Farmers to take final call |Lal topiwalas like red today on ending protest

Most kisan leaders satisfied with Govt response, but seek clarity on issues

PNS ■ NEW DELHI

The agitating farmers' groups will meet on Wednesday to take a final call whether to end their protests after they reportedly received a positive response from the Government on meeting their demands.

In a meeting held at Singhu border on Tuesday, farmer leaders expressed their satisfaction over the Centre's move to resolve the standoff, but some wanted more clarity on the issues raised by them and sought clarification from the Government.

After the meeting, farmers' leader Balbir Singh Rajewal said they will hold another meeting at 2 pm on Wednesday. He said several farmers have sought certain clarifications, including on the precondition set for withdrawal of "fake" cases against farmers.

"The Government sent a proposal, it was discussed and presented before all members under the aegis of the Samyukta Kisan Morcha (SKM) and sent it to the

Farmer leaders added that there is a general consensus among the SKM leaders on the written assurance they have received from the Government. 'The Morcha will seek further clarifications on a few points of the Government's proposal, and will reconvene at 2 pm on Wednesday for further discussion. The Morcha hopes for a positive response from the Government," said the SKM in a statement.

NCR plants not using clean fuels

STAFF REPORTER NEW DELHI

The Commission for Air Quality Management in NCR and Adjoining Areas (CAQM) on Tuesday issued directions for immediate closure of industries located in industrial areas where PNG infrastructure and supply are available but have still not switched over to PNG.

"These violating industries/ industrial units will not be permitted to schedule their operations till December 12, 2021, and the position will be reviewed for further decisions," CAQM said.

While the air quality in Delhi is not improving despite the several measures taken by both Centre and Delhi Government, the CAQM has enforced strict actions against the industries.

'The commission believes

Air quality panel orders closure of SC rejects NIA plea against bail to Sudha in Elgar case

The Supreme Court on Tuesday dismissed National Investigation Agency's (NIA) appeal challenging the Bombay High Court order granting default bail to lawyer-activist Sudha Bharadwaj in the Elgar Parishad-Maoist links case.

We see no reason to interfere with the High Court order," said a bench of Justices UU Lalit, S Ravindra Bhat and Bela M Trivedi, refusing to consider the submissions raised by the NIA which had moved the apex court against the December 1 order.

Bharadwaj was arrested in the Elgar Parishad-Maoist links case in August 2018 under the provisions of the stringent Unlawful Activities (Prevention) Act. The activist lawyer was accused of hatching conspiracy to overthrow the Union Government, was enti-

tled to bail and its denial would be in breach of her fundamental right to life and personal liberty guaranteed under Article 21 of the Constitution, the High Court had said.

The High Court had directed that Bharadwaj, lodged in the Byculla women's prison, be produced before the Mumbai special NIA court on December 8, and conditions of her bail and date of release be decided.

Chandigarh MC polls: Litmus test for parties

head of the crucial Punjab Assembly elections which are going to the polls early next year, the Chandigarh Municipal Corporation elections is being seen as a litmus test for all the three major political parties-Bharatiya Janata Party (BJP), Congress and Aam Aadmi Party (AAP) on whether they would be able to hold on to their ground in the wake of scrapping of three farm laws. Apart from Shiromani Akali Dal (SAD)-Bahujan Samaj Party (BSP) alliance, ruling Congress, AAP and BJP are the main contenders in the 2022 Punjab Assembly election.

The ruling BJP in Chandigarh MC, opposition Congress and debutant AAP have fielded its candidates in all 35 seats of councilors in the MC poll. A total of 214 candidates are left in the fray. There is a triangular contest among BJP, Congress and AAP on December 24 for the first time. The election campaign in the city is at its peak after the parties completed their ticket allotment and nominations for the Chandigarh municipal corporation elections. Around 12 rebel candidates from AAP, Congress and BJP have so far indicated to put up a joint front against the three parties. They are in talks to formulate a common manifesto in addition to supporting each other on the ground. The parties fear that

even in their individual capacities, the rebel candidates can hurt the victory chances of Sources said that BJP president Arun Sood and other senior leaders of BJP are holding meetings with other BJP rebels to withdraw their candidature.

Meanwhile, a senior AAP leader conceded that the party is also facing a major rebel candidate challenge. "We are in constant talks with them. In some wards, a difference of 100-200 votes will decide the winner. A rebel candidate will definitely hurt in such a scenario," he added.

Apart from issues related to farmers, sanitation, price rise, hike in petrol price, increased water rates and door-to-door development that our party

waste collection are among the poll issues the Opposition is likely to rake up, while the ruling party is likely to contest the

elections on development car-

ried out by it in the city. Congress candidate from ward no 2 Harmohinder Singh lucky who kickstarted his door to door campaign from Sector 7, said that the large numbers of people of the city have supported the farmers of their agitation against three farm laws. The BJP government has rolled back farm laws now but city people are still anguished by the way BJP handled this issue. We are ready for the elections and are confident of winning the MC for the second con-

secutive time. With the kind of

we are confident of bagging the majority of the seats," a senior BJP leader said. The farmer agitation had

got a lot of support in the joint

Capital of Punjab and Haryana in the last one year. The repeal of the farm laws has given a breather to BJP leaders who may hope to regain their lost may hope to regain their lost support among people sup-porting farmers' agitation. While the Opposition parties, led by the Congress and AAP, termed this as victory for farm-ers and defeat for "arrogant" government, the BJP leaders called the decision a step towards the welfare of the farmers. The surprise announcement is sure to impact the political dynamics in the poll-bound Punjab where the assembly election is slated for early next year. The year-old agitation comes as a major breather for the saffron party, which was facing farmers' ire on the ground in Punjab. The saffron party leader feels that now its leaders in Punjab will not face violent protest and attack while participating in political activities. The party also feels that the decision to repeal the laws will also bring back people, who physically or emotionally participated in farmer agitation, to the BJP.

Apart from Punjab and Haryana, people of Purvanchal, Uttarakhand, and Himachal Pradesh form a large chunk of voters in sectors and colonies

in deciding the fate of all the 35 seats in the MC polls. As election campaigning picks up steam for the high-stakes Chandigarh municipal corporation elections, the city is set to host a number of senior politicians, including union ministers, chief ministers, popular actors and singers.

Union Home Minister Amit Shah, Uttar Pradesh CM Yogi Adityanath, Punjab CM Charanjeet Singh Channi Delhi CM Arvind Kejriwal Congress leader Kanhaiya Kumar and Senior AAP leade: Bhagwant Mann are among the star campaigners set to descend upon the city over the next two weeks to woo voters ahead or polls. Besides, campaigners belonging to neighboring state of Punjab, Haryana, Himachal Pradesh and Uttarakhand are also coming here as there are a sizable number of people from

these states in Chandigarh. There are a total of 6,30,311 voters. Of them, 3,30,713 are male and 2,99,581 female There are 17 third gender voters. In view of the increase in the number of wards from 26 to 35, the number of polling booths has also been raised from 474 to 694. The counting of votes will take place or December 27 and the result will be out the same day. At present the BJP has 20 councilors, the Congress five and the SAD one AAP did not contest the 2016 MC poll, though it did support some Independent candidates

'Workers of Bhartiya Railway Mall Godam in Haryana to be registered on e-shram portal'

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Tuesday said that efforts are being made to double the income of farmers as well as workers in the state.

"For this, the registration of unorganized workers is going on in Haryana. Now, the registration of workers of Bhartiya Railway Mall Godam working in the state will also be started. After this, they will also be able to get the benefit of schemes related to the Central and State Government," the Chief Minister said while addressing the Haryana State Labour Registration inaugural ceremony organized by the Bhartiya Railway Mall Godam Shramik Sangh in Panchkula.

Khattar said that the workers are the real builders of society. Haryana Government is

registering construction workers, migrant labourers, shopkeepers, fishermen and all other unorganized workers. On completion of their registration, 22 schemes like health, children's education, employment, house and social security pension are being implemented for them, he said.

The Chief Minister also thanked the Prime Minister for launching the Shramev Jayate scheme.

He said that for the upliftment of the poor, Mukhyamantri Antyodaya Parivar Utthan Yojana has been started. So far, data of 3.5 lakh families have been received, whose income is less than Rs 1 lakh. Antyodaya Gramodaya Melas are being organized to reach out to such families so as to provide the benefits of more than 40 schemes of 18 departments of

Melas, work is being done to get loans from banks for selfemployment and private jobs according to their qualifications, he added.

Khattar further said that the State Government is continuously working for the Beti Bachao-Beti Padhao campaign. There has been a significant improvement in the gender ratio of girls in Haryana. Earlier there were 853 girls per 1000 boys but now there are 913 girls. The government's goal is to take this figure to 950, he said.

The Chief Minister said that the State Government is working keeping in mind the interests of the workers. In future, if any person or representatives related to workers give suggestions, then they

HPSC recruitment scam: Haryana Govt| dismisses HCS officer Anil Nagar

PNS ■ CHANDIGARH

Haryana Government on Tuesday dismissed HCS officer Anil Nagar, who was serving as deputy secretary of the Haryana Public Service Commission over corruption

Nagar, 2016-batch HCS (Haryana Civil Services) officer was arrested last month along with two others by the Haryana Vigilance Bureau for their alleged roles in manipulating the recruitment of dental surgeons by taking bribes from them for enhancing their marks in the written test for the purpose. The State Government's order further said, "Anil Nagar remained posted as deputy Secretary in HPSC, which is a high-level post in the Commission, so it has been learnt that he or together with his associates or others, can terrorise, threaten or intimidate witnesses who are going to give evidence against him with fear of reprisal to prevent them from doing so. He is likely to further intimidate the subordinate staff for not giving any evidence against him due to his subordination during his tenure... The competent authority has reasons to believe to dispense with the departmental proceedings/inquiry for the mentioned reasons."

Giving details about the case, the order, quoting the State Vigilance Bureau report, said, "Anil Nagar had called for the answer sheets of the agreedupon candidates and had made alterations in the answers and then re-scanned the sheets. In order to avert suspicion, he had asked for a random check of OMR sheets on the pretext of verifying the correctness of the scanning and had made sure the list included the roll numbers of the candidates whose scores had to be altered."

"Search at Anil Nagar's residence led to seizure of Rs 12 lakh cash. On interrogation, parked money with his associate and Rs 2.10 crore was recovered from his associate. Thus, a total of Rs 3.5 crore cash has been seized so far in the course of the investigation. Further, a handwritten list of roll numbers of the HCS exam was recovered from Nagar's wallet whereas, interrogation of all three (arrested) accused revealed that a total of around 30-32 candidates were involved in all (HSC-15 of which 5 passed and dental surgeon-17 of whom 13 passed," the order

Sena: There is No business in RS for 2nd day no alternative without Cong

In a dampener to TMC chief Mamata Banerjee effort to pro-up a non-Congress Opposition front to take on the BJP, the Shiv Sena on Monday said there can't be such alternative without the Congress.

Rajya Sabha member and Shiv Sena leader Sanjay Raut on Tuesday met former Congress president Rahul Gandhi. Sources said Raut discussed several issues with Rahul Gandhi, including Mamata Banerjee's move.

"There can be no front without the Congress. Even if there is a new alliance, an alliance will work under the leadership of Congress. There are many parties with the Congress. So why three - three front are required? What to do with so many fronts? In this way, we will not be able to give an alternative to BJP," Raut, who is also Sena's chief spokesperson, said.

The Congress sources said the Shiv Sena leader is likely to meet Priyanka Gandhi Vadra on Wednesday and later he will also call on Congress chief Sonia Gandhi. Shiv Sena and Congress along with NCP is in a coalition Government in Maharashtra.

"There has been a long talk with Rahul Gandhi ji, the conversation that took place is political in nature. Everything is fine. But whatever discussion took place, it will be first conveyed to our leader Uddhav Thackeray ji. Only then can we say something in the media. But it is certain that Shiv Sena believes that there should be a united opposition," Raut said after meeting Rahul.

Raut said during the meeting with Rahul Gandhi, what TMC leader Mamata Banerjee said on the opposition was also discussed. "Rahul Gandhi is to visit Mumbai this month end and then a meeting with Uddhav Thackeray will be proposed," Raut said.

There should be only one coalition of the Opposition, its effort should be made. I told Rahul ji that he should take the lead. There were talk on the coming elections also," Raut told media persons.

Raut also said their another coalition partner under the guidance of NCP supremo Sharad Pawar is making efforts for a common Opposition front and he will make best efforts to ease out the strained relationship between the Congress and the TMC.

While Mamata had directattacked Congress in her statement after meeting Pawar in Mumbai last week that there is no UPA, Pawar played safe saying all are welcome in fight against the BJP.

Sharing that "an attempt is being made to convene a meeting of the opposition," Raut said, "I have requested Rahul Gandhi to take the initiative in

"The leadership of this front will be decided later," he further informed.

PNS ■ NEW DELHI

The Rajya Sabha did not I transact any significant business for the second consecutive day this week as Opposition parties continued their protest on Tuesday demanding the revocation of suspension of 12 MPs.

Holding the Government responsible for the deadlock, Opposition members said they will continue with their joint protests against the suspension of 12 MPs till the time it is revoked. While the Opposition members called for a full boycott of Parliament proceedings for a day on Wednesday, TRS announced that its MPs will boycott both houses of Parliament for the remainder of the Winter Session by accusing the Central Government of being "anti-farmer".

With Opposition memraising slogans, Parliamentary Affairs Minister

Pralhad Joshi said the treasury benches would also like the suspended MPs to participate in the proceedings of the House and they should apologise for their conduct so that their suspension could be revoked. He added, "If they apologise, the Government is ready to take them back immediately."

Union Health Minister Mansukh Mandaviya intro-The Assisted duced Reproductive Technology (Regulation) Bill 2021 and The Surrogacy (Regulation) Bill 2020 amid the din. In all, the House witnessed two adjournments before the final one for the day around 3.12 pm. As the House resumed proceedings at 3 pm, Deputy Chairman Harivansh asked Mandaviya to introduce the bills.

As Mandaviya introduced the Bills, repeated requests from Deputy Chairman Harivansh to maintain order went unheeded and the

Opposition members continued to raise slogans against the Government. With the Opposition unrelenting, the Deputy Chairman adjourned the House for the day.

Earlier in the day, Rajya Sabha chairman M Venkaiah Naidu said he has received a notice under the Rajya Sabha rule 267, that calls for setting aside the business of the day to take up the issue listed and is disallowing it. "Your notice is under rule 267. I have gone through it. I have not permitted (it)," Naidu told Leader of Opposition Mallikarjun Kharge.

Later in the day as the Opposition tried to raise their issues again, Deputy Chairman Harivansh said only the listed business will be allowed to be discussed and no other matter would be taken up. When he allowed Leader of Opposition Mallikarjun Kharge to speak, the latter took exception to

Labour and Environment

Minister Bhupender Yadav's interruption, terming it "undemocratic", and compared it to the suspension of the 12 MPS.

Sanjay Singh of AAP and some other Congress members stormed the Well of the House twice. There was sloganeering by the members who were joined by TMC MPs. TMC MP Derek O'Brien was also not allowed to raise the matter of suspension of the MPs.

Addressing reporters outside Parliament, Leader of Opposition in the Rajya Sabha Mallikarjun Kharge alleged that the suspension is against rules and undemocratic. He said they will continue to protest in support of the suspended members and sit on a dharna with them and also urge Lok Sabha members to sit in support with them.

Besides Congress president Sonia Gandhi has convened a meeting of the Congress Parliamentary Party in

demanding revocation of the suspension of 12 Rajya Sabha members, during the Winter Session of Parliament, in New Delhi, on Tuesday

Parliament on Wednesday to further deliberate on the winter session strategy. Former Congress chief Rahul Gandhi will also be in attendance. The party has been pressing for revoking the suspension of 12 Rajya Sabha MPs and the proceedings of the Upper House have been disrupted due to Opposition protests over the issue.

Accusing the Central

Government of being "antifarmer", the TRS also announced that its MPs will boycott both Houses of Parliament for the remainder of the Winter Session. Shouting slogans against the Government and in support of farmers, TRS MPs staged a walkout from the Lok Sabha and the Rajya Sabha. All the MPs were dressed in black.

IIT scientist, IMA predict severe 3rd wave not like the one seen in the

Day after one of the creators of the Oxford-AstraZeneca vaccine warned that future pandemics could be even more lethal than Covid-19, an IIT scientist and top medical body, Indian Medical Association (IMA), echoed similar apprehensions as they predicted a severe third wave of the virus in India amid the threat posed by the Omicron variant which has infected two dozen people

The IMA said taking precautionary measures is key to combating the challenge while IIT scientist, Manindra Agarwal predicted the third wave of coronavirus could hit the peak by February with cases likely to be reaching up to 1-1.5 lakh a day in the country.

Agarwal who is involved in the mathematical projection of trajectory of Covid-19, however said the third wave will be

He said in the new forecast, the new Omicron variant has been factored in.

"With the new variant, our current forecast is that the country could see the third wave by February but it will be milder than the second wave. So far we have seen that the severity of Omicron is not like the one seen in the Delta variant," Agarwal told a news

He, however, said a close eye is being kept on cases in South Africa where many cases of this variant have been recorded. Agarwal added that as of

now South Africa has not seen a rise in hospitalisation. He said a fresh set of data

on the virus and hospitalisations would help in getting a more solid picture.

"It looks like although the new variant has shown high transmissibility, its severity is Delta variant," Agarwal said. He said as observed during

the spread of delta, a mild lockdown (night curfew, restrictions on crowding) can bring down beta substantially. That will significantly reduce the peak value, he added.

The IMA has warned about a severe third wave of Covid-19 in India and recommended taking precautionary measures as a key to combating the challenge

IMA's warning comes at a time when cases of Omicron have multiplied in the country in less than a week. It is said to be the most heavily mutated strain of the coronavirus SARS-CoV-2. Early data suggests it spreads fast but the illness may

The IMA demanded the inoculation of people in the 12-18 age group — a proposal that has been pending for long. It further called for the adminis-

healthcare and frontline workers in view of the Omicron threat. Omicron has some 50

mutations including over 30 in its spike protein alone. It was first reported from southern Africa where it is most prevalent. Scientists around the world are working to understand how effective existing vaccines & treatments are against the new strain.

Sarah Gilbert, one of the creators of the Oxford-AstraZeneca vaccine said in the Richard Dimbleby Lecture that future pandemics could be even more lethal than Covid-19 so the lessons learned from the outbreak must not be squandered and the world should ensure it is prepared for the next viral onslaught.

This will not be the last time a virus threatens our lives and our livelihoods," according to a foreign news agency.

Plasma therapy receives thumbs down from WHO

Once much sought after treatment for patients suffering from Covid-19, convalescent plasma therapy has received thumbs down from the World Health Organization (WHO). The method of using the blood of people who have recovered from disease to heal others is known as convalescent plasma therapy.

Administration (FDA) in the United States has awarded emergency approval for convalescent Covid-19. Despite the fact that

plasma therapy with high antibody levels to treat Covid-19 in 2020. It was supposed to be used for those who were unwell with Covid-19 and had an underlying health problem. However, the WHO has

now said current evidence shows that it does not improve survival or reduce the need for mechanical ventilation, they said. Earlier this year, the use of

convalescent plasma was Council for Medical Research's recommended guidelines for

year, known as the PLACID trial, found no significant benefit is costly and time-consuming or critical Covid infection.

from plasma therapy. The ICMR dropped the plasma therapy without citing any significant benefit for Covid-19 treatment.

The WHO also has now issued a statement that convalescent plasma therapy shows no improvement in survival and other important measures and is not recommended for patients infected with Covid-19.

Despite its original promise, recent research reveals to administer, according to a WHO Guideline Development Group of international specialists writing in The British Medical Journal (BMJ). Except in the context of a

randomised controlled experiment, the WHO strongly advises against using convalescent plasma in patients with non-severe disease and in patients with severe and critical illnesses (RCT). ll international passengers Aarriving in India are mandated to declare their current health status prior to boarding on the Air Suvidha portal along with the required documents which include a copy of passfrom a test conducted within 72 hours of departure and the vaccination certificate amid omicron scare. This comes at a time when passengers at Delhi airport complained of chaos and crowding at its terminal following the implementation of new coronavirus-related travel guidelines.

The Ministry of Civil Aviation (MoCA) on Tuesday also discontinued the exemption forms from the Air Suvidha portal and filling of the details have been made compulsory for all international

passengers arriving in India.
"This portal developed by MoCA aids passengers in pro-viding their details of travel and final stay along with RT-PCR, vaccination status etc," the Ministry said in a statement, adding that this helps state officials in contact tracing. For immigration, the copy received in e-mail is essential on arrival in India and has to be verified at the APHO counter, the ministry said.

the Air Suvidha intends to and convenient air travel to all international passengers arriving in India. Air Suvidha portal has already assisted over 2,50,000 passengers from December 1 to December 5, 2021 since the new travel guidelines were issued on November 30. Furthermore, over 10 million passengers have been benefitted from the Air Suvidha portal since its launch in August 2020," the ministry further added.

All applications from 'at risk' countries are marked with H and red band and others are green. The countries at risk are countries in Europe, including The United Kingdom, South Africa, Brazil, Botswana, China, Ghana, Mauritius, New Zealand, Zimbabwe, Singapore, Tanzania, Hong Kong, Israel. This helps in smooth on arrival segregation and processing. This list is dynamically updated to keep up with MOHFW updates. Application also takes into account countries visited in the last 14 days to highlight 'at risk' applications. This field

is also made into multi-select drop-down option for standardisation.

Meanwhile, Civil Aviation Minister Ivotiraditya Scindia on Tuesday said he has issued an action plan for better crowd management at airports across the country which includes vices and ramping up forex counters. Passengers have been complaining on social media of crowding and chaos at major international airports in the country since December 1, when a new set of travel rules were imposed amid concerns over the Omicron variant of the

Taking to Twitter, Scindia said, "Took stock of the preparedness, testing capacities, and the situation on the ground with regard to crowd management at both private and AAI airports."The Airports Authority of India (AAI) controls more than 100 airports across the country. However, major airports such as in Delhi, Mumbai, Bengaluru, Hyderabad and Ahmedabad

are operated by private entities. The Minister said he has put in place "an action plan with eight compliances on immigration queues, expanding RT-PCR service providers, ramping up help desks and forex counters, along with seamless floor management".

Decision on inoculation among kids, booster dose for adults postponed nation, additional shot is given

The National Technical Advisory Group on Immunisation (NTAGI) has postponed the decision on inoculation of the Covid vaccine among children as well as booster dose for the adults, till next year.

A meeting was held on Monday to deliberate on an 'additional' dose of vaccine and inoculation of children.

During the meeting, the NTAGI, Central Government's panel on vaccine immunisation said children members of the group did not make the final recommendation on these issues as of now.

"The issue of administering an additional dose of Covid-19 to immunocompromised and immunosuppressed individuals vaccination of and children against Covid-19 were

ing of NTAGI," sources said, as per an agency. Those who come under the immunocompromised and immunosuppressed categories are cancer patients on therapy,

deliberated upon in the meet-

transplants patients and AIDS patients. An additional dose of a vaccine is different from a booster dose. While a booster dose is given after a pre-defined period when the antibody lev-

els are presumed to have

to immunocompromised and immunosuppressed individuals when the primary inoculation does not provide adequate protection from the disease.

Last week, Health Minister Mansukh Mandaviya had told the Lok Sabha that a decision on booster doses and vaccines for kids would be taken on the basis of scientific advice and that the focus of the vaccination drive would be to expand the coverage of the second dose.

INSACOG, the country's top genome sequencing laboratories, on Saturday said more scientific experiments are required to assess the impact of a booster dose of Covid-19 vaccine.

Balancing act

Putin used the Indian soil to take a snipe at the US, putting it in a spot

he summit meeting between Prime Minister Narendra Modi and visiting Russian• President Vladimir Putin has tested India's ability to do a balancing act so as not to get caught between the brittle relationship between the US and Russia over Ukraine and the proposed Summit for Democracy. For the record, Modi and Putin reaffirmed their commitment to enhancing ties. Significantly, it was Putin's second visit outside Russia since the pandemic's outbreak, after he visited Geneva this June to meet US President Joe Biden. The New Delhi visit underlined Russia's importance to India as a provider of defence systems. Russia handles over half of all Indian arms imports, technology and joint production agreements. Russia has also agreed to lease a nuclear-powered submarine to India. The icing on the cake is Russia's long-range S-400 ground-to-air missile defence system which initially attracted the

displeasure of the United States. It was expected at one time that despite the warm relations between the US and India, Washington might sanction India under CAATSA (Countering America's Adversaries Through Sanctions Act), which warns of sanctions for any country buying arms from Russia. That has not come to pass yet, but the fact remains that India looked to Russia, and not the US, for its defence needs. In the case of the nuclearpowered submarine, too, it looked to Russia. Interestingly, the AUKUS pact of September will allow Australia to become the first non-nuclear weapons State to acquire a similar nuclear-powered submarine.

Even as Modi and Putin vowed to cement their unique ties, New Delhi realised that Russia used Indian soil to take a snipe at the US. Its Foreign Minister Sergey Lavrov recalled that the US tried to undermine Russia-India cooperation on the S-400 deal and tried to make India obey American orders. "We", Lavrov said, witnessed how the US tried to make India "to follow the American vision of how this region should be developed". It appears that Russia used Putin's visit to put the US in a spot by leaning more heavily than required on its friendship with India. That line of thinking is open to interpretation because the US has not followed up on the sanctions threat. After all, it understands the challenges India faces from its neighbours in the west and east. Also, the US and India have their association in the Indo-Pacific in the form of QUAD. Lavrov's statement, however, may have more to do with two areas of current friction between Russia and the US. One is the Russian troop movement near Ukraine's borders amid speculations of a conflict. Lavrov's remarks came just a day before the Biden-Putin virtual summit on the issue. The US has said it will send reinforcements to Nato's eastern flank if Russia invades Ukraine. The second issue is Biden's invite to 100-odd countries to his Summit of Democracy on December 9 and 10. Ukraine has been invited to the summit, but Russia stands excluded.

Dam it!

Tamil Nadu's ban on Dam 999 continues since 2011, and on a flimsy narrative

The DMK and its natural allies, the Communists, are always in the forefront to agitate against the violation of the right to free speech. But it is shocking that the Dravidian Government continues to ban a 2011 production. *Dam* 999. The movie, which bagged several national and international honours, was shortlisted for even the Oscars. However, the TN Government banned it citing law and order problems. Though bans were earlier imposed on certain films like Vishwaroopam and Thuppakki fearing reprisal from a minority community, the issues were resolved within days and those were released to a grand welcome. Meanwhile, the State Government's

reason for banning the movie is ambiguous. "The film's story is woven around the Mullaperiyar Dam; the core issues are pending before the Supreme Court. If the ban is lifted, there may be widespread agitation and disruption of peace," states the November 22, 2021, order issued by the Additional Chief Secretary. Film's producer-director Sohan Roy says that there was nothing in Dam 999 which could upset law and order in Tamil Nadu.

"The movie was released all over the world, except in Tamil Nadu, though we had hired many artists and technicians from that State for the pro-

ject, including national award-winning designer Thotta Tharini. The film makes no reference to the Mullaperiyar Dam and the storyline was based on the bursting of the Bangiao Dam in China in 1975, which resulted in the death of 2.5 lakh people. I never had Mullaperiyar in my mind when I was shooting the movie," Roy adds. The ban is seen as the "true colours" of the Dravidians, according to noted author and film critic PK Sreenivasan. "History is repeating itself in Tamil Nadu. MG Ramachandran was thrown out of the DMK for questioning the party leadership's stance on a number of issues. We cannot expect anything different from them even now," Sreenivasan comments on the ban issue. The truth is that Tamil Nadu does not like to discuss the Mullaperiyar Dam. The term '999' evokes nervousness in the powers that be there since they know that the 999-year-long agreement is a fraud perpetrated on the people of Travancore by the then Madras Province. How an incident that reportedly happened in China could force the people of Tamil Nadu to violate law and order is anybody's guess. Dams should not be used for damning creativity!

Propaganda around China's 'infallibility' BHOPINDER SINGH

Under Xi Jinping's leadership, the seeds of Mao's manipulative propaganda tactics have mushroomed like never before in China

n the early days of 'helmsman' Mao Zedong's Chinese revolution, propaganda assumed a key role in shaping the Chinese optics, discourse and popular narrative. In 1958, the mouthpiece of the Chinese Communist Party, People's Daily, wrote: "...today, in the era of Mao Zedong, heaven is here on — ironically, this was also the year of the start of the Great Chinese Famine that has been regarded as amongst the greatest manmade disasters in human history, accounting for millions (estimates ranging from 15 to 55 million) deaths. The instinctive cover-up reaction of the Chinese officialdom entailed releasing propaganda posters of Chinese children standing atop surreal green fields of wheat so dense that they could hold their weight — the reality of the 'fields', actually made of deliberately transplanted stalks with a bench to hold the children, was hidden from the masses.

Today, in Xi Jinping's China, the seeds of Mao's manipulative propaganda tactics have mushroomed like never before, and the curation of the 'Chinese Dream' is a zealously guarded effort that brooks no contrarian viewpoint. Xi's barely concealed and insidious efforts to "tell China's story well" comes packaged with the usual spirit of defensive and reactive censorships, heavily massaged headlines, deflections to even outright buying out international opinions eg, South China Morning Post. Awkward subjects like the ensuing dissonance in Hong Kong, Xinjiang, Tibet or the Dalai Lama remain subject to editorial manicuring with the requisite smoke-and-mirrors to ensure that the domestic audience does not get 'brainwashed' to what Xi calls "western values of journalism". An important aspect of this control phenomenon is to define the so-called redlines that necessitates the continuing maintenance of the official charade of the Communist Party's supremacy, infallibility and perfection anyone questioning the same risks immediate threat or, in Oninese context, mysterious disappearances.

Last year, flamboyant Chinese entrepreneur Jack Ma, at and discussions about her

the cusp of the world's largest public offering of his company ie The Ant Group (a flourishing empire including the Alibaba, then valued at well over \$1 trillion), was subjected to a reality check of overstepping the mandated redlines (in this case, criticising Chinese regulatory policies) in Xi's hypersensitive China, and soon disappeared. Since then, Ja Ma has gone under the radar with patchy, dubiously organised and sanitised public appearances, that are typical of China's treatment of anyone blowing the lid off the official narrative. Many others like award-winning photographer Lu Guang, businesswoman Duan Weihong, actress Zhao Wei, artist and activist Ai Weiwei, real estate tycoon Ren Zhiqiang — all followed the patented route of inexplicable disappearances'. No criticism of the leader, party or its policies is ever tolerated.

Now, the hardly curious case of former No 1 women's tennis doubles player, Peng Shuai, follows the exact same path. Her crime: Calling out the bluff of so-called discipline, propriety and morality within the top ranks of the CCP by accusing former Chinese Vice-Premier Zhang Gaoli of sexuai assault. Expectedly, Chinese social media platform Weibo took down Peng Shuai's post

THIS IS THE THIN

sudden disappearance were heavily censored within the controlled realm of Chinese media, and her physical whereabouts remained unconvincingly scanty. Following a concerted effort by the World Tennis Association (WTA), Chinese Tennis Association issued perfunctory assurances that Peng Shuai was safe and "not under any physical threat". In a throwback to Ja Ma's carefully calibrated 'reappearances' that raised a lot more questions than it addressed, Peng Shuai too has started making what is increasingly getting dubbed as 'hostage videos'. For an internationally active player, there has been an inexplicable curb on access and ability to reach out to her with strangely incommunicado and stagemanaged 'sightings', dished out as means of meaningless reassurances of normalcy. Unfortunately, and embarrassingly so for the Chinese, the WTA Tour has suspended its tournaments in China and upped the ante, exactly what the Chinese were seeking to avoid, in their quest to suppress the truth and the accompanying outcry. Crucially, this specific disappearance (unlike countless others) could further sully the Uninese perceptions, weak as they are in the COVID era, to derail the Winter

Olympics which are due in a

couple of months. It's not so much about defending Gaoli's personal reputation (who too remains away from public gaze) as much as it is about defending the linear mirage of the 'Chinese Dream' (read, Party's governing capacity and infallibility) and of, therefore, avoiding the dangerous precedent of 'questioning' any of its imperatives. The People's Daily, which noted the "heaven on earth" analogy in 1958, launched its English daily tabloid, Global Times, in 2009 with the same level of propagandistic enthusiasm — so it noted WTA's action as "pursuit of political correctness, "forcing her to comply in accordance with the imagination and expectations of Western public opinion" and as "politicisation of sports", all the while remaining deflective on the specifics of Peng Shuai's disappearance. This is the thin ice on which the Chinese society, governance and sustainability is predicated; Xi Jinping knows this, and therefore among his predecessors, he prefers Mao Zedong's hard propaganda approach to the relatively reformist approach of Deng Xiaoping.

LETITERS TO THE EDITOR

THE PANDEMIC IS PERHAPS INVINCIBLE

Sir — No country, no community, no individual is safe until everyone across the world is safe. The emergence of a new Coronavirus variant has once again brought the spotlight on how unprecedented the pandemic is and how precarious the situation we're all in. We may have come to think that the pandemic is over, but the virus is still with us. As we speak, scientists across the world are scrambling to gather more data on the Omicron variant to understand how dangerous it is in terms of transmission and severity, and whether the currently available vaccines will be effective against it. The World Health Organisation has designated Omicron — the B.1.1.529 lineage of Sars-Cov-2 — as a variant of concern, leading to fears of another global surge in cases.

Dozens of countries have imposed travel bans from South African nations, where the Omicron variant was first identified. Others have imposed stricter measures to curb the spread of the Omicron variant. As on date, at least 38 countries have confirmed Omicron cases. Meanwhile, a number of countries have started booster vaccinations as a preventive measure against the new strain. But the question is: As long as vaccine inequity is not addressed, can the world think of defeating the Coronavirus pandemic and restoring normalcy?

KEEP YOUR FRIENDS CLOSE

Sir — Russian President Vladimir Putin's India visit should bolster bilateral ties between the two countries. Foreign policy is a matter of costs and benefits; no two nations are permanent foes. New Delhi, of course, is not on a slippery slope as far as its military and trade ties with Moscow are concerned. An old and traditional connection cannot go haywire just like that, and that was exemplified in no uncertain terms by Putin's India visit. The 2+2 meeting between the defence and foreign ministers of both the countries was held in a conducive atmosphere. India holds 2+2 ministerial meetings with

espite climbing to the third position in the list of most wicket-takers in Test cricket in India and leading the team to victory innumerable times, Ravichandran Ashwin continues to be criticised and compared. He has done remarkably well as an off-spinner for Indian cricket time and again. Whether it is ODI, T20 or Test cricket, Ashwin adjusts as per the format and situation on ground and plays a pivotal role.

He has won the 'Man of the Series' award nine times in his illustrious career. He stands up to the challenge when the chips are down and can perform with the bat as well.

Ashwin came, saw and conquered the cricketing field with a purpose. Ironically, the last wicket of New Zealand cricketer Henry Nicholls was taken by the ace spinner to hasten the end of Kiwi innings in the two match Test series. Ashwin has reached a historic milestone in test cricket. The offspinner went past Anil Kumble and Harbhajan Singh in taking 50 wickets in a calendar year for the most number of times. Ashwin is a star spinner and instead of criticising him or comparing his bowling figures with other bowlers, we should remember the times he held the fort and saved the day for Team India.

the United States, Japan and Australia and, thus, Russia became the fourth country to be accorded that importance. President Putin hailing India as a "great power" should do wonders for healthy bilateral relations.

Military, space, power, energy and infrastructure sectors between India and Russia are all set to be further expanded in the aftermath of President Putin's short but crucial visit. Interpersonal relations between the two have always been above board. There is nothing unusual in differences of opinion between the two friends. Putin kept away from the G20 and rescheduled his Beijing visit amid the pandemic; but kept his word on attending the summit in India. New Delhi, therefore, has to engage Russia on a personal level keeping with its dehyphenation policy on international relations. Ganapathi Bhat | Akola

THE BJP SHOULD LEARN TO BE HUMBLE Sir — There is little doubt that the repeal of the three contentious farm laws that were hastily passed in September last year is a victory for the farming community, and the triumph justly connotes the popular saying, "Farmers are the backbone of the Indian economy." However, the about turn made by Prime Minister Narendra Modi is nothing but a sheer political opportunism with an eye on the forth-coming assembly elections in the key States of UP, Punjab and Uttarakhand, and as well in the wake of the BJP's recent dismal performance in

The rollback of the farm laws shows how politically difficult it will be for India to overhaul a sector that supports about 60 per cent of the country's population. The farmers' victory is a tribute to their unprecedented struggle that it not only withstood the multi-fanged State repression, but, in fact, increased its defiant resistance massively for a year. The ruling BJP must have learnt a hardhitting lesson that a community, which is strongly united for a cause, can never be defeated.

FIRST COLUMN WTO AND COMMON IP FOR COVID VACCINES

Dissent persists on whether a waiver is answer to shortage and inequitable distribution of vaccines

PK VASUDEVA

he WTO's 12th Ministerial Conference (MC12), scheduled to be held in Geneva, stands postponed again because of the outbreak of the Omicron Coronavirus variant. At MC12, whenever it is now held, ministers will be reviewing the functioning of the multilateral trading system, delivering prepared statements, and taking action on the WTO's future work programme. As is known, the Doha Development Round, launched in 2001, has had a very rocky journey with a low level of achievement. Its main success was the adoption of the Agreement on Trade Facilitation at MC9 in 2013. There is, therefore, $\frac{1}{2}$ considerable pressure for a successful outcome at MC12 at a formal meeting of the Council for Trade-Related Aspects of Intellectual Property Rights (TRIPS) on November 18, WTO members agreed to keep actively engaging up until the WTO's MC12 in order to find a common intellectual property (IP) response to Covid-19. Members adopted the oral

status report of the TRIPS council The text provides a factual overview of discussions held at the Council since October 2020, on the proposal by India and South Africa requesting a waiver from certain provisions of the TRIPS Agreement for the prevention, containment and treatment of COVID-19 and the proposal by the European Union for a draft General Council declaration on the TRIPS Agreement and Public Health in the circumstances of a pandemic. On the waiver request, the report indicates that disagreement persists on the fundamental question of whether a waiver is the appropriate and most effective way to address the shortage and inequitable distribution of, and access to, vaccines and other COVID-19-related products. The role of IP in the context of the pandemic has become the centre of attention in the runup to MC12, and a pragmatic and tangible outcome of these discussions would be a strong and positive signal to the Ministerial Conference and the global community as a whole. The chair of the WTO's agriculture negotiations, Ambassador Gloria Abraham Peralta, told heads of delegations at a meeting on 15 November that she plans to circulate a revised draft negotiation text as soon as possible. The first draft negotiation text was introduced on July 29, with the chair proposing suggestions for a possible agriculture package at MC12. The text encompasses the seven main negotiation topics — domestic support, market access, export restrictions, export competition, cotton, public stockholding for food security purposes (PSH) and a special safeguard mechanism (SSM) as well as cross-cutting transparency issues. The chair emphasized the draft was based on members' discussions as well as her consultations in various configurations and served as a starting point for the final text-based negotiation phase before MC12. The chair also reported to WTO members on the state of play in the negotiations. She said the most recent consultations have focused on engaging members to find convergences on three primary issues: domestic support, public stockholding for food security purposes and, to a lesser extent, market access. Other members reaffirmed that a meaningful MC12 outcome on agriculture will address the compelling issue of food and livelihood security in light of the pandemic and commit members to continuing agricultural reform to make the agriculture trading system fit for purpose. Singapore presented a paper outlining its responses to the questions posed by India regarding an initiative that calls for exempting the World Food Programme's humanitarian food purchases from any export restriction. The initiative has gained wide support from most members and was described by many as a "lowhanging fruit" for MC12.

Colonial outlook can't fix climate issues now

Singling out coal won't serve the purpose. India's argument that other fossil fuels used by the rich nations are equally responsible for emissions is logical

ecently the United Nations Environment Conference 'COP 26' concluded in Glasgow, UK. ■India was praised at this conference, for Prime Minister Narendra Modi's "Panchamrit" commitment for safe environment. Today's environmental crisis is actually linked to the existence of humanity. The devastation caused by the changing climate is now affecting the common man all over the globe.
Cloudbursts in the Himalayan region

of Uttarakhand, excessively low rainfall in some regions and excessive rainfall in some others, and resulting droughts and floods, and causing diseases and resulting in climate change inducing natural calamities, all are impacting lives in the country today. Globally, life on small islands is endangered due to rising sea levels. Environmental hazards are also becoming the cause of large-scale displacement. If we do not rise to the occasion, this earth will not remain a habitable place in the next few decades.

In view of this concern, environmental conferences are being organized under the auspices of the United Nations annually since 1994. These conferences are also called 'United Nations Framework Convention on Climate Change. At the Environment Conference held in Kyoto, Japan a treaty was signed, known as the Kyoto Protocol', (with amendments in Doha's Environment Conference in 2012), according to which countries announced targets to reduce their emissions of greenhouse gases. The 'Kyoto Protocol' was the last such agreement in which developed countries accepted their responsibility to reduce the emission of greenhouse gases emissions; and the less developed and developing countries were exempted from the responsibility of reducing the emission of these gases for some time.

After the 2015 Paris's Environment Conference, India, with a liberal change in its earlier stance, unilaterally pledged to reduce emissions of greenhouse gases and made it clear that India would not only live up to its ambitions but also raise the same. But India had also made it clear that developed countries should desist from blaming India for environmental degradation or global warming. The reality is that if seen from the historical perspective, today the world is suffering the consequences of what ha last 100 years. Whereas the United States is responsible for 40 per cent of greenhouse gases emissions, Europe's and China's contribution is 10 per cent and 28 per cent respectively, India is responsible for merely three per cent for these emis-

India had said that while the rich countries are responsible for a major part of the emissions, they had not lived up to their promise, made in Copenhagen, to provide \$100 billion to the developing and least-developed countries to deal with the

usage of coal. In the draft of the final document of the Environment Conference of Glasgow (UK), the rich countries included the condition to phase out of coal in the draft declaration, and when India refused to accept the same, a campaign was started in the western media to defame India that it is becoming an obstacle in the way to solution of environmental crisis. Whereas the media in the

west is trying to portray India as the viliain of the environmental crisis for not accepting the condition to phase out coal usage in the final document, countries like the US, Europe and China, who are main culprits, are nowhere close to being held responsible. We need to understand that singling out coal will not serve the purpose. India's argument that other fossil fuels like petroleum and gas are equally responsible for emissions is a logical one. However, since the US and Europe have an advantage in using them (petroleum and gas), there is no mention of reducing emissions from these fossil fuels in the final document, which is downright unfair.

Today, when the developed countries are calling India a hindrance to the environmental treaty, they have to introspect and realize that the reason for the present environmental crisis is the uncontrolled consumption by those countries, which is reflected in the fact that the US and Europe alone where only 14 per cent of the total world's population lives — account for 50 per cent of the greenhouse gas emissions in the st 100 vears

Not only this, even today the per capita emission of greenhouse gases in India is only 1.77 metric tons, while in America it is 14.24 metric tons and in England it is 4.85 metric tons, and in China also the per capita emission of greenhouse gases is 7.41 metric tons. The main reason for excessive greenhouse gas emissions in developed countries is wasteful and irresponsible consumption, which is due to their lifestyle. Developed countries today are not ready to concede that the present environmental crisis is due to their stubbornness to not change their lifestyle. The people of these countries and their leadership will have to realize that they have to control

their consumption to overcome the current environmental crisis. Whether it is the goal of not allowing the world's temperature to rise more than 1.5 degrees from the pre-industrial level, or the reduction in smoke, the only solution is the control of consumption, for which the developed countries have the main responsibility.

Apart from this, the efforts

made by developing countries and underdeveloped countries like India to reduce the emissions of greenhouse gases and global warming will require the use of technology. This technology is available mainly with the devel-oped countries, which they want to share only for a hefty price. On the other hand, developing and underdeveloped countries will have to increase the use of renewable energy such as solar energy, wind energy, etc., for which they will need more investment and technology. The need of the hour is that if the earth is to be kept habitable, the developed countries have to make available their resources and technology for it, rich countries will have to come out of their colonial mindset, that they are the rulers of the world and can do anything they desire. It should not be forgotten that heat emanating from global warming will not spare even these rich countries.

The Congress faces a host of challenges before 2024

All Opposition parties might be willing to unite under Sonia Gandhi's leadership; however, they have reservations against Rahul Gandhi

ill Congress perish as West Bengal chief minister Mamata Banerjee and others believe? Even in the past, many predicted the end of Congress, but it survived many onslaughts. The latest was in 1998 when Sonia Gandhi emerged, Sphinx-like, to revive it and rule from 2004-2014. The 2019 Lok Sabha results gave Congress 12 crore votes, though seat-wise it got only 52. Even in its second successive defeat in 2019, the party retained a solid block of 20 percent votes. The Gandhi family is complacent, believing that the voters will get disenchanted sooner than later and return to the Grand Old Party. No doubt they live in a fool's paradise as there is an urgent need to revive the

KALYANI SHANKAR

party. Undoubtedly, Congress faces a leadership crisis and challenges from many sides.

The first is to quell the internal indiscipline and revolt. The group of 23 led by Ghulam Nabi Azad is an example and this disenchantment is prevalent in almost all

The second comes from within the Opposition bloc. Of late, West Bengal chief minister Mamata Banerjee's attack, backed by the wily NCP chief Sharad Pawar, has intensified. Now that Mamata has decided to bid for the Prime Minister's post in 2024, she is trying to edge out Congress from the opposition bloc. As a first step, Banerjee is preparing to broad-base her party and also gain pan-national recognition.

Congress party in many states and even regions. Congress should now aim to build upon the 12-crore voter base instead of embroiling itself in selfmade controversies. Of the 186 direct fights between BJP and Congress in 2019, the former won 170 seats, amounting to a 91.4 percent strike rate. It bagged 162 of these seats in the 2014 elections. The Congress, which won 24 of these seats in 2014, has come down to 15. In Uttar Pradesh,

Bihar, Rajasthan, Madhya doing precisely that. Congress Pradesh, Haryana, is involved in short-term Uttarakhand, Jharkhand, Chhattisgarh, Odisha, Himachal Pradesh, and West Bengal, where it ruled in the past, Congress won only 10 out of 286 seats. The party has no representation from 20 states. Further, BJP has taken over the opposition space in Odisha, Tripura, and West Bengal, where Congress was traditionally the main opposition. Also, the regional parties continue to put up a much better fight than Congress.

So, what are the options for the party now that there to do this as almost all oppoare cracks within the opposi-

The second is that the party needs enormous resources and committed

ize that though they could contain BJP in their states, they do not have a pan-national presence. Even today, therefore, they need a party like Congress; every village has a congressman.

Last Sunday, Shiv Sena mouthpiece Saamna, in its editorial, said that pushing the grand old party away from national politics and creating an Opposition grouping par-allel to the UPA (United Progressive Alliance) would only strengthen BJP and "fascist" forces. Though Mamata tried to woo the Sena during her recent visit, Sena does not want to lose its government because Congress is its coali-

Rahul Gandhi has been in politics since 2004, but he is not yet accepted as the opposition face. Rahul's efforts to befriend second-generation leaders like Akhilesh Yadav have not succeeded. He needs an image makeover.

The fourth and more complex option is to give a call to all those leaders who had left Congress to come back. This idea springs up on and off. Congress has been the parent of many ruling parties like the NCP, TMC, YSRCP. There have been suggestions that such a united party could function under a presidium and collective leadership. But the parent party is hesitant to take such a plunge. A united Congress, than a divided opposition, is a more formidable opponent to BJP.

Biden to warn Putin of eco pain if he invades Ukraine

President Joe Biden is ready to warn Vladimir Putin during a video call Tuesday that Russia will face economy-jarring sanctions if it invades neighboring Ukraine as Biden seeks a diplomatic solution to deal with the tens of thousands of Russian troops massed near the Ukraine border.

Biden aims to make clear that his administration stands ready to take actions against the Kremlin that would exact "a very real cost" on the Russian economy, according to White House officials. Putin, for his part, is expected to demand guarantees from Biden that the NATO military alliance will never expand to include Ukraine, which has long sought membership. That's a non-starter for the Americans and their NATO allies.

"We've consulted significantly with our allies and believe we have a path forward that would impose significant and severe harm on the Russian economy," White House press secretary Jen Psaki said Monday in previewing the meeting. "You can call that a threat. You can call that a fact. You can call that preparation. You can call it whatever you want to call it?

The leader-to-leader conversation — Biden speaking from the Situation Room, Putin from his residence in Sochi is expected to be one of the toughest of Biden's presidency and comes at a perilous time. U.S. intelligence officials have determined that Russia has massed 70,000 troops near the Ukraine border and has made preparations for a possible învasion early next year. In a statement released just hours before the leaders' video call,

Ukrainian authorities charged that Russia is sending tanks and snipers to war-torn eastern Ukraine to "provoke

Ukraine's Defense Ministry alleged that Russia is holding "training camps under the leadership of regular servicemen of the Russian Armed Forces." The Kremlin hasn't commented on the allegations.

The U.S. has not determined whether Putin has made a final decision to invade. Still, Biden intends to make clear to the Russian leader that there will be a "very real cost" should Russia proceed with military action, according to a senior administration official who briefed reporters on the condition of anonymity.

Biden was vice president in 2014 when Russian troops marched into the Black Sea peninsula of Crimea and annexed the territory from Ukraine. Aides say the Crimea episode — one of the darker moments for former President Barack Obama on the international stage — looms large as Biden looks at the current smoldering crisis.

The eastward expansion NATO has from the start been a bone of contention not

Rohingya sue Facebook for \$150B, alleging role in violence

Rohingya refugees sued Facebook parent Meta Platforms for more than \$150 billion over what they say was the company's failure to stop hateful posts that incited vio-lence against the Muslim ethnic group by Myanmar's military rulers and their supporters.

Lawyers filed a class-action lawsuit Monday in California saying Facebook's arrival in Myanmar helped spread hate speech, misinformation and incitement to violence that "amounted to a substantial cause, and eventual perpetuation of, the Rohingya genocide."Lawyers in the United Kingdom have issued notice of their intention to file a similar legal action. Facebook, which was recently renamed Meta, did not immediately, reply to a request for comment.

It's the latest in a series of accusations that the social media giant fueled misinformation and political violence, outlined in redacted internal documents obtained by a consortium of news organizations, including The Associated Press.The combined legal claims from Rohingya refugees are being filed on behalf of anyone worldwide who survived the violence or had a relative who died from it.

The Rohingya are a Muslim ethnic group forced to flee persecution and violence in Myanmar starting in 2017, with an estimated 1 million living in refugee camps in neighboring Bangladesh. Some 10,000 have ended up in the United States.

In 2018, United Nations human rights experts investigating attacks against the Rohingya said Facebook had played a role in spreading hate

than 10,000 More Rohingya have been killed and more than 150,000 were subject to physical violence, according to the law firms organizing the

The lawsuits say Facebook's algorithms amplified hate speech against the Rohingya people and that it didn't spend enough money to hire moderators and fact checkers who spoke the local languages or understood the political situation. They also say Facebook failed to shut accounts and pages or take down posts inciting violence or using hate speech directed at the ethnic Facebook arrived in

Myanmar in 2011, arranging for millions of residents to access the internet for the first time, according to the lawsuit filed in California Superior Court for San Mateo County.

But the lawsuit says the company did little to warn people about the dangers of online misinformation and fake accounts — tactics employed by the military in its campaign against the

The lawsuit says Facebook knew that rewarding users for posting dangerous content and allowing fake accounts created by autocrats to flourish would radicalize users. "The resulting Facebook-

fueled anti-Rohingya sentiment motivated and enabled the military government of Myanmar to engage in a campaign of ethnic cleansing against the Rohingya," the lawsuit says. Copyright 2021 The

UAE BECOMES FIRST COUNTRY TO TRANSITION TO 4.5 DAY WORK WEEK

Targets to boost work-life balance

The United Arab Emirates I on Tuesday announced to change its existing five-day workweek to a four-and-a-half day starting January 1, becoming world's first country to make employee-friendly transition as part of its efforts to improve productivity and work-life balance.

According to new schedule, Monday to Thursday work timings would be from 7.30 am to 3.30 pm, followed by a half day on Friday from 7.30 am to 12.00 pm, said UAE Government Media Office.

Saturdays and Sundays are full-day holidays under new rule. The government said: "Longer weekends to boost productivity and improve worklife balance; starting from 1st of January, 2022." In line with announcement, the government said all Friday sermons and prayers would be held after 1.15 pm henceforth. Further, employees would be offered flexible working hours and work-from-home options on Friday.The

to make it come closer to timings of US, UK and Europe, boosting commerce. The new system will first be implemented in all federal government entities; schools, colleges and private institutions are expected to follow suit. The Emirati governments of Dubai and Abu Dhabi have already announced fourand-a-half day workweek.

The UAE Government Media Office said extended weekend comes as part of efforts to boost work-life balance and enhance social wellbeing, while increasing performance to advance country's economic competitiveness.

From an economic perspective, the new working week will better align Emirates with global markets, reflecting country's strategic status on global economic map, the Khaleej Times reported. It will ensure smooth financial, trade and economic transactions with countries that follow a Saturday/Sunday weekend, facilitating stronger international business links and opportunities for thousands of UAE-based and multinational companies, the media office said.

 $A^{

Asaad al-Idani, told reporters on scene that a motorcycle had exploded, quickly blaming militants from Islamic State group. There was no immediate claim of responsibility for morning attack near a major hospital, which shook residents of city. Iraq's Security Media Cell, an outlet affiliated

with country's security forces, said in a statement that four people were killed and four were wounded as a result of the fire in two cars that were near motorcycle.It said forensics teams were at the scene of the blast and that more details would be released on nature of explosion, once investigations were completed. Explosions have been rare in oil-rich, predominantly Shiite Basra region in recent years, particularly since defeat of Sunni militant Islamic State group in 2017.

"Daesh is trying to destabilize security in Basra, but it will not be successful," Al-Idani said after inspecting damage from blast, using Arabic acronym for Islamic State group.

Whistleblower: As Afghanistan fell, UK abandoned supporters

 $B^{\text{ritain's Foreign Office abandoned many of the nation's}}$ allies in Afghanistan and left them to mercy of the Taliban during the fall of capital, Kabul, because of a dysfunctional and arbitrary evacuation effort, a whistleblower alleged Tuesday. In devastating evidence to

a parliamentary committee, Raphael Marshall said thousands of pleas for help via email were unread between Aug. 21 and Aug. 25. The former Foreign Office employee estimated that only 5% of Afghan nationals who applied to flee under one U.K. program received help. He said that at one point, he was only person monitoring inbox.

There were usually over 5,000 unread emails in inbox at any given moment, including many unread emails dating from early in August," he wrote to Foreign Affairs Select gating Britain's chaotic departure from Afghanistan. "These emails were desperate and urgent. I was struck by many titles including phrases such as

children." Marshall said some of those left behind had been killed by Taliban. One of Marshall's most explosive allegations is a claim that British officials spent time and energy arranging evacuation of almost 200 dogs and cats from a Kabul animal shelter run by Nowzad, a charity founded by former Royal Marine Pen Farthing.

Marshall claimed Foreign Office staff had "received an instruction from Prime Minister to use considerable capacity to transport Nowzad's animals." He claimed British soldiers were put at risk to get the animals out of Kabul.

Prime Minister Boris Johnson's spokesman, Max "entirely untrue" and neither Johnson nor his wife Carrie, an animal-welfare advocate, had been involved in helping animals leave.

recovery... Supported by

Mumbai: The rupee erased all its intra-session gains to end on a flat note at 75.44 against the US dollar on Tuesday as investors took note of rising crude oil prices and sustained foreign capital outflows.

However, a sharp rebound in domestic equities improved investor sentiment, helping in restricting rupee slide.

At the interbank forex market, the local unit opened strong at 75.31 against the greenback and witnessed an intra-day high of 75.26 and a low of 75.49 during the day's trade. It finally ended at 75.44 a dollar against the previous close of 75.45 – up 1 paisa against the greenback.

Instagram launches

London: Instagram on Tuesday launched a feature that urges teenagers to take breaks from the photo-sharing platform and announced other tools aimed at protecting young users from harmful content on the Facebook-owned service.

The previously announced "Take A Break" feature encourages teens to stop scrolling if they have been on the social media platform for a while, Instagram head Adam Mosseri said in a blog post. It rolled out to the U.S., United Kingdom, Ireland, Canada, New Zealand and Australia on Tuesday and would reach the rest of the world early next year, he

growth and immense opportunities for the future, gender diversity has always been a big concern for the industry.

The percentage of women executive directors in the pharmaceutical industry is only 7.69 per cent. However, with studies pointing to the benefits of women in leadership roles and a benefits of women in leadership roles and a greater push towards gender equality, things are taking a turn with a new crop of women business leaders emerging at the top.

The scenario so far

Traditionally, workplaces dominated by men have not been accommodating to women. Whether it is related to child care in the workplace, the flexibility of working hours or safety, women were not encouraged, supported or made to feel that they are equally capable of handling the tasks as handled by men.

Also, organisations pay little attention to helping women adjust to motherhood. The majority of women have to give up their work after childbirth owing to the lack of support and policies to help them resume their careers after

However, with the latest guidelines by SEBI on board representation along with an increasing number of women inspired to make a difference, things are slowly changing.

Organisations nowadays are making conscious efforts to highlight their women leaders on platforms like media, conferences, business meetings etc. providing room for their growth.

Such initiatives act as a strong communication

point in encouraging future generations.

Women who have broken the barriers and redefined the pharmaceutical sector with their contributions:

Zahabiya Khorakiwala —Managing Director, Wockhardt Hospitals

ZahabiyaKhorakiwala has played a major role in making Wockhardt Hospitals a 250 crore business. She entered the business in 2010 as a director, soon after she completed her post graduation. Like most mothers, she also had to deal with the challenges of balancing work and personal life but that didn't stop her from learning the nitty-gritty of running the business and remoulding it from providing tertiary healthcare to giving quaternary healthcare.

Zahabiya has plans of capitalising on the opportunity that high healthcare costs in India coupled with low bed count offers and aims to open more specialty hospitals across the coun-

Dr V Shanta — Oncologist and Chairperson, Adyar Cancer Institute

Awarded with the Magsaysay Award winner, Padma Shri, Padma Bhushan and Padma Vibhushan, she is the co-founder and chairperson of Chennai's state-of-the-art Adyar Cancer Institute. In an age when specialised medical care has become commercialised, she strives to make sure that the Institute remains true to its ethos, 'service to all'. Even at the age of 91, Dr Shanta is still devoted to changing the scene for cancer treatment in the country that serves as an inspiration to young physicians and

ORGANISATIONS NOWADAYS ARE MAKING CONSCIOUS EFFORTS TO HIGHLIGHT THEIR WOMEN LEADERS ON PLATFORMS LIKE MEDIA, CONFERENCES, BUSINESS MEETINGS. PROVIDING ROOM FOR THEIR GROWTH

Regarded as one of the most influential and top women entrepreneurs in India, she is the founder of India's largest pharmaceutical firm - Biocon. Established in 1978, the company has today emerged as India's largest biotech giant and

Asia's biggest producer of insulin.

Owing to her relentless efforts to develop, manufacture and supply life-saving biopharmaceuticals at price points that are affordable and accessible to the masses, she has also been honoured with the Padma Shri and the Padma Bhushan award.

Samina Vaziralli — Executive Director, Cipla

Samina Vaziralli is the granddaughter of founder Dr K A Hamied and she is credited with growing the consumers business of the 75-yearold pharmaceutical company.

As the mother of 2 children, she needs no

telling of the struggles women have to face to maintain a work-life balance. In the quest to help women manage both their personal and professional demands, she brought vast changes in the way women are taken care of in her organisation. Up to fifty per cent of the Management Council in Cipla is constituted by women.

There is no reason to believe that the pharmaceutical industry is not suitable for women. Today, there is an increasing number of women making their mark in the industry and breaking the stereotypes. In order to bridge the gender gap in the pharmaceutical industry, organisations need to actively create a culture that actively advocates diversity and inclusion.

A few organisations have already stepped up and there will come a time when women will have equal representation in the workforce in the pharmaceutical sector.

The first step of this plan is to expand the current ISH Gurugram campus, which will feature an additional 25,000 sq. ft of classrooms, training kitchens, and student experi-

Social media and growth of cybercrimes

Cocial media is the fifth pillar Of democracy and shouldn't be taken lightly in any means. Many people in past have ignored the power of social media and the heinous crimes that are on a constant upward slope, and have faced repercussions for the same.

Terms like hacking and cyber fraud were relatively new to our dictionary, but their growth is phenomenal. Earlier most of the breaches would happen over the telephone but now the intensity of the crimes have been taken to the next level.

Cyber frauds have found new and convenient ways of getting into your private system, and the internet of things is only making it easier at every stage, any electronic device connected to the internet can be easily tapped and hacked.

In recent years, hackers easily breach into your mobile phones and turn on your camera without your knowledge, it can happen because of a lack of strong passwords and security settings. The hackers can further breach your personal information on the web or use it as a means to blackmail and fetch money from you. Such incidents have increased during the COVID-19 pandemic due to the financial crunch in the overall economies.

Hackers have easily found their way into people's private conversations, and have been bale to use it against them. But,

that's only because we as users aren't aware enough.

The best way to stay protected is to change your passwords after a designated interval and always use a lengthy combination of upper and lower case characters, numbers and special characters. We should also equip ourselves with protection such as web camera covers, and privacy settings that bring into our knowledge if some unusual activ-

ities are occurring in our systems. To be safe on social media should be everyone's topmost priority, especially now when verything starting from our addresses to our phone numbers are readily available, and can put our and our loved ones life in danger. Never give into the blackmailing but fight back with the right attitude, that's what will put the cybercriminals in the right

verall the exam was doable, not very tough but lengthy when compared to the previous years. LR was a little time consuming and lengthy. DI was easy and noticed that a data interpretation set was similar to a DI set of CAT 2019. VARC was more fact based which was easy to solve. However, the length of the passages was a challenge. Overall it had 35 questions with 16 questions from RC and 19 questions from verbal ability. Arithmetic rules the roast in the quantitative ability section as expected. The questions were lengthy and time consuming but not difficult. The first few sentences of the questions were just meant to eat up the student's time, hence one had to scout out the right amount of information from the question and solve it as quickly as possible. The GK section was more on the current affairs side including questions related to sports personal-

ities and their professions. Exam tested students on speed, logic and analytical skills, a sincere student with well-rounded preparation of concepts and a good practice of mocks would make their way to the IIFT.

It was an exam with no twist. Well prepared students should be able to outperform. Logical reasoning section was a little difficult and time consuming, we saw the changes in reading comprehension passages with dominance of fact-based questions. However, ones with the habit of reading a lot of books and essays have nailed it.

Negative marking existed for the multiple-choice questions. In VARC, DILR, and QA sections, for each correct response, +3 is rewarded and for

each incorrect, -1 is deducted. In the GA section for every cor-

'The paper was overall moderate to difficult. The verbal section was lengthy but comparatively easier than last year. What was surprising was to see no data interpretation questions to be calculation intensive like the previous years, however, logical reasoning took up a lot more time than I had initially planned." - Jayant

"The paper was very structured but lengthy and time crunching. VARC was time consuming with concerns with the fact-based questions in all Reading comprehensions not many inference questions. DI was pretty easy and had glimpses of old cat papers. Overall in the paper, selection was the key so now let's hope for the best." - Aakrosh

PREP TIPS FOR CA

A competitive entrance exam like Chartered Accountancy needs a credible and right strategy because it varies with respective syllabus and the expected number of people appearing for it, says ASHISH KALRA

dhe Institute of Chartered Accountants of India (ICAI) announced exam dates of CA Foundation, CA Intermediate (IPC) and CA Final courses for December 2021 phases. The examinations of all three course levels will be held between December 6-20, 2021.

The most challenging part is to prepare and then to clear the CA exam. You should start streamlining aims at the initial stages of preparation/studies There are so many questions in an aspirant's mind - what actually you want to be, what is in your mind, how to prepare, from where the guidance needs to be taken, how to crack CA exam in first attempt and so on.

You should draw a clear-cut time agenda, be well-versed with the concepts and decide if you will be more comfortable to selfstudy or choose coaching for preparation. Also, there are certain tricks which the candidates learn over the period of time and can use it on the day when they appear for exam.

reading: Keep on Developing a habit of reading at the early stage leads you towards cracking required entrance exam. Primarily newspapers, motivational or story books, fiction or non-fiction novels, e-papers etc always benefit you by increasing your knowledge, reasoning and learn something new every day and these small efforts would surely bring big fortunes in future.

Update yourself as per syllabus: Before preparing for any competitive exam, you should know the syllabus and that is the first step of preparation. This will help you to prepare for those subjects, topics and sub topics which are required to be covered.

It will help you to save your time which you would have wasted on studying and preparing redundant part. You must know the syllabus of the exam you are preparing thoroughly. You can print multiple copies of svllabus, topic wise or chapter wise and try to grab the same by heart.

Learning source: Arranging right study material is the second step, the type of questions that can be asked and the questions for which you must prepare, you need the study material. The study material should consist of tions as similar as real test while

Preparation environment: Preparing in a right atmosphere is also very important to prepare for entrance exams such that there should not be any mental disturbance. If you have good environment around you, you will be able to prepare better, faster and more easily for the exam. Avoid any distraction like unwanted noise around your study area.

Belief: While preparing for the exam you may feel like giving up or you are not the right candidate for this exam. It is very important for you to have high level of self-confidence to crack competitive exams. You need to convince yourself that it's your dream and you have to be fully prepared to clear the exam.

To bring in sufficient selfconfidence and strengthen your intentions, you can read motivational books and inspirational material. Share your feelings with your mentors and parents.

Be healthy: Students generally ignore their physical and mental health while preparing for

Due to which they may experience physical weakness or mental exhaustion. They must understand that if their body does not have sufficient energy then they will not be able to pay required attention to their studies. It is important to have a good diet, sufficient water and sound sleep.

Ashes could revolve around contest between Cummins, Root

AP BRISBANE

ne particular contest between bat and ball could shape this Ashes series. Pat Cummins is set to lead the home team, putting a fast bowler's perspective on Australia's test cricket captaincy for the first time since the 1950s. Joe Root is primed to lead England with the bat again in a series he thinks may define his career. "A bowling captain for Australia and a batting captain

for England — two captains going toe to toe will be great," England wicketkeeper Jos Buttler said on the eve of the first test.

Root was already feeling some pressure before it was confirmed that Jimmy Anderson, England's all-time leading test wicket taker, will miss the first test starting Wednesday at the Gabba.

Buttler said the senior players in the team were ready to step up to support Root, and the return of inspirational allrounder Ben Stokes would also help."We know he's our best player, we want to support him, help him, share that load," Buttler said of Root "He's been in incredible form. He comes here determined to continue that. "It's a massive series for him." Root heads into this series as the leading test batsman in the world, having scored 1,455 runs in 12 tests in 2021 at an average of 66.

But England has lost nine of the 10 tests it has played in Australia since its droughtbreaking series win Down Under in 2010-11, mostly by big margins. Root has been on the last two tours, and was captain for the 4-0 loss in 2017-18.

And then there's England's record at the Gabba, where it hasn't won a test since 1986 and

Hardik undergoing rehab in Mumbai, decides to skip Hazare Trophy

PTI ■ NEW DELHI

Out of favour India all-rounder Hardik Pandya has decided to skip Vijay Hazare Trophy (National One Dayers) starting across the country from Wednesday as he is undergoing an extensive rehabilitation programme in order to regain his bowling fitness.

"The Baroda Cricket Association (BCA) had sent an e-mail to Hardik enquiring about his availability for the Vijay Hazare Trophy. He has rarely played for Baroda in last three years. However he gave a one-line reply that he is currently doing rehab in Mumbai," a senior official privy to developments in BCA told PTI on conditions of anonymity.

Asked what is the injury he is carrying at the moment, the official said: "Even is understood that he is trying to do some strength and conditioning module for his back which is no longer in best of shape post surgery in 2019," the source

The official informed that Hardik's elder brother Krunal had joined Baroda's pre-Hazare camp for a week after he was instructed by the state board that attending the camp is mandatory for being part of the final squad.

"BCA told Krunal that he can't just land up during tournaments and he has to be a part of the camp. Then he came and trained with the team for a week," the source said.

If Hardik doesn't play the domestic tournaments, he will not be considered for a comeback in the Indian side for the white ball tournaments. "The current national selection committee players that all

those who are

not in the India squad

should go back and

play domestic crick-
