Govt offers to suspend farm laws for 18 months

Centre promises to form joint body to look into demands; unwilling to accept proposal, farmer leaders to revert after internal consultation; next talks on Jan 22

RAJESH KUMAR ■ NEW DELHI

In a major climb down, the Centre has proposed that the three controversial farm laws will be kept in abeyance for a minimum of 18 months and it will form a joint committee to look into other pending demands of the agitating farmers, including repeal and legal guarantee to minimum support price (MSP).

The Government proposed these initiatives in the 10th meeting between the Government and agitating farmers. But farmer leaders did not immediately accept the proposal and said they will revert after their internal consultation on Thursday.

The farmers wanted a complete withdrawal of the laws as a mere suspension of the laws for some period of time will not bring about any change, farmer leaders said on Wednesday after the 10th round of talks concluded. The next round of meetings will be held on January 22.

After the meeting which lasted for five hours, including two breaks, Union Agriculture Minister Narendra Singh Tomar said the Government has proposed to suspend the implementation of the three laws for 1.5 years, during which period a joint committee of representatives from the Government and farmers' sides

Union Minister for Agriculture and Farmers Welfare Narendra Singh Tomar, along with Minister for Commerce and Industry Piyush Goyal and Minister of State Som Prakash, addresses the media after the 10th round of meeting with farmer leaders on new farm laws at Vigyan Bhawan in New Delhi on Wednesday

can discuss all issues related to the farmers' agitation so that an appropriate solution can be arrived at and those protesting on Delhi borders in extremely cold weather return to their homes.

During the talks the farmers' unions said they will discuss the Government's proposal in detail and will come for dialogue on January 22.

The Minister said the talks were held in a cordial atmosphere despite some "naram-garam" moments (softening and hardening of the stand) and farmers remained adamant on their demand for the repeal of the laws. "I feel that talks are progressing in the right direction and there is a possibility of finding a resolution on January 22," Tomar said.

After the meeting, Bharatiya Kisan Union (Ugrahan) president Joginder Singh Ugrahan said, "The Government proposed to suspend the farm laws for one and a half years. We rejected the proposal but since it has come from the Government, we will meet tomorrow and deliberate over it."

SC irked by bias charge against panel members

PTI ■ NEW DELHI

The Supreme Court on Wednesday expressed strong displeasure over the aspersions cast by some farmers' unions on members of the court-appointed committee to resolve the impasse over new farm laws, saying no adjudicating authority has been given to the panel of experts who are "brilliant minds in the field of agriculture".

The top court said that it has serious reservations that committee members were called names and branded, which has "become a cultural

Court seeks Govt's response on demand for panel reconstitution

notice and sought response from Centre in two weeks on a separate plea of "Kisan Mahapanchayat", a farmers' body from Rajasthan, seeking removal of three remaining members of the apex-court appointed panel and the replacement of Bhupinder Singh Mann, who had recused himself from the panel.

Taking note of submissions of a lawyer that opinions on the panel members have been formed on the basis of

media reports about their pro-farm laws views, the bench said, "You people unnecessarily cast aspersions. Can the people expressing their views in some other context, be debarred from the committee?"

Farmer kills self at Tikri border

New Delhi: A farmer who allegedly consumed a poisonous substance at the Tikri border died during treatment at a hospital here on Wednesday, police said.

The deceased has been identified as Jai Bhagwan Rana (42), a resident of Pakasma village in Rohtak district of Haryana. He had consumed Sulphas tablets at the farmers' protest site at Tikri on Tuesday, they said. In a purported suicide note, Rana said he was a small farmer and many peasants have taken to the streets to protest against the farm laws.

Farmers reject police request to hold tractor march on KMP e-way

Parley again today as unions adamant on rally on Delhi's Outer Ring Road on R-Day

STAFF REPORTER ■ NEW DELHI

The Delhi Police has suggested farmers' unions to hold their proposed "Tractor rally" on January 26 on the Kundli-Manesar-Palwal Expressway, instead of Delhi's

busy Outer Ring Road. However, farmers did not agree to the suggestion. Sources said a meeting will be held again on Thursday with farmers regarding the routes for their tractor rally.

On Wednesday, senior police officials of the Delhi Police and its counterparts Haryana and Uttar Pradesh police officials met at Vigyan Bhawan to discuss the route and arrangements of the proposed rally on Republic Day. According to sources, SS

media reports about their pro-farm laws views, the bench said, "You people unnecessarily cast aspersions. Can the people expressing their views in some other context, be debarred from the committee?"

Current jobs no panacea for future Covid strains: Study

Some coronaviruses may evolve to escape recognition by immune system

PNS ■ NEW DELHI

Just when the newly-developed vaccines against Covid-19 had given some hopes to the world battling the pandemic, a new study pointed out that current vaccines may not work against future strain of the virus.

It also said that some coronaviruses — the family of viruses which includes the one causing Covid-19 — can evolve to escape recognition by the host immune system.

The study, published in the journal eLife, noted that if the novel coronavirus SARS-CoV-2 which causes Covid-19 evolves in the same way as other pathogens, current vaccines against the virus may become outdated, requiring new ones to be made to match future strains.

"Some coronaviruses are known to reinfect humans, but it is not clear to what extent, this is due to our immune memory fading or antigenic

drift," said first author of the study Kathryn Kistler from the Fred Hutchinson Cancer Research Center in the US.

Currently, at least 8 countries, including India, have begun or granted approval for vaccinating their people against the virus.

"We wanted to investigate whether there is any evidence of coronaviruses related to SARS-CoV-2 evolving to evade our immune responses," Kistler said.

When a person is infected by a virus, or vaccinated against it, cells part of their body's immune system produce antibodies that can recognise and bind to unique proteins on the virus' surface known as antigens.

In order to provide immunity against the virus, the immune system relies on being able to "remember" the antigens that relate to a specific virus, the scientists explained.

However, they said in some viruses, such as the seasonal flu, the antigens are likely to change and evolve in a process called antigenic drift, and the immune system may no longer respond to reinfection.

In the current study, the scientists looked at the four sea-

sonal human coronaviruses (HCoV) which are related to SARS-CoV-2 but typically cause milder symptoms, such as the common cold.

HCoVs, the scientists said, have been circulating in the human population for 20-60 years, meaning their antigens may have faced pressure to evolve against the human immune system.

Vaccination drive fails to gain momentum, Govt concerned

Only 7.86L healthcare staff vaccinated till 5th day of job drive

ARCHANA JYOTI ■ NEW DELHI

The anti-Covid-19 vaccination drive has failed to pick up the expected pace even after the fifth day when just 1,12,007 healthcare workers

received the jab on Wednesday.

A total 7.86 lakh healthcare workers have been vaccinated since January 16 when the anti-Covid job programme was launched with much fanfare in the country. The Government fears that with such a pace, it will take years to inoculate an estimated 3 crore healthcare and frontline workers that it plans to cover in the first phase.

"On Wednesday, 1,12,007 beneficiaries were vaccinated till 6 pm across 20 States and Union Territories," said Additional Secretary Manohar Agnani at a press conference here. He, however, said that the final report for the day will be compiled by late in the night.

Ten cases of adverse events following immunisation (AEFI) — four in Delhi, two in Karnataka, and one each in Uttarakhand, Chhattisgarh, Rajasthan and West Bengal — have required hospitalisation so far, Agnani said.

"Three people were hospitalised after vaccination in Uttarakhand, Chhattisgarh and Rajasthan. All of them have been discharged. Four beneficiaries in Delhi were hospitalised after vaccination. Among them, one is under observation at Rajiv Gandhi Hospital, while three have been discharged. In Karnataka, one was discharged and one is under observation and in West Bengal, one is under observation," said the official.

"There has been no case of serious/severe adverse event attributable to Covid-19 vaccination till date," the official added.

Ma appears, silent on vanishing act

His disappearance stirred speculation whether China's symbol of tech boom had been detained

AP ■ BEIJING

China's highest-profile entrepreneur, Jack Ma, appeared on Wednesday in an online video, ending a 2 1/2-month absence from public view that prompted speculation about the future of the e-commerce billionaire and his Alibaba Group.

In the 50-second video, Ma congratulated teachers supported by his foundation and made no mention of his disappearance or official efforts to tighten control over Alibaba and other internet companies over the past six months. The video appeared on Chinese business news and other websites.

The normally voluble Ma disappeared from public view after he irked regulators by criticising them in an October 24 speech at a Shanghai conference. Days later, regulators suspended the planned multi-

billion-dollar stock market debut of Ant Group, a financial platform that grew out of Alibaba's payments service, Alipay.

That prompted speculation online about whether the 56-year-old Ma, China's biggest global business celebrity and a symbol of its tech boom, had been detained or might face legal trouble. Alibaba and the government haven't responded to questions about him.

The Jack Ma Foundation said in a statement on Wednesday: "Jack Ma participated in the online ceremony of the annual Rural Teacher Initiative event on January 20." The foundation and Alibaba didn't respond to questions about Ma's status and when his next public event might be.

CAPSULE

SC REJECTS PETITIONS TO REVIEW AADHAAR ORDER

New Delhi: The Supreme Court has dismissed pleas seeking review of its 2018 verdict which had upheld the Aadhaar scheme as constitutionally valid but struck down some of its provisions, including its linking with bank accounts, mobile phones and school admissions.

TIGER TRIGGERS PANIC IN SHAHJAHANPUR VILLAGE

Shahjahanpur: The presence of a tiger and its cubs, seen in CCTV camera footage, in a village here triggered a panic among locals.

'TANDAV' SCENES CUT, BUT TROUBLE CONTINUES

Mumbai: At least two scenes were removed from the controversial web series "Tandav", which found itself in more trouble on Wednesday with an FIR against its makers, in Madhya Pradesh, and threats of another in Maharashtra. P5

'Democracy has prevailed', Biden lays out vision to heal US

To sign Paris Climate, reverse Muslim ban, among 15 executive orders on top agenda

PTI ■ WASHINGTON

Democracy has prevailed," newly inaugurated US President Joe Biden said on Wednesday in his maiden speech as he called on Americans "to defend the truth and defeat the lies".

Speaking shortly after taking oath as the 46th President of the United States, 78-year-old Biden also pledged to repair America's global alliances, which suffered during his predecessor Donald Trump's four-year regime.

"This is America's day... Democracy has prevailed," Biden said, apparently referring to Trump's efforts to deny him

victory in the November 3 election won by him.

"With unity we can do great things," he said referring to the challenges ahead of him from fighting the coronavirus to addressing racial injustice.

"Unity is the path forward," he asserted, laying out his vision to defeat the pandemic, build back better, and unify and heal the nation.

Hours after being sworn in as the 46th US president, Biden would sign 15 executive orders — including rejoining the Paris climate agreement, a 100-day mask mandate and reversing the Muslim ban — undoing some of the major policies of his predecessor Donald Trump.

Biden's first presidential actions would also include sending a comprehensive bill on immigration to the Congress, incoming White House officials said. The immigration bill proposes a eight-

year pathway to illegal immigrants and removing the per country cap for employment-based green cards, a move that would benefit hundreds and thousands of Indian IT professionals in the US, whose current wait period for legal permanent residency runs into several decades.

Biden asserted that he will be the president for all Americans, all those who voted for him and those who did not vote for him.

In his speech that lasted for 21 minutes, Biden praised Americans for rising to the challenge and reclaiming democracy. He mentioned the attempt to undo it at that exact location two weeks ago, and renewed his campaign goals of overcoming the pandemic, bringing racial justice and fighting climate change.

Biden also criticised those who have stoked anger and

division, and asked those who opposed him to "hear me out."

He called out those who lie for political power and profit. "There is truth, and there are lies," he added.

In a message to the international community, Biden said that he would rebuild the alliances frayed over the past four years. "We can make America once again the leading force of good in the world."

Trump skips Biden's inauguration ceremony

Washington: Donald Trump on Wednesday skipped his successor Joe Biden's inauguration and exited the White House for the last time as the US President to board a flight to his Mar-a-Lago estate in Florida, which will be his permanent home after he failed to win his re-election bid.

US Vice President Kamala Harris looks on as Joe Biden is sworn in as the 46th President of the United States by Chief Justice John Roberts as his wife Jill Biden holds the Bible during the 59th Presidential Inauguration at the US Capitol in Washington on Wednesday

India, Singapore sign deal for submarine rescue missions

New Delhi: India and Singapore signed a strategic partnership agreement on Monday, under which both the countries' navies will support and cooperate with each other for submarine rescue missions.

It is one of the major steps taken by the Indian government to strengthen ties with South East/Association of Southeast Asian Nations (ASEAN) countries.

The decision was taken during a defence ministerial dialogue in the national capital. Indian Defence Minister

Rajnath Singh co-chaired the fifth India-Singapore Defence Ministers' Dialogue along with Ng Eng Hen, Minister for Defence, Singapore.

During their virtual interaction, both ministers expressed satisfaction at the progress of the ongoing defence cooperation engagements between the two countries despite limitations imposed by the ongoing Covid-19 pandemic.

Defence and security engagements between India and Singapore have broadened significantly in scale and scope

across all three services of the armed forces as well as in the areas of defence technology and industry. Both countries have also found common ground on multilateral fora and engagements.

The ministers witnessed the signing of the Implementing Agreement on Submarine Rescue Support and Cooperation between the Indian Navy and the Singapore Navy.

They also conveyed their full support towards the early conclusion of agreements to facilitate the conduct of live fir-

ings and to establish reciprocal arrangements for the cross-attendance of military courses.

Singh conveyed his compliments on the effectiveness of pandemic mitigation measures implemented in Singapore and the contribution of Singapore's armed forces in restricting the spread of Covid-19.

He also highlighted the role of the Indian armed forces in combating Covid-19 and various missions undertaken to assist in repatriation of Indians stranded overseas.

Hen reciprocated the com-

pliments and exchanged views on the role of the armed forces in the whole of government's approach towards controlling the pandemic.

Both ministers also expressed satisfaction at the growing defence ties between the two countries. Both sides reviewed the progress of various bilateral defence cooperation initiatives being pursued over the last year and expressed commitment to further elevate the scale of engagement in areas of defence technology and industry.

"During the dialogue, both

the ministers discussed new areas of potential cooperation and articulated their vision in this direction," a joint statement of both the ministers stated.

They further welcomed the initiatives to expand bilateral defence cooperation, including the implementing agreement on Humanitarian Assistance and Disaster Relief (HADR) cooperation in August 2020 for the two armed forces to have closer operational collaboration in response to disasters and capacity-building activities of mutual interest.

The cyber agencies of both the armed forces have also stepped up engagements.

The ministers were pleased that the Indian Navy and the Republic of Singapore Navy successfully conducted the 27th edition of Singapore-India Maritime Exercise (SIMBEX) and also participated in the second edition of the Singapore-India-Thailand Maritime Exercise (SITMEX), both held in November 2020.

These exercises enhanced the interoperability among the navies and underscored the

shared responsibility of the countries to work together to keep the sea lines of communication open.

Singh reaffirmed ASEAN centrality in the regional security architecture and pledged India's support to all the endeavours of the ASEAN Defence Ministers' Meeting (ADMM).

Hen expressed support for India's upcoming co-chairmanship of the ADMM-Plus Experts' Working Group on high availability disaster recovery (HADR).

Start work on multimodal logistics hub: Dushyant

Chandigarh: Haryana Deputy Chief Minister Dushyant Chautala on Wednesday gave directions to start construction of northern India's largest integrated multimodal logistics hub, to be constructed in the state's Mahendragarh district.

Chautala, who also holds the portfolio of Industries and Commerce Department, took stock of the proposed construction work to be undertaken. With the opening of the logistics hub in Nangal Chaudhary village, for the first time, multinational companies

will come in southern Haryana, he said. This hub will bring employment and prove to be a milestone for the all-round development of the region, he added. The logistics hub will also get the benefit of Delhi-Mumbai Dedicated Rail Freight Corridor. The corridor will play an important role in bringing raw materials and taking finished goods to companies.

Goods to be brought or carried via containers between Delhi and Mumbai can be loaded or unloaded there, he said.

IANS

Evangelist Paul Dhinakaran comes under Income Tax scanner as 28 premises raided

KUMAR CHELLAPPAN ■ CHENNAI

A day after three archbishops of the Catholic Church called on Prime Minister Narendra Modi at New Delhi, sleuths from the Department of Income Tax knocked on the doors of the palatial residence of Paul Dhinakaran, head of the Jesus Calls ministry and India's leading evangelist at

Chennai and 27 other establishments owned by him across the State.

The premises that were raided include the Karunya Institute of Technology and Science at Coimbatore and Prayer Towers across the State.

According to sources in the department, the raids were following specific inputs about large scale evasion of tax and non-disclosure of funds

received from sources abroad for religious conversion. Paul Dhinakaran is the son of late DGS Dhinakaran, founder of the Jesus Calls Ministry which has specialized in massive religious conversion using state-of-the-art methods.

Prayer Intercessors manning the Prayer Towers across the globe will pray for customers who join various prayer schemes launched by the Jesus

Calls Ministry. All satellite television channels in regional languages air programmes featuring the miracles happening across the world for customers joining the prayer schemes paying hefty amount.

The Prime Minister had on Tuesday had a meeting with a team of cardinals of the Catholic Church that included Basileos Cleemis Catholics who once said that the

Christian minorities were not safe under the Modi regime.

The Church is reportedly upset over the growth of the ministry launched by the Dhinakaran which has poached thousands of its own believers. In the run up to the 2019 Lok Sabha election, Paul Dhinakaran created a sensation all over Tamil Nadu with his prayer meetings where he emphasized the need to vote

out the ruling regime.

"Present leaders who are known to everybody shall be quietened in 2019 by the Lord.

Young leaders with forward looking principles and plans for progress shall be placed in authority in the nation in 2019. Young leaders would come to the rulership and leadership of the nation," Paul had said in these prayer meetings.

Govt offers...

From Page 1

Another farmers leader Balbir Singh Rajewal said the Government appears to be on the "backfoot". "First the 32 unions will discuss, then the matter will be taken up with organisations from across India," he said.

Tomar, however, said the Government was keen to reach a final decision in today's meeting on the auspicious day of Gurupurab and therefore it started with greetings for the occasion. Asked whether the proposed committee will continue alongside the SC-appointed expert panel, Tomar said, "The Government is committed to the Supreme Court and will remain so. The committee appointed by the apex

court is doing its job, but the Government also has direct accountability towards farmers and the situation arising out of the protest. Therefore, we are taking forward this discussion while discharging our responsibility."

"It will be victory for Indian democracy the day farmers' agitation ends and they return to their homes," he said in reply to a question whether it would be a victory for the farmers or the Government.

This is for the first time the Government has offered to keep the farm laws suspended for 1.5 to 2 years. Union Ministers had earlier urged farmers to let the laws be implemented for a few years and then decide. Sources said the Ministers also proposed that the Government is ready to give an affidavit in the Supreme Court in this regard. The laws would remain suspended till the committee gives its report and urged farmer unions to suspend their agitation till that time, sources added.

The Government on Wednesday once again offered to amend the laws as the 10th round of meetings started. The leaders stuck to their demand for a complete repeal of the laws and alleged that the Centre was avoiding discussion on a legal guarantee for MSP. In the first two sessions of the day, there was no breakthrough as the discussion went on the beaten track of amending the laws. The Government has been insisting on first discussing the three laws and wants to take up the MSP (Minimum Support Price) matter later. The Government has also advised the farmer leaders that they can go to Supreme Court for repeal of laws and the Government won't repeat it.

During the meeting, farmers' unions raised the issue of NIA notices being served to some farmers, alleging it was being done just to harass those supporting the agitation and arrest of three farmers in Himachal Pradesh, to which the Government representatives said they will look into the matter.

Current jobs...

From Page 1

The researchers used computational methods to compare the genetic sequences of many different strains of HCoVs and saw how these viruses have evolved over the years.

They particularly assessed changes that might have occurred in proteins that could contain antigens, such as the viral spike proteins -- the projections on the surface of coronaviruses that are particularly exposed to our immune system.

From the analysis, the scientists found a high rate of evolution in the spike proteins of two of the four viruses, OC43 and 229E.

According to the researchers, nearly all of the beneficial mutations appeared in a specific region of the spike proteins called S1, which helps the virus enter human cells.

Based on the findings, the scientists said reinfection by these two viruses can occur as a result of antigenic drift as they evolve to escape recognition by the immune system.

They also estimated that beneficial mutations in the spike proteins of OC43 and 229E appear roughly once every two to three years -- about half to one-third of the rate seen in the flu virus strain, H3N2. "Due to the high complexity and diversity of HCoVs, it is not entirely clear if this means that other coronaviruses, such as SARS-CoV-2, will evolve in the same way," said senior author of the study Trevor Bedford from the Fred Hutchinson Cancer Research Center. "The current vaccines against Covid-19, while highly effective, may need to be reformulated to match new strains, making it vital to continually monitor the evolution of the virus' antigens," Bedford said.

Farmers reject...

From Page 1

The Outer Ring Road passes through several areas of Delhi such as Vikaspuri, Janakpuri, Uttam Nagar, Burari Peeragarhi and Pitampura.

Thousands of farmers, mostly from Punjab and Haryana, have been protesting at several Delhi border points against the laws for the last 56 days and unions representing them have begun holding tractor rallies at villages in Punjab to mobilise people for the demonstration on Republic Day. "During the meeting the farmers union discussed several points with police officers on tractor rally on January 26. The police officials wanted us to change our venue and route," said a farmer leader.

The meeting comes on a day the Centre withdrew its

plea seeking an injunction against the proposed tractor rally on January 26 after the Supreme Court said "it is a police matter".

The police have the "authority" to deal with the issue pertaining to the proposed tractor march in Delhi on Republic Day, said a Bench comprising Chief Justice S A Bobde and Justices A S Bopanna and V Ramasubramanian.

Leaders of all 40 farmer unions, which are taking part in the protest, also met three Union Ministers for the 10th round of talks this afternoon in an effort to end the impasse over the agri laws.

Farmer unions agitating against the laws have said their preparations are in full gear and authorities should facilitate the "peaceful march", instead of stopping it. The protests and

the proposed tractor rally are against the Farmers (Empowerment and Protection) Agreement of Price Assurance and Farm Services Act, 2020; the Farmers Produce Trade and Commerce (Promotion and Facilitation) Act, 2020; and the Essential Commodities (Amendment) Act 2020. Enacted in September last year, the three laws have been projected by the Centre as major reforms in the agriculture sector that will remove middlemen and allow farmers to sell their produce anywhere in the country. However, the protesting farmers have expressed their apprehension that the new laws would pave the way for eliminating the safety cushion of the MSP and do away with the "mandi" (wholesale market) system, leaving them at the mercy of big corporates.

DMK likely to go it alone in Pondy as Stalin loyalist deputed to snatch power

KUMAR CHELLAPPAN ■ CHENNAI

On the eve of the visit of Congress supremo Rahul Gandhi to western Tamil Nadu, chinks in the party's alliance with DMK surfaced as the Dravidian major entrusted S Jagathrakshakan MP to form a winnable alliance in the union territory of Puducherry which goes to the polls along with Tamil Nadu to elect a new legislative assembly.

Puducherry is administered as on today by a coalition Government headed by V Narayanasamy of the Congress with the support of the DMK. Jagathrakshakan, a diehard loyalist of the Karunanidhi family, told the executive committee members of the DMK's Puducherry, to get ready to fight in all the 30 Assembly constituencies in the Union Territory.

An alliance under the leadership of DMK will be formed here. Party president M K

Stalin will announce the course of action the party would follow in Puducherry. He wants you to ensure victory in all 30 constituencies," said Jagathrakshakan who heads an industrialist family with interests ranging from alcohol to power production. The DMK had contested the last assembly election in Puducherry as part of an alliance led by the Congress.

"The development of Puducherry has taken a beating for long. The mills have been shut and nothing has been done to revive the airport and port during the last ten years," Jagathrakshakan pointed out. KS Alagiri, president, TNCC was visibly upset over the development arising out of the DMK's stance on Puducherry. "We do not expect any major changes in the policy of DMK. But if need arises, we are always ready with an alternate course of action," said Alagiri while speaking to reporters at Tirupur.

Vaccination...

From Page 1

The Ministry also said that the deaths reported after vaccination have not been found to be related to vaccination. "The post-mortem of the Moradabad case confirms cardio-pulmonary disease, while the Bellary case autopsy suggests myocardial infarction. The Shivamoga case too is a suspected case of myocardial infarction. The Telangana case is under probe," the Ministry said.

With vaccine hesitancy and technical glitches hampering the pace as reported from various States, in a new letter sent to the States and Union Territories on Tuesday, Health Secretary Rajesh Bhushan said the Government has tweaked the app and added the "features of session scheduling, beneficiary allocation and allocation of additional beneficiaries at the session site".

Bhushan said, "The feature

of 'Allot Beneficiary' in an ongoing session has been added in the vaccinator module and is live." He added, "The feature has been added to facilitate maximum utilisation of staff deployed at the session sites so that they can cater to optimal number of beneficiaries per session."

Bhushan clarified that "such additional beneficiaries and were hampering innovation, according to Chinese media. He appealed to them to make it easier for entrepreneurs and young people to borrow.

That clashed with the ruling party's marathon campaign to reduce surging debt in China's financial system that prompted fears about a possible bank crisis and led rating agencies to cut Beijing's credit rating for government borrowing.

Complete ongoing road projects by 2023: CM

STAFF REPORTER ■ NEW DELHI

Delhi Chief Minister Arvind Kejriwal chaired a review meeting with the officials of the Public Works Department (PWD) on the status of the ongoing projects of redesigning and streetscaping of seven road stretches and 540 km of identified roads of Delhi along the lines of European cities.

In the meeting, Kejriwal directed the officials to remove all obstacles under the project to redesign the seven road stretches and 540 km of identified roads of Delhi.

The Chief Minister said that the process of designing the roads should be done in a swift manner and the project should be completed within the stipulated deadline i.e. by 2023.

"The PWD should ensure the removal of all obstacles to complete it in two years. The deadline for redesigning the entire 540 km stretch is early 2023. The agency entrusted with the task of construction will also be responsible for the maintenance of the roads for a period of 15 years. PWD Minister Satyendar Jain, Secretary PWD, PWD engineer-in-chief, and PWD officials were also present in the meeting.

The Delhi government is working to redesign the 100 feet wide and 540 km long roads of the national capital on the lines of European cities. Chief Minister Arvind Kejriwal has envisaged the project to develop the roads of the national capital, Delhi, similar to any developed country in the world.

Kejriwal approved the project of redesigning some of the roads falling under the jurisdiction of PWD in November 2019. Under the pilot project,

the Delhi government has decided to redesign 100 feet wide and 500 kilometers on the lines of European cities. The development of these roads will be on the lines of the Built-Operate-Transfer (BOT) model and the construction company will take care of the maintenance for 15 years.

The main objectives of the project will be removing bottlenecks from roads for a smooth flow of traffic and decongestion, encouraging the use of non-motorized vehicles, constructing disabled-friendly infrastructure, and ensuring efficient use of space alongside the road stretches, a senior government official said.

People face issues because there are bottleneck roads, which create the problem of traffic congestion at various locations in the city, he said, adding that the wide roads in many parts of Delhi differently turn into a narrow road, and then back into a wide road after a few km which creates a bottleneck situation and heavy traffic at particular locations.

"The priority will be removing those bottlenecks first, for a smooth flow of traffic and an organized lane system. The second goal would be to increase the efficiency of the existing space of the roads in the city so that spaces are best utilized as per their abilities. There will be measured and planned spaces for vehicles, non-motorized vehicles, footpaths, and side-lanes; he said.

The footpaths will be widely mapped to an average of 10 feet for the convenience of the pedestrians. These footpaths will be redesigned and reconstructed as per a standard height for the convenience of the physically handicapped, he added.

There will be separate spaces for the planting of trees on the sides of the footpaths along with separate parking spaces for the electric vehicles and auto-rickshaws alongside the footpaths. The slope of the roads, as well as the drains, will be redesigned to tackle the problem of waterlogging on the roads. Rainwater harvesting structures will be built inside the drainage systems to store rainwater as groundwater.

Adequate grasses and shrubs will be planted on all surfaces in order to ensure that there is no dust on the roads, he added.

Covid relief of ₹10K each to 407 workers

STAFF REPORTER ■ NEW DELHI

Delhi Building and Other Construction workers Welfare Board granted Covid relief disbursement of ₹10,000 each to 407 construction workers. The decision to grant the relief was taken after the directions of Deputy Chief Minister of Delhi Manish Sisodia.

Delhi Government was one of the first state governments to grant relief disbursement to all the 39,600 workers who were registered with the board in the month of March after lockdown was imposed due to the pandemic.

In compliance of orders of

High Court in Sunil Kumar Aledia V/s GNCTD Delhi, Construction Board decided to disburse the relief amount to those construction workers who were registered with Board as on 30th September, 2018, on the idea that if they renew their membership they are eligible for relief benefits.

Deputy Chief Minister Sisodia urged all construction workers who were members of the Board before 30th September, 2018 to renew their membership with the Construction Board so that they are able to receive disbursement benefits.

After taking charge of the

Labour Department in November, 2020, Sisodia had carried out various inspections in labour offices. On the basis of these inspections, a series of reforms have been carried out in the Labour Department. Some of these reforms initiated by the department such as registration of construction workers through doorstep delivery programme, reforming process of claim disbursement and granting of claims to construction workers within 72 hours of application submission.

"More than 2000 construction workers will also receive the relief amount in the coming weeks. These con-

struction workers belong to the poorest of the poor section of the society and were one of the hardest hit during Covid-19 pandemic. This relief dis-

bursement for construction workers comes as a much needed support during these difficult times," the department said in a statement.

Survey to assess success of distribution of dry ration

STAFF REPORTER ■ NEW DELHI

The Delhi Commission for Protection of Child Rights (DCPCR) conducted a 'Rapid Response Survey' (RRS) to assess the success of distribution of dry ration from anganwadis to the entitled beneficiaries i.e. pregnant women, lactating mothers and children below six years of age.

The survey was organised in collaboration with not-for-profit organisation 'Indus Action'. The survey was done to ensure that beneficiaries registered in anganwadis are receiving the Take Home Ration (THR) besides other benefits under the 'Integrated Child Development Services' (ICDS) and 'Pradhan Mantri Matru Vandana Yojana' (PMMVY) schemes, the department said in a statement.

With random sample of 1267 beneficiaries, the survey was conducted in 12 areas of Delhi, namely: Aman Vihar, Chandini Chowk, Rohini, Shakurpur, Okhla and Patparganj, Bhati Mines,

Babarpur, Nazafgarh, Burari, Shiv Vihar and Seemapuri.

DCPCR recorded the details of the beneficiaries contacted to understand the exact details and concerns of the people.

In case a beneficiary is having any issues with the THR distribution such as not receiving the ration or bad quality of the ration or any related to ICDS and PMMVY, they can use the helpline to report grievances.

The helpline number (011-41193903) is operational 24x7 and is being maintained by DCPCR itself and the complaints are escalated to the concerned officers.

Rajendra Pal Gautam, Minister for Social Welfare, SC & ST said, "The Department is determined to achieve the objective of eradicating malnutrition from Delhi and it is the collective responsibility of all the stakeholders, whose efforts are indispensable in realising the Delhi Government's goal of malnutrition-free Delhi."

3 criminals held in liquor contractor's murder case

PARVESH SHARMA ■ GURUGRAM

The district police claimed to have arrested three key accused persons, including a prime accused in connection with the murder case of a liquor contractor which took place on September 2, 2020.

The accused had allegedly gunned down the contractor over an old rivalry at Jatauli Mandi village in Pataudi on September 2.

The arrested accused have been identified as Abhishek, Satender alias Lala and Harish all are residents of Jatauli village in Pataudi.

A country-made pistol and 4 live-cartridges have been recovered from their possession. The Haryana police had announced a bounty of Rs 50,000 on Abhishek and Rs 5,000 each on Satender and Harish on their arrest.

In connection with the incident the police have arrested 13 criminals till now.

A country-made pistol and 4 live-cartridges have been recovered from their possession

A team of crime branch Farrukhnagar led by Inspector Indravir nabbed the trio criminals from Pataudi area after a tip-off.

During the interrogation, the accused revealed that Abhishek along with his fellow gang members had planned the murder Indrajeet on August 30.

"According to the plan, on September 2, Abhishek along with Ujjawal and Jeevan had shot dead Indrajeet while another youth identified as Vikram suffered bullet injuries. Abhishek and Indrajeet had an old rivalry.

In 2019 Abhishek had also attacked Indrajeet but he was saved. A case in this regard had

been filed at Pataudi police station," said Preet Pal Sangwan, ACP (crime) of the Gurugram police.

In this case Abhishek had been proclaimed offender (PO). A reward of Rs 50,000/- had also been declared by the Haryana Police on the arrest of accused Abhishek and Rs 5,000 each on Satender and Harish," Sangwan said.

On September 2, a case was filed by the deceased's brother Jaibhagwan. In his police complaint he alleged that Abhishek, Ujjawal, Harendra, Setender, Harish, Rohit, Tarachand, Raju, Sagar, Akhil, Krishan alias Gagan, Govind, Pawan and Shakti were behind the incident.

The complainant had told the police that Abhishek and his aides have criminal backgrounds.

An FIR had been registered against the culprits under relevant section of the Indian Penal Code (IPC) including the Arms Act at the Pataudi police station on September 3.

Vaccination drive: Gzb 2nd in Meerut division, 4th in State

ASHOK NIRWAN ■ GHAZIABAD

Following the Covid-19 vaccination drive in Uttar Pradesh (UP), the Ghaziabad ranked second in the Meerut division and fourth in the State. On the first day, it recorded 95 per cent vaccination to health workers and others while Baghpat, with 96 per cent vaccination, topped the list in the division.

In the first phase, 21,000 health workers are scheduled to take the vaccination in the first phase, and 27,000 doses of vaccine have been received for this already.

Speaking at a media workshop on "Strengthening Health Communication—Corona Appropriate Behaviour and Vaccination" organized by the District Health Society (Ghaziabad) with the support of Centre for Advocacy and Research (CFAR), Dr N K Gupta, Chief Medical Officer (CMO) said on the first day 400 health workers were scheduled to be vaccinated against

which 379 took the vaccination. The CMO said the role played by media in creating awareness during Coronavirus pandemic was highly appreciable and no less than other warriors such as health workers, frontline workers and police.

Dr Gupta said body will start developing immunity to fight Coronavirus 42 days after taking the jab. "Hence, we are repeating the importance of following protocols even after vaccination. These include wearing masks, maintaining social distance and frequent hand washing with soap and water. These precautions will also help in preventing other infectious diseases," he said.

The next rounds of vaccination in Ghaziabad will take place on January 22, 28 and 29 at 30 centres across the city, covering about 11,800 health workers.

In the second round as many as 42,000 frontline workers would be vaccinated. The CMO said that in the first

phase health workers, frontline workers, those above 50 years and those with co-morbidities but below 50 years were vaccinated.

Dr Singh expressed the hope that by then the vaccination would be available in the market also. He said the positivity rate now was less than 1

per cent and with vaccine available, India would be able to overcome the pandemic.

Dr Sunil Kumar Tyagi, ACOMO, asked the people, particularly journalists to verify all information available in the social media. He said all sorts of disinformation and misinformation was being floated in

the social media that sometimes resulted in vaccine hesitancy.

"We had limited resources and lots of doubts and fears initially. But now that we have the vaccine, and we are nearing to end the pandemic, it is the media that can play a role in removing vaccine hesitancy,"

said Dr Rakesh Gupta, Nodal Officer for COVID-19 vaccine.

Dr Gupta said the government was ready to face the challenges that were likely to be encountered by them in the near future and appealed to the media to follow the guidelines and talk to the experts before writing anything unconfirmed in their respective media outlets.

Dr Avinash Aggarwal, district president of Indian Medical Association (IMA) said the vaccine was safe and all IMA members are promoting vaccines.

Dr Aggarwal said the new mutant was highly infectious and affected the children but the mortality was not high. "The vaccines are effective on this variant as well. Fever, rashes, and stiffness were normal reactions to vaccines as were seen during the vaccination of children. It only meant that the vaccines were active in making antibodies in the individual," he added.

BJP workers protest, demand ₹13,000 cr dues from AAP Govt

STAFF REPORTER ■ NEW DELHI

Delhi Bharatiya Janata Party (BJP) leaders and workers staged a protest demanding Rs 13,000 crore "dues" from the Kejriwal Government for the party-ruled municipal corporations.

Delhi BJP vice president Virender Sachdeva claimed the campaign aims to make people aware about how the Kejriwal government is "depriving" the party-ruled MCDs of their "dues" of ₹13,000 crore because of political reasons.

The BJP leaders displayed banners and posters at flyovers and foot overbridges in a protest across the city. Delhi BJP media cell head Navin Kumar said they were displaying large banners and posters demanding that the city government pay the "dues".

The AAP leadership has

been attacking the BJP alleging "corruption and mismanagement" in the three municipal corporations ruled by the party.

Recently, Deputy Chief Minister Manish Sisodia announced that the Delhi government will provide Rs 938 crore to the municipal corporations to pay salaries to its employees.

"Doctors, nurses, sanitation workers and other employees of municipal corporations have not been paid salaries due to the funds held back by the Kejriwal government. No money has been released so far despite Sisodia's announcement," said party spokesperson Virender Babbar.

The BJP which has ruled the municipal corporations for nearly 15 years and the AAP have been indulging in a blame game with the civic body polls approaching in the early 2022.

AAP organises 74 Mohalla Sabhas

STAFF REPORTER ■ NEW DELHI

The Aam Aadmi Party on Wednesday organised 74 Mohalla Sabhas in 44 Assembly constituencies of Delhi under the party's campaign to "expose" the corruption of the BJP-ruled municipal Corporation.

The party in a statement said that around 7500 people including AAP MLAs, MCD councillors, organization members, volunteers, and local people participated in the sabhas.

"The AAP has been successful

in exposing the real and corrupt face of the BJP in front of the people of Delhi. We aim to reach out to every household and every person in Delhi to make them aware of the corruption done by the BJP in the MCD. They can show the real face of the BJP," he said.

"There has been a huge crowd of people who want to know about BJP's corruption in the mohalla sabhas organized by the party. Today, more than 7500 local people participated in the sabhas held at about 74 locations in 45 assembly constituencies," it said.

BJP trying to 'loot' MCDs before going to election, says AAP

STAFF REPORTER ■ NEW DELHI

Senior Aam Aadmi Party (AAP) leader and chief spokesperson Saurabh Bhardwaj on Wednesday said that the BJP is trying to completely "loot" the municipal corporations before going to the upcoming election as it has announced a hike in councillor fund from ₹50 lakhs to one Crores;

Bhardwaj said that the AAP wants to know how can the BJP ruled Corporations increase the councillor fund from ₹50 lakhs to

one Crores at a time when they claim that they do not have money to pay the salaries of their own employees.

"The Delhi High Court has also observed that the municipal corporations of Delhi should look into curtailing the expenses and the benefits given to the senior officials of the corporations. There are various posts in the BJP ruled municipal corporation like the deputy mayor or the chairman of the standing counsel who gets a lot of benefits like transportation expens-

es, cars and others. So at one side, the corporation claims that they do not have money to pay the salaries of their employees and on the other side yesterday they have increased the funds for the councillors. Earlier they increased this fund from Rs.25 lakhs to Rs.50 lakhs and now it has become Rs.1 crores," he further added.

"The audit report has noted very carefully that there are a number of examples of projects where it is doubtful the way the BJP ruled MCD has executed those projects.

The audit report has also noted that in the name of execution of these doubtful projects the BJP ruled MCD has spent lakhs and lakhs of money," he said.

All these examples are from engineering department where the report has observed that in the similar projects of Rs 55 lakh, Rs 39 lakh, Rs 25 lakh, Rs 25.85 lakh, Ra 16.93 lakh, Ra 16 lakh and Rs 13.21 lakh have been done.

The audit report has also observed that in most of the cases the BJP ruled MCD has bought the

material which is used to build the upper layer of the road before the material which is used to build the base of the roads, he added.

In reality, this is impossible because nobody can build a road like this.

First, the base of the road should be built and then the upper layer should come but according to the report in most of the cases the BJP ruled municipal corporation of Delhi has done absolutely opposite of this. It clearly shows that these projects have never taken place?"

Kavi Sammelan expression of unheard voices from U'khand: Sisodia

STAFF REPORTER ■ NEW DELHI

Deputy Chief Minister Manish Sisodia on Wednesday inaugurated the first ever National Kavi Sammelan (Poet's conference), organised by Garhwali, Kumaoni and Jaunsari Academy, under the Art, Culture and Languages department of Government.

Sisodia praised the poets and artists of Uttarakhand and said that they are the flag-bearers of the rich culture and language of 'Dev Bhoomi'.

Delhi government recognises the efforts of artists from Uttarakhand and hence it has established the Garhwali, Kumaoni and Jaunsari Academy."

He said, "Delhi government is utilising the electricity produced in the state of Uttarakhand to provide 24 hours electricity in Delhi. It's unfortunate that people from Uttarakhand are not getting the electricity which they deserve." He emphasised, "Collective voices of the poets from Uttarakhand were instrumental in the formation of the state. Hence, it's important to high-

light the voices from Uttarakhand through this Sammelan in order to bring forth the development issues in the state. It's important to express the voices of women

Sisodia praised the poets and artists of Uttarakhand and said they are the flag-bearers of the rich culture and language of 'Dev Bhoomi'

Deputy Chief Minister said that by encouraging all regional languages from various states in the country, Delhi Government has sent out a message of unity in diversity.

This is a major contribution of Delhi towards strengthening the Republic of India. He said that we are hopeful that the next Kavi Sammelan will be organised at the iconic Red Fort and the poets of 'Dev Bhoomi' will express the voices from Uttarakhand in front of entire nation.

On the account of Republic Day, this event was organized at Hindi Bhavan under the chairpersonship of M.S. Rawat - Deputy Chairperson of the Garhwali, Kumaoni and Jaunsari Academy, Dr Jeetram Bhat, Secretary of the Academy moderated the event and

thanked Delhi government for starting the Garhwali, Kumaoni and Jaunsari Academy.

The Sammelan witnessed the works of Kumaoni poets - Pooran Chandra Kandpal, Ramesh Hitaishi and Dr. Damayanti Sharma. For Garhwali, Madan Duklan, Prithvi Singh Kedarkhandi and Dinesh Dhyani recited their poems. Jaunsari language was represented by the poems of Khazandutt Sharma. On this occasion, Delhi MLA Dinesh Mohaniya, MCD Councillor Gita Rawat were also present along with the other dignitaries.

PM releases ₹2,691 cr to 6.1L to help build houses

PNS ■ NEW DELHI

Stressing that ownership rights were being given to women, Prime Minister Narendra Modi on Wednesday released a financial assistance of around ₹2,691 crore to 6.1 lakh beneficiaries in Uttar Pradesh under the Pradhan Mantri Awas Yojana-Gramin (PMAY-G).

"Owning a house gives confidence," the Prime Minister said and pointed out that under the scheme two crore houses have been built in the rural areas.

Referring to the progress of housing scheme in UP, he said "this shows UP Government is active" and under BJP Government "UP ko nayi pehchaan aur nayi udaan mili hai".

Assembly polls are due in UP, electorally the most important State in the country, next year with the political scene already heating up. BJP President JP Nadda is on a two-day tour of the state from Thursday.

Modi said expressways in the state would be speeded up and completed soon.

The Modi-Government has promised 'housing for all' by 2022 under PMAY scheme.

Union Rural Development Minister Narendra Tomar and

Uttar Pradesh Chief Minister Adityanath were also present at the launch, which was held via video conference.

The assistance would include the release of a first installment to 5.30 lakh beneficiaries, and a second installment to 80,000 beneficiaries who have already availed the first installment under PMAY-G.

"In the past few years, around 2 crore houses have been built in rural areas alone," Modi said during the launch.

"Under Pradhan Mantri Awas Yojana, keys of 1.25 crore houses have been handed over to people. Around ₹1.50 lakh crore has been given by the Central Government alone, to build these houses," he said.

The Prime Minister compared these figures with that of the Opposition's, and said that people of Uttar Pradesh will never forgive the previous Governments for their wrong policies.

"I am talking about Uttarakhand Pradesh especially, the poor didn't believe that the Government can help them

Leakage of secret military operations treason: Congress

PNS ■ NEW DELHI

The Congress on Wednesday upped the ante on Centre and journalist Arnab Goswami for his explosive WhatsApp chats saying the leakage of secret military operations was treason and those who were party to the act deserved no mercy and must be punished.

Led by former Defence Minister AK Antony, the Congress demanded an enquiry to determine the source of the leak and whether the leak compromised the Balakot operations. Antony was joined by former home minister Sushil Kumar Shinde, former external affairs minister Salman Khurshid and Leader of Opposition in Rajya Sabha Ghulam Nabi Azad.

The attack on Centre and Goswami comes a day after former party chief Rahul Gandhi termed the leakage a criminal act and action to be taken with utmost importance. Rahul's sibling and party general secretary Priyanka Gandhi too took to social media to express her disappointment the way Government is handling the current defence related leakage and said how can the Modi government remain a mute spectator in this criminal act when lives of nation's brave soldiers were lost in the Pulwama attack.

Expressing his shock on Goswami's remarks to ex-BARC chief Partho Dasgupta three days before the IAF strike in Balakot that "something big is going to happen", Antony said

leaking official secret is a crime but leaking information on military operations was an anti national act and those involved must be punished.

Antony also said only four to five civilians in the top echelons of the government had the Balakot strike information and "someone from among them has leaked it."

"Having worked with the military people I am sure no one from the military could ever leak such information," the former defence minister said. "One of the top five civilians in the government is suspect. It has to be enquired immediately on war footing as to who that person is. Whoever is responsible for the leakage must be punished for treason and this journalist who was in possession of sensitive military operations he has to be punished. The Government must order a proper enquiry. Whoever is responsible, whoever is party to the leakage of this sensitive military operation deserves no mercy. He has to be punished," said Antony.

Shinde said that "leaking of official secret is a criminal act but leaking of official secret about military operation, a national security matter, that too sensitive military operations especially a military strike is treason, anti national."

It is not just criminal action it is anti national action, said Antony. He said only three or four or five ministers and officials could have known of the operation.

ED arrests founder and chairman of Mantena Constructions in PMLA case

PNS ■ NEW DELHI

The Enforcement Directorate (ED) on Wednesday said it has arrested Srinivas Raju Mantena, founder and chairman of Mantena Constructions and his associate Aditya Tripathi of Arni Infra who is a resident of Bhopal under Prevention of Money Laundering Act (PMLA).

They are accused in the money laundering investigation into the e-Tender Scam in Madhya Pradesh where a large number of infrastructure companies, mostly based in Hyderabad, have conspired with few senior Government officials and IT service providers of MPSEDC to tamper the eTenders and to illegally obtain large value contracts.

The accused were produced before the PMLA Court, Bhopal and have been remanded to judicial custody till February 3, officials said.

The ED had initiated investigation based on the EOW, Bhopal FIR No 12/2019 dated April 10, 2019, where in Max Mantena Micro JV Hyderabad and GVPR Engineers Ltd., Hyderabad are named as the main beneficiaries of this scam.

As per the FIR, the MP e-Procurement Portal is managed by MPSEDC and Antares Systems Limited, Bangalore

and Tata Consultancy Services (TCS). They are given a contract for 5 years for the maintenance and operation of the said portal.

EOW, Bhopal has already filed a preliminary chargesheet and it has been established from the IP access logs that Osmo IT Solutions Pvt Limited of Vinay Choudhary and Varun Chaturvedi had misused the login credentials provided by Antares and had illegally accessed and tampered the e-tenders and changed the bid values of certain companies to make them L1, the ED said in a statement.

"In return they had taken illegal gratification from the bidding companies. Max Mantena JV Hyderabad had illegally won the tender No. 10030 worth ₹1,030 crore in this fashion. There are largenumber of other tenders which are also under scrutiny and are suspected to have

been won by using the same modus operandi," it said.

During the investigation under PMLA, search operations were conducted in Hyderabad, Bhopal and Bangalore at more than 20 locations at the residence and office premises connected with Mantena Constructions, Max Infra, GVPR Engineers, Arni Infra, Osmo IT Solutions and Antares and large amount of incriminating documents and digital devices were seized.

Mantena group has seen a big spurt in successful bids in the last few years either directly or in association with other Hyderabad-based companies, it said.

Investigation conducted so far revealed that Srinivas Raju Mantena, has played a crucial role in the entire scam. With the assistance of his friend Aditya Tripathi he set up a front entity Arni Infra in Bhopal and used it to route funds for hawala activities.

Centre stresses upon need for people-friendly, safe transport

PNS ■ NEW DELHI

The Centre on Wednesday stressed upon the need for making the public transport people friendly, safe, affordable, accessible, cost effective and pollution free. Union Minister for Road Transport and Highways Nitin Gadkari said there is a need of implementing the Intelligent Transport System (ITS) in the operation as well as the National Common Mobility Card in order to make its operation fully digitised and efficient.

Addressing the 40th Meeting of Transport Development Council last evening, Gadkari said that States must increasingly adopt the alternative fuels in the operation of busses and stressed the use of CNG, LNG, Electric vehicles and ethanol blended fuels.

Transport Ministers from several states including Assam, Aandhra Pradesh, Bihar, Delhi, Haryana, Maharashtra, Rajasthan, Goa, Madhya

Pradesh and Mizoram participated in the meeting, along with their Transport Secretaries and Transport Commissioners.

Gadkari assured the states of his full support and cooperation in their endeavours to make public transport modern and efficient gave the example of the model of Transport for London. He said that state must avail all the schemes of central government such as FAME-II to gradually shift to electric vehicles as their cost would come down drastically in near future.

The Union Transport minister also stressed upon the need of innovation by the states and the need for improving the quality of busses and the public transport so that peoples are attracted to avail their services by shunning the personal vehicles.

Union Minister of State for RTH Gen (Retd) Dr V K Singh stressed upon the adoption of alternative fuels such as CNG, LNG and ethanol etc. which will not only reduce the vehicular pollution but would also save the precious forex.

Bird flu cases on rise in six of 12 afflicted States

PNS ■ NEW DELHI

Avian influenza continues to spread among poultry in six of the 12 afflicted States, where culling and containment measures are on. According to the Ministry of Animal Husbandry, avian influenza for poultry birds has been confirmed in six States - Kerala, Haryana, Madhya Pradesh, Maharashtra, Chhattisgarh and Punjab. The disease has been confirmed in crow, migratory and wild birds in 10 states which include Madhya Pradesh, Maharashtra, Chhattisgarh, Himachal Pradesh, Gujarat, Uttar Pradesh, Uttarakhand, Delhi, Rajasthan and Punjab.

In a statement, the ministry said that samples taken from two poultry farms and a dead crow in Punjab's Mohali district, which reported the state's first bird flu case, tested positive for the influenza on Wednesday. Reports of the

samples from the farms and the crow were received on Wednesday, while for the first case, the report of samples taken from a dead bar-headed goose was received on Tuesday. Samples were taken from two poultry farms at Behra village in Mohali district's Dera Bassi and were sent to NIHSAD for confirmation on January 15 after the NRDDL stated them as suspected to be bird flu positive.

According to the ministry, the disease has been confirmed in Crow in SAS Nagar and Pinjore and Panchkula in Punjab.

"Control and Containment Operations are going on in the affected epicentres of Maharashtra,

Madhya Pradesh, Chhattisgarh and Haryana. The central team formed for monitoring the situation in the affected areas of the country has visited Satara, Latur, Parbhani and Beed districts of Maharashtra to monitor the epicenters of AI outbreak and conducting epidemiological studies," the ministry said.

Avian flu has significant economic impact. When chicken prices crash, they tend to bring down maize prices too, hurting farm incomes. Maize is a major feed used for poultry.

The poultry industry consumes about 14 million tonne of corn annually.

All the States are reporting to the Department on daily basis regarding the control measures adopted by the States/UTs based on the Revised Action Plan for Preparedness, Control and Containment of Avian Influenza 2021.

Bronze statue of seated Mahatma at Parliament complex relocated

PNS ■ NEW DELHI

The iconic bronze statue of a seated Mahatma Gandhi at the Parliament complex was on Wednesday relocated from its place facing the main gate to a space near Gate number 3, to make space for the ongoing construction of the new Parliament building.

The 16 feet high bronze statue of a seated Babu has been a constant and most preferable site of protests by opposition leaders to protest against the Government's policies. Sculpted by Ram Sutar, the statue was unveiled on Gandhi's birth anniversary in 1993 by then President Shanker Dayal Sharma.

Initial plan was to do so during the one-month gap between the first and the second part of Budget Session that begins on Jan 29

The space in front of the statue has been a preferred location for the Opposition lawmakers to protest against the government policies and proposed laws. During the last

The space in front of the statue has been a preferred location for the Opposition lawmakers to protest against the Government policies

monsoon session, some Opposition lawmakers camped overnight in front of the statue to protest against the hurried passage of the farm bills.

Officials added the Gandhi statue is eventually planned to be installed just outside the current Parliament building, where that of late former Union home minister Govind Ballabh Pant currently stands. Pant's statue is planned to be shifted to New Delhi Pant Marg named after him.

Maratha quota: SC to decide on Feb 5 schedule of hearing pleas

PTI ■ NEW DELHI

The Supreme Court on Wednesday said it would decide on February 5 the schedule of hearing on the pleas pertaining to the 2018 Maharashtra law granting reservation to Marathas in education and jobs after the state government said a case of this nature be heard once physical hearing commences.

The apex court is presently hearing matters through video-conferencing since March last year amid the COVID-19 pandemic. A five-judge constitution bench headed by Justice Ashok Bhushan was told by senior advocate Mukul Rohatgi, who was appearing for Maharashtra, that the state is requesting for an adjournment and the matter be heard in March.

SEARCH FOR MISSING/KIDNAPPED

General public is hereby informed that one girl namely Anita D/o Rambir R/o H.No. 60 Gali No. 3 Sainik Vihar, Mohan Garden, Ranhola, Delhi has been missing/kidnapped since 13.11.2020 from the area of P.S. Ranhola, Delhi. In this regard, a case FIR No. 949/20 u/s 363 IPC Dated 13.11.2020 has been registered at P.S. Ranhola, Delhi. The description of the missing girl are as under.
Age: 17 Years, Complexion: Fair, Height: 5', Face: Long, ID: A mole on lips, Wearing: Green colour suit-salwar, cream colour sweater and red colour sleepers in feet. Sincere efforts have been made by the local police to trace out her but no clue has come to light so far. If anyone has any information about the missing/kidnapped girl then please inform P.S. Ranhola, Delhi at following Tel No./ e-mail: cic@cbi.gov.in and Website: http://cbi.nic.in, providing clue about the missing girl.
Ph: 011-24368638, 24368641 Fax No. 011-24368639 Sd/- SHO PS: Ranhola, Delhi Ph.: 011-28363001 DP/541/OD/2020

Army urges veterans not to put on uniform, medals during political rallies

PNS ■ NEW DELHI

In the backdrop of some veterans attending the ongoing farmers agitation in Army uniform, the Army has issued an advisory asking them not put on uniform or medals in political rallies. The advisory also said donning the uniform or medals in against the rules.

The advisory was issued recently to the Kendriya Sainik Board wherein various sections of the Army Act were enumerated to urge the veterans to refrain from attending the political functions in uniform. The caution was sent out after some veterans attended the agitation at the Singhu and Tikri borders of the national capital, sources said here on Wednesday.

Meanwhile, the local commanders were also sensitising the serving troops especially from Punjab about the ongoing agitation and instructed that they cannot be part of any protest while in service.

This step was taken after some video clips surfaced showing some serving jawans raising banners and protesting in the farmers' rallies some parts of north India. Officials also said the erring soldiers will be dealt with as per rules. These incidents took place when the soldiers had gone

The Army said there needs to be awareness among the fraternity of ex-servicemen with regard to provisions of wearing of uniforms by non-effective personnel

home on leave. As regards veterans, they said the Army uniform can only be worn during official functions and not while attending a public gathering or protests.

The Army said there needs to be awareness among the fraternity of ex-servicemen with regard to provisions of wearing of uniforms by non-effective personnel.

New petrol pumps to be at least 50 m away from water bodies, says CPCB

ARCHANA JYOTI ■ NEW DELHI

Almost a year after directing Oil companies to ensure fuel stations are at least 50 metres away from schools, hospitals and residential areas, the Central Pollution Control Board (CPCB) has now asked them to maintain similar distance from water bodies too. The move is aimed at protecting the water bodies from getting any possible contamination due to seepage of diesel or petrol, if any.

The draft guidelines come in the backdrop of opposition by residents and environmentalists in Haryana over the Government's plan to allot 15,000 square metres of forest land in Chakkarpur village to Indian Oil Corporation to set up a fuel station, which they alleged would contaminate a nearby water channel in the fragile area.

The CPCB draft guidelines said that all the surface water bodies irrespective of utility shall be protected from any possible contamination. "These include lakes, ponds, streams, rivers, wetland, sea and any other. Retail outlets shall not be located within a distance of 50 metres from the nearest point of water bodies. In case of streams and rivers, the distance shall be considered from flood plain."

As a preventive measure, retail outlets coming within 50 meter to 100 metre from the nearest point of surface water

body shall have secondary containment by way of double walled tanks or concrete protection walls so as to minimise groundwater soil contamination, said the guidelines which have been posted on the CPCB website for comments and suggestions by February 2, 2021.

It further said that ground water quality monitoring of retail outlets within 100 meter from the nearest point of surface water bodies shall be conducted by the OMCs once in every quarter.

Last year, an expert committee comprising members from IIT Kanpur, National Environmental Engineering Research Institute (NEERI), The Energy and Resources Institute (TERI), Ministry of Petroleum and Natural Gas and CPCB had framed the guidelines for setting up of new petrol pumps in the country. It had prohibited setting up petrol pumps close to the schools, hospitals and resi-

dences citing health hazards. The expert committee was set up on the directions of the NGT which is seized of a plea seeking a cap on the number of petrol pumps so as to avoid their adverse effects on the environment.

As per the guidelines, "Retail outlets shall not be located within a radial distance of 50 meters from schools, hospitals (10 beds and above) and residential areas designated as per local laws. In case of constraints in providing 50 meters distance, the retail outlet shall implement additional safety measures as prescribed by PESO (Petroleum and Explosives Safety Organisation).

"In no case, the distance between new retail outlets from schools, hospitals and residential areas shall be less than 30 meters. No high tension line shall pass over the retail outlet," the CPCB guidelines said.

'Goli maro...' slogan raised at Suvendu's rally

SAUGAR SENGUPTA ■
CHANDANNAGAR/HOOGHLY

The frightening "Goli maro..." (shoot them) has traveled out of Delhi and continues to ride the poll bound air of Bengal with both the Trinamool Congress and the BJP mimicking the hate rhetoric coined by a Union Minister an year ago.

A Suvendu Adhikari-led saffron rally in Hooghly district picked up on Wednesday from where the TMC workers left in South Kolkata a day before calling upon the listeners to shoot down the traitors.

Even as the BJP supporters that walked the triumphant road show that ended at Circus Ground at Chandannagar shouted "Desh ke Gaddaron ko Goli Maaro Salon ko (shoot the traitors)" Suresh Sahoo the local BJP leader who led the

A SUVENDU ADHIKARI-LED SAFFRON RALLY IN HOOGHLY DISTRICT PICKED UP ON WEDNESDAY FROM WHERE THE TMC WORKERS LEFT IN SOUTH KOLKATA A DAY BEFORE CALLING UPON THE LISTENERS TO SHOOT DOWN THE TRAITORS

slogan said "there is nothing wrong in the slogan as it was intended at persuading the army to shoot down the people who conspires against our motherland."

His superior leader and State BJP spokesperson Samik Bhattacharya however politely dissociated the party from such slogans saying "the BJP never supports such things," only to quickly tell between the "Goli Maro..." of TMC and BJP.

"Though the BJP does not promote such kind of slogans which might have been given in the heat of the moment ...

but this slogan cannot be equated with the one raised by the TMC leaders as our supporters were shouting the slogan condemning the people who are involved in anti-national activities whereas these slogan was aimed at the people who have left the Trinamool to join the BJP ... this indicates provocation of violence."

On Tuesday another rally of the Bengal ruling party led by senior leaders like Arup Biswas and Sobhandeb Chattopadhyay both Ministers shouted "Bangal ke gaddaron ko Goli maro salon ko (shoot

the traitors of Bengal)." Much like Bhattacharya his TMC counterpart too distanced his party from such "avoidable coinages" but added "the BJP is doing the same thing today after teaching the TMC the moral conduct yesterday," asking "who are they asking the so-called army to shoot ... aren't they asking the Indian citizens to be shot down ... is this the kind of political change they are planning to bring in Bengal?"

Meanwhile, Adhikari who led his fourth consecutive "house-full" road show on Wednesday once again challenged Chief Minister Mamata Banerjee to compete from Nandigram as she earlier promised saying "let me tell you madam (Banerjee)! I personally undertake to ensure your defeat at Nandigram irrespective of whosever con-

tests from BJP against you."

Hailing Prime Minister Narendra Modi as the "strongest Prime Minister with a definite vision ... who has taken bold steps which many Governments would not take for years," Adhikari said "on the other hand TMC has been reduced to a private limited company with the Chief Minister as its Chairperson, her nephew (Abhishek Banerjee) as its Managing Director and an outsourced company (read the one of Prashant Kishore) as its electoral advisor."

Saying that he could not take decisions despite holding three ministerial posts in the Trinamool Government the former Bengal minister said that "in that party there is only one post and rest are lamp posts and I too was one of them."

Attacking the junior

Banerjee he said "the Tolabaz (extortionist) nephew has to explain why he appointed Vinay Mishra as the vice president of TMC Yuva (party youth wing)" adding how Mishra — currently at large — is being frantically looked for by the CBI in cow, coal and sand smuggling cases.

"There is one step for the CBI before it reaches the door steps of the 'nephew' ... it has only to arrest Vinay Mishra," he said.

Attacking the Chief Minister for mimicking the Central schemes and implementing them in Bengal by changing their names, Adhikari said "this Government talks of providing jobs whereas it has gobbled up three Departments ending more than 5.5 lakh jobs... in lieu of which she has created 25,000 contractual workers only."

Another TMC MLA joins BJP

PNS ■ KOLKATA

There was more erosion in the Trinamool banks with party's MLA from Shantipur, Arindam Bhattacharya joining the saffron party in Delhi.

Bhattacharya who joined the BJP in presence of party's Bengal observer Kailash Vijayargiya said the "Mamata Banerjee Government has done nothing for Bengal in the past several years of its rule... There is no industrialization, no future vision ... we could not work for the party or the people as eligible people were not given responsibilities and only corrupt and sidekicks were decorated with higher posts."

Bhattacharya had won the

Shantipur seat in Nadia district as a Congress candidate with Left support but changed over to the TMC though he would not resign after that. On Wednesday he joined the BJP.

On whether more people will join the saffron outfit in the coming days, Vijayargiya said "indeed there are many of them who are coming to us ... and will join the party when our Home Minister Amit Shah will visit Bengal on January 30 and 31."

Incidentally at least two ministers and three MLAs of the ruling party had been speaking incoherently, sources said. Last week Vijayavargiya claimed that over 40 more were ready to jump ship.

Trouble continues for 'Tandav' with more FIRs

TN RAGHUNATHA ■ MUMBAI

Amid protests by the Opposition BJP, the Mumbai Police registered an FIR against the team members of web serial "Tandav", including Bollywood actor Saif Ali Khan, serial director Ali Abbas Zafar and others.

A day after the BJP's spokesperson Ram Kadam and his supporters staged a protest march to the Ghatkopar police station in north-east Mumbai and lodged a complaint, the police lodged an FIR against the team members of "Tandav" which is currently being shown on the OTT platform Amazon Prime Video.

The "Tandav" members have been booked under sections 153-A (promoting enmi-

ty between different groups under religion, race et) 295-A (Deliberate and mischievous acts intended to outrage religious feelings) and 505 (2) (statements creating or promoting enmity, hatred or ill-feelings between classes) of IPC.

Apart from Saif and director Ali Zafar, the others who have been named are the web serial's producer Himanshu Mehra, writer Gaurav Solanki, Amazon's top officials like Aparna Purohit and Amit Agarwal.

The registration of an FIR by the Ghatkopar police coincided with the arrival of a Uttar Pradesh Police team to investigate the complaints against the web series.

Maharashtra Home Minister Anil Deshmukh

assured the visiting team that action would be taken in the "Tandav" matter.

Earlier on Sunday, the Ministry of Information & Broadcasting had sought an explanation from the Amazon Prime Video on the controversial portions in the web serial.

On its part, the "Tandav" team tendered an apology saying: "The web series 'Tandav' is a work of fiction and any resemblance to acts and persons and events is purely coincidental. The cast and crew did not have any intention to offend the sentiments of any individual, caste, community, race, religion or religious beliefs or insult or outrage any institution, political party or person, living or dead."

Mumbai Metro to get its first 'driverless' train on Jan 27

Operation to start in May

TN RAGHUNATHA ■ MUMBAI

Mumbai Metro, which expects the first indigenously-manufactured driverless train from the Bharat Earth Movers Ltd (BEML) in the metropolis on January 27, plans to roll out the metro passenger services on Metro Metro-II A and VII in May this year.

Announcing this, Maharashtra's Urban Development Minister Eknath Shinde said, "After seven years, Mumbai is ready to welcome the new metro and Mumbaiers are curious about its "first look". This metro train will be tested on different fronts once it arrives in Mumbai. After that, we plan to introduce Metro in passenger

service from May, 2021".

The first phase of coaches running on Metro Two A and Seven will leave Bangalore on January 22 for Mumbai and arrive at Charkop Metro Car Shed by January 27. "After that, the trial runs of this metro will start in the next two months with the necessary technical and other tests. We are planning to start these metro passenger services from May 2021," Shinde said.

The construction of metro lines and stations, which is being carried out through MMRDA, is in the final stages. The construction of the Metro train running on this route has been entrusted to BEML and this is the first indigenously built Metro train to be ready to arrive in Mumbai. "Under the guidance of Chief Minister Uddhav Thackeray, work on metro projects has been accelerated," the Minister said.

850 MW Ratle Hydroelectric Project approved for J&K

PNS ■ JAMMU

After a long wait the Union Cabinet headed by Prime Minister Narendra Modi has finally approved construction of 850 MW Ratle Hydroelectric Project in Jammu & Kashmir at an investment of ₹5,282 crore. On its completion the Union territory of Jammu & Kashmir will become power surplus, will create 4,000 jobs in J&K, directly & indirectly, and will contribute to overall socio-economic development of the UT.

While thanking the Prime Minister Lt- Gov Manoj Sinha termed it a historical decision as it will go a long way in ensuring unprecedented development in Jammu & Kashmir.

Mentioning the lacklustre approach of the successive Governments towards the execution of this important

Lt Governor Manoj Sinha holds Press conference on Ratle Hydroelectric Project on Wednesday

Hydroelectric Power Project, the Lt Governor said that Jammu & Kashmir was deprived of this mega project for so long because the previous regimes were scared to move ahead due to Pakistan's threats of going to International court for arbitration, and making representation in the World Bank.

He also observed, "now J&K is witnessing unprecedented growth and development in every sector; we are unlocking J&K's potential to be self-reliant in the energy sector

within a short span of time".

Highlighting the key features of the mega project, the Lt Governor said that apart from making J&K energy sufficient, the project will create 4,000 jobs in J&K, directly & indirectly, and will contribute to overall socio-economic development of the UT. In addition, the Kwar project (540 MW) has been decided to be taken up. This will result in an investment of ₹4,264 crore and create more than 2000 jobs in the UT, he added.

CHINESE VILLAGE IN DISPUTED REGION

Clarify ground situation in Arunachal: Sena

TN RAGHUNATHA ■ MUMBAI

Shiv Sena's Rajya Sabha member Priyanka Chaturvedi on Wednesday asked the Centre several pertinent questions regarding the Chinese occupation of Indian territory, including whether India had given up its claim on the land occupied by China and what was the extent of the Beijing-occupied land recovered by the Narendra Modi Government ever since it came to power in 2014.

Alluding to media reports — based on the satellite images available in public domain — about the construction of new settlements by China in Indian Territory of Arunachal Pradesh during the past one year, Priyanka shot off identical letters to Defence Minister Rajnath Singh and External Affairs Minister S Jaishankar,

seeking answers to several questions regarding the Chinese troops' occupation in the Indian territory.

Among other things, Priyanka asked as to "how much of our land at present has been illegally occupied by China since 1947 onwards as per Gol records the chronology of occupation of these parcels of lands".

"What is the change in the status quo since 2014? Have we recovered any land illegally occupied by China or have we given up claim on them as justified by cabinet ministers and leaders? What is the Government of India doing to recover these occupied territories and have we lost any new territory since 2014?", the Sena MP asked.

Priyanka wanted to know as to what was stopping India from seeking accountability

from China, "considering that the current government came on the plank of prioritising nationalism & border security".

"I look forward to your response considering the urgency and sensitivity of an issue of national importance that impacts every citizen of the nation," she stated in her identical letters to the Defence Minister and External Affairs Minister.

"China has been stepping up expansionism in the borderlands while our government is not even willing to call China out by name. The area where these villages have come up may be disputed, but international law forbids unilateral change of the status quo in such disputed territories," she said.

"China's construction of a village is just the latest example of how it is encroaching on areas inside India. China has no

land claim in this occupied region that can be backed by international law," Priyanka stated.

"However now by constructing villages that were uninhabited but strategically important areas, it is seeking to challenge the international law. The construction of this village is a violation of a key part of multiple agreements reached by China with India that asked the two sides to strictly respect and observe the line of actual control and work together to maintain peace and tranquillity in the border areas," Priyanka wrote in her letter.

"The intrusion by China, as reported in the past one year based on satellite images, has been in Depsang Plains, Pangong Tso, Galwan Valley, Gogra Hot Springs, Dibang Valley, Chushul, Demchok, Chumar," she said.

Skiing resort of Gulmarg converted into a canvas by budding artists

MOHIT KANDHARI ■ JAMMU

The Skiing resort of Gulmarg in Kashmir valley has been turned into a big canvas by the budding artists assembled there to create "ice sculptures" and other art forms. Braving sub zero temperature conditions these artists have already started working on different themes to give shape to their imagination.

To facilitate these artists the Department of Tourism has come forward to ensure they get a stimulating environment during the four day long competition. The department has

also kept ready large ice blocks for the participants to ensure they are able to carve out the shape as per their chosen themes.

In the competition over 30 participants drawn from various districts of the Kashmir valley, both amateur and professional sculptures, are participating. On Wednesday Director Tourism, Kashmir Nisar Wani flagged off the participants from TRC, Srinagar. The special camp was organised to attract tourists and promote the rich cultural heritage of Jammu & Kashmir.

APPLICATIONS INVITED FOR CELEBRATION OF RAVI DASS JAYANTI

Government of NCT of Delhi is inviting applications for **Ravi Dass Jayanti on 27-02-2021 under "Scheme for Celebration of Birth/Death Anniversary of Eminent personalities"**

Government of NCT of Delhi will provide assistance through empanelled agencies to the desirous Organizations in the form of arrangement for tentage, sound system, lighting, banners etc.

Eligibility:-

The following are eligible to apply for assistance under the scheme:-

- i.) NGOs, registered under Societies Registration Act.
- ii.) Only those NGOs which are registered under Society Registration Act and having audited accounts are eligible.

List of the items for providing assistance to the desirous NGOs are as follows:-

- a. Tentage.
- b. Chairs.
- c. Sofa.
- d. Tables.
- e. Curtains, Mat etc.
- f. Sound System.
- g. Light System.
- h. Banners/Hoardings.

Procedure for applying:-

The Organizations interested to apply may submit a detailed proposal, containing:-

- 1) Details of such celebrations / activities organized by them in the past.
- 2) The duly filled in applications & recommended by area MLA along with copies of Registration Certificate and audited accounts should be submitted by the registered NGOs/Organization to the Department for the welfare of SC/ST/OBC, GNCT of Delhi, B Block, 2nd floor, Vikas Bhawan, I.P.Estate, New Delhi-02, by **12-02-2021** positively. **Applications received thereafter will not be considered.**

Selected NGO have to provide Photographs of the event organized by them and abide by stipulations of the department for proper organization of the event. Organizers will also be required to submit a declaration to the effect that Govt. guidelines/SOP applicable for organizing religious/cultural functions will be followed scrupulously to prevent spread of Covid-19.

For full details, please visit Department website:- scstwelfare.delhigovt.nic.in

DIP/Shabdarth/0565/20-21

Let the leaders lead

Like elsewhere, prominent personalities of India should get the shots so that the common citizen feels reassured

When the virologists in different countries developed vaccines for Coronavirus, there was a sense of relief and jubilation globally and people could not wait for the inoculation drives to begin. However, that euphoria turned into fear, distrust and vaccine hesitancy when side-effects and deaths began to be reported in nations like Norway, the UK, the US, and so on. In India, too, two people died after getting vaccinated on January 16 but, after the post-mortem reports came in, the Government declared that the deaths were in no way related to the COVID-19 jab, but to cardiopulmonary disease. Of course, the sceptics will take this statement with a pinch of salt. However, even if we were to attribute these deaths in India to the vaccines, we must not let such incidents cloud our vision. If one were to look at the larger picture, the number of infections and deaths globally due to the pandemic till now is 96,700,231 and 2,067,913, respectively. In India, the number of infections has been 10,596,442 and the casualties have touched the 152,754-mark. As compared to this, of the 6,31,417 healthcare workers who have been vaccinated so far across 11,660 sessions in India, only nine adverse events requiring hospitalisation were reported. So, just 0.18 per cent minor adverse events have been reported and only 0.002 per cent of them needed to be hospitalised. According to the Health Ministry, this figure is in fact the lowest, so far as we know, in the world. So, it does not take a genius to understand that the advantages of getting the jab far outweigh the disadvantages. Plus, in such huge vaccination drives as the world is undertaking right now, adverse effects and some casualties are to be expected, particularly among the old, infirm and people with allergies. But the fact remains that globally, scientists and Governments are responding very quickly and, apart from the strong adverse event surveillance, they are being flexible and vigilant to finding out the causes and issuing directives on who can safely take the vaccine and who cannot. For instance, Norway has adjusted its advice on who should be administered the vaccine by giving individual doctors the discretion to make this decision.

In India too, Bharat Biotech, the company that developed Covaxin, is warning people with weak immunity and other medical conditions to consult a doctor before getting inoculated and, if possible, to avoid it altogether. However, till now the other vaccine that is also being used, AstraZeneca's Covishield, has seen a good response. Though India is battling vaccine hesitancy even among healthcare workers, the Centre plans to press on with the inoculation drive. This is because the Government realises that pandemics can be contained only when people become resistant to the disease-causing pathogen. There are two ways to acquire herd immunity: One, on exposure to the pathogen, people develop antibodies and immune response in the body and; second, the body develops antibodies when the vaccine is administered. Allowing the natural spread of a disease to generate herd immunity is not desirable as it comes at the cost of avoidable morbidity and mortality. With mass vaccination against COVID-19, the Government is determined to protect the people. We must help it in every way possible. We are a big country, and rolling out vaccines to 1.3 billion people is not an easy task. But we are a very determined country that successfully eradicated smallpox and polio. We have the resources and the experience. With the hard work of those leading and implementing the campaign and with the support of people, we are bound to succeed in our gigantic vaccination drive. However, if the Government truly wants the people to embrace the immunisation drive, prominent leaders of the country should get the shots like they did in other nations, so that the common citizen can feel reassured. The leaders of the country need to lead from the front and not let the common man feel like the proverbial guinea pig.

What's in a name?

Rather than quibbling over Netaji's birth anniversary, the Governments should have celebrated the event together

On the face of it, one would consider it a matter of great national pride and patriotism, though a little belated, that the Union Government has decided to celebrate the birth anniversary of one of India's greatest nationalist icons who worked hard in the quest for the nation's Independence, Netaji Subhas Chandra Bose, on January 23 as 'Parakram Diwas'. However, the political controversy the announcement has kicked off is quite unnecessary and unsavoury, to put it mildly. There are allegations and counter-charges that the decision has been taken to usurp the legacy of the revolutionary leader, who was actually born in Cuttack, Bengal Presidency, British India. While the Mamata Banerjee-led Trinamool Congress (TMC) Government in West Bengal and the NDA Government at the Centre are in tandem on the issue of celebrating Netaji's birth anniversary, the bone of contention is the nomenclature the event should have: The Centre wants to call it 'Parakram Diwas' while the TMC and the All India Forward Bloc — which was founded by Netaji and emerged as a faction within the Indian National Congress in 1939 — demand that the day be celebrated as 'Desh Prem Diwas'. Both the parties are also angry that they were not consulted when the decision was being taken. The Culture Ministry recently issued a notification stating that in order to "honour and remember Netaji's indomitable spirit and selfless service to the nation", the Government has decided to celebrate his birthday every year as 'Parakram Diwas'. But the TMC leaders are sticking to their guns that it should continue to be called 'Desh Prem Diwas' (the State-level celebrations have been held at Darjeeling since 2014) and that January 23 should be declared a national holiday as Netaji was a national leader and the head of the Azad Hind Fauj, and "these two aspects are not clearly reflected" in the name 'Parakram Diwas'.

With West Bengal Assembly elections on the cards, and especially when it comes to Netaji's birth anniversary, no party wants to let the opportunity to lure the voters slip from its hands. The State is expected to go to the polls in the first half of this year with the BJP hoping to wrest power from the TMC after emerging as the second-biggest party in Bengal in the 2019 general elections. The regional party's leaders have gone so far as to claim that it was a "stunt" by the NDA Government keeping in mind the upcoming Assembly poll in West Bengal, and "not a mark of respect" to Netaji. The family members of Netaji also put their weight behind 'Desh Prem Diwas', saying that the name would have been more appropriate "but we're happy with the announcement". Hectic preparations have already commenced for the 125th birth anniversary of Netaji in Kolkata, both by the State Government and the Centre. While the TMC Government has planned a massive procession in Kolkata, the Centre is also making preparations for a grand event at the Victoria Memorial Hall, where Prime Minister Narendra Modi is expected to be present. Petroleum Minister Dharmendra Pradhan will participate in a programme in Cuttack, Odisha, where Bose was born. Another programme will be held in Hariपुरa village in Gujarat's Surat district where Bose was elected the president of the Indian National Congress in 1938. But the bottom line remains that the true respect and honest tributes to Netaji had been if both the Governments had joined hands to celebrate the 125th birth anniversary of one of India's greatest sons who strove to free India from the iron clutches of the British Empire.

The usual suspects

The SC-appointed panel to talk to farmers comprises a neo-con economist, a seed terrorist and a policy *sahib*, which has given rise to mistrust

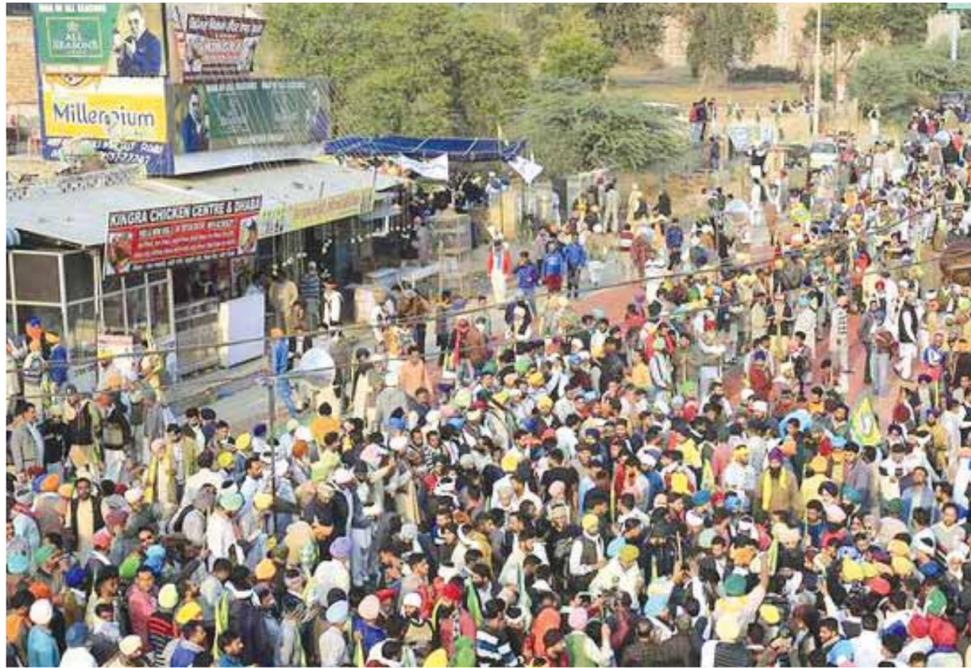

INDRA SHEKHAR SINGH

As 2021 began, the Supreme Court (SC) appears to have got a taste for drama as it pitched a "biased committee" against the revolutionary, but peaceful, farmers camping on Delhi's borders. Why biased? Because all the four original members had unequivocally supported the farm "reforms". But the apex court believes that they will remain neutral; and Chief Justice of India SA Bobde orally observing that if a person on a panel has expressed views on the matter, it should not become ground for his disqualification from a committee and that "committee members are not judges; they can change their views". Meanwhile, Bhupinder Singh Mann rejected the SC's offer to be part of the committee and said he stands with Punjab. The three remaining members, who pledge to be "non-partisan", have only added to the mistrust of farmers because the media may see them as honourable but, to farmers, they are simply a neo-con economist, a known seed terrorist and a policy *sahib*.

Let us go back to the start of this mess. After repeated failure of talks between the NDA Government and the farmers, petitions were filed in the SC which gave them a patient ear and even admonished the Centre for its "handling of the issue". There was some jubilation when farmers were teased by names such as "P Sainath" to be included in the committee. But the celebration was short-lived; it was as if the SC was testing the waters before delivering the master-stroke: Four pro-Big Ag names were invited to the committee. They being men of the law, we can't expect the judges to understand much about agriculture but whosoever advised them, has put the integrity of India's top court in quagmire. Mann's polite refusal provides grist for this fact. Recently, committee member Anil Ghanwat has expressed fears that the farmers may not even participate in the proceedings.

How unbiased are the three remaining members — Ashok Gulati, Anil Ghanwat and Pramod Kumar Joshi? With a demonstrated history of promoting and advocating for Big Ag and US-style liberalisation, the apple doesn't fall far from the tree. Ashok Gulati, our neo-con economist, despite having worked in the Government for decades, is noto-

rious as the poster child for Big Ag in India. His policy recommendations are hailed by the industry and vehemently opposed by farmers, whether on GM crops or farm-gate liberalisation. His economic models, to many farmers, are allied to the US industry interests and not to the welfare of Indian farmers and consumers. Gulati's models are a disservice to Gandhi's bread labour. Some would go so far as to say that his economic schizophrenia is so advanced for what he called the "1991 moment" for Indian agriculture, has turned out to be the biggest farmers' revolution in the history of our world.

Next we move to 'policy *sahib*' — Pramod K Joshi, who is the director for South Asia, International Food Policy Research Institute. Without going too much into details about his personal views, the organisation he represents is heavily funded by the Big Ag corporations and allies. The Syngenta Foundation (Switzerland), The Rockefeller Foundation (United States), CropLife International (Belgium), Bill & Melinda Gates Foundation (United States), Cornell University (United States), the US Department of Agriculture (United States), KPMG East Africa and Alliance for a Green Revolution in Africa (AGRA) are some of the biggies to generously donate to his kitty and push a global agenda through this organisation in countries like India. Farmers are

curious as to why did the SC's advisors think of this international body? Does India have a dearth of *swadeshi* agriculturalists or agrarian policy experts? Why the swerve from Aatmanirbhar Bharat on policy matters? This name in the committee exposes the invisible hand behind the farm "reforms".

Finally, we move to alleged 'seed terrorist' Anil Ghanwat, who is the president of Shetkari Sangathana (SS). It didn't take illegal seeds from China to reach the US or India in May 2020 for any member of the cotton seed industry to understand the term "seed terrorism". India has been an area of operation for many such illegal seed schemes which want to destroy India's native seeds, public health and seed industry by using criminal means. 'Seed terrorists' smuggle and peddle unapproved foreign seeds on India's soils and fields. They claim that it's good for the farmers but actually, as the past year has shown, sound the death-knell for Indian biodiversity and public health as these seeds can be a gateway for getting new pests or plant diseases into the country. In a bid to protect our biodiversity, the Rashtriya Swayamsevak Sangh's (RSS) own Bharatiya Kisan Sangh has led a campaign in Maharashtra against this hazardous contamination and to curb the illegal spread of HT Bt Cotton. Keep in mind that COVID entered the country using humans as a gateway;

similarly, the American pink bollworm and fall armyworm have mysteriously entered India. We don't know what new disease could be in store next?

A note on the history of the organisation: SS founder Sharad Joshi, a farmer leader for few, was a pariah in the national farmers' resistance movement. His stance on the World Trade Organisation (WTO), inclusion of agriculture into the General Agreement on Tariffs and Trade (GATT) and the Dunkel Draft alienated him from the farmers who resisted this takeover in the late 90s. His obsession for "technology" and "progress" was only meretricious. His Frankenstein still lives eating into the profits and health of maize to oilseed farmers.

Following the same tradition, the SS has openly violated the Environment Protection Act, National Biodiversity Act and various other criminally punishable legislations by illegally planting and peddling an unapproved genetically modified organism (GMO) HT Bt Cotton in Maharashtra. This HT Bt cotton is a herbicide tolerant (HT) cotton variety that is unapproved by the Genetic Engineering Appraisal Committee (GEAC). The SC's technical committee on GM crops had also a few years ago put a moratorium on HT crops due to bio-safety issues. Despite this, Ghanwat's organisation has been unabashedly part of a criminal conspiracy to contaminate our native cotton seeds and biodiversity. Last year alone, he caused a damage of over ₹400 crore to the legal seed businesses, from Maharashtra to Telangana. Due to such fly-by-night operators, the legal cotton businesses are finding their seed lots contaminated by this unapproved variety and, in fact, many seed companies have been taken to court and their licenses suspended, yet Ghanwat's SS proliferates. They continue to do irreversible damage to our environment and health. The seed officials have booked various members for some of these offences, yet the ring leader — instead of being reprimanded — has been elevated to a power position.

The judiciary is an independent pillar of Indian democracy, and in no way should it be under pressure to echo the will of the Government of the day. For, if they acquiesce, Indian democracy will be dented. By appointing a committee without consultation, the SC may also have committed the same mistake as the Government. The CJI, if he wants the farmers and people to restore their faith in the judiciary, should disband the committee for now and evaluate the members' profile. People like Ghanwat and his organisation who openly defy the rule of law, should be punished, not honoured.

(The writer is the Director - Policy and Outreach, National Seed Association of India. The views expressed are personal.)

SOUNDBITE

Like millions of Indians, I am jubilant and proud at your heroic and historic victory at Brisbane. Your performance, against incredible odds, has brought glory to India.

Congress interim president Sonia Gandhi

The high-speed rail is a successful demonstration of China's independent innovation. China is now a world leader in high-speed rail technology.

Chinese President Xi Jinping

Nachave is a vivacious number that will definitely make you tap your feet. I always try to deliver a different and unique experience to music lovers.

Singer Daler Mehndi

No adversity could stop them, frontline players injured, & won after a remarkable turnaround from the depths of 36 all out, inspiring for others. Kudos, India!

Former Pakistani cricketer Wasim Akram

LETTERS TO THE EDITOR

Kudos, Team India!

Sir — What Team India pulled off in Oz — a Test series win — is no mean feat. It was a glorious victory in the game of uncertainties, the memory of which will be long cherished. Watching a bunch of plucky Indian youngsters playing so well against the world's best team in a match that otherwise looked like being a David and Goliath contest was an uplifting experience.

The absolutely stunning victory at Gabba is sweeter because it was achieved in a Test cricket that showcases skills, subtleties and sophistication more than any other format and it was clinched by exceptionally talented boys hailing from disparate and diverse backgrounds from across the country. For the legions of Indian cricket fans, India lifting the coveted Border-Gavaskar Trophy was a fairytale ending.

For most Indians, cricket is an absolute religion. The bouncers and racial slurs and other tricks tried by the host could not make up for what it lacked to snatch a victory from a resurgent and exuberant Indian team.

G David Milton
Tamil Nadu

Shun politics, stand united against China

This refers to the editorial 'Remove Chinese hamlet' (January 20). With China changing the *status quo* by constructing a village five km inside the disputed territory in Arunachal Pradesh, the ongoing tension between the two superpowers is going to escalate.

It appears that the Communist regime is hell-bent on strengthening and extending its territorial claims in violation of the international agreements and multiple treaties. The Chinese side doesn't respect the McMahon line, the demarcation between Tibet and India's Northeast, and constructs structures in the areas claimed by it. The development came as the Chinese and Indian troops are locked in a bitter standoff in eastern Ladakh since May 5 last year and multiple rounds of military and diplomatic-level talks failed to achieve any breakthrough.

The recent development has given yet another opportunity to the Opposition to take on Prime Minister Narendra Modi and the NDA Government. It is disheartening that at a time when President Xi Jinping-led China is undertaking such misadventures, we as a nation are

not even united over the issue. It sends a very wrong message to the world and is a setback to India's global image. The leaders, belonging both to the Opposition and the ruling dispensation, should talk and build consensus to deal with the matter in an effective and efficient manner. India's territorial integrity is not a political matter and it cannot be compromised for the sake of politics.

India's jabs gain repute

Sir — We should feel proud that the vaccines developed in India have been tagged as the least risky across the world. This is indeed a great achievement and a testimony to the expertise we possess in the sector.

With all these titles, our vaccines are gaining a huge demand

and the MEA is receiving requests for the export of these vaccines. It is a welcome move by India to supply the life-saving vials to six countries. India is supplying it to the nations who need it the most like Bhutan, Maldives, Bangladesh, Nepal, Myanmar and Seychelles. It is also considering the applications by three other nations and these too are in

the final stages of approval. This step will help develop international cooperation and take India's diplomatic relations to a new high and, as Prime Minister Narendra Modi said, we are indeed honoured to have this opportunity to serve the world during the COVID pandemic.

Kavya Shah
Ujjain

Public holiday policy

Sir — It is a welcome move by the Supreme Court to seek the response of the Union Government on policy framework for declaring public holidays. A PIL complained that the Centre and State Governments arbitrarily notify public holidays.

It is true that the Governments declare public holidays on their whims and fancies to appease a section of population or vote bank. This is because in the absence of any guidelines or policy regarding the declaration of public holidays, the Governments use the opportunity to consolidate their vote banks.

At a time when we need to work diligently and incessantly with full devotion, increasing the number of holidays will decrease our productivity and output. It will make the Government employees lethargic and would give rise to a dilly-dally approach towards work. The need of the hour is that the Union Government should frame a national policy for declaring public holidays.

A risky business

Share redemption is like a double-edged sword. The very advantage associated with it can backfire and become a major disadvantage

HIMA BINDU KOTA

The recent announcement by the Gas Authority of India Limited (GAIL), pertaining to its share buyback worth over ₹1,046 crore as it looked to return surplus cash to bondholders — the biggest being the Centre — is perfectly in tune with the Government's efforts to raise funds for containing the rising fiscal deficit. The company's Board approved repurchase of the ₹6.97 crore dividend, which is about 1.55 per cent of the total paid-up capital, at a price of ₹150 per share. The Indian markets may see similar announcements by other Public Sector Undertakings (PSUs) like Coal India Limited, National Thermal Power Corporation Ltd and National Mineral Development Corporation in days to come. GAIL has also declared an interim dividend of ₹2.50 per share for the coming year. This share buyback forms a part of the target set by Finance Minister Nirmala Sitharaman for raising ₹2.1 lakh crore from the disinvestment of PSUs in 2020-21. Share redemption is the process by which companies buy their own dividends which are traded on the bourses at the market value, and in addition to its stock, is a preferred way to repay cash to the shareholders. Paying dividends to bondholders is an expensive affair as it increases the cost of equity. Therefore, paying off shareowners through buybacks is less expensive and reduces the overall cost of the capital. Since 2016 through 2018, it was one of the most favoured ways of returning excess cash to bondholders. In 2018, Indian stock markets witnessed bond repurchases worth ₹54,600 crore. This run was somewhat stalled in 2019 by the Government's decision to tax these transactions. As many as 70 companies announced share buybacks to the tune of ₹35,460 crore in the first half of 2019. In the 2020 Budget, however, the new tax regime made share buybacks lucrative once again.

There are several reasons why firms buy back shares. First, to consolidate their stake as diverse and numerous policyholders or owners make it difficult for the company to take an undisputed decision, as numerous stakeholders with voting rights indulge in a power tussle. By redeeming shares, companies increase their voting rights and exercise more control over governance. For instance, OYO's share buyback from Sequoia and Lightspeed in 2019 increased the stake of Chief Executive Officer Ritesh Agarwal from a meagre 10 per cent to 30 per cent, increasing his say in decision-making. Second, by redeeming its shares, a firm sends positive signals about its future prospects and growth potential. A company may also believe that the current stock price is undervalued and takes it as a good opportunity to increase its bondholding keeping in mind future prospects. This is known as the signaling effect. Third, share repurchase is one of the best uses for any idle cash reserve companies might have, especially when there are not enough chances to invest the excess money.

However, share redemption is like a double-edged sword. The very advantage associated with it can backfire and become its disadvantage. While competing in a high growth industry, buyback may not be considered a positive step as it may give an impression that the firm does not have enough avenues to invest its idle cash reserve. Long-term investors respond to such share buybacks by selling their stakes. For instance, IBM's buyback announcements between 1995 and 2000 made investors apprehensive about the company's ability to bring out new products and services. Further, share repurchase is not an isolated event and has to be always viewed in conjunction with other performance parameters. For instance, it will not send a positive signal about the future growth potential to the investors if profitability is declining or the financial outcomes are showing otherwise.

Basically, there are three ways in which companies buy back their shares. Open market repurchase is the most common buyback mechanism in which firms announce redemption of a certain number of bonds through a Press release but do not give details of price, timing and execution of the deal. In fixed-price tender offers, companies invite shareholders to sell their dividends to the firm at a fixed price, generally at a premium rate to the prevailing market price, within a given time frame. While in auction-based tender offers, firms disclose their willingness to pay a premium and seek tenders from owners for certain portion of shares. It is the responsibility of the shareholders to respond to the company about the quantity of shares to be sold within a specified time period. Studies on the impact of share buyback have found that share redemption boosts operating performance due to an increase in earnings per share, return on equity and return on assets, rise in stock prices and shareholders' value. But negative effects of share repurchase on the stock prices of the firms have been reported, too. Although buybacks bring a positive sentiment to the bourses, their attraction for firms and shareholders depend on factors that are unique to each case. The management has to decide the proper use of its funds — either to reinvest in its business or return cash to the shareholders — creating a balance between future growth and stockholder's value creation.

Don't be an anti-vaxxer

There have been minor adverse events across India since the vaccination drive began on Jan 16. However, surveillance has been strong and will remain so in future, too

VM KATOCH

Vaccines go a long way in managing, controlling, eliminating deadly, sometimes debilitating infectious diseases. Smallpox was the first example of a dreaded disease, with a mortality rate as high as 30 per cent, being eradicated by a vaccine. But it was a long journey from the development of the vaccine to the elimination of the disease. Edward Jenner, an English physician, was the first to demonstrate the effect of a vaccine in 1796.

The World Health Organisation (WHO) initiated a campaign to eradicate smallpox in 1959, but despite their best efforts, smallpox was still widespread in 1966, causing regular outbreaks in multiple countries. Then in 1967 efforts were intensified and scientists came up with a higher quality freeze-dried vaccine, bifurcated needle and a stringent surveillance system. India achieved the target of eradication of smallpox in 1975 after a very intense vaccination and containment campaign. So, it took almost 200 years, when on May 8, 1980, the 33rd World Health Assembly officially declared the world free of the disease.

Smallpox is not the only example. Over the years, vaccines emerged as a powerful tool to protect populations against various disease-causing organisms. Our scientists have developed vaccines that provide complete or partial protection against diseases such as plague, cholera, rabies, polio, measles, rotavirus and influenza among others.

When COVID-19 hit the world last year, scientists across the globe came together to develop an effective vaccine against it. Interestingly, within 10 months of decoding the virus' genome sequence, many vaccines were not only developed but tested for their safety and efficacy. With vaccines we have achieved an important milestone in our fight against COVID. It is a matter of pride that two vaccines have become available in India. One has been fully made in India and the other has been developed in partnership and manufactured in the country. Till now, India had been trying to slow the spread of the infection and control the number of Coronavirus cases without a vaccine through conventional and known approaches like using masks, social distancing, hand hygiene, detection of cases, isolation, contact tracing and testing. Progress in medical management through modern as well as traditional medicine systems has also contributed to prevention and improved treatment outcomes in the country.

While all these methods will remain relevant till the virus is defeated, building the immune capacity of individuals and the population through vaccination can prove to be another highly effective shield against COVID. We are at an important juncture in our fight against the Coronavirus. On January 16, the Government rolled out the vaccines across the country. Its plan to inoculate 30 crore people in the first phase of the vaccination drive is an ambitious one, especially when the vaccine has to be given in two doses, at an interval of four-six weeks.

To execute this drive effectively, the Government has recruited an army of vaccinators, on-ground staff, experts to keep a watch on the adverse events that have been reported from many places, specialists to address these adverse events in the shortest possible time and data specialists to analyse the large amount of data the nationwide

“ALLOWING THE NATURAL SPREAD OF DISEASE TO GENERATE HERD IMMUNITY IS NOT DESIRABLE AS THIS COMES AT THE COST OF AVOIDABLE MORBIDITY AND MORTALITY. WITH MASS VACCINATION AGAINST COVID-19, THE GOVERNMENT IS DETERMINED TO PROTECT THE PEOPLE. WE MUST HELP IT IN EVERY WAY BY GETTING RID OF OUR VACCINE HESITANCY”

vaccine drive would generate. It has also created the physical infrastructure for the storage and transportation of the vaccine.

This sounds like the Government had to do too much in too short a time. But times have changed and viruses are becoming smarter. With humans travelling across the world, viruses too are travelling to all nooks and corners of the globe. As a result, an endemic turns into an epidemic and an epidemic turns into a pandemic in a blink of an eye. As we all know, this is what happened with the Coronavirus too. So, the fight in these times is not only against viruses, but also against time. Especially where the COVID-19 is concerned.

A new strain with the potential to spread faster has appeared in the UK, and several other countries, including India. There are many pockets in the country which are still not exposed to the virus. We don't know how the virus is going to behave in the coming months. It can come back in small waves, then spread to newer areas and we may also see another severe wave. Hence, we need to put in practice all the lessons we have learnt during past vaccination drives. From redesigning a vaccine campaign, to recalibrating it to address various issues that arise after its launch, to the redevelopment of a vaccine itself to address the mutation in the virus, the vaccination process may need to be changed according to the demands of time. For example, the first polio vaccine the Salk, which was developed in the early 1950s, was an injectable one. It brought a significant drop in the number of polio cases. Later, in the 1960s the oral poliovirus vaccine was developed. It had a live attenuated virus.

Apart from aspects related to science, for a vaccine campaign to achieve its target, it may have to overcome various social and political challenges as well. Every time, we introduce a new vaccine there is vaccine hesitancy. People have a lot of concerns — some of them are genuine while some arise out of rumours and misconceptions about how the vaccine can affect their health. There are many historical examples of such lack of communication or miscommunication becoming barriers in India which could be overcome by establishing good connection with people and their leaders. Hence, peoples' concerns should be identified, addressed as fast as possible by sharing scientific facts with them and in the language, they can understand. Providing complete information in an effective way, maintaining the confidence of people in information from authorised Government sources as well as the mainstream media is as important as the logistics of providing vaccines with highest standards of quality. This was done effectively in the past and hopefully it will be done so now too, especially as there is already a lot of reluctance across the country to take the shots after a few adverse incidents. However, the fact remains that only nine adverse events following immunisation that required hospitalisation have been recorded so far in India.

Second, adverse event surveillance after the vaccination has been strong so far. It will continue to remain so as the drive goes forward. Besides, real-time analysis of the reports as well as data generated from the various vaccine sites across the country will be important to further ensure the safety and efficacy of

the vaccine as we go into the mass vaccination phase.

Whether it is smallpox or polio, we were able to eradicate the disease with a targeted approach. First, implement it at a wider scale. Slowly, identify the problematic areas. There could be places where the disease prevalence could be higher than the rest of the country, target that area. Then there could be pockets where people would be more hesitant to vaccines, target that area with clear communication strategies. Communicate with the community, the local leaders, address their concern. After some time, the country could face yet another wave of COVID, or issues of mutant variant(s) may emerge. We need a robust disease surveillance mechanism to handle any such situation and contain the outbreak before it spreads.

Pandemics can be contained only when people become resistant to the disease-causing pathogen. There are two ways to acquire herd immunity—one, on exposure to the pathogen people develop antibodies and immune response in the body and second, the body develops antibodies when we give the vaccine. Allowing the natural spread of disease to generate herd immunity is not desirable as this comes at the cost of avoidable morbidity and mortality. With mass vaccination against COVID-19, the Government is determined to protect the people. We must help it in every way by getting rid of our vaccine hesitancy.

A legendary feat by incredible Indians

Our netas, scientists, technocrats and babus must learn from the tremendous performance of the cricket team and herald a new era of excellence in all walks of life

VK BAHUGUNA

able practice was invented by Fay Allen (nee Thomas) whereby some players seek to gain an advantage by insulting or verbally intimidating the opposing player. The purpose is to try to weaken the opponent's concentration, thereby causing them to make mistakes or underperform. However, the Australians were torn to pieces by the Indian batters and bowlers in the last three Test matches.

The dubious records created by Indian cricketers in Adelaide in the first Test by scoring their lowest-ever 36 Test runs in an inning must have hurt the boys a lot. The team changed tack after this humiliating defeat and rose from the ashes and won the second Test after India XI captain Virat Kohli left for home on paternity leave.

The stand-in captain Ajankya Rahane, his colleague Cheteshwar Pujara and other second-line cricketers have shown the world that they cannot be taken lightly anymore. There is an old saying: "Sometimes you have to die inside in order to rise from your own ashes and believe in yourself and love yourself to become a new person." The Indian team did just that by winning the second Test with style. Full credit goes to Rahane

for his gutsy match-winning century and farsighted leadership.

The story of this Border-Gavaskar Trophy is something like this only. All the Australian experts and former cricketers had written off the Indian team by predicting a four-zero whitewash. All of them had forgotten that the trophy is still with India and times have changed. The Australian bowlers, with their short-pitched bodyline bowling reminded one of the bodyline tactics of England's cricket team for their Ashes Tour of Australia in 1932-33, in order to control the skills of the awesome Don Bradman.

The way India had batted in the second Test at Melbourne and the way Jadeja had launched a counter-attack with great courage and with an excellent exhibition of technique lower down the batting order, gave sufficient hints to Australian players that no matter what happened to them earlier in the Test, the Indians were determined to undo that ignominious defeat.

This was proved with sufficient firepower by our so far "second-string bowlers" who gave it back to the Australians and won India the

second Test and created a scare in the Australian camp in the third and fourth Test.

The way the Sydney Test was turned into a draw by the stubborn batting of an injured Hanuma Vihari and Ravichandran Ashwin, aided by Pujara and skipper Rahane, is the stuff of legends. They had taken several blows from the rising bouncers and short-pitched balls of Australian pacers, who left no stone unturned to intimidate the Indians.

In fact they were caught in their own game and the Indians resolutely defended and batted the whole day to deny the home team a victory. This solid batting by injured Indians will

be remembered for a long time by both the teams and the cricketing world.

However, the victory in the series clincher fourth Test outclassed the Australians by all means, in all the fields of the game. The second-string bowlers showed the Australians that they too, were top quality players and matched their rivals on all fronts of the game. The batsmen, led by a gritty Pujara who exhibited an unparalleled determination to guard his wicket, laid the foundation for others to complete the unprecedented task of snatching victory from Australia.

This Test series will be noted for the emergence of the young and dashing Shubman Gill as an elegant and technically-competent batsman who, if handled carefully, will be one of the batting superstars of the game along with an aggressive Pant.

On his part Pant, too, played positively and handled the bowlers with contempt and confidently scored runs in all directions with his determined and aggressive batting. He shattered the confidence of Australian bowlers and their Captain, too. This Test also revealed the makings of a world-class batting and pace

bowler in Shardul Thakur, who will in all probability find himself in the same league as the great Kapil Dev in the future.

One of the major finds of this tour is Washington Sunder the dashing Tamil Nadu opener who destroyed Aussie bowling with his Vivian Richard-like shots apart from being an outstanding wicket taking, off-spinner who has proved that it will be difficult to ignore him in all formats of the game now.

The Indian captain also showed great sportsmanship by gifting a signed jersey to Australian bowler Lyon for completing 100 Tests.

Going forward, this emergence of youngsters on the international scene will result in a tough time for selectors who will be spoilt for choice now. Plus opposing teams will be in awe as India has an excellent bench strength in all areas of the game.

However, the actions of one of India's former heroes, Rahul Dravid in shaping this new Indian team under his tutelage as the coach of India's 'A' squad cannot be ignored. There was a resilience in this team that "The Wall" himself would have

been proud of. India's 'Young Turks' lifting the Border-Gavaskar Trophy is more than a redemption story, this is more than a coming-of-age story, this is an epic, a story for the ages. The Indian cricket team's determination is a story for the ages.

When India won the 2011 World Cup at the Wankhede Stadium they got an open-top bus ride through the city of Mumbai. However, this is not possible now due to the pandemic. But just because this team cannot get one right now, it does not mean they don't deserve the same honour.

If Indian society shows this type of dedication in other spheres of life, there is no reason why we cannot scale new heights and become a developed country sooner rather than later.

Our political class, scientists, technocrats and the bureaucracy must learn from this tremendous performance of the Indian cricket team and herald a new era of excellence in all walks of life. After all, history is always written by the victor.

(The writer is a former civil servant. The views expressed are personal.)

FINAL HOURS OF HIS PRESIDENCY

Trump pardons ex-strategist Steve Bannon, 73 others

Washington: Outgoing President Donald Trump has pardoned his former political strategist Steve Bannon, one of the key architects of his 2016 electoral victory, as he issued a wave of pardons using the final hours of his presidency to grant clemency to 143 people.

The record 73 pardons and 70 commutations came in addition to the dozens of similar actions that Trump took after he lost the November 3 presidential elections to Joe Biden of the Democratic Party. Biden, 78, will be sworn in as the 46th President of the United States on Wednesday. The White House in a statement issued on Wednesday said that Trump granted a full pardon to Bannon, who was in charge of the final months of his 2016 presidential campaign.

Bannon was indicted in August when New York federal prosecutors charged him and three others with defrauding donors of more than a million dollars as part of an online

President Donald Trump and first lady Melania Trump board Air Force One at Andrews Air Force Base, Md., on Wednesday AP

fundraising campaign purportedly aimed at supporting Trump's border wall. The White House in its

statement said Bannon has been an important leader in the conservative movement and is known for his political acumen.

Besides Bannon, other pardon recipients included Elliott Broidy, a former top fundraiser for Trump's campaign who

pleaded guilty to one count of conspiracy relating to a secret lobbying campaign to influence the Trump administration on behalf of a foreign billionaire in exchange for millions of dollars, and Ken Kurson, a friend of Trump's son-in-law Jared Kushner who was charged last October with cyberstalking during a heated divorce.

Trump also granted a full pardon to rapper Lil Wayne who had pleaded guilty to a gun possession charge in Miami.

Another rapper, Kodak Black, received a commutation after he pleaded guilty to a weapons charge.

Brett Berish of Sovereign Brands, who supports a pardon for Wayne, whose real name is Dwayne Michael Carter, described him as "trustworthy, kind-hearted and generous," the White House said.

Wayne has "exhibited this generosity through commitment to a variety of charities, including donations to research hospitals and a host of food-

banks," it said.

He also pardoned former Republican Congressman P Rick Renzi of Arizona. In 2013, Renzi was convicted of extortion, bribery, insurance fraud, money laundering, and racketeering. He was sentenced to two years in Federal prison, two years of supervised release, and paid a \$25,000 fine. **PTI**

Bomb threat at US SC ahead of oath ceremony

Washington: A bomb threat was made to the US Supreme Court on Wednesday ahead of the inauguration of Joe Biden as president, but nothing was found by security personnel, the court said.

"The court received a bomb threat, the building and grounds were checked out, and the building is not being evacuated," said high court spokeswoman Kathleen Arberg. **AFP**

Trump skips Biden's inauguration ceremony

Washington: Donald Trump on Wednesday skipped his successor Joe Biden's inauguration and exited the White House for the last time as US president, saying he had "an amazing four years" and hoping that it would not be a "long goodbye."

Trump left the White House on the Marine One presidential helicopter along with his wife Melania, hours before Biden's inauguration.

Following a short helicopter flight to Joint Base Andrews in Maryland, he received a sendoff ceremony with a red carpet, military band, a 21-gun salute and crowd of about 200 guests in attendance.

He then boarded a final flight on Air Force One to begin his post-presidential life at his palatial Mar-a-Lago golf

club in Palm Beach. Trump, 74, had already announced that he will not attend the inauguration of Biden as President and Kamala Harris as the Vice President. He thus became the first president to skip his successor's inauguration since Andrew Johnson in 1869.

Trump also did not extend an invitation to President-elect Biden and Vice President-elect Kamala Harris.

The meeting between sitting presidents and vice presidents and their successors is a time-honoured tradition that represents the peaceful transfer of power.

Walking down a red carpet rolled out for the departing leader, Trump and Melania both wearing black posed for a picture. **PTI**

Biden: From being one of the youngest senators to oldest Prez

Washington: Joe Biden, known as a peoples' person, a reformer, an unifier and a healer, rose remarkably from humble beginnings to become the oldest American president in US history on Wednesday, reaching the pinnacle of his political career spanning nearly five decades.

The 78-year-old six-term Democratic senator, who triumphed over Republican President Donald Trump in the November 3 presidential election, ran twice unsuccessfully for president - in 1988 and 2008.

The presidential dreams that the veteran leader from Delaware had harboured since childhood seemed all but over for a third time until he won

South Carolina's Democratic Party primary on February 29 last year, forcing most rivals out of the race and making one of the most dramatic comebacks in American political history.

Biden, who has spent five decades in Washington and served two terms in the White House as former president Barack Obama's vice president, capitalised on that experience to portray himself as a tested leader and a better alternative

to Trump.

While accepting the Democratic nomination in August, Biden pledged to restore the "soul of America", and be an "ally of the light, not the darkness."

Biden defeated 74-year-old Trump in the bitterly fought presidential election, becoming the oldest person ever to occupy the White House.

In his victory speech, Biden pledged to unite the country as he called it 'a time to heal in America.'

"I sought this office to restore the soul of America, to rebuild the backbone of this nation, the middle class and to make America respected around the world again, and to

unite us here at home," he said.

Biden has a strong track record of being an ardent advocate of a strong India-US relationship both as a Senator from Delaware for over three decades and then as deputy of President Obama for eight years.

During his presidential campaign, Biden had said that India and the US were natural partners.

From playing a key role in the passage of India-US civil nuclear deal during a Republican administration to setting up the goal of a \$500 billion in bilateral trade, Biden has strong ties with the Indian leadership across the aisle and has a large number of Indian-Americans within his close circuit. **PTI**

Kamala: The inspiring story of many firsts

Washington: First-time Senator Kamala Harris, popularly called the "female Obama", created history by becoming the first woman, first Black and first Indian-American vice president of the United States.

In a historic speech after her victory in November, Harris remembered her late mother Shyamala Gopalan, a cancer researcher and civil rights activist from India, saying she had prepared her for this big day in her political career.

She also said that while she may be the first woman to occupy the vice president's office, she would not be the last.

Harris, 56, is known for many firsts. She has been a

county district attorney; the district attorney for San Francisco — the first woman, first African-American and first Indian-origin to be elected to the position.

She has several firsts in her role as vice president also: the first woman, the first African-American woman, the first Indian-American and the first Asian-American.

When Democratic presidential candidate Joe Biden picked Harris in August last year as his running mate recognising the crucial role Black voters could play in his determined bid to defeat Donald Trump, the then California Senator was the third woman to be selected as the vice president on a major party ticket. Then-Alaska Governor Sarah Palin in 2008 and New York Representative Geraldine Ferraro in 1984 were the other two.

Before becoming Biden's running mate, Harris had her own presidential dreams, which she abandoned due to lack of the financial resources to continue her campaign.

She's one of the only three Asian Americans in the Senate and she's the first Indian-American ever to serve in the chamber.

During the Obama era, she was popularly called the "female Obama". A decade ago, journalist Gwen Ifill called Harris "the female Barack Obama" on the "Late Show With David Letterman".

Later, a small businessman from Willoughby Tony Pinto called her "a young, female version of the president".

She is considered to be close to Barack Obama, the first black American President, who endorsed her in her various elections including that of the US Senate in 2016. **PTI**

Biden's immigration Bill proposes to eliminate per country cap, to benefit Indian IT professionals

Washington: Joe Biden, hours after being sworn in as the 46th President, will send a comprehensive immigration bill to Congress which among other things proposes to eliminate the per country cap for employment-based green cards, a move that would benefit hundreds and thousands of Indian IT professionals in the US, whose current wait period for legal permanent residency runs into several decades.

Called the US Citizenship Act of 2021, the legislation modernises the immigration system, according to an incoming White House official.

It prioritises keeping families together, grows the country's economy, responsibly manages the border with smart investments, addresses the root causes of migration from Central America, and also ensures that the US remains a refuge for those fleeing persecution, said the official, who spoke on con-

dition of anonymity. Describing this as a common-sense approach to solving immigration challenges, focusing on what works, the US Citizenship Act 2021 creates a roadmap to citizenship for a population that lives and works in the United States.

January 1, 2021 is the cut-off date for those undocumented workers. Two-thirds of undocumented immigrants have been in the US for 10 years or longer.

It provides an immediate pathway to green cards for individuals who meet certain criteria as they were dreamers or have been recipients of the Temporary Protected Status (TPS), or are farm workers and meet certain criteria.

They can apply for citizenship three years later. For those who don't meet those qualifications, there will be another path to citizenship, where they would be in an interim status for five years. **PTI**

McConnell: Trump provoked Capitol siege, mob was fed lies

Washington: Senate Republican leader Mitch McConnell on Tuesday explicitly blamed President Donald Trump for the deadly riot at the Capitol, saying the mob was "fed lies" and the president and others "provoked" those intent on overturning Democrat Joe Biden's election.

Ahead of Trump's historic second impeachment trial, McConnell's remarks were his most severe and public rebuke of the outgoing president. The GOP leader is setting a tone as Republicans weigh whether to convict Trump on the impeachment charge that will soon be sent over from the House: "incitement of insurrection."

"The mob was fed lies," McConnell said. "They were provoked by the president and other powerful people, and they tried to use fear and violence to stop a specific proceeding of the first branch of the federal government which they did not like." **AP**

Popular Thai politician charged with defaming monarchy

Bangkok: Thai officials on Wednesday filed criminal charges against a popular former politician, accusing him of defaming the monarchy by broadcasting criticism of government efforts to secure supplies of coronavirus vaccines.

The action against Thanathorn Juangroongruangkit came just a day after Prime Minister Prayuth Chan-ocha told reporters that his government will prosecute anyone who shares false information about coronavirus vaccines.

Thanathorn, former leader

of the dissolved Future Forward Party, accused the government of acting too slowly in procuring the vaccines.

He also pointed out that the government's main contract for vaccine supply was made with a Thai company owned by the royal palace. The government and the company deny any wrongdoing.

"What Thanathorn said is not true at all. The monarchy has nothing to do with the vaccines and they are not in the position to respond to him in the public," said Thosaphol

Pengsom, a vice minister attached to the prime minister's office.

Vice Minister of Digital Economy and Society Neevin Choichaiyathip said at a news conference that anyone who shares Thanathorn's broadcast or distorted information about vaccines and monarchy judged to be distorted would be prosecuted.

Thanathorn's office said he had no immediate comment. The government has increasingly used the law against defaming the monarchy to

crack down on critics.

The law, widely known as Article 112, makes insulting King Maha Vajiralongkorn or his family punishable by three to 15 years' imprisonment.

Thanathorn has long been a thorn in the side of Prayuth's government. His party, critical of the army, a pillar of the country's establishment, made a strong third-place showing in the 2019 general election, but he was forced out of Parliament when a court ruled that he had broken an election law. **AP**

Pandemic, surging food prices leave many in Asia hungry: UN

United Nations: United Nations agencies are warning that more than 350 million people in the Asia-Pacific region are going hungry as the coronavirus pandemic destroys jobs and pushes food prices higher.

The report issued Wednesday by four agencies says the pandemic is making it

difficult for 1.9 billion people to afford healthy diets. It follows an earlier report that forecast that in a worst case scenario that 828 million people might suffer from acute hunger because of the crisis.

The latest estimate is that nearly 688 million people globally are undernourished, more than half of them in Asia. The largest share is in South Asian countries like Afghanistan, where four in 10 people are malnourished.

The report is mostly based on data up to 2019, before the pandemic struck. But it also estimates that an additional 140 million people were likely to have fallen into extreme poverty in 2020 due to the impact of virus outbreaks and lockdowns. **AP**

UK virus strain detected in at least 60 countries: WHO

AFP ■ GENEVA

The UK coronavirus strain has been detected in at least 60 countries, the World Health Organization said Wednesday, 10 more than a week ago.

With the global death count now well past two million, and new variants of the virus causing deep concern, countries across the world are grappling with how to slow infections until vaccines become widely available.

The South African strain, which like the UK one is believed to be more infectious, has now been reported in 23 countries and territories, the WHO also announced in its weekly update.

It added that the number of new deaths climbed to a record

high of 93,000 over the previous seven days, with 4.7 million new cases reported over the same period.

The arrival of mass vaccination campaigns in the US and Europe had brought hope that the end of the pandemic was in sight; the European Union said Tuesday it was aiming to inoculate 70 percent of its adult population before the end of August.

But many EU countries -- and other nations including India and Russia -- have struggled to get their inoculation programmes off the ground.

The United States remains home to the world's worst outbreak in overall numbers, and US President-elect Joe Biden made clear he would be taking no chances following his inauguration on Wednesday.

PUBLIC NOTICE
Notice is hereby given to the General Public that Mrs. Nisha Ahuja is the owner of Flat Four building Western side portion of Land area measuring 50 sq. yds. out of Total Land area measuring 100 sq. yds., property bearing No. N-20/A, out of Rectangle No. 20, Kila No. 22, situated in the area of Village Khayasi, Now abadi known as Vasthu Garden, North Block, Gali No. 1, New Delhi-110018 "Said property" by virtue of GA Deed dated 25.04.2017. Sensex, Nifty soar to record highs

PTI ■ MUMBAI

Equity benchmarks galloped to lifetime highs on Wednesday, in lockstep with global markets which surged ahead of US President-elect Joe Biden's inauguration amid expectations of fresh stimulus by the incoming administration. Rallying for the second straight day, the 30-share BSE Sensex advanced by 393.83 or 0.80 per cent to close at its fresh record of 49,792.12.

The broader NSE Nifty jumped 123.55 points or 0.85 per cent to settle at a lifetime high of 14,644.70.

₹ gains for 2nd day; settles 12p higher at 73.05/\$

PTI ■ MUMBAI

Rising for the second session on the trot, the rupee finished 12 paise higher at 73.05 against the US dollar on Wednesday amid a rally in domestic equities and a weak greenback overseas.

At the interbank forex market, the rupee opened at 73.11, and hit an intra-day high of 73.05 and a low of 73.14.

It finally closed at 73.05, higher by 12 paise over its last close.

On Tuesday, the rupee had settled at 73.17 against the American currency.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, slipped 0.07 per cent to 90.43.

On the domestic equity market front, the BSE Sensex ended 393.83 points or 0.80 per cent higher at 49,792.12, while the broader NSE Nifty advanced 123.55 points or 0.85 per cent to 14,644.70.

Foreign institutional investors remained net buyers in the capital market as they purchased shares worth ₹257.55 crore on Tuesday, according to provisional exchange data.

World stocks advanced on Wednesday after US Treasury Secretary nominee Janet Yellen called for a hefty stimulus to protect the US economy.

Biden, who will be sworn into office on Wednesday, has laid out a \$1.9 trillion stimulus package proposal to boost the economy.

Among Sensex stocks, Maruti rose the most by 2.75 per cent, followed by Tech Mahindra (2.67 per cent), Mahindra & Mahindra (1.98 per cent) and Asian Paints (1.98 per cent).

Heavyweights Reliance Industries, Infosys, HDFC and TCS accounted for the lion's share of the gains.

Among losers, Power Grid dropped 1.75 per cent, NTPC 1.35 per cent, HDFC Bank 0.83 per cent and ITC 0.59 per cent.

"An optimistic western market aided the Indian market to touch lifetime highs

with new buying in segments like auto, IT and PSU Bank. So far, the Q3 results are better than forecasted and this has led to continued buying across sectors.

"Ahead of Joe Biden's inauguration as President, the US

market is on an upbeat mood with high expectations of a big US stimulus," said Vinod Nair, Head of Research at Geojit Financial Services.

Sector-wise, BSE auto, energy, IT and teck indices climbed up to 2.18 per cent,

while utilities, FMCG and telecom ended in the red.

In the broader markets, the BSE midcap and smallcap gauges jumped as much as 1.08 per cent. On the global markets front, Australia's S&P/ASX 200 rose 0.4 per cent and South Korea's Kospi by 0.6 per cent while Hong Kong's Hang Seng added 0.7 per cent.

Japanese market, however, dropped 0.4 per cent due to fresh Covid-19 concerns.

European bourses were trading in the green in early deals. The rupee gained for the second straight day and closed 12 paise higher at 73.05 against the US dollar.

Brent crude futures, the global oil benchmark, rose 0.70 per cent to \$56.29 per barrel. Foreign institutional investors were net buyers in the capital market as they purchased shares worth ₹257.55 crore on Tuesday, according to provisional exchange data.

Working on addressing misinformation on user policy update: WhatsApp

PTI ■ NEW DELHI

A day after India asked it to withdraw changes to its privacy policy, WhatsApp on Wednesday said the proposed change does not expand its ability to share user data with Facebook and that it is open to answering questions on the issue.

The Indian Government on Tuesday posed 14 questions to WhatsApp on its "invasive" changes in Terms of Service and Privacy Policy.

"We wish to reinforce that this update does not expand our ability to share data with Facebook. Our aim is to provide transparency and new options available to engage with businesses so they can serve their customers and grow," a WhatsApp spokesperson said.

The spokesperson added

that WhatsApp will always protect personal messages with end-to-end encryption, so that neither WhatsApp nor Facebook can see them.

"We are working to address misinformation and remain available to answer any questions," the spokesperson further stated.

In a strongly worded letter

to WhatsApp CEO Will Cathcart, the Ministry of Electronics and Information Technology has said the proposed changes to the WhatsApp Terms of Service and Privacy Policy, without giving users an option to opt-out, "raise grave concerns regarding the implications for the choice and autonomy of Indian citizens".

The letter noted that with over 400 million users in India, the changes will have a disproportionate impact on the country's citizens, it said.

It has also asked WhatsApp to provide details of the services provided by it in India, categories of data collected and permissions and consents sought. It has also asked WhatsApp to withdraw the proposed changes and reconsider its approach to information privacy, freedom of choice and data security.

Weak reform implementation, financial sector woes could lower India's medium-term growth: Fitch

PTI ■ NEW DELHI

Fitch Ratings on Wednesday said India's medium-term growth potential is at around 6.5 per cent but weak implementation of reforms, combined with continued financial sector problems, could lower its potential. It said the revival of the reform agenda is among the Indian Government's policy responses to the Covid-19 pandemic shock.

"If implemented effectively, we believe these reforms may help to support India's medium-term growth and partially offset downside pressures to investment from renewed asset-quality challenges in the financial sector and damaged corporate balance sheets," Fitch said.

It said the planned farm sector reforms aim to enhance efficiency, by giving farmers more flexibility over where to sell their

produce by stripping out middle men and has the potential to improve farmers' income and reduce consumer prices.

"But, implementation risks are significant and the Supreme Court in mid-January suspended the relevant laws to facilitate a review and airing of farmer grievances," Fitch Ratings said. It added that segments of the farm lobby have protested for months, apparently over fears that the reform could result in abolition of minimum support prices, although the government has said this will not happen.

Further, the labour market reforms aim at improving worker access to social security (in the large unorganised sector), strengthen occupational safety requirements, speed up the resolution of labour disputes and ease migrant workers' ability to move between states.

Flipkart-Aditya Birla Fashion deal gets CCI nod

PTI ■ MUMBAI

New Delhi: Competition Commission of India on Wednesday said it has approved the acquisition of 7.8 per cent minority stake in Aditya Birla Fashion by Flipkart Investments Private Ltd (FIPL). Aditya Birla Fashion had in October last year approved plans to raise ₹1,500 crore by issuing a 7.8 per cent stake on a preferential basis to Walmart-owned Flipkart Group.

"Commission approves acquisition of a 7.8 per cent minority stake in Aditya Birla Fashion and Retail Ltd by Flipkart Investments Private Ltd," the regulator said in a tweet.

With this infusion, Flipkart Group will own a 7.8 per cent equity stake in ABFRL on a fully diluted basis. The promoter and promoter group companies of ABFRL will hold about 55.13 per cent upon completion of the issuance, ABFRL said in a regulatory filing earlier.

Indian insurers prepared to withstand economic downturn: Moody's

PTI ■ MUMBAI

Indian insurance firms are geared to withstand the economic downturn, as premium growth in general insurance segment will remain in positive territory and life premiums will stay broadly flat despite the weakening economy, Moody's Investors Service on Wednesday said.

"Although the economic slowdown has had an adverse impact on Indian insurers, with general insurance growth slowing to 2.5 per cent and life insurers' new business premi-

ums falling by 1.7 per cent in the nine months to December 2020, we expect general insurance premium growth to remain in positive territory," Moody's VP and senior analyst Mohammed Ali Londe said.

This premium growth will be driven by strong demand for health and protection coverage, he added. In the nine months ended December 2020, health premiums grew by 13.7 per cent, helped by rising consumer awareness of these products during coronavirus pandemic and regulatory actions that enabled insurers to offer

protection against the virus.

"We expect health premiums to continue growing strongly into 2021, when we anticipate that India's GDP growth will rebound to 10.8 per cent, leading to a gradual normalisation of economic activity," the agency said.

The growth prospects for general insurance are particularly positive, with the country's general insurance penetration rate standing at just 0.9 per cent. This is less than half the rate for China (2 per cent), which in turn lags behind developed markets such as the

US (8.5 per cent), the report said. According to Moody's, insurers in the country have also responded to the crisis by rapidly developing appropriate products and improving their digital offerings.

"This has led to an increase in sales of health and protection policies, which we expect will drive further growth in the future," it noted.

The report said some Indian insurers' solvency remains inadequate due to weak profitability, resulting from the intense competition in the

The Executive Engineer-II, Urban Development Department, Agartala, West Tripura, invites e-tender against press NIT No. 04/EE-II/UDD/EN/2020-21 Dated: 18-01-2021.

EPFO net new enrolments dip to 10.11 lakh in Nov

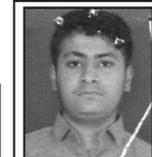

New Delhi: Net new enrolments with retirement fund body EPFO slipped to 10.11 lakh in November from 10.56 lakh in October 2020, according to its latest payroll data released on Wednesday, providing a perspective on formal sector employment.

Provisional payroll data released by the Employees' Provident Fund Organisation (EPFO) last month had shown that net new enrolments were at 11.54 lakh in October 2020. "The provisional payroll of

EPFO released today reveals that it has added around 10.11 lakh net subscribers in the month of November, 2020. Despite the Covid-19 pandemic, EPFO has added around 45.29 lakh net subscribers base in the current financial year (from April to November, 2020).

"The data published comprises members who have joined during the month and whose contribution has been received," a labour ministry statement on the payroll data said.

Govt. of Bihar

BIHAR RURAL ROAD DEVELOPMENT AGENCY (BRDA)
GOVERNMENT OF BIHAR

EXPRESSION OF INTEREST (EOI) cum REQUEST FOR PROPOSAL (RFP)
For Selection of Consultancy Services for Project Management and Construction Supervision of Bridges on Rural Roads in the State of Bihar

BRDDA, RWD, Govt. of Bihar, invites Expression of Interest cum Request For Proposal (RFP) For Selection of Consultancy Services for Project Management and Construction Supervision of Bridges on Rural Roads in the State of Bihar from consultancy firm/agency, qualified & eligible as described in Terms of Reference (ToR) for the selection. The Expression of Interest (EOI) will remain valid for 02 (two) years initially and can be extended on the basis of performance and requirement.

BRDDA, as a step towards Institutional Effectiveness, feels to create Bridge Management Cell at HQ level comprising of some experienced personnel's in the Bridge Sector having expertise in planning, design and construction supervision to take care of the minor/major bridges either being implemented or proposed to be implemented in coming days.

Consultancy Agency selected will have to perform the activities like Planning, monitoring and Supervision of designs and quality of construction activities for bridges. This includes scrutiny of DPRs of different kind of Bridge Structure, along with Signature Bridge all type of bridges and quality Supervision and proof checking of its design before submission to STA / MoRD, GoI.

Interested Consultancy Agency should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The short-listing criteria's are:

- Past experience in carrying out Construction, quality Supervision of Bridges in India funded by multilateral external funding agencies/central government agencies/state government agencies over the past 5) years.
- Annual turnover of the firm for at least the last Five years. (FY 15-16, 16-17, 17-18, 18-19, 19-20) showing at least average annual turnover equivalent to INR 10.00 Cr. in any one of the last 5 financial years. (Consultancy Agency should submit audited financial reports of last five financial years).

The attention of interested Consultants is drawn to the fact that compensation provided for this assignment will be quoted in INR. Consultants may associate with other firms in the form of a **Joint Venture or a Sub-consultancy to enhance their qualifications.**

The EOI documents will be seen/downloaded from our website www.rwdbihar.gov.in/eadvtrdr.bihar.gov.in may be obtained from the office of Secretary, BRDDA from **04.02.2021 (10:00 Hours) up to 11.02.2021 (15:00 Hours)** on payment of **Rs. 5000/- (Non-Refundable)** for each empanelment in form of bank draft from scheduled/nationalized bank in favour of **Secretary, BRDDA, RWD, Bihar** payable at **Patna**. Firms/Agencies downloading EOI document from the website will have to submit the Form/Document fee of **Rs. 5000/- (Non-Refundable)** in form of bank draft at the time of submission of EOI document. **Pre-Bid Meeting will be held on 05.02.2021 at 10:00 Hours** in the Conference Hall of BRDDA. The Department reserves the right to accept or reject any or all the EOIs without assigning any reason.

Documents required for it as follows:-

- (a) The Company/Firm/Agency should have required similar work experience of such type.
- (b) The Company/Firm/Agency must enclose PAN/Service Tax/GST Registration (As applicable)
- (c) Agency must submit the Demand Draft.

As per TOR Interested Consultancy firms may submit Expression of Interest in sealed envelopes clearly superscripted as

'Request for Expression of Interest cum Request for Proposal (RFP) For Selection of Consultancy Services for Project Management and Construction Supervision of Bridges on Rural Roads in the State of Bihar' in one original and one copy upto **11.02.2021** on or before **15:30 Hours** at the address mentioned below:

"Office of Secretary-cum-Empowered Officer, Bihar Rural Roads Development Agency, 3rd Floor, Land Development Bank, Budh Marg, Patna-800001"

The EOI may be submitted personally or through representative by dropping in the tender box of BRDDA or may be sent through Speed post. The EOI received after schedule date and time of submission will not be accepted. Late submission will not be entertained due to delay in postal services.

Trend Blazer

'B'wood doesn't understand my worth'

Singer **NEHA BHASIN** has lately been concentrating on an independent music career lately. She feels Bollywood probably does not understand her worth as an artiste.

"I do not want to sing a random song just because it is of a Bollywood film. I do not want to sing something if my heart is not in it. Having said that, I think so far all the songs I sang are massive hits because they are some of the great compositions and lyrically good. I think Bollywood probably does not understand my worth, it never did. I really made peace with that," Neha said.

Neha started her journey as a singer with the Channel [V] all-girls pop band Viva before going solo.

Shilpa, Amit reunite for new single

Singer Shilpa Rao has joined hands with composer Amit Trivedi on a new single. The new song titled *Rusvaaiyaan*, has been composed by Amit, and sung by Shilpa and Shahid Mallya.

"There are many shades of love. We have seen in the history of music, people make song for lovers when they unite, the anticipation, the realisation the first time you see someone. But the other side of love is also kind of sweet pain that it brings, sometimes it doesn't work out and even if love brings you unhappiness or separation, love is still love and all shades of love have their own glory," said Shilpa.

"With *Rusvaaiyaan*, we are celebrating love in the form of pain that it brings to lovers, and all we trying to put out through the song is that we are all in this together so, even if you feel isolated, we are with you. I hope the song brings hope to people and they can keep having faith in love," she added.

In the non-film space, Shilpa and Amit had earlier collaborated on an upbeat track, *Raavan*. The duo had earlier worked together in films such as *Lootera* and *English Vinglish*.

THE GRIM REALITY

Actor **RICHA CHADHA** says that her forthcoming film, *Madam Chief Minister*, highlights the pertinent issue of caste-based discrimination. By **AYUSHI SHARMA**

The very first poster of the forthcoming film, *Madam Chief Minister* — where a woman held up a broom like a sword and the tagline at the bottom read, "Untouchable, Unstoppable," — raised hackles. Actor Richa Chadha, the lead, who plays a Dalit woman, was accused of stereotyping the community. Despite retracting the poster and the actor issuing an apology, Nawab Satpal Tanwar, the reported founder of *Akhil Bharatiya Bhim Sena*, has been continuously making and uploading videos on social media platforms to instigate violence against the actor and her film. If that was not enough, he even issued death threats and is now offering a reward to anyone who can chop off her tongue. The outrageous act is certainly driven by an agenda to grab eyeballs riding on the coat tails of the popular industry — something which has become the highway to popularity for many.

But Richa, is her nonchalant self as she says, "I don't want to amplify anybody. Let

them watch this film and then we can talk about it." Certainly, she doesn't seem to be intimidated.

The Bhim Army, a Dalit party with national presence, has condemned this threat and said that it is not to be confused with Tomar's Bhim Sena. Actor Swara Bhasker also tweeted in support of Chadha, "This is absolutely shameful and to be condemned in no uncertain terms. You can have ideological issues and problems with a film but this is criminal intimidation and incitement to violence. Ambedkarites, Dalit feminists and just sane people, stand up and call this out!"

The film highlights the pertinent issue of caste-based discrimination. It is the story of a woman from an oppressed community, who defies all odds to scale new heights of political success in Uttar Pradesh. This is the first time Richa plays a political character on screen. She tells us that she has played every role with the same amount of love and zeal and this one is no different.

"Everything I play means something to me and it should convey something to the audience. So, a political character was no different but this one is quite close to my heart simply because she is a woman from a backward community. I wanted to ensure that I play her

to the best of my ability. I have worked very hard for this," says the actor, who was last seen in the biopic, *Shakela*.

"This character is inspired from several real life anecdotes and is not focussed on any one particular leader. My director, Subhash Kapoor, was a political journalist. He met a lot of people and gathered the stories. I think such real life stories are important, especially when you are making a film. It is based on interactions with many leaders. It's everything that we have seen and read about Indian politics, how MLAs behave before and after the election results are announced. So these are some elements of the film," adds she.

In a country like India, where dissent, criticism and negative remarks are not looked upon kindly by the government, can a film like this voice the drawbacks about Indian government without facing challenges? She says, "I don't think this film passes a comment against the Indian or any other government. It's definitely a comment on the ugly reality of gen-

der politics and caste-based discrimination."

Richa feels that in India, the caste system is found in many forms despite there being several laws prohibiting it. There are limits on interaction and behaviour with people from another social status. "I thought it only happens in slums and places that are removed from modern civilisation but that's not the case. When you read about the suicide of Rohith Vemula or the case of Pooja, a medical student and how she was bullied by her own medical practitioners, you realise that the reality is different. I don't know how we are ignoring such things. I hope that this film initiates some kind of a conversation. I learnt a lot about my own self and privilege while working on this," she says.

Let's hope India breaks the shackles of prejudice, discrimination and violence, and the country moves towards the heaven of freedom for all.

(The film releases on January 22. It also stars Manav Kaul, Saurabh Shukla, Akshay Oberoi and others.)

'My character is inspired from several real life anecdotes and is not focussed on any one particular leader. My director, Subhash Kapoor, was a political journalist. He met a lot of people and gathered the stories. I think such real life stories are important, especially when you are making a film'

'I could do all this because I was not associated with any political party. Otherwise I

would have had to ask 100 questions before doing a job like this. Since it was my decision to connect with people and help them, I was able to reach out. Whatever I did, was not about caste or religion. I have been connecting with people a lot over the past year.'

—Sonu Sood

Actor **KUNAL ROY KAPUR** doesn't like malice when it comes to feedback about his acting. He adds that he is up for constructive criticism from the audience.

"I try to make the best of the opportunities that come my way. I don't know whether I am overrated or underrated. I just want to act and get better with each performance. I feel there are many areas where I can improve and there are many genres I would like to explore," Kapur said.

The actor is currently seen in the Kajol-starrer OT-released film *Tribhanga: Tedhi Medhi Crazy*.

Emma on being pregnant

Actor **EMMA ROBERTS** says her close friends helped her through her pregnancy during the COVID pandemic.

"I feel so lucky because literally four of my close girlfriends were pregnant or have had a baby that year," Roberts said.

"So, I have had such a nice support group of other women that either were ahead of me in their pregnancy or on their second baby. I felt so lucky that I had people to text at all hours of the day and night. It's been so nice to have other women to talk to that are going through that. If I was the only one pregnant during this pandemic in isolation, then I would have felt even more isolated," she said, in an episode of *The Drew Barrymore Show*.

Trend tool

Best look forward

Look good to feel good is the mantra for men and women alike across all age groups. Everyone wants to appear on point and fashionably forward at all hours. The year 2020 has seen a major shift in fashion trends across the globe, be it the rise of chic comfortable clothing or trendy face masks to match your mood for the day. Businesses and designers have adapted to the current situation and directly translated their ideas into designs presented through live streamed shows, artful videos, YouTube streams and socially distanced in-person runways.

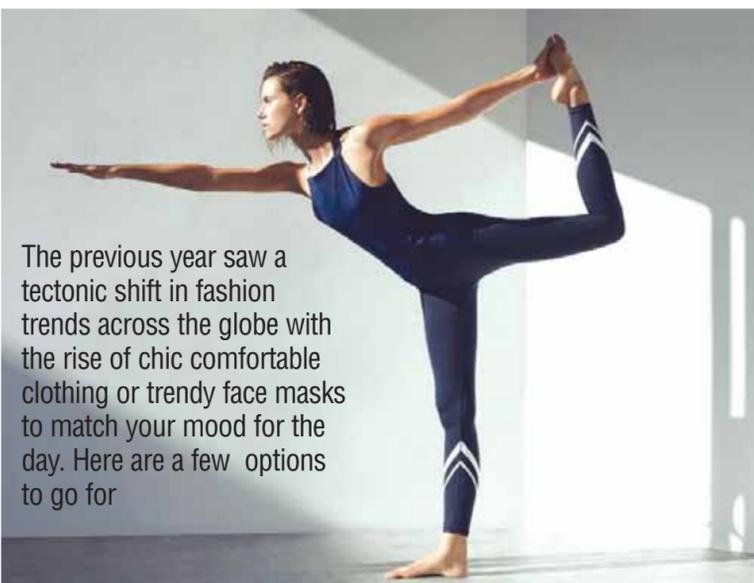

There is a collective hope that this year will be drastically different from the previous one while also bringing us an array of new trends. From 70s-inspired pieces of denim to decadent leather, check out the trendiest selections. Narendra Kumar, creative director, Amazon Fashion India, recommends some of the styles and looks to conquer 2021 fashion like a pro!

FOR HER

Floral print dresses: They never go out of vogue and can be styled in a myriad ways. Pair a bright coloured floral dress with a sleek belt to add shape to the outfit or go bold with a chunky jacket. Finish with a pair of strappy sandals and a bold red lipstick.

Square-neck tops: Unique necklines have been all the rage since the rise of the Zoom culture. Square-neck tops, in particular, look feminine and give you a chance to show off those structured collar bones. Pair these

The previous year saw a tectonic shift in fashion trends across the globe with the rise of chic comfortable clothing or trendy face masks to match your mood for the day. Here are a few options to go for

with a pair of high-rise jeans and a classic pair of sunglasses for a day-to-night look.

Pastel sweaters: Liven up your wardrobe with sweaters in pastels like blush pink or baby blue for a cheerful look. You can also go monotone by choosing accessories like a baguette bag

and sandals in the same colour.

Yoga pants: Yoga pants have managed to slide their way back into our hearts. Workout in style with pants that are comfortable and match your aesthetic. Opt for solid colours or have fun with printed bold neon and animal prints to jazz up your ensemble.

Tank tops: As the athleisure trend continues to pick up speed, so do workout tank tops. A good quality tank top that allows you to move freely is an essential for any kind of workout. The colour options are endless.

Midi kurtas: Sophisticated and feminine, midi kurtas make for the perfect *desi* ensemble. Have fun with different patterns and colour options. You can also opt for a collared neckline to add a touch of elegance. Finish the look

with *jhumkas* and some colorful bangles.

Terracotta-coloured culottes: Terracotta has made a comeback by taking Instagram and Pinterest by storm. Pair them with knee-high leather boots in the colder months or go for classic sneakers in summer.

Colourful bandanas: Bandanas are unquestionably cool and will add some pop to your out-

fit. You can go for bright colours to lift the gloom and pair it with a casual tee or even a sundress. This versatile accessory can be used as a necktie, a scarf or even as a makeshift top if you are feeling adventurous.

Digital watches: A digital wristwatch with a smart yet definitive dial goes well with everything. Find one that complements your personal taste. With intelligent and unique features like heart rate monitor, alarms and timers, a digital watch is a must-have in 2021.

Hoop earrings:

Hoops in all sizes are on the trend watch more than ever now! Whether you are looking for occasion-worthy earrings or an everyday style, these minimalist earrings will add just the right amount of vogue to your overall look.

FOR HIM

Printed polo t-shirts: There's nothing quite like the quintessential polo t-shirt. It's classic, yet simple and suits every occasion. You can also spice up your basic polo t-shirts by adding micro prints like micro-checks, fine stripes and geometric patterns or foliage and paisley prints for casual and evening wear.

Classic denims: Possibly the most versatile bottom wear, denim jeans are a smart and non-fussy piece of clothing. Remember, the most important rule while shopping for denims is that it must fit you well. The versatile garment can be paired with both formal and casual apparel.

Printed hoodies: A hoodie might not be the most fashion forward item in your wardrobe, but a printed one will completely change the game! For a con-

temporary urban outfit, consider pairing a hoodie with a solid coloured bomber jacket or pair it with a long coat for a semi-formal look.

Monotone joggers: They have become the most preferred option for streetwear as it remains stylish and provides optimum comfort, be it indoors or outdoors. Style your pair of bottoms effortlessly with a graphic t-shirt and black Vans to go for that carefree look.

Grey pastel trousers: Be it a casual outing with friends or a conference at your workplace, a pair of grey pastel trousers can always work! Wear them with a teal coloured blazer and a printed t-shirt to complete that casual yet classy look.

Geometric print shorts: Slip into a pair of comfortable geometric print shorts this year to embrace the work-from-home culture. Pair it with your favourite casual t-shirts and capris. To complete the look, pair with a brown or black hat.

Colorful sneakers: Sneakers have now become a staple in everybody's wardrobes. However, the shade-card has drastically changed from monotone and become less rigid. This year has seen a wide array of styles in shoes, especially in its colour mix, and the trend will continue in 2021 as well.

Earthy fragrances: An earthy fragrance adds a great sense of depth and warmth with natural elements coming to life through the senses. Dab a woody or a pine-scented perfume. Remember to choose one that is not too overwhelming.

BRIDGING THE GAP

With the inauguration of Kevadiya rail line by PM NARENDRA MODI, the Statue of Unity now has seamless connectivity

The world's tallest statue — 'Statue of Unity' of Iron Man Sardar Vallabhbhai Patel at Kevadiya came on Indian Railway's map on Sunday. On this occasion, PM Narendra Modi inaugurated the Dabhoi-Chandod rail line (18 km), new broad gauge railway line from Chandod to Kevadiya (32 km), newly electrified Pratapnagar-Kevadiya section (80 km), the new station buildings of Dabhoi Junction and flagged off eight new trains from various destinations to Kevadiya through video conferencing. With this milestone, a seamless connectivity by rail has been provided to pilgrims, passengers and tourists from different parts of the country visiting the various holy places nestled on the banks of river Narmada and other places of interest in the vicinity of the statue.

According to a press release issued by Sumit Thakur — Chief Public Relations Officer of Western Railway, Piyush Goyal, Minister of Railways, Commerce & Industry, Consumer Affairs, Food & Public Distribution, Govt. of India virtually addressed the event from H. Nizamuddin. This was followed by a speech from Vijaybhairu Rupani, Gujarat CM at Kevadiya and a short film showcasing the various milestones attained in commissioning the rail line and accomplishing the project within the set time. Uddhav Thackeray, CM, Maharashtra, Yogi Aditya Nath, CM, Uttar Pradesh, Shivraj Singh Chauhan CM, Madhya Pradesh and Arvind Kejriwal, CM, Delhi also attended virtually.

On the occasion, Acharya Devvrat, Governor of Gujarat, Gitaben V. Rathva — Member of Parliament, Chhota Udepur and Alok Kansal — General Manager of

W. Rly were also present. Nitinbhai Patel, Deputy CM of Gujarat attended the joint event virtually at Ahmedabad station. The inaugural function was also attended at Pratapnagar station by Yogesh Patel, Minister of State of Narmada & Urban Housing, Govt. of Gujarat, Ranjanben D. Bhatt — Member of Parliament, Vadodara, Rajendra Trivedi, Speaker, Manisha Vakil, MLA and Seemaben Mohile, MLA. At Ahmedabad station, members of Parliament Dr. Kirit P. Solanki, Hasmukhbhai S. Patel and Narahari Amin attended the event. MPs Rahul Shewale, Gopla Shetty and Arvind Sawant alongwith MLAs Mangal Prabhat Lodha, Tamil R. Selvan and Kalidas Kolambkar were present at Dadar station. Sunet Sharma — Chairman & CEO, Railway Board along with its members, and various senior railway officers were also present through web link. Renowned celebrities from arts, music and sports attended the event virtually. All passengers trav-

eling in the inaugural trains from Kevadiya, Ahmedabad, Dadar and Pratapnagar were presented with tickets to commemorate this historic event.

Various passengers shared their experience and felt proud to participate in the mega event. Rajasthan Meter Gauge Pravasi Sangh, President, Vimal Ranka, ZRUCC Member & General Secretary of Mumbai Rail Pravasi Sangh, Kailash Verma and ZRUCC Member Yogesh Mishra appreciated the efforts and expressed gratitude for these development projects.

The details of the project are summarised as under:

SALIENT FEATURES:

- The project was sanctioned at a cost of ₹811 cr.
- Land acquisition for new line project was completed on July 2020 and the project has been commissioned in five months.
- It has seven stations with three major (crossing) stations and four

minor (halt) stations. □ Out of these, four stations are new — Moriya, Tilakwada, Garudeshwar and Kevadiya.

□ There are eight major bridges, 79 minor bridges, nine road over bridges and 31 road under bridges.

□ The sectional speed between Pratapnagar-Dabhoi has been raised from 75 kmph to 110 kmph in a span of 75 days and Dabhoi-Kevadiya section has been built with 110 kmph. The speed of the entire section from Pratapnagar-Kevadiya will be further enhanced to 130 kmph.

□ The station buildings at Dabhoi junction, Chandod and Kevadiya have been designed aesthetically incorporating local features and modern passenger amenities. Also, Kevadiya station is India's first railway station with a green building certification since inception of construction.

□ Modern engineering techniques and equipment such as Mobile Flash Butt Welding machines, Ready

Mix Concrete (RMC), Heavy Earth Moving equipment, Heavy duty Road Cranes & Track Machines were deployed to quicken the pace of civil engineering work.

□ A unique technical solution for design of minor bridges has been adopted by using locally available RCC hume pipes. This has not only reduced execution time but has also garnered a savings of approx ₹ 27 cr.

□ Innovative technologies such as Factory Acceptance Test (FAT) & Sight Acceptance Test (SAT) for electronic interlocking signalling system through virtual mode (during COVID-19 pandemic) have been used to speed up the signalling works and to reduce commissioning time.

□ Tower Wagons, Over Head Equipment (OHE) wiring train were utilised for expedition of electrification works.

BENEFITS OF THE PROJECT:

□ Providing seamless rail connectivity to the world's tallest statue from various directions of the nation.

□ The new Kevadiya Railway station is located approximately 6.5 km away from 'Statue of Unity'.

□ The alignment passes through the tribal belt of Vadaj-Chandod-Moriya-Tilakwada-Garudeshwar and will bring development to the area/region.

□ It will also provide connectivity to important religious and ancient pilgrim places on the banks of river Narmada such as old temples at Karnali, Poicha and Garudeshwar.

□ It will boost both, domestic and international tourism.

□ It will act as a catalyst for overall socio-economic development of the region.

□ It will generate new employment and business opportunities.

NTPC breaks record

NTPC group generated its highest ever gross generation of 1009 million units on Monday. The achievement reinforces the group's commitment towards excellence in operation across its power stations.

Recently, as per the data published by Central Electricity Authority (CEA), NTPC Singrauli Unit 1 in Uttar Pradesh (UP), which had commenced operation 38 years ago, achieved the highest Plant Load Factor (PLF) of 100.24 per cent for the period (April to December 2020). This

reflects the operation and maintenance capability of the group.

The group has achieved gross cumulative generation of 222.4 billion unit (BU) from April to December 2020, an increase of 3.8 per cent compared to the same period last year.

NTPC being an essential service provider, has maintained operations at its power stations during the lockdown phases while adhering to all the COVID related guidelines issued by the government.

INMAS and CRPF launch bike ambulance

Central Reserve Police Force and CDRDO's Institute of Nuclear Medicine and Allied Sciences (INMAS) launched a bike ambulance RAKSHITA at CRPF Headquarters in New Delhi. Dr. A.P. Maheshwari, DG CRPF and Dr. A.K. Singh, DS & DG (LS), DRDO unveiled the bike ambulance developed by INMAS in collaboration with CRPF for golden hour life saving aid and evacuation.

DG CRPF expressed his gratitude to the team for their unrelenting efforts put in developing the bike ambulance and commended their tireless dedication and professional efficiency.

While expressing his deepest gratitude to DG CRPF for working together, giving regular inputs throughout the journey of the development of this life saving bike and entrusting INMAS with this innovation, Dr. A.K. promised to co-operate perpetually with CRPF for further improvements in 'Rakshita bike'.

In its endeavour to provide internal security to the nation, CRPF is deployed across the country. Most of these deployments are in remote and inhospitable areas like LWE affected areas, North East etc. where evacuation of sick or battle injured personnel becomes a challenge. Often, late evacuation results in loss of precious lives of the bravehearts. To mitigate this, in 2018 CRPF approached INMAS with the idea of developing an ambulance on motor bikes which is frequently used by CRPF for patrolling in these theaters. INMAS promptly put up a team of scientists and experts to make the idea a reality. The team developed a

prototype and improved it with the feedback from CRPF personnel deployed in disturbed areas.

Carefully custom built to the needs of emergency evacuation, 'Rakshita' is built on a Royal Enfield Classic 350CC and comes with quick fit in and fit out casualty evacuation seat (CSE) that has customised design reclining, hand immobiliser and harness jacket, physi-

ological parameter measuring equipment with monitoring capability and auto warning system for driver, dashboard mounted LCD for measuring vital parameters, air splint medical and oxygen kit, saline and oxygen administration on the move, adjustable footrest and hand and foot strap for safety among others. 21 bike ambulances were inducted into CRPF recently.

IN SHORT

RITES Ltd has been awarded winner under the 'Plaque' category at the ICAI Awards for Excellence in Financial Reporting 2019-20. RITES' Director (Finance) Bibhu Prasad Nayak and Chief Financial Officer Parmod Kumar Narang received the award from Union Minister of State for Parliamentary Affairs and Heavy Industries and Public Enterprises Arjun Ram Meghwal.

Despite the adverse financial circumstances arising out of the pandemic, the Government of Rajasthan has shown its commitment to the all-round development of the state. All work is being done under the guidance of the CM Ashok Gehlot. The PD account system has been implemented in place of bank accounts for the payment of all departments, state institutions as well as Panchayat Raj institutions and autonomous ones. It is worth mentioning that the PD account is a kind of bank account operated by the state government. The state ensures consolidation of these institutions even in odd financial situations.

GGSIU celebrates Guru Gobind's birthday

Guru Gobind Singh Indraprastha University celebrated Guru Gobind Singh ji's birth anniversary with full fervor through shabad kirtan and ardas followed by a blood donation camp.

The celebration started with the inauguration of blood donation camp by the Vice Chancellor of the University Padma Shri professor Mahesh Verma in presence of Atul Garg, Director, Delhi Fire Services as guest of honour and other senior army officers.

Around 100 units of blood was collected by Indian Red Cross Society. The Vice Chancellor, who is also a senior doctor, encouraged the donors with a motivation saying, "Blood donation is not a small donation, especially on this auspicious day of the birth anniversary of Guru Gobind Singh ji, who sacrificed his entire life and family for the sake of humanity."

A dialogue on the 'New Education Policy 2020 — NEP Outreach', was organised by the Nehru Centre, London with National Book Trust, India (under Ministry of Education) as the nodal agency, on Monday.

Speaking on the occasion, Ramesh Pokhriyal 'Nishank', Minister of Education, Govt. of India said that under the leadership of PM Modi, the NEP-2020 has been implemented with a futuristic mindset, thereby turning the challenges into opportunities. It will equip India to hold a position in the global knowledge system while maintaining and developing its traditional knowledge system. "Through the policy, we are hoping to transform education and putting a significant thrust on learning about how to think critically and solve problems, how to be creative, multidisciplinary and how to innovate, adapt and absorb new material in the novel and changing fields. Pedagogy is expected to evolve to make education more experiential, holistic, integrated, inquiry-driven, discovery-oriented, learner-centered, discussion-based, flexible and enjoyable," the minister added.

Vinay Sahastrabudhe, President ICCR, in his opening remarks said that the NEP-2020 is one of the greatest reforms. Hon Jo Johnson, Educationist, Former

A dialogue on NEP

Minister for Universities, Science, Research & Innovation, United Kingdom, lauded India's NEP-2020 as an event of global significance and as a policy that will turn India into a global knowledge superpower, emphasising its strong focus on early years, teachers, universal numeracy and literacy. He also

mentioned that the exciting fact about NEP-2020 is that it proposes to shift the mode of assessment from summative to formative, testing higher order skills like critical thinking, analysis and conceptual clarity.

Johnson and Dr. Pokhriyal also engaged in a dialogue on various

provisions of the NEP-2020, such as teacher training, entry of top 100 foreign universities in India and education in Indian HELs.

The engaging event was moderated by Amish Tripathi, Minister (Culture), High Commission of India, UK and Director, The Nehru Centre.

Kolkata Metro will run 118 services on Republic Day instead of 240 services in an interval of 15 minutes. The first service will start from both ends i.e. from Dum Dum and Kavi Subhash at 7 am and from Noapara at 7.09 am as usual. Only smart cards will be permitted. No tokens will be issued.

It was informed by Housing Commissioner Pawan Arora that Rajasthan Awasthan Mandal has set a record by registering 50 projects in RERA in the shortest time.

On this occasion, RERA Chairman, N.C. Goyal congratulated Commissioner Pawan Arora. It includes 46 projects of group housing scheme and four projects of plotted development scheme.

Warne predicts huge fall out in Oz team

We were scared to lose: Clarke

PTI ■ BRISBANE

The legendary Shane Warne believes the embarrassing Test series loss to an under-strength India will result in a "huge fallout" in the Australian team and said a few heads could roll in the coming days.

India recorded one of their most memorable wins on Tuesday when they defeated a full-strength Australia by three wickets in the fourth Test here to pocket the four-match series 2-1 and retain the Border-Gavaskar Trophy.

"I think there'll be a huge fallout from this (defeat). There's not too many times that you lose to the second or third (choice) side," Warne was quoted as saying by Fox Cricket.

"Their (Australia) tactics will come into question, and they have to. Bowlers will come into question, people's spot in the team will come into question. It has to. You can't just deflect it and flick it off and say India were too good for us," he added.

Warne was, however, effusive in his praise for the Indian team which braved injuries to its key players and absence of regular skipper Virat Kohli after the first Test on paternity leave to emerge triumphant.

"That's not taking anything away from those Indian guys that played but their first selection side, there's probably only two or three players in that side who would play."

India's Cheteshwar Pujara, second left, is congratulated by Australia's Matthew Wade after defeating Australia by three wickets on the final day AP

The spin legend said Australia didn't grab their chances in the series.

"Yes they were, but Australia had so many chances in this series to bury it and crush India, but they couldn't do it. They just couldn't do it," he said.

Warne was also critical of Tim

Paine's captaincy and said the wicket-keeper didn't own up responsibility for his failed tactics.

"I think at times their tactics haven't been good enough, and I suppose that's got to come down to Tim Paine as captain," he said.

"It's not just Tim Paine's fault, the bowlers are allowed to say 'Tim I want to do this', so it's a combination between the bowlers and the captain. But at the end of the day, you are captain, you have to take responsibility. He'll be disappointed."

"Their (Australia) tactics will come into question, and they have to. Bowlers will come into question, people's spot in the team will come into question. It has to. You can't just deflect it and flick it off and say India were too good for us,"

PTI ■ MELBOURNE

Former captain Michael Clarke has criticised Australia's "negative" approach in the Test loss to an under-strength Indian team, saying the hosts, instead of pushing aggressively for wins, seemed scared of defeat.

Clarke, however, refused to blame team leader Tim Paine for the unthinkable Test series defeat at home. An injury-ravaged India beat Australia by three wickets in the final game in Brisbane on Tuesday to win the series 2-1 and retain the Border-Gavaskar Trophy. "I thought we might have been a tad neg-

ative at certain stages throughout because we were scared to lose versus attack hard and look to win the game," Clarke said on Big Sports Breakfast.

Clarke said it was the negative mindset that pegged Australia back.

"At the end of the day, whether we lost with 20 overs left in the game or on the last ball of the game, it didn't matter. We had to win that game to win that trophy."

"I sort of feel we should have approached the first ball of that game to the last ball of that game with a bit more of that attitude."

Clarke said there was a time when the buck stopped with the captain but it should not be the case anymore since there are other professionals, who call the shots in the Australian set up.

"When I played cricket, when I grew up watching my father ... The captain was accountable in the teams I played in. Through that transition of me captaining Australia, that changed."

"There had become a chairman of selectors that had more pull, there had become a high performance manager that had more pull, there had become a head coach who had more pull," he said.

CA lauds India for epic win

PTI ■ MELBOURNE

Cricket Australia on Wednesday saluted the Indian team's "resilience, courage and skill" during its historic Test series win over the hosts and expressed gratitude to the BCCI for the "sacrifices" it made to ensure a smooth conduct of the epic contest.

A second-string Indian team, led by Ajinkya Rahane, braved all odds to defeat a full-strength Australia by three wickets at the Gabba here to win the four-Test series 2-1 and retain the Border-Gavaskar Trophy on Tuesday in Brisbane.

"On behalf of everyone at Cricket Australia, we congratulate Team India for their resilience, courage and skill demonstrated in retaining the Border-Gavaskar Trophy in a series that will be talked about for generations to come," CA wrote in a Thank You note to the BCCI.

The note, written by CA interim CEO Nick Hockley and Chair Earl Eddings, was addressed to "friends in Indian cricket," the BCCI, acknowledging the role played by the Sourav Ganguly-led board in successfully completing the tour amid the COVID-19 pandemic.

"Australian cricket will forever be grateful to the BCCI for their friendship, trust and commitment in helping to deliver a series that has brought joy to many millions of people around the world at a time they needed it most," the letter read.

"The unique challenges of inter-

national touring during a global pandemic are considerable and we thank India's players, coaches and support staff for all they have given.

"Over the past nine weeks, the Indian and Australian men's teams completed outstanding One-Day International and Twenty20 International series, followed by one of the greatest Border-Gavaskar Test series ever competed," it added.

Pant is now best-ranked keeper

PTI ■ DUBAI

India's Rishabh Pant became the top-ranked wicket-keeper batsman in the world after his sensational series-winning 89-run knock in the Brisbane match pushed him to a career-best 13th spot in the ICC Test batting rankings, issued on Wednesday.

Pant, who won many admirers for his fearless and mature batting, has 691 points in his kitty. South Africa's Quinton de Kock (677) is the next best wicket-keeper batsman in the list in the 15th position.

Australia batsman Marnus Labuschagne's first-innings century in Brisbane took him past India skipper Virat Kohli (862 points) to third position with a career-best 878 rating points. Kohli missed the action as he was on paternity leave.

Young India opener Shubman Gill continued his upward trajectory, moving up from 68th to 47th spot after a crucial 91 in the second innings of the fourth Test, which India won by three wickets on Tuesday.

Middle-order mainstay Cheteshwar Pujara moved up one place to seventh after his dogged effort, while Mohammad Siraj jumped 32 places to 45th after taking six wickets in the match, including

Rishabh Pant plays a pull shot during final day of the third test match AP

a five-wicket haul in the second innings.

Debutant Washington Sundar and Shardul Thakur too gained in rankings following their useful contributions with both bat and ball.

Washington entered the rankings in 82nd (batting) and 97th (bowling) positions, while Thakur re-entered the batting list in 113th position and bowling list in 65th position.

Australia captain Tim Paine

50% crowd likely for Eng Tests

PTI ■ NEW DELHI

The BCCI brass is seriously contemplating allowing 50 percent crowd attendance at both Chepauk and the newly constructed Motera Stadium during India's upcoming four Test matches against England.

The first two Tests will be held in Chennai, beginning on February 5, while the next two will be played at the renovated stadium at Motera in Ahmedabad.

The BCCI is believed to be taking a cue from Cricket Australia which had allowed entry of spectators during the India series that concluded on Tuesday.

"As of now, we are likely to allow 50 percent spectators for the four Test matches. The BCCI is in talks with both state cricket associations (TNCA and GCA) and also state health authorities," a senior BCCI source told PTI on conditions of anonymity.

However, the BCCI is also factoring the fluid public health situation due to the COVID-19 pandemic and if case load in either Chennai or Ahmedabad increases, then the decision will change accordingly.

"If you allow 50 percent crowd with all necessary precautions, then it will be an indicator if we can also allow spectators during IPL in India," the source said.

In Ahmedabad, which can hold over one lakh spectators, spacing of seats to maintain social distancing will not be an issue.

Meanwhile, England and Wales Cricket Board (ECB) will name the squad for first two Test matches against India on Thursday.

This is the first time that a touring team is not naming a squad for full away series keeping the workload management of its players in mind.

The fact that Chennai and Ahmedabad will have two separate bio-bubbles and the teams will travel by chartered flight within the country may also be the reason that England, like the Indian team, decided to name its squad for two Tests.

Shakib returns with 4-8

AP ■ DHAKA

Shakib Al Hasan claimed 4-8 on his return to international cricket as Bangladesh made a winning start to the three-match ODI series by beating West Indies by six wickets in the opening game on Wednesday.

All-rounder Shakib was back after being given a two-year ban by the International Cricket Council in October 2019, with one year suspended, for failing to report approaches from a bookmaker.

Thanks to his wily left-arm spin, Bangladesh bowled the tourists out for 122 in 32.3 overs before reaching 125-4 with 97 balls to spare in reply.

Debutant Hasan Mahmud and fellow fast bowler Mustafizur Rahman also played key roles for the home team, taking 3-28 and 2-20 respectively.

Rain held the players up for about an hour after Bangladesh captain Tamim Iqbal won the toss and asked

West Indies, featuring six ODI debutants, to bat.

Shakib, in his first game for Bangladesh since the 2019 World Cup, bowled seven overs in a row and ripped through the middle order as West Indies lost three wickets for 11 runs.

Debutant Kyle Mayers and Rovman Powell, who hit two sixes, provided some resistance with a partnership of 59 for the sixth wicket.

Mahmud picked up his first wicket by having Powell caught behind for 28 and followed up by trapping Raymon Reifer lbw for naught with his next ball.

Mayers top-scored with 40 before being undone by a Mehidi Hasan delivery that spun sharply.

Tamim, captaining the side for the first time after being appointed last March, then gave Bangladesh a flying start to its reply by hitting 44 before being stumped off West Indies captain Jason Mohammed.

Maxi, Malinga released, Raina retained

PTI ■ NEW DELHI

Chennai Super Kings retained veteran Suresh Raina for the upcoming IPL-14. The deadline for the eight franchises to submit the lists of retained and released players for the next edition of the lucrative league ended on Wednesday.

Also released by KXIP were West Indies all-rounder Sheldon Cottrell, Afghanistan's Mujeeb-ur-Rahman and New Zealand's Jimmy Neesham, who underwent a surgery recently to treat an injured finger.

CSK's Harbhajan Singh and Mumbai Indians' Lasith Malinga were among the other big names to be released by their respective sides ahead of next month's auction.

Harbhajan was joined by the likes of Kedar Jadhav, Piyush Chawla and Murali Vijay who were also let go by the franchise.

Also released by MI was Sherfane Rutherford, while Delhi Capitals decided to enter the next edition without English batsman Jason Roy, wicket-keeper Alex Carey, leg-spinner Sandeep Lamichhane and seamer Mohit Sharma.

Malinga had been a prominent part of MI's title-winning campaigns in the past though he was not there last time due to personal reasons.

The seasoned Raina was retained by the Mahendra Singh Dhoni-led CSK notwithstanding his sudden departure from the last IPL in the UAE.

It is believed the three-time winners decided to continue with Raina in order to bolster the batting order that struggled during a forgettable last season, which culminated in a seventh-place finish and a league-stage elimination for the first time since the tournament's inception in 2008.

The left-handed Raina has been

Glenn Maxwell bats during practice session KXIP/Twitter

an integral part of the Super Kings from the beginning, emerging as their highest scorer while guiding them to two IPL titles.

Stoinis made useful contributions in the 2020 edition and helped the Capitals reach their first-ever IPL final.

Batting mostly in the middle order, he amassed 352 runs at an average of 25.14 and a strike rate of 148.52. With the ball, he took 13 wickets at an economy of 9.53.

The Delhi-based franchise retained a total of 19 players including six overseas players.

KKR will be going into next month's auction with a 17-member squad after having released only five players from the team.

The two-time champions have released Tom Banton and Chris Green among the foreign players and Siddhesh Lad, Nikhil Naik and M Siddharth among the Indians.

After Wednesday, RCB's total

Sanju to lead RR now, Smith released

PTI ■ NEW DELHI

Sanju Samson replaced Steve Smith as Rajasthan Royals captain after the Australian batsman and some other under-performing stars were released by their respective IPL franchises.

Samson was appointed to the top job after RR decided against renewing former skipper Steve Smith's contract.

"As the IPL has grown, the captaincy has become a year-round task, and as such strong local Indian leadership has become increasingly important," said RR owner Manoj Badale in a statement.

"Sanju made his debut as a Royal, and it has been a joy to watch his development over the last 8 years. He is the ideal person to lead the Royals into the 2021 season," he added.

Smith's contract ended in October 2020. The Australians,

smarting from a Test series loss to an injury-plagued India, took a hit as the likes of the explosive Glenn Maxwell and opener Aaron Finch too were released by Kings XI Punjab and Royal Challengers Bangalore respectively.

Under Smith's captaincy, inaugural edition champions RR finished last in the 2020 IPL when the star Australian batsman played all the 14 league matches, scoring 311 runs at a strike rate of 131, including three half-centuries.

Ahead of the 2018 IPL, Smith was the only player retained by the Royals for Rs 12.5 crore. The same year, he was appointed as the captain.

However, his impact came under the scanner after the team's disastrous outing in the UAE last year.

"I am excited about the challenge that lies ahead of me as the leader of the team," said new captain Samson.

purchase increased from Rs 6.4 crore to Rs 35.7 crore, Delhi Capitals' swelled to Rs 12.8 crore from 9 crore, Rajasthan Royals' purse jumped to 34.85 crore from Rs 14.75 crore, Kings XI Punjab saw an exponential rise from Rs 16.5 crore to Rs 53.2 crore, and Sunrisers Hyderabad went

from Rs 10.1 crore to Rs 10.75 crore. Two-time winners KKR's purse went up from Rs 8.5 crore to Rs 10.85 crore and from Rs 15 crore, three-time champions CSK's amount in the kitty increased to Rs 22.9 crore. Mumbai Indians were left with a purse of Rs 15.35 crore.
