SBI raises benchmark lending rates by up to 50 basis points

PTI NEW DELHI

The State Bank of India (SBI) has raised its benchmark lending rates by up to 50 basis points, a move that will lead to higher interest rates for home, personal, and auto loans.

The bank has increased its Indian statutory interest rate (MCLR) for a third straight month. The increase in lending rates is effective from tonight, the Reserve Bank of India (RBI) said in a statement.

External factors, including higher inflation risks, have been driving the increase in SBI's MCLR, which has been a trend in other banks as well. The increase is expected to lead to higher interest rates for home, personal, and auto loans.

SBI's move comes in the backdrop of rising inflationary pressures and a strong rupee against the US dollar. The rupee has been one of the strongest currencies in the world, which has put pressure on the central bank to maintain its policy rate.

Rahul Gandhi, the Congress party's chief,(g67/g68/g51/g101/g100/g102/g100/g101/g82/g90/g95/g17/g93/g96/g82/g95/g17/g88/g99/g96/g104/g101/g89/g17/g96/g87/g17/g34/g38/g22) said the move is a ‘protectionist’ one and that the government should have consulted the trade unions before taking such a decision.

However, the government has stated that the increase in benchmark lending rates will help control inflation and stabilize the economy.

Rahul Gandhi also highlighted the key role to be played by the Reserve Bank of India (RBI) in stabilizing the economy. He added that the Reserve Bank of India (RBI) should be placed under the legislature, as discussed in the beginning of the financial year 2023.

In an interview to PTI, Rahul Gandhi said, “We have a clear strategy. We have a clear plan. We have a clear vision. We have a clear mission. We have a clear programme. We have a clear message. We have a clear plan.”

The Congress party is set to release its election manifesto on June 15. The manifesto will focus on issues such as job creation, education, and healthcare.

SBI, the country's largest lender, has been closely following the interest rate decisions of the Reserve Bank of India (RBI) and other banks.

SBI chairman Menon, who also heads the Indian Bankers’ Association, has said that the recent rise in benchmark lending rates is a response to the increasing inflationary pressures and the strong rupee against the US dollar.
