US officials to its sanctions list and move to restrict and stop the activities of US nongovernment organizations from interfering in Russia's politics.
He said the Kremlin suggested that US. Ambassador John Sullivan follow the example of his Russian counterpart

join Sullivan follow the exam-ple of his Russian counterpart and head home for consulta-tions. Russia will also move to deny the U.S. Embassy the possibility to hire personnel from Russia and third countries

from Russia and third countries as support staff.

The moves follow the sanctions on Russia announced this week by the Biden administration. While the U.S. Wields the power to cripple the Russian economy, Moscow lacks levers to respond in kind, although it potentially could hurt American interests in many other ways around the globe.

Lavrov noted that while Russia could take 'painful measures' against American business

US says Russia was given Trump campaign polling data in 2016

Washington: It was one of the more tantalizing, yet unresolved, questions of the investigation into possible connections between Russia and Donald Trumpis 2016 presidential campaign: Why was a business associate of campaign chairman Paul Manafort given internal polling data — and what did he do with it?

A Treasury Department statement Thursday offered a potentially significant clue, asserting that Konstantin Kilimnik, a Russian and Ukranian political consultant, had shared sensitive campaign and polling information with Russian intelligence services. Kilimnik has long been alleged by U.S. officials to have ties to Russian intelligence. But the statement in a broad-er Treasury Department sanctions announcement was the first time the U.S. government had so directly drawn a connection from the Trump campaign to the Kremlin's intelligence services. The revelation was all the more startling because it went beyond any allegation made in either special counsel Robert Mueller's 2019 report or in an even more damning and detailed document released last year by the Senate Intelligence Committee.

Pak suspends services of social media platforms

PTI I I SLAMABAD

Pakistan on Friday temporarily suspended the services of social media platforms like Twitter, Facebook and WhatsApp to stop their use to organise demonstrations following violent protests by a radical religious group that has now been banned by the Government.

The Government banned Thereek: 1-Labaik Pakistan (TLP) on Thursday following three days of violent protest by it to force the government to expel the French ambassador over a blasphemous caricature published in France last year.

The TLP had launched the country-wide protest on Monday after the arrest of its chief Saad Hussian Rizvi.

The TLP supporters clashed with the law enforcement agencies in several towns and cities earlier this week.

cashed with the law enforce-ment agencies in several towns and cities earlier this week, leaving seven persons dead and over 300 policemen injured.

injured.

To stop the protests after Friday prayers, the Interior Ministry directed the Pakistan Telecommunication Authority (PTA) to suspend social media services for four hours from 11

leaders given jail terms

amid crackdown

cation that "complete access to social media platforms (Twitter, Facebook, WhatsApp, YouTube And Telegram) may be blocked". The reason for the sus-pension of the services was not stated by the PTA but official sources said that it was feared that protesters could use social that protesters could use social media to organise demonstra-

tions.

Suspension of internet and mobile phone services is a common practice in Pakistan to forestall protests and acts of

But this time only social media has been particularly targeted as the TLP was report-edly using it effectively against the government action. On Thursday, Interior Minister Sheikh Rashid Ahmed

Minister Sheikh Rashid Ahmed warned the TLP against using YouTube to upload propagan-da videos. The TLP came to prominence in November 2017 when it staged a sit-in at the Faizabad interchange near Islamabad and cut off the cap-ital from the old international

US to continue to push Pak on backing diplomatic efforts to ensure peace in Af: Burns

The US will continue to push Pakistan hard on supporting the diplomatic efforts to ensure peace in Alghanistan as it has an interest over the longer term in avoiding insecurity and instability in the war-torn neighbouring country that can spill over and affect its own interest. CAD Director William Burns has said. Burns was responding to a question from Congressman Adam Schiff, who is the Chairman of the powerful House Intelligence Committee. "Our withdrawal from Afghanistan, what impact do you think that will have on the Pakistani relationship with the Taliban, the Pakistani intelligence, ISI

relationship with the Haqqani net-work or others? How do you see that changing without a US military pres-ence there?" Schiff asked during the meeting on Thursday. "Pakistan today is playing a con-structive role in support of the diplo-matic efforts, at least that the United States and other countries are making

matic efforts, at least that the United States and other countries are making to try to bridge what is, at the moment, a pretty severe gap between the government of Afghanistan and the Taliban, Burns responded.

The CIA Director told lawmakers that Pakistan has an interest over the longer term in avoiding the kind of insecurity and instability in Afghanistan that can spill over and affect its own interest.

China poses single biggest geopolitical test for US in 21st century: CIA Director

China poses the single biggest geopolitical test for the US in the 21st century, CIA Director William Burns has said, stressing that this threat is more serious than those from Russia during

said, stressing that this threat is more serious than those from Russia during the Cold War.

Burns made the remarks to members of the House Select Committee on Intelligence during a Congressional hearing on worldwide threats on Thursday.

"I think China poses the single biggest geopolitical test for the United States as far out into the 21st century as I can see," Burns said.

"What distinguishes that challenge from an increasingly adversarial Chinese Communist Party from, for example, the challenge we faced with the Soviet Union during the Cold War, is that this challenge unfolds across a whole range of areas from military to ideological in terms of our values eronomic and essu-

of areas from military to ideological in terms of our values, economic and especially at its core competition and technology as well," Burns said.

The US and China are at odds over a range of issues from trade to human rights in Tibet, Hong Kong and China's western Xinjiang region, as well as over Taiwan, Beijing's assertiveness in the South China Sea and the coronavirus pandemic.

Beijing says US 'too negative' toward China

Residential realty get \$234 mn PE investments in Jan-March

Amid revival in housing demand, the residential segment witnessed private equity (PE) investments worth \$234 million in Q1 2021 which was nillion in Q1 2021 which was edd per cent of that wit-nessed during the entire 2020, said a Knight Frank India report.

nessed during the entire 2020, said a Knight Frank India report.

It noted that in terms of the number of deals, the investment activity touched 100 per cent of 2020 levels and 39 per cent of 2019 levels in the first three months of 2021.

The report titled 'Investments in Real Estate - Trends in PE Investment (Q1 2021 update)' said that Indian real estate attracted private equity (debt and equity) investments (S3.24 billion) across 19 deals in Q1 2021 (January - March) period.

In the first quarter of 2021, the investment in the sector has grown by 16 times compared to

grown by 16 times compared to \$199 million in Q1 2020. The investments in Q1 2021 in value terms were 80 per

cent of that witnessed in full year 2020 and 48 per cent of full year 2019.The strong full year 2019. The strong momentum in Q1 2021 was predominantly driven by two major factors, spillover of certain deals from 2020 and the rise in investor confidence due to the drop in Covid-19 infection.

to the drop in Covid-19 infections during early parts of Q1 2021, which had created some ripples of positivity in the economy, it said.

The sustainability of this momentum in investor's sentiments will therefore depend on how soon the second wave of infection subsides and also the pace of vaccination, as per the Knight Frank India.

Out of the total PE investments in real estate, the office

Out of the total PE invest-ments in real estate, the office segment attracted 71 per cent share, followed by retail at 15 per cent, residential and ware-housing with 7 per cent each respectively. Shishir Baijal, Chairman

and Managing Director, Knight Frank India said: "The deal street market of Indian real estate witnessed an impressive

or in our value and volume of private equity investments in the first quarter of 2021, when compared to the entire year of 2020."

He said that office assets continue to be the preferred segment attracting over 70 per cent of PE investments Q1 cent of PE investments QI 2021 as the segment moves towards maturity which includes sustained demand, stability in rental income and change in ownership profile over long -term. Investors are expecting demand to recuper-ate faster as the pace of vacci-nation increases.

ate faster as the pace of vaccination increases.

"While Q1 2021 has been an encouraging quarter for PE investments, however, the upward trajectory can be impacted by the rising second wave of Covid-19 infections in India which started in the month of April 2021. The sustainability of revival in investor sentiments will therefore depend on how soon the second wave of infection subsides and the pace of vaccination," Baijal said.

Forex reserves surge by USD **BRIEFS**

4.34 bn to USD 581.21 bn

Rupee spurts by 58 paise to over 1-week high on easing US yields

PTI ■ MUMBAI

The rupee on Friday soared by 58 paise to end more than one-week high of 74.35 against the US dollar on easing US bond yields and positive domestic equities.

A weak dollar overseas and foreign fund inflows also supported the rupee. At the local unit opened at 74.76 against the greenback and witnessed an intra-day high of 74.28 and a low of 74.76. It finally ended at 74.35 against the American currency, registering its best single-day gain of 59 paise in more than a month. On Thursday, the rupee had settled at 74.93 against the American currency.

'Govt should regulate cryptocurrencies, not ban them'

ANS IN NEW DELHI

As government plans to
Acome up with a
Cryptocurrency Bill, sector
stakeholders have said that the
government should regulate
the cryptocurrency ecosystem,
rather than banning them.
Experts are of the view that
India should formulate regulations in the lines of the development countries which regullate these currencies including
the US, UK, Japan, Australia
among others.
Nischal Shetty, Founder &
CEO, WazirX said: "India's
crypto policy should be geared
towards fostering innovation,
and customer safety. We should
be able to prevent bad activities
to the provent bad activities
but keep the door to innovation
open by allowing everything
else to be built."

He said that so far there is no single regulator in a position to regulate the entire crypto sector.

to regulate the entire crypto sector.

"It's like trying to regulate the Internet with one regulator. We can start breaking down crypto based on its classification as currency, asset, utility, security, and let regulators handle the respective crypto. Eventually, it will become necessary to have a dedicated crypto markets regulator," Shetty said.

He also recommended that he government should ensure that all crypto businesses catering to Indian customers are registered in India and follow KYC and AML policies. "There should also be guidelines for crypto businesses to ensure safety of customer funds," the WazirX CEO said.

Dev Sharma, Regional Manager (Central Asia) for Paxful also said that at a foun-dational level, India should regulate so that all companies have to implement KYC and have to implement KYC and AML processes to protect consumers. There is nothing about cryptocurrencies that make them more appealing to 'bad actors' than flat currencies. So, cryptocurrencies need to be regulated in similar ways," he said.

In addition, it would be great to see India develop measures to

measures to promote inno-vation in the sector for example with incubators and start-up funds.

SUNNY LEONE

I don't always post workout videos but I thought this was fun. A technique used by fighters who are hit in the head and get dizzy. I'm no fighter but was fun to try this. Thanks Arif. Oh and by the way, it's more difficult to box with a mask on! But safety over comfort at this

GUL PANAG

I think a lot of us are aware of what kind of an existential crisis the environment faces but we have other fires to fight. And even though we may be willing and maybe interested and wanting to do our best to contribute our best to contribute towards conserving the envi-ronment, other emergencies in life take over

SHORTCIRCUITS

ARJUN BIJLANI

I don't want to use any-thing as an excuse to not follow my workout routine even when on a vacation. It is just a medium to rejuvenate myself. I am very particular about my schedule especially when am in the middle of training for an intense reality

NATASHA RASTOGI

Acting for me will always be a constant journey of learning. To talk about my recent projects, *Pagglait* gave me an opportunity to play a very nuanced character. But I tried to see it as a woman well-being and rigid societal norms that she must follow,

AMY WALSH

l loved Michael Praed, who played Tracy's dad Frank in Emmerdale. He's a ball of crazy energy. Once he came to the garage with me and pumped my tyres up because I was poorly. Michae is such a caring man, and I was devastated when he left the show. But we're still in touch and he's a friend for life

ART CULTURE

Art is inaccessible. It is high brow. It's for the classes. How often have we heard these words thrown around without giving a thought to everyday lived aesthetics? The film, Contemporary Art within the Visual Cultures of Italy & India, looks at chipping away many of these assertions by exploring contemporary art in both countries. The curators of the panoramic project, DAVIDE QUADRIO and MYNA MUKHERJEE, brought National Award-Winning filmmaker ONIR as the Director of Photography to ensure that it could take the viewers on a visual journey that is both layered and simplified. In a discussion with SAIMI SATTAR, the trio talk about the project, its reach and the conversations that it can ignite

□How was the project conceptu-alised?

alised?

Myna: I had worked with Davide on an exchange programme of ideas and art between Italy and India at the India Art Fair two years back. We enjoyed this cross-cultural exchange tremendously where there were women artists three al exchange tremendously where there were women artists, three each, from Italy and India. What was surprising was the resonance among them. It was a universal and hybrid moment. While the contours of work were specific to the location, there was a shared universality as somen artists. The moment of an idea. As the resonance was big, we wanted to share it with a wider audi-ence. Things quickly fell in place as Davide was invited as a curator to Aartissima, Italy's most pivotal art

Davide was invited as a curator to Aartissima, Italy's most pivotal art fairs, for India. As a larger narrative formed, we got more ambitious and wanted to communicate the idea behind the curation. We wanted to share this and a film, because of a

behind the curation. We wanted to share this and a film, because of a wider and diverse audience as well as those who are new to art conversation or aren't art enthusiasts but have an inclination towards it, was considered the best way to do it.

For me, talking about India and its aesthetics can't be separated from the specificity of location. Instead of explaining this to the audience, they get to peek into the austhetics philosophies, history and the contemporariness of everyday living, landscape, crafts, arts and political situation.

There is poetic resonance in both countries in terms of themes, materiality, form and more. There are several intersections in the intellectual thought process, the time, the duration and the way artists work and the way nature interacts.

Davide: We were at a stage where we could truly have an exchange. There were questions, about our roles as cultural mitiga-

tors and that of culture in the con-temporary world, especially in the pandemic. Human beings aren't just consumers or survivors but are cultural beings. This isn't just a jour-ney but also critically thinking about the role of culture and art. There's a strong idea of presenting what it means to be in a cross-cul-tural environment and presenting tural environment and presenting your own culture through a contem-porary spectacle. The idea isn't to simplify but to make it more layered.

□How much does the ruling dis-pensation and their outlook affect arts?

Onir: For independent film-makers, censorship has been there for years and we've negotiated dif-ferent kinds of dos-don'ts. When ferent kinds of dos-don'ts. When OTT came, we thought it had mor possibilities but now there are new laws. You're always being told to be sensitive about religion and more but somewhere the artiste has disappeared in the scheme of things. However, art is a compulsion that doesn't let you stay quiet as is evident from Iranian chema. It's about Indings a new narrative to tell a story. D: I think, radicality is happening globally. This situation is conducive to art and culture not being globally. This situation gwill to find solutions and ways to do things as well as support creativity in people.

We consider the service heads the service heads the contraction of the service heads the service heads to the service heads.

ple.
M: One of the most interesting things about art, when you're looking at radicality, is the origin of the word. The etymology of radicality is roots. So you're essentially going back to the roots philosophically and symbolically.

I spent 20 years in New York and I spent 20 years in New York and the burden of representation there was very frustrating. For example, if you were a dancer, suddenly every-body would say this is South Asian dance but we know that there are so many dances in India alone. This

means that if you're leading some-one into an exposition of culture, its multiplicity is so enormous, that unless the viewr willingly embraces its complexity, nothing can be understood about culture. Going from Kashmir to Gujarat, there were so many surprising sto-ries and encounters that there's no fixed way to think about them. The documentary looks into the multi-ple truths at this particular moment in time. The wonderful thing is that it looks at both references as well as departures from these historical and material references. It hopes to glimpse at multiplicity in all its glory.

□So, do you think these multiple locations add to the storytelling?

M: Yes, of course. There are similarities and differences between — Gujarat's Maharaja Sayajirao University and Shanti Niketan,

Bengal — the two best-known academic institutions of art. Then there are many smaller ones besides folk and craft traditions, wearing traditions or patterns or references, philosophy, spirulality, there is so much. Even when you're referring to a simple landscape, it is varied across different parts of India.

D. The overlapping of feelings or relationships is communicated by putting together extreme things or differences. This explodes into a menotional reaction rather than a historical or intellectualised analysis. Onir is extremely important in this as the world he comes from and his as the world he comes from a description of the comment o

ly connecting or disconnecting India and Italv.

□So you would say that multiple locations and multiple artists are adding to these voices of diversi-

adding to these voices of diversity?

M and D: Yes sure.
D: This is of course a point of view and a rhetorical decision. It isn't always about absolute. It's about tentatives, absorbing things and getting back. The idea is to bring all those images and edit them to the minimum and maximum possible.
M: The reason for bringing Onir is that we wanted to bring in an outsider who would also see it from the audience's perspective with fresh eyes. So if it made sense to Onir, it would make sense to the audience. He's an outsider to the process while being a part of the

Journey.

"Ils this an attempt to bridge the gap as art is considered highbrow and inaccessible?"

O: When Myna approached me the idea to make it more "accessible" was exciting. This wasn't a technical documentary from the point of view of someone superior talking about things you don't understand but it was the Journey of experiencing and understanding the long history of art and contemporary art in the context of nature, culture, tradition and everything else. For me, starting from Kashmir and going to Guijarat changed the way I started seeing form, design and will affect the way I shot films. To make art accessible needs a small step. This journey helped me take step. This journey helped me take step. This journey helped me take that step and I hope that it does so for other people too.

or other people too.

What were the challenges in bringing everything — the journey from Kashmir to Gujarat and the Italian as well as Indian influences — to one platform.

O: For me, the beauty is in finding threads that are diverse while having a commonality because that is what humanity is all about. It silke poetry, where you are using different languages to convey the same emotion. You see nature, tradition, patterns, forms and colours of Kashmir resonate in Gujarat while being different.

□ Is the focus more on contemporary artists in the documentary?

O: It is contemporary but comes with thousands of years of history. What's beautiful is that we are talk-What's beautiful is that we are talk-ing about the works of contempo-rary artists and showing the milieu that brought about their art. D: What's interesting isn't the conflict between past and present but how the present is coming

from history. When you're talking about how tradition is preserved, you also see professionals who build on that tradition. Were going to alphabets of creativity and showing that art is a discourse and a practise which isn't in conflict but a natural consequence even though it might go against tradition.

ural consequence even though it might go against tradition.

M: I don't think of history as a progression in a linear way but much more as a continuum. Everything in South Asia is elliptical. What's new today is old tomorrow is addenly new. Whether it is sho structed and used by artists on tempura and frescoes. Similarly, while references to metaphor and myths happen in ancient cultures but are also made by very young contemalso made by very young contem-porary artists today.

□What is the audience you are targeting and what should they be looking at? M: We hope that the film serves

M: We hope that the film serves as an entry point for someone who is interested in art but never has had an exposure to different conversations or some of the different histories of art. At the same time we want artists to find a resonance with other artists either from their part of the world. It isn't a historical text but more of symbols and signs that give an entry point into aesthetics. It's a plural history.

D: We want to have a film that goes beyond the intellectual language that contemporary art had inbuilt globally and to try to create a narrative that talks to people.

O: It provides an experience to someone navigating art but not so familiar with it but at the same time it has layers and subtexts woven in slently which will give a much more

it has layers and subtexts woven in silently which will give a much more refined narrative to artists who are refined narrative to artists familiar with the discourse

-IMMERSIVE 30 MINUTES

A global pandemic and an impend-img lockdown may have yet again impacted the commercial and creative

A king ocknown may lavely et agent impacted the commercial and creative aspects of performing arts but Australian-Indian choreographer and educator Ashley Lobo believes an abiding passion for dance can open even invisible doors. The point is to persist, keep learning and find new ways to express oneself. Drawing upon his expertise as a more approached to the commercial and pance. The transparent of the commercial live dance training. Ashley offers type to appring dancers as to how they commercial the commercial and the commercial and the control of the commercial and the commercial type to appring dancers as to how they commercial the commercial and the commercial and the hope, courage and even success.

INCULCATE PASSION

INCULCATE PASSION

"If a dancer has passion, she/he will have the discipline to persevere regardless of the challenges ahead. A pandemic can be emotionally and physically draining on a dancer who is used to synergising and performing with other dancers on stage, in studios and also soaking in the live appreciation of the audience. But passion coupled with adaptability can propel a dancer forward, says he and adds, "The one thing I learnt during the lockdown last year was that we always have enough space and energy to do what we really want. I adapted my passion for dancing to a more constricted space and developed a daily routine that I stuck to. During my online classes, I asked my students to do the same. No matter how overwhelmed you may be feeling, as a dancer when your feet start moving, your mind also moves to happier places."

Dream hard, work harder'

Choreographer and educator ASHLEY LOBO says nothing can stop a dancer who is motivated, disciplined and hungry for success

IDENTIFY A FAVOURITE DANCE STYLE When a dancer is serious about When a dancer is serious about pursuing his or her passion as a vocation and a lifelong career, it is important to identify the style they want to specialise in. Ashley cites the example of many young Indian dancers whose dedication to ballet has won

them scholarships and taken them abroad to master the form. He says, "When you clarify just what creative zone you want to specialise, work or teach in, it distills your choices to the essentials and you are able to find options that are suited to you."

GET THE FUNDAMENTALS OF

THEORY RIGHT

According to him, to revise, repeat and imbibe the basic theories of a chosen dance form is important. He suggests, "Learn online with a teacher, join an academy remotely if you cannot learn in person and tune your body and mind. Do your own research on how great dancers built their technique, watch acclaimed performances, check what international studies are working on. All this information is out there. Be hungry and relentless. Build your foundation and never stopy working on yourself and your craft."

and your craft."

FOCUS ON THE POSITIVES

It is hard to find motivation in
tough times but as Ashley says. "One
of my favourite quotes that I use
repeatedly to inspire myself and my
students is, "My next move must be
motivated by dance itself. This is what
it is all about. When you let dance lead
you to your next step, the future
reveals itself and believe ne, it will be
beautiful. The world over, dance is
getting the respect it deserves through
performance-based shows and films.
Dancers are beginning to represent
India at the global level as performers, teachers and choreographers.
And we are all set to make an even
bigger splash in the years to come. So
dream hard, work harder and you will
go places."

Gil Green directs Divine's Rider

Rapper Divine has teamed up With American music video and film director Gil Green for the music video of his new track Rider.

The story of the song is inspired by Divine's rags-to-riches tale. It is a lowe sage between a deprived dreamer, played by Divine, and an affluent boss woman, played by singer Lisa Mishra.

Green has directed over 200

Green has directed over 200 Green has directed over 200 music videos and has collaborated with the likes of Adam Levine, John Legend, Pitbull, Chris Brown, Akon, Lil Wayne, Kanye West, Nicki Minaj, Drake, DJ Khaled, Camila Cabello, Usher, P-Diddy, J Balvin, 50 Cent, Snoop Dogg and Sean Paul.

"Twant to send a big shout out to Divine and the Gully Gang for collaborating with me on this video. Being a part of Divine's massive influence in India's hijp hop movement is something spe-

massive influence in India's hip hop movement is something spe-cial to me. The art form is truly universal, and Divine continues to push the hip hop boundaries with his music, lyrics, style and presence, 'says Green. The video features Dubai's tourist attractions such as Dubai Opera, Burj Khalifa, Sheikh Zayed Road, Dubai World Trade Centre to City Walk, Burj al Arab, Madinat Jumeirah, Palm Jumeirah and features the iconic desert safari.

safari.

Divine adds, "Rider is a song that is very close to my heart and I feel blessed to have worked with

a legend like Gil and his entire a legend like Gil and his entire team that fulfilled the vision I had for this music video. Lisa has been an amazing and a fun collabora-tor to work with, easy to see that her vioice and personality togeth-er in the video shines right through."

"Last summer, Divine made an Instagram post asking his fams who he should work with on his album. I thought Id shoot my shot

in the comments and see if I got in the comments and see if I got lucky. And just like that, he messaged me that he had an idea and was going to send it over. When I got the scratch, his verse and the hook had been written and he left he second half empty for me. I loved the message of the song, about an independent woman who he's so comfortable with, it goes beyond just a relationship," says Lisa.

CONVERSATION

Actor and host VISHAL MALHOTRA tells Ayushi Sharma that the Season 2 of *Imagine That* will educate children and their parents about the concept of upcycling and being friendly towards the environment along with a good dose of laughter

*What made you say yes to Imagine That Season 2? What's different in this installment?

As you know, I started my relationship with Disney 25 years ago and ever since then, it has been a very fulfilling experience. We have been looking at ways to collaborate with each other for the longest time. So when the channel was kind enough to offer me this show, I grabbed the opportunity. From the time they have announced our collaboration, I have been overwhelmed with the response that I have been receiving from the audience. People are extremely nostalgic with my return and they cannot wait for the show. Besides this, the format of the show intrigued me the most. DIY (Do It Yourself) is an integral part of a lot of its files lives. It is entertaining and encourages them to grow mentally. In this concept, I connect the audience to the show; I am the voice of the audience through which I aim to bring a lot of joy, laughter and fun and at the same time make sure that the simplest of DIYs to the biggest are amazing.

Now people are well-versed with the DIY culture due to easy access to the internet. What new is in it for kids?

to the internet. What new is in it for kids?

For starters, when you normally watch a DIY, there are only said instructions on how to execute it. Whereas, in this show we have got an entire gameplay around it, which has been filled with fun, laughter, entertainment and of course, learning, Besides that, the kind of DIY we are choosing is focussed on the theme of 'upcycling. We use old material from the previous DIY by upcycling them for the new ones and like that we make sure we do not waste anything. The show is centred on a lot of social relevance that will educate the children and their parents about the concept of upcycling and being friendly towards the environment along with enjoying a good dose of laughter.

♦Why do you think DIY is impor-tant? Can we merge the concept with sustainability?

DIYs are extremely important because it encourages a child to

think or motivates them to build new creative things. And this is always something that we should be looking for. This show offers encouragement to the parents and their kids to come together and challenge each other's mind and creativity to build something which is actually going to be useful and is not just a showpiece. Speaking of sustainability — yes! We can merge the concept with DIY. That is exactly what the show is about. The first step to sustainability is no wastage, which is what we absolute perform that the shown is about the search of the step of the s

*How challenging is it to capture the attention of the children while hosting such shows?

Any TV show to the audience is extremely difficult to captivate, it is not just with the kids. I have had the fortune of hosting shows for kids for the last 25 years and somehow, I have found a very favourable response from my audience. This is because I do not treat them as kids. I do know my audithem as kids. I do know my audience but I do not treat them on the

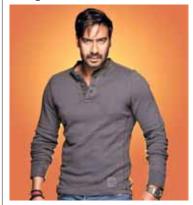

basis of the intelligence I think they possess. I, rather, treat them as my friends. I believe this has what resonated with them in a big way. I am confident that the same resonance will come back again be it with the kids or their parents after watching me on the episodes.

me on the episodes.

*Given that things are easily accessible today, how do you think the importance of DIY projects can be explained to kids?

Well, that is something we are striving to do but we should not undermine the intelligence of both parents and children. But yes, you are right — everything is easily available and we do bring that up in the show. Certain times on the show I just say, 'Hey, listen, we go in the show. Certain times on the show I just say, 'Hey, listen, we go with the show it is to give somebody a gift. Why don't we just order it online? 'However, we teach and encourage the audience to build a DIY. Punching in your card numbers to order a gift online is incomparable to the wholesome emotion. The gratitude and the sense of achievement you feel after creating something by spending those 15-20 minutes on it. That gift is far more truly yours than any purchased kind. (The show will premiere on Disney Channel at 9.30 am on April 18.)

Ajay, Siddharth to produce Gobar

A ctor-producer Ajay Devgr has announced his new pro A ctor-producer Ajay Devgn
has announced his new production, a comic drama named
Gobar along with Siddharth Roy
Kapur. The film is to be directed by ad-filmmaker Sabal
Shekhawat, who has also penned
he script along with Sambhit
Mishra. The film's story is about
a veterinary doctor who discovers a tangled web of corruption
in his state hospital.
Ajay feels that people will
loobar is at once unique, relatable

and incredibly funny as well as gripping and entertaining to the point that I'm confident it will compel people to go to the theatres, he says.

"We are very clear about the impact we want to make. We want viewers to laugh, relax, perhaps think a little bit and be entertained. The standard that Siddharth observes in content creation and filmmaking makes this collaboration very exciting for us," the actor-filmmaker adds.

Kapur says that the film

adds. Agur says that the film centres around the journey of a common man and comes with a simple message. "Gobar is a story that chronicles the seeningly pointless but ultimately heroic journey of a simple citizen who deals with corruption in a way that will bring on many laughs, much adventure and ultimately a simple message about the power of the common

ın," says Kapur. He adds, "What makes the man, says Kapur.

He adds, "What makes the film entertaining and unique is that it is a situational comedy that sheds light on the inner workings of power. To be collaborating with Ajay, someone I have always respected for his creative choices, and his team at Ajay Devgn Films on bringing this film to life is very exciting."

Writer-director Shekhawat says that the film has been written keeping in mind true events.

"Gobar is a film that will take viewers back to the charming days of the nineties and the

"Gobar is a film that will take viewers back to the charming days of the nineties and the simple life of smalltown living. I wrote this story keeping in mind a few true events that unravelled a gamut of issues, the centre of which is a vet whose love for his cows and animals supersedes everything," says Shekhawat.
"I'm grateful and happy that two esteemed producers like Ajay and Sid showed faith in wy vision and offered a sizable canvas to the storyline, Quality cinema has come from both production houses, and I'm sure that the treatment of my directial will be no different. As a filmmaker, I'm absolutely thrilled!" he says.

Produced under the banners Ajay Devgn Films and Roy Kapur Films, the film will go on loors at the end of the year. The casting of the film is underway.

STUDIO

Into the world

Actor MATTHEW GOODE shares that the second season of A Discovery of Witches is much darker, full of vampires, daemons, witches and forbidden love. By TEAM VIVA

turns out to be Ashmole 782. Later in the series, we learn this to be 'The Book of Life'. Matthew, who I play, has overheard Diana has the book in her possession, but she doesn't have it as it's disappeared again. There is an attraction between them, but the congregation, made up of witches, vampires and daemons, has set rules that do not allow for species to mix. Matthew and Diana fall for each other and he takes her to his mother's house who hates witches. They realise that in order to escape the clutches of the congregation and figure out how much power Diana may or may not have, they must travel back in time — 1590. At that time, I was in the guise of another Matthew — Matthew Roydon — who was the

□What is it like being back for sea-

head of The School of Night with characters like Walter Rayleigh and Kit Marlowe, both of whom are a big part of season two.

"What is it like being back for sea-son two?

The book is great. You pop the first one down and pick up anoth-er. Deb (Deborah) writes fantastical-y good stories. They are dense and there's a lot of material, so you want to mine that as much as possible. In season two, Matthew reassumes the identity of Matthew Roydon. He was Lord Burghley's right-hand and, basically, 007 for the Queen. It's a

much darker season and I think we much darker season and I think we start to see Diama's character become stronger, not only with magic, but in a society that's very patriarchal. It's great getting the old gang back together even though we didn't see a lot of them as they were filming the modern part of the story, lames North has successfully knocked out a 1590s. London town in a place called Plas Machen. Prior to arriving on set, I wondered how they were going to do it, and if it was just going to be a few pots, pans and beggars hanging around some cobbles. What are the challenges that Matthew and Diana face in season

two and how their relationship develops?

In season one, Diana was a bit of a victim of circumstance. In sea-son two, she's a lot smarter and as a histories, the thriving ratios had; a son two, she's a lot smarter and as a historian, she thrives going back in time. Diana also steps up in the relationship, looking after Matthew mentally because he starts to lose himself. It becomes a proper marriage based on equality.

Can you explain how Diana is beginning to harness her magic in this season and what she has to go through? Season two is a journey.

Through the tests they complete in season one, we realise that Diana has all the markers, which is very rare. Most of her magic has been quite fantastical, but she hasn't been able to control it. We eventually learn that this is because she's spellbound. Season two follows her schooling by great witches and realising that she is a weaver.

is a weaver.

Who is Kit Marlowe and why is he important to Matthew?

Kit was a famous playwright in he real world and is still a famous one in the show. He was accused of being a spy and ends up getting stabbed. In the book, he also works for Lord Burghley and is part of a ring of undercover agents and The School of Night. He is Matthew's greatest and closest friend. It goes pear shape because the Matthew of the past hated witches and so Kit, who is a daemon, is warry when he comes back and dedares that he has married one. Because of the ups and downs of their relationship and trust issues, he's a great foil for season two. These themes are very apparent in Elizabethan society, a time of skulduggery, theft, murder and darkness.

What's it like working with Tom

UN flats it use rota and the Hughes?

It's always been a pleasure. Tom and I have worked together quite a few times now. He's great and northern and looks at things differently. He gives Kit a real sense of other worldliness that is difficult to put one's finger on, but it really is quite mesmerising.

□Explain Philippe and Matthew's

Explain Philippe and Matthew's relationship?

The relationship between Philippe and Matthew is a tricky one. It was Ysabeau who sired Matthew many moons ago, but Philippe fathered him in a very masculine way. There's a big secret for the audience in season two around what Matthew's history is with Philippe. To talk about their relationship without mentioning the secret is like a lot of father and son relationships nowadays. You hope there's love there but often that love is unclear. That's what parenting is like, but there is a massive love

between them and it's all very

"Philippe's acceptance of Matthew and Diana's relationship is important, what do you think?" Philippe's acceptance of Diana is huge as not only is he from 1590, he also hates witches. It's very bemusing for him. After a while, he does start to twig that this is not the time they're from as he does not recognise Matthew as the son he once knew. It's hugely important in the story that he takes to Diana.

■What does the addition of his torical characters bring to the show?

They add that extra layer of history, which is rather wonderful. It gives it great historical context. I think the way Barbara (Marten) plays Elizabeth I in this is fantastic. She plays her without vanity and is slightly in love with Matthew. Probably my favourite portrayal of Elizabeth — up there with (Cate) Blanchett.

□What's it been like having Teresa

back?

The show doesn't work without her. Teresa is the shows beating heart. She's my best bud on this and we spend all our time together. If anything happened to her and they said they're going to bring another actor in, it wouldn't work! It's one big travelling caravan of Australian/American love. She came back with the fire to push her character and it's made a big difference.

□Season one is set in modern day and season two is largely a period piece, what's it like to take the show from one period to another?

Everything takes a fraction longer as inaccuracies are not as forgivable. Any period drama does, be it by the costume or the hair. Working on James North's sets transports you as an actor. If those elements weren't nailed, I wouldn't have been able to slip into character as easily. Apart from that, you're also just trying to get your lines and movement right.

(Season two is streaming on SompLIV.)

(Season SonyLIV.)

Shahrukh steers PBKS to 106

Deepak Chahar's four-wicket spell dismantle Punjab, which couldn't recover from that

quoteunquote

I THINK IT WAS MORE SEAM THAN SWING AND WE BOWLED IN THE RIGHT AREAS WE GOT SOME TIME TO PREPARE AND THINGS WENT OUR WAY AS WE EXECUTED WELL

Deenak Chahar, CSK pacer

eepak Chahar's superb opening spell stood out as Chennai Super stings restricted Punjab Kings to a below-par 106 for eight here on Friday. Tamil Nadu's power-hitter Maharukh Kham was the only Punjab batsman to make an impression, with a 36-ball 47 (4748, 2K69 before falling to Sam Curran in the final over as CSK was all over their opponent

ball 47 (4X4s, 2X6s) before falling to Sam Curran in the final over as CSK was all over their opponent.

Sam Curran (1/12), Moeen Ali (1/17), Dwayne Bravo (1/10) were the other wicket-takers for CSK.

Aiming to bounce back after being outclassed by Delhi Capitals in their opening match, CSK bowlers justified skipper Mahendra Singh Donis' decision to bowl first by reducing Punjab to 26 for four in the powerplay.

Chahar engineered the Punjab slide in the very first over by sending back Mayank Agarwal (0) with a beauty which nipped away from middle stump to hit the off stump. Chahar kept up the pressure and increased PBK5s woes with his consistency and conceded only two fours in his four-over spell.

In-form Punjab skipper K I Rabul (5) was run-out by a brilliant direct throw from Ravindra Jadeja fielding at short-cover as the batsman tried to scramble for a single.

NORTJE OUT OF QUARANTINE

DO Figure 1. The Control of Priday came out of his hard quarantine that was extended by a couple of days following a false Covid-19 positive report. The Proteas speedster had tested positive for Covid-19 while in quarantine but was retested and came out negative in three RT-PCR results. "It's nice to be out of the room and see everyone at breakfast. Excited to get to training today," Nortje said in a video posted by the franchise.

KANE HOPING TO BE FIT WITHIN A WEEK

Kiwi batsman Kane Williamson, who missed SRH's first two matches due to an elbow nigruy, is recovering well and is expected to attain full match-fitness. "within a week." Kane suffered a small tear in his left elbow tendon and was ruled out of the home series against B'desh in March ahead of IPL. However, he NZ captain on Friday said his "recovery is going really well".

ISHANT SUFFERING FROM HEEL NIGGLE DC head coach Ricky Ponting has revealed that experienced pacer Ishant Sharma, who missed his team's first two IPL matches, is suffering from a heel niggle. "Coming into the first game, Ishant Sharma obviously had a heel niggle that we have been trying to work through," Ponting said on Thursday night.

STOKES OUT FOR UP TO 12 WEEKS

STORES OUT FUR UP 10 12 WEEKS England all-rounder Ben Stokes will be out of action for "up to 12 weeks" as his fractured left index finger will require surgery that will take place in Leeds on Monday. A repeat X-ray and CT scan revealed that the 29-year-old has a fracture in his left index finger. Stokes, who is currently in Mumbai will fly home on Saturday.

Dhoni plays 200th match for Chennai

give Chahar his second wicket.

Nicholas Pooran bagged his second straight duck, pulling a short delivery straight into the hands of Shardul Thakur at long-leg. Deepak Hooda (10), who played a blinder in Punjab's first match against Rajasthan Royals, could not repeat his heroics, lobbing a simple acto be fad up lessis as the team slipped to 26 for five in the seventh over.

Shahrukh Khan and Jhye Richardson (15, 22 balls, 2x4s) added 31 runs for the sixth wicket in what was the best partnership of the innings. Murugan Astwin (6) then added 30 runs with his Tamil Nadu teammate Khan to help Punjab's cause in an otherwise nightmare night for them. Chennai Super Kings skipper Mahendra Singh Dhoni on Friday plaved his 200th match for the Men in Yellow when he took to the fidd against Punjah Kings at the Wankhede Stadium in Mumbai. Dhoni has led the franchise in all but one game (2012 Champions Leagus T20) when he has been part of the XI. Virat Kohli has played 209 T20 matches for RCB. matches for RCB.

matches for RCB.
Dhoni has made 176 appearances
for CSK in the IPL besides having 24
outings for the side in the Champions
League T20 tournament in the past. The

former India captain also represented Rising Pune Supergiant in 30 IPL matches in the 2016-17 seasons. Dhoni, who has led the Super Kings to three IPL titles, is eighth on the all-time IPL batting charts with 4,632 runs (4,058 for CSK) at an average of 40.63 and a strike rate of 13.667. In his 24 CLT20 appearances, Dhoni has amassed 449 runs with one fifty while leading CSK to two titles, in 2010 and 2014. The 39-year-old veteran also holds the record of most sixes among Indians in the IPL with 216 while being the most successful wicketkeeper with 148 dismissals.

'Rahul is MI's wicket-taking bowler **SRH** search right combo

KEY PLAYERS

SURYAKUMAR YADAV three seasons for MI and he'll be eager to make it big this time too

RASHID KHAN He is arguably the best T20 bowle at present and his performance will be crucial for Sunrisers success

Getting the combination right would be top-most on Sunrisers Hyderabad's to-do list when they take on a qualitatively superior Mumbai Indians in an IPL encounter at Chepauk Umost on Sunrisers Hyderabads to-do list when they take on a qualitatively superior Mumbal Indians in an IPL encounter at Chepauk on Saturday, trying to arrest an early slide after back-to-back defeats.

To make matters worse, the nature of the Chemai track is not great news for the David Warmer-led Orange Army that failed to chase down a total which was less than 150.

Chasing has been Sunrisers achilles heel during the first two matches, once again bringing IXI and below-par Indian bench strength.

In these circumstances, facing a formidable team like Mumbai Indians, fresh from their Houdnin Act against Kolkata Knight Riders, would be a difficult proposition.

For skipper Warner, there are some serious questions about the choice of the playing XI, which many believe hasn't been well thought out and the results also back that assessment.

Using two wicketkeepers — Jonny Bairstow and Wriddhiman Saha — in the same XI hasti-

Using two wicketkeepers — Jonny Bairstow and Wriddhiman Saha — in the same XI hasn't

and Wriddhiman Saha — in the same XI hasnt served any tangible purpose with the veteran Indian looking completely out of sorts as an opener. With a seasoned man like Kedar Jadhav in the dug-out, along with two talented youngsters Priyam Garg and Abhishek Sharma, Saha is on borrowed time as far as his place in the side is concerned.

cerned.
With only Warner and Rashid Khan being certainties among the overseas players, a fit Kane Williamson is a must for SRH, factoring in his prowess against spin bowling.
The manner in which the likes of Manish

Pandey and Abdul Samad played cross-batted shots against RCB left-arm spinner Shahbaz Ahmed left Warner far from amused. The other issue has been team's

bowling with T Natarajan not in the kind of form he was last season and Bhuvneshwar Kumar also on the expensive side. It is unlikely that MI will tinker with their playing XI and more so after winning a thriller against KKR. However, they would like to put up a better account of their bettier.

think he is got a long way to go,"
Bond said ahead of the game
against Sunrisers Hyderabad.
"He (Rahul) is a good listener and is keen to get out
there and implement it
in the game and hope
that will continue ovethe next few years," said Mu m b a i I Indians bowling coach Shane Bond on Friday praised the team's leg-spinner Rahul Chahar, saying the 21-year old is a wicket-taking bowler and his role never changes in the starstudded team.

Chahar, who has played 3 T20ls for India, returned with match-winning figures of 4/27 in a low-scoring the riller against Kolkata on Tuesday.

He is doing extreme-

"He is doing extremely well, if you look at Rahul (Chahar), het is still young, who has played a fair-bit of cricket and now some high-pressure cricket, and (in) finals and a key member of our team, so in terms of his development, I still

the next few years," said 42-year-old Bond, who played 18 Tests and 82 ODIs for New Zealand. According to Bond, Chahar's role in the team 160

never changes and the side wants him to bowl wicket-taking deliveries. "We o u t -standing strike bowlers to l in the power-play, t Boult, *Booms* (Jasprit nrah), and whoever mpliments them, al Pandya who is filliant for us in the last game, probably slightly more defensive bowler.

"And Rahul is a wicket-taking bowler, you make him bowl those balls that are just too good.
"Example is just the powerful (balls he bowled) in the last game he bowled absolute jaffa, his role is to come and spin the ball and if the boys are around and create some pressure, it gives him opportunity to take those wickets, so that's the role we look for him to do in the team."
Against Sunrisers, Bond stressed that it is important to get rival skipper David Warner and Jonny Bairstow out.
"Got to get those two guys in the properties of the set has the sum of the properties of the set has the properties of the properties o

IPL, talisman for their team. We know how important they are, 'he said.

"They (Sunrisers) are very disciplined with the way they go about their work. They flogged us in the last game (we played against them) last season. They played beautifully. We plan the same for every team—how we are going to get them out, how we are going to best utilize the conditions,' added Bond.

Maiden Asian Gold for Vinesh & Anshu

Japanese rivals as she cruised to the tile without losing a point in the 53kg category.
Vinesh has notched up seven podium finishes at the Asian meet over the years, including three Silver medals before this edition.
Also standing on top of the podium was Divya Kakran (72kg) while Sakshi Malki (65kg) settled for a Silver medal, a performance which should boost her confidence after enduring a long wretched run.
India has a rich haul of seven medals from the women's event as the country won four Gold, a Silver and two Bronze medals in this edition. Sarifa Mor (59kg) had won Gold while Seema Bisla (50kg) and Pooja (76kg) settled for Bronze medals of minursday.
Young Sonam Malik (62kg) unfortunately could not compete due to an injury. She had bagged lympic quota along with Anshu recently.
