ISIS fidayee plotting to avenge Prophet barh labed

Suicide bomber detained in Russia

RAMEEZ KHAN | NEW DELHI

The Russian Federal Security Service (FSB) has detained an ISIS terrorist in Russia, who was planning a terror attack against a Central Asian country for insulting the Prophet Muhammad.

The FSB said in a statement that the suspect was arrested on August 18 in Russia, and from there he was later arrested in Moscow. The FSB said it had been monitoring the suspect for a long time and that it had obtained evidence indicating that he was planning to carry out a terrorist attack against a Central Asian country for insulting the Prophet Muhammad.

The FSB said it had obtained evidence indicating that the suspect was planning to carry out a terrorist attack against a Central Asian country for insulting the Prophet Muhammad.

**Ready for ‘long battle’ to ‘unite’ country, says Rahul**

Cong former chief reaches out to civil society ahead of his ‘Bharat Jodo Yatra’

Pioneer News Service

A head of the big party’s ‘Bharat Jodo Yatra’ (yatra) campaign, Rahul Gandhi on Monday reached out to civil society and leaders of the national level social and cultural organisations. Rahul Gandhi addressed a gathering of the national level social and cultural organisations, and leaders of the civil society in New Delhi and said that the ‘long march’ is to build a ‘united’ country where people of all religions and languages live together.

He said that the yatra is a call to unite, that is, to make a united and advanced country. The yatra is not only an event to be undertaken, it is a commitment to be fulfilled.

**Will hear scope of powers of Centre, Delhi Govt over Delhi services**

Pioneer News Service

Delhi Chief Minister Arvind Kejriwal on Monday said that the Delhi government will hear the scope of powers of the Centre and Delhi government over Delhi services.

“The Delhi government has never taken a decision without consulting all stakeholders. This government believes in the role of consultation and the principle of no action without consultation. We believe in inclusive governance and we will ensure that every voice is heard,” Kejriwal said while addressing the gathering of the national level social and cultural organisations.

**Terrorism, fundamentalism, AfS among agenda in SCO meet**

Pioneer News Service

Defence Minister Rajnath Singh sought on Monday to end legal and diplomatic row by terrorism and fundamentalism-related terror threat and security issues in the SCO countries. The SCO (a Moscow-based economic and security bloc and region’s intergovernmental organisation) is a major international organisation that combines countries in the area of the Asia-Pacific region.

Defence Minister of China and a high-level delegation arrived here on Monday to attend the SCO Defence Ministers Meeting. Rajnath Singh said that the SCO countries should work together to promote peace, security and prosperity in the region.

High moral values and ethos guided us through the freedom movement and the same became the hallmark of our national journey ever since.

T he President of Mexico, Andrés Manuel López Obrador, has set up a five-member panel in Mexico, including the Mexican Health and Social Development Secretaries, and the President of the Senate, to work on a global plan to end AIDS in the country. One India highly rated as this is a laudable step that India has acquired international recognition for its efforts to restore the health of patients and serve the people of the world. India is known for its adherence to ethical, moral, and human values. Where else in the world, do you find a country that has been characterized by a constant emphasis on the sacrifices of the future on the path of progress and development? India has been characterized by a constant emphasis on the sacrifices of the future on the path of progress and development. One India highly rated as this in a laudable step that India has acquired international recognition for its efforts to restore the health of patients and serve the people of the world. 

The pace of human-centered progress and development depends on ideas and their leadership. India's challenge is to prove-dedicate itself to serve them-selves and the country and to become a model for the world of leadership.

The measure of social harmony and religious amity that is achieved is seen in the progress of the country. This is achieved in the progress of the country. This has to be achieved on a sustained basis. The writer is a Professor (Emeritus) of the English Language and Literature Department.

Let’s take a look at some of the key takeaways from the report:

- The report highlights the importance of promoting digital literacy and numeracy skills among children.
- It emphasizes the need for targeted interventions to address disparities in learning outcomes.
- The report stresses the importance of teacher professional development and support.
- It advocates for the use of technology to enhance learning experiences.
- The report underscores the role of family engagement in supporting children’s learning.

The report provides practical recommendations for policymakers, educators, and parents to improve learning outcomes and ensure that every child has access to quality education.

More trouble for Congres...
Aurobindo’s evolution from a nationalist revolutionary to a spiritual Indian was profoundly divided.
Russian shelling across the entire front line has forced an atomic plant wound four kilometers from the border to evacuate all of its employees, reported on Monday, an official with the Nuclear Power Plant at Zaporizhzhia, near the Russian border.

The unprecedented evacuation order comes during one of the most violent phases in the war in Ukraine's Zaporizhzhia region, where Russian troops have been allied with the separatists in the self-proclaimed Donetsk and Luhansk People's Republics.

The Nuclear Power Plant at Zaporizhzhia is Europe’s largest nuclear power plant, with seven reactors generating electricity that is exported to Ukraine and neighboring countries.

On Monday, the plant operator announced that all of its employees had been evacuated due to the ongoing Russian shelling. The plant has been operational since 1985 and produces 8.7 gigawatts of electricity, sufficient to meet the needs of 8 million people.

The evacuation order was announced after a series of Russian shelling incidents that have targeted civilian infrastructure in the region, including homes, schools, and hospitals.

In a statement, the nuclear plant operator said: "As a result of the ongoing shelling in the area, we have been forced to take the extraordinary decision to evacuate all of our employees from the site."

The evacuation measures were also taken in response to reports of Russia preparing to launch a large-scale offensive in the region.

The plant's director, Oleksandr Zaliy, said: "The safety of our employees is our top priority. We have followed all of the safety protocols and procedures to ensure their safety."

The nuclear plant is located near the city of Zaporizhzhia, which is under control of the self-proclaimed Donetsk People's Republic, a Russia-backed separatist group.

The plant's importance in the region cannot be overstated, as it provides a significant portion of Ukraine's electricity needs. The Zaporizhzhia nuclear power plant has been in operation since 1985 and is now one of the most critical infrastructure facilities in the region.

The plant's director, Oleksandr Zaliy, said: "The safety of our employees is our top priority. We have followed all of the safety protocols and procedures to ensure their safety."

refugees settled. Thugs have taken back the land where the few people will.

More than a year after the quake that struck southern Haiti on August 12, 2021, officials said that the ship's arrival at the Hambantota port “will serve as an important milestone for Sri Lanka in its efforts to ensure sustainable management of the Chinese vessel.”

The security and cooperation in the Indo-Pacific is a key focus for the Biden administration, and the visit of the Yuan Wang 5 is seen as a sign of continued support for Sri Lanka in its efforts to manage the China-backed Hambantota port.

The visit is also significant in terms of maintaining international cooperation in the region, where China has been increasing its presence through projects like the Hambantota port.

The visit of the Yuan Wang 5 to Hambantota port marks another step in the ongoing discussions between Sri Lanka and China regarding the Hambantota port.

Sri Lanka has been facing economic challenges and has been seeking international assistance to manage the debt burden.

The visit of the Yuan Wang 5 is likely to further strengthen the ties between Sri Lanka and China, and could lead to more discussions on the future of the port and its management.

### Auto component industry looks to maintain double-digit growth this fiscal

The auto component industry, which is expected to maintain double-digit growth this fiscal year, is set to benefit from the government's plans to ramp up spending on infrastructure and electric vehicles.

Speaking to reporters in New Delhi, the head of an auto parts manufacturer said, “We are optimistic about the growth prospects this year, given the government’s focus on infrastructure development and electric mobility.”

The industry, which had faced a slowdown in recent years, is now looking forward to the government’s infra spending, expected to rise by 25% this fiscal, and the rollout of electric vehicles, seen as a key driver of growth.

“With the government’s push for electric vehicles, we are expecting a surge in demand for components like batteries, motors, and electronic controls,” said the executive.

The industry has been lobbying for policy support and tax incentives to make electric vehicles more affordable.

“Lowering import duties on components and providing subsidies to manufacturers will be crucial in making electric vehicles competitive,” he added.

### Godrej Agrovet signs MoU with 3 NE States for promotion of oil palm cultivation

Godrej Agrovet, one of the leading agri-chemical companies in India, has signed a memorandum of understanding (MoU) with three northeastern states to promote oil palm cultivation in the region.

Godrej Agrovet, a subsidiary of Godrej Industries, plans to invest Rs 1,000 crore to establish oil palm plantations in Meghalaya, Nagaland, and Tripura over the next five years.

The company will provide technical expertise, seedlings, and training to farmers in these states, aiming to create a sustainable source of income for them.

“India is a net importer of palm oil, and the northeastern states have ample land and suitable climate for oil palm cultivation,” said a company official.

“With this MoU, we aim to promote the cultivation of oil palm in the northeast, which will not only boost the local economy but also help in self-sufficiency in edible oils,” he added.

### Banks’ AT-1 bond issuances likely to decline to ₹20,000 crore in FY23

The issuance of Additional Tier-1 (AT-1) bonds by banks is expected to decline significantly compared to the all-time high of ₹25,000 crore in FY22, according to a report by SBI Capital Markets.

The report attributes the decline to several factors, including regulatory changes, lower demand from banks, and the rise of other funding options.

“Banks are likely to rely more on other sources of funding such as commercial paper and debentures to meet their capital requirements,” said the report.

### Rupee ends flat at 79.84 against US dollar

The rupee closed at 79.84 against the US dollar on Friday, as the government sold off reserves to support the currency.

Auctions to liquidate the rupee's reserves, which had reached a six-month high, were stopped by the Reserve Bank of India (RBI) to prevent a sharp depreciation.

The rupee had earlier moved higher after the government sold off reserves to support the currency, but then slipped back as the RBI intervened to sell dollars.

“RBI's intervention to sell dollars has contained the rupee's fall, but the market is still watching for any further moves by the central bank to support the currency,” said an analyst.

### LHC Housing Finance's first lending rate of 0.50% per month

LHC Housing Finance, a leading non-banking finance company, has launched its first lending rate at 0.50% per month.

This is the lowest rate ever offered by any NBFC in India, aimed at attracting more home buyers in the current high-interest rate environment.

“The low lending rate is a sign of confidence in the economy and the future of the housing finance sector,” said the company’s managing director.

### Autoparts companies to boost sales growth in NCR

Autoparts companies are planning to boost sales growth in the National Capital Region (NCR) to capitalise on the increased demand for automobiles in the region.

A leading autoparts manufacturer in NCR said, “We have seen a significant increase in demand for auto parts in the NCR region, driven by the growth in the automotive industry.”

The company is planning to open new distribution centres and increase its presence in the region to meet the growing demand.
Bhrefat, CoA favours reforms in AIFF

---

Recent Indian skipper Shashank Bhatia and the Committee of Administrators (CoA) on Tuesday sought that the reform process in the national football team is not delayed and that the new team doesn't have to copyright from FIFA.

The CoA’s statement is a reaction to the fact that the CAF is in the process of registering the team for the upcoming 2022 FIFA World Cup in Qatar. Bhatia, in his statement, said that the reform process is not only delayed but also from the point of view of the FIFA registration process, the team’s registration is not going to happen on time.

Bhatia’s statement comes at a time when the Indian football team is in the process of building a new team for the upcoming World Cup. The team is currently under the guidance of CoA-appointed coach Antonio Carbajal, who has been tasked with the responsibility of building a team that can compete at the highest level.

In addition to Bhatia’s statement, CoA has also called for the reform process to be completed as soon as possible. The CoA has informed the court that the team will not be able to participate in the World Cup if the reform process is not completed in time.

The CoA is hopeful that the reform process will be completed by the end of the year, and the team will be able to participate in the World Cup. The CoA has also stated that it is committed to ensuring that the reform process is completed as soon as possible, and that the team is not delayed in any way.
