## Bengal Opp badly battered

8 workers of BJP and Left killed; TMC rejects allegation of party's role

SAUGAR SENGUPTA ■ KOLKATA

Ruthless attacks on the vanquished Opposition workers continued in West Bengal with at least 8 people losing their lives to alleged Trinamool Congress violence in various parts of the State in the past 24 hours or so, reports said.

Chief Minister Mamata Banerjee made a public appeal asking the people to remain indoors and refrain from engaging in violence, but political animosity degenerated into bloodshed.

Indian Secular Front worker Hasanur Zaman was repeatedly bombed to death at De Ganga in North 24 Parganas while BJP worker Haran Adhikari was shot in Sonarpur.

Another BJP supporter succumbed to bullet injury at Moynaguri in Jalpaiguri district of North Bengal. A third BJP worker was shot dead at Burapancha village near

Sitalkuchi in Cooch Behar where CAPP firing had claimed four lives during the elections.

A woman was bumped off at Ranaghat in Nadia district while a Left supporter was killed in Murshidabad, sources said. Another BJP man was allegedly beaten to death at Belehghata in North Kolkata, party men alleged.

Properties, including motorcycles, of BJP and CPI(M) supporters were destroyed at Chakdaha, Haringhata and other areas of Nadia district, sources said.

Bengal BJP president Dilip Ghosh alleged that the houses of BJP men were vandalised and torched at Bhagwanpur and Patashpur in East Midnapore while saffron party offices were torched at Balurghat and North Dinajpur in North Bengal. He appealed to the Chief Minister to "stop this carnage and let the people live in peace."

Ghosh led a team of BJP leaders to meet the Governor at Raj Bhavan. He said, "Elections are over and whatever ill-feeling should now be forgotten... Instead of that our workers and those of some other political parties are being systematically targeted, beaten up, murdered and their properties destroyed. We have been forced to transfer the victims of this violence to other safer places. I request the Chief Minister to order her men to stop this or else we shall be forced to resume campaign from tomorrow."

Refuting the charges, TMC spokesperson Kunal Ghosh said, "Our leader Mamata Banerjee has asked people not to indulge in violence. In none of the cases, the TMC is involved. In fact, it is the fight between the old and the new BJP men. The old BJP men are beating up the new entrants who went from the TMC."

## Nandigram recount was stopped at gunpoint, will move court: Mamata

West Bengal Chief Minister Mamata Banerjee addresses the media in Kolkata on Monday. PTI

SAUGAR SENGUPTA ■ KOLKATA

The people of West Bengal had put the rulers of Delhi in their place by handing them out a stunning loss in the Assembly elections and this "proves that the BJP is not a shahenshah," Chief Minister Mamata Banerjee said.

Mamata will take oath for the third time in a row as Bengal Chief Minister on May 5, senior party leader and Minister of the outgoing State Cabinet Partho Chatterjee said after the TMC Legislature party on Monday unanimously elected her as the Leader of the TMC Legislature Party.

She alleged the BJP had misused the poll body to defeat

her but failed, "thanks to the people of Bengal."

Refusing to let her anger on the Election Commission die down, Mamata complained how the counting of votes at Nandigram was manipulated at gunpoint to ensure that she lost by a wafer-thin margin.

"I have an SMS with me... it was sent by someone... it said the Returning Officer of Nandigram was forced not to order a recount at gunpoint... he said he had risk his life and family if he ordered a recount... But I will not take it lying down. I will move the court and definitely tell all the officials to preserve the VVPAT and other papers," she said.

## India Inc calls for lockdown to save lives

RAJESH KUMAR ■ NEW DELHI

A day after the Supreme Court advised the Centre and State Governments to consider a lockdown to break the chain of Covid-19 transmission, prominent industrialist and trader bodies have called for a nationwide shutdown.

Prominent industrialist and Confederation of Indian Industry (CII) president Uday Kotak called for the curtailment of economic activity "to reduce suffering" due to the deadly second wave of Covid-19 cases in India.

"At this critical juncture when the toll of lives is rising, the CII urges the strongest national steps, including curbing economic activity, to reduce suffering," Uday Kotak said in a tweet.

Kotak has asked for the highest-level response measures to address the rising wave of Covid-19 cases, as currently safeguarding lives is key to cut the transmission links.

"The healthcare infrastructure and supply build-up are being undertaken on an emergency basis by the Governments at the Centre and States, but will take time," he said.

Earlier, several experts as well as leading economists suggested the Government a nationwide lockdown is the only solution to break the chain of Covid infections. From US epidemiologist Anthony Fauci to AIIMS Director Randeep Guleria, all have suggested a complete lockdown.

An online survey conducted by the Confederation of

All India Traders (CAIT) showed that at least 67.5 per cent participants are in favour of nationwide lockdown while 78.2 per cent people have said they agreed that corona has become uncontrollable.

CAIT national president and secretary general Praveen Khandelwal on Monday urged the Prime Minister to immediately impose a nationwide lockdown in order to break the chain of infections during the second Covid-19 wave.

CAIT said in the event of a national lockdown, the trading community across the country will ensure the supply of essential items like last year. Over 9,000 respondents participated in the online survey.

Amid an exponential rise in coronavirus cases, the SC on Sunday urged the Centre and States "to consider imposing a lockdown to break the chain in the interest of public welfare."

## IAF plane flies 12 hrs at stretch from Frankfurt to bring oxygen

PNS ■ NEW DELHI

Sustaining the tempo of airlifting the much-needed oxygen from abroad, an aircraft of the IAF flew non-stop for 12 hours to bring home oxygen from Frankfurt, Germany. The C-17 transport plane ferried four empty cryogenic containers from there and landed at the Hindon airbase, Ghaziabad.

Similarly, another C-17 aircraft airlifted 450 oxygen cylinders from Brize Norton in the UK to the Chennai airbase in Tamil Nadu. In the past few days, the IAF planes carried out numerous sorties to ferry the containers from Singapore, Thailand and United Arab Emirates.

## O2 piles on K'taka agony, 24 die

PTI ■ BENGALURU

In yet another hospital tragedy in the country in recent days, 24 patients, 23 of them Covid-infected, died in Karnataka's Chamarajanagar due to alleged oxygen shortage in the district hospital in the last 24 hours, with the Government warning of stringent action against those found guilty.

The Government ordered a probe into the matter and appointed senior IAS officer Shivayogi Kalasad as the inquiry officer.

Following the incident, Chief Minister BS Yediyurappa convened a meeting with oxygen producers, where a number of decisions were taken to ensure supply of allocated quantity of oxygen to the State by the Centre.

Relatives grieve after death of Covid patients due to shortage of oxygen cylinders in Chamarajanagara District of Karnataka on Monday. PTI

Among these were to reduce the time taken to refill oxygen tankers, provide a green corridor for faster commuting of oxygen tankers and avoid unnecessary delay at toll gates.

Utilising the service of the LPG tanker drivers in case of emergency was also another important decision.

Health Minister Dr K Sudhakar maintained that only

three people had died due of oxygen shortage and not 24 as reported, though he stressed that the probe would reveal the truth.

The incident evoked a sharp response from the Congress, with party leader Rahul Gandhi wondering "how much more suffering before the 'system' wakes up." In heart-breaking episodes preceding today's incident in the country, a fire at a mall in Mumbai housing a Covid-designated hospital in March left nine, including those on ventilators, dead, while 22 Covid-19 patients who were either on ventilator or oxygen support, suffocated to death when their oxygen supply stopped suddenly due to a malfunction in the main storage at a civic hospital in Nashik.

## UP EXTENDS LOCKDOWN FOR 2 MORE DAYS

**Lucknow:** The Uttar Pradesh Government has extended the coronavirus-induced curfew in the entire State by two more days, May 6. As per the latest order, the restrictions will remain in place in all 75 districts till May 6 morning. The restrictions were slated to be lifted on May 4 morning. This is the second extension of lockdown-like curfew in the country's most populous State.

## Covid toll breaches 3K-mark in State

129 patients die on Monday

PNS ■ RANCHI

Covid toll breached the 3,000-mark in Jharkhand on Monday as at least 129 patients died during treatment in the past 24 hours, figures compiled by the National Health Mission (NHM) highlighted. While casualties continued to haunt the State, two of the worst-affected districts — Ranchi and East Singhbhum — reported a drop in the active caseload, Government data revealed.

As per a bulletin released by the NHM on Monday night, Ranchi reported as many as 977 cases against 1,027 Covid recoveries, which brought the active caseload here down to 20,071. On the other hand, the active caseload dropped to 5,107 in East Singhbhum on the day as the district reported 937 Covid recoveries against 731 fresh cases.

While East Singhbhum has been reporting a fall in the active caseload in this week, the trajectory of active cases in Ranchi only witnessed an upward trend since mid-April. Ranchi and East Singhbhum also accounted for almost half of the 129 Covid deaths on the day. As per Government data, at least 38 Covid patients died in Ranchi in the past 24 hours while 22 patients died in East Singhbhum.

These two districts jointly account for more than 50 per cent of the 3,073 Covid fatalities. The two districts jointly account for 1,644 deaths with Ranchi reporting 977 and East Singhbhum reporting

667 casualties. Jharkhand on Monday reported 6,899 cases of coronavirus infection against 5,614 recoveries, stated the NHM bulletin.

As per the bulletin, as many as 59,675 State residents were battling the viral infection by the end of Monday. So far, over 2.51 lakh Jharkhand residents have been infected by the mysterious virus and more than 75 per cent of them have recovered, reveals Government data.

The State on Monday tested swab samples of 51,527 residents and around 13.38 per cent of them were found infected. The daily positivity rate in Jharkhand was above 15 per cent in the past one week. As per Government data, the growth rate of cases in Jharkhand was 2.37 per cent against the national average of 1.47 per cent.

The doubling rate in the state was 29.64 days against the national average of 47.58 days. The Covid mortality rate in Jharkhand has been on the rise this month. The mortality rate in the State on Monday was 1.22 per cent against the national average of 1.10 per cent. The mortality rate was even higher in Ranchi.

Amid a rise in cases and casualties, the vaccination campaign has also been hit due to an alleged shortage of vaccines in the state. On Monday, the state administered the first dose of the vaccine against Covid-19 virus to only 7110 beneficiaries, while the second dose was administered to 10,764 residents.

## Take criticism by Madras HC in right spirit, SC tells EC

PNS ■ NEW DELHI

The Supreme Court on Monday rejected the pleas of Election Commission of India to ban media reporting on the Madras High Court's observations that the poll panel was singularly responsible for Covid-19 deaths and it should be booked for murder.

Justices DY Chandrachud and MR Shah advised the EC to take the criticism by the Madras High Court in the right spirit. "The EC is a seasoned constitutional body

which has been entrusted with functions of conducting the elections. We cannot in today's times say media will not report the discussions that take place in court," the Bench said. The Bench went on to point out that the discussions that take place in the courts are of importance and are in public interest. "It's not a monologue that one person will speak and then judges will speak. We have an Indian pattern of arguments in court... There is an aspect of the application of mind. First prayer of don't report what is said in court was fardetched," said Justice Chandrachud rejecting the EC plea.

## CM to review progress of all welfare schemes today OFFICIALS DIRECTED TO COME WITH A CONCRETE ACTION PLAN

PNS ■ RANCHI

Chief Minister Hemant Soren will hold a review meeting of all the departments on Tuesday via video conferencing. During the meeting, the CM will review the progress of all important public welfare schemes run by the State Government.

In this regard, a letter from the office of the Chief Secretary was released on Monday wherein, all the secretaries of different departments of the Government of Jharkhand have been requested to be present with a concrete action plan for the implementation of different schemes so that the people of the State may be provided with some relief in this pandemic period.

During the second wave of the Covid-19 pandemic, there has been an upsurge of cases.

To curb the spread of the virus, the CM announced a two-week long 'Health Safety Week' across the State. With exception of the necessary and emergency services like medical services, agricultural activities, FMCG (with few limitations) and MGNREGA, which is the backbone of the rural economy, all other activities have been stalled. But, the ill effect of this pandemic on the poor population cannot be nullified.

The CM said the implementation of many schemes has been impacted due to the pandemic. Given this, to provide relief to the poor population of the State, the CM has directed all the secretaries of different departments to come up with an action plan, so that while fighting with the Covid-19 pandemic, the departments should ensure that every beneficiary gets covered under the schemes

Chief Minister Hemant Soren

run by the State Government. Apart from ongoing Health Safety Week, many other mitigating steps are being taken up by the State Government to ensure the availability of every possible health facility for the people of Jharkhand.

Many other mitigating steps are being taken up by the State Government to ensure the availability of every possible health facility for the people of Jharkhand.

Oxygen beds across the State have been increased manifold, ICU and Ventilator beds have also been increased.

Ventilator beds have also been increased. Also, to ease the pressure of Covid dedicated hospitals in cities like Ranchi & Jamshedpur, where cases are higher as compared to other districts, two dedicated Covid circuits have been operationalised to provide oxygen supported beds to the maximum population suffering from Covid-19. Implementation of many flagship schemes have been impacted due to pandemic

detect Covid properly in mild cases, Dr Guleria said.

Guleria, who is also a member of the national pandemic task force, added blood tests can't always prove Covid infections as other underlying diseases can also trigger a spike in biomarkers. The CT-scan machine takes cross-sectional images of the body using com-

puters and rotating X-ray machines. They are being used to detect Covid infections by detecting signs of pneumonia or white patches in the lungs. More people are relying on the expensive scan than last year as reports suggest the mutant variants of the virus can go undetected in the gold standard RT-PCR test.

## NEET-PG deferred for 4 months, medicos to join Covid battle

PNS ■ NEW DELHI

In view of an unprecedented rise in Covid-19 cases across the country, the Government has decided to postpone NEET-PG for at least four months. The decision was taken at the high-level review meeting held by Prime Minister Narendra Modi.

It was decided that the State and Union Territories Governments are to make all efforts to reach out to each such prospective NEET candidates and request them "to join the Covid-19 workforce in this hour of need. The services of these MBBS doctors can be utilised in the management of Covid-19," said a statement from the Prime Minister's Office (PMO).

A series of important decisions were taken "to boost availability of medical personnel to fight Covid-19," it said.

# Violation of lockdown norms continues as positive cases rise

PNS ■ JAMSHEDPUR

Amidst rising cases of Covid, violation of lockdown norms is posing further threat. Despite orders several shops continued to operate after 2 pm making a mockery of the orders.

People are seen shopping after 2 pm in areas like Jugsalai, Sidhgora, Baridih, Agrico, Sakchi, Bistupur, Mango, Kadma, Telco, Burmamines, Jugsalai and Sonari. "Despite high death rates, people are still taking the hazards of pandemic lightly. We want people to understand the importance of lockdown. With the beginning of the second phase of lock-

down and in view of prohibitory order under Section 144 of the CrPC the focus is on that people remain indoors.

Meanwhile, traffic police jointly with city police could be seen vigilant at most of the commercial hubs seeking information from two-wheelers and four-wheelers about their reason for coming on the road.

An official informed that if anyone found roaming without a mask will be booked under section 269 (negligent act likely to spread infection of disease dangerous to life), 270 (malignant act likely to spread infection of disease dangerous to life), 188 (disobedience to order duly promulgated by public

servant) of IPC.

"We have decided to file FIR on people coming out without a proper mask. Even the Union Government has made masks a must for every citizen.

On Monday we warned several persons who were found without masks. They were going to buy essential commodities but not wearing masks in the Sakchi area. We have warned them that the police will register FIRs against them for offence under section 188 (disobedience of order duly promulgated by public servant) of the Indian Penal Code", said the police official. Singhbhum Chamber of

Commerce and Industry and Commerce have also demanded a complete lockdown in the city. "The situation is going out of control. Not only rising

deaths but shortage of beds is also a matter of great concern. It is high time that the State Government take immediate steps to ensure complete lockdown. In view of spreading cases of coronavirus and deaths the Government must impose curfew across the state," said a senior functionary.

50 Covid deaths in 48 hours

Jamshedpur: Death figures took a new high with 50 Covid deaths reported in the last 48 hours in the district. With maximum deaths 38 being reported on Saturday while 12 deaths on Sunday. Till today 644 deaths took place. A

total of 652 positive cases today while 780 patients recovered. There are 6830 active cases present in the district.

The district administration has asked all authorities to focus on adopting extra preparedness measures ahead of festive season and to ensure that the COVID protocol is in place in all shops and establishments and markets where people are likely to congregate. The death toll has crossed 600 with the first casualty being reported on July 4 last year.

The city witnessed its first COVID death when a 71-year-old man who was a resident of Sonari died at the Tata Main Hospital on July 4, 2020.

## DC writes to BCCL CMD over non cooperative attitude of doctors, staff

PANKAJ KUMAR ■ DHANBAD

The district administration is unhappy over the alleged indifferent attitude of the doctors and Paramedical staff of BCCL towards Covid duty.

Dhanbad deputy commissioner US Singh in his letter to the BCCL CMD has expressed deep concerns over non compliance of duty location in covid wards at different hospitals of the company.

Several of the doctors of the company were deliberately refusing duty allocation on silly health grounds despite emergency requirements due to pandemic, the DC wrote to CMD with a request to take disciplinary action.

It's worth mentioning that during the first wave of covid last year too a similar situation had arisen at Central hospital based dedicated covid hospital. Then DC had written a letter to the CMD BCCL for

**Police and CISF personnel had to intervene to maintain law and order**

action against company doctors for not taking up covid ward duty seriously.

However, somehow the matter was sorted out. This time the management has taken no action as yet against any of the doctors who were identified or not attending covid patients despite duty allocation.

Meanwhile, relatives of a patient admitted to central hospital created ruckus on hospital premises following death of the patient on Monday. They alleged that no doctor attended the patient and he died soon after the nurse on duty injected some injection.

Police and CISF personnel had to intervene to maintain law and order.

## Discarded stethoscope used for oxygen flow in MMCH

M FAIYAZ AHMAD ■ DALTONGANJ

Necessity is the mother of invention and here in Daltonganj Civil Surgeon Dr Anil Kumar Srivastav has done one such homemade invention to help reach oxygen flow to the admitted Covid positive patients in need of this in the various Covid treatment hubs in the Medinirai medical college hospital in Daltonganj.

The invention is of zero investment and with no technicality. It is eco-friendly and easy to handle. No extra wisdom but a common sense is all that is needed for it, said the civil surgeon.

Srivastav said he is using discarded stethoscopes. He said none could have imagined that a discarded stethoscope can be of so great a use in time like this when oxygen cylinder regulator gets scarce like the filled oxygen cylinders.

The discarded stethoscopes have three pieces one chest piece and two ear pieces.

Srivastav said he has removed all the three pieces from the discarded stetho-

scopes. It is now a forked pipe line only.

Now this forked is serving as pipe line of the oxygen flow from the jumbo size medical oxygen cylinder.

Srivastav said they had one 138 regulators but there is no clue as to where 78 of them have gone as now they have only 60 regulators that they are using.

A regulator in the jumbo size oxygen cylinder means only one patient will get the oxygen if it is not coming from the pipe line.

Srivastav said with this forked, piece less discarded stethoscopes they are giving oxygen to two Covid positive patients from one jumbo size medical oxygen cylinder at one point of time.

It is a big relief and there is no problem at all civil surgeon reminded. He said he started this local jugaad technique from Sunday and around a dozen patients got the oxygen from the jumbo size medical oxygen cylinders.

Srivastav said he has made a fervent request to his doctor friends to donate their dis-

Civil surgeon Palamu Anil Kumar Srivastav showing forked and pieceless discarded stethoscope serving as pipe line for the oxygen supply to the covid positive patients admitted in the covid treatment hubs in the Medinirai medical college hospital in Daltonganj on Monday

carded stethoscopes for this use. This is a minimum substitute for the missing medical oxygen cylinder regulators.

Sources said it is feared disgruntled attendants of the Covid positive patients in sheer recklessness might have played the vanishing trick with the

regulators of medical oxygen cylinders when they had problems in getting oxygen easily.

Raju Mahto, M K Singh, Malti Devi, Nibha Devi and few more had oxygen by this local jugaad technique and had no problem of any sort reiterated Srivastav.

## SER starts sending liquid medical oxygen from Tatanagar

PNS ■ JAMSHEDPUR

Amidst the spread of Covid-19, South Eastern Railway (SER) is taking all necessary steps to ensure running of more Oxygen Express Trains from its jurisdiction to transport liquid medical oxygen to different parts of the country.

The first rake of Oxygen Express from Tatanagar station started today afternoon towards Lucknow, Uttar Pradesh. The train from Tatanagar carried 79.13 tonnes of Liquid Medical Oxygen loaded in 10 tankers.

Two more oxygen express trains started from S E Railway jurisdiction today. One train left Bokaro Steel City on its way to Lucknow carrying 38.95 tonnes of Liquid Medical Oxygen in four tankers. The other train started from Rourkela towards Faridabad carrying 41.74 tonnes of Liquid Medical Oxygen in three tankers.

Running of Oxygen Express Trains by South Eastern Railway started from April 23 and total 800 tonnes

of Liquid Medical Oxygen has been despatched by South Eastern Railway through 17 Oxygen Express Trains run so far. SER has run 10 Oxygen Express trains from Bokaro to Lucknow (Uttar Pradesh) and 4 trains from Bokaro to Bhopal/Sagar/Jabalpur of Madhya Pradesh. Apart from these, 2 trains have been run from Rourkela towards Faridabad in Haryana and 1 train from Tatanagar to Lucknow.

## Bermo MLA lays foundation of schemes online

PNS ■ BERMO

Bermo MLA Kumar Jay Mangal Singh laid the foundation stone of Garhwal construction, Bhuchungdih - Karhariya Dam Ghat of Banddih North Panchayat in village Banchas of Araldih Panchayat in the border of Jaredih Block of Bermo constituency on Sunday.

Singh is also working to provide employment by laying the foundation stone for the continuous development of the area and to boost the morale of the workers even during the time of lockdown.

Due to the foundation work being done by them, the laborers in rural areas are also getting work. In the time period of lockdown, Bermo MLA has laid the foundation stone of more than 150 different schemes in the area of 17 panchayats under Jaridih block by complying with Covid 19 (Corona) rules through online.

Rapid work in all areas is being done with the cooperation of the workers. Information about the schemes was given by Jaridih Block Congress President Ashok Kumar Mandal, Ayush Mathur, Bano Kumar Mahato, Rajesh Singh.

## SI injured in mob attack; FIR against 25, one held

PNS ■ BOKARO

Sub-Inspector of City Police station Pinku Kumar sustained multiple injuries following an attack by the vegetable vendors at Dundiab Bazar in Bokaro Steel City on Monday.

One person, Pappu Kumar was arrested in this connection while 10 named and 15 unnamed FIR has been lodged at City Police station, informed Santosh Kumar OC of City Police station.

Police got a complaint that there was a crowd of people in the market. To follow the SOP and COVID guidelines a police team rushed to the market and arrested a vendor for violation.

As the vendor was being taken to the police station, a mob of the vegetable vendors broke out and attacked the

police; they also started pelting stones on police. Our SI was injured in the incident, police said.

The mob also thrashed the SI very badly. After the incident, shopkeepers closed all the shops in the market; the entire area has been converted into a police camp. Senior police officers also rushed there to tackle the situation.

It is permissible to open a wholesale shop in the market. But the police reached on the spot on the information of mobilizing the retail shops too, and there was a huge crowd, said OC of City police station.

A vendor was taken into custody on the spot violation of the norms. He was being taken to the police station for suddenly other vegetable vendors started pelting stones from behind, said OC.

## Elephant calf rescued from well in Giridih

DEVASHEESH BADAL ■ GIRIDIH

A baby elephant, which fell into a farm well at a Nimatand village in Giridih district on Sunday late night, was rescued after a mammoth 15 hour-long effort of the forest department here on Monday.

"A herd of a dozen elephants including two baby elephants were passing by from the near-by forest and reached Nimatand village. Suddenly a baby elephant fell into the farm well. Our team reached there and rescued the elephant from the well. The elephant has no injuries and has been reunited with the herd," said Giridih Forest area officer Abhay Kumar Sinha. When the baby elephant drowned, there were 18 to 20 other elephants present near the well at the Nimatand village under the Sariya block of Giridih district. There was panic in the entire area till the rescue of the baby elephant was completed.

"The herd of elephant came from Nimatand forest area and we have alerted the forest department team following the incident," Sinha added. The Sariya block in Giridih district is the most affected area of Jharkhand by wild elephants. Regularly herds of elephant come from the forest and destroy standing crops, mud-built houses, and they have even killed a handicapped youth, recently.

Local social worker of the village said, "Elephant attacks are quite common in our villages. We have lost property and lives for the last several years. Department has no proper plan to control the attack of elephants. The life of the local villagers is always at stake. The herds of elephants are fearless. They don't fear the bursting of firecrackers, dragging torches, or any other local means."

Locals said that a baby elephant fell into the well of Mahavir Yadav, located next to it. The depth of the well is said to be around 30 feet. As soon as the information was received, forest area officer Abhay Kumar Sinha reached the spot and an attempt was made to remove the elephant's baby. On Monday morning, three JCB machines were pressed to make the ramp connecting the well and rescued the baby elephant.

## A Biological War is On

BY DR BANSHIDHAR RUKHAIYAR

The Wuhan virus, popularly known as Covid 19, is not a natural virus and reports have kept pouring in that it leaked from a laboratory in Wuhan. It is debatable whether it leaked accidentally or by a certain design. Let us examine it in the light of the events that unfolded after the leak of the virus.

The first wave of Covid19 greatly affected America and other NATO countries. Brazil was also affected badly but that was an exception.

The other countries including India were not affected that badly as America and others. However, the Indian economy was seriously wounded by the total and sudden lockdown. Our economy was limping back to normalcy when this second and deadly wave of corona virus hit India and we were taken completely off the guard. The impact of the first wave of corona virus was deadly on America. The whole tragedy had a profound political ramification. Trump, who was all set to romp home easily in the Presidential election of 2020 was defeated by Joe Biden and Corona pandemic played an important role in this political outcome. The malady of corona subsided in America with the exit of Trump. The new Indian strain that has wrought havoc in India has strangely left America and other NATO countries untouched.

It has to be noted that Trump openly accused China holding on its own in a very long standoff which squeezed our economy and tested our military prowess and diplomatic skill to the full. At the same time, it also exploded the myth of the Chinese invincibility. China lost face and the stature of India went very high in the elite club of the rich and powerful nations. India is now looked upon as a nation who can take on all Chinese misadventures. One cannot conceive of any grand alliance against China without India. China has a very deep pocket and it has deep penetration in the establishments of important countries of the world including India and America. The vested interests of any nation want to maintain a status quo as they are well entrenched in the system. Whoever challenges them has to face stiff opposition from them. Trump referred to them as deep state which includes oil lobby, media, different watchdogs of human rights and bla, bla... The present Indian government does, not fit in the existing powerful establishment in India and the world. The Indian claim that Security Council is meaningless until India gets a representation was not taken positively by the existing power network of the world. Once, India becomes a permanent member of the Security Council, the geopolitics of the world would change dramatically. One China policy has already been blunted by India. Just imagine the texture of geopolitics once India is on the Security Council. If India is now not made a member, the UN and the Security Council would lose all its sheen. India has arrived on the international stage and the existing Deep Establishment led by China is fighting its last and losing battle. The author is the Registrar of Vinoba Bhawe University in Hazaribag. The views expressed by the author are his own.

## 3 dead, 2 injured due to lightning in Giridih

PNS ■ GIRIDIH

Five people, including Neelkanth Rai, Sanju Devi and Khushi Kumari, died due to lightning in Rajpura village of Badganwa panchayat in Pirtand block on Monday.

The injured people were brought to Sadar Hospital, out of which three died and two

**The house was minted on Sunday and plaster work was being done on the roof on Monday**

were serious. It is being said that Neelkanth Rai's house is being

built on the banks of Rajpura village.

The house was minted on Sunday and plaster work was being done on the roof on Monday. During this time there was a thunderclap.

On the information of the accident, many people including Chief Girija Shankar Mahato, JMM Yuva Morcha

District Secretary Om Prakash Mahato gathered. After this, all the injured were sent by private vehicle to Peartand CHC. Everyone was referred to Giridih from here.

Here the JMM leader also informed Giridih MLA Sudivya Sonu and asked for help in the treatment of the injured.

# Covid claimed 2 lives every hour in Ranchi in past week

## 350 deaths since April 25

PNS ■ RANCHI

Covid-19 claimed at least two lives every hour on an average in Ranchi in the past one week, while the mortality rate in the State capital jumped to 1.31 per cent, which was higher than most of the tier-two cities and even some metros in India, Government data reveals.

Figures compiled by the National Health Mission (NHM) highlight that as many as 350 Ranchi residents lost their battle against Covid-19 from April 25 to

May 2, indicating that on an average around 50 people lost their lives to the lethal virus every day.

Ranchi's Covid mortality rate of 1.31 per cent was also higher than the State's average of 1.20 per cent and the national average of 1.10 per cent. As per data with the Ministry of Health and Family Welfare, the Covid mortality rate in Delhi was 1.40 per cent and that in Mumbai was 1.49 per cent.

However, the population in these two cities was much higher in comparison to Ranchi.

"Staying at home is the only way of dealing with this wave of Covid-19. The mutated virus strains are more lethal and are even claiming lives of young people in the city," said

the state coordinator of Indian Medical Association (IMA), Dr Ajay Singh, urging all residents to take the vaccine when their turn comes.

While the city is grappling with the worst ever wave of Covid-19, the soaring number of deaths has exposed the lack of health infrastructure in Jharkhand's largest city, say experts.

"We are constantly trying to upgrade the health facilities to battle the spike in cases, but the number of patients has skyrocketed in no time, leaving us with no option but to keep looking for ways to increase the number of Covid beds and provide oxygen support," said a health official who has been actively involved in Covid management in

Ranchi.

The active caseload in Ranchi breached the 10,000 mark for the first time a fortnight ago. In two weeks, the active caseload doubled and crossed 20,000. While most of the patients were in home isolation, the count of patients in need of hospitalisation also doubled in the past fortnight, say doctors. Besides, many patients from suburban Ranchi and neighbouring districts were also moving to Ranchi for better treatment, thereby adding more pressure on the health infrastructure here.

"Every day, we are trying our level best to accommodate the needy patients in hospital and ensure that they get the treatment they require. The situation needs

special attention from all stakeholders," said Dr. Ajit Kumar of Sadar Hospital.

In the past couple of weeks, Covid-19 has claimed the lives of around half a dozen journalists and at least seven lawyers. Some of the deceased were only in their early thirties and did not have any comorbid conditions, their relatives claimed. As per Government data, as many as 953 Covid patients died in Jharkhand in the past one week, the highest spike reported in a week so far.

## Bar Council restrains lawyers from court work till May 9

### In past 48 hours, seven lawyers lose their lives

PNS ■ RANCHI

In order to break the chain of Covid-19 virus, the Jharkhand State Bar Council has resolved to restrain all the Advocates across the State from undertaking any Court work, physical or online till May 9. The Jharkhand State Bar Council on Monday held a review meeting where it was decided to suspend all court work till May 9.

Jharkhand State Bar Council president Rajendra Krishna said the rule will be applicable to all lawyers of the State. The district bar associations will be informed about the decisions.

Earlier, on April 18 and 26, the Jharkhand State Bar Council had taken a decision to postpone the work for seven days. The decision was taken due to corona infection.

However, despite the council restraining advocates from undertaking Court work, some lawyers continued the work. Later, the council issued a notice that if lawyers continue to file petition or carry out other court work, action will be taken against such lawyers.

The State Bar Council stated that during this period all work offline as well as online will be suspended and if any lawyer is found indulging in breaking the rules, then action will be taken against such lawyers.

Meanwhile, in view of the high pace of infection, a section of lawyers have demanded a complete adjournment of the court proceedings till May 25,

so that the severe infection of the corona epidemic can be checked.

The Ranchi District Bar Association is considering a decision to stay away from the court till 25 May. Administrative Joint Secretary of Ranchi District Bar Association Pawan Ranjan Khatri has drawn the attention of the State Bar Council members Nilesh Kumar, Kundan Prakashan, Sanjay Kumar Vidrohi and Rinku Bhagat on safety of advocates and their families.

Ranchi Civil Court Pioneer photo

Meanwhile, corona continues to wreak havoc in the State Capital. In the last 48 hours, seven lawyers from State Capital have died fighting corona infection. The Jharkhand High Court Advocate Association has expressed grief over the death of a large number of lawyers and has demanded a compensation of Rs 10 lakh to the families of the deceased lawyers. In the capital, more than 25 lawyers have died in this second wave.

The lawyers who died in these two days include Rajiv Anand, Praveen Kumar Rana, Praveen Kumar, Vidya Bhusan Singh, Albinus Minj, Kripal Singh, Sunita Kumari Singh among others.

## Admin tests medics for 'false' positive reports

### DC appeals for Plasma Donation

PNS ■ RANCHI

As per the instructions of Deputy Commissioner Ranchi Chhavi Ranjan, officials, doctors or health workers who have claimed to be Covid positive and are not contributing at their workplace are being investigated.

Today, under the leadership of Sub-Divisional Officer Ranchi Sadar Utkarsh Gupta and probationary IAS officer Dilip Pratap Singh Shekhawat, swab samples of District Animal Husbandry Officer Vidyasagar, Dr Pallavi Sharma and others has been collected by visiting the house, so that the confirmation of their Covid positive can be done.

There are many officials, doctors and health workers who are not performing their tasks by pretending to be Covid positive.

Ranjan has instructed SDO Ranchi to hand over the list of

Ranchi DC Chhavi Ranjan holds a meeting with various NGO members in Ranchi on Monday Pioneer photo

all officials/doctors/health workers, who have switched off their phones or given their address incorrectly to the Deputy Commissioner Office so that Action can be taken at the earliest.

The district administration of Ranchi is constantly trying to prevent the global epidemic Covid-19, but there are many officials, doctors and para medical staff, who are not returning to service even in this difficult situation, and are not contributing on their deputiation site. Many have switched off their phones, many have also

stated their address as wrong. The DC has asked all those doctors, officials and health workers to return to their deputiation site as soon as possible.

Meanwhile, the DC held a meeting with the Sub-Divisional Officer Bundu Sameera S and Blood Bank of RIMS with deputed magistrates and various NGOs on Plasma donation today. Ranjan appealed to the residents of Ranchi once again, saying that Corona warriors

who have overcome the infection and who have been cured for more than 14 days need to come forward for plasma donation to save the lives of other infected people.

During the meeting, Ranjan directed the deputed magistrates in the blood bank of RIMS to ensure smooth operation of plasma donation and receiving work. He said that those who come to donate plasma and those who are given plasma (donor and receiver), maintain the necessary information related to them in the register. The right use of plasma therapy directed to establish better coordination with physicians.

The DC said public participation is also necessary to fight Covid-19. Many voluntary organizations are already doing better work in the field of health. Their contribution is also expected in the hour of this disaster. Various NGOs engaged in Plasma Donation work were also given necessary guidelines during the meeting by the DC.

## 'Vaccination effective in fighting Covid 2nd wave'

PNS ■ RANCHI

A single dose of the Covid 19 vaccine cuts a person's risk of transmitting SARS-CoV-2 to their closest contacts by as much as half, claim doctors. Also, if a person has taken both doses of vaccine, even if he gets infected there are 90 per cent chances that he can recover from infection with minor treatment.

Doctors and researchers claim that vaccines are proving to be an important tool in preventing corona infection and also fighting against the virus. The virus is not having a serious complication on the body which has been vaccinated. Most of the infected people who are in critical condition at the government and private hospitals of the capital have not taken the vaccine. Doctors say that in the last one month, it has been seen that only 5 to 10 per cent of the infected people

coming to the hospital in critical condition are those who have not taken the first or second dose of corona vaccines. That is, 90 to 95 per cent of people reaching hospital in serious conditions are those who have not taken the vaccines.

Dr Ashok Mishra of Indian Medical Association (IMA) says, "It has been observed that those people who have taken both the doses of vaccines there body develop enough immunity power to fight against their virus. Even if the virus attacks the person it will not affect much and they will be treated with minor treatment."

Mishra said after taking the vaccine, the antibody Covid 19 prepared in the body is able to fight rapidly against the virus. This prevents the spread of the virus. Echoing the views of

A health worker being administered the Covid-19 vaccine, at UPHC Centre Chulita in Ranchi on Monday Pioneer photo

Mishra another medical practitioner says that among those who have taken both the doses, the danger is even less.

RIMS Critical Care Specialist, Dr. Pradeep Bhattacharya says, "Taking vaccines increases immunity in the body. More than 90 to 95 per cent of patients reaching hospital in critical condition are those who have not taken vaccines. If he had taken the vac-

cine, they would not have come to the hospital at all."

Meanwhile, Jharkhand continues to report a triple-digit spike in Covid deaths on Sunday as at least 115 patients, including 42 from Ranchi alone, died during treatment in the past 24 hours, taking the Covid toll in the state close to the 3,000-mark, figures compiled by the National Health Mission (NHM) highlighted. Around 2.66 crore population in Jharkhand have taken their first dose of vaccines till date.

The State on Sunday administered the first dose of vaccine against Covid-19 to 4,200 people, while the second dose was administered to as many as 5,607 beneficiaries. Jharkhand is yet to start vaccination for people in the age bracket of 18 to 44 years.

## Cong demands Corona Warrior status for media persons

### Postpone religious, social function, appeals JPCC chief

PNS ■ RANCHI

The State Congress committee has demanded from the Government to declare media persons as Corona Warriors and arrange medical treatment for them if they or their family members get infected with Coronavirus. JPCC chief Dr Rameshwar Oraon has written to Chief Minister Hemant Soren with the demand.

In the letter, Dr Oraon has stated that media persons in the State are discharging their duties like other Corona Warriors and without their help it is very difficult to win the battle against Covid-19. He said, therefore, declaring media persons as Corona Warriors, free vaccines should be arranged for people in the age group of 18-45 years.

The PCC president added in the event of a media person or

his/her family getting infected with Coronavirus the Government should immediately arrange for their proper treatment. He said that it is seen that media persons have to struggle for their treatment and many of them have lost their lives too. In such a situation there should be a serious thought on providing compensation to the kin of the deceased.

JPCC spokespersons Alok Kumar Dubey, Lal Kishorenath Shahdeo and Dr. Rajesh Gupta Chhotu also demanded Corona Warriors status to media persons from the Central and State Government, as well as proper treatment to the dependents in the event of infection and proper treatment in case of death.

Meanwhile, Dr Rameshwar Oraon has advised to postpone the holding of social and religious programmes for a few days to break the chain of coronavirus infection. Dr Oraon was talking to journalists after meeting with the officials of the organisation in the control room of the State Level Relief and Monitoring Committee at

the party office on Monday. State Congress spokespersons Alok Kumar Dubey, Lal Kishore Nath Shahdeo, Dr P Nair, Amarendra Singh, Aditya Vikram Jaiswal were present on the occasion.

In response to a question on the Supreme Court suggestion regarding lockdown, he said that it is up to the Central and state governments. No clear order has been given by the court to implement the lockdown.

The Central and State Governments are fighting a war against the Corona infection. He said that in recent times there have been signs of decrease in cases of infection in Jharkhand, but in spite of this, he is in favour that more restrictions should be imposed. He said that marriage has been allowed by the State government in the presence of only 50 people, but despite this, crowds are being seen. Right now, all religious programmes are also banned, Holi, Ramnavmi, Sirkul and all festivals are being celebrated in homes with simplicity. He advised to postpone 15-

20 days of other social events including marriage and said that Health Safety Week is being celebrated by the State Government.

Dr Oraon said due to many strict steps taken by the State Government and economic

conditions across the country, the source of income has come down, whereas the amount of aid available to Jharkhand from the Government of India to deal with the corona infection is very less.

# SII CEO: Cannot ramp up job production overnight

PNS ■ NEW DELHI

States seem to have to wait more to get the adequate supply of vaccines, particularly Covishield with its manufacturer Adar Poonawalla of Serum Institute of India (SII) on Monday categorically stating that his firm cannot ramp up production overnight as vaccine making is a specialised process.

The statement of Poonawalla comes days after he had said that due to "pressure and aggression" for him and his family temporarily leaving the country for the UK, as "everyone wants the vaccine to be available in the quickest possible time." This is likely to impact the vaccination drive that was kicked off from May 1 to cover 18+ population i.e. about 60 crore people.

In a statement here, Poonawalla said that it has orders from the Government to supply 11 crore more doses over the next few months on top of 15 crore already supplied, Poonawalla said. He further said that another 11 crore doses will be supplied to

states and private hospitals in the next few months. "We have got all kinds of support, be it scientific, regulatory and financial. As of today, we received total orders of over 26 crore doses, of which we supplied more than 15 crore doses. We have also got 100 per cent advance of Rs 1,732.5 crore by the GOI for the next tranche of 11 crore doses in the next few months," he said.

Earlier in the day, the Union Ministry of Health said that 11 crore doses of Covishield are to come from SII during May, June and July. Another 5 crore doses of Covaxin have been ordered from Bharat Biotech India Ltd for the same months.

Poonawalla, however, did not give a timeline for supplying the vaccines. Pune-based SII can produce 6-7 crore doses a month and is reportedly planning to ramp up production to 10 crore by

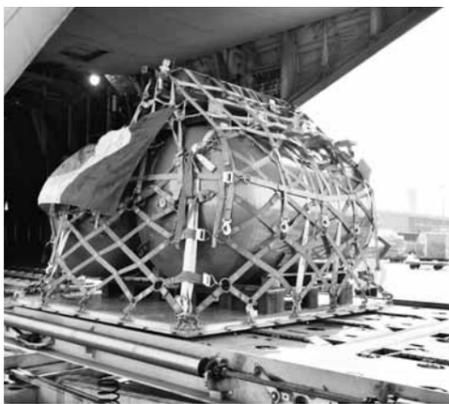

July. Though the Centre has among various steps opened up vaccination for all above 18 years from May 1, the procurement of jabs has been left to states and private hospitals. This has led to state after state rushing to SII, which can meet only a small part of the demand.

Serum is licensed to manufacture COVID shots from AstraZeneca Plc and Novavax Inc. But so far, the government has approved only AstraZeneca's Covishield vaccine for use.

The Government has also approved the homegrown Covaxin vaccine of Bharat Biotech. Russia's Sputnik V vaccine too has been approved for emergency use.

SII CEO Poonawalla, who is currently in London, said the population of India is huge and to produce enough doses for all adults is not an easy task.

# IAF airlifts O2 from Germany to ease Indians' breathing

PNS ■ NEW DELHI

Sustaining the tempo of airlifting the much-needed oxygen from abroad, an aircraft of the IAF flew non-stop for 12 hours to bring home oxygen from Frankfurt, Germany. The C-17 transport plane ferried four empty cryogenic containers from there and landed at the Hindan airbase, Ghaziabad.

Similarly, another C-17 aircraft airlifted 450 oxygen cylinders from Brize Norton in the UK to the Chennai airbase in Tamil Nadu. In the

past few days, the IAF planes carried out numerous sorties to ferry the containers from Singapore, Thailand and the United Arab Emirates.

An Italian air force transport plane landed here on Monday with a team of medical experts, oxygen generation plant and ventilators to help India fight the pandemic. The oxygen generation system capable of supplying the gas to the entire hospital will be deployed at the Indo-Tibetan Border Police (ITBP) hospital in Greater Noida.

# Covid-orphaned kids adoption appeals alarm child rights body

PNS ■ NEW DELHI

Alarmed at various requests appearing on social media such as twitter regarding the adoption of kids whose parents have died due to Covid-19, the National Commission for the Protection of Child Rights (NCPCR) has warned the common citizens/NGOs to refrain from doing so and written to States and Union Territories, urging them to inform child protection authorities about such orphans.

"The commission has been made aware of instances where it has been seen that many NGOs are advertising about the children who have become orphans after losing both their parents to Covid-19," NCPCR chairperson Priyank Kanoongo has written to chief secretaries across the States in a letter.

He said that "in such a sad situation of the surge in Covid-19 cases in the country there are situations arising where the child has lost both its parents or is found to be abandoned. It may be noted that the Juvenile Justice (Care and Protection of Children) Act, 2015 provides for the procedure to be followed for children who have lost their family support and have become children in need of care and protection."

The massive followed complaints that a few NGOs and individuals had been on their own on the social platforms like twitter and WhatsApp urging people to help such kids "get a new life and spread the word," while sharing their contact numbers.

The procedure under the JJ Act, 2015 ensures that children are provided all the minimum standards of care and their rights are upheld and protected, Kanoongo said.

"Therefore, it is of utmost importance that these children who have lost their family support must be produced before the child protection authorities of the district, and information about these children must be shared with the

authorities" He also pointed out that it was necessary for every individual, entity, organisation or NGO to ensure that any information received about orphaned and abandoned children during these Covid times is shared on the helpline 1098.

"Similarly, it is further requested that if any such information for an abandoned or orphaned children is received by any entity, organisation, NGO then the same can be also be informed to the National Commission for Protection of Child Rights either through email (cp.Ncpcr@nic.in) or through telephone (011-23478250) for assistance and help to the children," the letter said.

# MHA orders 5,000 paramilitary officials' deployment in J&K for law and order

RAKESH K SINGH ■ NEW DELHI

The Union Home Ministry has ordered deployment of 50 additional companies (5,000 personnel) of the Central paramilitary forces in Jammu and Kashmir to augment law and order security grid in the Union Territory from May 7. The move comes after a request to the Centre the next day.

The mobilisation is being made "for augmentation of existing deployment grid to effectively manage law and order and security duties."

On the decision for

deployment of the 50 Central Armed Police Forces (CAPF) or Central paramilitary companies, the order said, "The matter has been considered in this Ministry, it has been decided to provide 50 companies of CAPF (CRPF-20, BSF-10, SSB-10, ITBP-05 and CISF-05 com-

panies) to Union Territory of Jammu and Kashmir by May 7. "The UT Administration requested to work out the detailed deployment plan in consultation with the respective CAPFs and the deployment of the CAPFs companies

may be made only after completing the mandatory quarantine period to break the chain of coronavirus, reads the order issued on April 28.

Keeping in view the Covid-19 situation, the Home Ministry advised the Jammu and Kashmir administration to take necessary transportation/logistics/accommodation and other arrangements required in connection with deployment of the CAPFs within the UT, as per the Government guidelines on the subject. The deployment of the additional paramilitary personnel will be organised by UT Administration, added the copy of the order.

Presently, 60 battalions of the CRPF and 10 battalions of other CAPFs are deployed on the ground in the Union Territory for law and order as also for the security duty roles, sources said. The additional troops are likely to be also used for the conduct of the Amarnath Yatra, they added.

# 'Erring' cops booked in ISRO spy case

PNS ■ NEW DELHI

The CBI on Monday said it has registered a case in connection with the "ISRO spy case" in compliance to a Supreme Court order of April 15 this year for taking action against the erring police officers who allegedly framed scientist S Nambi Narayanan in a false espionage case.

Earlier, the case was registered by Kerala Police on October 20, 1994, as Crime No. 225/94 at Police Station Vanchiyoor, Trivandrum against a Maldivian National under Foreigner's Act on the allegations of overstaying in India after the expiry of the visa.

Subsequently, another case as Crime No. 246/1994 dated November 13, 1994, was also registered at Vanchiyoor Police station under Official Secrets

Act 1923 and Section 34 (common intention) of IPC against two accused Maldivian nationals on the allegations that they, in collusion with some others, had taken part in the activities against the sovereignty and integrity of India and indulged in other activities which would harm the cordial relations of India with its neighbours.

Later, the investigation of both the said cases was entrusted to a SIT of Kerala police. In Crime no. 246/1994, besides said two accused, four more persons including two scientists working at Liquid Propulsion Systems Centre (LPSC) of ISRO were arrested on the charges of espionage

activities.

Further, the investigation of both these cases was transferred to CBI. In the Espionage case, CBI submitted Final Report (charge sheet) before the Chief Judicial Magistrate, Ernakulam (Kerala) which was accepted by the Court. While submitting the said report in the Espionage case, the allegations pertaining to espionage were found to be false.

One of the scientists S Nambi Narayanan took the matter for taking action against the erring officials to the apex court by way of filing a civil writ petition.

The SC, in its judgement dated September 14, 2018 in the Civil Appeal No. 6637-6638/2018, awarded compensation of Rs 50 lakh to Narayanan on several counts and also ordered the consti-

tution of a Committee, for obtaining actual scenario including arrest, false implication of the said scientist and to find out ways for taking appropriate steps against the erring officials, the CBI said.

Accordingly, a Committee under the Chairmanship of a retired judge of the SC, was constituted by the Union Home Ministry, it said. The Committee, after conducting inquiry, submitted its report before the apex court. Based on the said enquiry report, the SC through an order on April 15 directed the CBI to proceed in the matter in accordance with law, being a Court directed enquiry.

"Accordingly, as per the directions of Hon'ble Supreme Court, CBI has registered a case," the agency said in a statement.

# Jaishankar rebuts Jairam over oxygen 'shortage' in Embassies

IAN S ■ NEW DELHI

External Affairs Minister S. Jaishankar on Sunday took on the Congress, which had attempted to project that the Central Government had collapsed and foreign embassies were reaching out to the Opposition for help with their Covid-19 medical emergencies.

On Sunday, the New Zealand Embassy in New Delhi tweeted an SOS tagging youth leaders of the Congress, saying, "Could you please help with oxygen cylinder urgently at the New Zealand High Commission? Thank you."

Youth Congress president BV Srinivas responded to the request and tweeted an hour later saying, "We have reached New Zealand High Commission with oxygen

cylinders. Please open the gates and save a soul on time."

However, the New Zealand Embassy apologised soon after, saying, "We are trying all sources to arrange for oxygen cylinders urgently and our appeal has unfortunately been misinterpreted, for which we are sorry."

The apology came after Jaishankar rebutted Congress leader Jairam Ramesh, who had on Saturday accused the Government of being completely dysfunctional and unresponsive towards medical emergency at the Philippines Embassy.

On Saturday, the Indian Youth Congress had tweeted a video claiming that its members were providing medical emergency services at the Embassy of the Philippines in

New Delhi.

Ramesh tweeted the video, saying, "While I thank @IYC for its stellar efforts, as an Indian citizen I'm stunned that the youth wing of the opposition party is attending to SOS calls from foreign embassies. Is the MEA sleeping @DrJaishankar?"

To this, Jaishankar tweeted on Sunday morning, "MEA checked with the Philippines Embassy. This was an unsolicited supply as they had no Covid cases. Clearly for cheap publicity by you know who. Giving away cylinders like this when there are people in desperate need of oxygen is simply appalling. Jairamji, MEA never sleeps; our people know across the world. MEA also never fakes; we know who does."

# Congress: Central Vista essential service, but jab will come in July, is this joke?

IAN S ■ NEW DELHI

Reacting to reports of the Central Vista as essential service, Congress spokesperson Pawan Khera has attacked the Union Government and raised questions about the vaccines.

Addressing a Press conference on Monday Khera said, "Central Vista is an essential service, amid this pandemic in the Capital where thousands are dying every day, lakhs are suffering and struggling for hospital beds, for oxygen, for medicines, in the same capital city, the Central Vista is an essential service, but the vaccine will come in July, is that a joke?"

He said over the last 15 days, the tragedies in the hospitals that we have all witnessed in Delhi, which is the capital city, a few kilometres from the Central Vista, hospitals are pleading through social media, through media, they are pleading, begging for oxygen. "Is the vaccine available? We

# The Congress demanded auditing and distribution of foreign aid like injections, oxygen

have been told by the manufacturers that it wouldn't be available before July. I don't want to remind Hon'ble Prime Minister what he said in January at the World Economic Forum that by August, 300 million people would be vaccinated," he said.

The Congress demanded auditing and distribution of foreign aid like injections, oxygen and other drugs. "We request and demand from the Government, every day, please make public, share it with every Indian, where has this aid come from, where is it going -- which state, which hospital, which agency," he said.

# MHA seeks report from Bengal Govt on post-poll violence

IAN S ■ NEW DELHI

The Union Home Ministry on Monday sought a report from the West Bengal Government on the post election violence in the State targeting Opposition political workers.

The Home Ministry in a letter to the West Bengal Chief Secretary has asked him to submit a detailed report on the violence that broke out in parts of the state on Sunday evening even as trends and results from the Assembly election were pouring in.

The houses and vehicles of some Bharatiya Janata Party candidates were allegedly attacked and a party office at

Arambagh was set on fire. The vehicle of Suvendu Adhikari, who defeated Chief Minister Mamata Banerjee in Nandigram, was also reportedly attacked.

"MHA has asked West Bengal Government for a report on the post election violence targeting opposition political workers in the state," the Home Ministry Spokesperson tweeted.

After the violence, Trinamool Congress leaders, however, said they had nothing to do with any such incidents in West Bengal and urged people to maintain peace and follow Covid-19 protocols.

At Natabari, the car of BJP

candidate Mihir Goswami was learnt to be damaged after the Election Commission announced his victory from Natabari in north Bengal defeating Rabin Dranath Ghosh, minister and senior TMC leader.

A BJP party office at Arambagh was set ablaze where the party's candidate Madhusudan Bag defeated TMC's Sujata Mondal by around 7,100 votes.

At Siuri, a BJP office was ransacked and the local party leader's tractor was set ablaze.

A similar incident was reported from Kolkata's Belegata constituency where a BJP candidate's garage was set on fire.

# FICN racketeer held from Bengal gets 6 years in jail

IAN S ■ NEW DELHI

A special NIA court in Kerala's Ernakulam on Monday sentenced a fake Indian currency note (FICN) racketeer to six years rigorous imprisonment besides imposing a fine in connection with the Thrissur FICN case.

An NIA spokesperson said here that the special court for NIA cases in Ernakulam convicted Ali Hossain aka Mohammed Ali Hossain, 30, a resident of Murshidabad district in West Bengal, under several sections of the Indian Penal Code in a 2018 FICN case and sentenced him to six years rigorous imprisonment besides imposing a fine of Rs 85,000 on him for his role in procuring, possessing and circulating FICN in Kerala.

The official said that a case

was originally registered at the Thrissur East police station on August 19, 2018 against Hossain following the seizure of two FICNs of Rs 2,000 denomination from his possession.

Based on Hossain's interrogation, 101 fake notes of Rs 2,000 face value each were recovered from his residence in Palakkad district.

NIA had taken over the case on October 27, 2018.

The official said that investigation had revealed that in 2018, Hossain had conspired with accused Alim Sheik, a Bangladeshi national who is absconding, to smuggle FICN into Kerala, with an intention to use the same as genuine Indian currency for unlawful gains.

# Pak targets BSF patrol party, shatters peace

MOHIT KANDHARI ■ JAMMU

Shattering peace prevailing along the 194 km long international border between India and Pakistan across Jammu frontier, the Pakistani rangers early Monday morning targeted a BSF patrol party in the Ramgarh sub sector of Samba by opening 'unprovoked' firing on them.

This is the first incident of 'unprovoked' firing on the Indian border guards after both India and Pakistan had renewed their mutually brokered ceasefire agreement from the midnight of February 24-25.

Luckily, the BSF patrol party escaped unhurt. Official sources in the BSF confirmed, "no loss of life/injury was reported on ground zero".

According to official sources, "early Monday morning Pakistani rangers stationed at one of the Pak post 'Tipu' and 'Hussain' fired around 20 rounds of small weapons targeting the working party of BOP Majra near mount no 8/36 pillar no 81". In response, BSF jawans exercised utmost restraint but maintained a close watch on the activities of the Pak rangers.

After gathering inputs and making preliminary assessment of the ground situation, PRO BSF, DIG SPS Sandhu, Jammu frontier in a formal statement claimed, "Pakistani rangers resorted to 'unprovoked' firing at 06:15 a.m in Ramgarh sector on BSF patrolling party ahead of fencing." No loss of life/injury was reported, he added.

Interestingly, the Ramgarh sector was witnessing hectic activity for the last couple of weeks.

On March 16, 2021 alert BSF jawans had killed a Pakistani intruder in the same sector after he refused to retrieve inside the Pak territory and kept advancing towards the Indian side.

Several aeroplane shaped balloons with PIA written on it were also recovered from agricultural fields in the Hiranagar, Arnia and RS Pura sectors of Jammu frontier.

Meanwhile, local villagers in the border areas were living peacefully for the last two months and focusing on harvesting their wheat crops standing in the fields.

Local civilians bore the maximum brunt of cross border firing in the past and were leading peaceful lives since the past more than two months in the forward areas.

# Yogi Govt to launch mega testing drive in villages

Lucknow: In order to prevent Covid surge in the rural areas in Uttar Pradesh, the Yogi Adityanath Government is going to launch a mega testing campaign for Covid infection in all the revenue villages of the state from May 5.

The Chief Minister, while presiding over a high-level Covid review meeting, said that the rural areas have been a matter of huge concern and we have to protect the villages from the Covid spread.

To curb the Covid numbers in rural areas, the government has decided to ramp up testing in around 97,409 revenue villages of 75 districts.

The focus is to contain the spread of the infections in rural areas. "We have to protect villages from Covid infection at any cost. There is a need for special vigilance in the villages. In such a situation, a massive campaign of Covid testing should be conducted in all the 97,409 revenue villages of the state", he directed.

The initiative starting from May 4, aims to drive down Covid-19 rates and transmission in the rural areas by identifying positive cases.

The Chief Minister has asked the officials to make all the necessary preparations.

The number of RRTs (Rapid Response Teams) should be increased to check Covid spread in the villages of each district. Members of RRTs should make door-to-door visits and check body temperatures, record oxygen level and check for other symptoms in people who are into home isolation.

The Chief Minister also ordered the health department to complete preparations for the successful implementation of this large testing drive which will begin from Tuesday.

"We are hoping that the villagers will recognize the benefits of getting tested to help reduce the spread of the virus," said a government spokesman.

Yogi Adityanath asked the officials to seek help from the monitoring committees. Those who are found unwell or those who tested positive, should be given treatment according to Covid medical protocols. IANS

# Frightening pictures from hospitals exposing tall claims of UP CM: Akhilesh

PTI ■ LUCKNOW

Samajwadi Party (SP) chief Akhilesh Yadav on Monday accused the ruling BJP Government in Uttar Pradesh of remaining in "isolation" and said the frightening pictures coming from hospitals are exposing the tall claims of Chief Minister Yogi Adityanath.

"The BJP government did nothing in past four years and remained in isolation due to which it has put entire state in isolation now. The tall claims of Adityanath is exposed in frightening pictures and videos coming from hospitals daily," Yadav said in a statement here.

He also questioned the work being done by chief minister's 'Team-9', saying that in some cases, entire families are COVID-19 positive and no one is there to take care of them. The SP leader also alleged that alive people are being declared dead in hospitals.

"There is no proper supply of oxygen and no beds in hospitals. Hundreds of people are dying due to mismanagement and BJP government is responsible both administratively and morally," Yadav said, adding that such irresponsible government is of no use to people.

# Parents abandon body of 2-month-old Covid+ baby in Jammu hospital

Jammu: In a shocking incident, parents of a 2-month-old dead Covid positive baby abandoned the body at a hospital in Jammu district and fled, an official said on Monday.

S.M.G.S. Hospital Medical Superintendent, Dr Dara Singh, said the parents ran away from the hospital. "The baby was admitted to the hospital on Sunday with congenital heart disease and other problems. The baby, who had tested positive for Covid-19, expired and the parents were told to test themselves for the virus. Instead of testing themselves or taking the dead baby's body, the parents ran away from the hospital," he said.

"Our efforts to trace them have failed so far and we have kept the body in the hospital mortuary. IANS

# J&K records 51 deaths on Mon

Jammu: The Union Territory of Jammu & Kashmir on Monday recorded 51 deaths, highest so far in one single day while 3,733 new cases of coronavirus tested positive taking the tally of active positive cases closer to 35,000 cases.

According to a media bulletin, only 11 Covid ICU beds have been left vacant in GMC, Jammu, four in Chest Diseases Hospital, 20 in Gandhi Nagar hospital, three in ASCOMS Hospital. The situation in Srinagar is no different. As per the media bulletin, only 1 Covid ICU bed was vacant in SMHS hospital in Srinagar, 2 in SKIMS, Soura.

Meanwhile, there has been no let up in the total number of new cases. On May 3 out of

3733 new positive cases 1294 were reported from Jammu division and 2439 from Kashmir division.

The death toll due to Covid 19 touched 2421 after 35 deaths were reported from Jammu division and 16 from Kashmir division.

Moreover, 1536 more Covid-19 patients have recovered and discharged from various hospitals including 626 from Jammu Division and 910 from Kashmir Division.

Both the capital cities of Srinagar and Jammu continue to record the highest tally of positive cases despite observing corona curfew. On Monday, Srinagar recorded 1136 cases taking the tally of active positive cases to 10,143. PNS

# TN CM Palaniswami resigns

KUMAR CHELLAPPAN ■ CHENNAI

Tamil Nadu Chief Minister Edappadi Palaniswami submitted his Government's resignation to Governor Banwarilal Purohit on Monday morning as a follow up to the Election Commission of India declaring the results of the Legislative Assembly election held on April 6.

M K Stalin, president of the DMK, who led his party as well as the Secular Front to an impressive win in the election would be sworn in as the next Chief Minister on Friday. The newly elected MLAs of the DMK are meeting at the party headquarters in Chennai on Tuesday to formally elect Stalin as the leader of the legislative assembly. Stalin had told media persons late Sunday evening that the swearing in would be

held at the Raj Bhavan in Chennai and it would be a simple affair. The mission to ensure a smooth transition of power began late Sunday evening and continued throughout Monday with bureaucrats and police officials calling on Stalin at his palatial residence many times.

In the 234 strong Legislative Assembly, the DMK would have 133 members while the AIADMK with 66 members would don the role of the principal opposition party.

The Indian National Congress, the principal ally of the DMK, won 18 of the 25 seats it contested, while the two Communist parties shared two seats each. The VCK, a Dalit outfit, managed to win four seats. The DMK will not include any of the allies in its government as the party commands a safe and secure strength in the House.

The PMK and the BJP, allies of the AIADMK, won five and four seats respectively. The Anna Makkal Munnetra Kazhagam launched by TTV Dhinakaran and the Makkal Neethi Maaim, launched by film actor Kamal Hassan failed to win at least one seat from the State. Both Dhinakaran and Haassan were defeated in the hustings.

Sixty eight year old Stalin would be the oldest person to be sworn in as Chief Minister. His predecessor Edappadi Palaniswami was 63 when he took oath of office as chief minister in 2017, while M Karunanidhi, Stalin's father had become the chief minister at the age of 45. K Kamaraj was 57 when he was sworn as chief minister while C N Annadurai, the first DMK chief minister was 60 when he became the chief minister.

# Maha deaths drop to 567

N RAGHUNATHA ■ MUMBAI

In a relief to the health authorities, the number of Covid-19 triggered deaths in Maharashtra dropped further to 567 on Monday, while the state logged 48,621 new infections.

A day after the state recorded 669 deaths and 56,647 new cases, the daily deaths dropped by 102 while the infections came down by 8026.

The drop in the number of daily deaths in the state should be seen in the context of the fact that the daily deaths had gone up to 10-35 on April 28, while the state witnessed 802 deaths on May 1 and 669 deaths on May 2. With 567 new deaths, the total number of deaths in the state climbed from 70,284 to 70,851. Similarly, with 48,621 infections, the total number of cases rose from 47,22,401 to 47,71,022.

As 59,500 patients were discharged from the hospitals across the state after full recovery, the total number of people discharged from the hospitals since the second week of March last year went up to 40,41,158. The recovery rate in the state for the first time in several days rose from 84.31 per cent to 84.7 per cent.

The total "active cases" in the state dropped from 6,68,353 to 6,56,870 cases. The fatality rate in the state stood static at

1.49 per cent. With 78 fresh deaths, the Covid-19 toll in Mumbai increased from 13,294 to 13,372,

while the infected cases went up by 2624 to trigger a jump in the infections from 6,55,997 to 6,58,621.

# Mumbai BMC chief urges people to come forward for Covid testing

TN RAGHUNATHA ■ MUMBAI

Concerned by the sudden decrease in the number of Covid-19 tests being conducted in the metropolis, Mumbai Municipal Commissioner I S Chahal on Monday appealed to the citizens in the city to come forward to get tested so that "a minimum of 40,000 tests are done every day" in the country's commercial capital.

In an appeal made on a day when the number of daily Covid-19 tests dropped to 23,542 as against 56,000 tests done in a single day the metropolis last month, Chahal said: "It has been the consistent policy of MCGM to do maximum testing to flush out Corona virus from Mumbai's environment".

"Our highest single day testing from March 2020 till 10th Feb 10, 2021 when second pandemic wave hit Mumbai was 24,500," the civic chief said.

"However, immediately thereafter our testing was more than doubled & touched 56000 tests on a single day in April 2021. Our average daily testing in the month of April 21 was nearly 44000 per day," Chahal said.

"It has been observed that the testing figures have fallen in last few days from 50,000 plus to 38000 day before & 28,000 yesterday. It's likely to fall further during weekends," the civic chief said in the morning.

As per the Covid-19 update released by the Birhanmumbai Municipal Corporation (BMC), the number of Covid-19 tests done on a single day dropped to 23,542 on Monday.

"Our aggressive testing policy has resulted in reduction of the positivity rate. This might have reduced the natural demand for home collection of swabs by our citizens in the last few days," Chahal said.

## COVID BRIEFS

### PUDUCHERRY: LOCKDOWN EXTENDED TILL MAY 10

Puducherry: Lieutenant Governor of Puducherry Tamilisai Soundararajan on Monday announced that the lockdown to contain the spread of COVID-19 would be extended till May 10. She announced this while speaking to reporters after inaugurating a separate OP booth on the premises of Rajiv Gandhi Government Maternity Hospital here.

### ANDHRA LOGS 18,972 FRESH CASES

Amaravati: Andhra Pradesh crossed the One million mark in total recoveries of Covid-19 patients even as it added 18,972 fresh cases of the infection in the 24 hours ending 9 am on Monday. The latest bulletin said 10,227 patients had recovered in 24 hours, taking the gross to 10,03,935.

### AHMEDABAD: W RLY SETS UP 19 ISOLATION COACHES

Ahmedabad: The Ahmedabad division of the Western Railway has set up 19 isolation coaches with 304 beds here in Gujarat amid the shortage of beds in hospitals given the surge in COVID-19 cases. Thirteen of these coaches, equipped with required medical facilities including oxygen cylinders, have been stationed at the city's Sabarmati railway station, while six coaches are parked at Chandlodiya railway station, it said on Monday.

### 5 COVID +VE UNDERTRIALS FLEE FROM HOSP IN JAIPUR

Jaipur: Five Covid-19 positive undertrial prisoners getting treatment at the Chittorgarh District Hospital fled from the facility on Monday, but two of them were nabbed soon afterward, officials said.

### SIKKIM: 27 NEW CASES, 1 MORE DEATH

Gangtok: Sikkim's COVID-19 tally rose to 8,468 as 27 more people tested positive for the virus while one new fatality pushed the death toll to 150, a health department bulletin said on Monday. The new COVID-19 cases were reported from East Sikkim district (13), West Sikkim (10) and South Sikkim district (4), it said.

# BJP likely to send Central observers to Assam to pick next State CM

New Delhi: The BJP is likely to finalise its choice of Chief Ministerial nominee for Assam in a day or two as internal consultation within the party has begun amid a suspense over whether it will continue with incumbent chief minister Sarbananda Sonowal or bring in a new face.

Sonowal and his powerful ministerial colleague Himanta Biswa Sarma are being seen as the two most obvious contenders for the top job. BJP sources said internal con-fabulation is on in the party, and the its parliamentary board may soon name central observers to preside over the meeting of its newly-elected party MLAs in Guwahati where they will pick their leader.

Central observers generally convey the choice of the party top brass to the state leadership which in turn is endorsed by the

MLAs. The ruling BJP-led NDA has retained its grip on Assam, bagging 74 of the 126 assembly

constituencies that went to polls, while the opposition Congress-led grand alliance managed to clinch just 50 seats. PTI

# Assam CM thanks people for victory of BJP-led alliance

PTI ■ GUWAHATI

Assam Chief Minister Sarbananda Sonowal thanked all sections of people for giving a clear mandate to the BJP-led alliance in the assembly election, results of which were declared on Sunday.

Expressing his gratitude to the people belonging to Barak and Brahmaputra valleys, and other parts of the state, the chief minister in a statement on Monday said, they had reposed their faith in

the BJP-led alliance due to its performance in four key areas. The areas were "development carried out by the BJP-led government which manifested in every nook and corner of the state, its unrelenting fight against corruption, initiatives to strengthen peace and harmony, and committed efforts of the government to safeguard the identity and existence of the Assamese people from the influx which had significantly altered the demography of the state, especially lower Assam", the statement said.

# Coordinate with Centre to hike O2 quota: Raj CM to officials

Jaipur: Rajasthan Chief Minister Ashok Gehlot has instructed officials to maintain constant coordination with the Central Government to increase the allocation of medical oxygen in view of the ever-increasing active cases of Covid in the state. Along with this, he has also directed to strongly advocate for providing tankers as per requirement to Rajasthan out of the oxygen transport tankers being imported through the central government.

The Chief Minister has said strict adherence to the Covid protocol is very important for lifesaving. He instructed that the epidemic red alert starting from Monday should be strictly followed the guidelines of Public Discipline Fortnight, there should not be any laxity in it.

Shri Gehlot was reviewing the supply of oxygen, availability of medicines, Covid condensation and the epidemic

ic Red Alert - Public Discipline Fortnight starting Monday through video conference on Sunday night.

He said that the consumption of oxygen in the state is increasing rapidly due to increasing compaction. Since the central government is allocating oxygen under the National Plan, it is very important to increase the amount of allocation in view of the need of Rajasthan. He said that there has been an additional increase of 350 metric tonnes in the production capacity of oxygen at the Jamnagar plant. In such a situation, Rajasthan gets an allocation of extra oxygen from there.

# Aligarh hospital demands ₹8,000 to hand over body

PRADEEP SAXENA ■ ALIGARH

During the covid pandemic, it has been seen that the sensitivity of Deendayal Hospital staff is dead. Beena Ghosh, resident of Begambagh, died on April 30, but Rs 8,000 were demanded to hand over the body.

Son Shankar was upset due to lack of money. After the matter went viral on social media, the DM in charge took cognizance and the investigation has been handed over to SDM. After this, the body was also handed over to Shankar.

Bina Ghosh was tested positive on 24 April, the same day she was admitted to the corona ward of Deendayal Upadhyaya Joint Hospital.

# Agra residents urged to return empty cylinders

PTI ■ AGRA

Two major NGOs here that have been providing oxygen to Covid patients, have urged their families to return empty cylinders.

About 200 oxygen cylinders and 15 concentrators, provided by the two nonprofit organisations — Shri Chetra Bajaj Committee and Help Agra — are lying with people being treated in home isolation, they told PTI.

"Some people are renting our cylinders further to other people at heavy rates. When we call them, they refuse to return them and tell us to keep the security amount," Shri Chetra Bajaj Committee Spokesperson Nandkishore Goyal said, adding the security amount varied from Rs 5,000 to Rs 6,000.

# NEW INNINGS IN LOCKDOWN

A married couple on their way to pray at the holy river Ganga amid lockdown in Varanasi on Monday

A bride and bridegroom wearing masks leave after registering their marriage at Bandra court, amid lockdown, in Mumbai, on Monday

# MAHA PHONE TAPPING CASE

# Rashmi Shukla moves SC, seeks no coercive action against her

TN RAGHUNATHA ■ MUMBAI

In a new development in the much-discussed phone tapping case, senior IPS officer Rashmi Shukla on Monday moved the Bombay High Court, seeking a direction to the Mumbai police not to take any coercive action against her and urging the court for an urgent hearing in the case registered under the Official Secrets Act and other laws for allegedly leaking certain confidential documents.

In a criminal writ petition filed through her advocate Sameer Nangre, Shukla — who is currently Additional Director General (ADG) of the Central Reserve Police Force (CRPF) based in Hyderabad — sought a direction to the police to not take any "coercive action" against her. She also sought an urgent heading in the case, as she was apprehending her

arrest in the case. Shukla's counsel said in the petition: "My client is one of the senior most officers of 1988 cadre in police service for more than 30 years...The approach of the respondent state is to arm-twist the petitioner by bogus and frivolous case".

"The petitioner has exposed the nexus between ministers and politicians and other gross corruption involved in assigning posting to police officers...This reveals courage and integrity of the petitioner in performing her official duties and making her best endeavours to expose and eliminate the corruption by bringing the guilty to books," Nangre stated in the petition.

"Instead of applauding and appreciating the work of the petitioner, the government authorities are involved in framing the petitioner in a false criminal case," the petition

stated. The petition pertains to an FIR registered by the police at the BKC Cyber Police Station on March 26 based on a complaint filed by the State Intelligence Department (SID) against unknown persons for the alleged illegal phone tapping and invoked sections of the Official Secrets Act, Information Technology Act and Indian Telegraph Act.

Before the BKC police registered an FIR in the phone tapping case, Maharashtra Chief Secretary Sitaram Kunte had claimed in a report submitted to Chief Minister Uddhav Thackeray that "it appears that Ms. Shukla herself had leaked the confidential report (to the former chief minister Devendra Fadnavis)". On her part, Shukla skipped the summons issued to her to appear before the BKC on April 26 and April 28 for recording her statement in the

case. It may be recalled that the SID had lodged a complaint with the police after Maharashtra's former chief minister and senior BJP leader Devendra Fadnavis had on March 23 gone to town demanding a CBI inquiry into the alleged racket involving the transfers and promotions of police officers ranging from inspectors to high-ranging IPS officers.

Fadnavis had made his demand based on a confidentially submitted to it in August last year by the then State Intelligence Commissioner Rashmi Shukla through the then the Director-General of Police Subodh Jaiswal on August 25, 2020 allegedly involving corruption in matters relating to the transfers and promotions of police officers ranging from inspectors to high-ranging IPS officers.

PAPER WITH PASSION

## Emphatic victory

The BJP lost the plot when it focused more on damning Mamata than advancing its core agenda

It's a classic case of "glass half full" battle of jibes for both the BJP backers and their critics. For the supporters of the saffron outfit, the victory in Assam and Puducherry and the massive rise in both the vote percentage and the number of seats in West Bengal are a reflection of the BJP's unmatched electoral management and Prime Minister Narendra Modi's popularity. The saffron baiters have their own arguments. They contend that the BJP's victory against the Congress in Assam was predictable because the latter is no more a potent political force. Similarly, in Puducherry, it's the personal victory of All India NR Congress (AINRC) leader N Rangasamy and the BJP has merely benefited from the alliance. But in Bengal, where the real battle of 2021 took place, the BJP came a cropper. After all, it had thrown in everything it had in its ever-growing kitty of resources — political, financial and others. The Prime Minister himself addressed 18 rallies and Home Minister Amit Shah held dozens of massive road shows. Several other Chief Ministers, MPs, MLAs and party president JP Nadda camped in Bengal for months together and tried to create the necessary media buzz to defeat the TMC in the psychological space. Coincidentally, several initiatives of the CBI and the I-T department against the TMC leaders also came in handy for the BJP. Mamata and her supporters also kept alleging that

the Election Commission was acting as a player rather than an arbiter.

On the other hand, Mamata got little support from the anti-BJP bandwagon. Though the Congress-Left alliance threatened to cut into her Muslim votes, a few erstwhile UPA leaders came in to campaign for her. Devoid of any serious policy and programme narratives, the campaign became highly personalised with Modi greeting Mamata with "Didi o Didi" catcalls and the TMC supremo hurling the choicest invectives at Shah. The BJP lost the plot when it focused more on damning Mamata than advancing its core political agenda. The Bengali-identity politics turned out to be far more assertive and lethal for the BJP which didn't realise that lord Ram would not threaten a woman who epitomised goddess Durga for millions of Bengalis. In fact, the more the BJP leaders ridiculed Mamata, the more sympathy she drew from the people of the State. The presence of a leader who could give a face to identity politics cost the saffron party in a big way. Most of the borrowed players — described as "rotten eggs" by Prashant Kishor — were seen as opportunists even by the BJP's own supporters. It's obvious that any cadre-based party can't assimilate such an overnight influx without alienating a section of its own supporters. The lesson for the BJP is loud and clear: Wherever the party is pitched against satraps, it would need to focus more on local issues and identity politics. The record of the last seven years shows that the BJP has not been successful in winning against powerful regional players in the State-level elections.

## Crunch time

The Centre must plan meticulously before it agrees to the SC's advice for another lockdown

Devastated by COVID-19's second wave, the nation is anxiously looking for solutions but seemingly can't find any. The Prime Minister, who had last year announced a hard lockdown, is now advocating a "micro-containment" strategy while the Supreme Court recently asked the Centre to consider imposing another lockdown. But considering the ferocity of the second wave — the exponential rise in cases, mounting death toll, shortage of medical oxygen, vaccines and hospital beds — and the loss of crucial time in the conduct of the Assembly elections and the Mahakumbh, the moot question is: Would another lockdown help contain the infection? There has been no significant improvement in Delhi even after a two-week lockdown — now extended for a third week — as the positivity rate continues to be alarmingly high. Further, even if a pan-India lockdown is imposed as a knee-jerk reaction to the court's suggestion, its impact on breaking the transmission chain is debatable. There's no doubt, however, that it would be a death blow to millions of underprivileged citizens already facing an existential crisis. We have seen how the hapless migrant workers again rushed

back home from big cities fearing a lockdown, even before it was announced.

It is the duty of the Centre to make adequate arrangements for the return of these workers if it plans to enforce another lockdown. It must ensure that these people are not stuffed into trains or buses like last year because that would be another super-spreader. A reasonable period, at least two weeks, must be allowed for their safe return before the lockdown is effected. The Government should also transfer some funds via the DBT schemes into their bank accounts. Also, with the Supreme Court observing that no person shall be denied hospitalisation for lack of identity proof, the Centre must now consult States and formulate a national policy within two weeks. The situation is already out of hand and the entire population must be vaccinated as early as possible. With vaccine shortage and an uneven pricing policy haunting the States, getting the desired outcome from the inoculation drive is easier said than done. With reports that the second wave may hit its peak between May 11-16 before declining by May end, we must be prepared for the worst.

# Ignoring the warning signs

We were wilfully unprepared for this tsunami of an outbreak of COVID-19, though the telltale marks were all in plain sight

Anybody who has seen videos of the horrific 2004 tsunami that killed an estimated quarter of a million people, and there are several of these on YouTube, might have noticed in some videos that as much as 10-15 minutes before the tsunami actually hit the shore, water had started withdrawing from the beach. The students of middle-school geography will remember that it is taught as a classic warning sign of an impending tsunami; and we are actually taught at a very early age that one needs to find higher ground in such a situation. This lesson is redoubled in many coastal areas. Maybe some people did seek shelter when they noticed this, many did not. Yes, the tsunami might have gotten many of those who escaped anyway; it was so devastating that running away could do only so much. But even if it saved a few lives, the lessons in school would have been worth it.

That was a real tsunami, what we have in India right now is not a second wave of COVID-19 infections. We have an overwhelming tsunami of COVID-19 infections and, in Delhi and in many other cities across India, the healthcare system is overwhelmed. We know that at least 3,500 people are dying every day, at least in official statistics. India is inching up to 2,50,000 deaths and almost every family in Delhi at least knows either a loved one or a close friend who has died from the Coronavirus Tsunami. While the authorities now struggle with managing the situation, we have to start taking into account as to why we all ignored the warning signs.

And these were there. These were there for all of us to see and read about in the news. We knew there was a deadly new British variant doing the rounds; we knew that there was a new "double mutant" variant. Even with limited testing, we knew that there were hotspots emerging in and around Mumbai and Pune. But instead of herding

people to a higher ground and safety, like we should have if this were a real tsunami, we were mesmerised and walked into the exposed seafloor, trying to pick up coral and seashells. We travelled to Goa, crowded planes and airports and instead of managing travel from hotspots like the United Kingdom, or even domestic travel, we "celebrated" the rising numbers of air passengers through tweets. Instead of restricting air travel, either within India, from India or into India, we allowed hundreds of people to come in likely carrying new and exotic variants of the virus. The world, however, is scared of the new variants emerging from India and has pretty much closed its doors to India.

Some of us had read about the sudden rise in cases in Brazil, starting with the Amazonian city of Manaus and spreading across that South American country, and wondered whether India too could see such a tremendously debilitating tsunami of cases. Instead, we were told stories of Indian exceptionalism, how India had beaten

INSTEAD OF UNDERSTANDING WHY INDIA WAS SPARED THE 'FULL' IMPACT OF THE ORIGINAL CORONAVIRUS, WE ROLLED OUT A GRADUAL VACCINE PROGRAMME AND INDEED MADE A SONG AND DANCE ABOUT EXPORTING MILLIONS OF VACCINES ABROAD

back the virus and taking a cue from our leaders, across fields from politics to sports, we all let our guard down. Instead of understanding why India was spared the "full" impact of the original Coronavirus, we rolled out a gradual vaccine programme and indeed made a song and dance about exporting millions of vaccines abroad. Nothing against India's generosity to the world, but maybe here following a more selfish American philosophy might have ensured that more people in India were vaccinated and the death toll from this outbreak might have been less.

Yes, a large majority of those who had died were elderly and had led full lives, and while many of them might have died in this tsunami also, the issue is that a large number of people who died need not have died had the arrangements for more beds and oxygen been made earlier. Yes, the system might still have been overwhelmed, meaning that those who caught the disease early benefited from more resources but if the special COVID-19 hospitals in Delhi and

Mumbai had been established a week earlier, if a proper logistical programme had been thought out for oxygen transport a month earlier, many lives might have been saved. The Government is going around tom-tomming India's "low" COVID-19 Fatality Rate; in fact, with a bit of planning and organisation, it could have been lower still.

The fact of the matter is that we saw the warning signs but chose to ignore these; we all bought into the story of Indian exceptionalism. We blithely chose to ignore what was happening elsewhere in the world and believed that once we all start getting vaccinated, things will get even better. We went ahead and planned for massive religious functions like the Mahakumbh, we had parties on Holi and we put ourselves at risk. We ignored the warning signs, even though these were in plain sight for all of us to see. No wonder, now we find ourselves drowning in a tsunami.

### LETTERS TO THE EDITOR

#### MATCHES ARE AN OASIS THESE DAYS

Sir — The Indian Premier League (IPL) match between archrivals Mumbai Indians (MI) and Chennai Super Kings (CSK) recently was a perfect entertainer and certainly the match of this season so far. Kieron Pollard's stunning onslaught took the Mumbai Indians to an improbable win in a run-fest. The defeat also ended the Super Kings' five-match winning streak.

The MI came out with flying colours in a last-ball thriller. With 138 needed from the last 10 overs, they knew there was just one way to go about it and, in Pollard, they found the man to pursue the Herculean task. He muscled Jadeja for three sixes in the 13th over before smashing two more off Lungi Ngidi in the next. By the end of 14 overs, Mumbai were 130 for three. At the same stage in their innings, the Super Kings were 126 for four. Pollard raced away to 50 in 17 balls, the fifth joint-fastest in the IPL, and reduced the equation to 66 required from the last five overs. A match that witnessed an equal number of fours and sixes (30 each) is absolutely a bad memory for the bowlers. Remarkably, both teams displayed true teamwork to arrive at such a mammoth total. But Ravudu and Moeen Ali from CSK and Pollard and Krunal Pandya from MI deserve special applause. Let's hope the richest cash league will offer the best entertainment in the remainder of the series.

Satish Reddy Kanaganti | Nalgonda

#### IT'S TIME TO BE HOPEFUL, CAREFUL

Sir — Winning over the first wave of COVID-19 was no mean feat for India. Buoyed by it, New Delhi started vaccine diplomacy to help other nations during the crisis. However, things turned upside down as the second wave hit us hard and sent our healthcare system reeling. Some sceptics applaud other countries for beating the second wave and compare it with India's "failure". However, we must keep in mind that we have a huge population and there are several other barriers. Despite all the constraints, our recovery rate is far better and mortality rate is too low. Even the US and Russia, among the developed

## BJP should introspect its failure

In the West Bengal Assembly elections, the Bharatiya Janata Party (BJP) fell way below its expected number of seats. But in a surprise turn, Mamata Banerjee lost to Suwendu Adhikari, her former party colleague who switched sides months earlier and joined the BJP. It's time for the BJP and its leaders, who were earlier claiming to win more than 200 seats, to introspect about what led to their defeat. In an embarrassment for the BJP, its stalwarts such as Union Minister Babul Supriyo, former Rajya Sabha MP Swapan Dasgupta and Lok Sabha MP Locket Chatterjee fell like ninepins. The Assembly election

nations with top medical infrastructure, were devastated by the second wave.

The Centre and State Governments are doing their best to fight the pandemic and utilising their resources to the optimum. The services of final-year MBBS students can be utilised for providing services like tele-consultation and monitoring of mild COVID cases after due orientation by and under supervision of faculty. It's time for all of us to work together and overcome the pandemic. The darkness will soon go away if every citizen follows the rules and precautions at individual level.

Aman Jaiswal | New Delhi

#### TAMIL NADU'S DRAVIDIAN ICONS

Sir — These Tamil Nadu Assembly elections were the first time in the last five decades without the towering presence of the icons of Dravidian politics. This time, the State may well have seen the emergence

result is a dampener for the BJP if compared with the outcome of the 2019 Lok Sabha election. It had won 18 of the 42 seats and taken a lead on 121 of the 294 Assembly segments by garnering 40.2 per cent vote share. However, in this election, it won 77 seats — 44 seats less than the lead it had taken in the 2019 Lok Sabha election.

The people of West Bengal chose to rally behind Mamata Banerjee despite the vigorous canvassing against her by tall BJP leaders, including Prime Minister Narendra Modi and Union Home Minister Amit Shah. It seems that the Trinamool Congress was successful in consolidating the Muslim votes and that had a direct impact on the election results. In Kerala, the LDF Government got due recognition from the voters for its efficient management of the State during the severe flood and its proper handling of the COVID-19 pandemic. It's good for the BJP to be ambitious but the recent Assembly results have shown that over-ambition is counterproductive.

Katuru Durga Prasad Rao | Hyderabad

of one, perhaps two, new icons. Now the State has newly elected MLA and to-be Chief Minister M K Stalin who is well suited for this new generation and for the DMK. He is 68 years old and has finally reached where he wanted to be for five long decades in the shadow of his father and one of the leading lights of the Dravidian movement, the late Muthuvel Karunanidhi.

However, the AIADMK hasn't done as badly as was expected, especially with the weight of an alliance with the BJP which was more like a liability. Stalin, because of his genealogy, long years in politics and two successive wins, in 2019, when the DMK-led grouping won 38 of the 39 Lok Sabha seats in the State, and now, can stake claim to being the next Dravidian icon.

Anshita Rochwani | Ujjain

### SOUNDBITE

So far, refrained from ordering a sweeping lockdown. But if the people do not comply with the restrictions, harsher steps might have to be taken.

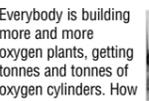

Punjab Chief Minister — Amarinder Singh

What we've witnessed over the last several years is China acting more aggressively abroad.

US Secretary of State — Antony Blinken

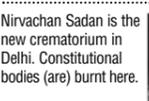

Everybody is building more and more oxygen plants, getting tonnes and tonnes of oxygen cylinders. How are we compensating for all the oxygen that we are forcefully drawing from the environment?

Actor — Kangana Ranaut

Yeah, Sanju Samson is good fun to bat with. We all know he is a chilled fun character. He walked in and smacked his first ball for a six, which was quite amazing.

## FIRST COLUMN

### TIME FOR COURSE CORRECTION

The Govt must reformulate the plan for the resurgence of India with the help of the Opposition and social groups

SHIVAJI SARKAR

Economic activities have been hit so hard by the lockdown that traders have cried for deferment of the Goods and Services Tax (GST) and other taxes. According to the Confederation of All India Traders (CAIT), the daily loss of business owing to the lockdown in Delhi is likely to be around ₹600 crore while the total loss across the nation could be nearly ₹30,000 crore if full and partial lockdowns, night curfews and other forms of restrictions are taken into account. CAIT's secretary general Praveen Khandelwal says that non-compliance with these tax stipulations will attract huge penalties on traders across the country. There is no policy or revival plan and the economy is shrinking as people's incomes are in a tailspin, markets have sagging demand and activities are at a virtual thaw. A hard lockdown was imposed on March 24, 2020 without giving a simple thought on how 130 crore Indians would survive if their livelihoods were snatched away. It happened and the next three months revealed that the decision to close down all activities, except those centered around COVID-19, had led

the country to a devastating path. Lakhs of the 18 crore migrant workers hit the road amid loss of work and dignity. Nearly 13 months down the line, the Government should have come out with a road map till now but, alas the nation became complacent about having conquered COVID-19 only to realise too late that the virus has not gone and has hit us with greater ferocity. Consequently, there has been an exponential surge in infections, a mounting death toll, lack of medical oxygen and medicines.

The State has largely remained a mute spectator compelling the courts to intervene and stop the administration from smothering voices being raised against the Government's monumental failure. Despite its massive failure to deal with the crisis, the Centre has claimed that all arms of the Government are working unitedly and rapidly to deal with the situation. The nation is still expecting some decisive action against the pandemic but with its ailing healthcare system and mounting death toll the situation is becoming grim day by day. Reports from the countryside say that half-baked hospitals are doing more harm and how the bodies are cremated remains a mystery. "The State has failed in its fundamental obligation to protect the basic fundamental right that is the right to life under Article 21", said Delhi High Court on April 30. The Bench, earlier during the same hearing, had noted the "complete failure of the State" when dealing with other pleas.

We have not suddenly plummeted into such a state. It appears that the nation was in euphoria of collecting brownie points and has given up all thoughts about the lives of its own people or the state of its economy. The latest indicators from the Reserve Bank of India (RBI) about the banking system do not bring any comfort. The bank losses or Non Performing Assets (NPA) are mounting. In such a scenario, credit squeeze is obvious. The Rupee is plunging and petrol prices are at an artificial high. The time for correction has come. The Government needs to own up to failure on its part to control the pandemic. Further, it must also admit that it failed to provide employment and prevent loss of jobs following the demonetisation exercise and pushed the country into severe social and economic crisis. The Centre must reformulate the plan for resurgence of the country with the help of the Opposition, religious leaders and social groups not merely for Gross Domestic Product figures but for survival of the informal sector and the free flow of cash. It must give up all political ego. Healthcare should now become the bedrock of the nation's resurgence, supported by a prudent economic policy, even if that means forming a national Government.

# Make the COVID jobs free for everyone

UTTAM GUPTA

There is a dire need to vaccinate at least one billion people within a short time and, given the pitfalls of differentiated pricing, the Centre should opt for inoculating everyone free of cost

Under the 'Liberalised Pricing and Accelerated National COVID-19 Vaccination Strategy (LPANCVS)', announced on April 19, which was kicked off from May 1, the Centre has plans to vaccinate all adults above 18 years of age. Before this, the inoculation drive that was launched on January 16, covered healthcare and frontline workers and people above 50 years of age and those with comorbidities. In the second phase of the drive the age limit was brought down to those above 45. Vaccine manufacturers were giving all their supplies to the Government of India (GOI) and charging ₹150 per dose even as the latter was arranging for inoculation of eligible people free at Government vaccination centres (GVCs). However, those opting to get vaccinated at private hospitals needed to pay ₹250 per dose. The GOI incurred a subsidy on vaccination done at GVCs equal to ₹150 per dose, plus the cost of administering it. It was funded from the Union Budget.

Even as the above arrangement involved differential pricing, like free for those who got vaccinated at GVCs and others getting the jab at private hospitals for a price, the proposed system from this month is much more complex. Under it, of its total supply, the vaccine manufacturer would give 50 per cent to the GOI at the rate of ₹150 per dose and make the remaining 50 per cent available to State Governments, private hospitals, industrial establishments at a price to be declared in advance (the price charged for vaccination by private hospitals would be monitored). People can make an "informed" choice at the time of booking an appointment at a private vaccination centre.

The vaccines will not be available for sale at pharmacists or chemist shops in the open market. The present system of private hospitals inoculating those above 45 years for ₹250 per dose will cease to exist as they will no longer be getting any supplies from the GOI quota and will have to procure directly from vaccine manufacturers at the price notified by the latter.

Meanwhile, the manufacturers have announced prices they intend to charge from the State Governments and private hospitals. The Serum Institute of India (SII), the maker of Covishield, will charge ₹300 per dose on supplies to States and ₹600 per dose from private hospitals. Bharat Biotech, the maker of Covaxin, will charge ₹400 per dose from States and ₹1,200 per dose on supplies to private hospitals. Both will continue to supply to the GOI at the rate of ₹150 per dose (this is as per a statement issued by Harsh Vardhan, Union Minister for Health and Family Welfare).

Putting all pieces together, there will be a minimum of five prices for the COVID-19 vaccination dose i.e. zero, ₹300, ₹400, ₹600, ₹1,200 (the cost to the recipients will be higher by an amount equal to the "service charge" levied by the State Governments/private hospitals to cover the cost of administering the vaccine) depending on the vaccine type and the channel through which it is done.

Meanwhile, more vaccines like Sputnik V, Nasal Covaxin and so on, are expected to get approval shortly. But those are likely to be priced

THE COST OF PURCHASE I.E. ABOUT ₹40,000 CRORE CAN BE MET FROM THE ALLOCATION OF ₹35,000 CRORE MADE IN THE UNION BUDGET FOR 2021-22 (AN ADDITIONAL ₹5,000 CRORE WOULD BE NEEDED TO MAKE UP FOR THE DEFICIT). AS FOR THE SERVICE CHARGE FOR VACCINATION, THIS COST MAY BE PAID BY THE STATES FROM THEIR BUDGETS

The writer is a New Delhi-based policy analyst. The views expressed are personal.

even higher. The earlier arrangement was far from optimal as it entailed differential treatment of eligible people depending on the place they got the jab. While, those going to GVCs got it free, others opting for private hospitals paid ₹250 per dose. Even as the involvement of private hospitals was justified in view of the need to cover a large number (there are 300 million in the 45 plus group) within a short time frame, putting a price tag to it and that too ₹100 over and above the price they paid to manufacturers militated against this objective. Indeed, this was a potent factor behind dismal results thus far with only about 20 million in a total of 300 million having got both the shots (even as other factors such as the initial vaccine hesitancy among the public at large as also supply constraints were equally responsible).

Under the new regime, even as the facility of getting a jab for ₹250 per dose at private hospitals for persons in the 45 years plus category has been withdrawn, the Central Government wants over 500 million people (50 per cent of about one billion of the adult population i.e. over 18 years whom it expects to get jabs from States and private hospitals' quota) to pay a price high enough to destabilise the budget of even a middle income family.

Consider the following two scenarios: First, let's take the lowest in the price spectrum i.e.

Covishield — supplied for ₹300 per dose to States. Add service charge of ₹200 per dose (67 per cent of the price; this is the mark-up applied to ₹150 per dose being the price billed to private hospitals under the erstwhile dispensation), the recipient will pay ₹500 per dose. For two doses, this comes to ₹1,000. A family of four will have to shell out ₹4,000.

At another extreme, consider Covaxin supplied for ₹1,200 per dose to private hospitals. Plus service charge, the recipient will pay ₹2,000 per dose. For two doses, this will be ₹4,000. In this case, the dent on this family's budget will be ₹16,000.

Given the high prices at State centres and much higher at private hospitals and considering that vaccination from the GOI quota (50 per cent of total supply) is for free, people will tend to gravitate towards the latter. The clamour for getting vaccinated at GVCs will be so pronounced as to cause a complete breakdown of this network. This could be averted if only the State Governments decide to do free inoculation even out of the paid quota; however, this will require them to give heavy subsidy from the State Budget.

Already, some States like Maharashtra, Delhi and so on have announced their intent to give it all free and others are likely to follow suit. If, it has to be free for all involving subsidisation by the Centre or States then why go

through such a cumbersome route?

Considering that the crisis is of an unprecedented magnitude (once in a lifetime) afflicting the entire population, there is a dire need for vaccinating at least one billion within the shortest possible time frame and given the pitfalls of differentiated pricing, the Centre should opt for inoculating everyone free of charge.

Apart from GVCs, all other stakeholders like the State health facilities, private hospitals, industrial establishments and so on should be involved in the vaccination drive. They can pick up their requirements directly from the manufacturers even as the GOI does overall coordination, negotiates a good price and makes payment.

Given the mammoth numbers i.e. two billion doses, a price of ₹200 per dose should be good enough to cover the cost and give good return to the manufacturers (here, it is pertinent to recall a statement by Adar Poonawalla, CEO, SII, "the firm was making a profit even at a price of ₹150 per dose"). The cost of purchase i.e. about ₹40,000 crore can be met from the allocation of ₹35,000 crore made in the Union Budget for 2021-22 (an additional ₹5,000 crore would be needed to make up for the deficit). As for the "service charge" for vaccination, this cost may be paid by the States from their Budgets.

## POINTCOUNTERPOINT

I THINK THAT THE PEOPLE OF BENGAL MADE A HISTORIC MISTAKE BY NOT GIVING THE BJP A CHANCE AND BY RE-ELECTING THIS CORRUPT AND CRUEL LADY.

—BJP MP

BABUL SUPRIYO

IT IS THE VICTORY OF THE PEOPLE OF BENGAL AND THE VICTORY OF DEMOCRACY. BENGAL HAS SAVED INDIA TODAY. THIS VICTORY HAS SAVED HUMANITY.

—WEST BENGAL CHIEF MINISTER

MAMATA BANERJEE

# The mysterious end of the quest for knowledge in India

What happened that made the development of science and technology less important after the great burst of scientific creativity in ancient India?

Joseph Needham a brilliant British bio-chemist who had obtained a doctorate from Cambridge University in 1925, visited China several times. In his book 'Science and Civilisation in China' Needham posed the problem, known as "Needham's grand question", in respect of China, but which applies equally to India.

The question is this: Why did China (and India), which were far ahead of Western countries in science and technology at one time, later fell behind, did not have an industrial revolution, became backward and consequently victims of imperialism and colonisation?

There is no doubt that both India and China were at one time far ahead of the Western countries in science and technology. China invented gunpowder, the magnetic compass, paper and printing,

The writer is a former judge of the Supreme Court of India. The views expressed are personal.

which, according to Francis Bacon, were the three most important inventions facilitating Europe to pass from the dark Middle Ages to the Modern age. But why did China's progress in science and technology stop thereafter? According to Needham it could have been the Confucian philosophy, which was incompatible with scientific development, which was responsible for this. But is this explanation not superficial?

As for India, it was far ahead of the West in ancient times. Indians invented the decimal system in mathematics, which was one of the revolutionary inventions in history. The numerals in the decimal system were known as Arabic numerals by the Westerners, but the Arabs called them Indian numerals. Were they really Arabic or Indian? To answer this we

may note that the languages Arabic, Persian, and Urdu are written from right to left. But if we ask an Arab, Persian, or Urdu writer, to write any number (say 259 or 1,379) he will write it from left to right. This indicates that these numbers were taken from a language which is written from left to right. And now it is accepted universally that the decimal system and the number zero, was invented in India.

The importance of zero can be understood by considering the following: The ancient Romans built a great civilisation of Caesar and Augustus. But if we were to ask an ancient Roman to write the number one million he would have been stumped. The reason for this is that the ancient Romans wrote their numbers in alphabets, V standing for five, X standing for ten, L for 50, C for 100, D for 500, and

M for 1,000 (or millennium). There was no alphabet expressing a number greater than 1,000. So if an ancient Roman had to write 2,000 he would have to write MM and if he wanted to write one million he had to write M a 1,000 times. On the other hand, according to the system invented by Indians, to write one million they had only to write one and

then put six zeros after that. The ancient Greeks and Romans just did not have the imagination to conceive of a number called zero. By using zero our ancestors could conceive of astronomically large numbers. Thus, 1,000 had three zeros after one. If we add two more zeros we get one lakh and so on.

Aryabhata, who reputedly lived in the 5th Century AD worked on quadratic equations, the binomial theorem and calculated the value of pi to a fairly accurate degree. He also made significant contributions to astronomy, being perhaps the first person in the world to prove that the Earth rotates on its axis, thus causing day and night.

Brahmagupta and Bhaskar also made great contributions in mathematics and so on. In medical science India was at least 1,000, if not 1,500, years

ahead of any country. Thus, Sushrut, the father of surgery, invented plastic surgery in the 6th century BC while the Britishers discovered it only towards the end of the 18th century AD during the Anglo-Mysore wars, and that too, from a traditional physician who lived near Pune.

The harbour at Lothal in Gujarat, which is regarded as quite modern in its construction, was built around 5,000 years ago, and is regarded as part of the Indus valley civilisation. Why, then, did we fall behind the West? Why did we not have an industrial revolution? Why was our advance in science and technology blocked, while Europe produced Copernicus, Galileo, Kepler, Newton, Descartes, Robert Boyle, Cavendish, Priestly, Lavoisier, Maxwell, Gauss, Max Planck, Rutherford, Heisenberg, Pauli,

Niels Bohr, Einstein, Schrodinger, Chadwick, Madam Curie, Otto Hahn in physics, chemistry and mathematics, William Harvey, Ross, and so on in medicine, Edmond Halley and so on in astronomy, James Hutton in Geology, Linnaeus, Buffon, and Darwin in biology, and so on. No doubt we produced CV Raman, Srinivasa Ramanujan, Chandrasekhar, S Bose and so on but these are just a handful

What happened that made in the history of India the development of science and technology less important (after the great burst of scientific creativity in ancient India), while in the West it became more important? This mystery is yet to be solved. Were there cultural, economic, or historical factors involved in this deceleration in learning? A lot of scientific investigation is called for.

# Ethnic guerrillas in Myanmar say they shot down copter

AP ■ BANGKOK

An ethnic rebel group in northern Myanmar said it shot down a Government military helicopter on Monday during heavy fighting over a strategic position.

The claim by the Kachin Independence Army came as protests against Myanmar's military government continued in Kachin State and elsewhere in the country. It would be the first aircraft shot down during recent hostilities between the government and ethnic guerrilla armies. There was no immediate comment by the government on the incident.

The Kachin are one of several ethnic minorities who have allied themselves with the nationwide protest movement against the military's February ouster of the elected government of Aung San Suu

Kyi, who was arrested and remains in detention. The country's ethnic minorities have been fighting for decades against the central government for greater autonomy.

Government offences are underway against the Kachin and the Karen, another ethnic minority in eastern Myanmar that maintains its own armed force and also has been the target of airstrikes. The fighting in Kachin and Karen states has displaced more than 45,000 villagers.

Col Naw Bu, a spokesman for the Kachin Independence Army, said his group's forces shot down the aircraft after government forces used helicopters and jet fighters in an attack on Momauk township, where the Kachin seized a base at the foot of Alaw Bum mountain from the government on March 25.

Anti-coup protesters burn tires and chant slogans with banner read "The Kamayut strike will be fight for to the end when we get victory" during the demonstration against the military coup in Kamayut township Yangon on Monday

**The ruling junta continues to face challenge in the cities and towns of Myanmar, where street protests are still being held more than three months after it seized power**

A video on social media said to be of the helicopter shows, at a great distance, an aircraft diving as the sounds of heavy weapons are heard. As the helicopter continues a steep descent, it appears to catch fire and leaves a trail of smoke. The video, and another taken from

a distance showing smoke from what was said to be the crash site, could not be independently verified.

Naw Bu said it was the first aircraft shot down in what has become a fierce battle lasting almost two weeks after the government attacked with heavy artillery and fighter jets.

"Good news! Our prayer has been answered. KIA shot down a terrorist's helicopter," Hkanhpa Sadan, foreign secretary of the guerrilla army's affiliated Kachin National Organisation, said on Twitter. Opponents of the military government routinely refer to its forces as "terrorists".

The ruling junta continues to also face a challenge in the cities and towns of Myanmar, where street protests are still being held more than three months after it seized power.

Security forces often use

lethal force to break up the protests. The Assistance Association for Political Prisoners, which tracks deaths and arrests, said at least five civilians were killed Sunday on what protesters declared was Global Myanmar Spring Revolution Day.

The organisation said security forces have now killed 765 protesters and bystanders. The government puts the death toll at about one-third that figure and says its actions are justified to stop what it calls rioting.

The government also has kept up targeted arrests of activists and other people it considers to be behind the resistance movement. The Assistance Association says 3,555 people have been detained since the army's seizure of power. About 40 journalists are among those being held.

## Biden recalls raid on bin Laden in Pak in 2011

**Vows to prevent another terror attack on America**

PTI ■ WASHINGTON

The US will never waver in its commitment to prevent another terror attack on the country and to keep the American people safe, President Joe Biden has vowed, as he marked the 10th anniversary of the killing of Osama bin Laden in Pakistan.

The al Qaeda leader who evaded justice for 10 years after the terror attacks of September 11, 2001 met his end in a covert raid by US special operations forces on May 1, 2011 in the Pakistani garrison city of Abbottabad.

In a statement on Sunday, Biden, then Vice President, recalled that he joined President Barack Obama and members of the national security team, crowded into the Situation Room of the White House in 2011 to watch as the US military delivered long-awaited justice to bin Laden.

"It is a moment I will never forget," Biden said, while praising the intelligence professionals who had painstakingly tracked bin Laden down; the

clarity and conviction of President Obama in making the call; the courage and skill of the American team on the ground.

"It had been almost ten years since our nation was attacked on 9/11 and we went to war in Afghanistan, pursuing al Qaeda and its leaders. We followed bin Laden to the gates of hell — and we got him.

"We kept the promise to all those who lost loved ones on 9/11: that we would never forget those we had lost, and that the United States will never waver in our commitment to prevent another attack on our homeland and to keep the American people safe," the president said.

Biden noted that as a result of the efforts taken the US, his administration was bringing to an end the country's longest war and draw down the last of

the American troops from Afghanistan where al Qaeda is now a "greatly degraded" terror group.

The US and NATO formally began withdrawing their last troops from Afghanistan on Saturday, according to White House and military officials. President Biden set May 1, 2021 as the official date on which the remaining troops would begin pulling out, although the military has been flying equipment out of the country in recent weeks, according to US media reports.

There are between 2,500-3,500 US troops and about 7,000 North Atlantic Treaty Organisation (NATO) soldiers remaining in Afghanistan, the last of whom will leave the war-torn country by the end of September.

Under a deal signed last year between the Taliban militants and the administration of former president Donald Trump, foreign forces were to have left by May 1 while the Taliban held off attacking international troops.

Biden last month pushed back the May 1 pullout, saying some troops would stay on until September 11 this year, the 20th anniversary of the 9/11 attacks, citing the security situation.

## Saudi King names new Economy Minister, eldest son as adviser

AP ■ RIYADH

Saudi Arabia's King Salman appointed a new Economy Minister and named his eldest living son as a special adviser in a series of royal decrees issued early on Monday.

The king named Faisal al-Ibrahim as the minister of economy and planning, a move that promotes him from his post as deputy minister in which he'd served as since early 2018.

Al-Ibrahim has previously held jobs with Aramco and in the country's Council of Economic Affairs and Development, according to Saudi state media reports.

Finance Minister Mohammed al-Jadaan had been serving as the acting minister of economy since last year. In another decree published in state media, King Salman appointed Prince Sultan bin Salman as a special adviser to his father.

The prince had been head of the Saudi Space Authority, leaning on his experience as the first Arab astronaut to go to space in 1985.

The space authority will now be chaired by Abdullah al-Swaha, who is also the minister of communications and information technology.

## US officials in West Asia to reassure jittery allies over Iran

AP ■ ABU DHABI

Top Biden administration officials and US senators crisscrossed the Middle East on Monday, seeking to assuage growing unease among Gulf Arab partners over America's re-engagement with Iran and other policy shifts in the region.

The trips come as the U.S. and Iran, through intermediaries in Vienna, discuss a return to Tehran's tattered 2015 nuclear deal with world powers that former President Donald Trump abandoned three years ago.

The United Arab Emirates, Saudi Arabia and other Gulf allies, excluded from Obama-era nuclear negotiations, have repeatedly pressed for a seat at the table, insisting that any return to the accord must address Iran's ballistic missile program and support for regional proxies.

Sen. Chris Coons, D-Del., a key Biden ally dispatched on overseas diplomatic missions, told reporters in the UAE's capital of Abu Dhabi that he hoped to allay the sheikhdom's "understandable and legitimate concerns" about the return to the landmark deal and to create "broader engagement" with Gulf partners.

Coons said "close consul-

tation" with the UAE about the ongoing talks in Vienna was "important, expected and happening," adding that he hopes the Emiratis "may not just be notified, but actually help."

What that means remains unclear, as Gulf states now watch with resignation as negotiations gain traction in the Austrian capital. When asked to elaborate, Coons balked at the suggestion that the UAE's input had acquired any greater significance in talks with Iran over the last five years.

"I did not in any way mean to suggest that there was some deal in the works where the Emiratis would be securing anything," he said. "Vienna is the place where the United States government, the administration, is negotiating."

Regional tensions are rising. To pressure the Biden administration to lift sanctions and come back into compliance with the deal, Iran has steadily violated the accord's limitations on nuclear enrichment and stockpiles of enriched uranium. The long shadow war between Israel and the Iran has intensified, with suspected Israeli attacks on Iranian ships in volatile Mideast waterways and at Iran's Natanz nuclear facility.

## US begins reuniting families separated at Mexico border

San Diego: The Biden administration said on Monday that four families that were separated at the Mexico border during Donald Trump's presidency will be reunited in the United States this week in what Homeland Security Secretary Alejandro Mayorkas calls "just the beginning" of a broader effort.

Two of the four families include mothers who were separated from their children in late 2017, one Honduran and another Mexican, Mayorkas said, declining to detail their identities. He described them as children who were 3 years old at the time and "teenagers who have had to live without their parent during their most formative years."

Parents will return to the United States on humanitarian parole while authorities consider other longer-term forms of legal status, said Michelle Brane, executive director of the administration's Family Reunification Task Force. The children are already in the US exactly how many families will reunite in the United States and in what order is linked to negotiations with the American Civil Liberties Union to settle a federal lawsuit in San Diego, but Mayorkas said there were

more to come.

"We continue to work tirelessly to reunite many more children with their parents in the weeks and months ahead," Mayorkas told reporters ahead of the announcement. "We have a lot of work still to do, but I am proud of the progress we have made and the reunifications that we have helped to achieve this week."

More than 5,000 children were separated from their parents during the Trump administration going back to July 1, 2017, many of them under a "zero-tolerance" policy to criminally prosecute any adult who entered the country illegally, according to court filings. The Biden administration is doing its own count going back to Trump's inauguration in January 2017 and, according to Brane, believes more than 1,000 families remain separated.

While family separation under "zero-tolerance" ended in June 2018 under court order and shortly after Trump reversed course, Biden has repeatedly assailed the practice as an act of cruelty. An executive order on his first day in office pledged to reunite families that were still separated "to the greatest extent possible." AP

BEFORE DEPTS RECOVERY TRIBUNAL...  
PARLIAMENT STREET, NEW DELHI, 110001  
CA NO. 377/2021 DATE: 07/01/2021

## 2 ex-Lankan security officials charged over Easter terror attacks

Colombo: Sri Lanka's Attorney General on Monday slapped 800 charges against two top former security officials for their failure to prevent the deadly 2019 Easter Sunday bomb attacks in which over 270 people, including 11 Indians, were killed.

The charges were unveiled in the Colombo High Court by the country's top law officer Dappula de Livera against former official in the defence ministry Hemasiri Fernando and former chief of police Pujith Jayasundera.

The duo has been accused of neglecting the prior intelligence input on the impending

attacks, thereby failing to prevent the loss of life.

Nine suicide bombers, belonging to local Islamist extremist group National Thawheed Jamaat (NTJ) linked to ISIS, carried out coordinating blasts that tore through three churches and as many luxury hotels in Sri Lanka on the Easter Sunday in 2019.

A special presidential panel recently recommended that criminal action be taken against both Fernando, Jayasundera and several other senior defence officials, including former president Maithripala Sirisena. PTI

## EU summons Russia envoy over blacklisting of its officials

AP ■ BRUSSELS

The European Union has summoned Russia's ambassador after Moscow blacklisted eight EU officials in retaliation for the bloc's decision to impose sanctions over the imprisonment of Russian opposition leader Alexei Navalny.

The Russian list announced Friday includes European Parliament President David Sassoli and Vera Jourova, a vice president of the European Commission whose brief includes rule of law issues and disinformation.

European Commission spokesman Peter Stano said that Ambassador Vladimir Chizhov would meet in Brussels later Monday with

senior EU officials who "will convey to him our strong condemnation and rejection of this decision."

Stano said the Russian-imposed travel bans are "obviously very politically motivated and lack any legal justification. They are groundless." He said that "this all shows that Russia is determined to continue the hostile track of confrontation."

Russia's foreign ministry has accused the EU of wanting to punish Moscow for its "independent foreign and domestic policies" and of trying to limit its development with "unlawful restrictions."

EU foreign ministers will discuss tensions with Russia when they meet on May 10.

## 16 Niger soldiers killed in attack near the border with Mali

Niamey (Niger): An ambush on a military patrol near Niger's border with Mali killed 16 Niger soldiers and left one missing, the government said.

The patrol was returning from a security mission near the border with Mali in Tillia in the northern part of Niger's Tahoua region when it was attacked by a band of men riding motorcycles on Saturday evening, the Ministry of Interior said in a statement late Sunday. Six other soldiers were wounded in the ambush.

Niger's military also intercepted a group of suspected extremists Friday night, killing at least 24 who were preparing to attack Baibangu, a village about 100 kilometers (62 miles) north of the capital, Niamey,

according to a statement from the ministry of defense.

"While in police custody, before being transported to Niamey, the suspected terrorists tried to escape around 4 a.m. And 24 of them were shot dead by the army," the defense ministry said.

Both incidents are being officially investigated. Niger and neighboring Burkina Faso and Mali are battling the spread of deadly extremist violence from groups linked to al-Qaida and the Islamic State group.

The increasing violence has killed thousands of people and displaced hundreds of thousands despite the presence of regional and international troops. AP

## Israeli settlers attack Palestinian village after shooting

AP ■ JERUSALEM

Israeli settlers attacked a Palestinian village in the occupied West Bank overnight, setting brush fires and hurling stones, Palestinian officials and an Israeli rights group said Monday.

It appeared to be a revenge attack after three Israelis were wounded in a drive-by shooting at a nearby traffic junction on Sunday.

The Israeli human rights group B'Tselem said dozens of settlers attacked the village of Jaloud. It circulated videos showing the fires, with people shouting in the background. Israeli security forces arrested 11 Palestinians and four people were wounded by rubber bullets, B'Tselem said.

Ghassan Daghlas, a Palestinian Authority official who monitors settlement activity in the northern West Bank, provided a similar account, saying the villagers had come out to defend the village after the settlers attacked.

The Israeli military said Israeli civilians and Palestinians hurled rocks at each other outside the village and that "a number of locations were ignited." It did not provide details on what triggered the violence. It said around 10 people were detained, but did not identify them.

Radical Israeli settlers have been known to carry out so-called "price tag" attacks on Palestinian communities in response to violence or perceived Israeli plans to restrict settlement activity.

Israel captured the West Bank in the 1967 war, and the Palestinians want it to form the main part of their future state. Nearly 5,000,000 Israeli settlers live in more than 100 settlements scattered across the West Bank, which is home to some 2.5 million Palestinians. PTI

SERVING CUSTOMERS WITH A SMILE

**Attention travelers! EU proposes reopening external borders**

Brussels: In an announcement sure to be welcomed by travelers worldwide, EU officials on Monday proposed easing restrictions on visiting the 27-nation bloc as vaccination campaigns across the continent gather speed. Travel to the European Union is currently extremely limited except for a handful of countries with low infection rates.

But with the summer tourist season looming, the bloc's European Commission hopes the new recommendations will dramatically expand that list. The Commission hopes the move will soon allow travelers reunite with their friends and relatives living in Europe and support the bloc's economy this summer.

"Time to revive EU tourism industry and for cross-border friendships to rekindle — safely," European Commission President Ursula von der Leyen said. AP

**Oz PM defends ban on citizens returning from India; says it's in 'best interests'**

PTI ■ MELBOURNE

Australia's Prime Minister Scott Morrison on Monday defended his government's decision to ban and impose a jail term and a penalty for Australians trying to return from India, saying it is in the country's "best interests" and to prevent a third wave of infections.

The Australian government, for the first time in history, recently imposed a ban on its citizens from returning home, if they have spent time in India up to 14 days before flying back.

The government threatened to prosecute them with a possibility of five years of jail term or a penalty of 66,000 Australian dollars (USD 50,899). AP

**26 die as speed boat overturns in B'desh river**

Dhaka: An overcrowded speedboat ferrying over 30 passengers and defying the Covid-19 restrictions capsized after hitting a stationary sand-laden cargo vessel in the Padma River on Monday, leaving at least 26 people dead, a senior Bangladesh police officer said.

The accident occurred at the old Kanthalbari ferry terminal in Shibchar upazila of Madaripur at around 8 am. The boat, driven by an inexperienced driver, overturned in the Padma River in central Bangladesh while heading for Madaripur district from Munshiganj district. Rescuers have retrieved at least 26 bodies, police said.

"We have retrieved 26 bodies, rescued alive five others..."

But searches are underway for more as several speedboat passengers are feared missing," said Ashiqur Rahman, the police inspector of a nearby ferry terminal. PTI

# Govt waives IGST on import of Covid-relief material

PTI ■ NEW DELHI

The Government on Monday waived Integrated GST (IGST) till June 30 on the import of Covid-related relief material donated or received free of cost from outside India for free distribution.

The Finance Ministry in a statement said the government had received a number of representations from charitable organisations, corporate entities, and other Associations/entities outside India seeking exemption from IGST on the import of Covid-19 relief material, donated/received free of cost from outside India for free distribution.

"Accordingly, the Central Government has ... Granted exemption from IGST on import of such goods received free of cost for free distribution for covid relief," it said, adding the exemption would be applic-

able till June 30.

This exemption would also cover goods already imported but lying uncleared at the Customs ports.

The Government has already exempted from customs duty import of a host of COVID-related relief materials, including Remdesivir injection and its APIs, Inflammatory diagnostic (markers) kits, medical grade oxygen, oxygen therapy related equipment such as oxygen concentrators, cryogenic transport tanks, etc, and Covid vaccines.

The IGST exemption given on Monday would be subject to nodal authorities, appointed by the state governments, authorising any entity, relief agency or statutory body, for free distribution of such relief material.

The said goods can be imported free of cost by a state government or, any entity/

relief agency/ statutory body, authorized in this regard for free distribution anywhere in India.

The importer shall before clearance of goods from Customs produce a certificate from the said nodal authorities that goods are meant for free distribution for Covid relief.

After imports, the importer shall produce, to the Deputy or Assistant Commissioner of Customs at the port within a period of six months from the date of importation or within such extended

period not exceeding nine months, a statement containing details of goods imported and distributed free of cost.

This statement shall be certified by the said nodal authority of the state government.

"This exemption shall thus enable import of the Covid

relief supply imported free of cost for free distribution without payment of IGST (up to the 30th June, 2021). As customs duty is already exempt, these imports will not attract any customs duty or IGST," the ministry added.

India's single day COVID infections had crossed a record 4 lakh mark last week. On Monday, 3.68 lakh new infections and 3,417 deaths were reported.

Last week, the government slashed IGST rate on import of oxygen concentrators for personal use to 12 per cent, from 28 per cent, for two months till June 30.

Under Goods and Services Tax (GST), the tax levied on consumption of goods or rendering of service is split 50:50 between the Centre and the state. Such tax is known as Central-GST or CGST and State-GST or SGST.

## Covid crisis, rollback of stamp duty cut impact Mumbai home sales

FIANS ■ MUMBAI

The second wave of Covid-19 and the rollback of the stamp duty cut in Maharashtra impacted the housing sales in April, showed a report by Knight Frank India.

The report noted that Mumbai recorded upwards of 10,000 residential property registrations in April 2021.

However, upon delving deeper into the property registrations data, it was found that, only 7 per cent of these registrations were from new

residential sales concluded in the same month, while 93 per cent of the registrations were from properties transacted between December 2020 to March 2021 for which applicable stamp duties were paid during the lower rate window, it said.

The Maharashtra state government in December 2020 had given a leeway of four months to homebuyers to register a property after the payment of stamp duty in order to prevent crowding of registration offices.

## Markets recoup initial losses to end flat; RIL, banks weigh

PTI ■ MUMBAI

Equity benchmark Sensex staged a smart recovery from the day's low to end with marginal losses on Monday, propped up by robust buying in FMCG and telecom counters.

Reliance Industries and banking stocks accounted for most of the losses, while a rebounding rupee also provided support, traders said.

After plunging over 750 points in early trade, the 30-share BSE index made a U-turn to finish 63.84 points or 0.13 per cent lower at 48,718.52.

In similar movement, the broader NSE Nifty closed 3.05 points or 0.02 per cent higher at 14,634.15.

Titan was the top laggard in the Sensex pack, shedding 4.58 per cent, followed by IndusInd Bank, Reliance Industries, Axis Bank, Kotak Bank, ITC, SBI, ONGC and ICICI Bank.

On the other hand, Bharti Airtel, HUL, Maruti, Bajaj Finance, Asian Paints, NTPC

and Nestle India were among the gainers, climbing up to 3.98 per cent.

"Domestic equities recovered sharply from day's low despite weak global cues. While growing uncertainties about collection efficiency and asset quality of banks/NBFCs dragged heavy weight financials, strong buying in FMCG and Metals supported recovery in markets," said Binod Modi, Head Strategy at Reliance Securities.

While persistent rise in second wave of COVID-19 cases has weighed on investors' sentiments, steady corporate earnings with positive managements' commentaries offered support to markets, he noted.

On the macroeconomic front, India's manufacturing sector activity was largely flat in April, as rates of growth for new orders and output eased to eight-month lows amid the intensification of the COVID-19 crisis, a monthly survey showed on Monday.

## High frequency indicators show economic activity 'softening': Crisil Research

FIANS ■ NEW DELHI

India's high frequency indicators have started to show a softening trend in economic activity, Crisil Research said on Monday.

"In India, the impact of state-announced restrictions are more clearly showing up across high frequency indicators - they all trended down for the second consecutive week," it said. Retail mobility fell 8.2 percentage points (pp) on average in the week ending May 2, while workplace mobility slowed 7.1 pp.

Besides, toll collection through electronic mode declined 2 per cent on-week. Similarly, Goods and Services Tax e-way bill collection (volume) declined 6.9 per cent on-week for week ending April 25.

Lately, India's crushing second Covid-19 wave has been making new peaks with every passing day, as daily cases near the 4 lakh plus level.

"If it was any consolation amid the steep rise in daily cases and deaths, growth in

recoveries, which lagged cases till last week, grew faster by 57 per cent in the week April 26-May 2. That compared with 16 per cent growth in cases."

"Growth in daily cases in major affected states, such as Maharashtra, Madhya Pradesh, Chhattisgarh, Uttar Pradesh too slowed down, compared with the week ending April 25. But recovery rate has declined to 82 per cent as of May 2, due to the high base of confirmed cases," Crisil said.

Furthermore, it said that Covid-19's second wave is closing in on rural India.

"The share of predominantly rural districts in new cases in April was 30 per cent up from 21 per cent in March. This is still lower than the peak reached in the first wave (at 40 per cent in August 2020)."

"Further, daily vaccinations are slowing as vaccine supplies are choked. They dropped from 1,992 per million in the week prior to 1,585 per million on average, in the week ending May 02. This is the third straight week that daily vaccinations have declined."

## India's manufacturing output inches up as demand rises: PMI

FIANS ■ NEW DELHI

Demand growth pushed India's manufacturing sector output higher in April, showed IHS Markit India Manufacturing PMI report on Monday.

Accordingly, the report said economic conditions in India's manufacturing sector remained favourable in April, as companies scaled up production in line with a further improvement in demand.

Consequently, the headline seasonally adjusted IHS Markit India Manufacturing Purchasing Managers' Index (PMI) inched up from 55.4 (index reading) in March to 55.5 in April.

The PMI ranges between 0 and 100, with a reading above 50 indicating an overall increase compared to the previous month.

Besides, the report said consumer goods sector was the strongest-performing category, followed by capital goods and then intermediate goods. "While output and sales

THE PMI RANGES BETWEEN 0 AND 100, WITH A READING ABOVE 50 INDICATING AN OVERALL INCREASE COMPARED TO THE PREVIOUS MONTH

increased at the slowest rates since last August due to an intensification of the Covid-19 crisis, there was a faster upturn in international orders," the report said.

"Moreover, quantities of purchases expanded at one of the strongest rates seen for over nine years as firms sought to boost their inventories."

Furthermore, survey participants signalled a steep increase in input costs, the quickest since July 2014, and upward revisions to selling prices.

"The rate of charge inflation climbed to the highest in seven-and-a-half years."

## Corporate revenue seen growing 6% in FY22 as second wave takes a toll: Ind-Ra

PTI ■ MUMBAI

With the second wave of the pandemic disrupting supply chains for most industries, India Ratings has projected an overall 6 per cent median revenue growth for corporates this fiscal over FY20.

However, this will be a high 21.2 per cent over FY21, the year of the pandemic when half of the year was almost lost in lockdowns; and the forecast is more than its own earlier assumption of 4.4 per cent, though.

The service-oriented sector is the worst hit so far when it comes to supply-side disruption from the second wave of the pandemic, the report said on Monday, adding this has pushed back their recovery beyond the current fiscal.

While FY22 is likely to be better than FY20 for most of the sectors due to an improvement in revenue benefitting largely from elevated prices and pent-up demand resulting in higher volume growth, volatile commodity prices along with interest rates reversal and the rupee fall are like-

ly to cap profitability, the report added.

"Given these, we expect an overall median revenue growth of 6 per cent for corporates in FY22 over FY20 and 21.2% over FY21," India Ratings said, and pointed out this is an increase from its earlier estimate of a median growth of 4.4%.

The gains in FY22 is primarily a result of some level of consolidation resulting in bipolarisation, meaning larger companies growing faster than smaller ones, it said. Moreover, excess cash used for deleveraging across sectors will result in higher operating leverage supporting the overall credit profile of corporates, the agency noted.

But sectors like pharma, chemicals, cement and steel may witness some capex on account of higher liquidity cushion with them, it added.

Lower revenue growth is likely to test the credit profile in FY23 due to the moderation in consumption and investment demand outlook and smoothening out of supply chain issues, and the consequent possible moderation in prices, the rating agency said.

## Sugar production reaches 29.91 mn tonnes in Oct-Apr of 2020-21: ISMA

PTI ■ NEW DELHI

The country's sugar production has reached 29.91 million tonne till April of the ongoing 2020-21 marketing season, industry body ISMA said on Monday.

With regard to sugar exports, mills have contracted for shipments of 5.4 to 5.5 million tonne so far. Out of which, 3.5 million tonne has been exported, while another 1 million tonne is expected to be done by this month, it said. On ethanol, Indian Sugar Mills Association (ISMA) said mills have supplied 117.72 crore litres of ethanol to oil marketing companies till April 19 of this year against the total contracted quantity of 302.53 crore litres, it added. Releasing updated production figures, ISMA said mills across the country have produced 29.91 million tonne of sugar during the Oct-April period of the 2020-21 marketing season (Oct-Sept).

ISMA has estimated sugar production to be 30.2 million tonne in the 2020-21 marketing season, higher than 27.42 million tonne achieved in the previous season. As per the ISMA data, Sugar production in Uttar Pradesh, the country's largest sugar-producing state, remained slightly lower at 10.56 million tonne till April of this year, as against 11.65 million tonne in the year-ago period.

Whereas the output in Maharashtra, the country's second-largest sugar producer, rose substantially to 10.56 million tonne from 6.09 million tonne in the said period. Similarly, output in Karnataka, the country's third-largest sugar-producing state, rose to 4.16 million tonne till April of this year as against 3.38 million tonne in the year-ago period. Most mills in these key producing states are expected to close their operations in the next fortnight or so.

## 75 lakh people lose jobs in April as lockdowns sprout; unemployment at 4-month high, says CMIE

PTI ■ MUMBAI

The second wave of Covid-19 and the resultant localised lockdowns have impacted over 75 lakh jobs, taking the unemployment rate to a four-month high of 8 per cent, the Centre for Monitoring Indian Economy (CMIE) said on Monday.

The situation on the employment front is expected to continue to remain challenging going forward as well, CMIE's managing director and chief executive Mahesh Vyas said.

"In the month of April, compared to March, we have lost 75 lakh jobs. That is what has caused the jump in the unemployment rate," he told PTI.

The national unemployment rate touched 7.97 per cent as per the centre's proprietary data, with urban areas witnessing higher stress at 9.78 per cent and rural joblessness at 7.13 per cent.

The national unemployment rate had stood at 6.50 per cent in March, and the number on both rural and urban front was lower.

The second wave of the COVID-19 pandemic has led to a slew of pockets going

under lockdown-like situation with only essential activities being allowed, which result in a chill in a bulk of economic activities and a resultant impact on jobs.

"I do not know about the peaking of the COVID wave, but I can see stress on the employment front," Vyas said.

What is likely to happen is that unemployment can remain at high levels, he said, adding that the labour force participation rate can also fall. "In worst situation, both can happen," Vyas added.

He, however, said that the situation right now is not as dire as the one witnessed in the first lockdown, when the unemployment rate had touched up to 24 per cent levels.

The country is reporting around 4 lakh new infections a day and over 3,000 deaths. In an address to the nation last month, Prime Minister Narendra Modi had advised states to look at lockdowns as a last resort, because of its impact on economic activity.

## SBI allocates ₹71 crore for fight against coronavirus

PTI ■ NEW DELHI

The country's largest lender SBI on Monday announced allocating ₹71 crore towards the fight against Covid-19, a part of which will be used to set up a makeshift 1,000-bed hospital for the treatment of patients in some of the worst-affected States. State Bank of India (SBI) has allocated ₹71 crore to undertake various support initiatives to combat the second wave of Covid-19, SBI said in a release.

The State-owned lender has allocated ₹30 crore for a makeshift hospital while ₹21 crore will be used to support initiatives such as procurement of life-saving healthcare equipment, oxygen supply to hospitals, Covid-care centres, ambulances, PPE kits, masks as well as food relief efforts. Besides, ₹0 crore will be used to supplement government's effort in genome sequencing, and ₹10 crore will be earmarked to collaborate with on-ground NGOs to address the community needs, SBI said.

## PIL seeks removal of hoardings promoting beer: HC seeks Delhi Govt, NDMC stand

PTI ■ NEW DELHI

A PIL of the Delhi High Court on Monday sought direction to the Delhi government and the NDMC to remove the hoardings put up by a Bengaluru-based beer manufacturer advertising its product.

A bench of Chief Justice D N Patel and Justice Jasmeet Singh issued notice to the Government of National Capital Territory of Delhi, the New Delhi Municipal Council (NDMC) and the beer manufacturer - Pegasi Spirits - seeking their stand on the plea by a lawyer.

Advocate Dhruv Chawla, in his plea, has said that the

Ministry of Information & Broadcasting (MIB) in September last year put out an advisory for private satellite TV channels to ensure that liquor, tobacco and other intoxicants are not advertised directly or indirectly on their channels in violation of existing law.

In March this year he came across several hoardings across Delhi advertising the alcoholic beverage of Pegasi and filed a complaint with the Advertising Standard Council of India (ASCI) regarding the same.

He also filed an application under the Right to Information Act seeking details with regard to any sanction or permission given by NDMC to put up the hoardings.

## T Rabi Sankar takes over as new RBI Deputy Guv

PTI ■ MUMBAI

T Rabi Sankar on Monday took over as the new Deputy Governor of the Reserve Bank of India for a period of three years, the central bank said in a statement. Sankar has filled the vacancy created after the retirement of B P Kanungo on April 2.

The other three deputy governors are Michael D Patra, who heads the all-important monetary policy department; Mukesh Kumar Jain, the commercial banker-turned-central banker; and Rajeshwar Rao.

Sankar was Executive Director of the Reserve Bank before being elevated to the post of deputy governor.

The Appointments Committee of the Cabinet cleared Sankar's appointment as the new RBI deputy governor on Saturday.

"In pursuance with the Government of India notification dated May 3, 2021, T Rabi Sankar took over as the Deputy Governor of Reserve Bank of India today for a period of three years or until further orders, whichever is earlier," the RBI said.

**KONKAN RAILWAY CORPORATION LTD**  
(A Government of India Undertaking)

**OPEN E-TENDER (SINGLE PACKET SYSTEM) INVITATION NOTICE.**  
Name of Work: Modification / Crossing up to 33KV Overhead lines (infringing the ongoing Railway Electrification project between Ratnagiri to Verna on Konkan Railway route in the State of Maharashtra and GOA) complete into under ground cable. Tender Notice No: KR/CO/EL/RN-Verna/sing/11/4/2021, Date: 04/05/2021. Completion Period : Three Months. Estimated Cost: Rs.5,56,10,922/-, Excluding GST. Last Date & Time for Online Submission of Tender : 25/05/2021 up to 15.00 Hrs. Opening of Tender: On 25/05/2021 at 15.30 Hrs. Amendments/Corrigendum if any, would be uploaded on IREPS website only. Submission of Tender Documents : Through IREPS. Manual Tender Documents shall not be accepted.

**NORTHERN RAILWAY**  
**Tender Notice (Through e-tendering)**

Name of work with its location	Comprehensive Annual Maintenance Contract for TPWS equipment both On board and Trackside equipment for section NDL-S-PWL for three years.
Approx. cost of the work (₹)	₹28,59,616/- only
Address of the Office	Senior Divisional Signal & Telecom Engineer-C, Northern Railway, 3rd Floor, Annex-1, DRM Office, New Delhi-110055
Date & Time for upload the tender/Closing of tender	Tender uploading/closing date & time 02.06.2021 up to 15:00 hrs
Website particular & notice board location where complete details of the tender can be seen etc.	See the Northern Railway website www.ireps.gov.in & Notice board at S&T branch, 3rd Floor, DRM office, State Entry Road, New Delhi-110055

Serving Customers With A Smile

**Public Notice**

I Kamlesh Kumari Bagai W/o Late Ramesh Chander Bagai, identified by Aadhar no. 711905158139 do affirm and declare that I had given a public notice in The Pioneer News Paper published on 24th April 2021, affirming that my medical records confirm that I do not need any psychological treatment and anyone claiming to have any such record may share the same with me. I affirm that this public notice was given on my own free will and I am firm on the same. I do not take responsibility of any contradictory digital communication, affidavit or document created in my name to contradict the public notice published on 24th April 2021. Kamlesh Kumari Bagai.

**APPEAL FOR IDENTIFICATION**

General public is hereby informed that a person (depicted in the photo), Namely : Unknown S/o Unknown R/o Unknown Age : about 65 years, Height : 5'5", Complexion : Wheatish, Face : Oval, Built : Thin, Wearing : Red colour T-shirt & Khakhi half pant was found in unconscious condition at Gate No. 6, Pragati Maidan, New Delhi. He was admitted to Lady Harding Medical College Hospital, Delhi, where doctor declared him brought dead on 27.04.2021. In this regard a case vide DD No : 56A, dated 27.04.2021 has been lodged at P.S. Tilak Marg, New Delhi. The dead body has been preserved for 72 hrs in Lady Harding Hospital Mortuary, Delhi.

Any person having any information or clue about this dead person may kindly inform to the following:-

**SHO**  
**P.S. Tilak Marg, New Delhi,**  
**New Delhi Distt., Delhi**  
**Ph. No. 011-23364100, 8750870526**

DP/266/ND/2021

**SEARCH OF MISSING/KIDNAPPED**

General public is hereby informed that one girl, (depicted in the photo), Namely: Ritu, D/o: Sh. Surender Rai, R/o: H.No. 18-B, Gali No. 6, Salapur Khera, Bijwasan, New Delhi, Aged: 15 years 9 months, has been missing/ kidnapped from the area of PS Kapashera, New Delhi since 17.03.2021 at 06.15 AM. In this regard a case vide FIR No. 098/21 u/s 363 IPC, Dated 17.03.2021, has been registered at P.S. Kapashera, New Delhi. Her physical description is as under:

Height: 5' Feet, Complexion: Fair, Face: Round, Built: Medium, Clothing: Sky Blue Colour Top and Jeans and Slippers in her feet.

Any person is having any information/clue about this missing/ kidnapped girl, may inform SHO, Kapashera, New Delhi at E-mail: ciccbi@cbi.nic.in or website: http://cbi.nic.in Fax: 011-23011334, Tele No. : 011-23014046 (Direct), 011-23015229, 23015218 extn. 210

## Nasal Spray

Pharma major Glenmark Pharmaceuticals Limited on Monday announced the launch of Ryaltris-AZ nasal spray for the treatment of moderate to severe allergic rhinitis, in India. Glenmark has been the first to launch the branded generic version for the treatment of allergic rhinitis in India

## DOCYARD

DR HP BHARATHI

Deputy Chief Medical Officer

JINDAL NATURECURE INSTITUTE

## Time to heal naturally

One of the most common chronic diseases of the respiratory system, asthma affects more than 300 million people across the world with around one-tenth of them in India. While the prevalence of asthma is higher in developed countries, the burden of asthma-related deaths is much higher in developing countries like India. In fact, according to a report published by the World Health Organisation (WHO), over 80 per cent of asthma deaths take place in developing countries.

While environmental allergens like dust, pollen, insects and domesticated animals are the leading triggers of asthma, outdoor air pollution has also emerged as a problematic trigger. Researchers from the French Institute of Health and Medical Research found that high traffic intensity and ozone exposure has increased the risk factors in individuals living with asthma. With rising environmental pollution, the incidence of respiratory disease is increasing in India, particularly among children. It is important therefore to introduce a holistic approach towards the management of this condition through the use of naturopathy and yoga. Evidence suggests that a naturopathic approach can offer long-term health benefits to people with asthma by reducing the intensity of the disease, improving symptoms and lung function while significantly reducing drug requirement.

**While modern medicine works in a reactive approach to manage symptoms when they arise, naturopathy works to eliminate the cause and reduce the severity of the disease**

Modern medicine relies heavily on the use of steroid inhalation and anti-inflammatory drugs to manage the condition. These drugs work by reducing inflammation and mucus production in the airways, thereby improving symptoms and controlling the condition. However, the high cost of drugs and their potential side effects remain a cause of concern. A naturopathy based treatment, on the other hand, uses a drugless approach which is much safer and sustainable.

Naturopathy is holistic rather than a compartmental way of treating and managing a condition. While modern medicine works in a reactive approach to manage symptoms when they arise, naturopathy works to eliminate the cause and reduce the severity of the disease. The Alternative system of medicine believes that all diseases are caused due to an accumulation of toxins or morbid matter in the body and negative vibrations in the mind. The therapeutic plan in naturopathy is executed in three phases — the eliminative phase, which focuses on cleansing the body of accumulated toxins, the soothing phase, which focuses on rejuvenating the body and supplying the necessary nourishment, and the constructive phase, in which the body's metabolic activity is regulated.

The treatment is divided into three therapy sections — Nature cure therapy, Diet therapy and Yoga therapy. Nature Cure therapy consisted of chest pack applied from 30 minutes to an hour once or twice a day depending upon the clinical condition of the patient. This was accompanied by a combination of hot foot and arm bath, partial massage therapy to upper back and chest, fomentation, Asthma Bath, Oxygen Bath, Steam and Sauna Bath, Enema, Steam Inhalation and Drainage therapy. Under the diet therapy, patients were prescribed nutritionally calcium-rich, non-mucus and non-acid generating food-items along with herbs and lots of water. Yogic kriya, Yogasana, Pranayama and Yoganidra spanning into a three-week programme with a gradual gradation in the severity of the practices was the third pillar of the treatment approach.

The study combined with a year follow up of patients had shown highly promising results. The naturopathy approach helped these patients to improve their lung function and symptoms while reducing the requirement of drugs in most patients.

## COVIDCARE

**ALMONDS:** Immunity has taken centre stage during the pandemic. So much so, that anything and everything that has immunity booster written on it is running off the shelves real quick. However, heightened immunity can be achieved at home without too much efforts.

Eating a handful of almonds every day can do the job for you. Almonds are a source of 15 nutrients such as magnesium, protein, riboflavin, zinc, etc. In addition to this, they are also high in vitamin E, which acts as an

antioxidant to support pulmonary immune function. Vitamin E is also known to offer protection against infections caused by viruses and bacteria. It also helps prevent cold. Alternatively, you can soak five-six almonds overnight and have them as the first thing in morning.

## DEALING WITH DOUBLE TROUBLE

On the occasion of World Asthma Day, MUSBA HASHMI speaks with doctors to tell you how one can manage the disease during Corona and what to do if one is unsure whether he is experiencing an asthma attack or COVID symptoms

Breathlessness, chest tightness and coughing, does these sound like COVID symptoms to you? Most probably, yes. However, the fact of the matter is that all these symptoms echo with asthma too.

While it is hard to identify whether a person is having an asthma attack or COVID because the patients are now presenting with newer symptoms, experts say that asthma patients should continue with their medications.

"People feeling breathless may sometimes confuse between Covid symptoms and an asthma attack. The major symptoms seen nowadays in Covid positive patients are breathlessness instead of fever or any other common Covid symptoms such as sore throat, headache, cough etc. In such a situation it is best to use the inhaler so the asthma attack can be managed. In case of asthma patients having contracted Covid, inhalers and bronchodilators as well as other medications should be continued as per schedule. Nebulisers are again very useful in handling Covid induced bronchospasms. Asthma patients can easily use nebulization, with or without steroids, to help alleviate chest congestions and pressure," Dr Sandeep Nayar, Senior Director & HOD, Chest & Respiratory Diseases, BLK-MAX

Super Speciality Hospital, tells you. Respiratory viruses can trigger and worsen asthma symptoms and if a person has uncontrolled asthma, they may develop or face severe Covid symptoms. Uncontrolled asthma can mean that there will already be inflammation in the lungs and airways will be compromised so in many cases Covid may even lead to pneumonia, fibrosis (thick and stiff lung walls) or other intense respiratory diseases. "All asthmatics need to be compliant with their regular medications. Covid virus can also cause flare up of asthma in addition to

## Things to keep in mind

- If you've recently recovered from an acute Covid infection, delay getting the vaccine until you're fully recovered and done with self-isolation and quarantine measures
- Also, if you had the infection after receiving the first dose of vaccine, then wait at least 1 month after recovery before getting the other dose
- If, along with asthma, you also have other conditions causing immune deficiency like HIV or cancers, consult your doctor before getting the vaccine
- Do not step out of home. If unavoidable, wear a double mask while going out
- Quit smoking as it can be very dangerous for patients with asthma or other respiratory illnesses
- Avoid outdoor exercises, focus on breathing exercises, and doing yoga indoors
- Take prescribed medicines and inhalers. Keep necessary medicines stocked up
- Eat a healthy diet rich in nutrients and proteins. Avoid eating out and foods rich in oil
- Take steam twice daily to avoid chest congestion
- Keep anxiety and stress levels as low as possible

**In case of asthma patients having contracted Covid, inhalers and bronchodilators as well as other medications should be continued as per schedule**  
— Dr Sandeep Nayar

causing pneumonia. Hence, early medical advice should be sought in case of symptomatic deterioration," Dr Arunesh Kumar, Senior Consultant & Head Respiratory Medicine/Pulmonology, Paras Hospital, says.

Nayar adds that all asthma patients above 18 years of age must get vaccinated to prevent the deadly implications of the virus even if they get infected.

"Vaccination will not just help in protecting from the virus but will also help reduce the severity of the symptoms. However, those having had an immediate or severe allergic reaction to the vaccine or any of its ingredients, must consult their physician," Nayar says.

Many people don't consider asthma as a serious condition, however, asthma compounded by other infections can increase the risk. An important aspect for all patients is to know the triggers so one can keep away from them and be protected from another attack.

"Identify your triggers. If dust causes problem, try and keep your surroundings dust free. Maintain proper cleanliness at all times. At such a time, when differentiating between COVID and asthma attack has become a task, it is advisable that you are on optimum guard and eliminate anything and everything that can aggravate asthma," Dr. Deepak Verma, Internal Medicine, Columbia Asia Hospital, Ghaziabad, explains.

## TRACK THE PROGRESSION

The second wave of COVID-19 has reported a surge in moderate to severe cases. DR ISRARUL HAQUE tells you how one can monitor the progression of the disease

The second wave of COVID-19 has been characterised by a sharp spike in cases that has overwhelmed the healthcare system in India. Scenes depicting patient and attendants waiting for tests, oxygen and medicines have become common these days. The only solution is to fight back.

The first important observation during this time is that vaccinated people seem to be protected against severe form of the disease. Except a few rare cases, the vaccinated people have mostly recovered well. In addition to this, the infection rate among vaccinated people does not appear to be significantly lower than unvaccinated people. Third, vaccination doesn't provide absolute protection against infection or reinfection. This makes it clear that all citizens need to follow guidelines like wearing of masks, regular hand washing/use of sanitisers and social distancing norms. Fourth, the proportion of people with moderate or severe disease appears to be higher as compared to previous years pandemic. This too has overburdened the healthcare system. Fifth deterioration of patients in second week (from symptom onset) has been reported frequently. The most frequent deterioration has been reported from day seven to day 12 of symptom onset. Deterioration includes rapid decline in oxygen saturation level, markedly increased breathlessness overnight, chest pain, appearance of high grade fever after few days of being afebrile etc. Sixth, though elderly people and people with comorbidities appear to be at higher risk of adverse outcomes but severe disease isn't infrequent among healthy unvaccinated adults.

The picture appears to be gloomy. What can be done at this stage to minimise the loss of lives? Here are a few basic facts that are essential to manage the ongoing pandemic. The first part focuses on what can be done at home. The first step involves classification of disease severity at home. First, anybody testing positive for Covid-19 by rapid antigen kit or RT-PCR needs to isolate himself and monitor his oxygen saturation. Person with oxygen saturation of 94 per cent, 90 to 94 per cent and less than 90 per cent at room air are considered to have mild, moderate and severe disease respectively. These needs to be monitored at least four times a day till two weeks are completed or the person is completely symptom free. Second, we need to identify factors which predict the progression to moderate and severe disease. One important test which can be done at home itself is measuring pulse rate regularly along with oxygen saturation. If the pulse rate is persistently more than 100 on repeated measurement and oxygen saturation drops by more than five per cent on walking for six minutes then there are higher chances of progressing to moderate and severe disease. High Resolution Computed Tomography scoring is informative of disease severity too if it is done on day six of symptom onset.

By following the basic precautions and getting vaccinated will help us beat the virus. The writer is Consultant Physician, Department of Medicine, Patna Medical College, Patna and is also functioning as Nodal Officer of COVID-19 Ward PMCH, Patna

## DadiKaKehna

*Pearly white teeth and picture perfect smile is on everyone's bucket list. ROSHANI DEVI shares simple and easy to follow home remedies that can help*

Dazzling white teeth is a dream of many. Everyone wants to get rid of yellow teeth for that perfect smile. Of course, one can visit a dentist but that will fall heavily on your pocket. Here are home remedies for the same. Most homes have baking soda and yes, it can be used for almost anything — from cleaning toilets to getting rid of that stain in your favourite dress or shirt to even whitening the teeth.

Take two-four teaspoons of baking soda and add lemon juice to make a paste. Depending on the amount of baking soda, the added liquid will differ.

Apply a liberal amount onto the toothbrush and brush teeth for two minutes. Repeat the process a few times a week or until the desired results are achieved. Believe it or not rinsing the mouth with coconut oil for whitening is age-old. Prior to brushing your teeth, use a spoon to scoop an appropriate amount of coconut oil up. Take one-and-a-half table-spoon of coconut oil and put it into your mouth. Like the mouthwash, swish the liquid around for 10-15 minutes. Spit out the oil and then brush teeth. Repeat as necessary.

## TB care is need of the hour

India accounts for over 27 per cent of the world's 10.8 million TB cases. Experts throw light on the ailment and talk about the role of community and survivors

TB has killed more people in history than any other infectious disease. Mycobacterium Tuberculosis continues to ravage communities and societies across the globe since its emergence 9000 years ago. India bears disproportionately large burden of the global TB incidence, accounting for over 27 per cent of the world's 10.8 million TB cases. This burden is further exacerbated as India also is a leading country for people with multiple drug-resistant forms (MDR-TB) that do not respond to commonly used medicines and aggravate mortality.

Multiple factors contribute to the growing rates of TB: Tuberculosis is a social disease. The under-privileged are disproportionately affected due to poor living conditions, malnutrition and access to healthcare. Stigma leads to underreporting and ostracization within the

community and the workplaces. The long treatment period leads to poor compliance, and the chronic nature of the disease leads to rising mortality.

"The severity of the epidemic has led to a host of TB control initiatives in the country with the Government committed to eradicating TB by 2025. We have made great strides in TB care. The scaling-up of diagnosis and treatment and an efficient system has saved millions of lives. However, while these successes are commendable, there remain gaps, such as the medicalised perception of TB, that need to be addressed. For too long, the focus has been on diagnosis and treatment of disease, with minimal attention to supportive services, making TB redressal a challenge," Dr Dalbir Singh, President, Global Coalition for TB, says.

TB is a multifaceted issue involving society, gender, and

inequalities. Viewing it through a solely medical lens hinders our opportunities for patient care. A TB patient's first interface with a medical service is often an unfamiliar hospital environment, where a heavy emphasis on technical knowledge and treatment procedures reinforces the patient's growing anxieties. A large part of making TB services accessible involves demystifying the disease. While counselling services ensure that patients are adequately sensitised regarding their illness, these are still centralised facilities that are inaccessible for many. We need to move towards decentralised patient-centric approaches that serve to reduce the burden on marginalised communities.

"While we work towards making TB care more accessible, we must also consider the experiences of those affected by TB. Often, programmes are designed from a position of expertise that

fails to account for the needs of those the programme aims to benefit. There is a glaring absence of the patient's voice in our TB control initiatives and a subsequent lack of understanding of the patient experience. The voices of those affected by TB matter because they break through pre-existing perceptions and provide real experiences and needs of those that have survived TB. There is a need for a sustained effort focused on benefiting them, easing their experiences, empowering them and making them the voice for change," Dr Rajeev Gowda, Former Rajya Sabha member, adds.

The fight against TB requires the combined effort of many sectors. The pandemic has shown us that it is possible to tackle such diseases if we work together and that there is much to be learned from the COVID-19 response.

# UPGRADE YOUR OFFICE

Decor can influence how productively you work from home, says RAGHAV GUPTA

With Covid-19 impacting us like never before, most of us are spending more time at home. Working from home, around the same environment, can become a mundane task. Along with work stress, being locked up at home, can impact us majorly. Changing the set up at home can increase our productivity as what we see and interact with directly influences our well-being.

A home office that inspires creativity is easy. It is also a great way to utilise quarantine time. Here are three basic tips which you can play around with and also infuse with your personal style.

Use bright colours as these help you stay awake and alive while keeping lethargy away. An accent piece is a great way to add a fun element to your space. Stress can sneak up on you but the good news is that you can keep the levels

down by simply using the right colours in your home. You might not even notice it, but your body and mind react to colours. For 2021 Pantone hasn't chosen one but two colours of the year — the neutral 'ultimate grey' together with a lovely yellow called 'illuminating'. This mix of colours conveys a message of strength and hopefulness that is both enduring and uplifting. Practical and rock solid but, at the same time, warming and optimistic, this union is one of strength and positivity. As grey is a neutral, soothing shade, hints of yellow can bring in a bright element that your space would be happy to have.

Working from home is the norm for plenty of professionals, but for some of us, we're just getting in the groove of working remotely for the first time. As we get used to that work-from-home life, it's important to rearrange your home work space in an organised way

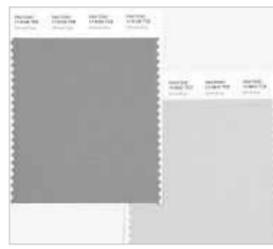

that will keep you focused on your daily tasks with all the essentials you need. To help you upgrade your new work station, avoid getting too cosy or comfy, invest in a good office chair, a desk and, maybe, then add a fashionable cushion to go along with the arrangement. WFH can get boring and it's here to stay, so keep changing your cushions every month or so as these can add a new look to your home-office every month.

Last, keeping your surroundings

clutter-free can change the entire game. With fewer distractions around, your eyes will remain focused on tasks at hand. It's essential for your productivity — and your mental health — to keep your workspace organised. It may seem like a daunting task, but the incentive to start organising is undeniable.

—The author is director of e-commerce of an Indian brand of handmade rugs and accessories that are exported to over 90 countries across the world

Shweta advocates sustainable fashion

Actress Shweta Tripathi encourages sustainable fashion for the sake of the environment. "I am a big advocate of sustainable fashion and I think if one is conscious of the environment, they'd always choose ethical clothing over anything else. Right from thrift stores to second-hand shopping, I'd like to encourage people to indulge in these practices and make a difference," Shweta said.

The actress treats her clothes with a lot of love and care to ensure they are not torn or damaged.

"The problem is that everyone thinks someone else will save the world. It's time to be that someone. If we all do our little bit, the world will be in a better place. I'd also like to tell people that even when it comes to sourcing for shoots, we try our best to cut down on new things," she added.

In her new web-series, the thriller *Escapade Live*, Shweta wears her own footwear. "For my character in *Escapade Live*, I'm wearing my own footwear as opposed to buying new ones because if there's something that already fits, I think it's really unnecessary to purchase new ones," she said.

—IANS

## Look good, feel great

Were you always curious about the secrets that beauty experts personally use? Here are some pro tips from SHAHNAZ HUSAIN

Beauty is a matter of cultivating some good habits to last you a lifetime. Here are some tips that I swear by to give you that extra edge:

Remember to cleanse your face every night, removing make-up and pollutants that are deposited during the day. I use an aloe vera and lemon cleanser for normal to dry skin. Glowing skin that is free from blemishes is the result of daily, appropriate cleansing.

Remove all creams, like cleansing creams, nourishing creams, under-eye creams with moist cotton wool, so that there is no moisture loss. Moist cotton doesn't

absorb moisture from the skin.

Moisture and protection are the life of skin, especially in winter, to keep the skin soft and smooth. Sun-exposure also causes moisture loss. Use sunscreen or sun-block before going out in the sun. Choose high SPF for sun-sensitive skin, while SPF 25 would suit most skins. Use a sunscreen gel for oily skin. When you are at home, apply moisturiser.

I have normal to dry skin. So, I apply nourishing cream at night, after cleansing, massaging it on the face with outward and slightly upward strokes. I include the neck in my massage routine and wipe off cream with moist cotton

wool before bedtime.

Use a facial scrub for blackhead-prone, oily skin at least twice a week. Avoid scrubs on pimples, acne or rash, as well as very dry, dehydrated skin. It can deplete both oil and moisture, causing flaking of the skin. For normal skin, a scrub may be used once a week.

Use a face pack at least once or twice a week. I use a face pack daily. It consists of herbal powder and seaweed lotion, mixed with yogurt, honey and egg white. If your skin is oily, apply it more often. Packs help to deep cleanse the skin and tighten it, delaying ageing signs. The Shahnaz Husain Home Pack suits all skin types.

Keep your hair clean and never neglect shampooing the hair. It is very vital to your hair looking its best and staying healthy. Use mild herbal shampoo and hair rinse. After washing the hair wrap it in a towel and allow it to soak up moisture. Avoid rubbing the hair. Avoid brushing wet hair. Use a wide toothed comb.

—IANS

According to National Eating Disorders Association, the International No Diet Day on May 6 encourages the rejection of diet culture. This movement, started by Mary Evans Jones in 1992, celebrates the importance of body acceptance, diversity, and respect for all body shapes and sizes.

The day is dedicated to promoting a healthy lifestyle with a focus on health at any size. It aims to educate people about the right way to diet and not feeling guilty about indulging once in a while; create an acceptance of how your body looks and its uniqueness; and to end weight discrimination.

Nutritionist, sports consultant, psychologist Shweta Bhatia, who is among the few dietitians recognised by the Indian Dietetic Association, Mumbai, shares her thoughts on the day's importance that may make you rethink your approach to dieting culture.

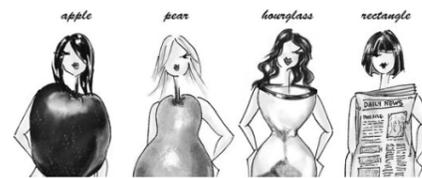

"We must respect people of all sizes and their unique battles with body shaming and weight loss. However positive body image in no way should be an excuse for quitting and remaining unhealthy. As humans we do have a psychological association with food. This can reach unhealthy proportions in the form of emotional eating," Bhatia says.

She emphasises, "Shooting for unrealistic body types is harmful. The focus should be on health and fitness rather than a certain size or number on the scale. Shape is largely determined by your genes. So is the tendency to store fat and build muscle in certain areas. Even when you begin to lose

## In diversity we trust

Despite thin being equivalent to fit in popular culture, an ideal body type is a misnomer

fat, it leaves areas that were never meant to store it first," she says.

With major celebs in her list of clients, Bhatia, 43, is a well-known name in the fitness and nutrition field. She says: "A fit body always looks good. Aesthetics is the by-product when you have more muscle and less fat. Spot reduction does not work. When you exercise, it is working the muscle rather than burning the fat sitting above it. Fat burning is

targeted through the diet. A diet is a combination of nutrients your body needs on a daily basis to survive, repair and adapt. Being on a diet therefore means doing the right things most of the time in line with your health and fitness goals. Going off the diet then means letting go once in a while in a way that it does not throw you off the wagon."

Finally, she advises: "Stop obsessing over calories and consumed and burnt. Exercise

is for improving fitness, not trying to cancel out cheat meals. Calorie burning is the bonus and not the goal of the exercise program. The caloric value of foods is measured in a controlled environment in a lab. But in your body, your hormones and enzymes decide how these calories are released and used.

All calories are not equal. Foods with similar calories take different pathways once digested and their fate depends on our hormones. Calorie counting without paying attention to quality and quantity of nutrients does not make sense, even within a calorie deficit plan. You may lose weight but healthy weight loss means less fat mass while gaining or maintaining muscle."

## TRENDBLAZER

### COMFORT THE CHILD: MADHAVAN

Actor **R MADHAVAN** says it's important for people to explain the ongoing situation to children. "In all this chaos, uncertainty, and stress please spare a thought for the young kids at home. Their world has become frightening and they are being mostly neglected. Explain to them what's happening and make sure that they feel comforted and secure," he said. The actor makes his directorial debut with *Rocketary: The Nambi Effect*, based on the life of scientist and aerospace engineer S Nambi Narayanan.

### fairtalk

DEEPIKA PADUKONE

As millions of us (me and my family included) strive to stay afloat, let us not forget that our emotional well-being in this current crisis, is equally important! Remember, You Are Not Alone. We are in this together. And most importantly, there is HOPE!

### dailytalk

ANUSHKA SHARMA

I would like to appeal to everyone to unite and support our country in this hour or crisis. Virat and I are coming together to do our bit. We will share the details soon so that you can also become part of this movement. Remember, we are all in this together. Guys, please stay safe and take care of yourself.

### VICTORIA ON HOME SCHOOLING

**VICTORIA BECKHAM** spoke about how she spent her lockdown with David and their children. "When lockdown first happened, the schools were closed and we said the priority had to be the children. The most important thing was to sit and watch movies with the kids and cuddle them. I appreciate teachers so much more, home schooling is no joke. I can run a business, I can sit in a board meeting, but home schooling the kids is really, really tough."

# Covid bursts IPL bubble

## KKR-RCB match postponed after Varun Chakravarthy, Sandeep Warrier test +ve; CSK non-playing staff which includes bowling coach Balaji also caught up

PTI ■ NEW DELHI

A Covid-19 outbreak left the star-sprinkled IPL on tenterhooks as Kolkata Knight Riders' Varun Chakravarthy and Sandeep Warrier tested positive for the dreaded virus, forcing postponement of their game against Royal Challengers Bangalore, while cases also came to light in the Chennai Super Kings camp.

The match, which was to be held in Ahmedabad on Monday evening, will be rescheduled some time later during the tournament, which will conclude on May 30.

"Varun Chakravarthy and Sandeep Warrier were found to be positive in the third round of testing in the last four days. All other team members have tested negative for Covid-19," the league, which features the biggest names in International cricket, said in a press release.

Apart from this, Chennai Super Kings CEO Kasi Viswanathan, bowling coach Lakshminath Balaji and a bus cleaner with the contingent tested positive on Sunday.

A top BCCI official, after declaring all three cases to be "false positives", later clarified that Balaji along with the unnamed cleaner had come out positive even in the repeat test.

"Three members of CSK contingent, CEO Kasi, bowling coach L Balaji and a bus driver had tested positive in the morning following by negative Rapid Antigen test report," the source said.

"However second RT-PCR report found Balaji and bus driver positive again. The others in

Kolkata Knight Riders spinner Varun Chakravarthy

@KKRiders

the team especially playing members have tested negative," he added.

CSK, currently based in Delhi, suspended their training for the day and are scheduled to face Rajasthan Royals on May 5. The team had been hit by Covid cases even in the 2020 edition which was held in the UAE.

There was cause of concern in Delhi too as a few groundsmen at

Monday's developments have definitely cast a shadow on how the Covid-19 threat would be managed for an event being staged across six venues — two at one time.

Leg-spinner Chakravarthy and pacer Warrier, both 30, have been isolated and the rest of the KKR contingent has returned negative reports for now. Of the two, Warrier has not yet made the playing XI in any of the seven matches KKR have played.

"The Medical Team is in continuous touch with the duo and are monitoring their health. Meanwhile, the Kolkata Knight Riders have now moved towards a daily testing routine to identify any other possible cases and treat them at the earliest," the IPL stated.

"The Medical Team is also determining the close and casual contacts of the two positive cases during the 48 hours prior to collection of the sample that returned the positive test results," it added.

KKR last played on April 29 against Delhi Capitals in Ahmedabad and the development is bound to trigger anxiety in the league, which had been going along smoothly so far in a bio-secure bubble in front of empty stands.

"Now, the DC players (currently in Ahmedabad) will also have to be tested and every member of the team contingents that came in contact with Chakravarthy and Warrier will also be contact traced through the app watch that has been given to everyone," a BCCI source said.

According to IPL's Standard Operating Procedure for Covid-19 management, any close contact

## Balaji's +ve test inside bubble puts Delhi IPL games in fix

New Delhi: Chennai Super Kings bowling coach Lakshminath Balaji testing positive for Covid-19 has left the BCCI in a fix about the next few IPL games in Delhi after postponement of Monday's evening match between Kolkata Knight Riders and Royal Challengers Bangalore in Ahmedabad.

While the entire KKR team has gone for a six-day hard quarantine, starting Sunday, after Varun Chakravarthy and Sandeep Warrier returned positive, Balaji, who is a regular feature in the CSK dug-out has gone into isolation after returning with two RT-PCR positives on Monday.

"Balaji's positive report is certainly a cause of concern although the CSK players have tested negative. But normally, a lot of people start showing symptoms from the fifth or sixth day. There are discussions whether it is safe to go ahead with the next two matches in Delhi," a senior BCCI source told PTI. While DCCA president Rohan Jaitley told PTI that he hasn't been informed about any re-scheduling.

Since KKR team is doing everyday testing with six days of hard quarantine, many believe that the same rule should be applicable for CSK also before they play their next match. PTI

of an infected person has to isolate for six days and return three negative tests on days 1, 3 and 6.

It is learnt that KKR's pace spearhead Pat Cummins revealed the latest development to all the Australian players in the IPL after Chakravarthy, while undergoing some shoulder scans for a niggle after Thursday's game, tested positive for the virus.

Chakravarthy has appeared in all of KKR's matches so far and been one of their most successful players with seven wickets under his belt.

KKR and CSK had clashed on April 21 in Mumbai. IPL had dealt with positive

cases before the tournament started, including some high-profile names like Axar Patel and Devdutt Padikkal.

However, this is the first instance of positive cases in the middle of the tournament.

"The BCCI and the Kolkata Knight Riders prioritise the health and safety of everyone involved and all measures are being taken in that endeavour," the IPL stated.

Foreign players, who were already anxious about getting home with travel restricted from India, are edgier right now. But franchises would prefer the league to continue with necessary safeguards.

### MEETING IN IPL 2021

Mumbai Indians beat Sunrisers Hyderabad by 13 runs in Chennai

248

Jonny Bairstow with 248 runs at an average of 41.33 in seven innings, is the highest run-getter for SRH in this edition of IPL

99

Jasprit Bumrah will become the sixth player to complete a century of matches for Mumbai Indians.

need support from Krunal, who has just three scalps. However, there are problems aplenty for SRH.

They are over-reliant on their top-order, especially Jonny Bairstow (248 runs), but their middle-order has faltered most often.

Against RR, they dropped Warner and opened with Manish Pandey and Jonny Bairstow, with Williamson coming in at three. If they persist with the same line-up, the three need to fire on all cylinders.

Also, the likes of Vijay Shankar (58 runs), Kedar Jadhav (40 runs), Abdul Samad (36 runs) and Mohammed Nabi (31 runs), if he plays, will have to get some runs for the side to have any chance of building a momentum.

On the bowling front, star leg-spinner Rashid Khan has been the pick of the bowlers with 10 wickets but pacers Bhuvneshwar Kumar (3 wickets) and Khaleel Ahmed (4 wickets) would need to find their form too.

## 'There's no going back now'

PTI ■ NEW DELHI

Players, especially overseas recruits, are feeling edgier following the emergence of two Covid-19 cases in the Kolkata Knight Riders camp on Monday but teams feel "there is no going back" and the IPL should continue despite the ever-increasing threat of the raging pandemic.

Questions are being raised on how a strict bio-bubble created for the world's biggest T20 league was breached after KKR's Varun Chakravarthy and Sandeep Warrier got infected with the deadly virus.

Foreign players, who were already anxious about getting home with travel restricted from India, are a more worried lot.

"There is no going back now with half of the tournament done. The news (positive cases in KKR) makes the BCCI's job more challenging," a franchise official said.

"We have been hearing that

a player got infected because he was taken outside the bubble for scans. So, it could have happened outside the bubble. As far as I know, everyone is strictly following the protocols laid out by the BCCI and there was no breach there," he added.

Another team official said the tournament should continue as long as more teams are not affected by the virus.

"Even if you have to pause the tournament, how long can you hold back? The only way is to keep isolating the positive cases and keep playing. The players are naturally more anxious now but it is mainly because they are not sure about how they would get back home," said the official.

UK, Australia and New Zealand have banned travellers from India and a sizable number of players competing in the IPL are from these countries.

"We should let the BCCI decide what is best for all of us.

Flooding them with too many opinions on what should be done following the cases at KKR would only lead to more confusion," said another top official of a team.

Five-time winners Mumbai Indians were already testing their players on a daily basis and other teams are likely to follow that in the wake of cases at KKR.

KKR players have been told to isolate in the room and even teams like Delhi Capitals have told its players and support staff to stay in their rooms after the development on Monday.

The two sides played each other four days ago.

"Following the news, we have been told to stay in our rooms and strictly follow the protocols. The players are fully aware that the situation outside is grim and the IPL bio bubble is a much safer environment at this point in time," said a support staff member of a leading franchise.

## No charter flight for Aussies at this moment: Hockley

PTI ■ MELBOURNE

Cricket Australia currently has no plans to arrange a charter flight to bring its players back home from Covid-19-ravaged India once the IPL gets over, its chief Nick Hockley said on Monday.

Hockley insisted that Australian players are feeling safe and secure in the IPL bio-bubble but his comments came before it emerged that two KKR players have tested positive for the dreaded virus.

Mumbai Indians batsman Chris Lynn had recently requested Cricket Australia to arrange for a charter flight for Australia players after the tournament concludes on May 30.

"There's no suggestion at the moment of any charter flight," Hockley told Melbourne radio station SEN. "We're working closely and talking closely with the Australian Cricketers' Association, with the players and with the BCCI to make sure everyone's okay and the people have got full information."

"We've been in touch with the players there and they are generally in good spirits. The work the BCCI has done around the (bio-secure) bubble means they are feeling safe and secure, and those we've talked to are generally planning to complete their playing commitments."

The Cricket Australia boss said they are monitoring the situation and a decision will be made but not immediately.

"The BCCI have come out and said they understand and want to support the players in making sure they get home safely at the end."

"The tournament doesn't finish until the 30th of May, so for the moment it's monitor the situation and as we get closer to the end of the tournament we'll need to see where the situation is at," he said.

## Slater lambasts Aus PM

New Delhi: Cricketer-turned-commentator Michael Slater, who is currently doing commentary in the IPL here, has launched a scathing attack on his country's Prime Minister Scott Morrison for not allowing its citizens to return from Covid-19 hit India, calling the travel ban a "disgrace".

Australia has shut its borders and not allowing any commercial flights from India because of the massive Covid-19 surge here which has led to all the players, support staff and commentators, who might have wanted to leave the IPL in a fix.

"If our Government cared for the safety of Aussies they would allow us to get home. It's a disgrace!! Blood on your hands PM. How dare you treat us like this. How about you sort out quarantine system. I had Government permission to work on the IPL but I now have Government neglect," Slater tweeted.

Threatening a five-year jail term or hefty fine, the Australian Government temporarily barred its citizens from entering the country if they happened to be in India within 14 days of their intended arrival. PTI

**CA to donate AU\$ 50K to support India**  
Cricket Australia on Monday pledged 50,000 Australian dollars to support India's fight against the devastating second wave of the Covid-19 pandemic and will also raise more funds in partnership with its players' association and UNICEF. The funds raised by CA will be donated to UNICEF Australia, which will utilise it in various relief initiatives in India.

**Cummins allocates donation to UNICEF Aus**  
KKR Australian pacer Pat Cummins on Monday said he has allocated his \$50,000 donation to UNICEF Australia's India Covid-19 Crisis Appeal, a week after pledging the amount to PM CARES Fund.

**'Warner's days with SRH coming to end'**  
South African fast bowling great Dale Steyn said that David Warner's days with SunRisers Hyderabad may be coming to an end after he was removed as captain and dropped from the team for their match against Rajasthan Royals. "It's strange that he isn't a part of the playing eleven. It's understandable if they want to change ownership of captaincy for the next season, and keep Kane (Williamson) there. But David is still a phenomenal batter and I would still keep him in the eleven. But this might be the last time we see Warner in the Orange Army," Steyn told ESPNcricinfo.
