Centre to revisit ₹8L cap on EWS quota in NEET PG

Panel will review in 4 weeks, Govt informs apex court

PNS NEW DELHI

The Centre is all set to revisit the upper limit of income fixed for determining the Economically Weaker Section (EWS) category for reservation in NEET admissions for post graduate medical courses.

The Centre on Thursday told the Supreme Court that it has taken a considered decision to revisit the limit of ₹8 lakh annual income criteria in four

Solicitor General Tushar Mehta told a bench of justices DY Chandrachud, Surva Kant, and Vikram Nath that the Government will set up a committee to revisit the criteria within four weeks.

Mehta said that NEET (PG) counselling would stand postponed for a further four weeks as per assurance earlier given to the court.

The top court was hearing a batch of pleas filed by the students challenging the Centre and Medical Counselling Committee (MCC) July 29 notice providing 27 per cent reservation for Other Backward Class (OBC) and 10 per cent

for EWS category in the National Eligibility cum Entrance Test (NEET-PG) admissions for medical courses for the current academic

Justice Kant said that the EWS quota is a very enabling and progressive kind of reservation and all States should support the Centre in its endeavour. The bench said that the only question is that the determination of the category should be in a scientific

manner and it appreciates that the Centre has taken a decision to revisit the criteria earlier

Senior advocate Arvind Datar, appearing for petitioners (students), said since a lot of time has passed and the Centre should push back implementation of the EWS quota for the next academic vear and the current year counselling should be allowed to go

The bench agreed with the

Mehta whether it could push the implementation of the Constitutional amendment for the next academic year and allow the counselling to go on

for the current academic year. Mehta said that the Government has taken a decision to implement the 103rd Constitutional amendment from the current academic year and pushing back would

not be appropriate.

He said that if the determination is done earlier than four weeks then it will inform

The bench told Datar that four weeks is not unreasonable and it doesn't want to push the Government to do it earlier otherwise the criteria would be fixed in an unscientific and haphazard manner.

Shashank Advocate Ratnoo, appearing on behalf of some OBC candidates, requested that the application of reservation to OBC students should not be deferred as the Centre is planning to revisit the EWS

The bench said that it has not said anything about OBC students and is not disposing of the petition. It then recorded the submission of Mehta and posted the matter for further nearing on January 6.

Alarm over deadly Covid variant in SA

Variant most mutated version of Coronavirus

PNS NEW DELHI

Even as many countries in Europe and elsewhere reel under the multiple surges of the Covid-19 waves, British experts have sounded alarm over a new deadly Covid variant believed to have emerged in "Botswana" in South Africa. The variant is the most mutated version of the virus till now, according to a news report.

South Africa last year detected the Beta variant of the virus although until now infection numbers have been driven by the Delta variant, which was originally detected in India. The new variant found in

Botswana carries 32 mutations, many of which are highly transmissible and vaccine-resistant, and has more alterations to its spike protein than any other variant, the report said.

Only 10 cases of the strain, which could eventually be named "Nu", have been detected so far. But it has already been spotted in three countries, suggesting the variant is more widespread. There are no cases in India, but a senior official from the Union Health Ministry said that they are keeping a watch on the new

19 at the Lancet Laboratories in Johannesburg

development.

News agency IANS quoted Professor Francois Balloux, a geneticist at University College London, saying that new variant might have emerged in a lingering infection in an immunocompromised patient, possibly someone with undiagnosed AIDS, the report added.

Changes to the spike make difficult for current jabs to fight off, because they train the immune system to recognise an older version of the virus.

Dr Tom Peacock, a virologist at Imperial College who first picked up on its spread, described the variant's combination of mutations as "horrific", the report added.

He warned that B.1.1.529, its scientific name, had the potential to be "worse than nearly anything else about", including the world-dominant Delta strain.

Scientists told MailOnline,

Noida airport will become logistical gateway of north India, says PM

Earlier Govts ignored development of western UP: Modi

Prime Minister Narendra Modi on Thursday laid the foundation stone for Noida International Airport (NIA), paving the way for Delhi-NCR to become the first megapolis in India to have two civilian airports for commercial flights by October 2024.

The airport at Jewar — which will ensure "uttam suvidha" in Uttar Pradesh — will begin its journey with one runway and a terminal to handle 1.2 crore passengers annually at an investment of ₹5,730 crore. The ruling BJP will showcase the NIA as its one of the major achievement of the Yogi Adityanath Government in the State. Uttar Pradesh will go to polls next year.

Speaking at the occasion, Modi hit out at the Opposition,

Prime Minister Narendra Modi during the foundation stone laying ceremony for the Noida International Airport at Jewar in Gautam Buddha Nagar district on Thursday. UP CM Yogi Adityanath is also seen

saying the airport is an example of how the earlier Governments in Uttar Pradesh and at the Centre ignored development of the western part of the State.

"But it is now getting what it always deserved and is making its mark internationally under a double-engine BJP rule," Modi said, adding that the Noida International Airport

will become the logistical gateway of north India, and will have direct connectivity to a dedicated freight corridor.

Delhi House panel summons Kangana for Khalistani post

Committee on Peace and Harmony to look into anti-Sikh plaints **STAFF REPORTER** ■ NEW DELHI

Pelhi Legislative Assembly's Harmony on Thursday summoned film actress Kangana

A statement by the panel headed by MLA Raghav Chadha reads as "The Committee has received multiple complaints eliciting outgreensly offensive and descent rageously offensive and deroga-tory Instagram stories/posts allegedly published by Kangana Ranaut, the film actress, on her official Instagram Account namely @kanganaranaut. According to the complainants, the stories published by Kangana Ranaut on her Instagram account which has a massive reach and is being followed by around 80 lakh of people worldwide, specifically illustrates the instances which hurt the religious sentiments of the Sikh community and has a tendency to disturb the peace

and harmony of the society." Significantly, the com-

plaints stated that Kangana Ranaut has allegedly labelled the Sikh Community as "Khalistani terrorists" which has led to unbearable humiliation for people from Sikh Community but has also led to apprehensions regarding their safety, life and liberty in their minds. The complaint men-

2021, Ranaut had posted a story which read as "Khalistani terrorists may be arm-twisting the Government today.... But let's not forget one woman...The only woman prime minister *ne* innko apni jooti ke neeche crush much suffering she caused to this nation... she crushed them like mosquitos at the cost of her own life.... Lekin desh ke tukde nahi hone diye even after decades of her death... aaj bhi uske naam se kampte hain yeh.... Inko vaisa he guru chahiye..."

According to the complainants, these statements purportedly posted by Ranaut has caused immense agony, distress and gravely hurt the religious sentiments of the people from Sikh community, thus potentially leading to a situation of disruption of peace and harmony in the NCT of Delhi by allegedly disrespecting the entire community and purportedly instigating threats to the life and liberty of the people from the aforesaid community. s

Milestone! Driverless train in Delhi Metro

Globally 4th in this category
PNS NEW DELHI

In yet another milestone for the Delhi Metro, Union Minister for Housing and Urban Affairs Hardeep Singh Puri and Delhi Transport Minister Kailash Gahlot on Thursday flagged off the first driverless train operation on the 59-km Pink Line of Delhi Metro via video conferencing. "With 97 km of stretch

under driverless operations, Delhi Metro is now globally the 4th service provider in that category, just marginally behind Kuala Lumpur. In less than one year, we are opening the second driverless train operation on DMRC network. Delhi Metro can be compared with the best in the world," Puri said.

"I have been told metro in

Delhi Metro Pink Line after its virtual flagging off ceremony, in New Delhi on Ranjan Dimri I Pioneer

Kuala Lumpur stands at the third position globally in terms of driverless train operations network at a little over 97 km. With Magenta Line and Pink Line adding to 97 km of stretch under driverless operations for the Delhi Metro which is the fourth globally, just marginally behind the capital of Malaysia," he added.

Reverses its earlier order, asks States to

provide for workers from collected cess

PNS NEW DELHI

The Supreme Court on Thursday re-imposed the ban on construction activities in Delhi and National Capital Region (NCR) and directed the States to provide subsistence to workers from the funds collected as labour cess for the period during which such activities are prohibited.

The special bench headed by Chief Justice NV Ramana, in an interim order unleaded.

in an interim order uploaded Wednesday night, also directed the commission for air qual-

ity management in the NCR and adjoining areas to "commission a scientific study of air quality based on available data of previous years bearing upon recorded levels of air pollution". "We direct that instead of

action under the graded response plan, necessary measures must be put into place in anticipation of a deterioration of air quality. For this purpose, it is necessary for the commission to engage expert agencies with domain knowledge in meteorological data and statistical modelling," said the bench also comprising justices DY Chandrachud and Surya Kant.

waiting for the air quality to

deteriorate before initiating

Asking the commission on pollution and Delhi-NCR States — Delhi, Uttar Pradesh, Haryana, Punjab and Rajasthan to continue with their measures to curb the spike in pollution, the bench reversed the decision to allow construction activities from November 22 in view of the improved ground

"In the meantime, as an interim measure and until further orders, we re-impose the ban on construction activities in the NCR, subject to follow-

situation in air pollution level.

ing two conditions. Non-polluting activities relating to construction such as plumbing work, interior decoration, electrical work and carpentry are allowed to be continued," the bench said. The States shall use the

funds which have been collected as labour cess for the welfare of construction workers to provide them subsistence for the period during which construction activities are prohibited and pay wages notified under the Minimum Wages Act for the respective categories of workers," the order said.

Opp to boycott Constitution Day function

PNS NEW DELHI

Opposition parties from the Congress to the Trinamool Congress to the Left will boy-cott Friday's Constitution Day function at Parliament's Central Hall where President Ram Nath Kovind will address, in protest against Narendra Modi Government's "trampling upon" the Constitution. Besides the Congress, other

parties that will not send MPs for the programme are RJD, DMK, CPI(M), CPI, RSP, Kerala Congress and Muslim League among others.

The Congress took the decision to skip the function at a meeting chaired by Sonia and attended by Mallikarjun Kharge. This is the second time that the Opposition is boycotting the November 26

YAMUNA CLEANING CELL TO BE SET UP **DJB CEO to lead river** cleaning work: Kejriwal

STAFF REPORTER ■ NEW DELHI

Delhi Chief Minister Arvind Kejriwal on Thursday approved the formation of the Yamuna Cleaning Cell (YCC) to expedite inter-departmental decision making and execution of projects for cleaning the heavily polluted Yamuna river in the city. The cell will be in the city. The cell will be headed by the Chief Executive Officer (ČEO) of the Delhi Jal Board (DJB) - Udit Prakash Rai and will have representatives of all the departments concerned.

"In order to expedite interdepartmental decision making and execution, we formed a Yamuna Cleaning Cell (YCC) today, headed by CEO, DJB and representatives of all concerned depts. This will expedite the Yamuna cleaning process," Kejriwal tweeted.

In a high-level review meeting, Kejriwal approved the formation of a cell where senior officials including Chief Secretary Vijay Kumar Dev were present. "As a responsi-ble Government Yamuna Cleaning is our priority at this stage. We have to work upon this issue with the same mindset and seriousness that we had

while transforming the education sector and the healthcare sector in the last term. There can be no compromises with the prioritisation of Yamuna Cleaning and Water Supply in

They have to be our highest priorities," Kejriwal said, adding, " a complex system of multiple bodies is a challenge. To overcome this, we are formulating a Yamuna Cleaning Cell that will oversee the working of all the bodies. It will help us in identifying and delegat-ing responsibility and streamline our projects. For instance, if an issue is being faced because of the Electroplating Industries or some other polluting works, the Yamuna Cleaning Cell would have to take care of that."

The Yamuna Cleaning Cell

has been formulated keeping in mind an integrated approach for Yamuna Cleaning. The Cell will consist of six senior officials of the DJB, DUSIB, DSI-IDC, DPCC and I & FC Department looking after Sewerage of JJ Clusters and Industrial Clusters, CETPs, industries violating pollution norms, Yamuna cleaning projects and in-situ treatment. These officers will report to the DJB CEO. These officers will also be responsible for the execution of the decisions taken by the Yamuna Cleaning Cell.

Protests to mark one year of farmers' agitation today

IANS NEW DELHI

Massive protests on Friday in Delhi, and other places, will mark one year of what the farmers called as "historic struggle" to demand repeal of the three contentious farm

The farmers' movement had begun with a call of 'Dilli Chalo' on November 26-27 last year not just protesting the three farm laws but also putting forth several other demands.

The Samyukta Kisan Morcha (SKM), a consortium of 40-odd farmers' organisations, said in a release: "The fact that such a long struggle has to be waged is a clear reflection on the insensitivity and arrogance of India's Government towards its toiling citizens.'

"Over the course of twelve months of one of the largest and longest protest movements across the world and in history, crores of people took part in the movement which spread to every state, every district and every village of India," SKM

A meeting of Samyukta Kisan Morcha will be held on November 27 at Singhu Morcha. In the meeting, the farm unions will take a decision regarding the further course of action, the release said.

After an announcement by Prime Minister Narendra

Security personnel at the Ghazipur border ahead of the 'Kisan Mahapanchayat' on the first anniversary of the farmers' agitation, in Ghaziabad on Thursday

Modi last Friday to repeal the three farm laws, the cabinet had on Wednesday approved its repeal and also said the formality in the Parliament will be done at the earliest.

Stating that apart from the Government's decision and Cabinet ratification of repeal of the three anti-farmer laws, the movement achieved several victories for the farmers, common citizens and the nation at large, the SKM statement said: The movement created a sense of unified identity for the farmers, cutting across regional, religious or caste divisions, farmers are discovering a newfound sense of dignity and pride in their identity as farmers, and their assertion as citi-

It has deepened the roots of democracy and secularism in

The SKM expressed its deep appreciation to all the participants and supporters of the movement, and reiterated once again that the repeal of the three anti-farmer laws is only the first major victory of the movement.

"SKM is awaiting the fulfillment of the remaining legitimate demands of the protesting farmers," it said.

The still-pending demands of the 'Kisan Andolan' include legal right for MSP on all agricultural produce, withdrawal of Electricity Amendments Bill, keeping farmers out of penal provisions of legal regulation related to Delhi air quality, withdrawal of cases against thousands of protesting farmers and dismissal and arrest of Ajay Mishra Teni, the MoS Home, in connection with the Lakhimpur Kheri incident.

Delhi riots: HC seeks fresh status report with details from cops

PNS NEW DELHI

The Delhi High Court on Thursday directed the Delhi Police to file a detailed affidavit giving the latest status of criminal cases arising from the riots that broke out in the national capital in February 2020. The latest update of the cases pending before the trial courts were sought by a bench headed by Chief Justice DN Patel after it was informed that as on October 4, charges sheets have been filed in 361 out of 758 cases and charges have been framed in 67 of them.

The bench, also comprising Justice Jyoti Singh, was hearing a batch of petitions concerning the last year's violence and alleged hate speeches by leaders which led to violence in the backdrop of protests against the Citizenship (Amendment) Act. "We direct the respondent (Delhi Police) to file a further detailed affidavit giving details of cases pending before the trial courts," the court stated as it noted the present affidavit was not on its record and posted the next hearing on January 28.

In its affidavit filed in October, Delhi Police said that while charges are yet to be framed in 287 cases, 4 FIRs have been quashed by the High

The police informed that the legal process in all pending cases is at an advanced stage

Court. The police informed that the legal process in all pending cases is at an advanced stage and while two cases have resulted in the discharge of accused persons, one has wit-

nessed acquittal. "Out of 758 cases registered, 695 cases are being investigated by North-East District police. 62 cases that pertained to major incidents like murders etc were transferred to the Crime Branch, which had

undertaken an investigation

in the said cases by employing 3 dedicated Special Investigating Teams (SITs), being continuously monitored by the superior officers. One case of larger conspiracy behind the engineering of the communal riots in Delhi is being investigated in Special Cell," the affidavit stated.

green campaign

 N_{a}^{ew} Delhi: Air pollution is a serious issue in Delhi. DU forms committee for recommendations on next year's admission process

PTI ■ NEW DELHI

The Delhi University (DU) has formed a committee, which will give recommendations for the admission process next year after analysing this year's admission data, according to a senior university offi-

The formation of the committee comes in the backdrop of a large number of students, particularly cent-per-cent scorers from Kerala, getting admission to the DU.

The committee was formed last month and it has already held a couple of meetings. It is likely to submit its report by next month. The committee is headed by De (Examinations) DS Rawat.

"The mandate of the com-

mittee is to analyse the admission data and the trends and based on that, suggest recommendations for next year's admission process," Rawat told

Last month, the DU had dismissed allegations of favouritism towards state boards and said it maintains equity to all meritorious candidates coming not only from Indian states but also from abroad", amid a large number of students from Kerala state boards getting admission to the university in the first cut-off list. According to data shared by the DU, there were

4,824 applicants from the Kerala Board of Higher Leaders from two other Secondary Education in the first cut-off list and most of them had scored perfect marks.

Opp to boycott Constitution Day function

From page 1

In 2019, the Opposition boycotted the Central Hall function and assembled near Ambedkar Statue in Parliament House complex where leaders, including Congress president Sonia Gandhi, read the Preamble of the Constitution in protest against the swearing in of Devendra Fadnavis as Maharashtra Chief Minister in an early morning coup.Constitution on a "single day" while it was disrespecting it every other day.

Opposition parties said the MPs were informed about the function very late and just through bulletins and several were not aware of it "Actually, the government

should have organised Constitution Protection Day instead of Constitution Day celebrations," said Rajya Sabha member from RJD Manoi Jha According to a government statement, the President would lead the celebrations of Constitution Day as part of the 'Azadi ka Amrit Mahotsav' programme. Vice President M Venkaiah Naidu, Prime Minister Narendra Modi and Lok Sabha Speaker Om Birla would speak at the function.

Milestone! **Driverless train ...**

From Page 1

The Pink Line, which connects Majlis Park to Shiv Vihar was made functional in 2019, a small stretch between Mayur Vihar pocket-1 and Trilokpuri-Sanjay Lake stations was stuck due to land acquisition and rehabilitation issues. However, due to the Covid-19 pandemic operations of the Delhi Metro were severely affected. That stretch was inaugurated in August this year, making Pink Line the longest single Metro corridor in Delhi, spanning 59 kilometres.

Currently, only the Magenta Line has trains operating without any manual intervention - in UTO (Unattended Train Operation) mode. The driverless train operations on that route - India's first - were inaugurated by Prime Minister Narendra Modi on December 28 last year.

Alarm over deadly...

From Page 1 They said there was 'no need to be overly concerned

because there were no signs yet that it was spreading rapidly.

Three infections have been detected in Botswana to date

and six in South Africa where variant surveillance is more robust.

One case has also been spotted in a 36-year-old man in Hong Kong who recently returned from the continent, the report added.

In Britain there have been no cases so far, but the UK Health Security Agency, which took over from the Public Health England, said it was monitoring the situation close-

revisit ₹8L...

Centre to

From Page 1 On October 21, the top court had asked the Centre whether it would like to revisit the limit of rupees eight lakh annual income fixed for determining the EWS category for reservation in NEET PG admissions.

The top court had clarified that it is not embarking into the policy domain but is only trying to ascertain whether Constitutional principles have been adhered to or not. It was annoved as no affidavits were filed by the Ministry of Social

Justice and Empowerment and the Department of Personnel and Training (DOPT) and formulated questions to be answered by the Centre in a It has asked the Centre

whether any exercise was undertaken before fixing a limit of Rs 8 lakh annual income for determining the EWS category and whether Major Gen (retd) SR Sinho commission report of 2010 was considered before ascertaining the criteria.

Major Gen (retd) SR Sinho commission was constituted by the UPA Government in 2010 and has recommended welfare measures for the EWS category, including reserva-tion to them. The Centre had

said that the commission's report was one of the basis for determining the criteria but after that several deliberations were held and other factors were also taken into account.

It had asked the Centre to respond to a question that since the income limit of determining the creamy layer in OBC category and EWS is the same Rs 8 lakh, whether it would be arbitrary to provide a similar income limit for EWS and OBC. The bench said that as per the explanation in the 103rd Constitution amendment the criteria for EWS will be notified by the

State Governments, then how can the Centre notify a uniform EWS criterion for the whole of the country.

Noida airport will become...

From Page 1

The construction of this airport comes just weeks after the Prime Minister inaugurated the Kushinagar international airport in Uttar Pradesh to boost the country's aviation sector. Another international airport is presently under-construction in Ayodhya.

Addressing a gathering in the poll-bound State, Modi asserted that infrastructure is "not politics for us but part of national policy". "We are making sure that the projects do not get stuck, do not keep hanging.. we try to ensure that the infrastructure work is completed within the stipulated time," Modi said. In an apparent dig at the Opposition, Modi said some political parties in the country have always kept their self-interest paramount. 'The thinking of these

people is self-interest, their own development and that of their family," Modi said.

"Whereas, we follow the spirit of Nation First... Sabka Saath - Sabka Vikas, Sabka Vishwas - Sabka Prayas is our mantra," Modi said while targeting the Opposition.

He said for the first time in seven decades, Uttar Pradesh has started getting what it has always deserved. "With the efforts of the double engine Government, today Uttar Pradesh is turning into the most connected region of the country," Modi said.

Further stating that UP has become a focal point for investments by multinational companies, the PM said the State will have five international

Taking a dig at previous Governments in UP and at the

Centre, he said Uttar Pradesh, which the previous Governments kept in deprivation and darkness, to which they showed false dreams, that same state is now making a mark not just nationally but

also internationally. Modi highlighted the development activities in the poll-bound State and said the new airport will help the State become an export-centre whereby even MSMEs will have easier access to overseas markets.

The first phase of the airport is scheduled to be completed by 2024 and will have the capacity to serve around 1.2

crore passengers a year. The airport will expand to serve 70 million passengers by the end of phase 4, depending on passenger growth and traffic. In stage 1, there will be a two runways airport of 1,334 hectares for which an agreement has been signed.

India, China, Russia to virtually brainstorm Af

PNS ■ NEW DELHI

India, China and Russia will hold trilateral talks in the virtual mode on Friday on issues including Afghanistan and other regional issues. External affairs ministers of the three countries will take part in this annual event.

Giving details of the upcoming dialogue, the Ministry of external affairs (MEA) said here on Thursday Indian External Affairs Minister S Jaishankar, his Chinese counterpart Wang Yi and Russian Foreign Minister Sergey Lavrov's will hold talks in the virtual format.

Incidentally, Jaishankar and Lavrov are likely to take part in the first ever two plus

two talks between India and Russia in the first week of December alongside President Vladimir Putin's summit with Prime Minister Narendra Modi here. The two plus two dialogue will see foreign and defence ministers of the two countries holding extensive talks on strategic and defence

As regards the talks on Friday, officials said the meeting, being held under the Russia-India-China (RIC) trilateral framework, will be chaired by Jaishankar.

The 18th meeting of the foreign ministers of the Russian Federation, Republic of India and People's Republic of China will be held in digital video-confer-

ence format on November 26," it said.

The three foreign ministers are expected to deliberate on regional issues of mutual interests including the situation in Afghanistan. "The foreign ministers are expected to discuss further strengthening of RIC trilateral cooperation including exchange of views on various regional and inter-national issues of importance," the ministry said.

India took over the chairmanship of the RIC after the last meeting of the trilateral in Moscow in September last year. Following Friday's meeting, Jaishankar will pass on the chairmanship of the RIC to the Chinese foreign minister for the next one year.

"However, I have been

informed that some states are

yet to complete the formulation

of the plan," he noted. "I would like to take this opportunity to

request the (state) authorities for

early finalisation of the plan as

it would come handy during

disaster relief operations," the

India, Russia to hold 2+2 dialogue to cement ties

PNS NEW DELHI

n an effort to further cement ties between the two countries, India and Russia are likely to have the first two plus two(2+2) dialogue between the defence and foreign ministers of their countries here on December five or six. The talks will be held alongside summit between President Vladimir Putin and Prime Minister Narendra Modi. The two plus two dialogue

may see progress on the proposed leasing of a second nuclear powered submarine from Russia, procurement of additional 450 T-90 main battle tanks, S-400 air defence systems, additional SU-30 fighter jets and inking of the AK-203 rifles deal worth over ₹6,000 crores. The Defence Acquisition Council(DAC)on Tuesday gave the nod for the seven lakh rifle contract. A factory in Amethi will manufacture the rifles under a joint venture between India and Russia.

India will host the first ever two plus two with Russia wherein External Affairs Minister S. Jaishankar and Defence Minister Rajnath Singh are likely to hold talks with their Russian counterparts Sergey Lavrov and Sergey Shoygu. So far, India has such a format with US, Japan and Australia, sources said here on Wednesday.

It was also learnt the two plus two meeting between India and US in Washington earlier scheduled to be held in late November or early

Sources said the event was shifted to January due winter session of parliament commencing November 29 and ending on December 23.

Giving the background of the upcoming two plus two, sources said the format was agreed upon during a telephonic conversation between Modi and Putin in April this

The 2+2 talks are also likely to see the ministers review the progress made on proposed deal for Russian made short range air defence systems and the joint venture to manufacture more than 200 Kamov helicopters here.

India and Russia are also likely to ink the Reciprocal Exchange of Logistics Support (RELOS) Agreement and a Navy-to-Navy cooperation MoU. There is also a proposal to establish a separate Joint Commission on Science and Technology Cooperation to look at high technology areas such as Artificial Intelligence, cyber, quantum, nano and bio-advances which could be

ink the Reciprocal Exchange **Logistics Support** RELOS) Agreement and a Navy-to-Navy cooperation MoU

The ministers will also review the progress made on having joint ventures in India for long-term support and maintenance of Russian military equipment used by the Indian forces.

Since both the countries are fighting the corona pandemic, the two plus two will also see focus on more cooperation. Russia had helped India during the second wave of corona earlier this year. Moreover, Russian made Sputnik vaccines are now available in the country besides Covishield and

Cong Parl panel chalks out strategy ahead of Winter Session

PNS NEW DELHI

he Congress parliamentary panel on Thursday met to chalk out the strategy ahead of the Winter Session. Congress president Sonia Gandhi chaired the meeting held at her residence where key issues were discussed. A total of 18 issues were taken up during the meeting, including four core issues.

Sources said there was also a heated discussion during the meeting about Congress leaders joining the TMC. Some party leaders even said that the TMC is 'breaking' the Congress, which saw 12 of its MLAs including former Meghalaya CM Mukul Sangma joining the Mamata Banerjee

Sources from AICC said Congress will demand the Bill for the repeal of the three farm laws to be tabled on the first day of the Winter Session. In addition, the party will ask the central government to bring a law guaranteeing MSP during the Parliament session starting November 29.

Apart from the resignation of Union minister Ajay Misra Teni, the Congress will also raise the issues of price rise and the India-China standoff in Ladakh in Parliament. The Congress has also

been raising the issue of Rs 4 lakh ex-gratia to the kin of those who died of Covid-19. Interestingly, the meeting comes at a time when Congress leaders in parts of

the country are flocking to the Trinamool Congress (TMC).

In Uttar Pradesh, Congress MLA from Rai Bareli - Aditi Singh - joined the BJP in the presence of state party chief Swatantra Dev

Singh. Leader of Opposition in the Rajya Sabha, Mallikarjun Kharge, told reporters after the meeting, "We will move alongside other parties, whether TMC or others, we will contact and request all of

Kharge said that people from the Congress, Rahul Gandhi and others in the high command are looking

Kharge said that the grand old party is prepared to corner the Narendra Modiled BJP government in the winter session of the Parliament on issues ranging from Chinese aggression to inflation.

"As we did in the Monsoon Session, we will appeal to all parties to come together and seek redressal for the concerns of the people," Kharge said.

Member in Rajya Sabha Anand Sharma called these issues important saying all of them will be raised.

Some coastal States\ UTs yet to formulate contingency plan for mass rescue ops, rues Coast Guard chief

116 big cats died till Nov 20 this yr

ARCHANA JYOTI NEW DELHI

As many as 116 big cats have died so far till November 20, 2021—the highest in the past three years— much to the disappointment of wildlife activists and tiger lovers. The figures include 27 tigresses and 15 cubs.

A dozen of them died

every month on average for the first seven months of the year. The signs that this year was being cruel to the big cats were evident with 84 mortalities reported till July. Since predators succumbed to death in the following four months.

In 2018, 101 tiger deaths were reported in the country. The number fell to 96 in 2019 but 2020 saw a 10 per cent rise in the deaths, nearly 106. There was no let up in the deaths in 2021 also. Among the States, Madhya Pradesh known as Tiger State' reported highest casualties at 39 followed by Maharashtra (21 deaths), Karnataka (15) and Uttar Pradesh (9)

The Wildlife Protection Society of India (WPSI), an NGO engaged in tiger conser-

vation activities puts the number on a much higher side. It clim that till November 2021, of which 48 due to poaching itself. This is a startling number when compared to the government data available from the Tigernet data which puts the poaching figure at 9.

India has 52 tiger reserves spread across 18 States having 2,967 big cats.

The data compiled by the Tigernet, a data based e-platform under the National Tiger Conservation Authority (NTCA), a statutory body under the Union Environment Ministry, shows that most of the deaths ie at least 76 per cent of the total mortalities have been reported from inside the tiger reserves itself. This shows that the big cats might have poaching as confirmed by the seizure of the skin and the body

In 98 deaths, the officials are uncertain of the cause of the death. The number of deaths outside the reserves were 54, indicating the shortage of the space in the tiger reserves to accommodate all the big cat, calling better management, enhancement in protection strategy, sensitisation of villagers living on the fringes of the tiger reserves who usually electrocute or poison the striped

predators in conflicts.

PNS ■ NEW DELHI

ontrary to the general per-Ception that one should slow down as one ages, a team of researchers has said that the key to longer life is associated with physical activity even during sunset years.

The researchers from Harvard University said that physical activity shifted energy away from processes that compromised health and toward mechanisms in the body that extended it. This guarded against chronic illnesses such as cardiovascular disease, type 2 diabetes, and even some cancers, said the study published in Journal PNAS.

The study used evolutionary and biomedical evidence showing that people, who evolved to live many decades after they stopped reproducing, also evolved to be relatively active in their later years.

The response also causes the release of exercise-related antioxidants and anti-inflammatories and enhances blood flow. In the absence of physical activity, these responses are activated less," the

researchers said.

People must choose to exercise, that is, do voluntary physical activity for the sake of health and fitness. Physical activity levels have been decreasing worldwide as machines and technology replace human labour. The researchers' advice is for people to do something and to try to make it enjoyable so they will keep it up.

Even small amounts of physical activity—just 10 or 20 minutes a day —substantially lower the risk of mortality.

The World Health Organisation already recommends that children and adolescents aged five to 17years should do at least 60 minutes of moderate to vigorous-intensity physical activity daily.

In fact, on Thursday, the WHO issued a statement, calling upon the nation in its South-East Asia Region to accelerate action to address insufficient physical activity which is as high as 74 per cent among adolescents, to arrest and reverse the growing epidemic of NCDs and promote

physical and mental well-being.

"Physical activity helps prevent NCDs such as heart disease, stroke, diabetes and some cancers, which continue to be leading killer diseases in the Region and a risk for severe disease and deaths in the ingoing Covid-19 pandemic," said Dr Poonam Khetrapal Singh, Regional Director, WHO South-East Asia Region while addressing a virtual meeting of health officials and partners from member countries where the Regional Roadmap for implementation of Global Action Plan for Physical Activity (GAPPA) was launched.

The Regional roadmap aims to facilitate context-specific activities to achieve 10 per cent relative reduction of insufficient physical activity by 2025, and 15 per cent improvement in global levels by 2030.

Globally, 23 per cent adults and 81 per cent adolescents aged 11-17 years do not meet WHO recommendations for physical activity. In the WHO South-East Asia Region, physical inactivity among adults is around 15 per cent and 74 per cent among adolescents.

SERVING CUSTOMERS WITH A SMILE

Kolkata Municipal elections on Dec 19

Ademand made by the opposition parties that the elections to all the 115 civic boards be held on a single day notwithstanding, the West Bengal State Election Bengal State Commission on Thursday announced the much-awaited elections for the Kolkata Municipal Corporation would be held on December 19.

The SEC announcement came regardless of a petition --- filed by BJP State vice president Pratap Banerjee --- pending in Calcutta High Court seeking simultaneous elections to all the 118 civic bodies

The elections to the Municipal Corporation was however not announced in the wake of some legal tangles over bifurcation of the Bally municipality from the Howrah Board. State Governor Jagdeep Dhankhar who had earlier in a meeting with the State Election Commissioner requested him to hold simultaneous elections to all the municipalities withheld his permission for the

Howrah Board demanding more clarifications on the issue.

According to the SEC notification December 1 will be the last date for filing nomination and scrutiny would be conducted the following day. December 4 has been fixed as e last date for withdrawal of candidature. The poll process will be completed by December 22 meaning thereby that the results will be declared either on December 21 or 22.

Meanwhile, the BJP alleged that the announcement of the poll process by the SEC was in "utter disregard" of the Court's authority as a public interest litigation is already pending before the Court seekiung the municipal boards.

The petition pending before the Division Bench of Chief Justice Prakash Shrivastava and Justice Rajarshi Bharadwaj will be heard on November 29. The Court however would not intervene in the SEC's decision to issue a noti-fication for KMC elections lawyers said.

The Opposition parties have been asking for simultaneous elections apparently to put the Trinamool Congress ınder pressure

As an image building exercise after its thumping victory in the Assembly elections the TMC leadership has been asking the lower rung workers to avoid rigging whereas the opposition leadership has been trying to create a situation where the rulers are forced to rig polls, said BN Chakrabarty a political expert.

Critics also feel that the

election results in Kolkata would impact the outcome of polls in the North Bengal districts where the BJP has a good support base.

Uttar Pradesh is moving on the path of development: CM

New Delhi: Uttar Pradesh Chief Minister Yogi Adityanath on Thursday said the country has to decide if the sweetness of sugarcane will grow or the followers of Pakistan founder Muhammad Ali Jinnah will cause mischief in the State, in a veiled attack on the Samajwadi Party (SP).

Adityanath trained his guns at the Opposition as he joined the foundation-laying ceremony for the Noida International Airport in the Jewar area of Gautam Buddh Nagar in the presence of Prime Minister Narendra Modi. SP leader and former Uttar Pradesh Chief Minister Akhilesh Yadav had last month equated Jinnah with Mahatma Gandhi, Sardar Vallabhbhai Patel and Jawaharlal Nehru, saying all of them helped the country achieve independence. His remark had invited severe criticism from the ruling Bharatiya Janata Party (BJP), among others.

He said Uttar Pradesh is moving on the path of development and highlighted various efforts of the Government.

The BJP leader also thanked the over 7,000 farmers who gave consent for the acquisition of their land for the airport without any controversy. He said the ceremony was a "much awaited" moment for western Uttar Pradesh and important because this is where farmers had taken forward the initiative to add sweetness in the region with sugarcane cultiva-

"Some people had tried to add bitterness in the sugarcane region of Uttar Pradesh with a series of riots. Now the country has to decide if the sweetness of sugarcane will grow or Jinnah's followers will cause mischief," Adityanath said as he addressed the gathering of thousands. Citing various infrastructure projects worth thousands of crores of rupees in Noida and Greater Noida of Gautam Buddh Nagar, the chief minister said lakhs of job opportunities would be generated in the region in the coming days.

It was PM's direction to build Asia's biggest airport here: Min

New Delhi: Civil Aviation Minister Jyotiraditya Scindia on Thursday said it was Prime Minister Narendra Modi's direction that Asia's biggest airport has to be built in Uttar Pradesh, as he joined the foundation-laying ceremony for the Noida International Airport.

Scindia said the airport, located in Jewar in Gautam Buddh Nagar district in western Uttar Pradesh, will bring investments worth ₹34,000 crore and the first phase of the Greenfield project is expected to be completed in 2024 with a capacity of 1.2 crore passengers annually. "By the last phase of development, the Noida International Airport will even surpass Delhi's Indira Gandhi International (IGI) Airport and become India's leading airport,"

Scindia told the gathering. He said earlier, there were only four airports in Uttar Pradesh but now, there are nine airports and this (Jewar) will be the 10th airport in the state, as he hit out at the previous non-BJP governments. "It was Prime Minister Narendra Modi's direction that Asia's biggest airport has to be built in Uttar Pradesh,"

BJP building airports only to sell them off: Akhilesh Yadav

Lucknow: Samajwadi Party (SP) President Akhilesh Yadav on Thursday said the BJP is laying the foundation stone of Noida International airport while selling other existing airports in the country.

Addressing a rally organised by Janwadi Party (Socialist), an SP ally, near Chaudhary Charan Singh International Airport in Lucknow, Akhilesh said "How can the BJP be believed when on one hand it is making new airports, and on the other hand selling the existing ones?"

The Lucknow airport was given on lease to a private company earlier. chief's comments came on the day when Prime Minister Narendra Modi laid the foundation stone of the Jewar International Airport in Greater Noida. government airport was sold and the other is being made. I

"BJP said the poor with slippers will travel in aircraft, the poor should let the BJP know how many of them have travelled in planes," he said. He said the BJP Government is engaged in disposing of air-

fail to understand the reason.

ing from these airports, when even the Delhi Airport is suffering losses.

He asked what will happen to the "rights and honour" of the people in a country where public property is sold off.

"In a country where things are sold off, government institutions are sold off, what will happen to the rights and honour for which Ambedkar gave us the Constitution, what will happen to the future generations? Who will give them jobs, livelihood and reservation?" said the former Uttar Pradesh Chief Minister at the 'Janvadi Jankranti

During his address, he asked the Chauhan community to extend its support to him, saying if it comes along the BJP will suffer a "historic defeat" in the upcoming elections.

NIA raids five places in Kashmir in UP Al-Qaeda case

New Delhi: The National Investigation Agency (NIA) on Thursday conducted searches at multiple locations in Kashmir in connection with the Al-Qaeda case of Lucknow. The searches were conducted at five locations in Shopian and Budgam districts of Kashmir, the agency said in a statement.

The case relates to Umar Halmandi, an Al-Qaeda operative, who along with other accused persons, had been radicalizing and recruiting vulnerable persons for AQIS (Al-Qaeda in Indian Subcontinent) and trying to raise Ansaar Gajwatul Hind (AGH) to carry out terrorist acts for which they had already arranged arms and explosive substances, it said.

The case was initially registered as FIR No. 10/2021 dated July 11, 2021, by ATS, Uttar Pradesh and NIA had re-registered the same on July 29.During the searches, large number of incriminating documents and digital devices have been seized and further investigation in the case is continuing, it added.

CBI books 7 for ₹73 crore fraud at PNB, Indian Bank

New Delhi: The Central Bureau of Investigation (CBI) has registered a case on a complaint from Punjab National Bank, Bhubaneswar against a private company based at New Industrial Estate, Jagatpur, Cuttack (Odisha), its Managing Director and others bank loan fraud worth

Besides the Cuttack-based private firm SR Alcobev Pvt. Ltd., others named in the case are its Managing Director Ranjan Kumar Padhi, Director Saina Kar, corporate guarantors Naina Devi Suppliers Pvt. Ltd. (based at Kolkata, West Bengal), Chandraghanta Iron & Steel Traders Pvt. Ltd. (Shyam Bazar Street, Kolkata, West Bengal)

(Corporate Guarantor), supplier Brewforce Technologies (East Nagar, Delhi/Dehradun, Uttarakhand,

civil Cuttack-based contractor Sukanta Kumar Lenka and unknown public servant(s) of PNB besides unknown others, the agency said in a statement. The accused persons and

entities allegedly perpetrated a fraud at Punjab National Bank, Main Branch, Buxi Bazar, Cuttack Allahabad Bhubaneswar Branch in a matter of credit facilities/Term Loans to the tune of around ₹73 crore {₹40 crore by PNB and ₹33 crore by Indian Bank (erstwhile Allahabad Bank) } during 2013.After disbursal of the loan proceeds, the borrowers/guarantors allegedly violated the terms and conditions of the sanction and they neither procured the machineries nor deposited the installments in time and the account turned Non-Performing Assets (NPA), it further said. It was further alleged that the accused including promoters/directors/guarantors/suppliers had misappropriated and diverted the loan proceeds with an ulterior motive to defraud the banks to the tune of around ₹ 140.48 crore (principal amount plus interest as on September 30, 2021). Searches were conducted at the premises of the accused situated at Cuttack (Odisha) and Dehradun (Uttarakhand), it

Anna Hazare undergoes angiography, stable now

Mumbai: Veteran social worker and renowned Gandhian Anna Hazare underwent an angiography at Ruby Hall Clinic in Pune on Thursday afternoon, within hours after he was rushed there

for treatment of chest pain. Eight-four-year-old Hazare, who lives in Yadavbaba temple at Ralegan-Siddhi in Ahmednagar district of western Maharashtra, had been complaining about chest pain for the past two to three days.

"After he was admitted to our hospital, a team of doctors examined him thoroughly. We did an electrocardiogram (ECG) on him. The test revealed minor cardiac abnormalities," the hospital's Medical Superintendent Dr. Avdhut Bomadwad said.

Shortly afterwards, a team of heart specialists comprising the Chief Cardiologist Dr. P. K.

Grant and Dr. C. N. Makhale conducted an angiography on Hazare.

The angiogram revealed a minor blockage in his coronary artery. The procedure was performed successfully. He is receiving the appropriate line of medical treatment," said Dr. Grant,

who is the Managing Trustee of the hospital, said. Dr. Grant said that Hazare's condition was "stable" now and he would be discharged from the hospital in a couple of days.

Meanwhile, Maharashtra Chief Minister Uddhav Thackeray - who himself is recouping at the HN Reliance Hospital in Mumbai after a cervical spine surgery that he underwent on November 12— called up the hospital and made enquiries about Hazare's health condition "I wish him a speedy recovery," the chief minister said

2013 TWIN SHAKTI MILL GANG RAPE CASES

HC commutes death penalty of 3 convicts to life

TN RAGHUNATHA MUMBAI

M ore than seven years after a trial court treated them as "repeat offenders" and handed out the first-ever capital punishment to them under new provision 376 (E) of Indian Penal Code (IPC), the Bombay commuted the death sentence of three "common" convicts in the twin 2013 Shakti Mill gang rape cases to life imprisonment.

Quashing the death sentence awarded to the three convicts under the new section 376 E of the IPC that came to be incorporated in the law after the December 2012 gang rape in Delhi, a HC bench of Justices SS Jadhav and PK Chavan upheld the conviction of the convicts punishable under section 376D of the IPC, thus reducing the original capital punishment to rigorous imprisonment for life.
"While setting aside the

sentence of death penalty, it may appear to the public at large that we play a counter

majoritarian role. However, the Constitutional Courts are bound to take into consideration the judicial mandate not by considering just individual rights or the rights of the criminal, but to follow 'the procedure established by law," the two Judges observed in their

"At the cost of reiteration, we would observe that Section 376E of the Indian Penal Code is not a substantive offence, but is a punishment contemplated for repeat offenders under section 376D, 376DA, 376DB of Indian Penal Code . We would not take a pedantic approach to mean that it contemplates commission of an offence after the first conviction as under section 75 of the Indian Penal Code. But it would mean that the sentence of death penalty may be awarded in a case which is tried after the first conviction for a similar offence as in the case of Rajendra

Wasnik," the Judges noted. The three convicts Vijay Jadhav (19) Mohammad

Oasim Shaikh alias Oasim Bengali (21) and Mohammad Ansari (28)—whose death sentences have been commuted to rigorous imprisonment for life --are common convicts in both the July 31, 2013 telephone operator and August 22, 2013 photojournalist gang rape

> It may be recalled that on April 4, 2014, Principal Judge Shalini Phansalkar Joshi had awarded capital punishment to Vijay Jadhav (19) Mohammad Qasim Shaikh alias Qasim Bengali (21) and Mohammad Ansari (28), after noting the three convicts deserved death penalty for repeat offences under section 376 (E) of the IPC and that there was no scope of reformation of the trio.

'The gang-rape accused were not only enjoying the act of sexual assault but also the survivor's helplessness. ..It was executed in the most gruesome manner with no mercy or show of human dignity to the survivor," the trial court Judge had observed then.

J&K: 200 schools to be transformed into smart schools in tribal areas

Jammu: Taking a giant leap forward towards imparting quality education to the Tribal population, Lieutenant Governor Manoj Sinha on Thursday dedicated the UT Government's ambitious project of transforming 200 Schools into Smart Schools at a cost of ₹40 crores.

The modernization of Smart Schools will be executed in two phases. In the first phase, works related to 100 schools will er 100 schools by December 2022.

On the occasion, the Lt Governor announced another major decision of the government to provide scholarships to 21,000 children of Gaddi, Sippi, Dard, Sheena communities who were deprived of the same for the last 3 decades.

"In 1991, the Gaddi, Sippi community was declared tribal but their children were denied scholarship. For three decades they kept approaching governments but no decision was taken. This issue was brought to my notice just a few days back and we immediately decided that scholarships will be provided to the 21,000 children of Gaddi, Sippi, Dard, Sheena communities", he added.

In his address, the Lt Governor con-

Lt Governor Launches 200 Smart Schools in Tribal Areas

gratulated the Tribal communities and the concerned administrative departments for the historic beginning of the new era of educational empowerment of Tribals in J&K.

"Our priority is to secure the future of tribal children. Smart schools in tribal & remote areas equipped with modern facilities will develop scientific temper in children and make them future ready, besides arresting the drop-out rate",

said the Lt Governor The UT Government has formulated a visionary framework for the functioning of the Smart Schools. Members

of the Tribal communities, PRI repre-

voluntary organizations will be involved in the management so that these schools could perform the role of 'changemakers' in our society, observed the Lt "Lives are changed when people con-

sentatives, and the people associated with

nect. Life is changed when everything is connected. Tribal Education Plan, Scholarships, Smart Schools will do juswere neglected for decades", the Lt These groundbreaking initiatives

will also ensure that the members of the tribal communities can keep pace with the revolutionary and rapid changes happening around them and connect themselves to the world, he added.

The Lt Governor expressed gratitude to the Prime Minister Narendra Modi for awakening the self-confidence of the tribal community.

The Lt Governor highlighted that the & K administration is collectively spending around ₹104 crore to strengthen school infrastructure in tribal areas and establish a strong educational ecosystem for the tribal community.

'Absconding' Mumbai ex-top cop Param Bir Singh finally surfaces

Mumbai: More than a week after he was declared "proclaimed offender" by a city court in an extortion case, Mumbai's former Police Commissioner Param Bir Singh appeared before the Crime Branch Unit 11 office of the Mumbai police on Thursday morning. Singh, who had been missing for nearly six months now, was subjected to a first round of questioning in connection with a case registered against him. Earlier in the morning. Singh -- upon his arrival at the Mumbai Airport from Chandigarh -- said: "I will join the investigation as directed by the court".

On November 22, the Supreme Court had granted Mumbai's former Police Commissioner Param Bir Singh protection from arrest and asked him to join the investigations in the inquiries initiated against him. A day after the apex court's directive, a city court order declaring him as a "proclaimed offender" and ordering him to appear before the Court or Investigating Officer within 30 days, was pasted outside his Juhu residence

"Singh is required to appear before Additional Chief Metropolitan Magistrate, Esplanade, Mumbai or investigating officer to answer the said complaint within 30 days," reads the order issued by the court," read a court order pasted on the door of the former Police Commissioner's flat at Juhu in north-west Mumbai. In the order signed by Additional Chief Metropolitan Magistrate, 37th Court, Esplanade, Mumbai, on November 18, a complaint has been made before the court that Singh has committed (or suspected to have committed) offences under sections 384, 386, 388, 389 (all sections relating to extortion), 120-b (criminal conspiracy), 201 (destruction of evidence) and 34 (common intent) of Indian Penal

The order also stated that an arrest warrant has been issued against the accused (Singh) and that he has absconded himself to avoid the service of arrest warrant to him. At Monday's hearing at the Supreme Court, Senior Advocate Puneet Bali, appearing for Singh, informed the bench that "the petitioner is very much in India but apprehends actions being taken by the State of Maharashtra". Singh had moved the Supreme Court seeking protection from arrest and for other reliefs, after the Bombay High Court had on September 16, 2021 dismissed his petition challenging two preliminary inquiries launched against him by the Maharashtra government for alleged violation of service rules and another for alleged corruption.

While dismissing Singh's petition on the ground that it was "not maintainable", a HC division bench comprising Justices S S Shinde and N J Jamdar said that "it is a service matter" and asked him to approach the Central Administrative Tribunal (CAT), which is an appropriate forum. (When) the petitioner approaches the appropriate forum, then the same shall be heard and decided without any prejudice to the HC's order," the HC bench said.

People have started looking at the killers as innocent people: J&K DGP

Director General of Jammu & Kashmir Police, Dilbagh Singh on Thursday came out with all guns blazing after the Peoples Democratic Party (PDP) Chief and former Chief Minister Mehbooba Mufti once again raised question marks over the authenticity of an encounter in Rambagh area of Srinagar in which three terrorists were gunned down by the police late Wednesday evening.

Reacting strongly to these allega-tions DGP Singh told reporters in Jammu, "there are people in the civil society who somehow understand the reality but try to say something which is away from the reality". He said, "unfortunately there are people who have started looking at the killers as innocent people".

Singh was responding to a straight question in which he was asked to comment on the tweet posted by the PDP Chief in which she had stated, "After yesterday's alleged encounter at Rambagh legitimate doubts are looming over its authenticity. As per reports & witnesses it seems that the firing was one sided. Again the official version far from the truth is not in line with ground realities as seen in Shopian, HMT &

Without naming PDP Chief direct-

ly DGP Singh said, "There are many people who are active on the social media who are trying to cast aspersions on the killing of terrorists. Unfortunately there are people who have started looking at the killers as innocent people".

Singh said, in yesterday's encountyer three terrorists have been eliminated. The killed terrorists were identified as Mehraan Yaseen Shalla son of Mohd Yaseen Shalla resident of Jamalata, Arafat Ahmad Sheikh son of Mohammed Maqbool Sheikh resident of Nikloora Litter Pulwama and Manzoor Ahmad Mir son of Late Sonaullah Mir resident of Babhar Pulwama". Singh said, Mehran was associated with Abbas Sheikh, Chief Commander of The Resistance Front while the other two, Arafat and Manzoor, hailing from Pulwama district were working as Over ground workers.Reading out the complete dossier of Mehraan Shalla, DGP said he is the one who was providing all kind of logistics support to Abbas Sheikh when he was

active in Srinagar. Singh said, Mehraan Yaseen was involved in several terror crime cases including grenade attack at Barbar Shah Srinagar on 26/06/2021 in which one civilian namely Mudasir Ahmad Bhat resident of Hanjigund Beerwah got killed & three other civilians got critically injured. He was involved in the

killing of Meeran Ali Sheikh at Bulbul Lanker Nawa Kadal on 27/07/2021, and of PSI Arshad Ahmad at Khanyar on 12/09/2021.He was also involved in killing of School Principal Supinder Kour and teacher Deepak Chand of Government Higher Secondary School, Khankah Noorbagh Sangam on 07/10/2021 and suddenly he become innocent after so many killings". Singh said, "it is high time people look at the reality without mixing it with their imagination. The encounter has brought relief to the people. So anybody talking nonsense I think is absolutely not jus-

Earlier, addressing a joint press conference with ADGP Jammu range, Mukesh Singh, DGP told reporters, a consignment of narcotics (Heroin) weighing 52 kgs, estimated market price of around 100 crores, was seized by the alert policemen after chasing a truck bearing registration number of Haryana near Jhajjar Kotli along the Jammu-Srinagar National Highway. Briefing reporters, Mukesh Singh said, the huge consignment of Heroin was seized from a truck after its driver managed to run away while his co driver, hailing from Kurukshetra, has been arrested. Preliminary investigations revealed the drugs consignment was picked up from Srinagar and the truck was heading towards Punjab.

Mexican Ambassador lauds Khadi popularity

PNS NEW DELHI

Mexican Ambassador to India, H.E. Federico Salas, who visited the Khadi India Pavilion at the India International Trade Fair 2021, on Thursday, lauded the global popularity of Khadi and clicked selfies with the portraits of Mahatma Gandhi and Hon'ble Prime Minister Narendra Modi, at the selfie point in Khadi pavilion. He was received by Manoj Kumar, Member (Marketing), Khadi and Village Industries Commission.

The Ambassador saw the live demonstration of Pashmina wool spinning, clay pottery making, woodpressed oil extraction, Incense sticks Agarbatti) and handmade paper making while he also visited several other stalls displaying the finest handcrafted Khadi fabric, readymade garments, handmade jewellery and a wide range of village industry products.

The Ambassador took to an electric potter wheel and tried his hands on making clay pottery. Salas appreciated the sheer variety of products at the Khadi India Pavilion and the exquisite craftsmanship of Khadi artisans. "I congratulate Khadi and Village Industries Commission for setting up such a grand Khadi India pavilion at IITF that has given Khadi artisans a big platform to sell their products.

PAPER WITH PASSION

Clean up!

The parties that select candidates with criminal records should face the possibility of deregistration

he judiciary, the executive and the legislature agree that politics has to be decriminalised. Where they disagree is on the extent of decriminalisation. The judiciary asks the latter to amend existing laws to permanently ban convicted persons from contesting elections. The executive is unwilling to take that step. The process of decriminalising politics, as a result, is held to ransom by the lack of unanimity among the pillars of democracy. The Supreme Court on Wednesday raised the issue once again, asking whether the Government was amenable to amending the law. There was no clear response from the Government. The row finds resonance at a time when assembly elections are due in several States including Uttar Pradesh that has the largest number of criminal cases pending against sitting and former legislators. Over 1,300 such cases are being heard in 63 specially constituted courts. Many of the cases

have been dragging on for years. At the national level, the Association for Democratic Rights informs us, 363 MPs and MLAs have declared criminal cases against them. The cases, in which charges have been framed, have been pending anywhere between five and seven years. There are over a score MPs with 43 cases between them, and over 100 MLAs with 315 cases, pending for 10 years or more. There are over 170 cases where the punishment is a life term. It is not known how many sitting members did not disclose any cases against them.

The question is, should one go the whole hog to decriminalise politics. As of date, legislators convicted of a crime and given a minimum of two years imprisonment stand disqualified. A landmark judgment of the Supreme Court also said they cannot contest elections for six years after their release. Out of the hundreds of legislators who face thousands of cases against them, only 11 have been disqualified so far. That is a poor conviction rate by any standard. The well-known reason for this is that cases drag on, or are dragged on, for years and the accused persons contest polls during the pendency. The Supreme Court also raised the question of whether a person should be disqualified from membership in a legislative body on the mere framing of criminal charges against them, but a fivejudge bench ruled it could not disqualify them at that stage. Instead, it asked the Government to bring in such a law. The Government, which is against the recommendation, evades a clear stand on the principle of decriminalisation. Politics cannot be decriminalised by mere disqualification for a certain time. The disqualification has to be permanent upon conviction in heinous criminal cases. Where charges are framed, the courts must dispose of them within a specified time so that the accused face automatic, permanent disqualification upon conviction. Political parties which select candidates with criminal antecedents should face the possibility of derecognition or deregistration. Will the cat bell itself?

Devotees cover the Yamuna with sarees during Chunari Manorath festival, in Mathura

Water woes

There's a pressing need to nationalise rivers in the subcontinent before we perish

arly this week, when the shutters of Alivar Dam in Tamil Nadu were raised. there was a major protest demonstration by the people of Palakkad in Kerala. The water level in Kannadipuzha flowing from Tamil Nadu to Kerala rose to an alarming level and put the lives of thousands of people staying along the banks of the river in danger. The proactive media in both the States conveniently blacked out the report. The shutters of Aliyar Dam were opened by the Tamil Nadu Government to save the lives of its people along this river. The concern of the TN Government to save the lives of its people from the impending disaster is understandable. But the DMK Government should show the same concern for the lives of more than

four million people in Kerala who stay along the banks of Mullaperiyar Dam which may burst any time once the water level in this largest and oldest gravity dam in the country crosses the 138-ft mark. As pointed out by this newspaper in a report, the Mullaperiyar Dam is a water bomb ticking by the second and the possibility of a major disaster stares the people of four Kerala districts in the face. The 140-year-old dam has outlived its utility and age has caught up with it.

It is time to decommission this dam and build a new one, as suggested by the Kerala Government.

But, strangely, Tamil Nadu vehemently opposes this idea. Geologists have warned time and again that the region around Mullaperiyar Dam is "pregnant with earthquakes". While Tamil Nadu turns a blind eye towards this warning, the State's politicians are highly critical of the Centre's move to build the Indian Neutrino Observatory in the region and cite studies by geologists to oppose the proposed research laboratory. Aren't these double standards exposing Tamil Nadu's 'Heads I win, Tails You Lose' attitude? Tamil Nadu's opposition to the Karnataka Government's move to build the Mekedatu Dam across the Cauvery river is the same. Karnataka has the right to build a dam on its own land and there are no laws restraining it. The Mullaperiyar Dam agreement has inherent weaknesses in it. The Union Government and the Supreme Court should not take recourse in the apology that "though laws are there, public resentment has to be taken into consideration". It is time rivers in the subcontinent are nationalised and people — irrespective of region, religion, caste and community — get justice equally.

Supranationalism will hold us back

Marxism believes the nation-State to be an exploitative instrument of capitalists, just as Islam believes it to be the death of its faith

he recent war of words, law and politics began when Aryan Khan, the son of Bollywood actor Shahrukh Khan, was arrested and kept behind bars for some weeks. The Left-Liberals vociferously alleged that that this happened because he is Muslim, forgetting that he is half Hindu. This controversy grew louder and worse when Indian bowler Mohammed Shami gave away a few runs to Pakistani batters in the recent T20 World Cup. I feel this is a baseless allegation; and I am neither Liberal nor Left. To make matters worse, Pakistani Home Minister Sheikh Rasheed declared "Indian Muslims share our sentiment", which can mean that they are all Muslims first and Indian or Pakistani later.

At Etawah in Uttar Pradesh, the State's former CM, Akhilesh Yadav has compared Pakistan's founder MA Jinnah to Nehru, Sardar Patel and even Gandhi. "They had all combined to win independence", said Akhilesh. UP CM Yogi Adityanath has taken strong objection to such comparisons, but no Muslim appears to have contradicted Akhilesh. There are innumerable such instances around the Muslim identity. The late Syed Shahabuddin repeatedly advocated the importance of Muslim identity above most issues. His pet expression was "Muslim Indian"; he refused to ever say "Indian Muslim". Clearly, he meant that the pan-Islamic loyalty supersedes national identity.

The recent example of the Pakistani winners of the recent T20 cricket match emphasising that their triumph was that of Islam, and not merely of Pakistan, is by no means an isolated one. Some years ago, when Wasim Akram was the captain of a Pakistani team that lost a match to Bangladesh, Akram said he did not mind as Pakistan had lost to a "Muslim brother". This clearly meant that the *ummah* is far higher than the nation. This Islamic supra-national-

ism is unpopular as was the Jewish sentiment of "Jew first, and zerman, British or French later. The origin of supra-nationalism is probably a Judaic phenome-

Egyptians to work as labourers to build stone upon stone. It was clear that there was no Pharaonic intention to ever release them. The Jews felt cursed, miserable and hopeless. When their Prophet Moses, with Herculean difficulty, released them and led them to Israel, they could only think of God and overlooked any State or country. Ironically, they did not have either for centuries until the British helped them after World War II, in 1948.

Supra-nationalism has often been described as transnationalism, whereby a citizen's loyalty to his country is superseded by an allegiance beyond the borders to say, an empire, religion or something higher. In some ways, it is a suzerainty over and above sovereignty. A Jew's supreme allegiance is to Judaism and not to a country. Even after the nation called Israel was attained in 1948, for a Jew, Jehovah commands a higher loyalty. Chaim Weizmann, the leading figure in the movement for establishing a separate homeland for the Jews and Israel's first president, illustrated the point by saying, "There are no British or French Jews; there are Jews in Britain and France

It is telling that the acclaimed poet Mohammad non. Jews were captured by the Iqbal who wrote 'Sare jahan se

SUPRANATIONALISM HAS OFTEN BEEN **DESCRIBED AS** TRANSNATIONALISM, WHEREBY A CITIZEN'S LOYALTY TO HIS COUNTRY IS SUPERSEDED BY AN ALLEGIANCE **BEYOND THE BORDERS**; TO SAY AN EMPIRE, **RELIGION OR** SOMETHING achha, hindustan hamara' came back from Europe, turned supra-nationalist and remained so. Yet, he did not become a total separatist unlike Jinnah. In all probability, many a Muslim is similarly confused and is a prisoner of his feeling. Except the rich families, there is nowhere they can be welcome. Where then is there a place for supranationalist feelings? Have they, more particularly, not thought of what happened to the Jews in Germany and elsewhere?

The fourth Abrahamic sibling, Marxism too, is supranational in nature. Marxists, in adherence to their supranational nature and thinking, have destroyed their native countries. Does that mean that Muslims, who are also supranational, would end up being destructive of their countries? Well, without the country of nature, their countries become poor. Their ethos does not encourage production or a productive culture. This has been explained most eloquently by Prof. Timur Kuran, who has proved how Islamic laws have held back the Muslim ummah in economic progress.

In sharp contrast, the Jews, who are also supra-national are believed to have the Midas touch. Their priority is the pursuit of wealth and successfully so. But Jews were unpopular in Europe, because they were suspected of caring more for themselves than for their

The Marxists are another community of supra-nations without any faith in any god. In fact, they deny god and call religion "the opium of the masses". The objective of the communists is to unite the workers of the world. Their enemies were the rich or what they called the bourgeoisie, whose overthrow is necessary to what Marxists believe will be transfer of power to industrial workers or the proletariat. In a vicarious way, Marxists became enemies of even the small farmers by collectivising or taking over their farms. In the end, the Marxist ruined entire countries, as their history proves it.

In the pursuit of its supranational ideology, Marxism also believes that the individual nation does not matter much. In fact, Marxism believes the nation-state to be an exploitative instrument of capitalists, just as Islam believes the nation-state to be the death of its faith.

LETTERS TO THE EDITOR

NEED TO KEEP A CHECK ON POPULATION

Sir — The damage done due to excessive population growth is long-lasting. Let us not forget that the scars of the Emergency are still with us. Men used to be part of family planning initiatives but after they were forced to sterilise, they continued to remain completely out of family planning programmes even today. Government now mostly works with woman and child health programmes. Mistakes of that era are not what new Governments with a robust electoral mandate would like to repeat.

Therefore, it is time to ask some of the prejudiced voices within the Government and the ruling parties not to venture into terrain they may not fully understand. Family planning programs benefit not only parents and children but also the society and nation by keeping the number of new births under control. A controlled population growth will allow sustainable distribution of resources among the already vast population of India. This would also help ensure that basic amenities are provided to every citizen of the country and natural resources, which are already depleting, do not get exhausted too early. MR Jayanthi | Mumbai

A MOTHER'S BATTLE FOR HER BABY

Sir —A real-life story in God's own country Kerala has captured the imagination of the public. It was a powerful human drama involving a myriad of human instincts and emotions unfolding before our eyes. It revolved around the central theme of a mother's spirited fight to get back her child given in adoption by her parents without her consent. The pain of separation from her baby for more than a year was deeply moving and ennobling. The suspense and uncertainty ended with the DNA test results confirming that Anupama S Chandran and her partner Ajith Kumar are the baby's biological parents. The proof of parenthood provided by the paternity and maternity tests put an end to the legal wrangles and settled the matter once and for all.

Anupama's parents did wrong by forcibly taking away the baby (amount-

Jewar airport: New possibilities

ne construction of the much awaited Noida International Airport, also called the Jewar International Airport, will bring new avenues for development not only in Uttar Pradesh but in Delhi and in the entire NCR region. Presently, the Indira Gandhi International Airport (IGI) is the only primary international airport serving Delhi and its surroundings which usually remains very busy, hence this new airport will help decongest the IGI airport. The Noida International Airport will be a state-of-the-art modern air-

ing to abduction) and handing him over to the Kerala State Council for Child Welfare just three days after birth on the utterly specious ground that the new arrival was out of wedlock. Nature or biology has not ordained wedlock for procreation. The relationship between mother and baby is special in the truest sense of the word. In this day and age we should be able to do without moral prudery and

G David Milton | Maruthancode

GIVE EMPLOYMENT, NOT JUST FREE FOOD Sir — The announcement of extension of the Pradhan Mantri Garib Kalyan Anna Yojana till March next year is welcome. The announcement is apparently backed by political will ahead of the Assembly elections in various States. This decision to support poor Indians is absolutely appreciable. There are poor families in the country who still can't cope up with the economic upheaval of COVID-19. The Government data indicates that it is the

port and the largest in Asia and the fourth largest in the world with six runways.

Worldwide, all major metro cities have more than one airport, London has six, New York has three and Washington has three airports. Hence, the much awaited new Jewar airport is a welcome development for the entire region. The project is expected to finish up by 2024 and create employment and attract investment. The project will significantly boost commerce, connectivity and tourism which will bring new avenues of job opportunities for thousands of people during the construction and operation of the airport. The airport will also help exporters from Western Uttar Pradesh as it will directly connect major centers of export with international markets. It will have an integrated multi-model cargo hub also. The project is indeed a step forward but we took a lot of time in taking this step. Now the Government must strive to complete the project well with-

in the scheduled timeline. Ramesh G Jethwani | Bangalore

fifth phase of the PMGKAY, which aims to serve food to 80 crore families in the country by March 2022. The Government must be appreciated for their constant support to the poor.

However, it is also worth noting that the distribution of free food has its limits. One day it has to be stopped. It is, therefore, essential to ensure employment to the youth of this country rather than only ensuring their food needs. If the daughters and sons of a family get employment opportunities equivalent to their skills and potential, it will itself ensure their well being and healthy sustenance. The Government must prepare employment alternatives to make citizens meet their ends by themselves rather than providing free food. This is a crucial matter and it should not be taken up by the Central and State Governments.

INDIA SHOULD WORK ON NEW-AGE TRADE POLICY

Imposing high tariffs on imports to check trade imbalance won't yield much results

KUMARDEEP BANERJEE

here are hectic times ahead for India to catch the bus on trade deals with major trading partners around the globe. India has been late on the global trading platform and has already missed several low-hanging harvest deals. A reviving inflationary economy in almost every corner of the globe, taken with severe supply chain issues due to over dependence on China, is forcing major economies to stitch trade deals with strategic partners and major trading blocs. The entire globe has huge dependence on China for automobile parts, steel, pharma products to IT hardware. Now crippled, due to delay or no supplies from China, most of them are looking at alternate destinations for securing their supply chains. India is not part of any major regional trading bloc after it walked out of the Regional Comprehensive Economic Partnership (RCEP), led by ASEAN group of nations where there are several side shows at play. One of the key reasons for India walking out of RCEP is the China factor, where the latter has huge influence on shaping trade deals with ASEAN members. India has had a free trade agreement with ASEAN; however, the agreement was restricted to goods.

On review by Government of India, it was found that the free trade agreement (FTA) on goods with ASEAN created a trade imbalance skewed towards more imports from ASEAN to India. Several experts have pointed out the reason to be India not signing a simultaneous agreement on services, where India has competitive advantage. It is ASEAN member countries as a bloc that is being looked as a viable alternative by European Union and Australia due to their agile manufacturing policies. India, if it has to reach the stated target of \$2 trillion in exports from goods and services in the next couple of years, has to start working towards an integrated narrative on trade deals encompassing all government departments. The trade of 21st century is increasingly being dictated by digital trade policies and nudges on climate change, human rights issues.

India has done well to start looking at new partners for finalizing trade agreements in some form, including the European Union, Australia, United Kingdom and UAE. All of these are rich, developed economies where the considerations for finalising a deal are pretty mature. India has had a lull in its trade relationship with the US for nearly half a decade now, but there are signs of revival after the visit of US Trade representative Katherine Tai this week. The past principles of imposing high tariffs on imports as a measure to check trade imbalance and, or resist a not a so friendly country would not yield much results in the current situation. It can be counter-productive leading to India being isolated from lucrative trade agreements. Most economies today understand the power of data-driven opportunities for trade and India has to step up its game at the global stage on the digital front. Its digital policies need to be interoperable with its potential and existing trade partners. India's outlook to shape a futuristic digital economy could only be successful with the investments or riches generated through trade. Another issue that India needs to focus on is remove non-tariff trade barriers that manifest in cumbersome compliance requirements. These are seen as major hurdles to trade and have to be reviewed from economic advantage point of view. It requires the entire Government approach to gear towards reaching a \$2 trillion target.

World Philosophy Day: Must be a good reason BALAKRISHNAN SATYAM

Philosophy aims to further our knowledge, advance our reasoning abilities, explore our possible future as a species and stimulate the thinking capacity

METOIESE

TOSEIDON

t Is nearly two decades since World Philosophy Day was established. Mostly, it is a day celebrated by philosophy departments, philosophy journals and publishers, and humanities scholars. Some of them organise outreach events on this day, the third Thursday of November (as formalised by the UNESCO) to share some of the core values in the modern academic discipline known as philosophy with the general public, especially the young who may have had very little exposure to it.

There is a central faith in philosophy which is that the life preserving apparatus within us is evolving steadily towards a better and wider understanding of the possibilities in our universe. This is not a far-fetched belief at all.

Many of today's designers and testers of intercontinental missiles may not have reflected on how ancient communities developed archery to obtain food and to discourage raiders. It is quite sophisticated to speak of vibrations and String Theory in the 21st century, but for users of mere sticks and spears to use a narrow strip of hide as a bowstring to launch a sharp shaft was a leap of imagination. Very likely, it was discovered in play by children and adapted by an astute adult observer. So do not lose sight of whatever it is your kids are

As with many other lofty achievements and ambitious dreams of humankind, Philosophy too has particularly simple origins. And in the way that school physics teaches us how an arrow could fly by informing us about kinematics, deformation due to strain, velocity, the parabola, and the law of gravitational attraction - it is possible to outline in a classroom setting, the methods by which human thinking can soar.

We initially develop our reasoning abilities because the right conclusions can prove extremely advantageous or even save our lives. A freshly killed prey is a sign that the predator is still in the vicinity. The size of the prey is an indicator of how dangerous its attacker. A question, whether and how soon hyenas will arrive, could arise depending on one's knowledge of the territory.

To interpret phenomena and respond accordingly is part of our nature. Realising the value of accruing information, we became voracious information-gatherers even tens of thousands of years before we started compiling encyclopedias.

Just as the application of fire, and the newly introduced flavour of salt transformed the process of food preparation and made meals safer and tastier, and even thereby improved the quality of dinner conversation (!), the continued development of language and activity specialisation (weapon maker, hunter, peeler, berry collector) within the herd led to the

TO REFLECT ON PHILOSOPHY IS TO TAKE A DIP IN A RIVER INSTEAD OF HAVING A SHOWER AT HOME; A REFRESHING **EXPERIENCE WITH GREATER** OPENNESS. WE **CONNECT WITH** THE WATER THAT DESCENDS TO THE PLAINS FROM THE **MOUNTAINS INSTEAD OF** AVAILING IT FROM A DOMESTIC

FITTING

acquisition and sharing of a lot more knowledge.

The first thing we learn to ask is really not questions, but for guidance. As parents cautioned kids not to chew some berries and leaves, or to keep their distance from particular insects, the young learnt to point or name things and ask for a Y/N or OK/Not OK response from the group elders. Thus, the first 24*7 assistance came into existence to advise instantly on basic safety.

This led to the first 'What' and 'Where' questions, what animal or tree did you see, and where was it? These queries pertained to information for immediate or future use. Memory came to develop as every member had a larger information base, and each following generation received more inputs from the start than the earlier. The origins of the 'Who' question are easier to figure out, but a lot more thinking will be needed to account for how the others viz. wnen, How and wny wnich lead us to more complex ideas and principles came into human language and regular thinking.

To reflect on philosophy is to take a dip in a river instead of having a shower at home. A refreshing experience with greater openness. We connect with the water that descends to the plains from the mountains instead of availing it from a domestic fitting. Our thinking relates directly to the elements in a situation in

place of being conditioned by household arrangements, equations, and traditions. It draws deeper and directly from the planet, and from multiple founts of yore.

Philosophy aims to further our knowledge, to advance our reasoning abilities, to explore our possible futures as a species, and to stimulate the thinking capacity in whosoever possible. It encourages the use of methods like framing a few likely hypotheses, considering the evidence or lack thereof for each of them, and the assigning of a level of confidence to a given statement that describes a state of affairs. It is impartial like math, medicinal like botany, retrieves from the ancient past like archaeology, loves breadth like cosmology and astrophysics, is revelatory like religion, and enterprising like

quantum physics. Can gaining experience in the use of philosophical methods be compared with learning to play present. Or a compelling revision a musical instrument: what generally happens is that we rarely pick up an instrument in a shop through our own impulse or prior decision.

Typically, it is an instrument we have seen and heard a lot and there is someone nearby to help us learn it. The particular instrument could demand manual accuracy or lung power or shoulder strength or lightness of touch, and so could specially suit our physical makeup. It has its own lineage of

performers and composers. What matters is not all the gossip about musical history, the brands of manufacturers, the names of concert venues, or reports of album sale figures. At the core of it, there is a proficiency to be reached through sincere pursuit and practice, and to relate to the arranged sound in a deep way through an attentive unity of playing and listening. Musicians can relate to each other transcending their geography, culture, instrument, and musical tradition.

In so far as the developmental process goes, in philosophy too, a similar beginning is made. At one level, there is an identification with a broad approach or an ancient or modern tradition. A lot of name-dropping ensues and controversies are brought up for taking sides. What really matters though is the recreation of the spirit of a beautiful piece of intellectual heritage so it can add to the quality of life in the and diligent updating of a dominant paradigm so that it can benefit many more in society or pave the way for a greater addition of new knowledge.

Philosophy is often taken to be about discord because there are contentions, counter-arguments and often vehement exchanges. Above the clamour, it is possible to realise that it can and does foster concord. In a sense, its function in nature is to maximise meaning.

faculty, and an amateur epistemologist. The views expressed are personal.)

Climate justice to net-zero emission: A change in narrative

(The writer is a creative

director, advertising

India needs to emphasise to the world where its scorecard is better than many of the developed countries, who frequently lecture India on emission flows

Recently, yet another COPs meeting was held in Glasgow. Compared to the low-key meetings in the last couple of years, this year's meeting seems to have ended on a high note. The developed countries have been quite successful in delinking the narrative of stock of historical emission in the carbon space, contributed by the developed countries, to the issue of current emissions. The bad guys are of course the emerging

countries like India and China. The nudge towards this was slowly evident in the last few years when pressures in various forums was being built on developing countries to identify the peaking year of carbon emissions. Many countries including China followed suit and identified the peaking

year as per their development pathways. To my best knowledge, India never officially announced a peaking year even though they may have worked in the official circle before announcing 2070 as the target year for Net Zero emissions. A bold announcement by India's Prime Minister in a meeting like this gives a strong message.

As I recollect, a similar message by the Prime Minister in Paris meeting paves the way for the significant shift towards renewable in India's energy spectrum. However, the task is much more challenging this time. India has to depend mostly on own resources as developed countries are not very forthcoming in allocating funds to developing countries

like India for the transition.

Moreover, as climate changes become more evident as years go by, it is expected that the pressure will be on all countries including India to advance the target year for net

zero emissions. Thus, India needs to do the homework seriously on pathways to reduce emissions. Also, India needs to emphasize to the world where its scorecard is better than many of the developed countries who frequently lecture India on emission flows. By and large, India

has taken has taken a laidback approach most of the time.

For instance, there are two board sources of emission: consumption process as well as production process. It is in our interest where we stand vis-a-vis each of the components. On the consumption side, India's households emit a minuscule compared to the rich households of the developed countries. This is true even for the ultra-rich households of India versus the same in developed countries. This happens because of contrasting life. Many of the Indian consumer electrical goods are energy efficient due to the introduction of star rating system of such goods by BEES, thereby lowering emission. Similarly, most of the Indian

efficient compared to fuel by government and/or the guzzling automobiles of USA,leading to lower emission. However, Indians are not very forthcoming to point out these facts in the global meet with evidences. Alas, Indian researchers have not invested in this kind of factfinding research for global

consumption. The production process needs more attention as most emission takes place here. Here also, there are sectors where Indian industries compare well with the developed ones. We need to do an objectives analysis of such cases and produce evidence to the world. In the process, we will know where we need to take corrective actions. Of course, these need in-depth research where personal automobiles are fuel- the funds need to be invested

private sector.

Over the years, a lot of investment came in the energy intensive sectors from the developed countries due to the laxity in Indian environmental norm. More such investments may be forthcoming as other countries strengthen their environmental norms to gear their economy towards net-zero emission target. It is high time that India also takes an objective decision regarding the environmental norm, how best these polluting industries may be modernized and whether the investment policy on establishing such industries should be revised. Our major trading partner, European Union, is discussing the imposition of a carbon border adjustment tax on imports based on the amount of carbon emissions resulting from the production of a product in question. India needs to have a well-thought-out policy on energy-intensive prod-

India's agricultural practices need introspection. Free power, free water in the Northern India belt has encouraged deep-water paddy cultivation practices which inadvertently leads to higher emission. India's farm sector nearly accounts for 14 per cent of the country's total greenhouse gas emissions, preceded by electricity (44 per cent) and manufacturing industries and construction sectors combined (18 per cent). Thus, the farm sector needs special focus if we have to achieve net zero emission.

Blast near school in Somalia kills 8

the pioneer

Al-Shabab claims responsibility

Mogadishu: A large explosion outside a school in Somalia's capital on Thursday killed at least eight people, including students, witnesses said. The extremist group al-Shabab claimed responsibility for the attack. The al-Qaida-linked group controls large parts of rural Somalia and continues to frustrate efforts at rebuilding the Horn of Africa nation after three decades of conflict.

The blast sent a plume of smoke above a busy part of Mogadishu during the morning rush hour. The blast shredded part of the school, with emergency workers looking through the collapsed roof beams and wooden benches.

"We were extremely terrified by the blast," said teacher

Chinese military asks US to stop military activities in South China Sea after recent submarine incident

Beijing: The Chinese military on Thursday asked the US to stop "close-in reconnaissance, interference, provocation" in the disputed South China Sea after the recent accident involving an American nuclear-powered submarine in the region.

The USS Connecticut struck an object underwater in the South China Sea (SCS) last month. Eleven sailors on board the submarine were injured in the accident.

Commenting on the US Navy dismissing two senior officers of the nuclear-powered attack submarine, Chinese Defence Ministry Spokesman Sr. Col Wu Qian told media here that since the collision occurred, the US side's awkward and secretive attitude has inevitably raised doubts.

AP ■ BERLIN

has become the latest country

to pass the grim milestone of

100,000 deaths from Covid-19

Germany's disease control

since the pandemic began.

Raising several questions over the

activities of the submarine, Wu said, 'China believes the root causes of this incident are the extensive and highintensity close-in reconnaissance, interference, provocation and show of force made by the US military vessels in the Asia-Pacific region, as well as the United States' militarisation and navigation hegemony in the South China Sea".

We urge the US side to stop such activities immediately, so as to avoid beating its head against the wall," Wu The US in recent years has intensi-

fied aerial and naval patrols in the South

EU regulator authorises Pfizer's Covid vaccine for kids 5-11

AP ■ THE HAGUE

The European Union's drug regula-L tor on Thursday authorised Pfizer's coronavirus vaccine for use on children from 5 to 11 years old, clearing the way for shots to be administered to millions of elementary school pupils amid a new wave of infections sweeping across the continent.

It is the first time the European Medicines Agency has cleared a Covid-19 vaccine for use in young children. The agency said it "recommended

granting an extension of indication for the Covid-19 vaccine Comirnaty to include use in children aged 5 to 11." At least one country facing spiking infections didn't wait for the EMA approval. Authorities in the Austrian capital, Vienna, already have begun vaccinating the 5 to 11 age group. Europe is currently at the epicenter of the pandemic and the World Health Organisation has warned the continent could see deaths top 2 million by the spring unless urgent measures are

The EMA green light for the vac-cine developed by Pfizer and German company BioNTech has to be rubberstamped by the EU's executive branch, the European Commission, before health authorities in member states can begin administering shots.

Earlier this week, Germany's health minister Jens Spahn said shipping of vaccines for younger children in the EU would begin on Dec. 20.

The United States signed off on Pfizer's kids-sized shots earlier this month, followed by other countries including Canada. Pfizer tested a dose that is a third of the amount given to adults for elementary school-age

Interpol elects **United Arab Emirates official** as president

Istanbul: Interpol on Thursday elected a contentious official from the United Arab Emirates as its new president during the international law enforcement body's annual General Assembly held in Istanbul

Mai, Gen, Ahmed Naser al-Raisi, inspector general at the United Arab Emirates' interior ministry, was elected for one four-year term. He has been accused by human rights groups of involvement in torture and arbitrary detentions in the

The vote for president was being closely watched since the first-ever Chinese president of the body, Meng Hongwei, vanished midway through his fouryear term on a return trip to China in 2018. It subsequently emerged that he had been detained, accused of bribery and other alleged crimes.

The international law enforcement body also said Valdecy Urquiza of Brazil was elected to the post of vice president for the Americas, while Garba Baba Umar of Nigeria was elected vice president for Africa.

Al-Raisi is accused of torture and has criminal complaints against him in five countries, including in France, where Interpol has its headquarters, and in Turkey, where the election is taking place.

Jewar airport will **boost mkt: Realtors**

the pioneer

The proposed international The proposed internal airport at Jewar in Uttar Pradesh is likely to boost property market of Noida and Greater Noida and will bring the two cities at par with Gurugram, according to real estate developers and consul-

Prime Minister Narendra Modi on Thursday laid the foundation stone for the Noida International Airport at Jewar in Uttar Pradesh, which would be one of the largest in Asia.

Commenting on the development, industry body CREDAI-NCR President Pankaj Bajaj said: "Noida has been waiting for this day for 20 years. Noida has competed with Gurugram as the premier

Supporters of Bharatiya Janata Party (BJP) during the foundation stone laying ceremony for the Noida International Airport at Jewar, in Gautam Buddha Nagar

suburb of Delhi with one hand tied behind its back." Corporates and MNCs have always preferred Gurugram over Noida due to the proximity of Indira Gandhi International Airport, despite Noida having better infrastructure and access from Delhi, he said.

"Over the next few years, this differential will disappear," Bajaj said, adding that the sentiment in Noida market is reflecting the expectation of a property boom.

Black income detected after IT raids on some Indian entities, neighbouring Country-linked associates PTI NEW DELHI inating e inating evidence in the form of

The Income Tax Department has detected huge unaccounted income after it raided some Indian companies and their associates, being controlled by a neighbouring country, in Delhi, Maharashtra and Gujarat, the CBDT said on Thursday. The searches were carried

out on November 16 on at least 20 premises in Mumbai, Ahmedabad and Gandhidham in Gujarat and in Delhi. Those searched are engaged in the business of chemicals, ball bearings, machinery parts, and injection moulding machinery.

The Central Board of Direct Taxes (CBDT) said in a statement that ₹66 lakh cash was seized while bank accounts holding about ₹28 crore funds have been put under restraint. "A large number of incrim-

digital data showing earning of huge unaccounted income by these companies has been seized and it has been found that these companies are indulging in tax evasion through manipulation of books of accounts," the CBDT claimed. The CBDT frames policy for the Income Tax department.

"These companies have indulged in transferring funds by using a network of shell companies to a neighbouring country." "An estimated amount of ₹20 crore was transferred in the last two years through the above modus operandi," it said. The tax officials found that a Mumbaibased professional firm not only assisted in the formation of these shell companies but also provided dummy directors to these shell companies.

Banning cryptocurrencies could lead to more unlawful usage: BACC

The Blockchain and Crypto Assets Council (BACC), which is part of the Internet and Mobile Association of India (IAMAI) on Thursday said a blanket ban on cryptocurrencies will encourage non-state players, thereby leading to more unlawful usage of such currencies.

BACC's statement comes days after the government listed for introduction in Parliament a bill to ban all private cryptocurrencies, with some exceptions.

In a statement, IAMAI said there would be several negative outcomes of a ban such as zero accountability and traceability of the origin and end usage of the cryp-

tocurrencies; besides a complete evasion of taxes. A ban will also adversely

impact retail investors, it added. The Council has always argued in favour of prohibiting the usage of private cryp-tocurrencies as a currency in India by law since usage as currency is likely to interfere

On the other hand, the Council has advocated their use only as an asset.

with monetary policy and fis-cal controls, the statement

The Council said it believes that a smartly regulated crypto assets business will protect investors, help monitor Indian buyers and sellers, lead to better taxation of the industry, and limit illegal usage of **Markets stage** a comeback as **RIL** rebounds over 6 pc

PTI MUMBAI

Equity benchmark Sensex Lovercame a wobbly start to close with smart gains on Thursday, propelled by hectic buying in index heavyweight Reliance Industries amid expiry of monthly derivative contracts. A depreciating rupee, persistent foreign fund outflows and mixed global cues capped the gains, traders said. Reversing the previous session's losses, the 30-share index ended 454.10 points or 0.78 per cent higher at 58,795.09. Similarly, the broader NSE Nifty surged 121.20 points or 0.70 per cent to close at 17,536.25. Reliance Industries hogged the limelight in the Sensex pack, soaring 6.10 per cent, followed by ITC, Infosys.

Northern Railway GM meets MPs, briefs them about dev initiatives

Ashutosh Gangal, General Manager, Northern Railway held a meeting with the Ministers and Members of Parliament of constituencies that come under the jurisdiction of Ambala & Firozpur Divisions in Chandigarh on Thursday. This is in accordance with the directives given by Minister of Railways Ashwini Vaishnav, advising General Managers of Zonal Railways to increase public outreach to get feedback for providing better service to the nation. Railway related issues in each constituency were discussed with the public representatives to find solutions for the benefit of the passengers.

The GM welcomed the Members of Parliament and briefed them about the various developmental activities and new initiatives taken up by Northern Railway.

TREND BLAZER

I JUMPED ON THE **IDEA: TRIPATHI**

PANKAJ TRIPATHI is on a roll as the actor recently wrapped up Akshay Kumar-starrer OMG and has now started shooting for Srijit Mukherjee's film Sherdil, where he plays the

Sharing his experience of working with Mukherjee, Tripathi says, "He is a fabulous director and needs no introduction. When Sherdil was offered to me, I jumped on the idea. The story has a definite character in itself. It is a beautifully written script and I trust him to bring each character to life convincingly. That's his USP."

'Falling in love is something very subjective and we can't judge a person for their choices because, at the end of the day, it's your heart. You can't direct your heart to do things that a particular person would feel is morally right or wrong. What might be right to you might be wrong for the other person. Considering all the flaws that we all are living with, we should not sit and judge

'Mentally, I got stuck because we had to shut down our shoot halfway through because of the lockdown and we were about 80 per cent done with Bob Biswas. And, we had another 10-15 days of work left. I became between 100-105 kilos during the shoot. Throughout the lockdown, I had to maintain that weight that I had to put on for my character. That was

I WANTED THAT ROLE SO BAD: LEVI

ZACHARY LEVI reveals he auditioned for the role of Star-Lord and ended up helping to get cast as Shazam. Levi took up the role of the superhero in the DC universe, and is one of the most fun movies of the DCEU.

"James [Gunn] and I were friends, we would have game nights at each other's homes, and had a lot of mutual friends. He had asked me to come in and read for Star-Lord, and I did. It led to the next step, and then all of a sudden, I was camera testing. I wanted that role so bad, like so, so, so bad," he shared.

ONE FACE, MANY VOICES

Dhindora is a baby step towards a bigger aspiration, my own universe, BHUVAN BAM tells KHUSHBU KIRTI on the recent launch of his independent web-series

changed the face of YouTube for artists in India. He blazed a path that wasn't as yet to be as well trod as it is now. The comedian, writer, singer and song-writer has donned another feather in his cap by releasing his new creation, Dhindora.

Flying high on the IMDb charts with a whopping 9.8, Dhindora was recently created by BB on his popular YouTube channel, BB Ki Vines. The star did not have to wait for an OTT to approach him, but decided to take matters into his own hand and, sure enough, became the first Indian digital content creator to launch his independent web-series.

In a candid conversation,

♦ From making YouTube videos on your phone to featuring in Forbes 30 under 30, how has the journey been?

The journey's been exciting. Have had the opportunity to meet and work with so many people.

♦You are the first Indian digital content creator to launch your independent web series, Dhindora. Would love to know everything about the

Dhindora is a baby step towards a bigger aspiration, my own universe. To create good stories with my characters in it. Dhindora being the first show

DELHI JAL BOARD GOVT OF NCT OF DELHI

OFFICE OF THE EXECUTIVE ENGINEER (M-57)/AEE-T

huvan Bam, or common-ly known as BB, is an Indian comedian who BB opened up about his mas-ter-piece. An excerpt from the interview is as follows: of its kind, is a cluster of all my life experiences presented with humour and drama. How middle class aspirations and expectations lead to chaos. How society behaves differently in your ups and downs. *Dhindora* is a satire, a reflection of society.

> ♦You are the one-man army behind and in Dhindora. What was the thought behind it? And your vision/objective

> The thought behind Dhindora was to create a universe of my own. Where all my characters bring in different emotions, where they are combined together to portray various faces of our society.

♦What is the significance of

the title?

Dhindora is a word that I've been hearing from people since childhood. 'Bagal mein chora, sheher mein dhindora' means something you are searching for is near you and characters

♦Creating an episodic show out of mainstream OTT platforms, on YouTube, how was the experience?

YouTube was a smooth platworld. It fits perfectly with the form experience. They gave us few more projects that are in context of the show because of the opportunity to act our the chaos created by one of the vision out but since it was a Productions.

unique project (one man and 10 characters), shooting it was a task. Everyone on the set learnt the process through the making of the show itself. Makeup and costumes were time consuming, and since I was the only actor on set, things became tedious.

♦What has been the most enjoyable part of being in the comedy sector?

Satire through comedy is the best way to interact with the audience. I'd like the people sitting on the topmost position in the OTT hierarchy to invest in newcomers and not just stick to their old school data numbers. People are ready to watch something new, and new concepts will automatically win your attention.

As a fellow DUite, I want to ask you if open mics and fest season was how you got into comedy? Did it start with stand-up shows?

I did try stand up comedy once for an OTT platform and wouldn't want to try that again because it's a difficult craft. Kudos to all the stand up comedians but not my cup of

♦What are your plans for the future? Are there any upcoming gigs your fan's should look out for? Or Dhindora

Dhindora season 2 is def-Creating this show on initely on the cards but apart from that, I'm working on a the pipeline under BBKV

Tune into diction

"My co-actress Aishwarya Narkar is helping me with the proper Marathi dialect for my role," shares Kashibai Bajirao Ballal star TARUN KHANNA. By TEAM VIVA

Over the years, Zee TV has introduced the audience to India's leaders and royal figures who have had a significant impact on the country's historical and cultural heritage. After Jodha Akbar and Jhansi ki Rani, Zee TV recently introduced viewers to the untold story of one of the most iconic women of the Maratha empire — Kashibai Bajirao Ballal. The show premiered recently where Tarun Khanna portrays Balaji Vishwanath.

Tarun is playing the role of Bajirao's father — Balaji Vishwanath Ballal in the show, who was a powerful soldier in the army of Chhatrapati Shahu Maharaj. He also holds a senior position in the king's court and is known for his wisdom and

wordplay. To play this role of Balaji authentically on the small screen, Tarun has learnt the proper Marathi dialect. As the actor shared, "I

was honoured to be offered a challenging role like this and I am very excited to portray the part of Peshwa Balaji Vishwanath Ballal on our show. It holds such a strong historical relevance in our nation's vast history and I will give my 100 per cent to play the role as authentically as possible. I have been learning the proper Marathi dialect to personify my character and do justice to my role in Kashibai Bajirao Ballal".

(Watch Kashibai Bajirao Ballal every Monday to Friday at 8 pm, only on Zee

ON DEBUT, IYER SHOWS THE WAY AS INDIA SCORE 258/4

ebutant Shreyas Iyer was guts, aggression and flair rolled into one during an unbeaten knock of 75, which was nothing short of a baptism by fire, as India ended on 258 for four on the first day of the opening Test against New Zealand here on Thursday.

On a pitch that had variable bounce and didn't offer enough pace off it, Iyer put his best foot forward while facing 136 balls, hitting seven boundaries and two sixes on his very first day in office in the longest format.

Coming in at 106 for 3 at the fall of Cheteshwar Pujara's (26 off 88 balls) wicket, the debutant, in another half an hour, found his skipper Ajinkya Rahane's (33 off 65 balls) promising knock come to a halt as Kyle Jamieson (15.2-6-47-3) and Tim Southee (16.4-3-43-1) rocked the middleorder in inspiring post-lunch spells.

But at 144 for 4, Iyer took charge with senior all-rounder Ravindra Jadeja (50 batting, 100 balls) for company as they resurrected the innings, at the same time batting with a lot of intent to keep the score-

Jadeja scored his 17th Test fifty and did

his trademark sword celebrations much to the delight of the crowd.

One doesn't know if Sunil Gavaskar, while presenting the India Cap to Iyer, mentioned about a very special player to him. Someone, who had announced his arrival at this very ground 52 years back in 1969 against Bill Lawry's Australia.

There are very few in Indian cricket who have received unadulterated love like Gavaskar's illustrious brother-in-law Gundappa Viswanath. His hundred on debut at this very

ground is a part of Indian cricket's most warmly recounted folklores.

They say every blade of grass at Green Park had felt punch in Viswanath's shots and remembers him forever.

He might not be of Viswanath's class but from Thursday onwards, Green Park will also remember Iyer for once again proving the old concrete jungle saying: "A good player, is a good player, is a good player.' Doesn't matter whether one hails from

a T20 generation, what ultimately matters is sound temperament to succeed at high-

Iyer proved that all those hard yards put in during Ranji Trophy and the 1000 plus

runs season that he once had, haven't gone

It did help that he wasn't just looking to survive but score as there were pull shots, lap scoops, drives down the ground and

There was Mumbai's 'khadoos' schooling in the manner he played Jamieson and Southee with caution.

The six over long on off left-arm spin-

was that of a vintage 50-over batter and the shuffle towards off-stump to play the lap scoop off left-arm spinner Rachin Ravindra was straight from the IPL play-book. Iyer had it all and it was on display.

ner Ajaz Patel, while giving him the charge,

It did help that Patel (21-6-78-0) and off-break bowler William Somerville (24-2-60-0) didn't find any ways to assist the pressure that was time and again created by the

Patel, who literally bowls with a halfstep-full-jump run-up, either pitched too short or gave the ball enough air to give batters the option to either cut him or come

down the track to drive him off length. Shubman Gill (52 off 93 balls) did that with elan before perishing on a day when a hundred was there for the taking and he looked good to reach the landmark before Jamieson exposed the gap between his bat and pad. But there was no stopping Iyer, who save a strong leg before appeal by Sommerville that turned out to be an Umpire's Call, was ready to wait for the loose deliveries. The 113-run unbroken partnership between Jadeja and Iyer might prove

to be the winning one in the final analysis. That's because if India's batters found

the Black Caps' willow wielders, with very little experience of dealing with Ravichandran Ashwin, Axar Patel and Jadeja in these conditions, will find it doubly difficult.

If Iyer's debut innings was the brightest spot, comeback man Gill's taking the attack back to the opposition camp in the first session couldn't be seen in isolation either. It was a stage that was set by Gill and had Jamieson not bowled a beauty with the old ball, he should have completed what was

But more importantly what Gill and Iyer did on the day was to send another warning signal for Pujara and Rahane, who are now on borrowed time.

expected to be his maiden Test hundred.

Rahane was done in by low bounce when he was expecting the ball from a near 7 feet tall Jamieson to rear up. With 12 Tests without a big score (India might not bat twice), Rahane's record is not reading too well for a stand-in skipper.

Similarly, Pujara being stopped from scoring by spinners, whom younger players like Gill and Iyer played freely, is an indicator that he either has to reinvent himself

Pressure mounts on Pujara-Rahane ahead of SA tour

Time is running out for Cheteshwar Pujara and Ajinkya Rahane after another failure and this time, in reasonably conducive home conditions against an attack which wasn't half as threatening as Australia and England.

Both Pujara and Rahane squandered decent starts on a day when the willows of debutant Shreyas Iyer and Shubman Gill produced half centuries against New Zealand in the opening Test here. And the failure was against

Mominul tells B'desh to 'close ears' ahead of Pakistan Tests

 $B_{\text{Haque urged his team-}}^{\text{angladesh captain Mominul}}$ mates to ignore criticism and concentrate on the job at hand ahead of the Test series at home against Pakistan begin-

ning on Friday.

The hosts kick off the new Test Championship cycle with the two-match series against Pakistan starting in Chittagong, having never beaten the visitors either at home or away.

The series follows a dismal run in T20Is, with Bangladesh losing eight consecutive matches. Five losses at the World Cup were followed by a three-nil whitewash at home by semifinalists Pakistan. "This is not the first time

said Test captain Mominul, who was not part of T20 side. "People got mentally weak... because they pay atten-

tion to what is being said. My

Bangladesh have gone through

such a phase. We have over-

come such times before too,"

cannot stop anyone from talking. So it's better to keep your ears closed," he said on Thursday. Adding to their woes, star player Shakib Al Hasan, bats-

job is to bring back focus. You

man Tamim Iqbal and an inform all-rounder Taskin Ahmed, will all miss the first Test due to injury.

Pakistan captain Babar Azam insisted his team will not take the hosts lightly in their home conditions. "This looks a typical

Bangladeshi pitch which will help spinners. So, we are aware of the conditions," he said. Pakistan announced their

12-man squad for the opening Test, which included uncapped batsman Abdullah Shafique.

Alam and Imam-ul-Haq also made the 12-man squad.

FC Goa, Jamshedpur FC eye ISL season's 1st win

Smarting from a 0-3 drubbing in their season opener, FC Goa will hope to get their cambridge fairly inexperienced line-up at the back. Leander D'Cunha and Sanson Pereira made their second

The loss against Mumbai City FC on Monday meant FC Goa's league-record 15match unbeaten streak came to a crashing halt.

It was a bitter pill to swallow for head coach Juan Ferrando, his wards and also the fans. Friday, though, presents an opportunity for

the Gaurs to redeem themselves as they clash against Jamshedpur FC in a match that will see both teams seeking their first win.

Speaking to the media ahead of the game, Ferrando shared his thoughts on the performance in the last match and the team's plans for The season opener saw Ferrando name a

Gabriel Jesus tapped in from Bernardo Silva's deft knockdown on 76 minutes to settle an absorbing match at the Etihad after Raheem Sterling had cancelled out Kylian

Before Jesus sent the crowd wild in Manchester, Neymar shot wide to blow a golden chance to put the Parisians ahead.

Lionel Messi had a low-key game and Sergio Ramos, named among the substitutes, was not called on to make his PSG debut. Pep Guardiola's City, the beaten finalists

last season, are guaranteed of winning Group A, while PSG qualified in second place despite the defeat because RB Leipzig thrashed Club Brugge 5-0 in Belgium.

Karim Benzema scored just hours after being found guilty by a French court in a blackmail case as Real Madrid eased past Sheriff Tiraspol 3-0 to reach the knockout

The French striker notched his team's third goal of a confident display in Transnistria after David Alaba's free-kick and Toni Kroos' strike as Real took revenge for their shock 2-1 loss to Sheriff in Madrid

earlier this season. The victory sent the Spanish giants back to the top of Group D, two points clear of second-placed Inter Milan, who also qualified for the last 16 after beating Shakhtar Donetsk 2-0 thanks to two Edin Dzeko

Sporting Lisbon reached the knockout phase for the first time since the 2008-2009 season as they beat Borussia Dortmund 3-

1 in the Portuguese capital.

Liverpool were already qualified for the last 16 going into their tie against Porto at Anfield and Thiago Alcantara's superb low shot and Mohamed Salah's sixth goal of this season's group phase wrapped up a comfortable 2-0 win.

Atletico Madrid lost 1-0 at home to AC Milan after a dramatic late winner from Milan substitute Junior Messias, a defeat that leaves the Spanish side bottom of Liverpool's Group B.

Diego Simeone's team must beat Porto in their final game on December 7 and hope that Liverpool win away against AC Milan, who sit just a point behind the

Lakshya set to become youngest Indian to qualify for World Tour Finals

PTI NEW DELHI

India's Lakshya Sen is set to become the youngest Ashuttler from the country to qualify for the season-ending HSBC BWF World Tour Finals which will be held in Bali, Indonesia from December 1.

The 20-year-old from Almora has enjoyed an impressive run on the BWF world tour and is currently ranked fifth in the World Tour rankings.

He will join Kidambi Srikanth (ranked 3rd) in the men's singles competition, two-time Olympic medallist P V Sindhu (4th) in women's singles and women's doubles pair of Ashwini Ponnappa and N Sikki Reddy (6th) at the event, which was shifted from Guangzhou to Bali due to the COVID-

Srikanth, Sameer Verma, Sindhu and London bronze- medallist Saina Nehwal have competed in the year-ending tournament in the past.

While Sindhu is the only Indian to win the BWF World Tour Finals in 2018, Saina had reached the summit clash of the BWF Superseries Finals in 2011. Srikanth and Sameer have reached the knockout stage but couldn't enter the finals.

Lakshya, who claimed five titles in 2019 before COVID-19 suspended the international circuit, has been on a roll with a final finish at Dubai Open and semifinal results at Denmark Masters and Hylo

In the Indonesia leg, Lakshya couldn't progress deep in the draw after losing twice to top seed and two-time world champion Kento Momota of Japan. The official list of players qualifying for the World

Tour Final will be announced after the conclusion of the ongoing Indonesia open Super 1000 event. The top eight players and pairs for each category in the Road to Bali Rankings will be invited to compete, where only a maximum of two players or pairs

per Member Association are eligible to participate

in the World Tour Finals.

Sindhu, Praneeth enter quarters

 $T_{ ext{Sindhu and B Sai}}^{ ext{op Indian shuttlers PV}}$ Praneeth progressed to the quarterfinals but former champion Kidambi Srikanth made an early exit in the second round of the Indonesia Open Super 1000 tournament here on Thursday.

Two-time Olympic medallist Sindhu hardly broke a sweat to win the second round clash 21-12 21-18 against world No. 26 Germany's Yvonne Li in 37 minutes at the USD 850,000 event. In the women's singles

quarterfinals, the reigning world champion, seeded third, will face South Korea's Sim Yujin. Praneeth staved off a

spirited fight from France's world No. 70 Christo Popov, claiming a 21-17 14-21 21-19 win in a gruelling match that lasted an hour and 23 minutes.

The world No. 16 Indian will meet Olympic champion and former world no No. Viktor Axelsen of Denmark next.

The second seeded Axelsen, a world champion, ended the campaign of Srikanth, beating him 21-14 21-18 in 37 minutes.

The sixth seeded men's

The Indian pair, ranked 11, will square off against Malaysian combination of Goh Sze Fei and Nur Izzuddin

the last eight.

Up against Li for the first time, world No. 7 Sindhu looked completely in control from the beginning. Such was her dominance that the two-time Olympic medallist took the first game with ease, winning seven consecutive

points at one stage.

Li made a good recovery in the second game and it was more evenly contested. But Sindhu persisted and did not let the German gain an advantage over her. Praneeth made a good

start, jumping to 8-2 lead early on but Popov made it 14-12 after he reeled off seven straight points just after the break. The Indian, however,

held his nerves to pocket the opening game.

The second game was a tight affair as Popov fought hard and grabbed a slender 11-10 lead at the interval. He moved to 15-14 before sending down six points on the trot.

In the decider, Praneeth led 11-7 at one stage but again a seven-point burst helped Popov turn the tables on his fancied rival. However, Praneeth ensured he had the last laugh in the end. In the other second round match, Axelsen used

the court well to make Srikanth move around. He waited for the Indian to make mistakes and produced some great angled returns to trouble him. The result was that

Axelsen led by six points at the first break. Srikanth fought his way back to 11-14 and 13-16, only to give it away with a loose shot. In the end, a sharp return and then Srikanth going to the net gave the opening game
