entertainment industry has become a pan-india juncture now: Dhanush Babu

Actor Dhanush Babu worn in an atypical avatar, sporting moustache.

Sudheer Babu plays one of the most challenging roles in his Tollywood film. Shubh Labh has turned a different face for him, which is seen in Dhanush Babu’s new avatar. In the new avatar, he appeared to be a real hero, having a perfect body.

A film buff would have to be the one where I spotted an English film just for me. It was an ice cream recipe. I love ice cream and I wanted to watch the film. It was a really good film and I loved the music. It was a romantic film and I loved the story. It gave me a chance to reflect on my life and the choices I make.

Dhanush Babu is a world that I can’t live in. It’s filled with music and dance, love and laughter. It’s where I feel right at home. And, I always say that before the release of a film, my only concern is how it’s going to be received by the audience. When you release a film, you are putting your heart and soul into it, and you want it to be appreciated by the audience.

I love the way Dhanush Babu is wearing a suit in the film. He looks absolutely perfect. I think the film has captured the essence of his character very well.

The reason I chose to work with Dhanush Babu was because of his acting skills and his inherent talent. He is a natural actor and he brings life to any role he takes on. I think he is one of the most talented actors in Tollywood.

I am thrilled to work with Dhanush Babu and I am sure that he will do justice to this character. I am confident that the audience will love his performance in the film.

though the director took it in his stride, saying it only gave him more time to polish the film.

A small group of 80 players have joined Bengaluru FC for the I-League trials, where the Indian Football Association, the state body for the sport in the South Indian state of Karnataka, has arranged for a 50 by 25 metres testing ground for three days with high-protein meals to help the candidates prepare for their next competitive event.

One of the top-flight clubs in India, Bengaluru FC, has picked up the young talent in the hope of finding new stars for its team. The club has also been running an I-League trial camp for the past few years, and this time the trials are open to all categories of players, including those with no experience in professional football.

The trials will be held from February 26 to 28, and interested candidates are encouraged to register on the club's official website. The club has also announced that they will provide accommodation and travel arrangements for the selected candidates.

Bengaluru FC has a long history of promoting young talent, and has produced several top players for the Indian national team in recent years. The club has also been successful in the I-League, finishing runner-up in the 2020-21 season and winning the title in the 2021-22 campaign.

The I-League trials are an excellent opportunity for aspiring footballers to showcase their skills and earn a professional contract with one of the country's top clubs. The club has also been known to offer generous rewards to the selected candidates, including salaries, travel expenses, and coaching facilities.

Bengaluru FC is looking to expand its academy and promote young talent in the country, and these trials are a step in that direction. The club has also been known to provide a supportive and motivating environment for its players, and this is a great opportunity for aspiring footballers to develop their skills and achieve their dreams.
