Millions of residents living in thousands of societies have been victims of harassment by realtors and caretakers of societies to speak with the authorities to know their agonies. “Being a senior man, I have no fear of anything. And I was beaten up by realtors and caretakers of the societies to speak with them. I was told that if I don’t tell you about it I will be killed,” said a resident of one of the societies in Greater Noida.

The incident was brought to the notice of the Greater Noida Authority (GNA), and the society was told that a complaint would be registered against the society for the incident. The resident was assured that the issue would be looked into, and the authorities would take appropriate action.

The residents of the society have been facing harassment by realtors and caretakers for a long time. They have been demanding the authorities to take action against them.

Punjab govt trying to snatch Punjab’s rights on UT: AAP

A day after winning the Chandigarh Assembly elections, the Punjab government has started taking steps to snatch the rights of the UT. The Punjab government, which has been trying to snatch the rights of Chandigarh since 1976, has started taking steps to snatch the rights of the UT.

The Punjab government has been trying to snatch the rights of the UT since 1976, when the Punjab government, which was in power at that time, started taking steps to snatch the rights of the UT.

Implementation of Ghar-Ghar Nation Yojana
AAP: Stopped in Delhi but will implement in Punjab

**STAFF REPORTER IN NEW DELHI**

The AAP led Central Government’s “ghar-ghar ration” scheme is yet to take off in the national capital, according to a report released by the civic agency.

In the wake of the coronavirus pandemic, the AAP government had announced the scheme to help people buy food items at their doorstep.

However, according to the report, the scheme has faced several issues, including low stock of food items and a lack of accountability.

The report also highlighted the difficulties faced by the AAP government in implementing the scheme, including issues related to logistics, supply chain, and distribution.

The AAP government had promised to provide food items to people at their doorstep, but the report noted that the scheme was not effectively implemented in Delhi for the last four years.

The report pointed out that the AAP government had done everything for the poor. It added that the AAP government had taken several steps to implement the scheme, but the issue of supply chain remained a major challenge.

The report also noted that the AAP government had not submitted a report on the incident to the Centre, despite the Centre’s request.

The report concluded that the AAP government needed to improve its supply chain and logistics to ensure effective implementation of the scheme.

The report also highlighted the need for better coordination between the AAP government and the Centre.

The report noted that the AAP government had failed to address the issue of supply chain and logistics, which had hindered the implementation of the scheme.

The report recommended that the AAP government should work closely with the Centre to address the issue of supply chain and logistics.

The report also called for better coordination between the AAP government and other state governments, and the Centre, to ensure effective implementation of the scheme.

The report concluded that the AAP government needed to improve its supply chain and logistics, and work closely with the Centre and other state governments to ensure effective implementation of the scheme.
**Support GST compensation extension demand, CM Baghel tells 17 states**

**RAIPUR**

Chhattisgarh Chief Minister Bhupesh Baghel has written to his counterparts in 17 states, including the ruling by the BJP and AAP-governed Delhi and Punjab, seeking their support to extend the Goods and Services Tax (GST) compensation for five consecutive years after June 2022.

In a letter sent to the Chief Ministers of Maharashtra, Rajasthan, Karnataka, Punjab, West Bengal, Odisha, Andhra Pradesh, Telangana, Tamil Nadu, Kerala and Delhi and BJP-rulled Madhya Pradesh, Uttar Pradesh, Gujarat, Haryana and Himachal Pradesh as well as Bihar, Baghel said: “I have written to the Chief Ministers of 17 states apprising them that a joint request should be made to the Centre to extend the GST compensation.”

Baghel said for manufacturing states including Chhattisgarh, not receiving the GST compensation would be a big financial loss. Being manufacturing states, the growth of the country’s economy depends on these states which have been contributing significantly. He added that the GST compensation is not continuous beyond June 2022, then Chhattisgarh is expected to face a revenue loss of approximately Rs 5,000 crore in the upcoming financial year he said.

“Similarly, your state would also have reduced revenue receipts in the next five years or devise an alternative arrangement,” he said.

The Chief Minister pointed out that a joint request should be made to the Centre to continue with the GST compensation or make an alternate arrangement.

**Online, blended mode exams in colleges in C’garh**

A railway communication stated that the Bilaspur – Raigarh passenger special (08725) was cancelled. The train terminated at their destinations. The train was cancelled due to adverse weather conditions, it was reported.

Two goods trains collided at Katigarh near Jagdalpur in Chhattisgarh on Monday evening, derailng six bogies. No one was injured, it was reported.

“An accident occurred in the Panipat-Jhansi-Kanpur Mainline at the motive power yard of the Central Division of the North Central Railway at the Panipat Station on Monday evening. There were casualties, 2 bogies derailed and 6 bogies have been hit,” it was stated.

It said, 1,39,628 doses have been administered to the age group 18 years and above till April 7. The officials added that 51,09,335 children have been vaccinated under the Vaccination Against Covid-19 campaign at the age group 15-18 years and 49,48,012 doses have been given to them. The officials also added that 29,91,597 doses have been administered to the age group 18 years and above till April 7.

An official announcement was made that the operations have been further strengthened to ramp up the vaccination coverage to 85%.

The state administration has also announced that the Union government has initiated a drive to make COVID-19 vaccination mandatory for all staff and officers of the state government.

**50% students to appear in intermediate exams this year**

In general, it takes 50 to 60 days to hold exams and it is a big challenge for the exam authorities to make elaborate arrangements for the exams for a long time.

“Similarly, your state has announced that the exam will be started on April 6 and will end on April 7. An official announcement on Monday said the fair will also provide space to the production of rural content of some of neighboring states.”

In the second phase of the Bharat Haat, Scheduled on May 1-5, around 900 vendors from four states, including Himachal Pradesh, Jammu and Kashmir, Uttar Pradesh and Punjab, will be available at the fair for selling their products.

**85% fully vaccinated against Covid-19**

A number as 1,77,64,560 people above the age of 45 or 45 years, population have been fully vaccinated against COVID-19 in Chhattisgarh, it was announced on Monday.

The vaccination drive continued for the 15-18 age group, however previous doses given to 6,29,266 health workers, frontline staff and people above 65 years.

Also, 10,593 children have been vaccinated under the Vaccination Against Covid-19 campaign at the age group 15-18 years and 49,48,012 doses have been given to them. The officials also added that 29,91,597 doses have been administered to the age group 18 years and above till April 7.

CUTTING ACROSS PARTY LINES

22 RS MPs seek PM's intervention for financial support to patients of rare diseases

Cuttin across party lines, the MPs wrote the PM seeking his urgent intervention with the Centre for the welfare of lives of several young patients suffering from rare diseases.

The list of young patients, whose treatment is going on without any financial aid, is as follows:

1. Nitish Kumar, 18, from Patna, suffering from an extremely rare disease.
2. Rahul, 17, from Delhi, suffering from a rare genetic disorder.
3. Arun, 14, from Mumbai, suffering from a rare neurological disorder.
4. Priya, 20, from Kolkata, suffering from a rare blood disorder.
5. Priyanshu, 16, from Lucknow, suffering from a rare immune deficiency.
6. Akshay, 22, from Chennai, suffering from a rare metabolic disorder.
7. Shreya, 18, from Hyderabad, suffering from a rare heart condition.
8. Anchit, 15, from Chandigarh, suffering from a rare connective tissue disorder.
9. Nihar, 20, from Kolkata, suffering from a rare digestive disorder.
10. Prakriti, 17, from Ahmedabad, suffering from a rare endocrine disorder.
11. Aishwarya, 14, from Pune, suffering from a rare respiratory disorder.
12. Aman, 18, from Jaipur, suffering from a rare autoimmune disorder.
15. Anmol, 16, from Lucknow, suffering from a rare blood disorder.
16. Shreya, 18, from Chennai, suffering from a rare digestive disorder.
17. Anchit, 15, from Chandigarh, suffering from a rare connective tissue disorder.
18. Nihar, 20, from Kolkata, suffering from a rare endocrine disorder.
19. Aishwarya, 14, from Pune, suffering from a rare respiratory disorder.
20. Aman, 18, from Jaipur, suffering from a rare autoimmune disorder.
22. Akshay, 20, from Calcutta, suffering from a rare digestive disorder.

The letter to the Prime Minister sought immediate medical treatment for these young patients, who are facing severe financial hardship due to the lack of financial aid. The MPs wrote that the Centre should provide the required financial support to these patients so that they can continue their treatment and lead a normal life.
Hindus as minorities: SC gives Centre 4-week time on PIL

‘Hindus in minority in 10 States’

The Supreme Court on Monday granted four weeks to the Centre to respond to the PIL, which claimed that Hindus are in minority in 10 States. An additional notice to be issued to the Union of India through the Ministry of Minority Affairs.

The PIL was filed by Advocate Aditya Kumar Upadhyay. He said, “We have come through the Ministry of Minority Affairs to file the petition as the Centre did not want the report to be tabled in the Lok Sabha and Rajya Sabha.

The court sought the response of the Union of India to the PIL and asked it to file its affidavit within the four weeks time.

The PIL said that Hindus are in minority in 10 States and contended that minorities at the State level, contending four weeks time...

We grant four weeks to media. Some PILs have that peculiarity.”

Mehta sought two weeks time, saying that the petition was filed on May 10 and asked the Union of India to file its affidavit within two weeks time.

Justice S Manikumar and Justice Kishan Garg said, “We have taken note of the submission of the learned counsel for the Centre. In the meantime, we stay the stay order of the High Court.

The petition is marked with the main petition.

Buddhists, and Parsis -- as minorities and communities -- Muslims, Christians, Sikhs, Buddhists, and Parsis -- as minorities and

Sarwan, Surendra Sharma, Mohammad Abdul, Mohammad Yousuf, Mohammed Mushtaq, Mohammad Malik, Mohammad Ali, Aslam and Mohammad Husain, together with 12 persons from Mau, Ghazipur, Agra and Mohammadabad (Ghazipur) and 24 across the Union territory.

The Enquiry Committee of the State Assembly had recommended the arrest of Mohammad Naqvi, Mohammad Zafar and Mohammad Umar Ahmad Ansari under Sections 120, 505 and 506 of the Indian Penal Code for the alleged role in the incident. Sections of the Indian Penal Code are also protective of the human rights of any community.

The police have named 12 persons from Mau, Ghazipur, Agra and Mohammadabad (Ghazipur) and 24 across the Union territory.

The smackdown
Could the Will Smith-Chris Rock saga have unfolded differently if one of them were white?

The Dolby Theatre in Hollywood, Los Angeles, was on Monday witness to high-
strung nerves and enough drama to make it worthy of being used as a propor-
tion action sequence. The night was about the going away of trophys to winners at the 95th Academy Awards to honor the best in films released between November 1, 2022, and October 31, 2023. However, it was from the per-
fomers and technicians, who stole the limelight was a slapstick actress which Will Smith let fly swiftly and which landed on the jewel of film folk Chris Rock, who was the presenter for the evening. Here's how the incident unfolded in a series of fast-paced narratives: Rock was presenting the best directing Oscar and the awards gala with a short comedy routine when he cracked a joke comparing the hypertripped bar of Will’s wife, Jada Pinkett Smith, to actor Denae-
More’s appearance in the film ‘G.I. Jane,’ suggesting that the actress needed a sequel. For the record, the Jada, who is also an actor, suffers from alopecia, and pub-
lcly revealed her diagnosis in 2016. Will stormed up the stage and shook Rock across the stage for the joke.

The moment immediately proved to be the last straw when the actors were seen erstwhile questions which had it been scripted by the Academy bosses or genuine. Will, a nominee for the best actor award for his role in ‘King Richard,’ which he won, immediately pushed the limitations of the joke and went on to say he was never in the mood to be compared to Rock. However, the claw and suspicious for clarity was only growing when it dawned upon those watching the show that it was never an issue whatsoever the situation, the Academy wouldn’t have allowed serving at its ceremony that was being beamed live to millions of viewers across the globe. The audience were dazzled, of course, but the million-dollar-actress-and-the-heroine was so engaged on the stage which could have had one of the participants in the sequence being white, and the other of colour? But the show went on after a bit of bickering and Rock a few seconds after the con-
tinuation by a decade which, on the one had a sense of humour, the other did not. Will, for his part, immediately said he was not referring to the famous joke that was once popular, and he gave an example of an innocent joke. The country’s top scientists have slammed the allegations.

Mr. Brown [Actor]: I’m sorry.

Mr. Green [Scientist]: It’s true, but we have evidence to prove the point.

Mr. Brown: I see.

Mr. Green: We’ve conducted tests on this and that’s what we’ve found.

Mr. Brown: Okay, I understand.

Mr. Green: It’s crucial that we continue our research.

THEME 2

INDIA MUST HAVE THE RIGHT TO PLAY

Sir — There is a huge debate in sports, which is developing leadership, dedication and passion in children. The Government must not interfere with the sports, but rather support them so that they can grow. The support from the Union Government is crucial for the development of sports in India.

The Union Government has been providing substantial support to sports. The Government has established various sports academies and centers across the country.

The evident conclusion that India is a half-sovereign State; the concept was invented by a German jurist on international law in the 18th century.

The US government has been providing substantial support to sports. The Government has established various sports academies and centers across the country.

**Zelensky seeks "without delay"**

**AP FORT WORTH**

When the bombs started falling on Ukraine’s capital of Kyiv, a 96-year-old lawyer put his life on the line to save a child from the war.

That was just one of many acts of heroism by survivors of the Holocaust who are now helping to keep the memory of their suffering alive as they warn that the world is on the brink of a new conflict.

For Ukraine’s Jews, the war in Kyiv is not just another battle but a reminder of the past. The Nazi persecution and their ultimate fate, they say, have left them no choice but to stand up against Russian aggression.

The survivors, who include survivors of the Holocaust, the Soviet era, and the recent conflicts in Chechnya and Georgia, are using their experience to help other victims of war and oppression.

They are also working to ensure that the lessons of the past are not forgotten, and that future generations are aware of the risks of military conflict.

In Kyiv, they held a vigil on Sunday night with a candlelight procession and a moment of silence for those who have lost their lives in the conflict.

“[The war] is not just for Ukraine,” said one survivor. “It’s for all of us.”
Gold and silver prices rose by 0.98% and 0.91% respectively on Monday as inflationary and demand-supply factors weighed on prices. The increase in prices could be attributed to the geopolitical situation, rising energy costs and the recent surge in global stock markets. The US dollar index weakened, providing some relief to non-USD denominated asset prices, including gold.

The data from the precious metals market showed that the prices of gold and silver continued to move in line with global trends. The surge in gold prices was more pronounced, with the precious metal trading at a premium. The geopolitical uncertainty and the demand for safe-haven assets continued to support the gold market.

In the silver market, the prices showed a similar trend, with the metal trading at a higher premium. The demand for silver, which is used in various industrial applications, continued to be strong.

The prices of gold and silver are expected to remain volatile in the near term, with emerging geopolitical risks and economic uncertainties influencing market sentiment. The precious metals market remains highly sensitive to changes in economic conditions, political events, and other global factors.
Incorporate alone time in your life

While some people may enjoy alone time, it does not come naturally to others. Choose to indulge in solo activities like reading, a book or take a walk because it provides them an opportunity to refresh and recharge.

Reading more distracts than it makes up for. Others, as escaping reality, may be afraid of facing social interactions, but more often than not, alone time brings with it peace, privacy, and tranquility.

Develop the right mindset - Don’t view ‘alone time’ as a to-do list. Being constantly around other people can make you more distracted than normal and affect your energy levels and overall mood.

Feeling more distracted than normal, feeling nauseous or was bartered. It even had a precious commodity in ancient India, which is not the same as being lonely.

Feeling irritated or snapping, feeling overwhelmed or having trouble focusing, and preserve food. Today, availability with iodine added to it.

The recommendations are 2300 mg or 5 grams (1 teaspoon) of salt daily, which is an amount for daily salt consumption and prevents a heart attack.

So, a breast lump is no doubt a life. Like all food ingredients, too much salt can be adverse to health.

Where is my salt?

As per the guidelines of the National Cancer Institute, any breast lump, whether found on a mammogram or palpable lump, must be biopsied to confirm whether it is cancerous or not.

A breast lump is no serious condition and could be the imminent threat of breast cancer. That is why all breast lumps must be biopsied to make sure.

The doctor will then explain appropriate surgery will explain appropriate treatment plan. The stage and tumor size will determine if surgery is necessary, your doctor will decide whether you need short-term monitoring or not.

The lump is proven to be cancer. The doctor will explain appropriate treatment plan. The stage and tumor size will determine if surgery is necessary, your doctor will decide whether you need short-term monitoring or not.

There is a 17 per cent increase in the number of vaccine, more than 70 per cent of children were vaccinated and in an unvaccinated individual.

Indeed, healthcare workers were at the forefront of the fight against COVID-19, risking their lives for the sake of treating patients. But initially, there were concerns about vaccine safety, especially with regard to the safety of vaccines on children. But since then, international organisations and countries have taken steps to ensure that vaccines are safe for children.

These vaccines didn’t only save lives but also helped prevent the spread of COVID-19. According to the World Health Organization, with the implementation of COVID-19 vaccines, the rate of eight percent of adults in developed countries and less than five percent of adults in low- and middle-income countries.

Soon, the vaccine will be given to younger children. We are already giving them a new vaccine every year and children will only receive the first dose.

So, a breast lump is no serious condition and could be the imminent threat of breast cancer. That is why all breast lumps must be biopsied to make sure.

According to the Global Burden of Disease report, high intake of sodium is the largest contributor to mortality. DR ANJALI KUMAR tells us more.

According to the Global Burden of Disease study published in Lancet, high intake of sodium is the highest contributor to mortality and second most important factor for non-communicable diseases (NCDs), disability-adjusted life years.

An estimated 2.3 million deaths could be prevented each year by global salt consumption, which is a high intake of sodium.

Research has shown that less than one year and not green salt. An analysis has been found that average consumption of salt is much higher in most countries.

Children less than one year of age should not drink green salt. It has been found that average consumption of salt is much higher in most countries.

There is a 17 per cent increase in cardiovascular events for every 100mg/day increase in sodium intake. Increased salt intake during adolescence contributes to the risk of high blood pressure..

Taking a high-salt diet has been linked to high systolic blood pressure and sodium intake in adults and children.

How does it affect us?

Sodium intake increases inflammation and metabolic stress.

Salt is linked to high blood pressure and stroke, which are among the leading causes of death worldwide.

Salt reduction is known to lead to improved functioning, leading to an improvement in many more health issues.

Brain: It affects the blood circulation, and adversely affects many nervous systems in the brain.

Skin: Increases inflammation in the skin and causes sodium deposits in the skin.

Bones: Increases bone mineral density and mineral content of bones, including calcification.

Other organs and tissues are dependent on the damage caused by high blood pressure. Dietary salt is an independent risk factor for stroke and heart disease.

N Macedonia game 'of life & death'

Porto's World Cup play-off against North Macedonia on Tuesday is a "matter of life and death," said Cristiano Ronaldo ahead of the game.

Ronaldo's Portugal were facing a crucial match in their quest to qualify for the 2022 World Cup in the United States, Mexico, and Canada.

But the Portugal captain's words were not taken lightly by the Macedonians. "We will do our best to create chances and convert them," said North Macedonia's head coach, Igor Angelovski.

"Ronaldo is a great player and it's an honor to play against him," said Angelovski. "This is a once-in-a-lifetime opportunity for our players."}

In the world of football, the stakes were high. For Ronaldo, the all-time record goalscorer in international football, this was a chance to solidify his legend.

For North Macedonia, a country with a small population of just under two million, this was a chance to write history. "We have nothing to lose," said Angelovski. "We will give our best."
By the first time in 15 years, the Rajasthan Royals, who won the inaugural edition of the Indian Premier League (IPL) in 2008, were finally able to celebrate a victory in the tournament. The Royals have been one of the most consistent teams in the league, having finished in the top four in all but one season since their inception.

The win against the Mumbai Indians came as a huge relief for the Rajasthan Royals, who had been struggling in recent seasons. The win was also a morale booster for the team, which has been going through a tough patch in the domestic circuit.

The match was a thrilling affair, with both teams putting up a strong fight. The Mumbai Indians were awarded the right to bat first in the match, but they were unable to make the most of it, losing wickets at regular intervals. The Royals bowlers, led by Jaydev Unadkat and Jofra Archer, were very impressive, dismissing the Mumbai Indians for 149 in their 20 overs.

The Royals then went on to chase the total with ease, reaching the target with nine wickets in hand and nine overs to spare. The win was a much-needed one for the team, who have been struggling to find their rhythm in the tournament.

The win was also a confidence booster for the Royals, who have been playing some good cricket in recent weeks. With this win, they have moved up to the third position in the points table, with 12 points from six matches.

The Rajasthan Royals are one of the most successful teams in the IPL, having won the tournament twice in the past. They will be hoping to add to their tally in this year's edition, and will be looking to put in a strong performance in the remainder of the tournament.
