## India, China to pull back troops from Gogra point

First breakthrough achieved in 12th round of parleys

RAHUL DATTA ■ NEW DELHI

India and China are likely to pull back their troops from a friction point in Gogra at the Line of Actual Control (LAC) in eastern Ladakh in the next few days. This could be a significant step towards resolving the continuing border crisis. At present, about 30-40 soldiers from both sides are in a face-off situation there and may disengage after the Corps Commanders of the two armies reached a consensus.

They had held the 12th round of talks on Saturday last and broadly agreed in principle to withdraw from Patrolling Point (PP) 17A in Gogra, sources said here on Tuesday.

However, the final decision will be taken by the top brass of the military and diplomatic hierarchy, they said.

The latest round of talks lasting more than 10 hours was held nearly four months after the 11th round in early April.

As regards the face-off sites, the other friction points are in the Hot Springs and the Depsang Valley, and the two sides will hold more military

### FORWARD MOVEMENT

- At present, about 30-40 soldiers from both sides are in a face-off situation at Gogra
- To resolve other friction points — Hot Springs and the Depsang Valley — the two sides will hold more military and diplomatic-level talks
- The first disengagement of troops from both the sides took place in February this year at the southern and northern banks of the Pangong Tso

and diplomatic-level talks in the coming weeks to ease tension there, they added.

Since last one and a half years, the LAC is tense due to transgressions by China with the first incident taking place in May last year at the Pangong Tso (lake). Shortly afterwards, stand-off erupted at more places, including Gogra and Hot Springs.

The first disengagement of troops from both the sides took place in February this year at the southern and northern banks of the Pangong Tso.

Since then, a stalemate persisted regarding the other friction points.

Incidentally, India and China had started pulling back their troops from Gogra and Hot Springs last year but massive induction of troops and armour by China saw the process coming to a halt.

India has all along insisted that China has to disengage from all the friction points in order to normalise ties. India has also made it clear status quo ante has to be restored at the LAC as it was in April last year.

A joint statement issued by India and China on Monday after the 12th round of talks said the Corps Commander Level Meeting was held at the Chushul-Moldo border meeting point on the Indian side. This round of meeting was held following the meeting of the Foreign Ministers on July 14 in Dushanbe, Tajikistan, and the 22nd meeting of the Working Mechanism for Consultation and Coordination on India-China Border Affairs on June 25.

## Rahul trying to unite Opp for 2024

Opp goes into a second huddle in recent times as Rahul cycles to Parliament

DEEPAK KUMAR JHA ■ NEW DELHI

From meeting over a "sumptuous" breakfast to cycling to Parliament in a bunch, former Congress president Rahul Gandhi on Tuesday sought to "unite" leaders of over a dozen Opposition parties to take on the Modi-led NDA dispensation in the 2024 Lok Sabha elections.

This is the second such

Opposition huddle in recent times, the first convened by NCP supremo Sharad Pawar. In between, West Bengal CM Mamata Banerjee camped in Delhi in her bid to bring about Opposition unity by meeting a section of Opposition leaders. Notably though, while the TMC attended the Rahul-chaired meeting unlike earlier times, the BSP and AAP chose to skip it.

"The more this voice unites, the more powerful it will become, the more difficult it will become for the BJP and RSS to suppress this voice. We should remember the foundation of unity and it is important that now we start to come up with the principles of this foundation," Rahul said in his welcome message to the leaders.

During the breakfast meeting held at Constitution Club in the vicinity of Parliament, TMC leader Mohua Moitra, NCP Lok Sabha MP Supriya Sule, DMK's Kanimozhi, Shiv Sena leader Sanjay Raut and

Congress' Mallikarjun Kharge, Adhir Ranjan Chowdhury were among those present. Representatives of RJD, SP, CPIM, CPI, IUML, RSP, KCM, JMM, National Conference and LJD too joined for tea and breakfast with Rahul and other leaders.

## Opp agrees to debate 7 Bills in Parliament

PNS ■ NEW DELHI

With stalemate continuing in the Rajya Sabha for the 11th day, the Government, Opposition and other parties on Tuesday agreed on eight items of business, including seven Bills, for which 17 hours of time has been allotted.

Parliament sources said this was decided at a meeting chaired by Chairman M Venkaiah Naidu, who appealed to all sides to enable normal functioning of the House.

## Opp parties insulting Parl by not letting it function, rues Modi

PNS ■ NEW DELHI

Prime Minister Narendra Modi on Tuesday slammed the Opposition for "insulting the legislature and the Constitution" by forcing repeated adjournments and not allowing Parliament to function. He also criticised the "arrogant" conduct of those from the Opposition who remain unrepentant on their conduct of tearing papers and making "derogatory" remarks on the way Bills have been passed.

The Opposition has not been allowing Parliament to function demanding a debate on the Pegasus snooping issue. The Government has termed it a "non-issue".

Briefing the media on Modi's speech at the BJP parliamentary party meeting, Parliamentary Affairs Minister Pralhad Joshi said the Prime Minister expressed anger at the conduct of some Opposition members and noted that those who tore papers and

threw it around have remained unrepentant.

This shows their arrogance, Modi said and asked his party members to maintain restraint.

While TMC MP Santanu Sen had torn the statement of IT Minister Ashwini Vaishnaw on the Pegasus issue in the Rajya Sabha, several Opposition members had torn papers in the Lok Sabha and thrown it in the air and towards the Chair.

TMC MP Derek O'Brien had criticised the manner of Bills' passage in Parliament by drawing a parallel with making of "papri chat".

## Journalists, Editors Guild move SC for SIT probe into Pegasus snooping

PNS ■ NEW DELHI

Senior editors N Ram, Sashi Kumar, and the Editors Guild of India on Tuesday filed a plea in the Supreme Court seeking a Special Investigation Team (SIT) to probe the reported surveillance of journalists and others allegedly by the Government through the use of Israeli firm NSO's Pegasus spyware.

Apart from Ram and Kumar, five other journalists whose phones were tapped using Pegasus spyware too approached the apex court. Paranjay Guha Thakurta, SNM Abdi, Prem Shankar Jha, Rupesh Kumar Singh, and activist Ipsa Shatakshi are the

five journalists who approached the SC with the forensic reports of Pegasus' presence in their phones.

Lawyer ML Sharma and CPI(M) MP John Brittas too have petitioned the SC seeking a probe into the snooping incident. The cases are expected to be listed on Thursday.

The Guild's petition stated that journalists are tasked with enforcing the public's right to be informed, accountable and to an open and transparent Government. The plea stated that all attempts to seek accountability and enforce Constitutional limits through Parliamentary processes have been stonewalled.

### CAPSULE

**100% GET JABS AGAINST COVID IN BHUBANESWAR**  
Bhubaneswar: The capital of Odisha, Bhubaneswar, has claimed to have achieved 100 per cent vaccination against Covid-19. The BMC jurisdiction, which tops the list of daily new infections as well as Covid-19 fatalities in the State, has administered as many as 18,77,178 doses of vaccines by August 2.

### SENSEX SOARS 873 PTS, NIFTY ABOVE 16,000

Mumbai: The Sensex skyrocketed 873 points to a fresh closing peak while the Nifty finished above the 16,000-mark for the first time on Tuesday as economic recovery hopes triggered across-the-board buying. Investors grew richer by ₹2.30 lakh crore, with market capitalisation of all BSE-listed reaching a lifetime high of ₹2,40,04,664.28 crore.

### GIANT WAVES SWALLOW CENTURIES-OLD TEMPLE

Kendrapara (Odisha): The marauding sea that had been eroding the coastline in Kendrapara for decades, devouring one village after another, recently razed to the ground the centuries-old Panchuvarahi temple, dashing hopes of locals who often offered prayers there seeking respite from the scourge of Mother Nature.

## Corona R-factor high, wave not over: Govt

8 States show rise in virus reproductive rate

PNS ■ NEW DELHI

Even as concerns are being raised over the impending third Covid-19 wave, the Government on Tuesday cautioned that the country is not yet done with the second wave and eight States have shown a rise in the R-factor which, it said, is a "significant problem".

Dr VK Paul, who heads the Government's Covid task force,

said as many as 44 districts have reported a high case positivity and the Delta-driven second wave is still not over. Eighteen districts showed an increasing trend in cases in the last four weeks, he said at a Press conference here.

"Delta variant is a dominant problem. The pandemic is still raging and the second wave is persisting in our own

country," said Dr Paul, expressing concern about the R-factor or the reproductive rate of a virus, which indicates how fast it is spreading.

## 18 crore Covishield, Covaxin shots to be ready by year end

PNS ■ NEW DELHI

By December-end, around 18 crore Covishield and Covaxin jabs against Covid-19 will be available for inoculation in the country, the Government told Parliament on Tuesday even as it hoped that four more Indian pharma companies will start production of indigenous

vaccines that will help meet the domestic demand.

India has administered 47 crore doses of vaccine so far since the launch of the national vaccination drive from January 16 aimed to protect the people from the virus.

It plans to inoculate the adult population by December end.

## Indian student's death homicide, suspect held: Chinese Foreign Min

PTI ■ BEIJING

The death of a 20-year-old Indian student in China's Tianjin city was a homicide and a foreigner has been arrested in connection with the murder, the Chinese Foreign Ministry said here on Tuesday. The suspect's nationality has not been disclosed, officials said. Aman Nagseen, who hailed from Bihar's Gaya, was a student of Business Administration in the Tianjin Foreign Studies University. He was found dead on July 29.

The Chinese Foreign Ministry, in a written response to PTI, said around 8.00 pm, Tianjin police received a call that an "Indian student was lying on the floor of the dormitory with no sign of life".

## PM to invite entire Indian Olympics contingent as spl guests on I-Day

PNS ■ NEW DELHI

Prime Minister Narendra Modi will invite the entire Indian Olympics contingent to Red Fort as special guests on Independence Day, the celebrations for which will remain low-key for the second year in a row due to the coronavirus pandemic.

The PM will also meet the athletes personally at his official residence and interact with all of them. Prior to the contingent leaving for Tokyo, he had promised ace shuttler PV Sindhu to have ice-cream with her, which she could not due to her preparations for the games. Sindhu became the first Indian woman athlete to bag two Olympic medals.

Modi on Tuesday also

sought to cheer up the Indian men's hockey team that lost to Belgium in the semi-final clash, saying wins and losses are a part of life and India is proud of its players.

"Wins and losses are a part of life. Our Men's Hockey Team at #Tokyo2020 gave their best

and that is what counts," Modi tweeted.

Wishing the Team the very best for the next match and their future endeavours, he said, "India is proud of our players". He also spoke with Manpreet Singh, the captain of the hockey team, after the semi-final match, officials said.

Modi appreciated the team's good performance throughout the tournament and wished them luck for the next game, they said. The Indian women's team is also in the semi-final.

When the match was in progress, Modi tweeted, "I'm watching the India vs Belgium Hockey Men's semi-final at #Tokyo2020. Proud of our team and their skills. Wishing them the very best!"

## Olympic Gold still elusive for men's hockey India to take on Germany for bronze medal today

PTI ■ TOKYO

The Indian men's hockey team's dream of an Olympic gold after 41 years remained unfulfilled as it lost 2-5 to world champions Belgium in the last-four stage but the side is still in the hunt for a bronze in the Tokyo Games here on Tuesday. Alexander Hendrickx (19th, 49th, 53rd minutes), the tournament's highest goal getter, scored a hat-trick while Loick Luypaert (2nd minute) and John-John Dohmen (60th) also struck to hand the reigning silver-medallists their second successive entry into the final of the Olympics.

India's goals came from the sticks of Harmanpreet

Singh (7th) and Mandeep Singh (8th).

The Indians still have a chance to secure an elusive medal from the Olympics as they will feature in the bronze medal match on Thursday against Germany, who lost 1-3 to Australia in their semi-final clash.

India's last appearance in the final of the Olympics came way back in 1980 Moscow Games, where they went on to win their last of the eight gold medals.

The Indians had only themselves to blame for Tuesday's disappointment as Belgium's all four goals came from penalty corners.

The Indian defence was put

India players wait for a video referral decision during their men's field hockey semi-final match with Belgium in Tokyo on Tuesday  
PTI

under relentless pressure by the Belgians as they secured as many as 14 penalty corners out

of which they converted three. Belgium's game plan was clear from the onset as they

# Bengal flood: 15 people dead, 3 lakh affected

## TMC, BJP engage in political slugfest

**Kolkata:** At least 15 people have died, and lakhs of people were rendered homeless or marooned, as the flood situation in six districts of West Bengal aggravated on Tuesday, triggering a slugfest between the ruling Trinamool Congress and the opposition BJP over the release of "excess water" by the DVC.

Around three lakh people got displaced after heavy rain in the last few days, followed by discharge of water from Damodar Valley Corporation (DVC) dams, inundated major parts of the districts of Purba Bardhaman, Paschim Bardhaman, Paschim Medinipur, Hooghly, Howrah

and South 24 Parganas, officials said.

The DVC, since July 31, has released 5.43 lakh cusec of water till Tuesday evening. Seven people died and 2.5 lakh have been affected by the flood till Monday.

Chief Minister Mamata Banerjee, who keeps a tab on the relief and rescue operations and has sent ministers to the affected areas, is likely to conduct an aerial survey of Howrah and Hooghly districts on Wednesday to take stock of the situation. She will later conduct an administrative meeting, officials said.

"We are collecting the details of all 15 people who have

lost their lives due to the flood. Some deaths are due to electrocution, snake bite, wall collapse. We are waiting for a final report from district administrations," an official said.

Several areas in the six affected districts are reeling under flood, with people struggling to wade through waist-deep water.

The districts of Hooghly, Howrah and West Midnapore are among the worst affected due to the floods.

Around 79,000 people were affected in Hooghly district alone, whereas crops and livestock worth lakhs of rupees were destroyed. **PTI**

# LeT terrorist from Pakistan killed in encounter in J&K

**Srinagar:** A Lashkar-e-Tayyeba (LeT) terrorist hailing from Pakistan was killed in an encounter with security forces in Bandipora district of Jammu & Kashmir on Tuesday, police said.

Security forces launched a cordon-and-search operation in the Chandaji area of Bandipora in north Kashmir following inputs about the presence of terrorists there, a police official said. He said the search operation turned into an encounter after the terrorists fired upon the forces, who retaliated.

In the exchange of firing, one terrorist was killed, the official said.

He identified the slain terrorist as Babar Ali who had managed to escape from the Shokbaba encounter site on July 24.

Ali was a resident of Ugada district of Punjab in Pakistan and his body was retrieved from the site of the encounter. Three militants of the LeT, including Sharik Altaf, were killed in the Shokbaba encounter.

However, the official said, Ali had managed to escape from the site and was being continuously tracked thereafter.

After pinpointing his presence in the Chandaji forest area on Tuesday, an operation was launched by the security forces, the official said. Incriminating materials, arms and ammunition, including an AK-rifle, two AK-Magazines, 40 AK-rounds, a pouch, a wireless set and a medicine bag were recovered from the site of the encounter, the official said. **PTI**

# MP Cabinet gives approval for death penalty proposal in spurious liquor cases

**Bhopal:** The Madhya Pradesh Cabinet on Tuesday approved amendments to the State Excise Act prescribing capital punishment and life imprisonment in the cases related to deaths caused by the consumption of spurious liquor.

This amendment proposal, which also imposes a ₹ 20 lakh fine, will become a law once approved by the State Legislative Assembly and subsequent assent of the governor.

The move comes against the backdrop of the death of at least 11 people allegedly after drinking spurious liquor in Mandsaur and Indore recently. **PTI**

# Indian student's death...

**From Page 1**

"The initial investigation of the public security organ found it to be a case of homicide and the suspect is another foreign student of the university. Compulsory measures have been taken on the suspect and the case is still under further investigation.

"Relevant Chinese competent authorities have notified the Indian Embassy in Beijing of the situation of the case on July 30 and 31 respectively and maintained communication with the Embassy," it said. The Chinese side will handle the case in accordance with law and offer assistance in follow-up matters, it said, adding that an autopsy was conducted on Tuesday.

The issuance of the death certificate is expected to take a few days as it is a case of homicide, the officials said. vNagsen was one of the few Indian students who remained in China through the coronavirus pandemic while most of the 23,000 odd Indian students, who left for home, were stuck in India, unable to return due to Beijing's reluctance to lift visa restrictions. Embassy officials said Nagsen's family has been informed of the progress of the investigations. An official of the embassy was expected to visit Tianjin, located about 100 kms from Beijing, to discuss the progress of the case and work out arrangements to send the body to India.

Currently, no flights are operational between India and China.

# Olympic Gold...

**From Page 1**

India too earned five penalty corners in the match but could make use of just one.

The Indians started slowly as Belgium had the initial burst of the match, controlling the proceedings for the first five minutes which also yielded them a goal.

Belgium scored from their first attack, earning a penalty corner which was converted by Luypaert with a powerful flick in the second minute.

The Indians came back strongly and changed the course of the match in a span of two minutes with two goals.

India secured two penalty corners in the seventh minute, the second of which was beautifully converted by Harmanpreet for his fifth goal of the tournament.

A minute later, Mandeep, who has been under pressure for his underwhelming form so far, gave India the lead with a fine field goal.

Mandeep beautifully received a Amit Rohidas cross from the right, turned over and found the back of the net with a fierce reverse hit past Vincent Vanasch in front of the Belgium goal. India got another chance in the first quarter in the form of a penalty corner but Rupinder Pal Singh's effort this time was saved by Vanasch.

Trailing by a goal, the Red Lions came out stronger in the second quarter and pressed hard on the Indian defence which wilted under pressure, conceding as many as four penalty corners, the last of which was converted by Hendrickx to level the scores.

Minutes later Sreejesh pulled off a reflex save to deny Dockier. Belgium secured their sixth penalty corner of the match soon but it was well defended by the Indians.

A minute from half time, India were awarded a penalty corner and the effort by Harmanpreet this time was wide off the target.

# 99.04% students...

**From Page 1**

With this Class X results, both national level Boards — CBSE and ICSE — have declared their Class XII and X results keeping with date as scheduled by the Government to meet the pace of 2021-2022 academic session.

According to the CBSE, pass percentage of foreign students is 99.92 per cent while all students of the Kendriya Vidyalayas have been declared successful.

Earlier on July 30, the CBSE had declared the results of Class XII students across the country.

Thiruvananthapuram topped the country with pass percentage of 99.99 per cent followed by Bengaluru at 99.96 per cent. Chennai shared the third position at 99.94 per cent with Pune at 99.92 per cent, while Ajmer came in fourth with 99.88 per cent and Panchkula occupies the fifth position with 99.77 per cent.

Patna came in sixth with 99.66 per cent, Bhubaneswar ranked seventh with 99.62 per cent, Bhopal at eighth position with 99.47 per cent and Chandigarh ninth with 99.46 per cent.

Prime Minister Narendra Modi congratulated the students who received their Class 10 results. "Congratulations to my young friends who have successfully passed the CBSE Class X examinations. My best wishes to the students for their future endeavours," PM wrote on twitter.

Education Minister Dharmendra Pradhan, too, congratulated students, noted that the past year had been challenging and praised the the work put in by teachers, students and parents.

Due to the second wave of the Covid-19 pandemic and the lockdown in different States of the country, the Class X and XII examinations were cancelled this year. Instead, the CBSE prepared the 2021 results of Class X and XII students on the basis of internal assessment.

# Opp agrees to debate 7 Bills in Parliament

**From Page 1**

Naidu had on Monday met with the Government top brass, including Defence and Home Ministers. The Centre reiterated its willingness to discuss farmers' issue, price rise and economic situation in the country. Naidu urged other parties to take this forward as Opposition also wanted to discuss national security in the context of Pegasus issue. Sources said the legislative business agreed upon include Tribunals Reforms Bill, Airports Regulation Authority Bill, General Insurance Nationalisation Amendment Bill, Limited Liability Partnership Amendment Bill, Deposits Insurance Bill.

It was also agreed to take up the notice given by Rajya Sabha members Binoy Vishwam and Shreyas Kumar for annulling the recently issued Information Technology Rules.

The Upper House was adjourned for the day on Tuesday amid continuous protest by opposition parties. However, the House passed the Insolvency and Bankruptcy Code (Amendment) Bill, 2021 with a brief discussion amid the ruckus created by opposition parties.

As soon as the House resumed after lunch Bhubaneswar Kalita in Chair asked Finance Minister Nirmala Sitharaman to move the Insolvency and Bankruptcy Code (Amendment) Bill, 2021.

Soon after, the opposition members started their protest and trooped into the Well of the House and remained there throughout. They also continued sloganeering.

After a brief debate by a few members, the bill was moved for passage in the House and it was passed with voice vote amid the din by the opposition. Referring to the behaviour of opposition members, Sitharaman said it was unacceptable that they disrupted the members from participating in the debate and surrounded them in a threatening fashion.

# Corona...

**From Page 1**

"Please remember that R number should be 0.6 or below. If it has gone over 1, it shows it is a significant problem and the virus wants to spread," said Dr Paul.

He said the number of districts with high positivity had decreased from the previous week but per State, the number of districts with high positivity had decreased from the previous week. Now new States are showing districts with high positivity, he said.

The States where the R-factor is more than one are Himachal Pradesh, Jammu & Kashmir, Lakshadweep, Tamil Nadu, Mizoram, Karnataka, Puducherry and Kerala.

Only Andhra Pradesh and Maharashtra show a declining trend and States like Bengal, Nagaland, Haryana, Goa, Delhi and Jharkhand the R-factor is at 1. "Whenever R-number is above one, it means that the case trajectory is increasing and it needs to be controlled," explained Lav Agarwal, Joint Secretary, Union Health Ministry.

He said the US, Canada, Australia and India have an R-number of 1.2 on average. This means one infected person is infecting more than one.

The R factor - a statistic used worldwide to track and control the spread of the virus - is a measure of how many people are being infected by one infected person.

An R of 2.0 indicates that one person with Covid-19 will, on average, infect two others. Each of those two will infect two more (spreading the disease to an average of four people).

In a pandemic, the ideal R target is below 1.0, which ensures that the virus will eventually stop spreading because it cannot infect enough people to sustain the outbreak.

India's coronavirus tally on Tuesday climbed to 3,17,26,507 with 30,549 more people testing positive for the infection while the active caseload declined after six days.

# Opp parties insulting Parl...

**From Page 1**

This too drew Modi's ire. Joshi and another Union Minister V Muraleedharan told reporters, without naming O'Brien.

He had tweeted, "In the first 10 days, Modi-Shah rushed through and passed 12 Bills at an average time of UNDER SEVEN MINUTES per Bill. Passing legislation or making papri chaat!"

Such comments are "derogatory" to the parliamentary procedure and the esteem of elected representatives, Muraleedharan said quoting Modi.

The conduct of the Opposition is an "insult" to Parliament and the Constitution, Joshi said, quoting Modi.

The PM accused them of having "undemocratic" attitude and said they are not keen on meaningful debates.

Modi asserted that his Government will leave no stone unturned to fulfil its commitment to people. Bills do not belong to the Government but are aimed at people's welfare, he said and reiterated the Government's stand for constructive and rich debates.

The BJP parliamentary party also hailed Modi at the meeting over the Government's decision to provide reservation to the OBC and the EWS in the all-India quota in the medical entrance test NEET.

The PM highlighted the rise in the GST revenue in the month of July with a collection of 1.16 lakh crore to express confidence about the state of economy.

Finance Minister Nirmala Sitharaman also spoke in detail about the economic conditions and asserted that the recovery has gathered pace despite the second wave. India's foreign reserves are at an all-time high while the GST collection also rose significantly last month, she added.

The Government's package for the MSME sector is now at Rs 4.5 lakh crore while the banking sector has also made recovery and posted a profit of over Rs 31,000 crore, sources quoting her said.

Economic indicators have been doing well, she said.

# 18 crore Covishield, Covaxin shots to be ready by year end

**From Page 1**

The Centre is making efforts to inoculate the entire country at the earliest, said Union Health Minister Mansukh Mandaviya in Parliament pointing out that vaccine production capacity of Covishield is projected to be increased from 110 million doses per month to more than 120 million doses per month and the production capacity of Covaxin is projected to be increased from 25 million doses per month to around 58 million doses per month," the Minister said in a written reply.

Further, the Department of Biotechnology under the Ministry of Science and Technology has launched "Mission Covid Suraksha - the Indian Covid-19 Vaccine Development Mission".

Under the Mission, facility augmentation of Bharat Biotech and one State public sector enterprise and 2 Central public sector enterprises (PSEs) - Haffkine Biopharmaceutical Corporation Ltd, Mumbai; Indian Immunologicals Limited (IIL), Hyderabad and Bharat Immunologicals Biologics Limited (BIBCOL), Bulandshahr - for production of Covaxin have been supported.

In addition, technology transfer of Covaxin production to Gujarat Covid Vaccine Consortium (GCVC), including Hester Biosciences and OmniBRx Biotechnologies Pvt Ltd, led by Gujarat Biotechnology Research Centre (GBRC) of Department of Science and Technology, Government of Gujarat, has also been facilitated, the reply said.

Responding to BJP member Susheel Kumar Modi's query on the Government's plan to reduce the vaccine quota to private hospitals, the Minister said it was not necessary as the unused vaccine quota of the private hospitals is taken by the Government.

"In a month, we saw seven to nine per cent unused vaccines by private hospitals. So, we decided to take those unutilised doses in the government quota. Therefore, it is not necessary to reduce the quota for the private. The vaccination is happening smoothly," he said.

are being made to achieve this."

"As communicated by the manufacturers, the monthly vaccine production capacity of Covishield is projected to be increased from 110 million doses per month to more than 120 million doses per month and the production capacity of Covaxin is projected to be increased from 25 million doses per month to around 58 million doses per month," the Minister said in a written reply.

Further, the Department of Biotechnology under the Ministry of Science and Technology has launched "Mission Covid Suraksha - the Indian Covid-19 Vaccine Development Mission".

Under the Mission, facility augmentation of Bharat Biotech and one State public sector enterprise and 2 Central public sector enterprises (PSEs) - Haffkine Biopharmaceutical Corporation Ltd, Mumbai; Indian Immunologicals Limited (IIL), Hyderabad and Bharat Immunologicals Biologics Limited (BIBCOL), Bulandshahr - for production of Covaxin have been supported.

In addition, technology transfer of Covaxin production to Gujarat Covid Vaccine Consortium (GCVC), including Hester Biosciences and OmniBRx Biotechnologies Pvt Ltd, led by Gujarat Biotechnology Research Centre (GBRC) of Department of Science and Technology, Government of Gujarat, has also been facilitated, the reply said.

Responding to BJP member Susheel Kumar Modi's query on the Government's plan to reduce the vaccine quota to private hospitals, the Minister said it was not necessary as the unused vaccine quota of the private hospitals is taken by the Government.

"In a month, we saw seven to nine per cent unused vaccines by private hospitals. So, we decided to take those unutilised doses in the government quota. Therefore, it is not necessary to reduce the quota for the private. The vaccination is happening smoothly," he said.

# Journalists, Editors Guild...

**From Page 1**

The Guild's members and all journalists have the duty of holding all branches of the Government accountable by seeking information, explanations and constitutionally valid justifications for state action and inaction, it said, adding that to be able to fulfil this role, freedom of the press must be safeguarded. Journalist Mrinal Pande is a co-petitioner in the case.

"Freedom of the press relies on non-interference by the Government and its agencies in reporting of journalists, including their ability to securely and confidentially speak with sources, investigate abuse of power and corruption, expose governmental incompetence, and speak with those in opposition to the government," the plea said.

The guild submitted that citizens of India have a right to know if the Government is infringing upon the limits of their authority under the Constitution and what steps have been taken to safeguard their fundamental rights. "Through their intransigence, the respondents have deliberately avoided public debate on this issue and have provided obfuscated answers, forcing the petitioner to approach this court," the plea said.

The guild has sought a court-appointed and monitored SIT to investigate every aspect of the alleged use of Pegasus by the Government of India and against Indian citizens, especially journalists.

# India, China to pull back troops from Gogra point

**From Page 1**

The two sides had a candid and in-depth exchange of views on resolution of remaining areas related to disengagement along the Line of Actual Control in the Western Sector of India-China border areas.

The two sides noted that this round of meeting was constructive, which further enhanced mutual understanding. They agreed to resolve these remaining issues in an expeditious manner in accordance with the existing agreements and protocols and maintain the momentum of dialogue and negotiations.

The two sides also agreed that in the interim they will continue their effective efforts in ensuring stability along the LAC in the Western Sector and jointly maintain peace and tranquility.

# Rahul trying to ...

**From Page 1**

Briefing the media on the breakfast meeting, Congress spokesperson Abhishek Singhvi said more than 60 per cent of India's population across the board was represented by all the Opposition that met.

Sharing a picture of the meeting, Congress leader Shashi Tharoor tweeted, "After a sumptuous breakfast, leaders of eleven Opposition parties spoke briefly about the importance of unity in Parliament and on the ground in the struggle against the anti-people policies & undemocratic actions of the BJP government. We are witnessing something special here."

The BJP accused Rahul of indulging in "gimmicks" for cheap publicity and alleged that the Opposition has resorted to "rant and run" tactics to hijack Parliamentary proceedings and defame the Government. Union Minister Mukhtar Abbas Naqvi,

# Lalu trying to ...

Lalu also indicated at the likelihood of the coming together of the younger generations of RJD led by his son Tejaswi Yadav and LJP led by Chirag Paswan, who is battling a family feud over the claims of party banner after the demise of his father and their tallest leader Ram Vilas Paswan. Lalu said there is a need of the hour for an alternative to the current Modi regime.

The Government and Opposition are in direct confrontation over a range of issues, including the Pegasus snooping row, the handling of the Covid-19 pandemic, and farmers' agitation.

Last week also, Rahul had personally called like-minded Opposition leaders for a meeting in the Parliament. A separate group of Opposition leaders led by Shiromani Akali Dal also met President Ram Nath Kovind to apprise him about the reluctance of the Government to debate issues in Parliament.

# Delhi@2047 opens doors to ties with India Inc.

STAFF REPORTER ■ NEW DELHI

Delhi Chief Minister Arvind Kejriwal inaugurated Delhi@2047, a platform for fostering partnerships with the private sector, Corporate Social Responsibility (CSR) initiatives and philanthropic organisations to achieve the vision for Delhi by 2047.

The Chief Minister said that the Government is not approaching the private sector to just write cheques but it needs their ideas, expertise, participation, and partnership to realise the dreams everyone has for Delhi. He said that everyone needs to work together to enable Delhi to transform into the city of people's dreams, where even the poorest of the poor lives with utmost respect and comfort.

Kejriwal talked about the Government's efforts for transforming the style of governance and making it solution-oriented. He said that if one has the political will to find solutions then they cannot be stopped.

The platform was launched in the presence of Jasmine Shah, Vice-Chairperson, Dialogue and Development

Commission of Delhi, Rajiv Bajaj, MD, Bajaj Auto, Banmali Agrawala, president of Infrastructure, Defence and Aerospace and Global Corporate Affairs, Tata Sons Private Limited, Abhimanyu Munjal, CEO of Hero Finance Corporation and Chairman-Northern Region, CII, and Subhrakant Panda, MD of Indian Metals and Ferro Alloys Limited (IMFA).

While inaugurating the Delhi@2047 platform, the Chief Minister said, "I am very delighted to launch this platform. We had presented a small glimpse of our dream for Delhi@2047 in the Assembly while presenting the Budget. Delhi is like a gateway or a hub, being the national Capital, where people first arrive in India and then go to other places. People see India through Delhi. We have to develop Delhi as a global city."

"We have to prepare a roadmap for how Delhi will be in 2047, when the country will complete 100 years of Independence. We had a vision in our budget this year for this point of view so we can start working towards it. There are some problems that we can fix

in a year or two but there are also some long-term solutions that will go on till 2047. Our long-term goals include making Delhi's per capita income at par with that of Singapore and bidding for Olympics 2048," he said.

"There was a lot done in the field of education and health. The Government hospitals were in a despicable state but after forming the Government here we fixed them. We also started Mohalla Clinics, a network of polyclinics was formulated to provide a 'Health Suraksha Chakra' for each citizen because we have made accessing healthcare absolutely free," he added.

Talking about the development in the power and services sector, he further said, "Today, electricity is supplied for 24 hours. We stood on the ground and got the transformers, cables, and old equipment changed in front of us. We worked on this for a couple of years starting in 2015 and now Delhi gets a regular power supply for 24 hours. We worked a lot in the services sector. There are over 100 Government services that you get on your doorstep by just making a call," he added.

In its Budget for 2021-22, Kejriwal had unveiled a bold vision for Delhi by 2047 such as making the city equitable with per capita income compared to Singapore and every person, whether rich or poor, having a high standard of living.

The Government had also proposed modern, world-class infrastructure and public services. Delhi shall bid for hosting the 2048 Olympic games and become sustainable in providing clean air and water to all its residents and resilient in fighting disasters.

# Delhi Govt nod to O2 production policy with incentives for pvt cos

STAFF REPORTER ■ NEW DELHI

The Delhi Cabinet led by Chief Minister Arvind Kejriwal approved the Medical Oxygen Production Promotion Policy (MOPPP) 2021 to provide incentives to the private sector for setting up oxygen production plants and its storage facilities.

This policy is part of the Delhi Government's rigorous effort to make the national Capital self-reliant in the production of medical oxygen to meet any health emergency in the future.

Kejriwal said that the MOPPP provides several incentives to the private sector to set up oxygen production plants, storage facilities, and oxygen tankers. He further said that this policy will help improve oxygen availability in Delhi, which became a huge bottleneck in handling the last Covid-19 wave.

"Approved Medical Oxygen Production Policy. It provides several incentives to the private sector to set up oxygen production plants, invest in oxygen tankers to set up oxygen storage facilities. This will help improving oxygen availability in Delhi which became a huge bottleneck in handling last Covid wave," Kejriwal tweeted.

"This will be done by increasing the production of oxygen in Delhi through setting up either new manufacturing enterprises or expanding the production capacity of existing units for uninterrupted oxygen supply to hospitals or nursing homes during the health crisis caused by Covid-19 or otherwise," the Chief Minister's Office said in a statement.

The policy will also facilitate storage and transportation of medical oxygen in Delhi. As per the policy the target to set up of Liquid Oxygen (LOX)

Sectors Identified for Medical Oxygen manufacturing/generation, storage, transportation, and incentive thereof.

Particulars	Target Capacity	Minimum Capacity per unit	Subsidy per unit (in Rs.)	Power Subsidy for 5 years, Rs per unit cost (if applicable)	Deadline for Commissioning
Liquid Oxygen Generation Plant	100 MT	50 MT	20 Lakhs/MT	4	31-12-22
Non-Captive Cryogenic PSA/ASU	100 MT	10 MT	20 Lakhs/MT	4	31-03-22
PSA Plants for Hospitals and Nursing Homes	200 MT	500 LPM	20 Lakhs/MT	0	31-12-21
Cryogenic Tankers	500 MT	10 MT	3 Lakhs/MT	0	31-12-21
LMO Storage for Hospitals, Nursing Homes and Re-fillers	1000 MT	10 MT	1 Lakh/MT	0	31-12-21

manufacturing facilities of minimum 50 MT capacity up to a total of 100 MT will be completed in a time bound manner.

It also proposes to set up non-captive oxygen generation plants (PSA/Air Separation Unit technology) of minimum 10 MT and maximum 50 MT capacity up to a total of 100 MT.

"Setting up of captive oxygen generation plants of minimum 500 LPM capacity at hospitals and nursing homes to cater to their peak demand for medical oxygen up to a total capacity of 200 MT and cryo-

genic tankers of minimum carrying capacity of 10 MT for the exclusive purpose of ferrying liquid medical oxygen up to a total capacity of 500 MT are some of the target of the policy," it said.

"Power subsidy shall be made available to liquid oxygen generation plants and non-captive oxygen generation plants at Rs 4 per unit consumed in the manufacturing process for the first five years from the date of commencement of commercial production," a senior Government official said.

# Salary hike for Delhi's MLAs

STAFF REPORTER ■ NEW DELHI

Members of the Legislative Assembly (MLAs) will now get ₹90,000 per month as salary and allowances as the Arvind Kejriwal Government on Tuesday approved a hike recommended by the Centre on Tuesday.

Earlier, each MLA was getting ₹3,000, including ₹12,000 as salary and the remaining amount as allowances. With this hike, each legislator will get ₹30,000 as salary and allowances totalling ₹60,000, the Government said in a statement.

"The restriction imposed by the Centre has forced Delhi's MLAs to be among the lowest earning legislators in the country whereas MLAs of States ruled by the BJP and the Congress earn around 1.5 to 2 times the amount that the MLAs of Delhi will earn," it said. "The salary of Delhi's MLAs has not increased since

2011 and the Delhi Government had requested the MHA to ensure that the salary of Delhi's MLAs is at par with MLAs of other States, however, the MHA refused to do so," it added.

"After the approval, the MLAs will get a salary of ₹30,000 and still be one of the lowest-paid MLAs of the country. Several BJP-ruled States pay their MLAs 1.5 to 2 times the salary and allowances proposed for Delhi MLAs. Uttarakhand pays ₹1.98 lakh, Himachal Pradesh ₹1.9 lakh, Haryana ₹1.55 lakh, Bihar ₹1.3 lakh. Other parties also pay their MLAs much higher e.g. the Congress in Rajasthan pays ₹1.42 lakh and the YSR Congress in Telangana ₹2.5 lakh," the Govt said. Salaries and allowances of Delhi MLAs were last increased in 2011 and no hike was enforced in the last 10 years even though the cost of living in Delhi has risen substantially.

# 58 new Covid cases, 4 deaths reported

STAFF REPORTER ■ NEW DELHI

As many as 50 fresh Covid-19 cases were reported on Tuesday while four succumbed to the disease, according to a health bulletin issued by the health department of the Delhi Government. As per the health bulletin, the positivity rate stands at 0.08 per cent, while the number of active cases stands at 519 while the number of containment zones has declined to 182. As many as 65 patients recovered from the infection in the past 24 hours, stated the bulletin. It said that the total number of fatalities stands at 25,058, while the cumulative case tally has reached 1436451. "At least 64276 tests, including 39,498 RTPCR/CBNAAT/TrueNat tests, were conducted in the last 24 hours. There are 12379 available beds in hospitals, 291 are occupied as on Tuesday while the rest are vacant, it added. Also, 1410874 people have either been discharged, have recovered or migrated out. The case fatality rate stands at 1.74 per cent, according to the bulletin. Delhi Government had on Monday also granted Covid relief disbursement of ₹5000 each to 47,996 construction workers. This relief comes as an additional benefit for construction workers who were hit hardest because of the Covid crisis in Delhi.

# Sagar beaten for 40 mins: Police chargesheet

STAFF REPORTER ■ NEW DELHI

The Delhi Police in its chargesheet filed against Olympic medallist wrestler Sushil Kumar, has claimed that 23-year-old Sagar Dhankar and his friends were abducted from two different locations in Delhi and brought to the stadium where Sushil Kumar and his associates beat up them with sticks, hockey sticks and baseball bats for 30-40 minutes.

Before beating them up, the stadium's gate was locked from inside, and the security guards were asked to leave.

In the chargesheet, the police relied on the oral dying declaration of the deceased, scientific evidence including locations of the accused, CCTV footage, weapons, and vehicles recovered from the spot. The chargesheet mentions the names of 155 prosecution witnesses, including four persons who were injured during the brawl. The Crime Branch, which is tasked with investigating the case, also revealed that some of the

accused persons carried firearms and threatened the victims with dire consequences. Dhankar and his four friends were allegedly assaulted by Kumar and others at the stadium on the intervening night of May 4 and 5 over a property dispute. Sagar succumbed to his injuries later.

According to the thousand-page chargesheet, at the stadium, all the victims were confined and beaten mercilessly by all the accused. "All the victims were beat-

en for around 30-40 minutes with 'lathi', 'dandas', hockey, baseball bat, etc," stated the chargesheet.

Meanwhile, one of the victims managed to escape from the spot and made a call to the police, following which the local Police and PCR van staff reached the stadium.

"As the accused heard the police siren, they took Sagar and injured Sonu to the basement of the stadium. Accused persons left both the injured victims there and ran away

from the spot," the probe reveals.

"From the material collected during the investigation so far precisely mentioned above, there is sufficient material against the accused persons," it stated, seeking their prosecution under 22 offences of the Indian Penal Code (IPC).

According to the post-mortem report, the cause of Dhankar's death was "cerebral damage resulting from blunt object impact".

Five vehicles were seized from Kumar and his associates. A double-barrel gun and five live cartridges were also recovered from the back seat of one of the vehicles.

On Monday, the Crime Branch filed a chargesheet against Kumar and 12 others in the murder case, in which it named the Olympic wrestler as the main accused.

The Delhi Police had filed an FIR against the accused for offences such as murder, attempt to murder, culpable homicide, criminal conspiracy, kidnapping, robbery, rioting among others.

# One injured in accident near Delhi IIT flyover

STAFF REPORTER ■ NEW DELHI

A helper of a canter truck was injured after the vehicle was allegedly hit by a dumper truck near IIT flyover in the early hours of Tuesday morning. The accident that took place around 4 am, caused traffic snarls during morning rush hours. The injured has been identified as Jasbir, a resident of Dwarka area. In a traffic alert on Twitter, the Delhi Traffic Police said, "Kindly avoid Rao Tula Ram Marg to SDA-IIT-Munirka road, traffic is too heavy due to an accident. Traffic diverted from Africa Avenue."

According to the police, the dumper was loaded with concrete and its driver was driving the vehicle in a rash and negligent manner leading to the accident. "The helper of the canter got stuck inside the vehicle and had to be taken out by the fire brigade. He got minor injuries and is stated to be out of danger," said Ingit Pratap Singh, the Deputy Commissioner of Police (DCP), Southwest district.

# NDMC launches state of the art property tax module

STAFF REPORTER ■ NEW DELHI

In bid to give relief to the property tax payers, the New Delhi Municipal Council (NDMC) has launched new state of the art property tax module particularly for services like self assessment of property tax, mutation, amalgamation and bifurcation, vacancy remission, property tax return etc to enable the NDMC to serve its citizens in a simple, rapid, responsive, intelligent and efficient manner.

A senior NDMC official said that the property tax module has been designed to collect information of the property within its jurisdiction, calculate the tax as prescribed rates of tax, levy and collect tax in a totally transparent and citizen friendly manner.

"The services which are part of the module are property assessment based on self assessment by citizens, objection recording, objection hearing, property creation, property modification, property

mutation, amalgamation and bifurcation, vacancy remission, property tax return, search & report. Citizens can view the demand against their property and remit the dues 24x7. They can process mutation as well in similar manner and avail the certificate without any hassle," it said.

The official further said that the new system will not only help the citizen in terms of making the process of tax calculation and payment smooth, fair and transparent, but will also be of great assistance to the NDMC in reducing the response time and improve revenue collection and thereby serving its citizens in a more efficient manner.

# Delhi Govt approves continuation of free Wi-Fi scheme

STAFF REPORTER ■ NEW DELHI

The Delhi Government has granted approval to continue availing free Wi-Fi facility in the national Capital. The Kejriwal Government has so far set up hotspots at 10,561 places in the city. Out of these, 2,208 hotspots have been installed at bus stops, while 8,353 have been installed at other places. Delhi Cabinet has given its approval to this proposal on Tuesday.

Delhi CM Arvind Kejriwal had launched the free Wi-Fi scheme from the ITO bus stop in December 2019. The Govt had set a target of getting up 11,000 hotspots to provide free Wi-Fi facility across Delhi. "After the installation of hot spots, people are getting Wi-Fi at every 500 meters in Delhi. Each hotspot has a radius of 100 meters. Every person is being given 15 GB of data for free every month. 1.5 GB of data per day is being given for free.

# Illegal construction of farmhouses continue in Aravalis

PARVESH SHARMA ■ GURUGRAM

Despite the Supreme Court's latest order regarding the removal of all illegal structures located in the Aravali range of Gurugram, Faridabad and adjoining districts, rampant illegal constructions of farmhouses can easily be witnessed in the Aravali region of Gurugram.

The encroachers have developed a huge boundary wall at the main gate of their respective farmhouses to continue with illegal constructions inside the premises.

On Tuesday while taking stock of the situation this correspondent spotted that construction work can be seen in Raisina village in Aravali range where a concrete structure was developed and an earthmover was also parked at the spot for digging. Construction material was also being transported to the spot through tractor-trolley without any hindrance.

People present at the spot were even threatening jour-

nalists that they would be killed if they clicked photos or made any videos.

However, after taking cognizance by the Supreme Court over the removal of all illegal structures located in the Aravali range of Gurugram district forest department and Sohna Municipal Council have started identifying farmhouses, adventure parks, banquet halls and other buildings which were constructed in parts of Gurugram and Sohna.

The civic body had started an encroachment and destruction and invasion of the hills with the help of the high-resolution, remote-sensing satellite images through National Remote Sensing Agency in the Gurugram region.

For this, they had also given the necessary directions to the district's forest department and dispatched drawings of villages located on Aravali range in Gurugram.

Several notifications have already been served by the multiple agencies to stop and protect the Aravali area from

illegal activity but it came to fore farmhouses continued to be constructed in violation of the notification.

In June Sohna Municipal Committee had served notices to around 450 farmhouses in the Ansal Aravali Retreat and Golden Heights for constructing farmhouses on "gair mumkin pahar" (uncultivable hill).

As per the Aravali Notification of 1991 no construction is allowed on uncultivable hills. The notices were served to these farmhouses as per the October 2018 direction of the National Green Tribunal (NGT).

However, the owner of the farmhouse claimed that the development took place before the Aravali notification hence they didn't violate any of the law.

"The farmhouses at Ansal Aravali Retreat are located on private land which does not fall under the notification. The Resident Welfare Association (RWA) of Ansal Retreat has recently filed suit for declara-

tion in a lower court in which we have made parties to the District Administration Gurugram, Forest Department, Sohna Municipal Council and District Town and Country Planning (DTCP) to clarify whether it was a Forest land or Agricultural land because all

the farmhouse owners have registries and mutation of their properties. Also we had purchased this land years ago from Ansal and had also paid govt stamp duties," Rajesh Vats, Vice President Ansal Retreat RWA said

He also claimed that the

forest department has submitted an affidavit in the Supreme Court and NGT that these farmhouses don't fall under forest land. Vats said they are protecting the Aravali from the mining mafias. "We have planted a large number of trees to maintain the greenery."

He said a registries of few farmhouses had also been conducted earlier in February 2021. The Pioneer has accessed a copy of the registry document.

An official of Sohna Municipal Council, said revenue estate of Sohna including Raisina comes under the municipal boundary from 2015.

"With the help of the satellite image we will check the construction which have come after 2015, particularly in hills, and appropriate action would be taken as per the municipal act."

He said that as per municipal act it is mandatory to take Change of Land Use (CLU) and building plan approval for construction irrespective of the

land category whether it is Aravali or not. The structures raised in the violations of the act will face appropriate action as per the law.

Apart from this the district administration Gurugram said a survey will be conducted with drone cameras to identify the constructions made in the forest area and those constructions will be removed by giving

notice to the illegal constructions.

Deputy Commissioner Garg has been ordered to start within a week. After the survey, notices will be given by the Forest Department to the concerned persons for illegal constructions. After the completion of the notice process, illegal constructions will be removed from the forest area.

# BJP MPs given leaflets to take on Covid plan critics

PNS ■ NEW DELHI

In view of the impending Assembly polls in various States, BJP MPs on Tuesday were handed over a booklet giving a detailed note on the Modi Government's response to the Covid-19 pandemic and the ongoing vaccination drive with an aim to help them with information to take on the critics and clarify its position among public in general.

The booklets, prepared by the Union Health and Family Welfare Ministry, claim all efforts to counter the disease cannot be attributed to just the Union or State Governments

but to "Team India" which acted with a "whole of Government and whole of society" approach in a pre-emptive, proactive and graded manner. Opposition parties have been attacking the Narendra Modi dispensation and the BJP governments in poll-bound states such as Uttar Pradesh, Uttarakhand and Goa for their handling of the pandemic.

They have also accused the central government of not doing enough to vaccinate people at a fast pace.

The ministry's note argues that India has delivered the highest vaccine doses compared to other countries for

which "transparent" data is available in the public domain. China has claimed to have given 160 crore doses, it added.

India has by July-end administered over 45 crore doses compared to 34.3 crore in the US and 13.7 crore in Brazil and 8.4 crore in the UK, it said. India took 166 days to reach the mark of 34 crore vaccine doses against 221 days by the US, the note stated.

India has so far administered over 10 per cent of the doses given globally.

Referring to India's handling of the pandemic, the note claims that the country managed to "evade" the catastrophic effects of the pandemic which had wreaked havoc in the world.

It also highlights the government's efforts to distribute required medicines and medical oxygen, besides the measures to ramp up the supply of the life-saving gas.

PM Modi, it notes, held 21 meetings with states, addressed the nation 10 times and chaired a total of 40 meetings. India's Covid-19 cases at 22,726 per million and fatality at 305 per million are among the "lowest" in the world, it said.

# Explore ways to put money into bank a/cs of lockdown-hit labourers, Parl panel asks Govt

PNS ■ NEW DELHI

Maintaining that nearly 1.20 crore migrant workers returned to their home States during the pandemic-induced lockdown in the first and second waves, a Parliamentary Standing Committee on Labour, headed by Biju Janata Dal MP Bhartruhari Mahtab, has asked the Government to

explore ways and means to put money in the bank accounts of the informal workers during adverse conditions like Covid-19.

The panel noted that total number of migrant workers who returned to their home states during the lockdown in the first wave of COVID-19 was 1,14,30,968. During the second wave lockdown,

5,15,363 migrant workers returned to their home states.

According to the Periodic Labour Force Survey (PLFS), over 90 per cent of workers in India are informal workers, which in absolute terms translate into 419 million out of a total of 465 million workers.

The Committee in its report, "Impact of Covid-19 on rising unemployment and loss

# About 93 million informal workers in urban areas are involved primarily in five sectors

of jobs/livelihood in organised and unorganised sectors", tabled in the Parliament said that in the short/immediate term, it is imperative to expand the social assistance and public welfare programmes, both in the urban and rural areas, to provide relief and protection to the most vulnerable and disadvantaged strata of the society. "Offering another round of income support to the poor to compensate for loss of jobs/employment incurred due to the two lockdowns imposed would go a long way in mitigating their woes," the report said.

The Committee has asked the labour ministry to take note of any unprecedented situation, like the migrant workers' exodus during the pandemic, rather than waiting for the judiciary to intervene on the issue.

It found that in compliance to a Supreme Court order on June 9, 2020, Union Labour Secretary wrote a letter on June 19, 2020 to the chief secretaries/administrators of all states/UTs to collect and maintain details of all migrant labourers who returned to their native places along with their skill, nature of employment etc to facilitate the administration

to extend benefit of different schemes to them.

In magnitude, the informal workers in rural areas (298 million) comprise almost 2.5 times higher than urban areas (121 million). This is primarily because a large number of informal workers are engaged in farm or agricultural activities (62 per cent) as compared to only 8 per cent in urban areas.

About 93 million informal workers in urban areas are involved primarily in five sectors namely manufacturing, trade, hotel and restaurant; construction; transport; storage and communications; and finance, business and real estate. Out of these total 93 million informal workers in these sectors, 50 per cent are self-employed, 20 per cent are casual workers on daily wages and 30 per cent are salaried or contract employees.

The Committee advised that the Government both at the Central and State Levels should encourage and introduce entrepreneurial opportunities as means of sustenance which would help in reducing unemployment and supporting recovery.

# CBI files case against director of Mumbai-based pvt firm

PNS ■ NEW DELHI

The Central Bureau of Investigation (CBI) has registered a case against a Director of a private company based in Mumbai (Maharashtra) and unknown officials of the Transport Department of Meghalaya

besides unknown others on the allegations of awarding contract at exorbitant rates for supply of High Security Registration Plates (HSRPs).

The CBI on Tuesday conducted searches at various locations/premises connected to the accused at Shillong (Meghalaya), Delhi,

Mumbai and Sirmour (Himachal Pradesh).

Director Mumbai-based firm Shimnit Utsch India Pvt. Ltd., Nitin Shah and unknown officials of the Transport Department of Meghalaya as also others have been listed as accused in the case.

It has been alleged that in the year 2003, the State of Meghalaya floated a tender for execution of High Security Registration Plates scheme and three private companies based at

Mumbai and New Delhi had participated in the tender process, the agency alleged in the FIR.

It was further alleged that the Director of said company in collusion with unknown officials of Transport Department of Government of Meghalaya, rigged the said tender process by submitting col-

lusive bids through entities controlled by him," it said.

It was also alleged that the work was awarded to the Mumbai-based company at exorbitant rates in 2005.

The company also got approved exorbitant rates for supply of High Security Registration Plates (HSRPs) in Meghalaya.

# Modi to chair open debate on maritime security at UNSC

New Delhi: Prime Minister Narendra Modi will virtually chair an open debate on maritime security at the United Nations Security Council on August 9, the Ministry of External Affairs said on Tuesday.

It will be the first time that an Indian Prime Minister will preside over an open debate at the world body.

Ministry of External Affairs spokesperson Arindam Bagchi said in a tweet, "PM @narendramodi will Chair Open Debate on 'Maintenance of

international peace and security: Maritime security' in virtual mode @UN #SecurityCouncil on 9th August. This will be the 1st time an Indian Prime

Minister will preside over Open Debate."

On August 1, India took over the rotating presidency for the month at the 15-nation UN Security Council, and on January 1, India began its two-year tenure as a non-permanent member of the UNSC. It is India's seventh term.

India has planned high-level engagements with the world community on key focus issues like maritime security, peacekeeping and counter-terrorism during the month of August. IANS

# Pawar meets Shah, discusses sugar price, blending of ethanol in petrol

PNS ■ NEW DELHI

NCP chief Sharad Pawar met Home Minister Amit Shah on Tuesday to discuss issues related to pricing of sugar and ethanol blending in petrol.

He was accompanied by National State Cooperative Sugar Factories Federation Chairman Jayprakash Dandegaonkar and NCP MP from Raigarh. Shah has also appointed as the new Cooperation minister and his Ministry aims to provide a separate administrative, legal, and policy framework for co-operatives.

After meeting Shah, Pawar told reporters that they discussed the current selling price of sugar, which is even lower than the cost of production, and he requested the

Government to look into it.

Pawar, a former agriculture minister, said he also talked about the need to increase the blending of ethanol in petroleum products.

The NCP chief said Shah has assured him that he will look into all issues related to the sugar sector. Pawar had earlier met Prime Minister Narendra Modi in connection

with amendments made by the Centre in the Banking Regulation Act to limit rights of cooperative banks.

With speculation rife about the agenda of the meeting, NCP spokesperson Nawab Malik said, "Rumours are being spread over the meeting but Pawar had already informed CM Thackeray and Congress leaders about the same."

# Tokyo refused to allot addl slot for Paralympian shooter, SC told

PTI ■ NEW DELHI

The Supreme Court was informed on Tuesday that "Tokyo has refused to allot

additional slot" for Paralympian shooter Naresh Kumar Sharma, who was to be included as additional participant for the upcoming

Paralympics in Japan as per the apex court's order to the PCI.

The top court granted liberty to Sharma to approach the

# LS passes Essential Defence Services, Tribunal Reforms Bills without any debate

PNS ■ NEW DELHI

As Lok Sabha proceedings on Tuesday continued to remain disrupted due to protests by the Opposition on the Pegasus and Farm Bills' issues, two legislations namely The Essential Defence Services Bill, 2021 and The Tribunal Reforms Bill, 2021 were passed without any debate.

The Essential Defence Services Bill seeks to prohibit any agitation and strike by anyone engaged in essential defence services. Amid protests by some opposition members on the intent of the bill, Minister of State for Defence Ajay Bhatt, who piloted the measure, informed the House that the "biggest thing" is that "we have taken a decision to add a sunset clause in this (bill)". A sunset clause gives an expiry date to a law.

The Tribunal Reforms Bill, 2021 seeks to abolish tribunals or authorities under various laws by amending various statutes to streamline the justice delivery system. These include the Cinematograph Act, the Copyright Act, the Customs Act, the Patents Act, the Airport Authority of India Act, the Trade Marks Act and the Geographical Indications of Goods (Registration and Protection) Act

The Lok Sabha was adjourned for the day when it assembled again at 4pm after three earlier adjournments. Finance Minister Nirmala Sitharaman said that the government was ready to respond to any queries raised by members on bills laid in the House.

Critical of the Opposition, Sitharaman said that the "constitutional impasse" in Parliament was "not correct". She also said it was unfortunate that nothing is being done to stop the din in the House.

Leader of the Congress in Lok Sabha Adhir Ranjan Chowdhury and RSP MP N K Premchandran said that bills should not be passed when the House is not in order and there should be a proper debate before the passage of any bill.

Defence Minister Rajnath Singh said he wants to assure the House that after the parliamentary nod and presidential assent, the Act will become effective only when it is invoked. As the minister was speaking, opposition members continued their protests over Pegasus, snooping row and farmers' issues. N K Premchandran (RSP) was of the view that such an important Bill should not be passed amid the din.

Chowdhury termed the bill as "draconian" and said that it should not be passed when the House is "not in order". TMC's Saugata Roy alleged the measure is "anti-labour". The defence minister said the Bill has been brought keeping in mind the security of the nation and the importance of the legislation should be understood. "Keeping in mind national security, I request you to pass this Bill," he told the Lower House. MoS Defence Bhatt said there was no intention to harm the interests of government employees.

# Rahul indulging in gimmicks for cheap publicity, says BJP

PNS ■ NEW DELHI

The BJP on Tuesday accused former Congress chief Rahul Gandhi of indulging in "gimmicks" for cheap publicity and alleged that the Opposition has resorted to a "rant and run" tactics to hijack parliamentary proceedings and defame the Government.

Union Minister Mukhtar Abbas Naqvi, the deputy leader of the House in Rajya Sabha, said Opposition members have been outdoing each other in disrupting Parliament's proceedings to project themselves as the leader of the anti-BJP grouping.

Opposition parties have stalled Parliament's proceedings over the Pegasus row. BJP chief spokesperson Anil Baluni said the Congress leader is mostly concerned about cheap publicity through gimmicks like driving tractor or riding cycle and does not take the legislature seriously.

"They have no real issue and do these things to be in news. This is the first time we are seeing that the government wants to debate issues in Parliament while the opposition does not," he said.

Naqvi said the opposition is engaging in "rant and run" tactics. It is not allowing Parliament to function and then defames the government outside it, he said.

In their "Modi-bashing", the opposition has been resorting to "India-bashing", he alleged. Leaders of several opposition parties attended a breakfast meeting hosted by Rahul at the Constitution Club here where he stressed on opposition unity. Several opposition MPs led by Rahul later cycled to Parliament to highlight the issue of fuel price hike. Those who could not cycle walked down to Parliament.

# ₹11,500 cr relief package for flood-hit people: Maha Govt

- To give ₹5,000 each to affected families
- ₹1.5L compensation for each damaged house

TN RAGHUNTHA ■ MUMBAI

The Maharashtra Government on Tuesday announced a ₹11,500 crore relief package towards the losses suffered by the people during the recent floods in coastal Konkan region, western Maharashtra and other parts of the state.

Of the flood relief package, the State Government has earmarked ₹1,500 crore for providing immediate assistance to flood victims, while ₹3,000

crore would be spent on reconstruction and repair of damaged infrastructure. "A sum of ₹7,000 crore has been allocated for undertaking long-term measures to minimise impact of future floods.

Talking to media persons after the State Cabinet approved the ₹11,500 crore relief for the flood-affected people in the State, Chief Minister Uddhav Thackeray said that his Government would extend a financial assistance of ₹5,000 to each of the

flood-affected families. Similarly, the State Government would give a financial assistance of ₹1,50,000 to each of the families whose houses were damaged in the floods, while the people whose houses suffered damage to the tune of 50 per cent would get ₹50,000 as compensation. The partially damaged houses will get ₹25,000 per home.

As per the package, the farmers who lost their cattle would get financial assistance of up to ₹40,000, while fishermen would be compensated ₹25,000 per damaged boat.

Shop owners and village artisans who have suffered

losses during the floods would be given a compensation of ₹50,000 each, while the affected owners' way-side shops

would be compensated up to ₹10,000 each.

Earlier at the beginning of the state Cabinet meeting, the State Disaster Management department made a presentation before the chief minister and Deputy Chief Minister Ajit Pawar on the impact of recent floods and heavy rain after which the Maharashtra cabinet sanctioned the financial assistance, an official statement said.

The Chief Minister asked the state administration to set up an expert committee and seek help from the National Water Development Agency to study flood lines of the

rivers that caused havoc in late July after intense rainfall.

"There should be a three-year plan for constructing flood resistant walls, cleaning and dredging river beds, the Government," Uddhav told the senior officials present at the State Cabinet meeting.

The chief minister asked the state administration to evolve a real-time data gathering mechanism and make it functional during the next three months.

It may be recalled that during the heavy rains and consequent earthquakes and floods witnessed in Maharashtra from July 21 to 23, as many as 213

people were killed and 52 other injured, while the rescue and relief teams shifted as many 4,35,879 people in the flooded areas of the state to safer places.

The districts of Raigad, Ratnagiri, Satara and Sangli were badly affected by the natural calamity. Raigad accounted for a maximum of 95 deaths, while there were 46 deaths in Satara district of western Maharashtra.

The death tally in other places comprised: Ratnagiri-35, Thane-15, Kolhapur-7, Mumbai-4, Pune-3, Sindhudurg-4. Wardha and Akola-2 each. Eight persons were still reported missing.

# Guv trying to create two power centres: Maha Min BNP flays Didi's 'Khela Hobe' call

TN RAGHUNTHA ■ MUMBAI

Another round of turf war broke out between the Maha Vikas Aghadi (MVA) Government and Maharashtra Governor Bhagat Singh Koshiyari on Tuesday, as its senior Minister Nawab Malik of the NCP accused the Governor of "exceeding" his brief and trying to create two power centres in the State.

Talking to media persons after the weekly Cabinet meeting, Malik took strong exception to the manner in which Koshiyari was conducting himself said that State chief secretary Sitaram Kunte would meet the Governor's secretary later in the day and would submit a letter explaining the brief of the Governor and asking the latter not to exceed it.

Malik said that at the Cabinet meeting, several ministers expressed

serious concern about the manner in which the Governor had chosen to undertake a three-day tour of Nanded, Hingoli and Parbhani in Marathwada region.

"The Maharashtra Governor is trying to create two power centres in the State, where powers are delegated to the chief minister once he takes oath. For reasons best known to him, the Governor is going about inaugurating some state government projects during his proposed tour of three districts in Marathwada region," Malik said.

During the proposed tour, the Governor is slated to inaugurate two minority student hostels at Nanded, a review meeting of the district officials at Nanded on August 5, to hold a review meeting of University at Hingoli where there was no University, attend an agriculture university programme at Parabha and hold a review meeting

there. Malik also charged that the Governor was not only touring the state but was also holding meetings with district collectors and seeking information about various government works. "If he needs to know something, the Governor can always write to the chief secretary for the same," Malik said. Koshiyari has been at loggerheads with the MVA government ever since Uddhav Thackeray assumed office as the chief minister on November 28, 2019.

Among the first of the controversies that arose between the Governor and the MVA government was his refusal to nominate chief minister Uddhav as a Member of Legislative Council in one of the two vacant slots. It was another matter, Uddhav -- who was not a member of either of the Houses of the State Legislature when he was sworn in as the chief minister

on November 28 2019 -- was elected unopposed subsequently to the State Legislative Council, through a normal election.

On another occasion, the Governor had landed in an unsavoury situation by calling up Home Minister Anil Deshmukh and conveying his concern over the "security and health" of incarcerated editor-in-chief of Republic Media Network Arnab Goswami. It may be recalled that on October 12 last year, the Governor had triggered a controversy by rooting for the reopening of temples in the state. In a letter shot off to the chief minister, questioning the latter's Hindutva credentials and wondering if Uddhav was receiving any "divine premonition" to keep postponing the re-opening of the places of worship time and again or whether he suddenly turned "secular".

SAUGAR SENGUPTA ■ KOLKATA

The Bengal BJP has strongly reacted to Chief Minister Mamata Banerjee's country wide Khela Hobe call saying her slogan has "dangerous underpinnings."

State BJP spokesperson Samik Bhattacharya on Tuesday said "by giving Khela Hobe slogan the Chief Minister has hinted at unleashing of violent politics in India ... The one practiced by her party in Bengal that has seen hundreds of bloody attacks on BJP workers leaving scores of them dead."

Saying that "the Chief Minister's brand of Khela (sports) is always smeared with blood," he said the people of India would learn from Bengal's experience and never vote for TMC wherever it went.

Banerjee earlier declared that

"Khela Hobe", which turned out to be the Assembly poll winning slogan for her Trinamool Congress in Bengal, would be reverberated across the country soon for its immense popularity, clearly hinting at her national ambitions.

The Chief Minister said, "some people may not admit it, but khela hobe has become very popular. It is been raised in Parliament and states like Uttar Pradesh and Rajasthan now. So far Khela (game) was limited (to Bengal). Now it will happen again across the country. Life can not go on without 'Khela.'"

The Chief Minister also suggested a theme song on "Khela Hobe" for August 16 Khela Hobe Divas, that her Government has decided to celebrate every year in memory of some spectators who died during a football match in

Kolkata more than three decades ago. Reacting to Banerjee's announcement the BJP leaders said that "after converting Bengal in to a disturbed State the TMC was trying to do the same thing across the country... But they will forfeit their deposit wherever they will go... Like it happened in Assam, Delhi and elsewhere." Meanwhile, TMC MP Sunil Mondal who had joined BJP last year on Tuesday said he was still in the Trinamool and had never left it.

"I had never left TMC or taken BJP's membership ... There was only some misunderstanding with local leaders ... That has been sorted out." Earlier he had talks with senior TMC leader Mukul Roy who too returned to the Trinamool three-and-a-half-years' stint in the saffron outfit.

# Army helicopter crashes into Ranjit Sagar Dam lake

## Pilots remain untraceable

PNS ■ JAMMU

Two pilots of the Indian Army's aviation wing remained untraceable after their chopper crashed into Ranjit Sagar dam lake in Basohli area of Kathua Tuesday morning.

This is the second incident involving an ALH Dhruv. On January 25, 2021 an Army pilot was killed after his helicopter crash-landed in Kathua district following a technical snag.

According to official sources, "an Advanced Light Helicopter (ALH Dhruv) had taken off from Mamun cantonment on Tuesday morning and while it was passing through Ranjit Sagar Dam lake it suddenly crashed around 10.30 a.m."

The depth of the crash site has been measured to be over 200 feet.

The helicopter was piloted by two officers of the Indian army's aviation wing at Mamun cantonment.

Eyewitness accounts claimed the helicopter was flying low and fell suddenly after losing height.

The rescue operations were launched immediately. Local divers of the Indian army accompanied by the NDRF team rushed to the spot to locate the pilots. The rescue teams located the wreckage of the helicopter and also zeroed in on the possible location of the crash. During the day long searches divers faced a tough task to trace the pilots.

Senior Superintendent of Police (SSP) R C Kotwal while supervising the rescue operations told reporters that the forces and boats were mobilised for the search operation, after which some pieces of chopper were found, confirming it to be an Army helicopter.

# Plight of West Pak refugees in J&K

MOHIT KANDHARI ■ JAMMU

An 89-year-old ex-serviceman Pritam Singh, a veteran of 1965 and 1971 wars, is waging a lonely battle along with thousand others to get a sanctioned amount of compensation announced by the Union Government headed by Prime Minister Narendra Modi in June 2018 for West Pakistan Refugees of 1947.

The compensation package of ₹5.50 lakh per family was announced by the former Union Home Minister Rajnath Singh for West Pakistan Refugees on June 9, 2018.

On August 5, 2019 when the erstwhile state of Jammu & Kashmir was reorganised and Article 370 and 35-A, which granted special status to J&K, were abrogated these refugees celebrated the momentous occasion. As they earned their citizenship rights after a struggle of over 70 years their hopes of early settlement of compensation claims too were raised.

Ahead of the second anniversary of Abrogation of Article 370 when this correspondent visited the village Chak Jaffar near Akhnoor, a large number of West Pakistani Refugees revealed an ugly truth.

"Nothing much has changed for us in the last two years. We continue to receive a step motherly treatment at the hands of lower rung officers of the revenue, social welfare and other departments", several refugees narrated their ordeal while attending a monthly meeting in the presence of President of the West Pakistan Refugee Action Committee, Labha Ram Gandhi and other office bearers.

Speaking to The Pioneer, a West Pakistani refugee Pritam Singh said, "So far I have not received my compensation. My file is yet to be approved. The concerned officers have raised some queries. I will try and submit my claim afresh".

Singh said, "in 1947 when I was in my early teens my family migrated from

Ex-serviceman Pritam Singh Mohit Kandhari

village Pull Bhajuan, Sialkot (now in Pakistan). He said, later I joined Indian army and participated in the 1965 and 1971 wars with Pakistan. I was posted in the Chhamb sector in 1971. "Indian army gave a tough fight and pushed back the enemy. I feel proud when I recollect those memories".

When asked why his claim had not been approved, Singh said, "I was told my file was incomplete".

Singh is not the only one who is struggling with this tedious exercise of preparing a complete file with relevant records.

In the last more than three years, files of little over three percent families living in Jammu district have been recommended to the Office of Divisional Commissioner for disbursal of relief amount through direct bank transfer.

Official records clearly revealed out of 5457 files/families as per old record only 459 files have been received in the office of Deputy Commissioner, Jammu till July 23, 2021.

Out of these 459 files only 174 files i.e 3.18 percent have been recommended to the office of Divisional Commissioner for disbursal of relief amount while 163 files with objections have been returned to the concerned Tehsildars.

According to the records, "a total number of 86 files which were found in

order have been awaiting certification from the committee and lying in the DC office". On the other hand, a total number of 36 files with objections are yet to be returned to the concerned Tehsildars and lying in the DP section.

The maximum number of 3263 families, as per old records, were staying in the border belt of Ranbir Singh Pura in Jammu. Out of these only 80 files were received in the office of Deputy Commissioner, Jammu and 63 were recommended to the office of Divisional Commissioner, Jammu.

President of the West Pakistan Refugee Action Committee Labha Ram Gandhi told The Pioneer, "the Government claims only 5764 families of West Pakistan Refugees have been registered with them. But as per our records, a total number of 22159 families of West Pakistan Refugees have been living in different districts of Jammu region".

Gandhi said the successive state governments in Jammu and Kashmir always misled the Union Government over the exact number of west Pakistani refugee families camping here in Jammu.

He said they may have earned citizenship rights but the compensation package announced by the central government is yet to be implemented on ground zero.

He said less than 200 cases have been processed so far. Gandhi said, after the abrogation of Article 370 we all celebrated our freedom. We were struggling for the last 70 years to earn citizenship rights. He said, despite getting domicile

certificates the Government machinery on the ground is still asking members of the community to produce their state subjects to earn benefits of government schemes such as Ladli Beti, Scholarship and housing schemes for members living below poverty line.

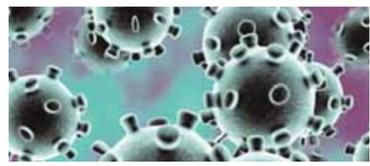

Gandhi said in the absence of a government order the lower rung government servants are creating hurdles and not processing their files in time. Some of the refugee families were allotted land and have constructed their homes but when they approach the revenue authorities for registration of their properties they are told to produce state subject certificates.

Another activist and office bearer of West Pakistan Refugee Action Committee Ratan Lal said, "When poor people from different villages approach revenue authorities for verification they are told to visit them after some time. It is causing long delays and the majority has not received even a single penny compensation".

Rattan Lal said, "After the abrogation of Article 370 and 35-A, the long pending demand of granting citizenship rights to West Pakistan refugees has been fulfilled by the Union Government but the real benefits are yet to reach them. He said on papers our children can now apply for government jobs within Jammu and Kashmir and they can cast their votes to elect their own public representatives. But in the last two years we have failed to get any benefits from the government machinery. We are not able to enrol girl children for Ladli Beti Scheme, enroll bright students from scholarship schemes and earn benefits of housing schemes of the Central Government.

Rattan Lal demanded smooth implementation of the central govt schemes for West Pak refugees and clear cut directions to the revenue authorities to entertain their files on top priority without any further delay to ensure timely disbursal of compensation package.

# Covid deaths in Maha rise to 177

TN RAGHUNTHA ■ MUMBAI

After a significant drop in the number of Covid-19 fatalities and infections, the daily pandemic deaths rose to 177 in Maharashtra on Tuesday, while the State recorded 6,005 new cases.

A day after the number of deaths dipped to 90 and the infections dropped to a relative low of 4869, the Covid-19 deaths rose 87 to touch the daily tally of 177, while the infections registered an increase of 1,136 to reach the daily case tally of 6,005.

With 177 fatalities reported on Tuesday, the total number of deaths in the state increased from 1,33,038 to 1,33,215, while the infections -- with 6,005 new cases -- climbed from 63,15,063 to 63,21,068.

As 6,799 patients were discharged from the hospitals across the state after full recovery, the total number of people discharged from the hospitals since the second week of March last year increased from 61,03,325 to 61,10,124. The recovery rate in the state dropped from 96.55 per cent to 96.66 per cent.

The total "active cases" in the state dropped from 75,303 to 74,318. The fatality rate in the state stood static at 2.1 per cent

Pune with 15,552 active cases emerged as the first in the state in terms of maximum number of "active cases" in the State, while Sangli with 7,301 stood second, followed by Satara (6,848), Ahmednagar (6570), Thane (5982), Kolhapur (5404), Mumbai (4996) and Solapur (4,776)

Of the 4,85,32,523 samples sent to various laboratories across the state so far, 63,21,068 have tested positive (13.02 per cent) for COVID-19 until Tuesday.

Currently, 4,51,971 people are in home quarantine while 3,009 people are in institutional quarantine.

## IN SHORT

### ARAVALI UNAUTHORISED STRUCTURES TO BE RAZED

New Delhi: The Supreme Court on Tuesday said all unauthorized structure standing on Aravali forest land in Faridabad's Khori village will have to go as its order passed in the matter regarding demolition of such buildings is "very clear".

The apex court, which had on July 23 granted four more weeks to the Faridabad municipal corporation to remove encroachments from forest land, asked the commissioner of the civic body to submit a status report which may also include the outcome of representations made before him regarding rehabilitation.

### ORDER PROHIBITING USE OF PARK FOR FUNCTION STAYED

New Delhi: The Supreme Court has stayed a National Green Tribunal order prohibiting the use of parks for social, commercial, marriage or other such functions. A bench comprising Justices Indira Banerjee and V Ramasubramanian said however that in no circumstances, the use of parks be permitted for more than 10 days in a month. The order was passed on the petitions filed by the municipal bodies against the February 4 order of the NGT.

# Kerala: Surge in cases again after slight relief

KUMAR CHELLAPPAN ■ KOCHI

The relief seen all over Kerala by Monday night as the total number of Covid-19 cases saw in dip turned out to be short lived. On Tuesday evening, the office of the Health Minister Veena George wore a sombre as it was officially announced that 23,676 new persons were tested positive for Covid-19 while the disease claimed 148 lives during the last 24 hours which took the death toll in the State till date to 17,103.

The average Test Positivity Rate across the State stood at 11.87 per cent while there were 323 places with TPR of 15 per cent and above. On Monday, there was some relief all over the State as the day's diagnosis had shown only 13,984 new cases. But on Tuesday, more than 1.9 lakh samples were tested and this threw out more Covid-19 patients.

Malappuram topped the table of districts with the highest number of patients (4,276). The district was followed by neighboring

Thrissur (2908), Ernakulam (2702), Kozhikode (2416), Palakkad (2223) and Kollam (1826).

Chief Minister Pinarayi Vijayan was presiding over a review meeting at the time of going to Press to take stock of the new situation. It is widely expected that the Government may make alterations in the weekend lock down which has been slapped for the last two months.

Elsewhere in the State, traders and business community are demanding for a total lifting of the lock down. The CPI(M)'s leading business baron VKC Mohammed Koya himself came out in the open asking the LDF Government to relax lock down rules as this has affected the financial position of the traders. More than six traders have committed suicide in the State since the lock down was enforced.

The Kerala Government Medical Officers' Association in a letter addressed to the Chief Minister has suggested that the

lock down should be revoked as early as possible because it has served its purpose.

"Hassle free and effective vaccination is the best tool for containing the Covid-19. Restrictions should be imposed in specific micro containment zones like wards rather than the whole Panchayat/Municipality/ Corporation. Targeted testing of all symptomatic and their contacts must be the rule. All positive cases must be quarantined for 17 days. Those with Covid like symptoms must also be quarantined even if tested negative on antigen testing at RT-PCR repeated if symptoms persist," are some of the salient points suggested by the KGMOA to the Chief Minister.

The association also said it was for allowing the functioning of markets as well as shops selling essential goods from 7 am to 11 pm.

But the doctors want the practice of serving food in hotels and restaurants to be stopped immediately.

Army personnel train members of the Village Defence Committee at Mendhar in Poonch district on Tuesday

PAPER WITH PASSION

## Watch out!

COVID-19 third wave is almost here, so the Govt must take hard decisions right away

Researchers at the Indian Institutes of Technology in Hyderabad and Kanpur predict the third wave of the COVID-19 pandemic may hit the country as early as this month. They soften the punch, claiming the wave might be much smaller, peaking in October and at its worst reporting 150,000 infections a day. Compared to the second wave that saw over four lakh new cases a day, the predicted surge of the third wave would certainly be smaller. The issue is whether the country needs a preventive lockdown in August, and what would be the economic implications of such a decision. The clamour about a third wave began ever since the second wave began to abate in July. Thereafter, the States adopted a gradual unlock. As of date, most restrictions have been lifted in the country, except containment zones in some districts with higher positivity rates. Educational institutions are on the verge of re-opening in most States while, in some others, they have been functional for nearly a fortnight. The public transport systems have 100 per cent occupancy rates though they are restricted in cities like Mumbai. The urban, semi-urban and rural commercial and industrial enterprises are back to normal. There is general confidence in the country after the fourth sero survey claimed that antibodies are present in over two-thirds of the population. Add to that the number of recovered people who have antibodies and only 40 crore people are said to be susceptible.

Even if at a slow pace, the number of fully vaccinated people is going up. However, a sense of complacency is also there, with a casual approach to following the safety protocols. Would the IIT prediction of a smaller third wave make the people and the Governments much more complacent? The Government's approach in the first two waves was reactive. In the last two months, it appears to have organised itself, sprucing up medical infrastructure and otherwise preparing to face a fresh wave. The Government needs to take a few decisions right away. One, at what point would the restrictions be re-imposed, before or after the fresh wave hits the country? The argument is that if everybody is anticipating a third wave, why open up businesses, offices, institutions and schools only to close them down in a while? Two, can the decision on restrictions be deferred till experts confirm whether the vaccination and the presence of antibodies have blunted the impact of fresh infections? The argument is, what if the Delta Plus variant, considered more dangerous and easily transmissible, leads the third wave? Three, with schools about to re-open and the children under 18 not vaccinated at all, would not they be most susceptible to the third wave? The pandemic task force advising the Government needs to look at these concerns on a priority basis. The wave prediction exercise can continue but not at the cost of not knowing how to come out of the predicament.

## Humanity

Sporting events show us the way to lead a full, meaningful life outside of the playing arena, too

We have grown up hearing "Khelege kudoge, hoge kharab...". However, worldly experience has since shown us that the basic sense of humanity stands at a much higher pedestal than education, knowledge and wisdom; also, that it can be gained out of a confined classroom and in spaces as vast and cut-throat as the Olympics. There is nothing more uplifting and inspiring as seeing a person helping a vanquished opponent. Let the body be bruised and defeated, but not the spirit, nor the soul! The latest essay in this life lesson comes from the men's high jump finals event at the Tokyo Olympics. Italy's Gianmarco Tamperi and Qatar's Mutaz-Essa Barshim gave a gold-worthy performance, clearing 2.39 metres with zero failed attempts. The referee gave them the option for a jump-off, to which Barshim asked if they could share the gold medal (Tamperi had the short straw in the sense that he was injured by then). So they shared not only the yellow metal but also the jubilation of each other's nation. This was the first time since 1912 that a gold medal was shared in athletics.

Cut to 1936 Berlin Olympics: Silver claimants Shuhei Nishida and Sueo Oe cut their medals in half to create two new "medals of friendship" of half silver, half bronze. There are moments galore when sportspersons have stopped to lend a shoulder to their crashed competitors. Like this runner at a mega event paused for another runner, who had taken a wrong detour in a marathon and so lost seconds, before following him to the finish line. He could have easily grabbed a medal but he said: "My mother wouldn't have approved of that." This is the spirit that the world needs to imbibe, especially in the times of the pernicious COVID-19 virus, when it is important for all to survive for each one of us to live. Nobody can live in isolation. Like the ancient theorem of "vasudhaiva kutumbakam", we swim together or we sink together; there is no other option, there is no room for greed or upmanship. To sum it up, Tamperi said: "He is one of my best friends, not only on track but outside of it, too. This is a dream come true. It is the true spirit, the sportsman spirit, and we are here to deliver this message." Well said. Let's go, world!

# Uttar Pradesh under Yogi is making waves

From being derided as a 'Bimaru' State since Independence, it has come a long way and is now attracting significant investment

PRAFULL GORADIA

India's largest State Uttar Pradesh and also its most vibrant, politically speaking, has moved in the field of development the fastest. Be it in the layout of highways, appointments to Government services, providing employment to the State's vast population, increasing investments, law and order, encouragement to tourism and pilgrimage as well as expanding the small and medium enterprises sector, Uttar Pradesh is making waves.

All these years since Independence, one has never heard that the largest State of the country had ever moved significantly in the area of development. It is surprising that New Delhi did not bother; perhaps ignoring the fact that UP is one-fifth of India. If, therefore, UP leaps in progress, the country races ahead in terms of development. Evidently, for the powers-that-be in India's *rajdhani*, UP was treated as a bank of 84 Lok Sabha seats (80 now) and a sure-shot ticket to parliamentary majority at the Centre, but nothing more. In fact, the head of a former ruling dynasty was reported to have voiced an opinion in favour of keeping Uttar Pradesh backward fragmented as that alone could help maintain this particular dynasty maintain its hegemony on power at the Centre!

Uttar Pradesh today, in 2021, is a vastly changed place. From the backwaters of most economic indices, the State today has moved to becoming India's second richest in terms of gross state domestic product (GSDP), which for the State stands at \$268 billion (financial year 2020-21 figures), behind only Maharashtra now. This, under Chief Minister Yogi Adityanath, has been an achievement that has been clocked despite the ravages of COVID-19. In the ease of doing business, a crucial global benchmark anywhere, UP, which languished at 16th position in the country in 2016, has moved up to the second rank among Indian States.

Law and order, the most important prerequisite for any developmental activity to flower, was never a strong suite in Uttar Pradesh before Adityanath took over. Any economic or capital investment in the State remained

a dream. The scenario after Yogi's coming to office in March 2017 is a sharp contrast. Over the past four and a half years, 137 criminals have been liquidated in police action, while close to 3,000 criminals were injured; nearly 37,000 accused have been booked under the Gangster Act and over 500 under the National Security Act. The Yogi administration has also hit criminals hard by targeting their finances; in the Government's drive against the mafia, their illicit property worth approximately ₹1,580 crore has either been attached or demolished. Along with action against the mafia, Adityanath has also provided protection to witnesses.

Vastly improved law and order has begun to pay off in the realm of development. Here, too, figures speak for themselves. The State's industrial development data reveals that over the years, UP has received investment proposals worth ₹66,000 crore from both foreign and local investors. The administration has been acting quickly on these proposals. More to the point, companies from Japan, Canada, Germany, Hong Kong, the UK, the US and South Korea are lining up to invest in UP; one

UTTAR PRADESH TODAY, IN 2021, IS A VASTLY CHANGED PLACE. FROM THE BACKWATERS OF MOST ECONOMIC INDICES, THE STATE TODAY HAS MOVED TO BECOMING INDIA'S SECOND RICHEST IN TERMS OF GROSS STATE DOMESTIC PRODUCT, WHICH FOR THE STATE STANDS AT \$268 BILLION

company has even returned from China to set up operations in Agra. It is also significant that Yogi's Government is ensuring that the flow of investment is not restricted to the bigger cities, it is being channelled to smaller towns like Etah, Amroha, Mirzapur, and so on.

Yogi has adopted an investor-friendly policy. Apart from the fresh proposals for investment, MoUs worth ₹4.68 lakh crore have been signed at investor summits, of which 371 proposals worth close to ₹3 lakh crore are already functional, generating employment for up to 5 lakh people. Here, one must mention the work being done by the State Government on the defence industrial manufacturing corridor, which has already drawn in up to 14 MoUs. The aim is to transform UP into a hub of capital-intensive manufacturing, which the defence industry invariably entails.

Farmers, a community very much in the news these days, have much to be happy about under Yogi's rule. Development schemes and programmes for their long-term success also need the health of the rural economy to be robust. And the rural economy, of course, includes farmers. Adityanath's transparent

policy of wheat and paddy purchase, as also his continuous supervision of purchase centres, has been successful. Take paddy, for instance; the State Government has purchased a record 60 lakh metric tonnes of the crop against a slated target of 55 lakh metric tonnes. Payments made to the State's farmers have been touching new records as well. The Chief Minister has accelerated his efforts to double the income of the State's farmers. Nearly ₹33,000 crore have been transferred to the accounts of about 3 crore farmers under the Pradhan Mantri Kisan Samman Nidhi Yojana, plus separate transfers under crop insurance schemes. The modernisation and expansion of 20 sugar mills in the State, along with the reopening of the Pipraich, Munderwa and Ramala sugar mills, is a significant milestone in the administration's agriculture policy. Uttar Pradesh under Yogi is clearly not the "Bimaru" State it was once derided as, under earlier dispensations that only milked the State politically.

## LETTERS TO THE EDITOR

### INDIA'S DAUGHTERS ARE CREATING HISTORY

Sir — India's performance in the Tokyo Olympics so far has been in the name of India's daughters. The journey started with Mirabai Chanu's silver medal, progressing further with PV Sindhu's bronze medal and then women's hockey team defeating Australia to reach the semifinals for the first time.

It seems that the daughters of this country have taken the responsibility of making the country proud; this is the changing identity of India. Sushil Kumar was the first Indian to set a record of winning two medals in two consecutive Olympics. He is still the only player to win two Olympic medals in men's individual events. Sushil Kumar won bronze and silver medals at the Beijing Olympics 2008 and the London Olympics in 2012, respectively, when he won in the 66-kg freestyle category. So, in the same vein, the women's hockey team has made it to the semifinals for the first time by defeating Australia. Many congratulations to PV Sindhu! She has given the country a chance to be proud, and we hope the women's hockey team will do the same.

Devanand Ray | Delhi

### THE GOVERNMENT VS THE OPPOSITION

Sir — The conditions seem to be ripe for the Opposition to intensify its attacks on the Modi Government and mount a fresh challenge to its misrule. The Opposition is at its most vibrant and exudes confidence. It uses issues like the mishandling of the COVID-19 pandemic, the unprecedented fuel price hike, the new farm laws and the Pegasus phone hacking scandal as rods to beat the Government with. The blows seriously hurt the Government as the concerns raised by the Opposition over these issues are shared by the general public.

The current climate of opinion is tilted in favour of the Opposition. The cycle rally by the Opposition MPs, led by Rahul Gandhi to protest the runaway price hike of petrol, diesel and LPG cylinders, obviously struck a chord with the common people. Fuel price hike that has now

## No kneejerk reaction, please

Bharatiya Janata Party (BJP) leader and Meghalaya Minister Sanbor Shullai is urging people of his State to eat more beef than chicken, mutton and fish. This is not the first such instance in the Christian-dominated Meghalaya. In 2017, Bernard Marak, a BJP leader from Garo Hills, had promised to reduce the price of beef if his party was elected to power in the Meghalaya Assembly. People are fully aware, as a Hindu party, of the BJP's problem with beef and cattle slaughter. But here also the BJP has played some give-and-take regarding banning both the sale and consump-

tion of beef or even cattle slaughter in the majority of the BJP-ruled States, and has made exemptions in its crusade against beef (in Goa and the northeast).

On the poll trail, Prime Minister Narendra Modi accused the UPA Government of promoting a "pink revolution", slaughtering our "mother cow" and exporting meat. Interestingly, India continues to be the world's largest exporter of beef, 70 per cent of it buffalo meat. In the current economic condition, Sanbor Shullai is urging the State's people to eat more beef because it is cheaper than chicken and fish and is a staple for the poorer communities. Why not, when Swami Vivekananda himself points out: "There was a time in this very India when, without eating beef, no Brahmin could remain a Brahmin; you read in the Vedas how, when a *sanyasin*, a king or a great man came into a house, the best bullock was killed; how in time it was found that as we were an agricultural race, killing the best bulls meant annihilation of the race. Therefore, the practice was stopped."

Bidyut Kumar Chatterjee | Faridabad

### EVEN ALLIES ARE CRITICISING GOVT

Sir — Bihar Chief Minister Nitish Kumar became the first NDA ally to echo the Opposition's demand for a probe into the

sensational Pegasus snoogate and discussion in Parliament. All this is happening due to the misuse of modern technology. At a time when the BJP is busy stonewalling a Parliament debate on Pegasus, saying IT Minister Ashwini Vaishnaw has already made his statement in both Houses, Nitish Kumar's divergent position has set the cat among the pigeons. The Opposition wants the presence of either Prime Minister Narendra Modi or Union Home Minister Amit Shah during the debate. In recent weeks, Nitish Kumar has not aligned himself with the NDA on important issues like caste census. Even the appointment of Mungar MP Rajiv Ranjan alias Lalan Singh as the JD(U) president was seen as an attempt to nibble into the BJP's core traditional Bhumihar vote bank in Bihar.

## FIRST COLUMN CITIZENS, MSMEs IN LOAN DEFAULT CRISIS

Several loans are linked as individuals unable to pay one loan take recourse to the other

SHIVAJI SARKAR

There is more to the COVID-19 menace as it leads to a dreadful rise of a whopping ₹66-lakh crore in personal loan defaults in the country. This is in addition to the accumulated MSME debts of ₹2.26 lakh crore. Several individuals are facing auctions by banks and financial institutions. The MSMEs are facing temporary or permanent closure and yet seeking more loans to survive. Personal debts stand at ₹27.86 lakh crore and people are finding it difficult to repay. Another ₹14.64 lakh crore accounts for individual housing loans, ₹2.38 lakh crore in vehicle loans, credit card dues total ₹1.02 lakh crore. People are also unable to repay education loans of ₹62,720 crore and loans against jewellery worth ₹62,221 crore. The education, housing, and jewellery loans are often linked to each other, as individuals unable to pay one loan take recourse to the other. Often, none of them is fully repaid, revealing the poor economic status of the loanees. The people also suffer from high taxation. Most of them, except for a small segment, are income-tax payers. As

their deposits are being eroded by tax deduction at source (TDS) on meagre interest earnings, the national crisis deepens. Many of them compromise on their food intake. The debts are affecting the banking, FIs, and non-banking (NBFC) sectors. There are calls for a drastic income-tax reduction. If that happens, it can help many sectors coming out of difficult situations and help banks reduce their NPAs. Fitch Ratings indicate the NBFCs facing near-term pressure as "non-performing loans (bad loans) are likely to rise as renewed activity restrictions have impaired borrower repayment capacity". The woes of individuals, small businesses, and others surviving on small incomes may multiply as banks and financial institutions plan tough recovery drives.

The lending institutions may start auctioning their pawned gold, vehicles, and other assets just as the festival season begins. This might mar festivities and create societal and political problems. The FIs put off selling or auctioning the collaterals during the pandemic but now they are finding their survival difficult and some like HDFC and Axis are indulging in allegedly unethical means to shore up their cash books. Both these banks have been penalized for this. The ICI is mulling the auction of pawned jewellery and vehicles. Jewellery loans indicate that households are in dire straits and rising numbers of suicides could be linked to people's deteriorating financial conditions. The fall in sales of FMCG goods sells or vehicles also reflects the worsening situation. The political thinkers are yet to mull over this grave situation. MSME minister Nitin Gadkari told the Rajya Sabha about a Khadi and Village Industries Commission (KVIC) study on the pandemic impact on micro-units under the PM Employment Guarantee Programme (PMEGP) revealing that 88 per cent of the beneficiaries were "negatively affected" by the pandemic. The private insurance sector is in a shambles. The sale of the LIC banks and LIC to the private sector cannot be a welcome step as it further adds to the deterioration of the economy and leads to bigger job losses. The entertainment, cinema included, and education sectors are also in deep crisis. Many cosmetic programmes, incentivisations, loans, and even direct benefit transfers, surprisingly, are not boosting the economy. The economic contours have to change, free from Manmohanomics, and a new economy needs to be conceived with discussions with all stakeholders and political parties. The post-demonetisation downfall has to be stemmed for the country to become an effective power. It has to begin with empowering the individual in real financial terms, including a cut in taxes.

(The writer is a senior journalist. The views expressed are personal.)

# Street-connected kids in pandemic's shadow

SURINA NARULA

It is time to improve the quality of life of street-connected children who continue to be one of the most vulnerable sections of the society

The multiple and complex challenges we face today because of the COVID-19 pandemic have fallen hard on children who live, work, or play in the streets and are known as street-connected children. For them, it is often impossible to follow the basic guidelines to "stay at home" and "wash your hands". It is also difficult for them to access food, water, and medical services if they fall ill. In addition, they are at risk of being detained for being out during the lockdown or curfew.

The authorities say they are providing help. For example, the Delhi Commission for Protection of Child Rights has been distributing food to street-connected children and vulnerable families in the Indian capital. In other cities too, local governments and charities have been doing the same.

However, the situation with street-connected children on the ground is very different. Sanjay Gupta works with street-connected children through CHETNA (Childhood Enhancement Through Training and Action), a grass-roots Indian NGO. He says that the scale of the problem is daunting and that many children are invisible because they live away from the main roads and in areas that are not accessible. He wants essential service passes to be made for his workers during COVID lockdowns as they work round the clock to try and reach these children whom the government cannot reach.

The Consortium for Street Children (CSC) is an international global network with more than 150 organisations, researchers, and practitioners across 135 countries that have been working since 1990 to protect the rights of street-connected children and making their voices heard at key forums. In its early days, the biggest challenge CSC faced was getting acknowledgement of the very fact that street-connected children exist. In the 1990s, many governments did not acknowledge them or recognise who they were. In many countries with dictatorial governments, they were actually shot to "clean the streets". It took a lot of persuasion and pressure on governments through diplomats in the UK to stop such practices. Being one of the founders of CSC, I had personally attended a lot of these meetings for securing funding and holding workshops with the police in Latin America to stop treating these children with such cruelty among other issues.

It took many years to get the term "street-connected children" accepted and included in common parlance - it is now widely used to describe children who depend on the streets for their survival. It does not matter whether these children have parents or some kind of support outside the street situation; it is important to understand that once they are on the streets, they are vulnerable. Along with these workshops and conferences over the past 20 years, CSC has also been working on long-term goals of making street-connected children visible on global platforms

WE MUST TAKE URGENT STEPS TO BETTER PROTECT CHILDREN IN THE COMING MONTHS AND YEARS. A COORDINATED, CONSOLIDATED EFFORT IS REQUIRED FOR THIS AND ALL SEGMENTS OF THE SOCIETY MUST BE PART OF THE RECOVERY PROCESS. THIS IS PARTICULARLY IMPORTANT FOR CHILDREN IN STREET SITUATIONS. WE CANNOT AND MUST NOT LEAVE THEM BEHIND

(The writer is the Co-founder of Consortium for Street Children and The DSC Prize for South Asian Literature. The views expressed are personal.)

by pushing policy interventions that address the discrimination these children face on a daily basis by empowering them and improving the quality of their lives.

The United Nations Convention on the Rights of the Child is the most widely ratified international human rights treaty that promises to protect and fulfill the rights of every child. There was never any mention of street-connected children in this convention. After many consultations with NGOs and street-connected children across the world, CSC finally managed to convince the UN to include a general comment on street-connected children in this convention. This comment gives all those working with street-connected children a high-level tool to hold their governments accountable for not adhering to the Convention on the Rights of the Child. In the words of the UN: "The United Nations Committee on the Rights of the Child provides authoritative guidance to States on developing comprehensive, long-term national strategies on children in street situations using a holistic, child rights approach and addressing both prevention and response in line with the Convention on the Rights of the Child." The obligation of States towards children in street situations is defined quite comprehensively in this comment. This is already being implemented in a small number of countries.

While global alliances like CSC and the efforts of local grassroots community organizations and non-government bodies attempted to improve the lives of these children,

the present reality is that the COVID-19 pandemic has suddenly and severely deteriorated their condition. The need for rebuilding much more resilient societies and frameworks that protect and empower them could not be more vital than it is now. We must take urgent steps to better protect children in the coming months and years. A coordinated, consolidated effort is required for this and all segments of the society must be part of the recovery process. This is particularly important for children in street situations. We cannot and must not leave them behind and must ensure that all children are being counted and included in our visions of the future. In other words, we must have policies and laws that ensure that street-connected children are guaranteed the same rights as every other child, so that they can live with dignity, safety, and security. The pandemic threatens to set back the realisation of the United Nations Sustainable Development Goals (SDGs), which go to the heart of children's rights, their well-being, and their development. We must act urgently to avoid this. As responsible citizens, we can identify the NGOs in our area working with these children and provide help in kind or cash as we see fit, guide them and participate in their outreach activities. In the meantime, we also need to put pressure on our governments and policy makers to implement the general comment related to street-connected children in more countries. The Consortium for Street Children, with generous funding

from Abbvie, has been providing crucial support to street-connected children and has helped them access the services, information, and legal protection they need throughout the pandemic. It has provided safe shelters, access to safe food, water, and information on how to stay safe from the virus when the street is the home. Its member partners have collaborated with local governments to come up with innovative strategies to provide basic healthcare facilities, hospital care, essential medicines, and mental health counselling to street-connected children during the outbreak of the pandemic.

In India, Abbvie has partnered with CHETNA along with two other organisations and provided relief packages including dry food, health/hygiene kits, and basic supplies to 750 families of street-connected children who have been hardest hit by the lockdowns or are at the highest risk from COVID-19. These relief packages are making a difference on the ground as each package can sustain a family of six for two weeks. CHETNA has also provided educational support and materials to 300 children for remote home learning.

While international networks like the Consortium for Street Children and NGOs like CHETNA are making a tangible difference, the time has now come for each one of us to contribute in our spheres of influence to improve the quality of life of street-connected children who continue to be one of the most vulnerable sections of the society.

## POINT COUNTERPOINT

NOBODY IN THE GOVERNMENT IS LISTENING. SO WE HAVE DECIDED TO GET TOGETHER; THE OPPOSITION IS UNITED.  
— CONGRESS LEADER MALLIKARJUN KHARGE

THE CONDUCT OF THE OPPOSITION IS AN INSULT TO PARLIAMENT AND THE CONSTITUTION... (CERTAIN) COMMENTS ARE DEROGATORY.  
— PRIME MINISTER NARENDRA MODI

# Mamata's Opposition unity Delhi errand

Her strategy is to first unite the Opposition parties, then find a suitable narrative acceptable to all and finally think of a leader

West Bengal chief minister Mamata Banerjee made a whirlwind trip to Delhi last week, for another attempt to unite the opposition parties. She met all the right people and made adequate noise about the eluding opposition unity. Will she be able to succeed where others have failed? She is all but ready to challenge Prime Minister Narendra Modi in the 2024 polls.

It is not her first attempt to unite the opposition. She tried to forge a third front ahead of the 2019 general elections but did not succeed. The Opposition bloc also lacked a face to pit against Modi. Above all, without Congress, there cannot be a government, arithmetically.

This time Mamata has

KALYANI SHANKAR

started early, almost three years before the next Lok Sabha polls. "Nothing can be done by a doctor who comes after the patient has died. The patient can be saved if treatment is given on time. Now is your time. The more time you waste all the more the situation will worsen," Banerjee said. She wants to expand her winning slogan "Khela Hobe" as a national slogan.

No doubt, after winning West Bengal for the third time in a row, Mamata Banerjee's stature has gone up. She has dropped enough hints to show that she is now ready for a national role. It is to prepare for this role she came to Delhi. Her poll strategist Prashant Kishore prepared the ground before her arrival. Mamata declared that "regional parties

will lead the nation, we will not bow down before anyone anymore, the time has come".

One of the biggest challenges before the opposition is to show a united face against the BJP before the 2024 polls. There are too many regional chieftains claiming to be the face of the opposition. Mamata has belled the cat once again. Mamata also understands now that without Congress, there can be no opposition front. Arithmetically, it is difficult to form a government.

To soften the Congress, she met Sonia Gandhi and Rahul Gandhi during this trip.

Though Congress is the oldest national party and has ruled the country for long, it presently faces too many problems. They include a leadership crisis and a weakening party organisation. Sonia Gandhi has taken a backseat due to health reasons. In 2004 she went from one party leader to the other and united the heterogeneous opposition block successfully. Her son Rahul

Gandhi is still not ready.

The second problem is that the regional satraps are not keen to accept Rahul as their leader. Congress is not willing to consider any regional chief as the leader. Some parties like the BJD, Samajwadi Party, and Bahujan Samaj Party are neutral. That is why it is not easy to visualize a united opposition emerging before 2024.

Mamata has set off speculation whether she could be the catalyst to unite the opposition parties. She has good relations with many regional satraps. They include Sharad Pawar of Nationalist Congress Party, Odisha chief minister Naveen Patnaik, Telangana chief minister K.Chandrashekar Rao, besides Andhra Pradesh chief minister Y.S. Jagan Mohan Reddy, and Delhi chief minis-

ter Arvind Kejriwal.

During her current visit, Mamata seems to have made up her mind to project herself as a mature leader who can be courteous to a bitter political enemy. This was evident when she called on the Prime Minister. The photograph showing Mamata greeting the Prime Minister with folded hands and a bowing Modi has gone viral.

In her interaction with the national media also, she spoke along similar lines. She kept the media guessing with her one-liners. She said, "I think all these will happen automatically... I am hopeful" and "I will not lead, the country will lead... We are all followers", etc.

In her speech, Banerjee took her winning slogan

"Khela Hobe" (Game On) to the national stage and declared that "Khela" would happen in all States before the 2024 elections. This slogan is to underline that it is possible to defeat the BJP.

The opposition sees a possibility of building up a narrative before the next Lok Sabha polls and the upcoming Assembly elections in many States. She said: "In politics, there are times together for the sake of the country. This is that time."

Whatever may be the outcome, Didi is determined to be in the game. She has defined the fight as the country versus Narendra Modi. Her strategy is to first unite the opposition parties and then find a suitable narrative acceptable to all and think of a leader later.

# Taliban take much of provincial capital in south Af

**Kabul:** The Taliban pressed ahead with their advances in southern Afghanistan on Tuesday, capturing nine out of 10 districts of the Helmand provincial capital, residents

and officials said. Afghan Government forces launched airstrikes, backed by the US, in a desperate effort to defend the city of Lashkar Gah.

The fall of Lashkar Gah would be a major turning point in the offensive the Taliban have waged over the past months as US and NATO forces complete their pullout from the war-torn country. It would also be the first provincial capital captured by the Taliban in years.

Residents of the city, speaking to The Associated Press over the telephone, said the

fighting has them trapped, hunkered down inside their homes and unable to step out for basic supplies. They said Taliban fighters were out openly in the streets, and that all but one Lashkar Gah district was under Taliban control.

Elite commando units were dispatched from Kabul to aid Afghan forces as the government held on to key government buildings, including the local police and army headquarters.

Majid Akhund, deputy chairman of the Helmand provincial council, confirmed

that the Taliban control nine Lashkar Gah districts and also the city's TV and radio station, which had both gone off the air.

The Afghan forces commander for Helmand, Gen. Sami Sadat, in an audio message shared with journalists Tuesday urged residents in neighborhoods captured by the Taliban to evacuate immediately, though he did not clarify how they could do that amid the ongoing clashes. The message was an indication more airstrikes were planned.

"Please evacuate your families from your homes and

their surroundings," Sadat said. "We will not leave the Taliban alive. ... I know it's hard ... we do it for your future. Forgive us if you get displaced for a few days, please evacuate as soon as possible."

Lashkar Gah is one of three provincial capitals under siege by the Taliban as they stepped up their onslaught against government forces. In recent months the Taliban swept through dozens of districts across the country, many in remote and rural, sparsely populated areas.

Afghan troops in those

battles often surrendered or pulled out with barely a fight, frequently lacking re-supplies and reinforcements. Over the past weeks, the Taliban have also captured several lucrative border crossings with Iran, Pakistan and Tajikistan.

Most recently, the Taliban have turned their guns on provincial capitals as the withdrawal of the US and NATO forces is now more than 95 per cent complete. The final US and NATO soldier are expected to be out of Afghanistan by Aug. 31.

# China's Wuhan, cities begin mass testing, impose lockdowns

**Beijing:** Authorities in central China's Wuhan, where the coronavirus first emerged in 2019 and spiralled into a pandemic, on Tuesday began testing of its over 11 million people following the resurgence of cases, a year after it contained the deadly virus, even as a sense of unease prevailed in the country as several provinces reported fresh infections.

Wuhan, which became

famous all over the world for its first coronavirus lockdown early last year, broke the zero-infection record since June 2020, as seven new Covid cases were reported.

Authorities began a city-wide Covid testing on Tuesday, the official media here reported. The city has upgraded its epidemic response measures in the face of the recent coronavirus infections, locking down the area where Covid infections have been reported while upgrading its risk levels, state-run Global Times reported. The city metro has adopted stricter anti-epidemic rules, and all schools have been closed. Just as Wuhan braced for the second Covid resurgence, especially the Delta variant, several provinces and cities including Beijing are rushing to test millions of people.

The National Health Commission (NHC), in its daily report on Tuesday, said that 61 new locally-transmitted COVID-19 cases have been reported from different provinces, including Jiangsu, Hunan, Hubei, Henan, Yunnan besides Beijing, Shanghai and Fujian.

# Pak has much to gain from Af peace: US

**Washington:** The United States has said Pakistan has much to gain and will continue to have a critical role in Afghan peace process.

"We do appreciate Pakistan's efforts to advance the Afghan peace process and stability in South Asia, including by encouraging the Taliban to engage in substantive negotiations," State Department spokesperson Ned Price told reporters at his daily news conference on Monday.

"Pakistan has much to gain and will continue to have a critical role, will be well-positioned to have a role in supporting the outcome that not only the United States seeks, but that many of our international partners, many of the countries in the region also see," he said.

PTI

# Can't have terrorist camps moving back into Af, this will have direct impact on India: UNSC Prez

**United Nations:** The situation in Afghanistan is of deep concern to all members of the UN Security Council, President of the Council for the month of August Ambassador TS Tirumurti has said, underlining that "we cannot have terrorist camps' once again moving back into the war-torn country that will have a 'direct impact' on India.

India, currently a non-permanent member of the UN Security Council for the 2021-

22 tenure, assumed the rotating Presidency of the powerful UN organ for the month of August. "The situation in Afghanistan is of deep concern to all members of the Security Council and we have seen that in recent days, the violence is only increasing," Tirumurti said at the UN Headquarters on Monday.

Briefing reporters at the UN Headquarters on the Council's Programme of Work, Tirumurti, who is India's Permanent Representative to

the UN, cited a UN report that said the number of casualties in Afghanistan during May-June exceeds the number between January and April.

Responding to a question on the situation in Afghanistan and what the Security Council can do to prevent further escalation in violence, Tirumurti said he expects that "probably the Security Council will be looking at this aspect sooner rather than later" at Afghanistan.

PTI

# US hits 70% vaccination rate — a month late

**Washington:** The US has finally reached President Joe Biden's goal of getting at least one COVID-19 shot into 70 per cent of American adults - a month late and amid a fierce surge by the delta variant that is swamping hospitals and leading to new mask rules and mandatory vaccinations around the country. In a major retreat in the Deep South, Louisiana ordered nearly everyone, vaccinated or not, to wear masks again in all indoor public settings, including schools and colleges.

AP

# More than 110M Covid vaccines sent to 60 countries, says US

**Washington:** The US has donated and shipped more than 110 million doses of Covid vaccines to more than 60 countries, ranging from Afghanistan to Zambia, the White House announced Tuesday.

President Joe Biden was expected to discuss that milestone and more later Tuesday in remarks updating the public on the US strategy to slow the spread of coronavirus abroad.

The announcement comes amid a rise in infections in the

US, fuelled by the highly contagious delta strain of the virus, which led US public health officials last week to recommend that people who have been fully vaccinated against Covid resume wearing face coverings in public indoor settings.

Biden has promised that the US will be the "arsenal of vaccines" for the world. But while notable, the 110 million doses the US has donated largely through a global vaccine programme known as COVAX represent a fraction of what is needed worldwide.

# Lanka probing massacre of Buddhist monks by LTTE in 1987: Apex Court told

**Colombo:** Sri Lanka has begun an investigation into the 1987 massacre of Buddhist monks by the Tamil separatist Liberation Tigers of Tamil Eelam (LTTE) which attacked a bus and killed 31 people, the country's Supreme Court here was told on Tuesday.

The Attorney General's counsel told the apex court that a survivor, Buddhist monk Andaulpotha Buddhadasa, has given a statement on the attack.

The LTTE, then fighting for a separate homeland for the minority Tamils in the north and east provinces, carried out the attack on June 2, 1987 at Aranthalawa in the eastern Ampara district.

Some 33 monks and three civilians were travelling in a bus on the monthly Buddhist holy day when the bus was waylaid by the LTTE, who randomly opened fire, killing at least 31 monks.

No one was arrested and there were no legal proceedings as in the case of many attacks carried out by the LTTE.

# Suspect in fatal S Carolina shooting of 3 found in Florida

AP ■ COLUMBIA

The suspect in the killing of three people in rural South Carolina hopped on a plane after the shootings and was arrested hours later at a Florida hotel, authorities said.

A man and two women were killed in the shootings Monday around 3 p.m. inside a Greenwood County home just off U.S. Highway 25, Sheriff Dennis Kelly said. A child was also hurt in the shooting.

# US OK's sale of Harpoon Joint Common Test Sets to India worth \$82 mn

**Washington:** The US has approved the sale of Harpoon Joint Common Test Set (JCTS) and related equipment to India for an estimated cost of USD 82 million, a decision which it said will help strengthen the bilateral strategic ties and improve the security of a major defensive partner in the Indo-Pacific region.

The Pentagon's Defense Security Cooperation Agency (DSCA) delivered the required certification notifying the US Congress of this possible sale on Monday, according to an official statement. Harpoon is an anti-ship missile.

The Government of India has requested to buy one Harpoon Joint Common Test Set (JCTS). Also included is one Harpoon Intermediate Level maintenance station; spare and repair parts, support, and test equipment; publications and technical documentation; personnel training; US Government and contractor technical, engineering, and logistics support services; and other related elements of logistics and programme support. The estimated total cost is USD 82 million, it said.

# US, India share number of interests, values: Biden admn

**Washington:** The US has a number of shared interests and values with India in terms of economic and trade ties and cooperation on climate and regional security issues that were discussed during the recent visit of Secretary of State Tony Blinken to New Delhi, a top State Department official has said.

Blinken arrived in New Delhi on July 27 on a two-day visit with an extensive agenda for talks. It was Blinken's first visit to India after assuming charge as the US Secretary of State and the third by a high-ranking Biden administration official.

Blinken

called on Prime Minister Narendra Modi on July 28 and held talks with his counterpart S Jaishankar. Blinken also held talks with National Security Advisor Ajit Doval.

"I think you heard from us at the time, it was the Secretary's first opportunity as Secretary of State to travel to India. It was also an opportunity for us to explore ways that we can strengthen and deepen the comprehensive global strategic partnership that we have with India," State Department spokesperson Ned Price told reporters at his daily news conference on Monday.

"The other point that we made is that we have a number of shared interests and shared values with the Government of India," he said.

PTI

# Pentagon on lockdown after shooting near metro station

**Washington:** Gunshots were fired on Tuesday morning near the entrance of the Pentagon, resulting in multiple injuries. The facility, the headquarters of the U.S. military, was placed on lockdown.

The Arlington County Fire Department reported "multiple patients," but it wasn't immediately clear if they had been shot or the extent of the injuries.

The incident occurred on a Metro bus platform that is part of the Pentagon Transit Center, the Pentagon Protection Force Protection Agency tweeted.

# Sensex soars 873 pts to new peak

**NIFTY SCALES 16K FOR 1ST TIME**

**PTI ■ MUMBAI**  
The Sensex skyrocketed 873 points to a fresh closing peak while the Nifty finished above the 16,000-mark for the first time on Tuesday as economic recovery hopes triggered across-the-board buying. Investors grew richer by ₹2.30 lakh crore, with market capitalisation of all BSE-listed reaching a lifetime high of ₹2,40,04,664.28 crore. Rising for the second straight session, the 30-share BSE benchmark Sensex ended 872.73 points or 1.65 per cent higher at its fresh closing record of 53,823.36. Similarly, the broader NSE Nifty rallied 245.60 points or 1.55 per cent to an all-time

peak of 16,130.75. Titan was the top gainer in the Sensex pack, surging 3.89 per cent, followed by HDFC, Nestle India, IndusInd Bank, UltraTech Cement, Bharti Airtel and SBI. Only three index components finished in the red -- Bajaj Auto, Tata Steel and NTPC, shedding up to 0.33 per cent. "Bulls pulled off the 16,000 mark on the Nifty effortlessly buoyed by positive news flow on GST and export data as domestic fund houses poured ₹280 billion during the first four months of the current fiscal," said S Ranganathan, Head of Research at LKP Securities. The country's exports grew 47.19 per cent to the "highest ever monthly figure" of USD 35.17 billion in July on account of healthy growth in petroleum, engineering, and gems and

## Market capitalisation of BSE-listed cos surge to record high of ₹240 lakh cr

**PTI ■ NEW DELHI**  
The market capitalisation of BSE-listed companies jumped to a record high of ₹2,40,04,664.28 crore on Tuesday, driven by a rally in stocks that also saw the benchmark Sensex touching its lifetime peak of 53,823.36 points. Rallying for the second consecutive day on Tuesday, the 30-share BSE index closed at a fresh closing peak of 53,823.36 points, a jump of 872.73 points or 1.65 per cent. "The present rally is all the more significant since it provides enough opportunities to the new investor coming in now as several pockets of the economy still offer value going forward," he added.

# IT services industry growth to accelerate in FY22, profit margins to moderate: ICRA

**PTI ■ NEW DELHI**  
IT services companies are expected to see growth in revenue, driven by robust demand for digital technologies resulting in higher awards of contracts, according to ratings agency ICRA. Further, the growth in the financial year 2021-22 will be supported by the pent-up demand of the financial year 2020-21 that was lower due to the initial impact of Covid-19. Gaurav Jain, Vice President and Sector Head at ICRA, said IT services companies have managed to overcome supply-side challenges through uninterrupted delivery of services through the work-from-home model. "As a silver lining, the pandemic is accelerating the secular trends of core modernisation, usage of collaborative technologies, and cloud migration as companies shift to digital business models to pursue work-from-home models, which will benefit the IT services companies," he added. In January-June 2021, traditional sourcing witnessed an annual contract value (ACV) of USD 15.2 billion, up by about 15 per cent on a year-on-year basis, owing to accelerated demand for digital technologies, Jain said.

## BRIEFS

**MINISTRY OF CIVIL AVIATION GRANTS DRONE USE PERMISSION TO DULB, HARYANA**  
New Delhi: Ministry of Civil Aviation (MOCA) and Directorate General of Civil Aviation (DGCA) have granted conditional exemption from Unmanned Aircraft System (UAS) Rules, 2021 to Directorate of Urban Local Bodies (DULB), Haryana. The exemption has been allowed for data acquisition, mapping, and implementation of web-based GIS platform for development of AMRUT cities and property tax survey for Hisar, Panchkula, Ambala urban areas. This exemption is valid for a period of one year from the date of approval or until further orders, whichever is earlier and shall be subject to the terms and conditions of the SOP issued by DGCA.

**AFGHANISTAN AMBASSADOR CALLS ON CM GEHLOT**  
Jaipur: The Ambassador of Afghanistan to India, Fareed Mamundzai, called on Chief Minister Ashok Gehlot on Monday at the Chief Minister's residence. This was his courtesy call on Mr. Gehlot. During this, the Chief Minister discussed the close historical ties and cultural exchange between India and Afghanistan in the context of Rajasthan with Mr. Fareed Mamundzai. Mr. Mamundzai described India's cooperation in the development of peace and infrastructure in Afghanistan as important.

**ARUN ARORA APPOINTED EASTERN RLY GM**  
Appointment Committee of the Cabinet have approved the appointment of Arun Arora as General Manager Eastern Rly. He is the topper of IRSME 1984 batch. Prior to this appointment, he was posted as Additional Member (AM) / Rly Board since October 2020 and was handling the important work charges of AM/Environment & AM/Mechanical Engineering. During his distinguished career spanning over 35 years, he has successfully handled many important & challenging assignments which include Principal Chief Mechanical Engineer/ Northern Railway largest zone of IR & Divisional Railway Manager/ Delhi, the biggest division of IR. In addition, some other diverse key assignments include Chief Rolling Stock Engineer/ Operations & Freight/ N.Rly, CVO/DFCCIL, Director Mechanical Engineering/ Freight/Rly Board, Chief Public Relations Officer/N.Rly & Deputy Secretary in Ministry of Steel & Mines.

**VODAFONE IDEA SHARES FALL OVER 10 PC**  
New Delhi: Shares of Vodafone Idea on Tuesday fell over 10 per cent after reports that Aditya Birla group Chairman Kumar Mangalam Birla has offered to hand over his stake in debt-laden VIL to the government entities to keep the company operational. The stock plunged 10.30 per cent to close at ₹7.40 on the BSE. During the day, it tumbled 13.09 per cent to ₹7.17 -- its 52-week low. At the NSE, it closed at ₹7.40, lower by 10.30 per cent. The billionaire businessman made the offer in June in a letter to Cabinet Secretary Rajiv Gauba. According to official data, VIL had an adjusted gross revenue (AGR) liability of ₹58,254 crore out of which the company has paid ₹7,854.37 crore and ₹50,399.63 crore is outstanding.

## Average annual revenue collection from tobacco products stands at ₹ 53,750 cr: FM

**PTI ■ NEW DELHI**  
Finance Minister Nirmala Sitharaman on Tuesday told the Rajya Sabha that the average annual revenue collection, including GST and excise duty, from tobacco products, stands at about ₹53,750 crore. In reply to a question, the minister also said the GST rates, including compensation cess rates, on goods are fixed on the basis of the recommendations of the GST Council. Answering supplementary questions, she said many non-governmental organisations (NGOs) and consumer education forums have suggested to increase levies on tobacco products considering the health impact. "In the GST Council, we have formed a Group of Ministers (GoM). It has been given the terms of reference to see if on the capacity of a producing unit, where evasion is high, we can consider looking at an increase in the price. "Such items like tobacco have also been put into that list... We will wait for the GoM to come back with its recom-

## NBFCs' NPAs to rise 1% in FY22, recast loans to double: Report

**Mumbai:** Non-bank lenders' non-performing asset ratios will slip by up to 1 percentage point and the ratio of the loans recast will double to 3.3 per cent in FY22, domestic rating agency IcrA said. It attributed the asset quality impact largely to the reverses of the second wave of the pandemic, which has hit the collection efficiencies for the non-bank finance companies (NBFC) and housing finance companies (HFCs). With the abatement of the pandemic and the resumption in business activity, the collections are improving and will offer some succour to the financiers as the fiscal year progresses, it said, adding that it has a "negative" outlook on the sector. "Notwithstanding the near-term pressures, the net increase (adjusting for write-offs) in the 90+ dpd (days past due) in the current fiscal is expected to be about 0.50-1 per cent. ICRA draws comfort from the provisions maintained by the entities, which continue to remain about 1 per cent higher than the pre-Covid levels," its vice president for financial sector ratings A M Karthik said.

## Digital deals to propel IT sector revenues

**Mumbai:** Indian IT services companies are likely to post a 9-12 per cent revenue growth in USD terms in FY22, helped by the strong demand for digital deals, a report said on Tuesday. However, the same will not translate into profits, because higher salaries will result in the operating profit margins for the same set of companies to come at 23 per cent from 24.2 per cent in FY21, domestic rating agency ICRA said. The IT sector is one of the few sectors that have not been deeply impacted by the pandemic.

## Fixing floor prices critical amid financial stress in telecom: COAI

**New Delhi:** Industry body COAI on Tuesday contended that floor price fixation is absolutely critical and need of the hour, given the "major financial stress" in the telecom industry. The association - whose members include Bharti Airtel, Reliance Jio and Vodafone Idea - said floor prices need to be fixed for data only for an interim period, say two years, and that voice calls and tariffs can be excluded from this. "In the last few years, fixation of floor prices has become a critical issue and is need of the hour today with telecom industry going through major financial stress," S P Kochhar, director-general of Cellular Operators' Association of India (COAI), said in a statement.

Class XII results are out. SUMIT SAURABH lists courses that students can pursue for a flourishing career

# THINK OUTSIDE THE BOX

sky's the limit for a school graduate today. Gone are the days when you could not think beyond becoming a doctor, engineer or lawyer once you have passed the threshold of Class XII annual exams. The meritorious students could have the pick of the so-called top careers while the not-so-meritorious students had to settle for the less coveted courses to build a career out of. At the turn of the century, all that changed, for good!

The trends are much better today, as the world tries hard to rise up after being knocked down by the COVID-19 pandemic. The students who have completed education till Class XII, or not yet, can now look forward to some of the most amazing arrays of career choices, which make good use of their natural talents and skills while allowing them to have a flourishing career that doesn't feel boring at all. So, whether you belong to science, arts or commerce streams, if you are a student who is about to get into the Class XII or sitting for the final examination next year, you should read all about five of the most exciting career options you could think of taking up:

**FASHION AND DESIGN**  
Fashion industry is not an alien concept anymore as far as the average Indian Class XII pass student is concerned. In fact, many of the young girls and boys know more about the fashion trends and designer-wear in comparison to their contemporaries from the past decades. The vast challenges that this industry throws at a newcomer can help you really shine if you are strong-headed and abundantly

creative. There are so many roles you can play after completing this course, such as fashion designer, fashion illustrator, fashion stylist, fashion coordinator, etc. With such prestigious fashion colleges now operating in the country and ever-increasing chances of an overseas education in fashion and design, it is no surprise that more and more Indian students are finding it easier to think of making fashion & design a career for life.

**EVENT MANAGEMENT**  
Event Management industry single-handedly offers the most exciting career opportunities to students on the verge of making a career choice. With so much happening around, be it stage shows, conferences, concerts, seminars, theme parties, product launches, press conferences, weddings, exhibitions and corporate events, there is so much to do for someone who has studied event management in college. You just need to have passion for organising events and a keen eye for detail so that everything runs smoothly. Once you finish this course, you can have multiple job opportunities such as event planner, stage decorator, wedding planner, logistics manager, etc.

**EVENT MANAGEMENT INDUSTRY SINGLE-HANDEDLY OFFERS THE MOST EXCITING CAREER OPPORTUNITIES TO STUDENTS ON THE VERGE OF MAKING A CAREER CHOICE. WITH SO MUCH HAPPENING AROUND, BE IT STAGE SHOWS, CONFERENCES, OR CORPORATE EVENTS, THERE IS SO MUCH TO DO FOR SOMEONE WHO HAS STUDIED EVENT MANAGEMENT**

**APP DEVELOPER**  
The world is running on mobile applications these days and everything has an app version. The way this ecosystem is working, through technologies like Internet of Things, Blockchain, AI, Machine Learning, etc, there is going to be a higher demand for app developers now than ever before. With the software entering into every nook and corner of the world, this professional choice is already shooting through the skies in terms of popularity. You can choose to be an iOS or Android developer after you finish your course and look forward to a substantial first salary!

**CONTENT WRITER**  
If there is one professional career option that has gained the maximum traction in the past one year, despite pandemic, it is the field of freelance content writing. Freelance because more and more people have joined the work-from-home workforce for obvious reasons. So, with that, there is an added lure to this career choice. You need to possess a fairly good writing acumen, language skills and hunger for knowledge because in whatever you write about, you need to have the

industry knowledge beforehand, which is what the client demands. Moreover, with professional content writing courses, short-term as well as long-term, being run in various universities and colleges these days, there is no dearth of learning opportunities.

**JOURNALISM**  
Journalists are professionally trained eyes & ears of the society and lately, this is an area to grow exponentially, in terms of opportunities as well as remunerations. Finishing a journalism course from a good college opens up job opportunities for you in newspapers, magazines, TV channels, blogs, social media, radio, etc. So, you see, if you have that fire to bring a change into the society with the help of a pen, keyboard or a microphone, going down this path will not only give you a career, it might also give you job satisfaction at the end of the day.

The career choices that you make today, decide what kind of life you are going to lead tomorrow. If any of these career options rock your boat, start preparing today!

**QUOTE OF THE DAY**  
**Do you know the difference between education and experience? Education is when you read the fine print; experience is what you get when you don't.**  
— Pete Seeger

**MSC COURSE**  
The University of Sheffield, UK invites applications for the MSc Pharmaceutical Engineering course starting in September 2022.  
The MSc gives you hands-on experience of an industrial-scale continuous powder processing plant, and develops the knowledge and skills you need to stand out in the global pharma market.  
This programme has been developed taking into consideration the requirements of the global pharmaceutical industry. You will learn about: the science and application of products, oral drug delivery, the production of medicines and new technologies.  
**Duration:** One year  
**Eligibility:** Holders of a three-year bachelor degree with a minimum of 60 per cent or first class in science, technology and engineering from a reputable university. Overall IELTS score of 6.5 with a minimum of 6.0 in each component, or equivalent.  
**How to apply:** Log on to <https://www.sheffield.ac.uk/postgraduate/taught/courses/2021/pharmaceutical-engineering-msc> or [cbe-msc@sheffield.ac.uk](mailto:cbe-msc@sheffield.ac.uk).

**Admissions**  
**OPEN**  
students with opportunities to develop their own start-up in sectors as Agri-tech, fintech, and wearables.  
**Eligibility:** The programme is open to all who have obtained or are about to obtain a completed under-graduate degree from a recognised university in India. The students are required to have a GPA of at least 3.0 on a 4.0 scale or 75 on a scale of 100. Applicants with lower final grades should still apply; the admissions committee takes candidates' full applications into consideration.  
Students are also required to submit their GMAT/GRE scores along with clearing scores for English language proficiency.  
**How to Apply:** Log on to [https://international.tau.ac.il/Sofaer\\_Global\\_MBA](https://international.tau.ac.il/Sofaer_Global_MBA).

**MBA PROGRAMME**  
Offered by the Coller School of Management at Tel Aviv University, the Sofaer Global MBA is the flagship one-year full-time MBA focused on New Venture Creation, Innovation, and Entrepreneurship.  
It is designed for students with professional ambitions ranging from founding ventures, building start-ups, and leading innovative processes in multinational companies. The programme's curriculum combines a foundational core with a wide variety of advanced courses focused on entrepreneurship and innovation.  
The programme is structured to be experiential alongside classroom learning that brings together theory and practice and simultaneously

**MSC DATA ANALYTICS**  
The University of Sheffield, UK is inviting applications for its MSc Data Analytics course starting in September 2021. This course will develop your skills in analysing big data sets so that you can transform the information into actionable knowledge.  
**Duration:** One year  
**Eligibility:** Holders of a three-year bachelor degree with a minimum of 60 per cent or first class from a reputable university in a numerate discipline (computer science, mathematics, economics, engineering, physics, chemistry). Overall IELTS score of 6.5 with a minimum of 6.0 in each component, or equivalent.  
**How to apply:** Log on to <https://www.sheffield.ac.uk/postgraduate/taught/courses/2021/data-analytics-msc> or [msc-compsci@sheffield.ac.uk](mailto:msc-compsci@sheffield.ac.uk).

Industry visits have become an essential part of students pursuing a professional degree or course. The Indian education system has witnessed immense transformation over the last few years, with more importance being given to hands-on training. The approach for delivering quality education has changed with time for the Indian universities, and industry visits have become a part of the curriculum for many courses.  
Industry visits have become the norm for courses ranging from Engineering to Management in a number of institutes. A number of institutions now give grades and attendance on industry visits to students. The reason behind the popularity of industry visits is due to the fact that it exposes students to gain the practical knowledge on their subject which even their textbooks can't provide. There are several other advantages attached to such visits – but, before we move on, let's take a look at what exactly are industry visits:  
Industry visits give students an insight regarding the internal working of companies. Just having a theoretical knowledge about a subject is not enough for making a good professional career. With an aim to go beyond academics, industrial visits provide students with a practical perspective on the internal working in a company.  
The students are provided with the opportunities to gain an in-depth knowledge of the pro-

## It's a visit worth making

The approach for delivering quality education has changed with time for the universities and industry visits have become a part of the curriculum for many courses, says DR KULNEET SURI

cedures and techniques followed throughout in the company. Also, the students attain an understanding of the work culture of the industry they have been taken to, followed with an opportunity to analyse the management essentials. The industry visits are not limited to only engineering – nowadays, management students are being actively taken to industries to help them get a hold of management concepts.  
**BENEFITS:**  
Not everything that is essential to be learnt by students can be delivered by in the classroom. There are several practical aspects which require a hands-on experience for a student to elucidate the understanding of the facts and concepts. Industrial visits transform the concepts into action which in turn, facilitate the attainment of hands-on experiential awareness. The benefits are not limited to mere practical exposure. Below mentioned are the advantages which students enjoy during industrial visits:  
■ The detailed information on the functioning of industries can only be experienced after visiting one. The visits are extremely helpful for students to embed hands-on understanding of the effective functioning of an organisation.  
■ The industry visits offer an opportunity to students to engage in a conversation with the professionals. This, in turn, helps students improve their communica-

tion and interpersonal skills. Also, the students get a chance to establish a connection with experts, which could be helpful in placements.  
■ There are certain myths which have been prevalent for years, in terms of management and other aspects based on the entire functionality of the industries. Industry visits provide an opportunity for students to gain insight into actual practices in a work-place. The students get an enhanced outlook on the practices followed by the companies to ensure effective operations and how they manage their workforces.  
■ The industry visits are not limited to the attainment of practical knowledge, but, it also plays an essential role in identifying an interest area for the students. During the visit, they go through different departments and thus, they get an idea about different roles and what they entail. Students can get clarity of what exactly a job functions required to be performed in a specific profile.  
Industry visits are slowly becoming mandatory in leading institutes in India, as it gives students a chance to enhance their practical knowledge. Nowadays, students actively participate in industry visits in a bid to understand the workings of an organisation.

## Top cybersecurity institutes

The modern life we live these days is highly dependent on online services. Hence, having a clear understanding of cybersecurity threats is extremely vital. Additionally, since most of the data is now stored on servers and clouds across the globe, applications of cybersecurity in our day-to-day lives has caused a vast explosion of careers in this field. Owing to this, the importance of courses revolving around cybersecurity is gaining high prominence.  
There are many institutes offering the best cyber security courses and to make your choice a little simpler, we list down the best five institutes for cybersecurity. If you are aspiring to carve a career path out of this, you may definitely want to consider these courses.  
**Henry Harvin:** The cybersecurity course offered by India's leading Ed-tech company — Henry Harvin takes you through various modules of cyber security thus adding stars to one's portfolio. The course explains in detail the meaning, purpose, scope, applications of cybersecurity. The course also deep dives into cloud security, data & endpoint security along with application security to train the professionals with every aspect of the course.  
This extensive training session acquaints the pursuants with the best skills and knowledge transferred by experienced professionals and helps you attain the title of a qualified cybersecurity professional.  
**Intellipaat:** This PG certification in Cyber Security & Ethical Hacking by E&ICT Academy, MNIT Jaipur in collaboration with the EC-Council aims to provide extensive training on Cyber

Security concepts including risk analysis and mitigation, data security, cloud-based security, ethical hacking, etc. The course is designed by the top faculty at MNIT & industry expert to help you gain relevant skills required by the Industry and land you in your dream job.  
**Simplilearn:** The cybersecurity expert master's programme equips you with the skills needed to become an expert in this rapidly growing domain. The course allows you to learn comprehensive approaches to protect your infrastructure, including securing data and information, running risk analysis and mitigation, architecting cloud-based security, achieving compliance and much more with this best-in-class programme.  
**Great Learning:** This cybersecurity course navigates the pursuit through the foundations and skills necessary to build a successful cybersecurity career. In addition to security objectives basics like confidentiality, integrity, non-repudiation and authentication one also gets to exploit the vulnerabilities. By using secure systems, and design methodology, the applicant also learns about primary security breaches that might occur over the years and thus makes you eligible for building the countermeasures for the same.  
**Eduureka:** Cybersecurity certification training by Eduureka allows one to learn cybersecurity concepts from scratch. Throughout the online cybersecurity training, the students get to learn important concepts such as ethical hacking, cryptography, computer networks & security, application security, idAM (identity & access management), vulnerability analysis, malware threats, sniffing, SQL injection, DoS, session hijacking, and various security practices for businesses along with hands-on demonstrations.

## Career guidance course

**PNS ■ NEW DELHI**  
In recognition of the need to facilitate career guidance for young learners, the UK's leading personalised career guidance programme is launching in India. LaunchMyCareer (LMC) has unveiled a first-of-its-kind career focused program for schools. The platform promises to help young learners

discover their interests, identify their potential, learn workplace readiness skills and apply these in real life. From nurturing young peoples' skills and aptitudes to providing them age-appropriate exposure to career knowledge, LaunchMyCareer helps students make informed career decisions.  
Most learners are overwhelmed and confused about what career they want to pursue, and how to be what they want to be. However, everyone is looking for career success. True career success is an amalgamation of financial stability and job satisfaction.  
This can be achieved when one is able to map interests and skills with available opportunities. LaunchMyCareer brings forth a unique gamified experience to enable young people

the chance to explore career possibilities through a journey of self-discovery, harmonising interests with future careers and helping them to acquire requisite skills.  
The platform brings together educators, counsellors and experts to steer students along a career roadmap, under parental guidance, in a systematic, experiential and engaging way.

**PNS ■ NEW DELHI**  
Great Learning, a leading global ed-tech company for professional and higher education, in collaboration with the National University of Singapore (NUS) Business School, has announced the launch of two executive education programmes: Future Leaders Programme (FLP) and Practical Decision Making Using Data Science Programme (PDDS).  
NUS Business School is known for providing management thought leadership from

## Executive programmes

an Asian perspective, enabling its students and corporate partners to leverage global knowledge and Asian insights. The school has consistently received top rankings in the Asia-Pacific region by independent publications and agencies, such as *The Financial Times*, *Economist Intelligence Unit*, and *QS Top MBA*, in recognition of the quality of its programmes, faculty research and graduates.  
The Future Leaders Programme is designed for first-time and middle managers who aspire to build their leadership skills, and entrepreneurs who need to lead as they scale up their organisations.  
The three-month online programme focuses on professional growth, developing self-awareness and tangible skills in learners that can be applied to real-world situations.  
The Practical Decision Making Using Data Science Programme is best suited for mid to senior managers who have a strong understanding of their respective domains and wish to learn analytics to aid their decision-making skills.  
It provides an in-depth and comprehensive journey in Data Science from the lens of a business manager.

# ENHANCING LEARNING

The future of online education lies in the development of a holistic platform that enhances teaching-learning experiences, says ROHIT JAIN

In the wake of the COVID-19 lockdown, the transition from in-person classes to online learning was facilitated by digital educational platforms along with online learning tools. Against such a backdrop, it is now making parents, teachers and students wonder what the future of online education is?

The future of online education lies in the development of a holistic platform that enhances the teaching-learning experiences. And, determined strides are being made in this direction.

Several ed-tech platforms are offering a wide range of educational tools and learning materials to students to learn while they are stuck at home. These digital platforms have evolved to provide classroom-like experiences as they enable real-time interaction between students and teachers, which is crucial for clearing doubts or assigning homework, and so on.

It must also be noted that education comprises five pillars—mentorship, self-learning tools, effective doubt solutions, test and feedback systems and a cus-

tomised performance improvement plan. At the moment, the platforms are mostly solving any one of the following. However, the future of online learning is expected to be a holistic one, with platforms covering all five of them.

Looking at the trend, it isn't a secret that online learning will become mainstream. Gradually, schools are expected to adopt a hybrid learning model in the new normal era. In a hybrid model, online as well as offline learners can simultaneously attend the class of a particular teacher.

This will provide immense flexibility in teaching and learning. Hybrid learning also increases the accessibility of education to learners from even the remotest areas. It improves their learning experience through more customised and interactive classes, audio-visual lessons, and engaging tutorials. These facilities can meet the requirements of both online and in-person learners.

**ONLINE SIMULATION TOOLS**  
Educational institutions that cannot afford world-class labora-

**It isn't a secret that online learning will become mainstream. Schools are expected to adopt a hybrid learning model in the new normal**

tories can use online simulation tools thereby giving students a real-lab experience. In addition, remote learning can be further enhanced by the use of virtual labs. In-depth virtual experiments can also increase their understanding of various equipment and experimental processes.

#### COMMUNITY LEARNING

Another benefit is the community learning that will act as the key to solving doubts. In addition to the faculty, peers and seniors can guide in a moderated environment. All in all, it will enhance the exchange of new ideas, sharing experiences, discussions, and teamwork.

#### ROLE OF EDTECH

It is therefore fair to mention that several Edtech platforms have emerged to make online learning effortless. According to IBEF, in 2020, a total of \$ 1.1 billion was poured into the Edtech sector. Another report by IBEF suggests that the Edtech market in India is expected to touch \$10.4 billion by 2025. The data proves that ed-tech

is going to flourish further, making online learning popular in the years to come. These platforms will be serving an array of advantages.

They will continue to play an important role in giving students access to customised and interesting e-content. Collaboration of ed-tech start-ups with educational institutions is serving the interest of both educators and learners alike. Besides, the courses are available in multiple languages to cater to the needs of diverse sections of learners. Teachers can create educational content and share it with students instantly. Through the use of online grading tools, the evaluation of the students' performance can conveniently be done.

Therefore, the future of online learning appears bright mainly because of rapid digitisation and the advancements taking place in the field of technology. Further, modernisation of the education sector will continue to happen to raise the standard of the quality of education in the country.

# 'Research before applying abroad'

There are many choices and opinions when it comes to foreign education. But it is crucial to acquaint with science of making intelligent decisions, says ADARSH KHANDELWAL

You are looking to study abroad? Consider the following: Why apply now? Why this course and university? Why do you want to move abroad for your degree? What are your future goals? How do the university and your chosen program align with these? Do you know what you want from this experience?

If you have failed to answer any of these questions, not even an outstanding GPA will secure that coveted college spot for you. University admissions are not merely an exercise in form-filling, in which you would mechanically list your achievements; this is an introspective and constantly evolving process. One of the first things you would need to do is set aside some time to ponder these questions and the research universities that match your expectations.

In India, students instinctively reach out to their immediate network for advice or follow a gut feeling. The danger this poses is that there is a surfeit of information on the web, not all of which is accurate or even relevant to your profile. Confronted with so many choices and opinions, it is crucial to acquaint yourself with the science of making intelligent decisions. Here are tools to help you choose better.

**Academic strength:** The universities you choose should ideally be global leaders in the field of your choice. If the institution specialises in that discipline, you can rest assured that you will be immersed in a competitive, cutting-edge, and quality-driven environment with like-minded peers. Research the courses that the university offers. If you would like a tailored, mixed curriculum, or a course that incorporates an equal amount of practical and theoretical modules, pick the universities that give you that flexibility. If you are interested in the university's research strengths, find out where its faculty expertise lies and if this relates to your academic goals.

**Prospects:** Look at the university's recruitment data. This will help you get a better idea of life after graduation. Alumni connections via LinkedIn will provide an insider view. There are also university career services and fairs, as well as internship or professional pro-

Adarsh Khandelwal, Co-founder, Collegity

ject opportunities, that many schools offer; if gaining professional experience alongside your degree is a priority for you, choose accordingly.

**Social life:** This may not seem like the most important part of your decision-making process, but its value is often understated. Your peer community will be a considerable part of your student life, and the experiences you have via student clubs, societies, and events can be formative and inspiring. The informal network you build is a much more personal way to network and learn about potential opportunities. Another aspect you would be taking into account is its location, your accommodation, and access to the city's industry contacts and cultural scene.

Don't go overboard. We recommend listing not over seven schools for a PG shortlist, and not more than 15 for undergraduate. Divide these further into aspirational and safe schools — universities you feel confident about and consider your chances of gaining admission. However, keep your expectations realistic and be prepared for failure. College rejections are a tough but healthy way of learning that you are entering into a competitive, globally involved space. A story of failure may just provide you with that extra motivation for your next attempt.

The rise of Artificial Intelligence (AI) methods in the past decade, along with the realisation that automated data-based AI tools can outperform even top-level human experts at some tasks, has given rise to the hope that AI may soon be able to take over many of the functions of a manager. This is hardly a new dream.

Frederick Taylor, in the late nineteenth century, already imagined the transformation of management to an engineering subject. The discipline of operations research was invented in the last century, mostly by experts working for the US Department of Defence, to quantify and automate

managerial tasks such as scheduling of work, planning of inventories, distribution and logistics, and production planning and management. A lot of tools that are used in AI were invented by operations research engineers. The advance of computer and communication technology in the latter part of the last century brought the dream of automated management and decision making even closer to reality.

Automated decision making is indeed, one of the central topics studied in AI. The general case is that of an intelligent agent that needs to make a sequence of decisions in the presence of uncertainty. A number of

# MINDIT

AI tools are already available that can take a description of the business environment, its laws of evolution, and the set of actions that the manager can take and find a sequence of actions that minimises costs or maximises rewards. However, most of these tools are of recent vintage, still have a lot of theoretical shortcomings, and have not been tested extensively under real life conditions. Also, they work well only when the business problem they address is very well-defined

and can be expressed numerically. As such, these tools can be of great use when the decisions to be made are in a well-specified and precisely measured domain such as production planning, or advertisement targeting, or financial asset-liability management. When the problem is less clearly specified, and less clearly measured, say as in customer satisfaction improvement, or human resource management, or strategy formulation, the

available tools are still at a very early stage of their life cycle and they are of an elementary nature. As such human intuition and expert judgment are more successful than any automated AI based method.

What will it take to change this? The answer turns out to lie in the relentless expansion in the capabilities of computer hardware and software, as embodied in Moore's Law and its corollaries. There is little doubt that in the 2030s we will look back at the early 2020s as an era of primitive computers that had only terabyte storage, gigabyte memories and gigahertz clock speeds and 5G communications.

As we push on to exabyte storage, petabyte memories and 7G communications, we will be able to pose messier real-life problems using conversational natural language interfaces, and solve them using much more advanced algorithms, maybe even quantum methods. This will bring business management automation within our grasp and ever more realistic decision problems can be solved to a degree of efficiency that will be beyond the abilities of even the best human managers.

## IN BRIEF

### INCUBATION CENTRE AT ANANTU

The AnantUhas launched incubation centre — Aarambh with a vision to foster a culture of entrepreneurship among the design and architecture fraternity, students and budding entrepreneurs to use Design Thinking for solving societal problems with a long-term impact.

The aim is to promote the entrepreneurship culture in and around the campus by offering various platforms to budding entrepreneurs to experiment with their business ideas, get one-on-one mentorships from domain experts and professionals from

the industry, interact with investors and create their own organisation and or enterprise. The platform will nurture entrepreneurial thinking, promote business knowledge and inculcate confidence in every student. It would add value to the entrepreneur and make an impact on society at large.

Partnered with the Student Startup & Innovation Policy, Government of Gujarat and IIT Kanpur, the incubation centre provides an integrated approach to learning that includes converting the idea into a feasible business proposition, connecting to the entrepreneurial network assist in pitching the idea to the right audience.

### SUCCESSFUL IELTS TRAINING BY LEAP

The Leap's IELTS training programme has been attended by more than two lakh study abroad aspirants since its

launch in February 2021. It offers a whole suite of curated courses, delivered fully digitally on the web and the app. The

IELTS is a globally accepted standardisation test, designed to gauge the English language proficiency of non-native speakers.

### PARTNERSHIP INKED

The Aplicar, an end-to-end student recruitment tech start-up has announced its partnership with Portage College and CodeCore College. Students and recruitment partners from around the globe can now access these esteemed institutions only through Aplicar. Located in New

Westminster, CodeCore College was founded in 2008 in Vancouver as a coding bootcamp. It has been providing practical programming training tailored to industry needs to students. With many innovative courses, this college has a placement rate of 95% within 90 days of graduation.

# 'Need to focus on Bronze medal match'

## Indian men's hockey team dream of Olympic Gold end with 2-5 defeat against world champions Belgium in semis; will play Germany for third place tomorrow

PTI ■ TOKYO

The 2-5 loss to Belgium in the Olympic semifinals on Tuesday is disappointing but Indian men's hockey team captain Manpreet Singh and star custodian P R Sreejesh said the side has no time to dwell on the heartbreak as it has to refocus for the Bronze medal play-off on Thursday.

The eight-time winners of Olympic Gold, the last of which came way back in 1980, fell short against world champions Belgium, losing 2-5 in the semifinals here on Tuesday.

"It is really hard for me right now because we came with a winning mindset, but unfortunately we didn't win the match. Now we need to focus on our next Bronze-medal match and we need to work and we need to get the medal," Manpreet said after the loss.

"It's a great honour for us reaching the semifinal after a long time, but now I think we need to focus because the next match is going to be really important for us. At least we should win a Bronze medal for the nation," he added.

The skipper said having toiled hard for the last five years to reach this level, India deserved a better result on Tuesday.

"It's always been hard work and togetherness. This team has been together for the last four or five years. We have worked

Indian players wait for a video referral decision that resulted in a penalty stroke against them during their men's hockey semifinal match with Belgium at the 2020 Olympics in Tokyo on Tuesday

really hard to be reaching this level. We deserve better, and unfortunately we couldn't get it today."

Sreejesh agreed with his skipper and said the loss against Belgium is a thing of the past now and the team needs to focus on returning home with a medal from here.

"Disappointed, but you don't have time to worry about that. You need to forget about that and think about the future. Now we still have a chance to

win a medal and that's more important for us than crying at this time," he said.

"It's more important for us to think about the future, watch the match, think about where we lost, where we committed the mistakes, rectify that, and move on," added.

Senior India defender Rupinder Pal Singh too feels that all is not lost in the ongoing Games for them.

"Of course it's heartbreaking for us, reaching the semifinals

after 41 years and we were here to win a Gold medal. That was our aim, but we lost today. The great thing is we have a chance to finish third in the next game so we will focus on that," he said.

Rupinder believes a medal from Tokyo will be big for the sport back in the country.

"If we win that, it's going to be for us only. Of course there are a lot of people behind this and supporting us. But we are going to win for us first and then

## Women's team face Argentina in semis

Tokyo: A historic feat already achieved, a rampaging Indian women's hockey team would aim for more glory when it takes on mighty but beatable Argentina in the semifinals of the Olympic Games here on Wednesday.

A bunch of 16 fearless and determined Indian women did the unthinkable when they stunned three-time champions Australia 1-0 on Monday to enter the Olympic semifinals for the first time.

Come Wednesday, the Indian women would look to surpass the achievements of their more-admired male counterparts here by reaching their first-ever Olympic final.

By virtue of their performances here, the Indian women's team also got a major boost when it jumped to seventh in world rankings, their best-ever ranking.

But in world No 2 Argentina, the Indian women will up against tough opponents who are hungry for Olympic success after missing out in Rio five years back.

(everyone else). That's a great motivation, too," the tall drag-flicker said.

Rupinder credited team's self belief for its success in Tokyo.

Indian players celebrate after win over Australia

The Indian defence, led by goalkeeper Savita, had a brilliant outing against the Australians, stoutly defending their 22nd minute goal to register the narrow win.

The likes of Gurjit, Deep Grace Ekka, Monika and Uditia will have to come up with similar efforts to stop the Las Leonas, who will be eyeing their maiden Olympic Gold here.

The Argentina women

have won two Silver medals at the 2000 Sydney and 2012 London Games but a Gold has eluded them.

And they are on course for the yellow metal after reaching the semifinals for the first time since 2012, stunning 2016 Olympic Bronze medalist Germany 3-0. But having registered three wins on the trot after as many losses, the momentum is in India's favour.

converting good chances. "We need to work hard for the next game."

India will face Germany in the Bronze medal play-off match on Thursday.

### TOKYO TIMELINE

#### TUESDAY HIGHLIGHTS

● **Athletics:** Tajinder Pal Singh Toor finished 13th in men's shot put qualification group A, fails to qualify for final.

Annu Rani finished 14th in women's javelin throw qualification group A, fails to advance to final.

● **Hockey:** India lost to Belgium 2-5 in men's semifinal, will play for Bronze medal.

● **Wrestling:** Sonam Malik lost to Bolortuya Khurelkhuu (Mongolia) after 2-2 scoreline in first round of women's freestyle 62kg event.

#### IN ACTION TODAY

● **Athletics:** Neeraj Chopra in men's javelin throw Qualification Group A. (05:35 am)

Shivpal Singh in men's javelin throw Qualification Group B. (07:05 am)

● **Boxing:** Lovlina Borgohain vs Busenaz Surmeneli (Turkey) in women's 69kg semifinal 1. (11:00 am)

● **Golf:** Aditi Ashok and Diksha Dagar in women's individual stroke play round (05:55 am onwards)

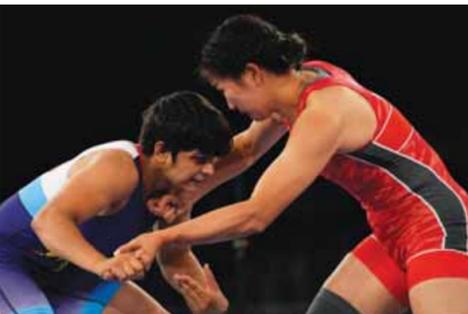

● **Hockey:** India vs Argentina in women's semifinal. (03:30 pm)

● **Wrestling:** Ravi Kumar vs Oscar Eduardo Tigreros (Colombia) in men's freestyle 57kg. (4th bout after 08:00 am start)

Anshu Malik vs Iryna Kurachkina (Belarus) in women's freestyle 57kg. (5th bout after 08:00 am start)

Deepak Punia vs Ekereke Agiomor (Nigeria) in men's freestyle 86kg. (8th bout after 08:00am start)

Live on SONY TEN & SIX Network

India's Sonam Malik, left, and Mongolia's Bolortuya Khurelkhuu compete during the women's 62 kg freestyle wrestling match on Tuesday

## Sonam's Olympic debut ends in 1st-round defeat

Tokyo: Young Indian wrestler Sonam Malik's Olympic debut ended with a first-round defeat on criteria against Mongolia's Bolortuya Khurelkhuu in the 62kg category after the former had adopted a defensive approach on Tuesday.

The 19-year-old led the bout 2-0 but the reigning Asian Silver medalist Khurelkhuu effected a take-down move with just 35 seconds left in the contest to level the score.

The score remained 2-2 till the end but since it was the Mongolian who scored the last point with her move, she was declared winner on criteria.

The Mongolian was later outplayed by Bulgaria's Tayeb Mustafa Yusein, the second seed and 2018 world champion, the result spelling the ouster of the Indian wrestler. "Sonam was definitely a

better wrestler than the Mongolian but she made a mistake by being over defensive. That was a mistake. Nevertheless, she has got big-stage experience," Sonam's coach Ajmer Malik said.

### RAVI, DEEPAK GET GOOD DRAW

Indian wrestler Ravi Dahiya on Tuesday got a good draw as he will open his 57kg campaign against Colombia's Tigreros Urbano and going by form, he should not face much difficulty in reaching at least the semifinals.

In the men's freestyle 86kg, Deepak Punia is pitted against Nigeria's Ekereke Agiomor, the African championship Bronze medalist.

Meanwhile, the 19-year-old Anshu Malik has got a difficult opener as she has drawn European champion Irina Kurachkina. PTI

## Sindhu one of India's greatest Olympians: Thakur

New Delhi: Sports Minister Anurag Thakur on Tuesday hailed PV Sindhu as a sporting icon and one of the 'greatest Olympians' the country has ever produced after she returned to the country to a warm reception following her Bronze-medal winning feat at the Tokyo Games.

The 26-year-old from Hyderabad was accorded a warm welcome when she returned to India on Tuesday.

"PV Sindhu is amongst India's greatest Olympians. She is India's icon, inspiration and has caught the imagination of every Indian who dreams of playing for the country," Thakur said after felicitating Sindhu and her Korean coach Park Tae-Sang here.

Union Minister Nirmala Sitharaman and Sports Minister Anurag Thakur felicitate Tokyo Olympics Bronze medalist PV Sindhu on Tuesday

"Her incredible achievement — that of winning two Olympic medals in two consecutive Olympic Games will inspire a generation of budding athletes." PTI

## Thompson-Herah wins 200m to complete 2nd sprint sweep

Tokyo: Jamaica's Elaine Thompson-Herah made Olympic history in Tokyo Tuesday, blazing to victory in the 200 metres to complete an unprecedented women's sprinting 'double-double'.

Thompson-Herah, the 2016 Olympics 100m and 200m Gold medalist who successfully defended her 100m title on Saturday, bagged a record fourth individual Gold after storming home in a blistering 21.53sec.

Thompson-Herah's time was the second fastest in history after Florence Griffith Joyner's world record of 21.34sec set at the 1988 Seoul Olympics. AFP

## Brazil vs Spain in final

Tokyo: Spain will play reigning champions Brazil in the Olympic men's football final after Marco Asensio's superb extra-time winner on Tuesday secured a 1-0 victory over host nation Japan in Saitama.

The Real Madrid winger came off the bench as a substitute and curled in a terrific strike in the 115th minute, sending Spain through to a first Olympic final since they finished runners-up at the 2000 Games in Sydney.

Japan will take on Mexico in Friday's Bronze medal match. Mexico lost 4-1 on penalties to Brazil in Kashima following 120 goalless minutes. AFP

Brazil players celebrate after win

Simone Biles poses with Bronze medal

## Biles wins Bronze on balance beam at Olympic return

Tokyo: Simone Biles' nightmare Olympics concluded with the US gymnastics superstar returning in the beam final on Tuesday, declaring "I did it for me" after taking Bronze behind Chinese teenager Guan Chenchen. It was Biles' first taste of competition in Tokyo since dramatically standing down during the women's team final, struggling with the 'twisties'.

"I was just happy to be able to perform regardless of the outcome. I wasn't expecting to walk away with the medal, I was just doing this for me," said Biles. "I did this for me and me only. I just went out there and had fun." After also withdrawing from the first three apparatus finals in the uneven bars, vault and floor, she said she had only been cleared to compete in the beam on Monday night. "We almost missed the deadline!" she disclosed, adding: "Just to have one more opportunity to compete at the Olympic Games meant the world." AFP

## Lovlina chases historic final berth

Tokyo: A medal already secured, Lovlina Borgohain (69kg) will be in pursuit of history when she takes on reigning world champion Busenaz Surmeneli of Turkey in the Olympic semifinals here on Wednesday, aiming to become the first ever Indian boxer to advance to the Games final.

The 23-year-old from Assam, who started her career as a Muay Thai practitioner, has become only the third Indian boxer to ensure a podium finish at the showpiece after Vijender Singh (2008) and M C Mary Kom (2012).

Hers is also the first Olympic medal in boxing in nine years and the aim now is to reach where none before her has reached, the finals.

"Since the bout is in the afternoon, we have been training in the afternoon everyday for the past two days," national coach Mohammed Ali Qamar said

Borgohain has shown remarkable composure for a debutant at the sport's biggest extravaganza. And it is this poise that might do the trick for her against the imposing opponent from Turkey, who is seeded top in the draw.

Surmeneli is also 23 and has collected two Gold medals this year internationally.

Borgohain is no novice either and has secured two world championship Bronze medals so far in her career.

on the eve of the crucial fight. "As for Lovlina, all that needs to be conveyed in terms of strategy has been conveyed to her and she is ready. These two have never faced each other before so it is an uncharted territory for both of them," he added.

"She is very upbeat and confident about a good performance and I am sure she will deliver."

The boxer herself seemed pretty clear about her path ahead after the semifinal win over former world champion Nien-Chin Chen on the Chinese Taipei.

"Medal to bas gold hota hai, let me get that first," triumphed after the historic triumph which ensured that the nine-strong Indian boxing team that came here has at least one medal to celebrate.

Borgohain has shown remarkable composure for a debutant at the sport's biggest extravaganza. And it is this poise that might do the trick for her against the imposing opponent from Turkey, who is seeded top in the draw.

Surmeneli is also 23 and has collected two Gold medals this year internationally.

Borgohain is no novice either and has secured two world championship Bronze medals so far in her career.

## Toor, Rani fail to reach finals

Tokyo: Asian record holder shot putter Tajinder Pal Singh Toor and javelin thrower Annu Rani failed to qualify for the final rounds of their respective events following below-par performances at the Olympics on Tuesday.

The 26-year-old Toor, who was expected to at least make the finals, failed to live up to the expectations as he could only manage one legal throw of 19.99m, in his first attempt, to finish 13th out of 16 competitors in qualification A.

Competing with a heavily bandaged shoulder, his next two throws were fouls. Every participant gets only three attempts in the qualification round.

The below-par show meant that Toor made an exit even before the start of second qualification.

Those who cleared 21.20m or at least 12 best performers from the two

qualifying rounds made the final cut.

Toor had qualified for Olympics with a personal best of 21.49m and had he managed to achieve that, he would have been an automatic qualifier to the finals.

In the women's javelin throw, national record holder Rani was even worse as she finished 14th and last in qualification A with a best third round throw of 54.04m, which was well below her personal best of 63.24m. Rani, who qualified for the Olympics on the basis of her world rankings eventually ended at 29th and last after the two qualifying rounds.

Her two other throws were 50.35m and 53.19m.

Those who breach the automatic qualifying mark of 63m or at least 12 best performers make it to the finals.

## Warholm shatters WR

Tokyo: Norway's Karsten Warholm shattered the world record to claim Gold in an epic 400m hurdles on Tuesday as Germany's Malaika Mihambo soared to victory in the long jump.

The 25-year-old stormed over the line in an incredible 45.94 seconds, slicing a massive 0.8sec off his own world mark of 46.70 set in Oslo last month.

Long-time USA rival Rai Benjamin pushed Warholm hard in the home straight and took Silver in another blistering time of 46.17sec, the second fastest in history.

It was the dramatic final act of an entertaining morning session on day five of the athletics competition that produced a Gold for German long-jumper Mihambo in a classic duel with 2012 Gold medalist and four-time world champion Brittney Reese of the United States. AFP

## India brace for tough English Test

PTI ■ NOTTINGHAM

The toughest four months of Virat Kohli's eventful leadership career start here on Wednesday when his strategic acumen will be tested while selecting a perfect Indian combination to take on a good England side in the first Test of a five-match series.

Kohli announced his playing XI for the World Test Championship final against New Zealand couple of days before the game and drew flak for not respecting the conditions.

However, on Wednesday, he will have to think overtime about the balance of his squad with a long tail, often bushy with runs, and just two openers — one untested (Rohit Sharma) but very capable and another supremely talented (KL Rahul) but highly reluctant starter.

Rahul, with 2000 plus Test runs, looks a logical choice to partner Rohit after Mayank Agarwal's concussion but the

England captain Joe Root, left, and India skipper Virat Kohli meet with the trophies prior to the first Test between England and India at Trent Bridge in Nottingham

lack of Hardik Pandya and the utility of two specialist spinners does come into the question.

Rahul's hundred in the last First-Class game and adequate preparation time would keep him in good head space.

He was also in fine form during the intra-squad match and perhaps would fancy the idea of game time irrespective of his slot rather than wearing a red India bib and carrying

Singh Dhoni being captain in two of them.

Kohli was a part of the 2014 team when it lost 1-3 and the then vice-captain had a torrid time with the bat.

He came back determined in 2018, scored truckloads of runs but a poor team choice at the Lord's and one bad batting session in Southampton meant that under him, India lost 1-4.

As the Indian captain walks out with his band of men against a side that has two artists of red Dukes at work in James Anderson and Stuart Broad.

The veterans will be complemented by one of the world's fastest bowlers in Mark Wood and a smart apprentice in Ollie Robinson.

The job for Kohli and his seasoned top-order would be easier said than done on a grassy Trent Bridge pitch.

### SQUADS

India: Virat Kohli (c), Rohit Sharma, Cheteshwar Pujara, Ajinkya Rahane, Hanuma

Vihari, Rishabh Pant (wk), R Ashwin, Ravindra Jadeja, Axar Patel, Jasprit Bumrah, Ishant Sharma, Shami, Siraj, Shardul Thakur, Umesh Yadav, KL Rahul, Wriddhiman Saha (wk), Abhimanyu Easwaran.

England: Joe Root (c), James Anderson, Jonny Bairstow, Dom Bess, Stuart Broad, Rory Burns, Jos Buttler, Zak Crawley, Sam Curran, Haseeb Hameed, Dan Lawrence, Jack Leach, Ollie Pope, Ollie Robinson, Dom Sibley, Mark Wood.

### 'LEAVE PUJARA ALONE'

India captain Virat Kohli wants critics of Cheteshwar Pujara's batting to leave him alone as he strongly believes that it is up to individuals to figure out the 'drawbacks' in their game. Pujara is India's second highest Test run-getter in the current team after skipper Kohli with 6000 plus runs (6267) in 86 matches but has often been accused of playing an ultra-defensive game which increases pressure on batsmen who follow.
