HARYANA EX-CM OP CHAUTALA TO WALK FREE
New Delhi: Former Haryana Chief Minister OP Chautala, who is serving a 10-year prison term in a teacher recruitment scam case and is out on parole, will be freed from Tihar jail as the Delhi Government has granted a six-month remission of sentence, officials said.

MONSOON LIKELY TO ELUDE DELHI TILL JUNE
New Delhi: Delhi is unlikely to receive monsoonal showers till the end of June and the maximum temperature in the city is predicted to hover around 40 degrees Celsius till then, according to the IMD.

KARNAM MALLESWARI IS SPORTS VARSITY'S 1st VC
New Delhi: India's first female Olympic medalist Karnam Malleswari has been appointed the vice-chancellor of Delhi Sports University, Chief Minister Arvind Kejriwal said.

PRASHANT KISHOR MEETS PAWAR FOR 3RD TIME
New Delhi: Political strategist Prashant Kishor met NCP supreme Shirdar Pawar on Wednesday, a day after leaders of eight Opposition parties gathered at Pawar's residence and discussed various issues facing the country.

INDIA PROUD OF ITS OLYMPIANS: PM MODI
New Delhi: On the occasion of Olympic Day, Prime Minister Narendra Modi said India is proud of the contributions made to sports by athletes who have represented the country at the Olympics over the years.

J&K political future hinges on all-party meet outcome

Centre to break ice with J&K leaders today

MOHIT KANDHARI ■ JAMMU

The return of political normalcy in Jammu & Kashmir and conduct of elections will largely depend on the outcome of the crucial all-party meet convened by the Prime Minister Narendra Modi with the leaders of the Union Territory in New Delhi on Thursday.

Former Jammu & Kashmir Chief Minister and PDP chief Mehbooba Mufti arrived in Delhi on Tuesday. Though the meeting is taking place in the national Capital, the security has been beefed up all across the Union Territory of J&K. A high alert has also been sounded along the Line of Control and the International border to prevent any misadventure from anti-national elements at this crucial juncture.

After the abrogation of Article 370 on August 5, 2019, it is for the first time that more than one dozen leaders from the region, including four former Chief Ministers and four Deputy Chief Ministers, would be sitting together under the

A security official stands guard ahead of Prime Minister Narendra Modi's meeting with political leaders from Jammu & Kashmir, in Srinagar on Wednesday. This will be PM Modi's first interaction with all the mainstream political parties of Jammu & Kashmir since August 5, 2019, when the Centre abrogated the States special status and bifurcated it into two Union Territories: J&K and Ladakh

same roof with the Prime Minister to share their opinions and give suggestions to kick-start the stalled "internal" dialogue process.

Now the question arises in the absence of any concrete agenda of the meeting, whether the Centre Government would be able to break the ice or the mainstream leaders would return home empty handed.

Inside reports suggested the Central Government is keen on pushing the agenda of timely completion of process of delimitation of Assembly constituencies so that Assembly polls can be organised in due course of time. Voices have been raised in support of restoring the statehood of Jammu and Kashmir as part of biggest confidence building

measure. The same demand has been raised by the leaders from both the regions and the Union Government too is committed to grant statehood to J&K at an appropriate time.

Sources said that while the Centre may agree to restore statehood to J&K minus Ladakh, it will not bring back Article 370 at any cost.

Delta Plus variant cases double in 24 hrs in India

ARCHANA JYOTI ■ NEW DELHI

Karnataka on Wednesday joined the list of States reporting infectious Delta Plus variant of Covid-19, a mutated version of highly contagious Delta variant, taking the total number of reported cases to 46 across the country, more than doubling a day after the reported 22 cases on Tuesday.

Maharashtra tops the list so far with 21 cases followed by Kerala and Madhya Pradesh which are already on alert. The Centre has issued them advisory amid concerns over likely third wave of the pandemic in the country in the next few months. Presently, the

A medic collects a swab sample from a man for Covid-19 testing in New Delhi on Wednesday

Covid-19 IN INDIA

TOTAL CASES: 3,00,81,484 (+53,601)

DEATHS: 3,92,004 (+1,313)

RECOVERED: 2,90,55,058 (+67,579)

ACTIVE: 6,22,596

MAHA: 58,97,587 (+10,066)

KERALA: 28,42,248 (+12,787)

K'TAKA: 28,19,465 (+4,436)

TN: 24,43,415 (+6,596)

DELHI: 14,33,366 (+588)

Delta Plus virus is prevalent in nine countries across the world — the US, the UK, Portugal, Switzerland, Japan, Poland, Nepal, China, and Russia. However, the Delta variant has been detected in 80 countries.

Detected for the first time in India and now known as "Variant of Concern", experts fear that the virus may be lurking in more parts of India, for which genome sequencing is a key to detect these cases. They said it is just a matter of time when more cases will trickle in from other States.

Karnataka Health Minister Dr K Sudhakar Karnataka on Wednesday confirmed the two cases, one of which is from Bengaluru, while the other is from Mysuru. He said that the information has been shared with the Union Health

Ministry and a further course of action is being planned.

The Minister said the State Government is monitoring the emergence of new variants and it has decided to set up six genome labs in the State. "Wherever we have a suspicion, we are doing genomic sequencing. We are doing random checks of five per cent of the total samples checked."

The strain has been tagged as a "Variant of Concern" by the Centre.

"The new Delta Plus variant of the coronavirus is extremely transmissible, and even walking next to a Covid-19 patient who is a carrier of this variant without a mask may lead to the spread of infection," AIIMS director Randeep Guleria said to a news channel.

DAMAGE-CONTROL: MLA Fatehjung writes to high command refusing 'Govt job' offer to son

MONIKA MALIK ■ CHANDIGARH

Congress party, it seems, has switched into a damage control mode as the controversy over giving Government jobs to the two legislators' sons on "compassionate grounds" refused to die down, dividing the Punjab party unit.

As a part of the same, Qadian MLA Fatehjung Bajwa has turned down the State Government's job offer to his son Arjun Fatehjung Bajwa. At the same time, the party leadership is also reportedly in talks with Ludhiana North MLA Rakesh Pandey expecting the same.

Notably, the Cabinet, in its June 18 meeting, has decided to appoint sons of two Congress MLAs — Arjun Pratap Singh Bajwa (Fatehjung Bajwa's son) as Punjab Police Inspector; and Bhisam Pandey (Rakesh Pandey's son) as Naib Tehsildar on "compassionate grounds" as "special cases".

The move came more than 30 years after both the appointees had lost their respective grandfathers in terrorist attacks in 1987. While Fatehjung's father, Satnam Singh Bajwa, who was also the former Minister, was killed in a terrorist attack in Amritsar;

The move came more than 30 years after both the appointees had lost their respective grandfathers in terrorist attacks in 1987

Pandey's father Joginderpal Pandey was killed by terrorists in Ludhiana when insurgency was at its peak in Punjab.

Fatehjung Bajwa, it has been learnt, has given in writing to the party high command that he does not require a government job for his son.

Sources informed The Pioneer that Punjab party affairs in-charge Harish Rawat has approached the Qadian MLA asking him to give in writing that he did not require the job. On visit to Delhi a day before, Fatehjung handed over the letter to Rawat. Reports are that Rawat would also talk to Pandey to follow the suit.

Notably, Fatehjung's elder brother and party's Rajya Sabha MP Partap Singh Bajwa had appealed to the two Congress MLAs to reject the

government's proposal.

Even as the party high command was engaging in resolving the power struggle between the top Punjab leaders, a new controversy hit the party and the State Government hard over the Cabinet's decision to give jobs to sons of two Congress MLAs.

Five Cabinet Ministers — Sukhjinder Singh Randhawa, Tripat Rajinder Singh Bajwa, Razia Sultana, Charanjit Singh Channi, Sukhbinder Singh Sarakaria, Chanrjit Singh Channi — have opposed the move.

Besides, Punjab Congress president Sunil Jakhar, dubbing the decision as "wrong", had requested the Chief Minister for its review. Other than that, Congress MLAs Kuljit Nagra, Amarinder Singh Raja Warring, Pargat Singh, Harjot Kamal, have also questioned the government's move, besides Navjot Singh Sidhu and Pargat Singh.

Fatehgarh Sahib MLA Nagra had stated that the people's representatives must work for the people and not for personal gains. "The Cabinet should rollback the decision. We should meet the promise of 'Ghar Ghar Naukri' instead of giving jobs to the kin of MLAs who don't need it," he had stated.

Appealing to the MLAs not to accept the jobs being offered to their sons, Gidderbaha MLA Warring stated that it would "amount to cheating with the common man".

Pargat Singh had, in fact, gone to the extent of calling

the move as "horse-trading". Moreover, Punjab Youth Congress president Barinder Singh Dhillon also expressed dissatisfaction with the move saying that the needy need it first.

On the other hand, nine Cabinet ministers and four

Congress MPs, and some of the MLAs from Ludhiana, have backed the State Government's decision, calling it "correct and in line with appointments given to similarly situated persons in the past".

Defending the decision,

Capt Amarinder had made it clear that there was "no question of rescinding the Punjab Cabinet decision on jobs for sons of two Congress MLAs. It is just a small token of gratitude and compensation for the sacrifices of their families. It's shameful that some peo-

ple are giving political colour to this decision".

Available information suggests that the AICC three-member panel had also sought the Chief Minister's clarification on the decision during the three-hour long meeting a day before.

Dawood's nephew Iqbal Kaskar held by NCB in drugs case

TN RAGHUNATHA ■ MUMBAI

Mohammed Rizwan Iqbal Kaskar, nephew of Karachi-based underworld don Dawood Ibrahim Kaskar, was on Wednesday arrested by the Narcotics Control Bureau (NCB) in connection with a drug-related case. Armed with a production warrant, the NCB picked up Iqbal from Thane prison — where he has been lodged for past five years — and taken to the NCB headquarters for questioning. After several hours of questioning, Kaskar was placed under arrest.

Kaskar's name had cropped during the interrogations of several accused arrested in connection with the seizure of drugs made in central Mumbai. Detailed report on P5

Guv meddling in House affairs: WB Speaker to Birla

PNS ■ KOLKATA

With the relationship between Governor Jagdeep Dhankhar and Chief Minister Mamata Banerjee continuing to deteriorate in the wake of his regular talk about the worsening law and order situation, Bengal Assembly Speaker Biman Banerjee has reached out to Lok Sabha Speaker Om Birla accusing Raj Bhavan of regular "interference" in the proceedings of the House.

In a virtual meeting, the Bengal Speaker has accused the Governor of needlessly withholding the Bills passed in the State Assembly.

"I told the Lok Sabha Speaker about the excessive interference of Governor Dhankhar in parliamentary

democracy and the functioning of the Assembly. Despite being passed by the Assembly, several Bills are lying with the Governor as he has not signed them. This is unprecedented in the history of West Bengal's parliamentary democracy. Such a thing has never happened before," he said.

Supporting the Speaker's contention, senior TMC MLA Tapas Roy said, "Biman has done the right thing by bringing it to the notice of the Lok Sabha Speaker so that even he can see how democratically our Governor has been working."

Reacting to the issue CPI(M) central committee member Sujan Chakrabarty, however, held both the sides guilty of failing to accommodate each other.

Former Haryana CM OP Chautala completes jail sentence after Delhi Govt's remission order

Chandigarh: Former Haryana Chief Minister and Indian National Lok Dal chief Om Prakash Chautala, who is serv-

ing a 10-year prison term in a teacher recruitment scam case and is out on parole, will be freed from Tihar jail as the

Delhi Government has granted a six-month remission of sentence. The Delhi government passed an order on Monday

granting a six-month special remission to those who have served nine-and-half years of their 10-year prison sentence to decongest jails in view of the COVID-19 pandemic.

"Since the 86-year-old former Chief Minister has already served nine years and nine months of his sentence, he is eligible to get out of prison," Chautala's lawyer Amit Sahni told the media-persons.

Sahni said that the Tihar Jail Authority has communicated that the Government of GNCT of Delhi has passed an order regarding special remis-

sion of six months to convicts who are sentenced for 10 years and have already completed nine years and six months of custody including regular remission. PNS

Capt under pressure to act; returns without meeting high command

RaGa continues meetings; met Jakhar, Bajwa, Rawat, Manpreet

MONIKA MALIK ■ CHANDIGARH

A day after Punjab Chief Minister Capt Amarinder Singh was given a deadline to fulfill all pre-poll promises by the All India Congress Committee (AICC) three-member panel, the senior Congress leader returned to Chandigarh without meeting the Gandhis — Congress interim president Sonia Gandhi, party vice-president Rahul Gandhi, and general secretary Priyanka Gandhi — commonly addressed as the party high command.

On the other hand, Rahul Gandhi continued meeting the

party leaders from Punjab for the third consecutive day, including the state Congress president Sunil Kumar Jakhar, Rajya Sabha MP Partap Singh Bajwa, and Finance Minister Manpreet Singh Badal. Rahul Gandhi also met Punjab party affairs in-charge Harish Rawat who apprised him of panel's meeting with the Chief Minister.

At the same time, taking strong note of the recent statements by the Congress MLA and firebrand leader Navjot Singh Sidhu, the high command may also summon the former cricketer soon. Notably, the Chief Minister lodged

strong objection against Sidhu's "two families taking advantage in the state" remarks, regarding which the high command has also sought details.

Pressure seems to be mounting on Capt Amarinder with the party high command taking a tough stand, and conveying it to the Chief Minister that he has to fulfill all the promises made to the people before elections before the state goes to 2022 polls.

Even as Rahul Gandhi continued to meet the state party leaders, especially those criticizing the Chief Minister, a rendezvous with Capt Amarinder was not on his list.

RAGA MEETS PUNJAB PARTY LEADERS

Meanwhile, Rahul Gandhi continued his one on one meet-

ings and met Punjab Congress president Sunil Jakhar, finance minister Manpreet Singh Badal and Rajya Sabha MP Pratap Singh Bajwa mainly to take a first-hand feedback of the prevailing situation and ground realities in the state after the infighting escalated.

Downplaying the ongoing crisis in the state party unit after meeting Rahul Gandhi, Punjab Pradesh Congress Committee (PPCC) president Jakhar said that the main issue under consideration is how to make the party come together for the next assembly elections and emerge victorious.

"After meeting Rahul ji, I am hopeful that this issue will be resolved very soon considering the level of seriousness with which the high command, especially Rahul

Gandhi, is taking up the matter," he said.

Jakhar said that during the meeting, discussions were held on the ways of strengthening the party and sorting out all the differences of opinion between the senior leaders. "And the seriousness with which Rahul is watching the issue, I am confident of an early solution. The Congress will politically revive from Punjab," said Jakhar, adding that he would not let it go the Rajasthan or Madhya Pradesh way.

On the question of Capt Amarinder returning to Punjab without meeting the Congress high command, Jakhar said that the agenda of his visit is only to meet the three-member panel, led by Leader of Opposition in Rajya Sabha Mallikarjun Kharge.

When asked about the possibility of changing the state Congress president, Jakhar said that the issue was not of the state president, but how to win the elections unitedly.

Also expressing displeasure with Sidhu's recent statements, Jakhar said that the former Minister should reach out to Rahul Gandhi and make his point. He added that Sidhu is under discussion by the party leadership.

At the same time, Jakhar maintained that the Cabinet's recent decision regarding government job to the sons of MLAs on "compassionate grounds" was wrong and could not be defended.

Mincing no words, Jakhar said: "Few wrong people are making Captain sahib to take such decisions...they are so

called advisers...those who have come close to the Chief Minister in the past few days...They are actually putting the office of the Chief Minister in a spot."

Capt Amarinder's bete noire and Rajya Sabha MP Pratap Bajwa, who also met Rahul Gandhi, said that he discussed the ground reality and current political situation in the State.

"The MLAs and Ministers, who want to fight elections in Punjab, have discussed with the leadership the ways to get reelected...We spoke about the current political situation of Punjab, where we stand electorally, what are the expectations of the people from us, and what are the expectations of the state leaders from the high command," said Bajwa.

On who would be the

party's face in 2022, Bajwa said that is for the leadership to decide.

"I have told Rahul about my assessment and about how genuine the grievances of some leaders are. We held threadbare discussions on every issue and I suggested my solution on how to win the state," Bajwa said.

While the high command has set up a three members committee to resolve the crisis in Punjab congress unit, Congress' former national president Rahul Gandhi take upon the charge to defuse the tension in the state unit and held parallel talks with the disgruntled leaders and now holding one on one meeting with several MLAs, Ministers, MPs, including those who have openly spoke against the Chief Minister.

Ensure arrangements for smooth paddy procurement during KMS '21-22: Capt

PNS ■ CHANDIGARH

Punjab Chief Minister Capt Amarinder Singh on Wednesday directed the Food and Civil Supplies Department to ensure elaborate arrangements in place for smooth and hassle-free paddy procurement during Kharif Marketing Season (KMS) 2021-22.

The Agriculture Department has fixed the target of 197.47 lakh metric tonnes (LMT) of paddy production during current KMS with sowing of crop over 30 lakh hectares across the State.

Notably, the Department successfully procured 202.83 LMT paddy in Kharif Marketing Season 2020-21 and 132.10 LMT wheat in Rabi Marketing Season 2021-22 (RMS 2021-22).

The Chief Minister, chairing a high level meeting to review the functioning of the Department through video conferencing, also asked the Food and Civil Supplies Department to tie up with

Centre well in advance for timely procurement of gunny bags (bardana) besides ensuring requisite logistics including transportation and labour for un-interrupted lifting of paddy so that the farmers could get payment of their produce within the stipulated timeline.

The Food and Civil Supplies secretary Rahul Tiwari has also been asked by the Chief Minister to ensure speedy distribution of foodgrains to the beneficiaries.

Taking part in the deliberations, Food and Civil Supplies Minister Bharat Bhushan Ashu assured the Chief Minister that the Department would leave no stone unturned to ensure timely and seamless procurement of paddy during KMS 2021-22 like previous nine consecutive procurements of both Rabi and Kharif since March 2017.

Tiwari, making a brief presentation, apprised the Chief Minister that the Department has already developed a software to implement Direct

Benefit Transfer (DBT) during KMS 2021-22. For procurement, the Department functions through its Anaj Kharid Portal which has registered nearly 10 lakh farmers, 24,000 arhtiyas (commission agents), and 4000 millers.

As many as 1.51 crore eligible beneficiaries have been distributed wheat through online mode under NFSA, 2013.

Under Pradhan Mantri Garib Kalyan Anna Yojna's (PMGKAY) Phase-I and Phase-II of Wheat and Pulses and Phase-III of Wheat, additional allocation to all 1.41 crore NFSA 2013 beneficiaries has been made. Apart from this, 14 lakh food packets under Atma Nirbhar Bharat Scheme, 17 lakh dry ration packets were distributed to needy from State Disaster Response Fund (SDRF) under CM COVID Relief Program and one lakh additional food packets are under distribution to Covid-19 positive patients.

SIT summons Sukhbir Badal for questioning on June 26

PNS ■ CHANDIGARH

KOTKAPURA FIRING CASE

A day after the Punjab Government's constituted Special Investigation Team (SIT), probing the Kotkapura police firing incident, questioned the former Chief Minister Parkash Singh Badal, it summoned his son and SAD president Sukhbir Singh Badal for questioning on June 26 (Saturday).

The SIT has summoned Sukhbir Badal as he was the Deputy Chief Minister and Home Minister when the Kotkapura police firing took

place on October 14, 2015.

Besides the senior Badal, the probe panel has already questioned the then Director General of Police (DGP) Sumedh Singh Saini.

The SIT is probing that who gave the clearance to the district police for opening firing at the mob protesting sacrilege incidents and if the police action was justified.

The Punjab Police SIT, led by ADGP LK Yadav, questioned SAD patriarch Badal at his offi-

cial residence for nearly two and half hours.

High drama was witnessed when the former Chief Minister questioned the presence of non-SIT member — a retired Director Prosecution Vijay Singla during questioning. Sources said that Badal objected to Singla questioning him since he was not a SIT member while Akali leaders said that the DIG cannot be replaced for questioning by the retired director of the prosecution department and that it was

an illegal act.

Badal's political adviser Harcharan Singh Bains said that the former Chief Minister also questioned the SIT on why it could not widen the probe to investigate the Congress and the AAP hand in sacrilege conspiracy to defame and destabilize the then Akali government. Badal was Chief Minister of Punjab when the incident of police firing at Kotkapura and Behbal Kalan had taken place in October 2015 following protests over the sacrilege of Guru Granth Sahib.

Bains said the Punjab and Haryana high court had stated that former IG Kunwar Vijay Partap, who was a member of the earlier SIT, politicized the probe. Therefore, Badal told the SIT that after the High Court remarks, it needed to be probed at whose behest had Kunwar tried to vilify the Akalis and Sikhs against them, he said.

The earlier SIT, headed by then ADGP Prabodh Kumar, including then IG Kunwar as its member, had questioned Badal on November 16, 2018, in the same case.

PSPCL procures 879 MW from outside State to meet highest-ever power demand during current paddy season

PNS ■ PATIALA

CMD, PSPCL, A.Venu Prasad on Wednesday said Punjab state power corporation limited has purchased 879 MW of Power from Power exchange at the rate of RS 3.85 per unit which will help in meeting the increased power demand in state due to hot summer and Paddy season.

PSPCL has made arrangements to meet the demand up to 13,700 MW. The purchase of power from the exchange is mainly due to failure of one unit of Talwandi Sabo thermal plant at Mansa. It met the highest power demand of 12805 MW and recorded consumption of 2901 lakh units on June 22 in the current paddy season. Prasad said that the demand is expected to rise further in the coming weeks.

He said that last year maximum demand and consumption remained at 12683 MW and 2822 lakh units in the same

month -- June-2020 though record highest ever consumption of 3018 lakh units was recorded in the month of July 2020. The highest ever demand of 13606 MW was however, recorded in the month of July of the year 2019.

The CMD said that presently generation from inter state generating stations is running about 600 to 700 MW short compared to last year due to low hydro potential and outage of 400MW from four thermal units of Coastal Gujarat Power Ltd. (CGPL)Mundra. Also 615 MW unit of state IPP Talwandi Sabo power plant, Mansa is under forced outage.

He also added that this deficit has to be arranged on day to day basis in order to fulfill the demand. This deficit is being arranged by procuring power on a day to day basis from the market, limited to transmission constraints of the national grid.

Haryana sees 19 more Covid deaths, 174 new cases

PNS ■ CHANDIGARH

Haryana on Wednesday reported 19 covid deaths which raised the toll to 9,314, while 174 fresh cases pushed the count to 7,67,900, according to an official bulletin. The new fatalities include two each from Gurugram, Panipat and Hisar districts, the health department's daily bulletin said. Jind reported 27 fresh cases and Palwal 20. The number of cases stands at 2,160. The recovery count reached 7,56,426 in Haryana which has a recovery rate of 98.51 %, according to the bulletin.

43 CASES, 1 DEATH IN UT

Chandigarh on Wednesday reported 43 cases of Covid, taking the infection tally to 61,520. One more death was reported at GMSH-16 due to coronavirus, taking the city's toll to 807, according to a medical bulletin.

Govt jobs for those securing medals in int'l sport events, says Hry CM

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Wednesday said that the players who will secure medals in international sports events will be given government jobs so as to encourage them and incentivise budding players.

The Chief Minister was interacting with Olympic medalists on International Olympic Day here. The Minister of State for Sports and Youth Affairs, Sandeep Singh was also present on the occasion. Khattar said that besides getting government jobs in the Sports Department, international level medal winning sports persons would be appointed on deputation basis in the Education Department as well as in other Departments.

He said that if sportspersons excelling in their field are appointed as coaches or trainers then young sportspersons can be greatly benefited. Extending greetings on International Olympic Day, he said that sportspersons should join such

Departments where they find better opportunities to excel.

He pointed out that the government has formulated an excellent policy to promote sports. Under this policy, along with 3 percent reservation, government services are being provided according to the medals won by the sportspersons. Apart from this, the State Government is enhancing sports infrastructure along with renovation of sports stadiums to promote sports activities, he added.

He said that Khelo India Games will provide better opportunities to the young generation to excel in the field of sports.

The Chief Minister further said that the Sports Department has taken a good decision to plant saplings on International Olympic Day. The government has made laborious efforts to meet the need of oxygen supply during the second wave of Covid-19 pandemic. Now, more attention has been paid to planting trees to improve the environment. The Forest Department has set a target of

planting three crore saplings this year under Saghan Van Yojana, he said.

As part of this, trees will be planted on Panchayati land in rural areas and Government land in urban areas. This year, more and more trees will be planted and Oxy-vans will be developed, he added.

6 CR FOR GOLD WINNERS IN TOKYO OLYMPICS

Haryana Minister of State for Sports and Youth Affairs Sandeep Singh informed that 30 players from the state have been selected for the upcoming Tokyo Olympic Games. Rs 5 lakh has been provided to each of these players as preparation amount, he said. The Minister said that a cash amount of Rs 6 crore will be given for gold medal winners in the Olympic Games, Rs 4 crore for Silver medal winners and Rs 2.50 crore for bronze medal winners. He said on the occasion of International Olympic Day, 11,000 saplings will be planted in the sports complexes of Haryana.

Follow Covid norms to blunt 3rd wave: Govt

PNS ■ NEW DELHI

The Government on Wednesday strongly felt that the number of cases in the third wave will not be to the extent that the health system comes under strain if people religiously followed COVID appropriate behaviour (CAB) and States wisely implemented containment strategies.

"At least 2.2 per cent of India's population has been affected by the disease so far. This should also make us wary of protecting the still vulnerable or susceptible 97 per cent population. We cannot let our guards down, hence, continued focus on containment is critical," Union Health Ministry Joint Secretary Lav Agarwal said at a media workshop organised by UNICEF in partnership with the Ministry on the need to bust myths about vaccines and vaccination and reinforce the importance of CAB.

"If we keep following containment and Covid appropriate behavior, then the third wave, even if it comes, will not have the number of cases that

'If vaccinated, you are protected for next 6/9 months from virus'

PNS ■ NEW DELHI

If you have been vaccinated then likely chances are that you are protected from the coronavirus for the next six-nine months. This was stated

by senior Union Health Ministry official Veena Dhawan at an event here.

She also said there was no evidence that supports interchangeability of vaccines' brands.

Responding to a question on the effectiveness of cocktail vaccines or mixing different vaccine doses, senior ministry official Veena Dhawan said as per the evidence available, the vaccines are not "interchangeable".

"A full analysis is yet to be made on the subject. Cocktail vaccination is not to be followed and we should take the same doses of the vaccine," she stressed.

On Adverse Event Following Immunisation (AEFI), Dhawan said the first 30 minutes post vaccination are crucial.

"That is why people are

kept under observation. Serious or severe side effects

are mostly seen in the first 30 minutes," she added.

On day 3, Covid jab numbers remain less than day one figures

PNS ■ NEW DELHI

Countrywide Covid-19 vaccination numbers continued to remain less than the day one figures. On Wednesday, the tally stood at 58.34 lakh vaccine doses till 7 pm in the evening as per the Union Health Ministry statement.

This is much less when compared to the first day of the revised phase of vaccination drive launched from June 21 when the country reported a record number of over 84 lakh shots administered to the citizens. On Tuesday also, the vaccination process covered only around 51 lakh people in the country.

"More than seven crore vaccine doses have been registered so far for those in the age group 18-44 so far," said the statement.

Overall the cumulative Covid vaccination coverage of the country crossed 30 crore (30,09,69,538), as per the 7 pm provisional report. At

least, 41,23,073 vaccine doses were administered as first dose and 68,903 vaccine doses given as second dose in the age group 18-44 years on Wednesday.

"Cumulatively, 7,02,11,075 persons across 37 States/UTs have received their first dose and a total 14,98,113 have received their second dose since the start of Phase-3 of the vaccination drive."

Andhra Pradesh, Assam, Bihar, Chhattisgarh, Delhi, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Rajasthan, Tamil Nadu, Telangana, Odisha, Uttar Pradesh and West Bengal have administered more than 10 lakh beneficiaries of the age group 18-44 years for the first dose of Covid vaccine, so far, said the statement.

Talking about the infection rate, the statement said that India has reported 50,84,848 new cases in the last 24 hours.

With intent to provoke breach of the peace and other provisions of Disaster Management Act, 2005 in many States based on the complaints by IMA chapters.

As per the IMA complaint, since over the last one year, Ramdev has allegedly been propagating false information on social media against medicines being used by the medical fraternity, Government of India, Indian Council of Medical Research (ICMR) and other frontline organisations in treatment of Coronavirus infection.

ED seizes Unitech's land parcels, ₹81.10 cr copter in money laundering case

PNS ■ NEW DELHI

The Enforcement Directorate (ED) has provisionally attached 101 land parcels and one helicopter worth ₹81.10 crore in a money laundering probe against the Unitech Group.

The attached land parcels are situated in Santacruz, Mumbai and are owned by the Shivalik Group. The helicopter is owned by King Rotors Air Charters Pvt Ltd, an associate company of Shivalik Group.

The ED probe revealed that Unitech Group had diverted 'Proceeds of Crime' to the tune of ₹574 crore to the Shivalik Group and in turn, the entities of Shivalik Group had purchased the land parcels and helicopter from this.

On March 4, the ED had conducted searches at 35 locations in NCR and Mumbai on the premises of Shivalik Group, Trikar Group, Unitech Group and Carnoustie Group.

"After analysis of seized records followed by the disclosures of various persons, the above diversion of Proceeds of Crime has been unearthed," the agency said.

3 fashion designers summoned to explain cash payments by leader

New Delhi: Famous fashion designers Manish Malhotra, Sabyasachi Mukherjee and Ritu Kumar have been asked by the Enforcement Directorate (ED) to appear before it to record their statements in connection with some cash payments made to them a few years ago by a politician in Punjab.

An ED source related to the probe told IANS, "A notice has been sent to the three fashion designers to appear before the ED."

The source said that the three designers were paid in cash by the politician for designing the dresses for a wedding ceremony a few years back. "And there was no record of the cash transaction in their IT returns."

So they have been called to present their side," the source said. However, the source did not name the politician.

Malhotra, Mukherjee and Kumar are known for their designer collection in India as well as in other countries. Many corporates and Bollywood personalities wear dresses designed by them.

'NEP 2020 committed to equitable education to all'

PNS ■ NEW DELHI

The Centre on Wednesday at the G20 Education Ministers' meeting said that the National Education Policy (NEP) 2020, envisages equitable and inclusive education for all, with special focus on children and youth, especially girls, from socially and economically disadvantaged groups who are more at risk of being left behind.

"NEP 2020 provides for early vocational exposure in middle and secondary school along with smooth integration into mainstream education. It aims that by 2025, at least 50 per cent of learners in the school and higher education system would have expo-

sure to vocational education. It also provides for vocational education to be aligned to skill gap analysis and mapping of local opportunities," said Minister of State for Education Sanjay Dhotre at the virtual conference of G20.

India attaches great importance to the collaboration between G20 countries in the field of vocational education and training.

Dhotre reaffirmed the support of the Government of India to the collective efforts of the G-20 countries to develop strategies to ensure smooth transition from education to work.

A joint Meeting of Ministers of Education and Ministers of Labour and

Employment was also held virtually. G20 Ministers exchanged views on transitions from school to work. Sanjay Dhotre represented Ministry of Education in the meeting. Ministry of Labour and Employment was represented by MoS (Independent Charge) Santosh Gangwar.

"The member countries of G20, recognise the need to equip our youth well for a smooth transition into the workplace after completing their education.

This is especially important for learners from socially and economically disadvantaged population groups, who are more at risk of being left behind," said Dhotre.

Ramdev moves SC, seeks stay on proceedings in cases

PNS ■ NEW DELHI

Yoga guru Baba Ramdev on Wednesday approached the Supreme Court seeking a stay on the proceedings in multiple cases lodged against him in various States over his remarks on allopathy and its treatment protocol for Covid-19.

In his petition, Ramdev sought the quashing of many FIRs lodged by Indian Medical Association (IMA) in Patna and Raipur branches and asked for a transfer of the FIRs to a Delhi court.

Ramdev has been booked under Sections 188 (disobedience to order duly promulgated by public servant), 269 (negligent act likely to spread infection of disease dangerous to life), 504 (intentional insult

with intent to provoke breach of the peace) and other provisions of Disaster Management Act, 2005 in many States based on the complaints by IMA chapters.

As per the IMA complaint, since over the last one year, Ramdev has allegedly been propagating false information on social media against medicines being used by the medical fraternity, Government of India, Indian Council of Medical Research (ICMR) and other frontline organisations in treatment of Coronavirus infection.

Nadda hails Modi for fulfilling Mookerjee's goal of 'national integration'

PNS ■ NEW DELHI

Accusing the Nehru-led Congress Government of "ignoring" the demand for a probe into the death of Bharatiya Jan Sangh (BJS) founder Syama Prasad Mookerjee in Kashmir while demanding the removal of Article 370, BJP president J P Nadda on Wednesday complimented Prime Minister Narendra Modi for fulfilling Mookerjee's goal of 'national integration' by abrogating the special status to Jammu & Kashmir.

A day before the all party meet on J & K called by the Prime Minister, the BJP president said Mookerjee agitated against 'ek desh main do vidhan, do Pradhan and do nishan' system and removal of Articles 370 and 35 A. These aims of Mookerjee, he said, have been achieved by the Modi-government.

Mookerjee died in police custody in Kashmir on June 23, 1953 while protesting against the requirement of a permit for entry to the Kashmir valley.

Nadda said Mookerjee's mother had written to Nehru seeking a probe into the death of the BJS founder but the Congress government "ignored and pushed it under the carpet". However, successive BJP governments at the Centre

have themselves not setup a probe leading to his death in Kashmir valley.

The BJP president said Mookerjee had died in "doubtful circumstances".

While paying tributes to the late leader who, he said, sacrificed his entire life for the nation, the BJP President said national integration as sought by Mookerjee was realised by Modi's "strong willpower" and Union Home Minister Amit Shah's "skilled strategy".

Modi led BJP leaders' tributes to the BJS ideologue on his 68th death anniversary.

"Remembering Dr. Syama Prasad Mookerjee on his Purnya Tithi. His noble ideals, rich thoughts and commitment to serve people will continue to inspire us. His efforts towards national integration will never be forgotten," Modi tweeted.

Home Minister Amit Shah said Mookerjee sacrificed himself to safeguard India's identity and integrity, and saved the country from another division.

LPG can now be booked through CSC

PNS ■ NEW DELHI

To make it more accessible to every rural household, a new LPG connection can now be booked through the Common Service Centre (CSC). The CSC has taken the lead in helping Centre's Ujjwala beneficiaries in bookings for the refills.

Ujjwala scheme is one of the flagship programmes of the Modi Government to provide LPG gas connection to women of rural areas and especially to those from the weaker section of the society.

Linking the Ujjwala beneficiaries and also new connections through CSC digital kiosk can serve consumers close to their place of residence. CSC has so far done online booking for one crore Ujjwala beneficiaries.

"We have requested Oil companies to enable other support services through CSC as change in name, address, request for additional cylinder etc. Booking for new connection through CSC is still to be allowed by the oil companies through CSC and once these services are extended, CSC can provide all services to Ujjwala beneficiaries in villages," said CSC MD Dr Dinesh Kumar Tyagi.

Though the connection was provided by the government to women, however, refilling due to logistics still remained a concern. Many factors constrained the increase in delivery centers close to the place of residence.

204 lakh tonnes of foodgrains to be distributed among poor amid looming third wave

PNS ■ NEW DELHI

In view of the anticipated third wave of Covid-19 that is expected in 6 to 8 weeks, the Union Cabinet on Wednesday approved allocation of 204 lakh tonnes of foodgrains at an estimated cost of ₹67,266 crore for extending the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) (PMGKAY) to provide free ration to over 80 crore people, mostly poor, by five more months till November-end.

The free supply of grains will ameliorate the hardships faced by the poor due to economic disruption caused by the coronavirus, an official statement said.

Health experts have alerted state governments about the third wave of pandemic and have advised ramping up of the health facilities.

The sanction of around 204 lakh tonnes of additional foodgrains free of cost would entail an estimated food subsidy of ₹64,031 crore. As the Centre would bear the entire expenditure towards this scheme without involving States and UTs, an additional expenditure of about Rs 3,234.85 crore would be required for meeting the transportation and handling charges, as well as FPS dealers' margins, taking the total cost to ₹67,266.44 crore, an official statement said.

Early this month, Prime Minister Narendra Modi while addressing the nation had announced that the Centre's free food programme PMGKAY will be extended for five months till Diwali.

Five-kilo foodgrains per person per month is provided free of cost under the PMGKAY to 81.35 crore beneficiaries covered under National Food Security Act (NFSA), it noted. This is over and above distribution of highly monthly subsidised foodgrain of 5 kg per person given at Rs 1-3 per kg via ration shops to poor beneficiaries covered under the NFSA.

The Food Ministry will decide on the allocation of wheat and rice.

It may also decide on the extension of the lifting/distribution period under Phase III and Phase IV of the PMGKAY as per operational requirements, arising out of adverse weather conditions like monsoon, snowfall, etc..

Wearing mask compliance still low in country despite being worst hit: Survey

PNS ■ NEW DELHI

Mask wearing compliance still remains low in India despite it being one of the worst hit by the second wave of Covid-19, according to findings of a survey.

The mask compliance at vaccination centres also remains low, as per the survey conducted by online social media platform LocalCircles.

"Despite the most lethal Covid-19 wave that any country in the world has experienced so far, India's mask compliance is still low as indicated by the survey finding where 67 per cent of citizens say there is limited or no mask compliance in their area, district, or city," it said. The survey received over 33,000 responses from citizens located in 312 districts of the country.

According to the survey findings, only 32 per cent of citizens in the survey note that there was limited mask compliance at the vaccination centre they recently visited.

Many respondents noted that their family members have gotten Covid-19 a few days after receiving vaccination at centres, citing the high possibility of some vaccination centres being superspreaders as some people were not even following masking protocols.

It is a major concern that requires an immediate action to make sure that such centres do not become superspreaders, as per the findings of the survey. The survey tried to find out how people in cities and districts, including at the vaccination centres, are complying with wearing a face mask. It also sought to find out if

people are wearing the right masks that give them protection, or are they wearing any mask just for the sake of it. Lastly, the survey sought to gather citizens' pulse if the state governments should make the wearing of masks outside home mandatory in districts with active Covid-19 cases.

It found that only 44 per cent of the Indians were wearing cloth masks which may not provide them with the needed protection against the highly transmissible variants like Delta.

The findings of the survey indicate that one in two Indians were wearing cloth masks that provide limited protection from Covid, it added.

Many Indians since 2020 have been using cloth masks, some even using ones made at home, assuming that they will provide the necessary protection from Covid-19 while that may not be the case with the new Delta variant, it said.

On the question whether the state governments should make wearing of masks outside home mandatory if a district has any covered cases, 91 per cent of the respondents okayed the proposal while 8 per cent decided against it.

BJP leaders to ensure vax, food in UP villages

PNS ■ LUCKNOW

Embracing the motto of 'Sewa hi sangathan', the BJP has decided to send party workers, leaders and lawmakers to villages and ensure vaccination of local residents and to distribute rations among the needy. In the two-day meeting of the national BJP leaders with Ministers, the RSS and party workers, that ended on Tuesday, the BJP decided to contest the election under the leadership of Chief Minister Yogi Adityanath.

Starting on the death anniversary of Jan Sangh founder Shyama Prasad Mukherjee on Wednesday, the fortnight-long programme will continue till his birth anniversary on July 6. As per the party's strategy, workers will reach every vaccination booth and set up a help desk to assist people. On June 25, they will go for a mega plantation drive to achieve a record breaking target of planting 30 crore saplings.

On June 27, BJP leaders will stay at every booth to listen to PM's 'Mann Ki Baat' and connect the public with the Central and State welfare schemes.

Earlier, Chief Minister Yogi Adityanath asked all his Ministers to camp at every block from June 21 and inspect development and welfare works of the government and solve the problems of the people, if any. The ministers have already started camping in the blocks. BJP in-charge Radha Mohan Singh held a meeting with booth workers of booth number 292 and exhorted them to work for the welfare of the people and gave the slogan 'booth jeeta to sab jeeta'.

"The booth is the first step towards the victory of the party. If you can win the booth, you can win the election," Singh told workers. He also talked about the UP government's achievements and asked the workers to spread the good work done by the government.

Meanwhile, Chief Minister Yogi Adityanath, along with his Ministerial colleagues, paid floral tributes to founder of Jana Sangh Shyama Prasad Mukherjee at Civil Hospital on Wednesday.

After MPs, BJP MLAs too seek separate State in Bengal

SAUGAR SENGUPTA ■ KOLKATA

After BJP MPs Soumitra Khan and John Barla it is now the turn of the saffron party MLAs to make demands for a separate State.

BJP MLAs from Dabgram-Fulbari and Naxalbari-Matigara Sikha Chatterjee and Ananda Roy Burman have raised their voices for a separate State comprising the North Bengal districts. Both Dabgram-Gulbari and Naxalbari-Matigara are the satellite townships of Siliguri — the largest city in North Bengal which is also called the gateway to the North East.

Backing Barla the BJP's Alipurduar MP, Chatterjee on Wednesday said that "neither the Left nor the Trinamool Congress Government have taken any measure to develop the backward regions of North Bengal and its people ... so the only way development can be achieved in North Bengal is by making a separate State here.... If anyone raises a voice for a separate State it is

well within one's rights to do so because everyone has a right to develop in a democracy and our constitution declares that India is a democratic country of which we are the free citizens."

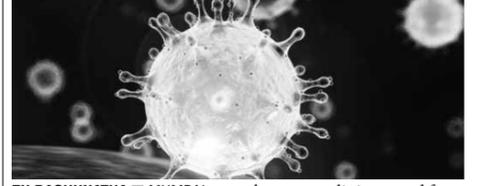

Roy Burman too backed Barla saying "the Alipurduar MP has done the right thing by demanding a separate State because from our long experience we have seen that the Government from Kolkata only takes care of the southern part of the State and leaves the northern part to starve State ... this cannot go on for long and the local people are gradually awakening to their cause of a separate State which is the only way through which their all-round development can be achieved."

Curiously Barla continued to raise his demands for a separate State the way he did before the BJP State president Dilip Ghosh rejected views that the saffron party had anything to do with such demands. "It is his private statement and the BJP has got nothing to do with it ...

maybe such leaders are making such statements out of frustration after seeing their workers being battered and their properties looted every day."

Refusing to withdraw his demand for separate State despite his party's "declared stance" against it and partly buttressing the argument of Ghosh the Alipurduar MP on Wednesday said "what else can I do as a BJP MP ... I am seeing the people of my party being hounded out by the Bangladeshi supporters of the Trinamool Congress ... here are several families who have come from Assam border in Cooch Behar district ... they have fled for their lives ... their properties have been looted by the Bangladeshi Trinamool men ... these are the sons and daughters of the soil and are being attacked by the foreign intruders backed by the ruling party ... this cannot be tolerated and so I have no other way but to raise my voice for a separate State ... I will take it to the Governor of Bengal and even New Delhi."

Maha logs 10,066 new cases, 508 deaths

TN RAGHUNATHA ■ MUMBAI

With not much of a change in the Covid-19 situation, Maharashtra logged 10,066 fresh infections and 508 deaths, even as 11,032 patients were discharged after full recovery from various hospitals in the State.

In a significant development, Maharashtra achieved a milestone as it crossed four crore Covid-19 tests. Of the 4,01,28,355 samples sent to various laboratories across the State so far, 59,97,587 have tested positive (15.01 per cent) for Covid-19 until Wednesday. A day after the State recorded 9,043 infections and 482 deaths, the daily infections rose by 1043, while the deaths increased marginally by 26.

the metropolis increased from 15,315 to 15,338, while the infected cases in Mumbai went up from 7,21,099 to 7,21,963.

Mumbai with 18,711 cases emerged as the first in the State in terms of maximum number of "active cases" in the state, while Pune with 17,378 stood second, followed by Thane (13,059), Sangli (9543), Kolhapur (9142), Satara (7061), Ratnagiri (5615), Sindhudurg (5504) and Raigad (4571).

Currently, 6,58,863 people are in home quarantine while 4,196 people are in institutional quarantine.

6,02,163 people vaccinated in a day in State

PNS ■ MUMBAI

As many as 6,02,163 people were administered Covid-19 doses across Maharashtra on Wednesday, in what was described as the highest-ever number of vaccinations performed in the State.

Announcing this, State Additional Chief Secretary (Health) Dr. Pradip Vyas said: "Today we have bettered the performance of yesterday and have administered the highest ever number of Covid-19 vaccination doses in a single day in the State. As many as 6,02,163 doses were administered till 7 PM and the figure is likely to increase further."

Vyas went on to congratulate the district health authorities across the State. "Great work done by the district teams. Congratulations to all District teams," he said.

Kerala is not a safe place for women: Prof

KUMAR CHELLAPPAN ■ KOCHI

Late VKN, who enlightened Malayalam readers with his humorous stories and novels had described Kerala as a land of 'Poricha Vadhu' (Malayalam for Fried Brides). This was not to pepper his story with hilarity that VKN made use of this term.

The bursting of kerosene stoves and the immolation of newly-wed brides were routine events in Kerala's social life.

The last three days saw Vismaya, a final year BAMS student who was married off to an assistant motor vehicle inspector, dead in her husband's house allegedly as a result of physical and mental torture. Kiran, her husband, had demanded a limousine, 100 sovereigns and a 120 cents plot of land (worth ₹2 crore in local real estate market) to tie the nuptial knot. After two months of marriage, the bridegroom expressed his displeasure with the brand new Toyota Corolla car which was given by Vismaya's father Thrivikraman as dowry.

for her because of the physical assaults carried out by Kiran, his mother and sister. On Monday morning she was found dead under mysterious circumstances in her husband's house. My daughter would not commit suicide. She had great dreams. She dreamt of becoming an Ayurvedic doctor, specialize in Indian system of medicine and serve the poor," Thrivikraman told The Pioneer.

Kiran and his family members assaulted Vismaya non-stop during the last three days of her life. The young lady had sent pictures of the injuries on her body to her brother along with the threatening words used by the husband. The 30 year old husband is heard telling Vismaya that he was not happy with the car given by her father and insisted that she ask her family members for a luxury car. "I am a Government officer and deserve more than this," were his catchwords throughout the two months-long ordeal.

Archana (24) at Thiruvananthapuram succumbed to burns she suffered

on late Monday night at her husband Suresh's house. A nursing graduate, Archana was confined to her in-law's house after the marriage and her husband was tormenting her parents for ₹3 lakh since the wedding function was over. According to neighbours, Suresh always stored diesel in the house since his marriage for reasons known only to him.

On Tuesday evening Suchitra (19) was found dead, hanging in her husband's house. Suchitra's wedding was solemnised on March 21 with Vishnu, a Government employee working in Utrakhhand. Sunil, father of Suchitra, told media that there was no possibility or reason for his daughter resorting to the extreme measure. The Police is yet to disclose anything about the death of Suchitra.

The Kerala State Crime Records Bureau in its report has stated that 65 brides were found murdered/dead under mysterious circumstances in the State during 2020-21. "The list is endless and we take note of these only deaths only if there is some sensational news

behind the deaths. Last year, Kerala men set new trends in how to murder young wives. Uthara, a young wife got killed in snake bite. Investigation revealed that her husband got her bitten by a deadly cobra to get rid of her after the honeymoon," said Prof V T Rema, women's activist and former principal of Government Arts College, Palakkad.

She said though there were laws, the investigating agencies do not pursue the murders/deaths because of lethargy and inherent weaknesses.

"Kerala is not a safe place for women or girls. These heart-rending events prove beyond doubt that parents of girls should be vigilante against prospective bridegrooms," said the professor, known for her knowledge in philosophy. At the time of going to Press, a widow whose daughter Priyanka was found dead in her house at Thiruvananthapuram following physical assault by her husband Unni Rajan Dev, son of late Malayalam film artist Rajan P Dev.

6,596 new cases in TN

People wait to receive the token for the Covid-19 vaccine at the Ramanathapuram healthcare centre in Coimbatore on Wednesday

KUMAR CHELLAPPAN ■ CHENNAI

There has been reasonable improvement in Tamil Nadu's relentless war against Covid-19, according to the release issued by the Directorate of Health and Preventive Medicine on Wednesday evening.

The State logged 6,596 new cases on Wednesday while the death toll of the last 24 hours showed 166 casualties. Both the new cases and fatalities were lesser than that of Tuesday which showed 6,895 and 194 respectively.

There were 52,884 patients undergoing treatment for the pandemic across the State as on Wednesday evening. The State

has not lowered its guard in testing people for the disease. More than 1.66 lakh persons were tested across the State while 10,432 persons came out of hospitals fully cured and rejuvenated, said the release. The death toll till date reached 31,746 while the number of laboratories with Covid-19 testing facilities shot up to 273.

Situation in the districts of Coimbatore, Erode and Tirupur (the industrial hub of the State) has improved. While Coimbatore which had topped the table of districts with highest number of Covid-19 cases showed 793 (the highest in Tamil Nadu), the districts of Erode (686) and Tirupur (419) recorded a dip in the number of new cases.

Pakistani smuggler killed as BSF foils narcotics smuggling bid in J&K

PNS ■ JAMMU

A narcotics smuggler was neutralised immediately after one of the alert jawans of the Border Security Force (BSF) unearthed a sinister plot to smuggle narcotics worth ₹135 crore from the Hiranagar sector of Kathua district early on Wednesday morning.

The smugglers were apparently provided logistics support by the Pakistani rangers to smuggle the huge consignment weighing 27 kgs inside the Indian territory.

According to a BSF spokesman, "During the wee hours, a vigilant BSF troop thwarted a drug smuggling attempt by Pakistani smugglers on the Kathua border and seized about 27 kgs of heroin."

the border outpost in Hira Nagar sector noticed some suspicious movement on IB from the Pakistan side and alerted its men. When the Pakistani smugglers came closer to the IB, they were challenged and fired upon.

"During a search of the area, the body of a Pakistani smuggler and 27 packets of heroin were found near the fence," said IG BSF. "We have gathered all the material evidence and soon we will lodge a strong protest with our Pakistani counterparts," he added.

IG BSF Jammu Frontier NS Jamwal, who visited the location along the International Border (IB) told reporters that border troopers deployed near one of

NCB arrests Dawood's brother Kaskar

TN RAGHUNATHA ■ MUMBAI

Incarcerated Mohammed Rizwan Iqbal Hasan Shaikh Ibrahim Kaskar, younger brother of Karachi-based underworld don Dawood Ibrahim Kaskar, was on Wednesday arrested by the Narcotics Control Bureau (NCB) in connection with a drug-related case.

Armed with a production warrant, the NCB picked up Iqbal Kaskar from the Thane prison — where he has been lodged for the past five years and taken to the NCB headquarters here for questioning. After several hours of questioning, Kaskar was placed under arrest by the NCB.

Kaskar's name had cropped during the interrogations of the several accused arrested in connection with the seizure of drugs made in central Mumbai. Among other cases, the name of Kaskar, who is suspected of running his brother Dawood's realty empire and other businesses in Mumbai for the past couple of decades or so, figured in connection with the recent seizure of 15 kgs of Cannabis which was sent from Kashmir to Mumbai.

It may be recalled that on July 17, 2019, then 30-year-old Iqbal Kaskar and two of his aides were arrested by the Mumbai police in connection with extor-

tion-cum-organised crime. Kaskar was arrested at the Chhatrapati Shivaji Maharaj International Airport here on Wednesday night, while his wife was trying to flee to Dubai in the United Arab Emirates (UAE).

Based on the information provided by Rizwan Kaskar, the police had arrested two of his aides Ahmedraja Afroz Wadharia (24) and Ashfaq Rafique Towelwala (34) in connection with the same extortion-cum-organised crime case.

All the three arrested gangsters were allegedly involved in organised crime. Initial investigations have revealed that the three gangsters had handed extortion threats to several businessmen in the city.

Rizwan Kaskar's arrest was a fallout of the arrest and interrogation of Dawood's gang member Fahim Machmach, in an extortion case.

Machmach was arrested at the city international airport when he returned from Dubai on July 15, 2019. During the interrogation, Machmach told the police that it was he who introduced Ahmedraja Wadharia to Rizwan Kaskar and also to the members of the Chhota Shakeel gang.

Machmach's arrest came in connection with a dispute between traders deal-

ing with imported goods. In one of the taped telephonic conversations, Machmach handed out a threat to the complainant in June 2019 in an earlier case and told the latter not to seek money from Ashfaq Towelwala.

The police went to search Rizwan Kaskar's residence on the afternoon of July 17, 2019 in an effort to avoid his arrest, Rizwan Kaskar and his wife attempted to fly to Dubai, only to be arrested at the airport.

Iqbal Kaskar is Dawood's second relative to have been arrested in recent years. It may be recalled that Danish Parkar, nephew of the fugitive don Dawood, was detained and sent to jail by Nagpada police in March 2006 to ensure that he did not create any trouble.

The passport authorities had initiated a verification procedure suspecting that he had acquired a forged passport.

Danish, son of late Haseena Parkar, elder sister of Dawood Ibrahim, had been detained by Nagpada police under provisions of the Bombay Police Act, as a passport verification process was initiated in connection with the passport acquired by him. The detention was ensured against Danish creating any problem during the passport verification process.

Opening of tender for Central Secretariat buildings postponed again

PNS ■ NEW DELHI

The Central Public Works Department (CPWD) has extended the last date of submission of bids and opening of technical bids for the construction of the first three buildings of the proposed new Common Central Secretariat from Wednesday to July 14. This is the second time the deadlines have been pushed in a week, with the earlier extension being from June 16 to Wednesday.

According to CPWD officials, the last date of submission of bids for the construction of the first three buildings of the proposed new Common Central Secretariat from Wednesday to July 14. The CPWD had invited bids for three new office buildings under the Common Central Secretariat along Rajpath at a

cost of ₹3,269 crore and ₹139 crore was set aside for five year's maintenance in April this year.

These new buildings will come on the plot where the Indra Gandhi National Centre for the Arts is currently located. The Modi Government's mega project to redevelopment of central vista and construction of a new parliament building has become a bone of contention as the opposition parties are demanding to scrap the project in view of the Covid pandemic.

The redevelopment of the Central Vista -- the nation's power corridor -- envisages a new parliament building, a common central secretariat, revamping of the 3 km Rajpath from Rashtrapati Bhavan to India Gate, new prime minister's residence and prime minister's office, and a new vice president enclave.

Hardcore woman Maoist surrenders before police in Maha

TN RAGHUNATHA ■ MUMBAI

A hardcore woman Maoist with a bounty on her head, who was wanted for involvement in 15 encounters, an incident of arson and four major offences, surrendered before the Gadchiroli police in eastern Maharashtra.

Identifying the surrendered Maoist as Anju Asaram Achala, a resident of Motha Zalia in Dhanora teshil of Gadchiroli district with various aliases like Shashikala, Guni and Zuri (30), the police said that she had joined Tipagad Naxal Dhalam in 2006 as member and gone on to become the Tipagad Area Committee Member.

According to Gadchiroli police, she was personally involved in 20 crimes including 15 encounters. The Maharashtra Government had

announced ₹6 lakh as bounty against her arrest.

With her surrender, the total number of Maoists who have surrendered before the Gadchiroli police between 2019 and 2021 has gone up to 39. Those surrendered four Divisional Committee Members (DVCM), two Dalam Commanders, three Dept. Commanders, 29 Dalam Members and one Jan Militia Member.

A senior Gadchiroli police official said that "frustrated and fed up with life besieged with violence, Maoists were getting 'attracted' to the surrender policy announced by the Maharashtra Government. The policy involves a rehabilitation programme.

Apart from intensified anti-Naxal operations, the Gadchiroli police undertake various kinds of civic action

Anju Asaram Achala, a hardcore woman Maoist with a bounty on her head, surrendering before the police at a function held in Gadchiroli district in eastern Maharashtra

programmes like Janjagran melawas, Rozgar melawas, Women Melawas and Village Visitations (Grambhet), "which deeply impact the minds of common people". Under the Grambhet programme, senior police officers visit the homes of relatives of Maoists who can

be persuaded to abdicate violence. "These activities contributed to the surrender of Anju Achala," the police official said.

"Simultaneously, we build a constant pressure upon the Naxalites to surrender before the police," the official said.

PAPER WITH PASSION

The plus?

The Government seems to be at a crossroads in its tackling of Delta+ variant despite best intentions

Three steps the Union Government has taken in the last couple of days attest to a change for the better in its COVID-19 management policy. The first is the accelerated pace of vaccinations in the country. Over 8.3 million doses were given on a single day on Monday, the highest so far, beating the April 1 record of 4.8 million. In the first week of May, when the second wave of the pandemic was at its peak, single-day vaccinations hovered around 1.6 million. On Tuesday, however, the pace slowed down with some States experiencing a massive fall in the numbers. While the intention of the Government is honourable, to set a scorching pace to reach herd immunity at the earliest, it needs to ensure that the exercise does not become an event but is part of an organised, consistent process. Two, the Government has declared the Delta+ mutation as a Variant of Concern (VoC). The announcement came within hours of the Union Health Secretary saying the variant is only a Variant of Interest (VoI). Such an open contradiction of its Ministry may be unique for this Government, but it shows the latter is proactive and moving ahead with caution, having drawn flak for failing to recognise the Delta variant earlier.

Three, the Government has cautioned the States against unchecked opening up of the lockdown, recommending a close watch on adherence to safety protocols. In perhaps its first, comprehensive advisory to the States concerning Delta+, the Government has asked them to step up monitoring in the six districts

in three States where cases of the new variant have been detected, increase testing, contact tracing, and vaccination. However, this is only a bit of the task done. Vaccinations continue to be problematic. The Government does give daily data about the number of doses at hand, but transparency is needed about the doses expected from the Indian and foreign manufacturers and the numbers apportioned to the states. This will enable to streamline the vaccination process. There is now an obvious rush to get free vaccinations leading to a fear of a reduced rush for paid vaccinations in private hospitals. Is it the right time for the Government to take over the procurement and supply of 100 per cent of the vaccinations to rationalise the process? India is yet to nail the vaccine efficacy issue. If it is a case of the more mutations the lesser the efficacy, then the Government has to come clear on a big-picture approach than reactive ones. There are reports of Bharat Biotech releasing data of its third phase trial to the Government regulator, but somehow the company shuns transparency. Also, the campaign to remove vaccine hesitancy is still to go national, presently restricted to the imagination of village-level teams. The unlock remains an issue of grave concern, with neither the States nor the Centre coming with tangible mechanisms to prevent safety violations without affecting economic activity.

Red ball

The new, World Test Championship, format has accorded competitiveness to all cricket games, even against lesser names

The World Test Championship was launched to bring excitement back into the longest format of the game, vis-à-vis the faster T20 matches, across the globe. The inaugural season, which started immediately after the end of ICC Cricket World Cup 2019 and concluded with the first ever WTC Final in Southampton between India and New Zealand on Wednesday, was the first ever multination ICC event which was played with the red ball. The idea to start the championship in the ultimate format was to give relevance to every bilateral series that is played as the points were awarded to each team after the end of every series and the top two teams with the maximum number of points by the end of a two-year cycle make it to the final and fight for the silverware. Ever since the WTC format came into act, the Test matches saw the rise in level of competitiveness. The teams now go for the kill in every game because a win would get them extra points as against a draw. Earlier, teams used to rest all format players for the red ball matches against the not-so-fancy opponents but now, under the new format, even after winning the series before all the matches are played, team's don't rest their main players and would rather start with the strongest possible eleven in all the matches.

The competitiveness that was missing from the Test matches was installed back into the game by this WTC championship and it has certainly added an extra flair in the bilateral matches. Now the matches against teams like Bangladesh and Windies also have the same relevance as that of the matches against Australia or England. However, there are still a few things that needed to be sorted out to make it even more interesting and worthy, like the number of points awarded after every Test match win should be the same, irrespective of the number of matches in the series. Every game should be offering equal points and not like a five-match Test series will offer 24 points per Test win as compared to 60 per win in case of two match series. That is quite unfair. There were discussions about if one game is enough to determine the winner, like in case of this year's championship, or the ICC should consider having a proper Best of Three final to get the winner.

Constitution, courts & a Prime Minister

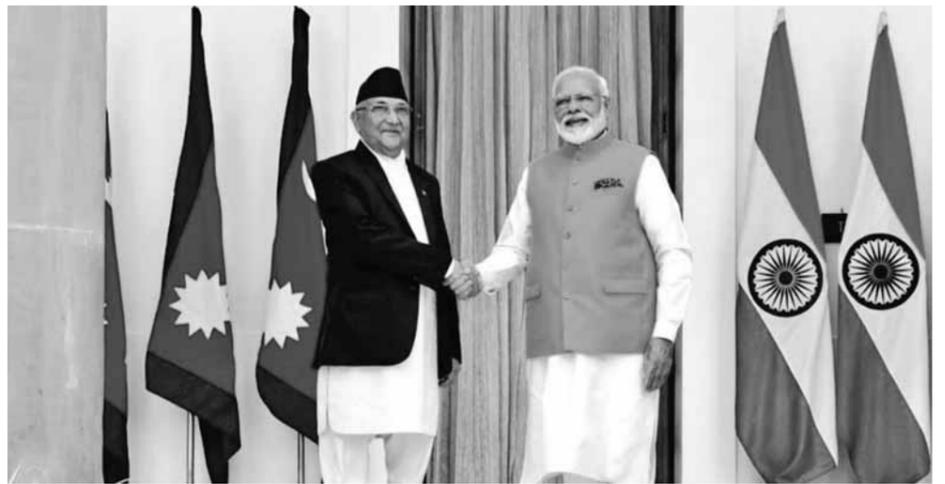

Among a host of obstacles in the path, even with the President on his side, Nepal's Supreme Court has given Prime Minister Oli a rap on the knuckles

RISHI GUPTA

The ongoing political instability in Nepal has deteriorated with the Supreme Court's verdict on June 22. In a big blow to Prime Minister KP Oli, the apex court quashed the appointment of 20 new Ministers in the Oli Cabinet. These Ministers were appointed after Oli managed to crack a deal with a faction of the Janata Samajbadi Party led by Mahanta Thakur and Rajendra Mahto to support his minority Government. The acting Prime Minister, Oli, had appointed these Ministers, including two deputy Prime Ministers, on June 4 and 10. Meanwhile, these Ministers were appointed when the House of Representatives stood dissolved, and the Supreme Court was examining a pile of petitions against the House dissolution on May 21. The Supreme Court has stoked the fanfare and enthusiasm among Oli's supporters for the second time in a row. On February 23, the court had quashed the unilateral move by President Bidya Bhandari to dissolve a functional Parliament and declaration of new elections in March and April. The first House was dissolved in December 2020 after Oli feared that his tussle with Maoist Party chief Prachanda would fall, which eventually happened in May.

However, Oli has been trying to play out the Constitution for months, using the President's Office. As a result, of this nexus between Oli and Bhandari, Nepal again stands at a crossroads similar to the days of the political transition from monarchy to democracy in 2006. The Supreme Court is scheduled to hear hundreds of petitions filed against President Bhandari's decision to dissolve the House for a second time. While the hopes are high that the court may restore the House, it brings severe administrative challenges to the Government. At present, Oli is left with only five Ministers in his cabinet, including himself in charge of several portfolios. As per the Constitution, Oli should have continued with his previous Cabinet as no new appointment can be made under a dissolved House, or the Government in question has not faced the vote of confidence. However, the power-sharing between Janata Samajbadi

Party itself was based on new portfolios and one deputy premiership.

As a result, Oli has asked his Ministers and loyalists in the Cabinet to resign en masse. However, amidst two back-to-back defeats in the apex court, the moral question for Oli has to be his resignation as for the last one year, he has merely been interested in the PMO for his political survival rather than focusing on COVID-19 and acting upon corruption charges levied on his fellow Ministers.

Unreliable Oli: Many in India believe that New Delhi facilitated the Janata Samajbadi Party's decision to support Oli. As a result, a long-term critic to India, Oli went on to record to say "differences with India have been resolved". If this is the case, India has taken the biggest strategic risk by trusting an untrustworthy Oli. For the last five years, Oli has been spitting venom against India's goodwill in Nepal. From raising the border issue to manipulating cultural and religious facts to suit his ultra-nationalistic outlook, he unilaterally included India's sovereign territory in a new political map of the country. However, even after everything seemed to be favouring

KP SHARMA OLI IS A PRODUCT OF POLITICAL EQUATIONS AND CALCULATIONS, AND HIS CORD FUNCTIONS AS PER THE POLITICAL SUITABILITY. THEREFORE, HOPING A FRIENDLY OLI WILL BE NEXT TO IMPOSSIBLE TASK FOR INDIA

India in Nepal, Oli once again alleged his claim on yoga as a Nepali practice and "not Indian". While Oli may still hold the powerful office in Nepal, India needs to think beyond him to keep open borders safe and prevent cross-border activities from affecting India's national security.

Oli is a product of political equations and calculations, and his cord functions as per the political suitability. Therefore, hoping a friendly Oli will be next to impossible task for India. On the other hand, China continues to benefit from political instability in the Himalayan country.

Before the second wave of COVID-19 had hit, India had supplied more than two million doses to Nepal. On the other hand, China promised to supply the second commitment of vaccines with four million doses. Meanwhile, the dragon has shown its unhappiness over media reports on the procurement. It exposes China's commercial intent in supplying the vaccines at about \$10 per dose (₹1186 Nepali) than its desired humanitarian intent. Meanwhile, Oli does not seem bothered with Chinese micro-management of Nepalese political affairs, its territorial expansion on the

Nepalese soil, brutal policies on Tibetan refugees living in Nepal and artificial humanitarian acts. The two large photographs of Chinese President Xi Jinping continue to grace the Ministry of Foreign Affairs website in Nepal at the cost of deteriorating relations with India.

Conclusion: The political instability in Nepal is the least desired by the people of Nepal under the current circumstances. Before Nepal, there are immediate challenges in terms of medical infrastructure, employment, economic development, infrastructure and leadership, which are clearly not on Oli's agenda. Therefore, while the people of Nepal await the court's verdict on the fate of Oli as Prime Minister, the latter himself should pave the way for a stable Nepal by resigning on moral grounds. Also, Nepal needs to understand that China may be a "big brother", but it is ill prepared to deal with dragon's ill-intended expansionist outlook where India is an "elder brother" it always needs.

LETTERS TO THE EDITOR

THEY'RE OUR KIDS, GO TO THEM!

Sir — With regard to 'Corona's orphans: Kids of a lesser god', June 23, it is extremely pitiful that thousands of children in India have lost one or both parents in the aftermath of the COVID-19 pandemic. And the prospect of a surge of abandoned minors worries many. Heart-rending stories in the media and desperate calls for help on social channels reveal a devastating truth of our times.

The intention is good, the schemes are fine but how will orphaned children avail of these benefits? Can we expect small or adolescent orphaned children going to the Government departments, filling up forms, submitting certificates and availing of this scheme? The direction has to be in reverse.

Instead of orphans seeking help from the Government, it is the State machinery which should send its officials to meet these orphaned children, prepare details and arrange a smooth transfer of stipends and educational loans. The entire task devolves upon the State Governments, who will have to provide data to the Centre.

Ranganathan Sivakumar | Chennai

KIDS OF A LESSER GOD

Sir — According to UNICEF, India has over 30 million orphan and abandoned children. Unfortunately, the existing Corona crisis is adding unknown numbers of orphans to the list. In times of crisis of this magnitude, some miscreants try to derive undue benefit by resorting to human trafficking, which surely is a blot on society. These unscrupulous people tend to hoodwink gullible persons, who are easy targets. Their sentiments are exploited for exorbitant sums of money. The business of child trafficking and criminal trading is rampant and must be dealt with an iron hand.

The National and State Commissions for Protection of Child are empowered by law to take legal action against such criminal activities. Social activists, NGOs, newspapers and the aware citizens must report and publicise such incidents so that timely action can be taken against those engaged in illegal activities.

Caution ahead

Delta Plus variant, a mutated version of the more aggressive B.1.617.2 strain that drove the second wave of infections in India, is undergoing additional mutation called K417N which could become a "variant of concern" if unchecked as the variant is causing a surge in cases. India would see a faster surge if aggressive COVID-appropriate behaviour is not followed and insisted upon. The Delta plus is a variant which is of same lineage as the Delta variant, with a slight change as there is one more mutation found, which could be a cause of concern because this mutation, the K417N, is something which may change the virus to some extent

as far as its infectivity is concerned.

The B.1.617.2 variant is characterised as being highly infectious. The spike protein is what helps the virus enter and infect human cells, and the K417N mutation has been associated with immune escape, or evasion, that leaves it less susceptible, or more immune, to the vaccine or any form of drug therapy. India should not take this virus casually as this virus is changing and changing to survive and infect more people, therefore we have to be ahead of the virus.

The UK did a very good job by having an aggressive lockdown for many months and when they started opening up, the new variant caused the surge in number of cases. What it means is we are also in a vulnerable situation and if we are not careful right now then three or four months from now, we will have a similar situation and that is why we need to be very aggressive; it is mutating, changing, new variants are coming up. With this danger of Delta Plus variant looming heavily, we have to tackle it on war footing.

Bhagwan Thadani | Mumbai

People must be made aware about the due process of adoption by the Government. The Central Adoption Resource Authority regulates the adoption of the orphaned, abandoned children. In fact, the whole process must be streamlined to avoid delays.

Recently, the SC also came to the rescue of those orphaned by the crisis and gave instructions to the Government about their protection. This critical issue must be addressed and heeded so that they can get their rightful due a dignified life.

Vijay Singh Adhikari | Nainital

A DAMP SQUIB

Sir — Despite much political excitement around an Opposition party, the Rashtra Manch meeting hosted by Nationalist Congress Party chief Sharad Pawar in the Capital turned out to be a damp squib with a majority of the Opposition parties giving it a miss and many of them sending in sec-

ond-line leaders.

The NCP was subsequently at pains to explain that Pawar was only playing the host and did not organise the meeting. It also explained that there was no deliberate exclusion of the Congress. Other than the Congress, the DMK, the RJD and the BSP too did not send any representatives to the meeting.

It has been reported in the media that this meeting of Rashtra Manch was held by Sharad Pawar to unite anti-BJP parties is totally a showpiece rather than serving a desired purpose. Moreover, the meeting should not be misconstrued as a big political step taken by Pawar to exclude the Congress from any potential opposition grouping, pointing out that several Congress leaders were invited but they did not attend.

FIRST COLUMN

BACKWARDS AS 'FORWARD' IN UP

Rajbhar or otherwise, the names don't matter, but the point is to let the 'backwards' take the lead

BISWAJEET BANERJEE

Is it a coincidence that the state presidents of all the major parties in Uttar Pradesh namely, Bharatiya Janata Party, Samajwadi Party, and Congress belong to the backward castes, or is it a compulsion that has pushed all the major players in UP to woo the backwards by projecting them as state presidents? It is a political reality that the party which will be able to garner the maximum support from the backwards will win Uttar Pradesh. The BJP state president, Swatantra Dev Singh, and the Samajwadi Party state president, Naresh Uttam, are Kurmi, an influential backward caste after Yadavs. The Congress state president, Ajay Kumar Lallu, is a Senthwar, another backward caste.

The results of the 2017 assembly elections and the 2019 general elections show the importance of the votes of the backwards in UP politics. "The BJP was able to win these elections only because it was able to stitch a social alliance between its core, upper caste, and middle-class base and the intermediary castes, constituting more than 50 per cent of the state's electorate," Nomita P Kumar of Giri Institute of Development Studies in Lucknow said. The forthcoming electoral battle in Uttar Pradesh represents a matter of survival for the four major players. After the BJP fared poorly in the West

Bengal assembly elections and got a drubbing in the state Panchayat polls, a message went down the political corridors that it is losing its sheen. A loss in UP would intensify the pressure on Prime Minister Narendra Modi and that could prove detrimental to the party in the 2024 elections.

Senior BJP leaders confirm that the RSS and the BJP leadership have asked senior leaders to contest the elections. The Chief Minister, Yogi Adityanath, and Deputy Chief Minister, Dr Dinesh Sharma, who are members of the Upper House, will contest from Gorakhpur and Lucknow, respectively. For the Samajwadi Party it is a fight for its relevance. It secured only five seats in the 2014 general elections. It lost the 2017 assembly elections despite an alliance with Congress. In 2019, it lost again when it had an alliance with BSP. The party lost these elections under Akhilesh Yadav's leadership. There are reports that Akhilesh Yadav is not willing to forge an alliance with big parties but is ready to share seats with smaller caste-based parties. Samajwadi Party has almost finalized an alliance with the Mahan Dal, a small caste-based party that is popular among the backward Maurya, Kushwaha, and Saini castes. On the other hand, BJP too has started putting its house in order. Sanjay Nishad of Nishad Party and Anupriya Patel of Apna Dal (S) recently met Union Home Minister Amit Shah. The meeting is considered crucial in the backdrop of backward politics and BJP losing the Rajbhar support after Om Prakash Rajbhar of Suheldev Bharatiya Samaj Party walked out of the National Democratic Alliance.

Rajbhar has formed 'Bhagidari Sankalp Morcha' - a conglomeration of small parties and the front will field candidates in the 2022 assembly elections. The Morcha includes Babu Singh Kushwaha's Jan Adhikar Party, Krishna Patel's Apna Dal, Prem Chandra Prajapati's Bhagidari Andolan Manch, Baburam Pal's National Uday Party, Ram Sagar Bind's Bharat Mata Party, Ram Karan Kashyap's Bharatiya Vanchit Samaj Party, Anil Chauhan's Janata Kranti Party and All India Majlis-e-Ittehadul Muslimeen of Asaduddin Owaisi. Arun Rajbhar, son of Om Prakash Rajbhar, said that the Morcha will emerge as the king-maker. "We have the support of Backwards, MBCs, and Muslims. This is a very potent force which has the potential to topple the apple cart of big parties," he said.

Fuel, healthcare, online businesses spur prices

SHIVAJI SARKAR

The recovery process, the SBI says, needs a cut in fuel prices by tax rationalisation as otherwise non-discretionary spends will continue to get distorted and cause inflation

The Indian economy may have started recovering with the pandemic unlock but galloping inflation, increasing healthcare expenses, and rising unemployment are major banes.

The global economy is to rise by four per cent and India would marginally benefit from it with some rise in exports. A World Bank report wants India to create 90 million jobs in non-agricultural organized sector - a Herculean task as most private sector offices are either closing down or slashing operations. Humanitarian crises, hunger deaths, and societal conflicts are growing.

Latest figures indicate 12.69 per cent inflation primarily on account of F2 - food and fuel. The fuel price rise is hitting every sector of the economy with nobody to correct it. The basic price of petrol remains still around ₹35.99 and over ₹65 are the central and state tax components. The edible oil prices have reached crisis points with a 62 per cent spike, Food Secretary Sudhansu Pande says. This follows withdrawal of edible oil from essential commodities list in September 2020

A State Bank of India report says that massive increase in healthcare, especially in the hinterland, steadily rising fuel prices, and online delivery of articles will increase inflationary pressure much higher on the one hand, while crowding out other consumer spending on the other, putting a big question mark on overall growth that is still being driven by consumption demand. Month-on-month increase in inflation on non-institutional medicines, x-ray, ECG, pathological and other clinical tests is taking a heavy toll not only in urban areas but even on the rural populace.

The SBI report has questioned the headline inflation figures announced by the ministry. It says that price movements convey important information about the scarcity of particular goods and services like health and medical care as of now. Health expenditure, which currently constitutes five per cent of overall inflation basket, may jump to at least 11 per cent. (It may be noted that health expenditure is around ₹6 lakh crore or five per cent of the private final consumption expenditure). This is likely to also result in a squeeze in expenditure on other items of discretionary consumption.

The daily increase of fuel prices is another bane. "And if we look at credit card spends since December, CPI computed inflation for the five-month ending April is higher than the CSO estimate on an average by 60 basis points and the higher oil prices had forced consumers to ration out discretionary spends in December," says SBI chief economist Soumya Kanti Ghosh. It means the actual inflation is 60 per cent more than the CSO figures.

The RBI has virtually given credence to the SBI finding as it estimates ₹2 lakh crore losses on economic output. It says that it may not reflect on GDP but there would be a considerable value loss across the economy. The SBI report clarifies it as the share of non-discretionary spend which has jumped to 59 per cent in April and 52 per cent in March and "this does not augur well".

The inflation is to further rise as the US has matched its interest rate rise. It would

THE RBI HAS ALREADY LOWERED ITS GDP PROJECTION TO 9.5 PER CENT FROM 10.5 PER CENT. IT HAD HOPED 18.5 PER CENT RECOVERY IN THE FIRST QUARTER, CONSIDERED LOW BASE GIVEN THE CONTRACTION LAST YEAR. IT IS NOW SCEPTICAL DUE TO THE SECOND WAVE OF LOCKDOWN THAT SEES DECLINE IN DEPOSITS, INDICATING HIGHER HOUSEHOLD EXPENSES, AND LOWER SAVINGS

(The writer is a senior journalist. The views expressed are personal.)

impact India as well as there would be commodity price-rise globally. The RBI upon the government's suggestion has suppressed interest rates but it will not help keep prices low. It will make it difficult for the RBI to manage the conflicting targets of inflation, exchange rate, and adequate liquidity amidst weak growth.

The RBI has already lowered its GDP projection to 9.5 per cent from 10.5 per cent. It had hoped 18.5 per cent recovery in the first quarter, considered low base given the contraction last year. It is now skeptical due to the second wave of lockdown that sees decline in deposits, indicating higher household expenses, and lower savings. Additionally, currency holding - cash - with the people decelerated to 1.7 per cent during April against a growth of 3.5 per cent last year.

It substantiates what the SBI says that extra expenses on households have increased manifold. Also, there has been an increase in use of online delivery platforms which is not considered by the NSO and if the NSO considers online prices, there will be 10-15 basis points (bps) impact on CPI inflation. The SBI says

that the online delivery adds to inflation. The RBI says that the increased healthcare and other expenses have impacted domestic demand. That is the reason of delayed recovery of manufacturing, core sector and other activities.

The recovery process, the SBI says, needs a cut in fuel prices by tax rationalisation as otherwise non-discretionary spends will continue to get distorted and cause inflation.

The RBI has given another formula. It has gone a bit beyond and wants to partner with the private sector - in short a prescription for further denuding the PSUs. The recommendation should make the authorities rethink on privatisation.

Over the last few years, major PSUs have consistently increased payouts to the government despite a dip in their profitability. Since 2016, as per an official dictat they are paying a minimum 30 per cent of their profit after tax or five per cent of their net worth, whichever is higher, as dividend.

The 100 government companies declared a dividend of ₹71,857 crore during 2018-19, according to the CAG. In 2021,

the PSUs paid a dividend of ₹39,022 crore (against an estimated ₹34,717 crore), the RBI paid ₹99,000 crore dividend, and other banks paid ₹1,619 crore in 2020-21. In short, a major part of the government expenses are being funded by the PSUs. The government's efforts to sell PSUs are being stonewalled by a poor economy. It should rather change its policies to strengthen the PSUs.

Despite this the India remains an investment destination. A healthy flow of FDI into the country corroborates India's strength and attracts attention of global investors, the Confederation of Indian Industry says. Total equity, re-invested earnings, and capital rose 10 per cent to the highest ever \$81.72 billion during 2020-21.

The RBI expects recent government boost in capital expenditure to spur activity and investment. For all this, however, there has to be a major shift in policy thrust. While private investments must rise, the government must relook at strengthening PSUs to tide over the crisis that is beyond the capacity of the private sector. This would alone cut prices and boost demand.

Aviation industry: Pandemic-hit Phoenix waiting to rise

Indian aviation is expected to incur \$4 billion worth of losses in 2021 and it is not easy to even out the operational costs before 2023

The COVID-19 pandemic has clipped the wings of the aviation industry the world over. In India, the lockdown banning air travel has hit this industry the worst. As a ripple effect, the tour and travel and the hospitality industry have also been hit.

GYANESHWAR DAYAL

Downsizing has led to people in these industries losing their jobs and a lucky few are working on half, reduced meagre salaries. International Civil Aviation Organization (ICAO) pegs the losses of the aviation industry at \$370 billion. Air travel is down 60 per cent. This has led to airlines shutting most of their operations. They continue to incur fixed costs without the grounded fleets not earning a dime. According to the Indian rating

(The writer is a columnist and a documentary film-maker. The views expressed are personal.)

agency ICRA, domestic passenger traffic between May and September 2020 was only 11 million in comparison to 70 million in 2019.

An aviation expert, PS Nair, says Indian aviation is expected to incur \$4 billion worth of losses in 2021. Nair says, "These losses are not easy to even out. A very careful and integrated approach is required to rejuvenate the aviation industry. Everything would depend upon the economic recovery of the country. But aviation stands a good chance, as it has no alternative. If you have to travel, you have to take a flight; virtual flight is not an option."

India is the seventh-largest civil aviation market in the world. It is the third-largest aviation market in terms of

domestic operations. The country has the potential to overtake the United Kingdom and become the world's third-largest aviation market in terms of handling air passengers within the next five years.

The best minds in the aviation industry recently had a brainstorming session under the aegis of the Air Travellers Association (ATA). GS Bawa, General Secretary, ATA, feels

that the recovery will take years, if not decades. The recovery is linked to Covid-19 vaccination programs and testing procedures worldwide. He feels operational costs would not breakeven before 2023.

PS Nair, the former CEO, Delhi Airport and founder-CEO of HIAL says that the industry has a good chance to bounce back as fundamentals of the country's economy are still favourable. For a few years before the pandemic, the aviation sector of India had registered a steady growth and India had overtaken Japan to become the third-biggest domestic market. Private investors were showing interest in developing the country's airports but Covid-19 struck and stalled everything.

Efforts are already on in the industry as well as in the government to make the turnaround possible. To encourage the development of the aviation industry, the government plans to invest up to \$1.83 billion and develop airport infrastructure and aviation navigation services by 2026. The Culture and Tourism Minister Prahlad Patel is hopeful of early revival, saying the tourism and aviation industries will be back with a bang because the government is linking its vaccination program with the drive to revive the tourism sector. The government is also working on a uniform policy for travel and protocols for vaccinated travellers. The Minister recently launched the Confederation of Hospitality, Technology and

Tourism Industry, an industry body of travel and hospitality tech players like Airbnb, EaseMyTrip, OYO, and Yatra. The idea is to help small operators in the tourism sector.

Nair, however, feels optimistic because the country aims to open 100 new airports by 2024 of which 30 projects are already in progress. Plans are on to have 200 more airports by 2040. The infrastructure boost coupled with a rise in demand should see the Indian aviation industry flying high. "The Government must support the industry. If you increase the fares, the demand may further come down, if you don't losses would mount," says Bawa.

On its part, ATA has a few recommendations for helping out the aviation industry. It has

asked the government to compensate airlines and airports to the extent of their operating losses and give them some tax relief. It wants a government package for maintaining operations in tier-2 and tier-3 cities. This will improve passenger confidence. The traffic will improve bringing sustainability to the sector.

Bawa has also asked the government to relax the travel restrictions for those who have been vaccinated. "Restrictions like the RTPCR tests and quarantines should not be mandatory for the travellers with both jobs," he says. The ATA has suggested that for inland travel, a pass with a fitness certificate can also be issued. 'Yatra Setu' on the lines of 'Arogya Setu' can be a good step in this direction.

Myanmar trial of Australian adviser to Suu Kyi still not set

Bangkok: The case of an Australian economist and adviser to Myanmar's ousted leader Aung San Suu Kyi who like her was arrested when military seized power in February remained in legal limbo Wednesday as a court considered where he should be

tried. Su Kyi, her advisor Sean Turnell and three former Cabinet ministers were charged in March under Myanmar's official secrets law, which is punishable by up to 14 years in prison.

Turnell has not appeared in public since he was detained on February 6 and did not attend Wednesday's court hearing. AP

Myanmar's junta leader attends military conference in Moscow

AP ■ MOSCOW
The leader of Myanmar's military junta on Wednesday attended an international conference in Moscow, an appearance that reflected Russia's eagerness to develop ties with it despite international opprobrium.

The military in Myanmar ousted the democratically elected government of Aung San Suu Kyi on Feb. 1, saying her party's landslide victory in elections last November resulted from massive voter fraud. It has not produced credible evidence to back its claim.

Security forces have brutally suppressed widespread popular protests against the military takeover, killing hundreds of protesters and carrying out waves of arrests.

The junta's leader, Senior Gen. Min Aung Hlaing, claimed in Wednesday's speech at the conference organised by Russia's Defence Ministry that it was trying to consolidate a democratic system in the country that has "degraded."

On Tuesday, Min Aung Hlaing met with Russian Defence Minister Sergei Shoigu, who hailed strong military cooperation between the countries.

Russian Defense Minister Sergei Shoigu, left, and Commander-in-Chief of Myanmar's armed forces Senior General Min Aung Hlaing walk past the honour guard prior to their talks in Moscow, Russia on Tuesday

"We pay special attention to this meeting as we see Myanmar as a time-tested strategic partner and a reliable ally in Southeast Asia and the Asia-Pacific region," Shoigu said at the start of the meeting.

He added that "cooperation in the military and military-

technical field is an important part of relations between Russia and Myanmar" and praised Min Aung Hlaing for strengthening the country's military.

Shoigu said that Russia would work to expand ties with Myanmar based on "mutual understanding, respect and trust."

Russia fires warning shots to deter UK warship in Black Sea

AP ■ MOSCOW

A Russian warship fired warning shots after the British missile destroyer Defender had ignored a notice against intrusion in Russia's territorial waters. It said that a Russian Su-24 bomber also dropped four bombs ahead of the British ship to persuade it to change course. Minutes later, the British warship left the Russian waters, the ministry said.

The incident marked the first time since the Cold War that Moscow has used live ammunition to deter a NATO warship, reflecting growing risks of military incidents amid soaring Russia-West tensions.

The Russian Defence Ministry said the Russian war-

ship fired warning shots after the British missile destroyer Defender had ignored a notice against intrusion in Russia's territorial waters. It said that a Russian Su-24 bomber also dropped four bombs ahead of the British ship to persuade it to change course. Minutes later, the British warship left the Russian waters, the ministry said.

The Russian Defence Ministry said it has summoned the UK military attaché in Moscow to protest the British destroyer's maneuver.

The UK Ministry of Defence did not immediately respond to a request for comment.

Iran: 'Sabotage attack' on civilian nuclear center thwarted

Tehran: Iranian authorities have thwarted what they called a "sabotage attack" targeting a civilian nuclear facility near the country's capital, state TV reported on Wednesday, as details about the incident remained scarce.

The attempted attack against a building belonging to Iran's Atomic Energy Organization "left no casualties or damages and was unable to disrupt the Iranian nuclear program," Iranian state television reported, adding that authorities were working to identify the perpetrators.

Iranian media offered no details on the kind of attack, saying only that the move targeted a sprawling nuclear center located in Karaj city, just some 40 kilometers northwest of Tehran.

When asked for comment, an Iranian official referred to the initial report by Nournews, believed to be close to Iran's Supreme National Security Council. The official spoke on condition of anonymity as they did not have authorization to discuss the matter with media. AP

Iran likely had failed rocket launch, preparing for another

Dubai: Iran likely conducted a failed launch of a satellite-carrying rocket in recent days and now appears to be preparing to try again, the country's latest effort to advance its space program.

Satellite images, a US official and a rocket expert all confirmed the failed launch, earlier this month, at the Imam Khomeini Spaceport in Iran's Semnan province. The attempt comes as Iran's space program has suffered a series of high-profile losses, while its paramilitary Revolutionary Guard runs its own parallel program that launched a satellite into orbit last year. AP

GLOBE TROTTER

ISRAEL OK'S DEMOLITION OF PALESTINIAN HOME
Jerusalem: Israel's Supreme Court on Wednesday upheld the decision to destroy the family home of a detained Palestinian accused of a deadly shooting.

BRUTAL MEXICO PRISON RIOT LEAVES 6 DEAD
Mexico City: A brutal fight between two rival groups of inmates at a prison on Mexico's Gulf coast Tuesday left six prisoners dead and nine wounded.

JAPANESE NUCLEAR REACTOR RESTARTED
Tokyo: A more than 40-year-old nuclear reactor in central Japan which suffered a deadly accident has resumed operation after being taken offline for a decade after the March 2011 Fukushima nuclear disaster.

Oli: Yoga originated in Nepal, not in India

Kathmandu: Nepal's Prime Minister KP Sharma Oli has stoked yet another controversy by claiming that Yoga originated in his country, not in India, a view not shared by a leading expert here.

Speaking at a function organised to observe the International Yoga Day on June 21 at the Prime Minister's residence in Bal

Moody's cuts 2021 India's growth forecast to 9.6 pc

FLAGS LOW VACCINATION RATE AS RISK

PTI ■ NEW DELHI

Moody's Investors Service on Wednesday slashed India's growth projection to 9.6 per cent for 2021 calendar year from its earlier estimate of 13.9 per cent, and said faster Covid vaccination will be paramount in restricting economic losses to June quarter.

The US-based rating agency said high-frequency economic indicators show that the second wave of Covid-19 infections hit India's economy in April and May. With states now easing restrictions, economic activity in May is likely to signify the trough, it said in a report on India.

"The virus resurgence adds uncertainty to India's growth forecast for 2021; however, it is likely that the economic damage will remain restricted to the April-June

quarter. We currently expect India's real GDP to grow at 9.6 per cent in 2021 and 7 per cent in 2022,"

Moody's said in a report titled "Macroeconomics India: Economic shocks from second Covid wave will not be as severe as last year's". Flagging low inoculation rate, it said faster vaccination progress will be paramount in restricting economic losses to the current quarter. As of the third week in June, only about 16 per cent of the population had received one vaccine dose; of those, only about 3.6 per cent had been fully vaccinated.

While infection rates have been declining and restrictions relaxed in many regions, vaccination rates remain low. As a result, the risk of subsequent waves that could require further lockdowns cannot be ruled out.

Govt liberalises guidelines for voice BPO industry

PTI ■ NEW DELHI

The Government on Wednesday announced liberalisation of guidelines for other service providers (OSPs) and said that the move would position India as a strong global destination for voice BPOs.

The distinction between domestic and international OSPs has been removed.

A BPO centre with common telecom resources will now be able to serve customers located worldwide including in India. The easing of guidelines would lead to cost-saving and better utilisation for BPO companies. With removal of the distinction between domestic and international OSP centres, the interconnectivity between all types of OSP centres, is now permitted. "We have today extensively liberalised OSP guidelines... This revolutionary step will make India a global destination for BPOs," Communications Minister Ravi Shankar Prasad told reporters.

Sensex breaks 3-day winning streak

PTI ■ MUMBAI

The BSE Sensex nursed losses on Wednesday after three days of gains, weighed by selling in Reliance Industries, finance and metal stocks despite firm Asian cues.

Persistent foreign fund outflows added to the selling momentum, though a recovery in the rupee capped the losses, traders said.

The 30-share BSE benchmark ended 282.63 points or 0.54 per cent lower at 52,306.08 in choppy trade. Similarly, the broader NSE Nifty declined 85.80 points or 0.54 per cent to 15,686.95.

Kotak Bank was the top loser among the Sensex constituents, shedding 1.32 per cent, followed by L&T, Tata Steel, TCS, Axis bank, ICICI Bank, HDFC and Reliance Industries.

On the other hand, Maruti, Titan, Bajaj Finserv, M&M, UltraTech Cement, HDFC Bank and SBI finished with gains of up to 2.33 per cent.

UK HC rejects Nirav Modi's extradition plea

HAS 5 DAYS TO APPEAL FOR ORAL HEARING

PTI ■ LONDON

Nirav Modi has lost the first stage of his extradition appeal in the High Court here, just over two months after the wanted diamond merchant's extradition to India was ordered by UK Home Secretary Priti Patel in the estimated USD 2-billion Punjab National Bank (PNB) scam case.

The case was before a High Court judge for a decision "on the papers" submitted for the appeal to determine if there are any grounds for an appeal against the Home Secretary's decision on April 16 or the Westminster Magistrates Court February ruling in favour of Modi's extradition to India to face charges of fraud and money laundering.

A High Court official confirmed that the permission to appeal was "rejected on paper" on Tuesday, which leaves the

50-year-old jeweller with a chance for his lawyers to make his case at a brief oral hearing in the High Court with a renewed "leave to appeal" application for a judge to determine if it can proceed to a full appeal hearing.

Cases against fugitives, economic offenders to be actively pursued: FM

New Delhi: Finance Minister Nirmala Sitharaman on Wednesday said the government will actively pursue cases against economic offenders to bring back defrauded money of banks. The remark came soon after the Enforcement Directorate (ED) said the Debts Recovery Tribunal (DRT) has sold shares worth over ₹5,800 crore of United Breweries Limited (UBL) that were earlier attached under the anti-money laundering law as part of an alleged bank fraud probe against fugitive liquor baron Vijay Mallya.

DoT allocates 5G trial spectrum to MTNL

PTI ■ NEW DELHI

The Department of Telecom on Wednesday allocated the spectrum for 5G field trials to the state-owned telecom firm MTNL with C-DoT as its technology partner, according to an official source.

Reliance Jio, Bharti Airtel and Vodafone Idea were given the spectrum in May to conduct 5G trials across select cities in India.

"(The) DoT has allocated spectrum to MTNL for 5G trials in Delhi. It will conduct trials in partnership with C-DoT," the official source told PTI. The state-owned telecom firm will conduct trials in the Najafgarh area of Delhi.

According to the DoT, 5G technology is expected to deliver 10 times better download speed than that of 4G and up to three times greater spectrum efficiency. The duration of the trials at present is six months. This includes a time period of two months for procurement and the setting up of the equipment.

FDI in April up 60 pc to USD 4.44 bn: Govt data

PTI ■ NEW DELHI

Foreign direct investment into India increased by 60 per cent to USD 4.44 billion in April as against USD 2.77 billion in the same month last year, government data showed on Wednesday. Total FDI, including equity, re-invested earnings and capital, rose 38 per cent to USD 6.24 billion in April this year, as against USD 4.53 billion in April 2020, as per the data. "During April, 2021 FDI equity inflows amounting to USD 4.44 billion were reported in the country which is an increase of 60 per cent over the FDI equity inflow of April, 2020 (USD 2.77 billion)," the commerce and industry ministry said in a statement. Measures taken by the government on the fronts of foreign direct investment (FDI) policy reforms, investment facilitation and ease of doing business have resulted in increased FDI inflows into the country, it added.

NMDC another impressive performance in FY21

India's largest iron ore producer, NMDC has produced 34.15 million tonnes and sold 33.25 million tonnes of iron ore during the financial year 2020-21. This is an 8% growth in production and 6% in sales from the 31.49 million tonnes produced and 31.51 million tonnes sold during FY 2019-20, achieved in an undoubtedly challenging year.

NMDC's turnover for FY 2020-21 is ₹15,370 crore against ₹11,699 crore during FY 2019-20.

LIC chairman inaugurates Go Live of e-PGS project

LIC of India crossed another milestone today by embarking upon a new Centralized Web-based Workflow-based IT platform for its Group Business operations. Chairman of LIC of India, MR Kumar inaugurated the Go Live of the project e-PGS in a formal ceremony held today at 10:30

Hours at Yogakshema, Central Office, Mumbai in the presence of Managing Directors Vipin Anand, Mukesh Gupta, Raj Kumar and S Mohanty, Shri Rakesh Sharma, Managing Director and Chief Executive Officer of IDBI Bank received the first digital receipt, generated on new IT platform, to the Bank as Master Policy Holder in one of its group policies from

The inaugural ceremony was joined online from 204 locations across the entire country.

Mask compliance still remains low in India despite most lethal Covid-19 wave: Survey

PTI ■ NEW DELHI

Mask wearing compliance still remains low in India despite it being one of the worst hit by the second wave of Covid-19, according to findings of a survey.

The mask compliance at vaccination centres also remains low, as per the survey

conducted by online social media platform LocalCircles. "Despite the most lethal Covid-19 wave that any country in the world has experienced so far, India's mask compliance is still low as indicated by the survey finding where 67 per cent of citizens say there is limited or no mask compliance in their area, district, or city," it said.

The survey received over 33,000 responses from citizens located in 312 districts of the country.

According to the survey findings, only 32 per cent of citizens in the survey note that there was limited mask compliance at the vaccination centre they recently visited.

MELTING BOUNDARIES

Actors are no longer defined by the medium they most often dabble in. By TEAM VIVA

So many performers are today flexing their acting prowess with equal ease on, both, streaming platforms and films. Here is our pick of five of such versatile talents:

Mukul Chadda

Mukul left New York and a thriving career as a banker because his heart craved for a life in the arts. He arrived in Mumbai without a blueprint for his future but memories of doing theatre in college and attending classes at the Lee

Strasberg Theatre and Film Institute began to guide his choices. He soon found himself working in films like *Ek Main Aur Ekk Tu*, *Island City*, *I, Me Aur Main* et al along with shows like *Bichoo Ka Khel* and *Gurgaon*. He also played a jovial and rather clueless boss in the Indian adaptation of the popular American sitcom, *The Office*. This month, he is celebrating the release of an OTT series, *Sunflower* and the much-awaited film *Sherni*. In the former, which is a dark crime comedy, he plays a rather mercurial, short-tempered character and in *Sherni*, he portrays a rather unimaginative spouse who believes his wife's government job is a 'recession-

nered critical and popular appreciation.

Sayani Gupta

This graduate from the Film and Television Institute of India (FTII), is truly a new-age star whose unconventional choices have resulted in a very interesting creative journey. Sayani made her debut in 2012 in *Second Marriage Dot Com* but her breakout role was as the visually-challenged love interest of

proof' meal ticket for life. Chadda is emerging as an actor who can effortlessly adapt to cinematic and OTT narratives without missing a beat.

Radhika Apte

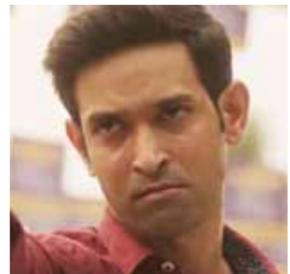

From someone who made her debut in 2005 with a fleeting appearance in a now-forgotten film, *Vaah! Life Ho Toh Aisi!*, Radhika has grown enormously to become the unofficial queen of OTT productions and an acclaimed film actor, be it in commercial hits like *Badlapur* and *Andhadhun* or an independent film like *Raat Akeli Hai*. Many credit her with changing the scope and span of female performances in OTT shows. Her ability to exude both charisma and earthy simplicity has seen her churn out flawless performances in titles as diverse as *Manjhi - The Mountain Man*, *Parched*, *Phobia*, *Pad Man*, *Lust Stories*, *Bazaar*, *A Call To Spy*, *Stories by Rabindranath Tagore*, *Ghoul*, and *Sacred Games*. Along with that, she has scooped up various awards and also gar-

Kalki Koechlin in Shonali Bose's acclaimed film, *Margarita With A Straw*. She gave another noticeable performance, as part of the ensemble cast, in Leena Yadav's *Parched*. In Anubhav Sinha's, *Article 15*, her wrenching histrionics gave the film much of its truthfulness. In films like *Axone*, *Jolly LLB 2*, *Fan*, and *Baar Baar Dekho*, her presence was unmistakable and each performance was different from the other. She also went on to command stardom in the OTT hit *Four more shots please!*. Sayani has

demonstrated time and again that, as an actor, she will never let herself be boxed in a specific genre or format.

Vikrant Massey

Vikrant's journey has been chequered and spans diverse platforms. Starting with the 2004 television series, *Kahaan Hoon Main*, he tried his best to adapt to the entertainment trends of the day by working in shows like *Dharam Veer*, *Balika Vadhu*, *Baba Aiso Varr Dhoondo*, and *Qubool Hai*. His debut film appearance in *Lootera* (2014), and then a role in *Dil Dhadakne Do* (2015) showed us a glimpse of the actor who has more potential than he has been given credit for. With 2017's critically acclaimed film *A Death In The Gunj*, he

showed what an accomplished actor he really is and even won a Filmfare Award nomination in the category of Best Actor - Critics. In the OTT space, he has carved a niche for himself with success stories like *Mirzapur*, *Criminal Justice* and in the second seasons of *Broken But Beautiful*. And bigger film roles are also coming his way, including the lead role opposite Deepika Padukone in

Chhapaak (2020) and a starring role in the recent *Ginni Weds Sunny*, opposite Yami Gautam.

Jaideep Ahlawat

For this FTII graduate, the success of his idol, Irrfan Khan, was a beacon in the dark years he spent struggling for meaty roles. In 2008, Jaideep made his debut in a short film *Narmeen* and went on to play many small parts till his role as Shahid Khan in *Gangs of Wasseypur* (2012) and as Khalid Mir in *Raazi* (2017) got him some much-deserved attention. But stardom and a Filmfare award came

with the Anushka Sharma-produced web series *Paatal Lok*. This performance truly heralded his arrival as a star who could lead a show as its protagonist. Even in an anthology like *Ajeb Daastaans*, he stood out for his portrayal of a gay man who is unable to embrace his sexuality openly. Today he is being offered diverse roles in OTT productions as well as films. Even as Jaideep treads a path that was painstakingly carved by predecessors like Irrfan and Manoj Bajpayee, there is no doubt that he has already created a success story that is uniquely his own.

Regional rules digital waves

ANANT ROONGTA says that localised content has been taking centre stage on OTT platforms

As the diversity in content takes centre stage, OTT as an industry has reached new heights. For the global entertainment scene, the past year has been a mixed bag. After rigorous turmoil, the industry partially got back on its feet because of the rise of OTT consumption. With the advent of work from home culture, coupled with outdoor restriction, streaming platforms witnessed a jump in subscription revenue. Interestingly, after a few years of launch, OTT platforms reached a new level of subscription revenue when compared to the broadcast industry which took years to gain the current levels. This, in turn, has provided an opportunity to not only experiment with content but also create something that resonates with the audience.

Wider growth

With hyperactive internet users and increased internet penetration in the country, studios and platforms are creating storylines inspired by people's behaviour in the region. The notable thing here is that the content is either dubbed in multiple languages with the scripts and references that make people connect with a show across the country or it is created for a specific region. A good example of that would be MX Player's *Samantar* that has a suspenseful storyline that any Maharashtra could relate to. Such regional content is especially consumed in the native areas of the country amidst the digital progression and easy availability of smartphones at an affordable price.

Regional content creation has its advantages, an immersive storyline could potentially be created at 30-40 per cent lower cost with larger viewership. Consumption of regional content is expected to double, with over a billion of the population having a smartphone by the next decade. Currently, streaming services have more subscribers than people with a cable connection. As per a report by FICCI, regional languages will make up 60 per cent of television consumption by 2025 from around 55 per cent in 2020 and around 50 per cent of streaming video consumption from 30 per cent in 2019. Keeping the demand for regional content in mind, big media platforms like Amazon Prime Video, Zee5, Hotstar and Voot are keen on producing regional content for the masses.

Scope

Regional markets have a lot of potential and scope in the future because many of them are underserved, which means there's room for growth. Due to the increase in demand, marketers have realised that simply dubbing Hindi or English advertising into local languages will no longer suffice, therefore they have started including modest local language additions to their ads or are attempting to compose local language scripts in English. With digital platforms making significant progress in terms of content creation — as they seek new methods to thrill their audiences — local material will receive a significant boost, which will benefit regional cinema greatly.

Future of the digital era

The consumption of digital content has unquestionably expanded dramatically over time. People have been riveted to the screen for Marathi comedy, south-Indian action, Bengali crime thrillers, and romantic narratives in all languages, and OTT platforms have recently discovered that regional shows are attracting the most viewers. The consumption of regional material is expected to increase in the next few years, particularly on streaming platforms, as non-metro audiences continue to lead internet user growth.

(The author is managing director of a film studio which was set up in 1946.)

Since the pandemic has taken cover, most of our lives have been consumed by the digital world. Be it work, entertainment or socialising, digital screens have become an indispensable part of everyday life.

Excessive screen time is putting an enormous strain on your eyes, which can be really harmful in the long run.

Want to combat increased screen time in easy and effective ways? Read on for five ways to give your eyes a protective detox from digital screens.

Use eyeglasses with BLU-cut lenses

This one is a must-have if you are part of the WFH team. If excessive screen time is absolutely unavoidable for you because of work, this is the solution for you. Eyeglasses with BLU-cut or computer lenses are an easy and effective way to protect your eyes. These lenses keep at bay the harmful effects of blue rays emanating from digital screens. These not only add protection and functionality to your work life but also undeniable style for the virtual meetings you attend throughout the day. Check out John Jacobs' high-quality yet affordable BLU eyeglasses range to balance out excessive screen time. Give your eyes the digital detox they deserve.

Reduce screen brightness on all devices

Adjusting screen brightness to suit the time of the day and your lifestyle is an easy way to reduce eye strain. Almost every digital device available today has settings for night mode and yellow light. These can be automated to custom timings and aligned with your schedule seamlessly. Lux is an interesting app available for android devices that allows you to customise and adjust your screen brightness. It has features like renowned blue light filtering with easy navigation guides and a smooth, simple interface.

Take frequent breaks from the screen

Sometimes, there is nothing more effective and relaxing for

Visual relief

Ever get a nasty headache in the middle of a workday? Do your eyes start watering while binge-watching your favourite series? TEAM VIVA is here with some helpful suggestions to help your sore eyeballs

your eyes than a good ol' fashioned coffee break! Give your eyes rest in between work meetings and assignments and chill with a cuppa. Listen to calming music or simply meditate on your day — but keep the phone down and let your laptop go to sleep for a 15-minute periodic break every now and then. This will not only boost your productivity but also combat watering or burning eyes that occur due to continuous and uninterrupted screen exposure. We love Country Bean's aromatic and innovative flavours for our much needed coffee breaks!

Increase the font size on your devices

A lot of what we do on our screens involves reading. Almost every digital device today has settings that allow you to adjust font size. Larger font size is essential to ensure that all the other measures you take for protecting your eyes work together in harmony. This helps you relax your eyesight and reduce the strain.

Techlicious' guide on how to increase text size on phones, tablets and computers is a handy read for this purpose.

Use The 20-20-20 rule

Here's a recommendation straight from the ophthalmologist's office! You must be wondering, what is the 20-20-20 rule? It recommends that digital screen users divert their attention from screens every 20 minutes and look at objects 20 feet away for 20 seconds. This one really works and is

advised as an add-on even when you wear computer eyeglasses and switch the night mode on in your devices. Download the Eye Care 20 20 20 app, it automates the process for you when you are working or watching something and makes it super easy to follow this useful tip. Balancing work, entertain-

ment and social life are essential. However, it's equally important, if not more, to take care of our health. Luckily, these simple hacks can help us all effectively combat the negative effects of increased screen exposure. Go on, give your eyes a better chance to last in the long run.

TRENDBLAZER

JOINING A SELECT LIST: VIDYUT

Actor VIDYUT JAMWAL has signed with the reputed Hollywood talent management agency Wonder Street, known to represent international action heroes such as Tony Jaa, Michael Jaa White and Dolph Lundgren.

"I'm excited to be associated with some of the hardest working people of Hollywood," Vidyut said, of his new association.

fairtalk

BADSHAH

"Yes, I truly believe in the power and magic of India, its culture, especially its music and instruments that so frequently end up being lost in this new digital age. It is our responsibility as representatives to keep this magic alive and represent this richness to the world and bring India on the world map."

dailytalk

AMIT MASURKAR

"*Sherni* was a difficult film to score because of the complex intersections in the story. I felt safe with Naren Chandavarkar and Benedict Taylor because I knew they would put the story and the theme first. They have the sensitivity and depth to understand a layered narrative."

JUST SOME TOUGH LOVE: DIESEL

Actor VIN DIESEL has spoken out about the reported feud between him and Dwayne Johnson.

The subject came to light in the July/August 2021 issue of *Men's Health* magazine, where Diesel opened up about Dwayne's involvement in the *Fast & Furious* franchise.

He said, "The role played by Johnson was a tough one to embody. I had a lot of tough love for him to get the perfect performance."

THE LEADERS OF TOMORROW

Union Cabinet Minister for Education, Government of India, Dr RAMESH POKHRIYAL NISHANK says that YUVA will encourage a stream of authors who can write on a spectrum of subjects to promote Indian heritage, culture and knowledge

What is the genesis of the YUVA: Prime Minister's Scheme For Mentoring Young Authors?

The Prime Minister of India, Narendra Modi, in his *Mann Ki Baat*, on January 31, called upon 'youngsters to write about our freedom fighters, events associated with them and tales of valour during freedom struggle from their areas'. That provided us with the vision to launch the first-ever multi-lingual authors' mentorship scheme at the national level to provide a platform to the young writers to pen their thoughts on various known and unknown facets of the National Movement as part of the *Azadi Ka Amrit Mahotsav* programmes.

What are the main salient features of the scheme?

Any young and budding writer below the age of 30 years (as of June 1, 2021) is eligible to participate in the ongoing 'all India contest'. It will end on July 31. The contestants can send their entry in any of the 22 languages listed in the 8th schedule of the Constitution and English, provided their entry in any language relates to the National Movement. They need to send their entry in a maximum of 5,000 words, and if selected, through a well-structured Mentorship programme, the scripts will be developed by the authors into a full-fledged book. A total of 75 authors will be selected under the scheme, and on selection, they will be offered a scholarship of ₹50,000 per month for six months. Moreover, the National Book Trust, India, which is the Implementing Agency for the Scheme, will be publishing the books, and would also offer royalties to the authors, in original language as well as possible translated editions, as per its norms. So, the scheme is structured to provide a 360-degree exposure to the young authors to

the exciting world of writing, creating, ideating, editing, publishing, interaction with the national and internationally acclaimed authors, and seeks to open a door to a world of creative opportunities.

This type of scheme has not been attempted on a national scale before. How does it aim to encourage authorship and the writing aspirations of the Indian youth?

A nation's literature is an important way to chronicle a nation's journey through time. This scheme, in under-

standing the power of words, aims to encourage young writers to hone their craft so that they can optimise their potential and become thought leaders of the future. It aims to encourage authorship and the writing aspirations of the Indian youth by providing them an opportunity to present their work before the reading masses.

Since you are also an acclaimed author, how do you see the scheme?

As an author myself, I can attest to the fact that becoming a writer is a tough

process as it demands a lot of time and effort. This is even more so when there is a dearth of available opportunities that can acknowledge and hone raw talent. At the time when I started writing, there was no easy way to publish written work. It is with the knowledge that young writers across India face similar challenges, that we have introduced this scheme — to make authorship more accessible and to create a platform that many writers like myself did not get in the past.

How do you think this scheme will help young authors in the future?

I believe that this scheme will allow many young writers to publish their work and that I, in turn, will inspire them to work further on their writing skills. I think a majority of the young authors selected through this scheme will go on to inculcate a great literary acumen and will become prolific writers of the future. They will definitely put India on the literary map of the world and one or more of them might even win international awards like the Nobel Prize in Literature. I say so because I believe that the young writers of India are capable of both writings about history and creating history.

The core of the YUVA theme is India@75. What is the vision behind it?

The scheme is an opportunity for the youth to display their work on a prestigious platform, but it is simultaneously a chance for them to delve into the defining period of India's history. Since proficient writing requires voracious reading, this theme of the National Movement will encourage the young authors to learn about the freedom struggle, its celebrated heroes and their sacrifices for the nation. In the process, they might encounter unsung heroes, whose stories are yet to be written and they might write

these stories themselves. So the idea is to gift the youth the knowledge of their country's past in a way that also allows them to effectively contribute to it — by documenting history through their writing.

A crucial facet of the PM's YUVA scheme is its multilingual submissions. Can you highlight this aspect?

India's societal landscape is recognised the world over for its opulent diversity with regard to culture, traditions and value systems. But our country is especially well-known for its multi-linguistic character because many languages harmoniously coexist to create a varied linguistic panorama. And as each language is unique in its mode of description and vocabulary, we want to ensure that the perspectives and stories from across the country's multi-lingual fabric are portrayed in this scheme to create a rich narrative of India, its glorious past and its illustrious future. This will promote a much better understanding among various linguistic factions in contemporary times.

The scheme also includes NRI(s)/PIO(s). What is the idea behind this?

The scheme wants to give all people, who are rooted in India's culture and ethnic background, a chance to write about the country's national movement, its heroes and its history in general. And to ensure that Indians from across the world can participate and express their view about the country, this scheme has allowed submissions from PIO(s)/NRI(s). We should also never forget the crucial role played by the Indian diaspora community in furthering the cause and ideals of the national movement and identity.

DISABLED RECEIVE AID

A Samajik Adhikarita Shivir for distribution of aids and assistive devices to divyangjan under the ADIP Scheme of the Ministry of Social Justice and Empowerment, Government of India, was organised by the Department of Empowerment of Persons with Disabilities (DEPwD) in association with ALIMCO and District Administration Jamnagar at Dhanwantari Auditorium, near DKV Circle, Jamnagar, Gujarat.

A total of 6,225 aids and assistive devices valued at ₹3.57 crore were distributed free of cost to 3,805 divyangjan at Block/Panchayat levels by following the SOP prepared by the department because of the pandemic.

Speaking on the occasion, Vijay Rupani, Chief Minister, Gujarat, said, "The society which does not care about divyangjan is itself a disabled society. Under the leadership of the Prime Minister, the central government has implemented various welfare schemes in the interest of the country. In 2016, the 'Right To Person With Disability Act' was brought under the leadership of the PM, which not only provides more security but also ensures and protects the fundamental rights of the person with disabilities across the nation."

Union Minister for Social Justice and Empowerment, Thaawarchand Gehlot, said, "The Central government has released around 8.06 crore funds in Gujarat under scholarship program benefiting 2,808 beneficiaries. Around 709 railway stations, 10,175 bus stops and 683 websites have been covered under Sugama Bharat Abhiyan. Looking at the interest in sports among the divyangjan of the country and their good performance in Paralympics, the Ministry has decided to establish five Divyangta Khel Kendra in different parts of the country."

Addressing the occasion, Anjali Bhawra, Secretary, DEPwD, Ministry of Social Justice and Empowerment, Government of India, elaborated on the details of the schemes. She said that the government has taken several steps for employing divyangjan and skill training programmes are being conducted to empower them.

The high-end products which are to be distributed in the camp include 220 battery-operated motorised tricycles, 665 tricycles, 385 wheelchairs, 998 crutches, 621 walking sticks, 60 rollers, 185 smartphones, 437 smart cane, 40 daisy player, 24 Braille kit, six Braille cane, 856 MSIED kit, 165 ADL kit (for leprosy), 606 hearing aids, 765 artificial limbs.

Anjali Bhawra, Secretary, Department of Empowerment of Person with Disability (DPEwD), Ministry of Social Justice & Empowerment, Government of India, Dr Prabodh Seth, Joint Secretary, DEPwD, Ministry of Social Justice and Empowerment, Government of India, D R Sarin, CMD ALIMCO were present virtually and Ravi Shankar, Collector, Jamnagar, also attended the function 'in person'.

Best Indian companies to work

SYNCHRONY BAGS 5TH PLACE

Synchrony, a consumer financial services company, has been ranked 5th among India's Best Companies to Work for in 2021 by the Great Place to Work Institute (GPTW). This recognition highlights Synchrony's efforts to create an environment that is caring, inclusive, collaborative, and innovative despite the challenges posed by the pandemic. Synchrony has earned the coveted recognition for four consecutive years and the rank has gone up to 5th this year from 27th last year.

The company has more than 120 people with disabilities and more than 42 per cent women employees. In the face of the unprecedented pandemic, the company prioritised the health, safety, and wellness of employees, and quickly moved its workforce home. The company provided employees with assistance for the set-up of ergonomic office

space at home along with a comprehensive benefits programme. It also helped employees balance the new demands of work and life and stay motivated and focussed through virtual engagement activities.

Speaking on the occasion, Andy Ponneri, Senior Vice President and Business Leader, Synchrony India, said, "Being recognised as a Great Place to Work, especially in this challenging year, further demonstrates our commitment to being a company that puts people first and maintains a high-trust culture with a positive and empowering working environment. At Synchrony, our employees are our greatest asset and we are committed to supporting their wellbeing and success."

Recognising employees' continued desire to help others, Synchrony also launched its 'Gear Up Campaign', which leveraged employee, partner, and cardholder networks to make and distribute protective gear such as masks and face shields. Synchrony's Diversity Networks further promote an inclusive culture that celebrates individuality and fosters collaboration.

POWERGRID MAKES IT

The Power Grid Corporation of India Limited (POWERGRID), a Maharatna PSU under the Ministry of Power, Government of India, has again been recognised as a 'Great Place to Work'

by the Great Place to Work Institute (GPTW), which is a gold standard for workplace culture assessment. It has been ranked 68 in the largest workplace culture study in the country through an objective and rigorous workplace culture assessment process.

POWERGRID has also won the recognition of being India's Best Employers in the Nation-Builders 2021 category. Figuring consistently in GPTW's Best Workplaces List is a testimony of its sound human resource management policies and employee-friendly approach.

Earlier, POWERGRID has also been recognised in the coveted Forbes Global Best Employers List.

India organises summit on green hydrogen initiatives

India hosted a two-day summit on Green Hydrogen initiatives involving the BRICS nations. The event was anchored by NTPC Ltd. The virtual summit brought the best brains, policymakers and major stakeholders from the BRICS nations deliberating and discussing at length the future of hydrogen

in the energy mix. As the world rapidly moves to decarbonise the entire energy system, hydrogen is poised to play a vital role and build on the rapid scale-up of renewable resources across the world. Hydrogen, when produced by electrolysis, using renewable energy, is known as 'green

hydrogen'. It has no carbon footprint. This gives hydrogen the edge over other fuels to unlock various avenues of green usage. The summit aimed to address the challenges in terms of technology, efficiency, financial viability and scaling up. Green hydrogen blending up to 10 per cent may be adopted in CGD net-

works to gain widespread acceptance. Further scaling up with greening of hard to abate sectors (like steel and cement) through hydrogen is to be explored. Many countries have brought out their strategies and defined targets and roadmaps based on their resources and strengths.

International Yoga Day celebration

VIT-AP UNIVERSITY

International Yoga Day celebrations were held virtually on June 21 at VIT-AP University. Durga Shaktamma and Dandu Srinivasa Raju (Senior Faculties, Art of Living), Dr Uma Valli (Ayurvedic Physicians), Dr Agam Das Goswami (Faculty, VIT-AP University) attended as Resource Person for this celebration.

Dr Uma explained the importance of Ayurvedic treatments. The Vice Chancellor of VIT-AP University, Dr S V Kota Reddy, Registrar Dr CLV Sivakumar, Live Club Coordinator, Dr CH Deepak, students, teachers and staff participated in the celebrations. SPMCIL

Tripti Patra Ghosh, chairman and MD, SPMCIL, highlighted the impor-

'The International Day of Yoga has been celebrated annually on 21 June since 2015, following its inception in the United Nations General Assembly in 2014'

tant developments of modern yoga in her inaugural address during the online camp organised at the corporate office of SPMCIL. She urged to adopt yoga regularly in daily life.

Sunil Kumar Sinha, Director (HR) and Ajay Agarwal, Director (Finance) were also present online. Yoga sessions and various programmes were also organised in all the units of the SPM-CIL.

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

Over 100 students and staff of SRM Institute of Science and Technology (SRMIST) participated in the virtual lecture-demonstration, on yoga for immunity and wellness, held on the occasion

of International Yoga Day. A live demonstration was conducted by a yoga scholar from S-VYASA, Dr Rakshita Nayak.

SRM MCH & RC's Pro Vice Chancellor (Medical and Health Sciences) Lt Col Dr A Ravikummar said, "Self-discipline can help master the world, not in terms of being a ruler but understanding the meaning of life and knowing how to lead a healthy life. Good health should consist of being mentally, physically, and spiritually well. If one has a calm mind, the body will also be calm. This is what yoga teaches us — to control our body, mind and spirit."

The vote of thanks was presented by SRM MCH & RC's Dean (School of Public Health), Dr Padma Venkat.

Dr Vinay Sahasrabudhe, President, ICCR, Ministry of External Affairs and Member of Parliament, releases a new edition of Gagananchal in New Delhi. Chief Editor of Laghu Udyog Samachar, GOI, Harendra Pratap and Editor of Gagananchal, GOI, Dr Ashish Kandhway and professor of Kendriya Hindi Sansthan, Dr Umapati Dikshit were also present.

LIC crosses milestone

LIC of India crossed another milestone by embarking upon a new centralised web-based workflow-based IT platform for its Group Business operations. The Chairman of LIC of India, M R Kumar, inaugurated the 'Go Live' project, 'e-PGS', in a formal ceremony in the presence of Managing Directors Vipin Anand, Mukesh Gupta, Raj Kumar and S Mohanty. The inaugural ceremony was joined online from 204 locations across the entire country by all the zonal managers, executive directors in charge of central office departments, regional managers, unit heads and all employees of the Group Business Vertical of LIC of India.

The new technology platform is designed to provide centralised collection and payment accounting with a high level of bank integration through the host to host connectivity and provide very innovative features of seamless and integrated banking with automatic reconciliations. The new system, e-PGS, is capable of providing comprehensive self-servicing capabilities through a customer portal where corporate customers will be able to view their data, initiate actionable processes, lodge and track claims.

Some of the services will be launched on the green channel with end-to-end processing at the customer level itself without manual intervention

from the Insurer's Office. All the features and services will be launched in a phased manner spread over the next three months.

Vipin Anand, MD of LIC, informed that the new technology platform is designed to cater to the expectations of technology-intensive corporate customers and will change the face of customer service on a group business platform. The new system is capable of high-level integration with customers' technology systems for seamless transfer of data and services. LIC will soon launch a customer awareness campaign for new IT system capabilities so that the benefits can be reaped by all customers to save time and energy.

K S Nagnyal, Executive Director for Group Business informed that the Group Business Vertical of the corporation, which accounts for 77.69 per cent share of group business of the Life Insurance industry, will leverage the new IT platform for enhancing the customer experience at a world-class level and the same will support in marketing and servicing of group business operations. The Group Business vertical of LIC specially caters to various term insurance needs and retirement solutions for employers on the group platform. It is felt that the launch of a new IT platform marks the beginning of a new era in customer servicing for group business.

With just two goals scored, England are the lowest-scoring side to ever top a group at a Euros but their defence is yet to be breached

JOB DONE FOR ENGLAND

AFP ■ LONDON

Raheem Sterling scored the only goal as England found an attacking spark to beat the Czech Republic 1-0 at Wembley on Tuesday and clinch top spot in Group D at Euro 2020.

The Manchester City forward, who kept his place alongside Harry Kane in a rejigged attack also featuring Jack Grealish and Bukayo Saka, settled fans' nerves with an early headed goal, which ultimately proved decisive.

The result means Gareth Southgate's side finish top of their group with seven points while Croatia are second with

Raheem Sterling (10) scores England's opening goal against Czech Republic on Tuesday

four points. The Czech Republic will join them in the last 16 as one of the best third-placed teams.

With just two goals scored, England are the lowest-scoring side to ever finish top of a group at a European Championship but their defence is yet to be breached.

England now have the dubious privilege of a potential match-up against world champions France, holders Portugal or Germany but will have home advantage on June 29.

"We are not fluent but we have moments where we look a good side," Southgate told ITV.

"Different sorts of tests. All of our next opponents will be different games. There is a lot of good things we are doing. We are getting minutes for a lot of the players. Ninety minutes for Harry Maguire was important tonight. Jordan Henderson getting 45 minutes is a step forward. A lot of positives."

GREALISH STARTS

There was clamour before the match for Aston Villa captain Grealish to start to shake up an insipid display in the 0-0 draw against Scotland.

Southgate obliged, also

bringing in Saka among four changes to his side.

Chelsea midfielder Mason Mount was unavailable as he was isolating due to coronavirus protocols while Southgate opted to leave Phil Foden out to prevent the risk of a suspension.

Manchester United defender Maguire made his first appearance of Euro 2020 alongside John Stones in central defence.

England started brightly in the evening sunshine and Sterling went agonisingly close in just the second minute but could only watch as his deft chip over the goalkeeper came back

off the post after he collected a raking pass from Luke Shaw.

As chants of "Football's Coming Home" rang around the stadium, captain Kane — heavily criticised for his toothless performances in the tournament so far — shot from distance and Grealish let fly.

England broke the deadlock in the 12th minute, when Grealish, on the left side of the penalty area, lifted the ball to the back post, where Sterling headed in for his second goal of Euro 2020.

Grealish and Man-Of-The-Match Saka were inventive and direct on either side of Kane, showing a willingness to run at their opponents.

Kane went close midway through the first half, forcing a fine left-handed save from Tomas Vacik and thumping the ground in frustration.

But the Czechs carried a threat of their own on their forays forward, growing in menace as the half wore on.

Tomas Holes forced a flying save from England goalkeeper Jordan Pickford just before the half-hour and Tomas Soucek fired wide of the left post.

Liverpool midfielder Henderson replaced Declan Rice at half-time and the Czechs made their own change, bringing on Petr Sevcik for Jakub Jankto.

The sides were evenly matched in the second half, with the reduced crowd making an impressive noise in the cavernous stadium.

Both sides made further changes as the match wore on and the intensity dipped, with fans having to wait until the 83rd minute for the first attempt at goal in the second half.

Henderson briefly thought he had scored his first England goal late on but it was ruled out for offside.

Croatia captain Luka Modric, center, celebrates after scoring his side's second goal against Scotland

Modric breaks Scotland hearts

AFP ■ GLASGOW

Scotland's shot at reaching the knockout stage of a major tournament for the first time were ended in a 3-1 defeat to a Luka Modric-inspired Croatia at Hampden Park on Tuesday that took the World Cup runners-up into the last 16 of Euro 2020.

After ending a 23-year wait just to qualify for a major tournament, another historic feat was beyond Steve Clarke's men who were undone by a moment of magic from Modric.

Callum McGregor cancelled out Nikola Vlacic's early opener to give the hosts hope heading into half-time.

But Modric showed the class that made him the man to break Lionel Messi and Cristiano Ronaldo's grip on the Ballon d'Or in 2018, a stunning strike with the outside of his foot just after the hour mark restoring Croatia's lead.

"No one is sure how Luka manages that," Croatia boss

Zlatko Dalic said of the 35-year-old.

"We expect that Luka will go down, lose his strength, but he is the force that pulls the whole team. Anything I would say about Luka would not be sufficient. I'm very proud to have such a player as part of our team."

Ivan Perisic's header rubbed salt into Scottish wounds 13 minutes from time as Croatia pipped the Czech Republic to second place in Group D behind England.

Zlatko Dalic's side will face the runner-up from Group E, featuring Spain, Sweden, Slovakia and Poland, in Copenhagen next Monday.

Scotland's preparation had been blighted by the loss of Billy Gilmour to a positive test for coronavirus after the 20-year-old midfielder had shone on his first international start in a 0-0 draw against England on Friday.

But Clarke's squad escaped without any other players being

forced to isolate as close contacts and, roared on by 12,000 fans inside Hampden, started on the front foot.

Che Adams was inches away from connecting with John McGinn's dangerous cross that Dominik Livakovic did well to turn behind for a corner.

Croatia had barely threatened before they went in front on 17 minutes.

Perisic headed down a lofted ball into the box and Vlacic found space between three Scotland defenders to fire low into the corner.

Croatia then had the hosts chasing shadows for 10 minutes as the midfield maestros of Modric, Marcelo Brozovic and Mateo Kovacic took control of the game.

"Modric was incredible," said Arsenal defender Kieran Tierney. "I think tonight was a big learning curve for us all. They've been there before, the quality they showed it was hard for us to get going."

Pandemic Games will show 'true Olympic values': Tokyo 2020 chief

AFP ■ TOKYO

The stripped-back Tokyo Games, held despite the ongoing pandemic, will highlight the Olympics' true values, Tokyo 2020 chief Seiko Hashimoto said as organisers

mark a month to go.

The Games will be unlike any other, with overseas fans banned and athletes kept away from the public. Competitors have had to leave their families behind and spectators will be capped at 10,000 people.

But former Olympian Hashimoto said the restrictions were a chance to look beyond the usual pomp and celebration that accompany the Games, and to focus on the sport. "In recent years when I was participating as an athlete,

there were concerns that this (event) has become so huge," she told reporters. "The Games tended to end with extreme excitement, but because of that the original meaning and values... were not fully communicated," she added.

Haryana to give ₹6 cr to Tokyo Gold winner

Chandigarh: Haryana government on Wednesday announced that sportspersons from the state who win Gold medal in the upcoming Tokyo Olympics would be given a cash amount of ₹6 crore.

The state Government will give the Silver winners ₹4 crore while the Bronze medalists will get ₹2.50 crore.

The state sports minister Sandeep Singh announced this while interacting with Olympic medallists on the occasion of International Olympic Day here, along with Chief Minister Manohar Lal Khattar.

Sandeep also said that 30 players taking part in the upcoming Tokyo Olympics have been provided ₹5 lakh each as preparation amount.

The Chief Minister said medal winners at the International events will be given Government jobs to encourage youngsters to take up to sports, a state Government statement said. PTI

Lahiri wasn't expecting to qualify for Olympics

Cromwell: Indian golfer Anirban Lahiri says he wasn't expecting to qualify for the Olympics given his below par performance this year but now wants to make it count by returning with a medal from the Tokyo Games.

Lahiri on Tuesday made the cut for the Olympics at the 60th spot, the last quota available as per the International Golf Federation rankings.

"It was a big surprise, I wasn't expecting it," said Lahiri, who is preparing for this week's PGA TOUR stop at the Travelers Championship at TPC River Highlands, Connecticut.

"Even though I've earned it, I don't feel like I've really earned it as I know how far below my potential I've played this year. It's a gift and an opportunity, so why would I throw it away?"

India was eligible for one spot and Lahiri qualified being the highest-placed golfer from

the country at the 340th position.

"I know what it is to be an Olympian as I've done it before (in Rio) and I don't want to be just an Olympian. I want to win a medal, I want to do something that makes a difference," said the 33-year-old.

"I know winning a PGA TOUR event will do that but winning a medal would even do more. I do have a certain responsibility towards the game and my country."

The former Asian No 1 finished a lowly 57th in Rio while playing with an injury. But recently, there have been signs of some good form returning following a recent T-25 finish at the Palmetto Championship at Congaree.

That has made him optimistic of his chances at the Olympics to be held at the Kasumigaseki Country Club from July 29 to August 1. PTI

Jadeja becomes No 1 Test all-rounder

New Delhi: India's Ravindra Jadeja on Wednesday dislodged West Indian Jason Holder as the world's top all-rounder in the latest ICC Test rankings.

Jadeja is two points ahead of Holder (384) while England all-rounder Ben Stokes is third on 377 points. Another Indian, Ravichandran Ashwin is at fourth with 353 points, followed by Shakib Al Hasan of Bangladesh (338).

Ashwin remained at second spot in the bowlers' rankings on 850 points, below Pat Cummins (908) of Australia. Tim Southee (830) of New Zealand is third.

Among the batsmen, there was no change in top-five with Indian captain Virat Kohli static at fourth on 814, Steve Smith of Australia continued to be the top batsman on 891 points, followed by Kane Williamson (886) of New Zealand and Marcus Labuschagne (878) of Australia.

England captain Joe Root (797) is at number five, followed by the Indian pair of Rishabh Pant and Rohit Sharma at joint at sixth on 747 points. PTI

Office of Executive Engineer B&R Division H.P.P.W.D. Joginder Nagar Himachal Pradesh Public Works Department, Mandi-175015 Phone & Fax No. 01908-222033 E-Mail:- ee-jog-hp@nic.in

e-PROCUREMENT NOTICE INVITATION FOR BIDS (IFB)

The Executive Engineer, B&R Division, HPPWD, Joginder Nagar on behalf of Governor of Himachal Pradesh invited the online bids on item rate, in electronic tendering system, in 2 cover system for the under mentioned work from the eligible and approved contractors/firms registered with HPPWD department:-

| Sr. No. | Name of Work | Estimated cost | EMD | Cost of Tender | Eligible class of contractor | Time limit |
|---------|--|----------------|----------|----------------|---------------------------------------|----------------------|
| (1) | (2) | (3) | (4) | (5) | (6) | (7) |
| 1 | Periodical maintenance of Sainthai Praini road (VR-0033) under Annual maintenance Plan 2021-22 (Substituted) (Sub Head :- Providing and laying built-up spray grout, bituminous concrete in Km.0/0 to 1/0) | 11,08,546/- | 22,200/- | 500/- | All classes deal with bituminous work | Two months (60 days) |

2. **Availability of Bid Documents and mode of submission:-** The bid document is available online and b5id should be submitted online on website <http://hptenders.gov.in>. The bidder would be required to register in the website which is free of cost. For submission of the bids, the bidder is required to have Digital Signature Certificate (DSC) from one of the authorized Certifying Authorities (CA) "Aspiring bidders who have not obtained the user ID and password for participating in e-tendering in HPPWD may obtain the same from the website: <http://hptenders.gov.in>. Digital signature is mandatory to participate in the e-tendering Bidders already possessing the digital signature issued from authorized CAs can use the same in this tender.

3. **Key Dates:-**

1. Date of online Publication:- 07/07/2021 10:00 Hrs.
2. Document Download Start and end date:- 14/07/2021 10:00 Hrs upto 29/07/2021 17:00 Hrs
3. Bid Submission start and end date:- 14/07/2021 10:00 Hrs upto 29/07/2021 17:00 Hrs Physical submission of EMD and cost of tender document on or before the time and date of submission of bids:- 30/07/2021 upto 11:00 A.M.
4. Date of Technical Bid opening will be 30/07/2021 11:30 AM, Evaluation of technical bid opening and financial bid opening will follow on accordingly.

4. **Tender Details:-** The tender documents shall be uploaded online in 2 cover.

- i) **Cover 1:-** Shall contain scanned copies of all "Technical Documents/Eligibility information.
- ii) **Cover 2:-** Shall contain "BOQ/Financial Bids" where contractor will quote his offer for each item.

5. **Submission of Original Documents:-** The bidders are required to submit (a) original demand draft towards the cost of bid document and (b) Original bid security / Earnest Money Deposited (EMD) and other technical Documents in O/O of the Executive Engineer, B&R Division H.P.P.W.D. Joginder Nagar District Mandi (H.P) on or before the time and date of submission of bids failing which the bids shall be declared non-responsive. No physical documents will be accepted after the closing date & time of submission of bids.

6. **Bid Opening Detail:-** The bids shall be opened on 30/07/2021 11:30 Hrs. in the office of Executive Engineer B&R Division H.P.P.W.D. Joginder Nagar District Mandi (H.P) by the authorized officer in their interest the tenderer are advised to be present along with original documents as the specified in Key dates at Sr. No. 4. If the office happens to be closed on the date of opening of the bids as specified, the bids will be opened on the next working day at the same time and venue.

7. The bids for the work shall remain valid for acceptance for a period not less than 120 days after the deadline date for bid submission.

8. Other details can be seen in the bidding documents. The officer inviting tender shall not be held liable for any delay due to system failure beyond its control. Even though the system will attempt to notify the bidders of any bid updates, the employer shall not be liable for any information not received by the bidder. It is the bidder's responsibility to verify the website for the latest information related to the tender.

9. In addition to instructions for use of standard form in bidding documents the bidder should upload the following information also.

- (i) Total annual volume of Civil Engineering construction work executed and payment received in the last five year proceeding this year duly verified by the Chartered Accountant

Executive Engineer, B&R Division HP PWD, Joginder Nagar District Mandi (HP) on behalf of Governor of Himachal Pradesh Ph. 01908-222033

RO NO.1791/21-22 Dt. 23-06-2021

Call off Ashes if families can't accompany players: Vaughan

PTI ■ LONDON

Former England skipper Michael Vaughan believes the iconic Ashes series should be cancelled if families are not allowed to travel with the players for the four-month long tour of Australia due to strict Covid-

them down under this winter... Quite simply if they can't they should call the Ashes off... 4 months away from your family is totally unacceptable... #Ashes," Vaughan wrote on his Twitter handle.

The report also drew a sharp response from former England captain Kevin Pietersen, who feels players shouldn't be criticised if they decide to pull out of the series due to such restrictions.

"Any ENG player that pulls out of this Ashes, if they seriously can't see their families for FOUR MONTHS, has my full backing. Families are the most important part of a players make up. And even more so in the current climate! FOUR MONTHS with no family on Ashes Tour?," he tweeted.

Cricket Australia, however, on Wednesday said that a solution can be worked out and the tournament is still many months away. "It's only June and England are not due to arrive until November," a CA spokesperson told the Sydney Morning Herald.

19 protocols.

According to a report in the UK media, there is still uncertainty whether families of the visiting England players will be permitted to stay with them during the Ashes, beginning on December 8.

"Read reports today that England cricketers may not be able to have family members with

19 protocols.

According to a report in the UK media, there is still uncertainty whether families of the visiting England players will be permitted to stay with them during the Ashes, beginning on December 8.

"Read reports today that England cricketers may not be able to have family members with
