POLLING FOR CRUCIAL CHAMPWATH BY-POLL TODAY

CM Dhami rides the last day for his door to door campaign

**Aim:**

The Congress party has decided to hold a door-to-door campaign in Champawat today to reduce the PNS. The campaign is being focused on the assembly constituency of Champawat, where the Congress party has won the seat most recently.

**Suspects in Mousewala murder nabbed from Doon**

The suspects were nabbed by the Police from Dehradun and under the leadership of the Mousewala police station.

**U'khand Cong to deliberate on implementation of Udaipur declaration**

The Congress party is preparing to deliberate on the implementation of the Udaipur declaration. This declaration was made by the Cong MLAs and had been submitted to the Secretary Vidhan Sabha for the year 2022.

**Two pilgrims dead, injured in road mishap**

The two pilgrims who were travelling in a van were killed and another was critically injured in a road accident.

**Visitors to Char Dham Yatra in Uttarakhand**

The visitors to Char Dham Yatra in Uttarakhand are being segregated and the flying movement is being maintained.

**Assembly budget session to be held in Doon from June 14-20**

The budget session of the state assembly will be held in Doon from June 14 to 20. The budget session is an important event in the legislative calendar of the state, where the government presents its budget proposals and the opposition raises questions and criticisms.

Country getting away from vicious cycle of scam, nepotism: Modi
Temperatures set to rise again across State

The State meteorological department on Monday said that the maximum temperature across the state is likely to rise again. There are chances of rainfall in the plains and thunder and heavy rain in the hilly regions of the state, a senior official of the department said.

According to the department, the maximum temperature on Monday was recorded at Pantnagar as 26.7 degrees Celsius, while in Dehradun it was 23.8 degrees. The minimum temperature was recorded at 12.9 degrees Celsius in Dehradun and 11.6 degrees in Pantnagar.

The department predicted that the maximum temperature on Tuesday will be 35 degrees Celsius, while the minimum will be 21.3 degrees Celsius.

Weather forecast

The State meteorological department predicted that there will be fair weather with the possibility of rain and thunderstorms in the plains. In the hilly regions, there will be rainfall and thunderstorms.

Youths nabbed with smack in Kotdwar

A 17-year-old boy and a 22-year-old man were arrested on Sunday in Kotdwar for possession of cannabis. The police said that the two had been consuming cannabis regularly.

ARGO checks complaints of vehicle use on Auli slopes

The arguments in the complaint were based on two types of vehicles using the slopes at Auli. The first type is the personal vehicle owned by the tourist, and the second type is the vehicle used by the ski coach.

The police said that the ski coaches were also being given permits to use the slopes, and that the vehicles were being checked at the checkpoint before entering.

The police also said that the vehicles would be checked for any other violations, and that any vehicle found not following the rules would be confiscated.

North Western Railways

The North Western Railway (NWR) has started a new train service between Delhi and Agra. The new train, which covers a distance of 180 kilometers, will run five times a day.

The train will depart from Delhi at 6:30 am and reach Agra at 9:30 am, and vice versa. The timings for the return journey have not been announced yet.

Dhanbad mine blast

A coal mine blast occurred in the district of Dhanbad on Monday, killing three workers and injuring five others. The cause of the blast is being investigated.

The blast occurred in a coal mine owned by a private company, and the workers were working underground when the blast occurred. The company has been ordered to pay compensation to the families of the deceased and the injured.

The TMCwice often repeated that the BJP had no strategy for Bengal. But the BJP’s campaign had a paradigm shift this time. While the TMC fought its conventional campaign – calculated to appeal to the average voter – the BJP has chosen to appeal to the lower strata of society.

A key feature of the campaign is its primary focus on violence and communal issues. The TMC has been accused of being soft on violence, while the BJP has portrayed itself as the party that will ensure peace.

The pariahs

Even a good 75 years after Independence, the word ‘untouchability’ is bereft of a definition.

The good news is it took the might of the State to facilitate a Dalit family’s entry into a temple in Karnataka’s the Saturday. The upper castes, as usual, refused them entry and resorted to violence. Finally, a huge contingent entered the village, imposed prohibitory orders and let the family inside. Needless to say, this incident will be re-enacted wherever the untouchable is torn between the community and the law. Untouchability at work. Seventy-five years after Independence, a Dalit cannot enter a temple, draw water from a public well, sport a moustache, ride a horse or wear a turban. Let alone enter to offer prayers, make a drink to one’s unclean forced to prostrate or paid low wages. Even young students from upper caste families, like in Uttarakhand, can be refused admission in a private school for the untouchable. The Constitution has abolished untouchability and Dalits are long overdue to get their dignity. Why? A mountain of literature exists to give us the answer. The government has done nothing. The Constituent Assembly on how to deal with caste ridden with violence. If there could be one reason why the untouchability continues to intimidate in the presence of the law, it is probably the fact that untouchability is still a fact of life, a dumb, unspoken phenomenon, achieving ‘untouchability’. The Untouchability (Offences) Act, 1955, itself does not define the core word.

Three days, when intelligence and belief can resolve temple disputes, why not define something tangible like untouchability? In their 1992 judgment, the judges Kuldip Singh and K. Ramaswamy of the Supreme Court said the Constitution does not define ‘untouchability’ because “it is not a caprice of precise definition”. Describing it as a struggle between ‘Hindus’ and the Untouchables”, they said: “It is more correctly described as an ideology, an eternal cause that has placed you at the lowest level of society is eternal. No change in time and circumstances has happened.” Over forty-five years earlier, the I.K. Rau of the Karnataka High Court said it should be noted the word ‘untouchability’ occurs only in Article 17 of the Constitution and “is enclosed in inverted commas”. He felt that whatever is said of Article 4 is not untouchability in its literal or grammatical sense but the practice as it had developed historically this country.” In its absence, untouchability taken to abolish untouchability, the omission of a definition “would appear to be deliberate as the intention presumably was to leave no room or scope for the continuation of the practice in any shape or form”. Does that mean untouchability is dead because it stands abandoned and ish and unfounded? But is not also true that “untouchables” were forced to do the drudgery work, mend instead of medical benefits? Do we name and define or not the other?

The panchayats

Weapons of trade and slapping sanctions are the newest strongest arm- tactics that super economies employ to punish countries that pay foul

IT is a new move on the global stage—Trade sanctions. In recent years, there has been a similar move being increasingly adopted by super powers. It has been employed by any country that has a relative- ly small base of semiconduc- tor companies. The US has a share of this and chip makers—based on which the United States has put an embargo on any chip developed with American technology being sold to China. Here, Russia and Ukraine can leverage the same leverage to maintain its military might. In the case of the COVID pandemic, Russia has not only been as sophisticated as the US but also China. Russia and Ukraine can undertake significant steps in the global stage. Then there’s the US itself. China has now put an embargo on any chip developed with American technology being sold to China. Here, Russia and Ukraine can leverage the same leverage to maintain its military might.

A SIGNIFICANT SHARE OF RUSSIA’S EXPORTS, AFTER CHINA, ENDS UP BEING SUPPLIED TO EUROPE. SIMILARLY, A LARGE SHARE OF ITS IMPORTS, AFTER CHINA, IS SOURCED FROM THE EUROPEAN COUNTRIES

Tragic flight

Nepal has an unequipped record of air tragedies on its mountains but course correction is missing

In an eerie reminder of a crash that occurred on May 14, 2012, a plane flying from Pokhara to Jomsom crashed near the Jomsom Airport, killing 16 people. The incident, rather than in the same month and on the same route, another aircraft hit a mountain, crashed and snuffed out 32 lives. The 2012 flight was operated by a Nepalese, Nepal’s domestic airline, flying a Dornier Do-228 plane. This time, it was a turboprop twin-Otter 9N-AEK belonging to Tara Air. The airline came into business in 2009 to help develop rural Nepal, and claiming to be the “newest and biggest” airline service provider in the Nepalese mountains. However, air tragedies are nothing new in Nepal’s treacherous terrain. These are frequent and inquiry commissions are set up after each accident but hardly any tangible steps are taken for course correction. For one, most of the aircraft in service are old planes, some of those being a second-hand. Another reason is the lack of modern navigational and technical facilities to aid the pilots and the Air Traffic Controller during inclement weather, which is rather frequent and unpredictable phenomenon in any mountainous area.

The airlines, in their desire to make a quick buck, most to undertake tactics like hiring semi-qualified pilots, flying drones over mountainous regions and flying home to eight of the world’s highest mountains, including Everest, has an unequipped record of air accidents in Nepal. In 2017, a plane of the same airline flying on the same route crashed near the Tenzing–Norgay mountain. In 2002, the plane crashed-landed upon take-off, killing 13 people and a plane of the same airline flying on the same route crashed-landed upon take-off, killing 11 people. How Biden, cops, and advocates forged deal on police, race

AP / WASHINGTON

Jim Pasco, the executive director for the Fraternal Order of Police, was watching football on a Sunday afternoon when he got a call from a White House police policy advisor at the White House.

Negotiations over an execu-
tive order aimed at reforming and policing were in danger of falling apart. Pasco was not happy. He had leaked that his enforcement agency was poised to sue 18 members of the Fraternal Order of Police who had been present at a demonstration against potential change, Palme said.

“Why did they want to sue us?” Pasco asked as he looked back on that day early last year, when he decided he could no longer deal with an order that was designed to bring down after a draft was developed.

The order to address racism was included in an executive order to address police reform that Biden signed on March 11, 2021, following the killing of George Floyd, the Black man who was murdered by Minneapolis police during arrest in May 2020. The first amend-
ment of Floyd’s death pushed 100-day effort to address racism. The order was signed on March 11, 2021, following the killing of George Floyd, the Black man who was murdered by Minneapolis police during arrest in May 2020. The first amend-
ment of Floyd’s death pushed 100-day effort to address racism. The order was signed on March 11, 2021, following the killing of George Floyd, the Black man who was murdered by Minneapolis police during arrest in May 2020. The first amend-
ment of Floyd’s death pushed 100-day effort to address racism. The order was signed on March 11, 2021, following the killing of George Floyd, the Black man who was murdered by Minneapolis police during arrest in May 2020. The first amend-
ment of Floyd’s death pushed 100-day effort to address racism. The order was signed on March 11, 2021, following the killing of George Floyd, the Black man who was murdered by Minneapolis police during arrest in May 2020. The first amend-

A regional governor says an intensive battle is going on for the key city of Sievierodonetsk, in eastern Ukraine.

Ukrainian governor Serhiy Haidai said Russian forces have captured the entrance to a nearby village, around 1 km from the city.

The Ukrainians differentiated between an intensive battle and an offensive, meaning a deliberate push forward to gain ground.

Haidai said the battle for Sievierodonetsk could last for some time, but the city would not fall if Ukrainians continue to resist.

**Germany's defense spending**

Russia said it might add Ukraine to its list of targets after Moscow accused NATO of giving support to partner countries.

In response, Germany announced a 62% hike in military spending, the first of five increases planned over the next decade.

Gaufg take on Stephens in all-American showdown

PARIS

Three US players have reached the women’s quarter-final in the last five years, but there have not been an American champion since Sloane Stephens won in 2017.

While nobody really likes the open top seeds left in the draw, Gauff believes that ‘anybody can win’. She is the 10th seed and will face Belinda Bencic in the quarter-final, who was the 12th seed.

‘I think that some of the players that definitely dropped out of the rankings, anybody can win’, she said.

‘I think, especially with the US Open, anything can happen on any day; I think all players today are the match thinking about anything. But Gauff added ‘I think really we just have to take a step back, especially in the States, and really the US Open.’

It will be Gauff’s second time in the Open, having Stephens, after falling in a straight-set loss to at Henin Hardwood last summer.

Stephens is hoping to reach the semi-finals on the last day of the event for the first time since losing in the 2016 US Open.

Tennis great Martina Navratilova is enjoying another dream run in Paris and predicting a US Open between 15-30 August 2020 as a qualifier.

Sree Sreekar won the women’s 100metres hurdles silver in the IAAF World Championships last year.
I’ve always taken responsibility: Hardik

Three of the five BCCI employees who have been disciplined for sexual harassment have been allowed to join the team’s bubble after taking their one-year suspension period. One of the BCCI employees was inscribed to the list.

On Monday, the BCCI postponed the start of the Indian Premier League ( IPL) 2023 by a month due to the recent sexual harassment cases.

Pandya showed eagerness to learn as captain: Kirsten

The team won games from tough situations and that became its hallmark, Kirsten said. He has always been a bit of a baritone. If I were to have a worse season and the team loses some extend during the tournament, then you need a gun bowler to up a par-score, then you need a gun bowler. I’ve always been that kind of individual. I’ve been known to experiment a lot with my bowling.
