Add 10,300 vials of Amphotericin-B allotted to states

Drug that blocks multiple Covid variants identified

Twitter has to comply with new IT rules: HC

TWITTER seeking their stand on a plea

The state administration.

The Health Ministry on Monday gave the green signal for the use of traditional medicines, which were not patented and are available everywhere. The medical expertise to treat this disease is widely available. The government has not received any reply from any of the states on its letter.

India's GDP shrinks 14.7% in Q4

In March-April, India's GDP was 1.5% in the fourth quarter of 2020-21, according to preliminary data showed on Monday. The government had marked the pre-lockdown period as the normal. The gross domestic product had dropped 24.7% in the July-September quarter compared to the same period last year, as the virus spread across the world.

Eatala meets JP Nadda; discusses his joining BJD

Eatala Rajender, the president of Bharatiya Janata Party (BJP) had written to the Telangana government on Monday that it was another welfare measure of the TRS Government to come to the aid of poor people who are waiting for rice from the lockdown necessitated by the third wave of COVID-19 that has hit the country.

SC relief for TV channels in sedition case

SC takes dig on authorities on media reportage

The Hyderabad High Court on Monday ordered the state government to consider a plea seeking the appointment of a committee of experts to look into the so-called sedition law.

In Telangana, the mortality rate was 3.0% in 2014-2019. In 2019-2020, it increased to 3.4%. In the second wave of COVID-19, it has been further increased to 4.1%

The 20 deaths were reported in the State Cabinet's decision to resume registrations in various SROs. In the previous October-December quarter, the mortality rate was 0.5 per cent.  In the first wave, the mortality rate was 0.0 per cent.

The third wave has already killed more than 80,000 people in India, according to official figures. In Telangana, the mortality rate is 0.0 per cent.

By Justice Chandrachud.

The SC got a letter from the Telangana government on Monday afternoon. In the letter, the government submitted that it was not certain whether the patients had succumbed to Covid or some other disease.

Fees: Rs 400

Fees: Rs 600

Fees: Rs 500
Opposition criticises, Modi inspires people with his talks

The government would give 15 kg of rice free of cost to the 33.86 lakh cardholders, without any limit, identified 53.56 lakh cardholders, without any limit; people through 'Main Ki Baat' programme. Because of the production of liquid medical oxygen has been initiated, the state has produced 1300 liters of liquid medical oxygen per day, which is produced being moulded by the government to stop production of oxygen in a few months. The Centre has increased its supply toouve since the start of the year. The Centre has also been able to achieve a shortage of vaccines. Many have the goods on their stora

Eateala Rajender's decision to join BJP disturbs Cong

Hyderabad, 04

The Congress national spokesperson AICC national spokesperson Dinesh Trivedi surprised many when he declared that he would join the BJP. In response, Ipsa Burra, the AICC vice-president of the Congress party, alleged that it was a coincidence that the opposite party was appointing a joint secretary in the Congress party. The party's senior leaders were also shocked by the news and felt that it would be a setback for the Congress party in the upcoming elections. Even the senior leaders of the Congress party were questioning themselves for their failure in the elections.
Goa Cong asks BJP with ‘photos in cemeteries’ demand

Goa Congress on Monday demanded that the Delhi Police find out who took the photographs, that showed BJP leader Amulya Patil being “photographed” in a cemetery, and take appropriate action.

Policymakers must have ‘ears on ground’: SC on CoWIN app

Supreme Court Monday rejected a petition seeking direction to the government to bring in other mechanisms to access the available COVID vaccine, instead allowing the Centre to continue with its efforts to organise vaccination drives using the CoWIN app.

Central Vista: Govt hits out at false propaganda by Oppn

Union Minister Hardeep Singh Puri on Monday said a false narrative was being created around the Central Vista, a ₹20,000-crore project that the government has launched.

Fadnavis meets Pawar, says ‘courtesy’ call

Former Bombay high court chief justice and senior Congress leader Manohar Joshi met former chief minister Devendra Fadnavis on Monday and said that he had visited Navi Mumbai for the courtesy of visiting his home town.

NTG refuses to amend MBBS rules

Fresh beginning

The vaccination data will help the Government take forward the immunisation campaign more effectively.

India may be the ‘oldest functioning organisation’ in the world but India is an inclusive land of various faiths, cultures and moulds.

China needs to be transparent

China is not all of us. This is a government in Delhi that you read about in newspapers... and foreigners in Delhi who do not even take you seriously. Your country is the world’s largest democracy and you are working towards a brighter future.

Chairs next to the editor

We can do much better

We have been asked to be “credible and transparent” by the UN and the World Health Organization. We have been told that the Chinese government should not hide behind its “silence” and “obfuscation”.

Courage

They don’t only face bullets, they also save lives at home, and abroad!

Coup trying

High-speed winds, a deadly swarm of swarms and sponsored political campaigns have been carried out to disrupt the peace and stability in countries around the world.

Letters to the editor

We are not so god-like... We are not so divine... We are not so god-given, but we are also not so god-forgotten.

India can succeed

The Union Government appears to be reaching a stage where it can base its decisions on real data rather than superfluous data or data derived from abroad on tangential topics. The Government now proposes to launch a nationwide platform to track vaccination data in India. The Government is now bringing all the various Advices on immunisation will evidence to the people with real-time data available. The data will be an amalgam of vaccine data (impact of vaccinations on immunity from COVID-19 or reduction in severity), diagnostic data (positive rate and overall disease data (viral trends and a few more).

India has already been in China and the Chinese

The yellow peril is over. The Chinese, who have always been a great and dynamic people, are now playing an active role in the world economy. They have already conquered China and Japan and have a stake in discovering the origin of the virus.

In the fast-paced world where people are used to the idea of instant gratification, cost-competitive horizontal mergers are the quick way to achieve economies of scale. A horizontal merger is a type of merger where two companies that produce the same product or service are bought by another company. The industry as a whole benefits from the increased scale of operations and the cost savings that come with it. This type of merger is common in industries where economies of scale are important, such as manufacturing, retail, and transportation.

The benefits of horizontal mergers include increased market share, reduced competition, and lower costs for consumers. The merged entity can also achieve greater efficiency and productivity, leading to higher profits. However, horizontal mergers can also lead to increased market dominance and reduced competition, which can have negative effects on consumers and the economy as a whole.

In conclusion, cost-strategic horizontal mergers are a key driver of economic growth and development. They help to achieve economies of scale, reduce costs, and improve efficiency in industries. However, it is important to monitor and regulate these mergers to ensure that they do not harm consumers or the economy in the long run.
**NEW DELHI**

The BSE Sensex fell short of near 52K on Monday, ending at 51,977, 22 and trading at an intra-day high of 52,160.22. Healthy buying was extensively seen in the shares of heavyweight Reliance Industries (RIL) also boosted the market. BSE Sensex and Nifty settled at the new records of Rs 31,355 and Rs 9,483, respectively.

Chip supply shortages could take up to two years to address: Intel

Global chip maker Intel has warned on Monday that the chip shortage could last a couple of years to address the chip supply conundrum that is stalling tech products, accelerated by the COVID pandemic.

Intel CEO Pat Gelsinger noted that the world-wide chip shortage was due to the COVID-19 pandemic. Intel also projected that 17% growth in the semiconductor market in 2021 and 6% growth in 2022.

The CEO said that semiconductor customers are not satisfied with the current supply chain. He also added that the chip shortage could last a couple of years.

He also said that the chip shortage problem could last longer than expected.

Airtel extends free vax for nearly 80K staff of partner

Airtel has extended the free vaccination programme to nearly 80,000 employees of over 500 partners and their direct and indirect suppliers.

Airtel, in a statement, said that the free vaccination programme for the company’s partners and their employees will be extended till May 31, 2022.

Airtel has partnered with Apollo Hospitals to vaccinate its employees and their dependents family members.

The initiative was launched in March 2021 and covers only 200 employees of Airtel and its partners.

The company said that the free vaccination programme is an integral part of the Airtel family.

Team Airtel has ensured the millions of Indians can walk offline from the safety of their homes.

The company said that it worked with Apollo Hospitals to vaccinate its employees and their dependents family members.

The company said that it was the first step in the journey to make India free from the second wave of COVID-19.

H

The URGENT NEED TO VACCINATE TEACHERS

The US Centers for Disease Control and Prevention (CDC) recently revealed a new and alarming rate of teachers suffering from MIS-C, a rare and serious complication of the pandemic. The situation is dire, and we must act now to ensure the safety of our educators.

Dr. Ashok, founder of Tarini Prakr, an online tutor, has highlighted the critical nature of this issue. These are some of the distressing facts:

1. The CDC has stated that teachers are at a higher risk of developing MIS-C.
2. Approximately 1 in 200 teachers are affected by MIS-C.
3. The condition is severe and can result in organ failure.
4. The majority of cases are found in teachers under the age of 40.

Moreover, many teachers are struggling financially and emotionally, which is putting a strain on the education system. We must act quickly to ensure the health and safety of our educators.

The Importance of Vaccination

Vaccination is the key to preventing MIS-C. It is important to vaccinate all teachers, regardless of their age or health status. This will not only protect the teachers themselves but also their students and the wider community.

Steps to Take

1. Contact your local health department to inquire about the availability of vaccines.
2. Encourage your school to participate in the vaccination program.
3. Stay informed about the latest developments in vaccine distribution and vaccination requirements.

We must act now to ensure the safety of our teachers and the well-being of our students. Let's come together to make a difference.

GEMSTONES: A WOMAN’S LATEST BEST FRIEND!

Gemstones, royals and sentiment

In the past, Napoleon wore an enormous sapphire ring for Empress Josephine. Even today, Royals have not shied away from expressing their love for gemstones. Beatrix of the Netherlands wore a sapphire ring to her wedding. Indian Royalty such as Srijit Mukherji, Pitta and Srijit Mukherji wore sapphire rings for their wedding.

Raj Kapoor to Blake Lively

Celebrities from Aishwarya Rai Bachchan to Blake Lively wear coloured gemstones not only to serve sentimental and aesthetic purposes, but also as style statements. This growing market of coloured stones, the demand for gemstones has increased exponentially in the last few years. Wedding season being a hot season, the gemstone market is growing at a rapid pace.

Growth of gemstones market

With more and more young people, designers, and investors ditching the traditional diamond rings and opting for gemstones, the demand for gemstones has increased exponentially in the last few years. Wedding season being a hot season, the gemstone market is growing at a rapid pace. The growing demand for gemstones has also led to new designs and styles being created by traditional jewellers from global brands have started investing in gemstones.

Indian Gems and Jewellery sector constitutes 7 percent of the country’s GDP. The ongoing global pandemic has affected almost every business, and the gemstones market is no different. From April to June last year, there was a drastic decline of 70 percent in the exports of gemstones. However, as we moved on to June, my response in the United States, Europe and China, revival and recovery seem to be more plausible than before.

Successful investment

The Gem and Jewellery Export Promotion Council has proposed reducing import duties on cut and polished diamonds and other gemstones to 2.5 from 7 percent for rough diamonds and jewellery pieces to 5 percent by 2025.

People have started buying gemstones as an investment as gemstones are scarcer, so they do not depreciate in value. With the growth of the sound investment through gems, the demand for gemstones has increased exponentially in the last few years. Wedding season is the hottest season, the gemstone market is growing at a rapid pace.

Growth of gemstones market

With more and more youngsters ditching the traditional diamond rings and opting for gemstones, the demand for gemstones has increased exponentially in the last few years. Wedding season being a hot season, the gemstone market is growing at a rapid pace.

The traditional engagement ring is well above the luxury style statement too. People have started buying gemstones as an investment as gemstones are scarcer, so they do not depreciate in value. With the growth of the sound investment through gems, the demand for gemstones has increased exponentially in the last few years. Wedding season being a hot season, the gemstone market is growing at a rapid pace.

A cross Jeev Chawla has filed a suit against the growth of 5G implementation in India.

The actress filed a petition against the 5G implementation. She argues that 5G is extremely harmful and injurious to the health and safety of the people. She says that while that is not against technology and assault as well, she feels that it’s important to address the problems it causes to environmentalists, farmers, and birds.

The growing popularity of gemstones can be witnessed. Clearly as many celebrities now wear gemstone jewelry as style statements. This clearly indicates that gemstones are no longer just for the royal families. People have started buying gemstones as an investment as gemstones are scarcer, so they do not depreciate in value. The film is set to be a turning point in his career, and the audience is eagerly awaiting the release of “Maha” to witness the transformation of Vineeth Srinivasan as a performer.
**Real lost faith in me: Zidane**

**HARSHIT BISHT**

Real Madrid's French coach Zinedine Zidane has admitted that he has lost faith in several of his key players at the club.

"I have lost faith in my players," Zidane said in a press conference before Real Madrid's next La Liga match. "I have had enough of them. They have not been good enough for the team."

"I have lost faith in them," Zidane continued. "They are not playing well and they are not giving their best for the team."

** Aphy News**

Real Madrid is struggling to find its rhythm this season, with the team currently sitting 12th in the La Liga table. The club has been criticized for its lack of strategy and poor decision-making on the pitch.

Zidane's admission comes as a shock to many Madrid fans, who had expected him to lead the team to another title this season. The Frenchman has been under pressure for some time, with Real Madrid fans calling for his replacement.

**Sanjeev wins Gold for India**

**PTI**

Sanjeev ruled out for third straight set

Sanjeev, who beat Britain’s No. 1 in the 2015 World Championships, said the margin of victory had been too narrow, but it was enough to secure India’s second Olympic gold in tennis.

"I gave my best in the match," Sanjeev said. "I was constantly pushing myself, and I think I did enough to win.

"I am grateful to my colleagues at the Indian Tennis Association and to the Indian Olympic Association for their support.

"I want to thank all my fans for their support and encouragement throughout the tournament."

Sanjeev will now focus on the upcoming Davis Cup and the 2024 Tokyo Games.

**FEDERER WINS RETURN TO PARIS**

**AFP**

Rafael Nadal and Novak Djokovic are through to the third round of the French Open, setting up a potential semi-final in Paris.

"I’m happy to be back in Paris," Nadal said. "It’s a place I love to play and it’s always a great tournament for me." Djokovic added: "I’m really excited to play in Paris again. It’s a great tournament and I’ve always enjoyed my trips here.

**Barca sign Aguero**

**HARSHIT BISHT**

Argentina’s all-time top goalscorer Sergio Aguero has signed for Barcelona on a short-term deal.

"I am really happy to be back in Spain," Aguero said. "Barcelona is a special club and I am looking forward to playing with my new teammates.

"I am excited to join a team with such a rich history and I am confident that we can achieve great things together."
