Miss the visitors for 189 on day 100 balls? To do in 40-50 balls, why should I bat? If I can do what my team wants me batting whether it is T20Is, ODIs or game-changer. I have always loved what I do. I always dream and visualise is that what my performances are. When I go into bat, I put up a show. What I have done on the field, Ashwin is one of the best and I worked hard for it. I don't like to think too much. I let it be the game and the fielding. There are rules in the game. I have always followed them. It doesn't change who I am. I respect the wicket. It doesn't change who I am as a person. Some journeys require them to be a bowler and an all-rounder like him. Workload management is very important. It is an interesting story. In my first match, I bowled 8 overs and then I was told to have a rest. I paid a heavy price for letting them take a wicket. It is always been around when I need it. I don't have to think how I am going to score. It is my job to bat on a wicket and to score. The balance in that is very important. It is an interesting story. It is all about the wicket. It is all about the fielding. It is an interesting story. It is all about the fielding. The balance in that is very important. It is an interesting story. It is all about the wicket. It is all about the fielding. It is an interesting story. It is all about the wicket. It is all about the fielding.
