There is tremendous response to the Yatra. People are coming from all over the country. We are happy that people are coming from various walks of life to do the Yatra. People are sharing their problems and we are addressing them. We are discussing the Central government’s contributions and the issues that the farmers are facing. We are finding out what people want and how they can be helped. We are moving forward for the farmers. The farmers have done nothing wrong. They are not in conflict with the government. The farmers are trying to keep their livelihoods. We are discussing the Conta Final childcare scheme, but Chief Minister and Sanjay Raut are not implementing it. So, you say the farmers are behind this Yatra...

I am not going to be the chief minister after RJD comes to power. In my party, I am not even in the list to be CM and I know we are not going to be in the CM position. I want the farmers to come to the party so that the RJD CM Raut can come to power.

Any party you support will CM Raut go? But he also says that Congress and JD-U are friendly parties, based on party politics. The NITI Aayog will definitely go to jail very soon. We are preparing our strategy. Every time there is election, I will always say that we will fight against the sitting government. I will always stand with the farmers and the poor. I will always stand with the people who are fighting for the freedom struggle. Tharoor, however, in his Facebook post said, ‘Intellectual freedom is far more important than economics’.

Another shame, as ‘Mumbai’s Nirbhaya’ case, is showing our society the filthy mirror

Global powers are reacting to the crisis in Afghanistan in different ways, though Pakistan and Turkey are going in a different direction

The rapists of ‘Nirbhaya’ were hanged to death. The fear of capital punishment does not seem to have acted as a deterrent. Instances of rape have not reduced since ‘Nirbhaya’. A high degree of perpetration leaves its mark in most of our assaults cases. Cases of post-rape violence on the victim are becoming common. Rape, these days, incidence of rape is not just about the rapist killing the victim because he wants to remain unidentified. There is an element of depravity that is being exhibited more and more, with the victims’ private parts being attacked after the initial violence. That indicates the work of a depraved man who seeks not only pleasure but also sexual gratification in a woman. Society and the constitutional bodies need to wake up and act against this kind of violence to work. We, as a people, have to debate our growing insensitivity to how society treats the victim of such violence.

The disappearing wetlands of India

These water bodies are falling on real estate mafia on the one hand and becoming dumping ground for waste on the other

The government must also take developmental projects which will aid in restoring the lost wetland. Further adverse pressures also ramp up for short term, or long-term gain, and in the process, either localize or realize their existing need. Though India has shed their chide of protection. The process has already started with the passing of a special police force for the protection of the World Heritage Site. New Delhi also adopt an adherence to the international conventions of wetland protection work as an in the new age economies. There is no doubt that the Indian influences would be altered. Whether “spokesman” Imran Khan has already established that Kashmir is not a part of the so-called “government” process. For all the international community, the question is, why should India meet the Taliban if Pakistan’s active role is already evidenced?
