Farmers to take final call today on ending protest

Most kisan leaders satisfied with Govt response, but seek clarity on issues

PNS ■ NEW DELHI

The agitating farmers' groups will meet on Wednesday to take a final call whether to end their protests after they reportedly received a positive response from the Government on meeting their demands.

In a meeting held at Singhu border on Tuesday, farmer leaders expressed their satisfaction over the Centre's move to resolve the standoff, but some wanted more clarity on the issues raised by them and sought clarification from the Government.

After the meeting, farmers' leader Balbir Singh Rajewal said they will hold another meeting at 2 pm on Wednesday. He said several farmers have sought certain clarifications, including on the precondition set for withdrawal of "fake" cases against farmers.

"The Government sent a proposal, it was discussed and presented before all members under the aegis of the Samyukta Kisan Morcha (SKM) and sent it to the

Samyukta Kisan Morcha leaders address a Press conference after their meeting to decide their future course of action in New Delhi on Tuesday

Government with our reservations", Rajewal said.

Farmer leaders added that there is a general consensus among the SKM leaders on the written assurance they have received from the Government. "The Morcha will seek further clarifications on a few points of the Government's proposal, and will reconvene at 2 pm on Wednesday for further discussion. The Morcha hopes for a positive response from the Government," said the SKM in a statement.

Last week Union Home Minister Amit Shah spoke to two farmer leaders (via a phone call) to discuss outstanding issues; this was after their protests forced the recall of the farm laws.

The Centre has conveyed to farmer unions that the proposed committee on the min-

imum support price (MSP) will have representations from the SKM, Government officials, and representatives of States. Besides, the Government has agreed to drop all police cases against farmers — this includes stubble burning complaints and cases filed by Haryana and Uttar Pradesh Police after withdrawal of protests.

On the Government proposal to set up a committee on MSP, Rajewal said that farmers had objections to it. "We do not want other committees. We have demanded the Government give a clarification in this regard."

On the withdrawal of cases against farmers, Rajewal said, "We are also against the condition set by the Government that farm unions should lift the protest for the withdrawal of fake cases against farmers. We

won't accept any such precondition."

Farmers groups earlier formed a five-member committee of Balbir Singh Rajewal, Shiv Kumar Kakka, Gurnam Singh Charuni, Yudhvir Singh and Ashok Dhawale to hold talks with the Centre and State Governments on their demands.

After the announcement of repealing three contentious farm laws, the SKM had written to the Prime Minister on November 21 and placed six demands.

The demands are: Legal guarantee of MSP for all produce based on C2+50% formula; withdrawal of draft Electricity Amendment Bill, 2020/2021; removal of the penal provisions on farmers in the Commission for Air Quality Management in the National Capital Region and Adjoining Areas Act 2021; withdrawal of false cases registered against the farmers over the course of the ongoing movement; dismissal and arrest of Union Minister of State Ajay Mishra Teni in connection with the Lakhimpur Kheri incident; compensation and rehabilitation to the families of the who died during the farm movement; and allocation of land for a memorial to them at Singhu.

Lal topiwalas like red alert for UP: Modi

PM inaugurates 3 mega projects in Yogi's home turf in Gorakhpur

PNS ■ GORAKHPUR

Without naming the Samajwadi Party chief, Prime Minister Narendra Modi on Tuesday unleashed a sharp attack on Akhilesh Yadav warning people against "lal topiwalas". The SP chief always dons red cap during his political campaigns.

The PM was addressing a rally in Chief Minister Yogi Adityanath's home turf Gorakhpur ahead of the Assembly elections in the State. Modi inaugurated three mega projects, including an AIIMS and the fertiliser plant, in Gorakhpur.

Taking a jibe at Akhilesh and his party men, Modi said the people of UP are aware that "lal topiwalas are only interested in cars flashing red beacons".

Questioning the ideological commitment of BJP's political rivals, Modi said "lal topiwalas" discarded the ideologies of Ram Manohar Lohia and Jai Prakash Narayan long back.

Prime Minister Narendra Modi and Uttar Pradesh CM Yogi Adityanath at the launch of various development projects, in Gorakhpur on Tuesday

"They are not bothered about the problems of common people. Lal topiwalas want power so that they can indulge in scams, load their safes with cash and valuables, carry out illegal encroachments and allow the mafia to have a free run," Modi said.

"Please remember that lal topiwalas are like red alert for UP — they are like the ringing of danger bells," the PM said amid loud cheers from the crowd.

Modi said before 2014, the country was known for importing urea, and the shortage of fertilisers used to make headlines, but the situation has improved now.

Modi said his Government stopped misuse of urea, and issued soil health cards to farmers so that they know which type of fertiliser is needed. The PM said his Government also took steps to hike urea production by reviving closed fertiliser plants.

He said the amount of sugarcane dues paid by the Yogi Government in four and a half years is more than the total sum paid by the previous Governments in the State in 10 years.

The other project he inaugurated is a Regional Medical Research Centre of the Indian Council of Medical Research (ICMR). The three big-ticket projects are worth over ₹9,600 crore.

CAPSULE

DJ, WRESTLER HELD FOR ARMS TRAFFICKING

New Delhi: A disc jockey and a wrestler were among three men who were arrested on charges of supplying illegal arms to criminals, and 27 semi-automatic pistols were seized from their possession. Yogesh Patel, alias Nilesh (22), Pankaj Kumar Bhardwaj (20) and Jitendra, alias Jittu, were arrested in two operations by the Special Cell unit, they said.

SERVICES AT DELHI'S 3 CENTRE-RUN HOSPIES HIT

New Delhi: Patient care at Delhi's Centre-run Ram Manohar Lohia, Safdarjung and Lady Hardinge hospitals were hit as resident doctors boycotted all routine and emergency services for the second consecutive day on Tuesday as part of a nationwide protest over the delay in NEET-PG 2021 counselling.

UP: 3 KIDS BURNT TO DEATH DURING SLEEP

Mirzapur: Two sisters and a brother, aged three to seven-years, were burnt to death at Pachokhara Khurd village in Madihan area of the district here, police said. The children were sleeping on a pile of straw in the barn on Monday evening when it caught fire, police said.

A child sitting in a bucket being evacuated by a man and a policeman from a flooded area of Verma Nagar due to the overflowing Ariyar river following heavy rain, in Trichy district on Tuesday

SP, RLD stitch alliance for UP Assembly polls

In joint rally with Jayant, Akhilesh attacks BJP

VIRENDRA NATH BHATT ■ LUCKNOW

Samajwadi Party chief Akhilesh Yadav and Jayant Chowdhary of the Rashtriya Lok Dal (RLD) formally announced their alliance for Uttar Pradesh Assembly elections 2022 at a joint rally in Meerut district on Tuesday.

Akhilesh and Jayant arrived for the rally, dubbed "Parivartan Sandesh" in the Dabathua area of Meerut district, in the same helicopter.

Addressing the gathering, Akhilesh said if the alliance comes to power after next year elections, the first work will be to build a memorial for "martyrs" of the farmers' protest. He attacked the ruling BJP saying the "2022 election will see the eclipse of the BJP from western UP, as the ruling party has practiced the politics of lying

Samajwadi Party chief Akhilesh Yadav with RLD leader Jayant Choudhary during a SP-RLD rally in Meerut on Tuesday

with the people and politics of polarisation".

Akhilesh remembered Chaudhury Charan Singh, Baba Saheb Ambedkar, Lohia, and farmers leader Mahendra Singh Tikait and highlighted their contribution to making an egalitarian society.

"Now, the BJP will be

wiped out from the State. This time there would be the sunset of the BJP forever in West Uttar Pradesh," he said.

"Kisano ka inquilab hoga, 2022 me badlav hoga (there will be a revolution by farmers and change in 2022)," Akhilesh said.

Air quality panel orders closure of NCR plants not using clean fuels

STAFF REPORTER ■ NEW DELHI

The Commission for Air Quality Management in NCR and Adjoining Areas (CAQM) on Tuesday issued directions for immediate closure of industries located in industrial areas where PNG infrastructure and supply are available but have still not switched over to PNG.

"These violating industries/ industrial units will not be permitted to schedule their operations till December 12, 2021, and the position will be reviewed for further decisions," CAQM said.

While the air quality in Delhi is not improving despite the several measures taken by both Centre and Delhi Government, the CAQM has enforced strict actions against the industries. "The commission believes that there is an urgent need to take further pre-

ventive measures, as a matter of extreme emergency and abundant caution," it added.

Earlier, CAQM directed Haryana, Rajasthan and Uttar Pradesh (UP) to audit inspect the industries which are already connected to PNG supply and ensure that those industries are

not using any other polluting fuels like coal and maintain strict vigil to prevent the use of unapproved fuels in the NCR, through the enforcement agencies concerned and take stringent action, in the case of the defaulting units.

SC rejects NIA plea against bail to Sudha in Elgar case

PNS ■ NEW DELHI

The Supreme Court on Tuesday dismissed National Investigation Agency's (NIA) appeal challenging the Bombay High Court order granting default bail to lawyer-activist Sudha Bharadwaj in the Elgar Parishad-Maoist links case.

"We see no reason to interfere with the High Court order," said a bench of Justices UU Lalit, S Ravindra Bhat and Bela M Trivedi, refusing to consider the submissions raised by the NIA which had moved the apex court against the December 1 order.

Bharadwaj was arrested in the Elgar Parishad-Maoist links case in August 2018 under the provisions of the stringent Unlawful Activities (Prevention) Act. The activist lawyer was accused of hatching conspiracy to overthrow the Union Government, was enti-

led to bail and its denial would be in breach of her fundamental right to life and personal liberty guaranteed under Article 21 of the Constitution, the High Court had said.

The High Court had directed that Bharadwaj, lodged in the Byculla women's prison, be produced before the Mumbai special NIA court on December 8, and conditions of her bail and date of release be decided.

Bharadwaj is the first

among 16 activists and academicians arrested in the case to have been granted default bail. Poet-activist Varavara Rao is currently on medical bail. Jesuit priest Stan Swamy died in a private hospital here on July 5 this year while waiting for medical bail. The others are in custody as undertrials.

The High Court had rejected the default bail plea filed by eight other co-accused in the case — Sudhir Dhawale, Varavara Rao, Rona Wilson, Surendra Gadling, Shoma Sen, Mahesh Raut, Vernon Gonsalves and Arun Ferreira. The case relates to alleged inflammatory speeches delivered at the Elgar Parishad enclave, held at Shaniwarwada in Pune on December 31, 2017, which the police claimed triggered violence the next day near the Koregaon-Bhima war memorial located on the city's outskirts.

Pay \$5 mn in 2 weeks or face liquidation, HC tells SpiceJet

PTI ■ NEW DELHI

The Madras High Court has stayed its earlier order of winding up SpiceJet and the airline will soon initiate "appropriate remedial steps including preferring an appeal" against the order before a higher bench, the company said on Tuesday.

In a filing to BSE, the budget carrier said the Madras High Court had on Monday issued an order of "winding up SpiceJet and appointment of official liquidator" in a case filed by Credit Suisse claiming non-payment of \$24.01 million dues to engine maintenance services firm SRT Technics.

"The Madras HC despite holding that SRT did not have a valid authorization from DGCA to carry out engine

maintenance during the currency of the agreement rejected the company's defence and ordered winding up of the company and directed the official liquidator to take over the assets of the company," SpiceJet noted.

However, on the same day, the Madras High Court issued another order wherein it stayed its previous order and gave SpiceJet "a period of three weeks, subject to the condition that the company deposits the amount equivalent to \$5 million within two weeks."

"The Company is examining the order and shall initiate appropriate remedial steps including preferring an appeal before the appellate jurisdiction within the time frame allowed by the HC," SpiceJet noted.

104-yr-old Nanda Sir loses battle to Covid

Dedicated life for eradication of illiteracy from village

PNS ■ JAJPUR

Veteran teacher Padma Shri Nanda Kishore Prusty, fondly known as Nanda Sir, who had tested positive for Covid-19 recently, succumbed to the virus at a private hospital here at around 1.30 pm on Tuesday. He was 104.

Prusty, a native of Kantira village in the Sukinda area in Jajpur district, had first been admitted to the Sukinda Community Health Centre on November 28 and then to the District Headquarters Hospital (DHH) on November 29. Thereafter, he was shifted to the Tata Steel Medica Hospital as his condition deteriorated.

A few days ago, he was again shifted to a private hospital in Bhubaneswar.

Prusty had received the Padma award from President Ram Nath Kovind on November 9 for his contribution to the field of education.

He spent several decades of his life providing free education to children and adults

Chatashali in the morning and the elders during the evening slot. He was in his mid 20s at that time.

He thought of educating adults struck Prusty as he

in Jajpur district. Nanda Sir, who was able to study only till Class-VII due to his family's financial instability, had been teaching children free of cost with an aim of eradicating illiteracy from his village.

It all started in the year 1948. As Prusty became a Class-VII pass out, his uncle arranged a job for him in

Cuttack. However, his father was not willing to send him to the city. Being unable to get higher education, Prusty decided to help his father in agricultural activities.

Prusty provided education to the children during his leisure time. Going a step further, he also educated elders of the locality. The children came to his

found that villagers, mostly labourers, were illiterate and using thumb impression. The purpose was to make them capable of at least signing, reading and writing in Odia language.

Many of his students went on to become doctors, engineers, teachers, political leaders and other successful personalities.

Mining revenue on high growth in State

Rs 58,244.29 cr collected in 7 months of 2021-22

PNS ■ BHUBANESWAR

Despite economic slowdown in view of the Covid-19 pandemic, the State Government has collected Rs 58,244.29-crore revenue from the mining sector since April 2018.

According to a reply given by Finance Minister Niranjan Pujari in the Assembly on Monday, the State has collected Rs 58,244.29-crore mining revenue between 2018-19 and October-end of 2021-22. While Rs 10,479.61 crore was collected in 2018-19, it increased to Rs 11,020.02 crore in 2019-20.

It further increased to Rs 13,791.71 crore in 2020-21. And the collection has gone up to Rs 22,952.94 crore till October-end of the current fiscal year 2021-22.

Similarly, the Value Added Tax (VAT) collection has been witnessed a steady positive growth in past three years. The total VAT collection in the State from 2018-19 to 2020-21 was Rs 22,512.96 crore, Pujari informed the Assembly.

The State had collected Rs 7,297.68-crore VAT in the year 2018-19, which was increased to Rs 7,457.58 crore in 2019-20. And the VAT collection has been further increased to Rs 7,757.70 crore.

The growth was

achieved due to high collection of petrol and diesel, sources said. However, the collection may go down this year as the government has recently reduced the VAT on petrol and diesel by 4%, he said.

The VAT on petrol decreased from 32% to 28% while the tax on diesel slashed down to 24% from 28%. Moreover, the Centre has reduced the duty by Rs 5 to Rs 10 per litre of the fuels from November 4.

In view of the reduction of VAT, the State Government will bear a loss to the tune of Rs 1,400 crore per annum.

In May 2020, the State Government had hiked VAT on petrol from 26% to 32% and on diesel from 26% to 28%.

Electrocution death

NHRC asks Govt to pay Rs 3L to family

KAHNU NANDA ■ JAGATSinghpur

The National Human Rights Commission (NHRC) on Monday directed the State Chief Secretary to pay a compensation of Rs 3 lakh to the family of a man of Erasama who died following electrocution two years back.

The NHRC ordered to pay the compensation within

four weeks and send compliance report to it.

Nilamani Swain, a farmer, had been electrocuted when he came in contact with a live 11-KV wire hanging on his farmland. His family complained to the NHRC that the low hanging of wire was responsible for his death and sought compensation.

The NHRC issued show-cause notices to the Chief

Secretary, Energy Department and TPCODL as to why an amount of Rs 3 lakh shall not be awarded to the family. The department inclined to pay the compensation and informed that Rs 1.50 lakh has already been paid and would pay more compensation as per the commission's order.

Disposing of the complaint, the commission ordered to pay the remaining amount and submit compliance.

UCCI calls for amnesty plea for tax litigations

Points out abolished laws

PNS ■ BHUBANESWAR

The Utkal Chamber of Commerce and Industry Limited (UCCI) has urged the State Government to bring out an amnesty scheme for traders and businesses entangled in various litigations relating to Sales Tax, VAT, Entry Tax, etc., which are since abolished after the GST came into effect.

In a letter to the Chief Secretary, UCCI president Brahma Mishra said, "We would like to suggest the State Government to introduce an amnesty scheme to settle tax dues prior to GST. The scheme may be made valid for one year from the date of such promulgation."

Mishra said the Odisha Sales Tax Act, Central Sales Tax Act, Odisha Value Added Tax, Odisha Entry Tax Act, Odisha Octroi Tax, etc., collected earlier, were abolished

after the GST came into force in 2017. However, various demands of arrears, penalties, etc., are still pending and many such demands are languishing in various courts.

"So, the introduction of an amnesty scheme, besides saving huge productive time, energy and money spent in such old cases instituted under the redundant laws, would free up departmental officers who are otherwise giving their time to these cases. Once the cases are

settled, both the department and the assessee can take care of the GST compliance better," he wrote.

"The new scheme may provide an opportunity to the defaulters to pay part of their tax by paying some percentage of the demand within a fixed date and the rest in few installments as may be provided in the scheme," suggested Mishra, adding that the demands may be settled at 50% of the VAT/CST/other taxes disputed; and the

interest and penalty may be waived off completely.

Citing the example of States like Maharashtra, West Bengal, Rajasthan, Kerala which have already introduced amnesty schemes which have brought encouraging results, Mishra said, "We expect, with an attractive scheme, nearly 50 per cent cases are likely to be cleared which will not only improve the case flow with the traders but also bring additional fund to the State."

DRDO staffs got foreign money

PNS ■ CUTTACK

The Odisha Crime Branch, investigating into the Chandipur DRDO espionage case, on Tuesday informed the Orissa High Court that all five persons arrested in this connection were receiving money transferred to their bank accounts from foreign countries.

The court is adjudicating a PIL, in which the petitioner, a lawyer, has prayed for a di-

rection to hand over the case to a national agency.

A Crime Branch Additional informed the court that the five DRDO contractual employees were in touch with several women on various social platforms. The locations of the women have, however, not been established yet.

As the Central Government has not yet submitted its status report in the case, the court fixed February 3, 2022 for the next hearing.

Lawyers agitate at Khordha Collectorate

PNS ■ BHUBANESWAR

Lawyers on Tuesday held a demonstration before the Khordha Collectorate alleging negligence in duty and misbehaviour by the Sub-Collector and the Tehsildar.

The agitators were led by Khordha Bar Association presi-

dent Ajit Patnaik, who submitted a memorandum to the Collector regarding their demand seeking the Collector's intervention to address their grievances.

They alleged that no legal work is being carried out at the Sub-Collector's office and local people are subjected to harassment. Whenever any lawyer goes to the office for any work, the officials, including the Tehsildar and others, misbehave with them.

Patnaik told reporters, "Emergency provisions like Sections 144, 133, 107, 145 are seldom used here. Moreover, they misbehave with us whenever we accompany a common man to help him put forth his grievance."

Chhatra Cong to gherao Assembly on Dec 10

PNS ■ BHUBANESWAR

The Chhatra Congress on Tuesday announced to gherao the State Assembly on December 10 on the Mamita Meher case. While the main demand is resignation and arrest of Minister Dibya Shankar Mishra for his clandestine role in the case, the Chief Minister would be asked to answer to the four and a half crore people of the State who are waiting for justice for Mamita. "You can lock us in jail, but we will not bend down until Mamita gets justice," said Chhatra Congress State president Yashir Nawaj.

Pushti Mahotsav creates nutrition security awareness

PNS ■ BHUBANESWAR

An Odisha Pushti Mahotsav is being observed by the Odisha Livelihoods Mission (OLM), an autonomous society under the aegis of the Department of Mission Shakti.

The week-long programme, which commenced on December 4 and will conclude on December 10, is a celebration of diversity in food and agriculture produces in rural Odisha.

During the event, around 25 lakh Self-Help Group (SHG) members across 25,000 villages are promoting nutritional

knowledge on locally-grown and sourced nutritious produces and food. It would materialise into strengthening rural nutritional outcomes.

The Mahotsav aims to create awareness about the importance of food and nutrition security and dietary diversity. It would enable members of Women Self-Help Groups (WSHGs) across 2,324 gram panchayats in all 30 districts to display their array of lo-

cally-grown farm produces. The celebration is a medium of promotion and exhibition of nutritious dietary diversity abundantly available in the rural areas as well as generating a community dialogue in nutritional outcomes associated with diverse local food groups.

The exhibits of the festival are garnered by the WSHGs from their self-managed Nutrition Gardens (Mo Upakari Bagicha), farmlands, community waste lands, nearby forests and water bodies.

The event is not limited to just extending dietary diversity understanding; rather, it is a celebration of traditional food systems and agricultural practices.

1.87L cases pending in High Court: Min

PNS ■ BHUBANESWAR

As many as 1.87 lakh cases were pending in the Orissa High Court till October 31, 2021, informed Law Minister Pratap Jena in the State Legislative Assembly on Tuesday. Replying to a question by Cuttack-Choudwar BJD MLA Souvik Biswal, the Minister said that while 1,87,028 cases were pending in the High Court, as many as 17,68,704 were awaiting disposal in other courts across the State till October 31, 2021. In the last three years, total 8,95,412

cases have been disposed, he said.

Jena further informed that the High Court has formed an Arrears Committee and a Mission Mode Committee for speedy adjudication of the pending cases. Besides, the HC has directed the District Judges to expedite the cases in their jurisdictions.

"The Government is taking steps to establish various courts across the State in a phased manner and ensure prompt justice to people through Lok Adalats," he said in the written reply.

Alcohol, tobacco use higher in Odisha than nat'l avg

State's alarming cases of hypertension, raised blood sugar attributed to unhealthy habits

MOSHARAF HOSSAIN

The fifth edition of the National Family Health Survey 2019-21 (NFHS) is out and it tells many tales on key demographic indicators. The version of the large-scale sample survey pertinently collected gender-segregated information and generated insights on the usage of tobacco, alcohol, and incidence of increasing health issues such as hypertension and elevated sugar levels. Surprisingly, 51.6% of men aged 15 years and above in Odisha reported are using any form of tobacco against the national average of 42.7%.

The addiction to tobacco among women in Odisha outdid the national level proportion since a whopping 26% of 15 plus women use cancer-causing tobacco compared to just 8.9% in India. In respect of the consumption of alcohol,

the story is not favourable either, as 28.8% of men aged 15 years and more revealed that they consume alcohol and it again woefully compares with 18.8% in India. Interestingly, women keep the glass at bay since merely 4.3% of women (15 years and above) reported to be consuming alcohol.

The corresponding proportion for India is just 1.3%, amply indicating how the usage of tobacco and alcohol is high and possibly needs an urgent check in Odisha. Again, tobacco and alcohol consumption is more in rural Odisha than in urban, the survey found out. Such a high proportion of unhealthy habits in Odisha slowly and secretly manifest in many health conditions and thus, this can be directly or indirectly linked to the State's alarming cases of hypertension and raised blood sugar. Reportedly, 17% of men and 14% of

women, as revealed in NFHS-5, have high or very high sugar levels (>140mg/dl) and they are under medication to control it.

Physicians often cite hypertension to be a reason for many other health conditions and there is something to be worried about hypertension among people across men and women in Odisha. 25.6% of men and 22.4% women measured elevated blood pressure (Systolic =140 mm of Hg and/or Diastolic =90 mm of Hg). This essentially shows every fourth person (15 years and above) in Odisha runs a high BP. The occurrence of both high BP and sugar levels is little more in urban parts than rural areas of the State. The proportions of Odisha are again on the higher side when compared to all India fact sheets.

In many parts of India, alcoholism is judged as one of the reasons for spousal violence

(Physical and/or sexual violence). The NFHS collated information and reflected upon this case scenario as well. Noticeably in Odisha, 30.6% of women aged 18-49 years have ever experienced spousal violence in the family and 3.5% of them even faced this form of violence during the pregnancy. This made us ponder over the probability and intensity of alcohol-induced violence in the family.

Both alcohol and tobacco can cause several life-threatening health damages. Some studies signpost that the cancer caseload in Odisha is largely contributed by oral, lungs, and gastric cancers especially among men. Another medical study conducted with time-series data in Odisha presented that 63.3% of cases of liver cirrhosis are diagnostically alcohol-linked. Therefore, these perilous habits are

taking a toll on health and the economy. The burden on the Government exchequer for managing such health conditions is easy to comprehend.

So we should curtail the alcohol consumption and usage of tobacco. Then again, the sale of these items brings the State a sizeable excise. During FY 2019-20, the State Government got Rs 5,600 crore revenue generated from the sale of liquor and had targeted Rs 6,600 crore in 2020-21. Increasing taxes on alcohol may result in untoward incidents like spurious alcohol consumptions as reported during the lockdown. Thus rationale consumption cut down by the people is supposedly healthier for the State and its citizen.

Mass awareness and sensitisation programmes highlighting the ill-effects of these bad habits should be in-

tensively undertaken. Strong vigilance must be employed at the shop in effecting extant regulations. Sales of these items to minors must be strictly monitored and offenders need to be punished. The schools and community-based organisations can include behaviour change communication activities, particularly among young people for their intellectual stimulation to refrain from forming these habits. Positive parenting in the family can also play a critical role in minimizing addiction among adolescents and youths. So the key is actually with the people than the Government of the day. So let's pledge to be a little more prudent for our health. After all, health is the real wealth!

(The writer is a Bhubaneswar based agricultural economist. Views are personal)

12 VIMSAR girls test Covid +ve

19 in 2 girls' schools in Jajpur, Angul also infected

PNS ■ SAMBALPUR/ JAJPUR/ ANGUL

As many as 12 girl students of the VIMSAR at Burla in Sambalpur district on Tuesday tested Covid-19 positive.

"Of the 12 students, two have been infected with

Delta variant and remaining 10 have mild infection due to the same variant of COVID-19," said VIMSAR Dean Prof Jayashree Dora.

However, the health conditions of all of them are stable, added Dora.

The Sambalpur district administration has also de-

clared several hostels and staff quarters at the VIMSAR as micro containment and buffer zones.

Besides, in Jajpur district, nine students of the Kasturba Government Girls' High School, Dasarathpur, have contracted the virus.

All the infected have been put under isolation. As a precautionary measure, all students and employees in-

cluding teachers of the school have undergone Covid-19 test.

"If anyone's test report comes positive, we will immediately start treatment of that patient. Besides, sanitisation work has been carried out on the school premises to prevent further spread of the virus, said Jajpur Collector Chakravarti Singh Rathore.

Moreover, 10 students of the Balipata Panchayat Girls' High School in Angul district have also tested positive during antigen test.

The antigen test result of 10 girl students staying in a hostel came out positive. They have undergone RT-PCR test whose results are awaited.

An advisory has also been issued to all schools to conduct Covid-19 tests every 10 days in residential campuses and at least once in a month in non-residential campuses, said an official.

MCL women officers trained at IIM-S

Under institute's 'Women Leadership Programme'

PNS ■ SAMBALPUR

The IIM Sambalpur organised a two-day specially designed women leadership programme under its Management Development Programme (MDP) for 30 women officers of Mahanadi Coalfields Limited (MCL).

The programme was inaugurated by Director IIM Sambalpur Prof Mahadeo

Jaiswal and Director - Personnel, MCL, Keshav Rao.

IIM faculty members and resource persons Prof Shikha Bhardwaj, Prof Atri Sengupta and Prof Bhumi Gupta imparted the training. The sessions enriched and enlightened the members who could acquire

knowledge about own emotional well-being and stress management at workplace. It offered a perspective to broaden their horizon, since a positive work-life balance reduces employee stress, reduces the risk of burnout, and creates greater wellbeing, said an IIM release.

P'khemundi lit body 'Sidhanta' holds annual fest

Writers felicitated, books launched

PNS ■ PARALAKHEMUNDI

On the 21st Annual Day of literary organisation, "Sidhanta," former Director of Doordarshan Dr Santanu Kumar Rath joined as chief guest and focused on the literary geniuses of Paralakhemundi like Gopal Krushna Patnaik and Padma Shri Dr Satyanarayan Rajguru.

As guest of honor, HoD PG Department of Odia, Berhampur University, Prof Dr Prasanna Kumar Swain highlighted the greatness of

Odia literature. Among others, former bureaucrat Jagannath Behera and Dr Brushaketu Dash spoke. Dr Gopabandhu Dash, writer Dr Padmini Mishra, Dambarudhar Behera and D

Priyanka were honored on the occasion. Books written by Dr Brushaketu Dash, Er Arakhita Patra, Purnachandra Mahapatra and Ghanshyam Jena were launched by the dignitaries. While Dr Annapurna

Devi presided, the welcome address was given by Binod Jena. Hirachand Patnaik read out the annual report, Bichitranaoda Bebaria introduced the guests and vote of thanks was given by Asalata Panigrahi.

Odisha 'Best State' for tourist destinations

PNS ■ BHUBANESWAR

Odisha has been adjudged as the 'Best State' at India's Best Awards 2021 for the most outstanding domestic destinations as per a readership poll of the Travel+Leisure India magazine.

This apart, Odisha's Mayurbhanj has been voted as the 'Best Offbeat Destination'.

"Touted as 'India's best kept secret', Odisha is a treasure trove of surprises. Visitors can embark on the Nirvana Trail that journeys through the Bud-

dhist monuments of Dhauligiri, Lalitgiri, and Udayagiri. Make sure you tuck

into the state's unique cuisine, which features dishes like pakhala and chhena poda.

Wildlife lovers will be delighted by the mesmerising Irrawaddy dolphins of Chilika Lake and the Olive Ridley turtles that nest at Gahirmatha Beach every year. Explore the state's tribal arts and crafts like pattachitra and appliqué work at Pipili village. The famed Jagannath and Lingaraj temples are unmissable, as are the serene beaches on Odisha's 480-kilometre-long coastline," the magazine wrote.

"Mayurbhanj is one of the best surprises of Odisha. It has spirituality, wildlife, and natural marvels to offer visitors. The Maa Ambika Temple in Baripada, whose deity is believed to be 'the living goddess', lights up during Durga Puja celebrations. The Jagannath Temple here, also known as the Haribaldev Temple, was constructed by Shri Baidyanath Bhanj in 1575 CE. It hosts the annual Car Festival the day after the main one in Puri. Similipal Biosphere Reserve is sprawled across 2,750 square kilometres and is among the Tiger Projects and National Parks of India. Other points of interest include Devkund and Bhimkund," the magazine added.

New-style patrolling launched at Balangir

PNS ■ BALANGIR

With a view to controlling the law and order situation and nab antisocial elements, the Balangir police has stepped up their patrolling activity in a vigorous way.

The Balangir police has started the new style of patrolling in three shifts at 11 am, 5 pm and 10:30 pm. Under the direction of Balangir SP Nitin Kusalsar, the entire Balangir town has been divided into nine beats and nine motorcycles and five Bolero patrolling parties are covering it. A total of 50 constables, seven officers and two inspectors are doing the patrolling and a DSP is su-

persiving the total operation.

Women constables are doing scooty patrolling in daytime near colleges and schools to prevent eve teasing, said Balangir SDPO Tofan Bag.

"Within three days, we have detained 30 alcoholic/antisocial persons in the town and allowed them to go by keeping their data, photos in Google form in the DPO database," said the SDPO further.

Shriyanka wins shooting championship

PNS ■ BHUBANESWAR

Shriyanka Sadangi created history by becoming the first Odia girl to win national championship in shooting.

In Bhopal, where the Rifle Nationals are taking place, Shriyanka won her first women's 50m rifle 3 positions (3P) crown, finishing the 45-shot eight-woman final with a score of 454.9 points.

BJD MP and KIIT & KISS founder Achyuta Samanta congratulated Shriyanka for the stupendous achievement.

State Sports & Youth

Services Secretary R Vineel Krishna said. "It's great news for Odisha as this is the first time we have got a medal in shooting. Hope this is the

start of a new era of performance for Odisha shooters."

Born in 1995 at Sambalpur, Shriyanka studied in Delhi and is now do-

ing her MBA at the KIIT School of Management here. She trains and practises at the Gagan Narang Academy, Pune.

Home Guards Day celebrated in JSpur

PNS ■ JAGATSIINGHPUR

The 59th Home Guards Day was celebrated here on Monday. District Superintendent of Police Akhileshwar Singh took salute at a ceremonial parade of Home Guards.

Singh recalled that the Home Guards organisation had established in the coun-

try in the year 1962 to help in good policing and social services to denizens. Over the years, the Home Guards have earned accolades for their due discharge of duty and policing activities.

Two Home Guards, Rabindra Kumar Mallick and Mayadhar Sutar, of the district were felicitated for

their outstanding performances.

The celebration was attended by DSPs SN Pattanaik and Biranchi Bag, SDPO Ramesh Singh, IIC PC Sahoo and police officers Babita Dalei and Kumari Behera. Additional SP Ramesh Kumar Panda offered a vote of thanks.

Missile tested from ITR

PNS ■ BALESWAR

India on Tuesday successfully flight-tested an indigenously-developed new vertical launch short-range surface-to-air missile from the Integrated Test Range at Chandipur near here at around 3 pm. The test was conducted against an electronic target at a low altitude.

The missile features mid-course inertial guidance through a fibre optic gyroscope and active radar hom-

ing in terminal phase, said a source. It has an operational range of 50 km to 60 km. Defence Minister Rajnath Singh congratulated the DRDO, saying this system would further enhance the Defence capability of Indian naval ships against aerial threat. The Baleswar district administration, as a safety measure, temporarily shifted around 6,200 villagers residing within a 2.5-km radius of the ITR launch pad.

Anganwadi Workers to paralyse GKS from Apr

Gherao Assembly on Dec 13

PNS ■ SAMBALPUR

Hundreds of Anganwadi workers from all over the district decided to stop Gaan Kalyan Samity work from April 1 next. At the same time, they have decided to gherao the Assembly on December 13 to press their demands.

"The Government is utilising us for different purposes other than our prime works. But we hardly get any payment for the extra work,"

they alleged in a vast meeting held here on Monday, presided over by Shantilata Patel to chalk out their future course of action.

Patel told about the various issues of the Anganwadi workers and helpers taken up by the association in New Delhi in the Women and Child Welfare Department meeting and also with the State Government at Bhubaneswar.

"Giving equal status to Anganwadi workers like that of teachers, effecting a hike in salary and providing facilities like pension, promotion, so-

cial security, retirement at 65 years age, house rent and incentive for extra works, apart from clearing the pending TA and DA are our the prime demands," said Patel. "Since, we are doing all works sincerely as assigned by the Government, the latter should also consider our demands. At the same time we have done our duties with all sincerity during the peak period of Covid taking high risks and some of us died during this period," she reminded.

Among others, convenor of the union Prasant Padhi spoke.

Sc, religion two sides of coin for Damodar Swami

Iskcon Guru's 84th Holy Appearance Day held with pomp

SRIPAD RADHAKANTA DAS

His Holiness Bhaktiswarup Damodar Swami Srila Guru Maharaj of Iskcon is a scientist, spiritualist, philosopher and Krishna consciousness preacher—all rolled into one.

He had made a pioneering effort to bring a synthesis between science and religion for a deeper understanding of life. His 84th Holy Appearance Day was observed with much pomp at Raghunandan Dam, Burla.

Gurudev Sripad Maharaj was born on Lord Jagannath's "Odhan Sasthi Tithi" on Thursday in the year 1937 in the Touble village of Bishnupur district close to Imphal, the State capital of Manipur. He belonged to a pure traditional Baishnab family. His childhood name was Todam Damodar Singh. He confronted many problems since his childhood.

His father died when he was 5 years old. His elder sister Anhaba Devi got married and he became isolated.

He was affected with epidemic when he was 14 years old. Due to mercy of Lord Krishna, he narrowly escaped. His primary teacher Todam Karen Singh took care of him and imparted him education.

He had a brilliant academic career. He stood first in all the examinations throughout. He got Master's degree in Chemical Engineering with first class distinction in the year of 1964. Then he joined as Assistant Director in Industries Department of Manipur with due selection by the UPSC. In the meanwhile, he was selected by the Government of India through overseas scholarship and joined at the California University. He got a PhD in Organic Chemistry in the year of 1976. He joined the Iskcon

He became director of Bhaktivedanta Institute (BI), Iskcon in 1974. He was promoted to chief authority of BI in 1976. He took Sannyas during the year 1979. A scientist to Brahmachari, then Sannyasi and then GBC during the year 1982, he became a famous Guru and initiated a number of devotees around the world up to his Disappearance Day, ie, Vijaya Dashami in 2006.

He undertook Baishnab Vedanta studies and higher research under Srila Prabhupad during the year of 1970-76. He organized four international conferences on science and religion. He preached Krishna consciousness philosophy throughout the world in the medium of science and research. He established "Youth Forum" organisation of Iskcon through which he taught the philosophy of Krishna consciousness and religion to the students of various engineering colleges

and universities.

He established Ranga Niketan cultural unit at Manipur. He was very fond of Kirtan. He also published many books relating to science, philosophy, religion and Krishna consciousness. He was chief Editor of a journal of the BI.

He became the GBC of Iskcon Bhubaneswar temple during the year 1996 after the departure of Gurudev Sri Srimad Gour Govinda Goswami Guru Maharaj. He came to Bhubaneswar temple 3-4 times in a year in his preaching mission. He inaugurated Bhaktivedanta book trust unit at Chandrasekharpur, laid foundation stone of Iskcon Gundicha Mandir, Bhubaneswar and Iskcon units at Brahmapur, Bahanaga, Kamakhyanagar and Bhaktivedanta Institute at Burla, Sambalpur. (The writer is State PRO, Iskcon)

Youth dies, friend critical in attack in Ganjam

PNS ■ BRAHMAMPUR

A youth was killed and his friend was critically injured when miscreants attacked them with sharp weapons on the Sialpat- Raipada road under the Khallikote police station in Ganjam district on Monday night.

The victims were identified as Hatia Nahak and Raju Pradhan of Karasi village under the Khallikote PS. The unidentified

miscreants intercepted the duo when they were returning to their village over suspected old enmity and brutally attacked them with sharp weapons.

Hatia died on the spot. Getting information, police reached the spot and rescued Raju in a critical condition. Raju was initially rushed to a nearby hospital and later shifted to the MKCG Medical College Hospital here as his condition deteriorated.

Police also sent the dead body to the Khallikote hospital for post-mortem.

Later, Chhatrapur SDPO Gautam Kishan along with a forensic team and visited the spot on Tuesday morning and started an investigation. "The body of the deceased will be handed over to his family after autopsy. A manhunt has been launched to nab the culprits. Further investigation is ongoing," police said.

Sena: There is no alternative without Cong

PNS ■ NEW DELHI

In a dampener to TMC chief Mamata Banerjee effort to pro-up a non-Congress Opposition front to take on the BJP, the Shiv Sena on Monday said there can't be such alternative without the Congress.

Rajya Sabha member and Shiv Sena leader Sanjay Raut on Tuesday met former Congress president Rahul Gandhi. Sources said Raut discussed several issues with Rahul Gandhi, including Mamata Banerjee's move.

"There can be no front without the Congress. Even if there is a new alliance, an alliance will work under the leadership of Congress. There are many parties with the Congress. So why three - three front are required? What to do with so many fronts? In this way, we will not be able to give an alternative to BJP," Raut, who is also Sena's chief spokesperson, said.

The Congress sources said the Shiv Sena leader is likely to meet Priyanka Gandhi Vadra on Wednesday and later he will also call on Congress chief Sonia Gandhi. Shiv Sena and Congress along with NCP is in a coalition Government in Maharashtra.

"There has been a long talk with Rahul Gandhi ji, the conversation that took place is political in nature. Everything is fine. But whatever discussion took place, it will be first conveyed to our leader Uddhav Thackeray ji. Only then can we say something in the media. But it is certain that Shiv Sena believes that there should be a united opposition," Raut said after meeting Rahul.

Raut said during the meeting with Rahul Gandhi, what TMC leader Mamata Banerjee said on the opposition was also discussed. "Rahul Gandhi is to visit Mumbai this month end and then a meeting with Uddhav Thackeray will be proposed," Raut said.

"There should be only one coalition of the Opposition, its effort should be made. I told Rahul ji that he should take the lead. There were talk on the coming elections also," Raut told media persons.

Raut also said their another coalition partner under the guidance of NCP supremo Sharad Pawar is making efforts for a common Opposition front and he will make best efforts to ease out the strained relationship between the Congress and the TMC.

While Mamata had directly attacked Congress in her statement after meeting Pawar in Mumbai last week that there is no UPA, Pawar played safe saying all are welcome in fight against the BJP.

Sharing that "an attempt is being made to convene a meeting of the opposition," Raut said, "I have requested Rahul Gandhi to take the initiative in this matter."

"The leadership of this front will be decided later," he further informed.

No business in RS for 2nd day

PNS ■ NEW DELHI

The Rajya Sabha did not transact any significant business for the second consecutive day this week as Opposition parties continued their protest on Tuesday demanding the revocation of suspension of 12 MPs.

Holding the Government responsible for the deadlock, Opposition members said they will continue with their joint protests against the suspension of 12 MPs till the time it is revoked. While the Opposition members called for a full boycott of Parliament proceedings for a day on Wednesday, TRS announced that its MPs will boycott both houses of Parliament for the remainder of the Winter Session by accusing the Central Government of being "anti-farmer".

With Opposition members raising slogans, Parliamentary Affairs Minister

Pralhad Joshi said the treasury benches would also like the suspended MPs to participate in the proceedings of the House and they should apologise for their conduct so that their suspension could be revoked. He added, "If they apologise, the Government is ready to take them back immediately."

Union Health Minister Mansukh Mandaviya introduced The Assisted Reproductive Technology (Regulation) Bill 2021 and The Surrogacy (Regulation) Bill 2020 amid the din. In all, the House witnessed two adjournments before the final one for the day around 3.12 pm. As the House resumed proceedings at 3 pm, Deputy Chairman Harivansh asked Mandaviya to introduce the bills.

As Mandaviya introduced the Bills, repeated requests from Deputy Chairman Harivansh to maintain order went unheeded and the

Opposition members continued to raise slogans against the Government. With the Opposition unrelenting, the Deputy Chairman adjourned the House for the day.

Earlier in the day, Rajya Sabha chairman M Venkaiah Naidu said he has received a notice under the Rajya Sabha rule 267, that calls for setting aside the business of the day to take up the issue listed and is disallowing it. "Your notice is under rule 267. I have gone through it. I have not permitted (it)," Naidu told Leader of Opposition Mallikarjun Kharge.

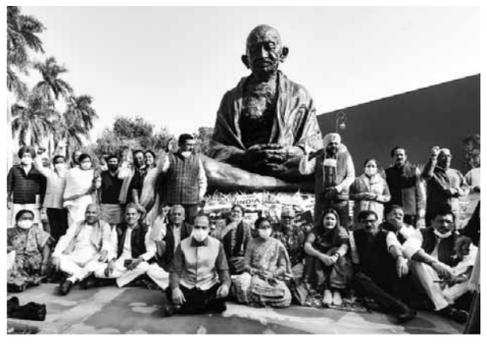

Later in the day as the Opposition tried to raise their issues again, Deputy Chairman Harivansh said only the listed business will be allowed to be discussed and no other matter would be taken up. When he allowed Leader of Opposition Mallikarjun Kharge to speak, the latter took exception to Labour and Environment

Minister Bhupender Yadav's interruption, terming it "undemocratic", and compared it to the suspension of the 12 MPs.

Sanjay Singh of AAP and some other Congress members stormed the Well of the House twice. There was sloganeering by the members who were joined by TMC MPs. TMC MP Derek O'Brien was also not allowed to raise the matter of suspension of the MPs.

Addressing reporters outside Parliament, Leader of Opposition in the Rajya Sabha Mallikarjun Kharge alleged that the suspension is against rules and undemocratic. He said they will continue to protest in support of the suspended members and sit on a dharna with them and also urge Lok Sabha members to sit in support with them.

Besides Congress president Sonia Gandhi has convened a meeting of the Congress Parliamentary Party in

Opposition parties' MPs participate in a protest near Mahatma Gandhi's statue demanding revocation of the suspension of 12 Rajya Sabha members, during the Winter Session of Parliament, in New Delhi, on Tuesday. PTI

Parliament on Wednesday to further deliberate on the winter session strategy. Former Congress chief Rahul Gandhi will also be in attendance. The party has been pressing for revoking the suspension of 12 Rajya Sabha MPs and the proceedings of the Upper House have been disrupted due to Opposition protests over the issue.

Government of being "anti-farmer", the TRS also announced that its MPs will boycott both Houses of Parliament for the remainder of the Winter Session. Shouting slogans against the Government and in support of farmers, TRS MPs staged a walkout from the Lok Sabha and the Rajya Sabha. All the MPs were dressed in black.

IIT scientist, IMA predict severe 3rd wave

PNS ■ NEW DELHI

Day after one of the creators of the Oxford-AstraZeneca vaccine warned that future pandemics could be even more lethal than Covid-19, an IIT scientist and top medical body, Indian Medical Association (IMA), echoed similar apprehensions as they predicted a severe third wave of the virus in India amid the threat posed by the Omicron variant which has infected two dozen people so far.

The IMA said taking precautionary measures is key to combating the challenge while IIT scientist, Manindra Agarwal predicted the third wave of coronavirus could hit the peak by February with cases likely to be reaching up to 1-1.5 lakh a day in the country. Agarwal who is involved in the mathematical projection of trajectory of Covid-19, however said the third wave will be

milder than the second wave. He said in the new forecast, the new Omicron variant has been factored in.

"With the new variant, our current forecast is that the country could see the third wave by February but it will be milder than the second wave. So far we have seen that the severity of Omicron is not like the one seen in the Delta variant," Agarwal told a news agency.

He, however, said a close eye is being kept on cases in South Africa where many cases of this variant have been recorded.

Agarwal added that as of now South Africa has not seen a rise in hospitalisation. He said a fresh set of data on the virus and hospitalisations would help in getting a more solid picture.

"It looks like although the new variant has shown high transmissibility, its severity is

not like the one seen in the Delta variant," Agarwal said.

He said as observed during the spread of delta, a mild lockdown (night curfew, restrictions on crowding) can bring down beta substantially. That will significantly reduce the peak value, he added.

The IMA has warned about a severe third wave of Covid-19 in India and recommended taking precautionary measures as a key to combatting the challenge.

IMA's warning comes at a time when cases of Omicron have multiplied in the country in less than a week. It is said to be the most heavily mutated strain of the coronavirus SARS-CoV-2. Early data suggests it spreads fast but the illness may be mild.

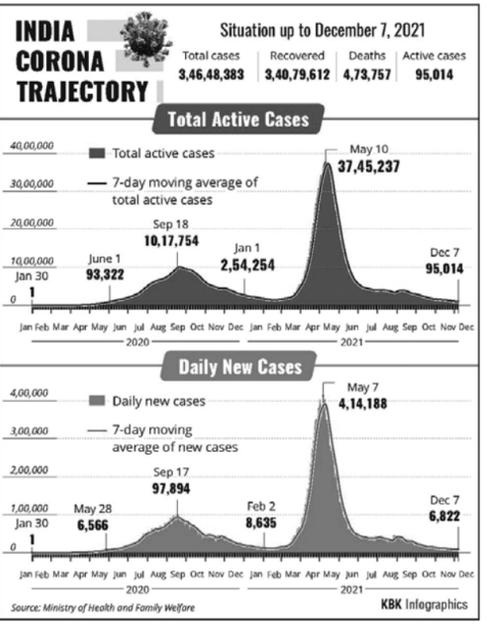

The IMA demanded the inoculation of people in the 12-18 age group — a proposal that has been pending for long. It further called for the adminis-

tration of booster doses to healthcare and frontline workers in view of the Omicron threat.

Omicron has some 50 mutations including over 30 in its spike protein alone. It was first reported from southern Africa where it is most prevalent. Scientists around the world are working to understand how effective existing vaccines & treatments are against the new strain.

Sarah Gilbert, one of the creators of the Oxford-AstraZeneca vaccine said in the Richard Dimbleby Lecture that future pandemics could be even more lethal than Covid-19 so the lessons learned from the outbreak must not be squandered and the world should ensure it is prepared for the next viral onslaught.

"This will not be the last time a virus threatens our lives and our livelihoods," according to a foreign news agency.

Plasma therapy receives thumbs down from WHO

PNS ■ NEW DELHI

Once much sought after treatment for patients suffering from Covid-19, convalescent plasma therapy has received thumbs down from the World Health Organization (WHO). The method of using the blood of people who have recovered from disease to heal others is known as convalescent plasma therapy.

The Food and Drug Administration (FDA) in the United States has awarded emergency approval for convalescent

plasma therapy with high antibody levels to treat Covid-19 in 2020. It was supposed to be used for those who were unwell with Covid-19 and had an underlying health problem.

However, the WHO has now said current evidence shows that it does not improve survival or reduce the need for mechanical ventilation, they said.

Earlier this year, the use of convalescent plasma was removed from the Indian Council for Medical Research's recommended guidelines for Covid-19. Despite the fact that

An ICMR trial of 400 patients last year, known as the PLACID trial, found no significant benefit

from plasma therapy. The ICMR dropped the plasma therapy without citing any significant benefit for Covid-19 treatment.

The WHO also has now issued a statement that convalescent plasma therapy shows no improvement in survival and other important measures and is not recommended for patients infected with Covid-19.

Despite its original promise, recent research reveals that it does not increase survival or reduce the need for mechanical ventilation, and it is costly and time-consuming

to administer, according to a WHO Guideline Development Group of international specialists writing in The British Medical Journal (BMJ).

Except in the context of a randomised controlled experiment, the WHO strongly advises against using convalescent plasma in patients with non-severe disease and in patients with severe and critical illnesses (RCT). The guidelines are based on data from 16 trials, including 16,236 individuals with non-severe, severe, or critical Covid infection.

Rule for int'l flyers: Health status mandatory before boarding flight

PNS ■ NEW DELHI

All international passengers arriving in India are mandated to declare their current health status prior to boarding on the Air Suvidha portal along with the required documents which include a copy of passport, PCR negative certificate from a test conducted within 72 hours of departure and the vaccination certificate amid omicron scare. This comes at a time when passengers at Delhi airport complained of chaos and crowding at its terminal following the implementation of new coronavirus-related travel guidelines.

The Ministry of Civil Aviation (MoCA) on Tuesday also discontinued the exemption forms from the Air Suvidha portal and filing of the details have been made compulsory for all international passengers arriving in India.

"This portal developed by MoCA aids passengers in providing their details of travel and final stay along with RT-PCR, vaccination status etc," the Ministry said in a statement, adding that this helps state officials in contact tracing. For immigration, the copy received in e-mail is essential on arrival in India and has to be verified at the APHO counter, the ministry said.

"The implementation of

The Air Suvidha intends to provide hassle-free, queue free, and convenient air travel to all international passengers arriving in India. Air Suvidha portal has already assisted over 2,50,000 passengers from December 1 to December 5, 2021 since the new travel guidelines were issued on November 30. Furthermore, over 10 million passengers have been benefitted from the Air Suvidha portal since its launch in August 2020," the ministry further added.

All applications from 'at risk' countries are marked with H and red band and others are green. The countries at risk are countries in Europe, including The United Kingdom, South Africa, Brazil, Botswana, China, Ghana, Mauritius, New Zealand, Zimbabwe, Singapore, Tanzania, Hong Kong, Israel. This helps in smooth on arrival segregation and processing. This list is dynamically updated to keep up with MOHFW updates. Application also takes into account countries visited in the last 14 days to highlight 'at risk' applications. This field

is also made into multi-select drop-down option for standardisation.

Meanwhile, Civil Aviation Minister Jyotiraditya Scindia on Tuesday said he has issued an action plan for better crowd management at airports across the country which includes expanding RT-PCR test services and ramping up forex counters. Passengers have been complaining on social media of crowding and chaos at major international airports in the country since December 1, when a new set of travel rules were imposed amid concerns over the Omicron variant of the coronavirus.

Taking to Twitter, Scindia said, "Took stock of the preparedness, testing capacities, and the situation on the ground with regard to crowd management at both private and AAI airports." The Airports Authority of India (AAI) controls more than 100 airports across the country. However, major airports such as in Delhi, Mumbai, Bengaluru, Hyderabad and Ahmedabad are operated by private entities.

The Minister said he has put in place "an action plan with eight compliances on immigration queues, expanding RT-PCR service providers, ramping up help desks and forex counters, along with seamless floor management".

Notice Inviting e-Tender

Decision on inoculation among kids, booster dose for adults postponed

PNS ■ NEW DELHI

The National Technical Advisory Group on Immunisation (NTAGI) has postponed the decision on inoculation of the Covid vaccine among children as well as booster dose for the adults, till next year.

A meeting was held on Monday to deliberate on an 'additional' dose of vaccine and inoculation of children.

During the meeting, the NTAGI, a Central Government's panel on vaccine immunisation said children The members of the group did not make the final recommendation on these issues as of now.

"The issue of administering an additional dose of Covid-19 to immunocompromised and immunosuppressed individuals and vaccination of children against Covid-19 were deliberated upon in the meeting of NTAGI," sources said, as per an agency.

Those who come under the immunocompromised and immunosuppressed categories are cancer patients on therapy, transplants patients and AIDS patients.

An additional dose of a vaccine is different from a booster dose. While a booster dose is given after a pre-defined period when the antibody levels are presumed to have declined since primary vacci-

nation, additional shot is given to immunocompromised and immunosuppressed individuals when the primary inoculation does not provide adequate protection from the disease.

Last week, Health Minister Mansukh Mandaviya had told the Lok Sabha that a decision on booster doses and vaccines for kids would be taken on the basis of scientific advice and that the focus of the vaccination drive would be to expand the coverage of the second dose.

INSACOG, the country's top genome sequencing laboratories, on Saturday said more scientific experiments are required to assess the impact of a booster dose of Covid-19 vaccine.

Tri-Services' tactical drill held in Kashmir

To validate joint capability to insert troops behind enemy lines

PNS ■ JAMMU

Battle hardened troops of the Indian armed forces led by Air Force Gladiators squadron AH-64 E Tuesday conducted a tri-services tactical drill in the higher reaches of Kashmir valley demonstrating their capabilities to insert troops behind the enemy lines in an intense air defence and electronic warfare operating environment.

The complete drill was planned and executed by the Chinara Corps in the higher reaches of Kashmir Valley. Top brass of the Chinara corps witnessed the complete drill as it showcased their capabilities to

carry out successful operations in high altitude areas incorporating all facets of contemporary and modern battlefields in synergy with Indian Air Force and Indian Navy.

Srinagar based Defence Spokesman Col Emron Musavi in a statement said, "the heli dropped task force operated in snow-clad regions at heights over 9000 feet. The Heli Borne task force included troops from Infantry, The Special Forces and the MARCOS from the Indian Army.

The heli drop exercise included full transportation and armed helicopters from Indian Army and Indian Air Force including the Apaches attack helicopters. Aspects related to electronic warfare were also validated."

Col Musavi said, "this was a tri-service exercise undertaken in Kashmir with the Indian Air Force, Navy &

Army. The exercise was planned to validate the joint capability to insert the task force tactically behind enemy lines in an intense air defence and electronic warfare operating environment."

"The successful conduct of the mission validated the true spirit of jointness achieved in planning, utilization of resources and accomplishment of laid down mission objectives as a true reflection of the tri-service ethos of the Indian Armed forces" added Col Musavi.

Earlier, a similar drill was conducted by the Indian army along the Line of Actual Control (LAC) in Ladakh to practise airborne landing to hone its rapid response capabilities.

The drill was conducted to familiarise the troops with the rugged area and harsh winters in the cold desert region.

Sasikala calls on Rajinikanth

Shunted ADMK Gen Secy says wanted to check on actor's health

PNS ■ KUMAR CHELLAPPAN

Tamil film industry's reigning superstar Rajinikanth and his wife Latha had a surprise visit on Tuesday. V K Sasikala, who claims herself to be the general secretary of the AIADMK, dropped in at the house of Rajinikanth in Chennai's Poes Garden.

A statement released by Sasikala said that she called on Rajinikanth to enquire about his health and it was a courtesy visit. This is Sasikala's first visit to Poes Garden since she returned to Chennai after serving a four year jail term in Bangalore in connection with the Disproportionate Asset Case. She was staying earlier in Veda Nilayam, the private bungalow owned by late Jayalalitha, in Poes Garden and

Rajinikanth was a neighbour.

Veda Nilayam was taken over by the Tamil Nadu Government during the tenure of Edappadi Palaniswamy as chief minister with the announcement that it would be converted into a memorial for Jayalalitha. But the Madras High Court in a verdict delivered last month had quashed the government decision and ordered the transfer of the

palatial house to Deepa and Deepak, niece and nephew of late Jayalalitha. The former chief minister died intestate and various courts in the State are hearing petitions filed by her relations pleading with the courts to declare them as her legal heirs.

Sasikala's visit to Rajinikanth is seen as a move by her to win friends and influence people, according to

Kolahala Srenivaas. "On Monday, the AIADMK announced that O Panneerselvam and Edappadi Palaniswamy have been elected as the coordinator and joint coordinator respectively of the party, shutting the doors once and for ever at Sasikala," said Srenivaas, chief editor of Kolahala TV.

"Sasikala is a closed chapter as far as the AIADMK is concerned. We do not have anything to do with her," said former minister D Jayakumar immediately after the announcement of the election of OPS and EPS duo as the leaders of the party. There are reports that some of the senior leaders in the AIADMK had demanded during the meeting held on Monday that Sasikala should be brought back to the party. Though Sasikala claims herself to be the AIADMK general secretary, she has not been allowed anywhere near the party headquarters making her the only party chief in the country who does not have an office of her own.

Lok Sabha debates High Court, Supreme Court Judges Bill

PNS ■ NEW DELHI

With the Chair reminding some MPs not to speak on specific cases in the judiciary, the Lok Sabha on Tuesday debated High Court and Supreme Court Judges (Salaries and Conditions of Service) Amendment Bill, 2021.

Initiating the debate, Congress MP Shashi Tharoor referred to the delay in disposal of cases and the manner in which bills were given in certain cases. Tharoor said a large number of Habeas Corpus petitions are pending before the Jammu & Kashmir High Court. He pointed out that according to the law, the cases of Habeas Corpus have to be disposed of in 15 days whereas some courts are taking as long as 252.5 days on average.

In contrast, Tharoor said, "Many commentators have contrasted with the urgency with which Bombay High Court dealt with a writ of a certain editor of a television channel which claims to deliver news that the nation allegedly wants to know."

Pointing to a case on the constitutional validity of demonetisation, Tharoor said, a three-judge bench ordered constitution of the larger bench which is yet to be constituted. When he mentioned some pending cases including, Bhima Koregaon case and Shrabuddin Sheikh and Ishrat Jahan case, BJP's Nishkat Dubey raised point of order to which A Raja, who presiding the House, asked Tharoor not to mention cases which are pending before various courts. While introducing the bill for passage, Law Minister Kiren Rijiju said it has a very limited provision and it pertains to a pension of retired judges.

"This bill seeks to bring clarity on when Supreme Court and High Court judges are entitled to an additional quantum of pension or family pension on attaining a certain age.

The High Court and Supreme Court Judges (Salaries and Conditions of Service) Amendment Bill, 2021, which was introduced by Rijiju amid din by the opposition over farmers' issues, proposes to amend the High Court Judges (Salaries and Condition of Service) Act and the Supreme Court Judges (Salaries and Condition of Service) Act.

According to the Bill, in 2009 the two laws were amended to provide that every retired judge or after his death, the family, as the case may be, will be entitled to an additional quantum of pension or family pension. Accordingly, the additional quantum of pension to retired judges of the High Courts and the Supreme Court is being sanctioned on completing the age of 80 years, 85 years, 90 years, 95 years and 100 years, as the case may be.

PM lauds Yogi for development in Uttar Pradesh

Indicates coming UP polls will be contested under CM's leadership

PNS ■ LUCKNOW

Prime Minister Narendra Modi praised Chief Minister Yogi Adityanath for his hard work and credited him for the development carried out across Uttar Pradesh and in the process enforcing the belief that the next assembly elections in the state will be contested under Yogi's leadership and he will be the face of the Bharatiya Janata Party's election campaign.

Addressing a gathering after inaugurating projects worth Rs 10,000 crore in Gorakhpur on Tuesday, Modi said, "The amount of sugarcane dues paid by the Yogi government in four and a half years is more than the total sum paid by the previous governments in the state in 10 years. The Uttar Pradesh government led by Yogi Adityanath has worked relentlessly to benefit cane growers in the state. Consistent efforts have been made in Uttar Pradesh to transform the lives of farmers and double their incomes."

The prime minister further

said that the Yogi government had made efforts to enhance the facilities in the state.

"Earlier, the samples of encephalitis patients in Gorakhpur were sent to Pune for testing and by the time it was confirmed, the patient either had died or was paralysed. Today, we inaugurated the Regional Viral Research Centre in Gorakhpur to test coronavirus, encephalitis, and other diseases," he said.

Modi also lauded the Yogi government for taking up development projects across Uttar Pradesh.

"Beginning of a fertiliser plant and AIIMS in Gorakhpur is sending out several messages. When there is a double engine government, then work takes place at double speed. When work is done with honest intentions, then even calamities can't become obstacles. Besides, government godowns were opened for poor farmers and 15 crore people of UP were provided with free ration. And all this happened due to Yogi ji's good intentions," the prime minister said.

Modi hai to mumkin hai, says Adityanath

PNS ■ LUCKNOW

Thanking Prime Minister Narendra Modi for the launch of developmental projects across the state, Chief Minister Yogi Adityanath said "Modi hai to mumkin hai" and what Gorakhpur is today is only because of Modi ji.

Yogi was in his home turf Gorakhpur to attend the inauguration ceremony of three mega projects worth Rs 10,000 crore on Tuesday. The projects include a fertiliser factory, the All India Institute of Medical Sciences (AIIMS) and a hi-tech laboratory of Indian Council of Medical Research-Regional Medical Research Centre (ICMR-RMRC).

"In 2016, the prime minister had laid the foundation stone of this fertiliser factory in Gorakhpur, which has become functional today. Today's inauguration (of the fertiliser factory) is like a dream come true for the people in eastern Uttar Pradesh which was impossible during the regimes of other parties. Five governments were formed in the state in the last

30 years, but only the Bharatiya Janata Party regime had the courage to start this fertiliser factory in Gorakhpur," he said.

The chief minister maintained that the Gorakhpur fertiliser factory was shut down in 1990 and for the next 24 years, no government showed interest in reviving it.

"In 2016, Prime Minister Narendra Modi laid the foundation stone of the fertiliser plant at Gorakhpur, which will be four times bigger than the earlier plant which was shut down in 1991," he said.

Referring to the declining rate in cases of Japanese Encephalitis and other vector-borne diseases in the region, Yogi said that Gorakhpur was fighting medical issues for the last 40 years and thousands had died because of the negligence of the previous state and Central governments.

"There were deaths due to encephalitis, malaria among others. In 2016, the prime minister laid the foundation stone of this AIIMS which has also been inaugurated on Tuesday," he said.

The chief minister further said, "A chain of medical colleges is getting ready in Uttar Pradesh. At present, there are medical colleges in 59 districts of the state and the process of setting up medical colleges in other districts is also underway. The health infrastructure has been improved considerably."

Lashing out at the previous regimes in the state for neglecting public health, Yogi said that for the last several decades, thousands of deaths occurred every year due to various diseases in eastern UP, but the previous governments did not care about the people's health.

"Everyone was left to their own fate. The facilities of AIIMS will be a boon for the people of eastern UP," he said.

Speaking on the high vaccination coverage in Uttar Pradesh, the chief minister said that the world's largest vaccination campaign was being run under the able guidance of the prime minister and UP had reached the milestone of administering 17 crore vaccine doses on Tuesday.

Didi links Nagaland killings to BSF excesses

Says BJP usurping States' power

SAUGAR SENGUPTA ■ KOLKATA

Bengal Chief Minister Mamata Banerjee on Tuesday linked the Central decision to provide extra jurisdiction to the Border Security Forces and Nagaland firing case saying that was how the BJP Government was trying to usurp the powers of the States.

Speaking at an administrative meeting in Karnajora in North Bengal the Chief Minister asked her own bureaucrats at the district level to keep a vigil on the "intrusion" and "activities" of the BSF

that "often perpetrate cruelties on the poor villagers."

Speaking to the senior district officials she said "you all should keep an eye on the BSF's activities in the area ... they often torture the local people which they are not authorized to do ... I am telling particularly the BDOs and the Circle Inspectors to inspect the areas whenever there is an intrusion by the BSF men ... do bring things on record as they are not authorized to act beyond a limit of 15 km."

Slamming the Centre for the Nagaland firing where 14 people died after the security forces fired at them Banerjee said "you all have seen what has happened in Nagaland ... we

cannot allow that to happen in Bengal ... The BSF should seek the permission of the local officials and the police administration before they enter their area as law and order is a State subject and they have no jurisdiction there ... if they try to intrude into the area the local BDO and the IC will immediately visit the area and do inspection."

The Chief Minister is on a three-day administrative tour of parts of North and central Bengal. She is currently visiting South Dinajpur, North Dinajpur and Malda, from where she will travel southwards to Murshidabad and Nadia before reaching back to Kolkata.

Bombay HC berates Nawab Malik for contempt of court

T N RAGHUNATHA ■ MUMBAI

The Bombay High Court on Tuesday asked Maharashtra Minister Nawab Malik as to why contempt of court notice should not be issued against him for breaching his own assurance to the court that he would refrain from making statements against Dhyandev Wankhede, father of NCB zonal director Sameer Wankhede, and his family members.

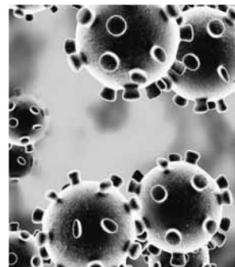

After taking cognisance of a complaint that the minister had breached his assurance to the court, a HC bench of Justices SJ Kathawalla and Milind Jadhav directed Malik to file an affidavit as to why a contempt of court notice should not be issued against him for deliberately breaching his assurance to the court.

The HC bench directed Malik to file an affidavit before the next date of hearing which has been fixed for December 10.

24 fresh Covid cases reported in Rajasthan

Jaipur: Twenty-four more people tested positive for coronavirus in Rajasthan, pushing the infection tally to 9,54,944 on Tuesday, according to an official report.

The fresh cases were reported in Jaipur (12); Barmer, Udaipur (three each); Ajmer, Dungarpur (two each); Bikaner and Jhunjhunu (one each), the report stated. On the bright side, 25 people recovered from the infection on Tuesday, taking the recovery count to 9,45,768 in Rajasthan. The state has seen 8,956 deaths linked to the virus so far.

According to the latest report, the number of active novel coronavirus cases stands at 220 in Rajasthan. PTI

Sarpanches urge PM to let Goa resume iron ore mining ahead of his visit to State

PNS ■ PANAJI/NEW DELHI

Ahead of the visit of Prime Minister Narendra Modi next week to Goa on the occasion of State Liberation Day on December 19, the Sarpanches of Goa have appealed to the PM to save their livelihood by resuming iron ore mines that have been closed for five years. More than 20 Sarpanches of Goa's mining belt have apprised the PM that five lakh people in Goa were fully dependent on mining for their livelihood but mining is completely closed since 2018 and with covid already affecting tourism of the State, about a lakh families are directly or indirectly dependent on mining.

"Due to this the right of livelihood given to the citizens under the Constitution is also in danger. Goa had nominated Narendra Modi as Prime Minister in 2013, now he should resume mining and give a return gift to Goa. We want that mining should resume in Goa this time before the elections," one of the signatory Sarpanch Surya Naik said.

Another Sarpanch Siddharth Desai said that tourism is almost closed in Goa for the last two years due to covid and common people have no work as well as there is no source of income due to the closure of mining. In such a situation, our appeal to PM is

to save our livelihood, he mentioned.

In the letter the Sarpanches have said that they have apprised all representatives of the State many times about helplessness and situation. The letter says that as Goa assembly elections are due next year, the Sarpanches desires that BJP and its alliance come back to power. "Both the central and state government are fully aware of the whole matter. We appeal to you again that this is the right time when you can save millions of lives by resuming mining in Goa on time," said the letter to PM.

The late Manohar Parrikar government had banned iron ore mining in Goa and now the matter is in Supreme Court. Incumbent Chief Minister Pramod Sawant has already indicated that he wants to start eight mines by forming a mining corporation but more than 300 mines are still closed in Goa.

The signatories include Village Panchayat Rivona, Village Panchayat Bhati, Village Panchayat Seldem, Village Panchayat Kardi. There are 40 gram panchayats in Goa through which the local administration is run as part of Panchyati Raj system. In a state where TMC, Congress and AAP are ready to take on the BJP government, the Aam Aadmi Party has given an election slogan that if they come to power, they will resume mining in six months.

BMC denies irregularities in coastal road project as BJP seeks answers on CAG report

T N RAGHUNATHA ■ MUMBAI

Hours after the Opposition BJP demanded answers from the Maharashtra Government and the civic administration over the findings in the latest Comptroller and Auditor General of India (CAG), the Brihanmumbai Municipal Corporation (BMC) on Tuesday dismissed as "baseless and incorrect" all allegations that were irregularities in the prestigious ₹12,700 crore prestigious Mumbai Coastal Road Project.

"All allegations about fraud and irregularities in the Coastal Road Project are baseless. No fraud or irregularities have been committed in the Coastal Road Project undertaken by the BMC. The allegations circulating in this regard are baseless and incorrect," the BMC

stated in a statement issued here on Tuesday evening.

Earlier in the afternoon, senior Mumbai BJP leader Asish Shelar demanded answers from Chief Minister Uddhav Thackeray, State Environment Minister Aaditya Thackeray, Mumbai Municipal Commissioner I S Chahal and the ruling Shiv Sena in the BMC about the alleged irregularities in the implementation of the project. Among other things, Shelar demanded a clarification from the BMC over the CAG finding that Rs 295 crore had been given illegally to contractors and consultants.

The CAG has, among other things, questioned the BMC over a sharp increase in construction cost of the Mumbai Coastal Road Project (MCRP) from Rs 252 crore per

kilometer in 2011 to Rs 1274 crore in 2018, a 405% rise. It has also raised questions over separate expenditure amounting to Rs 200 crore in an inspection report between April 2016 and March 2020. The total expenditure in the latter part amounted to Rs 2100 crore, of which Rs 200 crore has been called into question.

Being developed by the Shiv Sena-ruled BMC and State-run Maharashtra State Road Development Corporation (MSRDC) in four packages, the coastal road will connect Marine Lines in south Mumbai with Kandivli in north Mumbai. Along the 29.2 km stretch, the coastal road will have tunnels, bridges, interchanges, elevated stretches and roads on reclaimed land, along with pedestrian underpasses and foot over bridges (FoBs).

systematically suppressing sales by manipulating their books of accounts.

"The extent of suppression of sales is found to be more than Rs 1,000 crore, over a period of several years. It was also found that, the assessee had made unaccounted cash purchases of about Rs 150 crore in textile division and jewellery division, during the past few years," it said.

In the case of the second group in Tamil Nadu, incriminating material seized during the course of search, has revealed that the assessee group had obtained bogus bills from a set of parties to the tune of Rs 80 crore and thereby suppressed taxable income.

Evidence relating to the unaccounted purchases of gold have also been gathered. Besides, the assessee group is found to be debiting inflated making charges of jewellery. In addition, unaccounted rental receipts and the unaccounted scrap sales aggregating to Rs 7 crore have also been detected, it said.

The searches on the two groups have led to a seizure of cash of Rs 10 crore and jewellery/bullion worth about Rs 6 crore. Further investigations are under progress in connection with all the three groups.

Over ₹500 crore unaccounted transactions detected in IT raid

₹1.80 crore unaccounted cash seized, 18 bank lockers restrained

PNS ■ NEW DELHI

The Income Tax Department searches in Ahmedabad has resulted in detection of total unaccounted transactions exceeding ₹500 crore besides seizure of unaccounted cash of ₹1.80 crore and unexplained jewellery valued at ₹8.30 crore. So far, 18 bank lockers have also been put under restraint.

The Department initiated search and seizure operations on a prominent business group, engaged primarily in the manufacturing of stainless steel and metal pipes, in Ahmedabad. The searches were conducted in more than 30 premises in Ahmedabad and Mumbai, the IT Department said in a statement.

"During the course of the search operation, a large number of incriminating documents, loose sheets, digital evidence etc. have been found and seized. These evidence contain detailed records of the group's unaccounted income on which due taxes have not been paid,"

it said.

A preliminary analysis of evidence indicates that the group is indulging in unaccounted sales of goods and scrap in cash which is not recorded in the regular books of account. Further, incriminating evidence of various malpractices such as unaccounted cash loans advanced and interest earned thereon, expenses incurred in cash, bogus expenses and purchases and unaccounted land investments has also been unearthed.

The deleted WhatsApp chat of a key person, detected during the search, revealed evidence of obtaining huge accommodation entries by the group to reduce its taxable income. Certain benami properties have also been identified, it said.

Meanwhile, a similar action in Tamil Nadu in respect of two groups engaged in the retail sales of jewellery, textiles and home appliances through their popular chain of stores in Chennai, Coimbatore, Madurai and Tirunelveli. As many as 37 premises were covered in this action.

In the case of the first group, seized documents and other incriminating materials gathered during the searches have revealed that, the assessee had been actively involved in

PAPER WITH PASSION

Balancing act

Putin used the Indian soil to take a snipe at the US, putting it in a spot

The summit meeting between Prime Minister Narendra Modi and visiting Russian President Vladimir Putin has tested India's ability to do a balancing act so as not to get caught between the brittle relationship between the US and Russia over Ukraine and the proposed Summit for Democracy. For the record, Modi and Putin reaffirmed their commitment to enhancing ties. Significantly, it was Putin's second visit outside Russia since the pandemic's outbreak, after he visited Geneva this June to meet US President Joe Biden. The New Delhi visit underlined Russia's importance to India as a provider of defence systems. Russia handles over half of all Indian arms imports, technology and joint production agreements. Russia has also agreed to lease a nuclear-powered submarine to India. The icing on the cake is Russia's long-range S-400 ground-to-air missile defence system which initially attracted the displeasure of the United States. It was expected at one time that despite the warm relations between the US and India, Washington might sanction India under CAATSA (Countering America's Adversaries Through Sanctions Act), which warns of sanctions for any country buying arms from Russia. That has not come to pass yet, but the fact remains that India looked to Russia, and not the US, for its defence needs. In the case of the nuclear-powered submarine, too, it looked to Russia. Interestingly, the AUKUS pact of September will allow Australia to become the first non-nuclear weapons

State to acquire a similar nuclear-powered submarine. Even as Modi and Putin vowed to cement their unique ties, New Delhi realised that Russia used Indian soil to take a snipe at the US. Its Foreign Minister Sergey Lavrov recalled that the US tried to undermine Russia-India cooperation on the S-400 deal and tried to make India obey American orders. "We", Lavrov said, witnessed how the US tried to make India "to follow the American vision of how this region should be developed". It appears that Russia used Putin's visit to put the US in a spot by leaning more heavily than required on its friendship with India. That line of thinking is open to interpretation because the US has not followed up on the sanctions threat. After all, it understands the challenges India faces from its neighbours in the west and east. Also, the US and India have their association in the Indo-Pacific in the form of QUAD. Lavrov's statement, however, may have more to do with two areas of current friction between Russia and the US. One is the Russian troop movement near Ukraine's borders amid speculations of a conflict. Lavrov's remarks came just a day before the Biden-Putin virtual summit on the issue. The US has said it will send reinforcements to Nato's eastern flank if Russia invades Ukraine. The second issue is Biden's invite to 100-odd countries to his Summit of Democracy on December 9 and 10. Ukraine has been invited to the summit, but Russia stands excluded.

Dam it!

Tamil Nadu's ban on *Dam 999* continues since 2011, and on a flimsy narrative

The DMK and its natural allies, the Communists, are always in the forefront to agitate against the violation of the right to free speech. But it is shocking that the Dravidian Government continues to ban a 2011 production, *Dam 999*. The movie, which bagged several national and international honours, was shortlisted for even the Oscars. However, the TN Government banned it citing law and order problems. Though bans were earlier imposed on certain films like *Vishwaroopam* and *Thuppakki* fearing reprisal from a minority community, the issues were resolved within days and those were released to a grand welcome. Meanwhile, the State Government's reason for banning the movie is ambiguous. "The film's story is woven around the Mullaperiyar Dam; the core issues are pending before the Supreme Court. If the ban is lifted, there may be widespread agitation and disruption of peace," states the November 22, 2021, order issued by the Additional Chief Secretary. Film's producer-director Sohan Roy says that there was nothing in *Dam 999* which could upset law and order in Tamil Nadu.

"The movie was released all over the world, except in Tamil Nadu, though we had hired many artists and technicians from that State for the project, including national award-winning designer Thotta Tharini. The film makes no reference to the Mullaperiyar Dam and the storyline was based on the bursting of the Banqiao Dam in China in 1975, which resulted in the death of 2.5 lakh people. I never had Mullaperiyar in my mind when I was shooting the movie," Roy adds. The ban is seen as the "true colours" of the Dravidians, according to noted author and film critic PK Sreenivasan. "History is repeating itself in Tamil Nadu. MG Ramachandran was thrown out of the DMK for questioning the party leadership's stance on a number of issues. We cannot expect anything different from them even now," Sreenivasan comments on the ban issue. The truth is that Tamil Nadu does not like to discuss the Mullaperiyar Dam. The term '999' evokes nervousness in the powers that be there since they know that the 999-year-long agreement is a fraud perpetrated on the people of Travancore by the then Madras Province. How an incident that reportedly happened in China could force the people of Tamil Nadu to violate law and order is anybody's guess. Dams should not be used for damning creativity!

Propaganda around China's 'infallibility'

BHOPINDER SINGH

Under Xi Jinping's leadership, the seeds of Mao's manipulative propaganda tactics have mushroomed like never before in China

In the early days of 'helmsman' Mao Zedong's Chinese revolution, propaganda assumed a key role in shaping the Chinese optics, discourse and popular narrative. In 1958, the mouthpiece of the Chinese Communist Party, *People's Daily*, wrote: "...today, in the era of Mao Zedong, heaven is here on earth..." — ironically, this was also the year of the start of the Great Chinese Famine that has been regarded as amongst the greatest manmade disasters in human history, accounting for millions (estimates ranging from 15 to 55 million) deaths. The instinctive cover-up reaction of the Chinese officialdom entailed releasing propaganda posters of Chinese children standing atop surreal green fields of wheat so dense that they could hold their weight — the reality of the 'fields', actually made of deliberately transplanted stalks with a bench to hold the children, was hidden from the masses.

Today, in Xi Jinping's China, the seeds of Mao's manipulative propaganda tactics have mushroomed like never before, and the curation of the 'Chinese Dream' is a zealously guarded effort that brooks no contrarian viewpoint. Xi's barely concealed and insidious efforts to "tell China's story well" comes packaged with the usual spirit of defensive and reactive censorship, heavily massaged headlines, deflections to even outright buying out international opinions eg, *South China Morning Post*. Awkward subjects like the ensuing dissonance in Hong Kong, Xinjiang, Tibet or the Dalai Lama remain subject to editorial manicuring with the requisite smoke-and-mirrors to ensure that the domestic audience does not get 'brainwashed' to what Xi calls "western values of journalism". An important aspect of this control phenomenon is to define the so-called redlines that necessitates the continuing maintenance of the official charade of the Communist Party's supremacy, infallibility and perfection — anyone questioning the same risks immediate threat or, in Chinese context, mysterious disappearances.

Last year, flamboyant Chinese entrepreneur Jack Ma, at

the cusp of the world's largest public offering of his company ie The Ant Group (a flourishing empire including the Alibaba, then valued at well over \$1 trillion), was subjected to a reality check of overstepping the mandated redlines (in this case, criticising Chinese regulatory policies) in Xi's hypersensitive China, and soon disappeared. Since then, Ja Ma has gone under the radar with patchy, dubiously organised and sanitised public appearances, that are typical of China's treatment of anyone blowing the lid off the official narrative. Many others like award-winning photographer Lu Guang, businesswoman Duan Weihong, actress Zhao Wei, artist and activist Ai Weiwei, real estate tycoon Ren Zhiqiang — all followed the patented route of inexplicable 'disappearances'. No criticism of the leader, party or its policies is ever tolerated.

Now, the hardly curious case of former No 1 women's tennis doubles player, Peng Shuai, follows the exact same path. Her crime: Calling out the bluff of so-called discipline, propriety and morality within the top ranks of the CCP by accusing former Chinese Vice-Premier Zhang Gaoli of sexual assault. Expectedly, Chinese social media platform Weibo took down Peng Shuai's post and discussions about her

THIS IS THE THIN ICE ON WHICH THE CHINESE SOCIETY, GOVERNANCE AND SUSTAINABILITY IS PREDICATED; XI JINPING KNOWS THIS, AND THEREFORE AMONG HIS PREDECESSORS, HE PREFERS MAO ZEDONG'S HARD PROPAGANDA APPROACH

sudden disappearance were heavily censored within the controlled realm of Chinese media, and her physical whereabouts remained unconvincingly scanty. Following a concerted effort by the World Tennis Association (WTA), the Chinese Tennis Association issued perfunctory assurances that Peng Shuai was safe and "not under any physical threat". In a throwback to Ja Ma's carefully calibrated 'reappearances' that raised a lot more questions than it addressed, Peng Shuai too has started making what is increasingly getting dubbed as 'hostage videos'. For an internationally active player, there has been an inexplicable curb on access and ability to reach out to her with strangely incommunicado and stage-managed 'sightings', dished out as means of meaningless reassurances of normalcy. Unfortunately, and embarrassingly so for the Chinese, the WTA Tour has suspended its tournaments in China and upped the ante, exactly what the Chinese were seeking to avoid, in their quest to suppress the truth and the accompanying outcry. Crucially, this specific disappearance (unlike countless others) could further sully the Chinese perceptions, weak as they are in the COVID era, to derail the Winter Olympics which are due in a

couple of months. It's not so much about defending Gaoli's personal reputation (who too remains away from public gaze) as much as it is about defending the linear mirage of the 'Chinese Dream' (read, Party's governing capacity and infallibility) and of, therefore, avoiding the dangerous precedent of 'questioning' any of its imperatives. The *People's Daily*, which noted the "heaven on earth" analogy in 1958, launched its English daily tabloid, *Global Times*, in 2009 with the same level of propagandistic enthusiasm — so it noted WTA's action as "pursuit of political correctness", "forcing her to comply in accordance with the imagination and expectations of Western public opinion" and as "politicisation of sports", all the while remaining deflective on the specifics of Peng Shuai's disappearance. This is the thin ice on which the Chinese society, governance and sustainability is predicated; Xi Jinping knows this, and therefore among his predecessors, he prefers Mao Zedong's hard propaganda approach to the relatively reformist approach of Deng Xiaoping. (The writer, a military veteran, is a former Lt Governor of Andaman & Nicobar Islands and Puducherry. The views expressed are personal.)

LETTERS TO THE EDITOR

THE PANDEMIC IS PERHAPS INVINCIBLE

Sir — No country, no community, no individual is safe until everyone across the world is safe. The emergence of a new Coronavirus variant has once again brought the spotlight on how unprecedented the pandemic is and how precarious the situation we're all in. We may have come to think that the pandemic is over, but the virus is still with us. As we speak, scientists across the world are scrambling to gather more data on the Omicron variant to understand how dangerous it is in terms of transmission and severity, and whether the currently available vaccines will be effective against it. The World Health Organisation has designated Omicron — the B.1.1.529 lineage of Sars-Cov-2 — as a variant of concern, leading to fears of another global surge in cases.

Dozens of countries have imposed travel bans from South African nations, where the Omicron variant was first identified. Others have imposed stricter measures to curb the spread of the Omicron variant. As on date, at least 38 countries have confirmed Omicron cases. Meanwhile, a number of countries have started booster vaccinations as a preventive measure against the new strain. But the question is: As long as vaccine inequity is not addressed, can the world think of defeating the Coronavirus pandemic and restoring normalcy?

KEEP YOUR FRIENDS CLOSE

Sir — Russian President Vladimir Putin's India visit should bolster bilateral ties between the two countries. Foreign policy is a matter of costs and benefits; no two nations are permanent foes. New Delhi, of course, is not on a slippery slope as far as its military and trade ties with Moscow are concerned. An old and traditional connection cannot go haywire just like that, and that was exemplified in no uncertain terms by Putin's India visit. The 2+2 meeting between the defence and foreign ministers of both the countries was held in a conducive atmosphere. India holds 2+2 ministerial meetings with

Numbers make all the noise

Despite climbing to the third position in the list of most wicket-takers in Test cricket in India and leading the team to victory innumerable times, Ravichandran Ashwin continues to be criticised and compared. He has done remarkably well as an off-spinner for Indian cricket time and again. Whether it is ODI, T20 or Test cricket, Ashwin adjusts as per the format and situation on ground and plays a pivotal role.

He has won the 'Man of the Series' award nine times in his illustrious career. He stands up to the challenge when the chips are down and can perform with the bat as well.

Ashwin came, saw and conquered the cricketing field with a purpose. Ironically, the last wicket of New Zealand cricketer Henry Nicholls was taken by the ace spinner to hasten the end of Kiwi innings in the two match Test series. Ashwin has reached a historic milestone in test cricket. The off-spinner went past Anil Kumble and Harbhajan Singh in taking 50 wickets in a calendar year for the most number of times. Ashwin is a star spinner and instead of criticising him or comparing his bowling figures with other bowlers, we should remember the times he held the fort and saved the day for Team India.

CK Subramaniam | Mumbai

the United States, Japan and Australia and, thus, Russia became the fourth country to be accorded that importance. President Putin hailing India as a "great power" should do wonders for healthy bilateral relations.

Military, space, power, energy and infrastructure sectors between India and Russia are all set to be further expanded in the aftermath of President Putin's short but crucial visit. Interpersonal relations between the two have always been above board. There is nothing unusual in differences of opinion between the two friends. Putin kept away from the G20 and rescheduled his Beijing visit amid the pandemic; but kept his word on attending the summit in India. New Delhi, therefore, has to engage Russia on a personal level keeping with its dehyphenation policy on international relations.
Ganapathi Bhat | Akola

THE BJP SHOULD LEARN TO BE HUMBLE

Sir — There is little doubt that the repeal of the three contentious farm laws that were hastily passed in September last year is a victory for the farming community,

and the triumph justly connotes the popular saying, "Farmers are the backbone of the Indian economy." However, the about turn made by Prime Minister Narendra Modi is nothing but a sheer political opportunism with an eye on the forth-coming assembly elections in the key States of UP, Punjab and Uttarakhand, and as well in the wake of the BJP's recent dismal performance in bypolls.

The rollback of the farm laws shows how politically difficult it will be for India to overhaul a sector that supports about 60 per cent of the country's population. The farmers' victory is a tribute to their unprecedented struggle that it not only withstood the multi-fanged State repression, but, in fact, increased its defiant resistance massively for a year. The ruling BJP must have learnt a hard-hitting lesson that a community, which is strongly united for a cause, can never be defeated.

Ranganathan Sivakumar | Chennai

SOUNDBITE

There is no need to panic. I request you all to maintain social distancing and wear masks.

Delhi Chief Minister —Arvind Kejriwal

Right now, the drug companies have set the prices at whatever the market will bear.

US President —Joe Biden

Today I completed 25 years in our wonderful film industry. I am, and will always be, eternally grateful.

Actor —Arshad Warsi

As I have said earlier and saying it again, Virat Kohli is the best Test captain India has ever had.

Former Indian cricketer —Irfan Pathan

The BJP has made the country economically weak and has created a rift between people of different communities.

SP chief —Akhilesh Yadav

WTO AND COMMON IP FOR COVID VACCINES

Dissent persists on whether a waiver is answer to shortage and inequitable distribution of vaccines

PK VASUDEVA

The WTO's 12th Ministerial Conference (MC12), scheduled to be held in Geneva, stands postponed again because of the outbreak of the Omicron Coronavirus variant. At MC12, whenever it is now held, ministers will be reviewing the functioning of the multilateral trading system, delivering prepared statements, and taking action on the WTO's future work programme. As is known, the Doha Development Round, launched in 2001, has had a very rocky journey with a low level of achievement. Its main success was the adoption of the Agreement on Trade Facilitation at MC9 in 2013. There is, therefore, considerable pressure for a successful outcome at MC12 at a formal meeting of the Council for Trade-Related Aspects of Intellectual Property Rights (TRIPS) on November 18. WTO members agreed to keep actively engaging up until the WTO's MC12 in order to find a common intellectual property (IP) response to Covid-19. Members adopted the oral

status report of the TRIPS council. The text provides a factual overview of discussions held at the Council since October 2020, on the proposal by India and South Africa requesting a waiver from certain provisions of the TRIPS Agreement for the prevention, containment and treatment of COVID-19 and the proposal by the European Union for a draft General Council declaration on the TRIPS Agreement and Public Health in the circumstances of a pandemic. On the waiver request, the report indicates that disagreement persists on the fundamental question of whether a waiver is the appropriate and most effective way to address the shortage and inequitable distribution of, and access to, vaccines and other COVID-19-related products. The role of IP in the context of the pandemic has become the centre of attention in the run-up to MC12, and a pragmatic and tangible outcome of these discussions would be a strong and positive signal to the Ministerial Conference and the global community as a whole. The chair of the WTO's agriculture negotiations, Ambassador Gloria Abraham Peralta, told heads of delegations at a meeting on 15 November that she plans to circulate a revised draft negotiation text as soon as possible. The first draft negotiation text was introduced on July 29, with the chair proposing suggestions for a possible agriculture package at MC12. The text encompasses the seven main negotiation topics — domestic support, market access, export restrictions, export competition, cotton, public stockholding for food security purposes (PSH) and a special safeguard mechanism (SSM) as well as cross-cutting transparency issues. The chair emphasized the draft was based on members' discussions as well as her consultations in various configurations and served as a starting point for the final text-based negotiation phase before MC12. The chair also reported to WTO members on the state of play in the negotiations. She said the most recent consultations have focused on engaging members to find convergences on three primary issues: domestic support, public stockholding for food security purposes and, to a lesser extent, market access. Other members reaffirmed that a meaningful MC12 outcome on agriculture will address the compelling issue of food and livelihood security in light of the pandemic and commit members to continuing agricultural reform to make the agriculture trading system fit for purpose. Singapore presented a paper outlining its responses to the questions posed by India regarding an initiative that calls for exempting the World Food Programme's humanitarian food purchases from any export restriction. The initiative has gained wide support from most members and was described by many as a "low-hanging fruit" for MC12.

Colonial outlook can't fix climate issues now

ASHWANI MAHAJAN

Singling out coal won't serve the purpose. India's argument that other fossil fuels used by the rich nations are equally responsible for emissions is logical

Recently the United Nations Environment Conference 'COP 26' concluded in Glasgow, UK. India was praised at this conference, for Prime Minister Narendra Modi's "Panchamrit" commitment for safe environment. Today's environmental crisis is actually linked to the existence of humanity. The devastation caused by the changing climate is now affecting the common man all over the globe.

Cloudbursts in the Himalayan region of Uttarakhand, excessively low rainfall in some regions and excessive rainfall in some others, and resulting droughts and floods, and causing diseases and resulting in climate change inducing natural calamities, all are impacting lives in the country today. Globally, life on small islands is endangered due to rising sea levels. Environmental hazards are also becoming the cause of large-scale displacement. If we do not rise to the occasion, this earth will not remain a habitable place in the next few decades.

In view of this concern, environmental conferences are being organized under the auspices of the United Nations annually since 1994. These conferences are also called 'United Nations Framework Convention on Climate Change'. At the Environment Conference held in Kyoto, Japan a treaty was signed, known as the 'Kyoto Protocol', (with amendments in Doha's Environment Conference in 2012), according to which countries announced targets to reduce their emissions of greenhouse gases. The 'Kyoto Protocol' was the last such agreement in which developed countries accepted their responsibility to reduce the emission of greenhouse gases emissions; and the less developed and developing countries were exempted from the responsibility of reducing the emission of these gases for some time.

After the 2015 Paris's Environment Conference, India, with a liberal change in its earlier stance, unilaterally pledged to reduce emissions of greenhouse gases and made it clear that India would not only live up to its ambitions but also raise the same. But India had also made it clear that developed countries should desist from blaming India for environmental degradation or global warming. The reality is that if seen from the historical perspective, today the world is suffering the consequences of what happened in the last 100 years. Whereas the United States is responsible for 40 per cent of greenhouse gases emissions, Europe's and China's contribution is 10 per cent and 28 per cent respectively, India is responsible for merely three per cent for these emissions.

India had said that while the rich countries are responsible for a major part of the emissions, they had not lived up to their promise, made in Copenhagen, to provide \$100 billion to the developing and least-developed countries to deal with the

THE NEED OF THE HOUR IS THAT IF THE EARTH IS TO BE KEPT HABITABLE, THE DEVELOPED COUNTRIES HAVE TO MAKE AVAILABLE THEIR RESOURCES AND TECHNOLOGY FOR IT. THEY WILL HAVE TO COME OUT OF THEIR COLONIAL MINDSET THAT THEY ARE THE RULERS OF THE WORLD AND CAN DO ANYTHING THEY DESIRE

(The writer is a Professor in PGDAV College, University of Delhi. The views expressed are personal.)

environmental crisis. Moreover, given the magnitude of the problem and the efforts needed to deal with the same, even \$1 trillion may fall short of the requirement. Unfortunately, there is no reference to the commitment of \$100 billion in COP26's final document. Rather, all efforts are being made to put the blame on India for the environmental crisis due to over usage of coal. In the draft of the final document of the Environment Conference of Glasgow (UK), the rich countries included the condition to phase out of coal in the draft declaration, and when India refused to accept the same, a campaign was started in the western media to defame India that it is becoming an obstacle in the way to solution of environmental crisis.

Whereas the media in the west is trying to portray India as the villain of the environmental crisis for not accepting the condition to phase out coal usage in the final document, countries like the US, Europe and China, who are main culprits, are nowhere close to being held responsible. We need to understand that singling out coal will not serve the purpose. India's argument that other fossil fuels like petroleum and gas are equally responsible for emissions is a logical one. However, since the US and Europe have an advantage in

using them (petroleum and gas), there is no mention of reducing emissions from these fossil fuels in the final document, which is downright unfair.

Today, when the developed countries are calling India a hindrance to the environmental treaty, they have to introspect and realize that the reason for the present environmental crisis is the uncontrolled consumption by those countries, which is reflected in the fact that the US and Europe alone — where only 14 per cent of the total world's population lives — account for 50 per cent of the greenhouse gas emissions in the last 100 years.

Not only this, even today the per capita emission of greenhouse gases in India is only 1.77 metric tons, while in America it is 14.24 metric tons and in England it is 4.85 metric tons, and in China also the per capita emission of greenhouse gases is 7.41 metric tons. The main reason for excessive greenhouse gas emissions in developed countries is wasteful and irresponsible consumption, which is due to their lifestyle. Developed countries today are not ready to concede that the present environmental crisis is due to their stubbornness to not change their lifestyle. The people of these countries and their leadership will have to realize that they have to control

their consumption to overcome the current environmental crisis. Whether it is the goal of not allowing the world's temperature to rise more than 1.5 degrees from the pre-industrial level, or the reduction in smoke, the only solution is the control of consumption, for which the developed countries have the main responsibility.

Apart from this, the efforts made by developing countries and underdeveloped countries like India to reduce the emissions of greenhouse gases and global warming will require the use of technology. This technology is available mainly with the developed countries, which they want to share only for a hefty price. On the other hand, developing and underdeveloped countries will have to increase the use of renewable energy such as solar energy, wind energy, etc., for which they will need more investment and technology. The need of the hour is that if the earth is to be kept habitable, the developed countries have to make available their resources and technology for it, rich countries will have to come out of their colonial mindset, that they are the rulers of the world and can do anything they desire. It should not be forgotten that heat emanating from global warming will not spare even these rich countries.

POINTCOUNTERPOINT

WE WILL SOON WRITE TO THE CENTRE AND MEET THE UNION HOME MINISTER, URGING TO OPEN TRADE WITH NEIGHBOURING PAKISTAN. —PUNJAB CHIEF MINISTER CHARANJIT SINGH CHANNI

THE NEIGHBOURING NATION SHOULD FIRST STOP KILLING INDIAN SOLDIERS, THEN WE WILL TALK ABOUT TRADE. —FORMER PUNJAB CHIEF MINISTER CAPT AMARINDER SINGH

The Congress faces a host of challenges before 2024

All Opposition parties might be willing to unite under Sonia Gandhi's leadership; however, they have reservations against Rahul Gandhi

Will Congress perish as West Bengal chief minister Mamata Banerjee and others believe? Even in the past, many predicted the end of Congress, but it survived many onslaughts. The latest was in 1998 when Sonia Gandhi emerged, Sphinx-like, to revive it and rule from 2004-2014. The 2019 Lok Sabha results gave Congress 12 crore votes, though seat-wise it got only 52. Even in its second successive defeat in 2019, the party retained a solid block of 20 percent votes. The Gandhi family is complacent, believing that the voters will get disenchanted sooner than later and return to the Grand Old Party. No doubt they live in a fool's paradise as there is an urgent need to revive the

KALYANI SHANKAR

(The writer is a senior journalist. The views expressed are personal.)

party. Undoubtedly, Congress faces a leadership crisis and challenges from many sides.

The first is to quell the internal indiscipline and revolt. The group of 23 led by Ghulam Nabi Azad is an example and this disenchantment is prevalent in almost all states.

The second comes from within the Opposition bloc. Of late, West Bengal chief minister Mamata Banerjee's attack, backed by the wily NCP chief Sharad Pawar, has intensified. Now that Mamata has decided to bid for the Prime Minister's post in 2024, she is trying to edge out Congress from the opposition bloc. As a first step, Banerjee is preparing to broad-base her party and also gain pan-national recognition.

The third is the shrinking Congress party in many states and even regions. Congress should now aim to build upon the 12-crore voter base instead of embroiling itself in self-made controversies. Of the 186 direct fights between BJP and Congress in 2019, the former won 170 seats, amounting to a 91.4 percent strike rate. It bagged 162 of these seats in the 2014 elections. The Congress, which won 24 of these seats in 2014, has come down to 15. In Uttar Pradesh,

Bihar, Rajasthan, Madhya Pradesh, Haryana, Uttarakhand, Jharkhand, Chhattisgarh, Odisha, Himachal Pradesh, and West Bengal, where it ruled in the past, Congress won only 10 out of 286 seats. The party has no representation from 20 states. Further, BJP has taken over the opposition space in Odisha, Tripura, and West Bengal, where Congress was traditionally the main opposition. Also, the regional parties continue to put up a much better fight than Congress.

So, what are the options for the party now that there are cracks within the opposition?

The first is to think of a long-term strategy and start preparing for 2024. Mamata is

doing precisely that. Congress is involved in short-term quick-fix solutions, often messing up the party's chances as they did in Punjab recently. But before that, the party needs to resolve its leadership crisis, which has been going on since August 2019.

The second is that the party needs enormous resources and committed booth committees to compete with BJP. Once these two are addressed, the other things are more manageable.

The third is to find ways of uniting the opposition. Sonia Gandhi has the stature to do this as almost all opposition parties might be willing to unite under her leadership, but they have reservations against Rahul Gandhi. If necessary, the Gandhi family

should pave the way for some other leader.

The regional leaders realize that though they could contain BJP in their states, they do not have a pan-national presence. Even today, therefore, they need a party like Congress; every village has a congressman.

Last Sunday, Shiv Sena mouthpiece *Saamna*, in its editorial, said that pushing the grand old party away from national politics and creating an Opposition grouping parallel to the UPA (United Progressive Alliance) would only strengthen BJP and "fascist" forces. Though Mamata tried to woo the Sena during her recent visit, Sena does not want to lose its government because Congress is its coalition partner in Maharashtra.

Rahul Gandhi has been in politics since 2004, but he is not yet accepted as the opposition face. Rahul's efforts to befriend second-generation leaders like Akhilesh Yadav have not succeeded. He needs an image makeover.

The fourth and more complex option is to give a call to all those leaders who had left Congress to come back. This idea springs up on and off. Congress has been the parent of many ruling parties like the NCP, TMC, YSRCP. There have been suggestions that such a united party could function under a presidium and collective leadership. But the parent party is hesitant to take such a plunge. A united Congress, than a divided opposition, is a more formidable opponent to BJP.

Biden to warn Putin of economic pain if he invades Ukraine

AP ■ WASHINGTON

President Joe Biden is ready to warn Vladimir Putin during a video call Tuesday that Russia will face economy-jarring sanctions if it invades neighboring Ukraine as Biden seeks a diplomatic solution to deal with the tens of thousands of Russian troops massed near the Ukraine border.

Ukrainian authorities charged that Russia is sending tanks and snipers to war-torn eastern Ukraine to "provoke eastern fire."

Ukraine's Defense Ministry alleged that Russia is holding "training camps under the leadership of regular servicemen of the Russian Armed Forces." The Kremlin hasn't commented on the allegations.

The U.S. has not determined whether Putin has made a final decision to invade. Still, Biden intends to make clear to the Russian leader that there will be a "very real cost" should Russia proceed with military action, according to a senior administration official who briefed reporters on the condition of anonymity.

Biden was vice president in 2014 when Russian troops marched into the Black Sea peninsula of Crimea and annexed the territory from Ukraine. Aides say the Crimea episode — one of the darker moments for former President Barack Obama on the international stage — looms large as Biden looks at the current smoldering crisis.

The eastward expansion of NATO has from the start been a bone of contention not just with Moscow but also in

Rohingya sue Facebook for \$150B, alleging role in violence

AP ■ LONDON

Rohingya refugees sued Facebook parent Meta Platforms for more than \$150 billion over what they say was the company's failure to stop hateful posts that incited violence against the Muslim ethnic group by Myanmar's military rulers and their supporters.

Lawyers filed a class-action lawsuit Monday in California saying Facebook's arrival in Myanmar helped spread hate speech, misinformation and incitement to violence that "amounted to a substantial cause, and eventual perpetuation, of the Rohingya genocide."

Lawyers in the United Kingdom have issued notice of their intention to file a similar legal action. Facebook, which was recently renamed Meta, did not immediately reply to a request for comment.

It's the latest in a series of accusations that the social media giant fueled misinformation and political violence, outlined in redacted internal documents obtained by a consortium of news organizations, including The Associated Press. The combined legal

claims of Rohingya refugees are being filed on behalf of anyone worldwide who survived the violence or had a relative who died from it.

The Rohingya are a Muslim ethnic group forced to flee persecution and violence in Myanmar starting in 2017, with an estimated 1 million living in refugee camps in neighboring Bangladesh. Some 10,000 have ended up in the United States.

In 2018, United Nations human rights experts investigating attacks against the Rohingya said Facebook had played a role in spreading hate speech.

More than 10,000 Rohingya have been killed and more than 150,000 were subject to physical violence, according to the law firms organizing the cases.

The lawsuits say Facebook's algorithms amplified hate speech against the Rohingya people and that it didn't spend enough money to hire moderators and fact checkers who spoke the local languages or understood the political situation. They also say Facebook failed to shut accounts and pages or take down posts incit-

ing violence or using hate speech directed at the ethnic group.

Facebook arrived in Myanmar in 2011, arranging for millions of residents to access the internet for the first time, according to the lawsuit filed in California Superior Court for San Mateo County.

But the lawsuit says the company did little to warn people about the dangers of online misinformation and fake accounts — tactics employed by the military in its campaign against the Rohingya.

The lawsuit says Facebook knew that rewarding users for posting dangerous content and allowing fake accounts created by autocrats to flourish would radicalize users.

"The resulting Facebook-fueled anti-Rohingya sentiment motivated and enabled the military government of Myanmar to engage in a campaign of ethnic cleansing against the Rohingya," the lawsuit says.

UAE BECOMES FIRST COUNTRY TO TRANSITION TO 4.5 DAY WORK WEEK

Targets to boost work-life balance

PTI ■ DUBAI

The United Arab Emirates on Tuesday announced to change its existing five-day workweek to a four-and-a-half day starting January 1, becoming world's first country to make employee-friendly transition as part of its efforts to improve productivity and work-life balance.

According to new schedule, Monday to Thursday work timings would be from 7.30 am to 3.30 pm, followed by a half day on Friday from 7.30 am to 12.00 pm, said UAE Government Media Office.

Saturdays and Sundays are full-day holidays under new rule. The government said: "Longer weekends to boost productivity and improve work-life balance; starting from 1st of January, 2022." In line with announcement, the government said all Friday sermons and prayers would be held after 1.15 pm henceforth. Further, employees would be offered flexible working hours and work-from-home options on Friday. The

government's move is expected to make it come closer to timings of US, UK and Europe, boosting commerce. The new system will first be implemented in all federal government entities; schools, colleges and private institutions are expected to follow suit. The Emirati governments of Dubai and Abu Dhabi have already announced four-and-a-half day workweek.

The UAE Government Media Office said extended weekend comes as part of efforts to boost work-life balance and enhance social wellbeing, while increasing performance to advance country's economic competitiveness.

From an economic perspective, the new working week will better align Emirates with global markets, reflecting country's strategic status on global economic map, the Khaleej Times reported. It will ensure smooth financial, trade and economic transactions with countries that follow a Saturday/Sunday weekend, facilitating stronger international business links and opportunities for thousands of UAE-based and multinational companies, the media office said.

Motorcycle explosion in southern Iraqi city kills at least 4

AP ■ BASRA, IRAQ

A motorcycle rigged with explosives went off in center of Iraq's southern city of Basra on Tuesday, killing at least four people and wounding four others, according to Iraqi security forces. The blast set ablaze two other vehicles and sent a column of black smoke into sky.

The governor of Basra, Asaad al-Idani, told reporters on scene that a motorcycle had exploded, quickly blaming militants from Islamic State group. There was no immediate claim of responsibility for morning attack near a major hospital, which shook residents of city. Iraq's Security Media Cell, an outlet affiliated

with country's security forces, said in a statement that four people were killed and four were wounded as a result of the fire in two cars that were near motorcycle. It said forensic teams were at the scene of the blast and that more details would be released on nature of explosion, once investigations were completed. Explosions have been rare in oil-rich, predominantly Shiite Basra region in recent years, particularly since defeat of Sunni militant Islamic State group in 2017.

"Daesh is trying to destabilize security in Basra, but it will not be successful," Al-Idani said after inspecting damage from blast, using Arabic acronym for Islamic State group.

Whistleblower: As Afghanistan fell, UK abandoned supporters

AP ■ LONDON

Britain's Foreign Office abandoned many of the nation's allies in Afghanistan and left them to mercy of the Taliban during the fall of capital, Kabul, because of a dysfunctional and arbitrary evacuation effort, a whistleblower alleged Tuesday.

In devastating evidence to a parliamentary committee, Raphael Marshall said thousands of pleas for help via email were unread between Aug. 21 and Aug. 25. The former Foreign Office employee estimated that only 5% of Afghan nationals who applied to flee under one U.K. program received help. He said that at one point, he was only person monitoring inbox.

"There were usually over 5,000 unread emails in inbox at any given moment, including many unread emails dating from early in August," he wrote to Foreign Affairs Select Committee, which is investigating Britain's chaotic departure from Afghanistan. "These emails were desperate and urgent. I was struck by many titles including phrases such as

'please save my children.' Marshall said some of those left behind had been killed by Taliban. One of Marshall's most explosive allegations is a claim that British officials spent time and energy arranging evacuation of almost 200 dogs and cats from a Kabul animal shelter run by Nowzad, a charity founded by former Royal Marine Pen Farthing.

Marshall claimed Foreign Office staff had "received an instruction from Prime Minister to use considerable capacity to transport Nowzad's animals." He claimed British soldiers were put at risk to get the animals out of Kabul.

Prime Minister Boris Johnson's spokesman, Max Blain, said allegation was "entirely untrue" and neither Johnson nor his wife Carrie, an animal-welfare advocate, had been involved in helping animals leave.

China protests US diplomatic boycott of Beijing Winter Olympics

AP ■ BEIJING

China accused the United States of violating the Olympic spirit on Tuesday after the Biden administration announced a diplomatic boycott of Beijing Winter Games over human rights concerns.

Rights groups have pushed for a full-blown boycott of Games, accusing China of rights abuses against ethnic minorities.

The US decision falls short of those calls but comes at an exceptionally turbulent time for relations between powerhouse nations and was met with a barrage of criticism from China.

The US is attempting to interfere with Beijing Games "out of ideological prejudice and based on lies and rumors," Foreign Ministry spokesperson Zhao Lijian told reporters.

The boycott "seriously violates principle of political neutrality of sports established by Olympic Charter and runs counter to the Olympic motto 'more united,'" Zhao said. As he did previous day, Zhao vowed that China would respond with "resolute countermeasures" but offered no details.

The Project Manager Construction Unit
Uttarakhand Pejal Nigam Ranikhet (Almora) 263645

NOTICE
 (For the attention of Shareholders of Superior Finlease Limited)

Notice is hereby given that the Extraordinary General Meeting (EGM) of the Members of Superior Finlease Limited is scheduled to be held on Wednesday, December 29, 2021, at 03:00 P.M. through Video Conferencing ("VC") Other Audio Visual means ("OAVM") to transact the Business as set out in the Notice of EGM. The Notice of the EGM and remote e-voting details has been sent in electronic mode to all the members whose e-mail IDs are registered with the Company/ RTA/ Depository.

In case you have not registered your email address with the Company/ Depository Participant(s) then please follow below instructions to register your email id for obtaining Notice and login details for e-voting.

- In case shares are held in physical mode please provide Folio No., Name of shareholder, scanned copy of the share certificate (front and back), PAN (self attested scanned copy of PAN card), AADHAR (self attested scanned copy of Aadhar Card) by email to superiorfinlease@gmail.com.
- In case shares are held in demat mode, please provide DPID-CLID (16 digit DPID + CLID or 16 digit beneficiary ID), Name, client master or copy of Consolidated Account statement, PAN (self attested scanned copy of PAN card), AADHAR (self attested scanned copy of Aadhar Card) to superiorfinlease@gmail.com.

Alternatively, Member may send an e-mail request to evoting@nsdl.co.in for obtaining User ID and Password by providing the details mentioned in Point (1) or (2) as the case may be.

Notice is hereby given in compliance with the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 (as amended), and the MCA Circulars, the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the EGM. For this purpose, the Company has engaged the services of National Securities Depository Limited (NSDL) to provide the e-voting facility.

The remote e-voting period will commence on Sunday, December 26, 2021 at 09:00 A.M. and end on Tuesday, December 28, 2021 at 05:00 P.M. During this period, the Members of the Company holding shares in the physical or e-electronic form as on the cut-off date i.e. Wednesday, December 22, 2021 may cast their vote electronically. The e-voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the Member, he / she shall not be allowed to change it subsequently or cast vote again. Any person, who acquires shares of the Company and become member of the Company after dispatch of the notice and holding shares as of the cut-off date i.e. December 22, 2021, may obtain the login ID and password by sending a request at evoting@nsdl.co.in or compliance@skyinfiertra.com.

The detailed procedure for remote e-voting is contained in the letter sent with the Notice of the EGM.

The Notice of the EGM will also be available on the Company's website <http://www.superiorfinlease.com/> and also on the website of BSE Limited at <https://www.bseindia.com/> and Metropolitan Stock Exchange of India Limited at <https://www.msei.in/> where the shares of the company are listed.

Shareholders, who may have questions/queries, can send their questions/queries in advance mentioning their name, demat account number/folio number, email id, mobile number at superiorfinlease@gmail.com latest by Friday, December 24th, 2021. The same will be replied by the company suitably.

In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and e-voting user manual for Shareholders available at the download section of www.evoting.nsdl.com or call on toll free no.: 1800-222-990 or send a request at evoting@nsdl.co.in.

Members, who still hold share certificates in physical form, are advised to dematerialise their shareholding to avail the numerous benefits of dematerialisation, which include easy liquidity, ease of trading and transfer, savings in stamp duty and elimination of any possibility of loss of documents and bad deliveries. Further, Members are hereby informed that the Company will not entertain any request for physical shareholding from the Record Date which will be intimated accordingly post approval of stock split and thus this is hereby requested to the Members to Dematerialise their Shareholding so that the number of sub-divided Equity Shares be credited to the respective beneficiary accounts of the shareholders with the Depository Participants, in lieu of the existing credits representing the Equity Shares before sub-division.

Indian-origin USAF doctor among 10 chosen by NASA for as astronauts future missions

PTI ■ HOUSTON

Indian-origin physician Anil Menon, a lieutenant colonel at the US Air Force, has been selected by NASA along with nine others to be astronauts for future missions, the American space agency has announced.

Menon, 45, was born and raised in Minneapolis, Minnesota, to Ukrainian and Indian immigrants. He was SpaceX's first flight surgeon, helping to launch the company's first humans to space during NASA's SpaceX Demo-2 mission and building

a medical organisation to support the human system during future missions.

In a statement, NASA announced that it has chosen 10 new astronaut candidates from a field of more than 12,000 applicants to represent the US and work for humanity's benefit in space.

NASA Administrator Bill Nelson introduced the members of the 2021 astronaut class, the first new class in four years, during a Monday, December 6 event at Ellington Field near NASA's Johnson Space Center in Houston.

TRAI to TELCOS Allow port out SMS facility irrespective of tariff offer

New Delhi: Sector regulator TRAI on Tuesday directed telecom operators to "immediately" enable port out SMS facility for all mobile users requiring it, irrespective of value of their tariff offer, vouchers, or plans.

The Telecom Regulatory Authority of India (TRAI) took a strong note of telecom service companies not providing outgoing SMS facility in certain prepaid vouchers.

TRAI said in the recent past it has received complaints from subscribers over their inability to send SMS on short code 1900 specified for UPC (Unique Porting Code) generation, for availing mobile number portability facility despite having sufficient balance in their prepaid accounts. "Now therefore the authority...Directs all access

service providers to enable, with immediate effect, for all mobile subscribers, both prepaid and postpaid, requesting for a unique porting code, the facility to send SMS on short code 1900, in order to exercise their right to avail porting facility in accordance with the Telecommunication Mobile Number Portability Regulations, 2009. Irrespective of the value of the tariff offer/vouchers, "TRAI said in its direction.

The regulator said that the practice of non-provision of the facility of sending MNP related SMS in certain pre paid vouchers/plans is a "contravention" of the provisions of regulations "as it takes away the consumers' right, provided for in the regulations to avail mobile number portability (MNP) facility". PTI

Sensex surges 887 pts amid global rebound as Omicron fears wane

Mumbai: Market benchmarks made an emphatic comeback on Tuesday after a two-session selloff, in tandem with a recovery in global equities as worries over the Omicron variant receded.

According to experts, world markets heaved a sigh of relief after initial studies showed that even though the Omicron strain of COVID-19 is fast spreading, it is largely milder than the Delta variant. Bargain hunting in metal and banking stocks, coupled with a modest recovery in the rupee, further boosted domestic indices.

The 30-share BSE Sensex rallied 886.51 points or 1.56 per cent to finish at 57,633.65. Similarly, the broader NSE Nifty jumped 264.45 points or 1.56 per cent to 17,176.70.

Tata Steel was the top gainer in the Sensex pack, advancing 3.63 per cent, followed by Axis Bank, ICICI Bank, Kotak Bank, SBI, Titan and Bajaj Finance.

Asian Paints was the sole laggard, dipping 0.22 per cent.

Global markets traded with optimism on reports that the Omicron strain may not be as severe as expected.

Rupee surrenders gains to end flat as rising crude prices weigh

Mumbai: The rupee erased all its intra-session gains to end on a flat note at 75.44 against the US dollar on Tuesday as investors took note of rising crude oil prices and sustained foreign capital outflows.

However, a sharp rebound in domestic equities improved investor sentiment, helping in restricting rupee slide.

At the interbank forex market, the local unit opened strong at 75.31 against the greenback and witnessed an intra-day high of 75.26 and a low of 75.49 during the day's trade. It finally ended at 75.44 a dollar against the previous close of 75.45 - up 1 paisa against the greenback.

Gold rises ₹58; silver gains ₹175

New Delhi: Gold prices rose by ₹58 to ₹47,039 per 10 grams in the national capital on Tuesday in line with gains in the precious metal in global markets, according to HDFC Securities.

In the previous trade, the precious metal settled at ₹46,981 per 10 gram.

Silver also jumped ₹175 to ₹60,362 per kg from ₹60,187 per kg in the previous trade.

In the international market, gold was trading with gains at USD 1,781 per ounce and silver was flat at USD 22.42 per ounce.

"Gold prices traded firm with spot gold prices at COMEX trading up at USD 1,781 per ounce on Tuesday," according to HDFC Securities, Senior Analyst (Commodities), Tapan Patel. PTI

PLI scheme in food processing to go a long way in creating large scale capacity: FMCG cos

New Delhi: FMCG majors Nestle India, Parle, Dabur and Britannia on Tuesday said the PLI scheme in food processing will go a long way in creating large scale capacity, creating great Indian brands in international markets besides helping farmers here in the country.

With the government approving their applications for the production linked incentive (PLI) scheme in food processing, the companies said it will also play a key role in promoting job creation.

"The incentive will go a long way in terms of creating large scale capacities. It will help companies, not only, to manu-

facture on a large scale, have better machinery and plants, and have good products in India, but also be globally competitive and create great Indian brands and international markets." Parle Agro Products Pvt Ltd Senior Category Head Mayank Shah told PTI.

Welcoming the government's step, he said the scheme will also help in terms of "shoring up of volumes for companies and better competitiveness in global markets", besides helping in job creation.

Expressing similar views, Dabur India Ltd CEO Mohit Malhotra said, "The PLI scheme has been crafted to promote

domestic manufacturing and would lead to creation of large-scale manufacturing capacity besides promoting job creation in a critical sector like food processing." Likewise, a Britannia Industries spokesperson said, "We firmly believe that this initiative would kick start in a big way, investments and employment generation in the country."

Thanking the government for approval of its PLI scheme application for processed fruits and vegetables, Nestlé India said it has "always believed that the PLI scheme for the food processing sector will help farmers and the food processing industries". PTI

Instagram launches tool urging teens to take a break

London: Instagram on Tuesday launched a feature that urges teenagers to take breaks from the photo-sharing platform and announced other tools aimed at protecting young users from harmful content on the Facebook-owned service.

The previously announced "Take A Break" feature encourages teens to stop scrolling if they have been on the social media platform for a while, Instagram head Adam Mosseri said in a blog post. It rolled out to the U.S., United Kingdom, Ireland, Canada, New Zealand and Australia on Tuesday and would reach the rest of the world early next year, he said. AP

Microsoft launches cybersecurity skilling programme in India

New Delhi: Microsoft on Tuesday launched a cybersecurity skilling programme that aims to skill over one lakh learners by 2022 as part of efforts to address the skills gap and empower India's workforce for a career in digital security.

The programme is designed to give learners hands-on experience in the fundamentals of security, compliance, and identity, a statement said. PTI

Various measures taken to protect bona fide commercial decision of banks: FM

New Delhi: The Government has taken various measures to protect bona fide commercial decisions of banks to alleviate the fear of any unwarranted hardships to officials or senior executives taking key decisions, Finance Minister Nirmala Sitharaman said on Tuesday in the Rajya Sabha.

These include amendments to Prevention of Corruption Act (PC Act), 1988, requiring prior permission before initiating investigation against a public servant, setting up of Advisory Board for Banking and Financial Frauds (ABBF) for first level of examination of suspected frauds of banks and financial institutions in excess of ₹50 crore, finalisation of Consolidated Staff Accountability Framework etc, she said.

The Government, in consultation with Central Vigilance Commission, has recently finalised a consolidated Staff Accountability Framework for non-performing assets (NPAs) accounts up to ₹50 crore, other than fraud cases, she said.

Public Sector Banks (PSBs) have been advised to suitably revise their respective Staff Accountability Policy and other relevant policies, as required, within this framework with approval of their respective boards, she said. PTI

₹2,000 notes now 1.75% of total banknotes in circulation; down from 3.27% in March 2018

New Delhi: The number of ₹2,000 currency notes in circulation has decreased to 223.3 crore pieces or 1.75 per cent of total notes in circulation (NIC) in November this year, compared to 336.3 crore pieces in March 2018.

Printing of banknotes of particular denomination is decided by the Government in consultation with the Reserve Bank to maintain desired denomination mix for facilitating transactional demand of public, said Pankaj Chaudhary, Minister of State in Finance Ministry, in a written

reply in the Rajya Sabha.

"As against 3,363 million pieces (mpcs) of ₹2,000 denomination banknotes in circulation on March 31, 2018 constituting 3.27 per cent and 37.26 per cent of NIC in terms of volume and value respectively; 2,233 mpcs were in circulation on November 26, 2021, constituting 1.75 per cent and 15.11 per cent of NIC in terms of volume and value, respectively," he said. PTI

International Fire & Security Expo from Thurs

New Delhi: The 14th edition of the International Fire & Security Exhibition and Conference (IFSEC) India Expo, South Asia's largest security, civil protection and fire safety show by Informa Markets in India, is being organised at Pragati Maidan Hall number 5, New Delhi, from December 9 to December 11.

Online gifting platform in Kaushambi

New Delhi: Winni, a fast growing online gifting and bakery retail chain, has opened its 150th store at Kaushambi, Delhi-NCR. "I am sure that we will be easily achieving our target of opening 5,000 stores worldwide by 2025," said Winni's co-founder & CEO Sujeet Kumar Mishra.

Despite the strong growth and immense opportunities for future in the country's pharmaceutical industry, gender diversity has always been a big concern. ANJULA MASURKAR shares how women workforce is revamping it

BREAKING HEALTHCARE BARRIERS

The Indian pharmaceutical industry enjoys a prominent position in the global pharmaceutical market with the industry being the largest provider of generic drugs globally. However, the sad part of the story is that despite the strong growth and immense opportunities for the future, gender diversity has always been a big concern for the industry.

The percentage of women executive directors in the pharmaceutical industry is only 7.69 per cent. However, with studies pointing to the benefits of women in leadership roles and a greater push towards gender equality, things are taking a turn with a new crop of women business leaders emerging at the top.

The scenario so far
Traditionally, workplaces dominated by men have not been accommodating to women. Whether it is related to child care in the workplace, the flexibility of working hours or safety, women were not encouraged, supported or made to feel that they are equally capable of handling the tasks as handled by men.

Also, organisations pay little attention to helping women adjust to motherhood. The majority of women have to give up their work after childbirth owing to the lack of support and policies to help them resume their careers after childbirth.

However, with the latest guidelines by SEBI on board representation along with an increasing number of women inspired to make a difference, things are slowly changing.

Organisations nowadays are making conscious efforts to highlight their women leaders on platforms like media, conferences, business meetings etc. providing room for their growth.

Such initiatives act as a strong communication point in encouraging future generations.

Women who have broken the barriers and redefined the pharmaceutical sector with their contributions:

Zahabiya Khorakiwala — Managing Director, Wockhardt Hospitals
Zahabiya Khorakiwala has played a major role in making Wockhardt Hospitals a 250 crore business. She entered the business in 2010 as a director, soon after she completed her post graduation. Like most mothers, she also had to deal with the challenges of balancing work and personal life but that didn't stop her from learning the nitty-gritty of running the business and remoulding it from providing tertiary healthcare to giving quaternary healthcare.

Anjula Masurkar
Clinical Director of ENTOD Pharmaceuticals

Zahabiya has plans of capitalising on the opportunity that high healthcare costs in India coupled with low bed count offers and aims to open more specialty hospitals across the country.

Dr V Shanta — Oncologist and Chairperson, Adyar Cancer Institute
Awarded with the Magsaysay Award winner, Padma Shri, Padma Bhushan and Padma Vibhushan, she is the co-founder and chairperson of Chennai's state-of-the-art Adyar Cancer Institute. In an age when specialised medical care has become commercialised, she strives to make sure that the Institute remains true to its ethos, 'service to all'. Even at the age of 91, Dr Shanta is still devoted to changing the scene for cancer treatment in the country that serves as an inspiration to young physicians and doctors.

Kiran Mazumdar-Shaw—Founder and Chairperson, Biocon Limited

Regarded as one of the most influential and top women entrepreneurs in India, she is the founder of India's largest pharmaceutical firm — Biocon. Established in 1978, the company has today emerged as India's largest biotech giant and Asia's biggest producer of insulin.

Owing to her relentless efforts to develop, manufacture and supply life-saving biopharmaceuticals at price points that are affordable and accessible to the masses, she has also been honoured with the Padma Shri and the Padma Bhushan award.

Samina Vaziralli — Executive Director, Cipla
Samina Vaziralli is the granddaughter of founder Dr K A Hamied and she is credited with growing the consumers business of the 75-year-old pharmaceutical company.

As the mother of 2 children, she needs no telling of the struggles women have to face to maintain a work-life balance. In the quest to help women manage both their personal and professional demands, she brought vast changes in the way women are taken care of in her organisation. Up to fifty per cent of the Management Council in Cipla is constituted by women.

There is no reason to believe that the pharmaceutical industry is not suitable for women. Today, there is an increasing number of women making their mark in the industry and breaking the stereotypes. In order to bridge the gender gap in the pharmaceutical industry, organisations need to actively create a culture that actively advocates diversity and inclusion.

A few organisations have already stepped up and there will come a time when women will have equal representation in the workforce in the pharmaceutical sector.

ORGANISATIONS NOWADAYS ARE MAKING CONSCIOUS EFFORTS TO HIGHLIGHT THEIR WOMEN LEADERS ON PLATFORMS LIKE MEDIA, CONFERENCES, BUSINESS MEETINGS, PROVIDING ROOM FOR THEIR GROWTH

Overall the exam was doable, not very tough but lengthy when compared to the previous years. LR was a little time consuming and lengthy. DI was easy and not too calculation intensive. It was noticed that a data interpretation set was similar to a DI set of CAT 2019. VARC was more fact based which was easy to solve. However, the length of the passages was a challenge. Overall it had 35 questions with 16 questions from RC and 19 questions from verbal ability. Arithmetic rules the roast in the quantitative ability section as expected. The questions were lengthy and time consuming but not difficult. The first few sentences of the questions were just meant to eat up the student's time, hence one had to scout out the right amount of information from the question and solve it as quickly as possible. The GK section was more on the current affairs side including questions related to sports personalities and their professions.

Exam tested students on speed, logic and analytical skills, a sincere student with well-rounded preparation of concepts and a good practice of mocks would make their way to the IIFT.

It was an exam with no twist. Well prepared students should be able to outperform. Logical reasoning section was a little difficult and time consuming, we saw the changes in reading comprehension passages with dominance of fact-based questions. However, ones with the habit of reading a lot of books and essays have nailed it.

Negative marking existed for the multiple-choice questions. In VARC, DILR, and QA sections, for each correct response, +3 is rewarded and for each incorrect, -1 is deducted. In the GA section for every cor-

IIFT analysis 2021

While paper was quite lengthy, students found it to be moderately difficult to tackle. Given the time crunch, one had to select right set of questions to ace, says SUMIT SINGH GANDHI

rect response, +1.5 is awarded and for every incorrect, -0.5 is deducted. The exam was not very difficult, it was manageable provided your concepts were clear.

Feedback from some of the students
"The paper was overall moderate to difficult. The verbal section was lengthy but comparatively easier than last year. What was surprising was to see no data interpretation questions to be calculation intensive like the previous years, however, logical reasoning took up a lot more time than I had initially planned." - Jayant

"The paper was very structured but lengthy and time crunching. VARC was time consuming with concerns with the fact-based questions in all Reading comprehensions not many inference questions. DI was pretty easy and had glimpses of old cat papers. Overall in the paper, selection was the key so now let's hope for the best." - Aakrosh

Sectional Analysis
Overall Difficulty: Moderate to Difficult
VARC 35 Questions: Reading comprehension was dominated in the verbal section. There were 2 passages with 5 questions each and 2

passages with 3 questions each. Verbal ability was overall easy.

Summary of Questions
Reading Comprehension 16 questions
Verbal Ability 19 questions
Ideal attempts in VARC Section: 11-13 questions
DILR: 30 questions
LR/DI was easy to moderate, lengthy and time consuming. Here the success mantra was the set selection as a few sets were the toughest and time consuming, so the students should first wrap up the easy ones and grab a good base and then move to the trickier ones. Also, as mentioned by one of our students, practicing for CAT gave him a little extra boost for IIFT.

Summary of Questions
Ideal attempts in DILR Section: 16-19 questions
Quants 25 Questions:
Quants were the easiest out of the three sections with direct formula application and concept based questions dominated by arithmetic and little geometry and algebra. There was no need for having a lot of shortcuts and tricks, your solving speed and your temperament to understand what the question is asking was the main focus. Arithmetic dominated the paper then algebra and numbers, geometry saw a lesser.

General awareness 20 Questions:
General awareness was fairly easy with more current affairs questions than static GK questions. The section was well structured and diverse to cover a wide variety.

Summary of Questions
Ideal attempts 45+ with 90 per cent accuracy can be expected to get a call for IIFT.

Overall a happy day for students who know their basics and have preached their books with building conceptual clarity and like Rahul Sir always says "Success comes to those who work for it. Keep working hard and you will see the results!"

For an in-depth analysis on each section, overall cut-off, which colleges to apply and how to gear up ahead stay tuned to the CATKing Youtube Channel.

Now let the karma play its role, party tonight and come back with a bang for the series of exams lined up ahead, one day one exam can never give an idea about one's aptitude nor decide your career path.

The writer is CEO, Director, CATKing

QUOTE OF THE DAY
Real education should consist of drawing the goodness and the best out of our own students.
— Cesar Chavez

MSC ADVANCED PHARMACOLOGY

The University of Strathclyde, Glasgow is inviting applications for its MSc Advanced Pharmacology course starting in September 2022.

The Masters in Advanced Pharmacology will provide you with a comprehensive three-part postgraduate life sciences training.

The programme has a special focus on how drugs and other chemicals affect the body in health and disease. You'll explore the development of new and improved medicines and the treatment of disease.

Duration- 1 year
Eligibility- Minimum second-class Honours degree, or overseas equivalent, in a biological or chemical discipline. English language minimum score of IELTS 6.0 (with no component below 5.5)
Fee- £22,400 for international students for 2022/23

UG/PG AT WUD

World University of Design invites online applications

from candidates for admission to its undergraduate and postgraduate programmes across all disciplines being offered at the university for the year 2022. WUD DAT 2022, the design aptitude based entrance exam is scheduled on Saturday, February 5th, 2022.

Admissions are open for nearly 30 programmes offered across Fashion, Product, Interior, Transportation, Graphic Communication, Animation, Film & Video, Visual Arts, Performing Arts, Architecture and Management.
Apply: www.wud.ac.in
Candidates would be required to register, verify their email IDs and fill the form. They can use the unique WUD Query Management System (WUD-QMS) for getting their queries promptly and efficiently responded.

Sommet Education kick-off development plans for India

PNS ■ GURUGRAM
Sommet Education, world leaders in hospitality and culinary education, which owns globally renowned institutes including Les Roches, École Ducasse and Glion Institute of Higher Education, recently entered into a strategic partnership with Indian School of Hospitality (ISH), founded by hospitality veteran Dilip Puri.

The partners aim at offering a global standard of education to a larger number of hospitality and culinary arts aspirants in the years to come, in India and the neighbouring countries.

Through this partnership, worldwide education reference in culinary and pastry arts

École Ducasse has now its first campus in India at ISH, and Les Roches, one of the world's leading hospitality business schools, enters in an academic alliance with ISH for its undergraduate and postgraduate hospitality management programmes.

At an event in Delhi NCR to celebrate the partnership, Benoît-Etienne Domengot, CEO, Sommet Education and Dilip Puri, Founder & CEO, Indian School of Hospitality announced their future development plans for India.

The first step of this plan is to expand the current ISH Gurugram campus, which will feature an additional 25,000 sq. ft of classrooms, training kitchens, and student experience areas.

Social media and growth of cybercrimes

Social media is the fifth pillar of democracy and shouldn't be taken lightly in any means. Many people in past have ignored the power of social media and the heinous crimes that are on a constant upward slope, and have faced repercussions for the same.

Terms like hacking and cyber fraud were relatively new to our dictionary, but their growth is phenomenal. Earlier most of the breaches would happen over the telephone but now the intensity of the crimes have been taken to the next level.

Cyber frauds have found new and convenient ways of getting into your private system, and the internet of things is only making it easier at every stage, any electronic device connected to the internet can be easily tapped and hacked.

In recent years, hackers easily breach into your mobile phones and turn on your camera without your knowledge, it can happen because of a lack of strong passwords and security settings. The hackers can further breach your personal information on the web or use it as a means to blackmail and fetch money from you. Such incidents have increased during the COVID-19 pandemic due to the financial crunch in the overall economies.

Hackers have easily found their way into people's private conversations, and have been able to use it against them. But,

that's only because we as users aren't aware enough.

The best way to stay protected is to change your passwords after a designated interval and always use a lengthy combination of upper and lower case characters, numbers and special characters. We should also equip ourselves with protection such as web camera covers, and privacy settings that bring into our knowledge if some unusual activities are occurring in our systems.

To be safe on social media should be everyone's topmost priority, especially now when everything starting from our addresses to our phone numbers are readily available, and can put our and our loved ones life in danger. Never give into the blackmailing but fight back with the right attitude, that's what will put the cybercriminals in the right place

SRM NCC Naval Troop inaugurated on Navy Day

PNS ■ KATTANKULATHUR
The SRM NCC Naval Troop was inaugurated at SRM Institute of Science and Technology (SRMIST), Kattankulathur as part of the Azadi Ka Amrit Mahotsava observed nationwide to commemorate the 75th Year of Independence and Navy Day.

The inauguration was done by Group Commander Gp Capt T Arunachalam in the presence of Officer Commanding Lt Cdr Lalith Kumar CR, SRMIST's Vice Chancellor Dr

C Muthamizhchelvan, and Registrar Dr S Ponnusamy.

As part of the National Navy Day celebration a Boat Pulling Regatta for the 4 (TN) Naval Tech Unit NCC was held. About seven teams took part in this contest which was flagged off by Gp Capt T Arunachalam.

This was part of the nationwide event that is being held in 75 locations in the country.

PG Programme in Software Development by Great learning

PNS ■ NEW DELHI
Great Learning, a part of BYJU's group and one of the Edtech companies for higher and professional education, has flagged off a Post Graduate Programme in Software Development and Engineering. This 6-month programme designed by industry experts and Great Learning mentors will enable freshers, graduates and early career professionals to obtain in-demand software development skills. Dedicated placement assistance will be provided to help them get placed in top IT companies.

According to a recent NASSCOM report,

3,40,000 is the present demand-supply gap for tech talent in India. This programme aims to bridge the gap and enable freshers and early career professionals with knowledge and skills to become ready for roles like JavaScript Developer, Back-end Developer, Full Stack Engineer, Python Developer, Front-end Engineer, which are amongst the top 15 emerging jobs in India based on a recent study by LinkedIn. The programme will provide dedicated placement assistance with recruitment processes from leading technology companies and also career support in the form of mock interviews with industry experts, resume guid-

ance and dedicated placement drives. Great Learning works with 1200+ leading companies, and conduct over 20,000+ interviews per month among its learner base. Some of the marquee companies that hire for technology talent from Great Learning include Capgemini, Dell, Amazon, Flipkart, Nvidia, HCL, Uber, Intel, KPMG, Cognizant, Deloitte and more.

Hari Krishnan Nair, Co-founder, Great Learning says, "Companies today are investing heavily to create products and services that provide value in the digital economy. The demand for qualified professionals with expertise is on the surge."

A competitive entrance exam like Chartered Accountancy needs a credible and right strategy because it varies with respective syllabus and the expected number of people appearing for it, says ASHISH KALRA

Be analytical about the future

Credit analysis is one of the most sort after professions for those looking for lucrative opportunities in finance, says AMIT GOYAL

When a firm or company wants to take a loan, someone at the bank that has been approached will examine whether lending money to that party is safe. This professional, called a credit analyst, needs to figure out if the lender will be able to recover its money. Credit analysis exposes you to diverse industries and organizations, which could include large corporates, small and medium enterprises, partnership or proprietorship firms, as well as other banks.

Amit Goyal
Director, TKWs Institute of Banking and Finance

JOB PROFILE

Credit analysts work in the lending and credit departments of commercial banks, credit card companies and other financial firms. They are responsible for evaluating the creditworthiness of new credit applicants and monitoring the ongoing financial performances of existing credit customers. They use a variety of analytical techniques to evaluate the risk associated with lending money or extending credit to applicants. Analysts typically assess credit reports, payment histories, financial statements and job histories. When evaluating a business, analysts may also study its operations and the industry and local market in which it operates to make determinations about its ongoing competitive outlook. Credit risk analysts generally produce reports and recommendations based on their analytical work. They are also responsible for making the final decision whether to approve or deny credit applicants.

CAREER PATH

They start working in junior analytical positions after earning associate or bachelor's degrees in accounting, finance or a related business field with a quantitative focus. Some positions deal with consumer credit evaluation and may be open to candidates who have associate degrees and relevant experience. Positions that focus on business credit evaluation often demand greater knowledge.

Top-performing analysts can rise into financial management positions overseeing analytical departments, making final credit decisions and monitoring departmental performance.

QUALIFICATION

Need a bachelor's degree in finance, accounting or another related field. A

bachelor's degree in finance or accounting exposes you to subjects like basic accounting and finance, statistics, ratio analysis, calculus, economics, industry assessment and financial statement analysis. Subjects like industry and ratio analysis are necessary because part of assessing the risk for a company includes assessing its environment. Candidates also do the post graduate diploma in banking and finance.

SKILLS

A commercial credit analyst must have accounting skills since he spends time running calculations for corporate financial statements and tax returns. His knowledge of spreadsheet allows him to create reports to compare with data from previous years. He prepares a narrative report and recommendations based on the analysis of the data. He needs written and oral communication skills to present his findings.

REMUNERATION

These analysts can work in a variety of fields. Many work for lending institutions like banks or insurance companies. There is great demand in investment, working for an asset manager or private equity firm. The plethora of opportunities is reflected in the salary. The annual salary ranges between ₹5 lakh-₹8 lakh and depends on experience, industry and location.

PREP TIPS FOR CA

The Institute of Chartered Accountants of India (ICAI) announced exam dates of CA Foundation, CA Intermediate (IPC) and CA Final courses for December 2021 phases. The examinations of all three course levels will be held between December 6-20, 2021.

The most challenging part is to prepare and then to clear the CA exam. You should start streamlining aims at the initial stages of preparation/studies. There are so many questions in an aspirant's mind — what actually you want to be, what is in your mind, how to prepare, from where the guidance needs to be taken, how to crack CA exam in first attempt and so on.

You should draw a clear-cut time agenda, be well-versed with the concepts and decide if you will be more comfortable to self-study or choose coaching for preparation. Also, there are certain tricks which the candidates learn over the period of time and can use it on the day when they appear for exam.

Keep on reading: Developing a habit of reading at the early stage leads you towards cracking required entrance exam. Primarily newspapers, motivational or story books, fiction or non-fiction novels, e-papers etc always benefit you by increasing your knowledge, reasoning and comprehensive abilities. Try to learn something new every day and these small efforts would surely bring big fortunes in future.

Update yourself as per syllabus: Before preparing for any competitive exam, you should know the syllabus and that is the first step of preparation. This will help you to prepare for those subjects, topics and sub topics which are required to be covered. It will help you to save your time which you would have wasted on studying and preparing redundant part. You must know the syllabus of the exam you are preparing thoroughly. You can print multiple copies of syllabus, topic wise or chapter wise and try to grab the same by heart.

Learning source: Arranging right study material is the second step, the type of questions that can be asked and the questions for which you must prepare, you need the study material. The study material should consist of books which have the necessary content. Know the importance of a particular topic. Clear your concepts from one book rather reading too many books or study material, our idea is to clear fundamentals and its implementation to the fullest.

Give much time to studies: All competitive exams need time for the preparation, although it depends on exam to exam but an early start is the key to success. Improve your quality of time for the reading, not just the number of hours. Clear your concepts repeatedly, underline important points and try to write on the paper.

Studying for long hours and short of sleep may overload your brain and you can start feeling bored or uninterested. To relax your mind, it is important to take short but regular breaks while you are studying

Planning: Basis all inputs that you have received to clear your dream exam, design your own strategy to prepare, dedicate time to everything, write your own notes, it will help you for the revision and finally at the exam time. Keep cross checking your preparation with the syllabus and time available with you.

Exam pattern: Irrespective of the exam culture, you must solve the previous papers and mock test to get the exam feel and understanding. Keep the terms and conditions as similar as real test while appearing for the exam. Also, you need to identify your strong sections and weak points. Attempt what you know is right. Attempt your strong section first and then move to other sections accordingly, if there is section cut-off, you have to attempt best possible options in every section.

Preparation environment: Preparing in a right atmosphere is also very important to prepare for entrance exams such that there should not be any mental disturbance. If you have good environment around you, you will be able to prepare better, faster and more easily for the exam. Avoid any distraction like unwanted noise around your study area.

Belief: While preparing for the exam you may feel like giving up or you are not the right candidate for this exam. It is very important for you to have high level of self-

confidence to crack competitive exams. You need to convince yourself that it's your dream and you have to be fully prepared to clear the exam.

To bring in sufficient self-confidence and strengthen your intentions, you can read motivational books and inspirational material. Share your feelings with your mentors and parents.

Be healthy: Students generally ignore their physical and mental health while preparing for the exams. Due to which they may experience physical weakness or mental exhaustion. They must understand that if their body does not have sufficient energy then they will not be able to pay required attention to their studies. It is important to have a good diet, sufficient water and sound sleep.

Short breaks: Studying for long hours and short of sleep may overload your brain and you can start feeling bored or uninterested. To relax your mind, it is important to take short but regular breaks while you are studying. Feeling tired and laziness are again the signals that you need a break. You should try simple activities - listen to some music, take a few minutes' walk or watch a 5-10 minutes inspirational or funny video. These things will surely help you to refresh your mind and re-energize your body.

To overcome exams' fear during the present pandemic, you just need to focus over following practices:

Share your thoughts
The simple act of talking to someone who cares for you is extremely important. While this covid situation has made this really difficult for all of us to meet in-person. But one can still take a good advantage of social media platforms and can talk via calls and/or messages.

Talk to a close friend or family member about what you're going through. As, reaching out is not a sign of weakness but a way to get rid of depression

you may have been going through. In fact, it won't be a burden.

It can be tempting to retreat into your shell when you feel depressed due to covid crisis around you. So, it's good to be social as you can when you are about to begin your preparations for the CA examination since your mind should be in a relaxed state while preparing for your CA exams.

Get a chance to move
It's something that go against protocols that one should follow during covid but still with all the safety measures to be followed in this situation, you can try to help yourself

MINDIT

to boost your mood in your examination days.

Regular exercise plays a vital role in keeping your mind and body relaxed and perfect to deal with your CA exams. You don't have to be dependent on medications or energy drinks to be active during your CA examination. All you need is just few minutes of walk, exercise and movement of your body. You can dance to your favourite music. You can meditate to improve

concentration and memory. You can do yoga to keep yourself fit to fight any uncertainty like covid.

Reframe negative thoughts
Although there are several factors that contribute to depression during this pandemic, you can still think of several realistic and hopeful ways to fight with such negativity engulfed us by the COVID-19 fear.

Find hope and have faith
We always try to blame nature/life

circumstances for how you feel especially in such covid pandemic but there are ways to find ways to cope up with such circumstances like

Be your own friend: Instead of rehashing your past mistakes, focusing on the negative aspects, talk to yourself just like you do with your friends.

Pat yourself on the back: Take some time to believe in you and make yourself think positive and give credit that you have the will to do best in your CA exams.

Change your morning thoughts: Before you go to sleep try to write down something positive which you can read when you wake

up in the morning.

Here are some more ways that you can follow to keep your preparations strong:

- Get enough sleep. Set aside 7 to 9 hours each night for sleep.
- Avoid skipping meals.
- Hydrate. Drink plenty of water.
- Stay active to energise yourself and help raise your spirits.
- Rest and recharge with fulfilling hobbies like reading, art, or music.
- Meditating or keeping a grief journal can help you process emotions.
- Talk to your healthcare provider about any new physical or mental health issues.

The University of Sheffield, UK invites applications for its 75 International Undergraduate Merit Scholarships in 2022. The scholarships are competitive awards worth 50% of the tuition fee for an undergraduate degree programme starting in autumn 2022. The scholarship is available for new international students who meet the eligibility criteria.

You must hold an offer to study at the University of Sheffield before you apply for this scholarship.

Eligibility: Your programme must be scheduled to commence at the University of Sheffield in autumn 2022.

You must receive an offer for a course studied in full at the University of Sheffield. All undergraduate degree courses are eligible with the exceptions of Medicine (A100/A101) and Dentistry (A200). For tuition fee purposes you must be self-funded and eligible to pay the overseas tuition fee.

You must not be a sponsored student. You must enter a degree programme at the University of Sheffield in programme year 1 or year 2.

For further terms and conditions please visit - <https://www.sheffield.ac.uk/international/fees-and-funding/scholarships/undergraduate/international-undergraduate>.

Application deadline: The deadline for scholarship applications is 13:00 (UK time) on Monday April 25, 2022.

Application are invited from highly skilled students to manage their finances for a postgraduate degree by applying for this Future Leaders International Scholarships at the National College of Ireland.

The scholars will get a discount of 50% on tuition fees for the academic year 2022/2023.

Eligibility: To be eligible, the applicants must have an undergraduate degree an excellent academic record.

Supporting documents: Candidates are requested to submit all the following documents:

Copy of your academic transcripts and certificates, both in original form and translated to English by a recognised translator; Copy of English language test results; Copy of passport; Copy of CV/resume

Admission requirements: Entry requirements vary depending on the course and are detailed in our international brochure and individual course pages.

Language requirement: IELTS English language requirements are listed next to each course in our brochure or available on our English language requirements page.

How to apply: Fill the scholarship form provided by the college and mail the completed form to admissions@ncirl.ie

Application deadline: It is April 30, 2022.

IN BRIEF

NANOPARTICLES AS PACKAGING DEVELOPED

The National Institute of Technology Andhra Pradesh Researchers collaborating with other Institutes have demonstrated how the concept of nanotechnology can be used to develop food packaging materials that enhance the shelf-life, maintain quality, retain flavor and color of packed food materials.

A group of interdisciplinary researchers led by Dr Tingirikari Jagan Mohan Rao, Assistant Professor, Department of Biotechnology, NIT Andhra Pradesh, have published an article in the prestigious peer-reviewed Journal of European Food

research and Technology.

Nanotechnology is an emerging area of research as its application is growing day by day in various sectors including food and agriculture due to their wide physical, chemical, and biological properties which are functionalised with several biomolecules to enhance the properties of packing and storage materials.

Dr Rao said: "The research emphasizes the role of nanoparticles to provide mechanical stability to packing material and shows how the nano-sensors can be developed to detect pathogens, contamination, pesticides, and allergens and enhances the antimicrobial properties of packing material to prevent food spoilage and contamination."

IIT GUWAHATI SETS A NEW RECORD

The Indian Institute of Technology Guwahati has seen a huge jump in terms of offers made by the end of day two,

profiles open, companies' participation, domestic and international packages and total number of international offers.

The total number of PPOs this year is 179, a 34.5% increase since 2020. Offers made till the end of the second day of the placement are 530.

STUDY ABROAD MBA PROGRAMME

The Simplilearn announces its partnership with IU International University of Applied Sciences (IU) to offer learners a one-year international MBA programme. Through the partnership, learners are offered a dual degree in association with

London South Bank University. The learners get an opportunity to study abroad in Germany for one semester. Learners are also eligible to apply for a Post Study Work Visa after completing the course.

71% OF PARENTS STILL HELP KIDS WITH ACADEMICS

In the wake of the online model of schooling, parents across the country became more involved with their kid's academics than ever before. As several schools welcome students back to classrooms, Brainly conducted a survey to determine the evolving role of parents. Survey highlights:

■ Most parents were hesitant to send students back to physical schools: Over 18 months into the study-from-home model, the tides turned again as schools reopened their gates with the utmost focus on hygiene and safety. The survey has identified that 62% of the Indian parents were hesitant to send their children back to school as many continue to work from home. The finding

calls for a greater focus on creating tech-led hybrid classrooms that accommodate students in both physical and virtual formats.

■ Parents are more involved in their children's education even as schools reopen: A majority (59%) of students say that their parents are more involved in their education after the viral outbreak. Interestingly, 71% of the students continue to receive academic assistance from their parents even after the commencement of physical classes. Online learning resources have empowered parents by giving them the necessary tools to tutor their children.

The survey also corroborates this idea by revealing that 60% of

ONLINE TALENT SEARCH EXAM FOR UG ASPIRANTS

The Triumphant Institute of Management Education (TIME) is conducting Talent Search Examination for CLAT/IPM/BBA and HM 2022-23 aspirants on December 19, 2021.

The test will be conducted in two slots — 10 am and 6 pm. Aspirants can choose to write the test in any one slot.

Attractive performance-based fee waivers (up to 100% on CLAT/IPM/BBA/HM 2022-2023 classroom/online courses) will be available for the students. A minimum assured discount of 10% of the total course fee will be available for those who enrol in the said courses between December 6-19, 2021.

To register: <https://www.time4education.com/local/articlecms/page.php?id=4876>

The TIME has grown into a specialist, multi-location and multi-program training provider run on corporate lines. T.I.M.E. today offers a wide range of programs not only for national and state-level entrance exams like the GATE, CAT, GMAT, GRE, Bank PO, and other competitive exams.

Ashes could revolve around contest between Cummins, Root

It will be 181st Test match between the two teams in Australia and 352nd overall. Australia have won 95, lost 57 and draw 28 in 180 previous Test matches played against England at home. Overall, Australia have won 146, lost 110 and draw 95 in 341 Test matches played against England

Australia have won 33, England 32 in 71 Ashes series played between the two teams. The remaining six series ended in a draw. The last series played in England in 2019, were drawn, both teams have won two matches each while one match ended in a draw

AP ■ BRISBANE

One particular contest between bat and ball could shape this Ashes series. Pat Cummins is set to lead the home team, putting a fast bowler's perspective on Australia's test cricket captaincy for the first time since the 1950s. Joe Root is primed to lead England with the bat again in a series he thinks may define his career.

"A bowling captain for Australia and a batting captain for England — two captains going toe to toe will be great," England wicketkeeper Jos Buttler said on the eve of the first test.

Root was already feeling some pressure before it was confirmed that Jimmy Anderson, England's all-time leading test wicket taker, will

miss the first test starting Wednesday at the Gabba.

Buttler said the senior players in the team were ready to step up to support Root, and the return of inspirational all-rounder Ben Stokes would also help.

"We know he's our best player, we want to support him, help him, share that load," Buttler said of Root "He's been in incredible form. He comes here determined to continue that. "It's a massive series for him." Root heads into this series as the leading test batsman in the world, having scored 1,455 runs in 12 tests in 2021 at an average of 66.

But England has lost nine of the 10 tests it has played in Australia since its drought-breaking series win Down Under in 2010-11, mostly by big margins. Root has been on the

last two tours, and was captain for the 4-0 loss in 2017-18.

And then there's England's record at the Gabba, where it hasn't won a test since 1986 and has recorded only two wins since 1946.

Buttler said England was only looking back as far as January, when an injury-depleted India squad clinched a series win by ending Australia's unbeaten record at the Gabba that dated to 1988.

"I don't think we have anything to lose ... (rather) everything to gain," he said. "You know to do that against Australia here, you have to be at your best."

England released a 12-man squad later Tuesday, leaving much speculation over the formation of the bowling attack. Stuart Broad, Chris Woakes, Mark Wood and Ollie Robinson were included as specialist pace

ENGLAND-AUSTRALIA TEST ENCOUNTERS

bowlers, and left-arm spinner Jack Leach was also in the mix. The starting XI will be confirmed at the coin toss.

Cummins revealed his starting XI well ahead of time, giving himself plenty of time to adjust to his new job. That now includes attending the pre-match news conferences and going out for the coin toss instead of marking out his run-up to prepare to bowl.

The 28-year-old Cummins made his test debut as a teenager in 2011 and was elevated to the captaincy when Tim Paine quit last month after media reports he'd been investigated four years earlier by cricket administrators for sending an explicit text to a work colleague.

He said he plans to rely heavily on his experienced deputy Steve Smith, who was replaced as Australia's test cap-

tain by Paine in 2018 after the infamous Sandpapergate scandal in South Africa.

He served a suspension from leadership positions and was the leading batter when Australia retained the Ashes in England in 2019.

"Smithy and I have been really good mates for a long time. When I was 18, I'd sleep on his couch on occasions," Cummins said. "He's a legend of the game. Of course I'll be leaning on him for ideas at times."

"There'll be times when I need a rest — I'll have no problem handing over to him."

Alex Carey was given the wicketkeeper gloves to replace Paine and Travis Head was retained to bat at No. 5.

The Australians haven't played a test since the 2-1 series loss to India in January, while England has played in Sri Lanka

and India and hosted New Zealand and India in series.

But the wet weather and quarantine requirements means neither team is going into the series with a lot of red ball cricket form.

The bulk of the Australian team was involved in the Twenty20 World Cup victory in the United Arab Emirates last month, where coach Justin Langer gave the playing group more control over the preparations.

It's something Cummins wants to carry into the test arena.

"The environment we created at the World Cup is a blueprint," he said. "The relaxed environment, empowering everyone to do it their own way. Tailor the preparation. They're great lessons we learnt the World Cup that worked."

Hardik undergoing rehab in Mumbai, decides to skip Hazare Trophy

PTI ■ NEW DELHI

Out of favour India all-rounder Hardik Pandya has decided to skip Vijay Hazare Trophy (National One Dayers) starting across the country from Wednesday as he is undergoing an extensive rehabilitation programme in order to regain his bowling fitness.

"The Baroda Cricket Association (BCA) had sent an e-mail to Hardik enquiring about his availability for the Vijay Hazare Trophy. He has rarely played for Baroda in last three years. However he gave a one-line reply that he is currently doing rehab in Mumbai," a senior official privy to developments in BCA told PTI on conditions of anonymity.

Asked what is the injury he is carrying at the moment, the official said: "Even the BCA doesn't know. It is understood that he is trying to do some strength and conditioning module for his back which is no longer in best of shape post surgery in 2019," the source

revealed.

The official informed that Hardik's elder brother Krunal had joined Baroda's pre-Hazare camp for a week after he is instructed by the state board that attending the camp is mandatory for being part of the final squad.

"BCA told Krunal that he can't just land up during tournaments and he has to be a part of the camp. Then he came and trained with the team for a week," the source said.

If Hardik doesn't play the domestic tournaments, he will not be considered for a comeback in the Indian side for the white ball tournaments. "The current national selection committee has told all the players that all those who are not in the India squad should go back and play domestic cricket — Hazare and Ranji Trophy," the source added.

Chance for youngsters to impress ahead of IPL mega auction

PTI ■ MUMBAI

Indian fringe players would get one last chance to impress ahead of the IPL Mega Auction in the Vijay Hazare Trophy one-day cricket tournament beginning on Wednesday. The auction is slated for January and a stand out performance in the 50-over event could lead to a

hefty pay package with an IPL franchise.

The likes of Harshal Patel, Rahul Chahar, Deepak Chahar, who were not retained by their respective franchises in the IPL, would look to make it count when they represent their respective states in the domestic one-dayers.

The IPL has seen a number of youngsters making it big overnight as it also has served a big platform to represent the country and it would be no different this time around.

In the opening day's action, defending champions Mumbai will take on Tamil Nadu who would be riding high on the confidence of winning Syed Mushtaq

Ali Trophy recently. All-rounder Shams Mulani will lead Mumbai in their Elite Group B campaign in Trivandrum. Mulani had also captained the team when they had toured Oman and in absence of senior players, who are on national duty. The team will have formidable left-handed opener Yashasvi Jaiswal along with

Arman Jaffer, crisis man Siddhesh Lad and all-rounder Shivam Dube to bank upon, while the bowling attack will be led by experienced Dhawal Kulkarni.

The Tamil Nadu side would be bolstered by the inclusion of Dinesh Karthik and Washington Sundar as they would look to make amend of

their show last season when they failed to make the last-eight. Bengal will be boosted by the inclusion of senior batsman Anustup Majumdar who will give stability to their side as they open their campaign against Baroda who capped a poor show in the Syed Mushtaq Ali Trophy winning just one match out of five.

B'desh trying to avoid follow-on with one day left

AP ■ DHAKA

Offspinner Sajid Khan claimed a career-best 6-35 as Pakistan reduced Bangladesh to 76-7 and produced a glimmer of hope of forcing a result in the second and final test on Tuesday.

After day three was washed out, Pakistan resumed the fourth day from 188-2 and declared at 300-4 after lunch. Then spinners Sajid and Nauman Ali got to work until stumps was called an hour early because of bad light. Bangladesh trailed by 224 runs and still needed 25 runs to avoid the follow-on at the end of a dramatic day.

"After the declaration, our target was to give us the best chance to win the game and attack relentlessly and that's what we did," Sajid said.

"Fortunately, there was turn and bounce aplenty. We two spinners bowled in partnership. We will try to get the three wickets tomorrow and force them to bat again and win the game." Bangladesh's last hope to avoid the follow-on was Shakib Al Hasan on 23. Tajjul Islam was with him, the tailender yet to score after facing 10 balls.

With the light insufficient to allow any more than just the one over from fast bowler Shaheen Shah Afridi, Sajid and Nauman bowled relentlessly in

a desperate bid to win the rain-hit game.

Rain and bad light have eaten up the majority of the game and just 63.2 overs were possible in the last three days.

AFFIDAVIT

By virtue of an affidavit before Executive Magistrate Balasore, I, Sukanti Das, aged about 50 years, W/O-Late Bijay Kumar Das, of AI/PO/PS-Khantapada, Dist. Balasore, do hereby declare that my name has been mentioned in certain legal documents as Sukanti Das, Sakunti Das and Sakunti Devi. But all the names are one and same person. Henceforth I shall be known as Sukanti Das for all purposes.

AFFIDAVIT

By virtue of an affidavit before Executive Magistrate, Rairangpur, I, Dipti Sahu aged about 40 years, D/o-Sri Nohar Das Sahu of AI/PO/PS-Sonari, Dist- East Singhbhum, Jharkhand, do hereby state that, in my Aadhar Card vide no-281726496873, my surname is reflected as SAHU, which is correct. But in my father's Bank Account and in the bank records my name is mentioned as Dipti Srivastava instead of Dipti Sahu. So Dipti Sahu and Dipti Srivastava are one and same person. Hence I will be known as Dipti Sahu for all purposes.

I-League to start on Dec 26, to be played in four venues in and around Kolkata

PTI ■ NEW DELHI

This year's I-League season will kick off on December 26 in Kolkata with a match between TRAU FC of Manipur and All India Football Federation's developmental side Indian Arrows.

The matches will be played across three venues -- Mohun Bagan Ground in Kolkata, Kalyani Stadium and Naihati Stadium.

With three new entrants - Sreenidi Deccan FC of Andhra Pradesh, Rajasthan United FC and Kenkre FC of Kolhapur -- this season, the number of teams has increased to 13.

All of them, along with the referees, officials and volunteers, will be housed inside bio-

secured bubbles in four different hotels across Kolkata.

"The AIFF has been a pioneer in Indian sporting ecosystem in hosting sporting events from inside bio-bubbles, and we are happy to continue providing a safe heaven for players, referees, and everyone else

involved in running the league," said AIFF Leagues CEO Sunando Dhar in a release.

"We need to thank all our partners, because the logistical and financial effort to house 13 teams in a bio-bubble for an entire season would not have been possible without their

help." Rajasthan United FC and Kenkre FC have made their way to the I-League by virtue of finishing first and second in the Qualifiers.

As per the tournament format, all the teams will play against each other once in a round-robin format in Phase 1, before being split into two groups in Phase 2 of the league. The top seven teams will make up Group A and the bottom six will make up Group B.

Once the divisions are made after the end of Phase 1, the teams of each group will play against each other in a single leg round-robin format. While the teams in Group A will play to determine the champions, those in Group B will be in a relegation battle.
