Tawang tespars sparks Indian-PLA’s clash

In a bid to flex its military might in Arunachal Pradesh, the People’s Liberation Army (PLA) of China crossed the Line of Actual Control (LAC) and caused a clash with the Indian army. The incident took place on December 9 in Tawang in Arunachal Pradesh at the Line of Actual Control (LAC) when the Chinese troops transgressed the LAC and the Indian army responded immediately. The clash has come a week after the Indian army tested by our troops in a firm manner.

The two sides engaged in a fierce fight and both sides were using every kind of weaponry. According to sources, the ‘ceasefire’ broke out between the two sides which get triggered by mismanagement on both sides. The situation has also taken a tense turn and continues till now.

While violent face-offs continued in different sectors, the two sides managed to achieve a truce on December 11. However, the two sides are engaged in a heated argument over the issue of LAC and further saga is awaited with utmost vigil.

Suicide horror haunts coaching hub Kota

Three kids self-immolates

The two three Class XII students have been engaged in a fight over different norms of the same PG coaching center. The first student was a native of Kota district and he belonged to the same class as the second student.

The G20 summit will be a big success if all nations keep their geo-political differences aside and strive to work for the common good.

The motto of the G20 Summit is ‘Time to Deliver’. In the words of Indian Prime Minister Narendra Modi and South Korean President Moon Jae-in at the opening session: ‘Let us come together and deliver on our promises. Let us work to build a shared future. And let us deliver for the people.’

The G20 leaders are likely to discuss the ongoing situation in Afghanistan, especially on the issue of safe passage for the Afghans who want to leave the country.

According to the latest World Bank data, the pandemic has hit the poor and vulnerable the most. Half of all people living in extreme poverty are women. In 2020, the share of the global population living in extreme poverty (below $1.90 a day) increased from 9.2% in 2019 to 10.9%.

The G20 nations will obviously have to take measures to avoid the possibility of another financial crisis. The issue of fuel prices and the supply chain crisis will also be discussed during the summit.

India also wants the world to share the benefits of its Covid vaccines with the rest of the world. As a global pandemic, its impact cannot be restricted to national boundaries.

The leaders of the G20 nations will deliberate on the global situation with special focus on the situation in Afghanistan, the conflict in Libya, the situation in Sudan, and the situation in Myanmar.

G20 nations will also discuss the issue of the digital economy, especially in the context of globalisation. Various recent events in different parts of the world have been witness to this. The world is changing so fast and it’s time to keep up.

The world has been hit by two pandemics simultaneously, first the coronavirus and now the climate crisis. It cannot be denied that the climate crisis is at the same time a result of the pandemic. This is why we need to be innovative and create a platform that can bring both climate action and the COVID-19 response together.

The G20 summit will be a great opportunity for all nations to come together and work for the common good. It is an opportunity to address the major challenges of our time and to shape the future of our planet. The world needs to come together and deliver on its promises. Let us work to build a shared future. And let us deliver for the people.'
Indian security agencies must prepare for cross-border provocations in the form of increased infiltrations, terrorist activity on state borders, disseminations on social media, and minor skirmishes along the border. Pakistan might resort to this tactic to draw attention from its international partners. The agencies need to sharpen their counter-penetration and surveillance techniques and develop joint jawanism strategies based on the experience of the Compartmentalized Directed Border Management (CDBM) installation.

Further, forward air bases should be equipped with short and medium-range missiles, which might be a state of operational readiness to deter any Pakistani attempt to cross the border. Such measures, both domestic and inter-agency, would boost the resilience and preparedness of the forces against any potential aggression along the borders.

Onset of breast cancer may be determined with procreative screening, healthy lifestyle and diet can beat the malady. A ccording to various studies, around 2.25 to 3.25 million women in India develop breast cancer, living with cancer and it contributes to approximately eight per cent of the total deaths in India. The breast cancer incidence rate is more in women after 45 years of age. However, approximately 10 per cent of the LC at the very young age 17 years and 11 per cent of the LC within years age of 20 to 24 years, which is more than the desired goal.

There are several risk factors for breast cancer, according to epidemiological studies have been identified. These are smoking habit, obesity, overweight, obesity and deregulated body mass index (BMI), ethnic group, age of first child birth, and lifestyle, high fat and frequent consumption of red meat, hormone replacement therapy, pregnancy, breast-feeding, hormone replacement therapy and menopause. If you have a family history of breast cancer, you are more likely to get breast cancer.

A new report released on October 25, shows that the world has adopted a two-pronged approach against the military and made parallel moves to the Afghan Taliban in recent weeks. The Afghan Taliban will hold a meeting in Pakistan on Monday, in a move that experts say could free up territory for the military and make parallel moves to the Afghan Taliban in recent weeks.

The report released in the recent report is basically on account in accounting and policy and not due to any improved performance and their policies can influence to make any informed decision. Due to the change in accounting policy, the LC has transformed its business and management model. The LC has an annual report of the LC for the fiscal year ending March 31.

The LC has an annual report of the LC for the fiscal year ending March 31. The LC has a total of 5,468,286 shares outstanding as of March 31. The LC has also an annual report of the LC for the fiscal year ending March 31.

Fire engulfs another Moscow mall, 2nd such fire in 4 days

A massive fire gutted a shopping mall on Moscow's outskirts on Monday, the second such blaze since November, officials said, and raised concerns about fire safety in the city.

The blaze was in a mall in Malakhovka that opened in 2020 and is a popular destination for shoppers, officials said. Firefighters said the mall evacuated all its occupants and were working to contain the flames.

Moscow has experienced several major fires in recent months, including one that destroyed a nearby shopping mall in 2022. Officials have said the fires are being caused by electrical faults and are calling for better fire safety measures in the city.

Police and fire officials are on the scene and are working to determine the cause of the fire. There have been no reports of injuries so far.

The mall is a popular destination for locals and tourists, and its closure has caused disruption for shoppers and businesses in the area.

The mall hosts a variety of stores and restaurants, and is located near major roads and public transport routes, making it accessible for people in the surrounding area.

The mall management has called for better fire safety measures to be put in place to prevent similar incidents from happening again.

The city of Moscow is under pressure to improve its fire safety measures, as the country has had several major fires in recent years, including one that destroyed a major shopping mall in 2022.
India also patrolling the Mediterranean. Other rescue organizations or merchant ships have seen a “veritable transformation in the Mediterranean.”

Argentina revel in ‘home’ support at World Cup

Local hero and Argentina’s World Cup star Lionel Messi revealed Saturday how fans here have been a driving force during the trophy-less ‘Albiceleste’ side stepped aside by the enduring legend of the footballing world.

The 34-year-old forward was speaking ahead of Saturday’s third-place final in Doha.

Argentina have recovered from the shock of losing their opening game to Qatar in the first and made the last four with an exhilarating win over the Netherlands at the end of a difficult and anguishing three-week campaign.

“Wherever we have gone, the fans have always been there, which makes our job easier,” he said. The 34-year-old was speaking after a 3-0 win over the Netherlands.

The win has made Argentina’s 2022 World Cup campaign the most successful in the history of the country, with a total of six goals scored and no losses.

Argentina have already played three matches in the group stage but they have won all three and scored 12 goals, conceding none.

The win against the Netherlands was particularly impressive as Argentina controlled the game throughout and never looked like conceding.

Messi, who was named man of the match, says the atmosphere inside the stadium is the best he has experienced in his career.

“I feel like I’m at home, I feel like I’m in Argentina,” he said. “It’s a special feeling to play in front of these fans.”

The victory against the Netherlands means Argentina are now through to the round of 16, where they will play the winners of Group E, which includes France and Denmark.

Argentina are currently the highest-scoring team in the tournament, with 12 goals scored in three matches.

They have scored four goals in their opening match against Qatar, three against Poland and five against the Netherlands.

It has been a long, hard road for the team, and it is no surprise that they have struggled at times. However, they have shown resilience and determination, and it is clear that they are capable of playing aggressive cricket. As a skipper, it is always important to lead by example and inspire your players to give their best. The team knows their roles and responsibilities, and everyone has something to contribute. It is important to keep the faith and believe in the team, even in challenging moments. The team is working hard to improve and give their best in the upcoming matches.
