Gadkari, Chouhan out in **BJP Parl board shake-up**

With eye to K'taka polls, BSY inducted in BJP's apex panel; CEC too reshuffled

DEEPAK UPRETI/PNS NEW DELH

In a major reshuffle in the BJP's Parliamentary Board, the highest decision-making body of the party, former BJP president and Union Minister Nitin Gadkari and Madhya Pradesh Chief Minister Shivraj Singh Chouhan, the party's longest serving CM, were dropped, giving way for six new members, including 79-year-old influential "Lingayat" leader and former Karnataka Chief Minister BS Yediyurappa and former IPS officer and Punjab leader Iqbal Singh Lalpura.

The exit of Gadkari and Chouhan from Parliamentary Board is suggestive of the continuation of "generational changes" policy in the BJP before the next Lok Sabha polls in 2024 which started from 2014 onwards, but Yediyurappa's inclusion surely did not fit in this pattern and could be attributed to political

exigency (Karnataka polls).

The BJP has created "Margdarshak Mandal" to

accommodate party veterans like LK Advani and Murli Manohar Joshi after they ceased to be the members of

the board Gadkari's recent reported comments that "sometime I think like quitting politics" and "politics is now only for satta" (power) had created ripples in the political circles giving rise to speculation about his equation with the top BJP leadership. Chouhan, the threetime Chief Minister, would be facing Assembly polls in Madhya Pradesh in 2023.

This is the first time the board has been rejigged under Nadda, who took over as the party president in 2020.

In an exercise to make the apex body regionally and socially more representative, the BIP has included tribal, OBC, minorities members,

including former Assam CM and Union Minister Sarbananda Sonowal (tribal), former Lok Sabha member from Haryana Sudha Yadav (OBC) and former Union Minister Satyanarayan Jatiya (SC) from Madhya Pradesh.

Lalpura, a member from the minority community, was appointed the Minorities Commission Chairman in 2021 for the second time. A decorated officer, he was one of the police officers selected to arrest Sikh extremist leader Jarnail Singh Bhindranwale and recently played a key role on behalf of the BJP to negotiate with the agitating farmers in Punjab. His appointment in the BJP's powerful body indicates the party's attempts to expand its base in the AAP-

2024 Lok Sabha polls. One more key entrant to the influential BJP's panel is Dr K Laxman, who is a Rajya Sabha member and comes

ruled-Punjab in the run-up to

from Hyderabad. Former Telangana BJP president, Laxman is currently party's OBC Morcha chairman. His inclusion is BJP's attempt to increase its political foot-prints in Telangana which is to go to poll before December

Yediyurappa's entry to the board is also suggestive of the party's efforts to bring unity in the faction-ridden Karnataka BJP where the "Lingayat" patriarch holds considerable clout and could become a rallying point for the party. The State is to face Assembly elections next year.

The parliamentary panel in its previous form had five vacancies caused by the passing away of senior leaders -Arun Jaitley, Sushma Swaraj and Ananth Kumar — and election of M Venkaiah Naidu as Vice-President and Thawarchand Gehlot being appointed as Karnataka Governor.

Puri announces 1,100 flats for Rohingyas; MHA says 'no'

PIONEER NEWS SERVICE

In a clear case of lack of coordination, hours after Urban Development Minister Hardeep Singh Puri announced awarding refugee status to Rohingyas and allotted them 1,100 flats in Delhi, the Union Home Ministry said no such decision was taken, and termed Rohingyas as illegal foreigners, waiting to be deported.

"India has always welcomed those who have sought refuge in the country. In a landmark decision all #Rohingya #Refugees will be shifted to EWS flats in Bakkarwala area of Delhi. They will be provided basic amenities, UNHCR IDs & round-the-clock @DelhiPolice protection.

"Those who made a career out of spreading canards on India's refugee policy deliberately linking it to #CAA will be disappointed. India respects & follows UN Refugee Convention 1951 & provides refuge to all, regardless of their race, religion or creed," tweeted Puri at 7.30 am, endorsing the UN Refugee Convention,

which India has not approved.

Soon, Vishva Hindu Parishad (VHP) and many right wing organisations started attacking Puri for his Wednesday morning tweet and asked the Centre to change the decision and deport Rohingyas. With criticism coming out

India by end of 2012 when Myanmar Army started action against the Muslim population in their tussles with Buddhists. from all quarters, by 3 pm the Ministry of Home Affairs (MHA) issued a statement and series of tweets rejecting Puri's claims. Interestingly MHA put out blame on "news reports in certain sections of media" for the goof up created by Urban Development Minister Puri.

"With respect to news reports in certain sections of the media regarding Rohingya illegal foreigners, it is clarified that the MHA has not given any directions to provide EWS flats to Rohingya illegal migrants at Bakkarwala in New Delhi. The Government of Delhi proposed to shift the Rohingyas to a new location. MHA has directed the Government of Delhi to ensure Rohingya illegal foreigners will continue at the present location at Kanchan Kunj, Madanpur Khadar as MHA has already taken up the matter of deportation of illegal foreigners with the con-

cerned country.

Bihar Law Min faces arrest for abduction, Nitish says 'not aware'

PIONEER NEWS SERVICE

A massive controversy has jolted the Nitish Kumar-Mahagathbandhan Government, with reports sur-facing of the newly-elected Law Minister Kartikeya Singh, alias Kartik Master, of facing an arrest warrant for an alleged link in a 2014 kidnapping case.

Kartikeya is a teacher by profession, and was elected as MLC on a RJD ticket. He, however, is known for his close association with the jailed RJD leader Ananat Singh, aka the Don of Mokama. Kartikeya was supposed to surrender in a court, or

before the police in the case on August 16, the day he took oath as a State Cabinet Minister, but he did not do so. On being asked by

reporters about the warrant against Kartikeya, Bihar Chief Minister Nitish Kumar said he has no information about any such case. "I am not aware of it," Kumar said.

The choice of Kartikeya as the Law minister came as a surprise, just because of his association with Anant Singh. A section in the JD(U) opposed his induction in the Cabinet, but Deputy Chief Minister Tejashwi Yadav is reported to have prevailed upon Nitish Kumar to include Kartikeya from the Bhumihar

ED names Jacqueline Fernandez in money laundering case

PNS ■ NEW DELHI

Enforcement Wednesday named actor Jacqueline Fernandez as an accused in the money laundering case against conman Sukesh Chandrashekar, who is facing charges in a ₹200 crore extortion case. The ED has named her as accused in a supplementary charge sheet.

After being chargesheeted, the actor shared a post on her social media page saying she will remain "strong" in these testing times. The agency filed the fresh (second supplementary) charge sheet or prosecution complaint in the case before a special Prevention of Money Laundering Act (PMLA) court here.

18 Indian cities in 20 worst PM2.5 list, says US report

PIONEER NEWS SERVICE **NEW DELHI**

India has been home to 18 of the 20 world cities with the severest increase in fine particle pollutants (PM2.5) from 2010 to 2019.

Delhi and Kolkata reported 106 and 99 deaths per one lakh population respectively in last year due to the lethal pollutant, a report published by the US-based research organisation Health Effects Institute (HEI) has said.

The analysts of the report used data from 2010 to 2019 from over 7,000 cities across the globe and focussed on two of the most harmful pollutants; fine particulate matter (PM2.5) and nitrogen dioxide (NO2).

PM2.5 refers to fine particles (measuring 2.5 µm or less in diameter) that penetrate deep into the body and fuel inflammation in the lungs and respiratory tract, leading to the risk of having cardiovas-

lems, including a weak immune system. Also, said the report, overall, India and Indonesia have seen the most severe increase in PM2.5 polannual average PM2.5 con-

lution, whereas China has seen the greatest improvements.
"Of the 50 cities with the centration of 110 microgram increase in PM2.5, 41 are in per cubic metre, the highest

On the other hand, of the 20 cities with the greatest decrease in PM2.5 pollution from 2010 to 2019, all are located in China," said the analysts.

In 2019, Delhi recorded an

among the most-populous cities in the world, followed by Kolkata (84 microgram per cubic metre), said the report "Air Quality and Health in Cities" by the State of Global Air Initiative, a collaboration between the HEI and the Institute for Health Metrics and Evaluation's Global Burden of Disease project. The comprehensive and

detailed analysis of air pollution and global health effects for over 7,000 cities released on Wednesday also shows that Delhi has the highest average level of fine PM 2.5 among the world's most populated cities.

The report summarises data on air pollution exposures and associated health impacts in 7,239 cities (with minimum population of 50,000) from 2010 to 2019. It combines ground-based air quality data with satellites and models to produce air quality estimates for cities around the world.

2,400-bed hospital of Mata Amritanandamayi largest in the region, says Haryana CM

PNS CHANDIGARH

Haryana Chief Minister Manohar Lal Khattar on Wednesday said the 2,400-bed healthcare institution, which will be inaugurated by Prime Minister Narendra Modi in Faridabad on August 24 and is being set up by Mata Amritanandamayi, will be the largest state-of-the-art health

facility in the region.

This hospital will prove to be a milestone in the country's best health services in the times to come, said the Chief Minister, who met Mata Amritanandamayi to express gratitude on behalf of the people of the state.

Khattar said that as the number of patients in the hospital is expected to increase in the coming time and there will be a greater need for pub-

excellent public transport services will be developed for Amrita Hospital, including Greater Faridabad. He said that setting up this hospital is a big step in the direction of humanity and the state government will always be ready for whatever help is needed by the hospital management. The Chief Minister said that the services of the city bus service have already been extended to the hospital. Apart from this, FMDA is also in the process of setting up a separate bus depot in Greater Faridabad.

Meanwhile. Amritanandamayi said that it is her dream that no person should be deprived of good health services. With this idea, she planned to establish this second hospital in Faridabad in Haryana after Kochi in Kerala. She said that she herself lives in lic transport services, hence Kerala and hopes the State the hospital here. She also

NSA DOVAL'S SECURITY BREACH

3 CISF men axed, 2 officers moved

The Central Industrial Security Force (CISF) has dismissed three commandos from service and transferred two senior officers of its VIP security unit over a security breach at the residence of National Security Adviser (NSA) Ajit Doval earlier this

Doval is a 'Z plus' category protectee under the Central VIP security list and the security cover is provided by the Special Security Group (SSG) of the CISF.

The punitive actions have been taken after a court of enquiry established by the CISF to probe the February 16 incident held the five personnel guilty on various counts and recommended actions against them, officials said.

While the three SSG commandos have been dismissed from service, the Deputy Inspector General (DIG) heading this VVIP security unit and his second-in-command, a senior commandant-rank officer, have been transferred, they

The security breach occurred at about 7:30 AM on February 16 when a man from Bengaluru attempted to drive his car into the high-security residence of Doval in central

The three commandos, who have been dismissed, were present at the NSA's residence on the day of the incident as part of the security detail. The man was intercepted outside the residence and was handed over to the Delhi Police.

5 Kedarnath chopper operators fined ₹5L each Irregularities in

flying records came to light in June audit, says DGCA

PIONEER NEWS SERVICE ■

Five helicopter operators carrying passengers in the Kedarnath Dham have been fined Rs 5 lakh each. The fine, imposed by the Directorate General of Civil Aviation (DGCA), has been imposed for anomalies in their flying

The DGCA also suspended officials from two other operators for three months on account of breaking safety rules. These irregularities came to light when it was decided to conduct an audit in June. In fact, on May 31, a helicopter carrying pilgrims to a high alti-tude had a hard landing fol-

lowing which, the regulators formed a team and an audit took place.

The DGCA formed a team for spot check of the choppers involved in shuttle operations in Kedarnath, according to a representative of the Uttarakhand Civil Aviation Development Authority (UCADA). "On June 7 and 8, the team conducted a spot check in which serious violations came to light, prompting it to hold a detailed audit of all operators undertaking the shuttle operations," the official

The audit was conducted by the audit team from 13 to 16 Jun 2022. The report said that five operators were found not maintaining correct flying records in their respective helicopter Technical Log Books.

In addition to the 05 operators mentioned above, another two operators i.e. total 07 operators, were found to have violated the provisions of the Joint SOP promulgated by

DGCA. After that, Show Cause Notices (SCNs) were issued to all these seven operators involved in the violations.

The operations at Kedarnath are suspended during the monsoon months due to the inclement weather, and are thereafter recommenced by the operators in end-August / early September, although the quantum of flying in this second part reduces due to the reduced number of pilgrims. The operations are finally concluded in late October / early November, depending on the auspicious date decided by the Shrine Board for closure of shrine.

Against the backdrop of various incidents involving SpiceJet and other carriers in recent times, the civil aviation minister also said the Directorate General of Civil Aviation (DGCA) has set a target of carrying out 3,709 checks this year as part of its annual surveillance plan. Prior to the coronavirus pandemic, the target was around 2,775 checks.

DGCA makes it mandatory for passengers to follow Covid SOPs

ing number of Covid-19 cases in several parts of the country, the Directorate General of Civil Aviation (DGCA) on Wednesday made it mandatory for air passengers to follow protocols and asked all Indian airlines to strictly enforce them. It also asked the airlines to take action against those who fail to comply with the rules.

In a statement, the DGCA said it will be conducting "random checks" in aircraft across the country to see if the COVID-19 protocol is being enforced or not. "Airlines have to ensure that passengers are wearing face masks properly throughout journey and there is proper sensitisation of passengers through various platforms, it mentioned. In case a passenger does not comply with the directions, strict action

will be taken by airlines against the passenger," it added. 'Surprise inspections and checks will also be carried out at airports and inside aircrafts. The airlines would also have to ensure there is proper sensitisation of passengers through various platforms and ensure COVID-19 protocol inside the aircraft," it said.

India reported 9,062 coronavirus infections and 36 related deaths in the last 24 hours, according to the daily bulletin by the Union health ministry of health and family welfare (MoHFW).

The country's active caseload currently stands at 1,05,058, constituting 0.24 per cent of the cumulative tally, according to the ministry data. The overall death toll has reached 527,134, as per min-

Parties cannot be prevented from making poll promises: SC

PNS/PTI ■ NEW DELHI

The Supreme Court on Wednesday said political parties and individuals cannot be prevented from making poll promises aimed at fulfilling the constitutional mandate and the term "freebie" should not be confused with genuine welfare measures. Observing that the voters

are not looking for freebies, the apex court referred to the Mahatma Gandhi Rural Employment Guarantee Scheme and said, "Given an opportunity, they will look for dignified earning". "We all must remember the good old saying: 'There is no free lunch', the apex court said, adding the "concern is about the right

way of spending public money".
"There has to be a distinction between the offer of ornaments, television sets, consumer electronics free of cost and real welfarist offers.

The promise of free coaching for professional courses cannot be compared with the promise of free white goods," a bench headed by Chief Justice N V Ramana said.

The bench, also including justices J K Maheshwari and Hima Kohli is mulling and setting up an expert panel to brainstorm the issue of freebies announced during elections. It said that the issue of regulating

freebies is "getting increasing-ly complicated" and asked all the stakeholders to give their suggestions on the proposed panel while fixing the PIL for

earing on August 22. The bench said the expression 'freebie' should not be confused with genuine welfare measures" and gave illustrations to distinguish between freebies and "real welfarist

"You cannot prevent a political party or individual from making promises that are aimed at fulfilling this constitutional mandate if elected to power. The question is what exactly qualifies as a valid promise," the CJI observed.

The bench deferred the hearing to August 22 after Solicitor General Tushar Mehta, appearing for the Centre, said that senior advocate Kapil Sibal wanted to submit his suggestions.

SC restrains J'khand HC from hearing PIL for probe against CM

PIONEER NEWS SERVICE ■

The Supreme Court on Wednesday restrained the Jharkhand High Court from proceeding with PILs seeking probe against Chief Minister Hemant Soren who has been accused of granting himself a mining lease as the State's Mining Minister.

A bench of Justices UU Lalit, SR Bhat, and Sudhanshu Dhulia reserved its judgement on separate pleas of the Jharkhand government and Soren against an order of the high court that accepted the maintainability of the PIL.

"Heard counsel for the parties. Order reserved. Since this court is now seized of the matter, the high court shall not proceed with the pending petitions," the bench said. Senior advocate Kapil Sibal, appearing for the State Government, submitted that the high court had decided on maintainability

even before all the documents were placed before it. "I have to say this in open court, milords, I am sorry. Where is the occasion in the matter that you are holding the court outside the state and hearing the matter? What is the urgency? Sibal stated. Senior advocate Mukul Rohatgi, appearing for Soren, questioned the credentials of the PIL petitioner.

Additional Solicitor General SV Raju, appearing for the Enforcement Directorate, said criminal petitions should not be thrown out on technical grounds.

BJP national vice president and former Jharkhand Chief Minister Raghubar Das had in February this year claimed Soren abused his position and granted himself the favour of a mining lease, an issue involving both the conflict of interest and corruption. He also alleged violations of provisions of the Representation of People Act.

Play proactive role in FIFA, AIFF issue, SC tells Centre

PIONEER NEWS SERVICE ■

The Supreme Court on Wednesday asked the Centre to take a "proactive role" in the All India Football Federation (AIFF) matter for cellitating the helding of the facilitating the holding of the Under-17 Women's World Cup in India and the lifting of the suspension of the country's apex football body by FIFA.

The top court deferred till the August 22 hearing on the AIFF matter after the Centre said it is in discussion with the International Football Federation (FIFA) over the holding of the U-17 Women's world cup in India.

A bench of Justices DY Chandrachud, AS Bopanna, and JB Paridwala said, "We would impress upon the Union of India to take a proactive role in the matter so that the holding of the Under-17 World Cup and the lifting of the suspension of AIFF, in order to achieve that object, is duly facilitated". At the outset, Solicitor General Tushar Mehta, appearing for the Centre, informed the bench that two meetings have been

held by the government and Committee of Administrators (CoA) with FIFA authorities Tuesday and discussions are going on with a meeting sched-uled for Wednesday. Mehta said that all efforts

are being made to "break some ice" on the holding of the U-17 Women's World Cup in India in October 2022. He requested that the matter be deferred till August 22 so that a consensus could be arrived at between the active stakeholders of the AIFF.

Mehta said that all through the process CoA has played a very constructive role and urged that a few words from the court to all stakeholders to sort out the situation will help them in their endeavour.

Yesterday, after the development, which the judges may also be in the know-how, we took up the matter with the FIFA. We had two meetings with FIFA and we can say that we have reached a stage, where we can say that efforts are being made to break some ice. Therefore, I request that the matter be deferred for further hearing till next Monday", Mehta said.

India, Malaysia review Defence ties

Vow to uphold principle of collective responsibility for maritime security in Indian Ocean Region

PIONEER NEWS SERVICE

India and Malaysia on Wednesday reviewed their bilateral Defence ties and vowed to uphold the principle of collective responsibility for maritime security in the Indian Ocean region.

This was reaffirmed during talks between Navy chief Admiral R Hari Kumar and his visiting Malaysian counterpart Admiral Tan Sri Mohd Reza Bin Mohd Sany in the backdrop of growing Chinese presence in the strategically important region.

In their wide-ranging par-

leys, Admiral Kumar and Admiral Reza also identified several new areas to further strengthen bilateral naval cooperation between the two sides. The Malaysian Navy chief is on a four-day visit to India.

The Navy said Admiral Kumar apprised the Malaysian Navy chief of a broad range of foreign cooperation activities pursued by the Indian Navy.

The two chiefs identified several new avenues for further strengthening bilateral naval cooperation and also expressed commitment to their support to uphold the principle of collective responsibility for maritime security in the Indian Ocean region, the Navy said in a statement.

Admiral Reza will also be interacting with high ranking officials from the Ministry of External Affairs and the National Security Council Secretariat (NSCS).

He is an alumnus of the Indian Navy's Dronacharya

Establishment at Kochi, from where he graduated as a Gunnery Specialist back in 1990. He is also scheduled to visit his alma mater.

Elaborating upon ties between the two navies, officials said bilateral cooperation between the Indian Navy and Royal Malaysian Navy spans across a wide canvas ranging from training to operations. Both navies carried out the

bilateral exercise Samudra Laksamana in May.
The official visit of the

Chief of Royal Malaysian Navy signifies yet another expression of growing collaboration between the two navies and commitment to sustaining the positive trajectory of bilateral relations, the Navy said. The Malaysian chief was accorded a ceremonial guard of honour at the South Block lawns

'Nari Shakti' goes for a toss!

Just a day after PM called for need to respect women his own party led govt in Gujarat released 11 rape convicts

ust after the day, the prime minister called for the need to respect women his own party-led government in Gujarat released 11 rape convicts, defying logicOn U the occasion of 76th Independence Day, the prime minister unfurled the national flag at the Red Fort and made a clarion call to honour 'Nari Shakti Shakti.' He made an emotional appeal to shun misogyny and take a pledge to respect women. As if to mock him, the BJP government in Gujarat released all the eleven rape convicts the very next day. They all were convicted in 2008, by a special court in Mumbai which was later upheld by the Bombay High Court. The gory incident took place in 2002 during the Gujarat riots. Five-month pregnant Bano was gang raped and her toddler daughter was killed along with six others from the family on March 3, 2002. The family was hiding in fields to survive the mayhem when they were spotted by the perpetrators. Only a day before Prime Minister Narendra Modi, gave a

clarion call to respect women. The Gujarat government chose to free all 11 convicts giving them amnesty as per its policy, allegedly. The release however is sound technically. One of the convicts approached the court for his early release under the Code of Criminal Procedure, as he had served about 15 years. In line with the Supreme Court decision which maintained that the Gujarat government could decide as per its 1992 policy, which was in place at the time of the conviction. The apex court neither stopped nor allowed the release of the convicts.

Ironically the state government chose to ignore the central government's guidelines for prisoner release. The central government had recently made a special release policy for convicted prisoners to mark 'Azadi Ka Amrit Mahotsav' and the Rape convicts were categorically listed as not eligible for such release. This is a curious case as there is a so-called double engine government in Gujarat and it is very unlikely that the state government took this decision on its own. There are only two possibilities. Either the government of Gujarat doesn't take the prime minister very seriously (which is very unlikely) or second, it knows what the prime minister says is for mass consumption and so it doesn't need to bother about it. The decision is bizarre as elections are round the corner in Gujarat and the opposition is going to make it an issue and give the BJP bad publicity, especially among the women voters. The BJP has recently suffered due to the Tyagi controversy and it would not like to be called gender insensitive during elections. But it might be thinking of polarizing votes as Bilkis Bano happens to be a Muslim woman. Meanwhile, as the perpetrators of the Bano case walk free another lady Teesta Setalvad struggles to get bail. She was the one who fought for Bilkis Bano!

The murder most foul

If the death of innocent Dalit boy due to beating by his upper caste teacher can't stir our conscience, what will?

n yet another shocking incident Indra Meghwal, , anine-year-old Dalit boy in Rajasthan was beaten to death by his upper caste teacher for drinking from ■ matkameant for upper castes. The boy died afer three weeks battling for life at hospital in Ahmadabad. The boy was allegedly hit by teacher Chail Singh, on eyes and ears. The boy was also abused by the teacher with cattiest slur. The boy from the SC community studied at third standard at Saraswati Vidya Mandir, a private school, in Jalore. When the matter was widely reported the police swung into action and arrested the teacher on charges of murder and sections of the Scheduled Tribes (Prevention of Atrocities) Act. Rajasthan Chief Minister Ashok Gehlot tweeted lamenting the death of the Dalit boy and ensured that justice would be delivered fast. The state government also announced an ex gratia of Rs 5 lakh to the family from the CM Relief Fund. But unfortunately all this is nothing more than routine set up to

cool the tempers and let the incident bury in the past. Life would then go on as before and the Dalit boys would get a lesson in drinking water. Forget the teacher the society and the administration would remain as insensitive as ever. The body of the boy was buried at night. The family was lathi-charged and asked not to make fuss about it. The congress party must walk the talk as Rahul Gandhi has often maintained that his party stands with the marginalized people.

One MLA and 12 councilors have stepped down owing to the incident.Pana Chand Meghwal resigned saying he doesn't have the right to remain a legis-

lator if he can't protect his community. That gives some hope that one day change would come as somebody would have the courage to stand up against the abhorable practice of caste sacrificing his position. The incident is condemnable on many counts. The perpetrator is a teacher who was supposed to be a mentor or 'guru' and taking lives of students in certainly not 'guru dharma' The boy was just nine years old and he just wanted to guench his thirst, did not meant to hurt anybody or abused anyone. Gehlout government, if it is really disturbed about it, must set an example and ensure that a clear instruction is issued to all the schools in Rajasthan that no discrimination against any student on any ground would be tolerated and harshest possible action would be taken against the person indulging in castists behavior. Set an example now!

Think of 'Sermon on the Mount'

The PM rightly asked the nation to shed its colonial mindset. It is our biggest mental block on the way to becoming superpower

rime Minister's Independence Day speech reminded one of "Sermon on the Mount' presumably delivered to Prophet Moses and his Judaic followers on their deliverance to Israel. The contents were not necessarily similar but their import was comparably classical. In 25 years, the PM wants India to be a developed country. Until the last century, we used to go deaf hearing that India was a developing economy, belonging to the Third World. From today the open objective is to be a part of the First World by the year 2047. In Hindi, this means India must be Viksit Bharat.

This is a sharp and clear objective for the citizens to pursue especially its leaders. Presently, many of them are obsessed with distributing freebies to win elections. This is a waste of wealth that should be deployed for economic growth. To elucidate this point, take demonetization followed by the introduction of Goods & Services Tax. The first was a loud and clear message to people to keep away from hoarding tax-evaded wealth because it cannot be productively deployed for developmental activities. The GST was a very constructive, ongoing follow-up on retaining surplus wealth and deploying it for growth. Many citizens, habituated to hoarding their surpluses, still cannot see these two measures in this light. This obstinate mentality

which afflicts not only the wayward but also some academics and intellectuals would be one of the enduring roadblocks to the Prime Minister's march towards First World Status. Apart from distancing our people from mental roadblocks, it is necessary for the people, especially the rulers, to undergo an intellectual revolution whereby unethical and stubborn old ideas are rejected spontaneously and not merely by the fear of the Enforcement Directorate, Income Tax Inspectors, Central Bureau of Investigation and other agencies.

the other psychological change required is to acquire equality confidence and overcome anything like an inferiority complex. To give a recent example, I have a friend resident in Chittaranjan Park who was delighted that I may visit Dhaka to attend a wedding. His advice to me to go, to go and see how a poorer neighbour has overtaken the Indian economy comprehensively. A couple of decades ago, there were Indians who believed that Pakistan has overtaken us in terms of economic points. The PM, therefore, asked us in his speech not to be affected by anything like a slavery complex which we could have been contracted by any of us over the last

The PM asked the people to shed any vestige of a slavery complex that might have been acquired inadvertently over the last many centuries. Indians of older generations did betray a readiness to concede the superiority of a foreigner, say a white person. At the same time, they were equally ready to come in the way of their friends and colleagues getting ahead by competition.

way to feel self-confident. Other than political performance in the centuries past, Indians have a great deal to be proud of. Had we not been a great civilization we could not have survived the blows of so many foreign invasions. A great deal of our legacy is on display in buildings, temples, literature, epics, and whatnot. Treat our united diversity as a source of strength and how the variety adds power to team India - such a team would be a winning team especially if we keep our motherland as our first love and our priority. And of course, we must resolve to be always free and always free. And not go under a conqueror's boots as we often in the past.

There is nothing that Indians cannot achieve if they collectively make up their mind. Until 2014, for example, we had not paid much attention to cleanliness. But once we decided on Swatch Bharat we have come a long way, the same with the electrification of our villages and several other things. How quickly do we succeed: So with manufacturing our toys and importing as few of them as possible. We

resolved and we achieved.

Look at our frontiers today and contrast them with how weakly defended they were in the past. The secret to success was our willpower and sincere application. Now if we encourage our womenfolk to come more and more forward, India would progress must faster. They comprise a huge reservoir of India's strength which is lying untapped and, in effect, wasted. Turning to digital technology, luckily we caught its bus in time. See how soon we will derive what great advantage in this competing world. All in all, India is strong, resourceful, and will do well. Remember our single-minded aim to become a Developed country by 2047.

We have not had the benefit of such a visionary leader in memory. Now that we have his commandments, we should get down to work. I believe one of the great secrets of American success has been the lack of dynastic inheritance.

RESPECT THE INSTITUTIONS

Sir — Mr Naidu the ex-vice president showed anger at his farewell party due to denigrating remarks by opposition members of the house. Such unbearable finger pointing toward going dignitary is unhealthy anyway and it is against the very spirit of farewell. If one has the courage to pass the negative remarks, better it would have done during the tenure. Everyone whether the members of the opposition or the then-present prime minister should pay respect to the retiring office bearer. Disciplinary action should be taken against those who indulge in such indecent behaviour. Democracy functions properly only when the institutions are respected and there is respect for the adversaries. SM **Arif Hussain** | *Hyderabad*

COSTS TO CUT FRIVOLOUS LITIGATION

Sir — The Chief Justice of India-designate Uday Umesh Lalit wants the costs imposed to cut frivolous litigation. On many occasions in the past cost has been imposed for taking not-so-important issues to courts. There are provisions in the law to impose costs when frivolous litigations are brought to court. Imposition of costs should be in the rarest of the rare cases. It should be more an exception than a norm. Just as it is necessary to block frivolous litigations entering the court, it is also necessary that the litigant public is not instilled with fear to take even serious matters to courts fearing that the case they take may be viewed as frivolous followed by the imposition of heavy costs.

The litigant public should take the call given by Justice Lalit as a wake-up call. The court's time is precious. The litigants who take the cases to court generally believe that they are seeking justice in serious matters. It is for the courts to decide what are frivolous cases and what are cases that merit the attention of courts. The courts should dismiss the cases considered to be frivolous and reprimand the petitioners rather than imposing hefty costs. Just as the pop-

ulation is rising, the number of litigants is also on the rise. To overcome this situation, the strength of the judges has also been steadily raised and more courts have come up. Tribunals and Lok Adalats are working in tandem with courts. Appellate authorities are in place in departmental matters. Tribunals, Lok Adalats, and Appellate authorities in government departments have been established to ease the burden on civil, sessions, High Courts, and also Supreme Court. Costs should be imposed in cases, not to the extent that the litigant public becomes afraid of approaching the courts for justice. Frivolous cases should be dismissed at the earliest possible time and the petitioners responsible for bringing such cases should be so admonished that it should be a lesson to others. A VICIOUS ATTACK ON RUSHDIE

Sir — The vicious stabbing of the Indian-origin British author Salman Rushdie is horrifying. It is an unpardonable blow on freedom of expression too. Rushdie has faced several death threats since his novel The Satanic Verses was published in 1988, as many Muslims consider it to be sacrilegious. (editorial, "A cow-

ardly attack", Aug. 15). Rushdie has written 14 books, including the 1981 Booker Prize-winning book, Midnight's Children. But, it is The Satanic Verses that made him the target of a fatwa in Iran, forcing him to go into hiding. Fatwas were revoked and even the Iran government had macerated its stance on the issue, and yet the heightened hate towards a book and its author remained alive. After more than 33 years now, the savaging attack on Rushdie has stunned the entire literary world. Taking revenge through knives for words is certainly a spineless act. Said Mahatma Gandhi, 'A coward is incapable of exhibiting love, it is the prerogative of the brave.

INVITE KRISHNA TO RESIDE IN YOUR HEART

We must cleanse our hearts first for Krishna to enter it

RADHANATH SWAMI MAHARAJ

edic scriptures explain that Krishna is the Supreme Lord. Vedic scriptures explain that Krishna is the Supreme Lord. Brahma Samhitasays, Isvarah paramah Krishna/ saccidananda vigrahah, which means 'Krishna who is known as Govinda is the Supreme Godhead. He has an eternal blissful spiritual body.' So, now the question is, if Krishna is God and is eternal then why he has to appear or take birth? We can understand this by the analogy of the sun. When early in the morning we see sun in the eastern horizon we say that sun has appeared (or is born) and when it sets in the evening, we say the sun has disappeared. But the sun is always there in the sky. Based on our seeing it or not seeing it, we say, it appeared or disappeared. Similarly, Krishna is eternal. When we see him on earth, we say that he has appeared and when he finishes his pastimes and returns to the spiritual world, we say he has disappeared because we cannot see him.

Janmashtami is the day when Krishna appeared in this world. He appeared on the eighth day of dark fortnight (Krishna Paksha) in the month of Bhadrapada (August-September). But why does God, Krishna, take

birth in this world? What is the need? Krishna answers this in Bhagavad Gita 4.7. He says that he comes here to establish religious principles and to teach people like you and me how to live righteously. He comes to lead us from darkness to light - tamaso ma jyotirgamaya. Krishna appeared in a pitched dark prison cell in the middle of the night to Devaki and Vasudeva who were bound by iron shackles and were living in constant fear of Kamsa. As soon as Krishna appeared, the dark prison cell got illuminated. Not just that, Krishna's appearance dispelled fear from the heart of Devaki and Vasudeva. Before Krishna appeared, Kamsa had killed six sons of Devaki immediately after they were born. When Devaki and Vasudeva had just got married, a celestial voice had predicted that the eighth child of Devaki will be the cause of Kamsa's death. Upon hearing this ominous voice, Kamsa wanted to kill Devaki, his own sister. To save his wife's life, Vasudeva promised Kamsa that he will deliver all the child of Devaki to him, and Kamsa can do whatever he wants to do with the child. So, one after another Kamsa mercilessly killed the six children. The seventh child was mysteriously transferred to the womb of Rohini, Vasudeva's other wife who was living in Vraj, from the womb of Devaki. That child was Balarama. Krishna appeared as the eighth child and as predicted, he killed the atrocious demon, Kamsa

The six sons of Devakiwho were killed by Kamsa represent six rebellious proclivities of the mind – kama (lust), krodha (anger), lobha (greed), moha (envy), mada (pride), matsara (illusion). As long as we allow these six enemies to reside in our heart. Krishna will not appear in our heart. If we analyse our life, we will find that we suffer in this world because of these six vices which are called anarthas. In Bhagavad Gita 16.21, Krishna says, lust, greed and anger are gateway to hell so every sane man should give these up, for they lead to the degradation of the soul. As soon as we succumb to these lower nature troubles begin in our life. Our mind remains out of our control because of these impurities. It is important that we cleanse our heart of these six enemies which bring inauspiciousness in our life and seek Krishna's shelter? This has been beautifully explained by Sri Chaitanya Mahaprabhu, the founder of Gaudiya Vaisnavism and the pioneer of Bhakti Movement. He says that the best way to take Krishna's shelter is by chanting his holy names like the Hare Krishna Mahamantra which cleanses our hearts. Once our heart is cleansed our mind will come into our control. And when the mind is under our control then we can always live in peace and bliss. So, this Janmashtami let us try to alleviate our life by inviting Krishna to reside

Selling public sector banks is no solution

Public sector banks still have enormous relevance which is not matched by their private counterparts

or some time now, the talk of privatization of public sector banks has been gaining momentum in the policy circles. Significantly, under the banking reforms, the Central government has reduced 27 public sector banks to just 12 in just three years after a merger exercise. However, the government has also said that banking will continue to be recognized as a strategic sector.
Finance Minister Nirmala Sitharaman

in her Budget speech this year said that two public sector banks and a public sector insurance company would be privatized. It is noteworthy that according to the current laws 51 per cent participation of the Central government in public sector banks is mandatory. But as per the current announced policy, the government

intends to reduce its participation to zero.

The Banking Laws (Amendment) Bill was listed in the Winter session of Parliament last year, but for some reasons it was not presented. It was being said that now this Bill will be presented in the Monsoon session, which also didn't take

However, debate on privatisation of public sector banks has intensified recently after Poonam Gupta, director general of the National Council of Applied Economic Research, and Arvind Panagariya of Columbia University, former vice chairman of NITI Aayog, published an academic paper. This article recommends that all public sector banks should be privatised, keeping only the State Bank of India in government's hands. Both the authors are not saying anything new, as their views about privatisation are well known. They consider privatisation to be the solution to all problems in all sectors, including banks.

FINANCIAL INCLUSION

The arguments of proponents of privatisation of public sector banks cannot be justified for several reasons. When 14 private banks were nationalised for the first time in 1969 and six more in 1980, the government's main objective was to promote inclusive growth. Considering that agriculture, small scale industries, education, export promotion, etc., are of primary importance, the availability of credit was ensured for them through public sector banks, as priority sectors.

Availability of micro loans to extreme ly small borrowers at very low interest rates was also ensured by public sector banks. However, the situation has changed significantly since then. According to the directions of the Reserve Bank, efforts were made to link private banks also with national objectives, but it is equally true that despite all the rules, bye-laws and instructions, private sector banks are no match to the way the task of financial inclusion is being performed by public sector banks.

After the Narendra Modi Government

BOUNDS.

But, we must understand that, today when the share of private banks in deposits and lending is around 36 per cent, only 10 per cent of Jan Dhan accounts have been opened by private banks. This fact speaks tons about the role of public sector banks in financial

Not only this, 90 per cent livelihood loans to six crore women under Deendayal Antyodaya Yojana are being provided by PSBs and regional rural banks (KKBs), sponsored by PSBs. Similarly, the task of giving loans to street vendors is also performed by public sector banks. In such a situation, naturally, the profitability of private sector banks is higher than that of the public sector banks, because these banks are free from the duty of financial inclusion.

Government banks are bound to implement all government schemes. If financial inclusion and social banking are removed from the functioning of public sector banks, their profits can also increase in leaps and bounds.

REGULATION BY RBI

The RBI argues that it does not have much say in PSBs' affairs and, therefore, it cannot control them, whereas it has control over private banks. This argument doesn't hold water. The RBI does have control and regulatory powers over PSBs, which include say in key appointments, audit and policy on loans,

As far as NPAs of public sector banks are concerned, it is well known that between 2004 and 2014 (UPA regime), huge loans were given in the name of infrastructure loans and a large number of these loans turned out to be NPAs. To recover these bad debts in one way or the other, Insolvency and Bankruptcy Law was enacted. But, in the process, a lot of money from public sector banks was lost. In such a situation, since the rules have been tightened now and the chances of such frauds recurring in future are very limited.

Therefore, privatization of public sector banks in the name of efficiency can be narmful in view of social banking and financial inclusion requirements.

Supporters of privatization of banks argue that if the manufacturing sector in the country is to be promoted, then privatization of public sector banks is necessary. But now the question is that there is no unanimity about handing over the public sector banks to the big industrial houses, as the same may lead to cronyism. If the promoters of private banks in the

country are not in a position to buy state-owned banks, there is also a danger that the privatization of public sector banks will lead to an increase in the stake of foreigners in the banking sector. It's notable that the exposure of foreigners in the Indian banking system has increased manifold in the last nearly two decades.

Some experts are of the view that privatization is no solution to the present day banking problems. Experience shows that the efficiency of an organization does not depend on its ownership, but on its management. If seen, after the nationalization of banks, the confidence of the general public increased in financial institutions and the mobilisation of household savings in the country increased significantly. Due to all this, necessary financial resources could be mobilized for development in the country. No government bank failed due to the central government's patronage in public sector banks. Many private banks were saved from failure, thanks to interventions of PSBs.

Recently, a private bank named Lakshmi Vilas Bank had to be handed over to DSB, a Singaporean bank. In such a situation, if the financial sector of the country goes under foreign domination due to the privatization of banks, then the economy will have to suffer its consequences. Therefore, it would not be appropriate to carry out the privatization of public sector banks only on the basis of suggestions made by some institutions or some economists. It is necessary to study the changes caused by this and its possible side effects.

The idea of India has always been inclusive

May the 'inclusive idea of India' be on the march on the celebrated occasion of the 75th anniversary of independence

he word 'inclusive' denotes 'including or containing everything'. It would further mean embracing all people, irrespective of race, gender, age, language, ideology, creed, class, culture, social mores, food habits, dress patterns, nationality, disability or other conditions. To be included is a universal human right.

'Being inclusive' implies equal access and opportunities for all. It rules out discrimination and intolerance. It advocates removal of barriers between individuals, communities and nations. Taking everyone along, along with going together, crossing all borders is the spirit of inclusiveness. 'Nation' is totally an inclusive idea. It is a country or all the people in a country. It has no particular religion, language, culture, and the like. It is a large body of people, united in terms of a certain territory and government. This is often the natural trait of all the citizens, while the degree varies.

Patriotism is not the same as nationalism, even though they share several factors. The former is loyalty to a group conceived of in judicial and political terms, whereas the latter is loyalty to a group understood primarily on ethnic and cultural terms. The former has focus on values and beliefs,

Furthermore, patriotism leads one to serve the country, while nationalism makes one plunge into taking pride in national symbols, monuments and achievements, as well as reviving cultural traits. has since spread to all parts of the country. At least 2,056 cases have been reported and virtually all of the deaths have been children who were not vaccinated, Information Minister Monica

Mutsvangwa said. Zimbabwe's Cabinet has invoked a law used to respond to disasters to deal with the outbreak, she said.

The government says it is embarking on a mass vaccination campaign targeting children aged between 6 months and 15 years old and is engaging traditional and faith leaders to support

Zimbabwe continued vaccinating children against measles even during the height of the coronavirus pandemic, but the drive has been hampered by religious groups that preach against vaccines. The Christian sects are against modern medicine and tell their members to rely on selfproclaimed prophets for healing.

Church gatherings that have resumed following the easing of COVID-19 restrictions have "led to the spread of measles to previously unaffected areas," said the health ministry in a statement

Measles is among the most infectious diseases in the world and mostly spreads in the air by coughing, sneezing or close contact. Symptoms include coughing, fever and a skin rash, while the risk of severe measles or dying from complications is high among unvaccinated children.

Outbreaks in unvaccinated and malnourished populations have been known to kill thousands. cientists estimate that more than 90% of the population needs to be immunised to prevent measles outbreaks.

The World Health Organisation in April warned of an increase in measles in vulnerable countries as a result of a disruption of services due to COVID-19. In July, UNICEF said about 25 million children worldwide have missed out on routine immunisations against common childhood

Germany flying 6 fighters 8K miles in 24 hours to Singapore

A group of German air force fighter jets landed in Singa-pore on Tuesday as part of a marathon bid to fly them some 12,800 kilometers (8,000 miles) from their home base to Southeast Asia in just 24 hours.

The exercise comes at a time of heightened tensions between China and the U.S. And its allies over Taiwan and demonstrates the ability for a European nation to move air power quickly to the region.

The European Union unveiled a new strategy in September for boosting economic, political and defense ties in the Indo-Pacific. German Defense Minister Christine Lambrecht

told reporters that despite the war in Ukraine being a priority at the moment, the Eurofighter mission underscores that Asia as not been forgotten.

We are at the side of all of those who stand for our values such as democracy, freedom and security, and are also willing to contribute," she said as the aircraft took off from Neuburg, Germany, on Monday, the dpa news agency reported.

"Our focus at the moment

is naturally on the eastern flank, for which Russia's brutal war of aggression is to blame, but we also have to keep an eye on other

regions." Part of the EU's new

strategy for the Asia-Pacific is focused on improving maritime security and ensuring safe passage through sea lanes, and several European nations have sent naval assets to the region for maneuvers this year. As China has grown more assertive in the region, the United States, Britain

increasingly a priority.

Germany sent the frigate

Bayern to the region on a nearly seven-month deployment that wound up earlier this year, the first time a German warship had been in the Indo-Pacific for nearly two decades. It took part in joint exercises with allies including Australia, Singapore, Japan and the United States, and was denied a port call in China.

The six multirole Eurofighter jets involved in the current exercise were accompanied by four transport aircraft and three tankers. They were refueled inair along the lengthy flight, and also made stops along the way for refueling, inspection and rotations of pilots.

EU to host Serbia-Kosovo talks in Brussels amid tensions

AP ■ BELGRADE (SERBIA)

Wartime rivals Serbia and Kosovo are holding highlevel crisis talks on Thursday which the European Union mediators hope will de-escalate growing tensions in the Balkans further increase its influence amid the war in Ukraine.

Hopes that the rare face-toface meeting between Serbian President Aleksandar Vucic and Kosovo Prime Minister Albin Kurti, to be held in Brussels, could produce a major breakthrough are slim.

But Western officials overseeing the decades-old deadlock between the two neighbours hope that at least it could eliminate increasing warmongering rhetoric by both sides. "All open issues will be addressed and should be addressed through the EU-facilitated dialogue," European Commission spokesperson for foreign affairs Nabila Massrali told reporters. "Both parties must end their hostilities at this point" and "act responsibly".

The latest tensions between Serbia and its former province of Kosovo soared late last month when Kurti's Govt declared that Serbian identity documents and vehicle license plates would no longer be valid on Kosovo territory.

Israel carried out Gaza strike that killed 5 minors: Reports

AP ■ JEBALIYA (GAZA STRIP)

Palestinian human rights Agroup and an Israeli newspaper reported Tuesday that an explosion in a cemetery that killed five Palestinian children during the latest flare-up in Gaza was caused by an Israeli airstrike and not an errant Palestinian rocket.

It was one of a number of blasts during the fighting that did not bear the tell-tale signs of an Israeli F-16 or drone strike, and which the Israeli military said might have been caused by rockets misfired by the Palestinian Islamic Jihad militant group.

The five children, aged 4 to

16 years old, had gathered in the local cemetery, one of the few open spaces in the crowded Jebaliya refugee camp, on Aug. 7, hours before an Egyptian-brokered cease-fire ended three days of heavy

Residents said a projectile fell from the air and exploded in the cemetery. When The Associated Press visited the site, it saw none of the usual signs of an airstrike by an Israeli F-16 or drone, adding to suspicions that the blast was caused by an errant rocket. Both the Israeli military and Palestinian rights groups said at the time that they were still investigating the blast.

On Tuesday, the Gazabased Palestinian Center for Human Rights said its investigation of shrapnel and other evidence led it to conclude that the blast was caused by an Israeli airstrike. "This was a missile fired

from an Israeli aircraft," said Raja Sourani, the director of the group, as he displayed pictures of what he said was a fragment showing the missile's serial number.

Crimea 'sabotage' highlights Russia's woes in Ukraine war

spate of fires and explosions has turned Russian-annexed Crimea from a secure base for the further invasion of Ukraine into the latest flashpoint highlighting Moscow's challenges ahead in a war that is nearing the half-year mark.

A statement from British defense intelligence Wednesday that "Russian commanders will highly likely be increasingly concerned with the apparent deterioration in security across Crimea, which functions as rear base area for the occupation".

Even Russia itself acknowledged it was an "act of sabotage" that caused Tuesday's explosions and fires that ripped through an ammunition depot near Dzhankoi in once-secure Crimea, leading to chaotic scenes when around

As a vivid reminder of Russia's vulnerability in Crimea, detonations at the depot near Dzhankoi were still continuing Wednesday.

A week earlier, Russia's military in Crimea already came under pressure when Ukraine said nine Russian warplanes were destroyed following explosions. At the time, Moscow still offered the possibility of a wayward cigarette butt as the cause.

No such explanations would suffice anymore as the war, which had long centered on brutal fighting in Ukraine's eastern Donbas region, has now given southern Crimea increasing importance.

Worsening the outlook in Crimea was a report by the Kommersant business paper, that explosions had also taken place near Gvardeyskoye in the

centre of the peninsula. By Wednesday, there still was no comment from the Russian authorities.

The British intelligence report said Gvardeyskoye and Dzhankoi "are home to two of the most important Russian military airfields in Crimea".

Ukraine has stopped short of claiming responsibility for any of the blasts, including those at another Crimean air base last week. Russia seized the Crimean Peninsula in 2014 and has used it to launch attacks against Ukraine in the war that began

behind the explosions, that would represent a significant escalation in the war. Such attacks could also indicate that Ukrainian operatives are able to penetrate deeply into Russian-occupied territory. Ukrainians flee grim life in Russian occupied Kherson

Tt was early one morning Lwhen life under Russian occupation became too much for Volodymyr Zhdanov: Rocket fire aimed at Ukrainian forces struck near his home in the city of Kherson, terrifying one of his two children.

His 8-year-old daughter 'ran in panic to the basement. It was 2 o'clock in the morning and (she) was really scared, said Zhdanov, who later fled the city on the Black Sea and has been living in Kyiv, the capital, for the past three weeks.

Kherson, located north of the Crimean Peninsula that was annexed by Moscow in 2014, was the first city to fall after Russia's invasion on Feb. 24. The port remains at the heart of the conflict and Ukraine's efforts to preserve its vital access to the sea. For Russia, Kherson is a key point along the land corridor from its border to the peninsula.

Zhdanov and others who made the hazardous journey to escape from the region describe there, part of a heavy-handed effort by Russia to establish permanent control.

The streets in the city, which had a prewar population of about 300,000, are mostly deserted. Rumors swirl about acts of armed resistance and the sudden disappearance of officials who refuse to cooperate with the Russian authorities.

Occupation forces patrol in markets to warn those trying to use the Ukrainian currency, the hryvnia, in transactions. Pro-Moscow officials have been installed in local and regional governments, as well as on the police force. Workers at various municipal services face pressure to cooperate with Russian managers.

Most schools have closed. Supplies of essential goods are uneven, halting most commercial activity. There are shortages of medicines and spikes in the price of other commodities.

 $P_{\scriptsize{Shehbaz\ Sharif\ is\ likely\ to}}^{\scriptsize{akistan\ Prime\ Minister}}$ have a bilateral meeting with Chinese President Xi Jinping next month on the sidelines of the Shanghai Cooperation Organisation (SCO) summit in Uzbekistan, according to a media report on Wednesdav.

President Xi is expected to attend the SCO summit scheduled for September 15 and September 16 in Samarkand, The Express Tribune reported.

Pakistan is part of the SCO which also includes China, Russia, India and the Central Asian states of Uzbekistan, Kazakhstan, Tajikistan and Kyrgyzstan.

A bilateral meeting between President Xi and Prime Minister Shehbaz is on

the cards at the sidelines of the SCO summit, sources were quoted as saying by the Express Tribune. However, there is no offi-

cial clarity on whether President Xi will attend the summit in person. Some reports suggest that

he may attend the summit virtually because of the strict COVID-19 protocols, the report said. The sources also said that Pakistan was exploring options for a possible bilateral meeting between Russian President Vladimir Putin and Shehbaz. However, nothing is final yet, the sources added.

In an informal meeting, Russian Foreign Minister Sergei Lavrov invited his Pakistani counterpart Bilawal Bhutto-Zardari to visit

Interest subvention on short farm loan restored

Cabinet OK's ₹34,856 crore towards scheme

New Delhi: With RBI hiking the lending rate, the Union Cabinet on Wednesday earmarked ₹34,856 crore towards the interest subvention scheme to help banks provide short term agriculture loans of up to ₹3 lakh at a rate of 7 per cent.

Information and Broadcasting Minister Anurag Singh Thakur said the Cabinet has decided to restore interest subvention on short term agriculture loans to 1.5 per cent for all financial institutions.

The interest subvention of 1.5 per cent will be provided to lending institutions for financial years 2022-23 to 2024-25 for short term loans of up to Rs 3 lakh to the farmers.

The interest subvention support requires additional budgetary provisions of ₹34,856 crore for the period of 2022-23 to 2024-25 under the scheme, an official statement said. Thakur said the government's support to banks for the interest subvention scheme was stopped in May 2020 as lenders were themselves able to provide short term agriculture loan at 7 per cent.

However, with the Reserve Bank of India (RBI) increasing the repo rate or short-term lending rate thrice by 140 basis

points in recent months, it became necessary to compensate banks so that they can continue providing agriculture loans at 7 per cent.

Thakur also said the government has not let the fertiliser prices to rise despite the increase in global prices.

Further, the minister said the fertiliser subsidy in the current fiscal year is likely to be more than ₹2 lakh crore.

In the Union Budget for 2022-23, the fertiliser subsidy was estimated at ₹1.05 lakh crore. The subsidy was ₹1.62 lakh crore in the last financial year. On the interest subvention scheme, the official statement said the government support will ensure sustainability of credit flow in the agriculture sector as well as ensure financial health and viability of the lending institutions, especially regional rural banks and cooperative banks.

Banks will be able to absorb the increase in the cost

of funds following the hike in repo rate by RBI and will be encouraged to grant loans to farmers for short term agriculture requirements.

This will also lead to generation of employment since short term agriculture loans are provided for all activities including animal husbandry, dairying, poultry, and fisheries, the statement said.

The government had introduced Interest Subvention Scheme (ISS), now renamed as Modified Interest Subvention Scheme (MISS), to provide short term credit to farmers at subsidised interest rates.

Under the scheme, short term agriculture loan of up to ₹3 lakh is available to farmers engaged in agriculture and other allied activities at 7 per cent. An additional 3 per cent subvention (Prompt Repayment Incentive - PRI) is also given to the farmers for prompt and timely repayment

Govt provides additional ₹50K cr under ECLGS to hospitality sector

Wednesday approved an additional ₹50,000 crore under the Emergency Credit Line Guarantee Scheme (ECLGS) to ensure low-cost credit flow to hospitality and related seg-ments hit hard by the Covid-19 pan-

The Union Cabinet has approved the enhancement in the limit of ECLGS by ₹50,000 crore from ₹4.5 lakh crore to ₹5 lakh crore, with the additional amount being earmarked exclusively for enterprises in hospitality and related sectors, Information and Broadcasting Minister Anurag Singh Thakur told reporters here.

The increase has been done on account of the severe disruptions suffered by hospitality and related enterprises due to the pandemic.

The enhancement is expected to provide much needed relief to enterprises in these sectors by incentivising lending institutions to provide additional credit of up to ₹50,000 crore at low cost, an official statement said.

The ECLGS was announced in May 2020 in wake of the outbreak of Covid-19 to help various sectors, especially in the MSME segment, to get credit at a concessional rate of 7 per cent. Loans of about ₹3.67 lakh crore have been sanctioned under ECLGS till August 5, 2022.

In Union Budget 2022-23, Finance Minister Nirmala Sitharaman had announced extending the validity of ECLGS till March 2023 and an increase in the limit of guaranteed cover by ₹50,000 crore.

The additional amount of ₹50,000 crore would be made applicable to enterprises in hospitality and related sectors till the validity of the scheme (March 31, 2023).

The statement further said the ongoing pandemic has adversely impacted contact-intensive sectors, especially the hospitality and related segments, more severely.

"While other sectors were back faster on the path of recovery, demand continued to be subdued for these sectors (hospitality and related activities) for longer period, suggesting the need for suitable interventions for their sustenance and recovery," it said.

Given their high employment intensity and direct and indirect linkages with other sectors, their revival is also necessary for supporting overall economic recovery, it added.

This additional guarantee cover is expected to support the recovery of these sectors, the release said. PTI

India's oil demand to rise 7.7% in '23 | Sebi rejigs advisory

New Delhi: India's demand for petroleum products like petrol and diesel will grow by 7.73 per cent in 2023, the fastest pace in the world, an OPEC report said. India's demand for oil products is projected to rise from 4.77 million barrels per day (bpd) in 2022 to 5.14 million bpd in 2023, OPEC said in its monthly oil report.

The growth in demand is the fastest in the world ahead of 1.23 per cent of China, 3.39 per cent of the US and 4.62 per cent of Europe. For 2023, the Organisation

of Petroleum Exporting Countries (OPEC) projected a growth of 4.67 per cent in Ĭndia's demand to 5.38 per cent. This, however, will be lower than 4.86 per cent growth in China. India is the world's third largest oil importing and consuming nation behind the

The demand for petroleum products in India is supported by the healthy economic growth of 7.1 per cent, continuing economic reopening amid ease of Covid restrictions and easing of trade-relat-

ed bottlenecks supporting both mobility and industrial sector

The report said the oil demand will see a dip in the third quarter (July-September) due to the arrival of the monsoon but will pick up the following quarter on the back of the festival and holiday season. "Overall, based on the most recent trends, demand for

diesel and jet kerosene would likely account for a bigger part of the growth in demand in H2 as consumption of these two products had fallen sharply due to the pandemic," it said.

India's crude imports edged higher averaging 4.7 million bpd in June, with Russian oil flows up 0.9 million bpd, the report said quoting secondary sources. "In terms of crude imports

by source, Kpler data shows Russia moving up to be the top June, securing a 24 per cent share. Iraq fell to second with a share of 21 per cent, followed by Saudi Arabia which was stable at 15 per cent," it said.

The report of OPEC - an organisation of the world's

major oil exporting nations such as Saudi Arabia and Iraq, stated that India's crude imports are likely to remain close to current levels in July, with Russian inflows remaining above 1 million bpd and with expectations for slightly lower flows from elsewhere. It saw India's economy continuing on a recovery path, supported by pent-up demand for services and higher industrial output.
"India's economy may

maintain its upward recovery momentum, but it would be moderate given several risk factors, including high inflation, less accommodative monetary conditions and a deteriorating external environment.

'Import inflation is expected to continue rising in 2H22, leading to a higher trade deficit considering that India is a major importer of commodities and slowing global exports," it said. Also, the recent hikes in interest rates may also weaken the country's growth prospects since they prompt the deferral of investment plans in sectors without adequate capacity utilisation.

Airtel pays ₹8,312.4 cr to DoT to clear 4-yr instalment in advance for 5G spectrum

New Delhi: Telecom operator Bharti Airtel has paid Rs 8,312.4 crore to the Department of Telecom towards dues for spectrum acquired in the recently concluded 5G auctions, the com-

pany said on Wednesday. With the payment, Airtel has paid four years of 2022 spectrum dues upfront.

Airtel said it believes that this upfront payment, coupled with the moratorium on spectrum dues and AGR (adjusted gross revenue)-related payments for four years, will free up future cash flows and allow Airtel to dedicate resources to single-mindedly concentrate on the 5G rollout.

Telecom tycoon Sunil Bharti Mittal's Bharti Airtel

made a successful bid of Rs 43,039.63 crore.

"This upfront payment of 4 years allows us to drive 5G rollout in a concerted manner given our operating free cash flow. Airtel also has access to Rs 15,740.5 crore in capital from the rights issue, which is yet to be called.

"With the ideal spectrum bank, best technology and adequate free cash flow, we are excited to bring to the country a world-class 5G experience," Bharti Airtel MD and CEO Gopal Vittal said in the state-

The company had an option to pay Rs 3,848.88 crore upfront and the rest in 19 annual instalments.

The country's biggest ever auction of telecom spectrum received a record Rs 1.5 lakh crore worth of bids, with Mukesh Ambani's Jio cornering nearly half of all the airwaves sold with Rs 87,946.93 crore

Over the last one year, Airtel said it has also cleared Rs 24,333.7 crore of its deferred spectrum liabilities much scheduled

FPIs stock holding slips 14% to USD 523 bn in Jun qtr: Report

New Delhi: The value of the foreign portfolio investors (FPI) holdings in the domestic equities dropped 14 per cent to USD 523 billion in the three months ended June 2022 from the preceding quarter, according to a Morningstar report.

This was the third consecutive quarterly decline in the value of FPIs' investments in Indian equities. Foreign investors were cautious since the start of the year and it intensified as the year progressed, following the influence of worrying trends in both global and domestic markets.

"During the quarter ended June 2022, the value of FPI investments in Indian equities fell by 14 per cent to USD 523 billion from USD 612 billion recorded in the previous quar-

ter," the report noted. As of June 2021, the value of FPI investments in Indian equities was USD 592 billion.

FPIs' contribution to Indian equity market capitalisation also fell during the quarter under review to 16.9 per cent from 17.8 per cent in the March quarter.

Mumbai: Elevated Aviation Turbine Fuel (ATF) prices and Rupee depreciation are likely to pose a serious threat to the recovery process for domestic carriers, credit ratings agency ICRA said on Wednesday.

In India, ATF accounts for around 45 per cent of the operational cost of an airline.

Besides, as much as 35-50 per cent of the airlines' operating expenses are US dollar driven, as per ICRA.

An area of concern remains the ATF prices, which surged by around 77 per cent Y-o-Y in August, given the elevated crude oil prices due to geo-political issues arising from the Russian invasion of Ukraine, the ratings agency

On an aggregate basis, it said a return to normalcy will lead to recovery in passenger load factors, which, in turn, will aid revenues; however, these two factors will continue to weigh on the domestic airlines" earnings in FY23.

This apart, the expected

launch of Jet Airways and the entry of Akasa Air, are likely to intensify the competition for the domestic carriers. "ICRA believes that the

domestic air traffic vields have moved up by 25-30 per cent over pre-Covid levels on domestic routes. The industry earnings in FY2023 will continue to reel under pressure owing to the elevated jet fuel prices, coupled with the depreciation of the Indian Rupee against the US dollar," Suprio Banerjee, Vice President and

Sector Head at ICRA, said.

On a month-on-month basis, domestic air passenger traffic was 7 per cent lower in July compared to the June passenger volumes of 10.05 million, given some impact of the cyclicality in passenger travel mainly arising from the lean period during the monsoon, it

secure with the financial means to place an order for more planes, its chief Vinay Dube said on Wednesday, days after the passing away of the airline's key investor Rakesh Jhunjhunwala. The carrier, which took to

the skies on August 7, received its third aircraft on August 16 and the same will be used for flights on the Mumbai-Bengaluru route shortly. With the passing away of

vided a tailwind for the country's newest airline, the future trajectory of the airline will be closely watched. Against this backdrop,

Dube on Wednesday thanked Jhunjhunwala for his support in recruiting some of the best aviation talents in the country.

"He wanted us to have a topnotch leadership team that made all day-to-day decisions at the airline without having to fall

back on him or any other investor," Dube, Founder and CEO of the carrier, said in a statement. Seeking to dispel any possible apprehension about the way forward for Akasa Air, he said the airline will continue to grow its fleet by adding one new aircraft every two weeks.

"Thanks in no small part to Jhunjhunwala, for which we will always be grateful, Akasa Air is a well-capitalised airline with the financial means to induct 72 aircraft over the next

five years.
"In fact, our financial platform is strong enough to allow

Akasa to place an aircraft order in the next 18 months that will be significantly larger than our first. In simple terms, our growth is secure," he emphasised. The 62-year-old Jhunjhunwala passed away on August 14, a week after Akasa Air operated its first flight from Mumbai to Ahmedabad, and he was also on the inaugural flight.

SERENA TROUNCED GOALKEEPER ERROR NEARLY COSTS PSV BY RADUCANU

rerena Williams bowed out of the WTA/ATP Cincinnati Masters at the first hurdle on Tuesday, losing in straight sets to US Open champion Emma Raducanu as the end of her glittering career looms ever closer.

Williams, who last week indicated that she is planning to retire after this month's US Open, was no match for British teenager Raducanu, who romped to a 6-4, 6-0 win.

The 40-year-old Williams left the court swiftly after the defeat without speaking to television reporters and did not hold a press conference.

Raducanu broke Williams at the start of both sets to claim victory in what was her first and likely last meeting with the 23-time Grand Slam singles champion.

"I was nervous from the first point to the last," Raducanu said. "Serena is dangerous and can come back from any situation.

"I had to stay focused. I'm so pleased I managed to keep my composure."

Williams, winner of titles here in 2014 and 2015, was competing in only her fourth match of 2022 after starting her season at Wimbledon due to

Raducanu announced her intentions from the start with a break to love of Williams and never let up.

young improved to 14 wins, 17 defeats since winning the Open last September from a qualifying

Raducanu meanwhile said she was honoured to be part of the spectacle on Tuesday in what was one of Williams' final games as a professional.

'We all need to honour Serena and her amazing career," she said. "I'm so grateful for the experience of playing her and for the fact that our careers have crossed.

"All she has achieved is inspirational. It's a true honour to share the court with her." Raducanu never let Williams into the match.

The young Londoner seeded 10th took a 4-1 lead in the opening set and completely swept the second, advancing on her first match point, an unreturnable serve.

Raducanu committed a single unforced error in the opening set compared to a dozen for Williams.

rmando Obispo spared Walter Benitez's blushes as PSV Eindhoven rescued a 2-2 draw against Rangers in the Champions League play-off first leg on Tuesday.

PSV goalkeeper Benitez looked to have gifted Rangers the advantage when he allowed Tom Lawrence's free-kick to squirm through his hands in the second half at Ibrox.

Benitez's howler put Rangers 2-1 ahead after Antonio Colak had cancelled out Ibrahim Sangare's opener for PSV.

But Obispo bailed out his team-mate with a priceless late leveller that leaves the tie on a knife-edge heading into next week's second leg in Eindhoven.

Although PSV will be favourites on home turf, Rangers should still fancy their chances after staging a rousing comeback from 2-0 down to defeat Union Saint-Gilloise 3-0 in the third qualifying round.

Following on from that dramatic comeback, this was another tense European night for Rangers in their bid to return to the Champions League group

Venus, Osaka exit in 1st round

Venus Williams and Naomi Osaka both exited the ATP/WTA Cincinnati Masters on Tuesday with straight-set, opening-round losses.

Williams, 42, who won her last match at the Midwestern pre-US Open event in 2019, lost to 2016 champion Karolina Pliskova 7-5, 6-1.

Osaka's summer form slump deepened meanwhile as the four-time Grand Slam winner was defeated 6-4, 7-5 by China's Zhang Shuai.

Pliskova, one of the game's biggest servers, struck eight aces and broke four times in a win over Williams lasting for

Captain KL rahul in focus in Zimbabwe

kipper KL Rahul's form and fitness will be observed keenly when India take on Zimbabwe in a three-match series, starting Thursday, in 50-over format, which is fast losing popularity and struggling to retain its identity.

Supposed to be one of the most vital cogs in India's T20 World Cup top-order, Rahul would like to make full use of the game time he gets as an opener during the three games against Regis Chakabva's side.

Rahul's immediate task at hand after almost three-month lay-off, during which he underwent a sports hernia surgery, is to keep his opening slot in T20 cricket and adapt to the team's philosophy of going hell for leather from ball one.

It won't just be about runs that skipper Rohit Sharma or coach Rahul Dravid would be looking at when they monitor Rahul's performance in Zimbabwe.

Rather they would like to check out his approach and the manner in which he is scoring runs, something he would need to tweak before that first Asia Cup game against Pakistan on August 28.

On the Harare Sports Club batting belters where Zimbabwe chased down Bangladesh's 300 plus and 290-odd targets in successive games in the recentlyconcluded series, India's batting line-up with Rahul, Shikhar Dhawan, Shubman Gill, Deepak Hooda and Sanju Samson will certainly prove to be more than a handful for

And unlike Bangladesh, a bowling attack comprising Mohammed Siraj, Prasidh Krishna, Deepak Chahar, Kuldeep Yadav along with allrounders Shardul Thakur and Axar Patel has more potency in

any conditions against this Zimbabwe line-up.

For Zimbabwe, the aim would be to become the proverbial banana peel on which Rahul and his men can slip as a series win for 'Men in Blue' would hardly win them any accolades but a defeat would invite sharp criticism.

The hosts therefore wouldn't mind if the likes of Sikandar Raza, Chakabva and Innocent Kaia repeat their batting performances from the Bangladesh encounters and show the world that the previous series win was not just a mere flash in the pan.

OBJECTIVES OF SERIES

Gone are the days of Flower brothers (Andy and Grant), Heath Streaks (now tainted and suspended), Neil Johnsons, Murray Goodwins and Henry Olongas. It was a side that could take the Mickey out of the opposition on good days.

Zimbabwe cricket, like the country itself has gone through turmoil over the past two decades and the quality has been severely impacted.

Someone like 36-year-old Raza, 34-year-old skipper Chakabva or 34-year old Donald Tiripano are sincere performers but would never make any opposition feel threatened.

India's tours of Zimbabwe

are normally a kind of gift from 'big brother' to help a 'younger' gain financial stability

The TV and digital rights revenue from three India games will cover Zimbabwe cricket's more than half the costs for the

So this earns BCCI a goodwill gesture.

On the cricketing part, this gives selectors a chance to look at bench strength and also jot down some of the names, who will figure in the larger picture for the 2023 50-over World

Right now, Indian cricket possesses such quality that it can field three white ball teams in three different continents at the same time.

This is one such glorified 'A' series as a lot of the members will be playing in the home A series against New Zealand and Australia later this year.

CHAHAR AND KULDEEP

Two bowlers who would be looking to give it their all are Deepak Chahar, who is back in the mix after six months and Kuldeep Yadav, who is slowly getting his mojo back.

Bhuvneshwar Kumar has consolidated his place in the T20 set-up but Chahar with his swing bowling in Powerplay overs and ability to hit big

India to play 38 Tests, 42 ODIs, 61 T20Is in Men's FTP '23-'27

PTI ■ NEW DELHI

The Indian men's team will be playing a whopping 138 bilateral international matches during the next fivevear Future Tours & Programme (FTP) Cycle between May, 2023 to April, 2027, the ICC said on Wednesday.

Most sought-after team Blue' will play 38 Tests, 42 ODIs and 61 T20Is in the fiveyear period and focus on shortest format is an indicator how priorities across formats will be changing.

The ODI bilaterals will remain but mostly be threematch series.

India expectedly has a choc-a-bloc calender but as usual there won't be any bilateral cricket series with Pakistan due to obvious political reasons.

The 12 Members will play a total of 777 international matches - 173 Tests, 281 ODIs and 323 T20Is - in the 2023-

 $B^{\text{en Stokes was dismissed on}}_{\text{the stroke of lunch on the}}$ opening day of the first Test between England and South Africa at Lord's on Wednesday, to leave his side perilously placed on 100-5.

South Africa fast bowler Kagiso Rabada once again proved his worth, removing openers Alex Lees and Zak Crawley after England had been sent in to bat by Proteas captain Dean Elgar.

Fellow quicks Marco Jansen and Anrich Nortje followed up by capturing the prized wickets of Joe Root and Jonny Bairstow, with all four dismissed batsmen out in single figures as England slumped

With the final ball of the morning session, Nortje squared up Stokes (20) to have the England skipper caught in the slips. Ollie Pope was the lone batsman to hold firm, with 51 not out.

Spearhead fast bowler Rabada had been doubtful for the opening match of the three-Test series with an ankle injury, but the 27-year-old showed no sign of discomfort, taking 2-26

All of those victories had been achieved by chasing down targets in the fourth innings, something that cannot happen in this match after Elgar won the toss and fielded a green-tinged pitch under overcast skies.

Rabada had left-hander Lees caught behind for five and removed Crawley for nine after he nicked a ball that nipped away low to Aiden Markram at

Shastri had very little tolerance for failure: Karthik

 $R_{

m avi}$ Shastri used to push players to achieve special things but he had very little tolerance for failure during his stint as India's head coach, said veteran wicketkeeper batter Dinesh Karthik. The 37-year-old had played

sporadically during Shastri's tenure as India coach, especially during the 2019 World Cup.

The Shastri-Kohli tenure was a good one for Indian cricket but often the duo was criticised for not standing by a few players, who probably needed a bit more empathy during their lean patch.

"He (Shastri) had a very low tolerance for somebody who wouldn't bat at a certain pace he did not like or someone who was

doing very differently in the nets and in the match, he would go and bat differently," Karthik said on Cricbuzz.

"He (Shastri) would not be

very appreciative of that. Shastri knew exactly what he wanted from the team, the way in which it was played but his tolerance

was very little for failures. He

always used to push people to do

Karthik, who at 36, is a designated finisher in T20 set-up, has already said that he feels way

more relaxed and secured in the Rohit Sharma-Rahul Dravid era. Shastri had a successful coaching stint as under him India claimed Test series victories on Australia soil twice, drew the Test series 2-2 in England
