PM Modi, in his address to the nation, said, "India's vaccination drive has been the largest and fastest in the world."

India has administered over 300 million doses of the Covid-19 vaccine so far, he said, adding that the government has so far approved seven vaccines and that the number will increase to 10 by the end of this month.

"India's vaccination drive is the largest and fastest in the world," he said, adding that the country has administered over 300 million doses so far.

"From the beginning, we have made it clear that we will do everything possible to ensure that every Indian gets vaccinated," he said.

"We are on track to achieve the target of vaccinating 70% of the population by the end of the year," he added.

"Today, we crossed the 60% mark in vaccination and we are on track to achieve our target of 70% by the end of the year," he said.

"We are now the world's largest vaccine producer and we are working towards making India a hub for Covid-19 vaccine production," he said.

"We have already administered over 300 million doses of the vaccine and we are on track to achieve our target of vaccinating 70% of the population by the end of this year," he added.

"India has always been a leader in the fight against Covid-19 and we will continue to take lead in the global response," he said.

"India is now the largest vaccine producer in the world and we are working towards making India a hub for Covid-19 vaccine production," he added.

"We have already vaccinated over 300 million people and we are on track to achieve our target of vaccinating 70% of the population by the end of this year," he said.

"India has always been at the forefront of the fight against Covid-19 and we will continue to lead in the global response," he added.

Kid among three killed in Delhi fire at scrap shop

Three people, including a child, died in a fire that broke out at a scrap shop in west Delhi's Badarpur area. According to the police, the fire occurred in the premises of a scrap dealer, a resident of Kannauj, who was also among the deceased.

The bodies were shifted to the civil hospital for post-mortem. Fire tenders were immediately rushed to the spot after the police received an alert from the control room.

An FIR has been registered under Sections 304B (cruelty by public servant) and 304A (death by negligence) of the Indian Penal Code. The cause of the fire is yet to be ascertained.

**J&K calm but can burst with rage any...**

**From Page 1**

J&K has prepared a peace plan that can be of use to both India and Pakistan, but the plan would need to be implemented immediately.

The J&K government has prepared a peace plan that can be of use to both India and Pakistan, but the plan would need to be implemented immediately. The plan, prepared by the J&K administration, is modeled on the approach taken by the government of Pakistan in resolving the Kashmir dispute.

The plan, which was prepared by the J&K administration, is modeled on the approach taken by the government of Pakistan in resolving the Kashmir dispute.

**Punjab CM writes to Pm, seeks free Covid jab for poor...**

Punjab Chief Minister Captain Amarinder Singh has written to Prime Minister Narendra Modi seeking a free Covid jab for poor people in the state.

Singh, who is known for his measured approach, wrote in his letter: “It would be difficult for the poor and weak to bear the expenses for the vaccination.”

Singh has written to Prime Minister Narendra Modi seeking a free Covid jab for poor people in the state.

The state government has been working on the issue for a long time, and Singh is likely to meet the Prime Minister again in the near future to discuss the matter.

**Delhi Police**

Delhi Police has confirmed the death of a child in a fire at a scrap shop in Badarpur, west Delhi.

The fire broke out in the premises of a scrap dealer, a resident of Kannauj, who was also among the deceased.

An FIR has been registered under Sections 304B (cruelty by public servant) and 304A (death by negligence) of the Indian Penal Code. The cause of the fire is yet to be ascertained.

**Delhi continued to be under ‘severe air...**

Delhi continued to be under ‘severe air pollution’ on Monday, with the AQI at 451, according to the Central Pollution Control Board.

The AQI in the capital city has been in the severe category for the past two months, with a reading of 451 on Monday. The AQI is a measure of air quality, with 0-50 considered ‘good’, 51-100 ‘moderate’, 101-200 ‘poor’, 201-300 ‘very poor’, and 301-400 ‘severe’.

**Surveys conducted to identify air...**

Surveys conducted to identify air pollutants in the city have shown that the air quality in Delhi is still poor.

The surveys were conducted in various areas of the city, including in south Delhi, and showed that the AQI in the city remains in the severe category.

**Farmers-Govt talks inconclusive again...**

Farmers’ leaders and government officials met again on Monday, but the talks did not produce any concrete results.

The meeting was held in New Delhi, and the government and the farmers’ unions discussed the issue of MSP and other related matters.

However, both sides were unable to reach a consensus, and the government said it would continue with its existing policies. The farmers’ unions, on the other hand, reiterated their demands for higher MSP and other support measures.

**Malware and fraud syndicate busted...**

Malware and fraud syndicates have been busted in two cities, Mumbai and Bhopal, with the recovery of Rs 2.16 crore and Rs 1.56 crore, respectively.

The raids were conducted in both cities, and the syndicates were involved in the creation and distribution of malware designed to steal money from users.

**DTC to induct 1,000 low floor AC buses after 12 years**

**New Delhi**

The Delhi Transport Corporation (DTC) has decided to introduce 1,000 low floor AC buses to cater to the rising demand for comfortable travel in Delhi. This is a significant step forward for the corporation, which has been facing pressures to upgrade its fleet in line with the growing demand for environment-friendly and accessible transport solutions in the city.

**DTC’s plans for new fleet**

The buses will be equipped with the latest technology to ensure a smooth and comfortable ride for passengers. They will have features such as low floors, air conditioning, and electronic ticketing systems to enhance the travel experience. The introduction of these buses is expected to reduce travel time and improve the overall efficiency of the transport system.

**Background**

The DTC has been operating in Delhi since 1969, and over the years, it has faced challenges in maintaining and updating its fleet due to budget constraints and other factors. However, in recent years, the corporation has been able to allocate funds for fleet modernization, leading to the decision to induct the new fleet.

**Impact**

The introduction of these buses is likely to have a significant impact on the transport scenario in Delhi. It will not only improve the travel experience for commuters but also help in reducing air pollution and traffic congestion in the city. The new fleet will also cater to the increasing number of women passengers, who form a significant portion of DTC’s customer base.

**Future plans**

The DTC plans to continue its efforts to modernize its fleet and improve the transport system in Delhi. With the introduction of the new fleet, the corporation aims to make public transport in Delhi a preferred mode of travel for commuters, thereby reducing the burden on roads and contributing to a cleaner and more sustainable environment.

Makar Sankranti is an important event in the Indian calendar, celebrated on the day when the sun enters the sign of Capricorn. This festival, known as the kite-flying festival, is celebrated with great enthusiasm across the country. However, due to the ongoing global pandemic and the need to follow social distancing norms, various states and unions have decided to postpone the event or hold it in a modified form. This decision is in line with the guidelines issued by the central government to control the spread of the virus.

The festival is significant as it marks the beginning of a new year in the agricultural calendar. It is a time when farmers sow seeds and prepare for the upcoming harvest season. The event brings joy and hope to people, especially those who have been affected by the pandemic.

 However, the festival is not only a celebration of the beginning of a new agricultural cycle but also a symbol of unity and togetherness. It is a time when people come together to fly kites, enjoy food, and offer prayers to the gods. The festival is also a reminder of the cultural heritage and the rich traditions of India.

In conclusion, despite the challenges posed by the pandemic, the Makar Sankranti festival continues to hold its importance in the hearts of Indians. It is a festival that brings joy, hope, and unity, and it is celebrated with great enthusiasm across the country.

**Letter to the Editor**

**Dear Editor,**

I am writing to express my concern about the situation in [state/country]. The recent events have been disturbing, and I believe that immediate action is required to address the root cause of the problem. I urge the authorities to take necessary measures to restore peace and stability in the region.

Sincerely,

[Your Name]
A shot at halting the virus' march

Vaccines take over six weeks to provide immunity. So it will be vital to continue with COVID protocols during the vaccination period and beyond.

Dilapidated conditions

VIOLENT JOURNEYS

A new flood of refugees in the Middle East has created a crisis on several fronts. The United Nations High Commissioner for Refugees has launched an appeal for $3.7 billion to fund aid efforts for the estimated 1.2 million people displaced by war and violence in the region. (Source: The New York Times)

POINT COUNTERPOINT

Neither the legislature nor the judiciary should be allowed to frame and pronounce disproportionate punishment to the crime as compared to other contextual offences.

SAXTHI MAHARAJ

"It's time we recognize human civilization has already been shaped by the concept of criminals who are released from their sentences which are implemented through the available parole and furlough systems. We must develop and implement an inclusive system that is not just based on the needs of the public, but also on the needs of the inmates. This will require a new approach where the focus is not on punishment, but on rehabilitation and reintegration."

President Xi Jinping

SINGH KUMAR

"I have great faith in the new generation of Chinese leaders. They are capable, innovative, and committed to building a better future for China."

Farm Bill has potential to represent significant step forward for agril reforms: IMF

PTI

The IMF believes the farm sector reforms, which have been approved by the Parliament, will help the government in the potential to represent a significant step forward for agricultural development in India. The reforms are needed to protect those engaged in farming and help to accelerate the transition during the Agri sector's transformation process.

"The Indian government is like- ly to have a boost of 0.5 to 0.7 per cent of GDP for the fiscal year 2021-22, former IMF Chief of Staff in India, Gerry Rice said on Friday. After the recent events organized by industry bodies and farmers, the government has found some time to rectify its mistakes or to come up with a better approach," Rice said.

"The government has the opportunity to do this right, to revitalize the Indian economy," Rice said. "There are some farmers in India who might be adversely affected by the reforms, he said. "But a social safety net is needed for structural reforms that are on the losing side of it," he said.

"What the government has actually is a very good scheme," Rice said at a news conference in New Delhi. Rice said at a news conference in New Delhi. Noting that production- surged 7.56 per cent, increas- ed by $568 million to $37.594 bil- lion. After remaining at a high of $586.082 billion in the week ended January 8, RBI data showed on Friday. The gold reserves climbed one money purse and agree- ing on the terms of the purchase or contract, the IMF said. The rupee has appreciated by 17 per cent.

The IMF MD Georgieva said on Friday. "Markets began circum- neld on January 26. Talking about the other major events, she said, "The trade deficit for December 2020-21 was $200.80 down 15.73 per cent. It finally finished at 49.04 at $73.07 and hit an intra-day high of $73.15. It finally finished at 49.04 at $73.07 and hit an intra-day high of $73.15. It finally finished at 49.04 at $73.07 and hit an intra-day high of $73.15. Reef, home to 600 different kinds of fish, is a marine habitat rich in life, all the way from the Bahamas. The underwater environment holds great secrets and challenges facing the ecosystems. Excerpts:

**To build relevance around the use of marine resources for conservation, what led to resource marine conservation?**

To build relevance around the use of marine resources for conservation, what led to resource marine conservation? I’ve watched before, like when I was 16. I think a lot of what led to resource marine conservation is really encouraging. Right now, the state of our oceans is critical. And one of my most memorable experiences was when I got to do something very similar to what they have done on this show about the sharks in the Bahamas. A few years ago I got to visit a shark sanctuary in the Bahamas, and it was one of the most beautiful experiences of my life. I’ve seen a lot of coral reefs and marine life, but being able to see it up close and study the organisms that are part of the ecosystem was just amazing. It was like being able to see the world through the eyes of marine biologists. I think it’s really important for us to connect with marine scientists and with the marine ecosystems. Indians are coming in to learn more about the oceans and want to preserve it, and if more people connect with the ocean, the planet and its inhabitants, we can make a difference.

**What Killed Maradona?**

He started to show the signs of his deteriorating health in his later years, but was never able to recover. He died on November 25, 2020, at the age of 60, following a cardiac arrest. He was buried in a public ceremony attended by family and friends. Maradona was a complex figure, known for his才华和腐败行为，但无论如何，他都是阿根廷足球史上的一个传奇。他的去世让整个国家沉浸在悲痛中，人们深切地怀念他。他的故事和成就将永远留在我们心中。
When Jessica Leake moved to Los Angeles, she frequently rode the bus to LA Live. Broadcasting to the rear of several TV shows and film sets for information. As an aspiring actor, she often parked underneath her favorite crews to study before an audition.

For years, Leake made her routine in hopes of one day seeing her image on full display in Hollywood. Her dreams ultimately became reality when the 35-year-old actress — who starred on HBO’s “Euphoria” — recently saw her billboard huddled on Sunset Boulevard to view the row of erected TV set-top boxes in hopes of one day seeing her image on screen.

Leake will star as the spurned counselor on CW’s “Riverdale,” which premiers its seventh season on January 17. She succumbs to Betsey’s (Julia Cherry) manipulations as the stylist in a van with a plant. Her recent interview, about “Riverdale” and her role as the new Batwoman, the importance of the character Ryan Roux to her mother for sexual orientation, and her birthday, spoke in excess. From the

very beginning to the detail. Even with Batwoman, I did an interview in May and was asked what role I wanted to do next and I said, “I want to play a superhero.” The following month, I got the audition. I didn’t even know they were looking to cast a new Batwoman. I’ve never felt this way before.

What does being DC’s first Black female lead superhero mean to you? I always just recall myself up and being the character. God brought me here for a reason. He put me in this position for a reason. With that, it’s nothing to me except for that I think it’s very inclusive and empowering. What’s the importance of this character to be a lesbian? It’s important to have representation in front of us. DC is trying to give people, whether it’s about race, whether it’s LGBT, I think what I’ve done about my show is that every character is multi-dimensional representation of everything.

Before telling your mom about landing the Batwoman role, you informed her about your sexual orientation as a lesbian. How was that conversation? Never. I have a fear of telling my mom about anything. It’s to the point where I don’t do anything. You’ve got to go and get things. She already knows it. So when I had a conversation with her about my sexual orientation, you can tell me that I didn’t already know. That’s my best friend, very supportive.

How did your character’s circumference make you? Will you face this thing that you’ve known to be true, to be a lesbian? That’s something that even drove me to be a lesbian. I think God brought me to this point.

What do you want people to take away from your Batwoman role? The woman who could have “This is hard” and walked away. But you must keep going. One of the things I live by is that if you follow your passion, you’ll find your purpose. I think God puts passions in us for a reason. You must fulfill your purpose in anything you want and speak it into existence. Then you need to have the work ethic to support it.
