Dera Sacha Sauda chief Above 70% non-vaccinated awarded life for murder kids have Covid antibodies

Besides Gurmeet Ram Rahim, four others to spend life in jail for murder of Dera's ex-manager

PNS CHANDIGARH

Dera Sacha Sauda chief Gurmeet Ram Rahim Singh and four others were on Monday sentenced to life imprisonment for murder of a former sect manager nearly two decades back.

A Special CBI court in Haryana's Panchkula district pronounced the verdict, sentencing Ram Rahim and four others for murdering Ranjit Singh in 2002

The CBI had sought the death penalty under Section 302 of the Indian Penal Code for Ram Rahim, while the Dera chief pleaded for mercy, appearing via video conference from Rohtak's Sunaria jail, where he is serving sentence in two cases of rape and for the murder of a journalist.

The others convicted by the court for the crime are Krishan Lal, Jasbir Singh, Avtar Singh, and Sabdil.

The court also imposed a penalty of ₹31 lakh on Ram

Rahim, half of the amount will be given to the victim's family as compensation. The court has imposed a penalty on other accused as well.

The CBI court had held Ram Rahim and four others guilty under Sections 302 (murder) and 120 b (criminal conspiracy) of the Indian Penal Code on October 8.

After the pronouncement of sentence, the victim's son Jagseer Singh while talking to the mediapersons said the family has finally got justice, though after much delay.

'My grandfather who fought the battle for justice for his son died in 2016. I was just eight-year-old when my father was murdered in a cold-blood-

ed manner. Today, after 19

years, my family can sleep in

peace," he said.

Tight security arrangements were made at the Panchkula district court complex for the pronouncement of the judgement and the local authorities had imposed prohibitory orders.

Earlier, the CBI court had deferred the pronouncement of the quantum of sentence on October 12.

Ram Rahim had attended hearings relating to the pronouncement of sentences virtually. He pleaded for mercy on the plea of the charitable works that the sect carried out when

The CBI, on the other hand, opposed the Dera chief's plea, saying the victim treated him as "rod" and the account him as "god" and the accused committed offences against him. It said Ram Rahim had criminal antecedents and committed the offence in a coldblooded manner.

Ranjit, a former follower of Ram Rahim, was shot dead by four assailants on July 10, 2002, at his native Khanpur Kolian village in Kurukshetra. According to the CBI chargesheet, he was murdered as Ram Rahim suspected that he was behind the circulation of an anonymous letter highlighting the sexual exploitation of women disciples on the Dera premises.

The Punjab & Haryana High Court had earlier dismissed a petition seeking the transfer of the murder case from the special CBI court in Panchkula to any other special CBI court in Punjab, Haryana or Chandigarh.

Notably, the self-styled godman Ram Rahim was sentenced in August 2017 for 20 years in jail for raping two women. His conviction on August 25, 2017, had led to violence in Panchkula and Sirsa leaving over 40 people dead and more than 260 injured in Panchkula.

69.8% in 6-9 age group, 73.2% in 10-17 years have antibodies, finds Harvana survey

PNS CHANDIGARH

Antibodies against SARSCoV-2 were found among 76.3 per cent of the State's population in a third sero survey conducted in all 22 districts of Haryana.

The latest survey conducted last month showcases a steep increase in antibodies in the State's population as the current 76.3 per cent from just 14.8 per cent in October 2020 and 8 per cent seen in August 2020.

The sero survey report which was released by Haryana

Monday found a sero-positivity rate of 69.8 per cent in children aged 6-9 years and 73.2 per cent in adolescents aged 10-17 years in the State. It was for the first time that the participants aged 6 years and above were enrolled in this sero survey. In previous two rounds of sero surveys, people above the age of 18 years were enrolled in Haryana.

According to the findings, the overall sero-positivity was found to be 76.3 per cent (78.1 per cent in urban and 75.1 per cent in rural) but it varied from district to district, ranging from 64.2 per cent to 85 per cent in Faridabad district (low-est) and Kurukshetra (highest) respectively.

Kurukshetra district recorded highest sero-positivity followed by Rohtak (84.6 per cent), Mahendragarh (81.6 per cent) and Panipat (81.5 per cent). Faridabad had highest inconclusive samples (13.2 per cent) leading to the lowest sero-positivity following which the State Government has decided to conduct another

sero survey in the district. Sero-positivity of 75.3 per cent were reported in men, 77.1 per cent in women. Sero-positivity of 81.6 per cent was found in vaccinated people and a positivity of 75.5 per cent has been found in non-vaccinated people, stated the survey. that overall 57.08 per cent participants were vaccinated against Covid-19 out of which 52.6 per cent were males, 47.3 per cent were females and 0.07 per cent were transgender. Among vaccinated individuals, Covishield was administered to

7.4 per cent of people in Haryana. Hypertension, diabetes, heart diseases, thyroid disorders & respiratory disorders were the most common co-morbid conditions present in the study participants. Continued on Page 2

Vector-mRNA jab mix more efficacious

Results published in Lancet based on study on Sweden population

PNS NEW DELHI

Suggesting that mix and match of vaccines can be a new game-changer for many countries, a nationwide study in Sweden has found that people who received a first dose of the Oxford-AstraZeneca Covid-19 vaccine followed by an mRNA vaccine shot had a lower risk of infection compared to those immunised with both doses of the AstraZeneca preventive jab.

The results of the study, published in The Lancet Regional Health-Europe journal, may have implications for

vaccination strategies in different countries, including India where Covishield and Covaxin vaccines are two

major brands given under the

nationwide inoculation drive The Lancet study is based on nationwide registry data from the Public Health Agency of Sweden, the National Board of Health and Welfare, and Statistics Sweden.

Farmers' rail roko against Lakhimpur hits 500 spots

PNS NEW DELHI

 $T^{\text{he Samyukt Kisan Morcha}}_{(SKM)\text{'s six-hour "rail rook" protest on Monday over}}$ the Lakhimpur violence affected over 500 locations across parts of country, including 150 in the Northern Railway zone, where running of 60 trains were affected. Farmers squatted on rail tracks at several places hampering train movement in

Pradesh, Rajasthan, Odisha. The SKM, an umbrella

body of farmer unions spearheading the agitation against the Centre's three agri laws, said "protests will be intensified until justice is secured" in the Lakhimpur Kheri case. Train traffic was stopped from 10 am till 4 pm during the "rail roko" protest over the demand of the dismissal and arrest of Union

Minister Ajay Mishra in connection with the Lakhimpur

Kheri case, the SKM said. The trains that have been affected in the Northern Railway zone include the Chandigarh-Ferozepur Express. Its scheduled departure from Ludhiana was 7 am, but it was stranded there due to a blockade, the official said. Continued on Page 2

Buddhist circuit, PM to open airport

125 dignitaries, Buddhist monks. envoys from 15

countries to attend

PNS NEW DELHI

Prime Minister Narendra Modi will inaugurate Kushinagar international airport in Uttar Pradesh on

Wednesday amid the presence of more than 125dignitaries and Buddhist priests, including eight high priests from Sri Lanka. It is learnt that ambassadors of at least 10-15 countries, where Buddhism is both practised and preached, would attend.

The Ministry of Civil Aviation on Monday said that the inaugural flight will land at the Kushinagar airport from Colombo, carrying 125 dignitaries and Buddhist monks. Kushinagar is an international Buddhist pilgrimage centre where Lord Gautam Buddha attained Mahaparinirvana and

which consists of pilgrimage sites at Lumbini, Sarnath

and Gaya. ration, the Prime Minister will also address a programme on Wednesday at the Buddhist

site of Mahaparinirvana stupa and temple in which Sri Lankan Buddhist monks and Ministers of the Sri Lankan Government will take part, the Ministry said.

"Inauguration of the Kushinagar airport will facilitate the pilgrims from across different parts of the world by providing seamless connectivity to various Buddhist sites in the region. Direct aviation connectivity with South Asian countries will make it easier for tourists arriving from Sri Lanka, Japan, Taiwan, South Korea, China, Thailand, Vietnam, Singapore, etc, to reach Kushinagar and

experience the rich heritage of

the region. Tourism inflow is

expected to rise by upto 20%

with inauguration of the flight,"

the Ministry said. Continued on Page 2

Kushinagar crowns | Targeted killings trigger ghar wapsi from Valley

series of attacks on migrant Alabourers in Kashmir valley has once again triggered a ahead of the festive season.

Hours after the two labourers from Bihar were shot dead in Wanpoh area of Kulgam late on Sunday evening, panicstricken labourers from different parts of the country fled Kashmir valley in the early hours of Monday.

Mostly daily wagers working in paddy fields and brick kilns decided to flee Kashmir to ensure their safety.

These labourers boarded private taxis and passenger buses with bare minimum luggage before bidding goodbye to the Kashmir valley

On their arrival in Jammu, these migrant labourers claimed they were charged 800-1200 per head by the Kashmir-based tour operators to drop them in Jammu, a much higher charge.

A young mother, holding her minor child in her lap, told reporters in Jammu that Kashmir is no longer a paradise for her. "I don't want to return. I can earn my livelihood at any

Women security personnel frisk a pedestrian during a surprise checking in Srinagar on Monday

other place but not in Kashmir valley," she said.

Narrating her ordeal, she claimed they raised an alarm and sought help from the local authorities and others in the neighborhood but none came forward to help them. "We were scared after witnessing this mayhem and bloodshed in the valley, so we decided to pack our bags as we feared for our lives too," she said.

A labourer from West Bengal said, "I earned 800 per day by working in the paddy

fields. But after hearing the news, my family directed me to immediately return home. I had no other option left, hence I too decided to embark on the return journey," he said, adding, 'For the last couple of days we were feeling insecure as terrorists were targeting nonlocals randomly'

At Jammu railway station the majority of labourers with their families were seen struggling to organise food for their minor kids and women.

Chardham pilgrims advised to stop yatra

Dehradun: Five people, including three labourers from Nepal, died and two others were injured with incessant rains lashing Uttarakhand for the second consecutive day on Monday as authorities advised Chardham pilgrims not to proceed to the Himalayan temples till the weather improves.

The labourers were staying in a tent at Samkhal near Lansdowne in Pauri district when rubble flowing down from a field above due to the rains buried them alive, District Magistrate Vijay Kumar Jogďande said.

They were engaged in the construction of a hotel at Samkhal. Two labourers injured in the incident were admitted at the Kotdwar base hospital, he said. In another incident, two

The CBSE has decided to go

season, the board has decided to conduct papers from 11:30 am instead of 10:30 am. All students will get 20 minutes to read the question papers. Term 1 papers will have only objective-type questions. The duration of each paper will be 90 minutes.

The CBSE has divided board exam subjects into two groups - minor and major. First, exams will be conducted for minor papers, followed by major papers. Practical exams, internal assessment, and project work for 50 per cent of the total marks will be completed by schools before the term 1 exams are over, the CBSE said. The CBSE will not place candidates in "pass", "compartment" or "essential repeat" categories at the end of term 1 exams. The final result will be declared only after term

CBSE has divided the subjects for Classes 10 and 12 into major and minor. The minor subject exams will be conducted before the major subjects at the respective schools of the candidates. Since each minor subiects are not offered by every CBSE school, schools will be grouped accordingly and every

exams will be carried out. CBSE said this format was being done to prevent the learning loss of students. For CBSE Class 12, the major subjects include the compulsory chosen languages and the other core subjects of each stream.

The CBSE Term 1 paper will only test students on the rationalised syllabus like the last years due to Covid-19. That rationalised syllabus will be divided into two for the two

The CBSE Term 1 exam will be of 90 minutes for each subject and MCQ-based. Students will get 20 minutes to read the paper instead of 15 minutes.

Practical and internal assessment exams will be held at the respective schools of candidates before the CBSE Term 1 exams end. The allotted marks will be 50% of the total and schools will be informed about the detailed scheme so they can plan accordingly. The Term 2 exam will be held in the month of March-April 2022 and will have a mix of subjective and objective-type questions. Sample question papers and syllabi of the CBSE board exam 2022 are made available on the CBSE academic website.

Vector-mRNA... From Page 1

Since the use AstraZeneca's vector-based vaccine against Covid-19 was halted for people younger than 65 years of age due to safety concerns, all individuals in Sweden who had already received their first dose of this vaccine were recommended an mRNA vaccine as their second dose.

"Having received any of the approved vaccines is better compared to no vaccine, and two doses are better than one," said Peter Nordstrom, a professor at Umea University, Sweden.

"However, our study shows a greater risk reduction for people who received an mRNA vaccine after having received a first dose of a vector-based, as compared to people having received the vector-based vaccine for both doses," Nordstrom said.

In the main analysis, about 700,000 individuals were included. During a 2.5-month average follow-up period after the second dose, the study showed a 67 per cent lower risk of infection for the combination of AstraZeneca and Pfizer vaccine shots.

There was a 79 per cent lower risk of infection for AstraZeneca and Moderna vaccine shots, compared to unvaccinated individuals, the researchers said.

For people having received two doses of the AstraZeneca vaccine, known as Covishield in India, the risk reduction was 50, they said. These risk estimates were observed after accounting for differences regarding date of vaccination, age of the participants, socioeconomic status, and other risk factors for Covid-19.

The researchers noted that the study estimates of effectiveness apply to infection with the Delta variant, which was dominating the confirmed cases during the follow-up

"The results of the study may have implications for vaccination strategies in different countries," said Marcel Ballin, doctoral student at Umea University, and co-author of the

study.
"The World Health Organization has stated that despite the promising results from previous studies regarding immune response from mix-and-match vaccination, there is a need for larger studies to investigate their safety and effectiveness against clinical outcomes. Here we now have one such study," Ballin

There was a very low incidence of adverse thromboembolic events, or formation of blood clots in blood vessels, for ing to the researchers.

B'desh arsonists...

From Page 1

The fire service received a report of the fire at 8:45 PM and finally put it out by 4.10 am, the report said.

The arson incident

occurred amid rising communal tension over an alleged blasphemy incident at a Durga Puja venue in Cumilla which led to attacks on Hindu temples and clashes between vandals and the police in Cumilla, Chandpur, Chattogram, Cox's Bandarban, Bazar, Moulvibazar, Gazipur, Chapainawabganj, Feni and

other districts. Dozens of people have been arrested over the attacks and the spread of communal hatred on social media, the report said.

Four assumed Muslim bigots were killed in Haziganj, the worst scene of the violence, on Wednesday and Thursday, while the body of a Hindu devotee was found at a pond in nearby Begumbanj of Noakhali district. Muslim and Hindu protestors took to the streets at different areas of the country, including the capital Dhaka in the past several days.

The Bangladesh Hindu-Buddhist-Christial Unity Council said at least 70 puja pavilions and temples were attacked in the previous three days of violence. The council alleges that at least four Hindu devotees have died in the attacks in Chandpur and Noakhali.

Meanwhile, the elite anticrime force Rapid Action Battalion (RAB) has arrested two more men in connection with the looting and vandalism of temples and shops belonging to the Hindu minority community in Feni, about 155 kms from here.

"They were arrested for their involvement in communal violence and inciting peoole on social media. They were handed over to the local police station," said Imran Khan, assistant director of the paramilitary force's Legal and Media Wing. Earlier on Saturday, one person was arrested in connection with the attack which took place when the Feni Puja celebration committee and its supporters were preparing to protest against the communal violence in the country.

The assailants also vandalised and looted several temples and a number of shops owned by Hindus and torched vehicles. They clashed with the police for about seven

Above 70% non-vaccinated kids have Covid anti-bodies

From Page 1

Till date, around 2.47 crore eligible people have been vaccinated in the state.

A total of 36,520 samples were collected from all the districts of the state for the survey and testing of all samples was done in the laboratory of District Civil Hospital, Panchkula. The sero-survey analyses the blood samples of selected individuals for anti-SARS-CoV-2 IgG anti-

According to the health experts, a sero-survey can help in understanding what percentage of a population has developed immunity against the virus and how far are we from herd immunity. It can also help examining which groups are more exposed or have had higher rates of infection About 2200 officers and employees of the Health Department were engaged in the third round of sero survey. Notably, in the first sero-survey conducted in August last year, when a total of 18,905 blood samples were collected, an overall 8 per cent of the samples had antibodies against the virus. The sero-positivity of SARSCoV-2 was highest in Faridabad (25.8 percent) followed by Nuh (20.3 percent). Four districts recorded sero prevalence between 10 per cent to 13 per cent while eight districts had prevalence between 5 per cent to 10 per cent. Overall, it was 6.9 per cent in rural areas and 9.59 per, cent in urban

Later, an overall sero-positivity in the state was recorded at 14.8 per,cent (15,840 samples) during the second sero-survey conducted in October 2020. The highest prevalence of 31.2 per cent was reported in Faridabad followed by 28.6 percent in Yamunanagar district. Six districts were found to have sero-positivity prevalence below 10 per cent namely, Bhiwani, Charkhi Dadri, Mahendragarh, Sirsa and Hisar. Urban areas had recordper cent in rural areas.

Farmers' rail...

From Page 1

The New Delhi-Amritsar Shatabdi Express was halted near Shambu station as protesters blocked railway tracks near Sahnewal and Rajpura. "So far, 150 locations in the Northern Railway zone have been affected and operations of 60 trains hindered. About 25 passenger and short distance trains have been cancelled," the Northern Railway CPRO said.

The Delhi Police said there were no reports of any disturbance in the national Capital due to the "rail rook" protest. Deputy Commissioner of Police (Railways) Harendra Kumar Singh said, "We have not received any report of disturbance in Delhi."

Agitations were also held at Punjab's Ludhiana, Amritsar, Jalandhar, Moga, Patiala and Ferozepur, and Haryana's Charkhi Dadri, Sonipat, Kurukshetra, Jind, Karnal and

Uttar Pradesh's Muzaffarnagar, Bharatiya Kisan Union workers halting the Amritsar-Delhi and the Jalandhar Express trains by staging a dharna on rail tracks. Trains were halted at Meerut and Greater Noida's Dankaur stations by the protesters, BKU media in-charge Dharmendra Malik said. In Ghaziabad's Modinagar staged a demonstration infront of a goods train which already reached its destination.

to create any significant impact in Uttar Pradesh. There was heavy police deployment in and around railway stations, but trains stopped briefly at few stations, railway officials said.

In the North Western Railway (NWR) zone, rail traffic was affected in some sections in Rajasthan and Haryana with 18 trains cancelled, 10 partially cancelled and one diverted due to the protest. In Rajasthan, farmers held a protest on the tracks in Hanumangarh district and at the entrance of Jaipur Junction station and raised slogans against the Central and the Uttar Pradesh Governments

An NWR spokesperson said rail traffic on Bhiwani-Rewari, Sirsa-Rewari, Loharu-Hisar, Suratgarh-Bathinda, Sirsa-Bathinda, Hanumangarh-Bathinda, Rohtak-Bhiwani Rewari-Sadulpur, Hisar-Bathinda, Hanumangarh-Sadulpur and Sri Ganganagar-Rewari sections affected.

Eighteen trains, including the Firozpur-Hanumangarh Special train, Ludhiana-Hisar Special train, Bathinda-Sriganganagar Special train, Bathinda-Lalgarh Special train, Phulera-Rewari Special train, Rewari-Jodhpur Special train, Ratangarh-Churu special train and Churu-Bikaner special train, were cancelled on Monday.

The route of Ahmedabad-Shri Mata Vaishno Devi Katra Special train has also been changed, the NWR spokesperdeparted from Ahmedabad on Saturday will run via Rewari-Delhi-Pathankot to Shri Mata Vaishno Devi Katra.

Delhi sees first dengue death, cases touch 1,248

A TOTAL OF 1,072 CASES AND ONE DEATH WERE LOGGED IN THE ENTIRE YEAR IN 2020

STAFF REPORTER ■ NEW DELHI

Delhi has reported the first death due to dengue this year, while the number of cases of the vector-borne disease has reached over 1,248, a senior civic body official said.

The deceased has been identified as Mamta Kashyap, 35, a resident of Sarita Vihar in South Delhi, he said.

According to the report released by municipal corporations on Monday, 453 dengue cases were recorded in Delhi last week. Out of the total cases, 181 people traced in Delhi were infected in other States, the report said.

The total number of cases this year till October 9 had stood at 480. So, 243 fresh cases have been logged in one week.

for the January 1-October 16 period in the previous three years were 395 (2020), 644 (2019) and 1020 (2018), according to the report.

A total of 1,072 cases and

one death were logged in the entire year in 2020, according to the report released by the South Delhi Municipal Corporation, the nodal agency for tabulating data on vector-borne diseases in the city.

The number of deaths due

to dengue in years preceding 2020 had stood at two (2019); four (2018); 10 (2017); and 10 (2016), according to the official tally maintained by the SDMC.

Last year, 188 dengue cases were reported in the entire month of September, and 190 in 2019. In preceding years, the

corresponding figures had stood at 374 (2018), 1,103 (2017), 1,362 (2016) and 6,775 (2015), according to data shared by Delhi health department on September 22.

Dengue mosquito larvae breed in clear, standing water, while those of malaria thrive even in dirty water. Cases of vector-borne diseases are usurally reported between July and November but the period may stretch till mid-December.

According to the civic report, 142 cases of malaria and 69 cases of chikungunya have also been reported till October 16 this year in Delhi. Malaria, dengue and chikungunya are accompanied with high fever and therefore, doctors feel that people might suspect that they have contracted Covid-19.

Direct Delhi Govt to nominate Lokayukt, BJP tells L-G Baijal

STAFF REPORTER ■ NEW DELHI

The Delhi unit of the Bharatiya Janata Party (BJP) has urged the Lieutenant-Governor of Delhi Anil Baijal to immediately direct the Delhi Government to nominate a Lokayukt in the national Capital.

Capital.

"The office of the Lokayukt is lying vacant since the last Lokayukt retired in December 2020 and Delhi's Arvind Kejriwal Government is not taking interest in filling the vacancy which is important to ensure transparency in administration," Delhi BJP's spokesperson Praveen Shankar Kapoor said.

He further said that Kejriwal came to power after drumming up the need for a Lokpal in States and the country to ensure administrative transparency. However, once he came to power in 2015, the first

thing he did was to disband the Lokpal system in his own party and later sat upon the appointment of Lokayukt in Delhi for 10 months, he alleged.

"Kejriwal ultimately had to appoint a Lokayukt in December 2015 when the then Leader of the Opposition in the Delhi Assembly Vijender Gupta took the matter to the Delhi High Court.

Now again the office of the Lokayukt is vacant since the outgoing Lokayukt retired in December 2020 but Arvind Kejriwal is not nominating the successor," he said.

Kapoor also said matters are pending not only against around 55 MLAs but also against the Delhi Government itself and so to keep these matters suppressed the Chief Minister is intentionally avoiding nomination of the new Lokayukt in Delhi.

Govt floats tender for job portal for youth

STAFF REPORTER ■ NEW DELHI

The Delhi Government on Monday said it has issued tenders for developing a portal – Rojgar Bazaar 2.0 to provide employment-related services to the youth of the national Capital. This site will provide Artificial Intelligence (AI)-based job matching and end-to-end employment-related information to those looking for jobs in the city.

"Tenders were floated by the Delhi Government's employment department on October 14," quoted a statement issued from the office of the Deputy Chief Minister's office.

The Rojgar Bazaar 2.0, it said, will be a "gateway to access skill training, career guidance and skill credentialing and a mobile app will also be made available."

Sisodia said that the launch of Rojgar Bazaar 1.0 in August last year turned out to be "a lifeline for the unemployed youth as well as small businesses of Delhi".

"Over 14 lakh job-seekers and 10 lakh jobs have already been advertised on the current Rojgar Bazaar portal and no other job matching platform by any State Government in India has been so successful. But we

The launch of Rojgar Bazaar

Delhi

Deputy CM Sisodia

don't want to stop here," he added.

Rojgar Bazaar 2.0 portal will bring all the services related to skill training, career guidance and job matching on a first-of-its-kind digital plat-

form in India, said the deputy

CM. A

As a large number of unorganised workers cannot access the digital platform, the Delhi Government will also institutionalise physical centres to increase access to Rozgar Bazaar platform.

Tea seller shot by drunk boys after argument: Police

STAFF REPORTER ■ NEW DELHI

A 26-year-old tea-seller has been shot at by a group of boys in an inebriated state following an argument in Safdarjung Enclave area of southwest Delhi. Police said that they have apprehended three accused, who are also juvenile in connection with the incident while one accused is still absconding.

The condition of the victim, identified as Ramkishan, is stated to be stable.

According to a senior police official, Ramkishan had just started setting up his shop around 4 AM on Sunday when three boys asked for refreshments.

"When told that it was too early and the shop was not ready yet, the boys stood at a distance and started smoking. Later, when the tea-seller was attending nature's call, the teenagers who were smoking nearby made indecorous comments which led to a heated argument and then a scuffle, he

Fire breaks out at LNJP Hosp, cloth godown STAFF REPORTER NEW DELHI presence of mind averted a major fire incident, as it hap-

Two fire incidents were reported in the national Capital on Monday morning. In the first incident, the seminar room in the seven-storey Emergency Block of the LNJP Hospital where a fire was reported in the early hours on Monday was locked when it had happened, and alertness and presence of mind shown by the staff of the facility averted a major incident.

Áccording to hospital authorities, the incident took place around 12:30 am and some of our staff saw smoke coming out of the seminar room, which was locked.

"Showing alertness, they

opened the room immediately and used small fire extinguishers to put it out as much as possible, until the fire tenders arrived," said the official.

"The fire had broken out in

the seminar room, located on the ground floor of the Emergency Block, and all patients were immediately shifted," the official added.

Atul Garg, the Director of Delhi Fire Service (DFS) said that six fire tenders were rushed to the spot and no casulaity was reported while the cause of the

fire was being ascertained.

"The room was locked and if our staff had not been alert, it could have turned into a big incident. Their alertness and

major fire incident, as it happened in a multi-storey block. Power supply had got briefly snapped too but we shifted all the patients on that floor to another area as smoke was spreading out," said the official of the hospital.

"The room is used for con-

ducting training sessions for doctors and other staff. Also, our staff, be it doctors, nurses or others, have seen the most challenging times during the height of the Covid-19 pandemic, and so it has made them tougher I believe in handling a crisis situation," said the hospital official. The official at the facility, located in the heart of Delhi, said the cause of the fire is yet to be ascertained but the smoke was coming out of the AC vents, indicating a short circuit may have led to it.

In another fire incident, a fire broke out at a cloth godown in Shahdara's Gandhi Nagar early on Monday but no casualty has been reported so far.

"The fire department received a call about a fire at a cloth godown around 2.25 AM following which nine fire tenders were rushed to the spot," said the DFS official.

The basement, ground, first floor and some spaces of the stairs which were filled with clothes caught fire, he said, adding the cause of the blaze is being as ascertained.

'Red Light On, Gaadi Off' campaign launched

Volunteers hold placards at a traffic point as part of Delhi Government's 'Red Light On, Gaadi Off' campaign to reduce pollution in the national Capital, in New Delhi on Monday Ranjan Dimri I Pioneer Phot

STAFF REPORTER NEW DELHI

A head of the onset of winter, when the city witnesses rising levels of air pollution, the Delhi Government's 'Red light on, Gaadi off' campaign started on Monday.

Launching the campaign, Environment Minister Gopal Rai said that the campaign has been started to reduce pollution. "We can significantly protect ourselves from pollution by just making sure that we ourselves don't pollute our area.

As the incidents of stubble burning in other states have started increasing, the pollution levels of Delhi are also increasing rapidly," Rai said and appealed to the commuters to turn off their vehicles when the red light is on.

PICTALK

"Reduce one trip a week and download the Green Delhi mobile app on their phones," he added.

Rai said, "Research data on pollution shows that vehicular pollution plays a very prominent role in air pollution. The Delhi Government is running an Anti Dust campaign against Dust Pollution and similarly, the Red Light On Gaadi Off campaign has been started to reduce vehicular pollution

inside Delhi."

The Aam Aadmi Party

(AAP) leader, Rai also mentioned about the rising incidents of stubble burning in neighbouring areas. "Neighbouring state governments not discharging their responsibilities seriously," Rai added

Osteomyelitis: Rare disease treated at city hospital

STAFF REPORTER ■ NEW DELHI

Doctors at a city hospital performed a two-stage surgery to cure a 12-year-old Kashish who was suffering from osteomyelitis (a rare but serious infection of the bone) and reconstructed her femur shaft by using her mother's calf bone (fibula graft).

Doctors at Aakash Healthcare, Dwarka said that five weeks after her trauma, she was diagnosed with chronic osteomyelitis acquired during the surgery of the right femur following which she complained of pain and swelling of right thigh along with fever. She was admitted into the Aakash hospital on 16 August and was found to have deformity and pain in thigh, crepitation (a crackling sound upon movement), and a painful range of motion

motion.

"In the first stage of surgery, dead part of the femur bone was removed and an antibiotic spacer was placed at

that site. After a gap of six weeks, the spacer was removed and her femoral shaft (thigh bone) was reconstructed using fibula graft taken from her mother in the second stage of surgery," Dr Aashish Chaudhry, Director of Orthopaedics, Joint Replacement and Spine Surgery said.

Surgery said.

"She was brought just in time as osteomyelitis is a rare but serious infection that affects about 2 out of every 10,000 people. Our biggest challenge was to control the 15 cm infec-

tion of a body part which is the longest human bone. Her condition required an open reduction and internal fixation (ORIF) of the femur as it is a definitive procedure that facilitates early mobilisation and reduces risk of further infection," he said.

Osteomyelitis affects about

Osteomyelitis affects about two out of every 10,000 people and can cause necrosis (loss of blood supply) to the affected bone and bone tissue death by disrupting the flow of blood to the affected area.

5 roads in Gurugram to be turned into model roads

Gurugram: The Municipal Corporation Gurugram (MCG) has started work to make five roads of Ward-19 as model roads. A plan has also been prepared to develop five roads as model roads.

According to MCG officials, five roads of each ward will be developed as model roads. According to the development plan, footpaths, chairs and benches will be installed and trees will be planted.

In Ward-19 these roads

will be developed from service road of NH-48 to Galaxy Hotel in Sector-15 Part-2, Skoda Service Center to Market, Former Minister Rao Dharampal's house to Jharsa Road, Mother Dairy to Hevo Apartments and from Civil Lines Police Station to Jharsa Dam. The length of roads would be from 800 meters to two kilometres. The corporation has planned to spend about 70 lakh rupees by marking these roads.

Farmers ride tractors as they move towards a protest site during an agitation against Noida Authority, in Noida on Monday

Cong committed sin by vilifying Patel, says BJP

PNS NEW DELHI

Continuing its attack on the Congress Working Committee (CWC) and its proceedings, the BJP on Monday accused the Congress of committing a "sin" over reports that a leader at the recent CWC meeting made critical remarks about Sardar Vallabhbhai Patel on the issue of Jammu and Kashmir and sought to know if the party leadership will take action against him.

Accusing the Congress of only promoting the dynasty leaders, BJP spokesperson Sambit Patra cited reports that Tariq Hameed Karra, a Kashmiri leader and a permanent invitee to the Congress Working Committee, had credited Jawaharlal Nehru for Jammu and Kashmir's integration with India and had alleged that the role of Patel was

The BJP leader described the alleged comments in the CWC as "sin".

Patra wanted to know whether Congress president Sonia Gandhi or Rahul objected when Karra "vilified" Patel and presented India's first Home Minister as a "villain" while praising Nehru.

"Was Karra reprimanded? Will he be axed from the CWC," Patra asked, accusing the Congress of constantly insulting leaders like Subhas

India has always favoured peaceful, rule-based world order, says Rajnath

PNS NEW DELHI

As China is increasingly asserting itself in the Indian Ocean and Indo-Pacific region leading to tension, Defence Minister Rajnath Singh on Monday said India has always favoured peaceful, rule based and stable world

He also said the "geo-graphical location of our country is something that makes it unique in many ways. Surrounded by the vast expanse of ocean from three sides, our country is very important from the point of view of strategic, trade and resources."

Sharing this view here while inaugurating the four-day Navy Commanders' here, Rajnath said as a responsible maritime stakeholder India supports consensus based principles and a peaceful, open, rule based and stable world order.

India also envisions Indian Ocean Region (IOR) with the universal values of rule based freedom of navigation and free trade in which the interests of all participating countries are protected, he said.

Being an important country in this maritime route the role of our Navy becomes more important in ensuring the security of this region, he said adding the Navy is effectively carrying out these responsibil-

Speaking about the rapidly changing economic and political relations across the world, Rajnath said these economic interests do cause some stress in the relations. Therefore, there is a greater need to maintain peace and sta-bility within the Indian Maritime Zones in order to boost the trade and economic activities. India Navy's role in ensuring maintenance of this peace and stability in the region is going to increase manifold in the times to come.

"Only those nations have been successful in gaining dominance across the world, whose Navies have been strong and I am happy to say that our Navy is playing an important role in our maritime and national security," he said.

Lauding the Navy's efforts on self-reliance, the defence minister noted

"It is worth mentioning that in the last five financial years, more than two-thirds of the Navy's modernisation budget has been spent on indigenous procurement."

He also said it was a matter of great pride to know that out of 41 ships and submarines ordered by our Navy, 39 are from Indian shipyards. This is a testament to the Navy's commitment to 'AatmaNirbhar Bharat, the minister said.

launched the 'Integrated Unmanned Road Map for Indian Navy'. This publication aims to provide a comprehensive Unmanned Systems Roadmap in consonance with the Indian Navy's Concept of Operations and chart out a capability development plan for the Indian Navy. A reference version of this Roadmap will also be promulgated for the benefit of industry, which will promote India's 'AatmaNirbhar Bharat' mission.

The Conference, held twice ı year, will focus on addressing the contemporary security paradigms while seeking ways to enhance combat capability of the Navy and make operations more effective and efficient.

Detailed review of the performance of weapons and sensors, readiness of Indian Navy's platforms, ongoing Naval projects - with focus on ways to enhance indigenisation through 'Make in India' will also be undertaken Commanders.

The conference would also dwell upon dynamics of the geostrategic situation of the region in the backdrop of recent The Chief of Defence Staff,

and the Chiefs of Indian Army and Indian Air Force would also interact with the Naval Commanders to address convergence of the three Services.

Fernandez skips appearance before ED in ₹200-cr money laundering case

ctor Jacqueline Fernandez Aagain skipped on Monday her appearance before the Enforcement Directorate (ED) for questioning in connection with a probe into an over ₹200 crore money-laundering case against alleged conman Sukesh Chandrashekar. This was her third sum-

mons and the agency may notify another date to secure her appearance. The actor is learnt to have

as the reason for skipping the summons, sources said.

Fernandez, 36, appeared before the federal agency once in August and recorded her statement in this case as a witness under the provisions of the Prevention of Money Laundering Act

The agency wants to confront her with the main accused in the case involving Chandrasekar and his actor wife Leena Maria Paul, they

understand some trail of funds and transactions allegedly linked to Fernandez in this case, they further said. Actor and dancer Nora

ment with the ED on Thursday in this case. Fatehi's representative had said that she has been the victim in the case and being a witness, she is co-operating and helping the officers in the investigation.

Chandrasekhar and Paul were recently arrested by the ED while they were already

undergoing judicial custody after being held by the Delhi Police on charges of cheating high-profile individuals, including former Fortis Healthcare promoter Shivinder Mohan Singh's wife The agency is seeking to Aditi Singh.

In August, the ED had searched some of Chandrasekhar's premises and seized a sea-facing bungalow and over a dozen luxurious

Chandrasekhar is a "known conman" and is being probed by the Delhi Police in a case of alleged criminal conspiracy, cheating and extortion to the tune of about ₹200 crore, according to an earlier statement issued by the ED.

Centre resorting to 'tax extortion': Rahul

PNS NEW DELHI

The Congress on Monday 1 attacked the Centre over auto fuel costing more than the rate at which aviation turbine fuel (ATF) is sold to airlines. Former party chief Rahul Gandhi alleged that the Centre was resorting to "tax extortion".

The price of petrol in Delhi rose to its highest-ever level of ₹105.84 a litre and ₹111.77 per litre in Mumbai, according to a price notification of stateowned fuel retailers. In Mumbai, diesel now comes for ₹102.52 a litre; while in Delhi, it costs ₹94.57.

Congress leader Priyanka Gandhi Vadra also took a dig at the government, saying it promised to make those wearing 'hawai chappals' travel by air but it has hiked the prices that it has become difficult for the middle class to travel even

Tagging a media report on auto fuels costing a third more than the rate at which ATF is sold to airlines, Rahul Gandhi tweeted that this is a very serious issue — "simple needs of the people that are not being fulfilled today come before election-vote-politics".

"I am with the people who are being cheated for the ben-efit of Modi's friends and will continue to raise their voices," the former Congress chief said in a tweet in Hindi. Priyanka Gandhi, in a tweet in Hindi, said, "Had promised that those wearing 'hawai chappals' (slippers) will travel by airplane. But the BJP government has hiked the prices of petrol and diesel so much that now it has become difficult for those wearing 'hawai chappals' and the middle class to travel even

by road." She used the hashtag 'BJP lai mehenge din (BJP has brought expensive days)' with her tweet. The Congress, from its official Twitter handle. alleged that auto fuels costing ATF is sold to airlines was a proof of the Modi government's "loot".

Petrol and diesel prices on Sunday were hiked again by 35 paise a litre and after this hike the auto fuel was now costing a third more than the rate at which ATF is sold to air-

CBI arrests J&K Grameen Bank official for accepting bribe

IANS NEW DELHI

the Director Generals of Police of States, Inspector Generals, selected field officers of the rank of Superintendents of Police and Inspector Generals, heads of Central Police Forces, intelligence agencies and police in this closed-door confer-

Apart from these police officials, the National Security Advisor Ajit Doval, Intelligence Bureau (IB) Chief Arvind Kumar and other officials of the IB, the DGPs of border guarding forces BSF, ITBP, and the SSB are also present at the NSSC along with the DG of CRPF, sources

According to the officials in the security agencies, during the meeting the prevailing security situation in the country is being discussed and strategy will be chalked out in view of the emerging new challenges threatening the

national security.

They also said that the Kashmir situation will be discussed threadbare in the wake of recent individual killings of non-Kashmiris in the Valley and to discuss possible counter measures to effec-

tively prevent these attacks. The Maoist insurgency in the country will also be part

of the discussion, sources added. The crucial strategic conference gains significance

amid several internal security challenges and it is expected that some new guidelines will be formulated to deal with these new challenges, including cross border crimes, drugs and issues threatening the national security at large.

Apart from the J&K issue, presentations prepared by the states on the emerging security challenges in their respective areas will also be discussed in details, a source in the security set up said, adding that many southern states like Kerala, Karnataka, Tamil Nadu have received terror inputs by the central agencies, especially after the Taliban take over of Afghanistan in August this

The meeting started at 3 o.m. and is likely to continue

Infants, children equally capable of replicating SARS-CoV-2

PNS ■ NEW DELHI

remain for

and

those around them.

"Children can carry the virus and infect other people," said Lael Yonker, a pediatric pulmonologist at MGH.

"There had been the question about whether the high viral load in children correlated with the live virus. We've been able to provide a definitive answer that these high viral loads are infectious," Yonker added.

As Covid-19 variants continue to emerge, infected children are potential "reservoirs" for the evolution of new variants as well as potential spreaders of current variants, she said.

"Kids with Covid-19, even if asymptomatic, are infectious and can harbour SARS-CoV-2 variants. Variants could potentially impact both the severity of the disease and the efficacy of vaccines, as we are seeing with the Delta variant.

virus, we found a wide variety of genetic variants. New variants have the potential to be more contagious and also make kids sicker," Yonker noted.

Further, the viral loads of kids in the hospital were no different from those found in hospitalised adults, according to the study. Similar evidence was cited

by the Centers for Disease Control and Prevention (CDC) suggesting that when compared to adults, children "likely have similar viral loads in their nasopharynx, similar secondary infection rates, and can spread the virus to others". The study called for increasing awareness of pediatric COVID and implementing broader testing programmes for children as they are an essential

Kerala: Illegal constructions wreaks havoc

Quarrying, deforestation and improper development activities along the Western Ghats are being seen as the reason behind the frequent landslides and deluge haunting Kerala, say environmental scientists and activists.

Monday began in a sad note in the State as six members of a family in Mundakkayam who were killed in the landslide were laid to rest under the auspices of Mar Jospeph Kallarangatty. Marin, his mother Clara, wife Sini and their three children were given a tearful farewell by the entire citizens of the town. They were killed when the house in which they live was swallowed by the rushing floodwaters and

Heavy downpours unleashed the districts of Idukki, Kottayam, Ernakulam and Pathanamthitta. Vehicular

MOHIT KANDHARI ■ JAMMU

Indian Army Chief General Manoj Mukund Naravane

on Monday took stock of the

halt as road connecting Idukki with the rest of the State was submerged in flood.

"There are 5,000 unauthorised quarries in Western Ghats falling in Kerala. We have nearly 300 small and medium dams out of which 80 are situated in ecologically sensitive areas. The quarrying is sure to create more problems in the coming days. Kerala will see a major disaster in days to come," John Peruvanthanam, environmental activist told *The Pioneer*.

The obsession of Governments (past and present) to build dams and airports are causing ecological damage, he said. "The Kerala Government's move to go ahead with the construction of an air strip in Idukki, allegedly with the blessings of the Únion Government has surprised many because the impact of the construction would be felt in Mullaperiyar Dam," said John.

Speaker in UP Assembly Lucknow: BJP-backed Samajwadi Party rebel

Nitin Agarwal was on Monday elected Deputy Speaker in the Uttar Pradesh Assembly, defeating his party's official candidate Narendra Verma by 244 votes.

Agarwal got 304 votes compared to Verma's 60 in the polling held through ballot papers at a special one-day Assembly session here. Four ballot papers were declared invalid

The Bahujan Samaj Party, which has 16 MLAs, and the Congress with its seven boycotted the election.

Carrying placards, Congress workers protested in front of the assembly building and accused the ruling Bharatiya Janata Party of trying to divert attention from the problems faced by the State.

Agarwal is now the State's first Deputy Speaker in 14 years. Speaker Hriday Narayan Dixit called it an important post, saying the tradition goes dates back to the Vedic era.

Agarwal, a third-term MLA from Hardoi, is the son of former state minister Naresh Agarwal who recently switched over to the BJP from the Samajwadi Party.

BJP has 304 MLAs in the 403-member House at present and the SP 49, making it a no-contest election as the ruling camp was supporting the SP rebel.

Apna Dal (Sonelal) with its nine MLAs is a BJP ally. The Rashtriya Lok Dal and the Nishad party have one MLA each. There are three independent MLAs, while two are

unattached. Seven seats are vacant. The election, coming just months ahead

of the crucial assembly polls, highlighted the absence of any anti-BJP front in the state with Mayawati's BSP and the Congress refusing to side with the SP.

The three have already decided to fight the assembly polls separately.

The SP, however, seemed to have won the

support of members of some regional outfits as it garnered 60 votes, 11 more than its strength of 49 including Agarwal.

SP chief Akhilesh Yadav has already made it clear that he will have no alliance with the bigger parties and is forging tie-ups with the smaller regional parties.

Back in 2004, BJP's Rajesh Agarwal was elected unopposed as Deputy Speaker during the Mayawati Government's term. After the declaration of the results, UP Chief Minister Yogi Adityanath justified supporting the rebel SP candidate.

He said the ruling party had backed a young person, but the opposition was unable to bring forward a young face in the past four and half years. He termed the SP an "antiyouth" party which was unable to accept its own member.

Adityanath reminded that technically Agarwal is a Samajwadi Party MLA. Newly elected Deputy Speaker Agarwal said he will take all members along in the functioning of the House. Apparently referring to Agarwal, Leader of the Opposition Ram Gobind Chaudhary said he was not made a minister but handed a "lollypop" when the term of the House was near-

Nitin Agarwal elected Dy Yogi blames SP dynastic politics for delay in Dy Speaker's election

Uttar Pradesh Chief Minister Yogi Adityanath congratulated Bharatiya Janata P a r t y - b a c k e d Samajwadi Party candidate Nitin Agarwal on his victory for the post of deputy Speaker of the State Assembly,

Yogi Adityanath also targeted the SP for its dynastic politics and its refusal to accept one of its own MLA as the deputy speaker.

assembly election results.

dubbing it as a picture of the 2022

The chief minister, in his address in the assembly after Nitin Agarwal was declared elected as deputy speaker on Monday, said the result had exposed the fallacy of the opposition unity.

The opposition, including SP, could not show unity even in the election of the deputy speaker and this result is a clear indication of the result of the 2022 UP assembly elections," he said.

Yogi Adityanath expressed sympathy for SP candidate Narendra Singh Verma who polled only 60 votes. "Had

the SP made him a candidate four years ago, he could have possibly won," he pointed out.

Taking a jibe at SP's failure as the largest Opposition

party, the chief min-ister said the BJP waited for a full four-and-a-half years but the SP did not put forward any names for the deputy speaker's post. He said finally, in view of the last six months of the House remaining, the BJP took steps towards fulfilling this tradition.

Expressing happiness over getting a young, energetic and experienced deputy speaker Nitin Agarwal, Yogi Adityanath said that "technically" Nitin was also a member of SP and thus the BJP had followed the tradition of the

Talking about the defeat of the SP in the 2022 assembly elections, the chief minister also exhorted the SP to rise above 'parivarvad' (dynastic politics). "For SP, the family is the State, whereas for the BJP, the entire state is a family," the chief minister asserted

BJP questions Didi's silence on Bangla riots

SAUGAR SENGUPTA KOLKATA

The BJP on Monday launched a fierce attack on Bengal Chief Minister Mamata Banerjee for not spending a word on the ongoing attacks on the Hindus in Bangladesh.

In a hard-hitting statement Bengal Opposition Leader Suvendu Adhikari said "our Chief Minister is known for speaking out of turn and almost on all issues ... but here she has been mysteriously silent on the continuing attacks on the members of Hindu community in Bangladesh ... is this because she does not want to earn the displeasure of her vote bank... Is it because she is afraid of a particular section of voters in this part of Bengal ... is she more concerned about her personal interests and political convenience than the cause of the Hindus."

Taking a dig at the Chief Minister, the BJP leader said that she often had referred to 'a particular community (read the Muslims) as the proverbial milching cow whose kicks are to be tolerated for the sake of the milk it provides ... is it for the same reason that she is not uttering a word against the attack on the Hindus in Bangladesh ... is she quite because she does not want to alienate her milching cow."

At least five people have been killed, Durga Puja pandals pulled down, an ISKĆON temple vandalised and properties of Hindus torched over the past week in religious violence in about in 20 districts of Bangladesh.

Adhikari's statements came when the BJP staged statewide protests against the Bangladesh incident. Protests were launched at several places in Kolkata, Siliguri, Baruipur, Asansol, Cooch Behar, Balurghat, Hooghly and other

Curiously the Left Front too protested against the Bangladesh attacks but in a different manner even as its cadres made human chains comprising members from both Hindu

Quoting Banerjee the Opposition Leader said, "the Chief Minister always says that 'religion is a personal matter but festival belongs to all' ... so where is that spirit when the Hindus are attacked in Bangladesh and when their properties are destroyed and

and Muslim communities.

looted and their men killed." Though the Chief Minister maintained a studied silence and senior Minister Firhad Hakim condemned the Bangladesh incident hoping the "secular Government of Sk

"We have a friendly Government in Bangladesh which is known for its secular values ... we have been told that it is taking ample measures and we hope it will soon bring the situation under control and take measures against the perpetrators of this violence,"

The Indian army is taking all necessary measures to minimise the collateral damage.

Since October 11, the Indian army has pressed its resources including elite para heavily armed group of terrorists but no major success could be achieved.

According to the Jammu and Kashmir police, the terrorists were camping in the area for over two months and may have carved out safe hideouts taking advantage of the thick forest cover.

So far nine Indian soldiers including two Junior Commissioned Officers have sacrificed their lives during firefights

Sena leader moves SC seeking judicial enquiry into affairs of NCB at Mumbai

Mumbai: A Shiv Sena leader has moved the Supreme Court seeking judicial enquiry into affairs of Narcotics Control Bureau (NCB) at Mumbai and its officials in the wake of the arrest of Aryan Khan, son of Bollywood actor Shah Rukh Khan in a case of alleged ship in Mumbai.

The petition has urged the apex court to take suo moto cognizance to protect the fundamental rights of Aryan who has been booked under the NDPS Act by NCB, Zonal Office, Mumbai."I would like to point out towards the malafide style, approach and dirty vendetta affairs of NCB at Mumbai and it's officials targeting select film celebrity & few models since last two years and would like to request Your Honour to order to institute special judicial investigation & enquiry to unearth the role of NCB official," the plea filed by Mumbai-based Shiv Sena léader Kishore Tiwari said.Referring to the statement of NCP leader Maharashtra Minister Nawab Malik in which he had cast aspersions on NCB, the plea said it's high time the NCB is probed by a top court judge to unravel the truth.

Aryan is currently lodged in Arthur Road prison in central Mumbai in the case of alleged seizure of drugs from a

Dry amusement parks to open in Maha from Oct 22

Deaths come down to 27

TN RAGHUNATHA MUMBAI

s the Covid-19 crisis began the State Government on open along with cinema halls from October 22.

A day after Mumbai recorded zero Covid deaths for the first time since the breakout on March 26, 2020, the Covid-19 task force that met under the chairmanship of Chief Minister Uddhav Thackeray decided to lift the ban on dry amusement parks from October 22. However, the task force decided to defer the decision on re-starting water rides in these amusement parks to a later date.

Speaking on the occasion, the chief minister said: "As the number of Covid-19 cases seems on the decline, we are gradually easing the restrictions. From October 22 onwards, we will reopen cinema halls and theatres, while we are increasing the timings of hotels

and shops".

Uddhav directed the Public Health Department officials to obtain fresh stocks of the Centre and prepare a plan for starting the vaccination for children in the age group from two to 18 years. Meanwhile, Maharashtra recorded 27 deaths and 1,485

infections on Monday.

With 27 fresh deaths reported on Sunday, the total As the Covid-19 crisis began to subside in Maharashtra, number of deaths in the state increased from 1,39,789 to Monday announced that all 1,39,816,, while the total infecwent up from 65,91,697 to 65,93,182.

As 2078 patients were discharged from the hospitals across the state after full recovery, the total number of people discharged from the hospitals since the second week of March last year increased from 64,19,678 to 64,21,756. The recovery rate in the state rose from 97.39 per cent to 97.40 per cent. The total "active cases" in the state dropped from 28,631 to 28,008. The fatality rate in the state stood static at 2.12 per cent.

Pune with 7,843 active cases emerged as the first in the state in terms of maximum number of "active cases" in the state, while Mumbai with 5,703 stood second in the state, followed by Thane (3,672), Ahmednagar (3,320) and Satara (958).

Of the 6,08,613 samples sent to various laboratories across the state so far, 65,93,353 have tested positive (10.79 per cent) for Covid-19 until Monday.

Currently, 2,08,613 people are in home quarantine while 961 people are in institutional

Schools in Karnataka to reopen for Classes 1 to 5 from October 25

Bengaluru: With Covid-19 cases declining, Karnataka Government on Monday permitted re-opening of schools for students of classes 1 to 5 from October 25 by strictly adhering to precautions and guidelines against the coronavirus. announced certain relaxations for international arrivals at airports while allowing certain activities like throwing open swimming pools with certain conditions

"Class from 1st to 5th standards permitted to re-open from October 25, 2021, by strictly adhering to Covid-19 appropriate behaviour and SOPs issued by the Department of Primary and Secondary Education. Parental consent letter for physical classes is mandatory," an order issued by Chief Secretary P Ravi Kumar

It has laid down certain rules such as screening for Covid-19 symptoms on entry, 50 per cent of the capacity in a classroom, provision of hand sanitizers, physical distancing of a minimum of one metre as practically feasible, no crowding, particularly at school entry and exit, and disinfecting classrooms and restrooms daily using 1 per cent sodium hypochlorite solution.

Only teachers and staff who have been vaccinated with two doses of Covid-19 vaccines would be allowed in classes 1 to 5, it said. There shall be additional use of face shield by teachers who are over 50 years

The operational guidelines on re-opening of classes I to 5 will be issued by the Secondary Education," it added. The Government re-opened schools for students of classes 6 to 8 from September 6 and for students of classes 9 to 12 from August 23.

Earlier in the day, Chief Minister Basavaraj Bommai said the Covid-19 Technical Advisory Committee (TAC) has given its report and a decision on re-opening schools for students from classes one to five would be announced soon.

Primary and Secondary Education Minister B C Nagesh said SOP would be sent to all the schools probably by Wednesday, the day being a public holiday, officials also have been asked to take extra precaution as the children are

too young. Stating that schools have been functioning for higher classes for the last one-and-ahalf months now, and there has not been even a single case of a child being infected by Covid-19 because of attending school, the Minister told parents that they can send children to school without any fear, and that cases are also declining.

Hasina" would definitely take action to contain the riots.

Kerala couple braves flood, sails in a cooking vessel to get hitched

Alappuzha (Ker): Love knows no bounds, not even nature's fury. Sailing along in a large cooking vessel through the flooded streets, a health worker couple from the district beat all odds to exchange their wedding vows on Monday here, keen not to miss the special occasion to usher in a new chapter in their life.

The couple's love story came as a pleasant news for the rain-battered Kerala, which has seen tragedy unfold in the last two days that was marked by the despair of death, with bodies being found following the heavy downpour and landslides.

For the newlyweds-- Akash and Aishwarya-- a large aluminium vessel doubled up as Barmer (Rajasthan): Four members of a family were killed and five others injured when some kind of a boat to transtheir car collided head-on with port them to the venue where a truck in Barmer district of the wedding was slated to take Rajasthan on Monday, police

Akash, speaking to PTI, said. The accident occurred on a highway under Sindhari police said theirs was an inter-caste station area when the family relationship which was members were returning home opposed by an uncle of Aishwarya and therefore, they in Gujarat after visiting Jasol had a registered marriage on October 5.

Subsequently, they decided to get married as per Hindu rites without much delay, but most of the temples near his home at Thakazhy here were accepting bookings 15 days in advance.

Finally, they found a temple at Thalavady here which agreed to host the ceremony on Monday, he said, adding that it was supposed to be a small event attended only by close friends and family. However, thanks to their

journey in a cooking vessel to the wedding hall, now everyone knows about the marriage, Akash said, excited about how the entire episode turned out and the fame that has come

He said on Sunday someone from the temple had called him up asking whether he was willing to postpone the wedding as the venue was filled with water.

But both of them are health workers who are on COVID duty and were unsure when they would get a holiday next to get married. Therefore, they decided not to postpone it and the temple authorities said they would make the necessary arrangements to ferry them to

On Monday, when they reached Thalavady, people were

ready with the cooking vessels, which belonged to the temple, to ferry the bride and groom and also the few family members who came with them. Akash said it was the only option available at such short

With two men holding the

cooking vessel for stability, Akash and Aishwarya sat down inside it, and with a cameraman in front, set forth to the Akash said he was comfortable travelling in the vessel

as it was used for transporta-

tion in the Kuttanad area, as this region is also called, where he had grown up.
During the 2018 floods, this cooking vessel had seen extensive use as a mode of res-

cuing and transporting those stuck in their homes. Entering wedlock in a flooded hall adjacent to the temple the couple were joined

by a small group of relatives. The couple told reporters who were covering the rising water levels in the district and had arrived at the hall after hearing about the nuptials -that due to Covid-19 they had kept the invitees to the mini-

- PAPER WITH PASSION-

Revival effort

Sasikala's attempt to make herself politically relevant again still lacks teeth

■ t is the golden jubilee year of the AIADMK in Tamil Nadu, but the celebrations are muted. It lacks a unifying leader. It lost power to rival DMK. Its workers have been acaught in factional fights ever since Jayalalithaa died. Can such a party dare think of a revival? A close aide of the late Puratchi Thalaivi, VK Sasikala, thinks so. She wants to revive, if not the party, at least her chances of becoming the leader. Coming out of prison after serving a four-year term in a corruption case, she used the occasion of the 50th year of the founding of the party to make herself politically relevant once again. Her political errands were low-key but not publicity-shy. She visited party mausoleums and museums in Chennai to pay her obeisance to MGR and Jayalalithaa. She talked to party workers about bringing back Jayalithaa's legacy; it was not yet the time to address the people. She proposes to tour the State, to

assess the mood of the workers. Sasikala's opening gambit is now complete. It is for the party's dual leadership — Edappadi K Palaniswami and Ottakarathevar Panneerselvam — to respond. The former has taken credit for the AIADMK avoiding a rout in the assembly elections and surprisingly getting 77 seats. He thinks that makes him a better leader than OPS. The latter is more susceptible to Sasikala's influence because they share the same caste. It is not a difficult task for her to break the dual leadership but she would not want the party to break. That would not serve her purpose. She

wants to see how the 2017 heist-cum-murder incident in Jayalalithaa's Kodanad estate affects the OPS-EPS duo. EPS, the then Chief Minister, did not order a special probe. The DMK Government now has. All this has left the party workers a confused lot. They do not know who among the three leaders has the staying power. They want to see if Sasikala has the advantage of a sympathy factor because of her association with 'Amma'. They will wait to check if the Kodanad probe troubles EPS and OPS. That is why none of the leaders is in a hurry to make a move.

The person who can keep the AIADMK united and maintain the State's bipolar politics has a chance of succeeding Jayalalithaa. Not even the DMK wants a challenger in the state other than the AIADMK. MK Stalin has gone on record saying that. The Congress knows its place already. The BJP, however, is intent on joining the party. It had originally bet on the AIADMK's decimation in the elections, hoping to find a factional partner if the party broke up. That did not happen as OPS-EPS had a bigger objective: grabbing party reins. However, Sasikala recused herself from the elections as questions were raised about an invisible hand influencing her decision. Can she summon the courage to keep the national parties at bay like Jayalalithaa?

Flood and fury

Despite warnings and alerts from the IMD, official response in Kerala has been missing

onsoon, the subcontinent's unique weather phenomenon, has inspired writers ranging from Kalidasa to Alexander Frater. While the former integrated the beauty and romance of monsoon in his 'Meghdoot', Frater informed the world about its vagaries and how it impacted the socio-economic lives of millions in his trav-

the Indian landscape in an elegant pattern. But over the last few years, the monsoon's fury has started striking Kerala, and India at large, quite regularly. The year 2018 saw nature at its worst, claiming hundreds of lives and devouring thousands of houses and acres of farm lands in God's Own Country. Kerala was under the spell of heavy rains and winds over the last few weeks and this took a turn for the worse as the depressions in the Bay of Bengal and the Arabian Sea developed into downpours and heavy winds. Warnings issued by the Indian Meteorological Department and the local Cochin University of Science and Technology

do not seem to have been noticed by the persons who govern the State. Officials have

confirmed that rains and landslides claimed more than 30 lives till Monday. This is going to be the pattern of monsoon in coming weeks and months, according to Prof S Abhilash, Department of Atmospheric Sciences, CUSAT. He says there is a change in the pattern of rain distribution, intensity of rain and cloud structure. There has been no dearth of warnings and weather alerts from the IMD but something is missing in the official response to these timely bulletins. The cloudbursts and landslides are being seen as the fallout of the wanton destruction of the fragile ecosystem in the State. Since the 1960s, the rainforests were slaughtered to build dams and facilitate planting of cash crops like rubber and spices. P K Ramachandran, a veteran botanist with Rubber Board, laments over the report he made which made the Government to promote planting of rubber in thousands of hectares of rain forests. Policy makers forgot the State's proximity to the sea while the ecological devastation of Western Ghats led to flood and fury becoming regular events in Kerala. The land known for its serene nature has taken a vengeful persona, proving yet again that any unregulated action and

irresponsibility by mankind will not go unpunished by Nature.

How the Partition helped India

In an undivided India with no Pakistan or Bangladesh in existence, the larger population would have been only 60 per cent non-Muslim

ran Chopra, who later rose to be the editor of the Statesman, was reporting on an election which said a lot. A public meeting was held at Jalandhar in the middle of which there was azaan or a call for prayer. The crowd went to pray but Jinnah sat down on a chair, pulled out a cigar and lit it. He smoked until the crowd returned and then resumed his speech in English. The only other language he could speak was Gujarati. He had had no leisure to learn Urdu. Whenever Jinnah shouted "Islam is in danger", the crowd endorsed him loudly. The instance of a Muslim leader shunning prayer and smoking is telling.

If not the leader, what was he

who succeeded in dividing a subcontinent? Evidently, he was the advocate-general for Pakistan. He could see that Muslims in India were generally nervous, if not also frightened. They were less educated than the Hindus and were fewer in the total number in the country. Furthermore, not even their elite owned industries and Nehru's socialist Government would take away their land. Muslims, who had ruled India for centuries, would be reduced to servants and clerks of Hindus.

The Advocate had a formula of Pakistan which to Aligarh students meant a New Medina which could go on to throw up a Caliph. There was no reigning religiouscum-temporal head of Sunni Islam. The last one was the Sultan of Turkey whom Kemal Ataturk had dethroned and exiled in 1924. There had been no replacement. He planned a viable strategy for his clients — the Muslims — and got on with his job. He had been the highest-paid barrister in the British Empire for several years. For dividing the country, his fees would be a place in history's hall To indicate his role as an advo-

cate, when he went, for the first time, to Dacca in the Eastern wing of Pakistan in February 1948, the university students demanded Bengali also to be a national language. Jinnah insisted that it can only be one tongue namely Urdu. He was curt, he did not know the Bengali psyche, and sowed the seeds of what eventually became tragedy, because it was not an Bangladesh. A leader would have end with unfulfilled aspirations.

On the last day of his life in September 1948, his health was deteriorating at Quetta, where he had gone to rest. His sister Fatima was with him and a British doctor. As his plane landed in Karachi, an old ambulance was awaiting his arrival. Remember, he was the Governor-General. Within two or three mile, the vehicle stopped and would not move forward. So the doctor took another ambulance, which took an hour or so to arrive and take an ailing Jinnah to his residence. That same evening at say 10 pm, he died. The next day he was buried but reportedly in a Savile Row tailored suit. Coincidentally, he died in the city of his birth, namely

Jinnah achieved what he diset out on March 23, 1940 at Lahore. His death was no

WITHOUT JINNAH, THE PARTITION WAS UNLIKELY. MANY MUSLIMS **BELIEVE THAT** WITHOUT THE QAID-E-AZAM, THERE WOULD HAVE BEEN NO ONE TO NEGOTIATE WITH THE **BRITISH RULERS**

Had he died unfulfilled, it would have been somewhat tragic for him, but more so for Hindus. The simple reason is that there would have been no Partition; without Jinnah, Partition was most unlikely. Many Muslims believe that without the Qaid-e-Azam, there would have been no one to negotiate with the British rulers. The Muslims had no other all-India leader. It is in this belief the Muslim League requested him to jettison his practice in a barrister in London welcome him back to India, as the League's life pres-

To be convinced fully that Hindus needed the Partition, one has to digest the arguments laid out by Dr B R Ambedkar which are available in Volume VIII of his Complete Works. In his one blunt statement, Babasaheb declared, "An enemy without one's borders is more desirable than an enemy within". He went on to write that the Hindu provinces were paying much more tax, whose revenue was shared by the Muslim provinces. Yet because of their religious restrictions Muslim soldiers could not have fought for India, had the invading enemy been Muslim. The ilafat Committee had endorsed this, as also the Muslim League.

In any case, in an undivid-

ed India with no Pakistan or Bangladesh in sight, the larger population of the country would have been only 60 per cent non-Muslim. This 60 per cent would be too low to prevent either an Islamic takeover or an open civil war. In other words, Hindu civilisation would have found it difficult to survive. It is not improbable that the Hindus might have lost this civil war. For one, the Muslims in the Indian army exceeded the rest, especially if one counted only the fighting units minus the non-combatant ones. Secondly, Hindus particularly would have been reluctant to shed blood and take the lives of those when they looked upon as their brethren. Consequently, India would gone back to being a Dar-ul-Islam, which it had been for many centuries until 1858. The last Mughal incumbent on the throne, Bahadur Shah Zafar was arrested and exiled to Yangon in Burma (then Rangoon), which was when the Islamic world recognised that we had ceased to be

THE WALL'S SECOND INNINGS Sir - Adroit Rahul Dravid would

make a dexterous head coach of the Indian cricket team. He has always been an asset for the team in every role be it of a player, a captain or a coach). Dravid has already coached the India-A and the U-19 team for six years. His vast experience is certainly an advantage for young players who need just the right guidance and discipline. His cricketing skills, dexterity, decision making and strategic moves have proven successful in various capacities.

A quality that differentiates a good player and a great player is discipline, and Rahul Dravid has always been known for his impeccable discipline and focus. His unwavering temperament, no matter how ferocious the bowler seemed, puts him ahead of the league. Our young, and even experienced players, can learn a thing or two about discipline from the master himself and become 'great' players. Dravid's forte are team building and team approach. He has the ability to build on strengths, suitability (batting, bowling, fielding, field placement). His system's students such as Rishab Pant, Avesh Khan, Prithvi Shaw, Hanuma Vihari and Shubnam Gill are proof of the pudding. Nivriti Sreelekha | Secunderabad

RUSSIAN FILMMAKERS TAKE IT TO SPACE

Sir — The recent return of the Russian filmmakers from the International Space Station after finishing up their film shoot has increased the thrills of movie lovers manifold. It is extremely exciting to watch space scenes, which until now were artificially created with graphic designs. Shooting in space for 12 days must have been extremely hard to manage than a routine shoot on earth. Russians have historic success in space and now after finishing a shoot in space this time, Russia once again becomes the first country to do so.

Space has many endeavours to be explored by mankind. Space tourism and private space commercial capsule flights had already created a buzz and now a

Life in Kerala goes under

s ill luck would have it. Saturday noon saw Kerala reeling under torrential rains and resultant floods that left a long trail of disaster caused by many landslides. At Least 26 people have so far lost their lives and in a heart-wrenching scene, bodies of three children of eight, seven and four years holding on to each other were also found buried under the debris by the rescue team in Idukki district. The India Meteorological

movie shoot opens many more possibilities. But the alarm bell rings right here. It is good that man has made space more accessible than ever before, but we also must be aware that our vision to explore more may harm the ecosystem. Therefore it is a big achievement to successfully finish shooting in space, but we must pledge to not ruin it with anthropogenic debris and leftovers that were used in projects of various types.

BEHIND THE GLAMOUR OF SOCIAL MEDIA

Sir — From pings and chat windows to pokes and emoticons, everything exists in social media platforms to bring people closer. It helps learn new things, make new friends, explore new opportunities and develop new perspectives. But every coin has two sides. Young teenagers spend a lot of time browsing social media apps, particularly, Facebook, as they find it the best form of communication. But it is treacherous for the teenagers as it directly affects

Department (IMD) officials have also expressed apprehensions of a cloudburst having caused these unseasonal heavy rains

wreaking havoc.

The Army, the Navy and the IAF teams have also joined hands with the civil administrations while the National Disaster Response Force (NDRF) is aging to deploy 11 teams to help in the rescue operations in the most affected districts. This bodes well for the bereft families that taking a serious view of the grim situation, Prime Minister Narendra Modi has spoken to Kerala Chief Minister Pinarayi Vijayan assuring him of all the possible aid while simultaneously announcing a 100 crore immediate relief package for the State. Let's all pray to the Almighty to give strength to all those on the receiving end of this natural calamity to bear with these painfully hard times with immense courage

Azhar A Khan | Rampu

their mental health. It spreads toxicity among youths. It is also not safe for the nation as it can be used to steal sensitive data by the enemies. It damages youngsters beyond measure.

Nowadays, people of all ages are glued to their phones to browse through social media applications like Facebook, Instagram, WhatsApp, Twitter and many more. Half cooked stories and false news being spread is adversely affecting the very roots of the society. Everybody feels lonely in spite of being a member of several groups on social media. It is addictive as well as toxic and affects the self esteem of individuals. It is crucial that parents teach their children the adversaries around such apps. Even in schools, kids should be made aware of the truth behind the glamour of social media which takes a toll on their health as they start to use it.

FIRST COLUMN INFLATION AND THE GATI SHAKTI PLAN

The rising global fuel prices and a domestic policy of high taxation is a major concern

SHIVAJI SARKAR

he Gati Shakti plan is aimed at coordinating infrastructure schemes of various Central Ministries and State Governments to ensure quick and efficient completion of works. It was perhaps a longterm need for a nation that is on booster doses of revenue injection through borrowings to push growth. Gati plan would try to help in timely implementation of projects through coordination of 16 Central Government departments and avoiding duplication for cutting costs. The new plan is stated to check the expenses on different projects but not check galloping inflation. Though food prices were in check for about eight months, the latest reports suggest that food and vegetable prices are shooting up in many areas. Industry department data say that certain food items' contraction has brought down food inflation to 4.69 per cent in September. During the same time, manufactured products' prices soared to 11.41 per cent from 11.39 per cent in August. Pulses rose 9.42 percent and in October, onion and fruit prices have started soaring. Food prices are not decelerating across the board. In the manufactured category, prices of basic metals rose to 26.71 per cent and textiles remain elevated at 26.09 per cent. Interestingly enough, activities in different sectors have not yet picked up the pace needed to give the desired effect. A major reason is the

rising global fuel prices and a domestic policy of high taxation on petroleum products, a concern expressed by RBI. Overall, inflation also pushes up wages and other costs. Global fuel prices have started firming up now with an increase in demand. India takes a double hit as a result. Food grain doles are keeping the prices in check to a certain level. However, as activities increase so do domestic demand.

This is what a coordination committee has to look at. With crude prices hovering around \$80 a barrel and likely to firm up further, the inflation scenario may become grim. Whether the Gati-Shakti plan, using geo-mapping and real-time data, can check rising prices would be interesting to observe. Pressures like rising wage and transportation costs could increase further. The Bloomberg commodity index crossed 100 in the last week of September, first time since 2015, and continues to stay at that level. Prices of coal and crude oil have risen. The RBI's monetary policy committee expects inflation to start increasing from the October-December quarter onwards. The WPI inflation is to rise, the MPC forecasts. Technically measured by consumer price index (CPI), inflation is at a low. It grew at 4.35 per cent, but overall, it has come down by 195 basis points. Inflation also impacts purchasing power. Consumers are yet not flocking to the market. Sales are not increasing. Many units are unable to transfer the additional costs on fuel to the consumers. Even the truckers face this problem. They cannot let their fleet remain idle. So even at lower prices they agree to transport goods. Another aspect is a kind of stagnation in income levels and in some cases even rising income is not seeing the end of poverty. There is concern about inequality-driven inflation. While the Gati Shakti has raised high hopes of completing projects within the budgetary expenses, to give pace to it, another master plan to check inflation is needed. The administered prices of petroleum products along with the higher cost on road travel also have to be seen from the aspect of coordination. Coordinated pricing is key to the success of the Prime Minister's new master plan. At lower fuel prices, there would be more activities, more revenue generation and the aim of the NDA Government to have an overall development could be achieved.

The Air India sale: Better late than never

Persistent neglect of Air India for over a decade and even during the period when its sale was under consideration has cost the exchequer dear

n June 28, 2017, the then Finance Minister, the late Arun Jaitely, had announced the 'in-principle' decision of the Union Cabinet for strategic divestment of Air India (AI) and five of its subsidiaries.

Over 50 months there after, on September 8, 2021, the Government has informed about its decision to privatise AI and its 100 percent subsidiary, Air India Express Limited (AIEL) and its 51 percent share in Air India Air Transport Services Limited (AIATSL). The iconic Maharajahas gone back to the hangar of the Tata Group almost 68 years after the company was nationalized in 1953. The AI privatization saga reveals four major pitfalls.

First, the move has been half-hearted from day one. That is a manifestation of an inherent tendency amongst bureaucrats and the political class to retain some controls even after divestment as also to ensure that employees continue to enjoy a protective cover even under the new boss.

The first attempt in 2017-18 came a cropper because in that offer, the Government insisted on retaining 24 percent shareholding with itself, retention of the employees besides imposing other conditions such as a minimum lock-in period of three years, etc.An additional rider was a requirement that the acquirer will have to take over a major slice of the debt on the books of AI. The investors showed no interest.

Eventually, the half-heartedness has given way to whole-heartedness even as the Government decided to sell 100 percent of its stake as also letting the acquirer shed employees after one year. It has also allowed the bidders to quote the 'enterprise value' - financial jargon for letting them get away with very little debt on the balance sheet of the divested undertaking.

However, the delay has come at a heavy cost to the Union Government. When the disinvestment was initially mooted, AI had a debt of around ₹50,000 crore. According to the secretary, Department of investment and public asset management), AI has been making a loss of ₹20 crore per day. No wonder, its cumulative debt has now ballooned to around ₹77,500 crore.

Second, after a disinvestment plan is taken on board, the scale of indifference to the working of the concerned PSU gets perked up which deteriorates its financial health further. As on March 31, 2021, AI nad a debt of ₹58,000 crore. During the next five months till August 31, 2021, an additional debt of ₹3500 crore accrued. Furthermore, the Maharaja has piled up 'unpaid bills' of oil PSUs, airport dues and dozens of other vendors aggregating to ₹16,000 crore.

Put together, AI has liabilities of ₹77,500 crore. Of this, Tata will pay only ₹18,000 crore by taking over debt of ₹15,300 crore and give ₹2700 crore as equity. That leaves a whopping liability of a minimum around ₹60,000crore with the Union Government (this could increase further

WITH DOZENS

OF PSU **DIVESTMENTS** LINED UP, IT IS **IMPERATIVE** THAT THE **GOVERNMENT** LEARNS THE RIGHT LESSONS FROM MISTAKES OF THE PAST. THAT WILL HELP MAXIMISE REALISATION FROM THE SALE OF PROFITABLE UNDERTAKINGS AND MINIMISE THE LIABILITIES ARISING FROM THE LOSSMAKING

COMPANIES

(The writer is a policy

analyst. The views

expressed are personal.)

as and when more unmet obligations come out of the cupboard) which will be transferred in its entirety to a special purpose vehicle named Air India Asset Holding Company Limited (AIAHCL).

The Centre will retain the noncore assets such as land, buildings, and housing colonies which,on sale, could fetch about ₹15,000 crore. Even if all of it is realized, the AIAHCL would be saddled with ₹45,000 crore. This amount will eventually come from tax payers' pocket and is over and above a whopping ₹110,000 crore already sunk since 2009-10 to keep it afloat.

Third, bureaucratic red tape rules the roost. Almost all processes starting from conception, getting approvals, Preliminary Information Memorandum (PIM), Request for Proposal (RFP), inviting financial bids, selection of bidder, Share Purchase Agreement (SPA) and so on, crucial to successful completion of disinvestment are hamstrung by it. Add to this, the reluctance of bureaucrats to take timely decisions fearing they might be questioned after retirement.

The sale of AI has not remained unaffected by this malady. Some measures - reportedly under consideration — such as leaving decisions in regard to PIM, RFP and SPA to the DIPAM only (at present, these issues are decided by an inter-ministerial committee co-chaired by secretary, DIPAM and secretary of the concerned administrative ministry) are half-baked reforms.

Fourth, PSUs are often pushed

into a 'loss-making' situation by the political establishment(fully aided by the bureaucracy). This happens because of continuous interference by the latter in the working of these undertakings which is manifesting excessive manpower, high overhead cost, inflated payments to vendors etc. In case of Aİ, in 2007, it reached its nadir when the political bosses directed the management to procure 111 aircraft (for ₹70,000 crores) which was four times the requirement of only 28 put up by the management.

When a firm creates a huge liability (the aircraft purchases were funded by borrowings from a consortium of banks) with no matching business to put the assets to use, it inevitably leads to an unsustainable situation. The cash generation is bound to be too little vis-à-vis the requirement to amortize the loans. The irony is that the then Government did nothing to boost utilisation of the aircraft. Far from that, it gave away excessive bilateral seats and profitable routes to foreign/private airlines thereby ensurthat most of these aircraft sit idle. The other flawed decision was the merger of Indian Airlines with AI (2007). Even as there was little to gain by way of synergies (mergers are normally driven by this logic), vast differences in the work culture ethos, compensation packages, age profile of employees of the two entities led to operational inefficiencies thereby compounding losses and increasing debt of the combined entity.

To conclude, persistent neglect

of AI for over a decade and even during the period when its sale was under consideration has cost the exchequer dear. It is better late than never. By taking a call now (the deal is expected to be consummated by December, 2021), the Modi government has averted more drainage of resources besides garnering ₹18,000 crore (paid by Tata) plus another ₹15,000 crore being the value of non-core assets retained by it.

With dozens of PSU divestments lined up, it is imperative that the government takes the right lesson from mistakes of the past — as discussed above. That will help maximize realization from the sale of profitable undertakings and minimize the liabilities arising from abandoning the loss-making

For instance, in case of AI, if only it had acted with alacrity in 2017-18 offering to offload 100 percent shareholding and no other encumbrance, it could not only have prevented further increase in debt but also successfully leveraged its lucrative assets (apart from 141 planes, it controls 4,400 domesti and 1,800 international landing and parking slots at domestic airports, as well as 900 slots at airports overseas, besides ownership of iconic brands like Maharaja) to secure a much higher valuation thereby reducing its burden.

Let us hope, henceforth Prime Minister Narendra Modi goes for a wholehearted approach and with a proactive and supportive bureaucracy he gets much better outcomes from the sales in the pipeline.

Polexit? The Poles wouldn't want that

Poland has benefited enormously from grants and loans from the richer EU countries to the poorer ones: the country looks different already

t is possible that the tide which brought hard-right populist Governments to power in a number of Central European countries is starting to go out again.

In the Czech Republic, billionaire oligarch Andrej Babiš suffered a surprise defeat in his bid to be reelected Prime Minister on Sunday. The last straw may have been the revelation in the 'Pandora Papers' only days before that he had set up an offshore company to secretly buy a \$17.6 million mansion in southern France.

In Hungary, Jew-baiting, Muslim-hating, ultra-nationalist President Viktor Orbán suddenly has to worry about winning re-election next year. The perennially split opposition parties managed to unite

GWYNNE DYER

(Gwynne Dyer's new book is 'The Shortest History

of War'. The views

last October and made their candidate mayor of Budapest, Hungary's capital. If they can manage to stay united, they might even bring Orbán down next year.

And in Poland, which has twice the population of the other two combined, the populist Law and Justice Party (PiS) is drifting into troubled waters too. It doesn't face re-election until 2023, but by then it may have managed to get Poland expelled from the European Union: Polexit. That would greatly upset the 88 per cent of Poles who want to stay in the EU.

The PiS is a deeply conservative party in the Catholic tradition, with populist trimmings like a

China's Communist Party all set to hold key meet next month ahead of 2022 leadership change

Communist Party will hold its key conclave in November ahead of next year's Congress which will pave the way for major leadership changes and a possible unprecedented third term for President Xi Jinping.

The 19th Communist Party of China (CPC) Central Committee will hold its sixth plenary session in Beijing from November 8 to 11, during which a key resolution on the major achievements and historical experience of the party's 100 years of endeavours will be reviewed, an official announcement here said.

This was decided at a meeting of the CPC Central Committee Political Bureau presided over by Xi, who is the General Secretary of the party besides heading the military and the Presidency.

The Political Bureau of the

soliciting opinions for drafting the resolution and decided to submit the draft after revisions to the plenary session for deliberation, state-run Xinhua news agency reported.

The sixth plenary session is regarded as significant as it is the biggest party meet ahead of next year's leadership change.

Politically, it is regarded as a key meeting for Xi, 68, who has emerged as the most powerful leader after party founder Mao Zedong, as he is widely expected to take up an unprecedented third term in

China's all top leaders derive their power from the post of the General Secretary of the CPC. Xi's all predecessors retired following the mandatory rule of two five-year terms.

President Xi is widely regarded to be in power after

later next year, possibly for life in view of a constitutional amendment in 2018 which removed the two-term limit for the President.

He has also been made the "core leader" of the party in 2016, a status enjoyed only by

According to the agenda unveiled in August for the November 8-11 plenary session, the Political Bureau will present its work report to the plenary session, which will study the issue of comprehensively reviewing major achievements made and the historical experience accumulated during the party's 100 years of endeav-

More than 370 full and alternate members of the Central Committee will take part in the plenum.

used the last plenary session to address party affairs, especially on key appointments, ideology and party-building matters.

Observers say that the key issue to be watched is to see if the party continues to follow precedent on its leadership changes, especially the informal retirement age of 68, besides the two terms for its top leadership set by party's founder Mao's successor Deng Xiaoping.

Keqiang too will be completing his two-term limit in early Nearly a dozen of the 25 members of the Politburo will

be older than 68 in October

which over a million officials, including many top military officials, were punished.

He has also launched sev-

eral political initiatives, including the realisation of the Chinese dream broadly defined as reclaiming the lost greatness of the nation, making China a moderately prosperous society, elimination of absolute poverty, consolidation of the CPC power over the military and integration of Hong Kong.

In recent weeks, Xi has made a strong pitch for the reunification of Taiwan with the Chinese mainland amidst heightened tensions with the estranged island, saying that the "Taiwan question" will be resolved and peaceful reunification in the best interest of people of both sides. The Taiwan issue brooks

drop of the US and Japan stepping up their backing to the estranged island in the face of China's increasingly aggressive posture.

Xi's comments came after China sent a record number of military jets into Taiwan's air defence zone for four days in a row, in a public show of force.

Taiwan considers itself a sovereign state - but China views the self-ruled island as a breakaway province. Beijing has not ruled out the possible use of force to achieve unification of Taiwan with the main-

As he set for his third term, he recently launched a new initiative called "common prosperity for all" Chinese, which is widely reported to be the new policy of redistribution of wealth, ending the era of billionaires in the country. PTI

Russia suspends its mission to NATO: Foreign Minister

MOSCOW: Russia's foreign minister said Monday that the country is suspending its mission to NATO

Foreign Minister Sergey Lavrov said that the move is in response to last week's expulsion by NATO of eight members of Russia's mission to the military alliance.

NATO said that they were secretly working as intelligence officers and halved the size of Moscow's team able to work at its headquarters. Lavrov also announced that NATO's military liaison and information offices in Moscow would be

"As a result of NATO's deliberate moves, we have practically no conditions for elementary diplomatic work and in response to NATO's actions we suspend the work of our permanent mission to NATO, including the work of the chief military envoy, probably from Nov. 1. Or it may take several more days," Lavrov said.

The Foreign Ministry said in a separate statement that NATO's actions "confirm that they are not interested in an equal dialogue and joint work to deescalate military-political tensions. The alliance's line towards our country is becoming more and more aggressive. The 'Russian threat' is inflated in order to strengthen the internal unity of the alliance, to create the appearance of its 'relevance' in modern geopolitical conditions."

Lavrov said that contact between the Western alliance and Moscow could be done through the Russian embassy in Belgium.

The Russian mission isn't based at NATO's headquarters, but in a leafy neighborhood in the south of the Belgian capital, Brussels.

NATO suspended practical cooperation with Russia in 2014 after it annexed Ukraine's Crimean Peninsula, but has kept channels open for highlevel meetings and for militaryto-military cooperation. But the NATO-Russia Council, their preferred forum, has only met sporadically since then.

Russia and NATO also have been at odds over Moscow's nuclear missile development, aerial intrusions into NATO airspace and the buzzing of allied ships by fighter planes. Official talks between them have been limited in recent years.

China: Tested hypersonic 'vehicle' not 'missile' The Financial Times reported that advanced than US officials

Beijing: China on Monday said it has tested a hypersonic "vehicle" and not a nuclear-capable hypersonic "missile" as reported by a leading British newspaper which had claimed that the advanced space capability caught US intelligence by

The Financial Times reported on Sunday that China tested a nuclear-capable hypersonic missile in August that circled the globe before speeding towards its target, demonstrating an advanced space capability that caught US intelligence by surprise. Five people familiar with

the test said that the Chinese

realised, according to the report. Asked for his reaction to the report, Chinese Foreign Ministry spokesman Zhao Lijian told a media briefing here that a test of a hypersonic vehicle was carried out.

"It is a vehicle not a missile," Zhao said.

"As we understand this test, it is just a routine space vehicle test to verify the repeated use of technology of the vehicle. "This is of great significance to reducing the cost and can also provide an affordable and cheap return means for the peaceful use of space for humanity," he said.

Colin Powell has died of Covid-19, says family

Washington: Colin Powell, who served Democratic and Republican presidents in war and peace but whose sterling reputation was forever stained when he went before the U.N. and made faulty claims to justify the U.S. war in Iraq, has died of Covid-19 complications. He was 84.

A veteran of the Vietnam War, Powell rose to the rank of became the first Black chairman of the Joint Chiefs of Staff. In that role he oversaw the U.S. invasion of Panama and later the U.S. invasion of Kuwait to oust the Iraqi army

But his legacy was forever marred when, in 2003, he went before the U.N. Security Council as secretary of state and made the case for U.S. war against Iraq. He cited faulty information claiming Saddam Hussein had secretly stashed away weapons of mass destruction. Iraq's claims that it had no such weapons represented "a web of lies," he told the world

1st polio vaccination drive in Afghanistan since Taliban takeover

Kabul: A country-wide polio vaccination drive will begin in Afghanistan on November 8 for the first time since the Taliban took over the country in August, the Unicef announced on Monday.

In the years after the Taliban was overthrown in 2001 by a US-led coalition, vaccination campaigns made much progress in the country. However, as the Taliban

made inroads again, door-todoor visits by polio workers been banned in Afghanistan, for three years now. The World Health Organization (WHO) and Unicef welcome the decision by the Taliban, who support the resumption of house-to-house drive across the country, the UN agency said in a statement on Monday.

The campaign will be the first in over three years to reach all children in Afghanistan, including more than 3.3 million kids in parts of the country who have "previously remained inaccessible to vaccination campaigns" Xinhua news agency quoted the statement as saying.
"A second nationwide polio

vaccination campaign has also been agreed and will be synchronised with Pakistan's own polio campaign planned in December," according to the statement.

"This is an extremely important step in the right direction," said Dapeng Luo, WHO Representative in Afghanistan.

"We know that multiple doses of oral polio vaccine offer the best protection, so we are pleased to see that there is another campaign planned before the end of this year. Sustained access to all children is essential to end polio for good. This must remain a top priority," he said.

Besides restarting polio vaccination, a supplementary dose of vitamin A will also be provided to children aged 6

to 59 months during the upcoming campaign, the WHO said. *PTI*

Man apprehended for bomb hoax call to South Korea's National Assembly

IANS SEOUL

Police in South Korea apprehended a man on Monday for making a false threat to blow up the National Assembly.

The man, whose identity was withheld, allegedly called a lawmaker's office earlier in the day to claim he planted an explosive at the assembly complex, reports Yonhap News

He also said he was giving the tip-off only to the office. Police traced the caller and arrested him on Ganghwa Island off the west coast about an hour later.

After the call, police, rescue workers and a bomb squad searched the complex, but no explosive was found. The man was quoted by

police as saying he made the call "out of sudden anger". He was also found to have no record of entering the complex in the past two weeks, offi

cials said. Police said they will book him for an investigation.

arrivals in October

Sri Lanka records

over 7,000 tourist

Colombo: Over 7,000 tourists have arrived in Sri Lanka so far this month, giving a boost to the country's tourism industry which took a blow due to the Covid-19 pandemic, local media reported on Monday.

According to official figures, 7,096 tourists arrived in Sri Lanka from October 1 to 13, reports Xinhua news agency. Tourism Minister Prasanna

Ranatunga said if the present trend continues, October was likely to record the highest monthly arrivals for this year. The Tourism Ministry said

that so far this year, September saw the highest tourist arrivals

With the arrivals up to

October 13 added, 45,413 tourists have arrived in the country since the re-opening of borders on January 21, the Ministry said.

Ranatunga said that with the easing of travel restrictions, there was a growing

interest from global travellers to visit the country. The majority of tourists who have arrived in Sri Lanka

so far this year are from India, Kazakhstan, Germany, Ukraine, the US, China, Canada, the UK, France and

Harris to discuss drought, climate change at Lake Mead Against this backdrop, the Hoover Dam, an engineering

WASHINGTON: Vice federal and state agencies, Monday will highlight the problems caused by Western drought as she visits Lake Mead in Nevada and makes the

case for the Biden administration's infrastructure and climate change proposals that have stalled in Congress. Harris will be briefed by Bureau of Reclamation officials about elevation levels at the manmade reservoir that supplies drinking water to 25 mil-

officials said Sunday. After a tour, the vice president will make remarks and meet with officials from the Interior Department and other

lion people in the American

West and Mexico, White House

Water Authority. She will be joined by U.S. Reps. Dina Titus, Susie Lee and Steven Horsford of Nevada.

Water levels at Lake Mead created in the 1930s by the damming of the Colorado River — have fallen to record lows. In August, federal officials declared the first-ever water shortage in the Colorado River. As a result, Arizona, Nevada and Mexico will receive less water than normal next year amid a drought gripping much of the West.

In September, Reclamation released projections showing an even worse outlook for the

promote President Joe Biden's big domestic policy agenda – originally billed at \$3.5 trillion for which Democrats are

struggling to win moderates' support. That agenda includes climate provisions the Biden administration has said would make the U.S. more resilient against the effects of climate change. Key elements include imposing new emissions restrictions through a federal clean energy requirement and providing tax breaks for the electrical vehicles industry.

Hoover Dam reservoir hits record low, in sign of extreme western US drought

The reservoir created by

American ascendance of the 20th Century, has sunk to its lowest level ever, underscoring the gravity of the extreme drought across the West. Harris will also emphasize

that climate change is poised to make extreme weather events such as droughts and heatwaves more frequent, expensive and harmful, White House officials said. Officials said Harris will

discuss the separate \$1 trillion public works infrastructure deal that passed the Senate months ago and is awaiting House approval. That package contains roughly \$8 billion for Western water projects. AP & Electronic Media Invites Applications for Management Quota Seats

Australian Govt mounts legal challenge in Indian-origin teen's climate change court case

government on Monday began its legal challenge to a Federal Court's landmark decision that it has a duty of care to protect children from future personal injury caused by climate change, according to media In May, Anjali Sharma, a

17-year-old high-school student of Indian origin from Melbourne and seven other teenage environmentalists, led the legal battle against the Australian government. Sharma and the group had argued the continued emission

of carbon dioxide into the atmosphere would drive

intense bushfires, floods, storms and cyclones and leave them vulnerable to injury, sickness, economic loss and even death towards the end of this century, news.com.au reported. They urged the court to prevent Environment Minister

Sussan Ley from approving a

proposal to expand the Vickery

coal mine in northern New

the extension of the coal mine However, he did find that

the minister had "a duty to take reasonable care to avoid causing personal injury" to children when she decided on the project extension under the Environment Protection and Biodiversity Conservation (EPBC Act), a report in news.com.au said. The ruling was heralded as

a significant win for the teenagers and the group of climate activists around the world. Ley has since given the nod

For Sharma, it was the concern for the environment,

her family and future generations, which fuelled her legal charge against the Australian government, a Sydney Morning Herald report said. Born in India, Sharma and her family moved to Australia when she was barely 10-months-old.

Aus Deputy PM rules out support for greater 2030 climate target Canberra: Australia's Deputy

Prime Minister Barnaby Joyce has said it is "highly unlikely" his party will support an increased 2030 climate target. Members of the National

Party, which forms the governing Coalition with the Liberal Party, met to hear from Angus Taylor, the minister for energy and emissions reduction, on the Liberals' climate plan but were unable to reach a consensus position after four hours, Xinhua news agency reported on Monday. It comes as Prime Minister

Scott Morrison prepares to travel to Glasgow for the UN COP26 Climate Summit where he is expected to commit to a 2050 net zero target. of Members Nationals have pushed back

against the move, warning it will jeopardise regional jobs in emissions-heavy industries such as mining and manufac-PML-N vice president Maryam

Pak's Opp parties demand ISI chief's resignation at public rally Lahore: In an unusual devel-

opment, Pakistan's Opposition parties have demanded resignation of spy agency Inter-Services Intelligence (ISI) chief Lt Gen Faiz Hameed at a public rally in Punjab province. "Faiz Hameed istifa do

(tender resignation) was the demand made in the Opposition alliance -- Pakistan Democratic Movement (PDM) -- rally in Faisalabad, some 180 kms from Lahore, on Saturday.

Even slogans were raised against the incumbent spymaster who has been accused by the Opposition especially Pakistan Muslim League-Nawaz (PML- N) of 'political engineering' to install the puppet regime of Imran Khan.

The local media censored the anti-Hameed slogans and content in the rally.

On Sunday, the video clip demanding resignation from Lt Gen Hameed went viral, prompting federal interior

minister Sheikh Rashid to warn

Nawaz against "playing with 'Faiz Hameed -Tender res-

ignation' was one of the top trends on Twitter in Pakistan on Sunday. "I ask Maryam to refrain from bashing the armed forces in the public meetings. Her style of politics had already caused enough damage to her party, he said. Since there has been a

standoff between civil and military leadership on the appointment of the ISI chief as the prime minister is reportedly reluctant to replace Hameed, Marvam said Imran Khan is undermining state institutions to satisfy his selfish zeal. "Khan used to blame

Nawaz Sharif of locking horns with the state institutions but when his turn came, attacking the institution of the armed forces is one thing, he in fact carries out a suicide attack on them just to save one person (Hameed), she had told the C-SO-41-2021, Dated: 11.10.2021. e-Tender is invited by Chief Engineer (Con)/S/GRC, for and on behalf of the President of India for the following work which has been uploaded on website www.ireps.gov.in. a dollar on high

crude oil prices

global crude oil prices. At the interbank forex market, the local unit opened on a steady note and later traded in a narrow range of 75.24 to 75.38 against the American currency.

On Thursday, the rupee had settled at 75.26 against the US dollar. The forex market was closed on Friday for 'Dussehra' holiday. Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, was up 0.19 per cent at 94.12. Brent crude futures, the global oil benchmark, rose 1.11 per cent to USD 85.80 per barrel.

China's economy weakens as | Exports up 40.5 pc | to USD 15.13 bn GDP in Q3 declines to 4.9%

PTI ■ BEIJING

China's GDP grew by 4.9 per cent in the third quarter, down from 7.9 per cent in the second, confirming the slowdown of the world's secondlargest economy which was under pressure from the crisishit property sector, curbs on energy and tardy recovery from the Covid-19 pandemic.

Early to recover from the coronavirus pandemic, China's economy in the first few months this year staged impressive recovery but caught up in numerous headwinds, including a property sector slump, power crisis, increasingly weak consumer sentiment and soaring raw materi-

Gross Domestic Product (GDP) in the third quarter (Q3) grew 4.9 per cent year on year, slower than the growth of 18.3 per cent in Q1 and 7.9 per cent in Q2. The Q3 belied surveys of predicting five per cent growth.

The country's gross domestic product (GDP) expanded 9.8 per cent year on year in the first three quarters, putting the average growth for the period in the past two years at

5.2 per cent, according to the data released from National Bureau of Statics (NBS) on Monday.

Releasing the Q3 data, spokesman of the NBS Fu Linghui said that consumption contributed around 64.8 per cent to China's economic growth in the first three quarters of the year.

"We must note that the current uncertainties in the international environment are mounting and the domestic economic recovery is still unstable and uneven," Fu said.

"The overall national economy maintained the recovery momentum in the first three quarters... however, we must note that the current uncer-

tainties in the international environment are mounting, and the domestic economic recovery is still unstable and uneven," the Hong Kong-based South China Morning quoted Fu as saying.

'The Chinese economy has maintained the recovery momentum in the first three quarters with progress in structural adjustment and high quality development," Nevertheless, NBS said the

country's economic recovery remains uneven and unstable, and more efforts will be made to boost market vitality, release demand potential and keep the economy running within the reasonable range.

The National Company Law ■ Tribunal (NCLT) on Monday allowed the creditors and shareholders of Reliance Retail Ventures to hold meetings to seek approval for the company's proposed Rs 24,700 crore deal with the Future The Mumbai bench of

NCLT, led by Suchitra Kanuparthi, allowed the application by Reliance Retail's creditors and shareholders to convene meetings to seek approval for the deal. NCLT's detailed order in

the matter is awaited. Reliance Retail Ventures

is a subsidiary of Mukesh Ambani-owned Reliance Industries. On June 22, the tribunal had reserved its order on

Reliance Retail's plea to seek

consensus of the shareholders

on the company's deal with

Future Group. Earlier, on a similar peti-

tion by the Future Group, the NCLT had allowed holding meetings of the creditors and shareholders for seeking approval for the transaction. On October 1, 2021

Reliance Retail extended the long-stop date for the completion of its deal with Kishore Biyani-led Future Group by another six months to March 2022, due to the delays ensuing from the ongoing legal battle with the US-based Amazon.

Tnvestors should observe **⊥**maximum due diligence while investing in stock market and should not be carried away by the stories of unrealistic

Statintreatment

Generally used to lower the cholesterol level — slightly lowered COVID mortality, finds a study. Statins are a recommended and common intervention for preventing cardiovascular events by reducing levels of lipoprotein cholesterol in the blood. Researchers followed 9,63,876 residents of Stockholm above the age of 45.

DOCYARD

DR GAURAV PRAKASH BHARDWAJ

Director - Sports Injury, Joint Preservation & Replacement Surgery

PSRI HOSPITAL, NEW DELHI

Early diagnosis is important

OVID the epidemic was widely perceived to play havoc with Clungs, severely compromising the immune system which in two percent cases led to death. Worldwide it has caused such havoc that something like this has not been seen by mankind at least in the last one hundred years. If there were epidemics, they were limited to one continent (Ebola in poor African countries), one country, one region, one state, or town. It was never worldwide and engulfed the entire world at the same time. It has caused immense physical, mental and financial hardship to

Those who have had severe cases, post negative reports, many of these patients post-recovery have complained of blood clots, the onset of diabetes, chronic fatigue weakness and severe pain in the bones. In bones, it has been found to be causing avascular necrosis or osteonecrosis which is in a common language known as death of bone tissues due to lack of blood supply. This is not a new disease but detection of this in the patient post COVID is a cause of concern.

Take Avascular Necrosis (AVN) seriously

The loss of blood supply to bone tissues puts serious pressure on bones which can lead to the breakdown of a single bone or multiple bones ultimately may cause a collapse of the bone. The highest risk is to the hip bone, which is one of the strongest in the body but is most vulnerable. It can happen due to excessive use of steroids for treatment of fibrosis during COVID.

An early diagnosis of AVN is important to arrest the disease's progress and prevent subsequent femoral head collapse. Patients are advised not to rush daily activity post-recovery

Symptoms Symptoms of long COVID-19 can include fatigue, breathlessness, anxiety and depression, palpitations, chest pains, joint or muscle pain and not being able to think straight or focus on 10g. I nere is a lag in the body showing symptoms of AVN. It starts with pain in the bones. The patient may experience pain in the hip or the groin region. Besides, the patient may find walking difficult or may start limping while walking. The mobility of the patient may be severely compromised with severe pain in the knee joint also being experienced.

Causes

Most of the time it is seen to be caused by excessive use of steroids during the treatment, a short period that is for usage 5-10 days should not trigger AVN. One cannot make a sweeping statement that AVN is caused by excessive use of steroids as it has not been seen in all the patients who were administered a strong dose of steroids for treatment. Further, a clinical study is required to come to a definite conclusion. It can also be related to a patient's health condition before catching the virus.

What we can say with certainty is that it damages blood vessels which can cause clotting in multiple parts which are hastened by steroid use. The intravascular clot can cause damage to the femur leading to its collapse. All we need is further studies to establish this

Diagnosis and treatment

An early diagnosis of AVN is important to arrest the disease's progress and prevent subsequent femoral head collapse. If diagnosed early in Ficat-Arlet stage I or II, 92%-97% of the patients do not require surgery and can be managed with bisphosphonate therapy. Hence, it is crucial to diagnose AVN early to decrease the morbidity and the requirement of surgery. Patients are advised not to rush daily activity post-recovery. Some patients try to hurry into an exercise regime, it should be avoided as the body is still in recovery mode and has proper rest. Certain anti-inflammatory and non-steroidal medicine can also be given which can also help in alleviating the pain in some cases bone grafting is suggested. As a last option hip replacement surgery can be undertaken wherein prosthetics are used to remove and replace the damaged bone.

MMERCOOLER

KIWIFRUIT: Originated in eastern China, kiwifruits are mostly cultivated in New Zealand. This large berry grows on a species of woody vine in the genus Actinidia. Do not fall for the bright

green flesh alone because the fuzzy covering is edible too. This fruit is a hand-

bag of vitamins, antioxidants and dietary fibres with a sweet, tart and bold taste. It is beneficial for heart health as it contains properties capable of lowering blood pressure and reducing the risk of stroke and

heart diseases. Rich in dietary fibre, it can stimulate regular and healthy digestion and helps in building immunity by providing vitamin C that in turn stimulates the body's immune

High in antioxidants, it works in eliminating free radicals within the

body and reduces oxidative stress hence, keeping inflammation and diseases at bay. Include it in breakfast, lunch or even snacks, sides or a dessert because this fruit is blessed with low calorie count.

All about endometriosis

According to the Endometriosis Society of India, the estimated number of women suffering from the disorder is about 25 million and this number is increasing every year. DR SHOBHA GUPTA tells you more

here are many campaigns and awareness programmes that run in our country that educate women about various health issues. Endometriosis is one such condition that needs to be highlighted. Endometriosis is a medical problem or a common disorder that has emotional consequences for women.

It is a disease that occurs when tissue that normally grows inside the uterus grows outside it. During a normal menstrual cycle, the body sheds the endometrium via the vagina. In endometriosis, rather than flowing out, this lining flows backward and enters other parts of the body.

Around 89 million young women in the reproductive age group worldwide are suffering from Endometriosis Society of India, the estimated number of women suffering from the disorder in India is about 25 million and this number is increasing every year.

A lack of knowledge around the condition causes many women to simply believe their symptoms are a natural result of their period.

Endometriosis affects an estimated one in 10 women during their reproductive years. You can say that it is the main reason for stomach pain and the inability to conceive in women between 25 to 30 years of

Though it's not always the case, the condition has been linked to a higher risk for infertility because it may influence egg quality, disturbs your menstrual cycle, or might cause higher levels of inflammation.

In endometriosis, the tissue which appears in the womb is found growing in abnormal locations such as the ovaries or around the uterus. Every time a woman's menstruation starts, there is bleeding also inside this tissue. As a result, thick dark blood accumulates in the ovaries and becomes cysts which is also one of the reasons for painful periods.

Pain in the lower abdomen or

the pelvis is the most common symptom of endometriosis, often during or just before your period. Pain may also be felt during ovulation, while passing urine, during or after sexual intercourse, in the lower back region, in the lower back or in the legs. One may experience heavy and painful periods with symptoms

Other symptoms

♦Diarrhea or constipation (in nnection with menstruation) ♦Heavy, irregular menstrua-

- ♦Chronic/recurring pelvic pain ♦High blood pressure
- Coughing up bloodBlood in the urine or the
- ❖Frequent or urgent urination
- Difficult or prolonged men-
- ❖Irregular bowel movements
- ♦Dysmenorrhea (menstrual cramps)
- ♦Nausea and vomiting (in severe cases)

Diagnosing endometriosis is more difficult in Indian women. It

ENDOMETRIOSIS AFFECTS AN ESTIMATED ONE IN 10 WOMEN **DURING THE** REPRODUCTIVE YEARS. IT IS THE MAIN REASON FOR STOMACH PAIN AND THE INABILITY TO **CONCEIVE BETWEEN 25** TO 30 YEARS OF AGE. ADOPT NATURAL WAYS TO TREAT IT LIKE HEALTHIER EATING HABITS BY ELIMINATING CAFFEINE, SUGAR, AND ALCOHOL AND **CONSUMING ORGANIC** FOOD AND NUTRIENTS

generally affects the age group of 25-30 yrs but these days, it is found in the age group of 11-19 as well. So,

it is very important to be aware of

the symptoms of endometriosis and

the treatments available for it. Treatment

Nearly 30-40% of women with endometriosis can be infertile. The endometriosis treatment depends on several factors like the age of the lady, severity of the symptoms and desire to have children.

In some cases, over the counter drugs are enough to manage the symptoms. A hormonal intrauterine device (IUD) is another option that can be inserted to help reduce pain and bleeding.

Young women endometriosis who want to conceive may require specialized treatments the patient is older and has had repeated surgeries, a total Hysterectomy with Oophorectomy (removing uterus and ovaries) is the final solution.

You can also go for natural treatments to treat endometriosis, such as adopting healthier eating habits like lessening or eliminating caffeine, sugar, and alcohol and consuming organic food and supplementing essential nutrients such as Vitamin B complex may help lower your estrogen level. You can also do exercise, yoga, and meditation to improve your general and reproductive health.

SHOW WAY

Skin loses its glow with time due to constant exposure to the blue light and pollution.

DR PRITI SHUKLA shares ways to increase your collagen production naturally

ow many times have you thought that your skin is losing out its sheen and elasticity due to the over-exposure to the blue light and pollution? Many times, right? So, all these skin issues are actually indicating that the collagen production in your body is declining. Collagen is a crucial protein that serves as one of the main building blocks for your bones, skin, hair, muscles, tendons, and ligaments. The best part of collagen is that its production can be stimulated in the body through natural and minimal-invasive ways. Consuming foods that contain nutrients needed to stimulate collagen production can naturally help increase collagen levels in the body. Apart from it, the new profhilo treatment also works wonders.

Nutrients for collagen synthesis Vitamin C

Consuming food items that are rich in vitamin C and amino acids has the evidence of increasing the levels of hyaluronic acid and collagen in the body as both are important for skin. Oranges, red peppers, kale, Brussels sprouts, broccoli, and strawberries are rich in vitamin C.

Aloe vera gel

This leads to the stimulation of the cellgrowth and can help boost collagen production in your skin. You can apply aloe vera directly to the skin in pure form, or in the form of the products on the market that con-

Zinc deficiency in the body can reduce the amount of collagen produced. A man should consume 11 milligrams of zinc daily and a woman eight milligrams. The zinc-rich food contains cacao, pumpkin seeds, watermelon seeds, sesame seeds, spinach, almonds, cashews, chickpeas, kidney beans, lentils and oats.

Copper

Copper helps in the formation of red blood cells, bone, and connective tissue. Copper activates lysyl oxidase, an enzyme required for collagen maturation, which helps to form the fibers that support your tissues. It is recommended to consume about 900 micrograms of copper daily. Sunflower ulina, shiitake mushrooms are the richest source of copper.

Profhilo

Profhilo is a series of injections of pure hyaluronic acid, which hydrates the skin and triggers collagen and elastin production. It results in the bio-remodelling of the skin and dramatically improves the quality of the skin.

Do not expose your skin too much in the sun or in a tanning bed. Be mindful about smoking. It's also one of the reasons behind skin ageing prematurely. Getting time outside with the protection of sunscreen is one way to maintain a healthy

Collagen supplements are also used but it has side effects like calcium overproduction, allergic reactions, and joint pain. The writer is Consultant Plastic and Cosmetic

Surgeon, Ambrosia Clinic

Time to build coalitions and partnerships

SHALINI SAKSENA speaks with DR DALBIR SINGH about the challenges facing India to eliminate TB and ground-breaking innovations

■ What is the biggest challenge facing India in treatment of TB?

Our greatest challenge in TB elimination would lie in successfuly building coalitions and partnerships with private sector and civil society, adopting multi-sectoral approach in engaging local communities and institutions of local governance besides strategising to address issues of social determinants like malnutrition, poverty, social discrimination, planned urbanisation, hygiene and sanitation, comorbidities like Diabetes and smoking also have to be factored in our overall strategy of TB elimination as they contribute hugely to its mor-

tality. What are the measures

taken at international level? Driven by the urgency of crises, the first ever UN General Assembly High Level Meeting in 2018 endorsed an ambitious and powerful political declaration to accelerate progress towards END TB Targets and evolve urgent global response to Global Epidemic. It followed a very successful Inter-Ministerial Conference on Elimination of TB in Moscow in

Dr Dalbir Singh President, Global Coalition on TB

2017 which resulted in firm commitments from world leaders from 120 countries to upscale the diagnosis and treatment as well as to pursue the Universal Health Coverage and social protection. The WHO has developed the END TB strategy with an overall goal of a 90% reduction in Incidence and 95% reduction in TB deaths from 2015-2035. Around 70% of Indian

tor. It's only in the last decade that we have been able to evolve appropriate public-private partnership models which have been replicated across the country. ■ What are ground-breaking

patients are treated in private sec-

Today, there are over 200 districts across the country where Public Private Partnership programs called Patient Provider Support Agency (PPSA) models are ongoing which are ensuring free diagnosis and treatment. TB programme embraced use of ICT for treatment adherence and monitoring and real time community led initiatives. During COVID we promptly evolved Rapid Response Plan by introduction of bidirectional screening for TB and COVID and initiating measures for door step delivery of drugs and mass level community engagement and aware-

ness campaigns. ■ What has been the cause of

growing TB rate? The social conditions and comorbidity that fuel TB epidemic have not been adequately addressed. have aggravated the management of TB. Spurt in Diabetes and tobacco, smoking have also been strongly associated with higher risk of TB ■What are the gaps that exist?

unplanned proximal living spaces

The critical gap that exists today is between the estimated incidence and the actual notifications being reported to the Government. It will be most important to close this gap and this has been a focus for our national TB programme. We need to engage aggressively with the private sector and help create a unified health system where patients may receive standardised and free care, regardless of the sector they go to. Third, greater district-level monitoring and tracking will be crucial.

■What more needs to be done? We need to continue to innovate, strengthen our political will,

research and development, build Inter-sectoral approach, learn from cross pollination of Ideas and proven interventions. TB cannot be eradicated unless determinants like stigma, poverty, pollution control Poverty, malnutrition stigma and and malnutrition are addressed.

INBRIEF-

Retinal diseases detection with AI

R etinal examinations can detect a number of diseases that affect the eye. Fundus photography is a process of taking photographs of the interior of the eye through the pupil and is a way to screen and monitor such retinal diseases. The introduction of artificial intelligence (AI) technology to fundus photography has improved the platform and enabled it to detect and monitor retinal diseases on a large scale.

The Comprehensive AI Retinal Expert (CARE) system was developed by an international group of researchers from Sun Yat-sen University, Beijing Eaglevision Technology (Airdoc), Monash University, University of Miami Miller School of Medicine, Beijing Tongren Eye Centre and Capital Medical University.

Associate Professor Zongyuan G,e Department of Electrical and Computer Systems Engineering, Monash University, Monash Data Futures Institute, said the researchers trained a clinically applicable deep-learning system for fundus diseases using data derived from real world case studies, and then externally tested the model using fundus photographs collected from clinical settings in China.

'The CARE system was trained to identify the 14 most common retinal abnormalities using 207,228 colour fundus photographs derived from 16 clinical settings with different disease distributions," said Ge.

TALES OF UNLIVED LIVES

¬he combination of dim lighting, binaural music created a mysterious ambience and drew me into a room where strategically placed pictures told a thousand stories. The setting is Alliance Française de Delhi, where the Unsealed Chamber — The Transient Image, where the work of four contemporary artists - Aparna Nori, Arpan Mukherjee, Indu Anthony, and Philippe Calia — is being exhibited in both analogue and digital formats, to explain the transition in self-reflection during the pandemic. The artists experimented with creative hybridity by combining traditional and new media techniques to

gy, and representation. I am drawn to the wall, where the Bangalore-based artist, Aparna Nori, who has not just placed her work but also discussed and described the hues and texture of her skin. The pictures represent the emotional state and anxieties of women in a patriarchal culture. Her piece, Nalla Pilla (little dark girl), examines the relationship she formed with her body as she questioned its concerns, folds, and imperfections. She chose a salt-paper technique because she felt it was the most natural expression of textured personal narrative. Furthermore, according to her explanation, using photography is about more than just collecting photographs; it is about participating with the medium (photography) itself.

reflect on oneself, society, ecolo-

Moving right I come face-toface with the Bengal-based artist Arpan Mukherjee's collection of alternative photography. Gola Vora Dhan, typified by themes of dislocation, displacement, and Tanmaya Das tunes in to the unheard recollections portrayed by contemporary artists through the photography exhibition, Unsealed Chamber, The Transient Image

Satellite images of mining sites by Philippe Calia

exile takes up an entire wall. Some of his photographs depict a lonely girl sitting under a tree, others ortray village sights. On the wall, the artist describes that his family is a part of large scale migration from village to city in Bengal from 1980s onward. Through research and documentation, the artist, who is currently in Shantiniketan, West Bengal, frequently challenges and condemns he discrimination, political, and economic state of society.

But soon a collection of satellite images of different mining locations that have been exploited over the years clamours for attention. When I asked about the photographic method, the curator, Rahaab Allana, reveals that he took the printouts of the images and used chemicals to dissolve them, resulting in a new landscape of the satellite images to come up with the collection named, The Shape Of Clouds, 2021. The exhibition displays various rocks from around the world, such as those found in Australia, Tanzania and more, which helped in the production of minerals like gold, copper, aluminium, uranium and so on. A picture of the disintegrated artwork placed on the walls, supported by two short iron rods showed the new landscape

A sample of Arpan Mukherjee's work

formed by the chemical solution. Then, there is a video display of his family photograph being clicked on the beach in the 1970s, just before his birth, exactly in front of the left corner. The image, which was zooming in and out, outlined his father's

On the extreme left, a photo collection of anonymous women by Indu Anthony that has been accumulated over time is titled, Ivar. It refers to people within one's home or vicinity while probing the relationship between self-expression and discarded photographs of women. The 25 black and white photographs placed along with an unusual and unfamiliar silence have a calming effect.

The distinct impression that each photograph creates is that of telling a series of stories while the video installation — where Nori has scribbled texts in Telegu and English, describing flaws and scars through the pictorial description — evokes contemplation about all the situations and insecurities that women suffered throughout the ages. All of the images are linked together, revealing previously untold stories about a multitude of incidents that occurred many

In the wake of Covid-19, lack of funds and fewer audiences, theatre artists have switched to confined and experimental spaces in Delhi's suburbs and smaller cities, leaving the Mandi House area — the national capital's hub for performing art students and actors with a deserted look.

"The theatre groups which earlier used to perform at Mandi House have now moved to residential areas like Laxmi Nagar, Mayur Vihar to perform. These places used to be our rehearsing spaces earlier but now since some theatres are not taking up shows and others have increased their booking rates, we are compelled to move to such places," shared Harshvardhan Chaturvedi, an actor best known for his performance in the plays Ek Aur Dronacharya and

Bloody Bombay.
Akashara Theatre is the only prominent name amongst the newer substi-

There is probably no sector that has not been hit by the pandemic and Delhi's theatre community is no exception. "Our community has people from all castes, classes, religions and regions in India. However, after the pandemic-induced-lockdowns, many were forced to leave for their hometowns to help their families and themselves. Others, who did not, switched to some other occupation. And those who had somehow managed to survive the first lockdown broke down after the second wave. However, our plight still remains to be heard," Chaturvedi added. Just as all the public

To act, or not to act?

In a post-pandemic world, where every sector has been affected, theatre artistes switch to Delhi's suburbs and smaller cities to keep the show going

spaces in the city started opening up after the devastating second wave of Covid-19, the Delhi government had issued orders allowing cinemas, theatres, multiplexes to reopen with 50 per cent capacity from July 26 onwards. "This 50 per cent bar

had further given rise to another set of problems as some theatres despite having all the resources, refused to take bookings for they were sceptical of being able to cover their expenses with just half the percentage of audience," a theatre administrator revealed, on the condition of anonymity. However, Shobha

Deepak Singh — the director of Shriram Bharatiya Kala Kendra said that they could book Kamani Auditorium, but there weren't enough shows to

begin with. Meanwhile, Sri Ram Centre for Performing Arts has increased its booking rates by almost `10,000 to 20,000. "This has further rendered the community, especially those with a limited budget, helpless," Saif Ansari — an actor and producer, best known for his adaptation of William Shakespeare's Hamlet shared, adding that SRCPA is an autonomous body and is therefore not accountable to anyone.

"Due to all these reasons, we are now performing in smaller cities like Lucknow, Kanpur, Bareilly and Jaipur," explained Chaturvedi.

Saif said although they have come up with new places, audiences do not appear in large numbers, First of all these are lesserknown spaces in suburbs. Secondly, they are confined, so people are sceptical of sitting closer to each other due to Covid-19."

The number of audience has reduced from pre-Covid times of 500 to a mere 60-70. "Cinema has moved to OTT platforms but we cannot rely on something like that because of lack of funds, and therefore, the equipment due to which it will be next to impossible to stream a live show," Said added.

Shobha Deepak Singh, the director of Shriram Bharatiya Kala Kendra shared similar woes. "The community at large is doing very badly as there is no money left. There are salary cuts," she said, "In the middle of all this, we try to take back people as per requirements hoping that something would hap-

"There is no help from even the government on this front," Singh added.

be part of this exhibition,

Meghna Patpatia

 $T^{\text{he world around us plays a distinct}} \\ \text{role in formulating our perceptions,} \\$ ideas and inspirations. The 'scape' is defined as any extended view or the picture/representation of one. Be it a landscape, cityscape or seascape, each represents the inextricable relationship humans tend to form with their geo-graphical surroundings. Argentinian artist Julia Romano and Indian artist Meghna Patpatia, though divided by geography and culture, merge in their expression of this intricate relationship with the scape — a relationship that is universally experienced by all on this planet. Both take existing realistic elements and combine them with the surreal elements of mythology and ancient anthropology. The endeavour is to cre-

Transcending borders

ate these dreamscapes that question what is real and what is imagined, what is physical and what is metaphorical," says Sanjana Shah, the creative director of Tao Art Gallery, one of the oldest galleries in

Mumbai. The gallery will be hosting a unique show, comprising the works of Romano and Patpatia, called *Dreamscapes*.

Curated by Shah, the show will be up for previewing on October 21, 6 pm onwards and will be on display till November 25, 2021. The exhibition is set to be inaugurated by the Consul General of Argentina, Mr Guillermo Eduardo

At Dreamscapes, viewers will witness the merger in the expression of the two artists from diverse cultures and geogra-

shah, the India ambassador of Arte Laguna Prize, hopes to juxtapose Romano's digital landscapes with Commenting on the upcoming show, she shares, Dreamscapes pairs together two artists from different cultures and geographical landscapes, but who share the same desire to explore the synergy between humans and the land they inhabit. As a curator, İ found this thematic overlap between the two to be interesting

and relevant: Romano explores the impact of past ancestral generations on land, while Patpatia envisions a surreal alternate reality or dystopian future as a result of it. The seed of the idea is the same, but the techniques and treatment of the works are different. Both create beautifully stunning and poignant works as a result! I am excited for the audience to come and experience the show and this synergy live in action."

Dreamscapes will beautifully highlight aspects of co-existence and cultural synergy with a subtle undertone of the threat of depletion in a dystopian future. Much like the land around us, the art is layered, multi-faceted and deep in com-

Talking about her first show in India, Romano reveals, "I am thrilled to

working with such great people as the Tao Gallery team. I am showing my series of landscapes made with different parts of places photographed by me and artists; these oases are a mixture of time, space and culture. I made one work especially for the show with images taken from my surroundings here in Córdoba (the mountains, trees and plants from my neigh-

bourhood and my garden) and put them together with a panoramic view of Mumbai. So, challenging this union! Only art can be this magical. I strongly believe that by doing this in collage, we are also bonding in real life."

Taking it a step further by using the

past to imagine the future, Patpatia adds, Tao has a wonderful space that merges visuals seamlessly with narratives and the ability to collate artists worldwide. Sanjana's curatorial foresight and ability to weave a juxtapositioning of Julia and my art practices have intuitively brought about Dreamscapes. Super excited to see it unfurl."

These combined artistic dreamscapes of this joint-exhibition will help in bringing the world a little bit closer and opening our minds a little bit

INDIAN BLUE

Following the previous exhibitions that looked at artistic practices across the

decades of 1950s, '60s and '70s, DAG now presents an exhibition that examines how artists have addressed their work through the prism of the colour blue that has been imbued with nuances particular

to the country and its culture. Featuring over 150 works, Indian Blue uncovers a range

of artistic practices from the realistic to the abstract, from landscapes and portraits to history paintings and figurative narrations, across an equally astonishing range of mediums — oils, watercolours, acrylics, printmaking, sculpture — and periods.

Indian Blue in an effort to examine the relationship civilisations share with the colour blue, not only helps the viewers understand the artistic responses to its hues and tones at a subliminal level — something it achieves through the chosen colour under investigation in this exhibition — but also goes beyond it to examine the role colours play in human lives.

And what better way to explore this rich sensory archive than through the world as visualised by artists. When: Open till December 1

open with Rohit: Kohli

India captain Virat Kohli on Monday said he will bat at number three instead of opening the innings in the ICC T20 World Cup with KL Rahul having sealed the second opener's slot alongside Rohit Sĥarma.

The Indian skipper kept it open-ended when asked about the team's top-six batters going into the opening match of the tournament against arch-rivals Pakistan on October 24.

"Things were different before IPL, now it's difficult to look beyond KL Rahul at the top of the order. Rohit is a nobrainer. World-class player, he's been solid up front. I will be batting at 3. That's the only news I can give to start off," Kohli said at the toss before the warm-up game against England.

Rahul emerged as the third highest scorer in the IPL with 628 runs besides hitting the most number of sixes (30) in the tournament.

"We are pretty sorted in terms of how we are going to start in the first game (versus Pakistan). The objective behind the

two warm-up matches is to give game time to everyone as they get back into the groove after a short break.
"Outside of that we just

want to give opportunity to guys in these games as much as possible. We will look to give game-time to most of them. The idea is to create some energy and momentum

We have played in different teams recently (in the IPL)," said the Indian captain.

competitive, Kohli didn't forget to mention that it's Indian cricket that is paramount.

'We have had success in the past. So we want to create that same energy, fielding is the best place to start I reckon when eleven guys are together. The IPL is right up there in terms of level and While the IPL has been competitiveness, but this is

paramount. Indian cricket is the priority for everyone. That has to be the case.

It all boils down to adaptability, said Kohli.

"Ádaptability is what matters. People play different roles in their IPL teams. It's about adapting quickly to this team now, who plays where is what

Will bat at No. 3, KL to Ishan, Rahul star as India beat England

PTI ■ DUBAI

KL Rahul's brutal yet elegant 50 sealed the second opener's debate while his opening partner Ishan Kishan also grabbed the opportunity as India warmed-up nicely with a seven-wicket win over Éngland in the opening practice match ahead of the T20 World Cup.

Rahul made batting look easy with six boundaries and three sixes in his 24-ball-51 while Kishan was retired hurt after a chiselled 70 off 46 balls that had three sixes apart from seven boundaries as India chased a target of 189 with an over to spare.

In a game where result was secondary, Rahul's touch would have certainly made skipper Virat Kohli pleased as punch as he hit some breathtaking sixes off Chris Woakes and also treated Mark Wood with disdain. Kishan, who might have to sit out if he is not playing as an opener, did his case no harm once Rahul was gone as he punished the spinners, includT20 WORLD CUP WARM-UP

ing a dazzling six, coming down the track off Adil Rashid.

India in the first game ticked some boxes that includes two senior pacers Jasprit Bumrah (1/26) and Mohammed Shami (3/40) hitting the straps straightaway with some fast and accurate deliveries.

The third angle to this 'triangle' — Bhuvneshwar Kumar, however, consistently missed the length giving away 54 runs

concerns for the Indian team. Rishabh Pant (29 not out,

14 balls) smashed the bowlers, while Suryakumar Yadav (8 off 8 balls) did look a bit scratchy during his brief stay. Hardik Pandya, who is sup-

posed to be the "designated finisher" in this line-up, came to the crease with 21 needed off 15 balls and he hit a few streaky shots in his 16 not out in 10

The England batters also

middle on a good surface at the ICC Academy ground here after being put in to bat.

Veteran Shami bowled the fuller lengths and also mixed it with clever variations as he got wickets of openers Jason Roy (17 off 13 balls), Jos Buttler (18 off 13 balls) and Liam Livingstone (30 off 20 balls).

Buttler was done in by change of pace where the length was sastled by an old-fashioned yorker.

Bumrah even in a warm-up game, bowled an unplayable yorker to prevent Jonny Bairstow (49 off 36 balls) from getting a half-century. He was easily India's best bowler on view while Bhuvneshwar ooked a bit out of place.

Moeen Ali (43 not out off 20 balls), fresh from his IPL exploits, beefed up England's score in the final over.

However, the contest that Kohli (11) didn't score threw their willows around to head coach Ravi Shastri and much but that would be least of get some quality time in the captain Kohli keenly watched

was how well young leg-spinner Chahar (1/43 in 4 overs) and veteran off-spinner Ashwin (0/23 in 4 overs) shape up for the third spinner's slot.

The Indian team is pretty certain that Ravindra Jadeja and Varun Chakravarthy are the two spinners who will be in operation when the campaign starts. The two had also played an IPL final just few days back along with play-off games and

hence both were rested.

While Chahar removed
ICC's World No 1 ranked T20 batter Dawid Malan (18 off 18 balls) with a googly, he wasn't as consistent with his length as Ashwin, who went wicket-less but wasn't punished as such.

However unlike Chahar, who at times looked penetrative, the English batters didn't have much of a problem in milking Ashwin for the singles and some inside out shots over extra-cover. In all, India had a good outing, exactly how they would have wanted in a warm-

T20 WC BIGGEST CHALLENGE:

tar India all-rounder Hardik Pandva considers the ongoing T20 World Cup the biggest responsibility of his career as a finisher because "everything is on my shoulders" in the absence of "life coach and brother" Mahendra Singh Dhoni from the playing line-up.

In an interview to 'ESPNcricinfo's Cricket Monthly', the 28-year-old superstar, whose fitness is a concern heading into the event as he did not bowl in the IPL, spoke about the many challenges of his life, his acceptance of the not-so-perfect self and the extraordinary bond he shares with Dhoni.

This would be India's first World Cup campaign since Dhoni retired in 2020 and the side will open its campaign against Pakistan on October 24 here. Dhoni has been appointed the team's mentor for the mega-event.

"The biggest so far, I will say, because this time I don't have Mahendra Singh Dhoni. Everything is on my shoulders - I like to think that way because it gives me an added challenge. It is going to be exciting, a cracker of a tournament," he said.

Speaking of Dhoni, a fiercely private person whose life outside cricket is as enigmatic as his persona on the field, Pandya said the two-time World Cup-winning captain is someone he turns to in times of adversity, turmoil and even to understand his own mind. "MS was someone who understood me from the start: how I function, what kind of a person I am, what are

the things I don't like, everything," he said Pandya recalled how Dhoni reached out to him on his return to the side during the tour of New Zealand in 2019 after a suspension for some sexist remarks on

a TV show.
"...Initially there were no hotel rooms (for Pandya in New Zealand). But then I get a call, saying, "You just come. MS has told us, 'I don't sleep on the bed. He will sleep on my bed and I will sleep on the floor."

"He (Dhoni) was the first person who has been always there. He knows what kind of an individual I am. He knows me quite deep. I am very close to him. He is the only person who can make me

will be 50-over affair: Raja

PTI DUBAI

The 2023 Asia Cup in Pakistan will be a 50-over event with the Asian Cricket Council continuing its tradition of holding

the tournament in the same for mat as that particular year's ICC global event, PCB chairman Ramiz Raja said on Monday. However, the former Pakistan captain also dropped

enough hints that there is very eral series against India in near future as a "lot of work still needs to be done" to reach a "comfortable level". Raja recently attended the ACC meet in Dubai where he discussed the modalities of Asia Cup and also had a meeting with BCCI president Sourav Ganguly and secretary Jay Shah.

India-Pak bilateral cricket

On his meeting with the BCCI officials, Raja said: "A lot of work needs to be done to revitalise Pakistan-India crick-

can see how far we can go. So overall, we had a good discussion."

"I met with BCCI President Sourav Ganguly and secretary Iay Shah on the sidelines of the ACC meetings. We need to create a cricketing bond, while I have also believed that politics should stay away from sport as always been our stance," he reit-

et but there needs to

be some comfortable

level between the two

boards and then we

Raja understands that ACC as a body has no power to dictate terms to a giant like BCCI and that's the reason he sounded a word of caution for the continental body knowing that their could be a shift of Asia Cup by the time 2023

"The ACC was set-up to create a unified approach and collective stance so that we had one voice and if there was a situation, all stood together.

2023 Asia Cup in Pakistan | Ireland beat Netherlands by 7 wickets

PTI ■ ABU DHABI

Tohannesburg-born seamer Curtis Campher became only the third bowler to claim four wickets in four balls in T20Is as a superior Ireland beat Netherlands by seven wickets in their first round Group A T20 World Cup match here on Monday.
Thanks to Campher's exploits with the

white ball, Ireland bundled out Netherlands for 106 after the Dutch had decided to bat. Ireland chased down the target with as many as 29 balls to spare at the Sheikh Zayed

Gareth Delany (44) and Paul Stirling (30 not out) were the significant contributors with the bat for the Irish team that had lost

its T20 World Cup games to the same oppo-

Earlier, bowling the 10th over of the Netherlands innings, the 22-year-old Campher left the Netherlands innings in disarray when he dismissed Colin Ackermann, Ryan ten Doeschate, Scott Edwards and Roelof van der Merwe off successive balls. He was bowling his second over for the day,

having gone for 12 runs first up. Ackermann was out caught behind on review, having played an attempted pull off a shortish ball that seemed to be going down leg. The seasoned Ten Doeschate, best remembered for his incredible century against England in the 2011 World Cup, was out for a duck, trapped in front by a full and

played on to his stumps a widish delivery, leaving the Irish camp in a state of frenzy.

Netherlands were in all sorts of trouble at 51 for six after Campher's multiple blows but opener Max ODowd (51) battled on amid the slide at the other end.

seven boundaries.

The day, however, belonged to Campher who had started poorly in his spell, got a lucky breakthrough down the leg side before claiming his hat-trick, only the second player after former Australia speedster Brett Lee to achieve the feat in a T20

Lanka Premier League 2021 to kick off on December 5

The Lanka Premier League 2021 will commence on December 5 here with the inaugural game scheduled to be played between Galle and Jaffna. The first round of the tournament, which

will consist of 20 games, will be played at the RPICS, before it moves into MRICS, Hambantota to proceed with the final round The finals of the League will be played on

December 24, as a 'Reserve Day' dedicated for The Lanka Premier League which is Sri Lanka's topmost domestic tournament, with

an international flavour, will consist of 24 games and will see the participation of topmost domestic and international cricketers. The Final Round Games will see the top

two teams in the points table playing the qualifier 1, whilst the 3rd and 4th placed teams on the table playing in the 'eliminator'.

The winner of 'qualifier 1' will directly go into the finals, whilst the loser of 'qualifier 1' will play against the winner of the 'eliminator' in the 'qualifier 2' and the winner of that game will go into the finals.

Rasquinha had a session with the Mumbai team where he spoke about the success stories of India's celebrated Olympians.

Mumbai: India's Test vice-captain Ajinkya Rahane

will lead a strong 20-member Mumbai squad that will take part in the upcoming Syed Mushtaq Ali

T20 tournament with the flamboyant Prithvi Shaw

being his deputy. The Mumbai Cricket Association

(MCA) announced the squad, picked by the committee headed by former India pacer Salil

RAHANE TO LEAD MUMBAI

WRESTLER VINESH PHOGAT MEETS PM New Delhi: Indian wrestler Vinesh Phogat, who recently underwent an elbow surgery, on Monday met Prime Minister Narendra Modi along with her family. The 27-year-old had made a shock firstround exit from the Tokyo Olympics. She entered the Games as one of India's strongest medal contenders. The former world championship bronze-medallist was part of meetings that Modi had with Tokyo Games athletes." Great meeting the honourable @narendramodi sir today. His enthusiasm and love for sport is truly boundless. Genuinely touched by your concern for athletes. A big thank you sir for sparing time from your busy schedule to fulfill your promise of interacting with

me and my family," Vinesh tweeted. WORLD ESPORTS CUP TO FEATURE GAMERS

New Delhi: Gamers from India, Nepal and Pakistan will compete in the inaugural World Esports Cup starting November 25, the organisers announced on Monday. The tournament, sponsored by Infinix Smartphones, will see a massive prize pool of Rs 75 lakh approximately, according to a media release. Esports athletes from the three countries will compete virtually in open qualifiers to take a shot at becoming the champion of the region. World Esports Cup (WEC), WEC Director, Vishwalok Nath said: "We all know how intense it becomes when it comes to any India-Pakistan match and we want fans to witness this epic clash in esports as well.

MARY KOM TO SKIP NATIONALS

New Delhi: Six-time world champion M C Mary Kom will not compete in the upcoming National Women's Boxing Championships in Hisar. The 38year-old, who reached the pre-quarters of Tokyo Olympics before bowing out with a hard-fought loss, is, however, training for the world championships in December. Even though the Boxing Federation of India (BFI) has announced that only gold medal winners from the Nationals will make the squad, it is reliably learnt that trials could be held in a couple of weight categories, including the 48kg division, which Mary Kom would prefer to compete in.

BHAVANI'S WIN IN FRANCE

New Delhi: Fencer Bhavani Devi, who made history at the Tokyo Olympics by becoming the first Indian to compete in the sport at the Games, has won the Charlellville National Competition in France in the individual women's sabre event. The 28-year-old fencer tweeted about the same."Won the Charlellville National Competition, France in the Women's Sabre individual. Many thanks to coach Christian Bauer, Arnaud Schneider, and all teammates. Congratulations to all for a great start of the season," she tweeted after winning the competition. At the Tokyo Olympics, she won her round of 64 match 15-3 against Tunisia's Nadia Ben Azizi before going down to eventual bronze-medallist, Manon Brunet of France in the round of 32.

Barcelona rallies to beat Valencia 3-1

nsu Fati is quickly becom-Aing Barcelona's go-to player in the absence of Lionel

The 18-year-old Fati made his first start for Barcelona after a long injury layoff on Sunday, scoring a goal and earning his team a penalty as the Catalan club halted its losing streak by rallying to beat Valencia 3-1 in the Spanish league.

Memphis Depay and Philippe Coutinho also scored for Barcelona as it moved to seventh place, five points behind leader Real Sociedad and with a game in hand.

Fati returned to action last month after being sidelined for more than 10 months because of a knee injury, coming off the bench in three straight matches before getting his first start on Sunday and giving fans more hope that the club can rebuild around him after Messi's departure to Paris Saint-Germain. He had already scored a few minutes after entering the game against Levante.

"We've always said we need players like him," said Barcelona coach Ronald Koeman, who was back on the bench after a suspension of two league matches following a red

card for complaining.
"It was his first start and it was already decided with the doctors that he would only play for about an hour. We don't want to overwork him in such an important week for us."

Barcelona was coming off two defeats before the international break — 2-0 at Atlético Madrid in the league and 3-0 at Benfica in the Champions League. It had won only once in its last six matches in all competitions.

Barcelona has begun a Koeman called key to getting

the team back on track. It will next play a critical Champions League game against Dynamo Kyiv on Wednesday and then the first "clásico" of the season against Real Madrid.

"It was a very important win, we are in a key week in the season," Barcelona midfielder Frenkie de Jong said.

"We started it well by earning points and gaining confidence, that's very important for the club right now."

The loss extended Valencia's winless streak to five three-game home stint that matches. It dropped to ninth place in the league.
