Pratibha leads HP CM race; Gandhis to decide

Cong won in name of Virbhadra, so it should choose CM from family: Singh

PIONEER NEWS SERVICE ■
NEW DELHI/SHIMLA

After day-long parleys, a meeting of the Congress Legislature Party in Himachal Pradesh passed a resolution authorising the party high command to pick the CLP leader who will be the next Chief Minister of the State.

Sources indicated the "high command" means Congress' first family Sonia Gandhi, Rahul Gandhi, and Priyanka Gandhi.

Congress president Mallikarjun Kharge said views of newly-elected MLAs in Himachal Pradesh are being sought to bring out consensus on who will be their leader.

Sources said front runner for the top job is Pratibha Singh, Congress MP and the wife of former Chief Minister Virbhadra Singh.

While interacting with the media, she indicated she is in the race for the top job. Congress workers raised slogans in support of Singh, who is also the State party chief.

Former State chief of the party Sukhwinder Singh Sukhu and outgoing legislature party

Himachal Pradesh Congress president Pratibha Singh being congratulated by supporters after the party's victory in the State Assembly elections, in Shimla on Friday

PTI

leader Mukesh Agnihotri are also among the frontrunners for the Chief Minister's post.

"It will be only between Pratibha or her confidant Mukesh," a member involved in

the day's proceedings told *The Pioneer* over phone.

Throughout the day Congress observers Chhattisgarh Chief Minister Bhupesh Baghel and former

Chief Minister of Haryana Bhopinder Singh Hooda and AICC incharge for Himachal Pradesh Rajeev Shukla conducted several rounds of meeting. They also met the State Governor and also attended the CLP meeting.

Senior Haryana Congress leader Karan Singh Dalal was also part of the Congress delegation which met the Governor. A separate meeting was held between the Congress observers and Pratibha Singh at a hotel.

Before the observers went to meet the Governor, their vehicle was surrounded for a few minutes by the supporters of Pratibha. They raised slogans that the Chief Minister should be from the family of Virbhadra.

Similar sloganeering was witnessed outside the Congress office. Pratibha too told a section of media that when the party has won and brought votes in the name of Virbhadra then it cannot shy away from choosing a CM candidate from the family.

"I am not in the race for the top post but my mother is one of the contenders for the post of chief minister," her son and Congress MLA from Shimla Rural Vikramaditya Singh said. He added that "collective will of MLAs will be kept in mind and then observers will convey the same to the high command".

Mayor from AAP as it got mandate, says BJP

BJP will play role of strong Opposition, says party Delhi chief

STAFF REPORTER ■ NEW DELHI

Taking U-turn from their position on the election of the Delhi Mayor after their defeat in the MCD polls, the Delhi BJP on Friday said the next Mayor will be from the AAP as it got the majority and the BJP will play the role of a "strong Opposition".

"The AAP has got the people's mandate, so they can have their mayor. We extend them good wishes," Delhi BJP chief Adarsh Gupta said when asked if his party would contest the mayoral poll. He was addressing a Press conference with Leader of Opposition the Delhi Assembly Ramvir Singh Bidhuri.

"The vote percentage of the BJP has increased by around three per cent since the last municipal corporation elections of 2017 when the party got 36.08 per cent of the votes," Gupta added. He also said the BJP secured around 40 per cent of the votes, losing by just over 2 percentage points.

Despite the AAP's overwhelming win in the national Capital, the BJP had suggested that the mayor's election is still an "open game". It noted that Chandigarh, where the

Arvind Kejriwal-led party was the largest, has a mayor from the BJP ranks. Several BJP leaders had earlier hinted that the party might go for the Mayor's post despite losing the civic polls.

BJP's IT department head Amit Malviya thanked Delhi people for reposing faith in the BJP and for giving more votes in the wards falling under Kejriwal's "corrupt" Ministers' constituencies.

He added in a tweet, "Now over to electing a Mayor for Delhi. It will all depend on who can hold the numbers in a close contest, which way the nominated councillors vote, etc. Chandigarh has a BJP mayor, for instance".

Hints dropped by other party leaders, including Manjinder Singh Sirsa and Tajinder Pal Bagga, also gave rise to speculation that the

BJP might go for the mayor's post.

"The AAP has been exposed in these elections due to anti-corruption campaign run by the BJP. The people of the Assembly constituency from Deputy Chief Minister Manish Sisodia and Minister Satyendra Jain have rejected them due to friendship with liquor mafia and hawala business respectively," claimed Gupta.

However, Leader of Opposition Bidhuri said that the tall claims of Chief Minister Kejriwal that the BJP will shrink to only 20 seats once again turns to dust.

The MCD mayor is elected by all 250 councillors in the House, seven Lok Sabha and three Rajya Sabha members from the city, and 14 MLAs nominated by the Speaker of the Delhi Assembly.

CAPSULE

PM CHAIRS MEETING OF GUVS, CMS ON G-20

New Delhi: Prime Minister Narendra Modi chaired a virtual meeting of Governors, Chief Ministers and Lieutenant Governors in the National Capital on Friday to discuss aspects relating to India's G20 presidency, saying it is a unique opportunity for the country to showcase its strengths.

'1.6 MN INDIANS GAVE UP CITIZENSHIP SINCE 2011'

New Delhi: More than 1.6 million Indians have renounced their citizenship since 2011, including 183,741 this year, Minister of State for External Affairs V Muraleedharan told the Lok Sabha on Friday.

MAN BOOKED FOR TRYING TO RAPE BOY IN WEDDING

Ghaziabad: A 34-year-old man was arrested for allegedly trying to rape a boy who had come here with his family on a visit from Adelaide city of Australia, police said on Friday. The boy's family was staying with his father's friend in Chhattarpur area of Delhi and had come here to Akash Nagar colony of Masuri to attend a marriage, police said.

AI FLIGHT WITH 173 ON BOARD HAS FLAT TYRE

Kathmandu: A New Delhi-bound Air India aircraft with 173 people on board was forced to abort its flight from Kathmandu on Friday after it suffered a flat tyre before take off, an official said. The aircraft was scheduled to depart from Kathmandu's Tribhuvan International Airport to New Delhi at 4:30 pm local time. A duty officer at Air India confirmed that the flight AI 216 suffered a flat tyre.

Din in RS at private member's Bill on Uniform Civil Code

Bill will destroy social fabric: Opp; RS Chairman calls for division, Bill introduction OK'd with 63 votes in favour, 23 against

PIONEER NEWS SERVICE ■
NEW DELHI

The introduction of a private member Bill by a BJP member for the preparation and implementation of the Uniform Civil Code (UCC) across the country resulted in chaos in the Rajya Sabha on Friday. The Opposition members urged BJP MP Kirodi Lal Meena to withdraw the Bill and also asked Chairman Jagdeep Dhankhar to not accept the legislation as it will destroy the secular fabric of the country.

The controversial private member's Bill seeks to provide for a panel to prepare a UCC. BJP MP Kirodi Lal Meena moved for leave to introduce the Bill to provide for the constitution of the national inspection and investigation committee for preparation of a UCC and its implementation across India and for matters connected therewith during the private member's business.

However, Opposition members from Trinamool Congress (TMC), Marumalarchi Dravida Munnetra Kazhagam (MDMK), Rashtriya Janata Dal (RJD), Samajwadi Party (SP), Communist Party of India (CPI), CPI (Marxist), Nationalist Congress Party (NCP), and Congress protested against the introduction of the Bill saying, if passed, it will "destroy" the social fabric and unity in diversity that is prevalent in the country.

With the Opposition members seeking withdrawal of the Bill, Rajya Sabha Chairman Jagdeep Dhankhar called for division and the motion for the

introduction of the Bill was passed with 63 votes in favour and 23 against it.

In the past, although the Bill was listed for introduction, it was not moved in the Upper House. The Bill envisages a collection of laws to protect the personal rights of all citizens without considering religion.

"We have a private members' Bill that is totally unconstitutional, unethical, anti-secular. It is being introduced as a private member's Bill by an indulgent Government to test the waters in a very dangerous game. This is brinkmanship," Jawhar Sircar of the Trinamool Congress said. He further said, "There is still time to refrain from making demonstrations of a temporary majority and inflict one sided opinion on a very secular and plural India."

MDMK MP Vaiko accused the ruling dispensation of "implementing one after another agenda of the RSS and the BJP", and said, "They have finished Kashmir. Now they have come to Common Civil Code." He said it is leading towards "disaster of the country and its disintegration and minority people are terribly hurt".

Similarly, Abdul Wahab of Indian Union Muslim League (IUML) said the Bill has been attempted to be introduced many times in the past and "this is a sort of provocation deliberately the BJP" and asserted that the UCC cannot be implemented in India.

Leader of the House Piyush Goyal objected to the allegations of the Opposition members. "It is a legitimate right of a member to raise an issue, which is a directive principle of the Constitution... Let this subject be debated in the House. At this stage to cast aspersions on the Government, to use the names of the very members of the Constituent Assembly to try to criticise at the introduction stage is uncalled for," he retorted.

ISRO trials propel India into hypersonic vehicle elite club

PIONEER NEWS SERVICE ■
NEW DELHI

In an effort to develop indigenous niche technology, the Indian Space Research Organisation (ISRO) and Headquarters, Integrated Defence Staff (HQ IDS) have jointly conducted ambitious hypersonic vehicle trials.

The trials achieved all required parameters and demonstrated hypersonic vehicle capability, the ISRO said on Friday. Russia, China, and the US are the other countries having this sophisticated technology.

A hypersonic vehicle is a vehicle that travels at least 4 times faster than the speed-of-sound, or greater than Mach 4. A hypersonic vehicle can be an airplane, missile, or spacecraft. These vehicles are highly manoeuvrable and do not follow a predictable arc as they travel and can deliver conventional or nuclear payloads within minutes.

The Indian hypersonic vehicle will take another three to four years to become fully operational.

In 2020, Defence Research and Development Organisation (DRDO) successfully demonstrated the hypersonic air-breathing scramjet technology with the flight test of the Hypersonic Technology Demonstration Vehicle (HSTDV).

With this successful demonstration, many critical technologies such as aerodynamic configuration for hypersonic manoeuvres, use of scramjet propulsion for ignition and sustained combustion at hypersonic flow, thermo-structural characterisation of high-temperature materials, separation mechanism at hypersonic velocities were proven.

Tiger deaths in India cross 100 mark 3rd year in a row

ARCHANA JYOTI ■ NEW DELHI

For the third year in a row, the number of tiger deaths in the country has crossed the 100-figure mark.

However, much to the relief of wildlife officials and animal lovers, the number of total deaths in the eleven months of the current calendar year at 107, including 22 cubs and ten sub-adults, is less than the 127 deaths recorded last year.

The number of tigresses killed so far this year stands at 17 against 16 last year. In 2021, the number of tiger cub deaths was comparatively less at 15.

In 2020, during a lockdown induced by Covid-pandemic, India saw 106 tigers succumbing to deaths due to various reasons such as natural deaths, poaching, electrocution, infighting, and poisoning.

The wildlife officials are keeping their fingers crossed hoping that the number of tiger deaths this year is lesser or

at least it does not surpass the figure reported last year.

The Wildlife Protection Society of India (WPSI), an NGO in the sector, contradicts the Government's data and instead has estimated that in the first eleven months India has already lost 129 tigers, including 35 falling prey to poachers.

According to the wildlife conservation organisation, last year at least 115 died natural

deaths/ in infighting and man-animal conflict while poaching claimed 56 lives.

As per the Government data available from the National Tiger Conservation Authority (NTCA), Madhya Pradesh has reported the highest number of tiger deaths at 32 followed by Maharashtra which has witnessed 25 deaths of the big cats in the first 11 months this year.

Karnataka registered 13 deaths, while Assam, Rajasthan and Kerala lost six and five striped cats each respectively. Three tiger deaths were reported from Andhra Pradesh, while two each died in Bihar and Tamil Nadu.

The detailed analysis of the data showed that at least 62 striped cats died inside their home i.e. in the tiger reserves, most of them fighting to protect their turfs while as many as 45 were killed outside the tiger reserves or on the forest fringes.

Croatia in semifinal, Brazil loses on penalties

AP ■ AL RAYYAN

Croatia knocked Brazil out of the World Cup on Friday, beating the five-time champions 4-2 in a penalty shootout to reach the semifinals for the second straight time.

Croatia goalkeeper Dominik Livakovic saved a penalty attempt by Rodrygo and Marquinhos later hit the post.

The match had finished 1-1 after extra time, with both goals coming in the additional 30 minutes. Neymar scored late in the first half of extra time to give Brazil the lead, but Croatia equalised when Bruno Petkovic scored in the 117th.

Neymar's goal moved him into a tie with Pelé as Brazil's all-time leading scorer with 77 goals.

Croatia will next face either Argentina or the Netherlands to try to return to the World Cup final four years after los-

Brazil's Neymar, centre, kicks the ball besides Croatia's Josko Gvardiol, bottom, Croatia's Dejan Lovren, right, Croatia's Marcelo Brozovic, background, and Croatia's Borna Sosa, left, during the World Cup quarterfinal soccer match between Croatia and Brazil, at the Education City Stadium in Al Rayyan, Qatar, on Friday

AP

ing the title to France.

Five of Croatia's last six matches at World Cups have gone to extra time, including in its penalty shootout win over Japan in the round of 16 in Qatar.

The team has been successful in eight of its last 10 knockout matches at the tournament.

Brazil was trying to return to the semifinals for the first time since 2014. The team hadn't made it to the last four since hosting the tournament eight years ago, when the Selecao was embarrassed by Germany 7-1.

Brazil was trying to defeat a European opponent in the knockout stage of the World Cup for the first time since the 2002 final against Germany, when the team won for the last time.

Neymar moved into a tie with Pelé as Brazil's all-time leading scorer with 77 goals on Friday.

Good governance need of hour: Prez

To understand problems of people, it is necessary to connect with commoners, says Murmu

PNS ■ DEHRADUN

President Droupadi Murmu said good governance is the need of the hour. The lack of good governance is the root of various social and economic problems.

To understand the problems of the people, it is necessary to connect with the common people. She advised officer trainees at the Lal Bahadur Shastri National Academy of Administration (LBSNAA) in Mussoorie to be humble in order to connect with people.

Only then they would be able to have conversations with them, understand their needs and work for their betterment, said the President while speaking at the valedictory function of the 97th common foundation course at the academy on Friday.

Addressing the officer trainees, she said that as she was addressing them, the words of Sardar Vallabhbhai Patel were echoing in her memory. In April 1947, Sardar Patel was meeting a batch of IAS trainees. At that time he had said, “We must expect and we have the right to expect the best

out of every civil servant in whatever position of responsibility he or she may be.” The President said that today one can say that the civil servants have lived up to these expectations.

She expressed confidence that the officer trainees of this course would shoulder the responsibility of taking the country forward with a collective spirit. Many of them would run the administration of a large part of the country for the

coming 10-15 years and would be connected with the masses. They could give a concrete shape to the India of their dreams, she added.

Murmu said that the method of training at LBSNAA is based on the principle of Karma-Yoga, in which character is of great importance. She advised officer trainees to be sensitive towards the underprivileged section of the society. Anonymity, ability and austerity are the ornaments of

a civil servant. These qualities would give them self-confidence throughout the service period, she said.

The President said that the values which officer trainees have learned during the training should not be confined to theoretical scope.

They would come across many challenges and difficulties while working for the people of the country. In those circumstances, they have to act with full confidence following

these values. Leading India on the path of progress and development and paving the way for upliftment of the people of the country is their constitutional duty as well as moral responsibility.

She further said that any work for the benefit of society can be accomplished efficiently only when all the stakeholders are taken along. When officers take their decisions keeping in mind the marginalised and deprived sections of the society, they would certainly be successful in achieving their goals.

Speaking about global warming and climate change, she said that the whole world is struggling with these issues. There is an urgent need to take effective steps to solve these problems. She appealed to the officers to fully implement steps taken by the Government of India for environment protection, to save our future.

Referring to the ‘Walkway of Service’ inaugurated at the academy on Friday, the President urged the officer trainees to always remember the goals they have set and be dedicated in achieving them.

PM chairs Guvs, CMs, LGs’ meet over G-20 presidency

It belongs to entire nation: PM

PTI ■ NEW DELHI

Prime Minister Narendra Modi chaired a virtual meeting of governors, chief ministers and lieutenant governors on Friday to discuss aspects relating to India’s G20 presidency, saying it is a unique opportunity for the country to showcase its strengths.

During the meeting, the prime minister emphasised the importance of teamwork and sought the cooperation of states and Union Territories in organising various G-20 events, the Prime Minister’s Office (PMO) said in a statement.

The prime minister pointed out that the G-20 presidency would help showcase parts of India beyond the conventional big metros, thus bringing out the uniqueness of each part of the country.

Highlighting the large number of visitors who would be coming to India during its G-20 presidency and the international media focus on various events, Modi underlined the importance of states and

Union territories using this opportunity to re-brand themselves as attractive business investment and tourism destinations, according to the statement.

He also reiterated the need to ensure people’s participation in the G-20 events with a “whole-of-government and a whole-of-society approach.”

In a tweet, the prime minister said he chaired a meeting of governors, LGs and CMs to discuss India’s G-20 presidency and related events which will take place across the country through the coming year.

“Governors, LGs and CMs shared their rich insights on the preparedness of the states. I also talked about the need to document the experiences of the states, which would be a valuable repository for the times to come,” Modi said.

A number of state leaders

shared their thoughts during the meeting, stressing on the preparations being done by the states and UTs to suitably host G-20 meetings, the statement said.

The meeting was also addressed by External Affairs Minister S Jaishankar and a presentation was made by India’s G-20 Sherpa Amitabh Kant.

India officially assumed the G-20 presidency on December 1.

The country is expected to host over 200 preparatory meetings across the country beginning this month.

The next G-20 Leaders’ Summit at heads of states or governments level is scheduled to be held on September 9 and 10 next year in New Delhi.

G-20 or Group of 20 is an intergovernmental forum of the world’s major developed and developing economies.

Tech prowess unable to curb cryptocurrency graft: PM’s PS

PNS ■ NEW DELHI

Principal Secretary to the Prime Minister PK Mishra on Friday said technological developments, while providing opportunities to prevent corruption, have also made it difficult to trace it, particularly in areas like cryptocurrency.

Delivering the keynote address at the International Anti-Corruption Day-2022 organised by the CBI on ‘Anti-Corruption efforts — A sine qua non for Development and Security’, Mishra said the impact of corruption is especially heavy on common citizens, and even more on poorer and vulnerable persons in communities.

Corruption encourages dysfunctionality in government and perpetrates economic inefficiency and can be a serious threat to national security, Mishra underscored. Since liberalisation in India, the nature of corruption has become more complex, the country’s top bureaucrats asserted.

With technological development, there are opportunities to prevent corruption but also areas where corruption can be much more difficult to trace, particularly in areas like cryptocurrency, he said in his address. Corruption, whether small or big, undermines the rights of someone or the other, he said, as he underlined the

need for all countries to move together in fighting corruption, he further emphasised.

Highlighting the importance of innovative anti-corruption solutions, Mishra stressed on the need for real-time information sharing between law enforcement agencies at the international level.

He said India is ready to play an active role towards fighting various types of crimes with cross-border linkages including financial crimes.

He also said India is ready to cooperate with other countries and agencies.

Since 2014, the country has decided to make a major change and move in a new direction, and the government expeditiously put in place significant legal provisions to support the policy of “zero tolerance” against corruption, the Principal Secretary said.

He said the government has constituted a Special Investigation Team (SIT) on black money, besides enacting a comprehensive and more stringent new law – the Black Money (Undisclosed Foreign Income and Assets) and Imposition of Tax Act, 2015.

There’s also a Benami Transactions (Prohibition) Amendment Act 2016, which empowers the authorities to attach and confiscate benami properties, he said.

Law enforcement agencies such as “CBI have done a great deal in their endeavour to reduce corruption,” Mishra said. Mishra gave Police Medal for meritorious service to 34 officers of the CBI on the occasion.

Earlier in his address, CBI Director Subodh Jaiswal said that at the recently organised Interpol General Assembly, all 195 Interpol member countries had resolved to “actively and collectively” support the fight against organised crime, financial crime, and corruption.

The 2022 International Anti-Corruption Day also marks the beginning of the twentieth anniversary of the UN Convention Against Corruption - UNCAC.

This is reflected by the theme of this year’s international day, “UNCAC at 20: Uniting the World Against Corruption.”

The event was also attended by the Central Vigilance Commissioner (CVC), vigilance commissioners, Member Lokpal, Chairman, Union Public Service Commission (UPSC), several senior police officers including Directors General of Central Police Organizations (CPOs) and law enforcement agencies, and International Police Liaison officers from various embassies, the CBI said in a statement.

Bhondsi jail gang war injures five

PNS ■ GURUGRAM

Five prisoners were injured in Gurugram’s Bhondsi jail after a fight broke out between the members of the noted Lawrence Bishnoi and Kala Jathedi gang and supporters of gangster Kaushal in Bhondsi jail, police said on Friday.

Kaushal’s associate Anil alias Lath (31) was seriously injured in the clash while four others were discharged after first aid, the police said.

Four injured were identified as Umesh, Sachin, Sanjay and Sushil while Anil was admitted to the Gurugram Civil Hospital for further treatment.

Jail Deputy Superintendent Charan Singh stated in his complaint that, the incident took place when Anil was attacked near the prison’s main gate when the undertrial prisoners were being taken to

court around 9.00 am on Thursday.

Singh said Bharat, Mohit, Nitesh alias Panja, Lalit and Akash were allegedly behind the attacked and injured Anil with a sharp weapon.

During the clash, a few other undertrials who tried to intervene were also beaten up. Seeing the fight in the jail, the jail administration came to the spot, separated them and took the injured to the hospital.

Police said that all the injured are facing murder, attempt to murder and extortion trials. The investigation has been started by recording the statements of the injured.

Later, the information was given to the Bhondsi police station.

An FIR was registered against the inmates under sections relevant sections of the IPC at Bhondsi police station.

AAP, Cong take dig at Thakur after BJP loses all seats in Hamirpur

Why BJP lost in Hamirpur: AAP MLA over BJP’s jibe at AAP for loss in Jain’s bastion in MCD polls

STAFF REPORTER ■ NEW DELHI

After BJP lost all five Assembly seats in Hamirpur district, the constituency of the Union Information and Broadcasting Minister Anurag Thakur, the AAP and the Congress took a dig at the performance of the Minister in Himachal polls.

According to AAP MLA Naresh Balyan, the BJP wave was so strong that not even a Union Minister could save his booth, referencing his “Goli maro” speech in Delhi in 2020.

The BJP lost all five seats in the home district of the Union Minister Anurag Thakur. He could not even save his booth.

Such is the wave of the BJP. They are celebrating after winning in their stronghold so that people do not understand that they lost in two out of three paces,” Naresh Balyan tweeted.

“Keeping Satyendar Jain in jail for no crime, BJP asks why AAP lost the wards in his constituency. But no one asks why BJP lost in Anurag Thakur and JP Nadda’s Himachal Pradesh even after putting all strength,” the AAP leader added.

Congress’s Gaurav Pandhi said Congress won all the seats when PM Modi campaigned and the party wiped out BJP in many districts. “BJP scored zero in district Hamirpur, home district of Union Minister Goli Maro wala Anurag Thakur,” he tweeted.

With a vote share of 43% and 40 seats in the legislature, the Congress took control of Himachal Pradesh. 25 seats were won by the BJP, and three by independent candidates.

Delhi-bound AI flight with 173 on board suffers flat tyre in Kathmandu

PTI ■ KATHMANDU

A New Delhi-bound Air India aircraft with 173 people on board was forced to abort its flight from Kathmandu on Friday after it suffered a flat tyre before take off, an official said.

The aircraft was scheduled to depart from Kathmandu’s Tribhuvan International Airport (TIA) to New Delhi at 4:30 pm local time.

A duty officer at Air India confirmed that the flight AI 216 suffered a flat tyre before take off.

The aircraft had 164 pas-

sengers and 9 crew members on board, the official said. The Airbus 320 aircraft was removed from the runway and towed to the parking area, he said.

The Air India flight will be rescheduled on Saturday after completing the required maintenance work, the official said.

My Republica newspaper reported that the plane had reached the threshold area from the taxiway and was preparing to take off when it suffered a flattened tyre.

India will not be ally of US, but another great power: White House official

PTI ■ WASHINGTON

India, which has a unique strategic character, will not be an ally of the US, but another great power, a top White House official has said, asserting there is no other bilateral relationship that is being “deepened and strengthened” more rapidly than between the two countries over the last 20 years.

Responding to a question on India during his appearance at the Aspen Security Forum meeting here on Thursday, Kurt Campbell, the White House Asia Coordinator, said that in his view India is the most important bilateral relationship for the United States in the 21st century.

“The fact is, I don’t know of any bilateral relationship

that is being deepened and strengthened more rapidly than the United States and India over the last 20 years,” he told a Washington audience.

The United States needs to invest even more of its capacity, and build in people-to-people ties, working together on technology and other issues, he said.

“India has a unique strate-

gic character. It will not be an ally of the United States. It has the desire to be an independent, powerful state and it will be another great power. But I think there are reasons to believe that our strategic alignment is growing across the board in almost every arena,” Campbell said.

There are inhibitions in both of the bureaucracies and

there are many challenges, he acknowledged.

“But I do believe that this is a relationship that should have some ambition. We should look at things that we can do together, whether it’s in space, whether it’s education, whether it’s on climate, whether it’s on technology, and really move in that direction,” he said.

Manoj Kumar Jha of the RJD said when the Bill came for introduction on many occasions earlier, the BJP requested Meena not to proceed further and good sense

prevailed then. “I am witness to six such occasions. What has changed I don’t know,” he said, adding at a time when cities, villages and families have been “divided”, if such Bill was brought it would further divide the country.

Ram Gopal Yadav of the SP said the Bill was against provisions of the Constitution related to fundamental rights and it should not have been allowed it to be introduced in the Upper House at all, requesting the Chairman to

ask Meena to withdraw the Bill.

Opposing the Bill, Fauzia Khan of NCP said, “The beauty of Indian democracy and the uniqueness of India in the whole world lies in its unity in diversity and our diversity is extremely important. It has to be retained and it cannot be ravaged like this.”

Calling for withdrawal of the Bill, she said, “It is not in consonance with the uniqueness of our country. It is just not a Muslim-Hindu issue. It is a question of diversity in

every way.”

Congress members L Hanumanthaiah, Imran Pratapgarhi and Jebi Mather Hisham along with CPI (M) members Elamaram Kareem, Bikash Ranjan Bhattacharya, V Sivadasan, John Brittas and AA Rahim also opposed the Bill saying it would lead to further polarisation in the country. Tiruchi Siva (DMK) and Sandosh Kumar P (CPI) also opposed the Bill.

In a separate event Union Minister Nitin Gadkari said all parties should make a collec-

tive effort to implement a Uniform Civil Code which will be good for the nation and humanity. Replying to a question on Uniform Civil Code at a media event, Gadkari said, “If a man marries a woman it is natural. But if someone goes for four marriages, that is unnatural. Therefore the progressive and educated Muslims don’t do it.”

“There should be a qualitative change in society. It is not against any religion or sect. We should together develop the nation,” the Minister said.

Pratibha...

Earlier, Congress observers met Himachal Pradesh Governor Rajendra Vishwanath Arlekar and shared a list of the party’s winning MLAs and “sought time” to formally stake claim to form the Government.

The Congress wrested power from the BJP in the hill

State winning 40 of the 68 Assembly seats.

Shukla said the Congress is happy that it is getting an opportunity to form the Government in the State and asserted that the party will do everything to fulfil the 10 guarantees made to the people of the state and would provide better governance to people.

Kejriwal seeks recall of order against Jasmine

Last month DDCD vice-chairman was restricted from using his office on Delhi L-G's behest

STAFF REPORTER ■ NEW DELHI

Delhi Chief Minister Arvind Kejriwal has directed the Planning Department to recall the order restricting Dialogue and Development Commission of Delhi (DDCD) vice-chairman Jasmine Shah from discharging his duties. The latest move of the Chief Minister will further deepen the chasm between the Delhi Government and Raj Niwas. Lieutenant-Governor (L-G) VK Saxena had last month asked Kejriwal to remove Shah from the post over alleged misuse of his office for "political purposes".

"... the punitive action visited upon Shah is without any justification and requires to be recalled forthwith. It is my cherished hope and desire that the Hon'ble L-G will be an active participant in the endeavour to convert Delhi into a world-class city and to that end, the implementation of initiatives conceptualised by the DDCD will be facilitated. I, therefore, direct the nodal department i.e. the Department of Planning, GNCTD to immediately recall the November 17 order, and all actions emanating therefrom so that the status quo ante as prevailing on November 16 is restored without any further delay," Kejriwal said in the directive.

In the order, Kejriwal said that he had examined the aforesaid November 17 order, the complaint on September 13, as also the material referred to therein.

"Before dealing with the said complaint and order, it is necessary to place on record the fact that the Hon'ble L-G, is not vested with any jurisdiction or authority in law to take

cognisance or for that matter, pass any order/direction thereupon.

I take this view for the reason that the notification dated 29.04.2016 constituting the DDCD and more specifically clauses 8(b) and 8(c) make it abundantly clear that while the Vice Chairperson, DDCD is appointed by a decision of the Cabinet, the incumbent V-C can be removed only with the approval of the Chairperson, DDCD.

Furthermore, the DDCD has been constituted by the GNCTD in exercise of power vested in it under Entry 20 List III of the VII Schedule to the Constitution of India which deals with 'economic and social planning,' the order said.

It further said, "However, in due deference to the high constitutional office of the L-G, I have proceeded to examine the complaint as also the order of 17.11.2022 in order to satisfy myself as to whether the V-C, DDCD has committed any infraction which would entail the action suggested by the Hon'ble L-G.

Having undertaken this exercise meticulously, especially keeping in view the allegations levelled by the complainant, I am of the considered view that the V-C, DDCD has not committed any infraction which would entail either his removal from office or other punitive action emanating from the order of November 17, 2022."

Last month, Saxena had ordered that Shah "be restricted from discharge of functions as V-C" and also be barred from using "any privi-

leges and facilities connected with the office of V-C, DDCD, with immediate effect". He also directed the Delhi Government's Planning Department to prevent Shah from using any "privilege and facilities" till a "decision is taken by the CM" in this regard.

The action came after BJP MP Parvesh Verma complained that Shah was "working as a spokesperson of the AAP" even as he held the post of V-C of the DDCD.

Earlier, Justice Prathiba M Singh of the Delhi High Court had directed the parties to file an affidavit on a petition filed by Shah challenging the L-G's order restricting him from discharging his duties and sealing his office. Meanwhile, the court has refused to grant any interim in favour of Shah. The court will hear the plea on December 13.

According to official sources, Shah was given two opportunities to reply to the show-cause notice issued by the Director of the Planning Department on October 17 over allegations against him but he failed to submit a reply.

BJP asks L-G to remove Maliwal from DCW

STAFF REPORTER ■ NEW DELHI

The Delhi BJP on Friday demanded that Lieutenant-Governor (L-G) VK Saxena remove Delhi Commission for Women (DCW) Chairperson Swati Maliwal, after a court ordered framing of charges against her.

A city court on Thursday ordered framing of corruption and criminal conspiracy charges against Maliwal and others for prima facie abusing their official positions to appoint AAP workers to different posts in the women's rights body.

In a letter to Saxena, the BJP's West Delhi MP Parvesh Verma took up the alleged issue of appointment of AAP workers to different posts in the women's rights organisation by the DCW chairperson. Besides Verma, BJP MP Manoj Tiwari, Leader of Opposition Ramvir Singh Bidhuri, former

DCW chief Barkha Shukla Singh, Shahzad Poonawala, Adesh Gupta and several other leaders demanded sacking of Maliwal from DCW.

Meanwhile, Maliwal said in a tweet in Hindi, "Honest people have to prove their honesty while thieves enjoy their lives in the country. I have handled lakhs of cases, saved several girls from trafficking, ensured that drug and liquor mafia were caught, and stood with the poor. This is my only crime. As long as I am alive, I will keep fighting." In a letter to the L-G, BJP MP Verma said that the

defendant appointed AAP workers to various DCW positions without following proper procedures.

"I request you to take immediate action against Maliwal for her unconstitutional action and remove her from the position of Delhi Commission of Women chairperson," Verma requested.

"Misuse of power has become a common thing for the AAP Government, there is rigging in every department everywhere. Yesterday the court ordered to register a case against @SwatiJaiHind. And I wrote a letter today @LtGovDelhi that such people should be removed from the post immediately," Verma also wrote on Twitter, in Hindi.

Former DCW chief Barkha Shukla on Friday pointed at the AAP's involvement in the appointment of members in the body, while also alleging that there was no conduct of edu-

cational checks during their recruitment. "Appointments in the Delhi Commission of Women after 2015 weren't done as per the rules. They recruited their own people. High salaries amounting to nearly Rs 1 lakh are paid. There has been a lot of corruption."

Maliwal's secretary should be an IAS officer. Earlier there was Archana Arora but she resigned as they misbehaved with her. Then they recruited their own volunteer who did not belong to the IAS category for the post," she said.

"Strong Suspicion: Delhi Court Frames Corruption Charges Against Swati Maliwal, 3 Others Over 'Illegal Appointments' In DCW under POCA & 120B, AAP is not youngest national party but most corrupt party on national scene today, sharab ghotala, hawala ghotala, bus ghotala..., classroom ghotala, Delhi Jal

Board Ghotala, Tihar ghotala, DCW ghotala.

Will Kejriwal play victimhood card or sack Swati Maliwal? This is a court order! In MCD people already defeated Satyendra Jain, Manish Sisodia and Kailash Gehlot," BJP national spokesperson, Shehzad Poonawalla commented on Twitter.

Bidhuri said that the court accepted that the jobs were given to the people associated with the AAP after bending the rules and regulations and in addition to that the salaries paid to them were also doubled.

Adesh Gupta, the BJP's Delhi unit chief, tweeted in Hindi, "This AAP leaves no stone unturned in doing corruption. The court framed charges of illegal appointment by misusing official position against the chairperson of the Delhi Commission for Women."

Lost woman with memory issues reunited with kin

STAFF REPORTER ■ NEW DELHI

A 30-year-old woman with mental health issues who had lost her way to land up at a government facility in Noida nearly two months ago was reunited with her family on Friday, officials said.

An official of the anti-human trafficking unit (AHTU) of the Noida police said the woman hailed from Kanpur but was unable, till two days ago, to recall anything which could help them contact her family.

"The woman was found at the Kaushambi bus stand in Ghaziabad on the Delhi-Uttar Pradesh border on October 18. We got a call informing us about her condition after which our team went there and she was lodged at the 'Apna Ghar' ashram in Noida Sector 34 according to due procedures," AHTU in-charge Vinod Panwar said.

"At the facility, we have counselling sessions for all residents who are in similar condition and separated from their

families. During one counselling session on Wednesday, this woman was able to recall the name of her village, leading us to track her family," Panwar told.

Once the AHTU officials had this clue, they used Google Maps to look up for the village when they came across one in Kanpur district, he said.

"We immediately reached out to the Kanpur police who helped us confirm that this particular village whose name this woman had mentioned falls in their area.

The Kanpur police also helped us with the phone number of her village's head after which we could contact her family," Panwar said.

He said once the family was contacted over the phone, her brother confirmed that the woman was undergoing mental health issues and had suddenly gone missing from their home in October. The family said they were also searching for the woman, who is married and has two children, but were unable to locate her, the official said.

2 Cong Councillors join AAP, party MCD tally soars to 136

Delhi Congress vice-president Ali Mehdi, too, shifts loyalty

STAFF REPORTER ■ NEW DELHI

In a jolt to the Delhi Congress, its two newly-elected Councillors — Sabila Khan, from Mustafabad ward and Naziya Khatoun from Brij Puri ward joined the AAP on Friday, leaving the Congress with only seven MCD Councillors. The Delhi Congress vice-president Ali Mehdi, too, joined the AAP along with the elected Councillors. The AAP claimed a decisive victory in the Delhi civic polls, winning 134 of the 250 wards under the unified MCD. After the two Congress Councillors joined the party on Friday, the AAP's tally in the corporation has gone up to 136.

Addressing a press conference, AAP leader Durgesh Pathak said they decided to join his party after seeing the work done by Delhi Chief Minister Arvind Kejriwal.

"As Chief Minister Arvind Kejriwal said, in order to make India number one and make Delhi a number one city, we need support from the Congress and BJP also. We welcome two Councillors of Congress in the AAP today. I

am happy to announce that Delhi Congress vice-president Ali Mehdi and two newly-elected Councillors Sabila Begum and Nazia Khatoun are joining AAP," Pathak said.

Asked why the Congress Councillors joined the AAP and if the party feared "Operation Lotus" in the MCD, Pathak said, "The Councillors were elected simply on their merits. Attempts were made to poach Councillors but we are way ahead in terms of numbers. Now, even the BJP has accepted that they will have to be in the Opposition in the MCD." He said Nehru Vihar block president Aleem Ansari, Delhi Congress executive member Haji Khushnood, Mustafabad block president Javed Chowdhary and Shiv Vihar block president Ashok Baghel are also joining the AAP.

Meanwhile, Delhi Congress vice-president Mudit Aggarwal alleged that the AAP was also trying to "lure" some other party Councillors. "Is

this the 'kattar imaandar' (hard-core honest) politics of Arvind Kejriwal? Proving that AAP is a B-team of the BJP, it poached two Councillors of Congress like the saffron party does with others," Aggarwal said.

The Congress managed to win nine seats in the recent MCD polls. Anti-defection law does not apply to the MCD polls. Before joining the AAP, Mehdi was the vice-president of the Delhi Pradesh Congress Committee. Prior to this, he was the chairman of the Minority Cell. Mehndi is former Congress MLA Hasan Ahmed's son. Mehdi said he decided to join AAP as he wants development in his area.

"We have decided to join the AAP after seeing the development work done by Kejriwal. We want development in our area. Under the leadership of Kejriwal, the AAP party is working hard to develop the Capital," Mehdi said.

Angry Congress workers held a protest and burnt the effigy of Mehdi in Mustafabad.

BJP failed to woo SC voters yet again

STAFF REPORTER ■ NEW DELHI

The loss of BJP in the Delhi MCD polls yet again betrayed the party's weakness in making inroads among the scheduled caste (SC) voters here, as it managed to win just six out of the 42 wards reserved for the candidates from the group.

The 134 wards won by Aam Aadmi Party (AAP) included 36 reserved wards, as per results announced on Wednesday.

The BJP striving to retain its hold on the civic body for the fourth time in a row managed to win 104 wards in all.

Several Delhi BJP leaders said that the performance of the party had been "dismal" particularly in the 12 Assembly constituencies reserved for SC candidates.

"The party repeatedly lost Assembly polls in these constituencies despite attempts to reach out to voters in these areas. Not even one of these 12 seats were won by the BJP in past several Assembly elections including in 2015 and

2020," said a senior Delhi BJP leader. The party also failed to strengthen its reach among Punjabi voters in Delhi, said its leaders. "Out of 47 wards dominated by Punjabi voters, the BJP won 20 and AAP 27 wards," said a senior functionary of Delhi BJP.

Earlier in the day, Delhi BJP president Adesh Gupta told reporters that the party had lost around 30-35 wards in the MCD polls with a narrow margin.

Gupta said that the BJP managed to obtain around 40 per cent votes and lost the MCD polls by just over 2 per cent votes.

"In 2017, BJP got 36.08 per cent votes in the municipal corporation elections and this time we got 39.09 per cent votes. This shows that there is increase in number of votes by 3 per cent," he said.

The AAP polled over 42 per cent votes in the MCD elections. It got 31,25,642 votes while the BJP obtained 28,98,187 votes. The difference of 2,27,455 votes cost the BJP 30 wards.

110 rescued goats go missing from Noida animal shelter

STAFF REPORTER ■ NOIDA

Over a hundred goats that were rescued by the police in Uttar Pradesh's Noida in June 2021 have gone missing from an animal shelter in Noida, prompting a fresh investigation into their disappearance.

Police have lodged an FIR under Indian Penal Code (IPC) Section 406 (criminal breach of trust) against the manager of the animal shelter after the complainant, to whom the goats belonged, approached the local court for their release.

"The case pertains to an incident of cruelty against animals which took place in 2021. A fresh FIR has been lodged at the Sector 20 police station over the matter and the police are now investigating it further," Assistant Commissioner of Police (Noida zone 1) Rajneesh Verma said.

According to the FIR, lodged on the basis of a complaint by Sector 20 police station in-charge Manoj Kumar Singh, the goats — 49 of them male and 61 female — were

being transported from Delhi to Auriya in Uttar Pradesh in a pick-up truck registered in Etawah. The goats, which were badly stuffed inside the truck, were rescued by the Noida Police after they intercepted the vehicle at the Jhandupura border and an FIR lodged under provisions of the Prevention of Cruelty against Animals Act, the SHO stated.

"After they were rescued, the goats were handed over to an animal shelter in Sector 94 on the condition that the expenses of taking care of the goats would be borne by the man (Santosh Kumar) to whom they belonged. The person agreed and even remitted the money in the local court here," the FIR stated. Last year itself, the court had passed an

order that the 110 goats be handed over to Kumar, who then approached the animal shelter's manager Yogendra Kumar but till date could not get his livestock back despite multiple reminders and notices, it stated.

"This non-compliance of the court order makes it a crime under IPC 406 by the animal shelter's manager," the police station in-charge stated in the complaint.

According to a police official, the animal shelter's manager allegedly informed Kumar last year that all his goats died due to illness.

The police, who are now probing the case of the missing goats, have sought post mortem reports and other documented details of the livestock from the shelter manager, the official added.

When contacted, a Noida Authority official said they were not aware of any "large scale" death of livestock at the animal shelter in Sector 94. "The management of the shelter has been outsourced to a private group," official added.

On the occasion of Armed Forces Flag Day 2022, Delhi Chief Minister Arvind Kejriwal and Lieutenant-Governor VK Saxena felicitated Gallantry Award winners in the national Capital. PNS

Cong's Kisan unit stages protest at Jantar Mantar over MSP guarantee

STAFF REPORTER ■ NEW DELHI

Scores of farmers affiliated to the All India Kisan Congress on Friday gathered at the Jantar Mantar to demand legal guarantee for Minimum Support Price (MSP) and compensation for the kin of farmers killed in last year's agitation against the Centre's three farm laws.

The Congress' unit for farmers also accused the BJP-led Central Government of not cooperating with farmers and renegeing on its promises made to them following which, the year-long stir at Delhi borders was suspended.

The contentious farm laws were scrapped by Parliament in November last year. Hargobind Singh Tiwar, joint coordinator of the AIKC, said, "Central Government is neither cooperating with the farmers nor

Farmers at a day-long protest to press their long-pending demands, including making the Minimum Support Price a legal right, at Jantar Mantar in New Delhi on Friday. RANJAN DIMRI | THE PIONEER

addressing their issues. It's been over a year since the anti-farm laws protest ended, but the government's promise of ensuring MSP for farmers has not been fulfilled yet." "The centre should immediately release the compensation for the families of farmers who sacrificed their lives while fighting for their rights. It is unfortunate that the centre does not even have the list of those farmers who lost their lives.

How will they even release the compensation?" he said. Minimum support price (MSP) scheme must be implemented soon. The country still does not have a proper law for farmers which can directly benefit them, he rued.

Holding flags of Congress party and raising slogans of "jai jawan, jai kisan", farmers from

Uttar Pradesh, Haryana, Odisha, Chhattisgarh, Bihar and some southern states have gathered at Jantar Mantar. The farmers said they are protesting against the BJP government's "anti-farmers policies". Dileep Singh, who hails from Punjab, asserted that the farmers should get their due rights. "We have come here to protest against the Modi government and its anti-farmers policies. Farmers are being suppressed under this regime. We have gathered here for our rights. We believe that farmers should get their due rights." Kailash Yadav, who has come from Jaipur, said, "We are here to strengthen farmers' movement. We are here in solidarity with our farmers who have been facing many problems under present government."

Water supply will be hit on Dec 12, 19 in city for maintenance work: DJB

STAFF REPORTER ■ NEW DELHI

The water supply in several areas of the national Capital will be affected on the evening of December 12 and December 19, due to the maintenance, stated an order issued by the Delhi Jal Board (DJB) on Friday.

In the order, DJB said that the water supply in some areas/colonies will be available at low pressure in evening on December 12, 2022, and December 19, 2022, due to Renovation of 700 mm dia Sluice Valve at Sonia Vihar.

Informing about the areas where the water supply will be affected, it said that Yamuna

Vihar, Tahirpur, Nand Nagari, Mauzpur, Brijpuri, Jagjeet Nagar, Jaiprakash Nagar, Gamri, Village & Gamri Extn., BhajanPura, Harsh Vihar, Mandoli, Dilshad Garden, Dilshad Colony, Old Seemapuri, New Seema Puri, Sunder Nagri, Water Emergency Tahirpur, Water Emergency Yamuna Vihar, Sonia Vihar, Karawal Nagar, Mustafabad and adjoining area will witness the water at low pressure.

The DJB also advised the people to store sufficient quantity of water to avoid any inconvenience and said that during the shutdown water tanker will be available at contacting the board.

The complainant (a candidate) had alleged that the accused (a teacher of the institute) was in possession of questions for the said examination disclosing leakage of paper by him in connivance with unknown officials of APPSC.

HM to meet Maha, K'taka CMs to resolve border row

PNS | PTI ■ NEW DELHI | MUMBAI

Union Home Minister Amit Shah will meet the chief ministers of Maharashtra and Karnataka here on December 14 to soothe tempers on the border dispute between the two states, NCP leader Amol Kolhe said here on Friday.

Kolhe was speaking to reporters after a delegation of parliamentarians of the Maharashtra Vikas Aghadi (MVA) — Shiv Sena-NCP-Congress coalition — met Shah to air their grievances on the border dispute.

The MVA delegation also complained to Shah about the “insulting references” to Chhatrapati Shivaji Maharaj by Maharashtra Governor Bhagat Singh Koshiyari and some other BJP leaders.

“The home minister gave us a patient hearing and assured the MVA parliamentarians that he will call chief ministers of Maharashtra and Karnataka on December 14 and work towards finding a cordial solution to the issue,” Kolhe, the Lok Sabha member from Shirur in Maharashtra, told reporters here.

On Thursday, the MVA parliamentarians had written to Shah warning that the Karnataka-Maharashtra border row had reached a stage where it could erupt into full-blown violence and had sought

his personal intervention.

In a letter to Shah, they claimed that “high-handed” actions by Karnataka had “hurt the sentiments” of the Marathi-speaking people in the border districts at a time the matter was in the Supreme Court.

The Karnataka-Maharashtra border row escalated into violence after vehicles from both states were attacked and damaged in Belgaon and Pune.

Since its creation on May 1, 1960, Maharashtra has claimed that 865 villages, including Belgaon (now Belgavi), Karwar and Nippani, should be merged into Maharashtra. Karnataka, however, has refused to part with its territory.

The meeting came on a day the Maharashtra State Road Transport Corporation (MSRTC) partially resumed bus services to Karnataka from Kolhapur in southern Maharashtra after consulting local police authorities, an official said here.

The state-owned public transport body had suspended 382 out of 1,156 services to Karnataka, mainly between Kolhapur and Belagavi via

Nipani, after protests erupted over the border row between the two states. Some MSRTC buses were defaced in Karnataka. Buses from Karnataka were similarly targeted in Maharashtra. The MSRTC spokesperson said that normal services between Kolhapur and Belagavi via Nipani restarted from Friday afternoon.

Meanwhile, a Lok Sabha member from the Eknath Shinde faction of the Shiv Sena, an ally of the BJP, on Friday accused the BJP government in Karnataka of resorting to “strong-arm tactics” against the state’s Marathi-speaking areas.

Raising the issue in the Lok Sabha, Dhairyasheel Mane, the member from Maharashtra’s Hatkanangle, said the Marathi-speaking parts of Karnataka had been witnessing protests and agitations and there was an “atmosphere of terror” in the region.

“The state government there, the chief minister has made some statement that has caused anxiety among the people there. There is tension along the border. A law and order problem has arisen,” Mane said.

He said Karnataka Police had been resorting to strong-arm tactics in a big way and the Kannada Vedic organisation was treating Marathi-speaking people in an unjust manner.

Cong slams Guj unit for poor poll results

Asks State leadership to introspect, signals hard decisions in offing

PIONEER NEWS SERVICE ■ NEW DELHI

A day after its worst-ever performance in Gujarat Assembly elections, the Congress on Friday blamed the State leadership for the poor show and said it is time to introspect as well as take “tough decisions”. The grand old party which has been struggling to remove Narendra Modi’s hegemony from Gujarat for about two and half decades now accused the Aam Aadmi Party

and the AIMIM of colluding with the BJP, saying they were “informal alliance partners” of the ruling party.

The party took respite from Himachal Pradesh and appreciated its State leadership and the campaign led by Priyanka Gandhi and said the high decibel campaign by Prime Minister Narendra Modi in the Himalayan State did not work.

“For us, the Gujarat results show the need for introspection and for taking tough deci-

sions. In Gujarat the election results have been very disappointing and are far below our expectations. It is a very sad reflection on the State’s organisation,” Congress chief spokesperson Jairam Ramesh said at AICC Press briefing.

“For us, the Gujarat results show the need for introspection and for taking tough decisions. In the next election, our vote share would come back to 40 per cent,” the Congress leader claimed.

“The BJP has lost miserably

in Himachal Pradesh, given the fact that the Prime Minister campaigned extensively besides BJP president J P Nadda and Union minister Anurag Thakur, both of who hail from Himachal, the BJP has still lost,” Ramesh alleged.

He also blamed the AAP and the AIMIM for the poor performance of Congress, saying both the parties were BJP’s “informal alliance partners” in Gujarat. The party however avoided to answer anything on the role of Rajasthan Chief

Minister Ashok Gehlot who was incharge of the Gujarat elections and campaigned extensively despite of the impending crisis in his State.

Ramesh also said that an atmosphere of fear was created in Gujarat to ensure that many sections of society who supported the Congress do not come out and vote.

He credited the Congress’ promise to restore the old pension scheme as one of the primary reasons for the party’s success in Himachal.

INS Mormugao to be commissioned in Mumbai ahead of Goa Liberation Day

TN RAGHUNATHA ■ MUMBAI

A day ahead of the Goa Liberation Day on December 19, the Indian Navy’s latest indigenous guided stealth destroyer Mormugao — armed with surface-to-surface BrahMos missiles and Barak-8 long range surface-to-air missiles — will be commissioned in Mumbai on December 18.

Built at Mazagon Dock Shipbuilders Ltd (MDSL) as part of the Project 15B destroyers or the Visakhapatnam-class, Mormugao was delivered to the Indian Navy by the MDL on November 24.

The commissioning of Mormugao a year after the ship sailed for her maiden sortie on December 19, 2021.

The Indian Navy played a pivotal role in Goa’s liberation struggle and dedicating the ship’s name to the maritime state of Goa will not just enhance the bonding between the Indian Navy and the people of Goa, but also link the ship’s identity permanently to the crucial role the Navy played in nation-building.

Mormugao is a seaport city situated in the eponymous Mormugao sub-district of the district of South Goa in the tiny State of Goa along the Arabian Sea on western coast of India.

The indigenous content in P15B class destroyers is 72% which is a notch above their predecessors P15A (59%) and P15 (42%) Class Destroyers, reaffirming the Government’s focus in the ‘Make in India’ programme.

Gokhale’s rearrest in Gujarat BJP misusing EC, settling scores with Opp, says TMC

SAUGAR SENGUPTA ■ KOLKATA

A day after the Gujarat Police rearrested Trinamool Congress national spokesperson Saket Gokhale the Bengal ruling outfit on Friday slammed the BJP Government for misusing the Election Commission to settle scores with the opposition parties.

“The recent development — where our national spokesperson was arrested at a time when model code of conduct was still in vogue in Gujarat — only proves how the Election Commission has surrendered before the BJP Government,” TMC national general secretary Abhihek Banerjee said.

The TMC has sent a five-member team of MPs to Morbi in Gujarat where the Gokhale was taken after his arrest. Among the TMC leaders who were sent to Gujarat were Dola Sen, Shantanu Sen, Sunil Mondal and AsitMal.

Gokhale was first arrested on December 6 from Jaipur airport for tweeting against the Prime Minister Narendra Modi. Later he was granted bail and then rearrested on December 8 leading the TMC leadership to cry vendetta.

“The party (TMC) demands unconditional release of our national spokesperson,” Banerjee said even as sources said that he had again been granted bail.

Gokhale was earlier arrested after he tweeted on the Prime Minister’s visit to Morbi post the collapse of a hanging bridge that led to 135 deaths. In the tweet he said that the expenditure incurred by the Prime Minister’s visit to Morbi was far more than the compensation provided to the kin of the victims.

Subsequently he was arrested on December 6 by the Gujarat Police for peddling false reports. He was released on December 8, but hours after his release he was once again arrested by the police.

Reacting to Gokhale’s arrest senior TMC parliamentarian Sukhendu

Shekhar Roy wondered why the police would not arrest Mumbai actor and BJP leader Paresh Rawal for making derogatory remarks about the Bengalis.

They (police) were silent on a Mumbai film actor’s comment on the Bengalis but they arrested Gokhale for writing a tweet ... we all know that model code of conduct is still in vogue in Gujarat ... if so then how the Election Commission could order his arrest ... did he break any electoral law ... it is nothing but a witch hunt ... clearly and act of political vendetta,” Roy said.

A team of senior TMC leaders are scheduled to take up the matter with the EC on Monday, sources said.

Shraddha’s father meets Fadnavis, seeks Aftab’s hanging, slams Palghar police

TN RAGHUNATHA ■ MUMBAI

A month after the ghastly murder of his daughter Shraddha Walker came to light, her father Vikas Walker met Maharashtra Deputy Chief Minister Devendra Fadnavis, castigated the Palghar police for their failure to “save” his daughter and rooted strongly for the hanging of Shraddha’s live-in partner and alleged killer Aftab Poonawala.

Talking to media persons after meeting the Deputy Chief Minister, Walker said, “Had the Vasai Police and Nala Sopara Police in Palghar district taken timely action in the matter, my daughter could have been saved from being murdered by Poonawala.”

Walker also demanded a thorough investigation against the Poonawalla family members so as to establish their role

Vikas Walker, father of Shraddha Walker, addresses the media after meeting with Dy. CM Devendra Fadnavis, in Mumbai on Friday PTI

in the circumstances leading to the murder of Shraddha.

Maintaining that justice would be done to his daughter only if Poonawala was hanged to death, Walker said: “There should be proper investigation into the murder and he should be hanged to death,

Earlier in the day, Fadnavis — who holds the State Home Portfolio — assured Walker

that justice would be given to his family and his daughter Shraddha, and appropriate punishment shall be given to the accused.

Walker — who was accompanied by senior BJP leader Kirit Somaiya, when he met Fadnavis — said: “There should be investigations against Aftab’s family members, relatives and all others involved in the incident.”

“As of now, the case is being investigated by the Delhi Police and Vasai police. It is going well. But, in the initial stages, the Vasai and Nala Sopara had bungled up the case leading to the murder of my daughter,” Walker said.

“The Delhi Police have assured us that we will get justice. The Maharashtra Deputy Chief Minister (Fadnavis) has also assured us of the same,” he said.

Bad beginning

The Veep should have better avoided criticism of the apex court in his Rajya Sabha speech

Vice-President Jagdeep Dhankhar has begun his tenure as Chairman of the Rajya Sabha with a combative note. In his maiden address in the Upper House, he expressed his displeasure over the fact that the National Judicial Appointments Commission (NJAC) Bill, unanimously passed by Parliament, was “undone by the Supreme Court.” This was, according to him, a “severe compromise of parliamentary sovereignty and disregard of the mandate of the people.” The remark was as uncharacteristic as it was avoidable. Uncharacteristic because when a person enters a high office, they prefer to say nice things and sound accommodative. Platitudes rather than barbed comments are heard on the first day. But it looks like Dhankhar is yet to shed his belligerence that he exhibited in Kolkata as West Bengal Governor. He became a thorn in Chief Minister Mamata Banerjee’s side, incessantly slating her government and its actions. It is widely believed that he has been rewarded for his bellicosity. At any rate, his elevation may have inspired other Governors to become more aggressive; one example is Kerala Governor Arif Mohammad Khan. But Dhankhar must realise that his statements will now be highlighted and scrutinised much more than they were earlier. He should have avoided criticism of the apex court in such strong words. He must remember that the executive, the legislature, and the judiciary are three integral organs of the system which have to work in tandem, not fight with each other.

This is not to say that the Supreme Court’s decisions cannot or should not be criticised; they can be and must be, for that is how a vibrant democracy functions. But the manner in which criticism is made is very important—more so when the person slamming an apex court verdict holds a Constitutional office, as Dhankhar does. Hinting that the top court of the land disregarded the mandate of the people was not just excessive but also in bad taste. We commented earlier that the Government’s preference for the NJAC was justified. Three or half of the now disbanded NJAC comprised top judges only; two other members were also appointed in a manner in which government representation was in a minority. It looked like a reasonable system but the Supreme Court invalidated it in 2015. So, the collegium system continues. A few weeks ago, Law and Justice Minister Kiren Rijiju described the collegium system as “opaque.” In fact, he claimed that a majority of judges agreed with him: ‘Judges are not happy with the collegium system today.’ He claimed that when judges select judges, there is politics. In fact, “the politics of us politicians is nothing to what goes on in the judiciary.” By echoing the Government’s position on an important issue, Dhankhar has not presented himself as an impartial Chairman of the Rajya Sabha who could hope to enjoy bipartisan support in the House. This is unfortunate.

The ayurveda circle

Among ancient India’s biggest gifts to the world, we must embrace it emphatically first

Union Minister of State for Tourism Shripad Naik has rightly advocated the need for giving benefits of ‘Ayurveda’ to the world. The 9th World Ayurveda Congress is being organised by the World Ayurveda Foundation with support of the Union Ministry of AYUSH and Government of Goa. Prime Minister Narendra Modi will address the valedictory session on December 11. “It (Ayurveda) is not just medicine, it’s our tradition. We need to give benefits of it to the world,” he said. “Ayurveda has been facilitated by the setting up of a separate Ministry of AYUSH, credit of which goes to Modi” Naik added. He also said that the Modi government took Yoga to the world. And that is perhaps where he was off the mark. Indeed the AYUSH ministry was formed to give fillip to the alternative medicines especially Ayurveda but has it achieved its objective is rather questionable. More than 5,000 delegates and 200 delegates from 30 countries are attending the congress. Though conclaves like this do help, the minister and the government at large should understand that it takes more than just words to make a system popular. Equating it to Yoga would be wrong as Yoga was already popular in the west and the credit for that certainly does not go to the government.

The Ministry of AYUSH, is responsible for developing education, research and propagation of traditional medicine systems in India. The Department of Indian Systems of Medicine and Homeopathy (ISM&H) was made into a ministry by the Modi Government in 2014. But in its eight years there is hardly anything that AYUSH can be proud of. It started with much fanfare but has delivered nothing. It promised 100 AYUSH hospitals across the country were proposed, an Institute of Naturopathy in Pune at the cost of Rs 1,000 crore and posting 4,000 AYUSH practitioners across the country. Perhaps the AYUSH ministry can throw some light on the progress made. Somewhere the ministry lost its sense of direction and got embroiled in unnecessary controversies with its advisories which were not backed by scientific research. It failed to provide an infrastructure for alternative medicine and create awareness about the alternative medicines. The minister would do well to come up with a viable plan to provide facilities for the alternative medicines. Before that happens it would be just lip service to a great cause by the union ministers, nothing more.

Common ‘enemy No 1’ is China

Our Asian neighbour, riding on the might of its economic muscle, doesn’t mind being brazenly expansionist even at the cost of global peace

George Fernandes was perhaps the first Indian politician to call out the Chinese as ‘enemy number one’. It had raised hackles, piqued debate and seen as a tad bit alarmist and premature, as the hyphenated relation with Pakistan was still consuming emotions. However, it didn’t take long for the neologism of *Zhongguo shiji* or Chinese Century, to confirm George Fernandes’s forewarning. The advent of Xi Jinping as the President of China in 2013 accelerated the portents of an expansionist and authoritarian Dragon that would threaten the peace of established global order.

Back in the United States, the erstwhile Soviet Union was the centrepiece of its military strategy till its implosion with the *Revolutions of 1989*. A brief run of the US as the solo hegemonic power in the 90s ensued. However, it was the George Bush administration which recognised the emerging realities with the Pacific Ocean emerging as the theatre of tensions and focus of deployment in *Cold War 1.0.2*, with China having supplanted the Soviet Union/Russia, as the primary enemy. Given the physical distance between the mainland of US and China, constraints of a viable and sustainable ‘long-range power projection’ became inevitable, and therefore the urgency for establishing credible and strategic partnerships in the Indo-Pacific realm. This doctrinal evolution was the progenitor to the strategic conceptualisation of *Sino-centric* ‘blocs’ like *QUAD* (Quadrilateral – Japan, India, Australia and US) and *AUKUS* (Australia, UK and US), as indeed the ‘*Pivot to Asia*’ policy by the subsequent Obama Administration. Barack Obama was believed to have been sworn into the Oval Office as the ‘first Pacific President’. But it was Donald Trump who transformed the US-China narrative into open hostility – Trump spoke of Chinese expansionism in the geopolitical and geo-economic realm that needed to be checked, bluntly. From person-

ally calling Xi an ‘enemy’, escalating trade-wars, threatening Chinese allies like Pakistan and North Korea to even calling the Covid-19 virus as ‘Chinese Virus’, Trump opened the floodgates to China.

Incumbent Joe Biden administration has stayed the course on China and Biden himself described his conversation with Xi Jinping on the sidelines of the Group 20 summit at Bali as, ‘very blunt with one another’. Even though it is the traditional *cold war* nemesis i.e., Russia, which is in a bloody conflict with the US-supported Ukraine, and is doing so in the midst of the earlier imagined theatre of Eastern Europe – US remains firm in holding the strategic view that it is China and not Russia (hence, Indo-Pacific theatre and not the European or the Middle Eastern region) that is going to be the ‘enemy number one’, going forward. Even the recently released 2022 *China Military Power Report* by the US Defense Department confirms China as, ‘the most consequential and systemic challenge to the US national security and a free and open international system’. It went on to add

BACK IN THE UNITED STATES, THE ERSTWHILE SOVIET UNION WAS THE CENTREPIECE OF ITS MILITARY STRATEGY TILL ITS IMPLOSION WITH THE REVOLUTIONS OF 1989

that Beijing was, ‘the only competitor with the intent, and increasingly, the capacity to shape the international order’. The dragon’s intent is underscored by the fact that despite the crippling financial implications of the Covid pandemic, China has managed to double its nuclear arsenal to 400 from 200 warheads in 2020. Even their ballistic missile testing in 2021 has been more than the sum total testing done by the rest of the world!

Months earlier, the US Defense Department had released the 2022 *National Defense Strategy* where it had explicitly noted, ‘The most comprehensive and serious challenge to US national security is the PRC’s coercive and increasingly aggressive endeavor to refashion the Indo-Pacific region to suit its interests and authoritarian preferences’. Importantly for India, it had specifically covered the Indian concerns as the conflict on the Line of Actual Control (LAC) in the Summer of 2020 was one of the three specifically mentioned regions of concern, ‘a broader pattern of destabilizing and coercive PRC behavior that stretches across the East China Sea, the South

China Sea, and along the Line of Actual Control’.

Today, the haunting commonality of China underwrites the brewing Indo-US equation, and they feel mutually comfortable and impelled enough to do joint Military Exercise a la *Yudh Abhyas* (literally, War Practice) in the near vicinity of the exact flashpoints which were wounded in the Indo-Chinese standoff, recently. Even differing responses on Ukraine, Pakistan or even unsettled trade issues between US and India have not stopped Joe Biden from describing India as ‘indispensable partners’ – and the indispensability of the said relationship is essentially cemented and predicated on the perceived threat perception from China. Towards the same, leniency of overlooking Delhi’s legacy purchase of arms and oil from Russia, is par for course. Russia is a pale shadow of its past and China is the proverbial Dragon in the room for both Delhi and Washington DC to tame.

LETTERS TO THE EDITOR

GUJARAT VOTE BELONGS TO MODI

Sir — The BJP’s victory in Gujarat by record-breaking 156 seats, 86 per cent of the 182 seats grabbing 52.5 per cent votes has surprised thousands. But the credit must go to Prime Minister Narendra Modi, who was leading the campaign all the way for the BJP and his popularity, which was unlinked to the performance of the State Government, helped power the BJP to a historic victory. Beside Modi, the entry of AAP (which played spoiler on many seats to the Congress) and the defection of 19 Congress MLAs to the BJP (not only pushing the BJP’s tally to 111 in the last Assembly but also a majority of Congress turncoats or their family members fielded by BJP emerged victors), created confusion in the Opposition space.

In Gujarat, Modi is more popular than his party, and the Opposition is unable to create the politics or programmes that can challenge it. But in Himachal Pradesh, Modi’s extensive campaigning was not enough. Why did the BJP’s double engine Government run out of steam in Himachal; was not there any public welfare and development? Narendra Modi’s development model is only for Modi’s home State?

MUMBAI BREATHE HEAVY

Sir — India’s financial capital Mumbai has been detecting “very poor” air quality for the past few days. While it is India’s capital, Delhi, that makes headlines for having dangerous levels of air pollution during the winter months, Mumbai is considered to have better air quality due to its vast coastline. However, Mumbai overtook Delhi’s pollution levels several times this week, the *BBC* reported. Mumbai has joined a growing list of Indian cities that have bad air. As per experts, rapid construction, adverse weather conditions and increasing pollution from vehicle emissions are a few of the main factors responsible for the deteriorating air quality.

The level of PM 2.5 — a fine particulate matter that can clog lungs and cause

Not all’s hunky-dory in Qatar

There’s a lot more happening behind the scenes than meets the eye! The world is glued to the football World Cup matches currently going on in Qatar, with the final slated to be played on December 18. Statistics show how the Government of Qatar, since the day their country was allotted to hosting of the 2022 World Cup, started a period of brutal torture on migrant workers. Harassment of labourers, keeping them in inhumane conditions, salaries not being disbursed in time, confiscating their pass-

ports to make them work 12-18 hours under severe heat conditions: All these were normal conditions and widely reported. According to confirmed reports, data from India, Bangladesh, Nepal and Sri Lanka showed that there were 5,927 deaths of migrant workers in Qatar during 2011-2020.

Besides, data from Pakistan’s embassy in Qatar has confirmed 824 more deaths of their workers between 2010 and 2020. Instead of showing sympathy to the families of the deceased, the Qatari Government continues to ridicule the charges even today. Just recently, in an interview, tournament owner Nasser Al Khater said “death is a natural part of life” in response to a question asked by journalists on the workers who died. This answer has spread anger among human rights organisations and activists around the world. Does FIFA still feel that awarding the host to Qatar was the right decision?

Jang Bahadur Singh | Jamshedpur

a host of diseases — was 308 in Mumbai on Friday at 8:30 am, compared to Delhi’s reading of 259, according to Government data. Many Indian cities often report PM 2.5 levels well above the safe limit. Meanwhile, local hospitals in Mumbai have reported an increase in the number of people coming in with breathing difficulties and other ailments related to the poor air quality. Doctors have advised people to wear masks and avoid going out when not necessary.

A MULTI-FACETED PERSONALITY

Sir — It is saddening to know that Yoginder K Alagh, former Union Minister, eminent economist and academician, who brought out the best in those who collaborated with him, is no more with us. Born in Punjab of undivided Punjab in 1939, he studied at the University of Rajasthan and pursued his doctorate from the University of Pennsylvania. He joined the IIM,

Calcutta, in the late 60s. In 1979, he chaired a Planning Commission Task Force which used nutritional requirements to formulate poverty lines for rural and urban areas. Several anecdotes about his simplicity and handling of real life situations make his persona even bigger.

One such incident relates to his unique methodology in solving complex matters. He was then the JNU VC, and the students were on a hunger strike. He too went on a satyagraha to support their cause. Whatever may be the motive, it cannot be denied that he adopted a wider world view. From 1996-98, he served as the Minister of Power, Planning and Programme, as a member of the Planning Commission implemented programmes at the Centre, attained greater heights by virtue of his balanced and meticulous economic acumen and foresight.

DIGITAL NOMADISM: AN INSPIRATIONAL TREND

Organisations should enter into agreements with nomads

HIMA BINDU KOTA

Businesses have witnessed unprecedented trends during Covid times. One area that has seen a major revamp is the place of work for employees. The pandemic gave wings to an already fledgling idea of digital nomadism and changed employees' workstations forever.

Apart from the office, a digital nomad can work remotely from any place like a beach, a library or even a foreign country while traveling. According to a survey conducted by MBO Partners, this trend is fast rising. In the US alone, the number of digital nomads increased by 50 per cent to 11 million in 2020 and is expected to grow to a massive 35.7 million by 2025. It is interesting to note that the composition of this group changed from freelancers, independent consultants and entrepreneurs to regular, traditional, office goers with 9-5 work hours.

But who are these digital nomads? A research by Harvard Business Review finds that an average digital nomad is a digitally savvy, well-educated and highly skilled individual employed in tech industry, the creative arena, digital marketing and so on. Although digital nomadism became popular during the pandemic, this trend does not show any signs of slowing down. There are some ways in which employers can cater to this demand for flexible remote working facilities.

Firstly, the flexible policies that can provide freedom to employees can help companies attract talent. Many companies like Airbnb, 3M and Lift have taken cue and have developed and implemented adaptable remote working policies. The second most important requirement to promote digital nomadism is strong technological investments. To allow employees data access, many companies are using cloud-based technologies.

Thirdly, it is easier for companies with open office design concepts to step ahead and transform into a culture of digital nomadism. Although it is difficult for traditional companies with fixed 9-5 working hours and hierarchical seating arrangements to take a leap into remote working, companies which already open work spaces with different and new design elements like lounges, game rooms, project rooms and hotdesks, can help transition from flexible work style to nomadic work style.

So are companies in general ready with their policies to attract digital nomads? It is found that in spite of the growing trend of digital nomadism, only few organisations have formally designed policies for them. Therefore, digital nomads generally travel without their organisations knowing about it. In most cases, the immediate supervisor would have this information, but due to lack of concrete organisational policies would just turn a blind eye. However, this lack of clear policies can leave a firm open to any litigation or regulatory risks.

Generally, a person working in a particular location comes under the jurisdiction of that state/country, and the laws and regulations of the country apply to her irrespective of the location of the employer. So being present in another state or country, there is a possibility that digital nomads unintentionally end up creating the presence of the employer as a permanent establishment exposing it to an array of legal, regulatory, taxation laws and rules. Organisations should realise that the trend of digital nomadism is here to stay. To attract and retain employees, organisations should enter into agreements with digital nomads to clearly specify the terms and conditions of remote working.

Social media is playing an important role in the rise of digital nomadism. Owing to their strong social media presence, digital nomads communicate about their experiences through vlogs, blogs and Instagram accounts, making their lifestyle coveted. Although digital nomadism started out as a choice, it is more of an aspiration now. Organisations must adapt quickly and include the requirements of employees who want to enjoy being free to travel.

Cong, Savarkar and the Karat syndrome

Since the 1980s, Communists have been sneaking into the Congress and allegedly toxifying the minds of the top leadership in the party and the Govt

M NAGESWARA RAO

India's independence movement produced freedom fighters from a kaleidoscope of ideologies, from the radical left to the civilisational right. The freedom that we enjoy today is the result of their cumulative efforts and collective sacrifice. Therefore, every Indian should feel proud of those sons of motherland who gave up the prime of their youth, underwent tremendous hardships, atrocities, and humiliation, with the sole aim to free the motherland from the foreign yoke.

Our current ideological incongruence with theirs should never be a barrier in being grateful and reverential to them. It is, however, understandable that some center-left establishmentarians who came to power immediately after independence could not outgrow their personal animosities. But that is long past. Why should the third generation leaders after independence abhor Hindu-right leaders of the freedom movement who suffered more than the most?

In Hindu thought, except the supreme Brahman even the manifested gods are not perfect, what to speak of humans. And freedom fighters like any human beings had their own follies and defects in their persona. Further, before the might of the State even the strongest break down. Many top leaders of all ideological shades too had at times cozied up to the colonial rulers to avoid adverse personal consequences. And as the British were most brutal to the freedom fighters from the Hindu-right, some of its leaders had to buckle to survive, for you can't fight war unless you are alive. Therefore, maligning them by selectively highlighting certain of their deeds out of context is both unfair and ungrateful.

In any case, what is it that we gain by vilifying those who fought for our freedom? Inexplicably, Vinayak Damodar Savarkar is the most prominent Hindu-right freedom fighter who remains the prime target of left-liberals. He was an atheist, a prolific writer, an ideologue, a powerful orator, and a firebrand revolutionary leader. He wrote 'The Indian War of Independence-1857' for its 50th anniversary and 'The Essentials of Hindutva' among many others. The British banned the former book even before it was published.

For waging war against the colonial government, the British sentenced him to 50 years of imprisonment and transportation for life. He was lodged in the infamous Cellular Jail in the Andamans. The punishment there was inhuman. It ranged from hard labour to extra hours on the grinding mill, to standing handcuffed for a week, to bar-fetters for six months, to confinement in solitary cells, to four days of starvation diet and to cross bars for 10 days, a punishment which compelled the victim to keep his legs apart.

Savarkar endured all that inhuman torture for 11 long years, which others could not even imagine to be for 11 min-

AS OPPOSED TO THE PRAGMATISM OF HIS PREDECESSOR HARKISHEN SINGH SURJEET, PRAKASH KARAT IS EXTRAORDINARILY RIGID IN IDEOLOGY AND VIRULENTLY ANTI-HINDU. NO WONDER, DURING HIS ERA, THE CPI(M) HAD THE SHARPEST DOWNFALL FROM WHICH IT COULD NEVER RECOVER

(The author is a former Director, CBI. The views expressed are personal)

utes. Based on his mercy petitions, which was a legal avenue available for all, he was shifted to Ratnagiri Jail and then released to be confined to only Ratnagiri district for 15 years. Was there any prominent leader of freedom movement from any ideological stream who underwent the kind of inhuman sufferings as did Savarkar?

Indira Gandhi celebrated Savarkar. In 1970, her government issued a commemorative postage stamp on him. In a letter of May 20, 1980 for his birth centenary, she said that Savarkar's daring defiance of the British Government has its own important place in the annals of freedom movement. "I wish success to the plans to celebrate the birth centenary of this remarkable son of India," she said. In 1983, Indira Gandhi got a documentary film on Savarkar made through the Ministry of Information and Broadcasting. She also gave a grant to the Savarkar memorial in Mumbai. This is a representative example that the old Congress not only did not have any ill-will towards Hindu right or Savarkar but they also celebrated the contribution and sacrifices of the latter.

With the waning of Communism in post 1980s, many leftists sneaked into Congress pastures, bringing their visceral hatred for anything Hindu, including Savarkar, and toxified minds of Congress leadership, including Rahul Gandhi. Their hidden agenda is to transform the Congress into a new Communist party.

For several decades the RSS-BJP used to loathe Gandhi, Nehru, and

several Congress leaders of freedom struggle, but it did not give them any political dividends. As they needed to deepen their political acceptability, they course-corrected and started appropriating leaders from other ideological streams. They built the world's tallest statue of Sardar Patel. They incorporated Gandhi and Ambedkar in their pantheon. They eulogise Indira Gandhi as Maa Durga.

They fete PV Narsimha Rao to gain cross political legitimacy for their own brand of reforms. They installed a statue of Bose under the India Gate canopy. After appropriating Swami Vivekananda, Tagore, Jaya Prakash Narayan, they are now even celebrating anti-Hindu Periyar and Jyotiba Phule. Sooner than later, they will also appropriate Nehru. The list is getting longer despite feeble protests of the Congress against BJP stealing their icons.

The results of the general elections, from 1951 to 2019, show that a party (not a coalition) could secure absolute majority only when Hindus consolidate for it. From 1951 to 1971, Hindus were solidly with the Congress for its inclusivity. Emergency distanced them but marginally. The dismal failure of the Janata Party experiment brought them back to the Congress in 1980. The last time Congress secured absolute majority was in 1984 as Hindus hugely consolidated in the wake of tragic assassination of prime minister Indira Gandhi.

Thereafter, it secured a near majority in 1991 due to Hindu consolidation in the phases of election

that took place after the terrible assassination of Rajiv Gandhi. The UPA rule from 2004 to 2014 badly alienated Hindus from the Congress as it was widely seen for the first time as anti-Hindu. As a result, Hindus massively rallied behind the BJP as never before, giving it absolute majority for the first time in its history in 2014 and repeated it in 2019. More importantly, the election data indicate that historically Hindus reposed faith in the Congress more than in any other party when it was centrist and not anti-Hindu.

Here is a lesson for the Congress. Prakash Karat is a top apparatchik of the Communist Party of India (Marxist) and was its national chief from 2005 to 2015. As opposed to the pragmatism of his predecessor Harkishen Singh Surjeet, Prakash Karat is extraordinarily rigid in ideology and virulently anti-Hindu and had no personal skin in the electoral game. No wonder, during his era the CPI(M) had the sharpest downfall from which it could never recover.

To recap, while on the one hand, Congress is losing its icons to the RSS-BJP, on the other its diatribe for no rhyme or reason against Hindu-right and historical personalities like Savarkar is pushing Hindus away from it. Why is the Congress in self-destructive mode?

Because the Congress leadership is in the intellectual grip of left-liberals, who have no skin in the electoral game. They are doing to the Congress what Prakash Karat did to the CPI(M).

Highlight of COP27 was 'Loss and Damage Fund'

Increasing climate risk around the globe requires a more strategic and broader approach to incorporate optimisation of consumption

The 27th edition of the United Nations Climate Change Conference or Conference of the Parties, COP27, concluded recently at Sharm El-Sheikh and made positive but limited progress. The Egyptian COP27 Presidency has defined the summit's four key goals.

With mitigation, all parties, especially those in a position to "lead by example", are urged to take "bold and immediate actions" and to reduce emissions to limit global warming well below 2°C. With adaptation, parties have to ensure that COP27 makes the "crucially needed progress" towards enhancing climate change resilience and assisting the world's most vulnerable communities.

The goal of finance called

JAIDEEP MUKHERJEE

VAISHALI MISHRA

GAURAV BHATIANI

(Jaideep and Vaishali work with Smart Power-India and Gaurav is with RTI International (India).)

for making significant progress on climate finance, including the delivery of the promised \$100 billion per year to assist developing countries. With collaboration, the UN negotiations stuck to the consensus-based approach, as reaching an agreement will require "inclusive and active participation from all stakeholders".

Increasing climate risk requires a more strategic and broader approach to incorporate optimisation of consumption. Doing more with less, adopting circular economy principles and removing incentives for inefficient equipment, business models and lifestyles need to be at the forefront and centre of the conversation.

Inspiration needs to be drawn from the words of

Mahatma Gandhi that "the world has enough for everyone's needs, but not everyone's greed". This applies not only to energy, but also conserving water, building materials, transportation, food and textiles. Definitive progress was made on the long-standing carbon market process, but many operational decisions were postponed for future negotiations.

Further, the negotiations remained confined to a relatively narrow agenda on fossil fuels and therefore missed the opportunity to comprehensively address all sources of GHGs.

While COP26 focused on mitigation, the highlight of COP27 was creation of the 'Loss and Damage Fund' to support most vulnerable

countries impacted severely by climate disasters. Countries in Asia (India, Bangladesh, Vietnam, and Philippines), Africa (Kenya, Malawi, Chad, Niger), Pacific Islands (Fiji, Tuvalu, Kiribati) and Caribbean Islands (Haiti) are amongst the most vulnerable and impacted.

An area of particular attention is the inadequacy of current climate financing models. Global climate finance remains below the third of annual requirements. At COP27, negotiators deliberated on setting a 'new collective quantified goal on climate finance' in 2024, taking into account the needs and priorities of developing countries.

With millions of people in developing nations lacking access to reliable energy and

depending on fossil fuels for their energy requirements adds to the carbon emission.

Energy access will power the socio-economic aspirations of 2.8 billion people without electricity. For an equitable and inclusive green transition, a scaled-up and integrated approach is required to support the clean energy transition to distributed renewable energy and grid-based renewables and will reduce dependence on fossil fuels.

Distributed renewable energy is relevant even for cities since they consume 60-80 per cent of energy and generate 70-75 per cent of GHG emissions. Hence, enabling energy transition will require significant effort in reforming urban planning and infra-

structure delivery. Technology convergence across electricity, telecom, and transport present newer opportunities for reducing carbon footprints, improving quality of life, reducing cost, and enhancing long-term sustainability. Underground utility systems, which are gaining global popularity, can be integrated with the master plans. Such an approach will require new regulations and institutional structuring to include energy as a part of urban planning. Thus, a strategic approach to urbanization presents a large opportunity, given a strong positive correlation between per capita income and urbanisation.

Last year, the Conference of Parties 26 (COP26) in Glasgow reiterated the global community's ongoing response

to the Paris Agreement to tackle the climate crisis while declaring a state of global emergency. The goal to achieve net-zero global emissions by 2050 while keeping the increase in global average temperature below 1.5 degrees Celsius in comparison to pre-industrial levels was well-intentioned.

COP 27 balanced that with progress on adaptation and the creation of a loss and damage fund. Barbados Climate Envoy called the fund "a small victory for humankind". However, the overall ambition and, more importantly, action on all fronts need to be significantly and urgently scaled to achieve more significant victories in mitigating the global emergency.

Winter of discontent for Russian troops

THE CONVERSATION/AP ■ WEST POINT (US)

With Russian troops digging trenches to prepare for an expected winter standoff, it would be easy to conclude that fighting will slow in Ukraine until after the ground thaws in the spring. But evidence from the Ukrainian battlefields point to a different trajectory.

As a career US special forces officer who conducted field research on the 2008 and 2014 wars in Georgia and Ukraine, it is my view that this war has demonstrated that only one side, the Ukrainians, can execute effective combat maneuvers.

I believe that the Ukrainians will attempt to launch a large-scale counteroffensive in late winter when the ground is still frozen.

WINTER'S IMPACT ON WAR

Historically, the pace of fighting does slow in the winter. Weapons and other equipment can freeze up in extreme cold, and it's much more difficult to shoot a weapon while wearing thick gloves.

Shorter days are a factor. Despite technological advances, most of the fighting during this war has occurred during the day. But this winter may be different for the Ukrainian military.

First, Ukrainian winters are

not nearly as cold and snowy as many believe.

Donetsk, for example, has an average temperature of nearly 25 degrees Fahrenheit (-4 degrees Celsius) in January and February.

Its snowiest month, January, averages only 4.9 inches of snow, or .12 metres. Both January and February average just as many rainy days as snowy days – roughly two days of each.

A BRIEF HISTORY OF RUSSIAN ATTACK

Since the invasion began in February 2022, Russia made most of its gains in the first month of the war when it seized Kherson, surrounded Mariupol, and was on the doorsteps of Kyiv and Kharkiv.

But Russia soon gave up on Kyiv and withdrew all its forces from the north.

Failing to achieve quick victory, Russia instead settled on making incremental gains in the east and south.

Over the next five months, Russia captured Mariupol, but little else of tactical or strategic value.

During this time, Ukraine built up its combat power with new weaponry from the West and planned a large counteroffensive, which it initiated on August 28, 2022.

In the first week of the counteroffensive, Ukraine lib-

erated more territory than Russia had captured in the previous five months.

The success of the counteroffensive showed that Ukraine's military was superior to Russia's in every category with the exception of size.

It had better doctrine, leaders, strategy, culture and will – and it had just proved that it could effectively fight battles with a combination of artillery, tanks, soldiers and air attacks.

By September 12, 2022, Ukraine had liberated much of Kharkiv Oblast as Russian troops routinely fled from their positions.

After liberating the entirety of Kharkiv Oblast in early October 2022, Ukraine turned its attention to Kherson in the south.

This was a different fight, and in some ways Ukraine's military followed Chinese military strategist Sun Tzu's axiom of

“winning without fighting.”

The Ukrainians were able to conquer much of the territory without using many troops on the ground.

Instead, Ukraine used long-range rockets supplied by the US and NATO allies to bombard Russian bases and supply lines that were previously unreachable.

These attacks left Russian forces west of the Dnipro River in an untenable position.

Bulgarian parliament OK's military aid to Ukraine

AP ■ SOFIA, BULGARIA

Bulgarian lawmakers on Friday approved the country's first military assistance package to Ukraine involving a classified list of weapons prepared by the government.

The National Assembly voted 148-46 with one abstention in favor of the weapons to Kyiv following months of political squabbling on the issue in the Balkan NATO member state.

Bulgaria previously agreed to repair Ukrainian military equipment at its factories but refused to send weapons directly due to opposition from President Rumen Radev and the country's Moscow-friendly political parties. Along with Hungary, Bulgaria was the only European Union member country to initially refuse to give Ukraine weapons following Russia's invasion.

While the full list of weapons remains classified, cabinet members told reporters ahead of the vote that the package included small arms and ammunition. Defense Minister Dimitar Stoyanov said in a TV interview that the aid “is fully aligned with Ukraine's priorities” but added that Bulgaria will neither provide S-300 missile systems nor MiG-29s fighter jets.

US sending \$275 million in military aid to Ukraine

AP ■ WASHINGTON

The US is sending an additional USD 275 million in military aid to Ukraine, including large amounts of ammunition and high-tech systems that can be used to detect and counter drones in its ongoing war with Russia, according to US officials.

The total aid amount is smaller than most of the recent packages the US has delivered, and it comes as many military officials and experts predict a reduction in attacks during the winter. NATO Secretary-General Jens Stoltenberg said Russia appears to be slowing its military activities to regroup and launch a new offensive when the weather warms.

The officials said the latest

Limiting Russia's options further, these strikes have been less effective as the war has progressed.

Early in the war, most of Russia's missiles made it through Ukraine's limited air defences.

With the help of western air defence systems, Ukraine was shooting down 50 per cent of Russian missiles in October and is now intercepting over 80 per cent of them. Winter should not affect these types of combat operations.

But snow will have an impact on Russia's already stressed and under-performing logistical system, and the cold will further lower – if that is possible – the already low morale of Russia's poorly outfitted and undertrained soldiers.

WHAT TO EXPECT FROM UKRAINE

As the smaller military, Ukraine cannot afford to take heavy losses.

Thus far, it has used a strategy of defending territory when it could, retreating when it should to preserve combat power, and attacking when the opportunities have presented themselves.

Ukraine effectively employed this strategy to defend Kyiv in the first month of the war and during the September 2022 counteroffensive to reclaim the Kharkiv and Kherson oblasts.

An important question must be asked. Why did it take six months for Ukraine to launch its counteroffensive?

One reason is that Ukraine had to wait several months for promised Western aid to arrive at its bases.

In my view, a significant factor is the lengthy amount of time it takes to plan large counteroffensives and to position supplies, equipment and forces.

The fact that Ukraine conducted the counterattacks in succession suggests that Ukraine lacks the combat power to conduct two large-scale counterattacks at the same time.

Ukraine is going to need time to regroup, refit and plan for its next large-scale operation.

Thus, it seems reasonable that Ukraine will have to wait at least 30 to 45 days – maybe more – before it is ready to execute its next counteroffensive, which would be in the heart of winter.

While conducting an attack in winter may be difficult, off-road movement in the spring could become impossible, as the Russians discovered during their initial invasion in muddy and wet terrain.

It seems reasonable to conclude that Ukraine may wish to initiate its next counteroffensive while the ground is still frozen – and Russian troop morale is at its lowest point since the invasion.

FM: Helping Ukraine self-preservation

AP ■ FRANKFURT

Ukraine's finance minister says crucial Western financial support is “not charity” but “self-preservation” in the fight to defend democracy as his country deals with growing costs to repair electrical and heating infrastructure wrecked by Russian attacks.

Serhiy Marchenko also told The Associated Press in an interview Thursday from Kyiv that he believes European Union officials will sort out a dispute with Hungary that has blocked a key 18 billion-euro (USD 18.97 billion) aid package and would cover much of Ukraine's looming budget gap.

Marchenko said financial support for Ukraine is tiny compared to what developed countries spent to combat emergencies like the global financial crisis of 2008 and the COVID-19 pandemic. And that the money bolsters freedom and security far

beyond his country's struggle, he added.

“It's not charity to support Ukraine,” Marchenko said. “We are trying to protect freedom and democracy of all (the) civilized world.”

He said the damage from Russian missile attacks on civilian infrastructure such as power stations would cost 0.5% of annual economic output next year, adding to the burden as Ukraine tries to cover a budget deficit equivalent to USD 38 billion. The World Bank put Ukraine's gross domestic product at just over USD 200 billion in 2021, so the damage could amount to roughly USD 1 billion.

Ukraine needs outside financing to cover the budget deficit caused by the war. Cash or loans help it avoid printing money at the central bank to cover basic needs like paying people's pensions, a practice that risks fueling already painful inflation.

Griner back home in US after Russian prisoner swap

AP ■ SAN ANTONIO

American basketball star Brittney Griner returned to the United States early Friday after being freed in a high-profile prisoner exchange following nearly 10 months in detention in Russia.

The deal, which saw her swapped for notorious arms dealer Viktor Bout, secured the release of the most prominent American detained abroad and achieved a top goal for President Joe Biden. But the US failed to win freedom for another American, Paul Whelan, who has been jailed for nearly four years.

Griner is a two-time Olympic gold medalist, Baylor University All-American and Phoenix Mercury pro basketball star.

Her status as an openly gay Black woman, locked up in a country where authorities have been hostile to the LGBTQ community, injected racial, gen-

der and social dynamics into her legal saga and brought unprecedented attention to the population of wrongful detainees.

Biden's authorisation to release Bout, the Russian felon once nicknamed “the Merchant of Death,” underscored the heightened urgency that his administration faced to get Griner home, particularly after the recent resolution of her criminal case on drug charges and her subsequent transfer to a penal colony.

Griner was seen getting off a plane that landed Friday at Joint Base San Antonio-Lackland in Texas.

The athlete, who also played pro basketball in Russia, was arrested at an airport there in February after Russian authorities said she was carrying vape canisters with cannabis oil.

Before her conviction, the US State Department declared Griner to be “wrongfully detained” — a charge that Russia has

sharply rejected.

The Russian Foreign Ministry confirmed Thursday's swap, saying in a statement carried by Russian news agencies that the exchange took place in Abu Dhabi and Bout had been flown home.

Biden spoke by phone with Griner. US officials said she would be offered specialised medical services and counselling.

In releasing Bout, the US freed a former Soviet Army lieutenant colonel whom the Justice Department once described as one of the world's most prolific arms dealers. He was arrested in Thailand in 2008 and extradited to the US in 2010.

Bout was serving a 25-year sentence on charges that he conspired to sell tens of millions of dollars in weapons that US officials said were to be used against Americans.

Following Griner's arrest at Moscow's Sheremetyevo Airport in February, she pleaded guilty in July but still faced trial because admitting guilt in Russia's judicial system does not automatically end a case.

She acknowledged in court that she possessed canisters with cannabis oil but said she had no criminal intent and she accidentally packed them.

Her defence team presented written statements that she had been prescribed cannabis to treat pain.

Representative of one the the Organisations sharing this year's Nobel Peace Prize said Friday that she thinks Russian President Vladimir Putin must face an international tribunal for the fighting in Ukraine.

Oleksandra Matviichuk of Ukraine's Centre for Civil Liberties said during a news conference in Oslo, Norway, that “We must establish an international tribunal to hold Putin, (Belarusian President Alexander) Lukashenko and other war criminals accountable.”

In October, the Ukrainian group was named a co-winner of the 2022 peace prize along with Russian human rights group Memorial and Ales Bialatski, head of the Belarusian human rights group Viasna.

Bialatski is jailed in Belarus and was unable to travel to receive the prize, which is due to be formally presented on Saturday.

US keeps eye on China's space activities for potential risks

AP ■ BEIJING

The US is closely monitoring Chinese activities that potentially threaten American assets in space as debris rapidly accumulates in low Earth orbit, the head of United States military operations in space said Friday.

Commander of US Space Command Army Gen. James Dickinson also cheered the overwhelming passage in the United Nations of a resolution that countries not conduct direct-antisatellite tests that create vast fields of space debris, which endanger satellites and space stations.

Of the four countries that have conducted such ASAT tests, the United States was the only one that voted in favour, while China and Russia voted no and India abstained.

"We can't continue to contribute to the debris that we find in the space domain," Dickinson said in a telephone news conference with reporters in Asia. Most of that debris lies in crucial low Earth orbit, which has become "congested, competitive and contested," he said.

Even tiny shards of metal can pose a danger and the number of objects is growing rapidly.

partly.

Space Command is now tracking more than 48,000 in near Earth orbit, including satellites, telescopes, space stations and pieces of debris of all sizes, up from 25,000 just three years ago, Dickinson said.

China in 2003 became the third government to send an astronaut into orbit on its own after the former Soviet Union and the United States. Its program has advanced steadily since.

The Chinese space program drew rare international criticism after it conducted an unannounced test in 2007 in which it used a missile to blow up a defunct Chinese satellite, creating debris that continues to

pose a hazard.

Beijing believes that "space is a very important piece to not only their economic or the global economic environment, but also the military environment, so we continue to watch that very closely as they continue to increase capabilities," Dickinson said.

The secretive Chinese program is run by the ruling Communist Party's military wing, the People's Liberation Army, precluding it from participating in the International Space Station or engaging in most forms of cooperation with NASA.

Proceeding with little outside help, China last month launched the last of three mod-

ules for its own space station, which briefly hosted six Chinese astronauts in space during a turnover of the three-person crew.

It also has rovers on the moon and Mars and is planning a crewed lunar mission sometime in the future.

With US-China tensions high over Taiwan, the South China Sea, trade and technology, space is increasingly becoming a potential flash point.

In addition, the Pentagon last week released an annual China security report that warned Beijing would likely have 1,500 nuclear warheads by 2035, and that it has provided no clarity on how it plans to use them.

China continues to "build capabilities that, really quite frankly, hold most of our assets at risk in the space domain," Dickinson said.

Russia's invasion of Ukraine has further showed space to be a "contested domain that must be protected. It's a role that we at US Space Command take very seriously," he said.

"I'm seriously focused on our pacing challenge, China," Dickinson said, using a description of Beijing that has become standard in the Pentagon.

Bill protecting same-sex, interracial unions approved

AP ■ WASHINGTON

The House gave final approval Thursday to legislation protecting same-sex marriages, a monumental step in a decades-long battle for nationwide recognition that reflects a stark turnaround in societal attitudes.

President Joe Biden has said he will promptly sign the measure, which requires all states to recognise same-sex marriages. It is a relief for hundreds of thousands of couples who have married since the Supreme Court's 2015 decision that legalised those marriages and have worried about what would happen if the ruling were overturned.

In a statement after the vote, Biden called the legislation a "critical step to ensure that Americans have the right to marry the person they love." He said the legislation provides "hope and dignity to millions of young people across this country who can grow up knowing that their government will recognise and respect the families they build."

The bipartisan legislation, which passed 258-169 with 39 Republican votes, would also protect interracial unions by requiring states to recognise legal marriages regardless of "sex, race, ethnicity, or national origin." After months of negotiations, the Senate passed the bill

last week with 12 Republican votes.

Democrats moved the bill quickly through the House and Senate after the Supreme Court's decision in June that overturned the federal right to an abortion — including a concurring opinion from Justice Clarence Thomas that suggested the 2015 Obergefell v. Hodges decision legalising same-sex marriage could also be reconsidered.

While many Republicans predicted that was unlikely to happen, and said the bill was unnecessary, Democrats and GOP supporters of the bill said it shouldn't be left to chance.

"We need it," said House Speaker Nancy Pelosi, who presided over the vote as one of her last acts in leadership before stepping aside in January. "It is

magic."

The bill is "a glorious triumph of love and freedom," Pelosi said, tearing up as she celebrated its passage.

In debate before the vote, several gay members of Congress talked about what a federal law would mean for them and their families. Rep. Mark Pocan, D-Wis., said he and his husband should be able to visit each other in the hospital just like any other married couple and receive spousal benefits "regardless of if your spouse's name is Samuel or Samantha."

Rep. Chris Pappas, D-N.H., said he was set to marry "the love of my life" next year and it is "unthinkable" that his marriage might not be recognised in some states if Obergefell were to be overturned.

Myanmar rescues 154 Rohingya from boat in distress

AP ■ BANGKOK

More than 150 Rohingya have been rescued off the coast of Myanmar after their boat started taking on water, Myanmar's military said.

Myanmar's state-run Oil and Natural Gas Corporation sent two boats from an offshore operation to rescue the 154 people — 106 males and 48 females — after spotting their boat in trouble, the military said in a statement Thursday.

It was not clear whether the vessel was the same boat carrying Rohingya refugees from Bangladesh that had been reported to be in trouble earlier this week in the waters of neighbouring Thailand.

Thailand's navy spokesman Vice Admiral Pokkrong Monthathaphin said Friday that crews had been sent to look for the boat in the Andaman Sea after it received the reports, but had found nothing. UNHCR, the United Nations' Refugee Agency, said it did not have independent information on the boat reportedly experiencing engine troubles in Thai waters, but urged countries in the area to help.

In a report earlier this month, UNHCR reported there had been a dramatic increase in the number of people attempting to cross the Andaman Sea this year.

Lanka shuts schools as extreme weather brings pollution

AP ■ COLOMBO

Schools across Sri Lanka were closed on Friday as health and environment officials said the air quality in most parts of the island nation was unhealthy partly due to extreme weather conditions.

Polluted air from neighbouring India was aggravating the problem, authorities said, as a storm in the Bay of Bengal triggered heavy rains and winds across Sri Lanka in recent days.

A haze hung over the capital, Colombo, and other parts of the country, with the level of

fine particles in the air reaching unhealthy levels.

"The current pollution has arisen due to the combination of local air pollutants and transboundary air pollution," said the National Building Research Organisation, a state agency involved in environmental monitoring and risk management.

"This condition can be seen in all parts of Sri Lanka and it has a tendency to cause health problems," it added.

Director General of Health Services Asela Gunawardena said the condition would con-

tinue for the next two weeks and he advised people to limit the amount of time they spend outdoors and to wear a face mask when they are outside to minimize their health risk.

At least two people were killed and another two were injured as heavy rains and winds lashed many parts of Sri

Lanka the past two days. Dozens of houses were damaged by falling trees and several roads were blocked.

The Department of Meteorology said Friday that a severe cyclonic storm was in the Bay of Bengal, about 230 kilometres (143 miles) northeast of Sri Lanka, and likely to move toward India.

Arab leaders in Saudi Arabia for Chinese leader Xi's visit

AP ■ DUBAI

Gulf Arab leaders and others in the Mideast met Friday in Saudi Arabia as part of a state visit by Chinese leader Xi Jinping, seeking to firm up their relations with Beijing as decades of US attention on the region wanes.

Before a joint meeting with Xi, representatives of the Gulf Cooperation Council met in a summit helmed by Saudi Crown Prince Mohammed bin Salman, further signalling his control of a kingdom still overseen by his father, the 86-year-old King Salman.

Among them was Qatar's ruling emir, Sheikh Tamim bin Hamad Al Thani, whose country now hosts the FIFA World Cup and has largely restored ties to its Arab neighbours after a years-long boycott. Bahrain's King Hamad bin Isa Al Khalifa, whose island nation still has strained relations with Qatar, also attended.

Prince Mohammed made a point in his opening remarks, aired on state television, to applaud Qatar for its hosting of the World Cup. He also could be seen warmly greeting Sheikh Tamim before the meeting, something unthinkable only two years earlier amid the boycott.

The GCC includes Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates. The leader of the Emirates, Sheikh Mohammed bin Zayed Al Nahyan, did not attend, instead sending the ruler of the emirate of Fujairah, Sheikh Hamad bin Mohammed

Al Sharqi. Kuwait's crown prince and a representative of Oman's sultan also attended.

Xi's visit comes as China relies on the Gulf Arab states, particularly Saudi Arabia, for billions of dollars in crude oil imports to power his country's economy. While the US still maintains bases across the region and stations tens of thousands of troops, Gulf Arab nations feel Washington's attention has shifted elsewhere after the end of the wars in Afghanistan and Iraq. They also want to maintain relations with China even as US officials believe they face a growing threat from China in Asia and Russia as Moscow wages its monthslong war on Ukraine.

During Xi's visit, Saudi officials have said deals had been signed between Riyadh and Beijing, including some involving Chinese technology company Huawei on cloud-computing, data centres and other high-tech ventures.

Bangladesh police arrest 2 top Opp leaders

PTI ■ DHAKA

Police in Bangladesh on Friday arrested two top leaders of the main Opposition party BNP, a day before its planned grand rally in the capital to call for Prime Minister Sheikh Hasina's resignation.

Bangladesh Nationalist Party's Secretary General Mirza Fakhrul Islam Alamgir and Standing Committee member Mirza Abbas were picked by the detective branch personnel from their homes in separate pre-dawn raids in the capital city.

"DB (detective branch) men arrested Mr Mirza Fakhrul Islam Alamgir from his Uttara (area) residence at about 3 am. There are some cases against (pending against) him," Uttara police station's officer in charge Zahurul Islam told newsmen.

German coup plot fuelled by conspiracy claims, Covid steps

AP ■ BERLIN

An alleged plot to topple the German government, led by a self-styled prince, a retired paratrooper and a Berlin judge, had its roots in a murky mixture of post-war grudges, antisemitic conspiracy theories and anger over recent pandemic restrictions, experts say.

Police detained 25 people on Wednesday described as being part of Germany's Reichsbürger, or Reich Citizens, movement.

While the name might suggest a link to the Nazi era, it actually refers to the first modern pan-German nation formed when Prussia's King Wilhelm I and his chancellor, Otto von Bismarck, united numerous smaller states into a single empire, or Reich, in 1871.

Reich Citizens consider the partition of Germany by Allied powers after World War II and the subsequent democratic states that followed to have been illegal, arguing instead that the original Reich still exists.

67 scribes, media workers killed on job this year

AP ■ BRUSSELS

Russia's war in Ukraine, chaos in Haiti and rising violence by criminal groups in Mexico contributed to a 30% spike in the number of journalists killed doing their work in 2022 over the previous year, according to a new report released Friday.

The International Federation of Journalists says that 67 journalists and media staff have been killed around the world so far this year, up from 47 last year.

The Brussels-based group also tallied 375 journalists currently imprisoned for their work, with the most in China, Myanmar and Turkey. Last year's report listed 365 journalists behind bars.

With the number of media workers killed on the rise, the group called on governments to take more concrete action to protect journalists and free journalism. "The failure to act will only embolden those who seek to suppress the free flow of information and undermine the ability of people to hold their leaders to account, including in ensuring that those with power and influence do not stand in the way of open and inclusive societies," IFJ General Secretary Anthony Bellanger said in a statement.

More media workers were killed covering the war in Ukraine — 12 in total — than in any other country this year, according to the IFJ. Most were Ukrainian but also included those of other nationalities such as American documentary filmmaker Brent Renaud. Many deaths occurred in the first chaotic weeks of the war, though threats to journalists continue as the fighting drags on.

The IFJ said "the rule by terror of criminal organizations in Mexico, and the breakdown of law and order in Haiti, have also contributed to the surge in killings." 2022 has been one of the deadliest ever for journalists in Mexico, which is now considered the most dangerous country for reporters outside a war zone.

NORTHERN RAILWAY
OPEN-E-TENDER NOTICE
The Sr. Divisional Engineer-III, Northern Railway, Delhi Division invites E-Tender for the following work.

1	Name of work	Provision of shed at Goods Platform at Shakurbasti station (SSB) & Provision of roads at Goods PF at Shakurbasti (SSB) in the section of ADEN/DLI.

Ministries seized of duty structure issue: Niti VC

PTI ■ NEW DELHI

Niti Aayog Vice Chairperson Suman Bery on Friday said the Finance and Commerce Ministries are seized of the matter related to inverted duty structure, but did not elaborate pointing out that the next Union Budget was round the corner.

Finance Minister Nirmala Sitharaman will announce the tax proposals in the Union Budget 2023-24 which is scheduled to be presented to the Lok Sabha on February 1.

Replying to queries during the CII Global Economic Policy Summit 2022 here, Bery said Niti Aayog has been doing “some internal work” on the issue of inverted duty structures. Also, both the finance ministry and the commerce ministry are seized of the issue, he added.

“But you know, since we are approaching budget time, I don’t want a headline that promises that this is going to be, you know, on the agenda. So I just say I hear you and I will take it back,” the Niti Aayog Vice Chairperson said. Inverted duty structure refers to taxation of inputs at higher rates than finished products that results in build-up of credits and cascading costs.

Earlier Bery said country’s G-20 presidency is an event for all of India with states and Centre combined.

“We are here at an important moment in terms of India’s climb up the size of economy ladder, with the eyes of the world being on India and with the mandate given to us by the prime minister to think through Viksit Bharat (Developed India),” he said.

He was in a conversation session on Indian Economy @2030 with Sanjiv Bajaj, President, CII, and Chairman and Managing Director, Bajaj Finserv Limited.

The Niti Aayog Vice Chairman also observed that

India has an innate resilience, and despite the many criticisms that are made of both the Indian policy establishment and the Indian private sector, whenever there is a challenge, the system seems to work.

“Our watchword going forward should be ‘if ain’t broke, don’t fix it,’” he said.

Bajaj noted that India is at a very interesting place at a time when “we have been a resilient economy that is still exposed as the world is going through a period of uncertainty”.

Sensex surrenders early gains as IT stocks crack

PTI ■ MUMBAI

Equity benchmark Sensex declined nearly 390 points on Friday, pressured by heavy selling in IT and energy stocks despite a positive trend in global markets.

Rising crude oil prices and relentless foreign capital outflows further weighed on sentiment, traders said.

The 30-share BSE Sensex opened strong but came under severe selling pressure to close 389.01 points or 0.62 per cent lower at 62,181.67. Similarly, the broader NSE Nifty declined 112.75 points or 0.61 per cent to 18,496.60.

HCL Tech was the top loser in the Sensex pack, skidding 6.72 per cent, followed by Tech Mahindra, Infosys, Wipro, TCS and Reliance Industries.

On the other hand, Nestle India, Titan, Sun Pharma, Dr Reddy’s, IndusInd Bank and ITC were among the gainers, advancing up to 2.24 per cent.

“Today’s downfall in the domestic market was sparked by IT stocks extending their losses after warning of a potential slowdown in business on global recession fears. This was further aggravated by banks losing their grip as PSBs suffered heavy sell-offs.

“However, global bourses were largely positive, although

the Fed is expected to raise interest rates by 50 basis points next week,” said Vinod Nair, Head of Research at Geojit Financial Services. On a weekly basis, the Sensex lost 686.83 points or 1.09 per cent, while the Nifty shed 199.50 points or 1.06 per cent.

“Markets seems to be consolidating for last few sessions as participants are lightning their position ahead of crucial US Fed meeting next week. US PPI data to be released later on Friday as well as US CPI data on 13th December would be keenly watched as they would influence the Fed’s interest rate decision.

“Further, FIIs have remained net sellers (₹5,500 crore) in December so far (barring one positive day) and added to the overall pressure in the market... We expect weakness in tech stocks to continue on account of weak growth outlook.

Inflows via mutual funds SIP hit fresh high at ₹13,306 cr in Nov

PTI ■ NEW DELHI

Flows in the mutual fund industry through systematic investment plans or SIPs route rose to an all-time high of ₹13,306 crore in November, reflecting the growing maturity and confidence of investors.

However, inflows in equity mutual fund schemes plunged 76 per cent to ₹2,258 crore in November from Rs 9,390 crore in the preceding month, data released by the Association of Mutual Funds in India (Amfi) showed on Friday.

This was also the 21st straight month of inflows into equity schemes.

As per the data, flows through SIP was ₹13,306 crore in November, surpassing the previous high of ₹13,041 crore in October.

The inflows through SIPs have been above the ₹12,000-crore mark since May. It was ₹12,976 crore in September, ₹12,693 crore in August, ₹12,140 crore in July, ₹12,276 crore in June and ₹12,286 crore in May. Before that, it stood at ₹11,863 crore in April.

With this, the total inflow has reached ₹87,275 crore in the first eight months of the current fiscal. This came following an inflow of over ₹ 1.24 lakh crore in the 2021-22 financial year.

“The healthiest trend in the Indian equity market now is the steady increase in SIPs, which have touched a new record of

₹13,307 crore in November. It is a proven fact that SIPs are the most successful mode of investment for retail investors,” VK Vijayakumar, Chief Investment Strategist at Geojit Financial Services, said.

Increasing SIPs shows that Indian equity investors are maturing, Vijayakumar said and suggested that SIP investors should not discontinue their investment when markets correct sharply.

S Ranganathan, Head of Research at LKP Securities, noted that foreign investors have been booking profits but domestic flows through SIPs are at lifetime highs, which reflects the growing maturity and confidence of the domestic investors.

Also, mutual funds added 11.27 lakh SIP accounts during the month under review, taking the total to about 6.04 crore.

SIP is an investment methodology offered by mutu-

al funds wherein an individual can invest a fixed amount in a chosen scheme periodically at fixed intervals, say once a month, instead of making a lump sum investment. The SIP instalment amount can be as small as ₹500 per month.

NS Venkatesh, Chief Executive, AMFI, said that mutual fund investors have shown resilience and continue to invest in SIPs, with consistent contributions month-on-month.

Overall, the mutual fund industry registered a net inflow of ₹13,263 crore in November, slightly lower from ₹14,045 crore in the previous month, data released by the Association of Mutual Funds in India (Amfi) showed.

“Market continues to react to global headwinds. Rate hikes will continue to impact global markets but not for long, irrespective of whether the mutual fund industry has performed well.

Gold falls ₹30; silver jumps ₹558

PTI ■ NEW DELHI

Gold prices fell ₹30 to ₹54,305 per 10 grams in the national capital on Friday amid appreciation in rupee, according to HDFC Securities.

In the previous trade, the precious metal had closed at ₹54,335 per 10 grams.

Silver, however, jumped ₹558 per kg to ₹67,365 per kilogram.

The rupee appreciated 19 paise to 82.19 against the US dollar in early trade on Friday on broad dollar weakness and a firm trend in domestic equities.

“Domestic market gold prices were a bit negative following a stronger rupee,” said Dilip Parmar, Research Analyst at HDFC Securities.

In the international market, gold was trading higher at \$1,791.9 per ounce while silver was up at \$23.07 per ounce.

“Gold and silver price inched higher amidst the fall in dollar index, as the investors focusing on key US inflation data and Federal Reserve’s rate hike decision due next week,” Navneet Damani, Senior VP — Commodity Research at Motilal Oswal Financial Services, said.

SBI board to take call on raising capital via bonds

PTI ■ NEW DELHI

State Bank of India (SBI) said its board will meet on December 14 to decide on raising capital through Tier 1 bonds.

As per a regulatory filing, SBI said it will seek “approval for raising of Additional Tier 1 (AT 1) capital by way of issuance of Basel III compliant debt instruments in INR and / or any other convertible currency through a public offer or private placement to Indian and / or overseas investors up to March 31, 2024.”

The fundraise would help the bank grow its loan book.

Earlier this week, SBI announced that its personal banking advances, excluding high value home loans, have crossed the ₹5 lakh crore-mark.

The country’s largest lender took a year to book the

last ₹1 lakh crore of advances, as against over 15 months for the previous ₹1 lakh crore and over 30 months for the ₹1 lakh crore before that.

SBI has 22,309 branches, over 65,000 automated teller machines and 66,757 business correspondent outlets, which drive its entire retail banking franchise.

Earlier in July, the board had approved raising up to ₹11,000 crore through Basel-III compliant debt instruments.

Forex kitty soars \$11 billion to \$561.16 bn

PTI ■ MUMBAI

India’s foreign exchange reserves soared by \$11.02 billion to reach \$561.162 billion for the week ended December 2, Reserve Bank data showed on Friday.

This is the fourth consecutive week of rise in the reserves. In the previous reporting week, the overall reserves had grown by \$ 2.9 billion to \$550.14 billion. For the week ended November 11, the forex kitty had jumped by \$14.72 billion in its second fastest weekly acceleration ever.

In October 2021, the country’s foreign exchange kitty had reached an all-time high of \$645 billion. The reserves have been declining as the central bank deploys the kitty to defend the rupee amid pressures caused majorly by global developments.

Foreign currency assets (FCA), a major component of the overall reserves, increased by \$9.694 billion to \$496.984 billion during the week to December 2, according to the Weekly Statistical Supplement released by the RBI on Friday.

Expressed in dollar terms, the foreign currency assets include the effect of appreciation or depreciation of non-US units like the euro, pound and yen held in the foreign exchange reserves.

The gold reserves increased by \$1.086 billion to \$41.025 billion.

The Special Drawing Rights (SDRs) were down by \$164 million to \$18.04 billion, the apex bank said.

The country’s reserve position with the International Monetary Fund (IMF) was also down by \$75 million to \$ 5.108 billion in the reporting week, the data showed.

Srei CoC evaluates bids, finalisation likely in 2-3 days

PTI ■ KOLKATA

The Consolidated Committee of Creditors (CoC) of twin Srei companies may take two-three days to select the resolution plan from among three bids for the Kolkata-based NBFC entities, a senior official said on Friday.

Since Wednesday, the CoC is holding internal meetings besides deliberating with the three — Varde Partners and Arena consortium, government-backed bad bank NARCL and Authum Investment and Infrastructure — in Mumbai for Srei Infrastructure Finance (SIFL) and Srei Equipment Finance (SEFL).

The consortium of Varde

Partners and Arena has submitted a bid value of ₹14,000 crore, while National Asset Reconstruction Co Ltd (NARCL) submitted a resolution worth ₹13,500 crore. The third bid of Authum Investment and Infrastructure is valued at ₹7,000 crore, a government official who attended the meeting told PTI.

The value of resolution plans could not be independently verified.

The total value of resolution plans submitted by the applicants involves upfront cash payout, deferred payments by way of instruments like NCDs and OCDs and a timeline to clear the dues ranges between three and seven years.

“Authum’s cash payout component is the highest at Rs 2,800 crore and promises to complete the payout of total committed value within 3.5 years. The other two bidders will take 5-7 years to clear the payments. The CoC is scrutinising the offers made for each of the assets of the two companies,” the official said.

There is an attempt to convince the bidders to revise their bid terms.

Rupee gains 10 paise to close at 82.28 against US dollar

PTI ■ MUMBAI

The rupee appreciated by 10 paise to close at 82.28 against the US dollar on Friday, tracking the weakening of the American currency in the overseas market.

Forex traders said muted domestic equities and foreign fund outflows weighed on investor sentiments and restricted the gains.

At the interbank foreign exchange market, the local unit opened at 82.30 and touched an intra-day high of 82.08 and a low of 82.33 against the green-back.

It finally settled at 82.28, registering a rise of 10 paise

over its previous close of 82.38.

Forex traders said muted domestic equities and foreign fund outflows weighed on investor sentiments and restricted the gains.

At the interbank foreign exchange market, the local unit opened at 82.30 and touched an intra-day high of 82.08 and a low of 82.33 against the green-back.

It finally settled at 82.28, registering a rise of 10 paise

Sebi clarifies on ‘schemes of arrangement’ for entities with listed debt securities

PTI ■ NEW DELHI

Capital markets regulator Sebi on Friday clarified on the framework pertaining to ‘schemes of arrangement’ for entities that have only listed their debt securities.

Scheme of arrangement is a court-approved agreement between a company and its shareholders or creditors.

Sebi, in November, had put in place operational guidelines pertaining to ‘scheme of arrangement’ by entities who have listed their debt securities — non-convertible debentures (NCDs) or non-convertible redeemable preference shares (NCRPS).

Under this, the entity that has listed NCDs or NCRPS and

which intends to undertake a scheme of arrangement or is involved in a scheme of arrangement would file the draft scheme with stock exchanges for obtaining a no-objection letter, before filing such scheme with any court or tribunal.

Further, the exchange would have to forward such draft schemes to the Securities and Exchange Board of India.

Sebi clarified that the operational guidelines issued in November would not apply to a scheme of arrangement which solely provides for an arrangement between a debt

listed entity and its unlisted wholly-owned subsidiary.

However, such debt listed entity would file the draft scheme of arrangement with stock exchanges for the purpose of disclosure. Besides, stock exchanges would disseminate the scheme documents on their websites.

Earlier, the regulator had amended rules with respect to scheme of arrangement, involving merger, amalgamation among others, by entities who have listed their non-convertible debt securities or non-convertible redeemable preference shares.

TVS Motor’s Singapore arm to acquire EV related tech, assets in Germany

PTI ■ NEW DELHI

TVS Motor Company on Friday said its Singapore-based subsidiary BBT Vermögensverwaltungs GmbH (name proposed to be changed to Celerity Motor GmbH), it added.

The purchase will help strengthen the company’s expansion in the electric two-wheeler market globally, TVS Motor said.

The company, however, did not disclose financial details.

TVS Singapore will be acquiring the assets through its subsidiary BBT Vermögensverwaltungs GmbH (name proposed to be changed to Celerity Motor GmbH), it added.

The purchase will help strengthen the company’s expansion in the electric two-wheeler market globally, TVS Motor said.

The company, however, did not disclose financial details.

Sebi brings framework for foreign investment in AIFs

PTI ■ NEW DELHI

Markets regulator Sebi on Friday came out with a framework for alternative investment funds (AIFs) raising capital from foreign investors.

At the time of on-boarding investors, the manager of an AIF would have to ensure that the foreign investor is a resident of a country whose securities market regulator is a signatory to the International Organization of Securities Commission’s (IOSCO)

Multilateral Memorandum of Understanding or a signatory to a bilateral Memorandum of Understanding with Sebi.

“AIFs may accept commitment from an investor being Government or Government related investor, who does not meet the aforesaid condition, if the investor is a resident in the country as may be approved by the Government of India,” the Securities and Exchange Board of India (Sebi) said in a circular.

Further, the investor contributing 25 per cent or more in the corpus should not be a person mentioned in the Sanctions List notified by the United Nations Security Council and should not be a resident in a country identified in the public statement of the Financial Action Task Force (FATF).

The investor should also not be from a country that has not made sufficient progress in addressing the deficiencies or has not committed to an action plan developed with FATF to

address such deficiencies.

In case an investor who has been on-boarded to a scheme of an AIF subsequently does not meet the specified conditions, the manager of the AIF will not drawdown any further capital contribution from such investor for making investment, until the investor again meets the conditions.

The same would also apply to investors already on-boarded to existing schemes of AIFs who do not meet specified conditions, Sebi said.

BUSINESS BRIEF

CEO OF THE YEAR AWARD CONFERRED ON NTPC CMD

New Delhi: Gurdeep Singh, CMD NTPC has been bestowed with the CEO of the Year Award at the 24th Annual Platts Global Energy Awards held in New York for his outstanding contribution to the power sector. The CEO of the Year demonstrates the ability to sustain their sector amid universal headwinds while undeniably supporting the employees who propel their organization into the future.

Morocco chasing WC history against Portugal

AP ■ DOHA

Morocco head into Saturday's last-eight clash with Portugal knowing they are only one step away from making history as Africa's first World Cup semi-finalists, but they face a buoyant opposition fresh from scoring six goals against Switzerland.

Walid Regragui's Moroccans are in uncharted territory after a surprise run which saw them finish top of Group F after beating Belgium and Canada before a stunning victory over Spain on penalties in the last 16.

The Atlas Lions are only the fourth African side to reach the quarter-finals — after Cameroon in 1990, Senegal in 2002 and Ghana in 2010.

Morocco have enjoyed the vast majority of support from the crowds at all their games in Qatar and that is likely to be the case again at Al Thumama Stadium. "I think it's impossible for us to do this without the fans," said coach Regragui after knocking out Spain.

"A lot of fans came to Qatar from a lot of countries — America, Europe, Morocco.

"They love their country and what I can tell them is this — we can do nothing without them, I need them for the quarters and, hopefully, we'll make history."

There has still never been a country from outside Europe or South America in a World Cup

final, but Morocco want to put that right.

"Why not aim for the sky? We needed to change and we needed to change our mentality," Regragui said after the group stage.

"We're not going to stop here. We're going to respect every opponent. But we are

going to be very difficult opponents. So why not dream about lifting that trophy?"

Morocco are unbeaten in seven matches since Regragui took over from the sacked Wahid Halilhodzic in August.

They have conceded only once in that time, an own goal against Canada.

Morocco have overcome several injury problems to get this far in Qatar, with full-backs Achraf Hakimi and Noussair Mazraoui carrying knocks for most of the tournament.

Centre-back Nayef Aguerd hobbled off injured against Spain, while captain Romain Saïss soldiered on despite pick-

ing up an injury during extra time.

"Since the start of the competition, we've been playing with a team that's not 100 percent, that's why it's even more extraordinary," said Regragui.

"We've managed to create a family, and we feel that we have a people behind us."

Spain struggled to create any clear-cut chances against the dogged North Africans but Portugal will be a different proposition after a fluid attacking display against the Swiss.

Coach Fernando Santos took the big decision to drop Cristiano Ronaldo to the bench, but it paid dividends as the superstar striker's replacement Goncalo Ramos scored a hat-trick in the 6-1 rout.

Portugal are in the World Cup quarter-finals for the first time since 2006, when they beat England on penalties before being knocked out by France.

They beat Ghana and Uruguay in the group stage before losing to South Korea, but without Ronaldo in the lineup, Portugal's attacking players appeared freer against Switzerland.

The 21-year-old Ramos stole the headlines, while Bernardo Silva, Bruno Fernandes and Joao Felix all impressed.

The prize for the winners is a semi-final against England or France and the chance to reach the World Cup final for the first time.

Santos calls for line to be drawn under Ronaldo affair

AP ■ DOHA

Portugal coach Fernando Santos admitted on Friday that Cristiano Ronaldo had been unhappy to be dropped to the bench as he pleaded for a line to be drawn under the affair.

The veteran striker was a substitute for the first time at a World Cup since 2006 for his side's last-16 match against Switzerland, which they won 6-1. A report in Portuguese newspaper Record said Ronaldo had threatened to quit the squad

after he was told he was not in the starting line-up.

The Portuguese football federation denied the report and Ronaldo himself took to social media to state that the squad was "too united to be broken by outside forces".

Santos, speaking on the eve of Portugal's quarter-final against Morocco, said he had spoken to Ronaldo on the day of the game against Switzerland.

"I invited him to my office, and told him 'you will not be one of the starters', so it would not

be a surprise," he said.

"I told him he would be important (but) in terms of the strategy, I told him 'it's better for you not to play'. I saved him for the second half."

Santos said five-time Ballon d'Or winner Ronaldo never threatened to leave the team camp, although he was upset about being dropped.

"Cristiano, for obvious reasons, was not very happy about it," said Santos. "He's always been a starting player except for one or two games on the bench -- obviously he was not happy."

"He told me 'do you really think it's a good idea?' But we had a normal conversation in which I explained my viewpoints."

"Of course, he accepted. We had a frank and normal conversation, he has never told me he wanted to leave our national team."

Santos said Ronaldo showed his commitment to the team by celebrating Portugal's goals and leading the players to applaud the fans.

"It's high time we stop with this conversation, stop the controversies," said the coach, trying to draw a line under the affair.

"It's high time for you to leave Ronaldo alone, in acknowledgement for what he's done for Portuguese football."

Deschamps warns England of Mbappe threat

AP ■ DOHA

France coach Didier Deschamps is confident Kylian Mbappe can still make the difference in Saturday's World Cup quarter-final showdown with England even if the opposition put their focus on stopping the superstar forward.

Mbappe is the top scorer at the tournament with five goals in four games, including a brace in the 3-1 win over Poland in the last 16, and England will need to find a way of countering the Paris Saint-Germain striker.

But the holders have formidable quality around Mbappe, with Olivier Giroud, Ousmane Dembele and Antoine Griezmann all impressing in Qatar too.

"I imagine England will take measures like our four previous opponents did but Kylian has the ability to make the difference," Deschamps told reporters on Friday.

"Even in the last game, when he wasn't at his best like

in the first two, he was still decisive, but if we can share around the danger that stops too many precautions being taken against Kylian.

"But Kylian will always be Kylian, with the ability to be decisive at any moment."

The pressure is intensifying for both sides, but Deschamps has won the World Cup as a

player and a coach and the 54-year-old encouraged France not to let the occasion get the better of them.

"As is the case for us and all teams who reach the knockouts, you don't have a second chance," he admitted.

"The further on you go the greater the quality, but the demands are higher too and so

is the excitement.

"This is the next stage but there is no stress, no need to hold back. It is magnificent to play a World Cup quarter-final."

While France are the defending champions, England appear to be growing as a team on the back of their run to the semi-finals in Russia four years ago and the final of Euro 2020.

France goalkeeper and captain Hugo Lloris — who has spent nearly a decade in the Premier League with Tottenham -- was full of praise for Gareth Southgate's England.

"If you look at the English squad they have more players here who were in Russia than France do," said the 35-year-old, who is set to win his 143rd cap and overtake Lilian Thuram as his country's all-time record appearance maker.

"They were semi-finalists at the World Cup, runners-up at the Euro. There is a real progression and I believe this team is getting more mature. They are here to win."

Southgate vows front foot approach

AP ■ DOHA

England manager Gareth Southgate has urged the Three Lions to take the game to defending champions France in a blockbuster World Cup quarter-final clash on Saturday.

Southgate's men are the joint top scorers in the tournament with 12 goals in their four games in Qatar so far but will come up against the firepower of the tournament's top scorer in Kylian Mbappe.

The threat of the Paris Saint-Germain forward has led to suggestions Southgate could change his formation with an extra defender added to deal with France's front four of Mbappe, Olivier Giroud, Antoine Griezmann and Ousmane Dembele.

But Southgate has hinted he intends to force France into worrying more about how to stop England's array of attacking talent.

"There is no point going into a game like this and just covering up and sitting on the ropes. We believe we can cause problems with the ball and we intend to do that," Southgate told ITV.

England reached the semi-finals four years ago as France went onto claim their second World Cup in Russia.

The Three Lions then got to a first major tournament final in 55 years at Euro 2020 before losing on penalties to Italy on home soil at Wembley.

But Southgate is hopeful that those experiences will help his side end the wait for a major trophy that stretches back to the 1966 World Cup.

"We've beaten some big teams. We know we have the experience of high pressure nights behind us and as a team we've been resilient through a lot of situations, but they all prepare you for nights like this," added Southgate.

"We got to the first final for 55 years. We've won a semi-final and been to a semi-final of the World Cup before."

"But, of course, it is a big game against a high quality opponent. Everything that has happened in the past is history, it all comes down to Saturday night."

INDIA STARE AT CLEAN SWEEP

PTI ■ CHATTOGRAM

A struggling Indian team, severely depleted by a spate of on-field injuries and fitness-related problems, will be determined to avoid the ignominy of a clean sweep against Bangladesh in the final ODI of the three-match series here on Saturday.

Bangladesh, riding on two contrasting yet brilliant knocks from Mehidy Hasan Miraz, have already sealed the series after winning the first two matches but if Litton Das' men can blank the 'Men in Blue' 3-0, it will be a historic first in the country's cricket.

Not only will it be an icing on the cake for the hosts but also significantly dent the visiting team's confidence ahead of the Test series, starting at this very venue in less than a week's time (December 14).

For India, there were 20 cricketers originally available for this series since there was a very short turnaround time between the first ODI in Bangladesh and the last game in New Zealand as some players in both squads were common.

But call it a cruel twist of fate as within a week things have gone from bad to worse and they only have 14 fit and available players to choose from for the final game.

Such has been the plight that Kuldeep Yadav has been flown into Chattogram on SOS basis as the Indian bowling attack looks thin on experience. The left-arm wrist spinner with 118 wickets from 72 ODIs will be the most experienced bowler in the line-up.

Regular skipper Rohit Sharma sustained a left thumb dislocation and has flown back home. Up and coming pacer Kuldeep Sen suffered a back injury after playing his first international game. Seamer Deepak Chahar continued his saga of breaking down in almost all the series he has played since his comeback

from a long lay-off.

Add to this, Axar Patel suffered a hit in the ribs and missed the first game while Rishabh Pant, who flew all the way from New Zealand, reportedly had a niggle and had to be rested for excessive workload prior to this series. In fact, there will be two forced changes in the playing eleven with Rohit and Chahar already unavailable.

It is there to be seen whether India bring in Ishan Kishan into the playing XI as an opener or stand-in skipper KL Rahul, who is now a

designated middle-order batter-keeper in this format, decides to promote himself just like during the tour of South Africa.

The other option is continuing with Virat Kohli-Shikhar Dhawan combination and get someone like Rahul Tripathi, who can also bowl some cutters at mid 120 clicks, in the playing XI. If the team management goes for a pure batter rather than a utility player, then the stylish Rajat Patidar could get his first game for India.

In case of Chahar's replace-

ment, there isn't a back-up pacer available and the team might not have an option but to fall back to all-rounder Shahbaz Ahmed, who could be the sixth bowling option.

India's five-pronged bowling attack will be Mohammed Siraj, Shardul Thakur, Umran Malik, Washington Sundar and Axar Patel.

With no Jasprit Bumrah, Mohammed Shami and Ravindra Jadeja, the Indian bowling unit's performance at the back-end has been far from impressive.

While a full-strength Bangla-

desh will start as favourites in the final game, the bigger worry will be KL Rahul, the skipper.

His record, save in the ODI series win against a below-par Zimbabwe, has been dismal and the last thing he would need is another clean sweep defeat against his name after the tour of South Africa.

Till now, there has been little or no indication that Rahul is a long-time future India captain, not having displayed any above average leadership acumen in the matches that he has captained so far.

I've been working on my power-hitting: Sundar

PTI ■ CHATTOGRAM

He is not the quintessential power-hitter. But, keeping in mind the Indian team's requirements ahead of next year's World Cup, Washington Sundar is working "specifically" on how to hit the ball long and hard.

Known to rely more on timing and placement, Washington has also played a few blunders, the most recent coming in the tour of New Zealand. And who can forget his 14-ball 40 against Rajasthan Royals in the IPL, representing Sunrisers Hyderabad.

"That's the role I have been getting in the last few years or so. That's what that particular position demands, and I have working quite specifically that way.

"Whatever positions demand me to do, I have been practising that way. I have been working in those specific manners," Washington said on the eve of the third ODI against Bangladesh.

Washington is happy that his hard work is reaping dividends.

"I am glad that all the hard work has been coming good in the last few months or so. Hopefully, I will continue to do really well in the coming months and years as well."

The all-rounder, who has picked up five wickets in the two preceding matches of the series which India have already lost, is looking to be the player for all situations and positions.

"It was a great opportunity for me in last game. With the World Cup next year, I want to be the player who could play in any situation, in any sort of combinations, and wherever the team needs. To win games, wherever they ask me to play, I will play. That's the kind of player I want to be.

"I want to be able to contribute to my potential, contribute in a way that the team gets to win most of the games, and eventually, be very, very successful in the World Cup. I just want to be in the present and keep doing well,

keep getting better in every aspect of the game."

India lost both their matches in Bangladesh from winning positions, having the hosts at 136 for nine in a chase of 187 in the opener and then reducing them to 69 for six before letting them off the hook to make 271 for seven in the second match.

"To be honest, we had our opportunities in both the games, First game, they needed about 50 runs to win with one wicket and we had a good opportunity. And even the last game, we had a good opportunity.

"In the first innings, they were 70 for six and with the way Shreyas and Axar were batting, we were going to win quite convincingly and Rohit bhai, the kind of knock he played, it was unreal.

"It was just about winning those critical moments, probably doing one or two things better here and there. We will look to end the one-day series on a high."

India 'A' crush B'desh 'A' by an innings & 123 runs

PTI ■ SYLHET

Left-arm orthodox spinner LSaurabh Kumar ran through Bangladesh 'A' batting line-up as India 'A' clinched the two 'Test' series with a commanding innings and 123-run victory in the second and final game here on Friday.

With his performance, Saurabh has staked a strong claim to replace an injured Ravindra Jadeja in the Indian Test squad for the upcoming series against Bangladesh, starting December 14.

Having conceded a mammoth 310-run first innings lead, Bangladesh 'A' performed even worse in their second innings, being shot out for a paltry 187 in 79.5 overs.

In the first innings, Bangladesh were a shade better, scoring 252 and India replied with a massive 562, riding on skipper Abhimanyu Easwaran's superb 157.

Saurabh, who also had a five-wicket haul in the second innings of the drawn first 'Test', took 6 for 74 in 30 overs to become one of the architects of the series win.

The Uttar Pradesh spinner also finished with a haul of 15

scalps in two games to emerge as the top wicket-taker in the series. Bangladesh 'A', with seasoned former skipper Mominul Haque in their ranks, were expecting to bat it out for three sessions and eke out a draw.

However, Mominul (6) was smartly snapped up behind stumps by keeper Kona Bharat in the fifth over of the morning and there was no looking back for India 'A'.

Opener Shadman Islam (93 not out) did fight it out and also had a 54-run fourth wicket stand with Shahadat Hossain (29) but Saurabh broke that stand with Yash Dhull taking a catch.

Navdeep Saini (2/54 in 16 overs), who was given an extended spell because of his possible call-up to the senior squad, then got two wickets in three deliveries to send half of the home side packing. He first trapped Jaker Ali leg-before and then had Yashasvi Jaiswal pouch Mohammed Mithun in the slips to reduce Bangladesh 'A' to 145 for 6.

Saurabh then quickly polished off the tail to set up a nice win as Umesh Yadav (2/34 in 15.5) completed the proceedings.

Call on Rohit's availability for Test series to be taken later: Shah

PTI ■ NEW DELHI

A call on injured India captain Rohit Sharma's participation in the upcoming two-match Test series against Bangladesh, starting December 14, will be taken later, BCCI secretary Jay Shah said on Friday.

Rohit had suffered a blow to his thumb while fielding in the slips during the second ODI against Bangladesh in Mirpur on December 7.

"The BCCI Medical Team assessed him and he underwent scans at a local hospital in Dhaka. He has flown to Mumbai for specialist consultation and will miss the final ODI. A call on his availability for the upcoming Test

series will be taken later," Shah stated in a press release.

While the BCCI will wait for an update on Indian skipper's availability, it can be safely concluded that with a dislocation as well as stitches, it will be near impossible for Rohit to train and then play a five-day match starting Wednesday. It is also not just about batting but also fielding.

With India having a packed schedule of white-ball games throughout January, whether the risk will be taken in a Test series against Bangladesh is there to be seen.

The BCCI has also instructed injury-prone pacer Deepak Chahar and rookie Kuldeep Sen to report to

National Cricket Academy (NCA) for assessment of their hamstring and back injuries respectively, informed Shah.

"Fast bowler Kuldeep Sen complained of stiffness in his back after the first ODI. The BCCI Medical Team assessed him and he was advised rest from the 2nd ODI. Kuldeep has been diagnosed with a stress injury and is ruled out of the series.

"Fellow fast bowler Deepak Chahar sustained a left hamstring strain during the 2nd ODI and is also ruled out of the series. Both Kuldeep and Deepak will now report to NCA for further management of their injuries," Shah stated.

Australia thrash India in 1st Women's T20I

PTI ■ NAVI MUMBAI

Opener Beth Mooney made short work of a 173-run target with a belligerent 57-ball 89 to power the Australian women's team to a convincing nine-wicket victory over India in the first T20 International here on Friday.

Mooney smashed 16 fours during her stay in the middle, and was helped by Tahlia McGrath's unbeaten 29-ball 40, which included four boundaries and two sixes. Australia thus took a 1-0 lead in the five-match series.

Earlier, the experienced Deepti Sharma blazed away to an unbeaten 15-ball 36 to power India to 172 for five.

Sharma smashed four successive boundaries in the final over, bowled by Megan Schutt to boost India's run rate after Richa Ghosh (36 off 20 balls) and the returning Devika Vaidya (25 off 24) added 56 runs for the fifth wicket.

Chasing a stiff target, the formidable Australian opening pair of skipper Alyssa Healy and Mooney gave Australia the start it needed,

adding 73 runs in just under nine overs.

Healy and Mooney played some wonderful shots during their scintillating partnership to put the Indian bowlers under pressure.

Making matters worse was a dropped catch by Radha Yadav at backward point off Renuka Singh, giving Mooney a life when the batter was on 4. Medium pacer Renuka was then hit for three successive fours by Mooney, even as her captain struck the first six of the Australian innings.

If the dropped catch was

not enough, India's fielding overall was poor.

Vaidya, playing her first T20I since her debut in 2014, effected the first breakthrough when she had Healy caught by Harmanpreet.

The loss of the skipper, for a 23-ball 37, failed to disturb Australia's momentum as Mooney found an able ally in Tahlia McGrath.

It was as good as over for India after Mooney took 18 runs in the 15th over to bring the equation down from 55 runs off 36 balls to only 37 runs in the last five overs.

Ahmed's 7-114 on Test debut helps Pak rein in Poms

AP ■ MULTAN

Unheralded Abrar Ahmed bagged a rich haul of seven wickets in a dream debut as Pakistan's spinners kept England's aggression in check on the first day of the second Test on Friday.

The 24-year-old mystery spinner grabbed 7-114 and got plenty of help from the dry wicket at Multan Cricket Stadium to dismiss England for 281 inside the first two sessions.

England got rid of both Pakistan openers — Imam-ul-Haq and Abdullah Shafique — early before captain Babar Azam's unbeaten 61 carried the home team to 107-2 at stumps when bad light stopped play with 10 overs still remaining in the day.

Saud Shakeel, who scored a gritty half century in Pakistan's 74-run defeat in the first Test at Rawalpindi, was not out on 32.

Ahmed was surprisingly left out from the first Test despite picking up 43 wickets in this season's first class tournament. He mystified England with his sharp googlies and car-

rom balls with only Ben Duckett (63) and Ollie Pope (60) scoring rapid half centuries.

Leg-spinner Zahid Mahmood made a forgetful Test debut at Rawalpindi, but finished off the tail just before tea to end up with 3-63 after Ahmed's brilliance constantly posed challenges to England's aggression.

Duckett and Pope both

scored half centuries in the first session before falling to Ahmed as the legspinner became only the second bowler in the history to pick up five wickets before lunch in his debut Test and England reached 180-5.

Left-arm spinner Alf Valentine of the West Indies was the other bowler to do so when he debuted against England at Manchester in 1950.

BWF World Tour Finals: Prannoy stuns world No.1 Axelsen

PTI ■ BANGKOK

Already out of reckoning, top Indian shuttler HS Prannoy stunned world number one and Olympic champion Viktor Axelsen in three games to end his BWF World Tour Finals campaign with a memorable win here on Friday.

The tie was already inconsequential for Prannoy, seeded third in the tournament, as he had lost his earlier two Group A matches but the Indian pulled

off a shock 14-21, 21-17, 21-18 win over the top seed Dane in 51 minutes to at least end his campaign on a high. This was Prannoy's second career win over Axelsen, whom he had beaten during the Indonesia

Masters last year. The career head-to-head record is, however, in favour of Axelsen at 5-2.

On Thursday, Prannoy had lost to China's Lu Guang Zu in his second Group A match to bow out of the semi-final race. The 30-year-old from Kerala had lost 21-23, 21-17, 19-21 in a gruelling 84-minute contest.

The top two players in each group will make it to the knockout stage. Prannoy is the lone Indian competing in the season-ending tournament.

Head, Labuschagne centuries put Oz on top

AP ■ ADELAIDE

Travis Head and Marnus Labuschagne posted big hundreds in a 297-run partnership to set Australia on course for a declaration in the second Test on Friday before Michael Neser took two wickets under lights to consolidate the home team's dominance in the day-night match against West Indies.

Head's 175 and Labuschagne's 163 helped Australia to 511-7 before stand-in skipper Steve Smith declared the innings just before the second interval on Day 2.

Opener Tagenarine Chanderpaul resisted the Australian bowling attack for 98 deliveries, scoring a defiant unbeat-

en 47 as West Indies struggled to 102-4 at stumps.

Paceman Neser (2-20) had West Indies skipper Kraigg Brathwaite (19) and No. 3 Shamarh Brooks (8) caught behind and Nathan Lyon took a return catch to dismiss Jermaine Blackwood (3) and become the leading all-time wicket-taker at the Adelaide Oval, surpassing the great Shane Warne's career haul of 56.

Allrounder Cameron Green chimed in late with the wicket of Devon Thomas (19) before Chanderpaul, in his second Test, and night-watchman Anderson Phillip (1 not out) navigated the final four overs to stumps, with the West Indies still trailing by 409 runs. "We had them out

there for nearly two days, then took advantage of the night session," said Neser, one of two injury-enforced changes to Australia's bowling attack after a 164-run win in the first Test at Perth. Offspinner Lyon moved to 57 wickets at the Adelaide Oval in his 12th test and is expected to play a greater role as the pitch deteriorates this week.

"He's a great athlete," Neser said. "He's been performing for many years now — it's great to see him getting milestones."

Labuschagne also had a milestone moment earlier Friday when he surpassed 3,000 career Test runs in his 51st innings, a rate second only to Australian legend Donald Bradman.
