Won't spare corrupt: Modi

‘No matter how powerful, persons betraying nation won't be let off’

PNS ■ NEW DELHI

Prime Minister Narendra Modi on Wednesday asserted that no matter how powerful a person may be, stern action should be taken against those who work against the interest of the nation or its people by indulging in corruption.

Virtually addressing a joint conference of the CVC and the CBI at Kevadia in Gujarat, the PM asked the agencies to ensure that there are no safe havens anywhere in the world for those who betray the country.

Modi's assertions come against the backdrop of the Centre's engagement in legal proceedings to bring back alleged economic offenders like Vijay Mallya, Nirav Modi and Mehul Choksi, who have taken refuge in foreign countries after allegedly duping the nation of thousands of crores of rupees.

"You have to remember that your partnership is with this 'mitti' (soil), with *Maa Bharti* (Mother India). There should not be any safe havens anywhere in the world for those who betray the country or its people," Modi said in his address.

Prime Minister Narendra Modi visits the Mahaparinirvana Temple, on the occasion of the Abhidhamma Day, at Kushinagar in Uttar Pradesh on Wednesday PTI

"However powerful one may be, stern action should be taken against those who work contrary to the national interest or against the people of the country. Everyone should continue to work in the national interest," he said.

Modi said due to the hard work of his Government in the last six-seven years, a faith has been established among people that corruption can be stemmed.

"In the last six-seven years, we have been able to establish a faith among people that it is possible to stop corruption in the country. People of the

country have faith today that they will get benefits of Government schemes without any give and take or without any middlemen, he said.

"Corruption, big or small, takes away the rights of common people. It is a hindrance in the progress of the country and affects our collective energy," he added.

Taking a swipe at earlier dispensations, Modi said, "The way the earlier Government functioned, it lacked the political and administrative will to fight corruption. Today, there is a political will and administrative reforms are also being

carried out to achieve the goal."

Post-Independence, the mindset of the Governments was to keep everything under their control. Those Governments kept maximum control with themselves and due to it, the system witnessed many wrong practices, he said.

Maximum control, be it at home, in family or in the country, causes maximum damage, he said.

Modi added, "We started as a mission to simplify the life of people by reducing controls, we believe in minimum Government and maximum Governance."

350 new routes,
UDAN has taken
big leap, says PM

PNS ■ KUSHINAGAR

Prime Minister Narendra Modi on Wednesday said that the Centre has approved around 900 new air routes under the UDAN (Ude Desh ka Aam Nagrik) scheme of which 350 have already become operational while more than 50 new airports, or those which were not in service earlier, have become operational.

"The Government is also working on preparing more than 200 airports, heliports, and water ports for seaplanes in the next four years," the Prime Minister said while addressing a big public meeting here after inaugurating and laying the foundation of 12 projects worth over ₹345 crores, including a ₹280 crore 500-bedded new medical college in Kushinagar.

Modi pointed out that the goal behind all these steps is to provide better connectivity to people living in the remotest corners, while air, rail, road, and waterways add to people's comfort.

The Prime Minister said more middle-class people were able to avail flight services today than in the past due to the steps taken by the Government.

SC raps UP for slow
Lakhimpur probeCourt asks Govt to
shed image, orders
witness protection

PNS ■ NEW DELHI

The Supreme Court on Wednesday reprimanded the Uttar Pradesh Government for "dragging its feet" in the probe into Lakhimpur violence and ordered the protection of witness. The apex court cautioned the State police that probe should not be an "unending story" and UP Government is required to "dispel" that impression and should ensure recording of statements of witnesses before magistrates.

"We think you are dragging your feet, please dispel that impression," said the top court, and red-flagged the issue of non-recording of statements of nearly 40 prosecution witnesses, of the total 44, before judicial magistrates under section 164 of the CrPC.

"Please ask them to immediately take steps to record section 164 statements. That is the most important thing... Protection to the victims as well as the witnesses," said the bench comprising Chief Justice N V Ramana and justices Surya Kant and Hima Kohli.

Statements under section 164 of the CrPC (Code of

Criminal Procedure) are recorded before a judicial magistrate and they have evidentiary value. The State Govt informed the court that statements of four out of the 44 witnesses have been recorded by the judicial magistrate.

Ten people, including Union Minister of State for Home Ajay Mishra's son Ashish Mishra, have been arrested in connection with the violence that has triggered a political slugfest ahead of the crucial Assembly elections in the State.

The bench also raised the issue of filing of the status report on the day of hearing with the CJ observing, "We waited till 1 am last night for any filing. But we received nothing."

Senior advocate Harish

Salve, who appeared along with advocate Garima Prasad for the State Government, said the status report has been filed in a sealed cover on Wednesday because of the impression that it was for the perusal of the court only. "No that was not required and we have just received it now...We never said anything about sealed covers," the bench said while declining the request to hear the matter on Friday. It listed the next hearing on October 26.

The Bench said, "Mr Salve, you said that you (police) have examined 44 witnesses and out of them, four witnesses' statements have been recorded under section 164 (before a judicial magistrate) of CrPC. Why have you not recorded the statements of other witnesses under 164?"

BJP open to alliance with
'nationalist' AmarinderCaptain is a
patriot: BJP

DEEPAK K UPRETI ■ NEW DELHI

A day after former Punjab Chief Minister Amarinder Singh announced that he would launch his own political party and hoped for a "seat arrangement" with the BJP in poll-bound Punjab, the saffron party said it is open to alliances with those who put national interests first.

With Amarinder set to float his own political outfit with the BJP which has lost political ground in the State following Akali Dal's exit from the National Democratic Alliance in protest against three Central farm laws, Punjab may witness a triangular election battle with the ruling Congress and the AAP being the other two strong contenders for the seat of power in the State.

Given the fact that farmers from Punjab form the core of

the agitation against the three farm laws which they feel may hit the traditional "mandi system" of sell and purchase of agricultural produce and may even end minimum support price, sooner or later, the BJP may think in terms of seeking some sort of reconciliation with the farmers to pave the way for an alliance with Amarinder.

BJP party general secretary and Punjab in-charge Dushyant Gautam on Wednesday said "Amarinder is a patriot" and the BJP is open to an alliance with him. "Amarinder was once a soldier

and his stand on the issues of national security should be praised," the BJP leader said.

On Amarinder's condition of resolving farmers' issues, BJP general secretary said Singh did not talk about ending the farmers' agitation. "He talked about farmers' issues. We are committed to it and are working for the welfare of farmers. If the time comes, both will sit together and discuss farmers' issues," Gautam was quoted as saying by news agency PTI.

As far as the agitation is concerned, it is politically motivated, he alleged.

"Our main agenda is nationalism and keeping the nation first. All those parties who want to form alliances with us on this agenda are welcome," he said.

Amarinder has openly announced that he would see that congress Punjab chief Navjyot Singh Sidhu is defeated in the polls as he is a "threat to the national security".

4 LeT terrorists killed in Op All
Out, migrants' murder avengedSoldier martyred,
2 hurt; 17 ultras
killed in 2 weeks

MOHIT KANDHARI ■ JAMMU

The joint team of security forces on Wednesday avenged the death of migrant labourers by eliminating four Lashkar-e-Tayyeba (LeT) terrorists in the South Kashmir districts of Shopian and Kulgam. Three Army jawans also sustained bullet injuries during the operation in the Dragad area of Shopian.

One among them, Sepoy Karamveer Singh, succumbed to his injuries in hospital. He hailed from the Rampur area of Madhya Pradesh.

After the recent killing of migrant labourers from Bihar and Uttar Pradesh, the security forces have launched an operation All Out to flush out the terrorists.

So far, 17 terrorists have

Security forces during an encounter with terrorists at Nar Khas forest area of Poonch district on Wednesday PTI

been eliminated in 11 encounters in the last two weeks. Eleven civilians, including five laborers, also lost their lives during targeted killings.

Kashmir range IGP Vijay Kumar said two LeT terrorists

to have targeted a carpenter Sager Ahmad hailing from Saharanpur area of Uttar Pradesh.

In the second encounter, a joint team of security forces neutralised LeT district commander Gulzar Ahmad Reshi in the Devsar area of Kulgam. Reshi was behind the killing of two poor labourers from Bihar.

According to a police spokesman, a joint cordon and search operation was launched in the Dragad area of Shopian after receiving inputs about the presence of LeT terrorists in the area on Wednesday. After confirming their whereabouts in the areas the terrorists were given the opportunity to surrender.

Instead of paying heed to these appeals, the terrorists chose to open indiscriminate firing on the security forces, he said.

The police spokesman said in the encounter, two terrorists were killed and their bodies were retrieved from the site of the encounter.

Delhi Govt to pay
₹50,000/hectare
to kisan for crop
damage: Kejriwal

STAFF REPORTER ■ NEW DELHI

Chief Minister Arvind Kejriwal on Wednesday said the Aam Aadmi Party (AAP) in Delhi will ensure that farmers in the city who suffered losses due to crop damage this year get compensation at the rate of ₹50,000 per hectare.

Addressing media online, Kejriwal said Delhi farmers need not get distressed over crop damage as their son stands with them. "I have directed District Magistrates and SDMs to complete the surveying of damaged crops in two weeks. Compensation should reach the farmers' accounts within one to one and a half months after that," he added.

A delegation of farmers had recently met the chief minister seeking help of the Government in view of crop damage due to rain.

Char dham yatra resumes as rain
fury subsides after killing over 50

PNS ■ DEHRADUN/NEW DELHI

As rain subsided in Uttarakhand after taking lives of over 50 people and damaging properties worth hundreds of crores, the "char dham" yatra resumed on Wednesday. The "char dham" pilgrimage was suspended for three days, from October 17 to 19, amid warning of heavy rainfall in the hill State during this period.

At least 14 people, including eight trekkers from West Bengal and Delhi, have gone missing at separate places in Uttarakhand's Uttarkashi district amid snowfall.

After its late withdrawal from northwest India, the southwest monsoon remains active over some parts of the country. According to the India Meteorological Department (IMD), the southwest monsoon will withdraw completely from

Stranded tourists being evacuated by the NDRF from the landslide affected area following heavy rain in Nainital PTI

the entire country around October 26, paving the way for the commencement of the

northeast monsoon. There will be rainfall activity over Kerala, Tamil Nadu, Puducherry,

coastal and south Karnataka during October 20-24.

Reports on P3

Can't promise no
coercive action
as Param Bir not
traceable: Maha

PTI ■ MUMBAI

The whereabouts of former Mumbai Police Commissioner Param Bir Singh were not known, the Maharashtra Government on Wednesday told the Bombay High Court.

As Singh is not traceable, it did not wish to continue its assurance that no coercive action (such as arrest) would be taken against him in an Atrocities Act case, the Government said.

"He isn't traceable. In these circumstances, we do not want to continue our earlier statement where the Government said it would not take any coercive action against him," State senior counsel Darius Khambata told a division bench of Justices Nitin Jamdar and Sarang Kotwal.

Denied bail, Aryan
moves Bombay HC

TN RAGHUNATHA ■ MUMBAI

A Special Court set up under the Narcotic Drugs and Psychotropic Substances (NDPS) Act on Wednesday rejected the bail pleas of Bollywood superstar Shah Rukh Khan's eldest son Aryan Khan and two others in the mid-sea drug bust case, prompting Aryan's lawyers of to challenge the sessions court's order in the Bombay High Court.

Apart from Aryan's bail application, the two other bail pleas that Additional Sessions Judge VV Patil rejected — in his much-awaited order — were that of his co-accused Arbaaz Merchant and Munmun Dhamecha.

"Bail application nos 2571/21, 2576/21 and 2583/21 stand rejected. Accordingly, the bail applications are disposed of. The authenticated copy of roz-

nama be supplied to advocates and SPP," the Judge noted in his order that he passed at 2.45 pm.

Less than two hours after the Special Court rejected his plea, Aryan's lawyers moved the high court challenging the lower court's order denying him bail in the mid-sea drug bust case.

WEAPONS, 1 KG DRUGS RECOVERED AT BORDER
Chandigarh: The Punjab Police and the BSF have recovered a huge cache of weapons near the India-Pakistan border in the Khemkaran area of Tarn Taran district. In a joint operation, the Counter Intelligence wing of the Punjab Police and the BSF recovered 22 pistols, 44 magazines and 100 rounds of ammunition.

COVID-INDUCED NIGHT CURFEW LIFTED IN UP
Lucknow: In view of improved Covid-19 situation in UP, the State Government lifted night curfew between 11 pm to 6 am.

Registration for BH series vehicles soon

NEW NUMBER PLATE SERIES WOULD HELP IN SEAMLESS TRANSFER OF VEHICLES ACROSS COUNTRY

PNS ■ DEHRADUN

With the launch of the new software by next week, the eligible applicants in Uttarakhand will be able to apply for a new form of number plates called Bharat (BH) series for the seamless transfer of vehicles across the country.

On August 28, the Ministry of Road Transport and Highways (MoRTH) issued a notification stating that the owners of the vehicles bearing the BH registration number plate will not have to re-register their vehicles after shifting to a new State.

A BH series number plate will comprise four components in the format YY BH #### XX where YY indicates the digits of the year when the vehicle was first registered, BH indicates series code, #### represents four random numbers and XX indicates two English alphabets. As per the rules, the vehicle owners who have to shift to new states frequently due to the nature of their jobs are required to register their vehicle in the new states too.

For this, the owners need to get permissions like No Objection Certificate (NOC) among others from the previous state to register it in the new state. Since the whole cumbersome process takes a considerable amount of time of the owner in the old as well as in the new State every time he/she relocates, MoRTH introduced registration of a new form of number plates called BH series.

Informing about this, the deputy transport commissioner Sanat Kumar Singh said that the whole BH series registration process is completely digital to prevent any hassle to the applicants in their respective locations.

He said for now, the registration is on a voluntary basis and only the central and State

Government employees, defence personnel and the employees of those private sector companies which have offices in more than three states are eligible to apply for the BH series number plates.

He asserted that only up to five per cent of the owners of the registered vehicles in the State apply for vehicle transfer every year but added that the new format will certainly help people.

He said the department is currently running tests on the new software for the registration of Bharat (BH) series vehicles and will be launched by next week. "With the launch of the software by next week, the eligible people in Uttarakhand can also apply for BH series number plates," Singh said.

Five killed in road accident in Pithoragarh

PNS ■ PITHORAGARH

Five persons including a retired brigadier were killed in a road accident in Pithoragarh district on Wednesday. The passengers of the ill-fated vehicle were returning to their native village from Karnprayag.

According to the information received from the police, retired Brigadier (Retd) Vinod Kumar Chand who lived in Pithoragarh had gone to his native village Buga to attend a religious ceremony.

On the advice of priests Chand went to Karnprayag for a bathing ritual before the worship. On Wednesday he along with seven others was returning from Karnprayag when the vehicle fell into a gorge on Thal-Muwani road.

According to the police five people died on the spot while two others were seriously injured. The injured have been admitted to the district hospital.

BJP president Nadda takes stock of U'khand disaster

PNS ■ DEHRADUN

National president of the Bharatiya Janata Party (BJP) JP Nadda called State president Madan Kaushik on phone on Wednesday to take stock of the ongoing relief works in Uttarakhand after the heavy rain created a disaster like situation in the State.

The party has also postponed its events and programmes for the next four days in the state due to the natural disaster in the State. The media in-charge of the party in the State, Manvir Singh

Chauhan, informed that Kaushik also talked to the district magistrates of the Kumaun division to provide help in the relief work.

He also spoke to the senior officials of the party in the districts and directed them to work in coordination with the respective district administrations to provide ration kits, clothes and other necessary items.

Kaushik also formed teams of party workers and directed them to provide necessary help and facilities ration kits, clothes and other necessary items to people of the affected areas in the Kumaun division, added Chauhan. He also informed that the BJP state president has postponed all the events of the party till October 24 considering the recent disaster in the State.

FDA serves notice to famous restaurant for food safety violations

PNS ■ DEHRADUN

The food safety and drug administration (FDA) in Dehradun has served a notice to Doon Darbar restaurant located near Mussoorie Division road for violation of food safety laws.

The senior food safety officer of the administration, Yogendra Pandey informed that he along with his team arrived for a surprise inspection in Doon Darbar where they found that the food was being cooked in unhygienic surroundings.

He said two crates of rotten tomatoes were also found in the restaurant's kitchen besides the waste of vegetables and some meat supplies. "We have destroyed all the spoiled food supplies and collected samples of cheese and some other food supplies which will be sent for lab testing in Rudrapur," stated the officer. He said that the workers of the restaurant have claimed that the rotten tomatoes and other spoiled supplies were kept to throw them later.

Since the supplies were kept in the kitchen despite their decaying state, Pandey said that it was a violation of food safety law. He said that the FDA has served a notice to the restaurant and has asked for clarification on the matter. Legal action will be taken against the restaurant management if the administration receives an unsatisfactory response or no response within one week, added Pandey.

Healthy bread of UPES Alumnus finding customer favour

Dehradun: FitBread, a start up aimed at providing a healthy alternative to the bread lovers, is catching the imagination of people. Set up this year by UPES School of business, Dehradun alumnus Aryan Singh and his friends Akshit Saxena and Aditya Kashyap, the food start-up was supported by UPES council for innovation and entrepreneurship (UCIE).

Aryan Singh, co-founder of FitBread says, "We realised that breads being produced for commercial purpose were using preservatives, artificial colours, emulsifiers, improvers, acidity regulators and flour treatment agents in high quantities. Some of the most popular brands have only 38 per cent wheat flour in their Atta bread and only 32% in brown bread, the remaining is Maida or white flour. In multigrain loaves of bread, the grains are just used on the outer layer of the loaf."

Aditya Kashyap, one of the founders of FitBread, is a diet chef and started experimenting with various combinations, to find out where he could make improvements.

MLA Batra lays foundation of Valmiki temple

PNS ■ ROORKEE

The Roorkee MLA Pradeep Batra laid the foundation stone of Maharishi Valmiki temple in Ganeshpur area of the town on the occasion of Valmiki Jayanti on Wednesday. Speaking on the occasion he said soon the majestic temple of the Saint would get completed. He said every effort would be made for the welfare

of the downtrodden. On the day Batra also attended the inaugural ceremony of Gurukulam in Roorkee. Mayor Gaurav Goyal, Former minister Thakur Sanjay Singh, Councillor Kuldeep Tomar, former district panchayat member Sukhvinder Valmiki, Sanjeev Tomar, Abhishek, Satish Kumar and hundreds of party workers were present on the occasion.

Events lined up to celebrate 100 cr jab feat

PNS ■ NEW DELHI

With around 99.4 crore doses already administered on Wednesday, the Government hopes to complete 1 billion, or 100 crore, doses by Thursday. The Government has lined up a string of programmes for the 'great achievement which comes nine months after the vaccination drive started in the country.

Sources said party leaders have been asked to visit vaccination centres; party chief JP Nadda will be in Ghaziabad in UP, which votes early next year, for the occasion, while General Secretaries Arun Singh and Dushyant Gautam will be in Tamil Nadu's Coimbatore and Lucknow, respectively.

To mark the billionth shot the government had also planned to make announcements over loudspeakers on trains, planes, and ships, and hoist the national flag at the Red Fort in Delhi. In the meantime,

the Government said that it has set a target of vaccinating the entire adult population of the country by the end of 2021. Bharati Pravin Pawar, Union Minister of State for Health and Family Welfare said that more than 99 crore doses of Covid-19 vaccines have been administered in the country so far, the Minister added.

Only one other country has administered over a billion vaccine doses - China (crossed 1 billion doses in June), which is also the only other country to have a population of more than one billion.

Last month the centre - to celebrate Prime Minister Narendra Modi's 71st birthday - administered over 2.5 crore doses in a day; that was the fourth time over one crore doses were given in a day.

The administering of one billion vaccine doses - given the unknown and unpredictable nature of the coronavirus, the scale and intensity of the pandemic, and the challenges sur-

CO2 emissions to keep rising for want of bids on safe constructions: Report

PNS ■ NEW DELHI

The economic consequences of the Covid-19 pandemic caused CO2 emissions from buildings and construction to fall significantly in 2020, but a lack of efforts to decarbonise in real sense means that emissions will keep rising and contribute to dangerous climate change, according to the 2021 Global Status Report for Buildings and Construction.

The report, published by the UN Environment Programme (UNEP)-hosted Global Alliance for Buildings and Construction (GlobalABC), finds that in 2020, the sector accounted for 36 per cent of global final energy consumption and 37 per cent of energy related CO2 emissions, as compared to other end use sectors.

While the level of emissions within the sector are 10

per cent lower than in 2015, reaching lows not seen since 2007, this was largely due to lockdowns, slowing of economies, difficulties households and businesses faced in maintaining and affording energy access and a fall in construction activity. Efforts to decarbonize the sector played only a small role.

With large growth projected in the buildings sector, emissions are set to rise if there is no effort to decarbonize buildings and improve their energy efficiency. In Asia and Africa, building stock is expected to double by 2050. Global material use is expected to more than double by 2060, with one-third of this rise attributable to construction materials.

"This year showed that climate change is an immediate, direct threat to every community on this planet, and it is

only going to intensify," said Inger Andersen, Executive Director of UNEP. "The buildings and construction sector, as a major source of greenhouse gas emissions, must urgently be decarbonized through a triple strategy of reducing energy demand, decarbonising the power supply and addressing building materials' carbon footprint, if we are to have any chance of meeting the Paris Agreement goal of limiting global warming to 1.5C."

The GlobalABC's Global Buildings Climate Tracker found that there have been some incremental improvements in action to decarbonize and improve the energy efficiency of the sector.

In 2015, 90 countries included actions for addressing building emissions or improving energy efficiency in their Nationally Determined Contributions (NDCs) under

the Paris Agreement. This number has now hit 136, although ambition varies.

Since 2015, an additional 18 countries have put in place building energy codes - a move that is crucial to shift emissions downwards - bringing the total to 80. Local cities and governments have also developed codes. Investment in energy efficiency rose to over 180 billion USD in 2020, up from 129 billion in 2015. Green building certification has increased by 13.9 per cent compared to 2019.

Overall, however, the report finds that these efforts are insufficient, both in terms of speed and scale.

Other key findings of the report include: two-thirds of countries still lack mandatory buildings codes; most of the increase in energy efficiency spending came from a small number of European countries; too small a share of finance goes into deep energy retrofits, and there is a lack of ambitious decarbonization targets in NDCs.

Energy demand in the

buildings and construction sector is likely to rebound as economic recovery efforts take hold and as pent-up demands for new construction are realized. By 2030, to be on track to achieving a goal of net-zero emissions by 2050, the International Energy Agency says that direct building CO2 emissions would need to decrease by 50 per cent while indirect building sector emissions will have to drop through a reduction of 60 per cent in power generation emissions.

'Flower protein expression' could accurately predict hospitalisation or death: Study

PNS ■ NEW DELHI

Especially helpful in cases of the early phase of Covid-19 illness, the 'flower protein expression', a particular protein on the cell surface, could accurately predict hospitalisation or death as well as forecast who would have a less serious infection, scientists have said in a study published in EMBO Molecular Medicine.

The study shows that analysis of a particular protein on the cell surface is likely to predict who is in danger of a serious infection caused by the virus, explains Assistant Professor Rajan Gogna, lead author of the new study.

"Cells have a so-called fitness status, and by analysing it we could predict hospitalisation or death in Covid-19 patients, potentially making such a biomarker an earlier prediction tool, especially because it can be detected from the common nasal swap covid-19-tests," says Rajan Gogna from the Won Group at the Biotech Research & Innovation Centre.

If the cell fitness status is poor, it indicates that the cell

does not develop well, either because the cell is aged, lacks reliability, has an ill-functioning metabolism or is disease prone etc. Earlier in 2021, the research team discovered that fitness status is expressed in proteins called flower proteins. These flower proteins are on the surface of the cell, and they are expressed in two forms, explains Rajan Gogna.

"In one form, they tell the surrounding cells that this cell is doing well. In the other form, they indicate to the surrounding tissue that this particular cell is not doing well and thus has a bad fitness status. If the cell's fitness status is not great, the cell will get phased out and killed by the surrounding cells."

Especially helpful in cases of the early phase of COVID-19 illness, the flower protein expression could accurately predict hospitalisation or death as well predict who would have a less serious infection.

"The method could predict who needed hospitalisation with an accuracy of 78.7 per cent. With COVID-19 patients who would not have a serious

infection, the prediction was accurate at 93.9 percent," said Associate Professor and Group Leader Kyoung Jae Won, who analyzed the data using machine learning.

In order to analyse the data, the researchers performed a post-mortem examination of the infected lung tissue in deceased COVID-19 patients to determine the flower protein's biological role in acute lung injury, which is the main cause of death from the disease.

"The cell fitness, expressed by the flower protein, could help explain why some people respond poorly to COVID-19 and provide an opportunity for pre-identification of high-risk individuals. This discovery has the potential to help save their lives by severely alerting them to be extra protective of themselves, or until they are fortunate enough to get their hands on a vaccine.

In some other nations, the population in general has great hesitancy against vaccination. But people are not hesitant about a test, and we hope this will improve outcomes," said Rajan Gogna.

Negative RT-PCR test must for int'l travellers visiting India

PNS ■ NEW DELHI

All international travellers visiting India will need a negative RT-PCR test, according to the revised guidelines for international arrivals that will be implemented from October 25. An order issued by the Union Health Ministry said, "The global trajectory of Covid-19 pandemic continues to decline with certain regional variations. The need to monitor the continuously changing nature of the virus and the evolution of SARS-CoV-2 variants of concern (VOCs) must still remain in focus."

"The existing guidelines (issued on 17th February 2021 with subsequent addendums) for international arrivals in India have been formulated taking a risk-based approach. In view of increasing vaccination coverage across the globe

and the changing nature of the pandemic, the existing guidelines for international arrivals in India have been reviewed," said the guidelines.

The order stated that the revised protocols need to be adhered to by international travellers as well as by airlines at points of entry (airports, seaports and land borders) for risk profiling of passengers.

As per the order, all travellers should submit a self-declaration form on the online Air Suvidha portal before the scheduled travel, upload a negative Covid-19 RT-PCR report (this test should have been conducted within 72 hrs prior to undertaking the journey) and each passenger shall also submit a declaration with respect to the authenticity of the report and will be liable for criminal prosecution if found otherwise.

NIA raids locations in J&K terror conspiracy case, 4 held

PNS ■ NEW DELHI

The National Investigation Agency (NIA) on Wednesday conducted searches at multiple locations in four districts of Jammu and Kashmir and arrested four accused persons in the J&K terrorism conspiracy case.

The agency conducted searches at 11 locations in Srinagar, Pulwama, Kulgam and Baramulla districts of Jammu and Kashmir and arrested four accused persons -- Suhail Ahmad Thokar (Kulgam), Kamran Ashraf Reshi (Hazratbal, Srinagar), Rayid Bashir (Srinagar) and Hanan Gulzar Dar (Srinagar), the NIA said in a statement.

Multiple spots raided in Mudra drug haul

PNS ■ NEW DELHI

The NIA on Wednesday conducted searches in Delhi in the case of seizure of 3,000 Kg drugs at Mundra Port, Gujarat. The agency conducted the searches at a godown in Nebsarai here, the agency said. The search was conducted at Nebsarai in connection with the seizure of

narcotics substance imported in the guise of semi processed talc stones by private firm Aashi Trading company. "During the search conducted today white powder material, suspected to be talc mixed with narcotics, has been seized with the help of FSL (Forensic Sciences Laboratory)," the NIA said in a statement.

among others.

The NIA had registered the case on October 10, 2021 and initiated the investigation. Till now, nine accused persons have been arrested in this case by the agency.

"Searches conducted today have led to recovery and seizure of electronic devices and incriminating jihadi documents/posters etc.," it said.

Preliminary investigation has revealed that the four arrested accused persons are terror associates/OGWs (over ground workers) of various proscribed terrorist organisations and have been providing logistical and material support to the terrorists, it added.

BSF seizes bag full of foreign made pistols

PNS ■ NEW DELHI

The Border Security Force (BSF) on Wednesday said it has recovered a bag containing 22 pistols of Chinese, Pakistani and Italian make besides hundreds of rounds of ammunition from the border in Punjab in a joint operation with the Punjab police.

The seizures of the weapons, ammunition and the contraband items were made in the operational area of Khemkaran in Ferozepur district of Punjab.

"On 19th Oct' 2021, based on intelligence of Punjab Police regarding presence of consignment ahead of Border Security Fence

(in between B S Fence Gate No 159 to 160) in the AOR (Area of responsibility) of BOP (Border Out Post) Uttar and T Bundh, a joint search operation was carried out by the BSF troops and a team of Punjab Police, Amritsar," the BSF said in a statement.

During the search operation, one shoulder bag (black in colour) was found lying inside the paddy fields (short of 10 metres from International Boundary), in the said alignment of BOP No 160/2 in the operational area of BOP T Bundh, it said.

From the recovered shoulder bag, the seized contraband included 22 pistols.

Jacqueline appears before ED

PNS ■ NEW DELHI

Having evaded four summons served to her by the agency, Bollywood actor Jacqueline Fernandez on Wednesday appeared before the Enforcement Directorate (ED) to record her statement under prevention of Money Laundering Act (PMLA) in connection with a money laundering case related to alleged conman Sukesh Chandrashekar who has allegedly duped high profile personalities of Rs 200 crore.

Fernandez appeared before the agency here at around 3 PM. Along with the summons, the agency had also asked Fernandez to bring with her bank statements pertaining to her debit and credit cards trans-

actions, they added.

Fernandez's financial transactions and her alleged association with Sukesh Chandrashekar are under the ED scanner. While investigating the money trail of Chandrashekar, the investigators learnt about the alleged link between Fernandez and the conman, sources said.

The ED sleuths are seeking to ascertain any possible financial transactions between Chandrashekar and Fernandez.

The investigators are learnt to have posed to her questions like when was the first time she met either Chandrashekar or his wife Leena Maria Paul. Did she speak to Chandrashekar over the phone and if yes, how many times and whether she knew if

the person on the other side was Chandrashekar.

In August, the ED had one questioned Fernandez in connection with the case and then she had reportedly told the investigators that she was also a victim of Chandrashekar and denied any wrongdoing.

Chandrashekar, along with his wife and actor Leena Paul, is in ED custody along with five others in connection with the Rs 200 crore extortion case.

Earlier this month, actor and performer Nora Fatehi was also questioned by the agency over her reported links with Chandrashekar and Paul.

Fatehi's spokesperson had later issued a statement saying that the actor did not have any personal links with conman Sukesh Chandrashekar.

Cong demands immediate restoration of J&K statehood

PNS ■ NEW DELHI

The Congress on Wednesday demanded immediate restoration of statehood and a democratically elected government in Jammu and Kashmir, while alleging that the Centre has "utterly failed" to tackle the situation there. The party also questioned the "silence" of Home Minister Amit Shah after the "selective killings" of 32 civilians and nine soldiers in the Union territory.

"Even after the selective murder of 32 civilians and nine soldiers, the home minister is still silent. This means that neither the Government

of India, under whose direct jurisdiction is Jammu and Kashmir, is able to understand the situation, nor can it tackle the situation," Congress spokesperson Gourav Vallabh said at the AICC Press conference.

"We demand that full statehood be given to Jammu and Kashmir immediately and there should be a government by democratic process and as per the Constitution of the country, and not by bypassing the Constitution. The people who have left Jammu and Kashmir should be immediately provided with financial assis-

tance and employment opportunities at the place of their return," Vallabh said in the wake of the exodus of migrant workers from Jammu and Kashmir.

Noting that Government of India made several promises about the development of the Union territory, he asked why employment rate there is the lowest in the country and why the tourist footfall and capital inflow has decreased since it came under the direct control of the Centre.

Selective murders are taking place because the Centre is unable to govern the State.

Govts plan to double production of energy from fossil fuels by 2030: Report

PNS ■ NEW DELHI

Despite increased climate ambition and net-zero commitments, Governments still plan to produce more than double the amount of energy from fossil fuels in 2030, than the amount that would limit global warming to the Paris Agreement level of 1.5°C, according to the 2021 Production Gap Report, released Wednesday by research institutes and the UN Environment Programme

(UNEP).

Over the next two decades, governments are projecting an increase in global oil and gas production, and only a modest decrease in coal production, said the report, cautioning that taken together, these plans mean that fossil fuel production will increase overall, to at least 2040.

For Executive Director of UNEP, Inger Andersen, "there is still time to limit long-term warming to 1.5°C [above pre-industrial levels], but this win-

dow of opportunity is rapidly closing."

Andersen said that at the UN Climate Conference, COP26, taking place in early November in Glasgow, "governments must step up, taking rapid and immediate steps to close the fossil fuel production gap and ensure a just and equitable transition."

"This is what climate ambition looks like," she said.

This year's report provides profiles for 15 major producer countries, showing that most

This year's report provides profiles for 15 major producer countries, showing that most will continue to support fossil fuel production growth

will continue to support fossil fuel production growth.

Reacting to the report, the UN Secretary General highlighted recent announcements by the world's largest economies to end financing of coal, calling them "a much-needed step" in phasing out fossil fuels.

For António Guterres, though, the report shows that "there is still a long way to go to a clean energy future."

"It is urgent that all remaining public financiers as well as private finance, including com-

mercial banks and asset managers, switch their funding from coal to renewables to promote full decarbonization of the power sector and access to renewable energy for all," he said.

As per the report, countries surveyed plan to produce around 110 per cent more fossil fuels in 2030 than would be consistent with the 1.5°C limit, and 45 per cent more than what would allow a 2°C heating impact.

The report, first launched in 2019, measures the gap between

governments' production plans and the levels consistent with the Paris Agreement. Two years later, the size of the gap has remained largely unchanged.

Current plans would lead to about 240 per cent more coal, 57 per cent more oil, and 71 per cent more gas production in 2030 than would be consistent with limiting global warming to 1.5°C.

Global gas output is projected to increase the most between 2020 and 2040, continuing a trend of long-term

global expansion inconsistent with the Paris Agreement.

Since the beginning of the Covid-19 pandemic, countries have directed over \$300 billion in new funds towards fossil fuel activities - more than they have towards clean energy.

For lead author of the report, Ploy Achakulwisut, the research is clear: "Global coal, oil, and gas production must start declining immediately and steeply to be consistent with limiting long-term warming to 1.5°C."

OPS-EPS rift visible; hints of fracture in AIADMK

KUMAR CHELLAPPAN ■ CHENNAI

The process of disintegration of the AIADMK began in right earnest on Wednesday as a prelude to the Golden Jubilee celebration of the party that falls in 2022. The AIADMK's chief coordinator O Panneerselvam was conspicuous by his absence in the official delegation that called on Tamil Nadu Governor R N Ravi on Wednesday. This comes amidst reports that the party is getting ready to revert back to the single power centre of general secretary against the present system of dual leadership. As on date the AIADMK is led by the Palaniswamy-Panneerselvam combination. But following the debacle of the party in two successive elections (2019 and 2021) there has been a strong demand by veteran leaders to go back to the system of general secretary heading the party.

No official reason has been given by the AIADMK for the absence of Panneerselvam though the delegation was led by Leader of the Opposition Edappadi K Palanisamy and included former ministers C V Shanmugham, K Jayakumar, K P Munusamy, Vaithyalingam, Thankamani and Velumani.

According to Palanisamy,

the leaders submitted a memorandum to the Governor listing the "widespread" irregularities in the recent Panchayat election held in the newly carved out nine districts. The opposition AIADMK was routed in the polls which was swept by the DMK.

Accusing the ruling party for irregularities in election is a ritual in Tamil Nadu and both the AIADMK and the DMK have figured as 'accused' depending on who is ruling the State. What is left unsaid this time by Palaniswamy is another issue which he raised with the Governor. The ruling DMK is selectively targeting leaders belonging to the Palaniswamy camp by subjecting their residences and offices to raids by the Directorate of Vigilance and Ant-Corruption (DVAC), a convenient tool in the hands of the ruling party.

While senior functionaries of the party like Rama Ramanathan are tight lipped about the absence of Panneerselvam in the delegation to Raj Bhavan, they said all was well within the party. Ramanathan said that the report about Panneerselvam not accompanying Palaniswamy was being blown out of proportion. Sources close to Palaniswamy told *The Pioneer* that Panneerselvam has not been informed of the scheduled meeting between the AIADMK team and the Governor. "The recent statement on golden jubilee celebrations issued by the party had the signature of only Palaniswamy though all statements till date were issued with the signatures of both the leaders. This is the indication that plans are afoot to convene the general body meeting to elect the general secretary.

BJP, TMC spar over Didi's silence on anti-Hindu riots

SAUGAR SENGUPTA ■ KOLKATA

Bangladesh riots continued to have its political ramifications in this side of the border with the BJP firing more salvos at Bengal Chief Minister Mamata Banerjee for giving no reactions to "the torture being perpetrated on the minority Hindus of that country."

Bengal BJP president Sukanta Majumdar on Wednesday attacked the Chief Minister for her "mysterious silence on the Bangladesh riots where Hindus are being murdered, looted and tortured at will." He said "this is the same Chief Minister who had threatened to go to the United Nations if Citizenship Amendment Act was implemented in Bengal ... now why she has suddenly gone silent on the riots taking place in Bangladesh where houses and properties of Hindus are being looted and burnt down ... and they are being killed ... why is she not uttering a single word on this."

The Chief Minister's silence on the issue was a matter of concern he said adding the BJP would however do its duty by organizing protests until the Hindus of Bangladesh got justice.

Bengal opposition Leader

Suwendu Adhikari earlier linked the Chief Minister's silence to her alleged "vote bank politics" saying "the Chief Minister does not want to earn the displeasure of a particular section of the society who are incidentally her voters ... so she is keeping mysteriously silent about the whole issue ... But the people of Bengal are observing this silence closely."

The Trinamool Congress however hit back saying unlike the BJP it was not trying to politicize the issue. "We have already protested against what happened in Bangladesh ... Mamata Banerjee is unwell and is not appearing in public for same reason ... our senior leader and Minister Partho Chatterjee has already spoken about this ... the BJP has pre-

ferred to ignore what the TMC leader said ... this is because they want to politicize the issue and encash it," senior TMC leader and Bengal Minister Subroto Mukherjee said.

Meanwhile, actor and director Aparna Sen too condemned the Bangla riots saying "in a modern democratic system right to practice one's own religion is guaranteed everywhere ... hence it is the duty of the majority community to ensure that the minorities can follow and practice their religion without hindrance ... I am not talking only about Bangladesh though my immediate context is the riots taking place in that country ... I am talking about all the countries including India."

Dalit youth suspected of stealing ₹25L dies in Agra police custody

PNS ■ LUCKNOW

Valmiki Jayanati turned out to be a dampener for Agra police as a Dalit youth suspected of stealing ₹25 lakh died in police custody shortly after being taken to his home for recovering the booty in Jagdishpura police station area on Wednesday.

As the news of his death spread, hundreds of members of Valmiki community laid siege to the police station and staged a strong protest, accusing the cops of killing the victim by using third degree torture during interrogation.

The protest ended only after a case was registered against the police team and Senior Superintendent of Police of Agra G Muniraj suspended five cops, including an inspector, a sub-inspector and three constables.

As per reports, victim Arun Kumar worked as a janitor and used to clean the premises of Jagdishpura police station. On October 17, a total of Rs 25 lakh and some confiscated pistols were found missing from the 'malkhana' of the police station. After the incident came to light, the SSP of Agra suspended six police officials, including the then station house officer (inspector).

However during the probe, the police zeroed in on Arun and dur-

ing quizzing he reportedly confessed to stealing the money from the police station and stashing it at his home.

On Wednesday, a police team took the suspect to his house and while the cash was being recovered, Arun's health deteriorated. The cops rushed him to a nearby hospital where he was pronounced dead upon arrival.

Soon after his death, members of Valmiki community gheraoed the police station, accusing the police of using extreme methods to exact a confession leading to Arun's death. The community also declared to cancel Valmiki Jayanti celebrations on Wednesday to protest the custodial killing.

The agitators also demanded a compensation of Rs 1 crore for Arun's family. The victim's family alleged that the circumstances leading to Arun's death needed to be investigated.

ADG, Agra Zone, Rajiv Krishna said, "Our officers are in contact with his family. They're cooperating. Action will be taken if there was any negligence. The family has filed a complaint; they suspect that he was beaten up by police following which he died. An FIR has been registered and the matter will be probed."

Priyanka allowed to meet kin of deceased after brief detention

PNS ■ LUCKNOW

Congress general secretary and UP incharge of the party, Priyanka Gandhi Vadrā's motorcade heading to the house of a Dalit youth who died in police custody in Agra on Valmiki Jayanti was stopped by the Lucknow police personnel on Agra- Lucknow Expressway on Wednesday.

Priyanka had targeted the Yogi Adityanath Government in Uttar Pradesh for the death of Dalit youth Arun Kumar in the custody of Jagdishpura police station personnel in Agra.

On Wednesday morning, the Congress general secretary accompanied by some party leaders left her Kaul House residence in Lucknow to meet and express condolences to the family members of deceased Arun Kumar at Agra. But as her motorcade reached the Agra- Lucknow Expressway, officers and personnel of Lucknow police accompanied by a magistrate stopped the vehicles from proceeding forward, citing imposition of prohibitory orders under Section 144 of the Criminal Procedure Code.

Soon, scores of Congress leaders and workers resorted to sloganeering against the Yogi government and created a ruckus. After some heated exchange of words, Priyanka and some of her party men were taken to the reserve police lines and detained till evening.

Upon her release after a day-long high drama, Priyanka and her party leaders proceeded to Agra in the

evening.

In a video that went viral soon after, Priyanka is heard saying, "They say I can't go to Agra. They stop me wherever I go. Should I keep sitting in restaurants just because it is politically convenient for them? I want to meet them (victim's kin), what is the big deal? The moment I try to visit any place other than the party office, then they (administration) try to stop me. It also caused inconvenience to the public. What is the law and order issue? Someone has died...we are just two-three persons going to meet the family"

Later, Priyanka Gandhi Vadrā tweeted in Hindi: "Arun Valmiki died in police custody. His family is asking for justice. I want to go and meet his family. What is the UP government afraid of? Why am I being stopped? Today is Valmiki Jayanti. The PM made big statements about Mahatma Buddha, but is assaulting his (Buddha's) teachings."

In another tweet she said: "Beating someone to death in police custody ... What kind of justice is this? Arun Valmiki's death in police custody is condemnable. On Valmiki Jayanti, the UP government has acted against the teachings of Maharishi Valmiki. The incident should be probed by a high-level committee, action should be taken against the involved police officials and the family should be given compensation."

Lucknow's Commissioner of Police DK Thakur said that neither Priyanka Gandhi Vadrā was arrested nor detained. "Ms Vadrā was taken to reserve police lines after her convoy disrupted traffic movement on Agra- Lucknow Expressway. She was later released in the evening."

In another video, UP Congress chief Ajay Kumar Lalu asked police officers whether Section 144 was imposed in Kushinagar where the prime minister addressed a huge crowd.

Fake communal strife videos go viral, WB on alert

IANIS ■ KOLKATA

The West Bengal Home Department has put all the districts, particularly those bordering Bangladesh, on high alert after fake videos aiming to create communal tension following the attacks on Hindus during Durga Puja in Bangladesh, went viral.

One particular video from Bangladesh that has been making the rounds in Bengal is a clip having a tagline "how Jatan Saha, a Hindu Grand Alliance activist, was murdered in a temple at Noakhali".

Several BJP leaders, such as Debdas Mondal, general secretary of the party in Bongaon district, shared the video on Tuesday, seeking justice for the deceased. On the development, Bangladesh Home Minister Asaduzzaman Khan on Tuesday said a group with "vested interests" was circulating fake videos on social media to create communal tension. Referring to the video, Khan explained that the 30-second clip he was referring to was of the May 16 incident in Dhaka's Pallabi area over a property dispute. "But a group with vested interests is circulating it, calling it the footage of the killing of Jatan Kumar Saha in

Noakhali, who died in the recent clashes. This is being done with the intention of creating communal tension. We condemn such actions," Khan said at a programme titled "Technological Modernisation of RAB (Rapid Action Battalion)". A senior official of the state home department said that officials had been asked to keep track of all social media posts, as there are apprehensions that some forces might try to use the "assault on Hindus" in Bangladesh to create trouble in Bengal. "All units are being instructed to keep a sharp vigil on videos that are being forwarded. Even small matters of communal overtures are to be reported promptly at the highest level," he added.

"Any post which is spreading hatred, falsehood or rumours is to be dealt with sternly, as some groups and individuals have launched a concerted effort in the social media to spread communal hatred and create law and order issues," the official said.

The intelligence department has already sent a missive to all the SPs and senior police officers in the state to stay alert, considering the communal unrest in Bangladesh.

Heavy rain, landslides bring life to standstill in North Bengal

PNS ■ KOLKATA

After Uttarkhand it is the turn of the eastern mountains of North Bengal with cloud bursts and heavy rains bringing lives in most towns of the northern part of the State to a standstill.

The road link between Bengal and Sikkim was snapped due to landslides at various places off Rangpo, sources in Darjeeling district administration said adding a part of the Balasan Bridge the one that connects Bengal to Assam and Bihar had subsided resulting in total blocking of the traffic which was currently being divert through another route.

Similarly National Highway 10 and 55 had been blocked due to landslides and flash flood, sources said adding

heavy rains in Bhutan had caused rivers like Jaldhaka to overflow. Two children were drawn in Kalimpong flowing flash flood.

"There has been heavy rains for the past three days with Siliguri witnessing 245 mm of rain... Darjeeling getting more than 200 mm, Kalimpong 199 mm, Jalpaiguri getting 151 and Malbazar witnessing 320 mm rain," Paresch Adhikari a minister said adding the tourists who were currently in the hills have been asked not to move out.

There has been heavy landslides at Lava, Bijanbari, Gorubathan, Sukhia Pokhri, Manebhanjan and elsewhere leading to virtual closer of most of the roads connecting hill towns to Siliguri. Large parts of Jalpaiguri too had been flooded, sources said.

Mid-sea drug bust case: Special court rejects bail pleas of Aryan, two others

T N RAGHUNATHA ■ MUMBAI:

A Special Court set up under the Narcotic Drugs and Psychotropic Substances (NDPS) Act on Wednesday rejected the bail pleas of Bollywood superstar Shah Rukh Khan's eldest son Aryan Khan and two others in the mid-sea drug bust case, prompting Aryan's lawyers to challenge the sessions court's order in the Bombay High Court.

Apart from Aryan's bail application, the two other bail pleas that Additional Sessions Judge VV Patil rejected -- in his much-awaited order -- were that of his co-accused Arbaz Merchant and Munmun Dhamecha.

"Bail application nos 2571/ 21, 2576/ 21 and 2583/21 stand rejected. Accordingly, the bail applications are disposed of. The authenticated copy of roznama be supplied to Advocates and SPI," the Judge noted in his order that he passed at 2.45 pm.

Less than two hours after the Special Court rejected his plea, Aryan's lawyers moved the high court challenging the lower court's order denying him bail in the mid-sea drug bust case.

Aryan's lawyers will make a mention of his plea before Justice Nitin Sambre for urgent listing.

The Special court, it may be recalled, had on October 14

reserved its order on Aryan's bail plea, after the Prosecution opposed the plea alleging that he was a regular consumer of drugs for the past few years and that he was part of the conspiracy in the mid-sea drug bust case.

Twenty-three-year-old Aryan and seven others were initially detained on the night of October 2 and later arrested on October 3, after the NCB officials busted a rave party and seized 13 grams of cocaine, 5 grams of MD (Mephedrone), 21 grams of Charas, 22 pills of MDMA (Ecstasy) and Rs 1.33 lakh in cash from Goa-bound Cordelia

Cruises' Empress ship, off the Mumbai coast.

The total number of arrests in the sensational drug bust case has gone up to 20, with the arrest of a foreign national Okara Quazma and a local person Shivraj Harihan.

Aryan and other accused have been booked for offences under Section 8(c), 20(b), 27, 28, 29 and 35 under the NDPS Act.

After his arrest, Aryan was remanded to NCB custody till October 4, which was extended till October 7. On October 8, the Mumbai Esplanade Court rejected the bail pleas of Bollywood superstar Shah

Rukh Khan's son Aryan Khan and two others on the grounds of maintainability. Thereafter Aryan and four accused moved a Special NDPS court.

After hearing the arguments by Aryan's senior Advocate Amit Desai and other lawyers for the accused in the case and Additional Solicitor General (ASG) Anil Singh, the special NDPS court had on October 14 reserved its order on a bail applications made by Aryan and two other accused in the mid-sea drug bust case for October 20.

Though the grounds on which the special NDPS Court has rejected the bail pleas of Aryan and other accused, both the defence lawyers and Prosecution had argued for and against Aryan and other accused being granted bail.

In a plea made on behalf of Aryan before the Special Court, had made a strong case for their client's bail on the grounds: that no recovery of drugs has been made from his person and that since the offences arraigned against Khan are Sections 8(c), 20(b), 27, 28, 29, 35 of the NDPS Act and that since no Narcotic drugs or psychotropic substance has been recovered from him, the bar against grant of bail under Section 37 of the NDPS Act will not apply.

In another contentions, Aryan's lawyers had stated that recoveries of the other accused

cannot be held against Khan nor can the entire recovery be used against him in light of the precedents of the Supreme Court and High Court, that the NCB is relying solely upon the WhatsApp chats without verifying the accuracy of the chats "which have no connection with the case".

Aryan's lawyers had also stated that the NCB had invoked the provisions under the NDPS Act "mechanically" without any evidence or corroborating evidence to support ingredients for the offences. "There is nothing to suggest that Khan is in any way connected with the manufacture, possession, purchase or transport of the substances and hence the ingredients for the offences under NDPS Act are not made out," Aryan's lawyers had told the Special Court.

On its part, the Narcotics Control Bureau (NCB) had told the court that Aryan had a role to play in the illicit procurement and distribution of drugs and that he was in touch with some persons linked to an international drug network, even as a Special Court adjourned the hearing on bail pleas of Aryan and others for Thursday after partly hearing the arguments.

"There is material on record to show that Khan was in touch with some persons abroad who appear to be a part of an international drug net-

work for illicit procurement of drugs. The investigation is still in progress," the NCB had told the court.

Rebutting the contention of Aryan's lawyers that since the offences arraigned against Khan are Sections 8(c), 20(b), 27, 28, 29, 35 of the NDPS Act and that since no Narcotic drugs or psychotropic substance has been recovered from him, the bar against grant of bail under Section 37 of the NDPS Act would not apply, the NCB told the court: "The role of one of the accused cannot be dissected from another. Even if there is no recovery of small substances, the accused are involved in conspiracy".

In his arguments made before the special court, Additional Solicitor General (ASG) Anil Singh had told the court: "The present applicant (Aryan) is not a consumer for the first time. The record and the evidence before your honour shows that he is a regular consumer of contraband since the last few years. The contraband in possession of Arbaz Merchant who accompanied Khan, was for consumption of both of them".

"The record in the panchnama signed by the applicant establishes that he was in a conscious position of contraband because he admits it was with his friend and it was for consumption of both of them...The contention that nothing was

found with Applicant may not be correct," the ASG said.

Alluding to the retraction made by Aryan on October 7 that he had consumed drugs, Aryan's lawyer Amit Desai had told the court: "The statement reverberates that there is a confession. But that will be tested in the course of the trial and in the larger scheme. But the retraction that has been filed and it is on record. Let us stick to the law and let us stick to the facts. Retractions are there".

Reading out from the panchnama, Desai had said: "If the phone is voluntarily taken then also there has to be something, but the panchnama says seized it was not handed over. There has to be a seizure memo for that. We have forgotten these things. Nobody stops their investigation, why should it stop my liberty! It stops at liberty, liberty and liberty!"

"If a gentleman is released on bail, how will there be a hindrance to the investigation. Then they say because of section 37(2) of the NDPS Act, the burden reverses so now I must satisfy, so when we look into the matter, if released on bail it is not going to affect the investigation. In context of the twin conditions of section 32 they hang their entire case on two things - conspiracy and second are seizure from Abdul of commercial quantity," Desai had told the court.

Assam seeks ₹1k-cr from Centre for repair of damage caused by floods

Guwahati:The Assam Government has demanded ₹ 1,088.19 crore from the Centre for repair and restoration of various infrastructure damaged by the monsoon floods, officials said on Wednesday.

Officials of the Assam State Disaster Management Authority (ASDMA) said that a seven-member Central inter-ministerial team led by the Joint Secretary in the Home Ministry, Manish Tiwari, visited Assam on Tuesday and Wednesday and held meetings with the state government officials.

Assam government officials have urged the Central team to consider releasing the funds under the National Disaster Response Fund (NDRF) for repair and restoration works.

An ASDMA official said that the central team discussed the damages to properties and loss of livelihood caused by the floods.

The Assam government officials also requested the central team to consider erosion of rivers as an item admissible under SDRF and NDRF in their report to the Central government, as the state suffers heavily due to erosion every year.

Though there are ample vaccines now, fully vaccinated people still being fewer is alarming

It was vaccine hesitancy then. It is vaccine complacency now. Some people seem disinterested in taking the second dose of the COVID-19 vaccination. Many are convincing themselves that the chances of a third wave of the pandemic look dim because of low infection rates. Adherence to safety protocol has already slackened; so has the urgency to take the second dose. It is also no longer the case that vaccine stocks are low. They are ample. In the second week of October, 11.12 crore doses were available with the States on a given day but only 38 lakh doses were administered. In Odisha, around 13 lakh people were overdue for the second dose in August-end. Such cases are being reported from all the States. The longer waiting period of 84 days between the two Covishield jabs could be one reason for the low job rate. It is also possible that overcrowding at vaccination centres puts off some people. Or, like in rural areas, they may not want to travel long distances to get their jabs. Whatever the reasons, the fact is lakhs of people are not taking their jabs when they become due. In August, the Union Government said in response to an RTI query that over 3.86 crore Indians had failed to take the second dose within the stipulated time. The poor response for the second dose is making the Government jittery. For, the process of vaccination is incomplete till the second dose is administered.

Some hospital studies reveal that a single dose of Covishield offers protection against symptomatic infections with the Delta variant in a range of 18-61 per cent. The fully immunised had 97 per cent protection against death and the partly vaccinated, 69 per cent. Secondly, an incomplete vaccination gives the coronavirus the chance to infect or mutate in a manner to resist the vaccine. Either way, it militates against the massive vaccination exercise the country has undertaken. Remember how on account of complacency, the strains of tuberculosis bacteria began to resist antibiotics and the country registered the highest number of drug-resistance tuberculosis cases in the world. The Union health ministry is running campaigns about the importance of the second jab but says it cannot force people who deliberately miss the second jab to take it. In contrast, in a judgment in May, the Karnataka High Court made it the Government's obligation to ensure that the second dose is provided. Even though the case was about the scarcity of vaccines, in principle, The court said vaccination affects the right to life. The truth is, the Government can be faulted for the scarcity of doses, and the lack of adequate vaccination centres but it cannot be responsible for people's complacency. That is something the people have to handle for themselves. It is their responsibility to get vaccinated to be safe and, importantly, keep others safe.

As the farmers' protest approaches its first anniversary, the very spirit of it is in question

Are the farmers and their leaders protesting against the Union Government's three farm laws losing touch with reality? Have they lost their way, probably misguided by the political inputs they might be receiving by the Opposition parties in what was initially their fight for justice? Are they doing what they had set out to do? Or, have their shepherds unwittingly crossed on to another path and are leading the flock influenced by interested political entities? These are the questions that need asking as the farmers' protest approaches its first anniversary. Already, the protests have run out of fizz; so much so that a deserted Rakesh Tikait had to shed tears to emotionally blackmail the disgruntled farmers to make them return to the protest site. Since then, he has travelled far and wide, from West Bengal to Punjab and Haryana, to amass support — and possibly funds — for the farmers' cause. But the truth of all this on ground really is that the public perception against the agitation has turned from sympathetic caring to irritatingly banal.

The locals have been inconvenienced for too long and they have started reacting adversely to the cause though, to be fair to them, nobody across the country is genuinely against the welfare of farmers and hence they have so long been supported in the pursuit of their goal; right or wrong is for the courts to judge. The farmers and their leaders themselves have done no less to hurt their own cause. Though the Lakhimpur Kheri incident may have divided people depending along the lines of which social media group members they are, the farmers haven't had a good advertisement for themselves beginning from the Red Fort on January 26, to the gherao of the Mini Secretariat, followed by the violence in Karnal, and now the brutal murder at the Singhu border. It's high time for the farmers to coax their leaders into thinking about the right strategy and execute it efficiently. Otherwise, the support and sympathy they have received thus far is likely to wane and they would have hardly anything to show for their struggle. In a democracy, that shouldn't happen. But, in a similar vein, in a democracy nobody has the right to take away the rights of anybody else. My right to swing my hand ends where your nose begins; they should remember this.

The dilemma of displacement

The whole country is going through a weird moment. Not that violence is new to India, but it was never so blatant and cover-up so brazen

When the State acts with aggression against its people on spurious grounds, One can only expect danse Macabre. Only this time it was performed by Bijoy Shankar Bania, who stomped over the corpse of Moinul Huq who had succumbed to the police gunshots. When hate has paralysed the minds and poisoned the thinking, anything is possible.

It is diabolical and sends chills down the spine. The stomper was a Government photographer. He accompanied the police team that went to evacuate the Government land in Dholpur village in Assam on September 23, 2021. He has been arrested and would be out as soon as jumping over a dead body is no big crime legally. Amorality is not punishable under the law. It is a hate crime at its best or worse. A professional psychologist would be better placed to understand the mind of a person who stomps over a dead body, religion of dead body notwithstanding. He had hatred for a community that made him do a dastardly act. It gives a peep into the mindset of the people now on the daily diet of communal hatred that has poisoned the minds of the people.

The Government of Assam was ostensibly dealing with a spin off of love jihad, land jihad with all its so-called good intentions. It acted with brute force but legally. Thanks to a nineteenth-century archaic law called 'Assam Land and Revenue Regulation, 1886'.

Dhalpur was "grazing ground" on Government land. The "chars" had erected their shanties and were around for quite some time. Around 800 people have been evicted in the drive, whereas the real numbers could be around 20,000, if not more. The people evicted were served with notices a few hours before the eviction. The violence was a logical corollary in Assam's Darrang district. However, the Government did not realise that it would come to such a pass. The police opened fire so much for the Government's will to solve the land issue with its "good intentions".

After winning the elections on a manifesto that promised illegal encroachments to be cleared, it was on the cards. Those addressed in the manifesto knew it would be Bengali Muslims, dubbed Bangladeshis in local parlance. The BJP harped upon its narrative of 'land jihad and consolidated its votes. The Bengali Muslims were portrayed as encroachers upon the land of the indigenous Assamese.

The Government wanted land for a farming project for locals called the "Garukhuti Project". The forceful eviction drive that led to resistance and firing. It killed Moinul Haque and the twelve-year-old child, Sheikh Farid, died on the altars of the Garukhuti project. The public good led to public misery. Though legally dressed it was naked oppression defying the basic premise of law.

In Assam, land is a far more emotional issue than elsewhere. Assam has been home to a multi-ethnic group which are often jostling for the land.

The marginalised communities are the worst sufferers in eviction drives. Be it eviction drives for beautification like 'Turkman Gate' in Delhi in the seventies or Kathputli colony rather recently or acquiring land for a pro-

IN ASSAM, LAND IS A FAR MORE EMOTIONAL ISSUE THAN ELSEWHERE. ASSAM HAS BEEN HOME TO A MULTI-ETHNIC GROUP WHICH ARE OFTEN JOSTLING FOR LAND

ject like in Bengal's Singur or Evicting forest land encroachers in Kerala or Niyamgiri in Odisha. The marginalised communities are touted as squatters standing in the way of development. It is conveniently forgotten that they too are citizens of India, who deserve to have the dignity of a small place to call their own

Assam Land and Revenue Regulation, 1886 gives the right to the commissioner to forcibly remove acquisitions but after due notice. This was not done. The Government could also have the option of going to court, though time taking, would have given a fair chance to the person. It was not used. The Government wanted to act and wanted to be seen as acting harshly.

Even if the persons were illegal squatters on Government land, the eviction must be done following the procedure established by law. This would need a fact-finding exercise to gauge whether a person is illegally encroaching upon the said land, or has a bona fide claim upon that land.

The Government followed a "summary eviction" procedure, under Rule 18 of the Settlement Rules made under the archaic 'Assam Land and Revenue Regulation, 1886'.

GYANESHWAR DAYAL

However, a person cannot be directed to vacate the land if they have a bona fide claim over the land. Rule 18 also mandates a publication of notice to provide the illegal encroacher with 15 days to vacate the land. This was again not done.

The stomping of the corpse was a 'George Floyd' moment for India but it passed rather calmly. That speaks volumes about sensitivities that we have as a nation. The whole country is going through a weird moment in history. Take, for instance, the incident at the Lakhimpur Kheri. Allegedly, the son of a Union Minister mauled the protesting farmers. Not that violence is new to India but it was never so blatant and cover-up so brazen.

The Opposition leaders were rounded up while the national media called people going there "political tourism"! Incredible as it may sound, the Opposition and voices of dissent are shrinking. The over-enthusiastic bird heads are getting out of control. The frankenstein planted in their heads is now manifesting in danse macabre.

LETTERS TO THE EDITOR

LITERATE VS EDUCATED

Sir — No kudos is enough for the humanitarians of West Bengal's Dharmadanga village for continuing with the 43-year old tradition of celebrating Lakshmi Puja jointly by transcending all norms of religious barriers amidst this utmost communally vitiated environment all around. Tarak Das — secretary of the Lakshmi Puja committee — humbly states that though he is not "very educated" (being a school dropout), he can't forget the lines of Kazi Nazrul Islam — *Mora ek brinte dui kusum Hindu Musalman* (we are two buds of one stalk — Hindus and Muslims) — and so we never differentiated among Hindus and Muslims!

Far from being "not very educated", Tarak Das and his Hindu-Muslim companions of farming community are infinite times more "educated" than innumerable so-called "educated" who are outright communal to the core despite being armed with academic degrees and holding medium to high Chairs in respective professions. Mere earning of a university degree hardly serves the moral fabric of the society. Hence if the concerned authorities really want to see a society where the future citizens of the society turn truly educated while pursuing degrees for career prospects; then inculcation of moral values, principles and humanity remain the urgent need of the hour in school curriculum.

Kajal Chatterjee | Kolkata

PINK IS BEAUTIFUL, FOR ALL

Sir — Pink has not always been considered a colour for girls. There was no sudden, unanimous cultural shift but both men and women wear pink attire and that suits them well. It gets noticed, no matter who wears it. The amount of attraction that pink receives is much more than that of red. Pink is more English in nature and is combined with the right options and right apparels, it can give an elegant tone — a pink tie, for example.

Pink is a light tint of red and was named after a flower of the same name. It was first used as a color name in the

Two-wheelers are two-seaters!

The Assam BJP chief has said that tripling on two wheelers will be allowed when the price of petrol goes up to Rs200 per litre in the State. It is foolish to link the number of persons to ride on a two wheeler with petrol price. The capacity of two wheelers has been limited to two. Extra seats beyond that are likely to increase the chances of accidents due to inability of the rider to balance in certain conditions. Is it

possible to allow four members on two-wheelers when the fuel price rises to ₹300?

The price of goods and services will never be the same with changing conditions in the coming days. At the same time, the income level of any community is also not the same. The business community has its own strategy to increase the price of their goods and services. The Government employees meet the increased cost of goods and services due to increased income as 'dearness allowance' and pay revision. Even a beggar's income level changes for the better. Level of corruption keeps pace with the increased cost of goods and services. There is no reason to cry hoarse over the spiraling cost of fuel when the income level is also rising corresponding to the increased cost of goods and services. Rise in income level is the only panacea to meet the increased cost of living.

KV Seetharamaiah | Bengaluru

late 17th century. According to surveys in Europe and the United States, pink is the color most often associated with charm, politeness, sensitivity, tenderness, sweetness, childhood, femininity and the romantic. As long as you are aware of how different work environments have a different way of dressing and in the daily routine pink occupies the top spot and women love to wear their favorite colour and pink is the best suited for them. A pleasing colour like pink pays well for your appearance and brings about a sea change in your dress sense as well.

Jayanthi Subramaniam | Mumbai

THE EARTH IS SUFFERING

Sir — International prices of petroleum, coal, natural gas and LPG are too high and unbearable for the poor and the middle class. Better if India imports clean renewable energy (solar, wind, green hydrogen) batteries rather than the conventional fuel. Also India should make big plans to produce clean renewable energy on both small scale and large

scale — solar roads, solar and wind energy plants in Thar desert, Ladakh and J&K). This can generate employment, help reduce air pollution and provide low cost fuel.

Also climate change related weather catastrophes such as floods, cyclones in various parts of India can be reduced to an extent. Other measures should include — increasing the use of e-paper, e-books, e-bills, mechanical pencils and chopsticks, and cashless transactions. This can save millions of trees and limit deforestation. It is pertinent that we keep the oceans clean and plastic free so that they can absorb more carbon dioxide and mitigate various kinds of pollution. That is why many countries are growing sea plants, seagrass and sea phytoplankton too. It is high time that we imbibe such measures from individual to national level so that the ecosystem yields less damage.

FIRST COLUMN REVAMPING THE EDUCATION SECTOR

The new education policy aims at providing premium yet affordable education to all

DEVENDER SINGH **ASWAL**

Eyebrows were raised when a member of the Kasturirangan-led committee, set up recently to revise the National Curriculum Framework (NCF) and lay down the broad guidelines for school syllabus and textbooks, said that the existing curriculum in schools dwells "too much on defeats", and that "in the light of new facts, history should be rewritten". The member, an ideologue, also remarked that textbooks should talk about the "fighting spirit" of rulers such as Maharana Pratap in battles against foreign invaders. When Dr Murl Manohar Joshi, HRD Minister in the Vajpayee government, caused some revision in the school text books, it was considered by the left-wing as saffronisation of the syllabus. The revision of the extant NCF has been necessitated by the National Education Policy (NEP), 2020. It is not new or novel. It was last revised in 2005, and earlier in 1975, 1988 and 2000. The NEP, the first education policy of the 21st century, aims to address the many growing developmental imperatives of India. The NEP envisages revision and revamping of all aspects of the education structure, including its regulation and governance and to create a new system aligned with the aspirational goals of the 21st century and the SDG4, while building upon India's great traditions and value systems. The NEP unambiguously says that 'the pursuit of knowl-

edge (Jnan), wisdom (Pragya), and truth (Satya) was always considered in Indian thought and philosophy as the highest human goal. A member of the National Steering Committee entrusted the task of drafting the NCF, and a right-wing ideologue, has hinted at re-writing history and the text books 'in the light of new facts' of history. The precise mandate of the steering committee is to develop the NCF within the mandated remit. The NEP speaks, among other things, of incorporating local content and flavour as the students must know about their past, immediate surroundings and topography, India's civilisational heritage, constitutional values, so as to develop the spirit of critical thinking and enquiry. The Policy advocates multilingualism, ensuring inclusive and equitable quality education and promotion of life-long opportunities for all by 2030 by incorporating rapid changes in the knowledge landscape in the globalised world. The aim is to promote India as a global study destination by providing premium education at affordable costs so as to help 'restore its role as a Viswa Guru'. Evidently, the founding fathers of our republic laid the foundation of a civic nation, and not an ethnic nation by crafting a republican democratic Constitution, solemnly affirming to secure to all its citizens: justice, liberty, equality and fraternity—assuring the dignity of the individual. When one speaks of India's civilisational heritage and the need for inculcating the spirit of enquiry and scientific temper, the following Vedic hymn flashes across the mind — 'Whether God's will created it (the universe), or...Only He who is its overseer in highest heaven knows, Only He knows, or perhaps He does not know.' In a steering committee of 12 eminences in diverse fields of knowledge, there may be initial difference of opinion but when they talk together, deliberate, build consensus, they will surmount parochial considerations and develop the national curricular framework in perfect accord with the hallowed provisions of the NEP 2020, staying clear of the potential carping criticism of the extreme left or the radical right, by not harking too much on the past. Of course, we must analyse the past — without being its prisoner — in the context of the present for the purpose of building a resurgent India by laying the foundation of a sound, secure and holistic school education system to meet the aspirational needs of the 21st century.

(The writer is former Additional Secretary, Lok Sabha, and member of the Delhi Bar Council. The views expressed are personal.)

Making sense of the power crisis debate

For import-dependent India, it is costlier to import longer haul Australian coal than shorter haul Indonesian coal which is getting diverted to China

SUBHASH C **PANDEY**

A barrage of news about rising electricity consumption, rising international price of coal and shortage of coal with power plants have raised fears of an impending power crisis. There are 135 coal-fired power plants with total installed capacity of about 202 GW meeting about 70 per cent of electricity supply. On October 7, more than half of these plants had coal stocks of less than three days. 16 small plants with total capacity of 17GW had no coal stock. Low coal stocks with thermal power plants does not mean shortage of coal in the country.

Here is the big picture; facts that speak for themselves. There is absolutely no shortage of power if people are willing to pay its price, both in terms of cash and health.

International Energy Agency has highlighted that energy demand has shot up worldwide as economic activity picks up post-pandemic. During April-September 2019, India's electricity consumption was 68100 crore units (kwh). It fell down 62500 crore in April-Sept 2020, mainly during the lockdown months of April-May 2020. However, electricity consumption during April-Sept 2021 jumped to 71500 crore units, more than the pre-covid level even though there was a distressing second wave in April-May 2021 and the tour/travel/hospitality industry is not yet back to pre-covid level. Air/rail travel is not fully restored.

Increase in electricity demand is a positive sign indicating economic recovery. Increased coverage of households with access to electricity connection have brought new electricity consumers in the market. Growing digital economy also contributes to rising demand. A welcome surge in electricity demand has raised supply concerns, especially, as all indications are further increase in electricity demand in coming months.

Since 2013, total primary energy consumption in India has been the third highest in the world after China and the US. Total power generation capacity in India has increased from 243 GW in March 2014 to 320 GW in March 2017 to 388 GW in August 2021. Out of this, 202 GW is coal/lignite fired thermal power, 46 GW is from large hydroelectric projects, 45 GW from Solar and 40 GW from Wind power. Renewable energy capacity is about 37 per cent of total and India will reach 40 per cent renewable energy capacity well before 2030 as per target accepted under 2015 Paris Climate Change agreement.

Although coal-based power plants contribute only to 52 per cent of installed electricity generation capacity, these plants meet almost 75 per cent of total electricity demand. So even though we have made impressive gains in expanding solar power, we are still largely dependent on coal for electricity. Our domestic production of coal is about 730 MMT and we annually import over 300 MMT. Electricity sector accounts for about 2/3rd of total coal consumption.

SINCE 2013, TOTAL PRIMARY ENERGY CONSUMPTION IN INDIA HAS BEEN THE THIRD HIGHEST IN THE WORLD AFTER CHINA AND THE UNITED STATES. TOTAL POWER GENERATION CAPACITY IN INDIA HAS INCREASED FROM 243 GW IN MARCH 2014 TO 388 GW IN AUGUST 2021

(The writer is former Special Secretary, Ministry of Commerce and Industry, Government of India. The views expressed are personal.)

India is the second largest coal consumer after China. International prices of coal have risen recently for two reasons. Sharper increase in gas prices mean that countries are increasing dependence on cheaper coal-based thermal plants.

China is facing increased electricity demand in post-pandemic economic recovery and in a trade war with Australia, China stopped coal imports from Australia, one of the major exporters of coal.

Coal makes up nearly 60 per cent of China's energy consumption. Increased coal/power demand from China has set coal prices soaring high and many coastal power plants depending on (previously cheaper) coal imports are now switching to domestic coal in India.

For import dependent Indian power producers, it is costlier to import longer haul Australian coal than shorter haul Indonesian coal that is increasingly getting diverted to China. The net result of all this is higher demand for coal, higher price for coal and resultant financial stress on power generating companies.

There have been temporary supply disruptions (monsoon-related) in coal mining and transportation. The coal supply position is steadily improving but there are basic issues to be addressed to ensure long term health of the power sector which is victim to populism. Coal supply is a temporary problem. There is enough coal and production/transport will increase once monsoon woes are over. But the real issue of financial distress on power generating companies remains. Power generating companies owe about ₹20,000 crore to Coal India Limited alone.

Thermal plants are expected to have stock of 20 days requirement

but many power producers don't have money to stock coal because they have themselves not been paid by discoms for power supplied. Discoms are cash starved because tariffs don't cover all costs, many consumers don't pay their bills or delay payment. Power theft and leakage through unmetered supply continues to be rather high. This is all reflected in discoms inability to pay to power producers.

Power producers give 45 days' credit to Electricity Distribution companies (discoms). If the dues are not cleared in 45 days, outstanding dues are called 'overdues' liable to charge of penal interest.

On 17 October, 2021, discoms owed an overdue amount of ₹98,067 crore to power generation/transmission companies. Nearly ₹23,310 crore is payable to public sector thermal power generating companies (NTPC, etc.) Around ₹51,899 crore is payable to public sector thermal power generating companies (maximum amount payable to a single company is ₹25,611 crore, to Adani Power). Around ₹17,980 crore is payable to renewable power producers and ₹4,877 crore is payable to PowerGrid.

If coal companies have to recover ₹20,000 crore from power utilities, will it make sense for them to produce more coal and supply on credit? If power producers are not getting paid for power supplied, will they not reduce production? Does it make sense for them to improve plant load factor and produce more electricity to supply on credit? That is the real problem.

The discom reform scheme UDAY ended in 2019-20 with most of the states failing to meet their stipulated targets. On July 1, the Centre has launched a new scheme of 'Reforms-based and Results-linked,

Revamped Distribution Sector Scheme' to provide conditional financial assistance to discoms for strengthening of supply infrastructure. The scheme with total outlay of ₹3,03,758 crore will involve Central government budget support of ₹97,631 crore by 2024-25. All existing power sector reform schemes namely DDUGJY, IPDS, PM-KUSUM scheme would be subsumed into this new umbrella program.

Among the many contemplated reforms is a measure to create separate feeder for agricultural electricity supply, expansion of network of solar run irrigation systems. Other pending electricity reforms are removal of cross subsidies and open access, introducing competition by allowing consumers choice of electricity supplier.

States are presently administering two types of cross subsidy arrangements. One is between high-end and low-end household consumers and the other is between household consumers on one hand and industrial/commercial consumers on the other.

There are just too many consumer categories and tariff lines - slabs and fixed charges, making electricity pricing quite complex and non-transparent. On top of tariffs fixed by 'independent regulators', States levy electricity duty (as it is not subsumed in GST) which ranges from 0-70 per cent for certain categories of consumers.

Cross-subsidy burden on industry is problematic because it adversely affects cost competitiveness — manufacturing and exports and resultant job creation. It is frustrating that these reforms are getting delayed and deferred. Any myopic politics will sap the nation of energy in the long run.

POINTCOUNTERPOINT

Women officers in the armed forces

There is no doubt that officers and other ranks have to undergo a sea change in their thinking process and attitude to accept gender equality

RAVI CHANDER **KOCHHAR**

The recent Supreme Court judgement directing the Government to open the portals of the National Defence Academy for women has finally paved way for across-the-board gender equality in the armed Forces. Eligible women will now be permitted to appear for the NDA Entrance Examination for the first time and the sky will be the limit for their career aspirations. This will now enable women to join all available combat or non-combat branches of the three services.

Notwithstanding the above judgement, women have always had their presence in the armed forces, though in a limited role like that of doctors in all the three wings of the armed forces. It

has, however, been almost three decades when women entered many other branches where only men dominated once.

The women officers in Indian armed forces have come a long way and have adapted well with the changing times. However, it is incumbent on the services to be accommodative in assimilating women in all domains — be it combat, administration, engineering or medical. Therefore, the onus is still upon the male-dominated armed forces to recognize the power of women officers and facilitate them to achieve their full potential.

I still fondly remember, whilst I was in command of INS Vikrant in 1992, when the first batch of women officers

reported onboard for initial sea training for Short Service Commission in the Indian Navy. The lady officers were very enthusiastic and took keen interest in the training. Normally when officers join for sea training, they all live on the ship throughout their training. In this case as there were no separate arrangements onboard for their stay, the ship was in harbour and they would come in the morning and leave in the

evening. Throughout their training they exhibited their skill levels, adaptability, physical fitness and mental alertness to match with standards laid down for men.

These young lady officers were quick on the uptake and always enthusiastic to learn the service ways. They were happy with the training but had one observation — why they could not stay onboard. It was explained to them that as of now the arrangements onboard ships are for men, especially living spaces and washrooms. Whilst they all understood the existing constraints, they were keen to know when ships will have women's quarters as well. I recollect my reaction to that was 'when a child is born, he/she first learns to

crawl, then stand and only thereafter runs'. I can only say that the time has come for all of them to run.

On the lighter side, many of those young lady officers found their soul mates amongst the naval officers during their initial service career and thereafter, lived happily ever after. Being from the same service the understanding between the partners also proved to be of higher quality, essential for marital harmony. In short it is a win in situation, as both the partners know each other's service conditions and do not take long to settle.

I can only say that the day has come when the idea of women joining armed forces had taken shape and has now evolved to women getting

permanent commission and entering areas dominated by men like fighter pilots, combat units and serving onboard ships and sailing on operational missions.

There's is no doubt that officers and other ranks have also to undergo a sea change in their thinking process and attitude so as to accept gender equality and when required, take orders from women officers in command. Having said that, women must also remember that they are getting into new fields and must tread with caution and never hesitate to take guidance from men who have been holding the fort for a much longer period.

By the way in the US Navy, for the first time, a woman officer has recently

been appointed to command a nuclear-powered aircraft carrier. I have no doubt it is only a matter of time when we will have lady officers in command of combat units and move shoulder to shoulder with their male counterparts.

Indian history is replete with examples of women in command of combat troops, like "Rani of Jhansi" and many others who have led troops in battle and given a befitting reply to the enemy. It was only somewhere along the time when we lost the plot and armed forces became the forte of men alone.

At the end, I can only say, 'Welcome to Indian armed forces, brave Ladies, you are indeed the pride of India.'

Decision on Air India will give new energy: Modi

AVIATION SECTOR

PTI ■ KUSHINAGAR

With Air India set to be acquired by Tata group, Prime Minister Narendra Modi on Wednesday said the decision on the national carrier will give new energy to the country's aviation sector.

His comments come weeks after Tata group emerged as the winning bidder for Air India paying the way for disinvestment of the loss-making carrier.

In an address after inaugurating the Kushinagar International airport, Modi said the decision on Air India will give new energy to the aviation sector of India.

Tata group has emerged as the winning bidder for Air India, and on October 11, a letter of intent (LoI) was issued to the group.

Earlier this month, the government accepted an offer by Talace Pvt Ltd, a unit of Tata group, to pay ₹ 2,700 crore cash and takeover ₹15,300 crore of

Air India's debt.

After Tatas accept the LoI, the share purchase agreement (SPA) for the sale will be signed.

Along with Air India, Tatas will acquire low-cost carrier Air India Express and Air India's 50 per cent stake in equal joint venture AISATS.

Power crisis: Govt looks to revise coal stocking norms for thermal plants

ANS ■ NEW DELHI

In a bid to avert power crisis being triggered in the country due to fuel shortages in the months following monsoon rains, the government proposes revise the coal stocking norms for thermal power plants, based on regular shift stock limits, depending on the actual fuel requirement during a particular period.

Sources said that the Central Electricity Authority will come up with revised coal stocking guidelines that will have higher stocking requirement for non-pit head power plants while lower for those located near the coal-bearing regions of the country.

As per a draft that is being discussed, against the uniform requirement of 20-22 day coal

stocks to be maintained by power plants, lower coal stock of 10 days may be mandated for pit-head power plants while 20 days stock may be needed for power plants farther from coal-producing areas. But in the peak summer months (April-June), non-pit head plants would still require to stock 22 days of coal while pit head plants around 12 days. The norms of stocking may change slightly in winter months. The thinking within the government is that the revised coal stocking norms will prevent a situation like the one that faced the country recently when post monsoons, several of the 135 coal-based power plants in the country were found to be sitting with critical coal stock levels sufficient to meet just three to four days of supply.

IMF revises down Asia economy growth forecast to 6.5%

ANS ■ WASHINGTON

The International Monetary Fund (IMF) has revised down its 2021 economic growth forecast for Asia to 6.5 per cent, down by 1.1 percentage points from its April projection, according to a newly released regional economic outlook.

"The resurgence of the pandemic, amid initially low vaccination rates, slowed the recovery in the Asia-Pacific region, especially in emerging market and developing economies," Chang Yong Rhee, director of the IMF's Asia and Pacific Department was quoted as saying by Xinhua news agency. Noting that the Asia-Pacific remains the fastest growing region in the world, Rhee said as vaccination rates accelerate, the region is expected to grow by 4.9 per cent in

2022, 0.4 percentage points faster than projected in April. For advanced economies, the latest IMF forecast is broadly unchanged for 2021 with upgrades in South Korea and New Zealand and downgrades in Japan and Australia, according to the report.

Most of the downgrades in the region come from emerging market and low-income countries, led by India and the Association of Southeast Asian Nations. China is projected to grow by 8.0 per cent in 2021, down by 0.4 percentage point from the April projection, according to the report. India is projected to grow by 9.5 per cent after a sharp decline in 2020. While the pandemic

surge earlier this year had a large adverse impact on growth, the subsequent rebound in activity has gained strength, it said. The ASEAN-5 countries (Indonesia, Malaysia, the Philippines, Singapore, Thailand), are still facing "severe challenges" from a resurgent virus and weakness in contact-intensive sectors.

"The divergence between Asian advanced economies and developing economies is deepening, with output levels in the emerging market economies and low-income countries expected to remain below pre-pandemic trends in the coming years, reflecting differences in policy support and vaccination rollout," Rhee said.

IMF Chief Economist Gita Gopinath to leave job and return to Harvard University

PTI ■ WASHINGTON

IMF's Chief Economist Gita Gopinath will leave her job in January next year and return to the prestigious Harvard University's Economics Department, according to the global financial institution. The 49-year-old prominent Indian-American economist had joined the International Monetary Fund (IMF) as the Chief Economist in January 2019. She was the John

Zwaanstra Professor of International Studies and Economics at Harvard University when she joined the Washington-based global lender.

IMF Managing Director Kristalina Georgieva on Tuesday announced that the search for Gopinath's successor would begin shortly. "Gita's contribution to the Fund and our membership has been truly remarkable - quite simply, her impact on the IMF's work has been tremendous," Georgieva said.

India to see salary hike at 9.3% in 2022: Report

ANS ■ NEW DELHI

After a pandemic-induced lull, pay rises are making a comeback. With India projected a salary increase of 9.3 per cent next year, the country is set to be the highest payer in Asia Pacific, according to a report.

This is an increase of 8 per cent compared to 2021, revealed the latest report by advisory, broking and solutions company Willis Towers Watson.

India is followed by Sri Lanka (5.5 per cent),

China (6 per cent), Indonesia (6.9 per cent), and Singapore (3.9 per cent) for the highest salary increase for 2021 in the Asia Pacific region.

Pointing towards a much-anticipated economic recovery, a majority (52.2 per cent) of companies in India have projected a positive business revenue outlook for the next 12 months, up from 37 per cent in Q4 2020.

This translates in increased hiring across businesses with 30 per cent of companies planning to hire in the next 12 months. This is almost three times more than last year.

India needs to become a global power to defend itself: Gadkari

New Delhi: Union Minister Nitin Gadkari on Wednesday said India needs to become a global power, not to attack anyone but to defend itself. Addressing an event organised by industry body FICCI, he said India is not an expansionist power and does not intend to attack its smaller neighbours. "We need to make India a global power... We need to become powerful but not to attack anyone," the road transport and highways minister said. Gadkari noted that India is becoming self-reliant in the defence sector. "We are a rich nation with a poor population. We need to work to make India a rich nation with a rich population," he emphasised.

PTI

Markets skid for 2nd day as profit-booking takes hold

PTI ■ MUMBAI

The Sensex slumped 456 points while the Nifty closed below the 18,300-level on Wednesday as market participants pared exposure to overbought counters for the second straight session.

Midcap and smallcap stocks too saw heavy selling amid concerns over frothy valuations, traders said.

The 30-share BSE Sensex ended 456.09 points or 0.74 per cent lower at 61,259.96. Similarly, the NSE Nifty dropped 152.15 points or 0.83 per cent to 18,266.60.

Titan was the top laggard in the Sensex pack, shedding

2.97 per cent, followed by HUL, NTPC, L&T, PowerGrid, Bajaj Finserv and M&M.

In contrast, Bharti Airtel led the gainers' chart with a jump of 4.03 per cent. SBI, IndusInd Bank, Bajaj Finance, Axis Bank, ITC and HCL Tech were the other winners. "Indices corrected quite meaningfully led by the expensive side of the market where valuations had got stretched," said S Ranganathan, Head of Research at LKP Securities.

Almost all sectoral indices ended in the red, although PSU banks were seen bucking the trend with investors cherry-picking for value in that pocket, he noted.

Further, he said the street is taking note of the cost presuemanating from higher input costs in companies that do not possess the pricing power.

ABHIDHAMMA DAY CELEBRATIONS

PM Modi believes that Buddha is universal because he encouraged people to start from within as *Buddhatva* is a sense of ultimate responsibility

Prime Minister, Narendra Modi, participated in an event marking the celebrations of Abhidhamma day at the Mahaparinirvana temple in Kushinagar.

The Governor and Chief Minister of Uttar Pradesh, union ministers, G Kishan Reddy, Kiren Rijiju, and Jyotiraditya Scindia, the cabinet minister of Sri Lankan government, Namal Rajapaksa, Buddhist delegation from Sri Lanka, diplomats from Myanmar, Vietnam, Cambodia, Thailand, Lao PDR, Bhutan, South Korea, Sri Lanka, Mongolia, Japan,

Singapore, Nepal, and others, were present during the occasion.

Addressing the event, PM Modi noted the auspicious occasion of Ashwin Poornima and the presence of holy relics of Lord Buddha. Welcoming the delegation of Sri Lanka, he traced back the connections between India and Sri Lanka to emperor Ashoka's son, Mahendra, and daughter, Sanghamitra, taking the message of Buddhism to Sri Lanka. He also remarked that it was believed that on this day, Arahant Mahinda, a Buddhist monk, returned and told his

father that Sri Lanka had accepted Buddha's message with enthusiasm. The belief spread and Buddha's message was accepted by and for the whole world. Buddha's dhamma was for humanity.

Lauding the role of the International Buddhist Confederation in spreading the message of Lord Buddha, the Prime Minister remembered Shri Shakti Sinha, who passed away recently, for his contribution as DG of the International Buddhist Confederation. He also remarked that Buddha came back to Earth from Tushita

heaven and on Ashwin Purnima, the monks also completed their three-month *varshavas*.

He also said that Buddha was universal and *buddhatva* was a sense of ultimate responsibility. He underlined that many questions arise along with environmental concerns and climate change. But, if we adopt the message of Buddha, then instead of 'who will do,' 'what is to be done' path would start to show itself. PM Modi mentioned that Buddha was in the soul of humanity that connected different cultures and countries.

"India never believed in restricting the knowledge, great messages or the thoughts of great souls. Whatever was ours was shared with the entire humanity and that is why, human values, like non-violence and compassion, are settled in the heart of India so naturally", he commented.

He stated that Buddha was the source of inspiration for the Constitution of India as Buddha's Dhamma Chakra is sitting on the tricolour of India and giving us momentum. Even today, if someone goes to the Parliament of India, then the mantra, 'dharma chakra pravartanaya', is observed.

Talking about the influence of Lord Buddha in Gujarat and, specifically, the Prime Minister's birthplace, Vadnagar, he said Buddha's influence could be observed in western and southern parts of the country in equal measures as the eastern parts.

"The history of Gujarat shows that Buddha is beyond boundaries and directions. Mahatma Gandhi, born in the land of Gujarat was the modern flag-bearer of Buddha's message of truth and non-violence", he added.

Quoting Lord Buddha, "appa deepo bhava", meaning, "be your own lamp", the Prime Minister said that a self-illuminated person would show the path to the world. He concluded, saying that the day would mark the motivation for India to become self-reliant, providing strength to participate in the progress of every country in the world. PM Modi also remarked that Lord Buddha's teachings were being taken forward by India in the mantra of '*sabka saath, sabka vikas, sabka*

Strengthening fuel security

NTPC ties up with Talabira mines of NLC in Odisha

In its effort to strengthen fuel security, NTPC (National Thermal Power Corporation) Limited, the country's largest power generator, commenced coal offtake from Talabira mines of NLC in Odisha. As per the agreement, NTPC shall offtake coal from Talabira mines to Lara and Darlipalli. Besides this, NTPC is also ramping up coal production from its captive mines.

The present installed capacity of

NTPC Group is 66,900 MW (including 13,425 MW through subsidiaries), comprising 47 NTPC stations (23 coal-based stations, seven gas-based stations, one hydro station, one small hydro, 14 solar photovoltaic system (PV), and one wind-based station), and 26 joint venture stations (nine coal-based, four gas-based, eight hydro, one small hydro, two wind, and two solar PV).

Top innovators

BHEL wins the Clarivate South and South East Asia Innovation awards

Bharat Heavy Electricals Limited (BHEL) has been adjudged as the winner of the Clarivate South and South East Asia Innovation award, 2021, under the corporations in India. BHEL's efforts, as a leader in innovation, were recognised and placed among the top innovators in India. The award has been won by BHEL earlier in the years 2018 and 2020 also.

The Clarivate awards were announced, at the Clarivate South and South East Asia Innovation forum, that were held virtually earlier. The award was received by Renuka Gera, the director (IS&P, additional charge E, R&D) on behalf of BHEL, from Rajat Sikka, the

director of Intellectual and South East Asia of Property group, South Asia Clarivate Analytics.

Addressing public concerns

Dr Bhagwat Kishanrao Karad visits the LIC central office and expresses his desire of seeing it as a top company

Dr Bhagwat Kishanrao Karad, the Minister of State, department of Financial Services, Government of India, visited the central office of LIC of India in Mumbai on October 18.

The chairperson, MR Kumar, and managing directors, Siddhartha Mohanty, Mini Ipe and BC Patnaik, welcomed the minister.

Karad addressed his focus on people and how they can be benefited. While expressing satisfaction over the brand image of LIC, he stated the desire of seeing LIC occupying a numero uno position in global insurance brands.

Subsequently, he visited various departments of the central office and interacted with departmental officials, wherein he emphasised on the prompt disposal of work.

New investment strategy

LIC Mutual Fund announced the launch of LICMF BAF, an open-ended dynamic asset allocation fund which would invest across equity, debt and money market

The investment strategy for LIC MF Balanced Advantage Fund (LICMF BAF), essentially a hybrid scheme, would be uniquely driven by the Fundamental Driven Mathematical model.

Explaining the dynamics of the model-based unique investment approach for the new fund offer in LIC MF BAF, Dinesh Pangtey, the CEO of LIC Mutual Fund Asset Management Ltd said, "Bond yields, in a way, represent the opportunity cost of investing in equities and perception of risk appetite. We at LIC MF would be using this inverse relationship between equity and debt in

LICMF BAF for switching from equity to debt and vice versa, based on the Fundamental Driven Mathematical model."

LICMF BAF model would precisely use this relationship to determine optimal asset allocation level for the scheme. The model would use interest rates, one-year forward price-earnings ratio and earnings yield, to arrive

at the optimum asset allocation level.

Pangtey added that the model automatically would arrive at asset allocation between equity and debt, as the underlying fundamentals change. However, the equity and debt portfolio should be managed actively by seasoned fund managers.

The model would be designed

in such a way that it automatically factors in, any change in any of the parameters, on a real-time basis and keep changing the price to earning band using linear progression.

LICMF BAF would not only help investors participate in the market rally but, more importantly, it would also aim to minimise the downward risk, and this would be a crucial part of any investment strategy. LICMF BAF would be benchmarked against a customised index, LIC MF hybrid composite 50:50 index. The index composition would be 50 per cent nifty, 50 TRI and 50 per cent nifty 10 year benchmark G-Sec. The fund endeavours to keep gross equity allocation 65 per cent or above to enable investors to avail equity taxation benefits.

The New Fund Offer (NFO), which has opened on October 20, would close on November 3, 2021. The fund managers for LIC MF BAF would be Yogesh Patil for the equity portion, and Rahul Singh for the debt portion.

International Chef's day 2021 was celebrated at SRM Institute of Science and Technology (SRMIST), Kattankulathur, which had live food demonstrations. The theme for this year's event was 'Healthy food for the future'.

Organised by SRM Institute of Hotel Management (SRMIHM) and South India Chef's association, chief guest Chef Dr K Damodaran, president of SICA, held an interactive session with students. The celebrity chef, who also holds a Guinness world record, shared his work experience and love for cooking healthy meals while demonstrating on how to do the traditional *meen kolumbu*.

"Chefs are the backbone of the food industry," he stated, while urging senior chefs to pass down their skills and knowledge to the youngsters so that the latter may have the opportunity to get creative and innovate newer meals.

"Traditional food has a lot of healthy optional medicinal values. This will help in beating Covid," Damodaran added.

Chef Damodaran was honoured with the Life Time Excellence award by

Healthy food for the future

SRM honours chef Dr K Damodaran with Life Time Excellence award on International Chef's day

SRMIHM. Guest of honour, chef N Sheetharam Prasad, and general secretary of IFCA, and culinary director of GRT Hotels & Resorts, was honoured with the Service Excellence award. The Vocational Excellence award was presented to Chef Dr M Thirulogachander.

In his speech, Prasad said, "Students need to do a lot of research to develop good healthy eating habits." He urged all the upcoming chefs to practise cooking and eating local food.

SRMIHM also honoured 19 chefs, from all over the country, who had participated in the mega event. Chef Zubin Writer, executive sous chef at ITC grand Chola also held a live demonstration for students.

The fruit mixing ceremony was held during the event in which all the guests and chefs took part. The event concluded with cultural performance and prize distribution ceremony.

Also present at the event were SRMIST registrar Dr S Ponnusamy, the director of hotel management, Dr D Antony Ashok Kumar, and vice-principal of SRM IHM Lalitha, among others.

ment-friendly and sustainable operations.

Tandon, accompanied by Sridhar Patra, CMD of NALCO, visited the smelter and captive power-plants of NALCO at Angul and appreciated the efforts of NALCO in achieving the targets and scaling new heights of success amidst a challenging business environment. The IAS also interacted with officials and employees and motivated them to maintain the tempo of production and productivity.

Welfare schemes for people

Chhattisgarh CM, Bhupesh Baghel, receives the highest popularity rating amongst all heads of Indian states, according to the Governance Index

As per the CVoter Governance Index, the Chief Minister of Chhattisgarh, Bhupesh Baghel, is the best performing Chief Minister in the country.

He has received the highest popularity rating among all chief ministers of states. The index report attributed his popularity to several welfare schemes introduced by the state government.

Recent schemes, such as Mahatari Dular Yojana, that will provide free education to children who lost their guardians/parents to Covid, is appreciated by all. The government will bear the entire expenses of their education.

The report says that the Chief Minister is popular among the masses because of his strong decision-making ability and his CEO style of working. Around 94 per cent people of Chhattisgarh are happy with the Baghel's performance.

Milestones in environmental management

Union Mines secretary, Alok Tandon, IAS, inaugurates the lean slurry project of NALCO at Angul

The secretary of Ministry of Mines, Government of India, Alok Tandon, inaugurated the lean slurry project of National Aluminium Company Limited (NALCO) at Angul yesterday, marking a significant milestone in the Navratna company's journey of business excellence and

adopting outstanding practices in environmental management.

Completion of the lean slurry project by the company will ensure 100 per cent utilisation of ash generated at the company's Captive Power Plant (CPP) and marks a big step forward in its commitment towards environ-

Rohit finds his groove as India outplay Australia

PTI ■ DUBAI

India fine-tuned their T20 World Cup preparations with a convincing nine-wicket win over Australia in their final warm-up game here on Wednesday but the sixth bowler's slot remained a worry as even Virat Kohli rolled his arm over going into the tournament proper.

Captaining the side with Kohli only taking the field to bowl, Rohit Sharma (60 retired off 41) showed sublime touch alongside opening partner K L Rahul (39 off 31) as India chased down Australia's 152 for five in 17.5 overs.

Suryakumar Yadav (38 not out off 27) came at number three in Kohli's absence and got valuable time in the middle which should boost his confidence going ahead.

Hardik Pandya (14 not out off 8) came at four to finish the game and he did it with a clean hit over the bowler's head.

Another plus for India was seasoned pacer Bhuvneshwar

Australia's Marcus Stoinis looks on as India's Rohit Sharma and KL Rahul run between the wickets during the Cricket Twenty20 World Cup warm-up match between India and Australia in Dubai, on Wednesday

AP

Kumar finding rhythm after a poor outing against England. India had also beaten England in their earlier practice game.

The batting department looks more or less settled and the five specialist bowlers also inspire confidence but the same can't be said about the extra bowling option with Hardik not bringing his all-round skills to the table at the moment.

"Hardik is coming along pretty well, but it'll be a while before he will start to bowl. He hasn't started bowling, but he should be ready by the start of the tournament," said Rohit at the toss for the warm-up match against Australia.

The team management is hoping he will be ready to bowl during India's World Cup campaign which begins with the marquee clash against Pakistan on Sunday.

Skipper Kohli kept things tight with two overs of medium

pace but to expect him to do the job in high-pressure scenarios would be asking for too much from him.

India conceded 58 runs off the last five overs and that is something they would like to improve on.

After losing the toss, India put up a decent bowling effort. Rohit mentioned at the toss that Kohli, Jasprit Bumrah and Mohammed Shami were rested from the game but the skipper took the field to bowl a couple of overs in which he conceded 12 runs.

India had Australia on the mat at 11 for three after Aaron Finch opted to bat first. David Warner's barren run continued after a failed attempt at a reverse sweep had him trapped in front off Ravichandran Ashwin.

With his very next ball, Ashwin got rid of birthday boy Mitchell Marsh who played for the turn which wasn't there only to edge it to the first slip.

Hardik expected to bowl when Indian T20 WC campaign begins: Rohit

PTI ■ DUBAI

India vice-captain Rohit Sharma on Wednesday said that all-rounder Hardik Pandya is expected to be "ready" to bowl when the team starts its T20 World Cup campaign here on Sunday. Rohit, who is leading the side in the warm-up game against Australia as Virat Kohli has been rested, said the team needs a sixth bowler during the showpiece.

"Hardik is coming along pretty well, but it'll be a while before he will start to bowl. He hasn't started bowling, but he should be ready by the start of the tournament," said Rohit at the toss for the warm-up match against Australia.

"We have quality in the main bowlers, but you need an option for a 6th bowler," he

Ravindra Jadeja had Finch trapped LBW with a slider off his very first ball, leaving Australia with a lot of work to

do. Steve Smith (57 off 48) and in-form Glenn Maxwell (37 off 28) tried to break the shackles with a 61-run partnership.

While Maxwell used his reverse sweep to good effect, Smith kept himself busy by rotating the strike.

T20WorldCupwindow

12 YR OLD DEIGNED SCOTLAND T20 WC JERSEY

Dubai: Scotland beating teams such as Bangladesh in the ICC T20 World Cup was never unthinkable. But what is difficult to believe is that the team's striking dark blue and purple-coloured jersey has been designed by a 12-year-old girl. Rebecca Downie is the young designer and she has been cheering her team, which proved to be the most impressive in the first week of the tournament. The team chose the design from over 200 entries from school children across the country. The jersey is based on the colours of Scotland's national emblem — the thistle.

'IF WE DON'T GET RESULTS, WE SEARCH FOR SCAPEGOATS'

Karachi: Former captain Misbah-ul-Haq said that there will be no improvement in Pakistan cricket unless it changes its culture and stops hunting for scapegoats. Speaking for the first time after his sudden resignation as head coach last month, Misbah said "cosmetic surgery" will not change anything in Pakistan cricket as the problems are deep rooted in the system."The problem is that in our cricket we only look at results and we don't give time or have patience for planning ahead and improving the system," he said on A-Sports' channel.

It should be spinners' World Cup, says Rashid Khan

PTI ■ DUBAI

The ICC T20 World Cup will belong to the spinners. Afghanistan's star leg-break bowler Rashid Khan has asserted, and said they can beat any team if they bat well in the showpiece. Since being picked up by IPL team Sunrisers Hyderabad as an 18-year-old in 2017, ace leg-spinner Rashid has emerged as T20 cricket's leading wicket-taker in this period with 333 scalps and is wanted by franchises across the world.

Appearing in his second T20 World Cup, Rashid feels spinners are always "effective" on pitches at three venues in the UAE, where the Super 12s, the

semi-finals and final will be played.

"Conditions here are always good for spinners and it should be spinners' World Cup," Rashid was quoted as saying by ESPNcricinfo.

"Doesn't matter how wickets are prepared here, it is always helpful for the

spinners. Spinners will play a huge role in this World Cup.

"As we have seen in the IPL, spinners have brought back their team in the game. I feel that will be same in the World Cup as well. The best spinners will bring their team back in the game and win it."

Rashid feels Afghanistan, who are in Group 2 along with India, Pakistan and New Zealand, would need to do "lots of hard work" considering all their opponents in the Super 12s are "good players of spin".

Afghanistan have played 14 T20Is at the three venues in the UAE and have won all of them.

debutants Namibia were stuttering at 52 for three after nine overs but Wiese single-handedly sank the Dutch side.

His onslaught on the spinners, especially the monstrous straight sixes, was a treat to watch as the Dutch bowlers were guilty of putting the balls in the slot for Wiese to clobber.

And even if the pacers drew the length a bit back, the 36-year-old Wiese had enough power to muscle the ball around for big shots.

He raised his fifty in just 29 balls, with a six off rival skipper Pietar Seelaar. His 40-ball unbeaten knock was adorned with five

sixes and four shots to the fence. Erasmus too timed the ball beautifully and got boundaries with ease in his 22-ball knock

that had four fours and a six.

The victory has kept Namibia in hunt for the Super-12 stage and now need to beat

Ireland in their final game in the first round.

They had lost to Sri Lanka in their opening match.

The Netherlands now have lost both their games and their chances to make it to the next stage are quite low.

Earlier, opener Max O'Dowd (70) struck his second consecutive half-century and shared a 82-run stand with Colin Ackermann (35) to help the Netherlands post a competitive 164 for four.

O'Dowd, who had hit 51 against Ireland in the previous match, expressed himself freely, going after the bowlers. At times he played uppish shots, not exactly in control but still kept finding the gaps to keep the scoreboard going.

Namibia beat Netherlands, keeps them in hunt for Super 12

PTI ■ ABU DHABI

In a sensational display of power-hitting, David Wiese conjured up a 66-run knock to fashion Namibia's six-wicket win over the Netherlands in a crucial first round Group A game of the T20 World Cup here on Wednesday.

Wiese's maiden international half-century changed the pace of the game in matter of minutes as runs flew thick and fast after he took charge at the crease and in the process added 93 runs with skipper Gerhard Erasmus (32) for the fourth wicket. Chasing 165 to stay alive in the competition,

PTI ■ ODENSE

Young Lakshya Sen thumped compatriot Sourabh Verma in straight games to enter the second round but it was curtains for Saina Nehwal at the Denmark Open Super 1000 tournament here on Wednesday.

Lakshya, who had finished runners-up at Dutch Open last Sunday, dished out a superb performance to outclass national champion Sourabh 21-9 21-7 in 26 minutes.

The 20-year-old from Almora, who had failed to make the cut for the Sudirman Cup and Thomas Cup Final after losing his only match in the trials, is likely to clash with second seed

and Olympic champion Viktor Axelsen of Denmark next.

London Games bronze medalist Saina, who had retired midway through her first match at Uber Cup Final due to a groin injury, couldn't match Japan's world no 20 Aya Ohori and lost

21-16 21-14 in the opening round.

The Indian doubles players had a dismal outing as apart from Satwiksairaj Rankireddy and Ashwini Ponnappa, none of the others could put up a fight in their respective matches.

While Satwik and Ashwini's gallant battle ended with a 17-21 21-14 11-21 loss to China's Feng Yan Zhe and Du Yue in mixed doubles, Meghana Jakkampudi and Poorvisha S Ram lost 8-21 7-21 to Indonesian combination of Nita Violina Marwah and Putri Syaikhah in women's doubles. Commonwealth Games bronze medalists Ashwini and N Sikki Reddy also went down 17-21 13-

21 to second seeded Korean pair of Lee Sohee and Shin Seungchan.

Lakshya had claimed five titles in 2019 before COVID-19 forced the suspension of the BWF calendar.

On Wednesday, the world no 25 Indian was up against Sourabh, an opponent against whom he had lost twice in the past but it made no difference as Lakshya dished out a dominating show to blow him away.

He led 7-2 early on and never looked in trouble as he reeled off seven straight points from 13-7 to grab seven game points. Sourabh saved two before Lakshya pocketed the opening game.

Pattinson retires from international cricket

PTI ■ MELBOURNE

Australian fast bowler James Pattinson on Wednesday retired from international cricket after realising that he won't be in the reckoning for the Ashes series due to fitness issues.

The 31-year-old, who has played 21 Tests and 15 ODIs, though will continue to play domestic cricket.

Pattinson had recently suffered a knee injury during an intra-squad Victorian trial game.

"Leading into pre-season I really wanted to give the Ashes a crack but in the end I haven't had the preparation I would have liked heading into the coming season," Pattinson was quoted as saying by cricket.Com.Au in a statement.

"If I was to be part of the Ashes I would need to do myself and my teammates justice. I didn't want to be in a position of battling with my body when you need to be 100 per cent fit and ready to go at any time. That would not be fair to myself or the team.

"It was then I felt that instead of trying to play at the very highest level, knowing I have only got three or four years of cricket left, I would focus more on Victoria, helping the young guys develop, perhaps some cricket in England and spending more time with my family."

Messi scores 2 goals to rescue PSG

AP ■ PARIS

Lionel Messi scored twice in a quick succession, including an exquisite Panenka-style penalty, to rescue Paris Saint-Germain as it rallied to beat Leipzig 3-2 in the Champions League after being dominated for long spells.

Messi equalised in the 67th minute on Tuesday, poking home from close range after goalkeeper

Peter Gulacsi tipped his first shot onto the post. He then sent Gulacsi diving to the left before dinking the ball softly down the middle for his third goal since joining PSG from Barcelona.

They have all come in the Champions League, with Kylian Mbappe setting up the first two and winning the penalty for Messi's winner against Leipzig in the 74th minute.

Mbappe pointed straight at Messi to tell him he could take the spot kick.

"It's normal, it's about respect," Mbappe said.

"He's the best player in the world. I've always said it's a privilege to play with him."

It was the 34th time that Messi scored at least two goals in a Champions League game, bringing the Argentina captain's total to 123

goals in the tournament. He remains second to longtime rival Cristiano Ronaldo on 137.

Mbappe then took a penalty in the fourth minute of stoppage time, awarded following a video review for a foul on right back Achraf Hakimi, but he blazed it well over.

PSG is atop Group A with seven points, one more than Manchester City. Leipzig is last with no points.

Mbappe opened the scoring with a ninth-minute goal. But after that, the visitors took control by pressing high up the field and forcing panicky PSG into numerous errors.

"(Were we) lucky, no? You make your own luck," Mbappe said.

"But of course, it was difficult, Leipzig played well. We had some low spells which were perhaps a little bit too low."

Striker Andre Silva equalised in the 28th and midfielder Nordi Mukiele volleyed in powerfully in the 57th, with left back Angelino setting up both with his deft left foot.

"Leipzig have a good team, full of confidence," PSG winger Julian Draxler said.

"They caused us some problems, but we ruthlessly exploited the room we were allowed."

PSG was missing forwards Neymar and Mauro Icardi, which gave Draxler a rare start alongside Mbappe and Messi in attack. Neymar has a sore adductor while Icardi was excused for family reasons.

Olympic flame arrives in Beijing amid boycott calls

PT ■ BEIJING

The Olympic flame arrived in Beijing on Wednesday amid calls from overseas critics for a boycott of the Feb. 4-20 Winter Games.

Beijing's Communist Party Secretary Cai Qi, the top official in the Chinese capital, received the flame at a closely-guarded airport ceremony.

Beijing successfully hosted the Summer Olympics in 2008, although the event failed to produce the more open political and social environment in China that many had hoped for.

Activist groups disrupted the flame lighting ceremony in southern Greece on Monday, accusing the International Olympic Committee of granting legitimacy to rights abuses in China.

IOC officials have said they are committed to seeing the competition go ahead and that rights issues are not part of their remit.

Speaking in the ancient stadium of Olympia, IOC President Thomas Bach said the Games must be "respected as politically neutral ground."

SINGLES

BENZEMA ABSENT FOR BLACKMAIL TRIAL

Versailles : Real Madrid forward Karim Benzema wasn't present Wednesday for the opening of his three-day trial for involvement in an alleged attempt to blackmail former France teammate Mathieu Valbuena over a sex tape. The 33-year-old Benzema's legal team told the court in Versailles that professional obligations made it "impossible" for him to attend. Valbuena's lawyer said he deplored the absence. Benzema played for Madrid in Kyiv on Tuesday against Shakhtar Donetsk in the Champions League. Madrid plays again Sunday against Barcelona in the Spanish league. Four other people accused of attempted blackmail in the case were present in court.

AKEAL HOSEIN REPLACES FABIAN ALLEN

Dubai: Left-arm spinner Akeal Hosein was on Wednesday approved as replacement for an injured Fabian Allen in the West Indies squad for the ongoing ICC T20 World Cup. The Event Technical Committee of the tournament has approved Hosein as a replacement for Allen, the ICC said in a statement. Hosein, who has played nine ODIs and six T20Is, was picked after Allen was ruled out due to an ankle injury. Hosein was a reserve as per the allowance for teams to travel with extra players in view of COVID-19 quarantine requirements.

OLYMPIANS HEADLINE NATIONAL CHAMPIONSHIP

Hisar: Olympians Simranjit Kaur (60kg) and Pooja Rani (81kg) headline a strong field for the National Women's Boxing Championship, which will double up as a selection trial for the world championships, starting here on Thursday. The tournament, which is being conducted in association with Haryana Boxing Sangh, will see participation of more than 320 boxers from 36 States/UTs/Boards from across the country. Apart from Simranjit (60kg) and Pooja (81kg), who is the reigning Asian champion, 2019 World Championships bronze-medallist Jamuna Boro (54kg), defending champion Pwila Basumaty (60kg) and Asian Championships bronze medalist Jaismine (60kg) will be seen presenting strong challenges.
