Modi praises Yogi's development efforts

With foundation stone for Raja Mahendra Pratap varsity in Aligarh, PM sounds bugle for UP 2022 polls

PNS ■ ALIGARH

Prime Minister Narendra Modi on Tuesday laid the foundation stone for the Raja Mahendra Pratap Singh State University and reviewed the progress of work on the Aligarh node of Uttar Pradesh defense corridor, calling it a "big day" and sounding the bugle for the 2022 State Assembly polls.

Locks manufactured in Aligarh used to secure houses and now the defence equipment made in Aligarh will secure the nation's borders, he said.

In his 40-minute address, apart from introducing the youth to Raja Mahendra Pratap Singh, Modi also highlighted the importance of Aligarh.

Praising the work of Yogi Adityanath, he said the Chief

PM Narendra Modi during foundation stone laying of the Raja Mahendra Pratap Singh University in Aligarh on Tuesday PTI

Minister has created an environment of investment in UP, wooing a large number of investors to the State.

He said the Yogi Government has given a new identity to the locks and hardware industry of Aligarh.

Industries and SMEs will get special benefits from this, and

in the next few years ₹900 crore will be invested, he said.

UP defense corridor is bringing huge investment and employment opportunities. This happens when the necessary environment for investment is created, the PM added.

Calling it a big day for UP, Modi said Aligarh, which was

known to manufacture locks for securing houses will now play an important role in securing the boundaries of India by manufacturing defence equipment.

He said India will not only become self-reliant in defence but will also become a major exporter in the sector.

Vax efficacy negates need for booster dose: Scientists

PNS ■ NEW DELHI

Some countries may have started offering booster doses as an option to counter virulent Delta variant of Covid-19, but an international group of scientists has rejected the idea of giving booster dose to combat Delta variant of Covid-19, asserting that vaccine efficacy against the severe virus is so high that booster doses for the general population are "not appropriate" at this stage in the pandemic.

The World Health Organization (WHO) also has disfavoured the idea of giving third doses to all stating that it may be necessary for the most at-risk populations. "But for now, we do not want to see widespread use of boosters for healthy people who are fully vaccinated," the WHO has said.

Published in the Lancet journal, the review by the scientists, including from the WHO and two from the US Food and Drug Administration (FDA), summarises the currently available evidence from randomised controlled trials and observational studies published in peer-reviewed journals and pre-print servers and asserts that the benefits of the first shots are clear.

It added that vaccination had 95 per cent efficacy against

severe disease both from the Delta variant and from the Alpha variant, and over 80 per cent efficacy at protecting against any infection from these variants.

Although vaccines are less effective against asymptomatic disease or against transmission than against severe disease, the unvaccinated minority are still the major drivers of transmission, the scientists argued in the review published on Monday.

The observation comes even as the US is currently reviewing evidence for booster doses for Americans and many other countries including Israel, Italy, France and Russia who have already rolled out the third dose of Covid jabs.

India too has been contemplating giving booster dose to the vaccinated people having low antibody levels.

"The move is being contemplated as over 20 per cent of the inoculated population has failed to develop antibodies against SARS-CoV2," Director of Bhubaneswar-based Institute of Life Sciences (ILS) Dr Ajay Parida had recently indicated.

However, lead author Ana-Maria Heno-Restrepo from the WHO in the review in the Lancet noted that taken as a whole, the currently available studies do not provide credible evidence of substantially declining protection against severe disease, which is the primary goal of vaccination.

"Even if some gain can ultimately be obtained from boosting, it will not outweigh the benefits of providing initial protection to the unvaccinated," said the lead author.

Last week, Pascal Soriot, CEO of AstraZeneca, also said a third dose of vaccines against Covid-19 may not be needed for everyone.

The WHO has, meanwhile, called for an extension of a global moratorium on Covid-19 booster doses, with an aim to enable every country to vaccinate at least 40 per cent of its population.

According to the WHO, globally 5.5 billion vaccine doses have been administered, but 80 per cent have been administered in high-and upper-middle income countries.

"The vaccines that are currently available are safe, effective, and save lives. Although the idea of further reducing the number of Covid-19 cases by enhancing immunity in vaccinated people is appealing, any decision to do so should be evidence-based and consider the benefits and risks for individuals and society.

"These high-stakes decisions should be based on robust evidence and international scientific discussion," added co-author Soumya Swaminathan, WHO chief scientist.

153 Af media outlets stop op after Taliban recapture

New restrictions, eco stress may shut down more media houses

ANI ■ KABUL

After the fall of the Republic of Afghanistan, 153 media outlets have stopped their activities in 20 provinces, local media reported citing the organisations supporting free media in the troubled country.

According to officials at the organisations, these outlets include radio, print and TV channels and both economic problems and restrictions are reportedly the main reasons for not being able to operate anymore, *Tolo News* reported on Tuesday.

The officials said if the media's financial crisis is not solved and restrictions against them are not addressed, more outlets are likely to cease operating in the country.

"If the organisations supporting media do not pay attention to media outlets, soon we will witness the closing of the remaining outlets in the country," *Tolo News* quoted Hujatullah Mujadadi, the deputy head of the Afghanistan Federation of Journalists as saying.

"The continuation of this trend has created concerns. We urge international organisations to take immediate action to address this problem. Otherwise, soon it will be the end of press freedom and other

human and civil liberties," *Tolo News* quoted Masroor Lutfi, representative of the Afghanistan National Journalists' Union as saying.

The organisations supporting free media in Afghanistan said economic problems are serious, and operating under restrictions creates big challenges for media in Afghanistan.

The Taliban, however, has said they will try to create a safe environment for media and journalists to continue their jobs.

Yogi's 'abba jaan' upsets ally JD(U)

PNS ■ NEW DELHI

The Janata Dal (U), a key ally of the Modi Government, is toeing a different political theme is evident again as its president Rajiv Ranjan Singh 'Lalan' on Tuesday frowned at the "abba jaan" remarks of Uttar Pradesh Chief Minister Yogi Adityanath, saying political parties should maintain "restraint" in their comments and that the country belongs to everyone, be it Hindus, Muslims, Christians or any other community.

The JD(U) recently decided to send its senior leader KC Tyagi to a rally being organised in Jind on September 25 by INLD chief Om Prakash Chautala, seen as part of the effort for forming a non-BJP, non-Congress front.

The JD(U) has also decided to "strongly fight" the upcoming Assembly polls in Uttar Pradesh and Manipur. The JD(U) has, earlier, been quite unhappy with the BJP that it had led its six of the seven MLAs in Arunachal Pradesh to the saffron fold in

JD(U)'s new national president and MP, Rajiv Ranjan Singh, alias Lalan Singh

December 2020.

The party is likely to organise its national executive meeting in UP in November and its office-bearer's meeting in Manipur as it works to galvanise its organisational machinery in the two States.

Prior to this, the BJP ally has also been putting pressure on the Modi Government to agree to conduct an OBC census in the country.

"Terms like 'unity in diversity' are used for our country. The country belongs to all. No remarks should be made that harm the country," Singh, a confidant of Bihar Chief Minister Nitish Kumar, told reporters when asked for his reaction to the BJP leader's comments.

Covid pushed 31 mn more into extreme poverty in 2020: Study

'90% of advanced economies to regain pre-Covid per capita income by 2022'

PNS ■ NEW DELHI

As the Covid-19 pandemic-induced lockdowns wreaked havoc on the economy and livelihoods, an additional 31 million people were pushed into extreme poverty in 2020 compared to 2019, according to a report that highlighted stark disparities caused by the crisis worldwide.

The annual Goalkeepers Report, co-authored by Bill Gates and Melinda French Gates for their foundation, however, noted that while 90 per cent of advanced economies will regain pre-pandemic per capita income levels by next year, only a third of low and middle income economies are expected to do so. Hence, there is a need for investment in local partners to strengthen the capacity of researchers and

manufacturers in lower-income countries to create the vaccines and medicines they need, the report said.

"(The past year) has reinforced our belief that progress is possible but not inevitable," wrote the co-chairs. "If we can expand upon the best of what we've seen these past 18 months, we can finally put the pandemic behind us and once again accelerate progress in addressing fundamental issues like health, hunger, and climate change," they wrote.

The Goalkeepers Report

follows a similar study by Azim Premji University that talked about lockdown impact on India, saying that around 23 crore Indians have been pushed into poverty during the last one year.

It said the rural poverty rate increased by 15 percentage points and the urban poverty rate by 20 points in India.

The report co-authored by Bill Gates and Melinda French Gates also highlighted the disproportionate economic impact that the pandemic has had on women globally.

CAPSULE

COPS BUST PAK-BASED TERROR MODULE

New Delhi: The Delhi Police's Special Cell has busted a Pakistan-organised terror module with the arrest of two terrorists, officials said on Tuesday. Deputy Commissioner of Police (Special Cell) Pramod Singh Kushwah said, "Pakistan-organised terror module has been busted. Two Pakistan-trained terrorists have been arrested." Explosives and firearms have been recovered from them in a multi-state operation, he added. Further details are awaited, police said.

MINORITIES '100% SECURE' UNDER MODI GOVT: NCM

New Delhi: Minorities are "100 per cent secure" under Prime Minister Narendra Modi's Government and the narrative that hate incidents have gone up during the present dispensation is "wrong", National Commission for Minorities chairperson Iqbal Singh Lalpura said on Tuesday.

TMC nominates Sushmita, DMK names Somu for RS

DMK also picks Rajeshkumar for Upper House polls

SAUGAR SENGUPTA/PNS ■ KOLKATA/CHENNAI

The Trinamool Congress (TMC) has nominated former Assam Congress leader Sushmita Dev for the upcoming Rajya Sabha elections. She is being nominated for the seat vacated by former TMC Rajya Sabha member Dr Manas Bhuniya, who is presently a Minister in the Mamata Banerjee Cabinet.

Sushmita Dev is the daughter of late Congress leader and Union Minister from Silchar Santosh Mohan Dev. She recently left her former party to

join the Trinamool Congress. The election for the Rajya Sabha seat is slated to be held on October 4.

Dev's nomination to the Rajya Sabha is part of TMC supremo Mamata's north-eastern plans. According to sources, the Bengal Chief Minister who is trying to make inroads into Assam politics by appropriating the Muslim and

Bengali-speaking votes in that State will in all probability use Dev for the purpose.

"We are extremely pleased to nominate @SushmitaDevAITC to the Upper House of Parliament. @MamataOfficial's vision to empower women and ensure their maximum participation in politics shall help our society to achieve much more!" the party tweeted. Dev, who was one of the national spokespersons of the grand old party and its women's wing chief, switched over to the Mamata Banerjee-led camp last month.

Meanwhile, Tamil Nadu's ruling DMK has announced Dr Kanimozhi Somu and KRN Rajeshkumar as the party's candidates for the Rajya Sabha elections scheduled for October 4.

76% decline in coal power projects since Paris pact to tackle climate

PNS ■ NEW DELHI

There has been a 76 per cent reduction in proposed coal power pipelines since the Paris Agreement was signed in 2015. After assessing the global pipeline of new coal projects, a new report has said the decline indicates the end of new coal construction, which is welcome news for tackling climate change.

The report by climate change think tank E3G comes ahead of the UN High-level Dialogue on Energy in November where countries will advance their individual and collective commitments to "no new coal projects" and also asking richer countries to provide support to countries in pivoting towards a coal-free future.

Coal is the single largest contributor to climate change. According to a recent UN report (IPCC), the use of coal needs to fall 79 per cent by 2030 on 2019 levels to meet the pledges countries signed up to in the Paris Agreement.

China alone accounts for 55 per cent of the global total, followed by India — which is

home to 7 per cent (21GW) of the global pipeline — Vietnam, Indonesia, Turkey, and Bangladesh.

The report pointed out that action by these six countries could remove 82 per cent of the remaining global pipeline.

This leaves 44 countries without a pre-construction

pipeline, and in a position to commit to "no new coal", joining 40 countries that have made this commitment since 2015. Together, they can respond to Guterres' call for "no new coal by 2021".

The remaining pipeline is thinly spread across 31 countries, 16 of which are only one project away from embracing a future without coal.

These countries could follow global momentum and regional peers in ending their pursuit of new coal-fired power generation.

If China follows East Asian neighbours Japan and South Korea in ending overseas coal finance, it would facilitate the cancellation of over 40GW of pipeline projects across 20 countries, said the report.

President on four-day visit to Himachal

PNS ■ SHIMLA

President Ram Nath Kovind will be on a four-day visit to Himachal Pradesh from Thursday and will stay at a private hotel here instead of The Retreat at Chharabra, where he normally stays.

He will stay at Cecil hotel at Chaura Maidan as four staff members of The Retreat — the President's residence at Chharabra on the outskirts of Shimla had tested positive for COVID-19 on Saturday.

“The President would address the special session of the State Assembly on Friday at

11 am to mark the golden jubilee of Himachal Pradesh's statehood,” said Assembly Speaker Vipin Singh Parmar while talking to the mediapersons here.

Kovind will be the third President to address the Himachal Assembly. Then Presidents APJ Abdul Kalam and Pranab Mukherjee had addressed the State Assembly in 2003 and 2013, respectively, Parmar said.

All those who will come in close contact with the President will have to carry a COVID-19 RT-PCR negative report even if they have been fully vaccinat-

ed against the Coronavirus, he added. Besides sitting MLAs, all the former MLAs including former Chief Ministers Shanta Kumar and Prem Kumar Dhumal have been invited to attend the special session on Thursday.

Ninety-three former MLAs, including Kumar and Dhumal, have given their consent to attend the special session. MPs and former MPs from the hill state will also attend the session.

Parmar said that a group photo of the President with the current and former legislators will also be taken as a memory at the Assembly.

According to the schedule, the President will reach Annadale Helipad on September 16 at 12 noon via Chandigarh from Palam

Khattar greets people of State on ‘Hindi Diwas’

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar while extending greetings to the people of the state on the occasion of ‘Hindi Diwas’ on Tuesday said that Hindi is one of the most popular languages not only in India but across the world.

He elaborated that the language acts as a bridge which connects the people of India to each other. It is the responsibility of all Indians to promote

Haryana CM to chair high-level meeting on the issue of road blocked by protesting farmers at NH-44

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar will

Airport, Delhi. Subsequently, he will reach Cecil hotel at Chaura Maidan here at around 12.25 pm.

On September 17, the President will address the State Assembly while in the evening, he will attend a cultural programme at 7.30 pm and banquet at 8 pm hosted by the state Governor. On September 18, the President will be chief guest at the valedictory ceremony of the Indian Audit and Accounts Service (IAAS Officer Trainees of 2018 and 2019 Batches) at the National Academy of Audit and Accounts at Shimla from 11 am to 12 noon.

The President will reach Annadale helipad at 11.15 am to leave for Palam airport in Delhi via Chandigarh on September 19.

and propagate the language, he said. Taking to Twitter in this regard, the Chief Minister said, “Hindi language is a symbol of National unity, cultural values and besides being the most simple, communicative language it has a major contribution in the development of our culture (sic).”

He wished everyone a very Happy Hindi Diwas and urged the people to come together and feel proud of their language which unites us Indians in a single thread.

chair a high-level meeting on September 15 on the issue of road blockade on the Kundli-Singhu border near Sonipat district on national highway no-44 due to the ongoing farmers’ protest against the three central farm laws.

Giving details in this regard, the state’s Home Minister Anil Vij on Tuesday told the mediapersons that the Chief Minister will hold a high-level meeting on the issue of road blockade due to farmers’ protest. The Supreme Court has given directions that the farmers protesting on Kundli-Singhu border should give way to common man and shift to one side of the road, he said. A meeting will be held on how to go about this matter as the common man has been suffering for the last several months due to the road blocked by the protestors, Vij said. Earlier in the day, the Sonipat District Administration had also held a meeting with farmers’ representatives to urge them to give way on one side of the road for common man.

SERVING CUSTOMERS WITH A SMILE

Appeal to call off protest twisted: Capt

Terms it unfortunate

PNS ■ CHANDIGARH

Under attack over his appeal to farmers to ‘move farmers’ protest out of Punjab’, Chief Minister Capt Amarinder Singh on Tuesday said that his appeal to the protesting farmers to shift their agitation out of the State has been “misunderstood” and given a “political twist”.

Terming as unfortunate the “political twist” given by the farmers to his appeal, Capt Amarinder said that the stir is damaging the interests of Punjab and its people, and not the Adanis or Jio who have minimal presence in Punjab.

“It is unfortunate that the farmers agitating against the black farm laws have given a political twist to my remarks instead of understanding the pain and misery caused to the people on account of their protests in the state, which are quite uncalled for, given my Government’s continued support to them,” said Capt Amarinder while reacting to the Samyukt Kisan Morcha’s criticism of his remarks on the

issue.

The Chief Minister lamented that despite his Government’s unequivocal support to their cause, the farmers had misinterpreted his appeal and had, instead, tried to link it with the upcoming Assembly polls in Punjab. “Congress government, as well as the people of Punjab, have always stood with the farmers on the issue of the farm laws, and it is sad that they are now suffering due to the continued protests of the farming community across the State,” he added.

Asserting that there was no question of trying to split the farmers of Punjab and Haryana, all of whom were equal victims of the apathy of the BJP-led Governments at the Centre and in the neighbouring State, Capt Amarinder said: “My government, in contrast, has not only firmly supported the farmers’ fight against the Farm Laws but had even brought in amendment Bills in the Vidhan Sabha to mitigate their adverse impact..Those Bills had, unfortunately, not been forwarded by the Governor to the President for assent.”

Pointing out that the farmers’ fight was against the BJP, which was solely responsible

for thrusting the anti-farmer legislations on Punjab and other states, Capt Amarinder said that inconveniencing the people of Punjab was not justified in the circumstances.

He rejected the Morcha’s claims that there was no paralysis of the Government in Punjab due to the farmers’ protests, pointing out that it was not the Adanis or the Ambanis whose interests were being hurt by such protests but the common people of the state, as well as its economy.

The Adanis’ assets in Punjab were a miniscule 0.8 percent of their total assets, and the presence of the Reliance Group stood at a nominal 0.1 percent, the Chief Minister observed, adding that the losses caused to these industries due to the farmers’ unrest in the State were too minor to be of any serious concern to them. “It is the people of Punjab who are suffering due to the disruption of services as a result of the protests,” he said.

“Continued protests in Punjab will push industry out of the state, which would have a severe impact on the economy, which the Government is still trying to revive from the crisis into which the previous SAD-BJP Government had

pushed it, said the Chief Minister.

Already, the situation was becoming serious on the grain storage and procurement front due to the agitation, with lifting of the stocks by the FCI and state agencies getting obstructed, he said. “With the wheat stocks having already completed four years of storage, the unused capacity is was getting ruined, while also resulting in financial burden on the public exchequer due to payment of guaranteed charges to the silo owners as per agreements of hiring,” said Captain Amarinder, disclosing that the stocks lying in the FCI Adani silo at Moga alone was worth Rs 480 crore.

All the movement of wheat stocks from FCI Adani silo, Moga and FCI silo, Kotkapura is halted due to the ongoing farmers protest against the farm laws, whereas, 1,60,855 MT of wheat stocks of previous crop years stored in the Adani silo, Moga by FCI needs to be liquidated on priority, as deterioration of these stocks may lead to losses to the Public exchequer. The value of stocks in Moga Adani silos is approximately Rs 480 crores.

Further, pointed out the Chief Minister, construction of

silos awarded by FCI in the State was getting delayed as farmer unions were not allowing JCBs and trucks to enter the construction sites. This was a serious cause of concern since the GoI/FCI had already announced that from RMS 2024-25 onwards, procurement of wheat in the central pool will only be done as per the available covered or scientific storage capacity.

What is further likely to damage the state’s interests is reports of silo concessionaires or parties also considering to shut down the projects being set up in Punjab, he added.

“If things continue in this manner, we will lose out on investment, revenue and employment opportunities,” the Chief Minister warned, adding that this would lead to serious paralysis of the government in Punjab.

The farmers could not possibly want to lead Punjab and its people back into the depths of despair from which his government had barely managed to pull them out over the past four and a half years, said Capt Amarinder, once again urging the farmers to discontinue their protests in Punjab, which was not even remotely responsible for their plight.

Hry Govt to hire consultancy firm to plan revenue generating projects for civic bodies in State

A DATABASE OF ALL VACANT LANDS OF MUNICIPALITIES TO BE PREPARED AS WELL

NISHU MAHAJAN ■ CHANDIGARH

In a bid to boost revenue of civic bodies in the state, the Manohar Lal Khattar Government in Haryana has decided to chalk out a comprehensive plan of revenue generating projects for municipalities.

For this, the State Government will rope in a consultancy firm which will prepare an integrated plan for utilization of all vacant lands in municipal councils and municipal committees.

The municipalities have been under focus of the State Government during the COVID-19 crisis as they are struggling to increase revenues while facing budget shortfalls. There are 11

municipal corporations, 19 municipal councils and 58 municipal committees in Haryana, as on January 2021.

The State Government has constituted a high-level committee under Additional Director (Admn) Urban Local Bodies, Haryana to finalize the process for hiring a consulting firm by the end of this month.

“In a bid to identify the relevant revenue streams for municipalities and prepare a detailed project in this regard, the State Government has decided to hire a consultancy firm,” said a senior officer of Haryana Government while talking to The Pioneer.

The officer said that the consultancy firm would be entrusted with the task to prepare a database of all vacant lands of municipal councils and municipal committees in Haryana, providing suggestions for income generating projects on these vacant municipal lands in order to boost the revenue of the civic bodies. They would also prepare proposal documents for commercially viable projects to be set up on vacant municipal lands in the state,

he said.

“The government is exploring various options in terms of revenue generating projects like housing, PPP (public-private partnership) infrastructure or tourism projects among others,” the officers said.

Apart from State Government’s funding, the primary revenue sources for municipalities are service fees, fines, taxes, and assets such as buildings and properties.

“The State Government aims at improved governance and faster delivery of services of civic bodies besides augmenting the revenue generation,” the officer added.

Earlier in June this year, the State Government had released a policy, under which people, who have shops or houses on lease or rent from the municipalities for over 20 years, can become owners of the property by paying a price below the collector rate. The move was aimed at earning revenue for the municipalities and also, providing a relief to long-term tenants of residential properties and retail stores on municipal land in Haryana.

Sonipat District Admn holds talks with farmers’ representatives

PNS ■ CHANDIGARH

Haryana Government on Tuesday said that in compliance with the orders of Supreme Court regarding blockade of national highway no 44, Sonipat District Administration has held talks with protesting farmers to give way to the common man and shift to one side of the road.

While taking up a writ petition regarding the protesting farmers on NH-44, the Supreme Court had asked the Sonipat District Administration to provide way to common people in public interest on the Kundli-Singhu border near Sonipat on national highway no-44 where the farmers are protesting against the three central farm laws for over nine months.

An official spokesman of Haryana Government on Tuesday said that in compliance of these orders, the Deputy Commissioner of Sonipat, Lalit Siwach held a meeting with the farmers’ representatives in Sonipat. The officers of the District Administration and police were also present in the meeting.

The Deputy Commissioner informed the farmers that while taking up a writ petition, the Supreme Court has ordered that the farmers protesting on Kundli-Singhu border in Sonipat district on national highway no-44 to give way to common man and shift to one side of the road.

During the meeting, Siwach said that the cooperation of the farmers is expected so as to comply with the direc-

tions of the Supreme Court. The Deputy Commissioner also said that the construction work of national highway-44 under the National Highways Authority of India (NHAI) has also been blocked for a long time due to the farmers’ protest which is causing inconvenience to the people.

With the completion of the construction work of the national highway, the general public will be at ease. In such a situation, if the farmers give way on one side of the road, then the construction of the national highway will be completed soon, he informed.

On the request of the Deputy Commissioner, the farmers’ representatives have assured to give a positive reply in this matter, the spokesman added.

Poland Ambassador meets Haryana CM

PNS ■ CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Tuesday met Poland Ambassador to India, Professor Adam Burakowski, who paid a courtesy call at his office here.

During the meeting, extensive discussions took place for identifying various development avenues for both the nations, especially Haryana state in collaboration with the Government of Poland. On this occasion, the Chief Minister also invited Professor Adam Burakowski as the partner country of the Surajkund International Crafts Mela-2023, scheduled to be held in Faridabad district.

While expressing investment interest in Haryana, Prof Burakowski sought cooperation from the Haryana Government in exploring investment possibilities in the

mega food parks which are being set up in Sonipat and Rohtak.

He said that these mega food parks can turn out to be a great business opportunity for Poland investors as Poland is already looking out for seeking cooperation from the Haryana Government in terms of the food industry. Prof Burakowski also showed keen interest in exporting the products produced by Haryana in the field of horticulture and agriculture.

He also showed interest in getting the details about various flagship programmes and initiatives taken by the State Government.

Responding to this, the Chief Minister assured Prof Burakowski that complete cooperation would be ensured to the Poland Government for further strengthening their bilateral relationships. Besides this, both Chief

Minister and Prof Burakowski have also agreed to share their expertise in the fields of education, agriculture, skill training and tourism, alongwith exploring the possibilities of signing MoUs for the teacher-student and cultural exchange programmes so as to further strengthen the bilateral ties between Poland and India particularly with Haryana.

Prof Burakowski was apprised by the Chief Minister that innovative and reformatory steps have been taken by the State Government in the field of skilling and developing Haryana as a sports hub, industry. “To ensure skilling of every youth, the country’s first skill development University, Shri Vishwakarma Skill University has been opened. Besides this, to develop Haryana as a sports Hub, a sports university is also being established in the state. As a single window, the system

has been established so that potential investors can get hassle-free clearance in setting up their industrial units,” Khattar added.

While highlighting the achievements of the State Government, the Chief Minister said that various step have been taken by Haryana in order to ensure its transformation through a ‘Go Global Approach’.

Khattar also apprised Prof Burakowski about State Government’s ambitious Parivar Pehchan Patra (PPP) scheme and said that the PPP aims to completely invert the government-citizen relationship as under this flagship scheme of the State Government, it will be the government which would approach the eligible citizens

for providing benefits of all welfare schemes at their doorsteps, so that the common man does not have to run from pillar to post for the same.

The Chief Minister also informed that the first of its kind Foreign Cooperation Department has been set up by the State Government to identify potential investors across the world in order to establish Haryana as a global brand through the ‘Go-Global Approach’.

No death, 17 fresh Covid cases reported in Haryana

PNS ■ CHANDIGARH

Haryana on Tuesday did not report any fresh fatality due to COVID-19 while 17 more people tested positive for the virus, taking the overall infection tally to 7,70,676. According to the health department’s daily bulletin, the death toll stands at 9,807. A day before, the state’s Health Department had added 121 COVID fatalities to the daily bulletin after the conclusion of a “death audit” by a committee with regards to these deaths. Meanwhile, six fresh cases were reported from Panchkula and four from Gurugram. No fresh case was registered in 13 of the 22 districts in the state. The active cases stands at 118, while the tally of recoveries has reached 7,60,521. The recovery rate was recorded at 98.68 per cent, the state’s bulletin stated.

THREE DEATHS REPORTED IN HIMACHAL

The neighboring state of Himachal Pradesh reported 195 fresh COVID cases taking the total tally to 216088. Three deaths were also reported in the state taking the toll to 3626. There were 1532 active cases in the hill state till Tuesday evening. In a fresh order issued, the Himachal Government on Tuesday deferred the reopening of schools for regular classes for one more week due to the Covid-19 situation. All schools shall continue to remain closed, except residential schools further upto September 21, the order said. The schools were reopened for classes 9 to 12 in the state on August 2 after the second wave of Covid-19 subsided but were closed a week later due to the rise in the number of infections.

For 2022 polls, Punjab to have 24,689 polling booths, 37,576 VVPATs

PNS ■ CHANDIGARH

For 2022 Punjab assembly elections, the state poll panel has decided to set up as many as 24,689 polling booths in the State, a rise from existing number of 23,211, after rationalization and due to continuing COVID-19 pandemic.

Announcing this during an informal interaction with the media, the state Chief Electoral Officer (CEO) Dr S Karuna Raju on Tuesday said that due to the COVID-19 pandemic, the limit of voters falling in a polling booth has been reduced from existing 1,400 to 1,200 which has led to an enhancement in the number of polling booths across the State.

Dr Raju said that the Election Commission of India (ECI) has given its concurrence to arrange additional EVMs (electronic voting machines) required for the

ensuing Assembly Election in Punjab. “10,500 Control Units (CU) and 21,100 VVPATs are being transported from different districts of Madhya Pradesh to various districts of Punjab,” he said, adding that with the addition of these machines, the office of Punjab CEO will have 45,316 Ballot Units (BU), 34,942 Controlling Units (CU) and 37,576 VVPAT machines.

The Chief Electoral Officer asserted that the EVMs are being transported duly adopting the Standard Operating Procedures (SOPs) set by the ECI. “District-wise nodal officers are picking up these machines from Madhaya Pradesh in GPS-fitted special transport containers under tight security after proper scanning,” he said.

He said that in 10 districts of Punjab — Pathankot, Gurdaspur, Tarn Taran,

Kapurthala, Jalandhar, Ludhiana, Ferozepur, Sri Muktsar Sahib, Mansa, and Amritsar, the EVM-VVPAT have safely reached the district headquarters and in rest of the districts, these machines will be reached within two days.

“The first level checking (FLC) of these machines will be undertaken in the presence of representatives of Recognised National and state political parties in prescribed time as per the stipulated SOP. Warehouses have been set up across the State in which multi-tier security arrangements have been made along with installation of the CCTV cameras,” said Dr Raju.

He said that amidst the prevailing pandemic, precautions are also being implemented strictly. All efforts are being made to ensure smooth, transparent, peaceful and hassle free elections in the

state, he added.

BJP’S STATE EXECUTIVE MEMBER JOINS BSP

Mukerian: In a big blow to the Bharatiya Janata Party (BJP) in Punjab, its state executive member and Ropar district in-charge Sushil Sharma on Tuesday joined the Bahujan Samaj Party (BSP) in the presence of its state unit president Jasvir Singh Garhi.

Welcoming Sharma in the BSP fold, Garhi said that all religions are respected in BSP and it is because of party’s ‘Sarvajan Hitay Sarvajan Sukhay’ policy that every section of Punjab is joining the party and laying the foundation of strong SAD-BSP government for the all-round development of Punjab.

He took a dig at the state BJP leadership saying that it was making every tom dick and harry join the party while claiming him to be a BSP worker and taking pride in

that. “The joining of Sharma is the BSP’s answer to all those BJP leaders who have been trying to break into the BSP,” said Garhi.

At the same time, he claimed that some more BJP leaders are also in touch with the BSP. “We are testing these BJP leaders as per BSP’s policies, and if they succeed, they will be included in the BSP after which the BJP would be totally extinct from the state,” he added.

AAP APPOINTS 18 MORE CONSTITUENCY IN-CHARGES

Chandigarh: Aam Aadmi Party (AAP) Punjab has released a list of 18 constituency in-charges to strengthen the party at the constituency level. Earlier, the party had appointed another 47 constituency in-charges.

As per the list signed by AAP’s Punjab unit president

Bhagwant Mann and Punjab affairs in-charge Jarnail Singh, Harjot Singh Bains has been appointed in-charge for Sri Anandpur Sahib constituency, Kulwant Singh Sidhu for Atam Nagar, Santosh Kataria for Balachaur, Amandeep Singh (Goldy) Musafir for Balluana, Rupinder Singh Happy for Bassi Pathana, Jagroop Singh Gill for Bathinda Urban, Ranjit Singh Rana for Bholath, Shamsher Singh for Dina Nagar, Ranveer Singh Bhullar for Ferozepur Urban, Ashu Bangar for Ferozepur Rural, Surinder Singh Sodhi for Jalandhar Cantt, Manju Rana for Kapurthala, Tarunpreet Singh Sondh for Khanna, Dr Mohammad Jameel Ur Rehman for Malerkotla, Prof Gurdhian Singh Multani for Mukerian, Lalit Mohan (Ballu) Pathak for Nawanahar, Jagroop Singh Sekhwan for Qadian, and Dr Kashmir Singh Sohal for Tarn Taran.

Buses in Punjab to be back on roads

PROTESTORS PROMISED 30 PERCENT INCREASE IN THEIR SALARIES

PNS ■ CHANDIGARH

After staying off road for more than a week, Punjab’s government buses will be back on road from Wednesday after the protesting contractual and outsourced employees of the state transport undertakings (STUs), including Pepsu Road Transport Corporation (PRTC), Punjab Roadways and the Punjab, decided to postpone their strike till September 29.

The protestors, during a detailed meeting with the political adviser to the Chief

Minister Capt Sandeep Sandhu besides other officials, were promised 30 percent increase in their salaries along with five percent hike every year. In addition, they were also assured to take the final call regarding their regularisation within a week’s time.

Taking note of the Government’s assurances, the protesting employees have, as of now, decided to suspend their ongoing strike while setting a 14-day deadline for the State Government to fulfil the assurances.

“They were demanding eight days, but we have given them 14 days. In case they fail to issue a notification in these 14 days, we will resume our ‘chakka jam’ on the fifteenth day,” said Punjab Roadways, Punjab, and PRTC Contract Workers’ Union’s state president Resham Singh Gill.

No less than 8200 road-

ways employees were agitating against the State Government since September 6, demanding regularisation of their services and increase in fleet size from around 2,500 buses at present to at least 10,000 and measures to check transport mafia.

Due to the ongoing strike, the general public is facing a lot of inconvenience. At the same time, the Government is also facing a loss of crores of rupees every day as out of 1,100 buses of PRTC, only 300 buses are plying on their route.

Among the protestors are the workshop staff, advance ticket bookers, drivers, and conductors in large numbers.

“The Government has assured a 30 percent hike in salary for the contractual and outsourced employees, along with five percent annual hike. They have assured that the notification in this regard will be issued by September 15,” said Gill.

As of now, the contractual conductors are getting a monthly salary of 9,118, while the drivers are getting Rs 10,200. The Union members claimed that with the hike, the drivers will now get around Rs 18,100 per month.

Regarding their demand of regularisation, the protesters have been assured that the decision will be soon be taken after discussing the same with the Chief Minister.

“We have been assured that our services will be regularised within a week. For this, the officers are saying that they need to discuss things, and seek legal opinion also. So we have given them two weeks instead of one they were asking for,” said Gill, adding, “From tomorrow, buses will start plying in the state”.

On demand of increasing the fleet size, Gill said that they were assured that 800 new buses will be added.

Haryana Roadways employees extend support to indefinite strike by Punjab Roadways contractual staff

PNS ■ CHANDIGARH

The employees of Haryana Roadways on Tuesday held a symbolic two-hour protest at bus depots across the state in support of the contractual employees of the state-owned Punjab Roadways and PRTC who are on an indefinite strike demanding regularisation of their jobs.

On the call of Haryana Roadways Employees Coordination Committee, the protest was held at various bus depots in the state.

Haryana Roadways Workers Union general secretary Sarbat Singh Punia said they have also given memorandums to the general managers of the depots, which were addressed to Punjab Chief Minister Capt Amarinder Singh.

Punjab hikes monthly allowance of defence personnel awardees by 80%

PNS ■ CHANDIGARH

Punjab Government on Tuesday announced to increase the monthly allowance of Gallantry, Distinguished Service Awardees, their Widows and Widows of posthumous awardees or Next of Kin by 80 percent.

The decision was taken in recognition of their immense contribution and sacrifices to safeguard the sovereignty of our country from external aggression as well as internal conflicts, said a spokesperson of the Defence Services Welfare Department.

Spokesperson said that out of total 2,044 winners of Gallantry and Distinguished

Awards, the allowance for the winners of the Param Vir Chakra has been increased from existing Rs 23,100 to Rs 41,580. Similarly, the six Ashok Chakra awardees would now get enhanced allowance of Rs

33,264 in place of earlier Rs 18,480 while the 11 Maha Vir Chakra awardees would be now entitled to receive Rs 31,601 instead of Rs 17,556.

Likewise, the monthly allowance of the 24 Kirti Chakra winners has also been increased from Rs 13,860 to Rs 24,948. The 127 Vir Chakra awardees would now get Rs 18295 from Rs 10164. Similarly, 165 Shaurya Chakra winners would now receive the hiked allowance from Rs 6480 to Rs 11,664. Further, the Sena, Nao Sena, or Vayu Sena Medal (Gallantry) awardees, totalling 662, would now get an increased amount of Rs 5580 as against Rs 3100.

The 277 Mentioned in Dispatches M.I.D. (Gallantry) awardees would receive Rs 2790 instead of Rs 1550. The two widows of Military Cross awardees would now get Rs 20,790 instead of Rs 115,50 earlier.

PM to visit US for Quad summit

FIRST IN-PERSON MEET

PNS ■ NEW DELHI

Signaling the growing importance of the Quad combine, Prime Minister Narendra Modi will visit the US next week to participate in the first in-person summit of the four nation grouping including the US, India, Japan and Australia. He will also address the United Nations (UN) General Assembly session.

Modi will also hold summit level talks with President Joe Biden, who is hosting the Quad meeting of the Heads of State. "Prime Minister Narendra Modi would be participating, along with Prime Minister Scott Morrison of Australia, Prime Minister Yoshihide Suga of Japan and President Joseph R Biden of USA, in the Leaders' Summit of the Quadrilateral Framework in Washington DC, USA, on September 24," the ministry of external affairs(MEA)announced here on Tuesday.

The agenda of the Quad summit will see the leaders taking stock of the progress made since their first virtual summit on March 12 and discuss regional issues of shared interest. "As part of their ongoing efforts to contain the COVID-19 pandemic, they will review the Quad Vaccine initiative which was announced in

March this year," the MEA said.

The four leaders are also likely to discuss the situation in Afghanistan and ensuring a free and open Indo-Pacific. The navies of the four nations have so far carried two Malabar series of exercises including one last year and one this year. The latest drill was conducted in the Western Pacific while the exercise last year was conducted off the Indian coast.

China has all along opposed the formation of Quad and claims the naval exercises will lead to the militarization of the Indo-Pacific where it is now flexing its maritime muscle. Modi will be visiting the

US for the first time since Biden assumed office early this year. Besides the Quad summit and bilateral talks with the US, Modi will also address the 76th session of the UN General Assembly in New York the next day. Modi is also expected to hold bilateral talks with Australian Prime Minister Scott Morrison.

The Modi-Biden bilateral meeting is expected to take place at the White House on September 23. Both leaders have spoken virtually on multiple occasions after Biden became president in January.

The last time Modi visited the US was in September 2019 when he and the then US president Donald Trump addressed

the Howdy-Modi event in Houston.

This will be Modi's first foreign visit in nearly six months and his second since the outbreak of the pandemic coronavirus. In March, Modi travelled to Bangladesh to attend events organised to mark the birth centenary of Bangabandhu Sheikh Mujibur Rahman and 50 years of the war of liberation of that country.

The US is hosting the in-person summit of the leaders of Quad to boost practical cooperation in the Indo-Pacific region as well as to send a strong signal about Washington's commitment to the grouping.

Shah praises PM for speaking in Hindi at international forums

PNS ■ NEW DELHI

Union Home Minister Amit Shah on Tuesday cited Prime Minister Narendra Modi's example of speaking only in Hindi at all international forums to call for shedding the hesitation over speaking the language. At the same time, he also maintained that Hindi is a friend of India's regional languages and all of them should be promoted and encouraged.

He praised Prime Minister Narendra Modi, saying, "If PM can speak Hindi internationally, what are we embarrassed about? Gone are the days when speaking Hindi was a matter of concern".

Addressing a function on the occasion of Hindi Diwas, Shah also appealed to parents to communicate with their children at home in their mother tongue even if they study in English medium schools. Otherwise, the children will be cut off from their roots, he said.

"Hindi has no difference with any regional language. Hindi is the 'Sakhi' (friend) of all Indian regional languages," he said.

Shah said all Indian regional languages complement and complete Hindi and all regional languages must be promoted and encouraged.

Since 2014, more MPs are speaking in their own regional language in

The Union Home and Cooperation Minister, Amit Shah, addresses at the Hindi Divas Samaroh 2021, in New Delhi on September 14

Parliament and they are being translated verbatim to English and Hindi, he said and added that this has helped people's representatives to highlight the problems of their respective areas in the highest forum.

The home minister said people should not only be 'Atma Nirbhar' (self-reliant) in producing goods but also for languages. He cited Prime Minister Narendra Modi's example of speaking only in Hindi at all international forums to convey his thoughts. The PM and Defence Minister Rajnath Singh also extended their wishes on the occasion.

Referring to the New Education Policy (NEP) envisaged by Modi, Shah said it has provisions for promotion of regional and Hindi languages.

BJP prevented me from visiting my constituency multiple times, alleges ex-Tripura CM Manik

BJP unleashing violence in Tripura, says Sitaram Yechury

PNS ■ NEW DELHI

Former Tripura Chief Minister and CPI(M) leader Manik Sarkar on Tuesday alleged that he was prevented from visiting the State and his constituency by the ruling BJP multiple times.

Addressing the media here along with the party general secretary Sitram Yechury, Sarkar accused the BJP Government of unleashing political violence in Tripura.

"In Tripura, the Constitution of India doesn't work. CPI(M) MLAs, including me, aren't allowed to visit their constituency. In the 42 months that the BJP has been in power, I have been stalled 15 times from visiting various parts of the state and my Constituency," alleged Sarkar, who was Chief Minister from 1998 to 2018.

The two Left leaders claimed that there is a "huge discontent" against the BJP government in Tripura. "The CPI(M) is spearheading efforts to galvanise people's protest. They (BJP) do not want to allow this process and are unleashing violence?" Yechury alleged. A few days ago, in his letter to the Prime Minister, Yechury had alleged that the party's offices in Tripura were attacked by 'mobs of BJP men' in a 'pre-planned fashion' on September 8.

In the letter, Yechury has alleged the "impunity" with which the attackers operated shows the "connivance of the state government".

Jamalpur Rly Workshop senior section engineer arrested by ED under money laundering law

PNS ■ NEW DELHI

The Enforcement Directorate (ED) on Tuesday said it has arrested Chandeshwar Prasad Yadav, Senior Section Engineer and Custodian of condemned wagons of Jamalpur Railway Workshop, Jamalpur at the time of offence under money laundering law.

Yadav is allegedly involved in misappropriation of condemned wagons and wheel sets and other excluded fittings of Eastern Railway Jamalpur workshop. The total value of such misappropriated wagons, wheel sets and excluded fittings is ₹ 34 crore approximately.

The ED initiated money laundering investigation on the basis of FIR dated February 9, 2018 filed by ACB, CBI, Patna, which was registered after a complaint received from Eastern Railway against Shree Maharani Steels, Patna; unknown officials of Eastern Railway, Jamalpur and unknown private persons.

It has been alleged that misappropriation and irregularities were noticed in the disposal of condemned wagons and other excluded fittings from Dhoobi Ghat Siding of Eastern Railway, Jamalpur.

It has further been alleged that during a preventive check conducted by the Vigilance Department of the Eastern Railway, it was found that 100 condemned wagons and 3,220 wheel sets along with other excluded fittings having net value of ₹34 crore approximately have been misappropriated by an outside private agency in connivance with others.

"Throughout the investigation, Yadav had resorted to non-cooperation with the investigation and has not divulged any truth or information, the ED said in a statement.

NHRC asks concerned States, Centre to submit report over complaints against farmers' protest

PNS ■ NEW DELHI

Taking note of several complaints from the public about their business, livelihood, and daily life being adversely affected by the ongoing farmers' protests against the three Central Agriculture Laws, the National Human Rights Commission on Tuesday stepped in and issued notices to the Centre and Chief Secretaries UP, Haryana, Rajasthan, Delhi and Director Generals of Police, UP, Haryana, Rajasthan and Commissioner of Police, Delhi "calling upon them to submit their respective Action Taken Reports".

The NHRC said it had "received several complaints regarding the ongoing farmers' protest", including about 9,000 micro, medium and large companies being adversely affected.

"Allegedly, transportation is also adversely impacted, causing commuters, patients, physically challenged people and senior citizens to suffer due to the heavy congestion on roads. There are also reports that people have to travel long distances to reach their destinations and barricades have been put on the borders," the NHRC statement said.

"There is an allegation that there is breach of the COVID-19 protocols by the agitating farmers at the protest site. There is further allegation that the inhabitants are not being allowed to

move out of their houses due to the blockade of the passage. Since the agitation involves the issue of human rights, the right to agitate in a peaceful manner is also to be respected. The Commission needs to take care of various human rights issues," the statement read.

Also, the commission has requested the Delhi School of Social Work, University of Delhi, is to depute teams to conduct a survey and assess and submit a report on the disruption of livelihood, lives of people, impact on the aged, and inform persons due to protracted agitation by farmers. The institute has given a deadline of October 10 to send the report.

The NHRC said it had also sought reports from the National Disaster Management Authority, the Union Ministry of Home Affairs and the Union Ministry of Health on the adverse impact on COVID-19 protocols at the protest sites.

Besides, it has issued notice to the district magistrate, Hajarjar in Haryana, in the case of alleged gang rape of a human rights activist at the protest site and asked a reply to it by October 10. In effect, it has issued a fresh reminder to the official to file a report.

The farmers have been picketing and staging indefinite sit-ins at a number of places in these states, including the outskirts of Delhi's borders.

PM to inaugurate office complexes of Def Ministry, part of Central Vista project

PNS ■ NEW DELHI

Prime Minister Narendra Modi will on Thursday inaugurate the office complexes of the Defence Ministry here. They are part of the Central Vista project.

These offices have been constructed at a cost of ₹ 775 crores provided by the Defence Ministry. The Ministry of Housing and Urban Development undertook this project.

Over 7000 officers and staff belonging to 27 different organizations (attached offices of defence ministry, Service Headquarters and other subordinate offices) are going to get new office complexes. They were earlier functioning from hutments and buildings near the South Block.

The new office complexes have come up at the Kasturba Gandhi Marg and Africa Avenue, officials said here on Tuesday. In addition to the office space for the officers and staff, there is provision for multi level car parking for over 1500 cars in these complexes.

The new buildings, which are under the Central Vista Development/Redevelopment Master Plan provide modern eco-friendly, green building environment. The total space in these buildings is 9.60 Lakhs sq ft as against 9.22 Lakh sq ft vacated in various hutments and buildings.

The new buildings also provide modern amenities, connectivity and welfare facilities like canteens and banks. The location and space of these buildings have been so designed that pre existing trees have not been disturbed.

The project has released 37 acres of land (as only 13 acres of land have been used for modern office complex as against the existing 50 acres of land) for office space for Central Vista Development Master Plan, they said.

Naidu, Modi, Om Birla to jointly launch Sansad TV today

PNS ■ NEW DELHI

Vice President and Rajya Sabha Chairman M Venkaiah Naidu, Prime Minister Narendra Modi and Lok Sabha Speaker Om Birla will jointly launch Sansad TV on Wednesday, the Prime Minister's Office said. The launch date coincides with the International Day of Democracy, the PMO noted.

The decision to merge Lok Sabha TV and Rajya Sabha TV was taken in February, and the CEO of Sansad TV was appointed in March. However, during a Session, the two channels will live broadcast the proceedings of Lok Sabha and Rajya Sabha separately. The PMO said Sansad TV programming will primarily be in four categories; functioning of Parliament and democratic institutions, governance and implementation of schemes, policies, history and culture of India and issues, interests, concerns of contemporary nature.

SC dismisses plea seeking ex-gratia for family of deceased lawyers

PTI ■ NEW DELHI

The Supreme Court on Tuesday dismissed a plea seeking directions to the Centre and others to pay ₹50 lakh ex-gratia to kin of advocates who have died within 60 years whether due to Covid-19 or other reasons, saying life of lawyers cannot be said to be "more precious" than others.

Observing that it cannot encourage filing of "bogus" public interest litigation (PIL) by lawyers, a bench headed by Justice D Y Chandrachud said the plea is a "public interest litigation" and not a single relevant ground has been raised in it.

The bench, also comprising Justices Vikram Nath and B V Nagarathna, said several people have died due to Covid-19 in the country and there is already a judgement passed by the apex court dealing with framing of guidelines for disbursement of compensation to kin of those who have died as a result of coronavirus.

"Are other people of the society not important," the bench told advocate Pradeep Kumar Yadav, who had filed the petition.

"This is a publicity interest litigation and just because you are in black coat does not mean your life is more precious than others," the bench observed, adding, "We must not encourage lawyers to file bogus PILs."

The top court, which observed that "cut-copy-paste" has been done in the plea, said it would not happen that lawyers will file PIL like this to demand compensation and the court will allow it.

It said several people have died of COVID-19 and lawyers cannot be an exception.

Yadav requested the bench that he will withdraw the plea and file it with better grounds.

The bench, however, dismissed the petition with a cost of Rs 10,000 payable to the Supreme Court Bar Association within a week.

Covid cases remain below 30,000 for 3rd day in row

PNS ■ NEW DELHI

In the third day in a row, the daily count of covid cases on Tuesday remained below the 30,000-mark with the country reporting 25,404 daily new cases pushing the overall coronavirus tally to 33,289,579. The count of active cases declined to 3,62,207, said the Union Health Ministry in a statement here.

Of the new cases reported, Kerala recorded Covid-19 cases and 99 deaths which pushed the total infections to 43,90,489 and the death toll to 22,650.

The death toll due to the disease has climbed to 4,43,213, with 339 daily fatalities being recorded, the data updated at 8 am showed.

The tally of active cases has declined to 3,62,207, which comprises 1.09 per cent of the total infections, while the national Covid-19 recovery rate was recorded at 97.58 per cent, the ministry said.

A reduction of 12,062, cases has been recorded in the active Covid-19 caseload in a span of 24 hours.

The daily positivity rate was recorded at 1.78 per cent. This has been below three per cent for the last 15 days.

The weekly positivity rate was recorded at 2.07 per cent. The fig-

ure has been below three per cent for the last 81 days, according to the Ministry.

The number of people who have recuperated from the disease surged to 3,24,84,159, while the case fatality rate was recorded at 1.33 per cent.

The cumulative number of Covid-19 vaccine doses administered in the country so far under the nationwide vaccination drive has reached 75.22 crore, according to the ministry.

India's Covid-19 tally had crossed the 20-lakh mark on August 7, 2020, 30 lakh on August 23, 40 lakh on September 5, 50 lakh on September 16, 60 lakh on September 28, 70 lakh on October 11, 80 lakh on October 29, 90 lakh on November 20 and the one-crore mark on December 19.

Not going to reopen decision on grant of reservation in promotion to SCs, STs: SC

PTI ■ NEW DELHI

The Supreme Court on Tuesday said it would not reopen its decision on granting reservation in promotions to Scheduled Castes (SCs) and Scheduled Tribes (STs) as it was for the States to decide how they implement it.

Taking up various pleas pertaining to alleged hurdles in granting reservation in promotions to SCs and STs in various States, a three-judge Bench headed by Justice Nageswara Rao directed the Advocate on Records of State Governments to identify issues peculiar to them and submit those within two weeks.

"We are making it very clear that we are not going to reopen Nagraj or Jarnail Singh (cases) because the idea was only to decide these cases in accordance with the law laid down by the court," said the bench, also comprising Justices Sanjiv Khanna and B R Gavai.

The top court noted that in its earlier order, the state governments were directed to finalise the issues which are peculiar to them so that court can proceed in the matter.

The issues framed by the Attorney General K K Venugopal and the ones circulated by others are enhancing the scope of cases, it said.

"We are not willing to do that. There are certain issues which are already decided in Nagraj that also we are not going to take up. We are very clear that we are not going to permit any arguments for reopening of cases or arguing that law laid down from Indira Sahney is wrong because the very scope of these cases is to apply the law as laid down by this court," the court said.

SC asks AIIMS to give age determination report of girl recovered by police

PTI ■ NEW DELHI

The Supreme Court on Tuesday directed the All India Institute of Medical Sciences (AIIMS) to give by September 17 its report on determining the age of a girl who went missing from Gorakhpur in UP since July 8 and was later recovered by Delhi Police earlier this month.

The apex court observed that further steps will be taken in the matter depending on the age determination report of the girl, who according to her mother is aged around 15-16 years while in Aadhaar her age is mentioned as 13.

A Bench headed by Justice A M Khanwilkar also permitted two lawyers assisting senior advocate K V Viswanathan, who was nominated by the top court to appear for the girl as she was not represented before it through a counsel, to interact with her.

"We direct the concerned authority of AIIMS, Delhi to ensure that age determination report is given before the next date of hearing which we sched-

ule on September 17," said the bench, also comprising justices Dinesh Maheshwari and C T Ravikumar.

The top court had on September 7 handed over the investigation of the case lodged in Uttar Pradesh, after the girl was missing from Gorakhpur, to Delhi Police which recently recovered her and arrested the alleged abductor.

During the hearing on Tuesday, Viswanathan said that he has seen the two status reports and also the suggestions of Additional Solicitor General (ASG) R S Suri, who is appearing for Delhi Police, and the counsel appearing for the girl's mother.

He said age of the girl has to be determined as the report says pregnancy was detected but ultrasound does not show pregnancy.

Akhilesh asks BJP to pick bulldozer as poll symbol

Lucknow: Samajwadi Party chief Akhilesh Yadav on Tuesday challenged Prime Minister Narendra Modi's claim about the crime situation in Uttar Pradesh, asking him to check data of the Home Department and other central agencies.

At a function after laying the stone of Raja Mahendra Pratap Singh State University in Aligarh, PM Modi earlier in the day said UP was run by gangsters and mafias before 2017. The Samajwadi Party (SP) was ruling the State then.

In a scathing attack at the BJP, Yadav told reporters at a press conference here that it is good to set up a university but the party "runs the best training centre of telling lies".

He asked the BJP to pick

"bulldozer" as its election symbol, referring to the alleged demolition of houses of some Ayodhya residents.

Yadav also asked Uttar Pradesh Chief Minister Yogi Adityanath to get his eyesight tested, replying to the CM's assertion that the Opposition leader lacked vision.

Yadav told reporters that the UP Government is not working according to the law and warned officials that his party is preparing a list of those who violated the law, stressing that they won't be spared once his party's Government comes to power.

When his attention was drawn to the PM's comment over the law and order, Yadav said, "He should ask for the data of the

Home Department or Dial 100 to see who is increasing the crime."

He asked the PM to go through the NCRB report and also see which state has been served maximum notices by the National Human Rights Commission.

Yadav said the PM should also ask the Uttar Pradesh CM who are the top 10 mafia in the state.

All are aware how the CM withdrew cases against himself, he said. He also accused the ruling party of failing to honour its own leaders, referring to the foundation laying of a university after former Prime Minister Atal Bihari Vajpayee in Lucknow in 2019 and asked about its status.

Boundary wall of the Aji river in front of the Ramnathpara temple collapsed due to heavy rains in Rajkot on Tuesday

Priyanka slams UP Govt over crimes against women

New Delhi: Congress leader Priyanka Gandhi Vadra on Tuesday attacked Uttar Pradesh Chief Minister Yogi Adityanath over the issue of crimes against women in the State and alleged that he was the champion of "anti-women mindset".

Her attack on Adityanath came as on this day, last year, the horrific Hathras incident took place in which a young Dalit woman was raped by four men. The woman died on September 29 at Delhi's Safdarjung Hospital during treatment.

A year ago from today, a horrific incident of rape had happened in Hathras and instead of providing justice and security to the family, the Uttar Pradesh Government had threatened the family and also snatched away their right to give their daughter an honourable funeral," Priyanka Gandhi said in a tweet in Hindi.

Government officials and BJP leaders had made statements to the effect that there was "no rape" and the energy of the entire Government machinery was spent on character assassination of the victim, the Congress general secretary alleged.

How can you even expect sensitivity from the head of a Government that has such a horrible stance on crimes against women, Priyanka Gandhi asked.

"Anyway, the Chief Minister of Uttar Pradesh is the champion of anti-women mindset. He has said that 'women should not be independent'," she claimed.

The victim was cremated in the dead of the night near her home on September 30. Her family alleged they were forced by the local police to hurriedly conduct her last rites.

DEFAMATION CASES

Maha Min slaps ₹100 crore notice against Somaiya

Court issues process against him in another case

TN RAGHUNATHA ■ MUMBAI

In a double whammy for BJP leader and former MP Kirit Somaiya, Maharashtra Transport Minister Anil Parab of the Shiv Sena on Tuesday slapped a ₹100 crore defamation notice against him for making "false" and "reckless" allegations against the Sena leader, while a Mumbai court issued a process against him under section 500 of IPC for allegedly defaming NGO Earth. Reacting to several allegations made by Somaiya on twitter over the past few months, Parab — in a notice issued through his lawyer Sushma Singh — said that the BJP's former MP had, through his official Twitter handle, allegedly been carrying out a "defamatory, malicious and mala fide" campaign against him. Among other things, Somaiya had alleged that Parab owned two illegal resorts in "No Development Zone" of Murud sea shore at Dapoli in Ratnagiri district in coastal Konkan region, his secretary Bajarang Kharmate owned 40 benami properties in Pune and Sangli districts in western Maharashtra, and he owned an illegal office at Mahad land at Bandra in north-west Mumbai.

Among other things, the minister demanded that Somaiya stop making defamatory statements, withdraw all his baseless allegations and tender unconditional apology. Parab said that in the event of Somaiya's failure to comply with his demands in the next 72 hours, he would launch civil and criminal proceedings, including claims of damages amounting to ₹100 crore against the former BJP MP.

Meanwhile, in another case registered by NGO Earth against, Metropolitan Magistrate, 25th Court, Mazgaon Sewree P 1 Mokashi ordered issuance of process against Somaiya under Somaiya under Section 500 of the IPC vide Section 204 (a) of the Cr PC.

In his order, the Metropolitan Magistrate Mokashi said: "It is also prima facie proved by the words spoken by accused Kirit Somaiya were such that, it had harmed the reputation of the NGO Earth".

The court summoned Somaiya to appear before it on September 22 and October 5. Somaiya had among other things alleged that Maharashtra Housing Minister Jitendra Ahwad was using NGO Earth to collect money from developers. The complainant told the court that Somaiya had published posts and articles regarding a matter which is sub judice before the Court along with these posts and articles containing false, derogatory and defamatory statements about the NGO Earth (complainant), "which has lowered down the image of the NGO Earth (complainant) in the society".

Maha: 11 family members drown in Wardha river

TN RAGHUNATHA ■ MUMBAI

In a shocking tragedy, 11 members of a family met a watery grave on Tuesday, as the boat in which they were travelling capsized in Wardha river in Narked taluka of Amravati district in eastern Maharashtra.

Till the evening, four of the 11 bodies had been recovered, while the search was on for the remaining people, all of whom are feared dead. The bodies of a boatman, two women and one man were recovered from the bed of the river where the mishap took place. From among the bodies recovered so far, the police identified three of them as Narayan Matare (45), Kiran Khandare (28) and Vanshika Shivankar.

The deceased were heading to the temple of Lord Shiva at Jhunj when the boat they were travelling overturned midway.

The family had gone to Gadegaon to attend the post-funeral rituals of a deceased relative. After the ritual, the family was on its way to Jhunj in a boat when the mishap occurred.

Following heavy rain in Wardha, Amravati, Chandrapur and Gadchiroli districts of eastern Maharashtra during the past one week, the Wardha river was in spate. After the mishap, the police have launched a massive search for the remaining seven missing persons who are all feared dead. The search is on in the downstream areas of the river.

Bengal gets 4th AG in 10 years

PIONEER NEWS SERVICE ■ KOLKATA

Bengal on Tuesday got its fourth Advocate General in a decade Soumendranath Mukherjee was appointed the State's fourth AG in the place of Kishore Dutta who resigned earlier on the day citing "personal reasons".

The first three AGs in Mamata Banerjee regime were Barristers Anindya Mitra, Jayanta Mitra and Bimal Mukherjee following which Dutta a senior counsel took charge in 2017.

Reacting to his resignation BJP MP Arjun Singh said that "this TMC Government puts so much pressure on the AGs to do act in illegal way that no senior advocate one's salt can continue on the job... though Kishore Dutta tried to please Mamata Banerjee even he failed to do so... now there is a new incumbent".

Hitting back TMC Rajya Sabha MP Sukhendu Shekhar Roy wondered "why three Principal Advisors to the Prime Minister was and why we had three RBI Governors in so short span of a time... the BJP should look into its own issues before pointing fingers at others."

Why change CM if Guj was on path of progress? asks Sena

Mumbai: The Shiv Sena on Tuesday said the sudden change of guard in Gandhinagar, where first-time BJP MLA Bhupendra Patel has been appointed the new Chief Minister, reflected the style of functioning generally associated with the Congress and claimed the move shows the 'balloon' of Gujarat's development model has burst.

An editorial in Sena mouthpiece 'Saamana' said the people of Gujarat were extremely angry over the "collapse" of healthcare system during the second wave of Covid-19, when Vijay Rupani was the Chief Minister, and the BJP also realized that the influential Patidar community, to which Patel belongs, is miffed with the party, leading to the change at the top in the adjoining state.

"The same thing takes place in the Congress and we have to call it democracy," quipped the Sena, a former BJP ally which now shares power with the Congress and the NCP in Maharashtra.

With the sudden leadership change, the editorial claimed the "balloon" of Gujarat's model of development, governance and democracy has now burst.

Patel was not even made a minister in the last four years, but he was directly made the chief minister. If Gujarat was truly on path of progress, then why did the BJP change its Chief Minister overnight?" the Marathi daily sought to know.

Amid the cacophony of 'vikas' (development), if leadership is suddenly changed, people raise doubts, it said.

"Is this the Gujarat model where Prime Minister Narendra Modi will actually have to call the shots by keeping Patel at the forefront ahead of the state polls (due in December next year)?" the editorial asked.

Patel is a staunch supporter of former Gujarat chief minister Anandiben Patel while Rupani had the backing of Union Home Minister Amit Shah, and this would make the coming days "chaotic as well as interesting," the publication said.

"Replacing Rupani with Patel was a facile act. The BJP is convinced that it would face a backlash due to unemployment, closure of major factories, including carmaker Ford's plant near Ahmedabad," it said.

Gujarat's healthcare system "collapsed" during the second wave of Covid-19 and people are extremely angry over it, the editorial claimed, adding the closure of Ford plant has led to around 40,000 people losing their livelihood.

PTI

OBC quota in Maha local bodies: Thane BJP to hold protest

Thane: The Thane unit of the BJP said it would hold taluka-level protests on Wednesday against the Maharashtra Government's 'failure' to protect OBC quota in local bodies.

The OBC quota was struck down by the Supreme Court, which had said reservation could not exceed 50 per cent of the total seats in local bodies.

Addressing a press conference here, Thane BJP chief and MLC Niranjan Davkhare and local MLA Sanjay Kelkar said the Uddhav Thackeray government's lack of efforts led to the legal setback.

The two leaders said the BJP wanted the MVA government to collect empirical data on Other Backward Classes as soon as possible and take every step to restore the quota.

Kannada organisations stage protests

Bengaluru: In protest against the "imposition of Hindi", Kannada organisations on Tuesday held a twitter campaign and picketing in front of banks in several parts of Karnataka, on the occasion of Hindi Diwas.

The Karnataka Rakshana Vedike (KRV) has organised a Twitter campaign with hashtag "#StopHindiImposition" from 10 am to 10 pm on Tuesday, while its activists staged picketing in front of banks in different parts of the State. KRV has tweeted pictures of its activists staging picketing in Sedam, Chincholi, Ron, Hungund, Hiriyur, Pandavapura, Bengaluru, Vijayapura, Kalaburagi, Chikkaballapura, Thirthahalli, Udupi, Uttara Kannada, Kolar, Mandya and

Kannada activists raise slogans and burn a poster during a protest on 'Hindi Divas' alleging that the Government is forcibly imposing Hindi language in Bengaluru on Tuesday

PTI

Dharwad, among several other places. They submitted a petition to managers of the banks

urging them to stop alleged Hindi imposition and to provide services in Kannada. According

to Arun Javgal, state organisation secretary of Karnataka Rakshana Vedike (KRV), the intention behind conducting protests in front of nationalised banks is also to raise awareness among the masses and thereby tell the people of Karnataka about the way, "Hindi Imposition" has snatched thousands of jobs from Kannadigas in Banks operating in the State.

"Using the Taxpayers money from across the country and yet, giving undue importance only to Hindi in a multi-lingual country like India is something KRV opposes vehemently," he said in a tweet. KRV state President ?Narayana Gowdr T A termed Hindi Diwas celebrations as "anti-democratic and immoral".

Minor detained for raping 5-year-old neighbour in Maha

Palghar: The police have detained a minor boy for allegedly raping his five-year-old neighbour in Boisar of Maharashtra's Palghar district, an official said on Tuesday.

A case has been registered against the 12-year-old accused under relevant provisions of the IPC and Protection of Children from Sexual Offences (POCSO) Act, the official said. According to the police, the accused allegedly took the girl to the terrace of the residential building where they lived and raped her.

The girl, who sustained injuries to in her private parts, told to her

parents about the assault, following which a complaint was lodged with the police. While the victim is currently undergoing treatment at a hospital, the accused minor was detained and sent to a remand home, the official said, adding that the families of both children hail from Bihar.

PTI

Owaisi upset over hints that he likes the Taliban

Patna: AIMIM chief Asaduddin Owaisi on Tuesday took umbrage over "suspensions" that he had a soft corner for the Taliban and dared the Narendra Modi Government at the Centre to declare the militant group a "terrorist organisation".

Addressing a Press conference here, the firebrand Hyderabad MP also demanded that the Government, given the fact that India currently headed the UN committee on sanctions, give an assurance that none of the Taliban leaders will be delisted from the list of terrorists. "Why do you raise suspicions (shaq) over me with regard to Taliban? Was it

Asaduddin Owaisi who had handed over jailed terrorists to secure the release of passengers of the hijacked plane in Kandahar", said Owaisi in response to questions about some BJP leaders having dubbed him as a man of "Talibani soch (mindset)".

Owaisi said he has made his stance clear about the Taliban on the floor of Parliament but his words of caution were not heeded.

"During the debate on CAA, I had requested the government to consider making the Act religion-neutral, warning them of a possible takeover by the Taliban. But for that strategic blunder, we would

have been in a position to grant safe asylum to Tajiks, Uzbeks, and members of other minority tribes", said Owaisi.

He also said that the Taliban takeover would "strengthen Pakistan and China" while giving India a lot to worry about which was regrettable since India had invested a lot in Afghanistan. "The country had spent Rs 35,000 crore in Afghanistan. Thousands of its youngsters have been provided education on our soil. We had so much at stake in that rugged country which lies en route to the Chabahar port in Iran we were developing", Owaisi lamented.

PTI

Day after appearing for NEET, TN girl commits suicide

Jayamkondam (TN): A day after she appeared for the National Eligibility cum Entrance Test, a 17-year-old girl died by suicide at a village near here, police said on Tuesday.

The girl, Kanimozhi, took the extreme step when her parents were away on Monday night and they returned home to find her hanging, a police official here said.

Daughter of a lawyer, Kanimozhi is the 16th medical aspirant from Tamil Nadu to end her life fearing outcome of the test, coupled with dejection that their dream to pursue medical education may not fructify.

She appeared for the national test on Sunday and had told her parents that some questions were tough and that she was concerned about the outcome, he said adding "investigation is still on." Another official told PTI that police received information early today and the body was sent for post-mortem to a Government hospital and later handed over to the family.

PAPER WITH PASSION

Humane touch

The SC correctly favours suicide by COVID-19 patients to be treated as medical deaths

Continuing to keep a watchful eye on the rehabilitation of those devastated by COVID-19, the Supreme Court on Monday asked the Centre to consider suicides by COVID-19 patients as COVID-19 deaths so that their families can get compensation. Only extreme suffering from the infection could have led to the patients dying by suicide, the court reasoned. The Bench of Justices MR Shah and AS Bopanna made the remarks while examining the Centre's guidelines for issuing COVID-19 death certificates and payment of compensation. The guidelines do not consider deaths due to poisoning, suicide, murder and accident as COVID-19 deaths even if the infection was an accompanying condition. The court was satisfied when the Government said it would re-examine the matter. The court's proposal is certainly a humane gesture but both the Government and the judiciary should first consider the issue in its totality because of the implications involved. To

cut to the chase, any suicide is the result of the victim being forced into taking the step due to extremely frustrating and depressing circumstances. The suicide leaves the family members without a bread winner if the victim was the only person employed and, in dire straits, if they were poor and disadvantaged. Technically speaking, it will be a challenge for the Government to prove that the suicide of a COVID-19 positive patient was owing to the infection and not any other reason. Secondly, several frustrating and compelling factors, as dangerous as COVID-19, force people to commit suicide.

Any Government policy to compensate only families of COVID-19 positive patients committing suicide may be seen to be discriminating against suicides for other, equally terrible reasons. Thirdly, the Government and the courts will need to sensitise the people who continue to think that suicide is merely a crime and which colours their attitude towards the victims. Suicide is a crime under the archaic Section 309 of the Indian Penal Code. The section was not repealed even though its scope was reduced by the Mental Healthcare Act, 2017, that said anyone who attempts suicide is presumed "to have severe stress and shall not be tried and punished" and calls on the Government to "provide care, treatment and rehabilitation" of the person in order "to reduce the risk of recurrence" of such an attempt. The humanitarian aspect of the law needs to be popularised to blunt indifference to circumstances that lead to suicides and encourage rehabilitation of survivors or families of victims. Thousands of farmers commit suicide in India because of bankruptcy, indebtedness and crop failure. There is a compensation plan in place for them though farmers who do not hold title to their land, like women farmers in most cases, are not yet eligible for compensation. A rational approach to the matter is perhaps hidden in the question of whether a healthy farmer who committed suicide because he became indebted after failing to save his crop during the COVID-19 lockdown would be eligible for compensation as well.

Quad unity

Biden's 'shift of focus to China' must show at the Quad Summit if he means business at all

The Quadrilateral Security Dialogue (Quad) was formed with an aim to contain China's growing influence in Asia and ensure territorial integrity in the Indo-Pacific region. After US President Joe Biden quit the unresolved Afghan war in order to "shift focus to China", the dialogue becomes way more important to him than ever. Hence, he is all set to host the first ever in-person Quad Summit at the White House in Washington on

September 24 which shall be attended by the leaders of all four member countries — the US, India, Japan and Australia. The dialogue shall focus on areas such as combating COVID-19, addressing the climate crisis, partnering on emerging technologies and cyberspace, and promoting a free and open Indo-Pacific. Biden has received multiple setbacks because of his soft stance lately, and this Summit could actually help rescue his lost relevance. A virtual meeting of the Quad leaders was also held in March this year, and the members pledged to work closely on COVID-19 vaccines and ensure a free and open Indo-Pacific. Quad is, by

all means, the need of the hour for the US, the Quad and the Asean countries, and it is high time that Biden realises what Trump had learned back in 2017. Trump helped revitalise Quad and had called Nato "obsolete" because of its little relevance now. At the inaugural two-plus-two ministerial dialogue with Australia held on Saturday, External Affairs Minister S Jaishankar said that Nato was a "cold war term" while Quad looks to the future. The North Atlantic Treaty Organisation's primary objective was to deal with the USSR and its main constituent Russia, which is economically in a battered state today, while China is economically as well as militarily the toughest rival. On the other side, Beijing's aggressive behaviour towards Taiwan and other surrounding countries and its dominance in international waters is a grave concern. The Taiwan issue is likely to be on the agenda, and it should be. Chinese Foreign Ministry spokesman Zhao Lijian lashed out at the upcoming Quad Summit and said, "The relevant countries should abandon the obsolete Cold War mentality and narrow-minded geopolitical rivalry and view correctly and respect people's aspiration in the region." Biden needs to show that he means business. The rising instances of global terror after the developments in Afghanistan and maritime security in the Indo-Pacific must be discussed by the leaders.

Joe Biden slips with his soldiers

The POTUS, who managed five draft deferments from going to Vietnam, is again found wanting in his treatment of the US soldier in Afghanistan

BHOPIINDER SINGH

Joe Biden is the 46th President of the United States, but not one of the 29 who served in the military, in some capacity. He had managed five draft deferments from going to Vietnam and equivocated on the Vietnam War *per se*, whilst politically opposing Richard Nixon's conduct of war. This flip-flop of positions was visible in Biden asserting that he was against authorising the Iraq War in 2002 as he was supposedly "against it from the moment it started", whilst contradicting himself with his vote for the Authorisation for Use of Military Force (AUMF) for the invasion, as the Chair of the Senate Relations Committee. Later, a chance duel against a decidedly racist, sexist and xenophobic Donald Trump (who clownishly and dangerously sought to usurp the imagery of the US military) ensured that Biden was sworn in as POTUS and, therefore, Commander-in-Chief of its Armed Forces. Clearly for many Veterans who traditionally supported the more rightwing Republican Party, Biden was the better of the two bad choices.

For a persistently combat-engaged nation with approximately 19 million Veterans as per the Department of Veteran Affairs, representing nearly 10 per cent of the total US adult population — the opinion of the 'Uninformed' fraternity matters. Biden frequently invoked the memory of his late son in his presidential campaign, Beau Biden, who served and rose to the rank of Major in the Judge Advocate General's Corps. Beau tenanted Iraq from 2008 to 2009 and received a Bronze Star for his services. Biden's "sacred obligation" campaign towards military families entreated that sentiment, "As parents of a service member who was deployed to Iraq, Vice-President Joe Biden and (Dr) Jill Biden understand that it's not just military members who sign up to serve our nation, their families do too." Meanwhile the ham-handed approach of Trump, including upsetting the Chairman of the Joint Chiefs of Staff, General Mark Milley, as also respected Veterans like Generals James Mattis and HR McMaster, swung the mood in favour of Biden — aided immeasurably by Trump's

guffaws and derelictions.

Today, over eight months as the POTUS, Biden has taken one substantial decision in the militaristic realm, ie, withdrawal of US troops from Afghanistan and his consequential approval ratings have plummeted. While ending the 20-year war in Afghanistan was much sought after, the unheroically defeated and hurried manner (with the casualty from the ISIL-K attack) in which they withdrew has diminished the image and perceptions of the US military, externally and internally. Comparisons of a Vietnam redux are inevitable and odious, and it is only the Veteran who will pay that ignominious price and humiliation over time. Despair is magnified by the unfiltered reality of having amateurly underestimated the speed of collapse, the obvious lack of an operational plan and the embarrassment of having to take permission from the 'enemy', ie, Taliban, to 'evict safely'. Unlike the militarily uninitiated and unconcerned politicians, the US soldier will suffer the additional and unimaginable moral injury in the know of what it has left behind in terms of allies (interpreters, drivers and support staff), and the sure fate that awaits them. The chaotic and mismanaged departure has left the uni-

“WHILE ENDING THE 20-YEAR WAR IN AFGHANISTAN WAS MUCH SOUGHT AFTER, THE UNHEROICALLY DEFEATED AND HURRIED MANNER IN WHICH THEY WITHDREW HAS DIMINISHED THE IMAGE AND PERCEPTIONS OF THE US MILITARY

formed fraternity pained, frustrated and shamed, and the blame is coming understandably on the POTUS.

Seemingly, Biden cannot seem to get much right with the 'uninformed' sentiments as he was seen disrespectfully checking his watch as casket after casket appeared during the somber "dignified transfer" ceremony for the 13 fallen US troops who were killed at the Kabul airport.

Many also commented on the inappropriateness of the President repeatedly invoking his late son's name, instead of that of those who had actually fallen under his watch. Many family members of the fallen soldiers refused to meet the President, while some others who did so, did some plain-speaking to his face. The mother of one called Biden "a dementia-ridden piece of crap who doesn't even know he's in the White House". Importantly, it is not a partisan divide as many of these families have equally slammed Donald Trump's ill-timed opportunism in politicising the soldiers' deaths, with many calling it "without honour", "disgusting" and "gross".

Trump with his patent cat-tiness has sought to spin grieving families predatorially into dangerous territory — insincere and qualified as his support always is, only to those

who back him politically, and smearing those who don't, like the Gold Star family of Captain Humayun Khan. The political tooling of the military is increasingly irresistible in democracies across the world with unwarranted usurpation of the narrative, parading and milking of raw emotions towards electoral harvest — even mature democracies like the US are prone to it.

In an unavoidably comparative sense, most Veterans know that the Commander-in-Chief requires selfless devotion to constitutionality, restraint, depth of character and principled leadership — and, therefore, they may still back Biden over Trump, but the recent handling of Afghanistan has led to the rightful questioning of Biden beyond partisanship. In the world of professional 'uniform', winning a "just war" is important and, if not that, then going down fighting with valour and dignity is the only other option — in Afghanistan, neither of the two was achieved, and the slip is clearly showing for Biden amongst the fraternity. He must be put to question, beyond partisan preferences.

LETTERS TO THE EDITOR

BOOK LAUNCH PROVED COSTLY

Sir — During a pandemic, a certain amount of restraint is expected of everyone. Indian cricket team coach Ravi Shastri, along with the batting coach, fielding coach and physio contracted Coronavirus in England when the team was in the midst of a Test series and on the cusp of creating history. Shastri's book — *Stargazing: The Players in My Life* — has been hitting the headlines with its extracts being published in the media. But was it so important to release a book at a function where outsiders were allowed, and most of them did not adhere to personal protection, is the moot question?

It is said that no prior permission was sought from the BCCI by Shastri. The entire Indian team, too, was present at the book release in London on August 31, two days before the fifth Test at Manchester. The hugely anticipated fifth Test was called off. Obviously, Shastri knows he is not answerable to anybody, let alone the board. After all this, the Indian team's image has taken a beating. This comes at a time when the team seemed to have hit a purple patch.

UNREASONABLY NEET

Sir — The Tamil Nadu Government has passed the Anti-NEET Bill, 2021, in the Assembly to ban NEET exams in the State. The decision to pass the Bill was taken in the wake of the suicide by death of a medical aspirant. With the passing of the Bill, students would get admission to UG medical degree courses based on the qualifying HSC or class 12 marks. TN has been in strong opposition to NEET since its recommendation in 2013. The TN Government's move to ban the exam raises questions about its suitability for admission to medical courses.

Strong arguments have been put forward against the need of conducting the exam. NEET is an assault on the autonomy of private, unaided institutions. It is an example of over-centralisation of education and violates the rights of

'Oscar Anna' bids final adieu

With the passing away of Oscar Fernandes, the nation has lost a highly respected politician, a veteran parliamentarian and a Congress stalwart who made significant contributions to Indian politics over the last few decades. Fernandes became a close confidant of Sonia Gandhi and Rahul Gandhi after the demise of Rajiv Gandhi and remained a disciplined party man throughout his political life. The veteran leader was a five-term member of the Lok Sabha and four served

four terms in the Rajya Sabha. From being a municipal councillor in the early days to serving as Union Minister from 2004 to 2009, holding a number of portfolios such as Statistics and Programme Implementation, NRI Affairs, Youth and Sports Affairs and Labour and Employment, he climbed up in the Congress hierarchy. After the late Ananth Kumar, if a leader from Karnataka could make a name in Delhi, it was Oscar Fernandes. He was a multi-talented personality with varied interests, he was a yoga enthusiast since childhood who had a penchant for playing mouth organ, harmonium, keyboard and *tabla*. People in all coastal districts of Karnataka had always seen him with great esteem and addressed him as 'Oscar Anna'. He has left an indelible mark in Indian politics and will be fondly remembered for his contribution. When such committed politicians depart, national polity becomes poorer. Rest in peace, Oscar Anna.

Ramesh G Jethwani | Bengaluru

unaided, private and minority institutions. As most of the institutions are in cities and the fees are very high, poor students from rural areas face disadvantage. Considering all these facts, it is of great importance to arrive at a decision whether the imposition of NEET is fair. If all State Governments conduct admission to medical courses in fair and transparent ways, the imposition of NEET would be unreasonable.

Venu GS | Kollam

INUNDATED BY HEAVY RAINS

Sir — The schools in Odisha are closed for two days amid downpour; there is record rainfall in Puri and Bhubaneswar. The Odisha Government has shut down schools in 12 districts for two days as rain continues to lash the State for the third day due to a deep depression over the Bay of Bengal. The deep depression after crossing the coast has moved west-northwest and is now lying as a depres-

sion over north coastal parts of Odisha and adjoining BoB. The system will continue to move west-northwest towards Chhattisgarh in the next 24 hours and over southern parts of Madhya Pradesh and adjoining Maharashtra in the subsequent 24 hours.

Heavy rainfall is expected during this period over these States till September 15. Slight breather is foreseen between September 16 and 19 as of now. The rainfall deficiency for Odisha will drop back to normal range from a whopping 30 per cent or even more till August. Some of the districts will possibly shift to surplus for the season. Heavy rainfall over the State will continue for 24 hours and reduce thereafter. It is indeed good news but the damage caused by rains has given the State Government sleepless nights.

SUPER-SPREADERS OF EDUCATION, NOT VIRUS

Life seems to be otherwise going normal but educational institutions still face restrictions

BRIJENDER SINGH PANWAR

States are still dilly dallying on opening educational institutions in the country. Non-vaccination of students or vaccine unavailability for children are the given reasons. Institutions are, therefore, seen as “super spreaders”. And there is fear of the third wave of COVID-19. Yet, life seems to be otherwise normal all around us. Political parties are holding rallies, farmers are organizing protests, election commission is holding elections, market places and malls are open, recreational activities are going on full-swing. There is no restriction on domestic air and surface travel. Then why restrictions only for students and educational institutions? Across the world, India is among five countries where educational institutions have remained closed for long. Millions of students are deprived of active learning at pre-school level and break in education for older students. States are registering a high dropout of students from the school system, especially girl students. They may never get an opportunity to go back to school again. The gains made through enrollment of

through Right to Education may be lost. A group of 56 renowned academicians, doctors including epidemiologists and other experts have urged state chief minister to reopen schools and colleges. The signatories include Dr Chandrakant Lahariya, epidemiologist and public health expert, Professor Suneela Garg of the Lancet Covid-19 Commission, Dr Naveen Thacker of the International Paediatric Association, and Shaneen Mistri, Teach For India CEO Shaheen Mistri. The letter says, “There is an urgent need to bring children back to school. Since younger children are least at risk, we urge you to permit primary schools to open first, in line with Indian Council of medical Research (ICMR) recommendations, and then higher classes. Vaccination is not a prerequisite for reopening schools.”

The purpose of vaccination is to prevent severe illness and death, and children are at relatively low risk of severe or fatal COVID-19. It is well known that the lack of education for students, particularly girls, affects the health and livelihood of next generation. These are extreme costs. Government and task forces must strike a balance of risks and such balance is overwhelmingly in favour of opening schools. NK Arora, senior member of the National COVID-19 task force said in a recent interview, “There are 44 crore children in India, out of which 12 crore are in the 12-17 age group...Based on Indian and global data, the risk of severe disease and death are rare in children. However, children can spread infection. Adults have almost 15 times higher risk of death and severe disease compared with children below 18 years. So, if adults around them at home or at school are vaccinated, it will form a protective ring around them. There will be limited virus and disease transmission in that condition. I strongly feel that parents should send their kids to school without waiting for Covid-19 vaccine for two reasons; one, their risk of developing a severe disease is rare; second going to school is important for their cognitive, physical and mental development.” The Ministry of Home Affairs says the pandemic situation is stable. Experts justify arguing that if earlier prediction of India witnessing a rise of four-five lakh cases daily in a third wave was true, it would have happened by now. But it has not happened. On the contrary, our big cities are witnessing normal life with no substantial increase in cases, the reason being that on an average, over 67 per cent of our population have antibodies against the virus and the pace of vaccination is increasing every passing day. That is a good enough reason to consider reopening schools even if in a phased manner.

Caste in UP polls: A case of Brahmins

Reported persecution of Brahmins is believed to be the new mantra of UP politics with all major parties out to woo this small but influential section

BISWAJEET BANERJEE

Political parties, gearing up for the Assembly elections in Uttar Pradesh, are looking for new political strategies that could bring them back to power. Caste and religion are the two basic fundamentals on which this election would be contested and the parties are planning their strategies around these planks. In this melee, the biggest casualty is development as no political party is talking about it. “Sadak, pani, bijli” is no longer an issue for them, but caste and religion are.

Just a few months back the opposition parties were tearing apart the Yogi Government for its failure to prevent deaths of people in the second wave of COVID-19. Then there were issues of poor law and order and lack of governance which the opposition claimed will prove detrimental for the ruling BJP. We were expecting protests across the state, almost every day, highlighting people's issues. We were expecting the opposition would come up with a vision and project itself as an alternative to the BJP; nothing of that sort has happened so far.

For the last one month, dengue and viral fever have been raging in western Uttar Pradesh where over 100 children have died so far. Senior leaders have criticized the government by issuing statements through tweets but none of the top opposition leaders has visited the affected region. Opposition leaders of substance merely shared their agonies through press notes.

The shades of what we can expect in the elections have started emanating when Aam Aadmi Party (AAP) claimed that it will start its Tiranga Yatra after “darshan of Ram Lalla” in Ayodhya. Samajwadi Party national president Akhilesh Yadav has started hopping from one temple to another while in an attempt to invigorate Muslims, Asaduddin Owaisi, President of the All India Majlis-e-Ittehadul Muslimeen (AIMIM), has raised the issue of the razing of a mosque in Barabanki. He even targeted the Samajwadi Party saying why it did not protest.

The Bharatiya Janata Party, on the other hand, is silently working on its Hindutva agenda. Chief Minister Yogi Adityanath has declared a 10 sq. km.-area around the Krishna Janmashtami around Mathura-Vrindavan as pilgrimage area thus prohibiting sale of liquor and meat in 22 wards of Mathura city. The Deepotsava in Ayodhya would be a grand affair this year. Prime Minister Narendra Modi is likely to attend the program when the government will attempt to break the Guinness record by lighting over seven lakh diyas.

Then there is caste which is the fulcrum of elections in Uttar Pradesh since the Mandal days. The emergence of smaller caste parties that have influence in small pockets has changed poll dynamics. The big parties are too eager to align with them realizing that all small gains can catapult them into power. This is evident

WHY ARE THE POLITICAL PARTIES GIVING SO MUCH ATTENTION TO THIS VOTE BANK IN UP? FIRST, THE BRAHMINS MAKE UP A SIGNIFICANT SIZE OF THE ELECTORATE, AND, SECONDLY, THEIR STRONG SOCIO-POLITICAL HISTORY HELPS IN INFLUENCING OPINION DURING ELECTIONS. THIRDLY, THOUGH BRAHMINS LARGELY REMAIN WITH THE BJP, THEY DO NOT HESITATE TO SWITCH SIDES

(The writer is Political Editor, Lucknow edition of The Pioneer.)

the way Bharatiya Janata Party is trying to woo Apna Dal, a Kurmi based party and Nishad party, that has influence among Nishads - the boating community.

Akhilesh Yadav too has shown his willingness to align with smaller parties as he has publicly claimed that Samajwadi Party will not forge an alliance with big parties but his party's doors are always open for smaller parties. He has already declared an alliance with Mahan Dal and is also in touch with Om Prakash Rajbhar, an OBC leader whose Suheldev Bharatiya Samaj Party, is an alliance with AIMIM but he is looking for greener pasture.

Castes like Sahus, Kashyaps, Sainis, Kushwahas, Mauryas, Shakyas, Pals, Dhangars, Gaderiyas, Kumhars, Nishads, and Mallas are much in “demand”. The BJP in 2017 had also expanded its reach among Other Backward Castes (OBCs), by allying with Om Prakash Rajbhar's Suheldev Bhartiya Samaj Party (SBSP) and the Nishad Party in 2019. The SBSP, however, broke off ties after the 2019 Lok Sabha elections despite Rajbhar being made a cabinet minister in the Yogi Government and his son and other supporters given chairmanships of state-run corporations.

On the other hand, Samajwadi Party is focussing on Kurmis, Mauryas, Sainis, Sahus, Kashyaps, and other such. There is a feeling in Samajwadi Party that it might give more tickets to non-Yadav OBCs in the coming elections.

The search for caste alliance is not limited to backward or Other Backward Caste (OBC) only even the upper caste, particularly Brahmins are now much in demand. Persecution of Brahmins is believed to be the new mantra of UP politics as Bahujan Samaj Party and the Samajwadi Party have declared that if their parties return to power, they will order a probe into the atrocities being committed against Brahmins during the Yogi Raj.

At the concluding session of the BSP's Prabudh Sammelan, Mayawati declared that if she was voted to power, a Commission would be set up to enquire into atrocities and injustice done to Brahmins by the BJP government. She even claimed that injustice was also done during Akhilesh Yadav's regime and her the party will work to restore the “samman” of the Brahmins.

Remember, this is the same Mayawati whose party had coined the slogan “Tilak tarazu aur talwar, inkomaarojutteychaar” (Beat Brahmins, Vaishyas, and Thakurs with slippers). Such is her compulsion to appease Brahmins that she did not hesitate to go for identity politics when she accepted a trishul, conch shell, and a silver elephant, the election symbol of the party, as gifts during a Prabudh Sammelan from party leaders.

The Brahmins, who constitute around 10 percent of the vote share in Uttar Pradesh, have suddenly become very important in Uttar Pradesh. Not only opposition,

even the ruling BJP has started looking for Brahmin icons to appease this politically important community. This was probably the first time when a ruling party celebrated the birth anniversary of Govind Ballabh Pant, a Chief Minister of an opposition party. Chief Minister Yogi Adityanath himself laid a wreath on the statue of the former Chief Minister.

Why are the political parties giving so much attention to this vote bank in UP? First, the Brahmins make up a significant size of the electorate, and secondly, their strong socio-political history helps in influencing opinions during elections. Thirdly, though Brahmins largely remain with BJP, they do not hesitate to switch sides.

The Brahmins can influence 104 assembly seats out of 403 seats. According to the Lokniti-CSDS survey data, more than half of the Brahmin electorate always voted for the BJP till 2004. However, the community's support for the BJP fell below 40 percent in the 2007 assembly elections when Mayawati's BSP won the majority. It stated that way till equations changed in the 2014 Lok Sabha elections when the BJP got almost 72 percent of the Brahmins votes. The trend was repeated in the 2017 assembly and the 2019 Lok Sabha elections when the party got 80 percent and 82 percent of Brahmin votes, respectively. After these three elections, Brahmin votes are to the BJP what Yadav votes are for the SP and Jatav votes are for the BSP.

Birthday bashes and the personality cult of leaders

Narendra Modi is aware of how important image-building is for a politician

Who does not want a birthday bash, particularly politicians? It has been in vogue for many years, particularly among the famous and populist leaders. There are dedicated birthday functions for Jawaharlal Nehru, Mahatma Gandhi, Indira Gandhi, B R Ambedkar, and so on.

It is normal practice for supporters to greet their leaders with flowers and cakes. The bigger the cake they get, the better the leader is pleased with his courtiers. RJD chief Lalu Prasad Yadav celebrates his birthday with secular cakes. On his 55th birthday, the cake was shaped like a church, masjid, and temple. Late Tamil Nadu Chief Minister Jayalalitha once cut a cake in the shape of parliament, reveal-

KALYANI SHANKAR

(The writer is a retired Indian Railways professional and consultant. The views expressed are personal.)

ing her ambition for a national role.

Mayawati uses her birthday for crowdfunding and gets enormous amounts for her party on January 16. Samajwadi Party patriarch Mulayam Singh Yadav was presented an 81-kilo “laddoo” when he turned 80 in November 2019. On Narendra Modi's birthday in 2019, a Surat bakery baked a 700-foot-long cake. In Delhi, BJP MPs cut a 370 kg cake to celebrate the revocation of Article 370.

The BJP too has found novel ways of celebrating birthday events. For instance, the silver jubilee function of the party held in Mumbai in 2005 had BJP leader Atal Bihari Vajpayee emerging from a vast lotus built for the occasion at the Shivaji stadium.

The BJP plans to celebrate Prime Minister Narendra Modi's 71st birthday as a mega event. A flurry of events is scheduled from September 17 (his birthday) till October 7 (when he became Gujarat Chief Minister 20 years ago). Last year, there were no grand birthday celebrations when Modi turned 70 because of the pandemic.

In the past, his birthday was marked as “Seva Saptah”.

The drive this year has been widened as “Seva our Samarpan Abhiyan” in tribute to his service and dedication. This period will also include the birth anniversaries of Mahatma Gandhi (October 2) and Deen Dayal Upadhyay (September 25).

The campaign will focus on how Modi had handled the aftermath of the Bhuj earthquake and how he managed to create brands such as the Gujarat Model and Vibrant Gujarat. Five crore “Thank You Modiji” postcards will be mailed directly to him as a token of gratitude. Fourteen ration bags with Modi's picture will be distributed. Videos and documentaries will be shown projecting Modi as the messiah of the poor.

The Covid-19 pandemic is not yet over. Then why these gala functions?

Internationally, Modi has much to be pleased about. Morning Consult, a US research firm has recently given Modi the highest approval rating of 70 per cent among global leaders. He led the chart that tracked 12 other leaders. Japan's Yoshihide Suga was at the bottom.

No doubt the opposition, which is looking for an issue, has criticised this mega programme when people still suffer from Covid-19. They point out that mishandling the pandemic is one of the significant failures of the Modi government, particularly the second wave, which took everyone unawares. The econ-

omy is down, and there is massive unemployment, inflation and price rise. So, what is there to rejoice, they ask.

Modi is aware of how important image-building is for a politician. Elections are scheduled in half a dozen states, including UP, early next year. The party's election machinery has already been activated. The birthday celebrations will give a boost to the party cadres and prepare them to face the elections.

Further, they are intended to make Modi a cult figure, through BJP's parent organisation, RSS, is against such culture. Many regional leaders practice personality cults, including Mamata Banerjee, Mayawati, Kejriwal, Lalu Prasad Yadav, and others who have their own fiefdoms.

These little tinpot dictators coexist in a democracy with their personality cults, which is indeed a paradox.

Modi is presently in the mid-term of his second stint. Despite fulfilling most of the RSS-BJP core agenda like revoking Article 370 and building of Ram Mandir at Ayodhya, Covid-19 has unexpectedly ruined the BJP's plans for the 2024 Lok Sabha polls. His courtiers argue what is wrong with using the birthday as an occasion to project Modi as pro-poor. They contend that one should not grudge Modi his birthday bashes. After all, it is now clear that Modi is BJP and BJP is Modi and damage to one will damage the other. Birthday bashes are indeed a show of strength.

Donors pledge \$1.2 bn for helping Afghans

PTI ■ UNITED NATIONS/GENEVA

The international community has announced over \$1.2 billion in aid for the Afghanistan humanitarian crisis, with UN Secretary General Antonio Guterres underlining the importance to engage with the Taliban to ensure continued humanitarian assistance in the country and address other concerns including terrorism, human rights and the nature of the Government.

The United Nations on Monday convened a high-level ministerial event in Geneva on the humanitarian situation in Afghanistan to highlight the acute needs in the country and underscore the urgent funding support and actions required by international partners to support the people of Afghanistan.

UN agencies and non-governmental partners launched a flash appeal seeking \$606 million for the remainder of the year to bring vital relief to 11 million people in the war-torn nation.

In his closing remarks to

the meeting, Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator Martin Griffiths said more than \$1.2 billion in humanitarian and development aid has been announced by “very generous member States” for the Afghanistan humanitarian crisis. This includes funding for the flash appeal as well as for the regional response.

“This conference has fully met my expectations in relation

to the solidarity with the people of Afghanistan,” Guterres said at a Press conference.

“Considering the flash appeal, considering the support to neighbouring countries and other programmes that several countries mentioned, today we already heard clearly more than \$1 billion of pledges. It is impossible, as I said, to say how much of these will be for the flash appeal; but in any case, it represents a quantum leap in relation to the financial commitment of the international community towards the Afghan people,” he said.

The UN chief emphasised that “it is impossible to provide” humanitarian assistance inside Afghanistan “without engaging with the de facto authorities of the country.”

“It is very important to engage with the Taliban at the present moment for all aspects that concern the international community, be it about terrorism, be it about human rights, be it about drugs, be it about the nature of the Government, our attitude is to engage,” he said.

FM says Taliban Govt won’t allow attacks on others

AP ■ KABUL

The Foreign Minister in Afghanistan’s new Taliban-run Cabinet on Tuesday said the Government remains committed to its promises not to allow militants to use its territory to attack others.

The first Press conference by Amir Khan Muttaqi since the Taliban formed an interim Government a week ago comes as governments around the world — and many Afghans at home — are searching for indications on how it will rule Afghanistan after sweeping out the US-backed Government and taking over Kabul a month ago.

The US and its allies have pushed the Taliban not to repeat its harsh rule of the 1990s, when it monopolised power and imposed its harsh interpretation of Islamic law, including severe restrictions on women and minorities.

Mottaqi gave little sign whether the Taliban will bend to the international pressure. He would not give say how long the

Foreign Minister in Afghanistan's new Taliban-run Cabinet, Amir Khan Muttaqi AP

interim Government would be in place or whether it would eventually be opened up to other factions, minorities or women.

He repeatedly insisted other countries must not interfere in Afghanistan’s internal issues, including in response to a question on whether elections would eventually be held.

Mottaqi, a longtime Taliban negotiator, did make the first confirmation by a member of the new Government of its commitment to the Taliban deal last year with the United States that opened the way for the American withdrawal from Afghanistan.

China slams upcoming Quad summit

PTI ■ BEIJING

China on Tuesday hit out at the upcoming first-ever Quad summit to be hosted by US President Joe Biden, saying the formation of “exclusive cliques” targeting other countries runs counter to the trend of the times and is “doomed to fail”.

President Biden would host the first in-person Quad summit on September 24 in Washington which will be attended by Prime Minister Narendra Modi, Prime Minister Scott Morrison of Australia and Japanese premier Yoshihide Suga.

Asked for his comment on the upcoming Quad summit, Chinese Foreign Ministry spokesman Zhao Lijian told a media briefing here that cooperation between the countries should not target third parties.

“It is China’s consistent belief that any regional cooperation mechanism should follow the trend of peace and development, and help pro-

mote mutual trust and cooperation among regional countries rather than target a third party or undermine its interests,” Zhao said.

“Forming closed and exclusive ‘cliques’ targeting other countries runs counter to the trend of the times and deviates from the expectation of regional countries. It thus wins no support and is doomed to fail,” he said. China is not only a major engine of economic growth in the Asia-Pacific, but also a staunch defender of regional peace and stability, he said.

“China’s development is a force for world peace and a boon for regional prosperity and development. Relevant countries should discard the outdated zero-sum mentality and narrow-minded geopolitical perception,

view China’s development correctly and respect people’s aspiration in the region and do more that is conducive to solidarity and cooperation of regional countries,” he said.

Qatar won’t take responsibility for Kabul airport without clear Taliban agreement

AFP ■ DOHA

Qatar warned Tuesday it would not take responsibility for Kabul airport without “clear” agreements with all involved, including the Taliban, about its operations.

Doha has become a key broker in Afghanistan following last month’s withdrawal of US forces, helping evacuate thousands of foreigners and Afghans, engaging the new Taliban rulers and supporting operations at Kabul airport.

“We need to make sure that everything is addressed very clearly otherwise... we are not able to take any responsibility

of the airport (if) all these things are not addressed,” Foreign Minister Sheikh Mohammed bin Abdulrahman Al-Thani said at a press briefing.

“Right now the status is still (under) negotiation.”

Since the US pullout, Qatar Airways planes have made several trips to Kabul, flying in aid and Doha’s representatives and ferrying out foreign passport holders.

The two-decade US intervention in Afghanistan ended with the hurried airlift of more than 120,000 people from Kabul as the Taliban returned to power.

Modi, Biden to address UNGA in person next week

PTI ■ UNITED NATIONS

Prime Minister Narendra Modi and US President Joe Biden will address the UN General Debate in-person next week, as over 100 heads of state and Government arrive in New York to attend the annual high-level General Assembly session, which had gone virtual in 2020 due to the Covid-19.

Modi will address world leaders from the iconic UN General Assembly hall on the morning of September 25, a day after he participates in the Quad Leaders’ Summit in Washington DC hosted by Biden on September 24.

Modi, Biden, Australian Prime Minister Scott Morrison and his Japanese counterpart Yoshihide Suga will participate in the Leaders’ Summit of the Quadrilateral Framework in

Washington and “review progress made since their first virtual Summit on 12 March 2021 and discuss regional issues of shared interest,” the Ministry of External Affairs said in a statement.

Modi will address the General Debate of the 76th Session of the United Nations General Assembly (UNGA) on September 25. “The theme for this year’s General Debate is ‘Building Resilience through hope to recover from Covid-19, rebuild sustainably, respond to the needs of the planet, respect the rights of people, and revitalise the United Nations,’” the MEA statement said.

As per the second provisional list of speakers for the General Assembly, about 109 heads of state and government will address the General Debate in person.

India voices disappointment over ‘unwarranted remarks’ by UN human rights chief on J&K

PTI ■ UNITED NATIONS/GENEVA

India on Tuesday expressed disappointment over “unwarranted remarks” made by the UN human rights chief on Jammu & Kashmir, saying her comments do not reflect the ground reality and any shortcomings in upholding human rights must be addressed in an impartial manner and anchored in non-interference in a country’s internal affairs.

“We take note of references to India in the oral update by the High Commissioner and express our disappointment over her unwarranted remarks on the Union Territory of Jammu & Kashmir, which do not reflect the ground reality,” Secretary (West) in the Ministry of External Affairs Reenat Sandhu said on Tuesday while delivering India’s statement under the General Debate on Oral Update of the High Commissioner at the 48th

Session of the Human Rights Council. Sandhu said India’s approach to global promotion and protection of human rights is based on “our own experience as a pluralistic and inclusive society and vibrant democracy.”

She said India believes that promotion and protection of human rights are best pursued through dialogue, consultation among States and through provision of technical assistance and capacity building.

“Any shortcomings in upholding human rights must be addressed in a transparent and impartial manner, anchored in respect for national sovereignty and non-interference in internal affairs of States,” she said.

UN high commissioner for human rights Michelle Bachelet on Monday described as “worrying” India’s use of the Unlawful Activities (Prevention) Act as well as “frequent” temporary communication blackouts in J&K.

Japan, America, South Korea urge North Korea to return to arms talks

AP ■ TOKYO

Senior diplomats from Japan, the United States and South Korea urged North Korea on Tuesday to return to talks over its missile and nuclear development, a day after it announced it successfully tested new long-range cruise missiles, indicating an advancement of its military capabilities.

The three-way meeting in Tokyo was attended by US Special Representative for North Korea Policy Sung Kim, South Korea’s Special Representative for Korean Peninsula Peace and Security Affairs Noh Kyu-duk and Japanese Director-General for Asian and Oceanian affairs Takehiro Funakoshi.

US Envoy Kim said the three countries were open to diplomacy with North Korea “to make tangible progress that increases the security of the United States and our allies.”

UK to roll out Covid booster jabs for over-50s

PTI ■ LONDON

The British Government will be accepting an expert panel’s recommendation and begin the rollout of booster vaccine shots across England for over-50s from next week, UK Health Secretary Sajid Javid told Parliament on Tuesday.

Tabling the government’s winter strategy to tackle Covid-19, Javid told the House of Commons that the National Health Service (NHS) in England is preparing for the rollout following the Joint Committee on Vaccination and Immunisation’s (JCVI) recommendation earlier.

Wales has also accepted the JCVI advice, with other devolved regions of the UK —

Scotland and Northern Ireland — also expected to follow.

“I can confirm that I have accepted the JCVI’s advice and that the NHS is preparing to offer booster doses from next week,” said Javid.

“There’s evidence that the protection offered by Covid-19 vaccines reduces over time, particularly older people who are at greater risk, so booster doses are an important way of keeping the virus under control for the long-term,” he said.

Among the other announcements for the government’s winter strategy of “living with the virus” without the need to resort to further full lockdowns, Javid also outlined a “Plan B” of contingency measures, including working from home and face coverings.

GLOBE TROTTING

PUTIN TO SELF-ISOLATE DUE TO COVID CASES
Moscow: Russian President Vladimir Putin is going into self-isolation because of coronavirus cases in his inner circle, the Kremlin said on Tuesday, adding that he tested negative for Covid.

OPPOSED TO UNHRC INITIATIVES: LANKA
Colombo: Sri Lanka on Tuesday said that it is opposed to the UNHRC initiatives adopted through its latest resolution on the country’s human rights accountability, stressing that any such move will “polarise” the society. Foreign Minister GL Peiris made the comments during an oral submission at the on going 48th session of the UNHRC, which got underway in Geneva on Monday.

HAITI OMBUDSMAN SEEKS PM RESIGNATION
Port-Au-Prince: Haiti’s Office of Citizen Protection posted a video on Monday demanding that Prime Minister Ariel Henry step down as authorities seek to interview him about telephone calls he allegedly had with a key suspect in the President’s assassination.

EGYPT OPENS ANCIENT TOMB OF KING DJOSER
Saqqara (Egypt): Egypt on Tuesday showcased an ancient tomb structure belonging to the cemetery complex of King Djoser, a pharaoh who lived more than 4,500 years ago, following extensive restorations of the site. The structure - known as the Southern Tomb - is largely underground and includes a labyrinth of corridors, decorated with hieroglyphic carvings and tiles. A central funeral shaft houses a massive granite-clad sarcophagus from Egypt’s Third Dynasty.

OZ PREDICTS RECORD FARM PRODUCTION
Canberra: Australia is forecast to reap record farm revenues this year despite pandemic challenges, a mouse plague and a trade dispute with China.

DESPITE COVID, S AFRICA TO HOLD KEY LOCAL POLLS
Johannesburg: After uncertainty if Covid-19 would force South Africa to postpone local Government elections, the courts have ruled that the crucial polls should move ahead. Despite concerns about political rallies spreading the disease, South Africa’s courts ruled earlier this month that the Independent Electoral Commission should hold the polls on November 1. The elections may see erosion of support for the ruling party.

Israel PM in first official trip to Egypt in over a decade

AP ■ CAIRO

The leaders of Egypt and Israel have met as part of the first official trip to Egypt by an Israeli Prime Minister in over a decade, and rising tensions in the Gaza Strip at the top of their agenda.

Gaza is sandwiched between Israel and Egypt, and both countries have enforced a border blockade of the territory to varying degrees since 2007 when the Islamic militant group Hamas took control there.

The meeting between Egyptian President Abdel Fattah el-Sissi and Israeli Prime Minister Naftali Bennett on Monday signalled a warming in a relationship that had security-focused but somewhat cool under

Bennett’s predecessor, Israeli hard-liner Benjamin Netanyahu. El-Sissi and Bennett met in the Red Sea resort town of Sharm el-Sheikh, according to an official statement from the Egyptian presidency. Egypt’s state television showed both leaders sitting side by side in front of both of national flags, with the Israeli army’s chief of staff and Egypt’s foreign minister and the head of its intelligence service also in attendance.

It was the first official visit by an Israeli premier since 2010, when then Egyptian President Hosni Mubarak hosted a summit with Netanyahu, Palestinian President Mahmoud Abbas and US Secretary of State Hillary Clinton.

Nicholas, now tropical storm, may cause flash floods

Houston: Hurricane Nicholas, now a tropical storm, made landfall along the Texas coast on Tuesday, bringing the threat of up to 20 inches of rainfall to parts of the Gulf Coast, including the same area hit by Hurricane Harvey in 2017 and storm-battered Louisiana. The storm could also cause life-threatening flash floods across the deep south.

Nicholas touched down on the eastern part of the Matagorda Peninsula and is now about 30 miles (50 kilometers) south southwest of Houston, Texas, with maximum winds of 70 mph (110 kph), according to the National Hurricane Center in Miami.

AP

Council's Fri meet to mull fuel under GST

PTI ■ NEW DELHI

The GST Council might on Friday consider taxing petrol, diesel and other petroleum products under the single national GST regime, a move that may require huge compromises by both central and state governments on the revenues they collect from taxing these products.

The Council, which comprises central and state finance ministers, in its meeting scheduled in Lucknow on Friday, is also likely to consider extending the time for duty relief on Covid-19 essentials, according to sources in the know of the development.

GST is being thought to be a solution for the problem of near-record high petrol and diesel rates in the country, as it would end the cascading effect of tax on tax (state VAT being levied not just on the cost of production but also on the excise duty charged by the

Centre on such output).

In June, the Kerala High Court, based on a writ petition, had asked the GST Council to decide on bringing petrol and diesel within the goods and services tax (GST) ambit. The sources said bringing petrol and diesel within GST would be placed before the Council for discussion in the light of the court asking the Council to do so. When a national GST subsumed central taxes such as excise duty and state levies like VAT on July 1, 2017, five petro-

leum goods – petrol, diesel, ATF, natural gas and crude oil – were kept out of its purview for the time being. This is because both central and state government finances relied heavily on taxes on these products. Since GST is a consumption-based tax, bringing petroleum products under the regime would have mean states where these products are sold get the revenue and not ones that currently derive the most benefit out of them because of they being the production centre.

WPI inflation rises to 11.39 pc in Aug on costlier mfg goods; food prices soften

PTI ■ NEW DELHI

The wholesale price-based inflation rose marginally to 11.39 per cent in August, mainly due to costlier manufactured goods, even as food prices softened.

Snapping the two-month easing trend, WPI inflation rose in August and remained in double-digit for the fifth consecutive month.

In July 2021, WPI inflation was 11.16 per cent, while in August 2020 it was 0.41 per cent. "The high rate of inflation in August 2021 is primarily due to rise in prices of non-food articles, mineral oils; crude petroleum and natural gas; manufactured products like basic metals; food products; textiles; chemicals and chemical products etc as compared the corresponding month of the previous year," the Commerce and Industry Ministry said in a statement.

Inflation in food articles eased for the fourth straight month, recording (-) 1.29 per cent in August, against zero per

cent in July, even as onion and pulses prices spiked.

Inflation in onions was high at 62.78 per cent, while that in pulses was 9.41 per cent. In vegetables it was (-) 13.30 per cent in August.

Inflation in crude petroleum and natural gas was 40.03 per cent in August. In manufactured products, inflation stood at 11.39 per cent in August, against 11.20 per cent

in July. The manufactured goods inflation has remained in double digit for the fourth month in a row.

The RBI, which mainly takes into account retail inflation, in its monetary policy last month kept interest rates unchanged at record lows. It projected CPI or retail inflation at 5.7 per cent during 2021-22, up from its earlier projection of 5.1 per cent.

India for early start of FTA review with ASEAN bloc

PTI ■ NEW DELHI

India and the 10-member ASEAN bloc should strive to announce the review of the free trade agreement (FTA) between them before the year-end, Minister of State for Commerce and Industry Anupriya Patel suggested on Tuesday.

The issue came up for discussion during the 18th ASEAN-India Economic Ministers Consultations.

The ASEAN-India Trade in Goods Agreement was signed on August 13, 2009. It came into force on January 1, 2010.

The Association of Southeast Asian Nations (ASEAN) members are -- Indonesia, Thailand, Singapore, Malaysia, the Philippines,

Vietnam, Myanmar, Cambodia, Brunei and Laos.

Patel resolved to complete the scoping process expeditiously to make the agreement trade facilitative, user-friendly with contemporary and streamlined customs and regulatory procedures, the commerce ministry said in a statement.

She stated that the trade arrangement has to be reciprocal, mutually beneficial and should balance the aspirations of all the partners.

Patel emphasised on the need for securing the FTA provisions to prevent misuse of preferential treatment and also highlighted the non-tariff measures faced by Indian exporters in accessing ASEAN market, especially in agriculture and auto sectors.

Markets eke out slim gains; Nifty closes at new high

PTI ■ MUMBAI

Equity indices resumed their climb on Tuesday after a day's pause following gains in IT, bank and engineering stocks amid a muted trend overseas.

The 30-share BSE Sensex ended 69.33 points or 0.12 per cent higher at 58,247.09. The broader NSE Nifty advanced 24.70 points or 0.14 per cent to its fresh closing record of 17,380.

IndusInd Bank topped the Sensex gainers chart with a jump of 4.07 per cent, followed by HCL Tech, Kotak Bank, Bajaj Auto, Tech Mahindra, L&T, Titan and TCS.

In contrast, HDFC, Nestle India, UltraTech Cement, HUL, Tata Steel, Bajaj Finserv

and Bajaj Finance were among the prominent laggards, shedding up to 1.07 per cent.

"Despite a bullish opening, domestic indices closed flat with a positive bias amid mixed sentiments among global peers. India's retail inflation softened to 5.3 per cent in August, staying within RBI's comfort zone, which was led by lower food inflation.

"However, the wholesale price inflation accelerated to 11.39 per cent, snapping the two-month easing trend owing to non-food articles. Global markets traded cautiously ahead of the US consumer price index to be released today," said Vinod Nair, Head of Research at Geojit Financial Services.

₹ closes flat 73.68 against \$ as price rise concerns cap gains

Mumbai:The rupee pared its early gains to close flat at 73.68 against the US currency on Tuesday due to inflationary concerns and a muted trend in domestic equities.

The US dollar regaining strength ahead of the release of

US inflation data and high crude oil prices also restricted gains in the rupee, analysts said. At the interbank foreign exchange market, the local currency opened higher at 73.62 and touched an intra-day high of 73.57.

Zomato co-founder Gaurav Gupta quits

New Delhi:Co-founder of online food delivery platform Zomato Gaurav Gupta, a key figure in the run-up to the company's IPO in July, has resigned. In an email sent to staff at Zomato, Gupta - who was the head of supply - said he will be starting a new chapter after spending six years at the company. "I am taking a new turn in my life and will be starting a new chapter, taking a lot from this defining chapter of my life - the last 6 years at Zomato. We have a great team now to take Zomato forward, and it's time for me to take an alternate path in my journey," Gupta said.

PTI

Tata Steel commissions India's first plant for CO2 capture from blast furnace gas

Jamshedpur:Tata Steel on Tuesday commissioned a 5-tonne per day (TPD) carbon capture plant at its Jamshedpur Works, making it the country's first steel company to adopt such a carbon capture technology that extracts CO2 directly from the blast furnace gas. Tata Steel will reuse the captured CO2 on site to promote circular carbon economy.

This carbon capture and utilisation (CCU) facility uses amine-based technology and makes the captured carbon available for onsite reuse. The depleted CO2 gas is sent back to the gas network with increased calorific value. This project has been executed with technological support from Carbon Clean, a global leader in low-cost CO2 capture tech-

nology. The CCU plant was inaugurated by T.V. Narendran, CEO and MD, Tata Steel, in the presence of company officials and other dignitaries. "In alignment with the Tata group's pioneering values, we have taken this strategic step in our journey towards decarbonisation. We will continue our quest to remain an industry leader in sustainability by setting new benchmarks for a better tomorrow," Narendran said. "The operational experience gathered from this 5 TPD CO2 capture plant will give us the required data and confidence to establish larger carbon capture plants in future. As a next step, we aim to establish scaled up facilities of CO2 capture integrated with utilisation avenues," he added.

IANS

Cement production falls 12 pc in June qtr as lockdowns impact demand: Report

New Delhi:Cement production declined 12 per cent to 82 million tonne in April-June 2021-22 compared to the previous quarter as Covid-induced lockdowns in various states impacted demand, a report by Icria said. However, year-on-year, the output was 54 per cent higher helped by a lower base on account of nationwide lockdown in April 2020, the rating agency said.

"The production in 4M FY2022 (April-July) is lower by 2 per cent compared to pre-COVID levels (4M FY2020)," it said. Though Icria expects total production in the country to go up by 12 per cent in the current fiscal year supported by factors like pent-up demand, rural housing demand and pick-up in infrastructure activity.

PTI

FinMin gives nod to 11 States to borrow additional ₹15,721 cr

PTI ■ NEW DELHI

The Finance Ministry has permitted 11 states to borrow an additional amount of ₹ 15,721 crore after these states achieved the capital expenditure target set for the June quarter.

These states are Andhra Pradesh, Bihar, Chhattisgarh, Haryana, Kerala, Madhya Pradesh, Manipur, Meghalaya, Nagaland, Rajasthan and Uttarakhand.

"11 states.... Have achieved the target set by the Ministry of Finance for the capital expenditure in the 1st Quarter of 2021-22. As an incentive, these States have been granted permission by the Department of Expenditure to borrow an additional amount of ₹15,721 crore," the Ministry said in a

statement.

The additional open market borrowing permission granted is equivalent to 0.25 per cent of their Gross State Domestic Product (GSDP). Additional financial resources thus made available will help the States in pushing their capital expenditure further.

The Ministry said capital expenditure has a high multiplier effect, enhances the future productive capacity of the economy, and results in a higher rate of economic growth.

Accordingly, out of the net borrowing ceiling (NBC) of 4 per cent of GSDP for the states for 2021-22, 0.50 per cent of GSDP was earmarked for incremental capital expenditure to be incurred by the States during 2021-22.

11 States meet Q1 capex target, get to mobilise ₹15,721 Cr

IANS ■ NEW DELHI

Eleven states have achieved the capex target set by the finance ministry in the 1st Quarter of 2021-22 thereby getting permission to borrow an additional amount of ₹ 15,721 crore as an incentive.

The 11 states include Andhra Pradesh, Bihar, Chhattisgarh, Haryana, Kerala, Madhya Pradesh, Manipur, Meghalaya, Nagaland, Rajasthan and Uttarakhand.

The additional open market borrowing permission granted to states under the programme is equivalent to 0.25 per cent of their Gross State Domestic Product (GSDP). Additional financial resources thus made available will help the States in pushing their capital expenditure further, the finance ministry said in a statement.

The capital expenditure has a high multiplier effect, enhances the future productive capacity of the economy, and results in a higher rate of economic growth. Accordingly, out of the net borrowing ceiling of 4% of GSDP for the States for 2021-22, 0.50 per cent of GSDP was earmarked for incremental capital expenditure to be incurred by the States during 2021-22. The target for incremental capital expenditure for each state to qualify for this incremental borrowing was fixed by the Dept of Expenditure. To become eligible for incremental borrowing, States were required to achieve at least 15 per cent of the target set for 2021-22 by the end of 1st quarter of 2021-22, 45 per cent by the end of 2nd quarter, 70 per cent by the end of 3rd quarter and 100 per cent by March 31, 2022.

 The intending bidders may call us for details and inspection of the said hypothecated vehicles.

India needs \$8 trillion new greenfield assets to be \$5 trn economy by FY27: Report

PTI ■ NEW DELHI

India will need USD 8 trillion (around ₹ 588 lakh crore) of gross capital formation or new greenfield assets to become a USD 5 trillion (around ₹368 lakh crore) economy by FY2027, a report said.

The report by Deloitte said despite the Covid-19 disruption, FDI inflow into the country provides necessary optimism and display underlying strengths of the Indian economy.

In FY2020-21, FDI inflows (including equity, re-invested earnings, and capital) amounted to a record USD 81.72 billion, 10 per cent higher than the previous financial year, it said.

While India remains a favoured foreign direct investment (FDI) destination, the country must enact more reforms to ensure FDI flows not only continue but also play a meaningful role in attaining the USD 5 trillion economy target, the report compiled based on the survey response of 1,200 business leaders of multinational corporations in the US, the UK, Japan and Singapore said.

It found that India remains an attractive destination for investments, scoring highly for its skilled workforce and prospects for economic growth.

It also suggested that the country must continue to enact reforms and initiatives that drive improvement, building confidence in and enhancing the competitiveness of India's economy.

While these inflows were driven primarily by the services sector, a more proportionate contribution to gross capital formation and the increase in exports can be achieved through greater FDI in manufacturing, it said, adding, average FDI from FY15 to FY21 in manufacturing was USD 8.6 billion compared to about USD 25 billion for services.

"Our analysis shows that India will require at least USD 8 trillion of cumulative gross capital formation to grow into a USD 5 trillion economy, assuming we are on the fastest growth track. Based on past trends, our research suggests India needs approximately USD 400 billion of foreign capital cumulatively over the next six years," it said.

Education has completely moved on from its traditional setup and reskilling is vital in a post pandemic scenario. COVID-19 has opened up a new way of studying and therefore, returning to normal comes with multiple challenges. It also presents an ocean of opportunities to improve skills. Ongoing global pandemic brought to light various issues, and concurrently created a sense of urgency for both students and professionals to accelerate their growth towards the future.

As Class XII Board result is out now, the students are in chaos about what to opt for a better future and also, it is a crucial time for students as the choices made at this stage may define what they do in their long-term career. At this point of time approximately 80% students feel pressured to take up a course just because their parents think it is best or just because their friends are going for it. Before investing your time, money and efforts into pursuing a course, you should keep a steady head and weigh all the options carefully.

As the world is adopting the digital paradigm, there is a growing need to polish the old skills and learn new ones. Before finalising the admission in any course, here are some demanding courses with alluring career options for students.

CYBER SECURITY

As the persistent rise in the cases of cybersecurity in India, now as Governments and organizations are facing cyber threats, hackers target Government agencies because its interwoven systems contain vast amounts of information from citizens. Not only government but private or public organisations are also at risk.

As per the source, country's demand for cybersecurity professionals is likely to rise 200 per cent by 2024. Cybersecurity has become one of the most in-demand careers for students. Those who are interested in working as a cybersecurity professional, rest assured there will be no lack of jobs for you. To kickstart a career in cybersecurity, one needs to start off with a background in Information Technology. To embrace a career in Cybersecurity to pursue after Class XII following are your options:

- B.Tech (Information Technology)
- B.Tech (Information Science & Engineering)
- B.Tech (Cyber Security and Forensics)
- B.E. (IT)
- B.Sc.(Forensic Science)
- Diploma in Cyber Security

ARTIFICIAL INTELLIGENCE

India will play a pivotal role in the AI revolution and nowadays AI is being used across various industries.

As students hustle to choose the right course at this time of the year, PC CHHABRA shares five demanding courses which may help shape your future path

RIGHT COURSE FOR YOU

trial sectors (Healthcare, agriculture, automobile, education and transport) etc. AI enters our professional lives and it entails the amazing career opportunities for freshers and professionals. To be part of the AI profession, you will know about the future growth of Artificial Intelligence and its various aspects that can be inculcated in a machine using Artificial Intelligence.

The advancements in technologies also fuel the future scope of Artificial Intelligence in India in subsets of AI like Deep Learning, Machine Learning, etc. One can opt for a course in AI after Class XII is:

- B.Tech. in Computer Science
- B.Tech. in Robotics and Automation
- B.Tech. in Electronics Engineering
- B.Tech. in EC Engineering
- B.Tech. in Electrical Engineering

PHARMACEUTICALS SCIENCE

In India the pharmaceutical market is one of the few sectors that have shown double-digit growth rate (CAGR) in the last few years. India is a rapidly growing its presence in the global pharmaceuticals industry. In the ongoing pandemic,

Cybersecurity has become one of the most in-demand careers for students. The country's demand for such professionals is likely to rise 200 per cent by 2024

ic, the demand for medicines are increasing day by day, so the employment in the pharmaceutical sector is also increasing at an increasing rate. The sector is growing at a consistent rate in India and offering great career opportunities to thousands of students. After completing Class XII, candidates can opt for:

- Bachelor in Pharmacy
- Bachelor in Pharmacy (Lateral Entry)
- Bachelor of Pharmacy (Ayurveda)
- Diploma in Pharmacy

NURSING

Nursing career is one of the most lucrative career options for students because there are no restrictions for students irrespective of their academic background. As medical facilities are rising in India, the demand for nursing courses has also increased immensely. Nurses are one of the pillars of the healthcare systems and Indian nurses are the most trusted health care professionals in the world.

Nursing offers different courses after Class XII:

- B.Sc. Nursing
- ANM

GNM

DATA SCIENCE

Data has become an essential part of our life. In current scenario, each and every industry has opened their doors for the role of data analytics professionals.

The scope of data science is wide and has emerged as an attractive and top most career option in India because of its vast future offerings and opportunities.

Candidates who are passionate about research and computers through data analytics, will find the option of pursuing data science as a lucrative career option. For this interested candidate needs to opt for one of the courses mentioned below:

- B.Sc Data Science
- B.Tech Big Data Analytics
- BCA Data Science
- IBM Data Science professional Certificate

- Applied Data Science with Python Certifications

Before making a decision, keep searching top courses and demand in your desired fields.

Application deadline: September 30, 2021.

COURSE IN EXPORT IMPORT BUSINESS

The 11th batch of the Certificate Course on Export Import Business held under MVIRDC World Trade Center Mumbai will commence from September 18, 2021.

The course will be held virtually or online thrice a week.

To register kindly visit: <https://forms.gle/6F51Q9u84UtZK8uEA>.

Communication is key

Communication plays a vital role in our lives. Be it within the family, within friends, or in public dealing, the role of the way and manner of communicating is very important. Corporate working is no exception. The emergence of new technologies and the power of digital platforms have made companies realise the significance to maintain the integrity of corporate communication, and allow stakeholders and shareholders to view its existence positively.

Corporate communication can take many forms, depending on the target audience. An organisation's communication strategy usually consists of written text like internal and external reports, announcements, website text, promotional materials, emails, notes, press releases, speeches, conferences, interviews and videos. Corporate communication techniques and management functions are intertwined to bring benefits to the organization and achieve desired goals.

Courses

With increased competition, the companies are much concerned about maintaining an impeccable image. Corporate image conveys everything about a company through visual communication, product advertising etc. and also strongly influences the company's identity. Graphic Design is an emerging creative career in India with ample of job and growth opportunities where one creates and designs visual concepts for the company.

A big number of colleges offer these courses. Besides, a degree in journalism & mass communication can help one get an easier access into this sector. The Indian Institute of Management has an Executive Program in Communication

strategies for corporate leaders. Many private institutions provide short term courses for public relations managers, business and workplace communication, writing skills etc. Students may choose to specialize in various fields like advertising, public relations, internal communications, investor relations, crisis management, brand management and event management.

Scope and job prospects

For fresh grads in corporate communication, scope is not restricted to a specific industry. If communication is your strength and you have an ability to understand the intricacies then a career awaits. There are good job opportunities for budding individuals like business spokespersons, marketing specialists, technical copywriters, public speaking trainers, publicity managers, campaign directors, social media handlers, HR, Digital Marketing Specialists, Event Managers, or media planners.

One can work as communication

specialist in private companies, Public Administration, Non-Profit Organisations, Government & Corporate Affairs, MNCs, or Ministry (MIB).

Essential skills requisite

♦ Corporate Communications is rapidly gaining ground. To proclaim information, both internally and externally, or to market their products and services companies require expert professionals who have effective communication skills.

♦ A Company's reputation is intangible but it is a powerful asset that attracts sizable talent, builds consumer loyalty, allows businesses to influence stakeholders belief and positively impact premium customers. One needs to have an Inherent Interest in Current Affairs and Trending Stories.

♦ The Pandemic has changed the world. Old ideas, pitch and approaches to the business world just won't cut in.

Multitaskers can have a bright scope in

this sector.

♦ One should have good interpersonal skills, have passion for public speaking, have leadership quality and ability to motivate colleagues and others, has an in-depth understanding of social media, possesses analytical skills and has an ability to successfully organize events, then one is already on course for a career in corporate communications.

Pandemic affect

The ongoing pandemic has been a rare and perhaps most uncertain period for corporate communication. Besides the forced lockdowns and subsequent global slowdowns, the executives face information disorders. The companies realized the importance of a crisis-response team in an emergency situation, which needs to monitor the situation constantly, be transparent and regularly update the communication chain. Particularly the need to timely inform the employees about the prevailing situation and the policy changes. Importantly they need to be motivated to get over the anxiety of uncertainty. Communication with customers should focus on empathy rather than trying to sell them products or services. Companies need to rethink advertising and promotion strategies to be more in line with the current times. The communication needs to be transparent with shareholders and stakeholders. When dealing with uncertainty one needs to keep honest communication going without having the fear of doing something wrong. As Charles Darwin has said, "It is not the strongest of the species that survive, nor the most intelligent, but the one most responsive to change."

Curbing tech giants monopoly

The monopoly war has become prevalent in tech companies. PRABHAT SINHA shares how the Government is curbing the monopoly of these companies

During the ongoing COVID 19 pandemic, big IT companies like Google, Amazon, Apple, Facebook, and Microsoft have accelerated their activities of business expansion and gaining a monopoly. As a result, governments in several major countries, including the US and India have started amending old laws and enacting new laws to curb the monopoly of these companies.

The monopoly war has become very prevalent in tech companies. Google, funded Apple and other mobile manufacturing companies, carriers, and browsers to put its search engines and other apps as the default apps. This led to fewer consumers of other search engines and a drastic surge of Google's search engine subscribers. There are also allegations that Google and Apple have teamed up to outplay competition like Nokia and BlackBerry. Most apps are now downloaded from Google's Play Store or Apple's App Store, for which Google and Apple charge up to 30 percent commission from App Manufacturers.

Leading E-commerce companies like Amazon & Flipkart continue to have a different game of monopoly in India. These companies are controlling

their operations and product prices by promoting selected vendors on their platforms. The Delhi Vyapar Mahasangh, an organization of retailers, had filed a complaint to the Competition Commission of India (CCI) accusing Amazon and Flipkart of trying to end competition by using wrong means. After which the CCI had directed the Director-General for Preliminary Inquiry of the allegations. Amazon and Flipkart also approached the Karnataka High Court and the Supreme Court to avoid these investigations but could not find any relief. Microsoft is known for ruining its competitors since the success of Windows as an operating system. A successful browser named Netscape was made incompatible and Internet Explorer was promoted to swipe the business.

Similarly, whether it is search engine business or cloud computing, or social media, Microsoft never shied away from using unethical tactics to derail competitors in every business line they are into. As a result, Microsoft has already been prosecuted for antitrust in 2001 as well.

Major cases of antitrust have taken place in the past and

hard steps have also been taken. In 1911, John D. Rockefeller's company Standard Oil was split into 34 parts for an antitrust violation. Realizing the urgency of the occasion, the US Congress passed five new antitrust bills in June 2021 - the American Innovation and Choice Act, The Platform Competition and Opportunity Act, The Ending Platform Monopoly Act, the Access act, The Merger Filing Fee Modernization Act. The European Union has proposed two bills to control anti-competition and illegal content in December 2020 itself.

In India, MRTP Act 1969 - Monopolistic and Restrictive Trade Practice Act was already in practice since 1969. However the rule was too old to control the antitrust after the 90s globalization, so the Competition Act was passed in 2002 under which the Competition Commission of India was constituted in 2009. New IT law - Intermediary guidelines and digital media ethics code 2021 and amendment into Consumer protection (e-commerce) Act 2020 are the few major steps to curb the tech giants and protect the interest of consumers.

Faculty development programme

PNS ■ NOIDA

The Institute of Management Studies (IMS) Noida organised a Faculty Development Programme on the topic of "Personal and Professional Ethics for Teaching Effectiveness." The keynote speaker was Dr Parin Somani,

Philanthropist Motivational Speaker and author and Dr Kulneet Suri Senior Director IMS Noida.

While addressing the session Dr Kulneet Suri, Senior Director said: "Effectiveness is the quality of being successful in producing an intended result. Especially, the teaching profession is

expected to evolve a set of ethical principles to guide the conduct and behaviours of its members."

The ethical principles provide the basis to differentiate between desirable and undesirable professional conduct and behavior of the teachers.

Further, she added that the importance of

having an effective teacher with professional ethics in the process of education is one of the important needs of society.

"In terms of teachers ethics, educators should possess good qualities and avoid vices. The survey method is adopted for the college teachers," Suri said.

AI platform to find vaccine targets

PNS ■ NEW DELHI

The Amity University and Baylor College of Medicine (BCM-Houston, US) researchers have developed a powerful Artificial Intelligence (AI) platform to find clinically important vaccine targets and epitopes that could transform vaccine discovery process for deadly infectious diseases like COVID-19 and Chagas disease.

The results of this study have

been published in UK based journal *Scientific Reports*, and *PubMed*, titled Identification of Vaccine Targets in Pathogens and Design of a Vaccine Using Computational Approaches by Dr Kamal Rawal, scientist, Associate Professor and Project Director, Amity Institute of Biotechnology, Amity University.

Dr Peter Hotez, (Dean, National School of Tropical Medicine, Baylor College of Medicine), Dr Maria Elena

Bottazzi (Co-Dean, National School of Tropical Medicine, BCM) and Dr Ulrich Strych (Associate Professor, BCM) are senior co-authors.

According to Dr Rawal, "The key innovation is using artificial intelligence to combine several hundred parameters to mine several thousand proteins and genes to reach to the right targets and design vaccine using these proteins."

Researchers tested this plat-

form on several known experimental vaccine targets including those that are already available in the market.

The team have long standing interest in neglected diseases of poverty so they opted to analyse the whole genome and proteome. These are a set of all protein sequences in a cell of an important pathogen which is popularly known as Trypanosoma cruzi or as (T. cruzi).

PUBLIC NOTICE

Malinga retires from all forms of cricket

PTI ■ COLOMBO

Sri Lanka pace veteran Lasith Malinga on Tuesday announced his retirement from all forms of cricket after terrorising the world's best batsmen for over a decade and a half with his toe-crushing yorkers delivered from a low and distinct sling-arm action.

A white ball legend in his own right and one of the greatest T20 bowlers, the 38-year-old was captain of Sri Lanka's 2014 T20 World Cup winning team. He posted a message on his social media account announcing his decision.

"Hanging up my T20 shoes and retiring from all forms of cricket! Thankful to all those who supported me in my journey, and looking forward to sharing my experience with young cricketers in the years to come," Malinga tweeted.

"I want to give 100 per cent rest to my T20 bowling shoes. While my shoes will rest, my love for the game will never ask for rest," a smiling Malinga added in the video.

Malinga last played a T20I match for Sri Lanka in March 2020 against West Indies in Pallekele.

Malinga, who took a total of 546 wickets across all formats for Sri Lanka, had already retired from Test cricket in 2011 and after that from ODIs as well but continued to

play T20Is for the national side.

He wasn't named in Sri Lanka's squad for upcoming World Cup.

Last year, he had expressed his desire to lead Sri Lanka in the T20 World Cup, which was originally scheduled to be held in Australia in October-November 2020 but will be held next month after a COVID-forced postponement.

"I am looking forward to help youngsters and guide them in the coming years," he said as he thanked his national team and all the franchises that he has played for, including IPL team Mumbai Indians.

Malinga, who has played a staggering 122 IPL matches, has 170 wickets to his credit, the highest in the cash-rich league, with the best bowling figures of 5/13.

He picked up 107 wickets in 84 T20 Internationals, 338 scalps in 226 ODIs and 101 wickets in 30 Tests.

He was the first bowler to bag 100 T20I wickets and finishes fourth in the highest wicket-taker category in the list behind Dwayne Bravo, Imran Tahir and Sunil Narine.

The Sri Lanka pacer had also announced his retirement from franchise cricket in January this year after being released by Mumbai Indians.

Malinga, one of the best T20

bowlers of all time, was a key figure in the teams he played for in the Indian Premier League, the Big Bash League, the Caribbean Premier League and other franchise tournaments.

During his 12-year stint at Mumbai Indians, he was part of MI's four of the five IPL title triumphs but had opted out of the 2020 tournament due to personal reasons at a time when his father was not keeping well.

"The experience that I have gained through the past 17 years will no longer be needed in the field since I have decided to retire from T20I cricket marking my retirement from all formats of cricket," said Malinga in a video on his YouTube channel.

He added, "But I will be continuously supporting the younger generations who strive to uplift the spirit of the game and I will always be there with all who love the game."

A fearsome pacer known for his menacing yorkers, the leading wicket-taker in T20I also has two T20I hat-tricks to his name.

Malinga also picked up three hat-tricks in ODI cricket, with his performance against South Africa in the 2007 World Cup in West Indies etched in history.

"Today is a very special day for

me," he said.

"I want to thank each and everyone who supported me throughout my T20 journey. I want to thank the Sri Lankan cricket board and team members. And Mumbai Indians cricket team, especially the team owners and officials.

"I would also like to thank the team members and staff at Melbourne Stars, Kent, Rangpur Riders, Kayana Warriors, Maratha Arabians and Montero Tigers. When I played with you all, I got many experiences through my cricketing journey."

Ulsan - Kawasaki rivalry headlines Asian Champions League

AP ■ SEOUL

Japan and South Korea may have wobbled in World Cup qualification earlier this month but their clubs are dominant in Asian competition. Between them, the two two countries have won 10 of the last 15 Asian Champions League titles and also provide seven teams in the Round of 16 of the 2021 tournament.

The eastern zone of the competition starts the knockout stage Tuesday with a clash between two of the title favorites: defending champion Ulsan Horang-i and Japanese champion Kawasaki Frontale.

"I came to Ulsan because I want to win titles," Ulsan midfielder Valeri Qazaishvili told the Asian Football Confederation's website.

"I've heard a lot about Kawasaki and I know they're a very good team who play good football," Qazaishvili said.

"It's a huge advantage for us to have this match at home in Korea with our fans behind us; to play at home is always special."

Both teams are top of their domestic leagues. When the Asian Champions League group stage finished in May, Kawasaki was way out in front at the top of the J League but one win from the last five games has left the club just one point clear and

out of the Levain Cup.

"We really wanted to win in the cup game and progress to the next stage so it is a painful feeling," coach Toru Oniki said.

"We have no time to think about that as we have to look forward to a tough game in Asia against the champion Ulsan and that gives us a chance to put the cup exit behind us."

The other two meetings between clubs from Japan and South Korea feature Nagoya Grampus hosting Daegu FC and Pohang Steelers, three-time Asian champion, traveling to Cerezo Osaka. Korea's Jeonbuk will host BG Pathum United of Thailand.

In the western zone, Tractor of Iran asked the Asian Football Confederation for its game with Al-Nassr of Riyadh to be postponed.

The team is struggling to put together the required 18-man roster as it has been hit by injuries and an outbreak of COVID-19.

Covid situation had us petrified: McCullum

PTI ■ DUBAI

Kolkata Knight Riders head coach Brendon McCullum says they were "paralysed a little bit by fear" when coronavirus struck the first half of the IPL in India.

It was KKR spinner Varun Chakravarthy and seamer Sandeep Warrier, who first tested positive for COVID-19 in May in the middle of the League, which was eventually postponed. The Purple and Gold brigade led by England white-ball skipper Eoin Morgan had an underwhelming first half. They are languishing at the seventh spot but McCullum is hopeful for a strong showing when action resumes from September 19 in the UAE.

"In regards to the tournament which is upcoming (second half of the IPL phase), we can end it right. We can take the game on and we're in a situation where we need things to go our way," McCullum was quoted as saying by the KKR website.

E-bidding for new IPL teams planned on October 17

PTI ■ MUMBAI

The BCCI is planning to have an e-bidding for the two new IPL teams on October 17 and the bids to buy the sides can be made till October 5.

"The Board is planning to have the bidding on 17th October and it will be an e-bidding," sources in the know of things told PTI on Tuesday. The BCCI had on August 31 invited bids to own an IPL franchise with "Invitation to Tender" available for purchase till October 5.

"The Governing Council of the IPL invites bids to acquire the right to own and operate 1

(one) of the 2 (two) new teams proposed to be introduced to take part in the Indian Premier League from the IPL 2022 season, through a tender process," the BCCI had said in a statement.

"Any interested party wishing to submit a bid is required to purchase the ITT."

"However, only those satisfying the eligibility criteria set out in the ITT and subject to the other terms and conditions set out therein, shall be eligible to bid. It is clarified that merely purchasing this ITT does not entitle any person to bid," the cricket body had said.

"We need to hit the ground running, challenge one another privately, support one another publicly and try and get the best out of one another in the next 4-5 weeks. Who knows where we can go with this."

"There were sometimes throughout the season when I just felt we were being paralysed a little bit by fear," he added.

The virus had wreaked havoc in India at that time, claiming thousands of lives.

The 39-year-old former New Zealand skipper, who started his IPL journey as a player with KKR, is hopeful the team will be able to get rid of the angst that had been built in the first phase of the league.

"I wasn't able to free the guys up enough to understand

Indian women's team has improved since T20 WC defeat: Mandhana

PTI ■ BRISBANE

Indian women's cricket team opener Smriti Mandhana says her side has improved "massively" since the World T20 final defeat to Australia last year and will be "extra competitive" during the upcoming series here which also features its first day-night Test outing.

India and Australia are set to lock horns in a multi-format series comprising three ODIs, the day-night Test and three T20s, starting on September 21. The Test will be played from September 30 to October 3 in Canberra.

The last time the two sides met was at the women's T20 World Cup final at the MCG last year where the hosts had hammered India by 85

runs to lift the trophy.

"The team has grown massively (since the T20 World Cup)," Mandhana told 'The Scoop' podcast.

The Indian squad finished its 14-day hard hotel quarantine on Monday.

"COVID was a big break after the T20 World Cup and a lot of girls had a chance to go back and understand more about their games, where they lack as an individual and come back stronger."

The stylish southpaw said that after the COVID-19 enforced break, the Indian team is slowly getting back into the rhythm of playing cricket.

"The whole team has worked on their fitness and skills...We are

Lee takes joint first position with Mithali

PTI ■ DUBAI

India skipper Mithali Raj was on Tuesday joined at the top by South Africa opener Lizelle Lee, whose unbeaten 91 in the opening match against the West Indies helped her take joint-first position in the latest ICC women's ODI rankings.

While Mithali, who retains her number one spot, is now tied in first place with Lee at 762 rating points, with Australia's Alyssa Healy in third place, India opener Smriti Mandhana also held on to her ninth spot.

Lee, who first seized the top position in June 2018 and again reached the summit in

March this year, scored 18 runs in the second match, which also counted towards this week's rankings update.

Veteran Indian pacer Jhulan Goswami and senior spinner Poonam Yadav remained static on fifth and ninth respectively among bowlers, while Deepti Sharma maintained her fifth spot in the all-rounders' list.

still getting into a rhythm of playing matches continuously but the last five, six months we have been playing cricket and now we are getting back into the match

India teen star Shafali Verma held on to her top rank in the T20 rankings with 759 points, ahead of Australian Beth Mooney (744) and India T20 vice-captain Mandhana (716).

There was no movement for Sharma (sixth) and Yadav (eighth) in the T20 bowling rankings with the former also retaining her fourth spot in the all rounders' list.

In T20 rankings for bowlers, England's Sarah Glenn has moved up a slot to second position while New Zealand off-spinner Leigh Kasperuk (up seven places to 15th) and all-rounder Jess Kerr (up eight places to 58th) have also moved up the table.

a few players like white-ball skipper Harmanpreet Kaur, teen batting sensation Shafali Verma and Mandhana also featured in The Hundred tournament.

Pele recovering, set to leave intensive care: Daughter

IAN S ■ RIO DE JANEIRO

The eldest daughter of Brazilian football legend Pele has said that her father is expected to move out of intensive care this week as he recovers from surgery to remove a tumour from his colon. The 80-year-old underwent the procedure at Sao Paulo's Albert Einstein hospital on September 4 after the tumour was found during routine tests. "He is doing well post-surgery, he is not in

pain and is in a good mood (annoyed that he can only eat jello but will persevere!). He will move into a regular room in the next day or two and then go home," Kely said in a post on Tuesday morning (IST). Kely said the three-time World Cup winner has been buoyed by the support of fans from around the world and praised the work of doctors. "He is strong and stubborn and with the support and care of the brilliant team at Einstein and all of the love, energy and light that the world is sending, he will get through this," she added.

Pele has battled a series of health problems in recent years, including complications related to hip replacement surgery as well as kidney and prostate conditions.

Split captaincy is a good idea, Rohit can lead well: Madan Lal

IAN S ■ NEW DELHI

Former Indian cricketer Madan Lal on Tuesday came out in support of split captaincy theory in India, saying it will "ease the pressure on Virat Kohli." "I guess this could be a nice option. We are in a very good position right now. We are lucky that we have Rohit Sharma in the team and whenever Virat Kohli feels that he wants to concentrate on one or two formats then Rohit can step in, and he has a lot of experience," Madan told IANS. "So, in a way, I feel it will benefit India. I read that Virat is likely to step down from captaincy (of ODI and T20) as he wants to concentrate on his batting, which is a good idea I guess. India as a team is doing a great job, we have seen that in England (Test series)

recently. So, let's see what happens."

There are reports that Team India limited-over side could see a change of leadership after the T20 World Cup next month with Kohli set to take a big call soon. If Kohli decides to give up on the captaincy, then opener Rohit will take over the reins in ODI and T20 cricket.

It was also reported that Virat is planning to take this decision since he wants to concentrate on his batting form which has dipped considerably over the last year. And meetings were also held within the BCCI in this regard.

However, BCCI treasurer Arun Dhumal on Monday rubbished such reports. "This is all rubbish. Nothing such is happening. This is all that you guys

(media) are talking about. BCCI has not met or discussed anything on this issue (split captaincy)," Dharmal told IANS. "Virat will remain as the captain (of all formats)."

PUBLIC NOTICE

I Satpal S/o Pritam Singh S/o Sadhu Ram, R/o Village Thathi, Tehsil and District Gurdaspur, do hereby solemnly declare that I am Resident of above mentioned address. I have submitted the deed dated 04.07.2008 executed by Balbir Singh S/o Harbans Singh S/o Nahain Singh, R/o Trimmoo Road, Gurdaspur, Near Gurudwara Sahib, Gurdaspur through his General Power of Attorney Varinder Singh S/o Dalbir Singh, R/o Village Naushehra, Tehsil and District Gurdaspur in my favour regarding land measuring 8 Marlas out of Land measuring 37 Kanals 14 Marlas comprised in Rect No.11, Killa No.12(2/4-4), 15/1(4-4), Rect No.12, Killa No.11(7-2), 20/2(1/0-5), 19/2(1/1-4), 12/1(2-17), Rect No.13, Killa No.62(1-9), 14/1(2-8), 15/2(2-16), 16/1(2-0), Khasra No.280(0-16), 145(1-5), Rect No.13, Killa No.7(7-4), situated in the Revenue Estate of Village Gahri, Tehsil and District Gurdaspur. Yuriy Sedykh, hammer throw world record holder, dies at 66

AP ■ MOSCOW

Yuriy Sedykh, a two-time Olympic champion in the hammer throw whose world record from 1986 still stands, has died. He was 66.

The Russian track and field federation said Sedykh died early Tuesday following a heart attack. "Deeply mourn the loss of Yuriy Sedykh," World Athletics

senior vice president and pole vault great Sergei Bubka wrote on Twitter. "For me, Yuriy was a friend, a wise mentor." Sedykh won gold at the 1976 and 1980 Olympics, but missed the 1984 Los Angeles Games because of a Soviet boycott. He returned to win a silver medal at the 1988 Seoul Olympics and won a world title in 1991.

Sedykh threw a world record 86.74

meters at the European Championships in Stuttgart, Germany, a mark which still stands. At this year's Tokyo Olympics, all 12 finalists in the men's hammer were born after Sedykh set the record.

Sedykh made his huge throw at a time when track and field was starting to realize the scale of performance-enhancing drug use.

Former Moscow anti-doping laboratory director Grigory Rodchenkov wrote in a book last year that Sedykh was "a huge steroid abuser" who benefited from a Soviet cover-up. Rodchenkov said one of Sedykh's samples contained such large traces of the steroid stanozolol that it contaminated laboratory equipment.

Sedykh denied doping. In a 2015 interview with Russian newspaper Sport Express, Sedykh said athletes' big throws in the 1980s were because of better coaching and the Soviet Union's intensive talent scouting program.

After retiring, Sedykh worked in France as a physical education teacher. He was married to another Soviet world record holder, shot putter Natalya Lisovskaya. Their daughter Alexia won hammer gold for France at the 2010 Youth Olympics.

PHYSICAL POSSESSION NOTICE

ICICI Bank Branch Office: ICICI Bank Ltd, 3rd Floor, Plot No- 23, New Rohtak Road, Karol Bagh, Delhi- 110005
