Maurya, Saini embrace SP

6 other rebels too,
join Akhilesh; end
of BJP is nigh, says
Swami Prasad

VIRENDRA NATH BHATT ■
LUCKNOW

Days after resigning from the Bharatiya Janata Party (BJP) former Ministers and powerful Other Backward Class (OBC) leaders Swami Prasad Maurya, Dharam Singh Saini as well as six other rebel BJP MLAs officially joined the Samajwadi Party (SP) on Friday on the occasion of Makar Sankranti.

The defection from the party is a setback for the ruling BJP, which enjoyed the support of the OBCs in the 2017 Uttar Pradesh (UP) Assembly elections and 2019 general elections. The SP chief Akhilesh Yadav welcomed Maurya and the others.

Addressing the meeting at the SP headquarters, Maurya said Makar Sankranti will mark the beginning of the end of the BJP. "The big leaders of the BJP who never paid any heed to our demands are having sleepless nights now. The BJP has duped the OBCs, Dalits, minorities and youth of the country. They formed the Government by encashing on the name of Keshav Prasad Maurya and Swami Prasad Maurya. There were talks about making either

Former UP Minister Swami Prasad Maurya and others join the Samajwadi Party in presence of party president Akhilesh Yadav at SP office in Lucknow, Friday. Five BJP MLAs and Apna Dal (Sonelal) legislator Amar Singh Chaudhary also joined the SP

PTI

of us the CM, but they brought someone from Gorakhpur and duped Dalits and Backwards", alleged Maurya.

He alleged that under the Yogi Adityanath regime, upper caste people were enjoying their life, while backward castes and Dalits were struggling. "They say the elections are 80 per cent vs 20 per cent, but I say now it's 85 per cent vs 15 per cent, 85 per cent hamara hai and 15 per cent me bhi bantwara hai (85 per cent is ours and there is division in 15 per cent too).

BJP leaders say they will win on the Hindu card, then why did they try to play with the reservation given to Dalits

and Backwards. Appointment letters were given to 19,000 general category people, when 69,000 appointments were Okayed. I want to know if Backwards and Dalits are not Hindu? If yes, then why did you give their reservation to others," asked Maurya.

Further attacking the BJP, Swami Prasad Maurya said, "When I was in the Cabinet, there was a proposal that the posts should be filled with general category applicants without advertisement as there were no applicants from Dalit and Backwards communities. I strongly objected and the CM noted down my objection, but still he didn't stop the propos-

al."

"Now they are disinvesting and privatising the Central PSUs only to scrap reservation for the SCs and OBCs. When things will go to private hands there will be no reservation. Yogi ji, I want to say that you are doing a sin while sitting on the CM's chair. Are only upper caste people Hindus in your eyes? If only those 10 per cent are Hindus in your view then your pack-up is definite. Now, all the Backwards, Dalits and everyone is against you. There will be further division in those eight to ten per cent with you as there are many Samajwadis and Ambedkarwadis in that per-

centage."

"I thought after spending 14 years in exile, the BJP would have learnt its lessons, but it seems that once again they will return to what they were before 2017.

I want to tell BJP leaders that after today, there will be a tsunami in the State which will devastate the BJP. I joined hands with Akhilesh Yadav as he is young, educated and able, I will make crores of people stand behind him and will destroy the BJP. I also challenge that whomever I leave, they stand nowhere. Behen Ji (Mayawati) is a living example, till the time I was with her, she was the CM. I left her, today she is nowhere," said Maurya.

Another former BJP Minister who joined the SP, Dharm Singh Saini said, "Today's programme is being held in the party office because of the Model Code of Conduct, otherwise if there was no ban, there would have been more than ten lakh people. We take oath on Makar Sankranti to save the Constitution, and to save the oppressed Dalits from atrocities. We take a pledge that we will form a Samajwadi Government on March 10. The humanity and respect that I got from Akhilesh ji was not found anywhere else because I have been both in the BSP and BJP. Will get you (Akhilesh Yadav) sworn in as Chief Minister in March and will get you sworn in as Prime Minister in 2024."

India's BrahMos missile to arm Philippine Navy

Make in India gets a boost with \$375 mn export deal

PNS ■ NEW DELHI

India is all set to ink the first-ever export deal with the Philippines for the indigenously-designed and manufactured BrahMos supersonic missile. The Government-to-Government deal is worth over \$375 million.

This is the first major export of sophisticated weapon systems by India to any country. India is aggressively pursuing the target of exporting weapon systems worth over \$5 billion by 2025 and turn the country into an attractive manufacturing hub for Defence systems. The BrahMos Aerospace, the first joint venture between India and Russia to manufacture high-end missile system, recently submitted its price list to the Philippines which has accepted it, sources said here on Friday.

The two sides will shortly ink the deal totaling \$375 million, they said adding that the contract is for the shore-based anti-ship missile system for the Philippine Navy. India had recently offered a \$100-million line of credit to the Philippines for Defence purchases.

The Philippines Government recently allocated 2.8 billion pesos (\$55.5 million) for initial funding for the BrahMos cruise missile.

The Philippines selected the Indian missile system after tough negotiations and extensive trials, officials said adding a team from the Philippine Navy visited the production unit of BrahMos Aerospace in Hyderabad some months back as part of the acquisition process. The BrahMos Integration Complex in Hyderabad undertakes integration of mechanical systems and assembling electronic systems. Various sub-systems fabricated in other centres in India and Russia are integrated and checked at this complex.

The Philippines armed forces are implementing a

revised modernisation programme. India and the Philippines signed an implementing arrangement in March last year for the Government-to-Government deals regarding military equipment including the BrahMos missile.

The Philippines will acquire the BrahaMos missile which can cover a target range of 290 kms with a capability to carry a 200 kg warhead. India has other variants of this missile also having a range of more than 400 kms.

This deal came about in the backdrop of India engaging with several Southeast Asian countries including Thailand, Indonesia, and Vietnam for the sale of the missile system, they added. India's ties with the Philippines were stepped up in the past few years.

South India, UP see Covid surge, +ve cases in Delhi, Mumbai dip

India records 2.64 lakh cases in 24 hours

PNS ■ NEW DELHI

Delhi, Mumbai, and West Bengal, three Covid-19 hotspots in the latest wave of Covid infection saw marginal dips in new cases on Friday.

However, Southern India saw a huge spike in Covid-19 cases with Karnataka leading the way, followed by Tamil Nadu and Kerala.

Overall, fresh Covid-19 cases in India rose by 7 per cent to nearly 2.64 lakh in the last 24 hours, a day after a record rise of more than 50,000 had pushed the day's tally to 2.47 lakh. Deaths from the virus remained relatively low but were rising.

Among the poll-bound States, Uttar Pradesh is seeing big jump in the number of fresh cases by the day.

Karnataka on Friday

Relatives and health workers wearing PPE carry the body of a Covid-19 victim for cremation, at Shastri Nagar cremation ground in Jammu on Friday

PTI

reported 28,723 new Covid-19 cases and 14 deaths. Capital Bengaluru alone accounted for 20,121 new cases and seven deaths. The positivity rate is now at 12.98 per cent in the State. On Thursday the State had recorded 25,005 new cases of Covid-19 and 8 fatalities.

State Health Minister K Sudhakar said the number of hospitalisations in the third wave so far is less than that recorded during the second

wave last year.

Chief Minister Basavaraj Bommai has sought Central assistance to raise the number of oxygenated beds and oxygen plants in the State. The total number of active cases across the State is now 1,15,733.

Doctors in the two States described the status of pandemics in the two southern States as black Pongal for Tamil Nadu and a black Friday for Kerala. While the number of

people diagnosed with Covid-19 shot up to 23,459 in Tamil Nadu during the last 24 hours (out of 1.5 lakh samples tested), Kerala registered 16,338 cases on Friday. The death toll in Kerala reached 50, 568 while Tamil Nadu's Department of Health Directorate said the number of victims succumbed to the pandemic to date reached 36,956.

The Tamil Nadu Government, shocked over the spurt in the number of Covid-19 cases, has tightened the rules and declared a partial shutdown with many restrictions. Schools and colleges have been asked to stick to online classes till further notice taking into account the warning issued by the Tamil Nadu Government Doctors Association.

The Kerala Government in a review meeting held on Friday decided to shut down all schools and asked the Government and private establishments to opt for online mode in districts where Test Positivity Rate is more than 20 per cent. The State's TPR on Friday stood at 23.68 per cent.

3-kg IED found in bag at flower market in Delhi; defused by NSG

SHEKHAR SINGH ■ NEW DELHI

Days before the Republic Day celebrations, an improvised explosive device (IED) was found in the national Capital's Ghazipur area on Friday morning, sending police and securities agencies into a tizzy. The IED weighing around three kilogram, aimed at causing maximum damage, was kept in an iron box inside a black backpack at Ghazipur's busy flower market main gate. The police suspect it was a terror attempt ahead of the January 26 Republic Day celebrations.

An FIR have been registered at Delhi Police Special Cell under explosive act and police team will also be receiving a detail report by the NSG on the IED samples collected.

According to National Security Guard (NSG), which disposed the bomb, the initial examination suggested that the explosive is a nitrate and RDX mix while the triggering device could be a clock or a mobile phone.

"The fire department received information regarding

National Security Guard and police personnel cordon off the area after an Improvised Explosive Device was found inside a bag, at Ghazipur flower market in New Delhi on Friday

Ranjan Dimri | Pioneer

the suspicious unattended bag at 10.19 AM following which fire tenders were rushed to the spot," said a senior Delhi Fire Service (DFS) official.

Soon, the officials from the Special Cell of Delhi Police and fire department also reached the spot. A bomb suit wearing NSG personnel was also seen at the site apart from officials from the special cell and regular Delhi Police units.

Entry into clouds led to CDS chopper crash: CoI

New Delhi: The Court of Inquiry (CoI) looking into the December 8 helicopter crash that killed all 14 passengers, including the Chief of Defence Staff (CDS) General Bipin Rawat, has ruled out sabotage, mechanical failure or negligence as the cause of the mishap. This was officially made public on Friday.

The Pioneer dated January 6 had reported that the most plausible cause of the accident was bad weather. Technically, it is known as Controlled Flight Into Terrain (CIFT) wherein an aircraft unintentionally collides with terrain be it the ground, a mountain, cliff or a tree-top.

The Tri-Services probe team headed by Air Marshal Manvendra Singh, himself an accomplished helicopter pilot and currently Chief of Training Command and IAF chief VR Chaudhari had apprised

Defence Minister Rajnath Singh here on January 5 about the findings of the investigations. However, no official announcement was then made.

On Friday, the Government said: "The Tri-Services Court of Inquiry into the Mi-17 V5 accident on 08 Dec 21 has submitted its preliminary findings. The inquiry team analysed the Flight Data Recorder and Cockpit Voice Recorder besides questioning all available witnesses to determine the most

probable cause of the accident."

"The Court of Inquiry has ruled out mechanical failure, sabotage or negligence as a cause of the accident. The accident was a result of entry into clouds due to unexpected change in weather conditions in the valley. This led to spatial disorientation of the pilot resulting in Controlled Flight Into Terrain. Based on its findings, the Court of Inquiry has made certain recommendations which are being reviewed," the official statement by the IAF said.

CAPSULE

META FACES \$3.1 BN LAWSUIT IN UK

London: Meta (formerly Facebook) is facing a \$3.1 billion class-action lawsuit in the UK over allegedly abusing its market dominance and if the lawsuit succeeds nearly 44 million British Facebook users could receive a \$68 payout each. Competition law expert Dr Liza Lovdahl Gormsen has brought the class-action lawsuit against Facebook's parent firm Meta at the UK's Competition Appeal Tribunal, Daily Mail reported on Thursday.

5-KG IED RECOVERED NEAR PAK BORDER

Chandigarh: Just a month ahead of the Assembly polls in Punjab, a special task force (STF) of Punjab Police on Friday recovered a 5-kg improvised explosive device (IED) and ₹ 1 lakh in cash near the India-Pakistan border. The seizure from the outskirts of Dhanoa village in Ajnala subdivision close to the Attari border was made on a tip-off about the smuggling of arms and ammunition from across the border.

POOR NATIONS GIVEN NEAR EXPIRY SHOTS

London: Third world nations were offered about 100 million Covid-19 vaccines that were near expiry, which the countries were forced to dump, according to the UN's children's fund Unicef. According to Unicef's head of supply Etleva Kadilli, more than 100 million vaccines were, in December alone, rejected by countries as they were unable to distribute them, BBC reported.

Budget Session of Parl to begin on Jan 31

PNS ■ NEW DELHI

The Budget Session of Parliament will commence on January 31 with the address of the President to both the Houses and conclude on April 8, sources said on Friday citing the recommendation of the Cabinet Committee on Parliamentary Affairs.

The Union Budget will be presented on February 1. The Economic Survey is likely to be tabled on January 31 after the president's address. The first part of the session would conclude on February 11.

After a month-long recess, part two of the session would begin from March 14 and conclude on April 8, the sources said. The recess allows depart-

ment-related Parliamentary Committees to examine budgetary allocations made to their respective Ministries.

During part one of the session, campaigning for phase one of the Uttar Pradesh Assembly elections would be in full swing for which votes will be cast on February 10. When the two Houses meet after recess on March 14, the results of Assembly polls in Uttar Pradesh, Uttarakhand, Goa, Punjab and Manipur would be out as the counting is on March 10 for all the five States.

Batting has let us down, rues Kohli after SA series loss

Cape Town: A South African team going through one of its toughest transition phases embarrassed a star-studded Indian team with a seven-wicket victory in the third Test to clinch a memorable 2-1 series triumph here on Friday even as India Test captain Virat Kohli rued batting failures. The target of 212 wasn't a tough ask and starting the day at 101 for two, Keegan Petersen (82, 113 balls) along with Rassie van Der Dussen (41 not out) added 54 runs for the third wicket to seal the match before Temba Bavuma (32 not out) helped in putting the final touches.

Bishop Mulakkal acquitted of all charges in Kerala nun rape case

PNS ■ KOCHI

A trial court in Kerala's Kottayam district on Friday acquitted Bishop Franco Mulakkal of Jalandhar Diocese of all rape charges levelled by a nun of the Missionaries of Jesus Convent.

The nun's case was that the Bishop had raped her 13 times during 2014 to 2016 and the Catholic Order to which she was associated had rejected her pleas. She had told the police that though she had approached all authorities in the Catholic Congregation, including the office of the Pope, her pleas fell on deaf ears and she was forced to file a complaint.

Bishop Mulakkal, who hails from Thrissur district in Kerala, had denied the charges of rape as "baseless and concocted" and said allegations were born out of her ire against the religious order for rejecting her demands for favours.

Additional sessions judge

G Gopakumar of additional district and sessions court, Kottayam, who heard the case from November 2019 to January 2022, ruled on Friday that the prosecution had failed to produce corroborative evidences to substantiate the allegations made by the victim.

The judge said that the evidences do not match with the charges made by the nun and hence the Bishop was being acquitted of all rape charges.

S Harishankar, former superintendent of police, Kottayam, who was the investigating officer, expressed dismay and disappointment over the verdict. "We, the investigation team and the public prosecutor, were confident of the authenticity of our findings and were expecting the court to convict the accused. But this is a shocking verdict," said Harishankar while interacting with the media after the pronouncement of the judgment.

THE OTHER SIDE Same old change once again?

Paritosh Kimothi

The politicians, officials and some intelligent people call it the festival of democracy- election. The heightened activity of the various political parties for the ensuing Assembly elections doesn't really give a festive appearance. The opposition parties are claiming that the people want a change while the ruling party is apparently convinced that the people want it to remain in office. However, observing the political activities and how they are generally being perceived, one wonders whether the festival of democracy has been afflicted by what has affected some other real festivals- the spirit of the festival being forgotten or sidelined.

Dairy continues to function despite ADM's orders to close it

PNS ■ DEHRADUN

An animal rights activist has stated that the government officers have failed to act on an order by the Additional District Magistrate (ADM) to shut down a dairy found violating the rules in Dehradun. The order to shut the dairy was issued after an inspection done by a team of district administration officials led by the ADM on a few dairies of Kanwali Road in September last year. Following the inspection, an FIR was filed against the owners of a dairy for illegally using oxytocin- a prohibited drug- which was found in their dairy on Kanwali Road. However, the district authorities have not implemented the order of the ADM issued in December despite 20 days having passed, said Society for Prevention of Cruelty to Animals (SPCA) member Rubina Nitin Iyer.

She said, "If the officials fail to implement the order of the ADM, what can the general public expect of them for any help. Such dairies pose a threat to the welfare of animals as well as to the health of the public. Stringent action must be taken against dairies flouting health, safety and environmental laws," she added.

She informed that following the FIR, an order was issued by the ADM ordering closure of the dairy. The inspection highlighted blatant violation of various environmental and drugs control laws. None of the dairies had been granted consent to operate and consent to establish from the Pollution Control Board. None of the dairy premises is registered with the Municipal Corporation of Dehradun and the dairies are operating in cities within residential area; polluting the drains by discarding solid waste, said Iyer.

Commissioner orders appointment of polling assistants for differently-abled & senior citizens

PNS ■ DEHRADUN

The Garhwal commissioner Sushil Kumar has directed the district election officer and district magistrate of Dehradun R Rajesh Kumar to appoint polling assistants at each polling booth to provide necessary help to the senior citizens and differently-abled voters during the elections. He said this while presiding over a meeting in the Rishiparna hall to review the preparations for the upcoming election. The DM informed Kumar about the ongoing activities in the district regarding the elections and preparations made in polling booths and other crucial locations following the Covid-19 guidelines. The Deputy Inspector General (DIG) and the senior superintendent of police (SSP) of Dehradun Janmejaya Khanduri also provided detailed information about the preparations for maintaining law and order and peace during the election. The commissioner also instructed the officials to ensure the implementation of covid protocols at the training site and asked to sanitise the premises regularly. He also directed to keep certain personnel reserved for election duty so that they can be deployed during the elections if needed. He also asked to appoint polling assistants at each polling booth to assist the differently-abled and senior citizens and suggested taking the help of some NGOs for its proper execution. The DIG of Garhwal zone KS Nagiyal also directed the officials concerned to keep a close watch at the checkpoints of the borders of the district to restrict the smuggling of alcohol, drugs and money that can negatively impact the elections.

Covid-19 cases continue to soar in U'khand

3,200 new cases, three deaths reported on Friday

PNS ■ DEHRADUN

The cases of the Covid-19 in Uttarakhand are continuing to increase with an alarming pace in Uttarakhand. After 2,915 and 3,005 cases on Wednesday and Thursday respectively, the state health department reported 3,200 new cases of the disease on Friday. This the highest number of daily cases since the department had reported 3626 cases on May 21 last year. The numbers of active cases of the disease have now climbed to a whopping 12,400 in the state.

of the infection continued to increase and was reported at 11.48 per cent on the day. As the guidelines of World Health Organisation (WHO), a PR of more than five per cent is considered dangerous.

The cumulative count of Covid-19 patients in the state is now at 3,63,424 while a total of 3,36,353 patients have recovered from the disease so far. A total of 7,438 people

Govt to monitor sale of self testing kits of Covid-19

PNS ■ DEHRADUN

Concerned by the increasing use of self testing antigen kits for Covid-19 and the tendency of people for self medication, the state health department has directed for monitoring of sale of these kits. On the orders of the secretary Health Pankaj Kumar Pandey, the drug controller Hemant Negi held a

virtual interaction with the members of the chemist and druggist association on Friday. Negi warned against overstocking and black marketing of medicines. He said that the retailers and the hospitals should not be given more than 25 self testing kits at a time.

Chamoli and 38 from Bageshwar on Friday.

The active case count of Covid-19 in the state has now jumped to 12,349. Dehradun with 5,199 cases is at the top of the table of active cases while Haridwar has 2,010 active cases of the disease which is followed by Nainital district with 1,936 active cases. Uttarkashi is at the bottom of the table with 82 active cases of the disease. In the ongoing vaccination drive 35,596 people were vaccinated in 1,212 sessions in the state held on Friday.

death of one patient each was reported from HNB base hospital Srinagar and Hans foundation general hospital Satpuli Pauri on Friday. One patient was reported dead in Haridwar.

The state health department reported 1,030 new patients from Dehradun, 543 from Haridwar, 494 from Nainital, 429 from Udham Singh Nagar, 165 from Almora, 131 from Pauri, 112 from Tehri, 62 from Uttarkashi, 58 from Pithoragarh, 52 from Rudrapur, 46 from Champawat, 40 from

The department also reported the death of three patients of the disease on the day. The positivity rate (PR)

have died in the state so far from Covid-19. The recovery percentage from the disease is 92.55 per cent. On Friday

No expectations from political parties in Assembly elections- slum dwellers

PUJNIMA BISHT ■ DEHRADUN

Even though over 15 per cent population of the total urban population in Uttarakhand are slum dwellers, many of them opined that political parties only view them as vote banks and use them for campaign activities rather than fulfilling their years-old promise of providing them with their own homes. As per the Primary Census Abstract for Slum, Census of India-2011, the percentage of slum population in the urban population of the state is 15.99 per cent and there are

the Rispana and Bindal rivers that put the lives of the dwellers at risk during every rainy season but no substantial steps have been taken by successive governments in the state to address the issue. According to most of the slum dwellers of Dehradun, they have stopped expecting any improvement in their living conditions by political parties who promise to turn around their life before every election. According to a 28-year-old slum dweller in Adhohiwala, Guddu, he sees

slum and not much has changed here and I do not think it is going to change anytime soon. I only see the elections as a way to earn some extra money. Party workers of different political parties approach us and pay us to be part of the rallies and campaigns. Many slum dwellers are approached to do this and they do it because it is easy money, especially during the Covid times when all are facing a financial crisis."

One of the slum dwellers living near Rispana River,

then, we have started putting a big iron storage box on our bed during monsoon and make our children sleep on it to avoid the potential danger after a downpour. It is certainly not a typical way to ensure their safety but this is the best we can do. Successive governments have promised to provide us flats in safe localities but I am still living here for the past 15 years." He said that they do not expect the government to give them big houses but just a small house where their children can live safely. Another slum dweller in the Adhohiwala area, Rubina said that political parties consider slum dwellers as their vote banks and use them during election rallies and campaigns but never fulfill their promise after winning the elections. "How many times an MLA or other leaders come to visit us after they win the elections? They almost never come among us but when the elections are around the corner, different party workers come to us to ask about whether we have voter cards or not. They ask us to call them if we need any help. Despite all this, none of the parties has worked for our welfare after forming the government. We do not even seek good jobs, education or other things like they promise during the elections because we have stopped expecting anything from them. All we want is a better place to live or at least regularise our homes so that we do not get bullied by authorities to leave the slums every year."

Dr Agarwal said that all frontline workers and health care

workers who are having symptoms of the disease should get them tested with RTPCR kit and then get the booster dose only when they are negative. "In this way they will protect themselves and the employees vaccinating them. The Covid-19 infected people should get the booster dose three months after

the infection as the antibodies are formed after infection," he said.

The Covid-19 nodal officer said that on Friday 813 patients got themselves examined in the OPDs of the GDMC hospital and out of them 231 patients were of flu OPD. He said that the patients with symptoms such as fever, headache, throat infection and cold should visit the Flu OPD. Such patients should get tested for the disease and take doctor's consultation. He added that patients with mild symptoms should remain in home isolation.

Everyone should wear a mask, observe social distancing and get vaccinated.

Dr Agarwal said that 36 Covid-19 patients are admitted in GDMC hospital. On Friday six new patients were admitted while four were discharged. On Friday about 400 people got tested in the hospital.

ACS Bardhan visits Covid control room

PNS ■ DEHRADUN

The additional chief secretary (ACS) Anand Bardhan visited the Covid-19 control room situated in the building of the Health Directorate in Dehradun on Friday. He took stock of the preparation for dealing with the pandemic of Covid-19 and gave necessary instructions to the officers concerned. The ACS inspected the war room and understood the functioning of e-sanjeevani OPD and 104 helpline facility. The health secretary Pankaj Kumar Pandey accompanied the ACS during the visit. It is worth mentioning here that when the patient inflow in the hospitals got affected due to the pandemic of Covid-19, the National Health Mission (NHM) started the e-Sanjeevani OPD by which the patients can get the consultancy of medical experts from their homes. The patients can get medical consultancy by making a video call. This OPD

remains operational from 9 am to 6 pm. A total of 3,73 lakh patients have so far taken the free consultancy under the e-sanjeevani OPD in the state.

In his visit the ACS sought detailed information about the working of the state level war room and system of daily reporting from the districts. He directed that the control rooms of the districts too should work on the lines of the state control room so that prompt help and information is provided to the Covid-19 positive patients and those in home isolation.

The Director General (DG) of state health services Dr Tripti Bahuguna, NHM mission director Sonika, directors Dr Shailja Bhatt, Dr Vinita Shah, Dr Saroj Naithani, the Chief Operations Officer (CEO) of Covid control room Dr Abhishek Tripathi and other officers were present on the occasion.

Covid-19 infected should get booster dose after 3 months- Agarwal

PNS ■ DEHRADUN

The nodal officer for Covid-19 at Government Doon Medical College (GDMC) hospital here, Dr Anurag Agarwal has said that such persons who have been infected with Covid-19 recently should get the booster dose of vaccine three months after the infection. The government has started administering booster doses of the vaccine to the health care workers, front line workers and senior citizens.

Dr Agarwal said that all frontline workers and health care

Criminal antecedents of candidates to be publicised before voters

PNS ■ DEHRADUN

Each candidate contesting the Assembly election will have to disclose information about his or her criminal antecedents. The state's chief electoral officer Sowjanya informed that the Election Commission has issued guidelines regarding publication of criminal antecedents by contesting candidates. She informed that all candidates will fill a form with details of all criminal records related to them and submit it to the commission. The political parties will also have to disclose information about the criminal antecedents of their candidates on the party website. The political parties will also have to provide information about the qualifications and achievements of their candidates. During the campaign period, the candidates will have to publish details of their criminal antecedents in vernacular and national newspapers three times, said the CEO. The returning officer will monitor this while the district election officer will compile the report on the same.

This report will be sent to the Election Commission through the CEO. Sowjanya further said that in observance of the Supreme Court orders, all will have to follow the criminal antecedents procedure. She also appealed to all the candidates and political parties to ensure that this procedure is followed as required.

Ensure accessibility for differently abled voters- ACEO

PNS ■ DEHRADUN

The additional chief electoral officer (ACEO) C Ravishankar has issued directions for making the Assembly election process accessible for the differently abled. He said that a targeted approach should be undertaken to motivate the differently abled persons to vote. Chairing a virtual meeting of the state level committee to make the election accessible for differently abled voters, he said that efforts to register such voters in the voters list should be expedited. The Election Commission of India

(ECI) has made provision for postal ballots for differently abled voters as part of a fixed procedure. Such voters should be informed about the entire process through various media. They should also know that they can also vote at the polling centres if they wish. The ACEO said that all facilities provided for differently abled voters like ramps in every polling centre should be ensured in a time bound manner. Further, the app prepared for differently abled persons should also be widely publicised, he added.

AAP releases third list of candidates for Assembly polls

PNS ■ DEHRADUN

The Aam Aadmi Party (AAP) released its third list of candidates for the upcoming Uttarakhand assembly elections. The state in-charge of the party Dinesh Mohaniya released the list of nine candidates on his Twitter handle on Friday evening. The party has chosen the former state president of AAP SS Kaler to contest the election from Khatima. Prakash Kumar will contest from Purola, Uttam Bhandari from Dehradun, Bharat Singh from Sahaspur and Shyam Bora from Mussoorie. The remaining four candidates-Diwan

Singh Mehta, Chandrashekhar Pandey, Raju Biratia and Anand Singh Rana will contest elections from Didihat, Lal Kuan, Jhabreda and Nanakmatia respectively. Mohaniya said that AAP has released three lists of a total of 51 candidates and is ahead of every party in the state in declaring candidates for the upcoming assembly elections. He added that the name of the remaining 19 candidates would also be announced soon in order to give the selected candidates an opportunity to reach out to the public with the party's vision.

about three lakh people living in the slums in Dehradun. This number has increased in the past many years along with the issues of these citizens. Most of these slums in Dehradun are located near

the elections as an opportunity to earn some extra bucks rather than an opportunity to bring considerable improvement in their lives. He said, "I have spent my childhood in this

Gabbu Lal said, "My two children were almost swept away in the river about two years ago after heavy rain. Only my family and god know how we managed to save them that day. Since

WHO recommends two new Covid treatments

PIONEER NEWS SERVICE ■ NEW DELHI

Amid rise in hospital admissions augmented by the transmissible Omicron variant across the countries, the World Health Organisation (WHO) has recommended two new Covid19 treatments — Baricitinib, an oral drug, used in the treatment of rheumatoid arthritis and Sotrovimab, an alternative to casirivimab-imdevimab, which is monoclonal antibody cocktail.

WHO experts said arthritis drug baricitinib used with corticosteroids to treat severe or critical Covid patients led to better survival rates and reduced need for ventilators. The guidelines by the UN agency's panel of international experts have been published in the British Medical Journal on Friday.

Experts also recommended an experimental monoclonal antibody treatment, Sotrovimab for people with non-serious Covid at highest risk of hospitalisation, such as the elderly, people with immunodeficiencies or chronic diseases such as diabetes. Monoclonal antibodies are lab-created compounds that mimic the body's natural defence mechanism.

Sotrovimab's benefits for people not at risk of hospitalisation were deemed insignificant and the WHO said its effectiveness against new variants like Omicron was "still uncertain".

Only three other treatments for Covid-19 have received WHO approval, starting with corticosteroids for severely ill patients in September 2020. Corticosteroids are inexpensive and widely available and fight inflammation that com-

WHO has recommended two new Covid19 treatments — Baricitinib, an oral drug used in the treatment of rheumatoid arthritis, and Sotrovimab, an alternative to casirivimab-imdevimab, which is monoclonal antibody cocktail

monly accompanies severe cases.

Arthritis drugs tocilizumab and sarilumab, which the WHO endorsed in July, are IL-6 inhibitors that suppress a dangerous overreaction of the immune system to the SARS-CoV-2 virus.

Baricitinib is in a different class of drugs known as Janus kinase inhibitors, but it falls under the same guidelines as the IL-6 inhibitors. Baricitinib is produced by United States pharmaceutical giant Eli Lilly, and while generic versions are available in India and Bangladesh, patents are in force in many other countries including Brazil and Indonesia.

"When both are available, choose one based on issues including cost and clinician experience," the guidelines say.

Synthetic antibody treatment Regeneron was approved by the WHO in September and the guidelines say Sotrovimab can be used for the same type of patients. The WHO's Covid treatment recommendations are updated regularly based on new data from clinical trials.

Pranayama effective in preventing Covid: Study

PIONEER NEWS SERVICE ■ NEW DELHI

A specially designed Pranayama module comprising of a string of breathing exercises, every day for 28 days can be highly effective in preventing Covid-19 infection in exposed healthcare professionals (HCPs), finds a study conducted by doctors from Lady Hardinge Medical College and Morarji Desai National Institute of Yoga (MDNIY) under the Union Ayush Ministry.

The experts said that the study which was conducted during the first wave in 2020 is still relevant as Pranayama remains the first line of defense for the frontline health care workers amid the third wave that now looms large over the country.

The researchers included Dr Rakesh Sarwal from (NITI) Aayog, Dr Rajinder K. Dhamija, Professor and Head of Neurology, Lady Hardinge Medical College, Delhi and Khushbu Jain and Dr Ishwar V. Basavaraddi, both from MDNIY, Delhi

Dr Basavaraddi said a few studies have shown the practice of Pranayama, a component of Yoga, to be effective in improving immune function and reducing infection.

However, no clinical trial on the efficacy of Pranayama in preventing Covid-19 has been conducted till date.

"We conducted a pilot project in five hospitals in the national capital during September-November, 2020. 280 HCPs assigned duties with Covid-19 patients who were found negative in antibody tests in pre-intervention assessment were recruited and ran-

domly assigned to intervention and control groups.

The intervention group practiced specially designed Pranayama modules twice a day (morning and evening) for 28 days, while those in the control group were advised general fitness practices (like walking, jogging, running).

The morning protocol comprised activities like Dhyana that helped to clean the nasal passages and maintain the sinuses and helps to get rid of pathogens while Kapalabhati is a process of forceful exhalation and normal inhalation which helps to improve pulmonary functions and secretions, also cleanse the frontal sinuses and ease movement of diaphragm.

"Since body's immunity plays an important role in Covid-19 infection, non pharmacological interventions which have an immune-modulatory effect, could serve as a preventive as well as a therapeutic measure for patients with infection," Dr Basavareddi said.

"Our study reveals that twice daily practice of specially designed Pranayama Modules administered by trained Yoga instructors in HCPs exposed to active cases lead to a significant protective effect in preventing Covid-19 infection.

"This is the first of its kind study to assess the effect of the specially designed Pranayama protocol in preventing Covid-19 infection," said Dr Dhamija.

Co-author Sarwal said that Pranayama modules may be promoted and adopted to improve immunity in all sections of the population. Considering the implications of

1 in 10 may have Covid after quarantine period

PIONEER NEWS SERVICE ■ NEW DELHI

In some settings, such as people returning to care homes after illness, people continuing to be infectious after ten days could pose a serious public health risk.

For, a study has said that one in 10 people may have clinically relevant levels of potentially infectious SARS-CoV-2 past the 10 day quarantine period. The research is published in the international Journal of Infectious Diseases.

Led by the researchers from University of Exeter, the study used a newly adapted test which can detect whether the virus was potentially still active. It was applied to samples from

176 people in Exeter who had tested positive on standard PCR tests.

The study found that 13 per cent of people still exhibited clinically-relevant levels of virus after 10 days, meaning they could potentially still be infectious. Some people retained these levels for up to 68 days. The authors believe this new test should be applied in settings where people are vulnerable, to stop the spread of Covid-19.

The paper is entitled 'Persistence of clinically-relevant levels of SARS-CoV2 envelope gene subgenomic RNAs in non-immunocompromised individuals'.

Professor Lorna Harries, of the University of Exeter Medical School, who oversaw

the study said: "While this is a relatively small study, our results suggest that potentially active virus may sometimes persist beyond a 10 day period, and could pose a potential risk of onward transmission. Furthermore, there was nothing clinically remarkable about these people, which means we wouldn't be able to predict who they are".

Conventional PCR tests work by testing for the presence of viral fragments. While they can tell if someone has recently had the virus, they cannot detect whether it is still active, and the person is infectious. The test used in the latest study however gives a positive result only when the virus is active and potentially capable of onward transmission.

Covid jumps 4-fold in paramilitary forces

RAKESH K SINGH ■ NEW DELHI

The number of Covid-19 cases in the paramilitary forces jumped nearly four-fold in a week from 1,668 cases on January 7 to 6,595 cases on January 13, including one death due to the deadly viral disease in CRPF and 1,254 infections within the last 24 hours.

Till now, as many as 95,980 paramilitary personnel have been infected with Covid-19 of which 89,036 patients have recovered. The forces have suffered 349 deaths till so far and 6,595 patients continue to be active.

As on Thursday, out of a total of 6,595 cases, the Central Industrial Security Force (CISF) tops the list with 2,237 active cases followed by 1,824 in Central Reserve Police Force

(CRPF), 1,048 cases in Border Security Force (BSF), 892 in Sashastra Seema Bal (SSB), 365 in Indo-Tibetan Border Police (ITBP), 181 in National Disaster Response Force (NDRF) and 48 cases in National Security Guard (NSG), according to official data.

However, genome sequencing has not been undertaken and there is no clarity if there are any cases of the Omicron variant of the coronavirus in their ranks, officials said.

During the last 24 hours, as many as 1,254 personnel were detected with the infection, including a maximum 423 in CISF, 362 in CRPF, 187 in SSB, 182 in BSF, 60 in ITBP, 21 in NSG and 19 in NDRF. This is nearly three times the number

of paramilitary personnel contracting the disease in a single day as on January 7 with a tally of 441 cases.

In a single day, the tally of Covid cases had jumped up by 441 cases from 1,227 cases on Thursday to 1,668 cases on January 7.

Out of the total casualties of 349, the CRPF has taken the maximum toll at 133 deaths followed by 90 in BSF, 83 in CISF, 23 in SSB and 17 in ITBP. Likewise, the NDRF lost two personnel and the NSG suffered a casualty of one personnel due to Covid-19.

Earlier, the number of active Covid-19 cases in the paramilitary forces has jumped over 11 times in just 11 days from a meagre 148 cases as on December 28 to 1,668 cases on January 7.

EC asks poll observers to be accesible, neutral

PNS ■ NEW DELHI

With an aim to conduct free, safe and fair elections, the Election Commission (EC) on Friday asked observers, who will be deployed for assembly polls in five states, to be visible, accessible, neutral and ethical while functioning as the eyes and ears of the poll body. The poll body will meet on Saturday to decide whether to continue with its ban on physical election rallies, road shows and pad yatras as the COVID-19 cases on Thursday crossed over 2.66 lakh cases in a day. During the briefings, observers are given comprehensive inputs about various aspects of election management by senior officials of the EC. Over 1,400 officials attended the briefing, with 140 officials attending it in person and the rest connecting virtually. In his address on Friday, Chief Election Commissioner Sushil Chandra also told expenditure observers to sharpen their skills and be innovative in countering newer methods being used to induce voters. Chandra made these remarks while addressing general, police and expenditure observers to be deployed in Uttar Pradesh, Uttarakhand, Goa, Punjab and Manipur during the elections. Chandra asked the observers to work in coordination with enforcement

agencies. This is the first briefing of the commission to the senior officers, who have been deployed in the forthcoming elections. Election Commissioner Rajiv Kumar cautioned that even stray instances of human errors by polling personnel abd non-compliance of Covid protocols at polling material distribution centres can create a 'deviant narrative and derail the smooth conduct of elections'. According to an EC statement, Election Commissioner Anup Chandra Pandey, while acknowledging that conducting elections amidst COVID-19 was a challenging task, exhorted the designated observers to ensure that a level-playing field is maintained for all political parties and candidates. Officers drawn from IAS, IPS, IRS and other accounts services across the country are deployed as general, police and expenditure observers. Kumar reminded the observers that they are always under strict and microscopic scrutiny by stakeholders and thus should be careful and discreet about their own behaviour and conduct during the election process. He said observers are representatives of the commission and must be acutely aware and cognisant of this sacred and onerous duty entrusted upon them.

Sibal writes to UP, U'khand to prevent hate speeches

PIONEER NEWS SERVICE ■ NEW DELHI

A day after the Supreme Court order on 'dham sansad' events where hate speeches were given, senior lawyer and a former Union Minister Kapil Sibal on Thursday wrote to authorities in Uttar Pradesh and Uttarakhand seeking prevention of inflammatory speeches at more such events planned this month.

On behalf of the petitioners in the hate speeches case in the Supreme Court, Sibal wrote to the district magistrates of Aligarh and Haridwar urging them to take preventive measures including imposition of Section 144 to prevent holding of such events.

"We are in the midst of general elections to the legislative assembly and while we do not want to attribute motives to any person, but if such speeches are made in the midst of an election, they will destabilize the social order and have serious consequences on the polity of this country. We request you to take such preventative action within your powers as is necessary, including under Section 144 of the Criminal Procedure Code,

1973 and Sections 3 and 5 of the National Security Act, 1980," Sibal said in his letter.

He has also sent copies of his letters to chief ministers, home secretaries and police chiefs of Uttar Pradesh and Uttarakhand besides the superintendents of police in Aligarh and Haridwar. A copy was also sent to the Election Commission.

"There are news reports now that another 'dham sansad' is being organised now in Aligarh on January 22-23, 2022 wherein the speakers who participated in the aforementioned events held between 17-19th December, 2021 are likely to be speaking again," Sibal said in his letter to Aligarh DM.

In another letter to Haridwar DM, he said, "There are news reports now that the Shankaracharya Parishad seers announced on 06.01.2022 a protest meeting to be held on January 16, 2022 against the first information report (FIR) registered against speakers at the December 17-19 meeting of the Dharma Sansad."

The senior Congress leader said the responsibility to take preventive measures to prevent any possible incident of mob

violence falls on the district administration, "so the responsibility falls on your shoulders to take preventive action to ensure no speeches of this nature are made".

"We believe if such events are held in the state of Uttar Pradesh as well and similar speeches are made, it will not only disturb the public order but will amount to various criminal offences," Sibal noted. He also referred to the judgement of the Supreme Court in the Tehseen Poonawala versus Union of India case, where the state government was directed to appoint nodal officers in each district for taking measures to prevent incidents of mob violence. These nodal officers have not been appointed in Uttar Pradesh.

The Supreme Court had issued notice to the respondents and posted the matter for hearing after 10 days. The top court was hearing a petition filed by journalist Qurban Ali and former Patna High Court judge and senior advocate Anjana Prakash, who have also sought a direction for an "independent, credible and impartial investigation" by an SIT into the incidents of hate speeches against the Muslim community.

PM Modi to interact with 150 startups today

PNS ■ NEW DELHI

Prime Minister Narendra Modi will interact with 150 startups today which would also include startups linked to the sectors like agriculture, health, enterprise systems, space, industry, security and environment to liven up the economic activities in the country.

More than 150 startups have been divided into six working groups based on themes including Growing from Roots; Nudging the DNA, From Local to Global; Technology of Future, Building Champions in Manufacturing;

and Sustainable Development, according to the Prime Minister's Office (PMO).

Each group will make a presentation before the Prime Minister on the allotted theme in the interaction.

The event marks the 6th anniversary of the launch of the Startup India initiative.

The aim of the interaction, according to the PMO, "is to understand how startups can contribute to the national needs by driving innovation in the country."

As a part of 'Azadi ka Amrit Mahotsav', a week-long event, "Celebrating Innovation Ecosystem", is being hosted by

DPIT, Ministry of Commerce and Industry, from January 10 to January 16.

Prime Minister has been stressing the potential of Startups to contribute significantly to the growth of the nation.

This was reflected in the launch of the flagship initiative Startup India in 2016.

Given the restrictions placed by the Covid-19 situation, the Government has been working on providing an "enabling atmosphere" for boosting the growth and development of Startups and the "startup ecosystem" in the country.

₹2.07 cr assets of former dy drug controller attached

PNS ■ NEW DELHI

The Enforcement Directorate (ED) on Friday said it has attached assets worth Rs 2.07 crore of former Deputy Drug Controller, Licensing Authority Solan, Himachal Pradesh, Kapil Dhiman and others under the Prevention of Money-laundering Act in a disproportionate assets case.

The attached assets include eight immovable properties consisting of land and building in Solan, Mandi, Kullu and Panchkula in the name of Kapil

Dhiman and others and movable properties like balance in bank accounts, fixed deposit receipts (FDRs) and insurance policies maintained in various banks/financial institutions, the ED said in a statement.

The ED had initiated money laundering investigation on the basis of an FIR dated December 14, 2012 and charge sheet dated March 7, 2018 of State Vigilance and Anti-Corruption Bureau, Solan, Himachal Pradesh.

The ED investigation

revealed that Dhiman then Deputy Drug Controller Licensing Authority Solan, Himachal Pradesh used to take bribe for issuing and renewing license of pharmaceutical companies.

He acquired movable and immovable properties out of proceeds of crime to the tune of Rs 2.07 crore, in his name and in the name of his family members and firm/company and projected them as untainted properties, it said, adding further investigation is under progress.

2021 5th warmest year in 121 yrs in India

PNS ■ NEW DELHI

The year 2021 was the fifth warmest year in India since 1901, with the country recording its annual mean air temperature at 0.44 degree Celsius above normal. The India Meteorological Department (IMD) on Friday released its annual statement on climate of India for the year 2021, which is found to be the fifth warmest year after 2016, 2009, 2017 and 2010 during the last 121 years (1901-2021).

As per the annual statement, as many as 1,750 deaths were reported across India due to extreme weather events such as floods, cyclonic storms, heavy rain, landslides, lightning, among others, during the year. Maharashtra was the most adversely affected state during 2021, which reportedly claimed more than 340 deaths mainly due to extremely heavy rainfall, floods, landslide, lightning, cyclonic storms and cold-wave events.

"The annual mean air tem-

perature for the country was recorded at 0.44 degree Celsius above normal. The warm temperature during winter and post-monsoon season mainly contributed to this," it said.

"In 2016, the mean air temperature was 0.71°C higher than normal; 0.55°C in 2009; 0.54°C in 2017 and 0.53°C in 2010. In the 121 years between 1901 and last year, the mean temperature rose by 0.63°C above normal," the report said.

The report showed that 11 out of 15 warmest years were during the recent fifteen years (2007-2021). The past decade (2011-2020/ 2012- 2021) was also the warmest decade on record with the decadal averaged annual mean temperature anomaly (Actual-LPA) of 0.34 degree Celsius/ 0.37 degree Celsius. The country averaged mean monthly temperatures were warmer than normal during all the months of the year except four months (April, May, June, and November). "The winter (January to February) and post-monsoon

(October to December) seasons with all India mean temperature anomalies of 0.78 degree Celsius and 0.42 degree Celsius respectively mainly contributed to this warming," it said.

Also, the country last year witnessed a rise in the annual rainfall, which was 105% of its long-period average (LPA). Rainfall during the southwest monsoon season, from June to September, was normal at 99% of the LPA. Notably, the north-east monsoon period saw rainfall at 171% of the LPA - record highest since 1901.

Speaking on the 147th foundation day of the IMD, Union Minister of State for Earth Sciences, Jitendra Singh on Friday said the IMD is going to play a major role in India's crusade for climate preservation at international fora.

The data showed that heavy rainfall and flood-related incidents claimed over 750 lives last year, while thunderstorms and lightning killed at least 780 people in different

IMD predicts cold wave with dense fog in North India

PNS ■ NEW DELHI

People should brace up to face severe cold wave along with dense to very dense fog in north India in the next few days. The India Meteorological Department (IMD) on Thursday predicted dense to very dense fog over North India during next 4-5 days and a wet spell over east and adjoining central India during

parts of the country.

There were five cyclonic storms in 2021 - Tauktae over the Arabian Sea (May 14-19); Yaas over the Bay of Bengal (May 23-28); Shaheen over the Arabian Sea (September 29-October 4); Gulab over the Bay

of Bengal (September 24-28) and most recently, Jawad over the Bay of Bengal (December 2-6). The most devastating of them was Tauktae, which slammed the Saurashtra coastline on May 17, eventually claiming at least 144 lives.

Centre all set to ask carmakers to provide six airbags

PIONEER NEWS SERVICE ■ NEW DELHI

The Centre is all set to make it mandatory for carmakers to provide a minimum of six airbags in motor vehicles that can carry up to 8 passengers for enhanced safety of occupants. Union Minister Road Transport and Highways Minister Nitin Gadkari said his ministry had already mandated the implementation of fitment of the driver airbag with effect from July 1, 2019 and front co-passenger airbag with effect from January 1, 2022.

"In order to enhance the safety of the occupants in motor vehicles carrying upto 8 passengers, I have now approved a Draft GSR Notification to make a minimum of 6 Airbags compulsory," Gadkari said. GSR here stands for General Statutory Rules.

He further said that to minimise the impact of frontal and lateral collisions on the occupants seated in both front and rear compartments, it has been decided that 4 additional airbags be mandated in the M1 vehicle category.

"Two side/side torso airbags and two side curtain/tube airbags covering all outboard passengers. This is a crucial step to make motor vehicles in India safer than ever," Gadkari said in a tweet message. According to the Minister, this will ultimately ensure the safety of passengers across all segments, irrespective of the cost/variant of the vehicle

According to latest government data, total 1,16,496 road accidents occurred on national highways (NHs), including expressways, in 2020, causing 47,984 deaths. Last year, Gadkari in an interview had said small cars, mostly

purchased by lower middle-class people, should also have an adequate number of airbags and had wondered why automakers are providing eight airbags only in big cars bought by rich people.

His remarks had come against the backdrop of the automobile industry raising concerns that high taxation and stricter safety and emission norms for vehicles have made their products expensive. Mostly, lower middle-class people buy small economy cars and "if their car won't have airbags and when accidents happen, then it may result in deaths. So, I appeal to all car manufacturers to provide a minimum of six airbags across all variants and segments of the vehicle," he had said.

The minister had acknowledged that additional airbags in small cars will increase their cost by at least Rs 3,000-4,000.

SP takes dig at BJP's 3/4th seats claim

SP supremo says 'BJP meant they will win three or four seats' in UP Assembly polls

Lucknow: Samajwadi Party president Akhilesh Yadav on Friday took a swipe at Chief Minister Yogi Adityanath, saying by the '80 versus 20' assertion, he meant only 20 per cent of the population will back the BJP in the Uttar Pradesh elections, while the remaining 80 per cent will support his party. But after the arrival of Swami Prasad Maurya and others in the SP, the saffron party would lose even this 20 per cent, Yadav said in his speech after giving party membership to Maurya and others here. "Baba mukhya mantri

(Adityanath) should engage a math teacher," the SP president said, referring to the chief minister's "80 vs 20" remarks. Adityanath had recently said that in the Uttar Pradesh elections, while 80 per cent supporters will be on one side, 20 per cent will be on the other, which many thought was alluding to the 20 per cent Muslim population in the state. Yadav also pooh-poohed the BJP's claim of winning three-fourth seats in the 403-member Uttar Pradesh Assembly, saying, "they meant they will win three or four seats." **PTI**

Yogi shares meal at Dalit house, says it was 'social exploitation' during SP rule in UP

Gorakhpur: Uttar Pradesh Chief Minister Yogi Adityanath had a meal at a Dalit household here on Friday and said during the Samajwadi Party rule it was "social exploitation" and not "social justice", whereas the BJP government was working for the development of every section of society without any discrimination. Adityanath's visit to the Dalit family in Gorakhpur came a little before Swami Prasad Maurya, Dara Singh Chauhan and Dharam Singh Saini, who resigned from the government accusing it of being anti-Dalit, gathered at the Samajwadi Party office in Lucknow to take up its membership in the run-up to the assembly polls beginning February 10. Several BJP and Apna Dal legislators have also quit their respective parties to join the SP. After having meal at Amritlal Bharti's home on the

Uttar Pradesh Chief Minister Yogi Adityanath having lunch with BJP worker Amrit Lal Bharti at his residence, in Gorakhpur **PTI** occasion of Makar Sankranti, Adityanath told reporters, "Only 18,000 houses were given to people under PM Awas Yojna in full five-year term of the Akhilesh Yadav government in UP, whereas the present BJP government has given 45 lakh houses to the poor and the deprived under the scheme. "It was 'samajik shoshan' (social exploitation) and not 'samajik nyay' (social justice) during the SP rule in UP," he said, taking a swipe at his predecessor and SP chief Akhilesh Yadav. He said 2.61 crore households got toilets and 1.36 crore families benefitted from the Ujjwala Yojana under the "double engine" government, referring to the BJP rule at the Centre and in the state. **PTI**

Didi and not anybody else is my leader, says TMC MP

SAUGAR SENGUPTA ■ KOLKATA

Voice of decent against alleged dynastic politics seems to have begun in the Trinamool Congress with senior party MP Kalyan Banerjee reiterating that he "will continue in the Trinamool Congress till Mamata Banerjee is around ... no one except her is my leader." Referring to TMC national general secretary Abhishek Banerjee's statement that he for one was opposed to any public gathering --political or religious --- for another two months in view of rising corona cases, Kalyan Banerjee said that "such decisions are taken by our supreme leader Mamata Banerjee and not anyone else." He said "such statements need her approval and since my leader Mamata Banerjee has not spoken anything about it I will assume that it is nother view ... in that case I do not subscribe to whatever he

(Abhishek) has said." On whether he regarded Abhishek Banerjee --- who is also the nephew of the Chief Minister --- as his leader the TMC Lok Sabha Chief Whip said, "I consider only Mamata Banerjee as my leader ... I am around till she is there ... I do not accept anyone else as my leader." Attacking Abhishek for making a statement that was in tune with what the BJP demanded Kalyan Banerjee said "whatever he said matches with the views of the BJP ... because his statement came soon after the BJP leadership made similar statements ... but did he (Abhishek) tell anything about the UP elections ... did he tell anything about the crowds gathering in other parts of the country." Though there was no immediate reaction from the Chief Minister another senior leader and party disciplinary committee chairman Patro Chatterjee asked all sides to make statements commensurate to the party policy. "No statement against any leader that goes against the party's conduct rules will be tolerated ... everyone is asked to exercise restraint," Chatterjee said even as State party spokesperson Kunal Ghosh said cognizance of Kalyan Banerjee's statements would be taken by the party. Another TMC MP from Hooghly Aparupa Poddar too came out against Kalyan Banerjee seeking his resignation as the Chief Whip. "He knows full well that Abhishek Banerjee is the party national general secretary and we are bound to follow his line ... now after he has made statements against him, Kalyan Banerjee should resign as the Chief Whip of Lok Sabha because he has acted like Bivishana --- the epic figure of Ramayana who left his brother Ravana the demon king to join the ranks of Lord Rama."

MP Rupa seeks CBI probe into train mishap which killed 9 people

PNS ■ KOLKATA

Technical snags might have led to the Thursday's train accident at Moynaguri in North Bengal that left 9 people dead and many others injured, Railway Minister Ashwini Vaishnaw on Friday said after visiting the spot. This, even as BJP MP Rupa Ganguly demanded a CBI investigation into the mishap considering the timing of the accident. "Are the Railway tracks thinking creatures that they will cause the train to derail ... Do trains derail out of nothing ... we have to consider the timing of the accident ... the elections are around and considering the fact that no big mishap has taken place in the past several years it becomes imperative to get the investigation conducted by the CBI to ascertain the truth," Ganguly said drawing instant reaction from the

ruling Trinamool Congress. "Even the Union Railway Minister has not said anything about any conspiracy ... even he has pointed at some technical snag and here their leader is raising political issues which is unacceptable... instead of reaching out to the people they are politicizing the matter," said TMC spokesperson Kunal Ghosh. Meanwhile, former engineers of the Railways said that prima facie it seemed that one of traction motors of the engine had fallen off blocking the tracks and causing the coaches to derail. "We are conducting a high level investigation and will make things known soon after we come to a conclusion," Commissioner for Railway Safety Latif Khan said. Twelve coaches of the Bikaner-Guwahati Express train had derailed and some of them capsized near Domohani in Jalpaiguri district on Thursday.

RLD-SP pick candidates on different criteria

Noida: The Rashtriya Lok Dal (RLD) has chosen educated candidates hailing from the constituency and with no criminal background, while partner the Samajwadi Party picked them on their 'winnability' factor as the alliance announced the first list of nominees for the Uttar Pradesh Assembly polls. The alliance of Akhilesh Yadav's and Jayant Chaudhary's parties, which has led the RLD - in western Uttar Pradesh which will go to polls on February 10. These seats across districts like Muzaffarnagar, Shamli, Aligarh, Agra, Ghaziabad, Meerut, Hapur, Ghaziabad were largely won by the BJP candidates in the 2017 elections but have now seen a considerable influence of the recent farmers' agitation and changing caste equations. "The criteria for ticket distribution have been a candidate's background. Of the candidates announced by the RLD today, no one has a criminal

background. They are all educated and qualified candidates having a good connect with the people of their region. None of our candidate is an outsider. All belong to the assembly seat where they are contesting the election," RLD spokesperson Sandip Chaudhary told PTI. He added that party leaders have held campaigns and panchayats in recent months which has led the RLD to also take decisions on the basis of "public feedback". Chaudhary also highlighted that the recent agitation of farmers against the four contentious central farm laws, which have now been repealed, have dented the BJP's prospects in Uttar Pradesh, particularly in the western region. "The farmers are unhappy. The Muslim community is also unhappy with the BJP. The people have realised the BJP's false promises and false dreams it had shown to them last time," he claimed. As the tickets were announced, Samajwadi Party spokesperson Abbas Haider said the alliance of his party

and the RLD has a "definite influence" in western part of Uttar Pradesh. On distribution of tickets, Haider told PTI, "Winnability of a candidate is the first criteria for ticket distribution in the alliance. The party workers are also being kept in mind during the process." "The atmosphere in the region is against the BJP and that is evident as people across sectors have come out in support of the SP-RLD alliance," he claimed. Of the 29 seats on which the alliance announced candidates Thursday, the Samajwadi Party's Nahid Hasan had won the 2017 polls from Kairana and Rafeeq Ansari from Meerut and the party has repeated both the candidates this time. Sahender Singh Ramala was the only RLD candidate who won the party a seat in the last elections. He had won from the Chhaprauli seat in Baghpat district, once considered a party stronghold. The 2022 candidate from the seat is yet to be announced. **PTI**

Bengal BJP dissolves all departments, cells

35 depts, 15 cells all bound to shut amid growing resentment among leaders

Kolkata: BJP's West Bengal unit president Sukanta Majumdar on Thursday dissolved all the departments and cells of the party in the state amid growing resentment among its leaders. The BJP has 35 departments and 15 cells in West Bengal. Among these are the legal department and the refugee cell. "As per instructions of Dr Sukanta Majumdar, all departments and cells stand dissolved till the time they are reconstituted, and new appointments are made," said a statement issued by the state BJP. The announcement was made days after Union

Minister Shantanu Thakur, a leader from the politically powerful Matua community, quit the party's WhatsApp groups amid disappointment over the newly-formed state office bearers' committee. Last month, five MLAs had left the WhatsApp groups in protest after being dropped from the committee. A senior state BJP leader said dissolving the departments and cells is a usual process in the party after a new president takes over. "Whenever a new president takes charge, he forms new committees, departments and cells. After Sukanta Majumdar took over last year, he did not form the new committees and cells," he said. However, a disgruntled BJP leader said all the party old-timers and experienced leaders have been sidelined by the new dispensation in the state unit. **PTI**

COVID BULLETIN

'No shortage of vaccines in Maha'

Union Health Ministry scotches media reports on scarcity of jabs

T N RAGHUNATHA ■ MUMBAI

A day after the Maharashtra Government asked the Centre to provide 40 lakh Covaxin and 50 lakh Covishield doses to increase the vaccination coverage, the Union Health Ministry on Thursday scotched reports in a section of the media that the State was facing vaccine shortage and said that it had 24 lakh unutilised doses of Covaxin and that it received additional 6.35 lakh doses during the day. Alluding to media reports stating that the State Government was unable to increase the pace of vaccination

in the State owing to shortage of vaccine, the Union Health Ministry said in a statement: "Such reports are ill informed and incorrect. It is clarified that, as per the reports available today (14th January 2022), Maharashtra has over 24 lakh unutilized doses of Covaxin available with it. An additional 6.35 lakh doses have been received today." "As per their weekly consumption data available on Co-WIN, the average consumption by Maharashtra for Covaxin to cover the eligible beneficiaries for 15-17 years and for precaution dose is almost 2.94 lakh doses per day. Therefore, the State has

adequate vaccine doses for about 10 days to cover the eligible beneficiaries with Covaxin," the Health Ministry said. "Furthermore, for Covishield, the state has 1.24 crore unutilized and remaining doses available as on date. With an average consumption of 3.57 lakhs per day, this will sustain for more than 30 days for the beneficiaries to be vaccinated using the vaccine," the Union Health Ministry statement said. "Hence, the media reports are not factually correct and do not reflect the correct picture of the available stock of balance and unutilized Covid vaccine

doses with Maharashtra," the statement added. At a meeting of Chief Ministers and ministers of various states called by Prime Minister Narendra Modi to take stock of the Covid-19 situation across the country, the Maharashtra government had asked the Centre to provide 40 lakh Covaxin and 50 lakh Covishield doses to increase the vaccination coverage. Talking to media persons after the meeting, State Public Health Minister Rajesh Tope had said: "Covaxin is required for the vaccination for the 15-18 age group and Covishield for people over 60 years of age and the frontline workers."

Karnataka Govt seeks Central assistance to raise number of oxygenated beds, O2 plants

Bengaluru: Karnataka Chief Minister Basavaraj Bommai on Thursday sought Central assistance to raise the number of oxygenated beds and oxygen plants in the State. Bommai sought the assistance today while taking part in a video conference held by Prime Minister Narendra Modi with Chief Ministers of various states over the COVID-19 situation in the country. "I explained the measures taken by the state government to control and manage Covid. The Prime Minister appreciated the high rate of testing and vaccination in the state which is higher than the national average," the CM was quoted as saying by his office in a release. Noting that the PM was also apprised about measures initiated to ramp up the medical infrastructure, he said, "I

sought the central assistance to raise the oxygenated beds and oxygen plants." The Prime Minister gave instructions on making all preparations based on the experience of the first and second wave of Covid, as the pandemic is expected to peak in February, the CM said. During the third wave over 94 per cent infected are in home isolation, and therefore the Prime Minister wanted to give priority to ensuring supply of medicines, appropriate care and measures to instill a sense of confidence among the infected, he said. Further Bommai said, the Union government has suggested ramping up testing, purchase of ambulances and improving medical infrastructure under the Rs 32,000 crore package it has provided. **PTI**

Kerala, TN see surge in Covid-19 cases in 24 hours

CHENNAI ■ KOCHI

A black Pongal for Tamil Nadu and a black Friday for Kerala. That's how doctors in the two States described the status of pandemic in the two southern States. While the number of people diagnosed with Covid-19 shot up to 23,459 in Tamil Nadu during the last 24 hours (out of 1.5 lakh samples tested), Kerala registered 16,338 cases on Friday. The death toll in Kerala reached 50, 568 while Tamil Nadu's Department of Health Directorate said the number of victims succumbed to the pandemic till date reached 36,956. Tamil Nadu Government, shocked over the spurt in the number of Covid-19 cases have tightened the rules and declared a partial shut down

with many restrictions. Schools and Colleges have been asked to stick to online classes till further notice taking into account the warning issued by the Tamil Nadu Government Doctors Association. The Kerala Government in a review meeting held on Friday decided to shut down all schools and asked the Government and private establishments to opt for online mode in districts where Test Positivity Rate is more than 20 per cent. The State's TPR on Friday stood at 23.68 per cent.

Uddhav should delegate powers if he is not well: BJP

Maha Opp seeks delegation of power after CM skips PM meet due to ill health

T N RAGHUNATHA ■ MUMBAI

Upping the ante over the ill-health of Chief Minister Uddhav Thackeray once again, the Opposition BJP on Friday asked him to step aside and hand over his post to someone elsewhere till his health condition improved. The BJP's demand should be seen in the context of the fact that Uddhav -- who has been recouping from the cervical spine surgery that he underwent at HN Reliance Hospital here on November 12 -- did not attend the Covid-19 review meeting through video conferencing called by Prime Minister Narendra Modi on Thursday, owing to health reasons. Talking to media persons at Kolhapur in western Maharashtra, State BJP president Chandrakant Patil said: "The State Health Minister has

said that the chief minister did not attend the Covid-19 review meeting called by the Prime Minister as he cannot sit at one place for two to two and a half hours. That being the case, Uddhav Thackeray should hand over the chief minister's responsibility to someone else in the party till recovers fully from his illness." "People are saying that the chief minister has not met people for almost 70 days now. That being the case, Uddhav Thackeray should delegate his powers to someone who can attend daily meetings and sometimes visit some places in the state," Patil said. "He (the chief minister) is like our friend, so I wish him a speedy recovery. However, the task of administering the state, which has a population of around 12 crore, cannot be done just by sitting at home. Such responsibilities should

be taken more seriously," the state chief said. On Shiv Sena leader Sanjay Raut's criticism of the BJP, Patil said: "Raut should understand that the Sena is losing due to this coalition government. A Shiv Sena candidate cannot win the election of Mumbai cooperative Bank, whereas an NCP candidate becomes its chairman." Referring to the NCP's decision to contest the Uttar Pradesh Assembly polls, Patil said: "If Sena is contesting upcoming elections in Goa and Uttar Pradesh, it is merely to win a certain number of votes in order to get the tag of a national party. You need to get a certain number of votes in more than one state to get such recognition". Patil had made a similar demand that Uddhav should step aside from his chief minister's post till he recovers fully from his

cervical spine surgery that he underwent at HN Reliance Hospital two months ago. The reiteration of his demand by Patil comes a week after the a BJP social media functionary Jiten Gajaria had sparked a controversy by putting out an "objectionable" tweet describing Maharashtra chief minister Uddhav Thackeray's wife Rashmi Thackeray as "Marathi Rabri Devi". In his tweet put out along with photograph of Rashmi Thackeray, Gajaria had likened her to Bihar's former chief minister Rabri Devi, who had taken over the reins of the northern state after her husband and RJD chief Lalu Prasad Yadav resigned in the wake of his involvement in the fodder scam. Through his tweet, Gajaria had indirectly referred to the health issues faced by chief minister Uddhav Thackeray. **PTI**

PAPER WITH PASSION

Stepping up

The Govt and the SC are on same page on the need to bring about criminal law reforms

For the last few days, the Delhi High Court is hearing petitions seeking to criminalise marital rape. During the hearings, the Centre has informed the court that it proposes a comprehensive revamp of the criminal law. This is an echo of the Union Home Minister on Tuesday seeking views from the Chief Justice of India, Members of Parliament and Chief Ministers on forging a “people-centric legal structure”. The Home Minister said the same once before, way back in 2016, when he sought similar views on changes to the Indian Penal Code, Code of Criminal Procedure, Arms Act, and so forth. The same year, the Supreme Court too asked the Centre to reform police laws as well. Better late than never, as they say. Several sections of these laws and many other statutes like the sedition law are of colonial vintage and are antiquated. They are still used, most in their breach, and should go at once. The one that decriminalises marital rape is another one that is so obviously not ‘people-centric’ and yet exists in the statute books. The Home Ministry is bound to get numerous suggestions on reformation and change. But it is for the Ministry to identify the provisions that require a revision. Some would say the reforms need to be sweeping because some provisions related to classes of offences, legal procedures, the quantum of punishment and principles of criminal jurisprudence have not seen changes in decades.

The IPC, drafted in 1860, has seen only 77 amendments to date, 37 of them coming after Independence. The CrPC has amended 18 times between 1974 and 2014. Social progress and technology upgradation mean these laws need to be modernised to keep pace with the times. New types of punishments, with restorative and reformatory justice in mind, need to be introduced into the Indian system. Principled sentencing is the need of the hour on the procedural side to ensure that different sentences for crimes of similar nature do not have major variations. The Government has to explain how it wants to give the reforms a ‘people-centric’ push. For, in democratic parlance, it means having suitable procedures in place to quickly identify the reasons for victimisation and reforming laws to uphold the rights of victims of crime. The extant laws of Macaulay’s time are tuned to serve the interests of the Crown. They need to be oriented towards people — once the victims of colonial rule who, after Independence, became the victims of colonial laws. They need to enjoy the benefits of victim protection schemes and victim participation in criminal trials, compensation and restitution schemes for victims. Victim advocacy and human rights are the thrust points. But that will not amount to much without the fundamental tightening of the mental resolve to tackle crime: One, political non-interference in the roles of crime investigation agencies; two, a change in the attitude of the police towards complainants; and, three, no external pressures on the police.

Pilgrims gather for a holy dip in the Ganga on the occasion of Makar Sankranti, at Gangasagar Mela

Rough & tumble

The game of UP’s throne is getting exciting by the day, and the Opposition is thrilled

With just about a month to go for the Uttar Pradesh Assembly election, scheduled to be held in seven phases between February 10 and March 7, there are significantly noticeable rumblings in the electoral playfield. Three Ministers in Yogi Adityanath’s Cabinet (Labour & Employment Minister Swami Prasad Maurya, Environment Minister Dara Singh Chauhan, Ayush Minister Dharam Singh Saini, besides legislators Roshanlal Verma, Brijesh Prajapati, Bhagwati Saran Sagar, Mukesh Verma, Vinay Shakya, Bala Prasad Awasthi and Avtar Singh Bhadana) have resigned in three days, and there is high probability that they may join the Samajwadi Party in the coming days. In fact, Saini warned the party that “every day till January 20, a Minister and two-three MLAs will resign from the BJP”. So far, a total of 14 lawmakers, including the three Ministers, have signaled their exit from the BJP since the poll schedule was announced on January 8. All the major political parties in the fray in the politically significant State — the SP, Congress, BSP and the AIMIM — are contesting separately and the BJP was hopeful that it would easily breast the tape yet again against a splintered Opposition.

Though Assembly elections are going to be held in five States, seen as a template for the Lok Sabha elections in 2024, all eyes are on UP. Only a few months back, everything was going well for the UP Chief Minister. Backed by PM Narendra Modi, Yogi Adityanath seemed unstoppable and ready to return to power, but sudden large-scale desertions have hit his Government and image hard. The recent resignations have dented the BJP’s efforts at consolidating the Hindu vote, which helped it win in 2014, 2017 and 2019. The formula was built around the BJP’s strategy of social engineering, a concept perpetuated by former general secretary and ideologue K. Govindacharya, but it appears to be wearing off now. Needless to say, the recent developments are quite comforting to the Opposition camp, and the satraps would likely enter the humdrum of the electoral battlefield with renewed zest and vigour. Meanwhile, the saffron party would need a lot more than its social engineering formula and development slogans to keep its ship stable and on course. This is where the experience of poll-hardened veterans, including the Modi-Shah masterminds, could come in handy. Alas, time is not exactly a friend of the BJP this time.

Fear is the key to rule minds, or is it?

Today’s politicians exploit every opportunity to use fear for recruiting volunteers to their own personal causes without realising the flipside

We live in a world that, as Canadian philosopher Brendan Myers puts it, is “utterly saturated with fear. We fear being attacked by religious extremists, both foreign and domestic. We fear the loss of political rights, a loss of privacy, or a loss of freedom. We fear being injured, robbed or attacked, being judged by others, or neglected, or left unloved.”

Politicians understand this well. With the COVID-19 pandemic having already laid us low and in the absence of any real health-revival hopes on the horizon, they have lost no time in using fear to entice and recruit volunteers to their own personal causes.

Former American President Donald Trump is a prime example of a politician who has successfully used fear to his advantage, and continues to do so despite having lost the Presidency by approximately seven million of the popular vote. With absolutely no evidence to show, he has still been able to sell the “Big Lie” that he was denied victory because the election machinery was compromised and allowed incumbent Joe Biden to win fraudulently, something that millions continue to believe even to this day.

This issue, as we are all aware, boiled over on January 6, 2021, the day Congress was to formally certify President-elect Biden’s win. An unruly mob of Trump’s supporters, egged on by him but he choosing not to join them, attacked Capitol Hill in an effort to stop Congress from carrying out its constitutional mandate. In the ensuing violence, two policemen were killed and over 150 injured, leading to the arrest of over seven hundred of those involved, with many more still at large.

One would have expected that the fanatics who attacked the Capitol and unleashed utter mayhem there would belong to the very fringes of American society. Surprisingly, that was not the case, as a study by the University of Chicago’s ‘Project

on Security and Threats’ found. Of those who have been arrested thus far, “over half were business owners, CEOs and from white-collar occupations. Over a quarter had college degrees and only a third had criminal records, while 13 per cent belonged to extreme right-wing militia groups”. It concluded that the mob was overwhelmingly White Non-Latinos, in ages between 35-50 years and the vast majority had come from pockets of Trump supporters in districts and States that were either majority Democrat or had swung towards the Democrats.

The most interesting aspect of the study was the revelation that the single most important motivation for those who participated in the insurrection was their belief in the “Great Replacement Theory”. A conspiracy theory first propounded in France by author Renaud Camus in which white nationalists claimed that the French white population was being demographically and culturally replaced deliberately by Non-European peoples. It has found much traction not just

“THE FEAR OF THE UNKNOWN OBLITERATES ALL REASONING AND BRINGS OUT A PURELY EMOTIONAL RESPONSE. WHAT MOST PEOPLE OVERLOOK IS THAT WHILE IT IS RELATIVELY SIMPLE TO START A FIRE, THE CONFLAGRATION LEAVES NONE UNSCATHED

in France but also in other European nations and in the United States and New Zealand. In America, it has come to be seen as the Non-Latino White population being replaced by Blacks, Hispanics and People of Colour. In essence, a growing fear of losing their privileged and entitled position in society that the colour of their skin provided.

A fear that Donald Trump was able to effectively harness not just in the presidential campaign of 2016 but also, even more successfully, in his 2020 campaign despite his eventual loss. Interestingly, the Replacement Theory with appropriate modifications can just as easily be adapted in support of other extremist ideologies as well, both religious and ethnic. In our own context, for example, there are groups within the Hindutva fold that use a similar argument, not supported by any scientific data, to suggest that birth rates in minority communities are so high that they will eventually overtake the majority Hindu population in a few decades. There are groups

that have recently gone further in propagating even more radical views than this.

Clearly, one need not be a social scientist to understand that the motive for such baseless assertions is completely rooted in politics, and works as an effective tool for propagating fear to garner votes. What is truly dangerous is the insidious nature of the threat posed. The fear of the unknown, as we all know, obliterates all reasoning and logic and brings out a purely emotional response. Unfortunately, what most people overlook is that while it is relatively simple to start a fire, the conflagration leaves none unscathed. Those fanning the flames of religious bigotry would do well to heed 18th century English poet Samuel Taylor Coleridge’s wise words that “in politics, what begins in fear usually ends in failure”.

LETTERS TO THE EDITOR

PASSENGER SAFETY JUST FOR MANUALS?

Sir — Since the derailment of Seemanchal Express in February 2019 in Bihar where six people lost their lives, and the curtailment of the railways due to COVID-19, the Railways was trying hard to renew its claims of safety and development. Just at that moment, at least seven people were killed and over 40 injured after 12 coaches of the Bikaner-Guwahati Express derailed in West Bengal’s Jalpaiguri district. The people are unable to digest the claim that due to the pandemic, there were fewer passengers on board the train. It seems to be a wrong statement by the officials concerned. There were 550 passengers in the affected coaches and 1,100 passengers in the train; so, it’s not less.

Moreover, it’s 2022 and still these trains are using IFC coaches instead of LHB (Linke Hofmann Busch) coaches. Instead of inaugurating stations after stations, there’s a pressing need to develop the rail compartments first. The silver lining amid the tragedy was to see about 50 ambulances reaching the spot in no time at such a remote place, also thanks in no small measure to locals for a quick helping hand and all parties for overcoming petty politics and joining hands to help the passengers. It shows that our medical system and coordination improved. Heartfelt condolences to the bereaved families and praying for early recovery of those injured.

Bidyut Kumar Chatterjee | Faridabad

TOLERANCE THERAPY NEEDED

Sir — We have too many people around whose sentiments are too easily hurt by what happens in the advertisements but not enough by what happens out there in reality. Added to the fact that we generally lack a sense of humour and every imagined slight is blown out of proportion, it has made it nearly impossible for any creative person to take a different, independent view from the accepted traditional view. After 2014, there is a growing constituency of eagle-eyed ‘protectors’ of Indian cultural and religious traditions waiting to get offended at the

Allay fears of the workforce

With the surge in COVID cases, the migrant workforce from other States is in the grip of fear as they had bitter experiences of the previous lockdown. They should not be left in lurch and it is expected of the authorities concerned to step forward and allay their fears as some of them have already started trickling homeward. Some reports indicate that labourers from Delhi and the NCR as well as the port hubs of Mumbai and Kolkata are getting infected

slightest chance.

Thanks to the attitude of the Government in power and other elements that are patronised by it extra-constitutionally, which offers them protection from the essence of the law of the land, this creed believes they have the sole proprietary rights over Indian culture. Culture is dynamic and the fossilised thought processes of the many ‘guardians of Indian values’ need a changeover if the nation is to progress.

Anthony Henriques | Mumbai

AMBIDEXTROUS BOWLERS

Sir — While cricket has seen a lot of innovations over the years like coloured clothing, emergence of T20 format, introduction of pink ball, etc, ambidextrous bowling is something that hasn’t made its way yet into the game. But being an ambidextrous bowler, and more so a fast bowler, is highly challenging and far more demanding in terms of physical fitness because the bowler needs to rewire his body very often dur-

ing the game. Across cricketing nations, only five cricketers have so far tested out ambidextrous bowling — Akshay Karnear (India), Kamindu Mendis (Sri Lanka), Yasir Jan (Pakistan), Shaila Sharmin (Bangladesh) and Jemma Barsby (Australia.)

But how far can ambidextrous bowling be really effective and sustainable at international level is the moot question as these days, batsmen like Glen Maxwell are adept at employing switch-hitting at will, a shot which is highly productive in T20 cricket. In fact, ambidextrous bowling was in use long ago when Pakistan’s Hanif Mohammed tried it out a few times, though in desperation, like he did to Gary Sobers during his monumental knock of 365 n.o. at Kingston, Jamaica, in 1958. It’s believed to be the first-ever instance of ambidextrous bowling in international cricket.

FIRST COLUMN

SEARCHING FOR ANTIDOTE TO COMMUNAL HATE

JAGDISH KAUR

India woke up to the new year with shocking revelations regarding the "Bulli Bai" app targeting minority women in a derogatory and humiliating manner. The app had misused photographs of a number of Muslim women, including students, prominent personalities, journalists, and social workers. Protests were lodged all over the country. With pressure from human rights and women groups, the Bulli Bai app was blocked by Github. A couple of owners of the Bulli Bai App have now been arrested by the CERT-IN (Indian Computer Emergency Response Team) and currently in police custody. The 'Sulli Deals' App, which was launched last year, had listed Muslim women for 'auction' with photographs sourced without permission and doctored. Its mastermind has also been arrested now. Will these arrests stop this kind of humiliating intent against certain religions, sects, communities, castes, or groups? Certainly not, because these are not one-time or stand-alone crimes. These are the

result of organized and sustained hate campaigns poisoning the minds of Indians, especially youth, against minority communities. For last some years, the social media has been extensively used to create platforms and material by these perpetrators of hate. As per Statista Research Department, most hate crimes during 2015-2019 were targeted at Dalits, followed by Muslims. There have been several reports of Muslims not being allowed to pray in certain places in North India and Christians being targeted on suspicion of being involved in religious conversions. Human rights groups which monitor atrocities against Christians in India have documented the violence by Hindutva groups from all states and released a fact-finding report titled 'Christians under attack in India'. The report released by the Association of Protection Civil Rights, United Christian Forum and United Against Hate at a press conference in Delhi in October 2021 says over 300 such instances were reported from across 21 states, particularly in North India, in nine months of 2021.

The farmers who protested for almost a year were repeatedly labelled as 'Khalistanis' and hate messages against them were doing the rounds on all social media platforms. Various forms of provocative incidences against minorities have been on the rise in the last few years. We keep hearing about the incidences of 'love jihad', 'ghar wapsi' and other newly coined terms to target certain communities. The Supreme Court has agreed to take up a PIL seeking probe into alleged hate speeches at two separate events at Haridwar and Delhi in December 2021. There are messages and videos circulating on social media regarding the atrocities committed on Hindus by Mughals (Muslims) during the Middle Ages. The voices for making India a 'Hindu Rashtra' are getting louder by the day. The hate speeches and hateful actions against any religion can only serve to imbalance the public order and peace in society. Educated young people are debating religion and hate rather than constructive issues for nation building. Do we have a solution? The harrowing trend of communal hatred is likely to meet with retaliation by those targeted in due course leading to destruction of the very fabric of multi-cultural Indian society. As Mahatma Gandhi said "an eye for an eye will only make the whole world blind". The Constitution of India enshrined and ensured equality and respect for all Indians. Hate campaigns against any religion, community or sect need to be condemned in the strongest words and strict legal action should be taken against the perpetrators. Politicians, religious and community leaders, and people from all walks of life should come together to oppose hate campaigns. School curricula should have mandatory content on communal harmony so that future generations learn to value of compassion and brotherhood.

Mahatma Gandhi an ecological economist?

BKP SINHA

Gandhi's ideas could not be more relevant than today when India is witnessing jobless growth and facing the worst unemployment crisis

India was earlier known for its flourishing trade in spices and textiles, along with precious metal and stone. After Independence, India inherited an economy that was one of the poorest in the world with no industrial base and mostly devastated land deprived of forest and fertility. The British left a poor base for the already developed handicrafts universally acclaimed for their quality and craftsmanship.

In Mahatma Gandhi's view, industrial civilisation fostered by British rule was the main cause of India's social, ecological and economic distress. He believed that India's salvation lay in the restoration of its ancient civilisation where economic progress and moral progress intertwined.

Gandhi knew that "India lives in her seven lakh villages" therefore the economic and social revival of these villages is a pre-condition for reconstruction of India. He wanted to make the villages self-sufficient and build a rural economy which is not solely based on agriculture and allied activities but also has strong rural industries thereby generating employment for the villagers.

Gandhi once said, "If the village perishes, India will perish too". He imagined his ideal village will consist of cottages made from locally sourced materials with sufficient light, ventilation, proper sanitation and produce its own grains, vegetables, fruits, and Khadi. It will have wells, places of worship, a common meeting place, a common grazing field, a co-operative dairy, primary and secondary schools where vocational training will be imparted and panchayats for settling disputes.

Gandhi was against the concentration of power and the system that makes the individual subservient to the machine and material. He wanted a development process which is harmonious, poverty free, non-violent, based on cooperation and ethics. Therefore, he proposed an ecological model centered on limitation of wants in contrast to the modern civilization that promotes material welfare and individual profits. He was sure that too much emphasis on materialism could lead to violence, unhappiness and a culture of oppression, exploitation, and dominance.

Gandhi's concept of sustainable development is rooted in a holistic approach which emphasizes the development of an individual and society as a whole in connection with nature. By preaching "simple living," Gandhi sought to curb both human greed and mindless exploitation of natural resources. He said, one should know the difference between 'need' and 'want' and taking more than required to fulfil our need, in a way is theft from other species, humans and the future.

Gandhi often said, "The earth provides enough to satisfy every man's needs, but not every man's greed".

He warned against the perils of massive industrialization and unsustainable patterns of consumption in the west. He

CLIMATE CHANGE HAS ONCE AGAIN SHED LIGHT ON GANDHI'S PHILOSOPHY OF SELF-SUFFICIENCY AND SUSTAINABLE DEVELOPMENT AND MADE THE WORLD REALISE THE IMPORTANCE OF PRACTISING A LIFESTYLE THAT HAS MINIMAL ENVIRONMENTAL IMPACT. THESE PRINCIPLES REMAIN THE DRIVING FORCE BEHIND ALL THE UN'S CLIMATE AGREEMENTS, ENVIRONMENTAL CONSERVATION TREATIES AND SUSTAINABLE DEVELOPMENT GOALS

(The writer is a former Indian Forest Service officer. The views expressed are personal.)

described the process of urbanization as a "double drain", i.e., it will harm the villages and the villagers and thus proving fatal to both. Hence, in order to ensure economic balance, it is important that the urban sector does not drain the rural sector and shift the focus from centralization to decentralization. He argued, that a technologically sophisticated economy will have two major consequences: it would disempower the economic autonomy of the masses and greatly undermine the ecological fabric on which millions depend.

Therefore, to increase the productivity, we should avoid indiscriminate use and non-selective adoption of imported technology. He foresaw that the development of small-scale technology could boost efficiency in rural production without displacing rural labour and advocated an appropriate technological mix with controlled production to maximise the social benefits of science and technology and to maintain a proper balance between man and environment.

He emphasized the development of village and cottage industries where handicrafts, spinning, weaving, and likewise remain constant sources of income and revenue generation. This will protect the village crafts and the workers from the crushing competition of the power-driven machinery and ensure jobs for the villagers.

Gandhi's ideas could not be more relevant than today when India is witnessing jobless growth and facing the worst unemployment crisis in this pandemic situation. It is evident that the current paradigm of development is causing serious environmental problems which is neither ecologically nor socially sustainable. It is leading the planet into a vortex of inequality, widening the rift between rich and poor, and proved inadequate to address the issues of the millions living in poverty.

Gandhi was well aware of the pitfalls of such developments as well as the consequences of unequal distribution of wealth between different classes. The World Inequality Report 2022 ranked India as the most unequal country in the world. The top 10 per cent and top one per cent hold 57 per cent and 22 per cent of the total national income, respectively, while the bottom half's share has come down to 13 per cent and they barely have anything. Thomas Piketty asserts in his influential book, Capital in the Twenty-First Century, that inequality is rapidly intensifying and global cooperation is desirable to prevent the wealthy from simply shifting assets into other jurisdictions. He proposed, an extremely high income-tax rates on upper-income taxpayers along with a global wealth tax. Economic progress devoid of moral elements will deepen divisions and increase dissensions among people.

With growing population, the increase in food demand has considerably altered land-use practices which has led to agricultural intensification at the expense of forests and grazing lands. Increased use of chemicals and fertilizers are causing pollution, soil and ground water contamination, loss of biodiversity and kill the beneficial organisms which increases fertility. Gandhi believed in sustainable agriculture and advised the use of bio-manures and bio-pesticides to improve soil fertility. Today, the experts in the healthcare are emphasizing the importance of chemical-free crops because excessive amounts of chemicals in plants are causing health related problems in humans as it affects kidneys, lungs, may also cause cancer and congenital abnormalities like malnourished children, etc.

Gandhi's understanding of the ecological crisis was far ahead of his time and anticipated many of our greatest challenges of today. Knowing that afforestation can be an effective step to combat future water crisis, he urged people to plant trees. He also proposed, water harvesting for irrigational purposes to prevent droughts and famines.

Climate change has once again shed light on Gandhi's philosophy of self-sufficiency and sustainable development and made the world realize the importance of practicing a lifestyle that has minimal environmental impact. These principles remain the driving force behind all the UN's climate agreements, environmental conservation treaties, and sustainable development goals. Many of his ideas foreshadow the holistic thinking behind the "Agenda 2030: Transforming Our World" for Sustainable Development. The central idea of Agenda 2030 is captured by the tagline "Leave No One Behind." The plan aims to achieve prosperity for people and the planet and calls for "transformative" change, which includes changing the way we live, produce, and consume.

Thus, the current climate crisis and the need to find sustainable means has brought a long-suppressed and quintessentially Galbraith's unanswered question to the fore — "How much should a country consume?" — along with Gandhian corollary — "How much should a person consume?". They have become fundamental questions for the 21st century and will dominate the intellectual and political debates.

POINT COUNTERPOINT

THE POLICE CLOSE THEIR EYES WHEN THE RULING PARTY CONDUCTS RALLIES. WE WERE ONLY FIVE BUT THEY STOPPED US FROM CAMPAIGNING. —BJP NATIONAL VICE-PRESIDENT DILIP GHOSH

DILIP GHOSH IS LYING THAT ONLY FIVE OF THEM WERE CAMPAIGNING. HIS SECURITY GUARDS ALONE ARE FIVE IN NUMBER. —TMC LEADER MOLOY GHATAK

Poisonous tobacco products must be made unaffordable

The sale of 'sin products' needs to be limited and kept out of reach of the maximum number of citizens, especially teenagers

Tobacco consumption is a menace that is worse than the current Covid-19 pandemic and causes innumerable fatalities. Both Finance Ministry and GST Council appear to have overlooked the causes of this malady despite representations by civil society organizations, Members of Parliament, the medical fraternity, state representatives, Ministers and citizens.

There have been no major tobacco tax increases after the GST council placed tobacco products in the 28 per cent bracket in 2017. The option of tax increase on tobacco products gives the government a golden opportunity to raise badly required finances. Remember, lower taxes increase the affordability of

KIRIT BHAI SOLANKI

(The writer is a medical practitioner and Member of Parliament, Lok Sabha. The views expressed are personal.)

tobacco consumers, especially teenagers and children. The Union Government has the option of hiking the excise duty and NCCD in the annual budget while the GST Council can increase the cess. This will ensure India has optimal tobacco taxation as mandated by WHO.

A submission to Parliament mentioned that a small excise duty hike ensured tax collection of Rs 4962 crores. This proves the point that raising excise duty and calamity duty substantially in the coming budget can fetch a handsome revenue.

The costs imposed on our society and our economy, both direct as well as indirect, have been huge. India has over 27 crore tobacco users today and the consumption of tobacco

kills more than 13 lakh Indians annually. At a global level, eight million deaths are reported every year. Over seven million deaths are due to direct use of tobacco while the rest are caused by passive smokers exposed to the poisonous smoke. As per the data of GYTS (Global Youth Tobacco Survey) in 2019, nearly one-fifth of the students aged 13-15 have used any form of the tobacco product (smoking, smokeless, and any other form) in their life. Clearly, consumption of tobacco is not just about one's health at the individual level, but a societal problem we face nationally.

Tobacco taxes and, therefore, the prices have to be increased regularly, so as to significantly reduce the affordability over a period of time. This was the practice in the pre-GST era with additional options of the states adding VAT. Tobacco taxes and prices have not been increased enough over time to reduce the affordability of these products resulting in more numbers of consumers getting addicted. A long, four-year gap of no tax increase has tobacco companies share prices

soaring on the one hand, and on the other, we see rampant consumption leading to more deaths and spread of dreaded diseases. The tobacco industry may have its reason to look the other way, but the government has no such option.

The annual economic cost from all tobacco products is estimated to be Rs 177,341 crores in 2017-18 amounting to more than one per cent of India's GDP. This will continue to grow in the post-Covid era and the next GATS report will surely point out the alarming rise of casualties. In a country like India, an estimated 1.3 million deaths are accounted for by tobacco abuse. As per WHO data, the most common way tobacco kills is through cardiovascular diseases (CVDs) - nearly 4,49,844 deaths such deaths occurred in India as of 2018. The high prevalence of non-communicable diseases due to tobacco use is posing a huge challenge to the country's response to Covid-19 management, amplifying India's health burden in such difficult times.

It is time that the Finance Ministry launches a multi-pronged attack for the social cause of tobacco control by increasing taxes on tobacco products both in the annual budget and also in the GST council to wipe out the gap of the last four years. Doing this social good will not raise any eyebrows and citizens will welcome it for reasons of public health.

I am sure that the listening posts in the Ministry will convey the right message to the Minister and also work out the modalities of tax rationalization which mandates that a sin product sale needs to be limited and citizens be protected. We are especially talking about children and teens who are major contributors to our economy.

A resilient healthcare system as an outcome will emerge that complements our 'Atma Nirbhar Bharat' mission, which not only focuses on revival of the economy but also on overall improvement of the health of our citizens. To mark the National Youth Day which has the theme, 'Saksham Yuva, Sashakt Yuva', by making tobacco products unaffordable we may save the young generation from this deadly product and make them healthy and aatmanirbhar.

Rich nations dump near expiry Covid jabs on poor countries

IAN S ■ LONDON

Third world nations were offered about 100 million Covid-19 vaccines that were near expiry, which countries were forced to dump, according to UN's children's fund Unicef. According to Unicef's head of supply Elevea Kadilli, more than 100 million vaccines were, in December alone, rejected by countries as they were unable to distribute them, BBC reported. The problem was compounded by many countries' insufficient storage facilities, Kadilli was quoted as saying to members of European Parliament on Thursday. Many of world's poorest countries, most of them in Africa, have been relying on UN-backed Covax scheme for their vaccines.

The programme faced challenges in accessing doses early last year, but situation significantly improved towards end of 2021 with wealthier countries releasing doses they were hold-

ing. According to provisional tracking by UNICEF, about 910 million doses were delivered through UN-backed initiative as of December 30. Nearly half of doses delivered in December came from three US-backed vaccine manufacturers: Johnson & Johnson, Moderna and Pfizer. However, many of doses offered have been close to their expiry date, and have been rejected by recipient nations, BBC report said. Some countries such as Nigeria struggled with administering vaccines forcing them to destroy expired jabs.

Only about 10 per cent of population on continent has been fully vaccinated. "More than 9.4 billion vaccine doses have now been administered globally. But 90 countries did not reach target of vaccinating 40 per cent of their populations by end of last year, and 36 of those countries have not yet vaccinated 10 per cent of their populations," Tedros Adhanom Ghebreyesus, chief of World Health Organization.

UK PM faces fresh 'partygate' allegations at Downing Street

PTI ■ LONDON

British Prime Minister Boris Johnson on Friday faced mounting leadership pressure amid further allegations of parties

held at his Downing Street office-residence by staff, categorised as a "partygate" scandal due to the apparent serial breaches of lockdown rules in place at the time.

'The Daily Telegraph' reported on two farewell parties made up of about 30 people drinking alcohol and dancing to music until the early-hours of April 17 last year, the night before the funeral of Prince

Philip – the Duke of Edinburgh's funeral. Downing Street said the timing was "deeply regrettable" and that it had apologised to Buckingham Palace.

"It is deeply regrettable that this took place at a time of national mourning and Number 10 has apologised to the Palace," the UK Prime Minister's spokesperson said. "You heard from the prime minister this week, he's recognised Number 10 should be held to the highest standards and take responsibility for things we did not get right," the spokesperson said.

It is understood that a call from the Prime Minister's office was made to the Palace on Friday. Restrictions at the time banned indoor mixing between different households and Queen Elizabeth II sat alone during the church ceremony for her late husband in keeping with social distancing rules. "This event should not

have happened at the time that it did. I am deeply sorry, and take full responsibility," said James Slack, the UK Prime Minister's former Director of Communications, at the centre of the farewell that led to the party last April.

Slack, now deputy editor-in-chief at "The Sun" newspaper, apologised "unreservedly for the anger and hurt caused".

While Prime Minister Johnson was not at either of the two gatherings in April 2021 as he was spending the weekend at his Buckinghamshire country estate Chequers, the latest revelations added to the saga around rules being broken at the heart of the UK government.

Ministers have insisted that top civil servant Sue Gray's ongoing internal investigation into such gatherings will determine the extent of wrongdoing and therefore judgment should be reserved until her probe concludes.

"If the details that are in this story turn out to be true, clearly people are going to form their judgment," UK Security Minister Damian Hinds said on Thursday, with reference to the fresh revelations which call Boris Johnson's leadership of his party and country into question.

"I am entirely behind the Prime Minister and the government, and I think the leadership that the Prime Minister has shown, particularly through the coronavirus, has been very strong," said Hinds. But battle lines are being drawn within the Conservative Party, with many of Johnson's own MPs demanding he step down as leader. "I want to apologise.

Rishi Sunak: British PM in waiting?

PTI ■ LONDON

As Boris Johnson's "partygate" troubles mount and members of his own Conservative Party demand he step down as the British Prime Minister, one name is doing the rounds as a frontrunner to take charge – his Indian-origin Chancellor and Downing Street neighbour Rishi Sunak. The UK-born son of a pharmacist mother and a National Health Service (NHS) general practitioner (GP) father is an Oxford University and Stanford graduate. He is married to Akshata Murty, the daughter of Infosys co-founder Narayana Murthy, and the couple has two young daughters, Krishna and Anoushka. The MP for Richmond in Yorkshire first entered the UK Parliament in 2015 and has quickly risen up the Tory party ranks as a staunch Brexiteer, who had backed Johnson's strategy to leave the European Union (EU).

From working in my mum's tiny chemist shop to my experience building large businesses, I have seen how we should support free enterprise and innovation to ensure Britain has a stronger future," Sunak had said during the Brexit referendum. He co-founded a 1-billion-pound global investment firm and specialised in investing in small British businesses before his entry into politics. As the first Chancellor of the Exchequer of Indian heritage, Sunak made history in February 2020 when he was appointed to the most important UK Cabinet post.

If the Tory party murmurings and bookie betting odds are anything to go by, then the 41-year-old may well be in line to make history as Britain's first Indian-origin Prime Minister. "No, definitely not. Seeing what the Prime Minister has to deal with, this is a job hard enough for me to do," Sunak said back in

October 2020, when asked if he had prime ministerial ambitions. But a lot has happened since, with Sunak leading the charge for the country's economic fightback against the COVID-19 pandemic.

Many of the schemes he put in place as finance minister, including the furlough-based Coronavirus Job Retention Scheme and COVID support grants for struggling businesses over the course of several lockdowns have proved largely popular.

However, proposed tax hikes coming up from this April and consistently rising energy and cost of living costs have proved less popular within the Conservative Party base. The famously low-tax favouring Tories may find his high tax plan to recoup some of the lost economic ground during the pandemic hard

to digest when things really come to a leadership scrum.

In fact, there is already talk within the party ranks of him having overplayed his hand by not speaking out more firmly in support of

57-year-old Johnson, following his Parliament apology earlier this week over a Downing Street garden party in apparent breach of lockdown rules. Sunak, who was miles away on a business visit, tweeted much later in evening to say that "the PM was right to apologise and I support his request for patience while Sue Gray carries out her enquiry".

This was seen as a half-hearted show of support and viewed as reflective of his own leadership ambitions. The wealth associated with Sunak and his wife Akshata has also often hit spotlight for wrong reasons, with the Chancellor's 95-pound pair of slippers spotted in official photographs released pre-Budget last October the latest luxury item to hit the headlines. This followed being pictured with a 180-pound so-called "smart mug", which was reportedly a gift from his wife.

CHINA EXPANDING SURVEILLANCE SYSTEMS

IAN S ■ NEW DELHI

China devoted resources to expanding mass surveillance systems nationwide, in the absence of meaningful legal protections against unlawful or abusive government surveillance, the Human Rights Watch (HRW) said in its World Report 2022.

Chinese companies with reported links to government continue to draw global scrutiny for their data collection practices, the HRW report said.

March 2021 marked fifth anniversary of landmark Anti-Domestic Violence Law, yet victims continued to face an uphill battle in seeking authorities' protection and accountability for their abusers. In February, an article by former journalist Ma Jinyu on violent abuses she suffered by her husband ignited a heated discussion on social media about government's persistent failure to prosecute domestic violence.

The Belt and Road Initiative (BRI), announced in 2013, is the government's trillion-dollar infrastructure and investment program stretching across some 70 countries. Some BRI projects have been criticized for lack of transparency, disregard of community concerns, and negative environmental impacts, the HRW said.

The HRW published a report last August that documented economic, social, and cultural rights violations in Cambodia resulting from Lower Sesan 2 dam's displacement of nearly 5,000 people between 2013 and 2018 and impacts on livelihoods of tens of thousands of others upstream and downstream.

The dam was a BRI project funded mainly by a Chinese-state owned bank and built by a Chinese-state owned electricity generation company. China Labour Watch, an NGO, reported, in April, that overseas Chinese workers working on BRI infrastructure projects in Algeria, Indonesia, Pakistan, and other countries were victims of human trafficking and forced labour, including being deceived into working illegally, held against their will, and

forced to work while infected with Covid-19 in early and mid-2020. China is by far largest emitter of greenhouse gases globally, making a major contribution to climate crisis that is taking a mounting toll on human rights around globe.

China's imports of agricultural commodities drive more deforestation globally than those of any other market, including imports of all 27 member states of European Union (EU) combined.

Canada, the EU, the UK, and US imposed coordinated and bilateral targeted sanctions on Chinese government officials and companies responsible for serious human rights violations, including international crimes, in Xinjiang.

The US also imposed sanctions on several senior Hong Kong officials for imposing the National Security Law. In August, the US gave Hong Kong people in US a temporary 18-month "safe haven."

In September, UN High Commissioner for Human Rights Michelle Bachelet expressed "regret" that authorities had not given her meaningful access to Xinjiang, and said that her office would issue an assessment of human rights in that region

in Belgium, Canada, the Czech Republic, Lithuania, the Netherlands, and UK passed resolutions accusing Chinese government of committing genocide against Uyghurs; some also called on their governments to limit participation in 2022 Beijing Winter Olympics.

The UK Parliament passed a non-binding motion supporting a diplomatic boycott of Games. Members of European Parliament halted EU's proposed Comprehensive Agreement on Investment with China, citing human rights concerns, and freezing consideration of deal for as long as they are subject to Beijing's counter sanctions. In September, they also adopted a recommendation for a new, more assertive, and better coordinated EU strategy on China, placing human rights at its core.

Meta faces \$3 b lawsuit in UK over exploiting users' data

IAN S ■ LONDON

Meta (formerly Facebook) is facing a \$3.1 billion class-action lawsuit in the UK over allegedly abusing its market dominance and if the lawsuit succeeds nearly 44 million British Facebook users could receive a \$68 payout each.

Competition law expert Dr Liza Lovdahl Gormsen has brought the class-action lawsuit against Facebook's parent firm Meta at the UK's Competition Appeal Tribunal, Daily Mail reported on Thursday.

The lawsuit claims that Facebook should pay its 44 million UK users compensation for the exploitation of their data between 2015 and 2019.

"It is claimed this allowed the firm to generate billions in revenues from their data, while users received no monetary returns, which the claim labels an 'unfair deal', said the report.

The lawsuit alleged that Facebook made billions by "imposing unfair terms and conditions that demanded consumers surrender valuable personal data to access the network".

"In the 17 years since it was created, Facebook became the sole social network in the UK where you could be sure to connect with friends and family in one place," Gormsen said in a statement.

"Yet, there was a dark side to Facebook; it abused its market dominance to impose unfair terms and conditions on ordinary Britons giving it the power to exploit their personal data.

I'm launching this case to secure billions of pounds of damages for the 44 million Britons who had their data exploited by Facebook," she elaborated. Dr Gormsen is a Senior Research Fellow at the British Institute of International and Comparative Law (BIICL) and the director of the Competition Law Forum.

Capitol Hill attack: House panel raps Meta, YouTube, Twitter

IAN S ■ WASHINGTON

Disappointed after months of engagement, a US House panel has slammed YouTube parent company Alphabet, Meta (formerly Facebook), online discussion forum Reddit and Twitter for failing to provide additional information on how those platforms were used to organize violent events at the US Capitol on January 6 last year. Chairman Bennie G. Thompson (D-MS) announced that the Select Committee has issued subpoenas to four social media companies as part of its investigation into the January 6 attack on the US Capitol and its causes.

After inadequate responses to prior requests for information, the Select Committee is demanding records from Alphabet, Meta, Reddit, and Twitter relating to the spread of misinformation, efforts to overturn the 2020 election, domestic violent extremism, and foreign influence in the 2020 election.

"Two key questions for the Select Committee are how the spread of misinformation and violent extremism contributed to the violent attack on our democracy, and what steps "if any" social media companies took to prevent their platforms from being breeding grounds for radicalising people to violence," said Chairman Thompson.

It's disappointing that after months of engagement, "we still do not have documents and information necessary to answer those basic questions". Alphabet's YouTube was a platform for significant communications by its users that were relevant to planning and execution of January 6 attack on US Capitol, including livestreams of attack as it was taking place, according to panel.

N Korea fired two suspected ballistic missiles: Seoul

IAN S ■ SEOUL

North Korea fired two suspected ballistic missiles eastward on Friday, after Pyongyang publicly warned earlier in the day of a "stronger and certain" response to the new US sanctions, South Korea's military said.

The Joint Chiefs of Staff (JCS) said the short-range projectiles were launched from Uiju in North Pyongan Province, a northwestern region bordering China, and that they flew around 430 km at an altitude of 36 km, reports Yonhap News Agency.

It detected one of the missiles at 2.41 p.m and the other at 2.52 p.m. The missiles flew at top speed of around Mach 6, six times the speed of sound, according to officials.

The intelligence authorities of South Korea and the US are conducting a detailed analysis for more information, the JCS said.

The North's latest firing marks its third show of force this year. The North fired what it claimed to be hypersonic missiles on January 5 and Tuesday.

South Korea's military is monitoring related North Korean movements and maintaining a firm readiness posture, the JCS said.

Earlier in the day, Pyongyang issued the warning after Washington slapped the sanctions on six North Koreans involved in the regime's weapons of mass destruction and ballistic missile programs on Wednesday.

Meanwhile, the US Indo-Pacific Command said that it is aware of the missile launches, but assessed they do "not pose an immediate threat to American personnel or territory or to our allies".

SOUTH AFRICA WRAP UP SERIES WITH SEVEN-WICKET WIN

PTI ■ CAPE TOWN

A South African team going through one of its toughest transition phases embarrassed a star-studded Indian team with a clinical seven-wicket victory in the third Test to clinch a memorable 2-1 series triumph here on Friday.

The target of 212 wasn't a tough ask and starting the day at 101 for two, young pretender Keegan Petersen (82, 113 balls) along with Rassie van Der Dussen (41 not out) added 54 runs for the third wicket to seal the match before Temba Bavuma (32 not out) helped in putting the final touches.

Petersen walked away with both the player of the match as well as player of the series honours.

Sunil Gavaskar termed it as a "Nightmare for India" as they were not even close to competing in the last two Tests and Dean Elgar's ear to ear grin and the bear hugs that he shared with his teammates said it all.

It was especially sweet for the hosts who lost premier pacer Anrich Nortje to injury before the series and were then hit by Quinton de Kock's sudden mid-series retirement.

The Indian team, meanwhile, lost it in their mind after the contentious DRS review of Elgar that went wrong on Thursday and their focus on using stump microphone more to take digs at broadcaster Supersport instead of focussing on getting Petersen out spelt their doom.

"It's a great spectacle of Tests for everyone to watch; hard-fought series. Great first game but SA did amazingly well. In both Tests they won, they were clinical with the ball in crunch moments," India skipper Virat Kohli admitted after the game.

With this series defeat, India's record of never having won a Test series in the Rainbow Nation for three decades, remained intact.

Mahendra Singh Dhoni is the only India captain to have managed a drawn series back in 2010.

It was one of the strongest Indian teams on paper against one of the weakest South African teams on paper.

However, the operative word here was "on paper" as Elgar's unheralded bunch showed a lot of character in punching above their weight and also getting heavily rewarded for their relentless efforts.

"The way our bowling unit delivered throughout the series is brilliant.

I threw down the challenge after the first game and the guys responded brilliantly," said an elated Elgar.

The mindless chatter and incessant sledging didn't bother the likes of Petersen and Van der Dussen as they went about their job in a thoroughly professional manner.

India's batters were far too dependant on bowlers to bail them out for the past few years but this series showed that this attack is human too even though they put their best foot forward, which was-

n't complemented at all by the willow wielders.

The only hope for India was the first spell from Jasprit Bumrah and Mohammed Shami in sultry conditions with the semi-new ball and they did their bit with all sincerity.

Petersen was beaten time and again but, in between, scored his

runs to keep the scoreboard ticking.

Their strategy was to see off the first spell and capitalise when Umesh Yadav, who is known to bowl boundary balls, was brought into the attack.

Bumrah, in his second spell, did get one to straighten but Cheteshwar Pujara, enduring a poor series with

the bat, dropped a crucial regulation slip catch with the batter on 59.

If one remembers, it was Ross Taylor, who had got a 'life' when Pujara dropped a sitter during World Test Championship final and the bowler at the receiving was again, Bumrah.

It was Shardul Thakur who

finally had the young man played on but by then Petersen had ensured a series win for his team.

It needs to be put as it is. India did not lose the Test because of one DRS that went wrong but for the consistent poor batting throughout the series save the first innings of the first Test.

The scores of 202, 223 and 198 is the reason India lost and the second innings effort at both Wanderers and Newlands showed that Indian bowlers could only do as much.

The heavy duty tirade against the host broadcasters Supersport with their customised diatribe did not look good in the face of a dismal performance.

The skipper himself led the attack and it seemed like a forceful way of trying to put the blame squarely on technology that "may or may not have gone wrong".

The die-hard Kohli fans believe that the Indian skipper needs a narrative to spur him on and his favourite script is "he and his team against the entire world" as his deputy for the series KL Rahul would have fans believe on the stump-mic.

It's far from truth but it works well for him to push the envelope.

Van der Dussen was subjected to intense sledging on the fourth morning and so was Petersen but they remained unfazed.

Once Bavuma started hitting those boundaries, the strokes did the answering.

But Kohli losing his counsel and blowing his top was also a projection of a man who is under immense pressure and a Test defeat against a much lower-ranked side which had been grappling with all kinds of socio-political issues over the past few years, isn't going to go down well with the BCCI.

It's really immature, you can't be a role model in this manner: Gambhir

PTI ■ NEW DELHI

Virat Kohli's outburst against a controversial DRS decision during the third Test against South Africa was "immature" and with such "exaggerated" reaction, the India skipper will never be a role model for youngsters, feels former opener Gautam Gambhir.

Kohli, his deputy KL Rahul and off-spinner Ravichandran Ashwin made some unsavoury comments about umpiring and technology in stump mic after rival skipper Dean Elgar got a massive reprieve due to a contentious DRS decision in the last hour on day 3 on Thursday.

"This is really bad. What Kohli did, going near the stump mic and reacting in that manner, that is really immature. This is not what you expect from an international captain, from an Indian captain," Gambhir told Star Sports.

Australian great Shane Warne felt the ball was hitting the stumps.

"That's going on to smash half way up middle though, there is no way that's going over, even Erasmus

shook his head," Warne was quoted as saying by Fox Sports.

Gambhir pointed out that Mayank Agarwal too had got a reprieve during the first Test in Centurion but it didn't invite similar response from the South African skipper.

"Then technology isn't in your hand. Then you have reacted in the same manner when there was a

caught-behind appeal on the leg-side, neither did Dean Elgar react in that manner. During that Mayank Agarwal appeal, it looked out from the naked eye, but Elgar did not react in that manner," he said.

Former England captain Michael Vaughan was critical of the Indian skipper.

"I think that is disgraceful from

the Indians personally," Vaughan said on Fox Sports.

"Decisions go with you, they go against you, that didn't go the way they think it should have gone. Virat Kohli is a legend of the game, but that's not the way to act, that is not the way to act in a game of Test match cricket.

"The ICC have to stamp this down, they have to stamp down on the Indian side, you can't get away with talking down the stump microphone like Ravi Ashwin has done and the Indian captain has done," said Vaughan.

In the 21st over, Elgar was adjudged LBW by on-field umpire Marais Erasmus when he was hit on the pads by an Ashwin delivery. However, the decision was overturned on review.

Livid with the decision, a fuming Kohli went up to the stumps and said: "Focus on your team as well when they shine the ball eh, not just the opposition. Trying to catch people all the time."

Rahul and Ashwin also expressed similar reactions.

Head's century lifts Australia from 12-3 to 241-6 vs England

AP ■ HOBART

Travis Head spoiled a promising start for England in the Ashes on Friday with his second century of the series as Australia recovered from 12-3 to reach 241-6 at stumps on a rain-hit first day of the fifth Test.

Head, who scored 152 in the opening test at Brisbane, counter-punched England's early success with an aggressive 101 off 113 balls in the day-night test as Australia came back strongly after losing the toss.

Cameron Green contributed an authoritative 74 and Marnus Labuschagne scored a rapid 44 before rain arrived around half an hour after tea and prevented further play.

Head entered with Australia in serious trouble after a brilliant spell of swing and seam bowling from Ollie Robinson (2-24), one of the five changes England made, and the Stuart Broad (2-48) on a lively green wicket.

Head, who missed the Sydney Test due to the coronavirus, first put

the innings back on track with a 71-run stand with Labuschagne, but not before Zak Crawley had dropped Labuschagne at second slip before the batter had scored.

That drop proved costly for England which has already lost the Ashes after losing the first three test matches at Brisbane, Adelaide and Melbourne before the draw in Sydney. "Nice to be back and contributing," Head told Channel 7.

"I was really conscious of making the right decisions -- attacking

the right balls, defending the right ones, being hard to get out.

I felt like I came into this test ready to go."

Labuschagne counterpunched the pace of Chris Woakes (1-50) and Mark Wood (1-79) by clobbering nine boundaries before getting dismissed in a bizarre fashion just before the first session. Labuschagne was clean bowled in an unusual style when he appeared to slip in the crease and Broad had the middle stump knocked back with the batsman falling over on his knees while going way across his stumps. But Head and Green continued to prosper against Wood and Woakes in a dominant middle session which yielded 130 runs. Head played some exquisite drives on both sides of the wicket, particularly in front of square as he hammered 12 boundaries before raising his century by cutting Woakes to backward point for two runs. However, Head fell a ball later after reaching his hundred when he lobbed a gentle catch to mid-on. Green didn't have trouble with the pace before he finally fell to a trap

Can class of 2022 go all the way at U-19 World Cup?

PTI ■ GEORGETOWN (GUYANA)

Record four-time champions India will be aiming to maintain their envious record and unearth a plethora of talent along the way when they begin their U-19 World Cup campaign against South Africa here on Saturday.

Expectations will be high from the likes of Harnoor Singh, Rajvardhan Hangargekar, skipper Yash Dhillon and Ravi Kumar, who have already shown glimpses of their potential in tournaments leading into the World Cup.

India flew into the Caribbean straight after their Asia Cup triumph and tuned up for the ICC event with wins over hosts West Indies and Australia in the warm-up games.

India have been the most successful team in the tournament's history and getting into the final of the last three editions is a testimony to their remarkable consistency.

No player from the 2020 batch, which finished runners-up to first-time champions Bangladesh, has gone on to play for India and only time will tell if someone from the class of 2022 reaches the highest level.

The current batch doesn't possess prodigies like Prithvi Shaw and Shubman Gill (2018 pass outs) but some of the players have already attracted attention.

Jalandhar-born left-hand opener Harnoor is expected to score a bagful of runs in the tournament, much like what Yashasvi Jaiswal did in the previous edition.

The 18-year-old was India's leading run-getter in the Asia Cup with 251 runs in five games and struck an unbeaten 100 against Australia in the team's final warm-up game on January 11.

Right-arm pacer Hangargekar, who has played senior cricket for Maharashtra, is another player to watch out for.

He impressed with his raw pace in the Asia Cup, picking up eight wickets, and is also a handy batter down the order.

Left-arm pacer Ravi Kumar will also be expected to provide timely breakthroughs and he will be high on confidence following a four-wicket haul against the Australians.

Skipper Dhillon, who is a highly rated batter in Delhi cricket circles, did not do anything noticeable in the Asia Cup but his back-to-back

fifties in the warm-up games show he is in good touch. All-rounder Raj Bawa, who bowls right-arm medium pace and bats left-handed, will also play a crucial role for the team.

Head coach Hrishikesh Kankar spoke about India's rich legacy in the competition ahead of the South Africa game.

"There is a huge legacy since India has done so well in this tournament.

It doesn't help that we have won four times. There is a new team, so you have to start afresh," said Kankar adding that the players are also getting used to bi-bubble life in COVID times.

India are placed in Group B alongside South Africa, Ireland and Uganda. Top two teams qualify for the knockouts.

The game against South Africa is likely to be the toughest one for India.

The 2014 edition winners South Africa's chances of success on home soil were ended at the quarter-final stage two years ago.

All-rounder Dewald Brevis has generated maximum attention in the junior Proteas camp.

He played in the CSA Provincial T20 Knockout competition in October and his batting style drew comparisons with AB de Villiers, while his leg-spin caused West Indies plenty of problems in a recent warm-up series against the hosts.

Left-arm spinner Asakhe Tsaka and captain George van Heerden will also hope to make a name for themselves in the coming weeks as South Africa look for a second title.

Ireland beats West Indies in rain-hit 2nd ODI

AP ■ KINGSTON

Ireland beat the West Indies by five wickets in a rain-interrupted second one-day international at Sabina Park.

Ireland was chasing 230 to win and was well ahead of the run rate at 157-4 in the 32nd over when rain stopped play for 90 minutes.

When the match resumed, the Duckworth-Lewis method reduced Ireland's ask to 168 from 36 overs, or 11 more runs from 28 balls. The Irish knocked them off in seven balls, winning on a pair of no balls at 168-5.

Victory tied the series 1-1, with the deciding ODI on Sunday on the same ground.

This ODI was rescheduled from Tuesday, when Ireland was too depleted to field a side because of five coronavirus cases and two injured players. Four weren't available on Thursday, including captain Andy Balbirnie.

The West Indies successfully defended 269 last Saturday but not so much 229, which

was boosted by 30 extras.

William Porterfield and stand-in skipper Paul Stirling gave Ireland a flying start of 37 in the first five overs.

Harry Tector anchored the show with 54 not out off 75 balls, his second straight half-century and fourth in his last five ODIs.

Tector featured in stands of 44 with Andy McBrine, who added 35, and 53 with Curtis Campher.

McBrine also starred with the ball when West Indies was made to bat first.

The West Indies was cautious from the start and medium-pace Craig Young took

advantage with the first three wickets, all cheap. He took out openers Shai Hope, Justin Greaves and No. 3 Nicholas Pooran to have 3-12 off four overs.

McBrine's off-spin was introduced in the 18th over with West Indies 53-3, and he claimed Roston Chase then Kieron Pollard for 1.

Sharmarh Brooks, who made 93 in the first ODI, held the innings together again until he was out lbw for 43 off 64 balls, attempting to sweep left-arm spinner George Dockrell.

The West Indies didn't look like reaching 200 at 143-7 in the 40th, but Odean Smith immediately hit two sixes over McBrine's head, hit two more against Campher, and swatted Mark Adair over the long off fence. Smith made 46 off 19 balls in a partnership of 58 with Romario Shepherd to get West Indies over 200.

Shepherd then hit four boundaries and was the last man out with two overs left while trying to pull McBrine, who took 4-36.

Isolation hitch threatens NZ-Aus white-ball series

AP ■ WELLINGTON

New Zealand's white-ball cricket tour to Australia later this month is in doubt because of extended border restrictions which require the team to have isolation places booked for their return.

The Black Caps are due to leave for Australia on Jan. 24, to play one-day matches on Jan. 30, Feb. 2 and Feb. 5 and a Twenty20 international at Canberra on Feb. 8.

New Zealand Cricket didn't book places in managed isolation for the team in February because they anticipated the implementation in mid-January of a policy which would allow New Zealand citizens and residents returning from Australia to do so without going through managed isolation.

The change has now been delayed until late February because of the emergence of

the omicron variant which New Zealand so far has contained at the border.

New Zealand Cricket on Friday said it expects the Australian tour to go ahead but is discussing options with Cricket Australia. That might include rescheduling or delaying the team's return from Australia.

A spokesperson told media the team will not travel to Australia unless a plan is in place for its return.

Sindhu, Sen enter semifinals of India Open

PTI ■ NEW DELHI

Two-time Olympic medalist P V Sindhu and world champion bronze medalist Lakshya Sen registered contrasting wins to advance to the women's and men's singles semifinals, respectively, at the Yonex-Sunrise India Open badminton tournament here on Friday. Top seed Sindhu, a former world champion, got the better of compatriot Ashmita Chaliha 21-7 21-18 in 36 minutes, while Sen rallied his way to a hard-fought 14-21 21-9 21-14 victory over H S Prannoy in another all-Indian quarterfinal.

The 26-year-old from Hyderabad set up a women's singles last-four clash with Thailand's sixth seed Supanida Katethong, who entered the semifinals after the third seeded Yeo Jia Min of Singapore pulled out of the tournament due to "high fever".

Sen, seeded third, will square off against Malaysia's Ng Tze Yong in the semifinals.

In the other women's semifinal, Aakarshi Kashyap will face second seeded Thai Busanan Ongbamrunphan after the Indian notched up a 21-12 21-15 win over compatriot Malvika Bansod on Friday.

Busanan trounced USA's Lauren Lam 21-12 21-8 in another last-eight clash.

Second seeded men's doubles pair of Satwiksairaj Rankireddy and Chirag Shetty also entered the semifinals with a 21-18 21-18 win ver

The 26-year-old from Hyderabad set up a women's singles last-four clash with Thailand's sixth seed Supanida Katethong, who entered the semifinals after the third seeded Yeo Jia Min of Singapore pulled out of the tournament due to "high fever." Sen, seeded third, will square off against Malaysia's Ng Tze Yong in the semifinals.

Singapore's Hee Yong Kai TerryAnd Loh Kean Hean.

Haritha Manazhiyil Harinarayan and Ashna Roy also made it to the last four in women's doubles after beat-

ing Rudrani Jaiswal and Jamaludeen Anees Kowsar 21-16 21-16 in the quarterfinals.

The last time Sindhu was up against Chaliha, at the 83rd Yonex-

Sunrise Senior National Championship in 2019, the youngster from Assam had produced a spirited performance.

On Friday, Chaliha took time to

get into the groove and put up a good fight in the second game but couldn't stop Sindhu from walking away with the match.

Sindhu came out all guns blazing

in the opening game, jumping to a 11-5 lead at the interval and then reeled off the last 10 points to earn the bragging rights.

Chaliha gave a better account of herself in the second game as she tied 9-9 before Sindhu managed a slender one-point advantage at the break. Sindhu zoomed to 15-11 but Chaliha again clawed her way back to 15-15.

Thereafter, Sindhu switched gears and grabbed four match points. Chaliha saved two match points before Sindhu closed out the tie.

In men's singles, it was the first international meeting but third overall between Sen and Prannoy as the duo engaged in a battle of supremacy. On a comeback trail, Prannoy, who had reached the quarterfinals at the last world championships, dominated the proceedings initially to secure a 6-2 lead. He got his acts together in time to turn the tables at 12-10 and then zoomed from 15-14 to pocket the opening game.

"The pace was high in the first game as both of us tried to up the pace but I made errors at 13-13 and it cost me the game," Sen said.

Sen, however, roared back into the contest in the second game as he ran up a huge 12-5 lead and didn't look back from that point, as Prannoy crumbled. In the decider, Prannoy took the early initiative, opening up a 6-1 advantage but couldn't sustain it as Sen moved to 11-9 at the interval and then pocketed nine of the next 11 points to seal the match in his favour.

India withdraws from Asian Under-22 boxing championship

PTI ■ NEW DELHI

The Boxing Federation of India has decided to pull out of the Asian Under-22 Championships for men and women in Tashkent, Uzbekistan due to the global surge in COVID-19 cases but is willing to participate if the tournament is rescheduled to a time when the pandemic subsides.

A reliable source in the federation has confirmed to PTI that a letter has been sent to the Asian Boxing Confederation as well as the tournament's organising committee confirming India's withdrawal.

The event was scheduled to be held from January 20 to 30. The Asian event was originally slated to be held from December 7 to 17 last year but was postponed because of the pandemic.

Indian boxing has been hit by a COVID crisis of its own. The men's senior

national camp in Patiala has reported 26 cases, including 20 boxers.

Boxers born in 1999, 2000, 2001 and 2002 are eligible to compete in the event that is being held for the first time in the continent.

The competition was to be held in 12 women's and 13 men's weight categories.

The Indian men's squad featured the likes of Asian youth bronze-medallist Mohammed Etash Khan (63.5kg) and reigning national champion Rohit Mor (60kg) among others.

The women's squad featured the likes of world youth champion Arundhati Chaudhary (71kg) and international medallist Jaismine (63kg). Chaudhary had recently made the headlines by taking the Boxing Federation of India to court for not holding trials in her weight category for the world championships in Turkey.

HI announces core probable group for women's hockey team

PTI ■ NEW DELHI

Hockey India on Friday announced a new-look core probable group for the senior women's team which will play in many major international tournaments this year. The group was selected following selection trials held in Sports Authority of India, Bengaluru for a group of 60 who were called-in on the basis of their performances in various nation-

al level events. "It is time for us to start afresh and plan for the future. We have grown over the past year with our experiences in Tokyo and we must continue to develop, and grow in the coming years, ahead of Paris 2024," India women's team chief coach Janneke Schopman said in a release issued by Hockey India. While an 18-member Indian team, led by Savita, will be travelling to Muscat for the upcoming

women's hockey Asia Cup, the remaining players from the core group will stay on at the camp and continue to train for the FIH Hockey Pro League matches to be held in Bhubaneswar, Odisha next month. "The upcoming camp is important for us to recognise the players who are ready to showcase their skills on the biggest stages, and also to work on the areas where we need to improve upon," Schopman said. List of players: Savita, Rajani Etimarpur, Bichu Devi Kharibam, Deep Grace Ekka, Gurjit Kaur, Nikki Pradhan, Uditia, Ishika Chaudhary, Suman Devi Thoudam, Akshata Abaso Dhekale, Mahima Chaudhary, Rashmita Minz, Nisha, Salima Tete, Sushila Chanu Pukhrabam, Jyoti, Navjot Kaur, Monika, Namita Toppo.

First target is to make quarters, which is realistic one: Dennerby

PTI ■ MUMBAI

Indian women's football team head coach Thomas Dennerby said his side is well prepared and its first realistic target is to reach the quarterfinals of the upcoming AFC Asian Women's Cup.

Hosts India will open their campaign against Iran on January 20. "I said from the beginning when we started, we said that yes, to come to the quarter-final is our first target, first aim," Dennerby said during a virtual media interaction in the run-up to the continental tournament on Friday.

"And if we come all the way to the quarterfinal, everything can happen because when we are

in quarterfinal and it's a knockout stage, everybody, all teams will play under pressure. But definitely (reaching) quarterfinals is our target and we also think it's a realistic target."

The Indian team has been drawn against Iran (January 20), Chinese Taipei (January 23) and China (January 26) in Group A of the competition that consists of 12 teams. Talking about the opposition, Dennerby said: "It is (like) three different teams with three different playing styles. I guess the first game against Iran will be a tough one for us because what we have seen so far (they are) defending very well. They are organized and they will play low, defending."

Visa revoked again, Djokovic faces deportation

AP ■ MELBOURNE

Novak Djokovic faces deportation again after the Australian government revoked his visa for a second time, the latest twist in the ongoing saga over whether the No 1-ranked tennis player will be allowed to compete in the Australian Open despite being unvaccinated for COVID-19.

Immigration Minister Alex Hawke said Friday he used his ministerial discretion to cancel the 34-year-old Serb's visa on public interest grounds — just three days before play begins at the Australian Open, where Djokovic has won a record nine of his 20 Grand Slam titles.

Djokovic's lawyers were expected to appeal at the Federal Circuit and Family Court, which they already successfully did last week on procedural

grounds after his visa was first canceled when he landed at a Melbourne airport.

A hearing was scheduled for Friday night. Deportation from Australia can lead to a three-year ban on returning to the country, although that may be waived, depending on the circumstances.

Hawke said he cancelled the visa on "health and good order grounds, on the basis that it was in the public interest to do so."

His statement added that Prime Minister Scott Morrison's government "is firmly committed to protecting Australia's borders, particularly in relation to the COVID-19 pandemic."

Morrison himself welcomed Djokovic's pending deportation. The whole episode has touched a nerve in Australia, and particularly in Victoria state, where locals went through hundreds of days of lockdowns during the worst of the pandemic and there is a vaccination rate among adults of more than 90%.

Australia is currently facing a massive surge in virus cases driven by the highly transmissible omicron variant. On Friday, the nation reported 130,000 new cases, including nearly 35,000 in Victoria state.

Although many infected people aren't getting as sick as they did in previous outbreaks, the surge is still putting severe strain on the health system, with more than 4,400 people hospitalized. It's also causing disruptions to workplaces and supply chains.

"This pandemic has been incredibly difficult for every Australian but we have stuck together and saved lives and livelihoods. ... Australians have made many sacrifices during

this pandemic, and they rightly expect the result of those sacrifices to be protected," Morrison said in a statement.

"This is what the Minister is doing in taking this action today."

Everyone at the Australian Open — including players, their support teams and spectators — is required to be vaccinated for the illness caused by the coronavirus. Djokovic is not inoculated and had sought a medical exemption on the grounds that he had COVID-19 in December.

That exemption was approved by the Victoria state government and Tennis Australia, apparently allowing him to obtain a visa to travel. But the Australian Border Force rejected the exemption and canceled his visa when he landed in Melbourne on January 5.

Djokovic spent four nights in an immigration detention hotel before a judge on Monday overturned that decision. That ruling allowed Djokovic to move freely around Australia and he has been practicing at Melbourne Park daily to prepare to play in a tournament he has won each of the past three years.

He had a practice session originally scheduled for mid-afternoon Friday at Rod Laver Arena, the tournament's main stadium, but pushed that to the morning and was finished several hours before Hawke's decision was announced in the early evening.

An Australian Open spokeswoman said tournament organizers did not have any immediate comment on the latest development in Djokovic's situation, which has overshadowed all other story lines heading into the year's first Grand Slam event.

Imran Khan to visit China for Beijing Winter Olympics

PTI ■ ISLAMABAD

Prime Minister Imran Khan will be travelling to Beijing next month to attend the opening ceremony of Winter Olympics, bolster the all-weather bilateral ties and seek more investments in various projects under the ambitious CPEC, the Foreign Office said here on Thursday.

The Beijing Winter Olympics will be held from February 4 to 20, followed by the Paralympics Winter Games from March 4-13, amid a diplomatic boycott by several Western countries, including the US and the UK over con-

cerns of China's alleged human rights abuses.

"The premier will be

embarking on a three-day visit to Beijing from February 3 on the invitation of the Chinese

leadership," Foreign Office Spokesperson Asim Iftikhar said during his weekly news briefing.

Khan will also have an interaction with the Chinese leadership to further strengthen Pakistan-China all-weather strategic cooperative partnership and to exchange views on regional and international issues, Iftikhar said.

Khan's visit is considered significant because several western and European countries have announced a diplomatic boycott of the event.

Tensions have risen between China and several Western countries over a num-

ber of issues.

The US has accused China of genocide in its repression of the predominantly Muslim Uyghur minority in the western region of Xinjiang - an allegation China has rejected.

While projects pertaining to the China-Pakistan Economic Corridor (CPEC) will be key to the talks between the two sides, Iftikhar opined that Khan's visit would help promote international cooperation required to overcome the challenges faced due to the ongoing pandemic and open up avenues of collaboration with other developing countries.

Mauritius' Pandoo appointed as first HPD for weightlifting

NEW DELHI: The Sports Ministry has approved the appointment of Mauritian Avenash Pandoo as the first (HPD) for weightlifting until the 2024 Paris Oly.

His appointment was recommended by the (SAI) Foreign Coach Selection Committee in conjunction with officials of the Indian Weightlifting Federation (IWF).
