Darhiakhar downs his ‘December Dhamaka threat’

The Lt Governor Manoj Sinha today said that the dhamaka call given by Darhiakhar is nothing but an attempt to cover up their failures.

In his address to the people of Jharkhand, the Lt Governor said that the dhamaka call is a clear sign of their failure and that they are trying to divert the attention of the people from their failures.

Darhiakhar had given a dhamaka threat earlier this month, saying that he would make Jharkhand an independent state if the government does not take action against the Bharat Jodo Yatra.

Darhiakhar had also said that he would not allow the Yatra to pass through Jharkhand and that he would try to disrupt it at all costs.

In response to this, the government had taken a series of steps, including deploying additional security forces and setting up a special task force to ensure the peaceful conduct of the Yatra.

Despite these efforts, Darhiakhar has continued to make provocative statements, claiming that he has the backing of the opposition parties in the state.

However, the Lt Governor has urged the people of Jharkhand to remain united and to not fall for such propaganda.

He said, "I urge the people of Jharkhand to remain united and to not fall for such propaganda. The dhamaka call is nothing but an attempt to cover up their failures. We are working hard to ensure that the people of Jharkhand are provided with all the amenities and facilities they need."

The Lt Governor added that the government is committed to upholding the rule of law and ensuring the safety and security of all its citizens.

He called on the people of Jharkhand to continue to support the government's initiatives and to work towards a brighter future for the state.

Darhiakhar is a known political activist and has a history of making provocative statements.

He had previously made similar threats, including the dhamaka call earlier this month.

Despite these threats, the government has taken all necessary steps to ensure the peaceful conduct of the Yatra and to protect the safety of the people involved.

The UAE government has been seeking to engage with India in various sectors, including security, trade, and investment. The two countries have also been working together in the fight against terrorism.

They’re a great team who matched up well to Brazil and at times were both much, admitted Modric. But they knew the team had the momentum after the semi-final to a form that was impressive. They could really take on the best teams in the world.

Argentina have built on the base laid by Lionel Messi in his 2018 World Cup final defeat and have the quality to compete at the highest level. They have a strong defence, a top goalkeeper in Emiliano Martinez, and a forward line that can score goals. But they also have a lot of talent in midfield and on the wings.

For now, it’s Argentina who have the momentum and are looking to make their mark at the World Cup. They have the quality to go all the way and win the title.
