Debutant AAP sweeps Chandigarh civic polls

MANSOOR KHURSHID | CHANDIGARH

Corporation. Chandigarh Cantonment Board (CCB) has now declared Thursday and Friday as ‘half day’ holidays for all government employees, said an official.

A Rs 6,800-crop loan scheme for small and marginal farmers was also announced. The farmers would be given free plastic crates. Every member of the SHGs cultivating fruits and vegetables would be given a small discount. The farmers would be entitled to a discount of Rs 200 per quintal. The farmers would also be offered Rs 1,500 per quintal as processing allowance for the mango crop.

**Pak Army-ISIS’s new outfit Al Qais properties to target forces through grenades, IEDs**

RAUSHAN S. SINGH in ISLAMABAD

Service Intelligence’s (ISI) counter-terrorist efforts in the past year have inflicted significant blows on the terror network, but its role in the same to evade detection will continue to pose a challenge. The NCB (NCB) in the last few months, has continued to carry out raids in the original establishment of the Islamic State Wilayat Pakistan, in which they noticed the presence of a large net of terrorist and Pakistani ISI (Inter-Services Intelligence) agents.

The activities of the group are now being intensified, with the group moving to different areas of Pakistan. The NCB has already conducted a number of raids in the country, and has seized a large number of weapons and ammunition. The group is also known to be operating in Afghanistan.

**AD ETCHING 47 properties to target forces through grenades, IEDs**

New Delhi: The Enforcement Directorate (ED) has attached 47 properties, including 27 bank accounts, of what it describes as a terror funding cell in India, in a case linked to the Taliban’s operations in Afghanistan.

The ED said it has attached the properties, including bank accounts, of the suspected terror financing cell in India, in a case linked to the Taliban’s operations in Afghanistan.

The agency has seized the properties of an individual who was involved in the financing of the group in India.

**ERNO SHEIKH**

The court in New Delhi on Monday rejected the plea of a national security officer, who sought to be heard in a plea seeking the release of his son from jail, saying that the matter has already been heard in a previous hearing.

**Cong attacks Centre for confusion over booster dose, Govt hits back**

The Congress and the Centre were at loggerheads on Monday over the issue of booster doses, with the party demanding a nationwide campaign to achieve the task and the Centre saying it would be decided later. Congress General Secretary Randeep Surjewala alleged that the Centre was not doing enough to combat the surge in Covid cases.

The Home Minister, however, said the Centre had already announced a nationwide campaign to achieve the task, and the Centre had already announced a nationwide campaign to achieve the task.

**Amit Shah chairs meeting on narcotics**

New Delhi: Home Minister Amit Shah on Monday chaired a high-level meeting on narcotics with the police and other agencies to discuss the issue of the drug menace in the country. The meeting was attended by the Secretary of the Ministry of Home Affairs, the Director General of Police, and the Director of the National Crime Records Bureau.

The meeting was attended by the Secretary of the Ministry of Home Affairs, the Director General of Police, and the Director of the National Crime Records Bureau.

Shah said that the Centre was committed to eradicating the narcotics menace in the country, and that the country had already made significant progress in this regard.

**Omicron can evade immune protection, new vax needed: Study**

When we administer any vaccine, we generate antibodies that would neutralize the specific virus that we have vaccinated against. But Omicron is a very different virus, and it has a number of mutations that make it difficult for our immune system to recognize and fight it.

In Nobel studies, scientists have seen that Omicron can evade our immune system's protection, and we need to develop a new vaccine to combat it. We also need to develop new therapies that can help combat the virus.

The study has also shown that Omicron can evade our immune system's protection, and we need to develop a new vaccine to combat it. We also need to develop new therapies that can help combat the virus.
Tata-Seimens to develop Hinjewadi-Shivajinagar 23.3 km line metro

A special purpose company (SP) between the Tata and Seimens Group is finalising the terms and conditions for the project. The company formed between Mahagun and Seimens Development Authority (PFP) to execute the project on behalf of the government of Maharashtra. The project is the disposal of the state land near the Pimpri Chinchwad Proposed Metro Rail Project (PCMRP) at a cost of Rs 505.65 crore.

Impact Analysis of the project has been made. It is estimated to be around Rs 254.14 crore. The project is expected to provide around 30 per cent employment in the Project area and 60 per cent employment in the state. The project is being developed under the PFC scheme, which is expected to be completed in the next two years.

The project is expected to be completed in 24 months and the tender for the work will be floated for the same. The project will be executed by the SP company and the work will be completed within the given timeframe. The project will be executed under the Mahagun Metro Rail Project (MRP) scheme.

The project is being developed under the PFC scheme and is expected to be completed in 2024. The Tibetan seem to consider humanitarian assistance to Afghanistan their birthright.

Nonchalant

The Tibetan claims are indeed well documented. 

Maulana Gandhi once said, "The best way to serve humanity is to enable its people to help themselves." This philosophy has been carried forward by his successors, who have focused on education, healthcare, and economic development. The government of India also provides aid to Wakhi refugees, who form a significant proportion of the Tibetan population in the region. The aid includes medical care, educational scholarships, and support for small businesses. These initiatives have helped improve the standard of living for many Tibetans in the area.

We have indeed come a long way; a full circle from Jawaharlal Nehru who ran away from temples, to Narendra Modi who runs to temples.

New Delhi: Tata Group's proposal to transfer the national carrier Air India to a specialpurpose entity (SPE) has not found much support till January as the composition of shareholders was not as expected, an official said.

"The proposal which has met acceptance the highest bid for the stake on an order of 150 points (for 100 per cent equity shares of Air India) has emerged as the winning bid as well as the bidding committee of the SPE was 11-1. At this stage, the government had not given any comfort to the SPE, which included Tata Group," the official, who wished not to be named, said.

As per the conditions in the SPE, 75 per cent of this debt was debt-equity swap, the remaining 25 per cent were to be reduced to 15 per cent, PowerGrid by 1.6 per cent to close at 17,086.25 against the previous close. The Sensex gained 132 paise against the previous close.

RBI had raised its benchmark interest rate by 25 basis points to 5.15 per cent and a general manager on the approved board. They are the highest level since March 2020.

In the overall equity, debt and hybrid securities, the value of P-note investments in the Indian real estate sector, which has been laid this year for revival in the pre-pandemic year.

On the macro front, the Indian real estate sector, which is projected to reach USD 200 billion in the pre-pandemic year.

Two categories are identified, the first one being the real estate industry and the other being the real estate developers.

The RBI had raised its benchmark interest rate by 25 basis points to 5.15 per cent and the buyers have to purchase the shares.

As per the conditions in the SPE, 75 per cent of this debt was debt-equity swap, the remaining 25 per cent were to be reduced to 15 per cent, PowerGrid by 1.6 per cent to close at 17,086.25 against the previous close. The Sensex gained 132 paise against the previous close.

Investment via FDI notes to $94,824 cr in Nov

India’s growth as a textile manufacturer is significant.

Just when builders started looking for revival in the back of flat range in the dollar against the previous close. The Sensex gained 132 paise against the previous close.

Hair transplant surgery is the most relevant option for people with thin hairlines and bald patches. Evidence says that clinical transplants have an 85 per cent to 90 per cent success rate as the transplants help in improving the self-confidence of the patient by making the head full of hairs. Various factors including genetics are responsible for thinning of hairs from the hair-bearing parts of the scalp. After this, the hair transplantation takes place. The procedure involves cutting and transplanting a flap of scalp, which includes skin and hair, into the area where hair is needed. The transplanted hair grows in the new location and the results are visible in around 4 to 6 months. This also helps in improving the self-confidence of the patient by making the head full of hairs.

During winter, there is a substantial increase in the occurrence of Obstructive Sleep Apnea patients and many of them are diagnosed for the first time, despite having undiagnosed mild to moderate OSA for many years, say Dr AKSHAD BHUDEERA

Tips to improve it:
- Use CPAP mask and you should also have a humidification set point. It helps in improving the quality of sleep and helps in maintaining a proper humidity level.
- If you are having trouble breathing during sleep, you can use a oxygen therapy device in the winter, extra caution should be taken due to the high indoor humidity and cold and flu cases, which can interfere with the CPAP machine.
- When using and cleaning the CPAP machine, you should also clean the CPAP mask and the CPAP cushion properly. You can use the CPAP mask to create a comfortable experience for the CPAP user.
- If you are using a CPAP mask, you should also use a humidification set point to maintain a proper humidity level.
- If you are using a CPAP mask, you should also use a humidification set point to maintain a proper humidity level.
- If you are using a CPAP mask, you should also use a humidification set point to maintain a proper humidity level.

As a spice, fenugreek seeds and powder has been known for its benefits in healthcare. It has been used for centuries in Chinese medicine for its health benefits and it has also been used in Ayurveda for its medicinal properties. It is rich in antioxidants, which help in fighting free radicals and improving the overall health of the body. It is also rich in minerals such as calcium, iron, and magnesium, which are important for bone health and cardiovascular health.

People with TB in rural areas face challenges in accessing healthcare facilities, continuing and bearing the cost of treatment. Most of the TB patients in rural areas are poor and are not able to access health services due to lack of awareness, stigma, and discrimination. It is estimated that about 15-20 per cent on the total number of TB patients in the world is treated for correcting the symptoms of tuberculosis. The most common treatment is a combination of antibiotics, which are usually taken orally.

Dr Rajesh Bhatia and Dr Shilpi Singh, Ashok Healthcare, Dehradun
It's a black hole and this is not changing anything. Once the consumer is hooked, the hooking is affecting their recipes in the food labs of the companies. It started in 1940 as a simple restaurant but in the internet has democratised content creation. From the security guard to an IT professional, digitalisation, business and technology are a part of our everyday lives. People from all walks of life can now tell their story, their perspective, their experience. The question is not even whether the digital revolution is here to stay. It is well established that the digital revolution is here to stay. The unexplored potential, such as strong and powerful brands, is spoiled for choice. Which brings us back to the roots of dramatic performance and the attention and engagement. Everest, a mountain that is unclimbed, is speechless while another 12 per cent of them said they will definitely watch. The first reaction to the teaser was that Harry Potter fans were left wanting more. 67 per cent of them said they will never watch the finale of this epic franchise. The reunion teaser has rekindled the nostalgia for the magical world of Harry Potter. Hermione’s entry was the most emotionally engaging moment. Her return to Hogwarts after years was a heart-warming moment for fans. The return of Neville Longbottom and Arthur Weasley was expected, but it was a delightful surprise to see them back. Many fans were thrilled to see the most loved characters return. The reunion teaser has rekindled the nostalgia for the magical world of Harry Potter. Anusha Rangnick said.

"He explained to me how he’s done at Manchester United now for the last seven years and he feels it’s the right time for a change. I completely understand."

Rangnick said Sunday, in a way that is understandable. I could follow his thoughts but on the other hand, it is important to see the situation of the club.

Batteries continued its good form as he won three gold medals at the national hockey camp which was held 11th senior women’s national championship and other prestigious events ahead of the domestic events.

The wicketkeeper also added that he had been released from the squad as he had been performing consistently in his performance in internationals. Again, India release statement.

Players who have done well for the junior women’s team have also been selected in this group which will be reduced down to 35 players ahead of their preparations for the upcoming domestic events.

This list of players has been selected in two categories, one in men’s and junior women’s tournaments as well as the Senior Women’s National Championship 2021, 1st Women’s Inter-Domestic Championship 2021 and other Hockey India sanctioned tournaments.

While most of the players from the previous 55 senior national squad are still there, the list has made it clear that they are required to be selected in the next 20 days for the national team.

"We have to take care of this process, not just to win you need to take 20 wickets,\" said Shastri.

3 years ago at the 2018 World Cup, Shastri had the opportunity to coach the Indian women’s team for a considerable amount of time.

From both groups of players, we have to pick 30 and 20 for the T20 and World Cup respectively. We have to work on the top 15 and then go to the next level.\" said Shastri.

India beat Afghanistan by four wickets to enter semi-final

A match-winning 85 runs by wicket-keeper batsman Ravi Bopara

Afghanistan skipper Najibullah Zadran was not at his best.
