Vijayan, Stalin stop BJP in its tracks

Praful Krashan: seasoned poll strategist who revived Mamata's fortunes after LS setback

Andhra govt postpones Inter exams

PNS / HYDERABAD
The TDP's victory has not only dealt a stinging blow to the BJP, but also to the TMC, whose chief minister Mamata Banerjee had announced on national TV in late March that she would step down. With the TMC's loss, the state is likely to enter a leadership vacuum, with the BJP and TDP emerging as the main contenders for power.

YSRCP gets thumping majority in Tirupati bypoll

The YSRCP's victory in the bypoll is a significant win for Chief Minister Jagan Mohan Reddy and the party, which had earlier suffered a setback in the 2019 elections. The party had hoped to win the seat with a comfortable margin, but the result was much closer than expected.

The win is also a boost for the YSRCP's national ambitions, as the party seeks to establish itself as a major player in national politics.

Jagan's resolve to rely solely on his 2-year-old ruled yields positive results

With the TDP's victory in the bypoll, the party has solidified its position as a major player in national politics, and has emerged stronger from the election. The party's victory is seen as a sign of its growing popularity, and is expected to boost its chances in the upcoming general elections.

Andhra Pradesh: TDP's vote drop; Robbin's strategy fails

The TDP's vote share was significantly lower than in the previous election, and the party's candidate's strategy did not work as expected.

In his last campaign for the by-poll, Robbin Reddy of the TDP had claimed that he would win with a comfortable margin. However, the result showed a significant drop in his vote share.
BJP faces roadblock in its Andhra strategy

In a series blow and minor setback to BJP which seems to be facing a prolonged battle to mobilize its statesmen, the party has lost the support of two key Andhra Pradesh leaders. The loss has come as a shock to the party leadership that had been counting on the support of these leaders to win the Lok Sabha elections.

The two leaders who have deserted the BJP are Choudhury Sharma and Raja Harish Chandra, who were closely associated with the party during its previous tenure in power. Both leaders had been instrumental in the party's victory in the 2014 general elections.

Official warns stern action against hospitals treating patients without permission

Ps. V. SAVANNAH

The TDP chief commended the CM, Raghu Raghunath Reddy, for the achievement of the All India East Indra package of the West Bengal Assembly and asked the waiting patients to write to Minister for the DMK in the Tamil Nadu Assembly. The chief also expressed his appreciation for the team that has been working in the field for bringing the gold. The TDP leader thanked the people for their patience, hard work, and dedication.

Vijayawada cops crack 10 kg gold theft; worker held

Ps. VIJAYAWADA

Vijayawada city police on Sunday arrested a worker for stealing 10 kg gold from a shop.

The police said the theft occurred at a shop in the city's Tadigadapa area. The shop owner had reported the incident to the police, who launched a probe.

The police said the suspect, a 30-year-old worker, was arrested after he was found in possession of the stolen gold.

The man had allegedly taken the gold from the shop and sold it to a jeweller in the city.

The police said they had seized the gold from the suspect and were investigating further.

They added that the suspect would be produced before a court.

Vijayawada police on Saturday arrested a man for attempting to sell a 10-karat necklace to a jeweller.

The police said the man, aged 35, was arrested after he tried to sell a necklace to a jeweller in the city.

The police said he had taken the necklace from a shop and was trying to sell it to the jeweller.

They added that the necklace was recovered and the man would be produced before a court.

The police said they were investigating the case further.

Cigarette leaves 18 in an office infected with Coronavirus

Due to one cigarette, 18 persons contracted COVID-19 in a tall building.

A security guard who was smoking in an office corridor triggered an outbreak of COVID-19. The guard was smoking in a corridor of a building in the city when he spat on the floor. The saliva landed on the floor and spread to other parts of the office. The office was then sprayed with disinfectant.

The guard later tested positive for COVID-19.

Private bus operators cancel services due to losses

Ps. VIJAYAWADA

The private bus operators have decided to cancel services due to losses. They said they were unable to recover their costs and were facing financial difficulties.

Moreover, the operators said they were facing difficulties in attracting passengers due to the increasing cost of diesel and the COVID-19 pandemic.

The operators added that they were also facing difficulties in attracting passengers due to the increasing cost of diesel.

The operators said they were forced to cancel services due to losses and the increasing cost of diesel.

They added that they were also facing difficulties in attracting passengers due to the increasing cost of diesel.
COVID-19: A humane agenda for action

For a while, it seemed India had won the battle. While the pandemic was giving way to reopening, and the lockdowns were winding down, life seemed to be returning to normal. But the virus, with its cunning and deceptive nature, had other plans.

The true extent of the impact of this pandemic is only now beginning to be fully understood. The number of fatalities has been soaring, and the healthcare system is struggling to keep up with the demand. The virus has hit the poor and marginalized the hardest, with hospitals and clinics turning away patients due to a lack of resources.

The current situation mandates a comprehensive national strategy with state-specific adaptations. The pandemic has shown us that no single institution or country can fight this battle alone. We must work together, with a strong safety net for the vulnerable, to ensure uninterrupted supply of essential medicines, and to finance the cost of production and distribution of vaccines.

The logistic system needs to be streamlined to ensure unobstructed supply of essential medical essentials and vaccines. The national task must finance the cost of production and distribution of vaccines and medical essentials, and child and women development programmes.

The vaccination programme must finance the cost of production and distribution of vaccines and medical essentials, and child and women development programmes.

Congratulations pour in for Mamata, Stalin

The TMC’s victory in West Bengal, the NCP’s win in Maharashtra and the DMK’s triumph in Tamil Nadu have been celebrated across India. Here’s a list of some leaders congratulating Mamata and Stalin:

**Primary Task of New TMC Govt will be Health System**

**Kejriwal:** As the TMC is set to return to power in West Bengal, the Shiv Sena president congratulated Mamata Banerjee and the TMC for their victory in the state assembly elections. “I am also pleased that our leader Banerjee ji and the leader of TMC have emerged victorious. I am also pleased about Banerjee’s victory in her state. She has proved that the high-profile leaders can be defeated,” Kejriwal said.

Despite the state assembly elections, Kejriwal also extended his best wishes to Mamata Banerjee. “I wish Mamata ji and her team all the best for the upcoming state assembly elections,” Kejriwal said.

**Shiv Sena chief to meet Mamata**

**Rajnath Singh:** The Ministry of External Affairs on Sunday said it is in continuous touch with the government of West Bengal to ensure that water, oil and medical supplies reach the state immediately in the wake of the TMC’s win.

Rajnath Singh, who is in continuous touch with the government of West Bengal, said he was happy to hear about the victory of the TMC, which the party is running in West Bengal along with the Left Front. “The TMC’s victory is the victory of democracy in India, and I congratulate all of you,” Singh said.

The ministry said it was in continuous touch with the government of West Bengal and the state government to ensure that water, oil and medical supplies reach the state immediately.

**NCP chief congratulates Mamata, Stalin on victory**

**Sharad Pawar:** The NCP chief, who is also the Congress leader in the Maharastra Assembly, congratulated Mamata Banerjee and Stalin on their victories.

“Congratulations to TMC, Mamata Banerjee and the TMC leaders on their victory in West Bengal. The TMC has also won in Maharashtra. The victory of democracy in India is an important victory for the people of this country,” Pawar said.

The NCP chief also extended his best wishes to Mamata Banerjee. “I wish Mamata ji and her team all the best for the upcoming state assembly elections,” Pawar said.

**Congress leader lauds TMC’s victory in Bengal**

**Firhad Hakim:** Assam Chief Minister Firhad Hakim on Sunday said the primary task of the new government would be to put the state’s “derailed health system back on track”, amid the ongoing coronavirus pandemic.

Hakim said that the new government would focus on putting the health system back on track, amid the ongoing coronavirus pandemic. He said that the new government would focus on putting the health system back on track, amid the ongoing coronavirus pandemic.

**Dharamvir Mirzapur**

**Jitendra Singh:** The Union Health Minister also extended his congratulations to the TMC on its victory in West Bengal.

“I congratulate TMC on its victory in the West Bengal assembly elections. The victory is a testament to Mamata ji’s leadership and the hard work of the TMC,” Singh said.

Singh also congratulated Mamata Banerjee on her victory in the state assembly elections.

**Chandrakant Patil**

**Chandrakant Patil:** By & large, the TMC’s victory in West Bengal has been welcomed by the Congress.

“On hearing the news of the TMC’s victory, I had a rush of saline intravenous fluids,” senior Congress leader Capil Ray said.

**CM to meet Mamata**

**CM Mamata Banerjee:** The TMC chief, who is also the chief minister of West Bengal, said she was happy to hear about the victory of the TMC, which the party is running in West Bengal along with the Left Front.

Banerjee’s win in her state is the third time. This will be the victory of common people.

Lurching from one crisis to another, the Oil-led unfocused Govt has lost the plot both in and on the foreign policy front.

A common element in Nepalese politics has been the absence of any concrete foreign policy agenda. Neither the COPV nor the KPs have ever focused on foreign policy. While Nepal is well aware that a country cannot set a good example anywhere if it is not seen to be following its own foreign policy,

The Association has announced the Sankhali Saghar (Sagarmatha) Dialogue, which is a multi-stakeholder dialogue forum to deliberate on the prominent issues of global, regional and national significance. The first Sankhali Saghar Dialogue was held on April 2

The Nepal government has often requested Nepal to give a second thought to blind-eyeing the Oceanographic surveys. In the same coin, and they require proper institutional frameworks on Mount Everest, forest mismanagement, and the Oli-led Government has used it as an excuse to allow the tourists to use Mount Everest for commercial purposes.

What is happening in India is a clear political manifestation to seek appeasement for political benefits. At the time of Indo-China relations with the international community.

While India, as the world's largest democracy, has often far removed from national and regional security issues, it has been agitated its diplomatic endeavors. Nepal is struggling to find its place in the world of global politics. While Nepal set a similar course, to have any political leverage.

The million-dollar question is how many months later, in no way comforting. The million-dollar question is how many months are more than 65 years old. What an uphill task lies ahead can be gauged by the fact that the last phase of the anti-COVID inoculation drive for all adults sput.

Cue the patients who were on ventilators. It is really shocking to read that at least 18 people off. We have become beggars, asking for more than we can afford to lose, do we?

It is not only the shortage of medical supplies and now the world, in a recipro-

The problems that India has.

In a relatable narrative, dozens of countries have cut links to save face, has assured the people that the campaign on Mount Everest, forest mismanagement, and the Oli-led Government has used it as an excuse to allow the tourists to use Mount Everest for commercial purposes.

The devastation caused by the COVID-19 pandemic has rekindled the sense of nationalism in the Indian society an awareness security supplies to India, which will allow it to make 1,000 refillable oxygen cylinders, 15 million medical ventilators, 700,000 oxygen concentrators, 20 million oxygen tents, 200,000 individual ventilators.

With India, the most powerful nation in the world, it is the self-centred Oli saw no tick-
Mizos clament for closure so that the burden of ‘Zoram Day’ and life in PFVs can be relieved. Closure and acknowledgement will weave the seeds for a deep reconciliation in the future

H

enghlish town became synonymous with the steep "Zoram Day" on January 29, as the Mizo people protest against the long years of  ____1____ late in life, 1989, he put together the  ____2____ years, for the sake of economic gain. He was one of the leaders who had funneled huge amounts of funds to the government. He was a cousin of the former Chief Minister, and was involved in several illegal activities. Despite the charges against him, he managed to escape justice.

Mizos can no longer bury their history. They want to talk about it. Many elders want to forget it. But he goes on to say: "This is the story of a long drawn but often visible in the history of Mizoram. But the younger generation of Mizos, who were born after the bombings of 1966, want to celebrate it. They want to remember it. They want to keep it alive. They want to learn from it. They want to be proud custodians of one of the last remnants of a true ecosystem community of the Mizo people."

The future of democracy in Mizoram is in the hands of the younger generation. They have the power to shape the future of their country. They can choose to forget the past, or choose to remember it. They can choose to bury their history, or choose to celebrate it. They can choose to live in peace, or choose to fight for their rights. They can choose to be a part of the solution, or choose to be a part of the problem. The future of democracy in Mizoram is in their hands. Let us hope that they choose to remember.

GYNEVER DUYRE

Waste, on the other hand, can be a source of renewable energy and job opportunities. In the plains and lowlands of Mizoram, there are many villages where the sun shines brightly for most of the year. This solar energy can be harnessed to generate electricity and power the community. Additionally, the government has introduced policies to support the growth of small-scale industries, which can help create employment opportunities in the region. These industries can focus on the production of eco-friendly products and services, which are increasingly in demand around the world.

There are also opportunities for the Mizo people to engage in conservation efforts. The state government has recently introduced a program to promote the planting of trees and the restoration of degraded land. This initiative can help improve the local environment and provide economic benefits to the community. The government has also established a fund to support research and development in the field of renewable energy. This fund can be used to support projects that demonstrate the potential of renewable energy in Mizoram.

---

HARBHajan SINGH

As the world gears up to set key climate goals at COP26, India must take a lead in global climate action. India is one of the countries most affected by climate change, with rising temperatures and sea-level rise posing a serious threat to the country’s economy and people. India is also one of the largest emitters of greenhouse gases, contributing significantly to the global climate crisis.

The Indian government has taken several steps to address climate change, including the introduction of the National Action Plan on Climate Change (NAPCC) in 2008, and the National Green Corps (NGC) in 2018. These initiatives aim to achieve the country’s climate goals, including a 33% reduction in greenhouse gas emissions by 2030.

However, despite these efforts, India still needs to do more. The government must invest in renewable energy, promote energy efficiency, and adopt cleaner technologies. The private sector must also play a role in driving the transition to a low-carbon economy.

India must also work with other countries to address climate change. The country must support the Paris Agreement and the UN Framework Convention on Climate Change (UNFCCC). It must also work with other countries to develop new technologies and financing mechanisms to help developing countries mitigate the impacts of climate change.

India must also continue to support international efforts to address climate change, including the ongoing climate negotiations. The country must also work with other countries to address the challenges of adaptation and resilience.

India must also work to ensure that its climate actions are equitable and just. The country must ensure that its climate actions do not disproportionately affect the vulnerable and marginalized communities. It must also work to ensure that its actions are consistent with the principles of equity and justice.

India must also work to ensure that its climate actions are sustainable. The country must ensure that its actions are consistent with the principles of sustainable development.

India must also work to ensure that its climate actions are transparent and accountable. The country must ensure that its actions are consistent with the principles of transparency and accountability.

India must also work to ensure that its climate actions are inclusive. The country must ensure that its actions are consistent with the principles of inclusion and participation.

India must also work to ensure that its climate actions are resilient. The country must ensure that its actions are consistent with the principles of resilience and adaptability.

India must also work to ensure that its climate actions are robust. The country must ensure that its actions are consistent with the principles of robustness and sustainability.

India must also work to ensure that its climate actions are effective. The country must ensure that its actions are consistent with the principles of effectiveness and efficiency.

India must also work to ensure that its climate actions are impactful. The country must ensure that its actions are consistent with the principles of impact and outcomes.

India must also work to ensure that its climate actions are transformative. The country must ensure that its actions are consistent with the principles of transformation and change.

India must also work to ensure that its climate actions are aspirational. The country must ensure that its actions are consistent with the principles of aspiration and inspiration.

India must also work to ensure that its climate actions are inspirational. The country must ensure that its actions are consistent with the principles of inspiration and motivation.

India must also work to ensure that its climate actions are innovative. The country must ensure that its actions are consistent with the principles of innovation and creativity.

India must also work to ensure that its climate actions are creative. The country must ensure that its actions are consistent with the principles of creativity and originality.

India must also work to ensure that its climate actions are original. The country must ensure that its actions are consistent with the principles of originality and uniqueness.

India must also work to ensure that its climate actions are unique. The country must ensure that its actions are consistent with the principles of uniqueness and individuality.

India must also work to ensure that its climate actions are individual. The country must ensure that its actions are consistent with the principles of individuality and personalization.

India must also work to ensure that its climate actions are personal. The country must ensure that its actions are consistent with the principles of personalization and individualization.

**Exports jump to $30.21 bn in Apr; trade deficit widens**

India’s exports in April jumped to $30.21 billion, nearly a third higher than the $23.21 billion recorded in April 2020, but imports also surged to $26.9 billion, nearly 26% higher than a year ago, taking the trade deficit to $6.69 billion.

India’s merchandise exports in April were 50.9% higher than the same month of 2020, according to data released by the commerce and industry department.

Finance minister Nirmala Sitharaman said, “India’s exports in April jumped to $30.21 billion on account of healthy growth in sectors including engineering, gems and jewellery and pharmaceuticals.”

The monthly data showed that the country’s merchandise exports increased to $27 billion in April from $17.6 billion in the same period last year.

The country’s merchandise imports, on the other hand, were up to $26.9 billion in April from $21.4 billion in the same period last year.

**Key observations**

- **Exports:**
  - India’s total merchandise exports in April increased to $30.21 billion from $23.21 billion in April 2020, led by a surge in non-oil and non-thermal exports.
  - Engineering exports, and those of chemicals, pharma and gems and jewelry contributed to the overall growth.
  - Exports of other goods, including industrial products, increased by 50.9% compared to the same period last year.
  - Engineering exports rose 55.5%, chemicals 46.7%, pharma 83.5%, and gems and jewelry 89.4% year-on-year.

- **Imports:**
  - India’s total merchandise imports in April increased to $26.9 billion from $21.4 billion in April 2020.
  - Imports of non-oil and non-thermal goods also rose 26% year-on-year.
  - Engineering imports rose 37.6%, chemicals 17.8%, pharma 15.7%, and gems and jewelry 62.7%.

**Comments**

- Indian foreign trade minister and commerce and industry minister Piyush Goyal said, “India’s exports in April jumped to a record $30.21 billion, growing 50.9% year-on-year. This is the highest ever growth in exports in a single month.”
- Government data showed that the country’s total exports have crossed $30 billion for the fourth straight month, continuing the upward trend observed since January 2021.
- “This is the highest ever monthly growth in exports in 2021, topping the $23.21 billion recorded in April 2020 by a wide margin. India is once again asserting its global leadership in the face of the unprecedented global pandemic," Goyal said.

**MONEY MATTERS**

India’s coal import likely to be subdued in coming months

India’s coal import is likely to be subdued in coming months after increasing in April, following higher demand in the country, said a report published earlier this week.

**Govt appoints T Ravi Sakran as new RBI deputy governor**

The government has appointed T Ravi Sakran as deputy governor of the Reserve Bank of India (RBI).

**Exports of engineering, electrical products and other goods rose multifold in April**

Exports of engineering, electrical products and other goods rose multifold in April, with machinery, electrical and other products registering a jump of around 28.6% in April 2021 compared to the same month last year.

According to data released by the commerce and industry department, exports of machinery jumped to $49.7 billion, nearly 28.6% higher than the $39 billion reported in April 2020.

Exports of electrical and electronic products increased to $11.4 billion in April, nearly 29.5% higher than the $8.8 billion reported in April 2020.

**What's brewing?**

**Indian Idol 12: Manoj Muntashir apologises for ‘factual error’ regarding Shammi Kapoor**

Manoj Muntashir, lyricist and screenwriter and a judge on Sony TV's singing reality show ‘Indian Idol 12’, has apologised for a factual error committed in the 34-second-long clip, which was part of the performance by singer Gippy Grewal. In the episode, the duo performed for songs from the film ‘Tumko Chaahunga’, written by Muntashir himself, and also for creating the Hindi dialogue for ‘Backstreet 2’ and ‘Black Friday’. In the 34-second-long clip, Grewal interpreted an anecdote according to which Kapoor applied sindoor to the parting between her hair to consummate her marriage. While talking to Rauf Ahmed for his book ‘Shammi Kapoor: The Game Changer’, Kapoor had said, “When we reached the temple at the crack of dawn, Gopi (in the by-tv-strangled voice of Hanaa-b Toolbar: 1.3.2) gave me a hint and was right, and I was excited. I said, ‘What’s brewing? Unjabi singer and actress Anjali recorded the song ‘Goenda’ for a film to be released in the next 5-6 months. In a statement that she released, but her family said it was not immediately death was not immediately

**Olympia Dukakis, Oscar-winning Moonstruck star, dies at 89**

Dukakis died Saturday morning in her home in New York. It is according to her husband, actor Louis Zorich, husband of actress Olympia Dukakis, the 1986 film ‘Moonstruck’, starring Cher took home the trophy for best actress while Dukakis, her Oscar in the role of Cher took home the trophy for best supporting actress.

**Hugh Jackman shares Deadpool fan’s ‘advice’ for Ryan Reynolds**

When asked when he’d lost his head, Deadpool star Hugh Jackman said, “I couldn’t help but notice the similarity between Ryan Reynolds and myself in the film ‘Deadpool’.”

Jackman, who is best known for playing the adamantium-clad superhero Wolverine in the X-Men films, said that he was flattered to have been included in the film. He also joked that he would blow the box office collections.

**Singer Gippy Grewal held for flouting curbs, released later**

Singer Gippy Grewal was held for flouting curbs, released later after talking about the anecdote, Muntashir went on to say that Shammi Kapoor had also committed a factual error in the film. "I don't know if it's a factual error or not, but I know that I should have done more research before writing the dialogue," he said.

**REGARDING ANOJ MUNTASHIR**

**APOLLOGISES FOR “FACTUAL ERROR”**

Sometimes fan do commit mistakes. I don’t show up in the name of a song or even a film. I have always been a die-hard fan of Shammi Kapoor and have always loved his work. And I am sorry for any unintentional. I apologize about a fan's 'advice' for Ryan Reynolds. However, I would like to clarify that I never meant to hurt anyone's feelings. I am a huge fan of Deadpool and Ryan Reynolds, and I have nothing but admiration for his work. I am very sorry for any confusion or distress that may have been caused. Please know that my intention was never to mock or belittle anyone. I am truly sorry for any hurt that may have been caused. Thank you for understanding. Please continue to support Deadpool and its cast and crew.”

**Tale of the City in the upcoming film Star vs. Tower”**

The upcoming film “Star vs. Tower” is based on the novel “Tale of the City” by Armistead Maupin. The film is directed by Tim Burton and is set to release in 2023. The film stars an ensemble cast including Meryl Streep, Annette Bening, and Whoopi Goldberg. The film is produced by a television series from 2000 to 2018, played in the role of the now Disney-owned Marvel Entertainment, and Reynolds often puts on a display of a superhuman display of power. "I'm pretty sure Deadpool is the longest career as a comic book character,” he said.” Deadpool’s next project is expected to be a live-action Marvel superhero for web series in Ludhiana.”
Firstly, it saves me the burden of counting out any disadvantages that are tied up instead of buying fresh. With online shopping amid the covid pandemic, Fresh n' Fruity's FTH Daily, the subscription-based e-grocery app, with its service spread across Hyderabad, Bangalore, and Pune, has revealed exciting e-grocery trends! Shoppers say that online grocery shopping has come a skill in itself. For instance, several people mentioned that they forgo buying fresh fruits and veggies. While shoppers are used to getting bank offers, extra discounts, and special deals on electronics and furniture during the festive season, there are no such offers for foodstuffs. It is interesting to see how people are coming out of this disadvantage. For instance, it saves me the burden of commuting and secondly, it's much convenient. I don't have to stand in long queues at the stores and the billing amount gets deducted from my account. How easy is that! There's an unlimited list of items that are segregated so well that one can just keep on adding to their cart without breaking a sweat — saves a lot of time.

Come to think of it, the only hitch I can think of, is that the stores are very limited online, so I end up having to visit the local store. There is always a risk that the perishable goods are getting bad quality and the billing amount gets deducted from my account. How easy is that! There's an unlimited list of items that are segregated so well that one can just keep on adding to their cart without breaking a sweat — saves a lot of time. The best part about online grocery shopping amidst the pandemic is that you can get everything as fresh as possible and there's someone assigned to pick up your items! You don't have to go out on those unprecedented times — the patient at the platform will not be able to get the clinic orders approximately per month across Hyderabad, Bangalore, and Pune.”

The world around us is transitioning to an era of digitalization and technology. It was also discovered that 56% of wallet exchanges were through mobile phone as per the report by FTH Daily has enabled the vendors to place the orders on a daily basis and ensure maximum nutritional value. It is successfully making urban India come forth. The survey also reveals that 76% of people in the age and time at which couples should seek help, and the circumstances and types of treatments available to patients. Dr Foulke pointed out that other couples think there are no concrete determinations when they should seek medical help, but that is not the case. It is important for couples to understand that the age factor is very important, irrespective of the treatment being received. But the doctors have been advised not to get married. If the patient is above 35 years of age and has been trying for over six months, un成功antly, she should seek assistance. If she is over 35 or 38 years, she should consider it after trying for three months. The rest of the couples should be advised that if they are after a year of trying with a normal unprotected intercourse, they should consult a doctor. Taking risks and having it knocked out of the bed is not a good idea. If she is over 35 or 38 years, she should consider it after trying for three months. The rest of the couples should be advised that if they are after a year of trying with a normal unprotected intercourse, they should consult a doctor. Taking risks and having it knocked out of the bed is not a good idea.

**MAHESH-TRIVIKRAM BACK AFTER 11 YEARS, FILM TO RELEASE IN 2022**

Mahesh Babu and Prabhas are set to team up again for a film directed by Trivikram Srinivas. The duo had last worked together on Prabhas’ film ‘Radhe Shyam’, which received critical acclaim in 2021. The new film, titled ‘Mahesh Trivikram’, is being produced by Dil Raju under his banner ‘Vijay Megastar MAA Creations’. It is all set to release in the summer of 2022.

**Thank You Europe shoot halted?**

Naga Chaitanya and Venkatesh Daggubati are reportedly facing issues related to the shoot of their upcoming film ‘Thank You’. According to reports, the shoot of the film has been delayed due to the rapid spread of COVID-19 in the UK, where the film is being shot. The team had to halt the shoot temporarily to ensure the safety of the cast and crew.

**Pradeep Machiraju’s father no more**

Pradeep Machiraju, a prominent figure in Telugu cinema, lost his father due to health issues. Pradeep is one of the most respected directors in Tollywood and is known for his impressive work in the film industry. The loss is a great shock for the family and friends of Pradeep Machiraju.

**Venky Kudumula to assist Trivikram again**

Successful director Venky Kudumula has been offered to assist director Trivikram Srinivas for the actor Mahesh Babu’s upcoming film. Kudumula earlier worked with Trivikram on Mahesh Babu’s ‘Geetha Govindam’, which became a massive hit. The team is currently gearing up for the release of ‘Mahesh Trivikram’, which is set to release in summer 2022.

**KATRINA KAIF TO ROMANCE PRABHAS?**

Bollywood superstar Ranveer Singh has revealed that he would love to work with Prabhas in a future project. Singh, who is known for his roles in films like ‘Gunday’ and ‘Bajirao Mastani’, is a close friend of Prabhas and the duo has previously worked together in the film ‘Dil Dhadakne Do’. Singh’s statement has sparked speculation about a potential collaboration between the two actors.

**Biggies block dates for Sankranthi, summer 2022**

It is no news that the Tollywood film industry is currently gearing up for the much-anticipated Sankranthi season. With several big-budget films already announced, the industry is set to witness a festival of blockbuster films. Here are some of the biggies that are all set to release during Sankranthi 2022:

- Prabhas’ ‘Radhe Shyam’
- Mahesh Babu’s ‘Sarkaru Vaari Paata’
- Jr NTR’s ‘RRR’
- Mahesh Babu’s ‘Babu’s 28th project’
- Venkatesh Daggubati’s ‘NTR 30 Rojullo’

This festival of films promises to be an exciting one for film lovers who are looking forward to the release of their favorite stars in action-packed thrillers and romantic dramas.
