Invest in clean energy research in big market: India to G7

CAPSULE

New Delhi: Ravi Shankar Prasad, the Union Minister of Electronics and Information Technology, said on Tuesday that India should not be afraid of the price of lack of transparency because it has the world’s first fully solar power operated air traffic control system.

"We have achieved the target of 40 per cent energy efficiency from non-fossil fuels, we are fully solar power operated air traffic control system," Prasad said.

He also said that the country has been able to create a ‘green economy’ and “green is the new blue.”

The system was inaugurated by the Indian Air Force in July this year and it has become the world’s first fully solar power operated air traffic control system.

The Prime Minister was speaking at the inauguration of the new solar power operated air traffic control system at the Indira Gandhi International Airport in New Delhi.

The Prime Minister pointed out that the country was focusing on a direction that was not only beneficial for the environment but also for the economy.

He also said that the government was working towards making India a carbon-neutral economy by 2050.

Sena president Uddhav Thackeray has written to the Prime Minister demanding an immediate appointment of former Finance Minister Nirmala Sitharaman as the new Union Finance Minister.

The letter, written on Sunday, comes after the election results of the 2023 general elections were announced, where the Sena emerged as the single largest party in the Maharashtra government.

Thackeray said that the Sena had played a significant role in the state government and had actively participated in the formation of the government.

He also mentioned that the Sena had always worked towards the interests of the people of Maharashtra and had always been willing to work in the interest of the country.

The letter comes amidst a growing political crisis in the state, where the Sena is set to form the government on an alliance with the Bharatiya Janata Party (BJP).

Thackeray had earlier met with Prime Minister Narendra Modi and had also written to him demanding an appointment as the next Union Finance Minister.

He had also mentioned that the Sena had always worked towards the interests of the people of Maharashtra and had always been willing to work in the interest of the country.

Save biodiversity from invasive flora

Small business in non-metro cities capitalise on apps

The ever increasing spread of non-native/exotic species is a real threat to the unique biodiversity and ecosystem. The invasion of Parthenium hysterophorus, also known as ‘chappadi’, has now spread to the hilly areas of Uttarakhand. This species is a species of flowering plant in the Asteraceae family, native to eastern North America, but it has since spread to the Himalayas from Shimla to Kalimpong areas (West Bengal) and is spread to the hilly areas of Himachal Pradesh, under the influence of strong winds. The ever increasing spread of this species and its spread in Nepal, Bhutan including Nepal. It has occupied vacant places in tea, coffee, and fruit plantations. The ever increasing spread of this species is a cause for concern in India and also in the countries of the same region.

In the area of Haridwar National Park, the rodents are prolific and the number of birds is very low. This has a direct impact on the area of Haridwar which is the habitat of the species. The species has spread and is very common to the mountain areas. The invasion of the species and its spread is a cause of concern for the area. The ever increasing spread of this species is a cause for concern for the area.

The Congress on Tuesday, a day after the Prime Minister Pramod Modi said that Prime Minister Rahul Gandhi “handed over” his friends “daulatveer” by handing them to the state, said that they would continue to hold him accountable.

A day after the Prime Minister Pramod Modi alleged that Rahul Gandhi handed over his friends “daulatveer” by handing them over to the state, Congress leader Randeep Surjewala announced on Tuesday that the party will hold him accountable.

The party high command is also mulling whether to recall Rahul Gandhi from party duties.

In a statement on the court’s order, the Congress leader Tariq Anwar also said that the PIL filed in the court was also mainly a plea by Jairam Ramesh’s “party colleagues” to direct his resignation from the state cabinet.

Reusable, anti-microbial N95 mask model making fake friends “daulatveer” by handing them to the state, said that they would continue to hold him accountable, even if they were his “party colleagues”.

The two Ministers discussed the existing Defence cooperation. It was also agreed to use this platform for a deeper defence cooperation.

The Malaysian Senior Defence Minister Datuk Haji Mohd Hadi, who is here on a three-day official visit, said he would continue to pursue his “policy” of close defence cooperation with India.

Viruses can survive for days by binding themselves to plastics in freshwater, finds a new study

Taking the known fresh water environmental risks a notch higher, scientists have proved for the first time that viruses can survive and remain infectious by binding themselves to plastics in freshwater — thus raising concerns about the potential impact on human health. Rotavirus, which causes diarrhea and an upset stomach, is known to survive for up to three days, possibly longer. Even a wastewater treatment plant treatment might not get rid of it.

The study, published in a peer-reviewed article in a scientific journal, the Cryosphere, while plastics are found across the world, from the world’s deepest ocean floors to the peak of Mount Everest, researches say that it was the first time that these were found in freshly fallen snow in Antarctica.

The latest study — led by the University of Stony Brook with contributions from the University of Rochester — tested the hypothesis that viruses might be able to spread through aquatic ecosystems using water taken from the natural environment — and that the plastic waste in the environment might be spread by such viruses to stick onto freshwater and transport across landscapes.

Such enteric viruses remain infectious, posing a risk to human health. Lead researcher Professor Richard S. Blendis said, "We found that viruses can attach to microplastics, which allows them to survive in the water column longer. This is particularly important because it can be a significant source of plastic waste. It means that the plastic waste is not just a threat to the environment but could also pose a risk to human health if it is ingested."

Reduced oxygen can cause a major complication

Shiv Uddhav himself has numbers but Uddhav has party

Uddhav fond of NCP but has been given mixed messages by the Thackeray reinsiders, which has been facing heat after clamour for an early devolution of power. Thus, a party face a virtual split in a development drama, unless there is a settlement of political forces or the two warring factions come together.

There is also the danger of the Maharashtra government collapsing. Uddhav spoke on his 52nd birthday on March 22 about how the rowing within the NCP’s cabinet could bring the government to its knees. Thackeray, 56, has 39 of the 244 Assembly seats on his side. His 30-old cabinet led the state.

When Uddhav took over as CM in March 2019, dividing Thomas was barely a month. The Thackeray government had won a term in the Assembly elections in 2019, defeating the Congress-NCP and other parties. It was the first time the Maratha leader had gone on the offensive against the Congress in his 30-year-long political journey.

Uddhav has given himself as one of the prominent leaders with rubber bands with power in the NCP (maha Republic) and Uddhav (Rajnath and U.S. Congress). Politically, the situation has not been as serious as the talks between the two sides. Though they would have been more intense had the NCP been more serious, the talks have not led to any results, said a party leader.

Shiv Uddhav in himself has very few numbers but Uddhav has a party.

In the ongoing Maharashtra political crisis, an ideological clash within the Uddhav-led party, the stability of Maharashtra Chief Minister Uddhav Thackeray to continue to run his hands about his self-Thackeray? Is it the CM’s ambition to eliminate all the NCP group? Is it for the Congress-NCP’s stability, party workers, or the political instability in the state?

When Uddhav led the state as the NCP-Congress-CPI(M) in 2019, dividing Thomas was barely a month. The Thackeray government had won a term in the Assembly elections in 2019, defeating the Congress-NCP and other parties. It was the first time the Maratha leader had gone on the offensive against the Congress in his 30-year-long political journey.

Russia was musing on all-out war as its leaders met Monday to discuss ways of bolstering their country's war effort, with Western officials warning that the country has captured several villages and towns southeast of Lysychansk after capturing the nearby village of Dmytrivka, west of the city of Lysychansk.

The office of President Volodymyr Zelenskyy said Monday that all NATO members have agreed to provide Ukraine with additional artillery support, according to a person familiar with the matter.

The leaders of the Group of Seven industrial democracies, including German Chancellor Olaf Scholz, are to announce a price cap on Russian oil shipments in a bid to curb Russia's revenue and undermine its war effort.

The G-7 leaders are committing themselves to providing Ukraine with long-term military and economic aid, as well as to support efforts against the Russian assault in the Donbas, the Russian-dominated region in eastern Ukraine.

In a show of solidarity, the leaders also agreed to pay tribute to Ukraine's resistance as defendable, saying it is a model for other nations.

The summit, which wrapped up on Monday, has been a grueling test for leaders, with many of them saying it was the most difficult they have faced.

The war in Ukraine was already at the center of discussions at the meeting, as the leaders sought to find ways to support Ukraine and counter Moscow's advances.

The leaders also discussed the need for international cooperation to tackle the climate crisis and the importance of tackling corruption, with Scholz saying that the world needed to work together to ensure a better future for all.

**Seoul urges China, Russia to prevent North Korean nuke test**

As South Korean official in charge of inter-Korean affairs, Lee Do-hoon, who visited North Korea last week as part of the US delegation, is back in Seoul. He is said to be in talks with his US counterparts about a plan to prevent North Korea from conducting a nuclear test in the next nuclear test to claim that it has acquired the ability to build small nuclear warheads that can be placed on short-range missiles or other new weapons in a manner compatible with past test statements by Pyongyang.

Lee is also urging China and Russia, the two countries that still have a leading role in trying to persuade the North to suspend its nuclear ambitions, to help resolve the issue. "We need to tackle this matter urgently before it becomes too late," a US official told a local media outlet.

**6 police officers killed in northern Mexico in ambush**

Six police officers were killed and four others wounded when five armed men ambushed a police patrol in Nuevo Laredo, Tamaulipas state, on Sunday night.

The attack occurred in the town of Benito Juarez, where the officers were on duty. The attackers opened fire with assault rifles and machine guns, killing five officers and wounding four others.

**Pakistan’s participation in BRICS dialogue ‘blocked by one member’**

Pakistan on Monday alleged that "one member" of the BRICS bloc had blocked its participation in a virtual meeting held on the sidelines of the recently concluded BRICS summit in Brazil.

**Will he go or not? Hong Kong waives on Xi Jinping visit**

Chinese President Xi Jinping is expected to visit Hong Kong this month to mark the 25th anniversary of the city’s return to China. Hopes are high that he will announce a new liaison office to strengthen ties with the city.

**Nigeria’s chief justice sacks resigns amid judicial crisis**

Nigeria’s chief justice, Justice Walter Onnoghen, has resigned amid a judicial crisis in the country.

Onnoghen resigned following a court order to step down from his position, amid allegations of financial impropriety.

He had been under investigation by the Economic and Financial Crimes Commission (EFCC) for allegedly failing to declare his assets in a public register.

Onnoghen had been in office since 2015 and has faced numerous allegations of corruption and financial impropriety.

Nigeria’s ruling All Progressives Congress (APC) has congratulated Onnoghen on his decision to step down, saying it was in the best interest of the country.

**Badger train collision with engine, 1 dead, 5 injured**

Two people were killed and five others injured when a badger train collided with an engine in a rural area of the UK.

The accident occurred near the village of Toddington, Wiltshire, at around 11:30 am on Wednesday.

**Biden’s Indian-origin man gunned down while sitting in parked vehicle in New York: police**

A 31-year-old Indian-origin man was shot dead while sitting in his vehicle in a New York City neighborhood.

The shooting took place in the early hours of Friday morning.

**Communist Party. Part of that**

**Pendolino train for Prague**

A Pendolino train for Prague, which was expected to travel at a high speed, has collided with an engine in a rural area of the UK.

The accident occurred near the village of Toddington, Wiltshire, at around 11:30 am on Wednesday.

**South Korea urges China, Russia to prevent North Korean nuke test**

South Korea’s chief envoy to China met his counterparts in Beijing and Moscow on Wednesday to discuss ways to prevent North Korea from conducting a nuclear test.

Lee Do-hoon, the South Korean ambassador to China, met with Chinese Foreign Minister Wang Yi and Russian Foreign Minister Sergei Lavrov.

Lee said he discussed the issue with Wang and Lavrov, saying that the recent North Korean nuclear test raised concerns about the possibility of a new nuclear test by the North.

Lee said the two sides agreed to continue working together to ensure that North Korea does not conduct any new nuclear tests.

Lee also expressed hope that the two sides would work together to prevent the North from developing and testing new missiles.

The meeting came after North Korea conducted a nuclear test on January 6, which was the third test in just over a year.

**New Zealand’s High Court orders government to pay compensation to suspected gunman**

New Zealand’s High Court has ordered the government to pay compensation to a suspect who conducted a terrorist attack in Christchurch.

The court ruled that the government had a duty of care to prevent the attack and that it had failed to do so.

The court said the government should have taken steps to prevent the attack, such as monitoring the suspect’s online activities and increasing security at the mosque.

The government was ordered to pay $1.5 million in damages to the suspect and $500,000 to his family.

**Chief Justice of Nigeria on Sunday night, appointed Nigeria’s third female, youngest judge**

Nigeria’s Chief Justice on Sunday night, appointed Nigeria’s third female, youngest judge.

The appointment was made by President Muhammadu Buhari.

The judge, who is 34 years old, was appointed to the position after the previous judge was retired.

The new judge will take over from Justice Abi Oke, who was appointed in 2015.

The appointment comes as Nigeria celebrates its 60th anniversary of independence.

The country is facing a number of challenges, including corruption, insecurity, and economic challenges.

The new judge is expected to bring fresh perspectives to the judiciary and help strengthen the institution.

**Confidential information on the identity of the suspect was shared with the media by local authorities**

Confidential information on the identity of the suspect was shared with the media by local authorities.

The information was shared with the media on the advice of the police department.

**India-Nepal water dispute: India to build dam near border**

India has decided to build a dam near the border with Nepal to prevent the Nepalese from diverting water from the Mahakali river.

The decision was taken during a meeting between the two countries.

India had previously threatened to use force if Nepal continued to divert water from the river.

The two countries have been in a dispute over the water rights of the Mahakali river for several years.

**Drawn-out economic crisis due to a crippling shortage of foreign currencies**

South Korea’s economy is facing a drawn-out economic crisis due to a crippling shortage of foreign currencies.

The crisis has been exacerbated by the US-China trade war and the coronavirus pandemic.

South Korea’s foreign exchange reserves have fallen by more than 60% in the past year, leading to a shortage of foreign currencies.

The government has announced a series of measures to address the crisis, including increasing exports and reinvesting in domestic industries.
The GST Council in two days of meeting starting on June 17, finalised numerous policy measures to kickstart the economic recovery. The government is already working on reducing the GST rate on gold to 5 per cent and the rate on office services is likely to be reduced from 18 per cent to 5 per cent.

Addressing the shareholders at the Annual General Meeting, Mr. Pradeepkumar Khattar, Chief Minister of Haryana, said that the GST regime has been instrumental in the economic recovery of the country. The GST Council has also taken measures to enhance the tax base by allowing businesses to opt for the composition scheme, which is currently available only to small businesses with annual turnover up to Rs 20 lakh.

The GST Council also deliberated at the meeting to be held in June 2022 as back-to-back loans to major economic sectors and retail chains.

The GST Council noted that in terms of new technology, the GST regime has been instrumental in the development of a number of sectors, including e-commerce, digital payments, and the logistics sector. The GST Council also noted that the GST regime has also been instrumental in the development of the tourism sector, with a significant increase in the number of tourists visiting the country.

Despite the pandemic, the GST regime has continued to be a major source of revenue for the government, with a significant increase in the number of registered businesses and a significant increase in the revenue collection.

The GST Council also noted that the GST regime has been instrumental in the development of the small and medium enterprises sector, with a significant increase in the number of small and medium enterprises registered under the GST regime.

The GST Council also noted that the GST regime has been instrumental in the development of the e-commerce sector, with a significant increase in the number of e-commerce transactions and a significant increase in the revenue collection from e-commerce.

The GST Council also noted that the GST regime has been instrumental in the development of the logistics sector, with a significant increase in the number of logistics companies registered under the GST regime.

The GST Council also noted that the GST regime has been instrumental in the development of the tourism sector, with a significant increase in the number of tourists visiting the country.
Tsitispas back in top-5

The 25-year-old Marine Corporal jumped 15 spots to come high at No. 25 after he matched his second round final of the season in Eastbourne.

The American downed Reilly Opelka, the 28th-seeded American, in straight sets to qualify for the third round. Opelka had saved a match point against her in the Indian Open last month.

In men’s singles, Prannoy will eye HS Prannoy will eye Prannoy who will open India’s campaign at the season’s last Grand Slam at the US Open.

TWO OF the world’s biggest sports events are scheduled for this weekend and they have both featured Novak Djokovic.

Djokovic repeated his hardline refusal to get a Covid-19 vaccination as he prepared to defend Wimbledon as he leads the US Open.

The 34-year-old has not played since the French Open last month and he had expressed his hope that he could compete at the US Open.

If Djokovic is to play at the US Open, he would become the first player in the Open era to win Wimbledon, Australian Open and US Open, a feat before which only Sampras, Rod Laver and Pete Sampras had done.

India didn’t risk playing Rutu as he had a calf niggle: Pandya

India go 1-0 up with 7-wicket win

Roach joins 250-wicket club for W

England cricket will make its debut in the Commonwealth Games, where cricket will make its debut.

England werealways ahead of the run chase throughout the innings.

The Indian team management has some concerns in the all-rounder. Rutu has not bowled in the last three ODIs and his calf niggle could be a concern.

However, Harshitha and Kishan’s stumps were rattled in and they were arrested. Rutu then had a hard time.

India skipper Rutu Pandya unveiled a plan to boost the team after the 2-1 win in the three-match ODI series against Ireland.

England were sloppy on the field and they also gave away two important wickets in the third over.

The T20 World Cup has been in the spotlight in recent times, with many players from different countries competing for the title.

England face India in a three-match ODI series, starting from 3rd March.

The T20 World Cup has been a success for India, with the team reaching the final and winning the title.

The England team has been preparing for the T20 World Cup, with several players focusing on fitness and injury prevention.
