2 more Omicron cases detected

One each flier from S
Africa, Zimbabwe found
positive in Maha, Gujarat

PNS ■ NEW DELHI

Two more new cases of Omicron infection, SARS-CoV-2 variant of Covid-19 were reported on Saturday in India, one each from Maharashtra and Gujarat. With this, the number of infections from Omicron has gone to four in two days. Two cases of the new variant of Covid-19 were reported from Karnataka on Friday. On Saturday, one case was reported from Jamnagar in Gujarat, another one from Mumbai.

A 72-year-old man from Zimbabwe, who reached Jamnagar last week, was found infected with the Omicron variant of the coronavirus dis-

ease becoming the first case in the State, the State health department confirmed.

Dr S Chatterjee, the nodal officer for Covid-19 at the State-run Guru Gobind Singh Hospital in Jamnagar told reporters, "The man's samples were sent to the Biotechnological Research Laboratory in Ahmedabad which found him positive for the Omicron variant. He has been kept in isolation ever since his admission to the hospital. We had traced all his contacts, screened them and they tested negative."

He added, "We will test all his contacts once again after the reports confirmed that he carried the Omicron variant of the

People wait on the premises of Lok Nayak Jai Prakash Narayan Hospital (LNJP) in New Delhi on Saturday. 12 patients suspected to be infected with the Covid-19 'Omicron' variant have been admitted in the hospital PTI

virus."

Gujarat's additional chief secretary (health) Manoj Aggarwal said, "A micro containment zone has been made where he is living. In the area, we will do the tracing, testing of people."

He landed in Jamnagar on November 28. Soon after, he was running a fever and his doctor asked him to go for an RT-PCR test and he was found Covid-19 infected.

The officials are also tracing 87 people who could have come in contact with him in the Jamnagar district.

The man was visiting his in-laws at his native Morakda village near Jamnagar city and has been living in Zimbabwe, which has been classified as an

"at-risk" country, for many years. In the second instance, a 33-year-old man, who arrived in Mumbai from South Africa via New Delhi, tested positive for the latest variant on Saturday.

The passenger, who is exhibiting mild symptoms, including fever, is currently under treatment at a Covid centre in Kalyan-Dombivli.

The infected person arrived from Capetown on November 24 and complained of mild fever, but no other symptoms were noticed.

Meanwhile, 30 other passengers coming from Dubai to Ahmedabad and a woman who reached Vadodara from London have tested positive for Covid-19.

Delta derivatives hit Covishield efficacy, booster needed: ICMR

Their study reveals
Delta variants can
escape vax-induced
immune response

PNS ■ NEW DELHI

Derivatives of the Covid-19 Delta variant have the potential to reduce the neutralisation ability of the Covishield vaccine, especially among those who have never been infected with the virus, said ICMR researchers calling for booster doses.

They, however, added that even with reduced neutralisation ability, Covishield will protect against severe disease and fatalities.

"Delta variant has slowly dominated other variants of concern. Subsequently, Delta has further mutated to Delta AY.1 to Delta AY.126. Of these, Delta AY.1 has been reported from several countries, including India.

It's considered highly infectious and probable escape mutant," researchers said in the latest study posted on bioRxiv (a repository of pre-print studies).

An escape mutant is one that can escape human immune response or vaccine-induced immune response. Researchers had previously evaluated the efficacy of Covaxin against Delta AY.1 (because it is an escape mutant) and found the vaccine to be effective.

The study is yet to be peer-reviewed. Researchers evaluated the neutralising potential of blood samples from people who had received two doses of the Covishield vaccine.

They studied three types of blood samples.

The first was from people who have been fully vaccinated with Covishield and have never been infected with Covid. The second was from people who have been fully vaccinated after recovering

from Covid infection in the past. The third was from people who got infected with Covid after being fully vaccinated, that is people who suffered breakthrough infections.

They observed the highest reduction in the level of neutralising antibodies against the Delta — a reduction of 27.3-fold — among fully vaccinated individuals who had never been infected with Covid, compared to other groups and variants.

Neutralisation was reduced against Delta and AY.1 in all three groups.

However, the team said vaccines will continue to provide sufficient protection against the severity of the disease and fatality, based on breakthrough infections data they analysed.

Test, track, treat, give
shots to stem Covid
spread: Govt to StatesK'taka, Kerala,
J&K, TN, Odisha,
Mizoram asked to
monitor i'ntl fliers

PNS ■ NEW DELHI

Amid concerns about rising Omicron variant, the Centre on Friday cautioned Karnataka, Kerala, Tamil Nadu, Jammu & Kashmir, Odisha and Mizoram to take necessary steps under the "Test-Track-Treat-Vaccinate-Covid Appropriate Behaviour" strategy to curb the spread of

Covid-19 and fatality.

These States have been reporting surge in infections, weekly positivity rates and weekly deaths.

In a letter to these States, Union Health Secretary Rajesh Bhushan on Saturday advised them to undertake enhanced surveillance of international travellers, monitor emerging hotspots, prompt contact-tracing of positive people, and send all positive samples for genome sequencing. He also asked them to undertake early identification of cases and review of health infrastructure preparedness, and most importantly, to focus on IEC and community sensitisation.

Vinod Dua, veteran
journalist, dies at 67

PTI ■ NEW DELHI

Veteran journalist Vinod Dua, who started his career with Doordarshan in the black and white era and went on to make his mark in the digital space in the decades that followed, died in Delhi's Apollo hospital on Saturday. He was 67. The last rites of the pioneering television journalist, who was hospitalised with Covid earlier this year and lost his wife, radiologist Padmavati 'Chinna' Dua, to the

virus in June, will be performed at the Lodhi crematorium here on Sunday, his daughter and actor-comic Mallika Dua said. Vinod Dua breathed his last at 5 pm at the Indraprastha Apollo Hospital where he was battling chronic liver disease, the hospital said in a statement. "He was admitted in the intensive care unit in a critical condition, and was monitored by a team of senior doctors. In this tragic time, our prayers are with his family and dear ones," it said.

Sena raps
Mamata for bid
to damage Cong

TN RAGHUNATHA ■ MUMBAI

Slamming the Trinamool Chief and West Bengal Chief Minister Mamata Banerjee's move to sideline the Congress and emerge as the key Opposition's face against the BJP, the Shiv Sena on Saturday said that Mamata's bid to push the grand-old party away from national politics and create a new Opposition front along lines of the United Progressive Alliance (UPA) was tantamount to strengthening the "fascist" ruling party at the Centre.

"Mamata's politics does not augur well for the Congress. Though it is true that TMC finished the Congress, the BJP and the Left in West Bengal, Mamata's effort to push the grand-old party away from national politics and create a new Opposition front along lines of the United Progressive Alliance (UPA) was tanta-

mount to strengthening the fascist forces in the country," the Shiv Sena said.

In an editorial published in its official mouth-piece "Saamana", the Shiv Sena said, "We can understand Prime Minister Modi saying the BJP would wipe out the Congress from the political map of the country, because that is a part of the current ruling party's agenda.

But, any thought of finishing the Congress which is fighting Modi and his fascist tendencies poses a serious danger to the country."

"There are no two opinions about the fact that the weakening of the Congress during the last ten years is a serious cause for concern.

But, the attempt to prevent the derailed Congress from getting back onto the tracks reflects the destructive mindset of some people," the editorial said.

Protesting farmers form 5-member
panel for talks with Govt on 6 issuesWant legal
backing of MSP;
Shah speaks with
farmer leaders

PNS ■ NEW DELHI

Protesting farmers' groups on Saturday formed a five-member committee for dialogue to talk with the Government on their six issues, including a legal backing of the minimum support price (MSP) after Union Home Minister Amit Shah spoke to two farmers leaders on Friday late evening and assured them that the Government was serious about their demands.

After a meeting under the aegis of the Samyukt Kisan Morcha (SKM), farmer groups have decided to continue their

Bharatiya Kisan Union spokesperson Rakesh Tikait addresses a Press conference after farmers' meeting at Singhu Border in New Delhi on Saturday PTI

protests till a formal and satisfactory response from the Government was received.

The next meeting of farmers' groups would be held on December 7.

After the meeting, farmer leader and Bharatiya Kisan

Union spokesperson Rakesh Tikait said the committee will consist of Balbir Singh Rajewal, Shiv Kumar Kakka, Gurnam Singh Charuni, Yudhvir Singh and Ashok Dhawale.

"Farmers' Morchas will hold its next meeting on

December 7 at 11 am to finalise the agenda for talks with the Government. The committee will decide on who will hold talks in various States from the farmers' side. Farmers would not end their protests until gets confirmation from the Government on their demands," he said.

On Tuesday, the Government had sought five names from Kisan Morcha to discuss the pending demands.

"Whatever we talk about with the Centre, we will have that agenda ready. In Haryana, we already have a committee. If the Haryana Government wants to talk, they are ready. Our five-member committee will handle all affairs, and we hope the Centre will be in touch with us through them. It will be responsible for deciding who will talk in respective States," Tikait added.

MUNICIPAL CORPORATION ELECTION

Leaders of BJP, Cong get tickets for their families

MANOJ KUMAR ■ CHANDIGARH

Chandigarh Congress President Subhash Chawla's son Sumit Chawla has filed nomination from ward number 14 for the Chandigarh Municipal Corporation election.

Similarly, wife (Harpreet Kaur) and sister (Balwinder Kaur) of leader of the Opposition and Congress councillor Devinder Singh Babla, whose ward has been reserved for a woman candidate, also filed nominations from ward number 10 and 22, respectively.

In BJP, tickets have been given to the wife of councillor and former deputy mayor Anil Kumar Dubey; councillor Chandrawati Shukla's husband Pappu Shukla; councillor Jagtar Singh Jagga's wife Sarabjeet Kaur and councillor Vinod Aggarwal's wife Savita Gupta.

These are the relatives of

politicians of both the parties—Congress and BJP who have filed nomination for the Chandigarh Municipal Corporation elections. The filing of nominations for MC Polls which began on November 27, concluded on Saturday.

Moreover, the party list of candidates of main political parties—BJP and Congress for MC polls in Chandigarh feature many husbands, wives, sons and daughters triggering rebellion from other ticket-hopefuls. This year, the reservation of the wards has made many councillors and officer-bearers of BJP and Congress bring their spouses to

contest from their seats in the municipal corporation elections. This time around, of the 35 wards, 16 are reserved in MC elections.

As many leaders of these parties were not ready to give up their ward to any other candidate; they have chosen their wives or daughters as the candidate. Many BJP and Congress rebels are contesting the civic polls as Independent candidates. As the Aam Aadmi Party (AAP) is contesting its maiden election this time, so most tickets have gone to long-time party workers. Some of the new entrants to the party, who came from Congress along with Pardeep Chhabra have

also been accommodated in the list.

A City based political analyst says that central leadership of the parties may have asked their leaders to desist from nepotism, but, while releasing the list of candidates, they seem to have done otherwise. Fearing loss of tickets from their wards, some leaders had joined the Aam Aadmi Party earlier. Many BJP and Congress rebels are contesting the civic polls as Independent candidates. "Whichever party you look at, nepotism is rampant. Other aspects are irrelevant. If you have the right surname, you will get a ticket. Politics is not

a vocation, but a family business. If daddy is a councillor or Mayor, then his son or daughter, regard the ward as their heirloom," he added.

The most high-profile name on the Congress party's list is that of Sumit Chawla, son of Congress president Subhash Chawla who is contesting election from ward 14. Chawla is not the only one from a political family to get a ticket. Atinder Singh Robby, son of former Congress councillor Bhupinder Singh Badheri, has got the party ticket from ward number 30. Davinder Kumar Gupta, son of former city Congress president

Kulbhushan Gupta, and Jagjit Singh Kang, brother of former Punjab minister Jahmohan Singh Kang, have been named as candidates. In BJP, tickets have been given to the wife of councillor and former deputy mayor Anil Kumar Dubey.

Chandigarh Congress chief Subhash Chawla said, "The shortlisting of the candidates has been done based on merit and survey of the wards."

Another Congress leader said that the party's state in-charge Harish Chaudhary approved the list of candidates prepared by the state election committee comprising Chandigarh state president Subhash Chawla and former

MP Pawan Kumar Bansal among others.

The committee scrutinised all applications in detail and after discussion, finalised candidates as party's official candidates.

Congress, which has faced criticism for promoting nepotism in politics, wasted no time in hitting back at the BJP. A congress leader said, "BJP has given tickets to family members of their senior leaders. This has made it clear that there is a huge difference between the Kathni (words) and Karni (deeds) of the BJP"

The BJP, however, maintained that the family of a potential candidate can be

"neither a qualification nor a disqualification". Chandigarh BJP president Arun Sood said, "As wards of many councillors had changed to women and became reserved seats, tickets were distributed accordingly. "Winnability is the key criterion for the selection of candidates. The family members of some sitting councillors have been given tickets based on the survey and winnability factor."

Traditionally, MC elections in Chandigarh were a two-cornered fight between the Congress and the Bharatiya Janata Party (BJP). But this time around, AAP is also in the fray.

ECI reviews poll preparedness for Punjab Assembly Election

PNS ■ CHANDIGARH

Ahead of the Assembly Elections of Punjab in early 2022, Election Commission of India (ECI) on Saturday reviewed the poll preparedness in the state.

The virtual review meeting was chaired by Deputy Election Commissioner (DEC) Nitesh Kumar Vyas, in the presence of Chief Electoral Officer (CEO) Punjab S Karuna Raju. All the Deputy

Commissioners-cum-District Election Officers (DEOs) and Commissioner of Police (CPs)/Senior Superintendent of Police (SSPs) of Punjab also attended the meeting.

In wake of the Omicron, the new variant of Covid-19, Vyas stressed on the need to vaccinate the entire staff and volunteers to be deputed for election duties and directed all the DEOs to organise special camps for Covid vaccination of the staff. He also asked DEOs to clear the pendency of adding new voters and cases of deletion or shifting of existing voters. He directed to intensify the SVEEP activities including sending text messages or roping in

celebrities or sports persons to encourage voters to exercise their franchise and maximum promote '1950' voter helpline.

Vyas asked DEOs to ensure certified training of all the ROs/AROs and also directed them to visit maximum polling stations especially at the remote areas. He asked them to ensure hassle-free voting experience for Persons with Disability (PwD) voters and old age voters by ensuring proper ramps and wheelchairs at all the polling booths, besides asking the officers to ensure 100% webcasting of all the polling stations. He also asked the officers concerned to expedite the process of

deposition of firearms in their respective districts and to expedite the process of identification of vulnerable polling stations and expenditure sensitive constituencies.

During the meeting, DEOs and CPs/SSPs briefed DEC about the status of poll preparedness in their respective districts. Status of distribution of EPICs, distribution of voter information slips, publishing of

Criminal Antecedents by contesting candidates, provisions made at polling stations for voters above 80 years of age along with PwD voters, SVEEP activities being carried out to increase voter

turnout, postal ballot status for absentee voters, cash seizures, drive against illicit liquor as also preparations put in place for Covid19 suspects, among others were elaborated upon. Issues relating to inter-district coordination, deployment of security forces, management plan for remotely located polling stations, communication plan for shadow areas, provisions for webcasting and monitoring, resolution of complaints received over voter helplines and cVIGIL app, availability of Assured Minimum Facilities (AMF) in auxiliary Polling Stations, training of security forces, etc. were also specifically reviewed.

PNS ■ CHANDIGARH

After inspecting the preparations being made for the Khelo India Youth Games at Tau Devi Lal Stadium in Panchkula, Haryana Chief Minister Manohar Lal Khattar on Saturday said that all preparations would be completed by December 31 for the successful conduct of the fourth edition of the Khelo India Youth Games in Panchkula which is scheduled to be held from February 5 to 14, 2022.

As many as 25 different types of sports will be organised in this sports event, in which about 10000 players from across the country will participate. This opening ceremony will be held on

February 5 at Tau Devi Lal Stadium, Sector-3, Panchkula, he added. Talking to reporters, Khattar informed that 25 different sports would be organized under Khelo India Games. Besides this, five regional games have also been added this time, which include Gatka of Punjab, Thang-Ta of Manipur, Kalaripayattu of Kerala, Malkhamb of Maharashtra and Yogasana.

An amount of ₹250 crore will be spent on the development of necessary infrastructure for these games, of which ₹150 crore will be spent for infrastructure development and ₹100 crore will be spent on other equipment and facilities. He said that all the preparations for the infrastructure being developed as per the

requirement of all the sports would be completed by December 31. Entire arrangements are being made for the lodging and boarding, and transportation of the players. The CM said that along with Panchkula, these games would be organised in Ambala, Shahabad, Chandigarh and Delhi. He said that the final matches of most of the games will start from February 8, which will be telecast live through Star Sports channel.

Khattar said that Haryana is continuously progressing in sports and the state Government is increasing the budget of sports every year. Where the budget of sports was ₹151 crore in the year 2014-15, it has now increased to ₹94 crore in 2021-22, which is more than double.

Over 700 attend Janta Darbar at Karnal

Chandigarh: Haryana CM Manohar Lal Khattar on Saturday heard the grievances of about 700 people during a Janta Darbar which lasted for about four hours in Karnal. These included complaints related to various depts such as education, medical, road construction, police etc. which were redressed on the spot and necessary instructions to the officers were given. The CM added that as some complaints were related to the state level policy matter so they would be resolved from the Chandigarh Headquarters. Khattar called upon the unemployed youths to register themselves for seeking jobs on the newly developed Kaushal Vikas Nigam portal so that they can get its benefits as per rules.

Manjinder Singh Sirsa trashes claims of Akali Dal

PNS ■ CHANDIGARH

BJP Sikh leader Manjinder Singh Sirsa on Saturday trashed allegations leveled by Akali Dal leadership that BJP coerced and used dirty tricks to induct him into party and clarified that he has joined BJP with the sole agenda to serve Sikh community and this party has provided him a platform which will help resolve Sikh issues lingering on for long.

In a statement issued here, Sirsa said that he was surprised at these allegations leveled by Akali leadership. He said that if BJP had to coerce him, the party would have asked him to join as President of Delhi Sikh Gurdwara Management Committee (DSGMC) and not as an individual. He said that he had joined voluntarily because after breaking alliance

with this party, Akali Dal was not in a position to work on resolving Sikh issues as there was no one left to help them out.

The newly inducted BJP leader said that he has left Akali Dal without leveling any sort of allegations unlike others who blamed the grand old party for turning into a family centric party and on sacrilege and drug issues.

"I am a positive man with one main focus - to serve the community and it is possible only by being a member of the National party," he said, adding he has a commitment with himself that he will focus on only resolving Sikh issues and getting fulfilled demands of Sikh community and he will not get distracted by wild allegations levelled against him by anybody.

GUEST COLUMN Preserving linguistic diversity of North-East India for securing its future

RAGHAVENDRA P TIWARI

The north-eastern region (NER) of India, apart from being a biodiversity hotspot, is blessed with unparalleled ethnic, cultural and linguistic diversity. The land of seven sisters and a brother, the NER is the most diverse part of a most diverse nation as is the home of a large number of plain and hill tribal communities having their own independent cultures, traditions, livelihood practices, language and dialect. As for the linguistic diversity, in Assam, Nagaland and Arunachal Pradesh around 23, 20 and 15 languages respectively are in use and Meghalaya is home to Khasi, Garo and Pnar/Jaintia languages. The languages used across the NER belong to five different language families, namely, Indo-Aryan, Dravidian, Tibeto-Burman, Austro-Asiatic and Tai-Kadai. However, these languages are not recognised by the

respective governments as the linguistic languages.

The Increasing pace of development in the NER is exerting massive pressure on the autonomous tribal communities in respect of their cultures, traditions, livelihood practices, languages & dialects and also on the biotic and abiotic components. As such some of these languages and dialects encompassing cherished civilizational discourses have already become 'vulnerable' to 'moribund'. The contributing factors to the vanishing of languages in NER are better job prospects in the English language, conversion to Christianity and impact of churches in the choice of lingua franca, inappropriate language policies framed for administrative conveniences, etc.

A language and its dialects are specific to ethnicity and are the carrier of discourse, intangible heritage and evolution of the ethnic culture. Besides, each language and dialect embodies the unique cultural and historical genius and living wisdom of the community. India is said to have already lost many languages. UNESCO has declared 197 Indian languages as 'endangered'. Dialects in particular are on the verge of

extinction. With the senior members of the tribal communities leaving for the heavenly abode, the dialects/expressions of these cultures are far less used and will eventually become extinct. Sustained preservation, continuous development and longevity of the culture cannot be ensured without a robust language code. Intangible cultural heritage emanates from ethnicity, psychological and mythological beliefs and experiences. Thus, it becomes of utmost necessity to preserve, promote and enrich the linguistic and dialectic diversity of the NER.

Several studies around the world have amply demonstrated that mother tongue is vital for design thinking and comprehension and creating the mind-set necessary for holistic development. It ensures enhanced cognitive development and improves learning capabilities. Moreover, learning in a foreign language also brings a sense of alienation from one's own culture and heritage leading to an inferiority complex whereas learning in mother tongue helps develop a better sense of one's cultural traits. Thus, learning in the mother-tongue is of paramount significance in improving the quality of

education. Any system that ignores mother tongue in the learning process in the early years can be unattractive and unengaging and thus becomes unproductive and creates a negative impact on children's psyche. Since English is the preferred medium of instruction in India, learners have remained aloof from the benefits that come with education in the mother tongue. UNESCO has also recommended the use of mother tongue in the early years of schooling to enable children to learn to read and write alongside introducing them to the early mathematical and academic concepts. In order to capitalise on the advantage of learning in the mother tongue, NEP2020 emphasises on the mother tongue as the medium of instruction at least up to the 5th standard. This policy also envisages integrating teaching and learning of Indian languages with school and higher education at every level.

It is in this backdrop that the announcement made by the dynamic and proactive Hon'ble Education Minister Shri Dharmendra Pradhan in the recently concluded North East Education Conclave on NEP-2020 organised by Assam Government and Shamkardev Education and Research

Foundation for making Guwahati as the Language Laboratory of India and for creating safe educational zones is significant. He also laid emphasis on capitalizing on the strength of ethnic, cultural, linguistic, biotic and abiotic diversities of NER for its emotional integration with the rest of the country.

Thus it is of paramount importance that the north-eastern states not adopt English as the state language merely for administrative conveniences but should embrace regional/local languages as the state languages because, without official status and patronage, many languages are being pushed to the endangered category. Major dialects should be given scripts so as to promote and upgrade them to the status of languages. The policy of the three-language formula should be revisited to promote regional languages. Dictionaries and learners' books need to be written for every language and dialect spoken in the north-east. A group of people need to be trained in languages spoken in the region for the purpose of translation, as is being done for international languages. Customs and traditions including proverbs, stories, legends, folklore, rituals, songs, songlines, lullabies, mythology

and samskar songs should be penned down in every language and dialect. Skilled teachers for every language should be created for the purpose of teaching and creating ICT enabled e-materials/e-books in those languages. High-quality programmes in translation and interpretation should be offered in all the languages of the NER. Every central university in the north-east should be sanctioned a Centre for Preservation and Promotion of Local Languages and Dialects (CPPLD) for implementing these and other imperatives for preserving linguistic diversity and harmonious inter-relationships of the tribal communities with nature, ecology and cosmos. We are running out of fuel as with the passing away of senior citizens, and in the absence of a holistic language policy, languages and dialects are getting increasingly marginalised resulting in a fast decline in our traditional knowledge base about tribal cultures, traditions, livelihood practices, environmental ethics, nature centric development, etc which are necessary ingredients for securing the future of the region.

MAJOR INITIATIVES OF PUNJAB GOVERNMENT FOR RURAL SECTOR

Under Visionary Leadership of
Chief Minister
Charanjit Singh Channi

'Mera Ghar, Mere Naam' scheme for proprietary rights within Lal-Lakeer

(4846 households benefitted across 55 villages. All households within Lal-Lakeer to be covered by December 2022)

OTHER PATH BREAKING DECISIONS

**Allotment of up to 5-Marla plots
to eligible families in rural areas
in mission-mode**

(30,000 Sanads have already been delivered
within short span of 2 months)

**Pending electricity arrears
in respect of water-supply schemes
of Panchayats waived-off**
(Relief of Rs 1168 Cr to Panchayats)

**Future electricity bills of
Water Supply Schemes
of Panchayats to be paid
by the Government**

**Monthly Water-Service Charges
for rural water-supply connections
reduced from Rs.166 to Rs.50**

**All Rural Households
with piped water supply
to benefit**

GLOBE TROTTER

SHAKESPEAREAN ACTOR ANTONY SHER DIES AT 72

London: The award-winning theatre and film actor Antony Sher has died aged 72 after suffering from cancer, the Royal Shakespeare Company (RSC) announced on Friday. South Africa-born Sher was widely considered to be one of Britain's finest contemporary actors, playing almost all the great Shakespearean roles from King Lear to Shylock. In 1985, he won an Olivier Award for his energetic portrayal of Richard III as a villainous hunchback, propelling himself around the stage on crutches. While at the RSC, Sher — once described by Prince Charles as his favourite actor — met his husband, Gregory Doran, who would become the company's artistic director.

3 INDIANS HELD IN US FOR ILLEGAL ENTRY

Washington: Three Indian nationals, who were earlier deported to India, have been arrested once again in the US Virgin Islands for illegally entering into the country an American attorney has said.

210 MIGRANTS FOUND PACKED INTO TRUCK

Mexico City: Mexican immigration authorities say they discovered 210 migrants packed into a truck trailer in the central part of the country. The National Migration Institute said the truck failed to stop as directed at a checkpoint in Puebla state on Friday and it was pulled over after a pursuit near the city of Tecamachalco.

GAMBIANS VOTE IN PRESIDENTIAL ELECTION

Banjul (Gambia): Lines of voters snaked around corners outside polling stations in Gambia's capital Saturday as the nation holds a presidential election that for the first time in decades does not include former dictator Yahya Jammeh as a candidate. Polls opened to high turnout, with many people lining up at the capital's Independence Stadium before sunrise.

POLICE SHOOT PALESTINIAN ATTACKER

Jerusalem: Israeli police shot a Palestinian after he stabbed and wounded an ultra-Orthodox Jew on Saturday near Damascus Gate just outside Jerusalem's Old City. Video circulated online appeared to show an Israeli Border Police officer shooting a Palestinian man who was lying on the ground. Another video appeared to show police with guns drawn keeping medics from reaching the man. The Magen David Adom emergency service said it treated an ultra-Orthodox man in his 20s who was stabbed in the area, saying he was in moderate condition.

Merkel: Virus death toll ‘so bitter because it is avoidable’

AP ■ BERLIN

Outgoing Chancellor Angela Merkel on Saturday made what is likely her final appeal before leaving office next week for Germans to get vaccinated against Covid-19.

Merkel gave what is expected to be her last weekly video message two days after federal and state leaders decided on a series of measures meant to break a wave of coronavirus infections.

The measures include excluding unvaccinated people across the country from nonessential stores, restaurants and sports and cultural venues. In a longer-term move, parliament will consider a general vaccine mandate.

At least 68.9 per cent of Germans are fully vaccinated against the coronavirus, short of the Government's aim of a minimum 75 per cent vaccination rate. The number of unvaccinated residents has been blamed as a key factor in a surge of new virus cases in recent weeks.

Official figures suggest that the infection rate may now be stabilising, but at too high a level. The national disease control center on Saturday reported 64,510 new daily cases and a 7-day infection rate of 442.7 new cases per 1,00,000 residents. Another 378 deaths in 24

hours brought Germany's total in the pandemic to 102,946. "Every one of them leaves behind families or friends, stunned, speechless and helpless," Merkel said in her video message. "This is so bitter because it is avoidable. With the effective and safe vaccines, we have the key to this in our hands."

She renewed a plea to Germans to take the virus seriously, adding that the new omicron variant "appears to be even more contagious than the previous ones."

"Get vaccinated, no matter whether it's a first vaccination or a booster," Merkel said. "Every vaccination helps."

Merkel is expected to leave office on Wednesday and be replaced by Olaf Scholz of the center-left Social Democratic Party, who is currently vice chancellor. Scholz said on

Saturday that his Government's "most important first task" is to "fight the corona pandemic with all the strength that we have."

"There would be a different situation now if just a few more citizens had also made the decision to get vaccination," he said at a convention of the Social Democrats. "We must again make a whole new effort, set in motion a whole new campaign" to get more shots in arms, Scholz said.

Senior members of the party denounced a Friday evening protest outside the home of Saxony state's health minister, Petra Koepping, a Social Democrat. About 30 people gathered with torches and placards outside the home in the eastern town of Grimma.

The demonstrators chanted against coronavirus policies before fleeing in cars when police arrived.

S Korea sets daily records for new Covid cases, deaths

Seoul: South Korea again broke its daily records for coronavirus infections and deaths and confirmed three more cases of the new omicron variant as officials scramble to tighten social distancing and border controls.

The 5,352 new cases reported by the Korea Disease Control and Prevention Agency on Saturday marked the third time this week the daily tally exceeded 5,000. The country's death toll was at 3,809 after a record 70 virus patients died in the past 24 hours, while the 752 patients in serious or critical conditions were also an all-time high.

As the delta-driven surge threatens to overwhelm hospital systems, there is also concern about the local spread of the omicron variant, which is seen as potentially more infectious than previous strains of the virus. **AP**

Lanka's Parl condemns lynching in Pakistan

PM Rajapaksa seeks justice

PTI ■ COLOMBO

Sri Lanka's Parliament and Prime Minister Mahinda Rajapaksa on Saturday condemned the brutal lynching of a Sri Lankan national in Pakistan and hoped that Prime Minister Imran Khan will keep his commitment to bring all those involved to justice and ensure the safety of the rest of the island nation's expat workers.

In a grisly incident on Friday, Priyantha Kumara Diyawadana, who was in his 40s, was lynched and his body burnt by angry supporters of a hardline Islamist party which attacked a garment factory in Pakistan's Punjab province over blasphemy allegations.

Diyawadana, a Sri Lankan Christian from Kandy city, was working as the general manager of the garment factory in Sialkot district, some 100 kms from Lahore.

New footage shot prior to the lynching showed a colleague trying to protect the victim on the roof of the factory where he had fled while the mob of around two dozen people slowly grew in number.

In the video, some among the mob can be heard chanting slogans and saying "he (the manager) will not escape today," while the colleague tried to shield Diyawadana with his body, who clung to the

Over 800 booked under terrorism charges in lynching of Lankan

Lahore: Over 800 people have been booked under terrorism charges while 13 prime suspects are among 118 arrested so far in the horrific lynching of a Sri Lankan national over allegations of blasphemy in Punjab province of Pakistan, a top police official said on Saturday, as pressure mounted on the government to bring the guilty to justice.

In a shocking incident on Friday, angry supporters of the hardline Islamist party Tehreek-e-Labbaik Pakistan (TLP) attacked a garment factory and lynched its general manager Priyantha Kumara Diyawadana before setting his body on fire over allegations of blasphemy.

Diyawadana, who was in his 40s and was from Sri Lanka's Kandy city, was working as the general manager in the Rajko industries (dealing in garments — sportswear) in Sialkot district, some 100 kilometres from Lahore, for the last seven years or so. **PTI**

Pakistan receives \$3 bn from Saudi to help stabilise economy: Official

Islamabad: Pakistan on Saturday received \$3 billion from Saudi Arabia as part of a financial assistance sought from the Kingdom to stabilise the country's economy, according to a senior Government official.

Saudi Arabia's financial support comes more than one month after PM Imran Khan visited Riyadh and held talks with the Crown Prince Mohammad bin Salman.

Following the talks, Saudi Arabia had agreed to provide \$4.2 billion worth of assistance to Pakistan, out of which \$3 billion was to be transferred as deposit in Pakistan's central bank. **PTI**

NSO Group spyware used to hack US Govt employees: Sources

AP ■ WASHINGTON

The phones of 11 US State Department employees were hacked with spyware from Israel's NSO Group, the world's most infamous hacker-for-hire company, a person familiar with the matter said on Friday.

The employees were all located in Uganda and included some foreign service officers, said the person, who was not authorised to speak publicly about an ongoing investigation. Some local Ugandan employees of the department appear to have been among the 11 hacked, the person said.

The hacking is the first known instance of NSO Group's trademark Pegasus spyware being used against US Government personnel.

It was not known what individual or entity used the NSO technology to hack into the accounts, or what information was sought.

"We have been acutely concerned that commercial spyware like NSO Group software poses a serious counterintelligence and security risk to US personnel," White House press secretary Jen Psaki said at briefing on Friday.

Senior researcher John Scott-Railton of Citizen Lab, the public-interest sleuths at the University of Toronto who have been tracking Pegasus infections for years, called the discovery a giant wake-up call for the US Government about diplomatic security.

"For years we have seen that diplomats around the world are among targets," he said, "and it looks like the message had to be brought home to the US Government in this very direct and unfortunate way. There is no exceptionalism when it comes to American phones in diplomats' pockets."

News of the hacks, which were first reported by Reuters, comes a month after the US Commerce Department black-listed NSO Group, barring US technology from being used by the company.

US intelligence finds Russia planning Ukraine offensive

AP ■ WASHINGTON

President Joe Biden has pledged to make it "very, very difficult" for Russia's Vladimir Putin to take military action in Ukraine as US intelligence officials determined that Russian planning is underway for a possible military offensive that could begin as soon as early 2022.

The new intelligence finding estimates that the Russians are planning to deploy an estimated 1,75,000 troops and almost half of them are already deployed along various points near Ukraine's border, according to a Biden administration official who spoke on the condition of anonymity to discuss the finding.

It comes as Russia has picked up its demands on Biden to guarantee that

Indonesia's volcano spews ash, gas, killing 1, dozens hurt

Lumajang: The highest volcano on Indonesia's most densely populated island of Java spewed thick columns of ash, searing gas and lava down its slopes in a sudden eruption triggered by heavy rains on Saturday. At least one villager died from burns and dozens were hospitalised. Mount Semeru's eruption

in Lumajang district in East Java province left several villages blanketed with falling ash.

A thunderstorm and days of rain, which had eroded and finally collapsed the lava dome atop the 3,676-meter Semeru, triggered an eruption, said Eko Budi Lelono, who heads the geological survey center. **AP**

Lot of unhealthy speculation on crypto taking place: FM

New Delhi: Asserting that a lot of speculation is taking place on cryptocurrencies, Finance Minister Nirmala Sitharaman on Saturday said these speculations are not "healthy at all."

Her comments come against the backdrop of the government preparing to come out with legislation to regulate cryptocurrencies.

Speaking at the HT Leadership Summit, the Finance Minister said there is certainly a well consulted bill which is coming in Parliament after the Cabinet nod.

"There is a lot of speculation...That's not healthy at all," she said in a reply to a question if she thinks that a lot of unregulated speculation is taking place on crypto.

The Cryptocurrency and Regulation of Official Digital Currency Bill, 2021, has been included in the Lok Sabha Bulletin-Part II for the introduction in the ongoing Winter Session.

The bill seeks to create a facilitative framework for the creation of the official digital currency to be issued by the Reserve Bank of India (RBI), the Bulletin said.

It also seeks to prohibit all private cryptocurrencies in India, however, it allows for certain exceptions to promote the underlying technology of cryptocurrency and its uses. Earlier this week, Sitharaman in the Rajya Sabha while replying to a series of questions had

said the new bill takes into account the rapidly changing dimensions in virtual currency space, and incorporates features of the earlier bill that could not be taken up.

Asked if the government proposes to ban misleading advertisements in media, she had said the guidelines of Advertising Standards Council of India are being studied and their regulations are also being looked into "so that we can take, if necessary, some kind of a position or a decision to see how we are going to handle it". She had said the government, RBI and Sebi have been cautioning people about the cryptocurrencies that could be a "high risk" area and "more can be done" to create awareness.

On the economic growth, Sitharaman at the HT Leadership Summit said, the GDP number this year would be very encouraging and India would emerge as the fastest

growing large economy in the world.

With regard to food inflation, she said, there are supply constraints because of floods in some parts of the country leading to price rise of perishable products.

She, however, expressed hope that prices of those commodities in short supply would cool down by January.

On edible oil, she said, enough and more imports have been allowed and that should take care of the spike in prices. With a fresh harvest of mustard seeds, she said prices of that would also moderate soon.

Asked about meeting the disinvestment target of Rs 1.75 lakh crore during the current financial year, she said, "we are progressing with each one of them (BPCL strategic sale, LIC IPO). The detailing requires a lot of time."

Air India handing over to Tata Group would be done by December 31, she added. **PTI**

India exemplary in publishing its foreign exchange market intervention: US Treasury

Washington: India has been exemplary in publishing its foreign exchange market intervention, the US Treasury Department said on Friday adding that New Delhi should allow the exchange rate to move flexibly to reflect economic fundamentals.

"The (Indian) authorities should allow the exchange rate to move flexibly to reflect economic fundamentals, limit foreign exchange intervention to circumstances of disorderly market conditions, and refrain from further significant reserve accumulation," it said.

"As the economic recovery progresses, the authorities should continue to pursue structural reforms that can help lift productivity and living standards, while supporting an inclusive and green recovery," the Treasury said.

In its semi-annual Report to Congress on Macroeconomic and Foreign Exchange Policies of Major Trading Partners of the United States, the Treasury reviewed and assessed the policies of its major trading partners, comprising more than 80 per cent of its foreign trade in goods and services, during the four quarters through June 2021.

In accordance with the

Omnibus Trade and Competitiveness Act of 1988 (the 1988 Act), the Report concludes that no major US trading partner manipulated the rate of exchange between its currency and the US dollar for purposes of preventing effective balance of payments adjustments or gaining unfair competitive advantage in international trade.

However, it found that 12 economies warrant placement on the Treasury's "Monitoring List" of major trading partners that merit close attention to their currency practices: China, Japan, Korea, Germany, Ireland, Italy, India, Malaysia, Singapore, Thailand, Mexico, and Switzerland. All except Switzerland were on the Monitoring List in the April 2021 Report.

"India has been exemplary in publishing its foreign exchange market intervention, both monthly spot purchases and sales and net forward activity, with a two-month lag. While the RBI frequently intervenes in both directions, the RBI purchased foreign exchange on net in 10 of the 12 months through June 2021, with net intervention reaching USD 131 billion, or 4.6 per cent of GDP," it said.

Automotive R&D body ARAI working on developing fast chargers for EVs: Minister

Canacona (Goa): Automotive research and development body Automotive Research Association of India (ARAI) is working on developing fast chargers for e-vehicles, Heavy Industries Minister Mahendra Nath Pandey said on Saturday.

The Pune-based autonomous institution has already developed a prototype of the product, he told PTI on the sidelines of the 'Round Table To Promote Electric Mobility' event organised by the Ministry of Heavy Industries here.

When asked about the challenges related to the usage of e-vehicles, he said, "This (issue) is being talked about that it consumes more time (to charge an e-vehicle battery). ARAI has been directed to work on it. In fact they have developed a prototype of a fast charger and the product is expected to be ready by December 2022."

The ARAI has been asked for completion of the project by October 2022, so by December, it can be made available to the users for use, he informed.

The launch of fast chargers will address the issue of charging and boost demand for the battery vehicles, the Minister said adding the research is still underway and after its completion, the specific charging time of a two-wheeler e-vehicle,

three-wheeler and four-wheeler e-vehicle will be known.

Pandey further said his ministry is also in talks with the Ministry of Petroleum and Natural Gas for installation of chargers at 22,000 petrol pumps across the country.

Without sharing any timeline, he said there are about 70,000 petrol pumps across the country, and as per the plan a charging station would be at an interval of 25 km on highways and with a radius of 3 km in cities.

The minister also said that at the round table he has asked the industry stakeholders to apprise his ministry of their issues. "I have asked the players to discuss and inform about their concerns. I assure them of full support in addressing the

issues brought to my notice."

Transport ministers of eight states, top officials from 19 states and industry leaders from the automotive sector attended the round table deliberate about ways to promote electric vehicles in the country and attract investments.

Meanwhile in a statement issued by the Ministry of Heavy Industries, quoted Pandey as saying, 'India's transition to Electric Mobility System can save ₹20 lakh crore by 2030 on avoided oil imports alone.'

The statement said that the minister directed the Indian automakers to look for major share of global electric vehicle market.

Growth of the auto industry will also help India achieve the commitments given by Prime Minister Narendra Modi in COP26, he said.

Coal production from captive mines likely to touch 85 MT in current fiscal

New Delhi: The Government on Saturday said that coal production from captive mines is likely to touch 85 million tonnes (MT) during the ongoing fiscal, which is significantly higher than last year's 62 MT.

The coal production from from captive mines during this year till November has already reached around 50 million tonnes, the coal Ministry said in a statement.

In order to further enhance coal production, Coal Secretary Anil Kumar Jain

reviewed the issues related to environment and forest clearances impacting development of new coal blocks, with senior officers of the Ministry in view of high demand for domestic coal.

Coal production from captive mines is expected to reach 120 MT during the next financial year.

"This achievement will further fulfil the vision of Aatmanirbhar Bharat in domestic coal production," the Ministry said. **PTI**

Labour Minister launches annual health check-up programme for ESIC members aged above 40

New Delhi: Union Labour Minister Bhupender Yadav on Saturday launched annual preventive health check-up programme for Employees' State Insurance Corporation's insured members aged 40 years and above in pilot mode at ESI hospitals in Ahmedabad, Faridabad, Hyderabad and Kolkata.

Besides, in the ESIC's 186th meeting here chaired by Yadav, a proposal was also cleared for construction of 500-bed ESIC Hospital at Gurugram (Manesar) for expansion of services of existing 100-bed hospital.

Talking to the media after the meeting, Yadav said, "We have started a pilot project under which we are providing for free medical check for insured persons (IPs) of ESIC who are of 40 years or above age every year. We have a dream of 'swasth Bharat'. We have around 3.5 crore IPs. So if we also run preventive care moment in ESIC along with curative, then we can achieve that vision."

The minister also informed that this pilot would be further expanded in coming days with the increase in number of IPs to five crore with implementation of Social Security Code.

The minister said the ESIC also wants to improve its hospitals to super speciality ones so that referral to others can be reduced in coming days.

The minister also talked about roll out of a mobile app 'Santush' for ESIC beneficiaries for improving delivery of services. Yadav further said that the construction of two ESIC hospitals at Bihta in Patna and Alwar in Rajasthan has been completed and soon these would be inaugurated.

Informing about approving the proposal for construction of 500-bed ESIC Hospital at Gurugram (Manesar), Yadav said that ESIC has approved deposit of funds required for the purpose.

On ESIC's request, the Haryana government has identified 8.7 acres of land for allotment. The ESIC on Saturday approved the proposal to

set up 500-bed ESIC Hospital at HSI-IDC, Manesar and of acquisition of this plot for the purpose.

He also informed that a 100-bed ESIC hospital would be built. The Uttar Pradesh Government has identified a piece of land measuring 2 hectares and conveyed approval for free of cost transfer of the land for 90 years. The ESIC on Saturday approved proposal and process of acquisition of identified land for construction of 100-bed ESIC Hospital at Meerut.

It also approved taking over of the state government-run ESIC Hospital, Tinsukia, Assam by the ESIC. Its subsequent running as a 100-bed ESIC-run hospital state government of Assam has consented for handing over the state run hospital at Tinsukia to ESIC.

The ESIC also approved acquisition of land for proposed 30-bed ESIC Hospital at Atchutapuram, Visakhapatnam, Andhra Pradesh. Land measuring 2 acres or 8,089.07 sqm has been allotted in Atchutapuram, Vishakhapatnam free of cost.

ESIC also approved setting up of a Sub-Regional Office (SRO) of ESIC at Jharsuguda in Odisha. The ESI Scheme is implemented in 24 districts of the State.

The ESIC also relaxed the contributory condition in the ESIC COVID-19 Relief Scheme. In order to provide help and succour to the families of the IPs who died due to COVID-19, the ESIC COVID-19 Relief Scheme was introduced.

This contributory condition of payment of 70 days contribution is proposed to be relaxed to an extent that contributions for at least 35 days should have been paid instead of 70 days. The ESIC also adopted the Audited Annual Accounts of the ESIC for the Financial year 2020-2021 together with the report of the C&AG of India. It also adopted annual report of the ESIC for the year 2020-2021 and Analysis thereof. **PTI**

Over 550 applicants for BEE energy conservation awards

New Delhi: More than 550 applicants are in fray for the BEE energy conservation awards that have been instituted to push industries and sectors to develop innovative energy efficiency efforts in their units as well as reduce power consumption, the Power Ministry said on Saturday.

Under the National Energy Efficiency Innovation Awards (NEEIA), a total of 149 applicants participated by the due date. Online applications were invited from Category A (industry, transport, building) and Category B (students & research scholars) under the NEEIA awards.

The Ministry said that 408 applicants participated in the National Energy Conservation Awards (NECA), which have been instituted to promote industrial units, institutions and establishments to reduce energy consumption.

The Ministry explained that the National Energy Efficiency Innovation Award is the need of the hour to promote newer technologies, ideas, and pave way for the

adoption of these innovations by larger groups. As promotion of energy efficiency and Renewable energy are major pillars for low carbon energy transition, recognition of such efforts undertaken by various participants stimulate further action in accelerating the transition. Outcomes of which eventually contribute towards meeting India's Nationally Determined Contributions (NDCs) and broader climate goals, it stated.

The BEE recognises and encourages endeavors of industrial units, institutions and establishments in reducing energy consumption by felicitating them with National Energy Conservation Awards (NECA).

This year, the NECA and the NEEIA awards are being organized as part of the "Azadi ka Amrit Mahotsav". The awardees of the National Energy Conservation Awards and National Energy Efficiency Innovation Awards would be felicitated on 14th December 2021, on the occasion of National Energy Conservation Day, by high-level dignitaries, the Ministry said.

MSME Min urges entrepreneurs to grab opportunity created by closure of plants in China

Ahmedabad: Union Minister of Micro, Small and Medium Enterprises (MSME) Narayan Rane on Saturday urged Indian entrepreneurs to take advantage of closure of factories in China.

Indian industrialists should start manufacturing the products which are no longer produced in China, he said, speaking at an event at the Entrepreneurship Development Institute of India (EDII) here.

"China is number one in the world in terms of production. China is leading with 64 per cent share in global manufacturing. However, many companies are shutting down (in that country)," Rane said.

"I have urged large and medium industrialists to capture this opportunity and start manufacturing these products in India," he said. "We should also take up marketing and export of these products. At present,

India's manufacturing share is nearly six per cent. If we add another 10 per cent, our GDP would increase significantly. This will help the country become a super power," the Minister added. Rane had been invited by the EDII to address students and entrepreneurs on the "Role of MSMEs in Enhancing Growth and Competitiveness".

He also said the latest machinery should be used for manufacturing the

"China is number one in the world in terms of production. China is leading with 64 per cent share in global manufacturing. However, many companies are shutting down (in that country)," Rane said

products which are no longer made in China, so that India can capture global markets by maintaining quality.

The Minister also emphasized the importance of having an "industrial environment".

"A flourishing industrial environment brings stability to society by providing innovative solutions. It also inspires the younger generation to think creatively and dares them to take the plunge.

Hence the emphasis on MSME growth and sustenance is a must," he said. Rane also released the Global Entrepreneurship Monitor India Report 2020-21 on this occasion.

The report is touted as the largest annual study of entrepreneurial dynamics in the world. The Minister also inaugurated the MSME Ministry-supported newly constructed facilities on EDII campus and presented the Gujarat Start-up Awards 2021. **PTI**

Ranks upgraded in RAF, CoBRA by Centre

RAKESH K SINGH ■ NEW DELHI

The Centre has accorded sanction to upgrade the post of one deputy commandant (operations) to second-in-command (operations) in each of the 15 battalions of the Rapid Action Force (RAF), 10 CoBRA battalions and six Mahila battalions of the CRPF to temporarily stem stagnation at the level of deputy commandants. The proposal was pending for over two years when a cadre review was undertaken in 2016-17 and one deputy commandant (operations) in each of the General Duty battalions was upgraded to second-in-command (II-I/C). GD battalions refer to operational battalions of the Force. While the purpose of the cadre review was to undertake a thorough cadre management, the CRPF opted for ad hoc promotion of the deputy commandants to II-I/C. This led to stagnation at the level of the deputy commandants which was affecting operational profile, CRPF veterans said. The move will lead to promotion of 31 deputy commandants in the RAF, specialized anti-Naxal unit Combat

Battalion for Resolute Action (CoBRA) and Mahila Battalions. While officials welcomed the move to promote the deputy commandants in the RAF, CoBRA and Mahila Battalions, they termed it as a temporary measure which will not alleviate the long term problem of stagnation at the junior and middle level hierarchy of the cadre officers. While the rank of the deputy commandants have been upgraded to II I/C but the number of the posts of the deputy commandants has been simultaneously reduced, they said, adding the cadre review conducted in 2016-17 was an eyewash. An Assistant Commandant rank officer in the Central Reserve Police Force (CRPF) as well as the Border Security Force (BSF) takes 11 to 12 years to get the first promotion to the rank of deputy commandant as against the army officers getting their first promotion in just four years. A deputy commandant is promoted to the next level of II-I/C in six to seven years. "This leads to an increased age profile of the junior and middle level leadership in the armed

forces under the Union Home Ministry which is alarming and detrimental for both the morale of the officers and operational efficiency," officials said. While yet another cadre review is underway but the same has not been finalized. A scientific career progression management of the cadre officers is required to improve the bleak promotion prospects of the officers who are recruited by the Union Public Service Commission (UPSC), they added. "The undersigned is directed to refer to CRPF's (note on the subject) and to convey approval of the competent authority for upgradation of one post each of Deputy Commandant (Ops) to the rank of Second-in-Command (Ops) in 10 CoBRA Bns, 15 RAF Battalions and 06 Mahila Battalions of CRPF at par with male GD (General Duty) Battalions subject to the filling up of these posts by the officers who are already drawing NFFU (non-functional financial upgradation) or higher ranks," reads an order issued on Tuesday by Under Secretary Ashutosh Kumar of PF III desk of the Union Home Ministry.

Govt working to ensure healthcare, housing for CAPF jawans: Shah

Jaisalmer (Rajasthan): The Narendra Modi government is working to ensure better healthcare facilities and increased housing satisfaction and family time for personnel of the Central Armed Police Forces, who are guarding India's fronts under very difficult conditions, Union Home Minister Amit Shah said on Saturday. Addressing Border Security Force (BSF) personnel at the 'Rohitash' post along the India-Pakistan border here in Rajasthan, the Minister said the Government will do "everything for the welfare of troops who spend the golden days of their life in protecting the motherland". Shah, who is on a two-day visit to Jaisalmer in the desert state, is spending the first night of his trip at the 'Rohitash' border post, where he will share meals with jawans during the 'bada khana' (feast). "I am going to stay here tonight with you at this post and this is an attempt to understand your difficulties and to find ways to ease problems," Shah told troopers during an evening address at a 'Sainik Sammelan'. He said the 'Rohitash' post

was witness to the glory and bravery of BSF and army personnel during wars with Pakistan. Shah said his government has made it a point to ensure healthcare of jawans and their families and that is why the 'Ayushman CAPF' scheme has been launched. "You can get all the health benefits for your families by just swiping a card...This new scheme will lessen the administrative burden on forces like the BSF, unlike earlier where they had to clear a number of health bills," the minister said. Quoting official data, Shah said 25 lakh 'Ayushman CAPF' health cards have been distributed among personnel of various central armed police forces (CAPFs) till December 2. In the BSF, 4.5 lakh cards have been distributed, he said. "We want to distribute these cards, which will ensure easy healthcare facilities to jawans and their families, to each and every personnel and their kin by February next year," he said. "We are also working to improve the housing satisfaction level for CAPF personnel," he said.

Congress begins online drive for families of those who died of Covid

PNS ■ NEW DELHI

Former Congress president Rahul Gandhi on Saturday launched the party's online campaign demanding compensation for the families of those who died of Covid and accused the government of sleeping while people coped with pain and loss. The Congress said the aim of the "#SpeakUpforCovidNyay" campaign was to demand that the central government disclose the actual number of Covid deaths in the country and "properly compensate all families of the victims with Rs 4 lakh". "When it comes to people's pain and loss, Government of India is sleeping. Let's wake them up," Rahul tweeted while launching the campaign. The party alleged the Narendra Modi government has very tactfully tried to cover up its failures in managing the Covid-19 pandemic by distorting the number of Covid deaths, the party alleged. "#SpeakUpForCovidNyay so the govt is forced to disclose the correct number of Covid deaths," it said on its official Twitter handle. The party alleged that the government lacked the intention to support the distressed

families. "If the government doesn't have data of Covid deaths, the entire country is willing to share it with the government. There is no dearth of fund... The real issue is the government is lacking in the intention to help Covid-hit families. We demand Rs 4 lakh each for the kin of those who died of the pandemic," AICC spokesperson Pawan Khara said. "By making up false numbers, the Modi government is not only withholding compensation for lakhs of families, but it is simply trying to cover up its failure in managing and controlling the pandemic," party said in a statement. The Congress said that

Relief for Andhra, Odisha, WB as storm Jawad weakens

PNS ■ NEW DELHI

In a relief for Andhra Pradesh, Odisha and West Bengal, the India Meteorological Department (IMD) on Saturday said that cyclonic storm 'Jawad' weakened into a deep depression on Saturday and is likely to weaken further into a depression by the time it reaches Puri on Sunday. The cyclonic storm weakened into a deep depression and lay centered over west-central Bay of Bengal, about 180 km east-southeast of Visakhapatnam, Andhra Pradesh, and 330 km south-southwest of Puri, Odisha at 5:30 pm, the IMD said in a statement. "It is likely to move north-northeastwards and weaken further into a depression by tomorrow morning. It is likely to reach near Puri around Sunday noon. Subsequently, it is likely to continue to move

north-northeastwards along the coast of Odisha towards the coast of West Bengal and weaken into a well marked low pressure area during the subsequent 24 hours," it said. Saudi Arabia has given the cyclone its name 'Jawad' -- the liberal or merciful. A low-pressure area had developed over the Andaman Sea on November 30. It intensified into a depression on December 2 and further into a deep depression on Friday morning. It turned into a cyclone on Friday noon, the IMD said. The IMD has forecast heavy to very heavy rainfall at isolated places over Gangetic West Bengal and north Odisha on Sunday, and heavy rainfall at isolated places over Assam, Meghalaya and Tripura on Sunday and Monday. Sea conditions will remain unsafe for shipping and fishermen in the central and north Bay of Bengal till Sunday.

Focusing on improving passenger experience through world-class stations: Railways Min

New Delhi: The Railway Ministry's focus is on improving passenger experience through world-class railway stations, Minister Ashwini Vaishnaw said on Saturday. Speaking at an event of the Confederation of Indian Industries, he maintained that spending on new railway lines, doubling of tracks and electrification among others is on track. With the stations at Bhopal and Gandhinagar now with world-class features in terms of city integration and passenger flow, 40 more stations will be tendered shortly, he said. The Minister also said that tourism is being created as a new growth segment for the railways and invited the industry to participate in this objective. Modern train sets with air cushions are being designed and will be rolled out at the end of the next year, he said.

For reducing cargo costs, Vaishnaw noted that it is important to raise the share of freight carried by the railways. For this, the ministry is working on stepping up investment in new tracks, capacity and other infrastructure, he said. "The customer interface must be made simple with not more than three months for clearances on cargo terminals and other facilities. Wagon designs are being changed to cater to different commodities and products. The railways is working on a hybrid BOT model for greater private participation," he added. In telecom, the railway minister said India is developing its own 5G system. The Postal Life Insurance (PLI) scheme for telecom manufacturing has been very encouraging with 35 applications. In the electronics and

information technology sector, Vaishnaw said electronics manufacturing is likely to exceed the expectation of USD 250 billion of production by FY-26. Similarly, Startup India had targeted 100 unicorns by 2025, but more than 70 are already in place, he noted, adding that a user-centric and trust-based regime is being developed. He also said that the bulk of government's revenues is going on capital investment in areas such as healthcare infrastructure. "Prime Minister Narendra Modi has called for changing the government's operating systems under the Atmanirbhar Bharat package. Capacity utilisation is now rising as a result of this strategy. If the capital investment by the government rises, private investment will also pick up," Vaishnaw added.

NEW CORONAVIRUS VARIANT No need to panic, follow Covid appropriate behaviour: VP

New Delhi: Vice President M Venkaiah Naidu on Saturday urged people not to panic about the emergence of new Covid-19 strain Omicron and advised them to remain vigilant and keep following Covid-appropriate behaviour till the pandemic is over. Addressing a gathering at a book launch event at the Upa Rashtrapati Nivas here, he also urged people to shed hesitancy and get themselves vaccinated against coronavirus at the earliest. The vice president said the coronavirus pandemic has come as a big challenge for the entire human race, and appreciated the world's largest vaccination drive currently underway in India, an official statement of the Vice President Secretariat said. Naidu also referred to the transformational changes brought in governance over the past seven years. These changes are both empowering and enabling 1.3 billion people to deliver on their potential, he said. "Be it life expectancy, financial inclusion, access to healthcare, employment, owning a house, or honouring entrepreneurial ability, the quality of Indian lives is getting better with each passing day," Naidu said. Quoting the prime minister's three word mantra - 'reform, perform and transform', the vice president praised the tremendous progress made by the nation over the past few years in various fields such as financial inclusion, insurance coverage, number of LPG connections for poor women and tap water connection to households. He said following the principle of 'minimum government and maximum governance', the government is leveraging technologies to bring transformation in every sector, and expressed satisfaction over India becoming the third

largest startup ecosystem in the world. "It is a testimony to the government's resolute commitment to improve the business environment in the country that India's ranking rose to 63rd place in World Bank's Ease of Doing Business Index 2020," he said. Naidu noted that India's strategic partnerships are based on mutual respect and the nation has given a resolute response to inimical forces who dared to challenge its integrity and sovereignty. "We are guided by our unwavering self-belief and our dedication to becoming 'atmanirbhar' (self-reliant) in every possible way," he noted.

PAC upholds prudence, wisdom in Parl system: Prez

PNS ■ NEW DELHI

On the occasion of the 100th year of the Public Accounts Committee (PAC), President Ram Nath Kovind on Saturday said that the PAC upholds prudence, wisdom and propriety in the Parliamentary system. Kovind said Gandhiji considered account keeping as essential for clean public life. He underlined that the philosophy of public accounts has not been changed from the time of Kautilya. PAC was constituted in 1921 in the pre-Independent India. Since the sixties, an opposition member has been heading the committee. The PAC examines the

accounts showing the appropriation of the sums granted by Parliament to meet the expenditure of the central government, the Annual Finance Accounts of the Government of India and such other accounts laid before the House as the Committee may think fit. Several high dignitaries along with central ministers and members of Parliament of both the houses attended the function in the Parliament. Vice President Venkaiah Naidu said, PAC reports always strive for improvement in the system. PAC has detected many financial lapses in its glorious work traditions. Naidu also suggested that Parliament should meet 100 days in a year. Lok Sabha Speaker Om

Birla said this is one of the most important Committees of Parliament and complimented the PAC members for their dedication to the cause. In his first address in the function, PAC Chairman Adhir Ranjan Chowdhury said, the PAC is committed to uphold transparency and accountability of the government money. He said the committee always acts in an impartial manner. The President released a special souvenir depicting the 100 glorious years of PAC's journey and 67 special articles including 15 from Commonwealth countries. Mr Kovind also inaugurated an exhibition depicting the milestone moments of PAC from 1921 to 2021.

Kovid felicitates individuals, organisations for contribution towards PwDs empowerment

PNS ■ NEW DELHI

President Ram Nath Kovind on Friday conferred the National Awards on individuals, institutions, organisations and state/district etc. for their outstanding achievements and work done towards empowerment of Persons with Disabilities (PwDs). The president was the Chief Guest at a function to celebrate "International Day of Persons with Disabilities" organized by the DEPwD, Ministry of Social Justice & Empowerment on Friday. Union Minister for Social Justice and Empowerment Dr. Virendra Kumar, Ministers of State for Social Justice & Empowerment Ramdas Athawale, Pratima Bhaumik were also present in the function. In his address, Dr. Virendra Kumar expressed his gratitude to the President for his presence and guidance from time to time towards empowerment of Persons with Disabilities. Dr. Kumar said that the Divyangjans are valuable human resources and the Prime Minister gives priority to the issues of persons with disabilities in the National Development Agenda. His motto is "Inclusive growth, development of all and confidence of all". The Government has enacted the Right to Persons with Disabilities Act, 2016 which came into effect from 19.04.2017. The Act provides for 4% reservation in government jobs for persons with disabilities. In January 2021,

the Ministry has identified 3566 posts suitable for persons with disabilities, he said. He also said that the Sugamya Bharat Abhiyan (Accessible India Campaign) was launched by the Government on 03.12.2015 to provide universal accessibility to persons with disabilities so that they can live a meaningful life with dignity. Public buildings, transport system and information and communication technology have been included under this campaign. Keeping in view the problems related to accessibility faced by the masses, the Department has developed a Mobile APP to address those problems in a quick and systematic manner as possible. The Government has set up Indian Sign Language Research and Training Centre to promote the empowerment of hearing-impaired persons and to create sign language in India. The Institute, among other functions, is continuously preparing sign language dictionaries that have so far included more than 10,000 words.

Going to courts should be last resort: CJI

Only after exploring arbitration, mediation, conciliation

Hyderabad: Chief Justice of India N V Ramana on Saturday said that the option of going to courts for dispute resolution should be used as the 'last resort', only after exploring Alternative Dispute Resolution (ADR) mechanisms like arbitration and mediation. "My advice, after practicing in the legal profession for over 40 years in different capacities, is that you must keep the option of going to courts as a last resort. Use this last resort only after exploring the option of ADR- arbitration, mediation and conciliation," he said. Justice Ramana, who was speaking at the Curtain Raiser and Stakeholders' Conclave of International Arbitration and Mediation Centre (IAMC) here, recalled Lord Krishna's attempt to mediate between the Pandavas and Kauravas in the epic Mahabharata. "It may be worthwhile to recall that the failure of mediation led to disastrous consequences," he said. The reasons for conflicts are many, including misunderstandings, ego issues, trust and greed. Ultimately, small differences of opinion can lead to a big conflict and even big conflicts can be resolved with some effort in understanding one another, he said. If conflicts arise in personal life, they can be resolved by avoiding

the people who do not like or by sacrificing some money to get mental peace, among others, the CJI said. A prudent person tries to find ways to resolve conflicts amicably, he said. But in a business, money, honour or reputation cannot be lost and the interests of business or industry cannot be sacrificed. In such a situation also, an easy way of settling disputes without wasting much time or money or losing peace of mind can be thought of, he said. "Now to come back to the reality, in business you might have a difference of opinion and disagreements. One would usually start by initiating a dialogue to clarify issues. If it doesn't happen, you may still look for people who can help you resolve such issues by negotiating. If this also doesn't work, then the only option people consider is to go to courts," he said, advising that going to courts should be the last option. Observing that arbitration and mediation are efforts at restoring a relationship, he said the most important factor behind the resolution of any dispute is having the right attitude of leaving aside ego, emotions and embracing practicality. Once the conflicts enter a Court, much gets lost in the practice and procedure, he said.

AJAZ TAKES ‘PERFECT 10’

...But India bowl out NZ for 62 to inch towards massive win

PTI ■ MUMBAI

Mumbai-born New Zealand left-arm spinner Ajaz Patel had an unforgettable afternoon when he entered the annals of Test cricket history with a 10-wicket haul but Indian bowlers made it a forgettable evening for him as well as his team by dismissing the visitors for a paltry 62, taking a massive stride towards a series victory.

By the end of the day, India were 69 for no loss in their second innings with Virat Kohli deciding against

enforcing the follow-on in the second and final Test.

Cheteshwar Pujara, coming out to open in place of an injured Shubman Gill, looked good during his 29 not out while Mayank Agarwal, after his fine 150 in India's first innings total of 325, remained unbeaten on 38.

The lead swelled to 332 for the hosts and in these conditions, the Indians will brace up for a three-day finish to earn some rest before boarding the charter flight to Johannesburg on December 16.

The second day of the second Test should have solely belonged to the 33-year-old Patel, who had figures of 47.5-12-119-10, to join the 'Elite List', where he has late Jim Laker and Indian great Anil Kumble for company.

By keeping India's first innings total down to a manageable level, Patel must have had a sense of elation but before the

plethora of congratulatory messages on social media would stop coming, his batters just flattered to deceive as they managed to bat out only 28.1 overs.

The team ended up scoring the lowest total by an overseas side on Indian soil.

The Black Caps batted 14.4 overs less than what their premier spinner took to get all the Indian players out.

They didn't even let the feat sink in before Mohammed Siraj's (3/19) hostile four over spell literally decimated them. There were two deliveries that straightened and had enough pace to beat the batter's defence while the other was a mean bouncer.

Ravichandran Ashwin (4/8 in 8 overs) and Axar Patel (2/14 in 9.1 overs) were expectedly just too good on this track. The opposition batters simply couldn't counter the turn and bounce.

The New Zealand innings finished even before the Indian bowlers were nicely warmed up and it was understandable that Kohli wanted some batting time against a battered opposition

which would give him and Pura a requisite confidence.

With the match all but in their pocket, Pujara stroked freely and also got a pulled six off Patel — a rarity from an exponent of defensive batting.

While Pujara will certainly value these welcome runs but it can't be seen in isolation that it came when the pressure was already completely released due to a mammoth 263-run first innings lead.

Patel started the day with two quick wickets before Agarwal and Axar added 67 runs for the seventh wicket to take the score towards the 300-run mark. Axar got his first 50 and batted with a lot of caution and occasional aggression.

The best delivery of the six wickets that he got on the day, was the one that got Ravichandran Ashwin out as he drew the batter forward and turned enough to clip the balls.

Ashwin hilariously appealed for DRS without realising that he has been bowled as he thought that the bowler had appealed for caught behind.

The review was wasted as he had already asked for it and once he realised that he was beaten lock, stock and barrel, he didn't wait for the final verdict.

No wonder when Patel got Siraj as his 10th and final victim, Ashwin was seen giving him a standing ovation from the Indian dressing room.

But little would Patel have known that it would turn into an anti-climax after Siraj's opening burst which was as good as one saw in home Test matches where pitches aren't conducive for pace bowling. However, this one had extra bounce.

The delivery that got Ross Taylor out was perhaps the best of the match.

The ball came in as Taylor shaped to play a defensive shot only to find enough deviation which beat the outside edge of his bat and knocked back the off-stump.

That was one of a kind dismissal after which there was no chance of a recovery for the New Zealanders, who will now only look to delay the inevitable.

BEST BOWLING IN AN INNINGS IN TESTS				
Figures	Bowler	Opponent	Venue	Season
10-53	Jim Laker (England)	Australia	Manchester	1956

India curtails tour of South Africa, T20Is to be played later

PTI ■ KOLKATA

The Indian cricket team's tour of South Africa will go ahead but the team's departure has been postponed by a week and T20 Internationals are no longer a part of the schedule, the two boards announced on Saturday, ending the speculation surrounding the series after a new COVID-19 variant triggered anxiety. The four T20s will be played at a later date and Cricket South Africa said it will confirm the venues for the new schedule in the next 48 hours.

The Indians were originally set to leave on December 9 but the travel plans have changed, which means that the Tests are

unlikely to start on December 17 as planned earlier.

India are scheduled to play three Tests and three ODIs dur-

ing the tour. CSA and BCCI Secretary Jay Shah's statements came as the Indian Board officials met for an Annual General

Meeting here.

"BCCI has confirmed (to the) CSA that (the) Indian team will travel for three Tests and three ODIs. The remaining four T20Is will be played at a later date," Shah said in a statement.

Cricket South Africa appreciated BCCI's commitment to the series.

"Cricket South Africa can confirm that the India Tour will continue as originally scheduled, with a few adjustment to the logistical arrangements, such as the arrival time of the India Team," the CSA said.

"...The tour is now confirmed and the arrival timings of the India team will be moved out by a week, to allow for effective

logistical planning.

"...CSA is pleased to announce that this tour will also take place under the strictest COVID-19 guidelines," it added in a statement.

South Africa's discovery of the Omicron variant has caused much trepidation as cases have soared in the country.

The Netherlands tour of the Rainbow Nation also had to be abandoned after the emergence of the new variant triggered panic all around the world with many countries imposing travel bans on the country.

CSA also had to postpone its domestic fixtures after some of the players tested positive for the virus on arrival.

Sindhu enters final of BWF World Tour Finals

PTI ■ BALI

Indian badminton ace P V Sindhu entered the summit clash of BWF World Tour Finals with a hard-fought win over Akane Yamaguchi of Japan in the semifinals here on Saturday.

Sindhu, the reigning world champion and two-time Olympic medallist, beat Yamaguchi 21-15 15-21 21-19 in a thrilling match that lasted one hour 10 minutes.

She will face Korea's An Seyoung, who beat Pornpawee Chochuwong of Thailand 25-23 21-17 in the other semifinal, in the summit clash on Sunday. It will be Sindhu's third final appearance in the season-ending tournament. She had won the title in 2018 to become the only Indian to achieve the feat.

The world number 7 Indian had come into the match with an overall head-to-head win-loss record of 12-8 against the world number three Japanese.

Sindhu has been in fine form after picking up a bronze in the Tokyo Olympics. She had reached the semifinals in her

last three events — French Open, Indonesia Masters and Indonesia Open — before coming into the BWF World Tour Finals.

She had finished runner-up in the Swiss Open in March.

But it won't be easy for Sindhu in the final against Seyoung who had come into the season-ending tournament with back-to-back titles in the Indonesia Masters and Indonesia Open.

The world number six Seyoung had also beaten Sindhu in the quarterfinals of the Denmark Open in October.

Against Yamaguchi, Sindhu trailed 0-4 in the first

game but quickly came to level terms at 4-4 and then 9-9. The duo were neck and neck but Sindhu zoomed ahead from 15-14 to reach 18-15. She then took three straight points to pocket the first game.

The second game was also a tight contest as the two players were levelled at 10-10 before Yamaguchi shifted the gear to pocket it without much fuss.

In the deciding game, Sindhu and Yamaguchi were tied at 5-5 before the Indian reeled off seven straight points. The Japanese made a sort of comeback by narrowing down the gap to 11-13 but Sindhu cruised to 17-12.

Neeraj Chopra launches outreach programme

PTI ■ NEW DELHI

Tokyo Olympics gold medallist Neeraj Chopra on Saturday launched an ambitious outreach programme that connects India's ace athletes with school children.

On the occasion, he met with students from 75 schools and emphasised on balanced diet, fitness and sport during an interaction organised at Ahmedabad's Sanskardham School. Neeraj played

a variety of sport with the students and gave them tips on throwing the javelin. He held them in thrall with his spontaneous responses to their curious queries, his inimitable story-telling style endearing him to his attentive audience.

He drew applause when, in response to what his favourite food is, he described how he liked to cook vegetable biryani, without making it spicy, and have it with curd.

Babar Azam half-century helps Pakistan recover vs Bangladesh

AP ■ DHAKA

Skipper Babar Azam hit a half-century to help Pakistan recover from early trouble and reach 161-2 against Bangladesh on the opening day of the second test, which was halted several times for bad light and rain on Saturday. The bad light finally ended play with Babar

batting on 60 and Azhar Ali on 36. Left-arm spinner Taijul Islam (2-49) bowled brilliantly in the morning session to

put Bangladesh on top after the visitors seemed headed toward a big score.

Openers Abid Ali and Abdullah Shafique brought up 50-run partnership in the first hour as Babar elected to bat first after winning the toss.

Abid struck the first three boundaries of the day as the Bangladeshi pacers erred their length.

Star players — Retained and released!

DELHI CAPITALS: The Delhi Capitals have decided to keep Rishabh Pant as their captain for the upcoming seasons, effectively closing the door on Shreyas Iyer, who was looking for a leadership role in the IPL. The Delhi lad, Pant, was impressive in his first season as captain and led DC to the play-offs after they finished first in the 2021 league table. Apart from Pant, DC went with Axar Patel, Prithvi Shaw, and South African pacer Anrich Nortje and left out

Shikhar Dhawan, who still has a lot to offer despite him not getting any younger, and Ravichandran Ashwin, who is India's No. 1 all-format spinner. Also, leaving someone like Kagiso Rabada, who won the Purple Cap in 2020, was a massive call.

RAJASTHAN ROYALS: The winners of the inaugural edition retained skipper Sanju Samson, English keeper-batsman Jos Buttler and young

Yashasvi Jaiswal, and let go English all-rounder Ben Stokes and fast bowler Jofra Archer. The Royals had a tough choice to make between the three English superstars, but they stuck with Buttler alone, who had a good T20 World Cup outing in the UAE this year. Archer and Stokes have struggled with injuries this year, and this was one of the main reasons why the Royals didn't go with them.

PUNJAB KINGS: Their best batsman in the last four seasons, KL Rahul, wanted to move out, and PBKS respected that decision, which is going to be a blessing for whatever side he represents next. In the absence of the Karnataka stalwart, Punjab retained Rahul's best friend and opening partner Mayank Agarwal for the upcoming season, along with youngster Arshdeep Singh, who was impressive in the 2021 edition. The Mohali-based side didn't have much to choose

from after the poor show the players put on in the last few seasons, but they could have kept hold of Mohammed Shami or Ravi Bishnoi. The duo has impressed while representing Punjab.

KOLKATA KNIGHT RIDERS: KKR turned the tables the other way round in the second half of the 2021 IPL, where they reached the final as well. Their success in the UAE was primarily built around one batsman, Venkatesh Iyer, and the Kolkata-based franchise retained their prized asset, who will now earn eight crores per season - a 3900% increase from the 10 lakh rupees which he earned in the 2021 edition. But while they kept hold of Iyer, along with seasoned campaigners Andre Russell and Sunil Narine and mystery spinner Varun Chakravarthi, KKR let go of Shubman Gill and skipper Eoin Morgan. Gill's exclusion especially raised eyebrows because the 2018 U19 World Cup winner was KKR's best batter in the last few years and was seen as the future captain as

well. Pat Cummins, former captain Dinesh Karthik, and the middle order duo of Nitish Rana and Rahul Tripathi are among those who have been released.

SUNRISERS HYDERABAD: David Warner, Rashid Khan, Bhuvneshwar Kumar, Jonny Bairstow, Jason Holder, Jason Roy, Manish Pandey, and T Natarajan. Sunrisers Hyderabad had so much to choose from, but instead they chose to retain Kiwi captain Kane Williamson and two Indian youngsters from Jammu and Kashmir - Abdul Samad and Umran Malik - ahead of the mega auctions. The franchise's decision to let go Rashid Khan, who is the best T20 bowler in the last five years, is still not easy to digest for anyone in the cricketing fraternity. Even though Warner, who led them to the 2016 IPL title and was the Orange Army's best batter in IPL history, was excluded, it was expected following his sour relationship with the team management by the end of the 2021 edition.

Both India and Russia seek a multi-polar world, where “no single country is able to impose its will through domination or through military force”. This will be the key takeaway of the 21st India-Russia Summit scheduled to be held on December 6, writes ASOKE MUKERJI

COMING OF AGE: THE 21ST INDIA- RUSSIA SUMMIT

The 21st bilateral India-Russia Summit scheduled for December 6, 2021 marks the coming of age of the special and strategic privileged partnership between the two countries. This will be President Vladimir Putin’s second foreign visit after the onset of the Covid pandemic in March 2020, and his first to any country in Asia, signaling the salience and resilience of the India-Russia strategic partnership. The annual summit mechanism, proposed by Russia’s President during his first official visit to India in October 2000, has vindicated its role in steering the India-Russia strategic partnership through the momentous changes of the past two decades.

BACKGROUND

The 2019 India-Russia Summit at Vladivostok charted innovative approaches to sustain and broaden India-Russia relations. These included the long-term participation of both countries in each other’s strategic sectors such as defence, energy, and technology. The resource-rich Russian Far East was added as a new dimension for trade and economic cooperation between enterprises of India’s constituent states and Russia’s eastern regions, pushing cooperation in Asia as the new frontier of India-Russia relations. A \$1 billion Indian line of credit was earmarked to implement this initiative, which would be sustained by a new maritime link between Vladivostok and Chennai through the Pacific and Indian oceans.

THE COVID PANDEMIC

The unexpected Covid pandemic created a barrier to the smooth implementation of these objectives, leading to the postponement of the 2020 India-Russia Summit. Despite this setback, the close personal interaction between Prime Minister Narendra Modi and President Putin, who have met 19 times since 2014, bridged the physical gap by using digital communications technologies to maintain the momentum, trust, and dialogue that are the hallmarks of India-Russia strategic relations.

A phone conversation on March 25, 2020 between the two leaders resulted in an agreement on ways to maintain the progress and warmth of bilateral relations. A joint response to the pandemic began in April 2020, when India lifted its ban on export of medicines to Russia to mitigate Covid. By mid-2020, the Gamaleya Research Institute of Russia developed the Sputnik-V human adenovirus vector platform vaccine against Covid. In April 2021, after clinical trials in India, the Sputnik-V vaccine joined Covishield and Covaxin on the list of vaccines registered for emergency use in India. In May 2021, joint manufacturing of the Sputnik-V vaccine in India through the Russian Direct Investment Fund (RDIF) was initiated, adding to the pool of Indian manufactured vaccines against Covid for domestic and international use in third countries.

DEFENCE AND FOREIGN POLICY DIALOGUE

President Putin and Prime Minister Modi agreed in a telephone conversation on April 28, 2021 to institutionalise a 2+2 Ministerial India-Russia Dialogue on foreign and defence cooperation to anchor the bilateral strategic partnership. The first India-Russia 2+2 Dialogue is expected to take place on the margins of the 21st Summit.

The ferocious border confrontation between India and China in May 2020 at Galwan caused another challenge for India-Russia relations, as Russia was chairing the trilateral Russia-India-China (RIC) grouping in 2020. However, by par-

ticipating in the RIC videoconference meeting of foreign ministers on June 23, 2020, and subsequently in a physical ministerial meeting in Moscow on September 10, 2020, Indian and Chinese foreign ministers were able to hold a bilateral “frank and constructive discussion” and agree on the need for new confidence-building measures. India has acknowledged its appreciation for Russia’s regular arms supplies to India for Russian origin defence equipment during this period.

The focus on long-term India-Russia defence cooperation benefited from regular interaction between India’s Raksha Mantri Shri Rajnath Singh and Russian Defence Minister General Sergei Shoigu during the past two years. The Raksha Mantri participated in the events in Moscow marking the 75th anniversary of the Soviet Union’s victory over Nazi Germany on June 24, 2020, and interacted bilaterally with his Russian counterpart during his visit to Moscow for the Shanghai Cooperation Organisation (SCO) Defence Ministers meeting on September 3, 2020, and the SCO Defence Ministers meeting in Tajikistan on July 28, 2021.

The outcome of this interaction includes the first manufacturing joint venture between India and Russia with transfer of technology for about 600,000 world-class AK-203 Kalashnikov rifles at the Korwa Ordnance Factory in Amethi, Uttar Pradesh. Other outcomes include the manufacture and co-production of four Project 1135.6 naval Frigates; the supply of 400 more T-90 tanks; additional supplies of Su-30 MKI, as well as the MiG-29 aircraft; and additional supplies of the MANGO ammunition & VSHORAD systems. The supply of the first unit of the S-400 air defence systems from Russia to India contracted in 2018 is to be completed by the end of 2021. India and Russia are expected to sign an agreement on reciprocal logistic support for each other’s armed forces that come for exercises in either country.

The current value of India-Russia defence contracts is between \$9-10 billion, making Russia a top defence partner of India. By participating in the Make in India programme, Russia has committed to the transfer of defence technologies to India that it does not share with other countries, while Russian investments in Indian defence production will generate employment and boost defence exports. This approach mirrors India’s investments in Russia’s defence manufacturing sector two decades ago, which resulted in the supply of technologically advanced equipment for all three services of India’s armed forces, including the BrahMos missile system. The Summit is expected to extend the mandate of the India-Russia Military Technical Cooperation platform chaired by the two Defence Ministers by ten years to 2031.

A similar process of regular interaction between India’s External Affairs Minister Dr S Jaishankar and Russian Foreign Minister Sergei Lavrov has enabled the India-Russia strategic partnership to respond in a calibrated manner to international challenges. Besides the RIC meeting of 2020, India’s foreign minister has visited Moscow for the SCO Foreign Ministers meeting in September 2020 and for a bilateral visit in July 2021, while the Russian foreign minister visited India in April 2021. The two ministers have interacted in the Brazil-Russia-India-China-South Africa (BRICS) framework twice through videoconferencing during Russia’s chairmanship in 2020, and once in 2021 under India’s chairmanship.

This interaction has been buttressed by consultations on India-Russia engagement on bilateral, regional, and multilateral issues. Experts

President Putin and Prime Minister Modi at Vladivostok Summit 2019

“THE FOCUS ON LONG-TERM INDIA-RUSSIA DEFENCE COOPERATION BENEFITED FROM REGULAR INTERACTION BETWEEN INDIA’S RAKSHA MANTRI SHRI RAJNATH SINGH AND RUSSIAN DEFENCE MINISTER GENERAL SERGEI SHOIGU DURING THE PAST TWO YEARS”

from both sides met in December 2020 to coordinate views on issues on the UN Security Council (UNSC) agenda, while discussions on the 21st Summit were held at foreign secretary level in Moscow in February 2021. The convergence of Indian and Russian positions in the UNSC on Myanmar, Syria, Yemen, Palestine, the UNSC Taliban sanctions regime, and UN peace-keeping operations during 2021 reflect the outcome of this cooperation.

MARITIME SECURITY AND CONNECTIVITY

The strategic rapport between the top leaders of India and Russia was on international display on August 9, 2021, when Prime Minister Modi chaired a special meeting of the UNSC on maritime security. President Putin was the only Head of State of a UNSC permanent member who spoke at this meeting, which endorsed a holistic approach to maritime security.

Russia’s proposal in August 2019 to establish “a security and cooperation organisation in the Gulf” has assumed a deeper significance for the India-Russia strategic partnership in 2021. Apart from its impact on stability in the Gulf region including Iran, such a regional structure can generate confidence in two major connectivity projects that India and Russia have pursued in recent years — the International North South Transport Corridor (INSTC) linking Russia through Iran with India proposed in 2000, and the Chabahar project linking India, Iran, Afghanistan, Central Asia, and Russia proposed in 2016.

Greater regional cooperation in the western Indian Ocean will provide stability for the free flow of navigation along two major sea lanes of communication through the Red Sea and Yemen, and through the Straits of Hormuz. These routes transport a significant volume of India’s international trade, energy imports and international digital traffic.

A similar holistic approach to maritime security will sustain the Eastern Maritime Corridor proposed by the India-Russia Summit in 2019 to link Russia and India through the Pacific and Indian Oceans as part of India’s Act Far East policy. The first steps to modernise the port infrastructure of Chennai and Vladivostok have been initiated during the past six months. Eventually, the Eastern Maritime Corridor will connect India to ports in the Arctic.

India has emphasized the “centrality” of the ASEAN in any sustainable maritime security arrangement in the Indo-Pacific. The first-ever Russia-ASEAN naval exercises off Sumatra in early December 2021 demonstrates a similar emphasis on ASEAN-centrality, leading to India-Russia convergence in the maritime domain.

AFGHANISTAN AND COUNTERING TERRORISM

President Putin and Prime Minister Modi held a telephonic conversation on August 28, 2021 on the unexpected takeover of Afghanistan by the Taliban disregarding calls for an “inclusive” government. The leaders agreed to cooperate in countering the common threats emanating from Afghanistan, such as terrorism, drug trafficking and the impact on Central Asian security. This objective has been integrated into the India-Russia strategic partnership by the first meeting of the India-Russia High Level Mechanism on Afghanistan on September 8, 2021. India’s official participation in the Moscow format talks on Afghanistan in Moscow on October 20, 2021, and Russia’s participation at the National Security Advisers Conference on Afghanistan hosted by India on November 10-11, 2021, in which Iran and the five Central Asian states participated, but Pakistan and China did not.

What is the conclusion then? If in trouble, do whatever to try to get out of it, but do not forget the given of real and absolute relief. Take God's shelter for guidance. But one must remember to have the right expectations.

Challenges for Scholz in post-Merkel era

The countdown for the post-Merkel era has just begun. The historic sixteen long years (four terms) of Angela Merkel chancellorship will be over by the end of this month. A new Chancellor is all set to take over. And once again, a rag-tag coalition has come to an agreement to form the next Government of Germany, the economic powerhouse of Europe.

Olaf Scholz, the Chancellor-elect, is a left leaning leader of the SPD (Social Democratic Party). He was born on June 14, 1958. Scholz is currently serving as the Federal Finance Minister and Vice Chancellor in the Merkel Government since March 14, 2018. Earlier, he served as the Mayor of Hamburg from March 7, 2011 to March 13, 2013. He also worked as the acting leader of the SPD in 2018.

The national election in Germany took place on September 2021. And now the Germans have got a new Bundestag (the Lower House of the German Reichstag i.e. Parliament), the 20th one in its post-war federal history. The current German Constitution stipulates that Parliament must meet 30 days at the latest after the election day, ending the term of its predecessor.

It would be really difficult for Scholz to match his predecessor's record. Merkel is the first woman leader of Germany; the second longest serving Chancellor ever and the first modern Chancellor to hail from eastern part of the country. Helmut Kohl was the longest serving Chancellor of Germany and he was in office from October 1, 1982, to October 26, 1998. If there would have been no announcement of a new government by December 17, Merkel would have surpassed Kohl's record. But now, the new Traffic Light Coalition (TLC) has already declared Scholz as the new Chancellor of the country.

The TLC is named after the three parties' respective colours in the alliance. All the three partners wanted to accelerate the transition to a green economy and digitalisation while maintaining strict fiscal discipline according to a 177-page pact signed by the SPD, the Greens and the Free Democrats. Interestingly, at a press conference held recently in Berlin along with the leaders of the Greens and the FDP, Scholz recalled when the "first traffic light" was installed at the city's Potsdamer Platz in 1924,

many people doubted whether it could really work. But he told people that this traffic light partnership will be indispensable for Germany. This coalition will see the first woman Foreign Minister of Germany, i.e. the Green's co-leader Annalena Baerbock. Again, FDP leader Christian Lindner is going to take over as the Finance Minister and Green's co-leader Robert Habeck is expected to take on as the newly expanded Economy and Environment Minister. Further, the brand-new coalition will try to balance the Green Party's call for a tough stance on Russia and China on human rights. But Scholz is attempting not to risk a direct confrontation with the two authoritarian regimes on complex issues such as Taiwan and Ukraine. This government will also allow multiple citizenships and legalize the sale of cannabis for recreational use at all registered outlets across the country.

Again, Merkel has set a record in history for the fact that she will be the first Chancellor to leave her office at a time of her own choice. However, many political analysts say that she did face serious internal pressure in her CDU (Christian Democratic Union) party to step down after the refugee crisis (mostly refugees came from war-torn nations like Syria, Iraq) rocked Europe, particularly Germany. But she announced on her own that by autumn 2021, she will relinquish the top job of Germany. Interestingly, from Konrad Adenauer through Helmut Schmidt to Helmut Kohl, all of the country's great leaders left their offices either under extreme party pressure or through an outright defeat in a national election.

For now, Merkel will continue as caretaker Chancellor till the new government is formed. Generally, the formation of coalition takes longer than usual in Germany. In 2017, when Merkel formed her last alliance government, it took nearly six months to ink the pact with the partners.

German election heralds absolutely a messier political environment. It has gradually resulted into a much weaker leadership in comparison to Merkel for now. After the national election in this September, the new German Parliament looks like this: the Christian Democratic Union (CDU)/Christian Social Union (CSU) of Merkel gets 196 (-50) i.e. 24.1%; the Social Democratic Party (SPD) of

Olaf Scholz, SPD chancellor-designate and executive federal minister of finance, raises his thumbs after the SPD convention at Willy Brandt House approved the planned coalition agreement in Berlin, Germany, on Saturday. Delegates voted on a coalition agreement with the FDP and Bündnis90/Die Grünen to form a new federal government

Scholz gets 206 (+ 56) i.e. 25.7%; the Green Party 118 (+51) i.e. 14.8%; the Free Democratic Party (FDP) 92 (+12); the Alternative for Germany (AfD) 83 (-11) i.e. 10.3%; the Left (Linke) 39 (-30) i.e. 4.9% and others 1 (+1) i.e. 8.7%. Merkel's Conservatives is the most successful party in the history of the Federal Republic of Germany. The SPD is traditional Centre-Left party. It appears intermittently in successive governments, sometimes in alliance with the CDU. The FDP is little less socially conservative party than the CDU. Though it is small, it is coherent and known for its pro-business approach. The AfD is a strong right-wing party that firmly opposes immigration and is absolutely sceptical about the EU. The Greens are influential and have tied up with many governments both at the centre and in some states.

This election showed the most consequential gains for the SPD, particularly in East Germany. Besides, the party has also recovered grounds in its traditional homelands such as

the Rhineland and in the north-west Germany, where it shared some of the advances with the Green Party. Despite losing some grounds, the AfD was able to muster support in Thuringia and other parts of the East Germany. Sadly, the CDU lost most of its support bases almost everywhere, but its partner party CSU could do better in Bavaria. The Linke Party lost big grounds in the East.

As legendary Merkel is tipped to tiptoe into Germany's political sunset, Scholz is taking up all challenges and opportunities left behind by the CDU leader. Today Germans are talking about a radical shift in the 'machtarchitektur', i.e. the architecture of power structure of the country. And the new SPD-led coalition is heading for wide policy changes both at home and abroad. During the four tenures of Merkel, the coalition partners like the SPD and others have always complained about their minimal role in policy making and in public appearances. She was adopting a pure top-down approach in running her fragile coalition government in all

the last 16 years in office. But this time, with Scholz, the power arrangement with partners is quite different. His partners are the Greens and the FDs which are handed over crucial ministries such as the foreign, finance, new economy and environment. Moreover, the Ministers and major leaders of these parties are much younger and dynamic than Scholz. They have a broader vision of Germany than him. Therefore, it would be too difficult for him to clip their wings or rather side-line them the way Merkel did with her political allies.

It seems Scholz has already convinced the German electorate that he would be able to replace the maverick Merkel. Truly speaking, her departure has not only ushered in a new era in Germany but also literally shakes up the fragile power balance among the competing powers in the coveted European Union. At a time when Russia under Putin is increasingly becoming aggressive and Lukashenko is pushing the migrants towards the border between Belarus and

Poland, the EU demands the role of accommodating and tough decision makers like Merkel. Her successor-in-waiting Scholz has a much bigger role to play — leveraging German power to handle a deadly pandemic Covid-19 and an ever-growing trend of migration of people from West Asian countries to Europe. Many in Europe today see huge potential in French President Emmanuel Macron, Italian Prime Minister Mario Draghi and Scholz as contenders for leading Europe to the world stage. And probably to take over Merkel's mantle as the unquestioned leader of Europe, the world's another crucial power bloc. But the biggest hurdle for all these three statesmen would be to cope up with an EU minus the presence of the UK and the fast marginalisation of the group in global politics.

Scholz, a terse, well-briefed and a grounded professional political leader, would be no less a competent figure than Merkel to steer Germany ahead in this time of crisis. Undoubtedly, he would be

offering his long innings in German politics both for the benefit of his country and for Europe. Thus, Robin Alexander, a long-time political observer of Merkel and Scholz, aptly describes his credentials: "He is like a soccer player who studies videos of another player and changes his game. From temperament and political style all the way down to facial expressions, Scholz now channels Merkel. If Scholz was a woman, he would wear pantsuits."

Now it remains to be seen how the new Chancellor will take Germany to the post-Merkel era to overcome both fears and challenges in the days ahead.

MAKHAN SAIKIA

PERSPECTIVE

Afghan woman judges still fear Taliban

A female judge, Muska, was hiding with her family from newly empowered Taliban militants in Afghanistan when an apparent reading mistake 7,000 miles away helped to drastically change her life.

Brazilian President Jair Bolsonaro opened his nation's doors to potential refugees from the Asian nation during remarks at the United Nations General Assembly on September 21. "We will grant humanitarian visas for Afghan Christians, women, children and judges," he read on the teleprompter — apparently mispronouncing the final word, which was "jovens" — youngsters — in his printed speech as "juizes," or judges.

Error or not, his government fulfilled that offer.

Muska and her family were taken by bus to the northern city of Mazar-i-Sharif and were then flown to Greece with six female colleagues. By the end of October, they found themselves in Brazil — a country with very little in common with Afghanistan beyond their shared love of soccer.

Speaking to international

media for the first time, Muska told *The Associated Press* this week that she and the other judges still fear retribution from the Taliban — some of whose members had been sentenced for various crimes in their courts.

She asked that her true name not be used, nor her precise location - at a Brazilian military installation - be published. Her colleagues declined to speak to the news media. Muska had been a judge for almost 10 years before the Taliban captured power in August and she said her home in the capital, Kabul, had recently been searched.

Afghanistan had about 300 female judges, Muska said, and many are now in hiding, their bank accounts frozen.

"We knew they (the Taliban) wouldn't let the women judges work. We would have serious threats to our lives," she said. "They released all the criminals from the prison. These were the criminals that we sentenced."

The judges who remain "are very scared, in hiding. They have serious financial problems, no salary, lost their

An Afghan judge who asked that her true name not be used, sits during an interview with AP in Brasilia on Wednesday. Seven Afghan female judges have taken refuge in Brazil due to fears of retribution from the Taliban

jobs, had their bank accounts blocked. They are still in danger," the judge said. "It is not good in Kabul."

The Taliban won widespread support in Afghanistan in part because the toppled US-backed government was wide-

ly seen as corrupt. "But women judges were the bravest, strongest and most honest officials in the previous administration," said Muska, who said the decision by US President Joe Biden to end American presence in the country meant

she quickly had to leave.

"Everything happened suddenly," she said.

Judge Renata Gil, the head of the Brazilian Association of Magistrates that is sponsoring the refugees, said the Afghans arrived "in a lot of fear, still feel-

ing threatened." "They are being chased because they convicted Taliban fighters," she said noting that she herself had received death threats "because I sentenced drug dealers. For women this is much harder."

Speaking at the association's headquarters in the capital, Brasilia, she said, "I hope they are able to live their lives independently. But as long as they need, we will be here to help."

The judges and their 19 family members — apparently the only Afghan refugees who have come to Brazil since the Taliban returned to power — now have Brazilian bank accounts and health care. Those who can are taking lessons in Portuguese. It's not clear yet what the future holds for them in Brazil, where at least they are protected. But Muska said they'd like to return home one day.

"I hope I can join my family members in Kabul. I have this dream I am in my house. I miss everything," the judge said. Muska hasn't seen much of Brazil due to security reasons, difficulties with the language and her own fears. But

she has found people with empathy for her situation. "They cry with us, we know they can sense our feelings," the judge said with tears in her eyes.

Muska's three children, including a toddler, are also having a tough time adapting. The judge used to have her parents and nannies to help, but in Brazil she's largely on her own, while worrying about her future, and theirs.

The children look happy and energetic as they run and jump at a public playground, speaking Dari among themselves. But the judge said her eldest daughter has questions she cannot answer. "She is always asking about my parents, her friends, her cousins," Muska said. "She always asks us questions about the Taliban, if they will kill us."

Despite the difficulties, Muska said she believes the future will be brighter for her children than for those still in Afghanistan.

"I have hope for them. That they have their studies in a good situation, in a good educational system," she said. "They will have their choice on what they can do." **AP**

**YOUR
WEEK
AHEAD**

MADHU KOTIYA

ARIES March 21-April 19

This week foresees you indulging in social activities. You will be shifting the balance in your life from work to social activities. This will improve your health and give you more energy. On the career front, you may feel a little confused with your career. Try not to get too overworked about it. Your modest approach and shift into a different track/department would be helpful. This is the time to define yourself do not bother yourself with other people's perspectives. There will be a time when you think that everything has come to a standstill. Use this time to enhance your skill. On the personal front, your partner is supportive. You can try and talk to your spouse and relieve yourself from the stress.

Lucky number 14
Lucky colour Green
Lucky day Thursday

LEO July 23-Aug 22

This is a good week for your emotional and physical well-being. Your positive approach to things will be of great help. Those waiting on health test results, know that the news will be good. You are likely to enter new realms in your spiritual exploration. You will get attracted to herbal ingredients and homemade remedies to cure health and you may join some courses. For some of you who are working from home, do not take it as leisure time, otherwise, this might turn negative. On the personal front, you may be involved in a serious conflict. Feelings of helplessness and lack of understanding are indicated. The situation may be lightened up with the support of a close family member.

Lucky number 8
Lucky colour Magenta
Lucky day Friday

SAGITTARIUS Nov 22-Dec 21

After recovering from certain health issues, you feel recharged with energy and stamina. During this time, you will find your self-confidence unharmed. Be grateful for all the blessings that surround you at this time. This week you will reflect on the positive influence and will prove to be a motivator for others. Career-wise, you will experience roadblocks and will find stagnation in your present job. The current scenario is not bright and this could demoralise you. Those in business will get some monetary gains. Prioritise your expenses and avoid unnecessary spending, this will help you now as well as in the long run. On the personal front, your maturity play's an important role at home.

Lucky number 18
Lucky colour Silver
Lucky day Wednesday

TAURUS April 20-May 20

This week count your blessings and enjoy the good things that life has to offer. Whatever you do, keep it simple and enjoy it. Stay safe and enjoy a good meal with your family. Some of you would like to stay close to nature, therefore, will spend time gardening. Females will feel sensitive and nurturing and make life meaningful. Professionally, good times on the card. Moneywise week is satisfactory, and your generosity will earn you goodwill. Overall, it is an extremely good period in your career life, and you should take full advantage of it. Do not indulge in gossip as it might hurt your image. On the personal front, you will find emotional stability. This is the time to enjoy your relationships.

Lucky number 6
Lucky colour Purple
Lucky day Friday

VIRGO Aug 23-Sep 22

This week you will feel very charged up and ready to take up physical activity. You are focused and goal-oriented. Your enthusiasm and charismatic personality will impress others. You are optimistic about your future. Therefore, your overall health will remain good. On the career front, you are trying your best to be in your senior's good book. Your determination and ambition will make you move forward. Remember that you'll need to use both your intellect and your heart to be successful. On the personal front, it is advised not to let small issues blow out of proportion in your mind. Beware that there is someone who does not want your relationship to grow and who is working against you.

Lucky number 13
Lucky colour Brown
Lucky day Saturday

CAPRICORN Dec 22-Jan 19

When it comes to following a healthy diet, you make the same mistakes — neglect. Give extra attention to your diet, and follow physical exercise for at least half an so that you can take better care of yourself. On the career front, it is time to take a stand and make some tough choices. Be straightforward in your communication and to the point. This will bring reasonable change and improvement to a specific concern in life. You will find happiness in accomplishment. This week if you implement certain important pending decisions that will have the potential to change the rhythm of life for the better. On the personal front, you have very forceful energy this week. You are likely to be diplomatic and know how to get things done in your favour.

Lucky number 7
Lucky colour Grey
Lucky day Saturday

GEMINI May 21-June 20

You are likely to spend time in spiritual pursuits to find peace and inner calm. Follow meditation, yoga, and Pranayam etc to bring balance and gain strength to most of the issues of life. Don't be in a hurry for any work. Give time to pamper yourself. The divine connection will show you the right path. This week financial worries are indicated. Professionally, you are not happy and some of you feel demotivated. If possible, interact with people to keep up your morale. Do not give up on a temporary low phase. This is the time to wait for the good times. Things are not so good in the relationship. Your partner will have a long list of accusations, sit and discuss them. Things will move into a lighter phase.

Lucky number 15
Lucky colour Sky Blue
Lucky day Thursday

LIBRA Sep 23-Oct 22

This week your priorities will focus on others like children, spouse, and any elderly members in the family over your health. For those who follow an unhealthy diet, this is a wake-up call. A poor level of vitamins and protein will make you feel tired and irritable. The time is not favourable in terms of health, you must take care and eat healthy to increase metabolism. Professionally, those who are looking for a job will get hired in a few days that will test their skills and potentials. This will be a very demanding job. Believe in yourself. Some of you will be weighed down with far more responsibilities. On a personal level, you will have concern for others and people around you will be grateful and reciprocate well to your good intentions.

Lucky number 11
Lucky colour Beige
Lucky day Sunday

AQUARIUS Jan 20-Feb 18

This week you may need a medical examination, to clear some doubts and lead a stress-free life. You are likely to face some confusion and it will make you feel low. This is the time to lift yourself and transform your lives. It is a crucial time when you must be honest with yourselves and decide what best action should be implemented to rise to the challenges and embrace the best life. Career-wise, this week will be in your favour. You are likely to appreciate your sincere and hard work. Financially the week will be satisfactory, but you need to follow a budget to avoid any tough times. Relationship wise, you will experience freshness and a blissful state. This week you will be passionate and energetic and will enjoy a charming personality.

Lucky number 2
Lucky colour Pink
Lucky day Sunday

CANCER June 21-July 22

You can enjoy this week as you had planned. Your health, wealth and happiness are co-related. It is recommended that you learn some stress-free techniques to keep you healthy. Take some time out for a walk amidst nature that could be a great energy provider and refreshing for you. Career-wise, you need to ease your expectations. Those in business will see a good response and hike in financial matters. Those in the job need to sit down with a financial planner and figure out exactly your needs are and plan their finances accordingly. On the personal front, you are likely to feel a tight leash around you. There is a lack of understanding and feelings for each other. Married couples need to communicate well.

Lucky number 19
Lucky colour White
Lucky day Tuesday

SCORPIO Oct 23-Nov 21

This week take your time to identify hidden issues and other subconscious thinking that is preventing you from seeing the fact. Some of you may look out for emotional support from a female person to identify the emotional trouble and what can be done about it. Meditation is beneficial currently. Don't be disappointed about not getting the things done as this would spoil your day or maybe the week. On the career front, investing your time in attending a webinar or any online skill development class will be favourable. These programs will help you virtually connect with people. This will further provide you unique guiding light and moral force. This week relationship area needs your attention and clear expression. Express yourself before it is too late.

Lucky number 20
Lucky colour Mauve
Lucky day Monday

PISCES Feb 19-March 20

You will feel great about yourself. Overall health remains good for you. This week is a period of great productivity. You will have a sense of fullness and confidence that will make you feel that you have finally found your niche. This time is the biggest changing point in your life, so getting stuck and aggressive about things that are not working in your favour could hold you back. Choose a middle path to live life fullest. On the career front, you will face opposition. Your colleagues might not agree with you. Aggression is indicated. You need to understand the mentality of others and stay away from conflicts. On the personal front, you will use your charm to attract people. Be careful as a complication is indicated in relationships.

ASTROTURF
BHARAT BHUSHAN PADMADEO

Astrology helps reshape destiny

As we established in the previous two issues that human beings are empowered to guide their actions by choice and discrimination, this exclusive human prerogative also enjoins upon a being to make conscientious choice to modify even their destiny indications. The obvious implication is that 'freewill' has a role to play in human life, using which, we even reshape our destiny. How well we use that option is altogether a different matter. The fatalists may still insist that destiny is beyond change. What they forget that civilisation has successively grown thus far out of its primitive stage through human efforts only. If expectancy of life in India has risen to around 70 from below 50 since Independence, it is not that destiny of Indian people has changed by itself. Medical facility has improved and people have become more health conscious, which is nothing but human effort. If you still continue to be fatalist, you will be left behind in the run of time. The western world has been confidently using their power of freewill. They would be committing many mistakes in the way, yet they have grown faster and far beyond us.

It needs to be appreciated here that in

a unified world we live in, where no individual has a reality independent of the entirety, all set into an interdependent mechanism, 'freewill' cannot be absolute. In such a framework, we all have a shared destiny. So, you can't just blindly pursue your whims and fancies. You are within your right to pursue aspirational urges, but it will not yield desired result, if it is in conflict with the callings of collective existence. We, therefore, need to learn how to use our freewill option rightfully. It would be possible only when we remain alert to invoke our discriminatory faculty before taking any call. The irony, however, is that caught up in the flirtations of mind, we are not left with enough of mind-space necessary for due diligence before exercising our option.

Truth remains that human potential — mind power — is immense, which unfolded in full will know limits. But major part remains buried under the limitations of mind. The irony, however is that human beings have access to hardly 5 to 7 percent of the faculties of mind. That is available by default. More than that is subject to our conscious efforts. Even what is available by default, if it could be optimally utilised, one will be

able to negotiate the callings of life with relative ease. The paradox, however, is that engaged in unnecessary brooding and contemplation, dreaming, worrying, dealing with sense of fear and insecurity, we more often dissipate considerable amount of mind power towards unproductive ends. Consequently, we are hardly left with enough to do justice to our priority preferences. When we fail, we find it convenient to shift the blame on destiny. Going by what Swami Vivekanand says, we do not fail in life because destiny is so scripted. We rather don't strive sufficiently to unfold immense power within. It is believed that Einstein and those in his ilk would have used around 10 percent of their mental abilities to have created history. The ancient India's learned masters would have been able to access full landscape of mind to have realised even subtle realities of life operative at intangible level.

What's the way forward then? Identify and acknowledge limiting tendencies of mind by self-reflection and address them through fresh educative inputs. Our ego, however, doesn't let us acknowledge our infirmities. Here Astrology comes handy as an effective

diagnostic tool to dispassionately figure out the basic fabric of an individual's making. For, it does energy mapping of a being, which a horoscope is. And energy knows no bias. Becoming aware, thus, guided by a proven Guru, purify the mind of its limiting tendencies. Sufficient mind-space will then be available, necessary for processing your thoughts objectively, and thereby all actions on your part. With such an expanded vision, and thereby mind-power, first, you will not take things on its face value. So, you will not will upon any action without due diligence.

Second, you will look at issues in hand with an open mind without any limitations whatsoever. You will, therefore, be able look at things in the right perspective due. You may then be able to discriminate between 'what you want' and 'what is right', and accordingly make most appropriate choices. Also, you will be able to intelligently deal with unforeseen challenges coming your way, and with relative ease.
